

## Physician 6721

### Chapter 6721

Ye Chen quickened his speed, and the tall bones behind him changed violently. The whole body floated in the air and filled with stars. He seemed to live again. He could split the world just by opening his eyes.

Ye Chen felt the pressure. He didn't have to look back. He knew that there was a big problem with the bones.

Maybe it's because I took the box!

The evolution of stars one after another intertwined countless ancient regions of the starry sky, which kept turning, and the whole universe became turbulent.

Ye Chen seems to have come to an ancient battlefield full of famine. No, it may be more distant than the famine.

In this era, the mountains and rivers are not up, the sea is not near, and there is only one look at the endless MOFA wasteland.

Countless strange races fought, and the sound of fighting was heard all the time. Ye Chen even felt several concussion breath, which was no weaker than Ren extraordinary and the devil ancestor.

No, it must be an illusion!

He couldn't help glancing back and saw a scene that shattered his world view.

Countless turbulent planets revolve around a person. The tall bones sit in the center and accept the worship of all ethnic groups, the submission of gods and the surrender of the universe.

Alone, he is the Supreme Ultimate master, devising strategies and reversing the universe like turning the palm of his hand.

Ye Chen was in a trance. Just at that moment, he seemed to join the battlefield. He experienced a very fierce fight and lost his feeling for a short time.

When he reacts again, the reincarnation blood is led out of his body, shaken in mid air, blooming with surging light, dyed green in the starry sky, and everything grows.

The next moment, infinite power poured into his body.

Ye Chen seemed to understand some mysterious power. With a flash of his body, he came to the outside of the cave and hugged them with one hand, wrapped in the Hongmeng starry sky!

"Ling'er, help me quickly!"

The virtual spirit pulse works to the extreme at this moment!

The void in front of me seems to be completely broken!

When they reacted again, they had reached the outside of the cave and left the nothingness.

Looking back, the rumbling sound was heard all the time. It seemed that there was a strong earthquake in the void space, and the infinite destructive force spread from the ground to the whole nothingness, deafening.

The monsters in the vicinity for more than a thousand miles were crawling on the ground, trembling and afraid to lift their heads.

"Leave here first!"

Ye Chen uses the power of the virtual tablet to tear the space and take the two girls back.

He didn't know who the figure in the underground coffin was, but he knew that if he stayed there, he was afraid that the box in his hand would be lost.

Back to the outside world, ye Chen rested for a while. Before long, Ji Lin came to Ye Chen, hesitated for a few seconds, and said, "Ye forced the king. After we went to nothingness, my headache was much better."

"You say, is it good for my disease there?"

As soon as ye Chen's eyes coagulated, he grabbed Ji Lin's arm, released his divine consciousness and checked his body. At this time, he found that the Taoist rules in Ji Lin's body had been supplemented, which was not as damaged as before.

Then Ji Siqing also came over and told ye Chen in surprise that her divine soul power seemed to have improved.

It seems that the land of nothingness is really strange!

It's a pity that Ren Feifan has left for the Taishang world. Otherwise, ye Chen must tell him the existence of this place and explore it carefully.

After a day's rest, ye Chen set off to return to XuanZhen island. This time, he absorbed the golden juice in the pool, and the reincarnation blood that had not moved for a long time also produced wonderful changes.

It's not far from breaking through to the real world! Ye Chen is determined.

So now he wants to find a quiet place to concentrate on breaking the Tao and maybe break through it in one fell swoop.

If there is no extraordinary berm in other places, if Wutian makes a breakthrough, the consequences will be unimaginable.

It would be much better if there were XuanZhen's ancestors to protect the way.

Therefore, XuanZhen island is the best choice for breakthrough.

When ye Chen came to XuanZhen Island, he immediately began to shut down!

He was immersed in the mysterious world, and his aura and sword light were blooming everywhere.

The blood dragon roared up to the sky and rushed to Ye Chen.

This is a battle between the blood dragon and ye Chen!

Ye Chen resisted with a sword of water, and his body method was extremely elegant. He clearly walked in the southeast, but the next moment he arrived in the northwest.

The ghost sword technique is superb.

With the last sword, the blood dragon was cut in two by the suddenly blooming water stop sword light.

In my mind, the voice of blood dragon's bitter smile rang out.

"Master, your sword is stronger."

Ye Chen smiles, and consciousness returns to noumenon.

"Unfortunately, we still need a little distance to break through. The Wuxu realm is really complex."

He picked up a glass of water on the stone table. The water in the glass was still clear and transparent and drinkable. Not only that, but even the whole stone table was as smooth as a mirror and spotless.

He walked out of the closed door and suddenly felt cheerful.

Blue sky and white clouds, birds passing by.

Sparkling, the sea level is endless.

Beside his closed place, a space mark floated quietly, and a row of meaningful and beautiful fonts came into Ye Chen's eyes.

"Ye Chen opened it and Shen Tu Wan'er stayed."

Ye Chen's face changed. Can you say that Shen Tu Wan'er has returned here since he closed the door?

But he has clearly explained XuanZhen and others. If Shentu Waner comes here, she must inform him in time, no matter under what circumstances.

Ye Chen put his palm up, and the space ripple was quietly turbulent. Then a letter fell on Ye Chen's hand, and there was an ancient ring.

Chapter 6722

Ye Chen's palm floats on it. Through the perception of reincarnation, he can clearly recall that when Shen Tu Wan'er left this letter, his palm was stained with bloody murderous Qi.

It seems that the turbulence in the world is not small these days!

He hurried to the place where XuanZhen's father was located and asked him about the situation.

XuanZhen just sighed and repeated the scene of Shentu Waner's arrival here that day.

It was Shen Tu Wan'er who tried to stop him from disturbing Ye Chen, left something and a letter and left.

According to the memory of XuanZhen, Shentu Waner was accompanied by several experts, one of whom had a terrible cultivation.

From their conversation, XuanZhen also heard words such as "civil war, fighting". It must not be just the action of the wanxu temple that put the Shentu family in a dilemma.

Some changes have also taken place within the Shentu family.

Shen Tu Wan'er told them that their Qi was easily captured by the enemy and should not stay long, so she hurried away.

Shen Tu Wan'er's tone in the letter was solemn, with a trace of sad heartlessness.

Shentu Waner felt that she had hurt her mother and dragged down the family. After taking back Wuwei Tianjian, she vowed to uncover the secret and gain the strength to fight against the wanxu temple.

The so-called love affair between children and women, she no longer lingers. May ye Chen take care in the future.

Ye Chen put down the letter and sighed.

Of course, he understood the reason and understood Shen Tu Wan'er's difficulties very well. In the final analysis, it was because his strength was not strong enough to shelter him from the wind and rain.

"Wait... When I come to the world, no one can touch the people around me and the family behind them!"

Ye Chen clenched his fist and his eyes were angry.

Not enough, not enough! He has to be stronger!

