

## Physician 5921

### Chapter 5921

Ye Chen is quite satisfied with looking at this scene, and then looks at the blood dragon and says: "blood dragon, I also have a gift for you."

Say, ye Chen offered a Dan Xian Hu, curtsey a bullet, a wisp of wine such as arrow shot, fell into the mouth of the blood dragon.

Blood dragon Yang throat swallow, but feel a very rich aura, melt in the body open, instantly all meridians comfortable, way: "master, this... What is this?"

He only felt that the spirit wine, the spirit of the strong, compared with the crape myrtle Star River Spirit water, but also a lot more powerful, is of great benefit to the cultivation.

Ye Chen said: "it's called Danxian wine. It has the effect of refining muscles and bones, improving qi movement, consolidating the foundation and cultivating the yuan. You are good at refining. It has a wonderful effect on stabilizing your foundation and helping you control Wanxiang Tianshu as soon as possible."

The blood dragon was overjoyed and said, "yes! Thank you, master

At the moment, he also sat down on his knees and entered the state of cultivation, refining the breath of the Dan Xianling wine.

When the Confucianists saw that the blood God and the blood dragon were training in their own territory as if they were alone, they could not help but get angry and yelled at Ye Chen:

"Boy, you are too arrogant to pay attention to me."

Ye Chen said: "I don't pay attention to you, what can you do?"

At this time, the Confucianist was attacked by the natural disaster of the dead, and he had been injured. His strength was up to 60%. Therefore, ye Chen was unscrupulous and didn't give him any face at all.

"No, no! Do you really think you are qualified to be presumptuous in my territory? "

"The natural disaster of the dead has been suppressed by me!"

The Confucianist roared up to the sky, but did not care to bite back. He urged Tianxing to release his disaster spirit and wanted to summon hundreds of millions of undead troops to fight ye Chen.

Hoo Hoo Hoo!

On the wish star, the disaster gas burst out, and there were countless ghosts and spirits from it.

Ye Chen scorned and sneered, "are you also called a natural disaster? I'll show you today what a real disaster is

Having said that, ye Chen suddenly pulls out the disaster sky sword on his waist.

All of a sudden, dark and turbulent disaster gas, straight into the sky.

In the disaster atmosphere, there is the breath of God's punishment. The endless thunderstorms, windstorms, fires and so on interweave with each other to block out the sun and form a thick disaster cloud, as if the doomsday disaster had come.

The evil spirit of the Confucianists was suppressed all of a sudden, and the means of the evil spirit could not be used.

"Puff!"

The Confucians opened their mouths again and spurted blood. Even in the blood, there were some broken internal organs, and their faces turned pale.

The magic power is restricted. He is attacked again. This time, the injury is more serious.

"What, disaster sword is in your hands!"

The Confucianist looked at the sword in Ye Chen's hand and trembled with horror.

This disaster Sky Sword is one of the eight sky swords.

The legendary supreme sword needs endless luck to hold one.

Ye Chen has possessed the wild demon sword, but the Confucians never thought that even the disaster sword is in Ye Chen's hands.

How majestic it is to be in charge of two heavenly swords. Is reincarnation really so rebellious?

The body of the Confucianist was shaking. I couldn't believe it.

Under the cover of all kinds of disasters, the whole Confucian temple fell into the atmosphere of doomsday, as if everything was going to collapse.

"Go, go!"

Many disciples of the Confucian temple lost their fighting spirit and ran away in a hurry.

Even Zhixuan and Ruyi, the two disciples of the Confucianists, also felt that the Confucianists had run out of breath and fled in embarrassment.

However, around the temple of Confucius, there is an invisible natural disaster barrier to resist. Someone bumps into the natural disaster barrier and is immediately entangled by infinite natural disasters and screams to death.

Seeing this scene, everyone changed color, and no one dared to escape.

It turns out that ye Chen has sealed off the Confucian temple, no one can escape, and everyone's life and death are controlled by Ye Chen.

Looking at this scene of betrayal and separation, the Confucians were filled with grief and indignation. Under the change of mood, they couldn't help laughing up at the sky and felt that they were doomed.

The fight between the strong, Qi Yun is very important, he betrayed, Qi Yun has all scattered, even if not injured, it can not be ye Chen's opponent.

"Xiaochonglou sword Qi, kill!"

Ye Chen's eyes were cold, and he waved the disaster sky sword, which was extremely strong and powerful, and turned into the glorious sword spirit of thousands of towers, that is to kill the Confucianists. This sword, ye Chen used all one's strength, didn't leave a bit hand.

After all, the strength of the Confucianist at the moment is the extreme of the nine levels of heaven in Taizhen. In the face of such a powerful enemy, ye Chen will not be careless even if the other side is at a dead end.

"Xiaochonglou Wudao? The No.1 pseudo nine gods

When the Confucians saw this sword coming, they only felt that it was so strong that they could not resist it.

During the period of Ye Chen's "fall", it was obvious that there was a great chance that he had mastered the first pseudotheocracy. The ferocity of this sword, even at the peak of the Confucian era, had to be terrified, let alone seriously injured at the moment.

In order to prevent the Confucianist from fighting back and exploding himself, ye Chen's sword Qi is so fierce that he has blocked the whole body Qi of the Confucianist and won't give him any chance to explode himself.

"Hahaha, Lord of reincarnation, it's easy for you to kill me. Follow me to be buried with you."

The Confucianist had a face full of white hair and a sad smile. All of a sudden, he worshipped the wish star. The whole planet was expanding and burst out with infinite gods. He wanted to explode.

"No!"

Ye Chen sees this scene, suddenly the facial expression changes greatly.

Chapter 5922

Although he prevented the Confucianist from exploding, he hoped that the Qi of wangtianxing could not be blocked.

This planet, ranking the first among the nine chaotic stars, is really powerful. Compared with Wanxiang Tianshu, it is no inferior. Even ye Chen can't block it.

Once the wish star explodes, it will be a doomsday terror.

The energy of this planet is too great. If it explodes, ye Chen may not be able to block it. Even if he doesn't die, he will be seriously injured.

The Confucianist's eyes were split, and his desire to sacrifice to heaven and stars was obviously that he was ready to burn both jade and stone and die together.

He is no longer Ye Chen's enemy, can only pull Ye Chen to accompany to bury together.

The disciples of the whole Confucian temple are also frightened and pale. Looking at the ever expanding desire of Tianxing, they are going to be buried with them.

Blood God and blood dragon feel the change, Qi Qi opens his eyes, showing a look of horror.

"Tomb master, please allow me to fight, I will stop him!"

At this time, in the reincarnation cemetery, the voice of the purple emperor of Beiwu came out.

"Master, do you have a way?"

Ye Chen eyes a bright, way.

He thought that the cause and effect of Beiwu purple emperor's search for the magic blood stone would be quiet all the time. Now it seems that it doesn't affect Beiwu purple emperor's action!

From the awakening of Beiwu purple emperor, ye Chen is quite curious. What is the strength of Beiwu purple emperor?

Generally speaking, the more backward the reincarnation cemetery is, the more powerful it will be!

Of course, there are exceptions.

It's like the old man.

Emperor Beiwu pondered for a moment and said, "I'll try. As for the effect... This is not my essence after all, and I can't guarantee it! "

Ye Chen said, "OK, please help me quickly."

The next moment, the sky is a rolling purple!

When the purple air comes to the East, the vision comes out!

Between lightning and flint, ye Chen borrowed the breath of the purple emperor of Beiwu.

Beiwu purple emperor's aura converges on Ye Chen.

"Is this the power of emperor Beiwu Zidi?"

Ye Chen feels that his control of martial arts is more terrible!

All of a sudden, ye Chen's whole body purple light burst out, such as a purple flame in the burning, the whole body breath soared to the extreme, muscles and bones click.

A brilliant purple emperor's robe was also draped on him.

"Yao guangzishu!"

Ye Chen drinks suddenly, looking at the sky star of the desire that expands continuously, suddenly a direction kills and comes out.

