

Physician 5711

Chapter 5711

Dark blue beads, rising from the bottom of the river, dribbling and spinning, fall into Ye Chen's hands.

"With this bead, a hundred day appointment, I have another card!"

Ye Chen is very surprised. It's just a clear water kanling pearl. Naturally, it can't be said how powerful it is. But this pearl is engraved with a white Emperor's golden emperor's pattern, which is as sharp as the supreme Heavenly Sword. Once it breaks out, it will pose a great threat to the Confucians.

"Although it will cost me a lot of energy to release the White Emperor's golden emperor pattern, it is also a good thing to have more cards."

"Master xuanhanyu, thank you very much."

Ye Chen contented, put away the bead, by the way to xuanhanyu thanks.

This time, I can accept the green water candling pearl. Naturally, thanks for xuanhanyu's advice.

Xuanhanyu said: "don't thank you. Go to the city and have a look. There is a strong sense of destruction in the city. Maybe it has surpassed jiuchongtian."

"Beyond the nine heavens?"

Ye Chen's heart is constricted, and the Shinto of destruction is ten fold, surpassing the nine fold heaven. Isn't it that ye Chen has broken through the peak and reached the ten fold peak, which is comparable to the nine fold heaven magic?

If you can absorb this degree of destruction energy, ye Chen's destruction seal may be able to break through!

Think of here, ye Chen blood boiling, step fly, come to the gate, directly push the door in.

Before that, in the misty and rainy dreamland, ye Chen's destruction seal had already broken through to the seventh heaven. If he could break through now, it would be better.

After pushing the gate open, ye Chen saw a magnificent picture, which was much more gorgeous than the outside. There were gold, silver, jewelry, natural materials, various medicinal materials, precious ores, and special crystals everywhere.

These crystal nuclei, bearing the totem of the ancient dragon, seem to be the crystallization of Qi and blood in the body of the dragon people after they were killed.

Dragon Crystal alone, there are millions of them, which are paved on both sides of the road and decorated with great style.

"What a big hand! Who is the owner of this ancient tomb? "

Ye Chen still remembers that when he first entered the dragon's burial ground, he saw a large desert, which was covered with dragon shaped skeletons.

The bones of the killed dragons are buried in the desert, and the crystals of Qi and blood are spread here.

"So many treasures, it's just time to feed the wild devil sky sword!"

Ye Chen's hands rolled up, and a aura storm swept out. He moved all the surrounding natural materials and treasures, all kinds of medicinal materials and minerals, and a large number of dragon crystals to the huangquan map, and used them to feed the wild devil Tianjian.

According to Ye Chen's current cultivation, ordinary natural resources and local treasures have no effect on him. No matter how much they are, they are dust.

But these materials are very suitable for the wild devil sky sword.

It's time to feed it. The resources in the ancient tomb of Mielong cemetery are enough to make it grow further!

In the twinkling of an eye, Ye Chen will be in front of the resources, all empty.

In the past, when he went to the secret place to experience, there were always people who would snatch the treasure from him. This time, no one was fighting for so many resources. He was very happy.

"My chance is still ahead!"

Ye Chen goes on to the end of the city, only to see a palace with carved dragons and painted phoenixes standing quietly.

The incomparable majestic and magnificent destruction energy radiates from the palace, which makes the surrounding space twist and collapse, showing the picture of infinite universe and starry sky, which is very magnificent.

Ye Chen looks at the closed palace gate, heart thumping, don't know what is hidden inside.

For the sake of safety, Ye Chen released the dust stele, wind stele, burning stele and other reincarnation steles. Many steles surrounded his body, forming a layer of absolute protection.

All ready, Ye Chen carefully, carrying the Sha sword, pushed open the palace gate, strode in.

WOW!

As soon as the gate of the palace was pushed open, a dark golden light poured into Ye Chen's eyes.

This light, with a terrible wave of destruction, is suffocating.

Fortunately, ye Chen had been prepared for a long time, and many stone tablets protected him against the impact of the destruction storm. When he looked at it, he saw a very spectacular picture.

In front of us is an old stone platform.

The stone platform is very huge. Among the palaces, it is the only one that seems to be made of Taishang crystal, shining.

A skeleton with a keel is lying on the stone platform.

The skeleton of this keel is in the color of dark gold, with layers of road seal of destruction lingering, and the smell of violent destruction. Even after years of vicissitudes, it is still shocking.

"Is this keel the owner of the tomb?"

Ye Chen a burst of surprise, this palace, should be the main tomb.

And this keel is probably the owner of the ancient tomb. It is buried here. There are many funerary objects on the stone platform, all kinds of Daojing ores, cultivation jade slips and so on. Many of these jade slips are thirty-three Tianhong Mongolian methods, including Tianlong Bayin, Tianxian Koi, Zhuque Zhitian, juehan DIYing, Tiangang Juefu and so on.

If ordinary people come here, they will certainly change their lives against the weather. So many ancient Hongmeng methods can cause great waves if they are taken to the outside world.

Of course, these ancient methods are of little value to Ye Chen.

"It's amazing that he took the hongmengfa as his burial object. What's the sacred nature of the owner of this tomb?"

Ye Chen is surprised and guesses the identity of the owner of the tomb. So many Hongmeng ancient methods can't be taken out by ordinary people.

However, compared with the hongmengfa, what shocked Ye Chen more was the spirit of destruction contained in the keel.

The aura of destruction was so strong that it formed a storm and filled every corner of the palace.

If ye Chen had not been strong, he would have been torn up by the storm of destruction.

"This is the leader of the Dragon exterminator, the corpse of the dragon field! I didn't expect him to fall here! "

At this time, Xuan Hanyu made an exclamatory voice, as if he could see the identity of the owner of the tomb.

Ye Chen said: "destroy the Dragon Protoss, dragon battle field?"

Xuanhanyu said: "yes, I've heard an old legend. There was a great turmoil in the supreme world. That turmoil lasted for several centuries. The years of catastrophe were so long that people were desperate."

"In that disaster, the supreme world law collapsed, and Shenluo, Huangmo and Longyuan three heavenly swords fell down. Unfortunately, some supreme races were also affected."

"This dragon exterminator is the affected race. Members of the whole race have unfortunately fallen into the lower position. I just heard the legend."

"It seems that the legend is true. The leader of the Dragon exterminator is called the Dragon battlefield. The destruction of the seal has surpassed the Ninth Heaven. The dragon's destruction breath is so terrible that there is no one but the Dragon battlefield."

Chapter 5712

Ye Chen a burst of shock, way: "surpass nine heavy sky, isn't ten heavy!"

It seems that this dragon field, like Gongye peak, was unfortunately swept by the Taishang disaster.

But longzhanye was even more unfortunate. His whole family fell, and the time was much earlier than gongyefeng. At that time, outside the territory, he was still in the archaic era.

As a race falling from the upper world, the Dragon exterminator is naturally extraordinary and famous.

Xuanhanyu said: "no, the destruction cultivation of the dragon field has not broken through heaven and earth. Although it has surpassed jiuzhong, it has not reached the peak."

The tenth aspect of the Shinto of destruction is the realm of mystery and mystery. Only when we break through the limits of heaven and earth can we be regarded as the summit.

"Really..."

Ye Chen's heart moves. It seems that the Shinto of destruction is indeed broad and profound. Even if it surpasses jiuchongtian, it is difficult to break through the limits of heaven and earth.

If you want to really reach the ten fold level, you must transcend heaven and earth. In this way, you can reach the peak and have the power comparable with the nine heaven magic.

This kind of realm is really too difficult, whether it's Taiyi shenzun, or miewuji, or longzhanye, it hasn't been achieved.

"Ye Chen, you can try to absorb the bones of the dragon field. Maybe you can inherit his destruction cultivation."

Xuanhanyu Ningsheng reminds a way.

"Absorb the bones of the dragon field?"

Ye Chen looks at in front of dark golden keel, but is to pour to absorb a cool air.

The origin of this dragon field is so terrible, and there is a huge cause and effect behind it. I'm afraid it's not easy to absorb its bones.

But if the absorption of success, ye Chen's destruction of the road India, certainly can break through, directly soared eight days.

Think about a few days ago, when ye Chen was still in the magic dust peak, in the misty and rainy dreamland, he had been practicing hard for thousands of years before he could break through. It can be said that it was extremely difficult.