In addition, the letter also mentioned the origin of the ancient ring.

Shentu Wan'er found it from the ancestral land of Shentu family. At that time, she thought this simple ring was helpful to Ye Chen's breakthrough, so she took it.

Of course, ye Chen knows that the difficulties experienced in bringing this ring out are by no means as simple as those in Shen Tu Wan'er's letter.

This ring doesn't have many attributes, but has a dark color.

Ye Chen held it in his hand and turned back to the closed place.

He has to find a way to break the last limit! It's too true to step into it completely!

In the next few days, he continued to make breakthroughs in the reincarnation cemetery.

But after all, we can't do the last step.

Just a little less, he can break through to a new realm and usher in qualitative transformation.

At the moment of holding the simple ring, ye Chen can clearly perceive that there is a touch of mysterious power in the ring.

As for how to polish the power, he still needs to do further research.

.....

At the same time, the distant Tianxi island.

Previously, Tianxi Island suffered heavy losses. The Holy Son of Xi Xuantian, known as the future star, was killed by the Lord of reincarnation, and the ancient Tianxi family who wanted revenge was also stopped by Ren extraordinary.

Moreover, Luosheng ancient people came forward to protect the Lord of reincarnation and fought with Tianxi ancient people.

The Tianxi ancient people sacrificed their ancestors and used the dark forbidden array. Just when they were about to defeat the Luosheng ancient people, the hidden XuanZhen ancestor came forward to stop the war.

It seems that the gratitude and resentment are resolved and the three ethnic groups live in peace, but in fact, the people of Tianxi ancient ethnic group almost spit blood.

They lost their wives and soldiers. Not only did they lose the most powerful young genius in the family, but the reconstruction of the whole Tianxi Island took a long time.

Today, Tianxi island is not peaceful.

A young man returning from the depths of the dark forbidden sea made a strong landing on Tianxi Island, found the elders of the family and said he wanted to be the son of a new generation.

Of course, several supreme elders refused to agree, because the young man was expelled by them, Xi Wuji.

How could an exile be allowed to return to the island and take over the position of the son of God with the background and reputation of Tianxi ancient family.

In fact, the young generation of Xi traceless who proposed to challenge the ancient Tianxi nationality, dozens of young talents responded one after another, but fell at the feet of Xi traceless.

At this time, the elders of Tianxi ancient family realized that Xi Wuji was not what it used to be, and had many frightening evil means, and was superb in poison art.

Later, Xi Wuji was summoned by the ancestors of Tianxi ancient family. No one knew what they were talking about in it.

After Xi Wuji came out, the ancient emperor of Tianxi issued an order to appoint Xi Wuji as the new son of Tianxi ancient family.

There is a vast mountain range thousands of miles away from Tianxi Island, with cloudy clouds, loud thunder and torrential rain.

The shining lightning reflected the blood red color of the whole mountain.

Countless grievances rose up, as if to tear the sky and accuse them of their grievances.

There are shriveled bodies all over the mountains!

Outside the dense forest, several Tianxi ancient people in white robes looked ugly. They stood far away from the corpses all over the mountains and looked at each other.

I don't seem to dare to say anything.

Dozens of Tianxi ancient people followed a man in black.

The man in black looked evil, and a long scar spread from his left eye to his jaw, like a centipede lying on his face, which looked extremely ferocious.

He is the new son of Tianxi ancient family, Xi Wuji.

"Hehe... The taste of blood is really wonderful. Don't you come and have a taste?"

He turned to look at the Tianxi ancient people behind him.

Those people said they came to protect him, but now they are standing far away, deliberately or unintentionally separated from him, and there are all kinds of complex emotions in their eyes.

"Over the past thousands of years, I have tasted all the hardships outside, and occasionally got an adventure. I survived by swallowing blood and cultivating poison skill, and broke through the hundred yoke realm."

"I know you won't accept me as the son of God, but no one among you dares to sit except me."

Xi Wuji grinned, and the corners of his mouth were cracked to the root of his teeth, revealing sharp fangs.

Those people of Tianxi ancient family are angry and afraid.

When Xi Wuji was just promoted to the son of God, several young heroes with talents only inferior to Xi Xuantian were very dissatisfied. They felt that Xi Wuji's strength was only six layers of heaven in Baijia territory, which was not enough to mention.

In the family, there are many talents in the six layers of the hundred yoke territory.

Xi Wuji doesn't argue. I'll see you directly in the challenge arena.

Once on the battlefield, the gap between the gifted family and the cruel people who have experienced life and death appears.

Xi Wuji's cruel and insidious means are often caught off guard. If it is not reserved, several family youth participating in the challenge will die.

Several supreme elders also saw this and finally acquiesced to Xi Wuji's position as the son of God.

At that time, many people objected and expressed their dissatisfaction. They believed that Xi Wuji was just an abandoned son exiled by Tianxi ancient people. Now he came back as the holy son again. Didn't it blow their face and make people laugh!

That night, two young disciples who said this died of poison hair.

Within a few days, Xi Wuji calmed all the dissatisfied voices with vigorous and resolute means.

The elders of Tianxi ancient family also agreed that the current situation needs a courageous son to maintain.

These days, the talents of Tianxi ancient family have seen what is called real devil means.

Xi Wuji's daily cultivation needs a lot of blood, so he brought people out to kill everywhere in the dark forbidden sea.

Count down, Xi Wuji has sucked up the blood of tens of thousands of people, which is extremely terrible!

"An individual looks at me like a fool. When I go back today, I will practice in isolation. When I go out again, it will be the day when Tianxi ancient people revenge on Luosheng island."

"As for the Lord of reincarnation, his blood also belongs to me. You said that I defeated the Lord of reincarnation, drained his blood and became the new Lord of reincarnation. What would Ren extraordinary think? It must be interesting. Ha ha ha! "

Xi Wuji smiled and couldn't help taking two steps back.

Chapter 6723

Xi Wuji's cultivation method is called "ten thousand poison divine skill", which he got from an ancient ruins.

It was created by the ten thousand poison old man in the era of shaking Wuzu.

The previous master of poison skill was the notorious Laoshan scattered people in the whole world.

The scattered people in Laoshan do all kinds of evil. They especially like to use boys and girls.

The means are unparalleled.

With the power of this skill, Xi Wuji made a group of evil cultivation friends.

It was under the joint efforts of the people in these evil ways that he killed Tianxi island again, poisoned a group of elders who opposed him with startling means, and successfully ascended the throne.

"Jie Jie, you don't have to worry about survival. I've invited other forces in the dark forbidden sea to attack Luosheng island tomorrow!"

Xi Wuji's words were like a heavy bomb dropped, stirring up a rough sea.

Among the ancient Tianxi people, some people questioned it.

"Son, after all, this is a war between the two races, not a children's play."

"Will you cause an accident to Tianxi ancient family?"