This finger, like the roar of the river, is the unique skill of the purple emperor of Beiwu, Yao guangzishu!

The light of Yao guangzishu penetrates the void and falls on the wish star.

Wish on the sky star, that riot aura, in an instant, by Ye Chen's Yao light purple art suppression, completely calm down.

The whole planet stopped expanding, and the smell of explosion was completely quiet.

Between heaven and earth, only Ye Chen's Heaven Sword disaster gas, no longer the breath of Confucianism.

"No!"

Confucians see this, issued a heartrending roar, full of unwilling, pupil continuous contraction.

He also wanted to take ye Chen to be buried with him, but he didn't expect that at the last moment, with the help of Beiwu purple emperor, ye Chen successfully suppressed the wish Tianxing and prevented him from any means of fighting back.

"Natural disaster is like prison, kill!"

Ye Chen's eyes are cold, waving the sword of disaster, mixed with the breath of God's punishment, and slashes the Confucians.

The Confucianist looks fierce, but no longer has any means to resist. With a puff, his body is cut in half by Ye Chen's sword, and his blood splatters.

After that, the broken body of the Confucian ancestor was completely turned into fly ash under the atmosphere of disaster.

"Laozu!"

Many disciples of the Confucian temple were shocked and frightened when they saw the complete annihilation and fall of the Confucian.

The hero of this generation, the Confucianist, was killed by Ye Chen directly at the moment, and even the body didn't stay. This tragic picture shocked everyone.

Blood God and blood dragon are also staring at Ye Chen.

In fact, they are not absolutely sure that they will kill the Confucians today. However, they didn't expect that at the last moment, ye Chen came to kill the Confucians and succeeded in revenge. "Thank you, master."

Ye Chen secretly thanks to Emperor Wuzi.

"Well, it's my duty to share the worries of the tomb owner."

The purple emperor of Beiwu was modest, arched his hand to ye Chen, and went back to the tombstone.

"Master, what are you going to do with these people?"

XUELONG looks at the disciples of the Confucian temple below and asks for instructions from ye Chen.

Ye Chen's vision is a cold, way: "all dispose of, a don't stay."

The news of his resurrection must not be disclosed, so these enemies must be dealt with.

What's more, the disciples of the temple of Confucius have been doing evil all these years, making the heaven and human world a mess!

Ye Chen's action is undoubtedly to eliminate harm for his name!

"Yes

The blood dragon respectfully receives the order and is ready to start cutting the grass.

Many disciples of the temple of Confucius, pale with fear, knelt down to beg for mercy one after another and said, "Lord of reincarnation, please forgive me! We are willing to surrender! Even if the blood essence is the oath

Blood dragon see this, pause, and then look to Ye Chen.

Ye Chen said to the blood god, "how do you feel, elder blood god?"

At this time, the blood god had recovered his youth, solved the problem of exhaustion, and appeared to be in high spirits. He said, "if you are willing to surrender, you can keep them. In the future, you can help us fight against the emperor yuan palace and the Queen's palace."

"These people's strength is not too high, sacrifice blood essence is very good control."

Ye Chen nodded slightly, then toward all humanity: "sincere obedience, can live, if there are two hearts, will kill no amnesty!"

Many people kowtowed and said, "thank you for not killing me! Thank you for not killing me

Ye Chen communicated with the map of huangquan and said to Qinglong Alsophila tree: "Alsophila, take care of this for me."

A Green Dragon flew out of yechen's body and said respectfully to yechen: "yes! Lord, I will deal with it."  
"

It's very complicated to take over the influence of the Confucian temple. Ye Chen, Xuelong and Xueshen meet again after a long separation. They just want to get together, so naturally they don't have any mind to take care of it.

Fortunately, ye Chen's staff, as well as Qinglong Alsophila tree, can handle it well.

Ye Chen is also under the control of Alsophila spinulosa. With the help of Feng Yu spirit tree, if the enemy has two hearts and doesn't really submit, he can find out all of a sudden, but he is not afraid of their rebellion.

This is how it is settled. The main culprit, Confucius, is dead, and the rest of the people are obedient. Those who sincerely surrender can live, and those who have two hearts will die.

"Lord, this man is not sincere and submissive."

The Alsophila spinulosa flies down and checks one by one. It is found that there is a monk who is obedient on the surface, but actually has the meaning of repetition in his heart.

Ye Chen saw that the monk was Zhixuan. At the beginning, he escaped and betrayed Confucianism.

"Since it's not sincere, kill it."

Ye Chen light way.

Chapter 5923

On hearing this, Zhixuan turned pale with fright and knelt down to say, "Lord of reincarnation, please forgive me. I'm really obedient. I'm willing to swear by my blood essence!"

Ye Chen, unmoved, said to the Alsophila spinulosa, "kill it."

Alsophila spinulosa replied, "yes!"

The next second, the dragon's claw was waved out, and with a click, Zhi Xuan's head was crushed, and his brain blood burst out, killing him directly.

Seeing these tragic scenes, all of them trembled and did not dare to have the slightest heart any more. They swore their loyalty to Ye Chen with their blood essence.

Ye Chen is suspended in the sky. Seeing the wish star, after the death of the Confucianist, he makes a lament and falls to the ground.

"Take it!"

Ye Chen grabs the wish star from the air.

I saw that the sky and the stars of desire were everywhere cracked, and it was obviously greatly damaged.

This planet, in the middle of the battle, suffered the impact of the blood dragon and blood god, and at the last moment, it was almost detonated by the Confucians, and the damage was already very serious.

"It's a pity if Tianxing is completely disabled."

Ye Chen frowned. He should know that the heavenly star is a magic weapon comparable to the book of heaven. It can realize all kinds of wishes with great fortune. If it is damaged or disabled, it will be a great pity.

"Lord of reincarnation, I have a way to repair the wish star!"

Just then, a sound came from the ground.

Ye Chen looked down and saw that the speaker was Ruyi, a female disciple of Confucianism.

If a pretty face turns white and her delicate body trembles, she has made an oath of blood essence and is willing to submit to Ye Chen. At this time, she shows loyalty to Ye Chen and says, "I have a way to revive the heavenly star."

Ye Chen's vision a bright, way: "Oh? What can you do? "

As soon as I look around, I feel hesitant, which means that there are too many people here to speak.

Ye Chen said, "you can come up to me."

Such as: "yes!"

The next second, such as flying to the sky together, standing beside Ye Chen.

Ye Chen says: "say."

Such as a way: "wish star has been damaged before, I once went to the far north sky sea with the Confucians, found a spiritual object, and finally repaired it."

Ye Chen's pupil slightly shrinks, a way: "far north sky sea?"

As soon as he saw Ye Chen's face, he said, "Lord of reincarnation, have you ever been to the far north sky sea?"

Ye Chen knew that he was destined to be related to the cause and effect of the far north sky sea, and said: "you don't have to worry, what is that spirit thing?"

As a saying goes: "it's a kind of natural material called crimson chalcedony, hidden under the submarine volcano."

"Scarlet chalcedony?"

Ye Chen deduces the secrets of heaven along these four words. As expected, he finds that it is related to the wish of heaven and stars. These treasures may really be able to repair the wish of heaven and stars.

"Very good, I know. You tell me the clue, and I will reward you with a bottle of holy water."

Ye Chen nods and gives Ruyi a bottle of holy water.

As a happy way: "thank the reincarnation of the Lord reward."

Ye Chen thought to himself, "I can't imagine that the spiritual things that repair the wish stars are in the far north sky sea. This is really a coincidence of cause and effect."

Li Feixue and Li Qingshan are both trapped in the extreme northern sky sea. Xiao Qingyan is also waiting for him by the sea. He was going to return to the extreme northern sky sea. At this time, he can also find the spiritual things to repair the wish stars. It's really wonderful.

Blood dragon way: "master, I also want to go."

The blood god frowned and said, "it's said that the law of the far north sky and sea collapses. It's extremely dangerous. Since you all go, I'll follow you. Ye Chen, when are you going to start?"