But now, there is a big chance for him. As long as he absorbs the bones of the dragon field, he can reach the sky at one step, make another breakthrough, and soar eight times. It can be called shocking!

"I'll try."

Ye Chen calms down and releases the burning stele like a blessing to the soul.

"Longyan Shenmai, open!"

At the same time, ye Chen opens the veins of the Dragon Fire God, and a fierce fire dragon immediately occupies his body.

The Dragon inflames the divine pulse. It may help to absorb the bones of the dragon field!

Ye Chen thinks so, palm inch by inch, very cautious, close to the skeleton of the dragon field, finally touched it.

Boom!

When ye Chen comes into contact with the bones of the dragon field, he suddenly feels the impact of unimaginable destruction, as if thousands of cosmic collapses and explosions are madly killing him.

"No!"

Ye Chen's face suddenly changes, although have already prepared, but also didn't expect the impact of this destruction energy, unexpectedly so terrible.

Click, click!

All of a sudden, ye Chen's whole body bone, don't know how many roots have been broken by the earthquake, the sharp tearing pain spreads.

And the Dragon Fire God pulse he just opened, and the dragon blood in his body, which had been activated as much as possible, were all suppressed, and the fire dragon and dragon breath surrounding his body were instantly extinguished.

"What a terrible breath

Ye Chen shakes back three steps, releases eight trigrams Dan Qi, and restores the broken bones.

Fortunately, he also practiced the destructive way, so he was very familiar with the operation of the destructive way.

Otherwise, he would have died just after the shock.

Xuanhanyu reminded: "be careful, the destruction cultivation before the dragon fight is very powerful."

Ye Chen said: "such a strong character, I do not know how to fall."

Xuanhanyu said: "he thought that he wanted to fly up to the supreme world again, but he failed, and then he fell down and died. Otherwise, people in this realm are extremely lucky. They are the same level as Hong Tianjing, and can hardly be killed. They can only fly up and be killed by the power of heaven's punishment."

"If only I could refine his bones!"

Ye Chen's eyes are extremely blazing. The dragon's keel not only includes the destruction cultivation of the dragon's field of war, but also his Qi luck.

If it can be absorbed, ye Chen's strength will soar, and even his luck will soar!

But, this keel, even touch hard, want to absorb, it is not easy?

"Brother, maybe I can help you!"

At this time, the voice of the spirit child came from the picture of the yellow spring.

"Can you help me?"

Ye Chen is stunned.

"Well! I am miezhu in the center of the earth. I am very familiar with the smell of destruction. Brother, I can help you to suppress the destruction of the keel for a while. You can take the opportunity to absorb refining, and maybe you can succeed! "

Ling'er appeared and looked at the keel with bright eyes.

He wants to suppress the breath of the keel and let Ye Chen absorb it.

Ye Chen said, "can you hold it down?"

Linger said, "I can stick to it for two days." Ye Chen murmurs: "two days, time is too hasty, but also can try."

Under the heaven's understanding, ye Chen didn't catch too dangerous breath. These two days, his luck is still very strong, not to fall.

Therefore, absorbing the keel is worth a try. If it succeeds, it's absolutely against the sky. Even if it fails, at least it won't fall.

"Well, brother, I wish you success!"

As soon as the body of the spirit child shakes, the whole person enters into the center of the earth to destroy the Pearl, and thoroughly integrates the human and treasure.

Buzz, buzz!

The glittering and translucent Dixin miezhu also sends out a fierce storm of destruction, constantly shaking, then "whoosh" sound, like a meteor month by month, cuts through the void, and finally "pa" once, it is embedded in the forehead of the Dragon skeleton, as if it is a born dragon ball.

"Brother, I can only hold on for two days!"

Spirit child's voice spreads out, take a silk hasty, obviously also can't support how long.

Ye Chen nodded solemnly, and his palm touched the keel again.

This time, he didn't get any reaction.

The power of anti earthquake is suppressed by linger town.

But the crackdown can only last two days, and the time is very short.

It is not easy to refine the bones of the dragon field in two days.

"Eight trigrams Dan furnace, refining for me!"

Time is pressing, ye Chen does not talk nonsense, the eight trigrams Dan gas burst out, breaking the infinite time and space, in the void, showing an ancient Dan furnace.

Click!

Ye Chen grabs the whole dragon skeleton and throws it into the Bagua Dan stove. Yan xuan'er sacrifices it, and then spreads a layer of Taiyi Zhenlei sand in the Dan stove.

Boom!

Yan xuan'er's energy, together with the energy of Taiyi Zhenlei sand, suddenly burst out. Flames and thunderstorms exploded in the Dan furnace.

At this time, if the stars in the sky are thrown into Ye Chen's Dan furnace, they will be instantly melted into ashes, and the slag will not stay.

However, the keel, however, did not move at all. It was suspended in the furnace, bearing the impact of endless flames and thunderstorms, but it was not damaged at all.

"Damn, only two days, only eight trigrams Dan furnace, impossible refining."

Ye Chen bites his teeth. The keel is stronger than he imagined. It's impossible to melt in a short time!

Chapter 5713

"Hongmeng big starry sky, rise!"

Seeing this, ye Chen's step, an incomparably bright starry sky, immediately spread behind him.

At the beginning, in the misty and rainy dreamland, ye Chenwu's ancestor's Taoist heart was transformed, breaking the shackles of tianwu Wolong Sutra, and the Hongmeng starry sky was further upgraded.

Now, ye Chen big hand open, incomparably magnificent star sky, toward that keel suppress down.

He wants to use Hongmeng big starry sky, hard raw swallowed this pair of bones!

"I don't believe that the power of a starry sky can't suppress a dead skeleton!"

Ye Chen clenched his teeth, Hongmeng star dead down.

The keel, in the boundless starry sky, is like a grain of dust, which is swallowed up all of a sudden.

Hongmeng starry sky is also a part of Ye Chen's body.

This time, the stars devour the keel, and ye Chen feels that the keel begins to merge with his muscles and bones.

"It works!"

Seeing this scene, ye Chen was pleasantly surprised.

However, the surprise only lasted for a moment, and immediately turned into severe pain.

In the keel, the terrible repulsive force spreads out, violently repels Ye Chen's body, and the fusion can't go on at all.

This exclusion, it is too terrible, as if someone with thousands of swords, constantly stabbing Ye Chen's bone.

In such a severe pain, even ye Chen, is also unable to withstand, directly spit out the keel.

WOW!

The keel falls out of the Hongmeng starry sky. Against the background of the vast starry sky, although the keel looks as small as dust, it contains enough energy to tear up the universe. Ye Chen can't refine it at all.

Xuanhanyu sighed and said: "it seems that if you want to refine the dragon bone, you must have a complete dragon blood. Only when the blood is interlinked, can you have the chance to refine it. If the blood is different, you will be seriously rejected like you."

Ye Chen said: "dragon blood? I have it in my body. Why not? "

Xuanhanyu said: "Your Dragon blood, not pure enough, will still be rejected."

"Blood is not pure..."

Ye Chen eyebrows a wrinkly, but suddenly thought of the blood dragon.

His blood is not pure enough, but blood dragon, blood is absolutely powerful, has the qualification to absorb the dragon field skeleton!

"Only two days. If you can't absorb the keel, it's a waste."

"I can't. maybe I can call the blood dragon to have a try!"

If the blood dragon is refining the dragon's keel, its strength will soar. Even in the face of a strong enemy, the blood dragon has the power of World War I.

Thinking of this, ye Chen immediately communicated with the cause and effect, and issued an edict to the distant void:

"blood dragon, I have a big chance to present you!"

Ye Chen was waiting in the same place, hoping that the blood dragon would come as soon as possible.

In the distant void, the blood dragon received the imperial edict from ye Chen.

"Dragon exterminator, dragon battlefield?"

The blood dragon felt the cause and effect of the Fu Zhao, and his eyes were shocked.

"The master has a chance to give it to me? Where? The place where the dragon was buried

The blood dragon traces the cause and effect of the Fu Zhao, but finds that the fog is thick and cannot be seen through for a while.

After all, the Dragon exterminator's burial place is the bone burial place of the dragon field. It has the supreme breath. Ye Chen can easily find the key, but it is not easy for the blood dragon to have insight with a single imperial edict.

"Only two days left? I don't know if I can come in time... "

XUELONG knew that time was pressing, so he quickly mobilized all his heart and soul to trace the cause and effect of the Fu Zhao.