Hearing this sentence, Xi Wuji's face was dignified and his eyes were cold.

Those people dare not speak for a moment.

In the evening, there was a strange magic ship coming towards this side in the distance of the horizon.

People in the evil way and evil friars are gathered in the bow!

There are thousands.

"The dark forbidden sea is vast. It is said that there is a demon sea area where the most ferocious friars of the whole dark forbidden sea are gathered, and there are endless poisonous weeds and poisonous insects for them to use. Isn't it..."

Someone in the ancient Tianxi family made a voice and guessed something vaguely.

"Yes, I just went there."

Others were thrilled.

"Don't worry, these brothers I brought back don't ask for treasure or martial arts." Xi Wuji smiled: "they only need fresh flesh and blood."

"....."

.....

Meanwhile, Rosen island.

Hundreds of thousands of Luosheng people are practicing here.

After the attack of swallowing giant animals in ancient times, Senluo Tianjun, the ancestor of rosenkou family, has only one heart.

Today, it is still this heart, guarding the safety of Luosheng island.

In fact, Senluo Tianjun was worried, so he bet this chess on Ren extraordinary and ye Chen.

In addition, countless years ago, the luoshenggu nationality was forced to get involved in the chaos of the era of hegemony.

It was an age of ferocity and war. The heavens and the world fell into absolute darkness. Hundreds of millions of people died and blood stained the sky!

The ancestor of the sword God refined eight heavenly swords to support the rules of the road without being destroyed, and saved hundreds of millions of creatures in the supreme world and the world of heaven.

Over the years, with the help of the huge corpse Qi accumulated in the ancient battlefield of the dark forbidden sea, Senluo Tianjun gradually nourished his heart and recovered his flesh.

this moment.

Above Luosheng Island, a nothingness blooms.

Hongqiao reappears and leads to the family growth hall.

"Luo Linsheng, come to see me!"

The mighty voice of Senluo Heavenly King resounds through the ancient and simple hall, but outsiders can't hear it.

Luo Linsheng was dealing with the affairs on the island. He was called by his father. He was surprised and hurried to the island.

"Luo Linsheng, the ancient Luo family is about to encounter great difficulties. You quickly transfer the ordinary people to the depths of the ancient island for resettlement, and the soldiers in the family are ready to fight!"

Luo Linsheng was shocked. Senluo Tianjun wouldn't play such a boring joke with him!

Foreign invasion is true.

"Yes, grandpa!"

After receiving the instruction, Luo Linsheng came to the place where elder Luo Xi lived.

Then, together with him, sounded the ancient bell outside the palace.

The whole family gave way to this catastrophe.

In the silent void space, there is a huge heart of Senluo Tianjun's soul, beating faster.

In the invisible depths of the endless sea, towering waves are also condensing and forming.

"This time... I can only do this..."

Senluo Tianjun muttered to himself.

Now he has no chance to save the luoshenggu family.

Maybe everything can only depend on God's will!

.....

At the sea level of the endless sea, the war between the two races finally broke out.

The soldiers of the ancient Tianxi clan stood in the bow of the boat and formed a large array. The five elements of yin and Yang, seven stars and eight trigrams emerged and intertwined with each other.

Countless dazzling white lights converge into an array, forming a thick and stable protection array!

The two elders sit in the center of the sword, and their breath blends with each other.

The large array played a protective role. Under the dazzling white light, thousands of evil people ran out with a ferocious smile, breaking the defense of the luoshenggu family.

The soldiers of luoshenggu nationality are equipped with heavy armour and are ready for battle.

However, under the attack of poisonous gas and small poisonous insects, the advantage of heavy armor disappeared.

Even when wielding a sharp sword, there is poisonous miasma and sinister Qi.

Many soldiers of the luoshenggu nationality died unexpectedly and died suddenly.

The endless poisonous gas is like a strong wind, raging and stirring, stirring Luosheng Island upside down and extremely cruel.

Outside Luosheng Island, the bow of the demon ship.

Xi Wuji laughed loudly.

"I didn't expect that Xi Wuji had been exiled for many years. When I came back, I would establish a great achievement! Since then, this sea area is my world. First destroy the Luosheng ancient family, and then step on the XuanZhen ancient family! The hegemony of the ancient Tianxi clan began with me. "

His laughter was arrogant, confident and evil.

Somehow, the Tianxi ancient people who fought with him were also mobilized, and their smile was gradually ferocious.

The scene of the enemy's tragic death was vivid.

In this way, after two hours, the periphery of Luosheng Island fell.

The Luosheng soldiers retreated to the inner Island, trying to hold the last line of defense.

But it didn't help.

Xi Wuji's mastery of the "ten thousand poisons divine skill" can provide a steady stream of poisonous gas.

"Ten thousand poisons divine skill" was born by taking advantage of the situation. There is no upper limit on its toxicity.

Many evil and evil people gathered here, which seemed to be a paradise for the application of "ten thousand poison divine skill".

The most important thing is that Xi Wuji holds a black bead in his hand.

It's called Wandu Tianzhu.

In ancient times, demons from all over the world came in an endless stream, destroying the world.

The existence of an old man named Wandu is a devil among demons. He has the best work of poisonous demons and has no humanity. He once slaughtered 80000 Li with blood, and there is no grass in a field, and hundreds of millions of lives have been poisoned.

This finally angered Wu Zu. He crossed dozens of empty star regions, came to the heavens and found the hiding place of the old man Wan poison.

In the end, the blood stained the stars in World War I, and the old man was beaten by Wu Zu. The blood splashed the stars and destroyed both form and spirit.

Rao shiwuzu did not expect that tens of thousands of poisonous blood polluted a big world and billions of residents were forced to leave.

The big world, which can be called the holy land of cultivation in the whole universe, has become a poisonous place since then, and the miasma will not disappear for thousands of years.

After the death of old man Wandu, his "ten thousand poison divine skill" wandered into the world, creating batch after batch of peerless poison people, endangering the safety of the world.

Ten thousand poison God bead is to gather together ten thousand poison essence, if thoroughly release, the darkness prohibition sea will become hell!

With Xi's traceless strength, only one or two of ten thousand can be used.

## Chapter 6724

In the sky above the Luosheng ancient family, the dark clouds are bleak, and the hot sun is covered by black, like the ancient magic cloud.

The sound of arrogant laughter is frightening.

"Today, I will step on the corpse of your luoshenggu family and ascend the throne of poison God!"

.....

On the distant XuanZhen Island, in the secret cave.

Ye Chen sat on the cold stone bed and fell into a state of cultivation.

On the other hand, the heavenly star hovered over his head, and the yellow spring behind him was endless.

The Fairy Spirit twines around the body.

All the magic powers and spells he mastered were in his mind.

Eight step floating Tu Qi, destroying Dao Yin, dominating sword technique, blood moon Tu Tian chopping, Hongmeng big star sky, reincarnation holy soul sky, Tianxian Koi copy, Bagua Tiandan technique, six path reincarnation technique, etc.