Ye Chen said, "go right away!"

The blood god was surprised and said: "so urgent? Why don't we go back to the blood prison first and get together again. "

Ye Chen shook his head with a bitter smile and said, "I'm in the far north Tianhai. There's something very important to solve. We can't delay. When we solve the problem over there, we'll have a good reunion. By the way, we'll call our predecessors to have a drink together."

Ye Chen shakes Dan Xianhu, and the aroma of wine diffuses out. He agreed to drink with Ren Fanfan at the beginning, but because of too many chores, he didn't have this idea.

But now, the Confucianists have been put to death, and ye Chen has solved a great hidden trouble. It's time to drink and celebrate.

However, before that, we have to solve the cause and effect of the far north sky sea!

Li Feixue and Li Qingshan are two brothers and sisters. They have also stepped into the far north sky sea. They don't know why. Ye Chen has to go to have a look.

Blood dragon way: "master, I all listen to your arrangement."

The blood god pondered: "this side of the Confucian temple..."

Ye Chen looked at the Alsophila tree and said, "just leave it to me. Alsophila tree, you can take people back to the blood death prison. As for the gate of the Confucian temple, you can destroy it without leaving any trace."

Destroying the Mountain Gate of the Confucian temple can make those who surrender completely give up their heart. They will not have any idea of restoration in the future and will obediently submit to Ye Chen.

Alsophila spinulosa replied, "yes!"

Ye Chen nodded, things properly, then to the blood dragon, blood god two humanity: "let's go, to the polar north sky sea!"

With the help of blood God and blood dragon, it can be safer.

But just when ye Chen is ready to leave, the mysterious demon blood essence in Ye Chen's body unexpectedly bursts out the extremely powerful meaning of Dao Yun!

This is the first time that Xuanyao's blood essence changes!

Not only that, ye Chen's body, the sky demon mark and Xuan demon mark suddenly appear, but also burst out a burst of light!

At the same time, that familiar sky demon voice unexpectedly once again rings out!

"Boy, long time no see. How about we make a deal?"

Ye Chen a Zheng, this day demon ancestor how suddenly appeared?

He once suspected that this guy had dissipated!

Ye Chen soon calms down and says: "what's the matter?"

The first ancestor of the demon said, "if it wasn't for the cause and effect of the earth's heart, I might not have appeared..."

"As for the deal, I want you to go back to the center of the earth right now and help me get something that belongs to me."

Ye Chen a Zheng, Li Feixue now safety don't know, how can he this time return to the earth heart domain?

"No way!"

Ye Chen resolutely refused!

He must go to the far north sky sea at once!

But at this time, the voice of the demon sounded again:

"You don't have to worry about those two guys. They're going to last a little longer. The spirit of the disaster Sky Sword is not so easy to fall

"Besides, it won't take you long."

"But what I ask you to do is extremely important!"

"Even because of you! If you didn't accidentally appear in the geocentric domain and interfere with the cause and effect of the geocentric domain, our layout would not have come ahead of time! "

"If you don't go, not only you will have an accident, but also Ren Fanfan! There's going to be an accident in the whole heaven and earth! "

"I'm not alarmist!"

"It's so important!"

Chapter 5924

Ye Chen expression dignified, he is also very clear, day demon won't talk nonsense with oneself.

Now the words of the demon are so serious that something really happened!

But what is it?

Ye Chen thought deeply for a moment and continued: "can you guarantee that Li Feixue won't have an accident?"

The sky demon cold hums: "if that elder sister and younger brother have an accident, I then road heart destroys!"

Ye Chen just put down his heart and said: "OK, I'd like to go, but I won't stay for long! And I want to know the details! "

"By the way, the rules of the earth's core are powerful. How can I step into them?"

Day demon light way: "if not that day arrived immediately, I just won't waste time to look for you."

"As for how to step into the center of the earth, for you, there may be only one way, but for us, what are the rules of the center of the earth? Just tear the void!"

"Boy, be ready. I'll take you away after a stick of incense! Remember, this time, you have a mission

Ye Chen nodded: "good."

Later, he turned to the blood dragon and the blood God and said, "you go back to the blood death prison first. I'll leave for a few days and deal with an urgent matter. I'll come back as soon as possible!"

Blood God and blood dragon look strange, but still nod.

"Master, be careful!"

"Ye Chen, if there is any need, my blood god will appear!"

Ye Chen's vision a congeals, then is toward a direction but go!

Soon, ye Chen was suspended in the air and said: "the sky demon, how do you do it?"

The first ancestor of the demon said: "because the space between you and me is too far away, my ability to tear the void is limited. Later, I will suppress the rules of the earth's heart for a short time and send you in! But I'm not sure what you'll see in it! "

"The geocentric region you entered is just the tip of the iceberg. The complexity and danger of the geocentric region are far beyond your imagination!"

"You must live and help me get that thing! Sure! "

"If we fail, then our layout will be a complete failure!"

Ye Chen looks very serious, but when you think about the seriousness of the matter, you still have some doubts in your heart.

Does the existence of the level of the first ancestor of the demon have a side of awe?

How many secrets are hidden in the earth's heart?

Before ye Chen thought clearly, the space in front of him broke completely!

A chain like the sky demon God rope wound Ye Chen rigidly, and then, fiercely pulled in!

Ye Chen's figure instantly disappeared in heaven and man!

.....

I don't know how long it took.

The turbulence surged.

In the void, the fierce wind, with the power of thunder and lightning of the law of destruction, blows violently from different directions.

In the milky white fog, a suit of robes made a sound of hunting, like a broken leaf, which was swept around by the strong and violent air.

An indifferent figure emerged!

It's Ye Chen!

Ye Chen is a little shocked. The first ancestor of the demon can do this method even though he is in different planes. What's the strength of his noumenon?

But he was sure he was back in the middle of the earth.

But it seems that this place is different from the place where the three ethnic groups came last time

The rules here are more terrifying! The key is that there is a breath of destruction in the air!

Ye Chen fingers pinch Jue, dust monument guard the whole body, a armor emerged!

At the same time, the seal of destruction rises from the body, which barely protects the body.

In the face of such a situation, ruining Daoyin obviously has the most right to speak!

At this moment, a violent force of thunder and lightning suddenly appeared in front of him and slashed at him.

Ye Chen wanted to use the disaster sword, but found an invisible obstacle to control the disaster sword. The disaster sword could not even be sacrificed!

Not only that, but also the map of the yellow spring is closed by some force!

Weird!

It's weird!

The voice of the demon sounded again: "it's getting closer and closer to that day, and you are now in the center of the earth... Some special."

"As long as that day doesn't come, it will."

"Take care of yourself. I'm going to have a short sleep."

Ye Chen wants to scold, this day demon also too unreliable!

But it's time to land as soon as possible!

Since we can't use the disaster Heaven Sword and the wild devil Heaven Sword, we should use the Sha sword!

Fortunately, the fire of the spirit and the seal of destruction can be used!

I don't know what happened to the rules here.

Step by step.

Ye Chen holds the evil spirit sword in hand, suddenly drinks a way: "break!"

The fire of the Taoist spirit spurted out from the body of the evil spirit sword and cut into the power of thunder and lightning.

After a "crackle" sound, the fire of Daoling burst, and the power of thunder and lightning disappeared.

What he didn't expect was that due to the fierce attack, the greater turbulence in the void was disturbed, and a more powerful airflow swept towards him again.

Ye Chen felt the strength of the current and didn't dare to fight any more. He immediately guarded his mind and let the current take him to the unknown direction

"Bang..."

Violent fall impact, hit a big hole on the ground.

Although did not receive what harm, but the appearance that leaf Chen crawls out from the pit, still some are embarrassed.

Looking at the boundless wasteland in front of him, he couldn't help sighing: "I finally arrived at the heart of the earth safely, and I don't know how far it is from xueningqian and Mojia."

But the turbulence made me not know where I was. Looking at this desolate scene, I should be in a remote place in the heart of the earth, even far away from the place where I met Mo's girl before.