Finally, a day later, the blood dragon successfully cracked, immediately revealed the shape of the dragon, clawed the void, and rushed to the dragon's burial ground.

.....

In the underground mausoleum palace, ye Chen suddenly feels that there is a powerful dragon power coming from outside, and he is very happy:

"the blood dragon is coming!"

Boom!

The clouds and thunder surge, the emperor light emerges, and the body of the blood dragon appears outside the palace. It changes, falls to the ground, turns into a human shape, runs to Ye Chen, and cries:

"master

Ye Chen also happily ran up, two people fiercely hugged for a while.

"You're all right!"

"I'm sorry I'm late, master."

"It's not too late. There's still one day. It's still time!"

Ye Chen takes the blood dragon and steps into the palace.

In the palace, the eight trigrams Dan stove is placed, but in the Dan stove, there is a dark golden keel suspended, which makes people suffocate.

"Is this the leader of the Dragon exterminator, the skeleton of the dragon field?"

The blood dragon's spirit vibrated. He only felt that the dragon's keel was extremely terrifying. If he absorbed refining, his accomplishments would surely advance by leaps and bounds.

"Well, you try to absorb, time is too hasty, I can't, can only see you."

Ye Chen let the blood dragon try refining, there is only one day left. In such a short time, ye Chen's dragon blood is not pure enough, there is no way to absorb it. He can only put his hope on the blood dragon. The blood dragon is Ye Chen's trump card. If the blood dragon is strong, ye Chen also has great benefits.

"Well, master, I'll try!"

The blood dragon's eyes burst out of the essence awn, and then suddenly drank:

"supreme heaven dragon way!"

This time, the blood dragon directly exerts the supreme heaven dragon way. The whole person shakes and changes the shape of the dragon. Each scale emits a dazzling blood light. The dragon power is as fierce as the vast sea, shaking countless time and space.

Although the space in the palace is small, the blood dragon's body immediately crushed countless layers of space, creating a huge void world.

His body, suspended in the empty world, is majestic and majestic. As soon as the Dragon claws are photographed, he grabs the bones of the dragon field and covers them with layers of blood light, trying to devour refining.

Ye Chen stands on one side, quite a little nervous, watching.

The bones of the dragon's battle field are integrated into the body of the blood dragon. The blood dragon drives the dragon ball of Yunlei emperor, and the magic emperor light bursts to the extreme. Mixed with the supremacy of the Heavenly Dragon way, it begins to refine.

However, before the time of incense burning, the blood dragon's eyes showed a look of great pain. After a concussion, the skeleton of the dragon's battle field was stripped out.

"Failed?"

Ye Chen sees a shape, suddenly the facial expression sinks.

"Sorry, master," said the dragon

Ye Chen said: "not even you?"

The blood Dragon said: "master, the dragon field is the real supreme dragon. My blood is too strong. Although I'm a pure dragon, my blood is still too weak, and I'm seriously rejected!"

Ye Chen: "even you are rejected, that can be tricky."

The skeletons of the Dragon battle field contain extremely terrifying energy of destruction, as well as the Qi transportation against heaven. If they can be refined, it will be of great benefit.

But now, no matter Ye Chen or Xuelong, their blood vessels are seriously rejected, and they can't absorb this pair of bones at all.

Such a big opportunity, put in front of you, but can't get it, it's really a tyranny.

"Ye Chen, try to use your reincarnation blood. Reincarnation blood suppresses everything and surpasses the heavens. If you want the blood dragon to refine the keel, maybe you need the power of your blood!"

At this time, xuanhanyu reminds Ye Chen again.

Chapter 5714

"Samsara blood?"

Ye Chen heart move, also know reincarnation blood of fierce.

However, using the energy of one's own blood will consume a lot, which may lead to weakness.

"No matter what, I'll take this chance today."

Ye Chen bit his teeth, did not hesitate too much, and immediately said to the blood Dragon:

"blood dragon, I use reincarnation blood to help you! Try again

After that, ye Chen's whole body is full of Qi and blood, and a huge figure emerges behind him.

That's the figure of the reincarnation master of the previous life!

Blood dragon startled: "what, master, do you want to use the power of blood? You have a hundred day appointment with the Confucians. If your blood is weak, what should you do then? "

Ye Chen said with a smile: "if you can rise up, what is my weakness? Don't forget that we can borrow from each other, and I can borrow from you. "

Xuelongda was grateful and said, "master..." I couldn't speak for a moment.

Ye Chen said: "absorb it quickly, there is not much time."

Qi and blood surging between, ye Chen behind the reincarnation of the main virtual shadow, more majestic.

"Six ways of reincarnation!"

Moreover, ye Chen also released six ways of reincarnation, a huge disk of reincarnation, rising from his palm like a chaotic sun.

Boom!

Ye Chen slaps hard, reincarnation plate, with reincarnation blood Tianwei, hit on the skeleton of the dragon field.

For a moment, the bones of the dragon field were covered with the breath of reincarnation.

When the Dragon sees this, he uses his claws to draw the dragon's keel and try to refine it again.

"The Heavenly Dragon shines with blood!"

The blood dragon moves the way of heaven dragon to the extreme. The whole body is full of blood. The dragon's power is vast. Wisps of blood light are like magic chains. They wrap around the keel and merge with themselves.

This time absorption refining, blood dragon did not feel any obstruction.

Under the suppression of Ye Chen's reincarnation blood, all the causes and effects, all the dignity, were suppressed, as if they were just an ordinary skeleton, no longer any lethality, no rejection.

"Thank you, master."

The blood dragon is grateful and thanks Ye Chen. Then he concentrates and begins to refine the keel.

"Try to be quick, we only have one day."

Ye Chen's eyes are dignified, maintaining the circulation of reincarnation blood, and assisting the blood dragon.

He is very clear, time is pressing, spirit child can only support another day.

If there is no spirit child's suppression, the dragon's destruction breath will break out again. At that time, the blood dragon is likely to be in danger.

The blood dragon also knows that time is pressing. At the moment, he uses his whole body's spiritual power to continuously dissolve the bones of the dragon's field of battle, and crazily capture the energy and Qi contained in them.

As time goes by, the blood dragon is sitting in the void. His eyes are still in peace. The blood light is floating all over his body, which is more and more intense. It is obvious that he has absorbed a lot of aura of the dragon's keel, and his strength is greatly improved.

"Blood dragon, not yet?"

Ye Chen is a little worried. Looking at the appearance of the blood dragon at this time, although he has refined part of the energy of the keel, it is obvious that he has not completely succeeded.

And there's not much time left.

The blood Dragon said: "master, give me more time! The energy of the bones in the Dragon battle field is so great that they are comparable to a world. They are magnificent and incomparable. It is not easy to absorb and refine them thoroughly. "

Between the words, on the body of the blood dragon, layers of red blood awns are twisted, showing an ancient picture.

This picture, with archaic cause and effect, is the memory picture of the dragon field.

"This is Long zhanye's memory

Ye Chen fixed his eyes, but saw the pictures passing by, just like the river of time, shocking people's mind.

The scene shown in the picture is the place where the dragon was buried!

Ye Chen saw that the body of the dragon field was scarred, full of the traces of heaven's plunder and thunder's punishment, surrounded by countless dragons.

These dragons have a bleak look in their eyes. They are praying in a low voice. It seems that they are praying for the dragon field.

"The Dragon battle field failed to soar, and was severely damaged by heaven's punishment?"

All of a sudden, ye Chen caught countless ancient secrets.

This dragon field is the leader of the Dragon exterminator. It was once the supreme dragon. It wanted to fly up again, but it failed. It was seriously injured and had no hope of healing.

The dragon people of the Dragon exterminator are praying for him.

WOW!

Suddenly, the sky cracked and a divine light came down.

In the divine light, a young girl falls.

This young girl, holding a long sword, has a vivid ice Phoenix carved on the sword body, and the brilliant atmosphere of a hundred birds towards the Phoenix is also displayed all over her body.

It's the heavenly daughter holding Binghuang sky sword!

"Here comes the heavenly daughter!" "That's great. The leader of the sect can be saved!"

"Welcome to the lady of heaven!"

The Dragon crowd of the Dragon exterminator turned into human form one after another, and then fell on their knees respectfully to welcome the goddess of heaven.

It turned out that they prayed to heaven to ask the heavenly daughter to come.