He combed all the powers he had in his mind.

Close to the edge of breakthrough, he should exert all means to impact a new realm.

In addition, the military word formula, array word formula, Dou word formula, Dou Di Tianjian array, disaster sword array and master sword technique were all practiced in his mind.

The legendary realm of nothingness exists in the misty and born in chaos. It is the ultimate realm pursued by countless martial artists all their life.

Ye Chen took this as his goal from the beginning.

Two of them captured the mystery of nothingness.

Such a thorough state of mind, unprecedented, can not be expressed in words!

Shentu Waner gave him a simple ring with black light shining, and suddenly the stars are bright, just like a bridge connecting the universe and the underworld.

The bridge evolves a towering force to connect with the stars.

Ye Chen's eyes are filled with the color of fortitude. Even with his own strength, he looks so small under the cover of the stars.

But it can't kill his will and edge!

The vision of nine halos loomed in his pupils.

Jiuzhong is only the first step.

Hundred weight!

Thousand weight!

Thousands of auras are firmly inlaid, which makes Ye Chen shine. Sitting in the cave, he looks like the pioneering Pangu God, with chaos at his feet.

It is said that there are two kinds of heavy pupils.

There are two pupils in one eye. It is very powerful. It has a natural imperial appearance and can achieve hegemony for thousands of years.

The other is to show the halo! Beyond the secular realm of mortals, into the category of atmospheric transportation!

The so-called nine halos are the posture of the heavenly king!

With thousands of halos, no one dares to think about what such owners will achieve in the future.

Ye Chen caught the chance from the ancient ring.

It is through this opportunity to complete the final breakthrough.

Ye Chen silently realized that time was running out.

During this period, when it came to Luosheng Island, XuanZhen wanted to find Ye Chen to discuss it.

Finally, due to Ye Chen's breakthrough, he gave up temporarily.

A few days passed.

A bright golden light suddenly burst out in the silent closed place.

The golden light was so dazzling that even the earth vein of XuanZhen Island resonated, trembled and shook, and the water waves in the surrounding sea area were churning for hundreds of miles.

Father XuanZhen and a group of supreme elders noticed the vision and came out of the palace.

Then I saw a magnificent scene.

Above the cave, three swords rose into the air, which were the Longyuan Heavenly Sword, the famine devil Heavenly Sword and the disaster Heavenly Sword in Ye Chen's body.

The three swords seemed to have received inexplicable guidance, and the divine light burst out. They each performed divine moves and formed one array pattern after another.

The vast array of heavenly swords is impressively formed, as if to pierce the void and reach the sky.

The core of the array, the center of the array eye, a sea of blood, and the vast and distant breath spread all over the four fields.

An ancient and simple figure was covered with blood and slowly opened his eyes.

The scales of the whole body appear! Blood dragon roar!

The sword array burst, and the eternal sword light was turbulent on the edge of reincarnation, full of fierce killing gas.

This dragon of blood is integrated into the essence of reincarnation.

In the Wuxu space, ye Chen's soul is growing.

Ninety nine chains hummed in unison, as if greeting the invincible overlord in the world.

All kinds of magic weapons and the light of magical powers are also integrated into the sword array. The light gathered by the three swords can cut everything from heaven to earth.

This sword caused the shock of the avenue, the roar of the law and the gazing of Qi. Never before, and it's hard to have latecomers.

Some days ago, ye Chen understood the formula of array words and sacrificed three heavenly swords to form a large array.

Now he integrates all his magic powers into the array.

What effect it will have is unknown in his heart.

However, at this time, it seems that the sword array, which shows amazing visions, is destined to become the supreme god array shining in the heavens!

The golden lightsaber was endless, which was not felt by XuanZhen island.

When the dark sea was forbidden, the patriarchs of other large and medium-sized forces, supreme elders and ancestors raised their heads one after another, looking stunned and shocked.

The heart of the earth, the land of the heavenly palace, the ancient city owner and the leader of great forces were also shocked.

The breakthrough of the way of heaven was naturally conveyed to the world.

The wanxu Temple became flustered after receiving the visions of heaven and earth. Please come out and watch.

The feather Emperor didn't know that ye Chen's strength had entered a new level.

He looked gloomy and his eyes were cold.

"Speed up the repair of Jiuding array."

Leave a word, the feather emperor closed again.

.....

Deep in the dark sea, the old alliance.

The devil sat on the dark throne and rested.

Suddenly, he felt a palpating momentum.

It's Ye Chen!

The demon ancestor was silent.

"Well, then I have another opponent."

Devil Zu Wutian was not angry.

At his level, joy and anger do not appear in color.

Who can really understand his ideas?

Chapter 6725

.....

In addition to these two supremacy, the desire God Religion and the ten Heavenly monarch families all feel the momentum of the shock of heaven and earth and the brilliance of all things.

"It seems that the universe is becoming more and more interesting. Ye Chen, I hope you don't let me down in the end. "

The supreme goddess bathed in the spirit pool. Her jade hand gently twisted a piece of spirit flower petals, and the water ran away.

.....

The void forbidden area is a location area.

Sitting on the top of the representational giant whale tree, Ren extraordinary's ears stirred, and the corners of his mouth unconsciously showed a gratifying smile.

"It seems that this game of chess has begun to enter the key link."

.....

After the vision of sword array disappears, the closed place returns to peace.

Father XuanZhen expected that ye Chen's breakthrough was over and hurried forward.

Not long after, ye Chen walked out of the cave and walked like a tiger with bright eyes. There seemed to be five elements running in his eyes, stars hanging, and Yin and Yang in the nine days.

"Congratulations to the Lord of reincarnation on entering Taizhen!"

XuanZhen said with a smile.

Ye Chen was also in a good mood and hissed with her cold.

Previously, the existence of Wuxu realm was mysterious. When you were in it, you could feel the unity of heaven and man.

Ye Chen's magical powers, magic weapons and many heavenly swords have risen to a higher level than before!

Before entering Wuxu, the divine power can destroy the star domain and split the dark xuanhai.

After entering Wuxu, the magic power was born in chaos, displayed in heaven and earth, and destroyed in the universe.

Such wonderful use can be said to be reborn and transformed into an immortal family artifact.

After stepping into Taizhen, it seems to have completely changed.

XuanZhen's father was also very surprised. The leaf Chen in front of him was near and seemed to be far away.

Spiritual thoughts have risen to a higher level.

After pondering for a long time, XuanZhen said, "Lord of reincarnation, I'm afraid luoshenggu family needs your help."

Father XuanZhen brought together what happened outside.

Tianxi ancient people ushered in a new son and colluded with the devil in an attempt to occupy Luosheng island.

A few days after the war broke out, XuanZhen sent someone to check it.

From the intelligence point of view, the situation of luoshenggu nationality is not optimistic.