However, before the war with the Confucianists, the powerful energy tore the void and entered by accident. This time, it was on its own initiative and would not appear in the original place.

"Let's leave here first. I don't know why the demon guides me back to the earth's heart."

"What is his level of existence afraid of?"

"What is it that he wants?"

"Why force this at this node?"

Ye Chen thinks like this, immediately flies body but rises.

As soon as he reached mid air, he noticed something was wrong.

A kind of pressure kept pulling him, making him unable to fly too high from the ground.

The power of the rules here is even more terrifying than where they came before?

For a time, ye Chen couldn't get the exact answer, so he could only fly slowly close to the ground.

Even so, the continuous pressure, still let him feel the lack of energy in the near future, had to land again.

He sat cross knee, just about to recover, suddenly aware that there is something wrong under him!

The soil under his body becomes soft and incomparable, like viscous liquid, sucking his body down.

Ye Chen jumped up in a hurry.

Within sight, the tawny dust quickly turned red, and soon became a sea of blood, with a pungent smell of blood.

"Boom!"

On the rolling sea of blood, it suddenly ignites a raging fire, and the tongue of fire dances wantonly under Ye Chen's body.

Chapter 5925

"What's going on?"

Doubts have not dissipated, the sea of blood waves have been rolling flames toward him.

As soon as he dodged the blow of the bloody wave, the blood red giant fish on the wave had already jumped up and opened its tusks to bite him off.

At this time, it's too late to escape. Ye Chen's eyes are looking at the sharp teeth of the giant fish. He's already in front of his eyes. He holds the Sha sword tightly. Instead of retreating, he rushes forward.

He just wanted to use the sword Qi of xiaochonglou, but he was surprised to find that the rules here still have restrictions on this martial art!

Or is this the limit of array?

"Where on earth am I now? Why

Seeing the prey coming to the door, the giant fish closed his mouth and fell into the sea of blood.

"Wow..."

The giant fish that is about to fall into the sea of blood suddenly tears his head open, and the bloody Ye Chen appears in the air again.

"Bang!"

The huge fish, torn in two, burst open and turned into a pool of blood.

Ye Chen hasn't had time to breathe, and then a bloody dragon appears again in the churning sea of blood.

It kept circling in the air for a long time, and then it pounced on Ye Chen.

Ye Chen doesn't dare to be careless, and holds the sword to fight up again.

The bloody dragon rushes in front of Ye Chen, and his mouth is full of fishy smell, and the red flame spurts out.

"Master, leave it to me."

Yan xuan'er's voice came suddenly.

Then, a little girl was suspended in mid air.

Ye Chen smiles a little. As the fire spirit of the fire of Tao spirit, no matter what flame, what can it do?

He dashed over safely, ignoring the dragon's flame.

Yan xuan'er greedily inhales the dragon's flame and belches with satisfaction.

Ye Chen rushed to Jiaolong not far away, offered a sacrifice to shajian, and slashed at his opponent's head.

Jiaolong suddenly lowered his head to avoid, but he was still cut off half of his horn by ye Chen's sword.

However, ye Chen then saw the horn on Jiaolong's head, recovering at the speed visible to the naked eye.

This recovery speed is even more terrifying than myself!

He immediately understood that both the giant fish and the dragon were transformed by the sea of blood, not the real beast.

At this time, Jiaolong's tail has been drawn hard. Ye Chen dodges and cuts it down with a sword, and cuts the dragon in two.

While the other side has not yet recovered, ye Chen quickly cuts down Jiaolong's body, and soon he has cut his body into more than ten sections.

The Dragon turned into blood again and fell into the sea of blood.

"Are you in the magic array?"

At this time, ye Chen finally understood his situation. He was fighting against all kinds of strange animals in the sea of blood, and thinking about the way to break the battle.

The key is that he controls the inheritance of taixuan array emperor, and he can't see through these arrays.

I'm afraid it's only Huang Lao who can do it.

No matter who set up this array, as long as the other party is not willing to open the array and let himself out, he can only break the array.

Otherwise, you can only be swallowed by this array.

And the formation of this array is not like that set by the good people. If you want the other party to take the initiative, I'm afraid it's even more whimsical!

Although these demonized beasts are not powerful, it is enough to consume energy to keep flying in this array. Moreover, energy and aura are rapidly consumed under constant fighting.

Ye Chen has already felt tired at this time, but he can only keep fighting under the entanglement of other animals

Finally a careless, he was leaping out of the sea beast attack success, to the burning flames of the sea of blood, suddenly fell down.

"Wow..."

As soon as ye Chengang fell into the sea of blood, he immediately felt the strong dead air around him and attacked his body.

He quickly stabilized his mind, protected his body with the perfect dust stele, and at the same time offered the seal of destruction to resist the death everywhere.

However, the spirit of death was much stronger than himself. The stele and the seal of destruction could not resist it at all, and soon it shrank to a foot or so in front of him.

But Yan xuan'er is very happy, because the fire in the sea of blood is also inexhaustible, so she has no scruple to absorb.

Seeing that ye Chen's dust tablet is about to be compressed into his body, and his breath is about to attack, Yan xuan'er smiles and says, "master... Xuan'er thinks about it. It's better to call you childe. Childe, let me help you!"

The fire of Tao spirit, Yan xuan'er suddenly ignites, and merges with the flame in the sea of blood. Ye Chen suddenly feels the pressure light.

At this time, he found that as long as he was in the sea of blood, there would be no more fantastic beasts to attack him.

With Yan xuan'er's help, he can have a short breath.

What's more, in this sea of blood, the fire of Daoling quickly assimilates the flames around, and seems to become more powerful.

This makes Ye Chen no longer anxious to leave.

After calming down, he made another discovery

.....

At the same time, in the heart of the earth, in an ethereal Mountain Gate.

"Hello! Are you here to be lazy? "

A shout suddenly rang out, so that hiding in the corner of the two people drinking scared.

When he saw the identity of the Chu people, one of them said with a smile: "it's brother Du. Let's have a drink. This bottle of wine from brother Zhou is the dragon bone wine of ten thousand years! Some of the best sellers are said to have a match with the Danxian wine in the Danxian gourd... It has a wonderful effect on increasing Qi luck. "

Chapter 5926

Elder martial brother Du picked his eyebrows, took the wine cup from the other side, sipped it, and nodded with satisfaction.

"Wine is good wine, only..."

"Brother Du, just like it." Younger martial brother Zhou said with a smile, "there are still half bottles left here. We will send them to elder martial brother's room later. As long as we are lazy, don't let the master know."

"Master, it's easy to say. I tell you, I've come to you, but I've come with Yu Zhi, the left Dharma protector!"

Two people smell speech, quickly salute, say: "subordinate listen to protect law Yu Zhi!"

"The left Dharma protector has an order. Recently, the void and undercurrent are surging outside the gate of the mountain. You are asked to guard the gate tightly to prevent accidents."

After announcing the left Dharma protector's order, elder martial brother Du reproached him with a slightly relaxed tone: "at this time, you dare to be lazy. If something happens, it depends on what you do!"

"So it is."

The two disciples were relieved and said, "don't worry, elder martial brother. The more serious the void turbulence is, the safer the gate array will be. Who dares to rush into the mountain gate at this time? "

"Some time ago, I heard that there seemed to be a stranger from the three ethnic groups. He made a big noise and stole Dan Xianhu, the leader of the verdict. He was very angry, but it didn't affect us... I don't know if the boy is still alive."

"Take care of yourself."

Elder martial brother Du dropped this sentence and turned to leave with his hands behind his back.

Naturally, the two disciples who guarded the mountain gate formation did not dare to drink any more. They put away the wine bottle and went to check the formation.

When they came to the center of the mountain gate, they were shocked!

"It's broken! Someone broke into the battle

What's worse, they don't know when the other party broke into the battle. If the Dharma protector knows, their lives will not be protected!

"Don't be afraid, younger martial brother Li. There's still time!" Younger martial brother Zhou said calmly, "the power of killing the gods with blood. As long as we kill each other in the array, we will not be aware of it."