Long zhanye, who was seriously injured and dying, also shook his body hard and turned into a veteran wearing heavy armor. He shook his hands and said, "crime minister long zhanye, welcome Princess tiannv!"

"You failed in your ascent?"

The empress of heaven saw that long zhanye was seriously injured and dying. She asked.

Long zhanye said in a sad voice: "my subordinates are incompetent and can't survive the disaster. I'm seriously injured. I hope the princess will be kind and help me."

The lady of heaven said: "where can the injury of killing and cutting be cured so easily? If it's in wanxu, I may be able to save you, but this is the realm of heaven and man. Even if the resources outside the territory are exhausted, it's impossible to fight against the killing of heaven's punishment, let alone cure it. "

Long zhanye was shocked and said, "isn't that subordinate..."

Too God female way: "the number of breath has been exhausted, you rest in peace."

Long zhanye's face changed dramatically. He stepped back three steps. It seemed that he couldn't believe it. Many of the dragon people behind him were also extremely shocked and frightened.

Too God female way: "with your inside information, impossible rise failure, affirmation someone obstructs you, is who, tell me his name, I avenge for you."

Long zhanye hesitated for a while. He seemed to be hesitating about something. But he thought that he was doomed to die, so he had no scruples. He gritted his teeth and said, "it's Hong Tianjing!"

The lady of heaven said, "Hong Tianjing?"

Long zhanye said: "exactly! Princess, Hong Tianjing wanted to take me as a mount, but I didn't want to. He deliberately prevented me from flying up and made me fail. He was not only hopeless to return to the Supreme Court, but also killed by heaven. Now he is dying. "

The heavenly daughter nodded lightly and said, "well, I remember. If I have a chance, I will kill Hong Tianjing and avenge you."

Long zhanye said, "thank you, Princess!"

.....

Ye Chen sees here, immediately a face is startled.

"This Behind the dragon field, there is the cause and effect of Hong Tianjing and the Empress Dowager! "

Chapter 5715

Ye Chen is greatly shocked. The resentment between Hong Tianjing and the heavenly daughter can be traced back here.

If Hong Tianjing hadn't blocked it, maybe long zhanye would have been promoted to the Supreme Court, and there would not have been any chance left.

.....

The screen continues.

The empress of heaven wanted to leave with a gust of wind.

Long zhanye said, "princess, wait a minute."

"What else do you have to say?" she said

Long zhanye said with a tragic smile: "the guilty minister is dying. I want to play chess with the princess before I die."

Too God female pause, finally nod, way: "good."

Then they came to the stone room at the end of the desert and played chess in it.

Outside the stone room, many dragons, with a gloomy face, stood with their hands down.

Long zhanye's injury was too serious. Before finishing a game of chess, he vomited blood, trembled his hands and knocked over the chessboard.

The chessboard broke and the black and white pieces fell to the ground.

.....

"It turned out that these two people left the chess game in Shishi."

Ye Chen sees here and suddenly realizes.

"General dragon?"

There was a cry from the heavenly daughter.

Long zhanye was lying on the chessboard, but he was dead.

"Alas..."

The heavenly daughter sighed.

"The master of teaching is supreme!"

Many of the dragon people outside, seeing the death of the dragon in battle field, immediately cried and hurt.

"Prepare for him. I have some things for you. If Hong Tianjing invades again, maybe he can resist one or two."

The empress of heaven took out a Fu Zhao and a bead.

The imperial edict was printed with a star pattern, but it was the pattern of the White Emperor and the golden emperor.

And that bead, it is clear water candling bead, also engraved with a white Emperor gold emperor pattern.

After leaving these two things, the heavenly daughter left completely.

After a few days of mourning and howling, the Dragon crowd of the Dragon exterminator began to prepare for the future of the dragon field.

They built an extremely luxurious tomb under the ground of mielong burial ground to bury the dragon field.

In the end, millions of members of the Dragon destroying Protoss died together with the Dragon fighting field.

These millions of dragons, their bones, are buried in the vast desert.

Their spirits, gathered together, all poured into the bones of the dragon field.

This is an ancient ceremony. They want to sacrifice themselves and accumulate good fortune for the dragon field. They hope that the dragon field can revive one day and lead them to revive and return to the Supreme Court.

The scene of millions of dragons being buried together is really spectacular. There are a million dragons burning their own flesh and blood to sacrifice their spirits just for the dragon field.

When millions of dragon fell, the heaven and the earth all floated the blood rain, the endless blood rain gathered, and finally evolved into a new area.

This area is called blood death prison!

The scene of blood death prison flashes away in the picture, but ye Chen clearly captures that there is the cause and effect of blood god!

Blood God once ruled the blood death prison!

And the source of the blood death prison is here. It is the place where millions of dragons were buried, which shocked the earth and caused the bloody rain of heaven.

Indistinctly, ye Chen and blood god are connected by cause and effect. It seems that they are destined to meet each other since ancient times.

After watching all the pictures, ye Chen was shocked. He was too shocked to be calm for a long time.

I don't know how long later, ye Chen suddenly heard a short cry:

"brother, I can't hold on!"

But see blood dragon body, there is a bead fly out, it is the heart of the earth out of the bead!

Wow

The light of the earth's center vanishes the Pearl, and the figure of the spirit child emerges. The young face is pale, and the forehead is full of sweat.

"Spirit child, what's the matter?"

Ye Chen is tiny a Leng.

Linger said: "brother, the time has come. I can't support it any more."

"Time is up? Has that day passed? "

Ye Chenda was shocked. He found that the day had passed. He indulged in the picture of millions of dragon people being buried. He didn't realize the passage of time. Now he woke up.

Boom!

Without the repression of ling'er, the smell of destruction in the keel breaks out again, and even with a trace of destruction from the sky and thunder, he comes back to Ye Chen.

"No!"

Ye Chen's face changes slightly. Under the impact of this destructive breath, he can't even maintain the six ways of reincarnation.

The disk of reincarnation and the virtual shadow of the Lord of reincarnation were crushed in an instant.

His blood can't be attached to reincarnation.

Ye Chen quickly retreats, dissolves the anti shock of the destruction breath, looks at the blood dragon, but sees a scene of incomparable terror."Master..."

Blood longan Mou is full of sad and bitter color, one day time has passed, he has not been able to thoroughly refine the keel, and now he is immediately attacked.

Without the repression of ling'er and ye Chen, the destruction storm in the dragon's keel and the violent repulsion are all fierce explosions, madly impacting the blood dragon's body.

Bang bang!

Blood dragon body everywhere, exploded a pengpeng blood, dragon scale splash, there is a terrible explosion, in his body collision.

It's the destruction storm of the keel, the repulsive force of the blood, the weather of violent explosion.

Every explosion is enough to destroy a star, and the energy is extremely surging.

And the blood dragon, under repeated explosions, almost all the viscera were broken, all the body scarred, flesh and blood scales flying, very ferocious.

"Blood dragon, spit out the keel quickly!"

Ye Chen is frightened, afraid that the blood dragon will be killed.

"No, master, I have melted the keel. Either I succeed in refining or I am taken away by the keel."

The blood dragon is struggling, extremely painful way.

"Give up?"

Ye Chen's back suddenly cooled.

The blood Dragon said: "yes, there are millions of souls in the keel. They have a strong intention to kill me. They want to take me away!"

"No, those dragon people who died are going to revolt!"

Ye Chen's face changed greatly. At the beginning, after the death of long zhanye, millions of his subordinates were unwilling to die. They wanted to return to the Supreme Court. Therefore, they sacrificed themselves, and their spirit and soul were all gathered on the bones of long zhanye.

This time, the blood dragon melts the bones of the dragon's battle field, but it touches the souls of millions of dragons, and is in danger of being taken away.

"Brother, something's going to happen. Let's go!"

Spirit child pulled to pull the sleeve of leaf Chen, way.

Ye Chen said: "go? Where do you want to go? "

Linger said: "no, brother, now I can't suppress the destruction breath of the keel. Under the explosion of the destruction aura, Gongye peak will definitely notice here."

"Once gongyefeng comes, it's a problem."

"Moreover, even if Gongye peak doesn't come, the blood dragon will be taken away. If the Dragon crowd of the Dragon exterminator takes his body, we can't resist the power of millions of dragon crowd."

Ye Chen a listen, immediately heart a Lin, also feel incomparable thorny.