During this period, Luosheng ancient people also sent people to XuanZhen island to seek Ren extraordinary help.

Can Ren extraordinary have left here long ago without a trace. It's not so easy to find the whereabouts of the heavyweight strong.

According to the ancestor XuanZhen, the high-level of the two forces of Luosheng ancient clan and Tianxi ancient clan restrained each other, leaving only the fighters in Baique territory to fight.

Luosheng ancient people had no amazing talent and gorgeous generation. They had been pressed by Xi Xuantian before.

Now there is another Xi Wuji who is detached from the poison method, and there is no chance of winning.

Father XuanZhen didn't say any more nonsense and said directly, "the Luosheng ancient family placed their hope on you and came to you for help to kill Naxi wutrace!"

Ye Chen nodded and said clearly.

His eyes looked to the distance of XuanZhen Island, where the war broke out.

"If you have any news about senior Ren, let me know immediately."

Ye Chen said that and quickly went to the battlefield of Luosheng island.

Luosheng island was originally located in the mist, a secret place. When ye Chen tore the void and arrived here, the sky had changed.

The poisonous miasma suspended in the sky surrounded the whole island with an evil and cold smell.

Ye Chen still remembers that when he came out last time, it was like a fairyland on earth.

It changed in a short time.

His heart moved and he stepped into the area surrounded by miasma. His eyes were as far as a hundred miles. Everywhere he went, the grass withered, the jungle collapsed, and countless wild animals and elixirs withered and died, with corpses all over the earth.

Not long after ye Chen stepped in, the miasma suspended in the air seemed to be spiritual and turned into a huge mouth to devour him.

Ye Chen snorted coldly, urging the poison God pulse in his body.

The power of the divine pulse surged into the palm and turned into a high curtain of heaven to cover Ye Chen.

Ye Chen rarely uses the ten thousand poison divine vein, because this divine vein has great power and wide influence. If it is not well controlled, the toxin will spread and may destroy a small world.

Today, he saw the poisonous gas all over the sky, so he planned to fight poison with poison.

The two kinds of highly poisonous met, and there was no love left, and they began a crazy fight.

The poison God vein is like a very spiritual beast. It changes the attack mode on the spot, expands dozens of times, and forcibly swallows the poison gas.

Then the ten thousand poison divine pulse opened in front. Those miasma seemed to be afraid of it and avoided it one after another. Ye Chenru entered the uninhabited land.

He finally landed on the island. There were many corpses lying on the beach beside the island, including the Luosheng people in white robes and the people in the magic way in strange clothes.

Countless poisonous insects are entrenched on these corpses and can change colors.

When ye Chen arrived, he scattered all around, leaving only hundreds of empty skeletons.

Ye Chen offered the disaster Heavenly Sword, drank violently and killed it quickly.

The disaster gas rolled away and mercilessly crushed the insects into powder.

For these ugly things that suck people's flesh and blood, ye Chen didn't leave a hand.

The battle here seems to have attracted the attention of others. On the mountain not far away, many figures emerge one after another. Those are villains and Demons attacking Luosheng island.

An elder of Luosheng Island led people to confront them. Seeing ye Chen's figure, he couldn't help being overjoyed.

"Lord of reincarnation, we are here! You don't have to worry. Remember to ensure your own safety first. These evil and devious means are impossible to prevent. The most important thing is the poison bead in the sky, which is the source of all the poison gas! "

The elder loudly reminded Ye Chen.

Ye Chen raised his head and looked into the distance. The power of reincarnation surged in his eyes and penetrated layers of poisonous fog.

He saw a black bead! Suspended in mid air, it is mysterious and profound, releasing a steady stream of toxic gas.

This bead must have an extraordinary origin.

Ye Chen determined the nature of the bead at a glance.

Before he went to check, there was a loud laugh in the crowd opposite.

"Lord of reincarnation, I look forward to you!"

Ye Chen's eyes narrowed slightly. A man on the opposite mountain was looking at him with a cruel face. The scar on his face was particularly eye-catching.

He should be the new son of the ancient Tianxi family, as XuanZhen's ancestors said.

"Lord of reincarnation, I heard that you defeated Xi Xuantian and drank back the ancient Xi family. Today I want to see if you have a way to break the poison array. I'll tell you first. If it can't be broken in two hours, the whole Rosen island will fall into complete darkness. "

Xi Wuji's tone was arrogant and extremely arrogant. After that, he stepped back and the poison fog filled the air again.

The dark and cold breath fell from the sky. Ye Chen's heart moved and moved for half a mile. The huge poison gas cage shrouded the position he had just stood.

The poisonous gas cage is made of black fog, and every wisp of black fog seems to be drawn out of hell, extremely dark.

If you were a person with weak physical strength, I'm afraid you would have been pierced by poison gas and disappeared at the moment when it was shrouded in darkness.

Chapter 6726

With a wave of Ye Chen's palm, the immortal Koi were released. One by one, the immortal Koi emitting pure light gushed out to disperse the poisons around.

In the unreal fog, the undercurrent surged, as if a fierce eye was staring at him.

"Hum, die."

Ye Chen stepped out, and the Longyuan Heavenly Sword sent out a clear roar and dragon chant, rising out, rolling forward with the overwhelming sword Qi.

The more poison gas surrounds for a second, the more people will die.

Ye Chen holds the Longyuan Heavenly Sword tightly. The Heavenly Sword is in his hand. The huge dragon virtual shadow is entrenched behind him. Thousands of sword virtual shadows are spread out layer by layer, magnificent and magnificent.

The aura of the Lord of samsara alone is shocked and fully opened at this moment.

On the opposite mountain peak, some people in the evil way of poison protection array were surprised.

Soon, their faces went crazy.

Because ye Chen didn't just use the sword technique!

"Brahma divine skill, array word formula."

Ye Chen roared up to the sky, and the thunder rolled in his hand, becoming more and more magnificent. He pushed forward across the void, and immediately the terrible phagocytic power burst out.

As the black hole collapses, the same huge vortex emerges in the distance.

Array word formula, all inclusive!

The black hole vortex presents an extremely deep color, with an ancient boundless atmosphere. The majestic sword gas gushes out of the black hole like a tsunami, which caught everyone in the evil way unprepared.

In the black hole tearing the void, the sword Qi is vertical and horizontal. In just a moment, the scream on the opposite mountain can be heard.

They were all torn by the fierce sword Qi, and their form and spirit were destroyed.

Many people began to flee to the island, trying to escape the sword.

But it was still torn to pieces.

The blood is spreading, and the people in the evil way with poison gas are all broken, even the poisonous insects and weapons.

Thousands of evil friars were destroyed in an instant.

"Run away!"

Someone shouted.

The luoshenggu soldiers on the opposite mountain are completely shocked. They have never seen such bloody and violent means of torture and killing.

Those people are all famous evil friars! No one dares to stand in the way of disaster.