"Good!"

Two people quickly each guard a place, enters the spirit Fu, will the mountain gate big formation active movement.

Ye Chen completely immerses his mind and quietly realizes the dead spirit in the sea of blood, and finally makes him feel the dead spirit, which has something in common with his own destruction seal.

If this continues, his destruction seal can even break through again!

Just as he was about to feel something, the calm sea of blood suddenly surged again. In the turbid blood, an invisible hand suddenly held itself in it.

"No! Someone controls the array

Ye Chen quickly resists again.

Yan xuan'er, who has a good meal, excitedly helps him fight with the fire of the Taoist spirit and destroy the Taoist seal. This is the only way to support him. He doesn't let this big hand crush him.

"Dust stele guard!"

The stele opens about three feet in front of the body. Ye Chen holds the sword with a pinch, drinks it fiercely, and instantly cuts out the sword Qi.

Since we can't use some martial arts, we can only crack it with strength!

"Bang!"

The sea of blood burst and the invisible pressure dissipated.

"Poof..."

Younger martial brother Li suddenly spat out blood and covered his chest.

"Younger martial brother Li, are you ok?" Seeing this, younger martial brother Zhou asked eagerly.

Younger martial brother Li waved his hand and said, "the other side is a bit of a Taoist. Empty hand is broken by him."

Younger martial brother Zhou pondered: "in that case... Younger martial brother Li, you guard the battle, I'll meet him!"

"Brother Zhou, be careful!"

Younger martial brother Zhou sits on his knees, pinches Jue and draws a bloody mark on his brow. Suddenly, a bloody shadow disappears in the air.

.....

At the same time, ye Chen in front of the void wave!

"Bold! Empty hand can't help you, let me use the blood array giant god to destroy you

A huge voice came from the top of his head. Ye Chen looked up and saw a huge blood figure not far ahead. His tall body was more than 100 feet. Within the sea of blood, he could only see half of each other's body.

Ye Chen rushed out of the sea of blood and came to the sea. The huge bloody figure had slapped himself.

He held the sword to meet him, and the moment that the Sha sword hit the palm of the opponent's hand, he had been slapped and fell back into the sea.

"Well! But that's all

The blood array giant God said in a voice, walking slowly to Ye Chen.

Ye Chen knew that this was the person who controlled the array. He said in a hurry, "master, I didn't mean to break into your array by mistake. Please open up and let me out."

"It's easy to say. I, xuanxuezhong, don't come as soon as you say and go as soon as you say! Now that I'm in the blood killing and God killing array, it's useless to say more. I'll leave my life! "

Younger martial brother Zhou thought in his heart, open the battle and let you out. How can I explain to the Dharma protector?

Today, you must be buried in the sea of blood!

Thinking of this, he controls the incarnation of blood array giant god, mercilessly clapping Ye Chen on the sea again.

Xuanxuezhong?

Ye Chen hears this name, the heart suddenly sinks.

I have heard about this sect. In the ancient books of the Mo family, it is mentioned that the earth's heart is so vast that it is obviously impossible for the three clans and the judgment hall, and even there are many hidden forces.

Xuanxuezhong is one of them. It's really not a orthodox sect. It seems that we can't be good today!

In that case

If you want to fight, fight!

Ye Chen gets up the spirit, after dodging the attack of the bloody figure, flies forward and takes the other side's face with a sword.

The blood array giant God moves slowly. Although he can't avoid the other side's sword, younger martial brother Zhou doesn't want to avoid it either. He is fighting with the other side's sword, and the other hand has already grasped Ye Chen.

Ye Chen's sword is successful, and the whole face of the blood array giant god is cut a huge wound by his sword, but he is also caught by the other side.

"Ha ha ha..."

Deafening laughter, holding the palm of Ye Chen's body more tightly, another giant palm also gradually moved over.

If you can't get out as soon as possible, ye Chen will die here.

"Destroy the seal, break it!"

Ye Chen drinks loudly, now the destruction road seal has not been limited, but can use more!

The seal of destruction burst out of his body, and Shengsheng stretched out his huge hand.

He hurried out, soul body transformation, sword in hand, to the top of the other hand rushed.

"Yan xuan'er, help me!"

At the moment, Yan xuan'er has absorbed a lot of energy and is extremely strong. It's the right time to use it!

On the Sha sword, the fire of the Taoist spirit is blazing. A sword pierces the giant hand, and ye Chen comes to the giant figure in an instant.

What is the weakness of such a giant figure?

Ye Chen thought quickly, and after a moment, he had a way to deal with it.

He once again rushed to the giant's face, sword left hand, backhand sword, a flash of flame arc, from the giant temple side, deep slide to the other side.

After turning to the giant's back, ye Chen sneaks into the sea of blood and comes to the giant's feet.

Shajian aimed at the giant's ankle and cut it down.

After counting the swords, the giant finally softened and fell on his knees in the sea of blood.

Chapter 5927

Ye Chen keeps up his efforts and slashes at the other foot. At last, the other side's body doesn't support and collapses.

For ye Chen, the fallen giant is just like the fish on the chopping board at his disposal.

"You..."

The giant screams and still threatens Ye Chen: "you will not come to a good end if you are against xuanxuezhong!"

Ye Chen said with a sneer: "that's what you won't let me go first!"

.....

meanwhile.

"Elder martial brother Zhou!"

Seeing that younger martial brother Zhou's face suddenly became extremely ugly, younger martial brother Li knew that he was in bad condition and cried out in a hurry.

Younger martial brother Zhou could only moan meaninglessly, and there was no way to respond.

The blood array giant god is different from his empty hand. He needs to let the spirit enter the incarnation. Although there is no noumenon in the array, once the incarnation dies, the spirit cannot return to its original position, and it is difficult to protect himself.

At this time, younger martial brother Zhou suffered a disastrous defeat and was worried about his life at any time.

Younger martial brother Li knew that with his own strength, he would never be able to compete with those who broke into the array. He hit three runes to keep the array running, and then rushed to elder martial brother Du's room for help.

Seeing younger martial brother Li coming, elder martial brother Du asked with a smile, "have you come to deliver me wine?"

Younger martial brother Li said with a dispirited face: "elder martial brother Du, it's not a good thing!"

Elder martial brother Du looked at younger martial brother Li's frightened look and quickly asked, "what's the matter?"

"Elder martial brother, help! Someone is rushing into the battle in the Mountain Gate of the inner earth. Elder martial brother Zhou and I can't stop it. Elder martial brother Zhou's life is at stake now!"

"Show me!"

They hurried back to the center of the array. At this time, younger martial brother Zhou's situation was even more critical.

Seeing this, elder martial brother Du sternly scolded: "I'll protect the array. Go and report to the Dharma protector quickly!"

"No, elder martial brother!" Younger martial brother Li begged bitterly, "if the Dharma protector knows about this, we will lose our lives. Please help elder martial brother du to wipe out the villain and save elder martial brother Zhou!"

Elder martial brother Du pondered for a moment and did not comment.

"Elder martial brother! If it's too late, it's too late!" Younger martial brother Li begged bitterly, "once this matter is over, elder martial brother Zhou and I will remember elder martial brother's great kindness. Elder martial brother will take the lead in everything!"

"All right."

Elder martial brother Du finally nodded and said, "I'll check it first."

Ye Chen faced the giant who had no power to fight back, and soon eliminated him.

Just as the giant dissipated, Xuan Hanyu, who had been sleeping, suddenly said, "catch it!"

"What?"

Ye Chen had some differences, and then he found a blood red bead in the giant's body, beating like a heart, rising from the sea of blood. He rushed over and grasped the blood bead in his hand.

Xuanhanyu then explained: "this blood bead contains the spirit of the living, and is full of the meaning of extinction. It's very good for you. It's a rare treasure."

Ye Chen hears her to say so, then will blood bead carefully put away.

After collecting the blood beads, he realized that he had to think of a way to break the battle as soon as possible.