Chapter 5716

"Master, don't worry, I won't be taken away!"

The blood dragon gnashes its teeth and supports it. The dragon ball of yunleidi blooms in dazzling brilliance and firmly guards the mind.

Ye Chen looks at the blood dragon's painful struggle, and his mind is also extremely shocked. He quickly releases the holy water of the yellow spring, the eight trigrams, the heavenly elixir, the immortal Koi, the sun Xianhuang guard, and so on to relieve the blood dragon's pain, hoping that he can tide over the difficulties.

"Gongyefeng should not come. Last time he was defeated by Ren Fanfan, this time he should have no courage to come again."

Ye Chen helps the blood dragon, but he doesn't mean to leave. He concludes that Gong Ye Feng doesn't dare to come.

The spirit child said: "well, brother, I'll join you, but I've consumed too much spirit, and I can't fight any more."

Ye Chen said: "no harm, you go back to rest."

The spirit child said yes and returned to the world of the yellow spring.

In the void of the ancient tomb, only Ye Chen and the blood dragon were left. Ancient dragon shadows floated around the blood dragon's body.

Those dragon shadows, dense, just like ghosts hiding in the dark, all extremely ferocious, just like staring at a prey, staring at the blood dragon, just want to capture his body.

In fact, when the dragon field fell, he was exhausted. He should rest in peace.

Long zhanye also accepted his fate and was ready to rest in peace. Before he died, he entrusted the Empress Dowager to take revenge, which also solved the gratitude and resentment behind him.

However, his followers were not willing to fail. They would rather die together. They wanted him to revive and return to the supreme world.

The obsession of millions of dragon people has become a demonic existence.

This time, the blood dragon is entangled by millions of demons, plus the repulsive force of the Dragon zhanye blood, and the destruction of the destruction storm. You can imagine the pain and pressure he has to bear.

"Master..."

The blood dragon's body was already bloody, and its scales were overturned.

His pain, too big, if it is not for ye Chen around, I'm afraid already can't support.

"It's OK, I'll be with you all the time!"

Ye Chen bites his teeth, countless auras emerge, nourishing the blood dragon's body.

.....

At this time, there is a secret place in heaven and man, where stands a huge sword, surrounded by countless huge swords, forming a sword world of killing and cutting.

In the sword world, there are two figures sitting cross legged, breathing, as if healing.

These two figures are annihilating sword spirit and Gongye peak!

This sword world is actually a world evolved from annihilation sky sword.

Last time, two people by Ren special attack back, then escape to here to heal.

"Why?"

Suddenly, gongyefeng opened his eyes and seemed to feel something.

Annihilation silent sword Spirit Light ask: "how?"

Once again, he was defeated by Ren Fanfan, and the sword spirit was full of reluctance.

However, he does not think that his strength will be inferior to Ren's.

For the first time, he was defeated because he despised the enemy. He didn't expect Ren Feifan to master the nine gods.

The second defeat, because he was nine epilepsy from the explosion injury, with the injury, nature can not be any extraordinary opponent.

"Lord Jianling, I have captured a very strong breath of destruction. I have already surpassed the Ninth Heaven. I almost want to break through heaven and earth and reach the peak of destruction!"

Gongyefeng's eyes are bright, and the light of God's destruction is released behind it, which resonates with the breath of destruction in the distance.

"Beyond the nine heavens? Isn't that... "

Annihilation silent sword spirit eyes a shrink, suddenly thought of an old character.

Dragon field!

In his impression, the only one who can surpass the nine heavens in the cultivation of the destructive Shinto is the Dragon fighting field, the supreme leader of the Dragon destroying God clan in the archaic times.

Gongyefeng said: "it's the dragon field! I caught the breath of his bones

"Is it really the dragon field? At that time, Lord Hong Tianjing wanted to take him as his favorite. Unfortunately, he refused. In the end, Lord Hong took advantage of the power of natural disaster to directly hurt him. Unfortunately, he didn't know where he fell

Annihilation sword spirit's eyes flashed. Naturally, he knew the strength of the dragon field.

At the peak of his life, long zhanye was even in the same realm as Hong Tianjing. His accomplishments were extremely strong, and even Hong Tianjing was afraid of the terrible atmosphere of destruction.

At that time, Hong Tianjing, in order to take long zhanye as a riding pet, even took out the forbidden God Mie Tianzhao Gong. He wanted to use it as bait, but he couldn't lure it.

If long zhanye is willing to surrender, the decisive battle between Hong Tianjing and the heavenly daughter may not be defeated.

And it's not Gong Ye Feng's turn to practice the power of destroying heaven.

Gongyefeng pinched his fingers and calculated. He kept catching the secret. He frowned deeply and said, "I don't know who intruded into the ancient tomb of longzhanye, but he wanted to seize the keel."

Annihilating sword spirit sneered and said, "the dragon field is the supreme dragon. Can ordinary people capture his bones? Quickly explore, where is the bone burial place of the Dragon battle field? If you can find it, Mr. Gongye, your nine heaven divine skill may even be directly completed! "Long zhanye's cultivation of the God of destruction has surpassed the Ninth Heaven. If his keel is obtained by gongyefeng, it is absolutely against heaven.

Once absorbed the destruction aura left by the dragon field, gongyefeng's God destroying Tianzhao skill may be directly successful.

"Lord Jianling, the mystery is too heavy. I can't find it by myself. Please help me."

Gongyefeng repeatedly calculated that sweat on his forehead was infiltrated, and the light of justice appeared behind. But even so, it was impossible to accurately infer the location of longzhanye ancient tomb.

"Well, it's been so many years. What's the mystery? It seems that it was true that there were millions of dragon people who died in the battle for the dragon. Even though they have gone through the ages, the grievances of millions of dragon people can not be dispelled. "

Annihilation sword spirit pops up the sky sword, and immediately begins to deduce.

Hum!

The edge of Tianjian is blooming, cutting space and time, breaking through layers of fog and cause and effect.

Gongyefeng also uses the breath of justice to break through the fog of cause and effect. Together with the annihilation sword spirit, Gongyefeng is looking for the buried place of the dragon field.

In the end, they caught a terrible picture at the same time.

In the picture, Ye Chen and the blood dragon are shown.

The blood dragon struggled in pain and sank in the endless blood light and destruction storm.

And Ye Chen, the light of Buddha all over his body, keeps rolling and supporting the blood dragon.

The whole body of the two people is a dense, haunted dragon shadow, endless resentment tearing in the void, very terrible.

"It's Ye Chen!"

Annihilation sword spirit and Gongye peak, see this scene, together exclaimed.

"It turned out that he was the one who was trying to seize the dragon's bone!"

Annihilation sword spirit's eyes are cold. Naturally, they know the value of dragon battle field bones. If they fall into Ye Chen's hands, their losses will be huge.

Chapter 5717

You know, at the peak of the dragon field, he was the same level as Hong Tianjing. Even if he fell from the throne, even if he was killed by the thunder, his cultivation breath had been greatly exhausted, but his Qi luck still existed.

Ye Chen is the Lord of reincarnation. His Qi luck is strong. If he gets the skeleton of the Dragon battle field, his Qi luck will soar to an unimaginable level.

"Lord Jianling, let's go quickly and stop the boy!"

Gongyefeng is impatient. He covets the bones of the dragon field. If he absorbs the destruction aura of the dragon's keel, it will be enough to make God destroy Tianzhao work to perfection.

How can ye Chen take away these treasures?

At the moment, Gongye peak just wants to start immediately, kill Ye Chen and capture the keel.

"Ha ha, don't be impatient."

Annihilation silent sword spirit is quickly calm down, recall just picture.

"Where are the bones of the dragon field so easy to refine? Ye Chen, that boy, must be dying. Now the bones of the Dragon battle field, the destruction aura, the exclusion of blood, and the capture of millions of dragons, he must be finished. "

"He and his blood dragon will be killed alive by the energy of the dragon's battle field bones. We don't have to do anything. When they are all dead, we can go to pick up the leak."

Gongyefeng said: "pick up the leak? How can it be so simple? Lord Jianling, it's rare for me to find the skeleton of long zhanye and the trace of Ye Chen. You can't miss it! "

"You say that boy is the master of reincarnation. He has a deep sense of luck. Where can he fall so easily? When he died of an accident, we might as well cut off his head ourselves! "

Annihilation silence sword spirit facial expression a sink, way: "that kid back, have Ren special guard, we wound has not yet completely healed, can't easily move, otherwise lead to Ren special, will die undoubtedly."