He was killed by Ye Chen with a sword.

Ye Chen took back the Longyuan Heavenly Sword, raised his hand and wiped it gently. The void black hole disappeared.

A small number of evil people screamed and ran back to the island. Ye Chen did it on purpose.

He wants the news to spread and create panic.

Several elders of Luosheng ancient family led people over and looked at Ye Chen in great awe.

Ye Chen didn't mean to stop. What he hated most in his life were those friars who used evil devils and poisonous secret methods.

He looked up at the poisonous pearl in the dark fog in the sky. Ye Chen urged the array formula to the extreme, and one void vortex after another spread out, just like a lotus in full bloom and the silence disappeared.

The broken meat and blood of evil friars all over the mountains were sucked up by the array byte, squeezed and pulled constantly above the sky, and finally merged into a bloody sky.

At the top of the sky, there are heads full of fear, regret and begging for mercy.

The blood color barrier hanging high in the sky appears completely over Luosheng island after the void black hole dissipates part of the poison gas.

The strong smell of blood drifted away and couldn't resist it at all.

There were people fleeing and chasing everywhere on Luosheng Island, but they all stopped at the same time.

The black fog dispels the light, but then comes the bloody scene like the end of the day.

The soldiers of the luoshenggu clan were stunned.

People in evil ways have numbness in their scalp.

Aren't those heads hanging in the air just the demons who came to burn, kill and loot with them?

Why are you so miserable now.

What the hell happened?

Deep in the dark forest, Xi Wuji stopped and gasped heavily.

He looked back at the bloody sea, and his eyes were still filled with horror.

Just now, he thought Ye Chen would be caught without a hand.

Even if the other party did it, he was confident to stop the other party with the poisonous fog of ten thousand poisonous Tianzhu.

But the truth is that the past is contrary to expectations.

If he hadn't used the magic cloud, he might have turned into a pool of black blood at this time.

"The strength of the reincarnation Lord is too terrible. It seems that you can only outwit and can't resist... When my ten thousand poison heavenly beads are condensed and formed, you can't stop any sword skills."

Xi Wuji clenched his teeth and fled into the darkness again.

He encouraged Tianxi ancient people to attack Luosheng island and bring a group of demons and ghosts, not just for ethnic war.

More importantly, absorb the aura for the ten thousand poisonous heavenly beads.

Only with enough nourishment can Wandu Tianzhu be quenched and formed.

When he absorbs the poison beads, he will be invincible within the hundred yoke territory!

.....

At the same time, in the battlefield.

"Lord of reincarnation, it's you!"

There was a sound of horror in the battle field.

That was an elder of Tianxi ancient family. He was shocked at the scene.

This terrible picture of thousands of miles of blood flow shocked everyone's heart.

Only the blood color in the sky, the sky curtain trembled slightly, shed a blood rain, and fell on the silent Luosheng island at the moment.

Luo Linsheng led his army to fight against Tianxi ancient clan. Snow and rain fell on his armor, and he didn't wipe half of it.

He just clenched his fist secretly and breathed a sigh of relief.

The arrival of the Lord of reincarnation may affect the trend of the whole war when the strong at Tianjun level cannot intervene and the two sides fall into a delicate balance.

Among the two ancient families, there were also knowledgeable people who recognized the array formula used by Ye Chen.

They were not surprised at where ye Chen learned it, but lamented the son's talent.

Chapter 6727

The nine heavenly divinity skill is a unique skill in the world, which is extremely demanding for practitioners.

Ordinary people can't see their way at all.

Ye Chen has reincarnation blood and holds three heavenly swords.

Such combat power, no matter who is the enemy, will be cold all night.

Ye Chen has no intention of talking nonsense with them.

The array word formula absorbed the blood, and even his mood was affected by the killing.

"Less nonsense!"

Ye Chen snorted coldly and shook his palm into a fist. The void black hole magnified his fist infinitely, just like a giant peak coming.

This fist contains a mysterious law that destroys the truth of heaven. With the blessing of bloody Qi, its power soars and is enough to crush everything.

The elder Tianxi, whose cultivation has reached the seven layers of heaven in the hundred yoke territory, was surprised, his pupils contracted, and ye Chen's fist widened rapidly in his eyes.

"Tianxi sword! Defend the city! "

The elder's scalp was numb and hurriedly summoned Tianxi divine sword. The illusory light and shadow gathered in front of him to build a thick and clear sword wall.

Tianxi divine sword is one of the unique moves of Tianxi ancient family. A sword can be divided into its shape. As long as Tianxi island has not died, it can give Tianxi people a steady stream of Kendo power.

The divine sword defense was supported, and the elder was much more stable in his heart.

At the same time, make a counterattack plan in mind.

When the divine fist of the reincarnation Lord disappeared, he went up with his sword and stabbed the damn reincarnation Lord through his body.

The good deeds of his Tianxi family have been bad again and again. This son should be killed!

But just when he was distracted, the divine sword defense in front of him actually cracked a gap.

"What!"

The elder didn't know the reason, but felt the crisis in his heart was great and controlled his Qi to retreat quickly.

Ye Chen's figure appeared outside the crack.

At the moment when the crack expanded, he came back and forth, his body like electricity.

The sword in my hand is full of empty shadow, and finally belongs to one point.

Seemingly slow, in fact, the shield is empty.

The dragon Yuan Heavenly Sword Pierced the elder's body like a piece of white paper.

The elder was tongue tied and stunned. He didn't understand what had happened.

"You want to stop me with this defense? Nonsense! "

Ye Chen shook his head.

His earlier breakthrough has already opened the eye of heaven. He can know the truth and falsehood as soon as he explores it.

The divine sword defense seems unbreakable, but in fact it is just the condensation of Qi.

If you find a broken point, you can cut it immediately.

The terrible blood color light emerged in Ye Chen's palm. He clapped his palm on the handle of Longyuan Tianjian. The blood color spread along the Tianjian and gave birth to a terrible smell of destruction.

As soon as the sword body was turned, the elder's body was immediately crushed, the form and spirit were destroyed, and there was no possibility of resurrection.

Anyone can see that ye Chen's palm is terrible. Even foreign stars will be broken by his palm!

Although it did not use daqianchonglou palm, it also has a part of charm!

People around them were shocked. They didn't expect that ye Chen would become so powerful in a short time.

The elder was an authentic seven layer heaven in the hundred flail realm. Although he had just broken through and suffered some injuries during the war, he was far better than the last son Xi Xuantian in terms of experience and precipitation.

But he was still ruthlessly killed by Ye Chen.

Since this time, what kind of terrible level has Ye Chen's cultivation reached?

You know, he spent a lot of effort to defeat Xi Xuantian in the war of Tianxi island.

Now, if you face Xi Xuantian again, I'm afraid you can do two moves.

Ye Chen pulled out the Heavenly Sword and looked around. No one dared to look at him.