Although the person who controlled the array has been eliminated by himself, xuanxuezhong must have more than this method. If he can't break the array as soon as possible, he doesn't know what kind of method is waiting for him.

But it's not easy.

Blood also belongs to the attribute of water, but flame is the attribute of fire. This blood killing and God killing array can combine the two attributes of Xiangke into one array. It's naturally exquisite. Can you think of a solution casually?

If you can find the location of the array eye, I'm afraid it's possible to crack it.

Thinking of this, ye Chen began to look carefully in the sea of blood.

But the boundless sea of blood, everywhere does not seem to be different, which makes him in trouble again.

At this time, the sea of blood is transformed and regenerated.

In the tumbling sea of blood, the flame suddenly flashes golden light. It shoots like a sharp arrow. Ye Chen can't avoid it, and is cut several wounds by the golden light.

It seems that there are new players in control.

He yelled to the other side again: "is that how xuanxuezhong treated the guests?"

Elder martial brother Du looked at the body of younger martial brother Zhou, which had been cold for a long time, and said in his heart, "a stranger who broke into the mountain gate and killed younger martial brother Zhou, does he mean to call himself a guest?"

Ye Chen sees nobody to reply, have to sigh a way: "since so, that also don't blame me to be merciless."

He dodged the golden light sword everywhere in the sea of blood and went up to the sea.

When ye Chen came to the sea, he found that the dim sky suddenly flashed with stars.

Seeing this, brother Li, who is guarding elder martial brother Du, looks surprised and asks, "elder martial brother, are you going to start that one?"

Elder martial brother Du nodded and said, "if you want to kill foreigners as soon as possible and avenge younger martial brother Zhou, you have to take Tianluo flame array!"

"But..."

Younger martial brother Li hesitated for a moment, but at the thought of the dead younger martial brother Zhou and the disaster they had caused, he swallowed his words.

It's not that elder martial brother Du doesn't know what younger martial brother Li wants to say, but he has his own plan in his heart.

Although there is no leader's order to launch Tianluo flame array without authorization, since the other side can break the giant god of blood array of younger martial brother Zhou, it is very difficult for other means to work unless they come down personally.

Anyway, it's not his own fault. Why should he take the risk.

Thinking of this, elder martial brother Du sneered and urged lingfu.

"Bang", the flame on the sea suddenly ignited several Zhang high, although there is no threat to Ye Chen, but still scared him.

Then the stars in the sky began to flicker regularly. In a short time, the stars formed a golden net and slowly fell down.

When the huge net dropped to a certain height, the flame on the sea rose sharply, and connected with the huge net. The golden flame and blood flame went up and down, burning Ye Chen at the same time.

Ye Chen looks at the decreasing giant net and understands that the other party is trying to trap himself back into the sea. Maybe he will use the giant net to capture himself.

After that, there must be no good fruit to eat.

Before I had time to think about it, the golden light arrows and blood colored water arrows on the sea kept shooting into the sky.

Ye Chen has no good way to these light arrows and water arrows. He can only keep avoiding them. He can only use the dust stele and the big starry sky to stand around his body and resist.

This is definitely not the way to go on.

It is urgent to break the battle.

In the sea of blood, ye Chen had already checked for a long time, and found nothing, but the huge net in the sky attracted his attention.

Although the huge net is as boundless as a sea of blood, he found that the brightness and size of the stars vary with each dozens of distances.

In addition to the incompatible elements of water and fire, the golden element of golden light and the earth element of the sea floor also appeared in the blood killing and God killing array. The five elements are missing one, but the wood is missing.

Ye Chen calculates in the heart for a while, and immediately understands the law of the giant net on the top of his head. As long as he attacks the position where the missing wood element should exist, he can break the giant net.

Chapter 5928

When he made up his mind, he sacrificed the Sha sword, transformed the soul into the body, and destroyed the Tao seal. With the blessing of the fire of the Tao spirit, the huge net broke where the Sha sword went

Ye Chen, who broke the net, did not stop and continued to fly to the sky.

What the sword point to must be the eye of the array!

As ye Chen rose higher and higher, the pressure on his body became greater and greater. He clenched his teeth and continued to impact high into the air.

As long as you get rid of the eyes of the array, you can get out of the array!

Finally, before he was exhausted, shajian felt a huge impact, followed by a huge burst

Blood kills the God array, break!

"The array is broken!"

Elder martial brother Du was shocked and yelled at younger martial brother Li: "go and tell the Dharma protector, the thief will break out soon!"

"But..."

"But what, but!" Elder martial brother Du immediately became angry and said, "once the thief enters the mountain gate, you and I will not live like death. Go quickly!"

At last, younger martial brother Li realized the seriousness of the matter and hurried to the left Dharma protector's cave.

.....

At the same time, the heart of the earth, xuanxuezhong, left Dharma, xuekulingzun cave.

When he heard that the guard disciple of the mountain gate asked to see him, he said, "a little guard disciple of the mountain gate, why don't you find your master first if you have something to do?"

Before he finished speaking, younger martial brother Li had already broken into the cave.

"The Dharma protector is not good. Some thieves have broken through the mountain gate!"

"If you don't want to guard carefully, how can you let people break into the big formation... What do you say

Younger martial brother Li said with a bitter face: "that's right! The array is broken. The thief is about to break into the mountain gate! "

"A bunch of trash!"

Xueku lingzun was very angry, and his body had already floated out of the cave. Before he left, he didn't forget to clap his hand. Younger martial brother Li fell under his hand.

Xueku lingzun sent out the signal of the enemy's invasion. Before he came to the Mountain Gate alone, he saw that the mirage formed by the mountain gate formation had completely disappeared. A man with an indifferent look was standing there.

Ye Chen breaks through the illusion of killing the gods with blood, and finds that he is in the middle of a high peak. Above his head, the void is flowing wildly, and the mountainside is still covered by clouds.

The so-called wasteland does not exist. On the contrary, the mountain peak here is unpredictable.

This is the real geocentric scene.

Not far in front of the mountain road, there are three big characters written in blood red:  
"xuanxuezhong."

The first time I stepped into the heart of the earth, I met the judgment hall. The second time I stepped in, I inadvertently entered the xuanxuezhong mountain gate array, and even broke the other people's mountain gate array. No one was lucky.

At this time xuanxuezhong Mountain Gate is in front of you, but ye Chen doesn't dare to step into half step, or take advantage of the other party didn't chase, as soon as possible to leave.

Just thinking about this, the shadow of the Mountain Gate flashed by, and an old man appeared under the mountain gate.

Looking at the indifferent man standing on the mountain road, Xueku lingzun angrily scolded: "where are the mole ants? How dare they break into our Xuanxue sect? Report your name quickly!"

Seeing the presence of Zhengzhu, ye Chen quickly clasped his fist and saluted, saying: "in the lower part, ye Chen accidentally broke through the Mountain Gate of guipai. Please forgive me..."

Ye Chen tries to make his tone modest and respectful, but in the ears of blood withered spirit Zun, it's not the same thing at all.

How modest the tone of the other party was, how ironic the blood withered lingzun felt.

What is to break through the Mountain Gate by mistake?

The mountain gate array is an important gateway of a sect. Can it be broken at will?

Over the years, xuanxuezhong has seldom been involved in the outer world in the earth's heart, and has established a profound dignity.

The boy said that he accidentally broke the mountain gate array, which means that their xuanxuezhong's blood killing and God killing array is just for fun?

When the blood withered Ling zundun was angry, he didn't come out and yelled: "shut up!"

Ye Chen sees this and says in a hurry: "I'll leave here and never stay for a moment."

With these words, he turned around in a hurry and wanted to go down the mountain.

"How can we just leave if we break the gate of xuanxuezhong mountain? Is it true that there is no one in xuanxuezhong? "

Ye Chen hears this sentence, can only stop a pace, looking at in front of this breath far exceed own existence, in the heart think what to do.

It's very strange here. The small tower palm, the fake nine gods and even the map of the yellow spring can't be used, so their strength is greatly reduced.