In his heart, he was still extremely afraid of Ren extraordinary. Before his breath recovered, he did not dare to leave rashly.

Gongyefeng said: "Lord Jianling, what are you afraid of? Ren Fanfan can't get involved too deeply. Otherwise, he will be perceived by the high-level officials behind wanxu. It's not long since his last attack. I'm sure that this time, he will never dare to appear. We can do it at ease!"

Annihilation silent sword spirit look gloomy, way: "I said, wait can, don't act rashly."

Gongyefeng's eyes also sank. He stood up silently and said, "Lord Jianling, since you don't dare to do it, I have to go there by myself. When I get good news, I will bring back the boy's head for you!"

Having said that, gongyefeng tore the void with his bare hands, but he left directly and rushed to the place where the dragon was buried.

"Mr. Gongye!"

Annihilation silent sword spirit is greatly surprised, didn't expect that Gong Ye Feng dare not listen to his words, act alone.

"The old man is trying to rebel!"

The annihilation sword spirit pinches the palm of the hand, and the knuckles click, vaguely feeling a little bad.

Now gongyefeng is on the verge of a real accomplishment in practicing the skill of destroying heaven.

If it was in the ancient times, even if gongyefeng was successful, the annihilation sword spirit was sure to suppress it.

But now, Hong Tianjing has been sealed. Once gongyefeng's wings are hard, he is not absolutely sure that he can suppress them if he wants to get rid of the shackles or even bite back.

Between the twinkling eyes, annihilation silent sword spirit heart swept countless thoughts, it is a chance to kill floating.

.....

On the other side, inside the bloody prison.

The blood God took charge of the Kerqing Lihuo sword, subdued the Golden Dragon orc, restored 80% of its power at its peak, and directly became the master of the blood death prison.

In the blood death prison, many forces took refuge in the blood god again.

Blood god's momentum, I do not know how much stronger than before, even in the face of Confucianism, even if not enemy, at least will not be as embarrassed as in the past.

Seeing that the hundred day agreement is approaching, the blood God has not relaxed and is practicing in the blood death prison.

Suddenly, the blood god looked up at the sky and seemed to feel something.

"The cause and effect source of the blood death prison, who is the change coming from?"

The blood god was dazed.

Blood death prison, is a very special place, formed in the archaic times.

In the archaic times, millions of dragon exterminators were buried, which led to the bloody rain of heaven, and finally formed the blood death prison.

Therefore, the cause and effect source of blood death prison is in the Dragon killing burial ground.

At this moment, the blood god clearly felt that there was a change coming from the place where the dragon was buried.

"If I could find the location of Mielong's burial ground, I might be able to seize a bigger chance!"

Blood god's eyes are sharp, and he immediately exerts the Shinto of time, constantly deduces the years, and traces the source of cause and effect.

After a large number of recollections, he also learned the legend of the place where the dragon was buried.

The legendary supreme dragon, the Dragon battlefield, is buried in the Dragon killing burial ground.

If he could refine the bones of the dragon field, he would be able to fight against the Confucianists alone!

The vast law of time runs, and the blood god deduces it constantly, but finally catches a breath of familiarity. "Ye Chen!"

"It's Ye Chen! He's at the place where the dragon is buried

Blood god pupil a shrink, but feel Ye Chen's causal breath, quite bad, seems to be dangerous, to catastrophe.

"Someone wants to kill Ye Chen! Master Jinlong, let's call for help

At the command of the blood god, he summoned the ancestors of the Golden Dragon orcs, and issued an edict to summon many strong men in the blood death prison.

The strong men of various schools were shocked to see the coming of the blood talisman.

They thought that it would be the time to fight a decisive battle only when the hundred day agreement began, but they didn't expect to fight now.

"Follow me to kill the dragon and rescue Ye Chen!"

The blood god is riding on the golden dragon, holding the Lihuo sword, and his eyes are full of fighting spirit. He is roaring to kill the blood and die in prison, and is ready to go to the Dragon killing burial ground.

.....

In the ancient tomb, ye Chen is accompanying the blood dragon and supporting it.

"Someone is peeping at me!"

Suddenly, ye Chen feels that someone is peeping behind his back. Under the push of heaven, he suddenly sees the identity of the peeper.

It's Gongye peak and annihilation sword spirit!

Here, the smell of destruction explodes. It was found by Gongye peak!

Ye Chen only knew that it was Gongye peak, but he didn't find the cause and effect of blood god.

Because the blood god deduces the mystery of the law of time by using the time Shinto. It's not easy to get insight into it, just like living in the world, it's easy to ignore the passage of time and feel the rush of time.

"Master, it seems that there is a strong enemy coming. Go quickly!"

Blood dragon also sensed what, urge Ye Chen to leave quickly.

Now the blood dragon's scales are blurred, and the dragon's battle field bones are eating him back. He even vomites blood when he talks, and his eyes are full of gray and pain.

"No, I can't go!"

Ye Chen bites his teeth and knows that Xuelong is in great pain. If he leaves, without the relief of his technique, Gongyefeng doesn't have to do it. Xuelong will be killed immediately.

Chapter 5718

"Ha ha ha, you don't have to go. Let's die here today."

All of a sudden, laughter rang out.

A dark sun, blooming in the void.

An old figure, with the power of judgment, steps out slowly from the sun.

It's Gongyefeng!

"Gongyefeng, it's you!"

When Ye Chen saw Gongyefeng coming, his face suddenly changed. He looked around again, but he didn't see annihilation sword spirit.

"What about the sword spirit?"

"Hum, do you need master Jianling to deal with you two wastes? I'll do it by myself

Gongyefeng snorted coldly, holding the sun in his palm, the dark sky light burst out, with a very terrible smell of destruction, directly towards Ye Chen's head.

Ye Chen's eyes see that the God of destruction shines, only feel the crisis.

Before that, he used reincarnation blood and expended a lot of energy to relieve the pain of Xuelong. Now there is not much spiritual power left in the Dantian. Once he is hit by Gongyefeng, he will be seriously injured.

"Green water, candling pearl, guard!"

At the critical moment of life and death, Ye Chen suddenly released a blue and quiet bead to resist in front of him.

Whoa!

Gongye peak's destructive spirit came and shot on the bead, just like falling into the vast sea. With a bang, the destructive storm burst, causing thousands of huge waves, waves and endless water vapor, exploding in the void, crashing down and turning into a vast ocean.

"The Pearl of green water! This is the magic weapon of the supreme daughter of heaven. How can it be in your hands? "

Seeing this bead, Gongye peak was shocked, and a trace of fear rose in his heart.

He recognized that this bead was the magic weapon of the supreme daughter of heaven. It was engraved with a pattern of white Emperor and gold emperor. Its cutting edge was as sharp as the supreme sword. It was very powerful.

He is but didn't expect, this bead son, unexpectedly fell to leaf Chen hand.

He didn't know that the Empress Dowager had actually given this bead to the Dragon exterminator as a burial object for the dragon field.

Ye Chen first entered the ancient tomb, and no one snatched it. Naturally, he snatched the treasure.

"Baidi jinhuangwen, kill me!"

Ye Chen's eyes split, mobilize the remaining aura in the elixir field, and pour all his brain into the green water Kan pearl.

Buzz, buzz!

As soon as the aura is poured in, the whole bead suddenly blooms out a huge golden light, and the star pattern totem engraved on the bead bursts out a bright light.

The breath of Geng Jin condenses in the void, and finally evolves into thousands of swords and swords. It's like the impact of Jiutian waterfall, and it's hard to kill Gongye peak.

Gongyefeng looks at the Geng gold sword, and his pupils contract, and his fear reaches the extreme.

This is the star pattern painted by the Empress Dowager herself. The legendary pattern of the White Emperor and the golden emperor represents the metallicity of the five element Geng. It's hard to imagine how fierce the attack is.

Now gongyefeng's injury has not been completely healed. If he was killed by the White Emperor jinhuangwen, I'm afraid he would be seriously injured even if he didn't die.

"No!"

Gongyefeng roared and suddenly bit the tip of his tongue and sprayed out a mouthful of blood.

"Burn my essence and blood, God destroy Tianzhao, Chi!"

At the critical moment of life and death, Gongye peak burned its own blood essence, burst out incomparably powerful energy, poured into the black sun.