Even if the elder's fall is mixed with many factors of injury or belittling the enemy, ye Chen is a real killing.

"What? Who else wants to try? "

Ye Chen looked indifferent and said no more. He mentioned the Longyuan Heavenly Sword and killed into the battlefield.

Wherever he went, whether it was the ancient Tianxi family or the people of evil demons, he was cut off by a sword.

Terror and prestige, thousands of people are afraid!

Ye Chen's Heavenly Sword breath locked the leaders of two evil demons and evil ways.

The two demons knew they were invincible and fled quickly. They abandoned their subordinates and dived into the water with the intention of escaping.

They thought Ye Chen would stop at this point, but who ever thought Ye Chen would hold the Heavenly Sword and enter the seabed.

The sea area where the three ancient tribes are located is extremely vast, and ships have failed to reach the shore for months and half a year.

Moreover, the underwater world is crisscrossed with gullies and sea animals crawling. I don't know how many unknown dangers are hidden.

The dark blue sea area hides the spatial law rippling like water waves.

The two evil leaders just want to take this space law to escape to other places to avoid Ye Chen's edge.

Ye Chen quickly ascends the throne, and the two use the secret method to speed up their escape.

A hundred miles away in the blink of an eye.

Waves hundreds of feet high were raised on the sea, like thunderstorms.

Ye Chen caught up with the two, that is, they fought close and moved forward quickly, making the whole sea area boiling, just like the collective eruption of underground volcanoes.

Countless sea water became very hot, turned into a torrent, and went straight to the sky with great momentum.

Ye Chen was chasing at a high speed, and suddenly the two evil demons in front stopped.

They turned and looked at Ye Chen with a strange smile on their faces.

"It's weird!"

Ye Chen immediately held a sword and split the blue waves.

In the deep sea, a pair of huge pupils stare at Ye Chen.

Before ye Chen could see it clearly, the huge figure like an undersea volcano surged in black light and collided with him.

Suddenly, the whole sea area was boiling violently. Countless waves condensed into a substantive sword and rolled down towards Ye Chen.

That huge shadow can control the water!

After ye Chen stood still, he was not alarmed.

He had guessed that this huge shadow should be the backhand left by the evil repair demon family.

Previously, it had been hiding at the bottom of the sea, either for retreat, or specially prepared for hunting other strong men.

"What about the Lord of reincarnation? If you enter this sea, you won't want to escape again! After the dark dragon swallowed you, it can use its reincarnation blood to evolve into a dragon family. Isn't it easy to destroy Luosheng island? "

One of the demon leaders laughed and was very arrogant.

"The girls on Luosheng island are tender and tender! We stay in the magic sea all year round. We are tired of the dark life. It's time to change places. "

The two demon leaders looked at each other and moved to the side.

Ye Chen can clearly see that they are arranging the magic array to lock themselves here and fight to the death with the dark dragon.

The dark dragon once again burst into endless power.

This dragon was originally an ordinary sea animal at the bottom of the endless sea surrounded by three ancient families.

The endless sea is the most special existence in the dark forbidden sea.

In ancient times, the real dragon fell, and the body broke through the void and fell into the endless seabed.

The sea animal spent ten thousand years grafting its body onto the keel.

He became the overlord in the sea!

He coveted Luosheng island and devoured many Luosheng island people.

But as long as the supreme elder of Luosheng island made a move, he dived back to the bottom of the sea and hid in his own field. Even Tianjun had nothing to do.

Chapter 6728

"It's just an opportunistic beast, trying to be Jackie Chan? Stop dreaming. "

Ye Chen disdained to smile.

His contempt completely angered the deep sea dragon.

The water waves in the whole sea area rose completely, blocking out the sky and the sun, and went on like a flood.

On several wild islands in the nearby sea area, the mountains and rivers were washed away by the waves, and everywhere they went was in a mess. From above, they looked fragmented.

The surging waves even reached Rosen island.

Ye Chen broke free from the surrounding waves and retreated back along the oblique line.

As he looked around, he continued his verbal provocation.

The dark dragon stayed in his field and never took a step away. His moves could not defeat Ye Chen.

But similarly, ye Chen can't do anything about it!

In his rage, the waves under the dark dragon gathered madly, breaking out a black hole thousands of miles long.

The dark dragon sank into the black hole and disappeared.

Ye Chen's eyes coagulated, and his eyes changed.

The sky above his head was covered with dark shadows, like the coming of the end of the world.

Damn this guy, he can cross through the void!

Ye Chen never expected this.

He launched a sword move, and a long bloody dragon soared up, but he could not defeat the body of the dark dragon as thin as a mountain.

The dark dragon opened its huge mouth and spit out burning magic fire.

Ye Chen's whole body is interwoven with sword light to form a airtight protective cover.

The devil's fire rolled and blocked Ye Chen's escape route.

According to Ye Chen's estimation, the strength of this deep-sea Canglong is about seven days in Baijia territory.

It's totally different from the Tianxi elder.

In addition, it is a marine attribute field with a strong gas field. I'm afraid the strong people in the seven or eight layers of the hundred yoke territory have nothing to do with it.

But ye Chen is not an ordinary monk.

With a wave of his hand, he hoped that the star field brought by Tianxing would be bright, and there seemed to be thousands of torrents flowing in the endless Star River.

Stars fall down one after another. When they fall out of the sky, they turn into white dragons and roar upward.

Long dragons broke through the waves and intertwined, spreading white chains all over the limbs of the deep-sea Canglong.

The volume of the deep-sea black dragon is too large, and it can only be shuttled by the white dragon evolved by the stars. It roared wildly and shouted loudly, and the violent black inflammation was wrapped in the waves, which was bound to destroy heaven and earth.

Ye Chen stabilized his body and used his sword technique in the stormy waves.

The Longyuan Heavenly Sword waved along a specific track, offering a fierce dragon fire.

At the same time, the figure of blood dragon also came out!

The swordsmanship of blood dragon and ye Chen seems to be integrated at this moment, and that dragon Yan has the power of Yan Xuaner, the fire of Tao spirit!

The hot breath of the Dragon smashed the surging waves!

When the dark dragon arrived at the battlefield, it was like an ancient giant ship in the starry sky, carrying the torrent all over the sky, killing and cutting was diffuse and suffocating.

The roaring dragon Yan met the difficulties and refused to shrink back.

The confrontation between the waves and Longyan was incompatible with water and fire. It collided violently and burst thousands of empty spaces. The nearby sea areas were evaporated, exposing the devastated seabed.

The dark dragon uttered a violent scream.

The dragon fire swept out and wrapped the sky. The five elements eight trigrams array was quickly rehearsed. The fire of the five elements spewed out. Even the black fire could not resist the hot temperature.

The magnificent flame blooms under the sky dome, burning the body of the deep-sea Canglong, floating and falling. The atmosphere is magnificent and extremely beautiful.