If you fight this man, you will die.

At this time, senior brother Du had arrived at the mountain gate.

Seeing ye Chen's figure, he quickly pointed to each other and said to Xueku lingzun, "it's him who breaks the battle to kill! The Dharma protector can't let him leave! "

"What?" Blood withered spirit Zun smell speech, more angry, "this kid not only break the battle, also killed our people?"

Elder martial brother Du nodded and said, "yes, Dharma protector! Younger martial brother Zhou, who was on duty at the gate of the mountain, died in order to protect the array. "

"That's ridiculous!"

The blood withers to work properly Zun big to drink a, fiercely raise the ghost head staff in the hand, a scold, the leaf Chen all around has already been surrounded by a group of black empty shadow.

Ye Chen knows that it's useless to say more in this case. He can only pull out the evil sword, protect the body with the dust stele, activate the burning stele, and protect the body with the destruction of the seal.

"Good boy, I'm going to let you taste the power of the eighteen blood grudges!"

The blood withered spirit Zun dances the ghost's head staff, and 18 empty shadows rush at Ye Chen at the same time.

Ye Chen saw this, and quickly waved a sword, but the sword light across the virtual shadow, and no harm.

At this time, the eighteen virtual shadows had been around, constantly hitting their bodies, stirring up bursts of gray smoke.

The eighteen blood grudges condense the spirit of death. Ye Chen's destruction seal also contains the power of destruction. On the contrary, there is a hint of coincidence, which makes Xueku lingzun wonder about the origin of the other side.

But that's all, not to mention the eighteen blood grudges.

As soon as the blood withered spirit's eyes coagulated, his fingers pinched again, and the eighteen virtual shadows turned into blood color in an instant. Gradually, it was like substance. If ye Chen waited until the condensation was completed, he would face the same 18 opponents.

Ye Chen suddenly releases the fire of the Taoist spirit beyond destroying the Taoist seal. Suddenly, the fire is everywhere, and the eighteen bloody figures scream bitterly. It seems that they have been hurt a lot.

Seeing that the fire of the Taoist spirit seems to be able to restrain the eighteen blood resentments, ye Chen is overjoyed. The fire rises again, and soon the eighteen blood resentments turn into a shadow again.

Seeing this, Xueku lingzun quickly recalled his eighteen blood grudges. The blood grudges refined for a long time can't be folded in this boy's hands for nothing.

After taking back the eighteen blood grudges, the blood withered spirit Zun's body moved. When he reappeared, he had come to Ye Chen.

The ghost's stick comes from the face to face. Countless rules are surging, and the space will be broken!

Ye Chen quickly raises the sword to resist, is only such big strength disparity, is he can resist down.

At the moment when shajian and guitou staff contact, ye Chen feels the pressure far beyond his own strength. Shajian can't help being bounced away. Even he can't help stepping back two steps. Then he stands still.

Chapter 5929

Blood dry spirit Zun also didn't expect, oneself suddenly of attack, the other party unexpectedly can do so degree.

It's really powerful to be able to break the blood killing and God killing array.

The blood withered lingzun danced the ghost's stick again and attacked Ye Chen. Ye Chen reluctantly resisted. If it wasn't for the protection of the dust tablet, the terror of vitality and the sanctification of the body, ye Chen would have been seriously injured.

When they were fighting, more and more disciples arrived before xuanxuezhong's Mountain Gate. In addition to the leader, the right Dharma protector, the four elders and the eight hall leaders were present.

Originally thought that there was only one boy in the crisis, so people stood by to watch the battle.

But I didn't expect that the left Dharma protector and the young man could not win or lose, so they all yelled.

"Zuo Dharma protector, why can't you even deal with a hairy boy?"

"Zuo Dharma protector, it seems that you are slack in your practice recently..."

"Zuo HUFU, do you want me to help you out?"

Xueku lingzun listened to the words of his fellow disciples. He was angry and anxious. He couldn't help but scold: "who don't agree with you, go up on your own!"

At this time, ye Chen's heart was more anxious than the left Dharma protector.

He already knows the strength of the other side. If he tries to fight to the death, he will not be able to defeat the other side. But with strong enemies around him, what will happen if he wins this fight?

We have to find a way out!

Ye Chen is still struggling to support.

I dare not relax half a point, and I dare not let go.

Until a shout on the field surprised him.

"How long has a hairy boy been fighting? Kill him and it's over! "

This is the voice of the right Dharma protector of Xuanxue sect.

Ye Chen hears this sentence, know the other side to rise to kill a heart, quickly shout a way: "wait a minute!"

With that, he immediately took back the Sha sword and tried his best to run the perfect dust stele. He tightly protected his own vital points to prevent Xueku lingzun from giving himself a fatal blow at this time.

Fortunately, he bet right. Xuekuling Zun saw him stop, and the ghost stick in his hand also stopped.

In fact, he secretly congratulated himself that the boy would stop first, or he would not be able to hold on for a while.

Although this avoids the possibility of losing face, the blood withered spirit Zun still stares at Ye Chen coldly and asks in a gloomy tone: "what do you want to do?"

Ye Chen waved his hand and said, "I'm tired. I won't fight any more."

He didn't ask for mercy, and he didn't put cruel words. This big truth, on the contrary, made Xueku lingzun unable to answer.

"In this case..." blood dry Ling Zun waved and said, "give him up!"

Suddenly, countless xuanxuezhong disciples came up and trapped Ye Chen.

Ye Chen also does not resist, let the other side do.

The right Dharma protector said coldly, "what do you want to do with it? Do you want to raise the thief? Just kill it"

Ye Chen hears the words of the right Dharma protector and is awed in the heart. If the other party really plans to kill himself on the spot, his move will be wrong!

Thinking of this, he quickly struggled and yelled: "don't you want to know my way to break the battle?"

"Ha ha..." the right Dharma protector sneered, "we can study the method of breaking the array slowly. You can go on the road safely."

"Wait!"

Blood dry Ling Zun suddenly said: "don't worry, this son seems to be a stranger, or let the leader deal with it."

The left protector of Xuanxue sect is responsible for guarding the mountain gate array, while the right protector is responsible for the internal security of the sect. According to the truth, if the headmaster knew about this, it would be the left Dharma protector's dereliction of duty, which is also the reason why Xueku lingzun didn't speak before.

However, his idea at this time is different.

Since Shanmen array is broken once, there is a risk of being broken for a second time.

Now that the mountain gate has been broken, it will be a matter of time before the leader knows it. Since the boy is willing to tell the way to break the array, he can naturally make up for his mistakes. Therefore, he has the idea of taking the other side to see the leader.

The right Dharma protector saw that Xueku lingzun was willing to expose his ugliness. Naturally, he was so happy to see the play that he would not stop him. So he escorted Ye Chen to see the leader.

When they came to the hall, the headmaster heard about it, and his face was naturally not good-looking.

He took a cold look at Ye Chen and said, "if you tell me the way to break the array, it will make your death more comfortable, otherwise you will not be able to survive or die!"

Ye Chen Mou son one coagulates, light way: "but I don't want to die!"

"Ha ha..." the leader laughed, "who wants to die? Who has been practicing for many years, not for the sake of immortality and immortality

"Just... Do you deserve it?"

The leader asked: "why don't you die? Tell me a worthy reason. "

Ye Chen asked: "if I not only tell you the way to break the array, but also find a way to make up your big array and make it more powerful, can I exchange it for immortality?"

"Well..."

The headmaster brushed his beard and pondered.

The blood killing and God killing array is an array handed down by the superior of Xuanxue sect. It has been guarding the mountain gate for thousands of years, and no one has been able to improve its power on this basis.

Can you believe what such a hairy boy said in order to survive?

Ye Chen saw the hesitation on the headmaster's face and said in a hurry: "if the headmaster doesn't believe me, you can put me in the big array, and then send someone to guard me strictly!"

Although the big array has been broken once by this boy, it was just a disciple guarding the mountain gate big array before. The power of the big array is much weaker.