Under the burning and perfusion of his own essence and blood, the power of shenmientianzhao power increases greatly.

That round of black sun, crazy expansion, as if to block out the sky, overwhelming the infinite void, blocked in front of Gongye peak.

Whoa, whoa, whoa!

Ye Chen's White Emperor's gold emperor's pattern and the towering Geng's gold sword were blocked by the dark sun.

Countless Geng gold swords, with a terrible sense of killing, abruptly dismembered the dark sun.

Boom!

Sun explosion, terrible destruction storm, destroy energy, crazy burst out, shock space inch by inch.

Gongyefeng's body was overturned by the explosion. Thanks to his strong cultivation, it didn't matter.

"Fortunately, fortunately..."

Gongyefeng's sweat came out, and he was lucky.

Fortunately, he reacted quickly, otherwise, he would be killed by the White Emperor Jin Huangwen, which is really unimaginable.

It's a star pattern that the heavenly daughter herself carved. It's powerful enough to cut across the sky. Even he is extremely scared.

"Puff!"

But Ye Chen's body is just like a broken grass. He is seriously injured by the explosion. He falls into the ruins of a space, spitting blood in his mouth, but he is seriously injured.

When he exhausted his last strength, he wanted to kill Gongyefeng by surprise, but unfortunately, Gongyefeng knew how powerful he was as soon as he saw the green water and the magic pearl. He had been on guard for a long time and didn't let Ye Chen succeed.

And the blood dragon in the distance was also affected by the explosion, which made it even worse. The Dragon shadow all over him was like a nightmare to kill him. He won't last long.

"Hahaha, Lord of reincarnation, I'm sorry. I won't win today. I'll give your head to Lord Hong Tianjing. You'll die unjustly."

Gongye Peak sees Ye Chen and blood dragon embarrassed appearance, can't help laughing, heart is very happy.

If it's a peak duel, Ye Chen has so many cards. Even if he can win alone, he won't win so easily today.

"Damn it

Ye Chen grits his teeth, he and Xuelong are because of refining the keel, leading to a great consumption of energy, only Gongyefeng picked up the cheap.

Otherwise, it is not known who will win.

"Am I really going to die here today?"

"No, it's not time for me to lose my fortune."

Ye Chen's eyes are turning. It's clearly a crisis of life and death, but he doesn't have the feeling that his breath is exhausted. Things seem to have a turn for the better!

"Who dare I hurt?"

Just when ye Chen thinks like this, a solemn and cold voice rings out from the void.

I saw endless rain of blood all over the sky. A long sword full of lihuotianjian came out of the void and cut gongyefeng's head.

"What

Gongyefeng suddenly saw these changes, and was shocked, so he rushed to the side to escape.

Whoa!

The sword cut off a wisp of his hair. If he dodged more slowly, his head would be cut off.

Gongyefeng's forehead, suddenly cold sweat, eyes panic, but see the void tear, a powerful figure, riding an old beast appeared.

It's the blood god!

Hiss -

the sword returns to the blood god.

The blood God has a sword in his hand. He is riding on the Golden Dragon. His whole body is full of killing and cutting, and his momentum is very strong.

Behind him, a series of figures appeared one after another. They were all in the blood death prison, and the strong men of various schools were fierce.

Gongyefeng was too frightened to speak when he saw such a scene.

"Blood god, here you are!"

"I knew that I didn't have the time to fall today!"

Chapter 5719

Ye Chen sees the blood god coming, and is very happy.

Sure enough, he was right. Things are still turning for the better.

At the last moment, blood God arrived in time, can be regarded as a great help to Ye Chen.

Ye Chen looked at the figure of the blood god, only felt that the breath of the blood god was much stronger than before, and his strength and memory must have recovered a lot.

"Blood death prison, the ancestor of golden dragon, carve Qing Li Huo sword, time Shinto..."

Ye Chen deduces, immediately perceives the infinite cause and effect, and sees the chance behind the blood god.

It turned out that the blood God became so powerful because he had an adventure in the blood death prison.

Today's blood god, plus Ye Chen, even in the face of the threat of Confucianism, will not be so embarrassed!

The blood god deeply looked at Ye Chen and showed a smile.

Many strong people behind him were shocked. I didn't expect that the great devil had such a good side.

Everyone's eyes fall on Ye Chen one after another, guessing Ye Chen's identity.

It's not easy for Ye Chen to be able to make the blood god so active and come to the rescue.

"You Are you the supreme god of blood death

Gongyefeng's face is very ugly, and he has heard the legend of blood god.

If he doesn't get hurt and fight alone, he may still have the chance to defeat the blood god. After all, he is the superior.

But now, the blood god is numerous and powerful, and his arrogance is just blazing. He is alone. Where is the enemy?

"Well, you are also with the reincarnation master. I remember you. I'll leave for now, and I'll learn from you later."

Gongyefeng snorted, but he didn't dare to stay. He quickly turned to tear the void and wanted to escape.

"Now that I'm here, why should I go?"

When the blood god's eyes are cold, he rides on the Golden Dragon beast and suddenly breaks through the void. He swings his sword away from the fire. He uses a great Mongolian skill, Tiangang Jueming talisman!

All of a sudden, there were ferocious characters of Hongmeng from his sword, such as "kill", "absolutely", "fierce" and "fight". Each character had the dignity of Hongmeng road.

"Well! Can you stop me if I want to leave

Gongyefeng is not in love with war, but just flying forward.

Now he is not in good condition and is not the enemy of blood god, but after all, he is the superior and has a deep foundation. If he wants to escape, blood God may not be able to catch up with him.

"Roar!"

But suddenly, a very loud roar burst out from the throat of the Golden Dragon beast under the blood god's crotch, just like the sound of nine days thunder, and hit gongyefeng's eardrum hard.

"Poof!"

Gongyefeng was caught off guard. He was shocked by the roar, and his Qi and blood suddenly vibrated. If he wanted to tear the viscera, he spewed out a mouthful of blood, his head hummed, and he was seriously injured in an instant.

"Too God roared? "The great golden dragon?"

Gongyefeng looks at the mount under the blood god's crotch in fear.

At this time, he found that the mount of blood god was not simple, but a golden dragon beast. Although it was old, it was old and strong, and its breath was very powerful.

The Golden Dragon beast is the legendary supreme source beast. It is very powerful. This kind of source beast releases the roar of heaven. The power of battle roar is much more powerful than ordinary people.

Gongyefeng was shocked by the roar of war. He felt his Qi and blood rolling and could not calm down.

"Can I keep you now?"

The blood god's voice is indifferent. He rides the Golden Dragon beast to rush out. He rolls up the sword and leaves the fire and cuts it to the neck of Gongye peak.

Gongyefeng's pupils contracted, but there was no room to dodge.

Zheng!

He was about to be killed, but suddenly, a sword full of the breath of silence came out of the void, just blocking the blood god's sword.

The two swords hit each other, and the sparks splashed.

The blood god only felt an indescribable power of killing and cutting the sky. It was ferocious and passed on. He quickly left and flew away.

"Annihilating Heaven Sword, Hong Tianjing's weapon?"

But the chaos of time and space, see the face of a void.

A cold and arrogant man, full of sword spirit, emerges from the lost time and space. It is the annihilation sword spirit.

"Lord Jianling!"

Gongye peak saw that the annihilation sword spirit came and escaped from death. He was immediately surprised.

"Mr. Gongye, I told you not to act rashly."

Annihilated, the sword spirit's voice was cold, and his eyes swept the whole room, but he didn't see any extraordinary figure. He was secretly relieved.

In this world, he is afraid of only one person.

"Sorry..."

Gongyefeng is very ashamed. If it wasn't for annihilation, he would be dead.

Ye Chen see annihilation silence sword spirit come, is also sweat hair inverted vertical, immediately alert.

"At my command, form the battle!"

Blood god also felt the breath of annihilating sword spirit, which was extraordinary. Once the edge of Tianjian broke out, it was absolutely necessary to kill everything. Under the great threat, the blood god suddenly drank, and many of the strong men in the blood death prison immediately scattered and formed a big formation. They were connected with each other's blood and blood, and the whole formation was like a hell of death, besieged by the silent sword spirit.

Annihilation sword spirit eyes are still gloomy, glanced at Ye Chen one eye, way: "boy, calculate you today good luck, wait for my injury recovery, whether it is you, or your friend, or Ren Fanfan, I want your head to fall to the ground, wait for me!"

After that, annihilation sword spirit grabs Gongye peak, while the blood death prison formation has not been completely formed, a space-time jump, quickly away.

Annihilation sword spirit's escape method, mixed with the mystery of time and space jump, is very wonderful, all of a sudden completely leave, blood god also has no time to intercept.

"He has a strong breath."

Looking back on the dignity of annihilating sword spirit, the blood god could not help frowning and feeling threatened.

"Fortunately, this man didn't join hands with the Confucianists, otherwise we would have lost the hundred day agreement."

Ye Chen said: "blood god, don't worry about these, help blood dragon, he can't support it any more!"

"Oh?"

The blood god looked at the blood dragon and was surprised.

But the blood dragon's body, under the impact of the destruction of the keel, was out of shape. Almost all the scales peeled off. There were explosive wounds everywhere, and bone could be seen.

What's more terrible is that there are dense dragon shadows around, which are pounding the blood dragon's brain madly, and they want to give up.

Once the blood dragon is taken away, ye Chen, blood God and others will be attacked by him.

"Ouch!"

All of a sudden, the blood dragon roared and waved his paw. The endless blood burst out, and a paw hit Ye Chen's head.

"Be careful!"

Blood god see, immediately rushed to catch Ye Chen, pull him away.

Boom!

The blood dragon's paw suddenly smashed the void and made it run wildly.

"This dragon is going crazy!"

Many strong men in the blood death prison also felt the danger and fled to avoid the blood dragon.

Blood dragon eyes show struggle, pain looking at Ye Chen, way: "master, you go quickly, I can't hold fast!"

Chapter 5720

Now the blood dragon is about to be taken away. His spirit has been affected and he even attacks Ye Chen.

"Blood Dragon..."

Ye Chen's eyes contract. He didn't expect that the blood dragon's condition is so serious, but he can't leave the blood dragon alone.

"Suppress those dragon shadows first."

Blood god's eyes were calm and he quickly judged the situation.

Now the most dangerous thing is that the blood dragon will be taken away. Those dragon shadows are all the millions of dragon people who died in that year. They have a strong sense of demons.

Once the blood dragon is taken away, it is equal to being captured by the heart devil. It must be irrational. If it meets the emperor Shitian in the future, it may be controlled by the emperor Shitian. After all, there is a heart devil.

"How to suppress it?"

Ye Chen's face is dignified. It's the obsession of the million dragon destroying gods!

In those days, millions of dragon people were buried. How terrifying was their momentum, how determined was their determination, and how easy was it to be suppressed?

"Master Jinlong, it's your turn."

The blood God looks at the Golden Dragon beast under the crotch, and says.

"Yes, Lord blood."

The Golden Dragon has no nonsense. His eyes are as bright as gold, looking in the direction of the blood dragon.

"Battle roar, sky sound, break!"

At the next moment, the Golden Dragon suddenly opened its throat. It was loud and loud. It was like the roar of thousands of troops and horses, like the thunder of war drums. It was ferocious. It gathered into a torrent of sound and roared to the dense dragon shadow around the blood dragon.

It once again showed the roar of heaven, and the power of the roar of war was much stronger than when it just attacked Gongye peak.

After two times of fighting roar, the golden dragon is out of breath, which obviously costs a lot of energy.

And the power of battle roar is not disappointing.

The powerful battle roar sound wave, impact down, that many dragon shadows, immediately distorted, instantly was suppressed.

These dragon shadows are all the obsessions of the Dragon exterminators in those years. They can be regarded as the evil spirits of the heart. However, the heaven roars and says that the fierce and fierce fighting power just controls these ghosts.

All of a sudden, many dragon shadows were suppressed.

"The resentment of the Dragon exterminator is too deep. I can only suppress the time of incense."

Said the Golden Dragon.

"What's the use of a stick of incense?"

Ye Chen's eyes sank, just a little incense, what can blood dragon do? I'm afraid it's too late to breathe.

When the incense is over, the resentment of millions of dragon spirits will sweep over again, and he will still be taken away.

"Don't worry, one stick of incense is enough. I'll extend it for a thousand years."

Blood god came over and patted Ye Chen's shoulder, indicating that he should not worry.

"Extend the millennium?"

Ye Chen a Leng, but don't know blood god this is what meaning.

The blood god smiles a little, his hands are sealed, and the vast time rules are like the veins of the starry sky.

"Time Shinto, thousands of years!"

With a wave of the blood god's hand, many rules of time are shrouded in the blood dragon's body.

"Shinto of time! It turns out that you have this magic power

Ye Chen sees this, suddenly a burst of surprise.

The Shinto of time, like the Shinto of destruction, is one of the original three.

This kind of Daoism can reverse the rule of time. It's very powerful.

Ye Chen will naturally follow the normal rules of time, but this is the realm of heaven and man. The rules are very firm, and he can't easily break them.

But the time Shinto, has the primitive heavenly power, is enough to reverse the time and space, is very wonderful.

See all kinds of rules of time, shrouded in the blood dragon, blood dragon that painful expression, immediately relieved.

The wounds on the body are healing little by little with the speed visible to the naked eye.

His whole body, there is a circle of time vortex, wrapping his dragon body.

In this time vortex, the blood dragon's time rule is different from the outside world.

The time for him to spend a thousand years is enough.

"This time Shinto, if you want to reverse the millennium, I'm afraid it will cost a lot?"

Ye Chen looks at the blood god, but sees that the blood God doesn't speak, and his forehead is permeated with sweat, and his hair turns white.

"What's the matter with you?"

Ye Chen was startled.

"You're right. It's not easy to reverse the millennium. I have to bear a little bit of backfire, cough However, as long as it can help the blood dragon, it's not a matter of eating back. "

The blood god coughed two times violently, obviously it was not light.

Ye Chen is greatly grateful in the heart, way: "blood god, thank you very much, wait for the hundred day appointment to open, I will help you at all costs!"

The blood God said with a smile, "thank you very much."

With the help of the blood god, the situation of the blood dragon was much better all of a sudden.

He has thousands of years to recover from his injury, refine and absorb the breath of the bones of the dragon field. The Dragon Spirit resentment that the blood dragon fears most has been suppressed by the battle roar.

Without the threat of giving up, the blood dragon's whole mind is focused on the refining keel.

For thousands of years, the blood dragon has been absorbing and refining, turning the energy of the keel into its own strength.

In the eyes of Ye Chen, blood God and others, the long years of a thousand years is just a time of incense.

Therefore, ye Chen almost blinked, and saw that the blood dragon's body was bursting out with extremely fierce dragon power, full of extremely strong atmosphere of destruction.

Patches of golden light, patches of Shenxia, are also magnificent and diffuse, covering the whole void.

The wound on Xuelong has been completely healed, and the scales and flesh grow again.

Great vitality was born in the blood dragon.

The surging power is moving.

The skeletons of the Dragon battle field contain energy, aura, cultivation, supernatural power, Qi transportation, etc., which are transformed and absorbed by the blood dragon.

"It's a bad chance."

Blood god is also quite shocked, looking at this scene.

Long zhanye is the leader of the Dragon exterminator. At its peak, it was as powerful as Hong Tianjing. Why was Xiu so powerful? How magnificent was his spirit? The blood dragon absorbed the energy of his bones. It was a great creation.

Ye Chen said, "it's all thanks to you."

If there is no blood god to help, only a little time to burn incense, then the blood dragon is bound to fail, even have no time to breathe, how can refining keel?

But the blood god, with the time Shinto, endowed the blood dragon with thousands of years, full of thousands of years of long time, the blood dragon is naturally extremely smooth, successful refining keel.

"Ouch!"

A dragon roars.

It's time for a stick of incense.

Blood dragon from the vortex of time, flying up, the whole body, golden awn burst, eyes in the dragon power such as prison, incomparably strict.

At this moment, his breath is too terrible, just like the supreme dragon revives, and his majesty is rolling.

"Blood dragon, did you succeed?"

Ye Chen matchless surprise, ask.

Blood dragon Mou son a coagulate, stare at Ye Chen, but suddenly burst out murderous gas, roar a, a claw bombard come down.

Ye Chen was surprised. He didn't expect that the blood dragon would attack him suddenly.

Blood dragon paw to halfway, suddenly stopped, eyes showing a huge struggle and pain of color, said:
"master, I'm sorry..."