If you send the leader level to guard the array, with the strength of the other side, you can't escape.

Thinking of this, the headmaster nodded slightly.

Ye Chen was overjoyed and said in a hurry: "thank you for not killing me, master!"

"Who said it would save your life?"

The headmaster sneered and said, "I'll save your life for the time being. If you can't improve the power of the great array within ten days, you will regret what you said today."

"Even if the headmaster says so, I will thank him!"

Ye Chen's joy is beyond expression, because he did not just escape.

He deliberately asked to be imprisoned in the mountain gate array, because he also had his own careful thinking.

Before, when he was in the blood killing and God destroying array, if it was not for the sudden disturbance of xuanxuezhong's disciples, he would immediately realize the dead Qi in the blood sea and the meaning of destruction in his own destruction seal.

If you can understand it, it will be of great benefit to your own practice.

Therefore, he took the initiative to put himself in prison.

Even if after ten days, I can't think of a way to improve the array, or xuanxuezhong repents, so long time is enough to think of a way out of difficulty!

The key is that he will use these ten days to communicate with God again!

What's the next step in the layout of TIANYAO?

But he faintly felt that there was a terrible evil spirit in the earth's heart

This evil spirit is the ancestor of that day!

.....

At the same time, it is a mysterious place that does not belong to foreign countries.

An indescribable figure sits in the depth of the nebula and looks at the countless stars that are constantly disappearing. In his eyes, it seems that there is an extremely dignified and complex color

Suddenly, in front of him, a purple light flashed, and a young man in purple robe appeared in front of the figure.

Looking at the figure shrouded in chaos, the young man in purple robe gave a cold hum. He looked young, but his voice was very old.

The figure in the chaos looked at the young man in purple robe and said, "are we really going to let the reincarnation Lord intervene in this matter?"

"He will die."

"And there is no way out."

## Chapter 5930

The figure in the chaos is the noumenon of the ancestor of the demon!

And this figure in purple robe is the origin of Ye chenxuan's blood essence - the ancestor of Xuanyao!

The Xuan demon's eyes gazed at the nebula and said, "the Lord of reincarnation is just a chess piece that we can discard at will."

"But from the perspective of his development, it seems that in the future, he can match me..."

"It would be a pity if he died."

"He hasn't finished refining my blood essence."

The first ancestor of TIANYAO didn't know what he was thinking. He suddenly said, "if he really gets that thing this time, I will guard him to the wanxu temple."

Xuan demon body one Zheng, cold voice way: "do you know what this represents?"

"You want to fight against the will of the road? Are you crazy? "

"Before, we helped this boy fight against those mole ants. It's already out of bounds. Now we're tearing the entrance of the earth's heart. Because the fruit is too big, if it's contaminated again, the consequences will be very serious."

The sky demon pondered for a moment and said, "just see if this boy can get that thing first. It's only a few days away from the ceremony."

.....

But at the moment of Ye Chen nature don't know the day demon and Xuan demon dialogue.

All he had to do was to get out of here as soon as possible.

Ye Chen tells xuanxuezhong the defect of the blood killing and God destroying array. After the big array is repaired, he enters the array again.

This time, there are four hall leaders taking turns to protect the array. The power is far less than when they broke the array. Ye Chen once tried to let the four hall leaders launch the array, and found that it was totally different. With his current strength, if he was in the array, he would die.

However, as long as he doesn't want to break the array and run away, the four hall leaders will not launch the array on their own initiative and let him study the method of improvement in the array.

Therefore, at this time, the sea of blood was calm, and even the strange beast that should have been transformed was deliberately suppressed by xuanxuezhong.

Ye Chen calmly sinks into the sea of blood, allowing Yan xuan'er to freely absorb the power of the fire, while he completely immerses himself and carefully feels the dead air in the sea of blood.

With the rapid passage of time, ye Chen, soaked in the sea of blood, had the same feeling.

He quickly grasped this feeling and let a trace of death invade his body through the destruction of Daoyin.

As soon as the dead Qi entered the body, he felt a little strange, so he quickly ran to destroy Daoyin and tried to assimilate it.

Another day later, the spirit of death finally merged with the meaning of destruction in the seal of destruction.

Slow as it is, it's half done for him.

The rest of the time, is to try to assimilate more dead gas, let their own destruction seal, become more powerful.

Another day later, ye Chen has successfully assimilated the six strands of dead Qi. The original meaning of destruction is obviously stronger.

More importantly, at this time, his time to assimilate a little bit of dead Qi was constantly shortened.

At this time, a voice came suddenly.

"Boy, how is the array improved?"

Here comes the blood withering spirit.

Ye Chen hears the voice of blood withered spirit Zun and respectfully says: "why don't you come in and talk?"

As soon as his voice fell, a bloody shadow appeared in front of him.

After the boxing ceremony, ye Chen said: "the younger generation has some ideas, and it needs to be verified."

Blood dry spirit Zun cold voice says: "hum, that is best."

Ye Chen's eyes turned, and then said: "after a period of time, I'd like to ask the elder to cooperate with me, so that I can verify the effect. Please give me a few words."

"As long as you improve the array, you don't have to worry about this kind of thing. I have my own arrangements," he said

Ye Chen still bowed his body and said, "thank you, master."

After sending away the blood withered spirit Zun, ye Chen thought that he had to take some time to study this array, otherwise it would be hard to say later.

Fortunately, I have successfully integrated the dead Qi. I don't need to spend a lot of energy to realize it. I just need more time to absorb and assimilate it.

However, although the meaning of destruction contained in the seal of destruction has become more powerful, he still doesn't know what the actual power is. If it's not of great use, he can be regarded as a prisoner.

Therefore, he just proposed to Xueku lingzun that the effect should be verified.

It's not the improvement effect of the array, but the effect of your own skill.

With the idea of knowing the actual effect earlier, the next day ye Chen put forward his request to the leader of the guard array.

The sea of blood, which had been calm for a few days, was churning again.

Ye Chen stands on the sea, Sha Jian floats quietly on his side, waiting for the strange beast to jump out of the sea and attack him.

The moment that the strange beast pounces on, ye Chen moves at the same time.

The light of destroying Daoyin gathered in the palm of the palm, showing a trace of black air. I think this is the result of the growth of destroying Daoyin.

Ye Chen's palm splits out, and the light passes through the body in front of the beast. At the moment of tearing the beast, he notices that the torn body of the beast is slowly corroded by the black gas.

Although the effect is limited now, it is certain that the destruction seal is stronger!

After confirming that the destruction seal is stronger, ye Chen shouts out Yan xuan'er to see the change of the fire of the Taoist spirit. After all, Yan xuan'er is not idle when he assimilates the dead Qi.

When Yan xuan'er appears, ye Chen finds something unusual.

"Yan xuan'er, what's the matter with you?" He asked, pointing to the small flame mark between Yan xuan'er's eyebrows.

"Young master, do you mean this spirit fire mark?" Yan xuan'er replied with a smile, "haha, because Yan xuan'er is more powerful!"

"I'm not talking about this, I'm asking why it's this color?"

According to the nature of the fire of the spirit, even if there is the mark of the fire of the spirit, it should be red, but the mark of the fire on Yan xuan'er's forehead is purplish red.

It's OK. It's not particularly surprising. At most, it's just the first time to get his attention.

The most important thing is that there is a thin black outline on the periphery of the mark. Although it is not obvious now, ye Chen immediately thought of the connection with the dead Qi.

After all, what Yan xuan'er absorbed was also the flame in the sea of blood.

Ye Chen doesn't know whether this influence is good or bad for Yan xuan'er, so he asks in a hurry.

"Yan xuan'er, do you feel something wrong?"

"No Yan xuan'er replied shyly, "I just feel that Yan xuan'er has grown up."

"There is no best."

Ye Chen is secretly relieved, and then asks Yan xuan'er to try the power and change of Dao Ling's fire.

Yan xuan'er nods happily when she hears Ye Chen's request. When the beast appears, she rushes up without waiting for ye Chen to speak.