The two devil leaders who stayed far away to watch the war were stunned and could not breathe freely.

The dark dragon they relied on was easily killed by Ye Chen.

The first thought that immediately emerged was: escape.

But how could ye Chen let them do it?

The virtual spirit spirit pulse used several flashes. Ye Chen pointed a little, and the brilliance of the flame burst out, hitting them hard on the back.

Both of them were in the four-tier heaven of the hundred yoke territory, but they had no power to fight back in front of Ye Chen.

Ye Chen destroyed their poison skills and brought them back to Luosheng island.

Just near the island, ye Chen suddenly looked up and stared at the ten thousand poison heavenly pearl.

His heart sank.

The ten thousand poison heavenly beads turn into demons, like the evil moon hanging high, and the light of the sun is obscured.

The sun, moon and stars are eclipsed, and even the rules of time and space in this area are distorted.

In the central area of the ten thousand poison Tianzhu, a arrogant figure attached to it, endless poison gas gathered into his body, and his breath soared wildly.

The evil spirit condensed to the extreme, and it was bright and brilliant, which made people's eyes ache.

"Look, Xi Wuji has absorbed ten thousand poisonous heavenly beads!"

"Oh, my God! No one has succeeded in the magic sea for hundreds of thousands of years. I didn't expect him to become. "

"The sky is endless, my evil cultivation! Xi Wuji took the ten thousand poison heavenly beads and became the new ten thousand poison ancestor! Our evil wind cave is based on it and has achieved hegemony for thousands of years. "

The evil demons and demons who attacked Luosheng Island waved flags and shouted, shook their arms and shouted.

The people of Tianxi ancient clan stood by and watched indifferently, neither close nor far away.

The luoshenggu people have opened the ancient array of protecting the island, and the combatants shrink into it.

Luo Linsheng's strength is low, but he stands in front of the team, showing the integrity of the patriarch.

They looked at the formed ten thousand poison Tianzhu and felt a little heavy.

The essence of the ten thousand poisonous beads is flowing into the Xi no trace body.

Xi Wuji took a long sigh of relief and showed a satisfied smile.

Open your eyes again, and the poison fog fills them.

His strength has reached the peak of poison Road, and he has mastered the rules of poison for thousands of years.

However, in terms of the control of rules and the strength of will, he is no less than some strong people present.

The opponent in the middle of the hundred yoke territory was nothing but ashes between the fingers.

Chapter 6729

Many of the strong and supreme elders of the Luosheng ancient family are heavy hearted. They are restrained by the strong of the same level of the Tianxi ancient family and can't fight.

If this poisonous man is allowed to rage, Tianxi island will become a place of purgatory.

Can only hope in the Lord of reincarnation!

If the Lord of reincarnation is defeated, the whole luoshenggu family will also be defeated.

Ye Chen hasn't shot Xi Wuji yet.

Xi Wuji, who was promoted to the new generation of the ancestor of ten thousand poisons, turned around and locked his eyes on Ye Chen.

"How much can the blood of the reincarnation Lord improve me? I'm curious. "

Xi Wuji licked his lips, showing his evil nature and being cold and silent.

"Then try." Ye Chen said faintly.

Xi Wuji stretched out his arms, and the black ten thousand poison heavenly beads evolved thousands of Dharma phases behind him. The poison gas and evil miasma surged, and the evil pupil ignored the world and wanted to swallow Ye Chen.

Ye Chen flew and waved his sword. The endless sword Qi gathered together. When he took him to the peak, he cut it out.

"Bing Zi Jue, nine days broken road!"

The Longyuan Heavenly Sword in Ye Chen's hand sang for a long time, tore the sky, shattered the void, and burst out the mysterious meaning of rules. The momentum of indomitable movement seemed to crush everything.

The sword Qi turned into a roaring silver moon and cut into Xi's traceless waist.

"Is it a military formula?"

Xi Wuji's tone was slightly surprised.

He didn't go to the endless sea with the two immortal and demon leaders, so he didn't see ye Chen perform the array formula.

What's more, ye Chen is now using a more destructive military formula.

He wandered through the dark forbidden sea for many years and knew the horror of the wanxu temple.

The nine heavenly divinity is the ultimate meaning of the ten thousand realms of the heavens.

Every divine skill is taken out from heaven and earth.

Brahma's nine Supreme skills are called Brahma's divine skills for short. Brahma's nine Supreme skills are the signboard of wanxu temple, which is divided into nine characters.

Bing Zi Jue is one of the fierce gods. It deserves the first place in terms of its destructive power.

Refining this word formula to the peak can not only kill people with it, but also improve your control over artifact.

Two way feedback, complement each other, the strong will only become stronger and stronger.

After many battles, ye Chen has memorized the military formula in his heart.

In the battle of Xuanji moon, he easily reached the realm of body sword integration.

The body is the sword. The sword is the body. People are like dragons. The sword is like a rainbow. A sword runs through the world. The Dragon roars and the wind and cloud rotate.

This mysterious and true meaning is the best explanation of the formula of Bing Zi.

However, as an ancient demon between heaven and earth, Wandu Tianzhu has its own uniqueness.

The endless magic gas barrier condenses into a huge sky net to block the sword gas.

"Lord of reincarnation, you can't break my poison barrier. Why don't you arrest me and cooperate with me?"

Xi Wuji said with a smile.

Deep in Ye Chen's eyes, there was a faint disdain.

As the Lord of reincarnation, he goes up to the sky and down to the ages. How can he look down on such a low-grade thing.

Xi Wuji obviously tasted the meaning in Ye Chen's eyes. The smile on his face gradually closed, and his eyes became more and more cruel.

"Since you don't appreciate it, don't blame me."

Xi Wuji himself is connected with the ten thousand poison heavenly beads. The poison gas is injected, and the instant explosion is extremely cruel.

The torrent of poison gas spread thousands of miles, endless, and there was no end to it.

Ferocious skeletons emerge from heaven and earth and erode all things. Wherever they pass, no matter mountains, rivers, flowers and trees, they are corroded and empty.

Many natural and local treasures bred in Luosheng island for many years are also precarious under the spread of toxic gas.

Many people of the Luosheng ancient clan have changed their looks and are full of heartache. That's their cultivation resources!

"Ten thousand poison blood pool, gather!"

The rotten skyline of the sky is spinning up and down, and the black poisonous lines are surging together, condensing the essence between heaven and earth.

There were also many evil demons and Demons whose bodies burst into pieces and were swept into them.

"Xi Wuji, what are you doing! We are not enemies! "

Someone shouted angrily.

Xi Wuji nodded and looked strange.

"You are really not enemies, but you are good nourishment."

Ten thousand poisonous heavenly pearls, regardless of the enemy and ourselves, are surging out of the sky. People are trapped everywhere they go.

Those trapped were sucked dry and became part of the ten thousand poison blood pool.

The most toxic fog came to Ye Chen's head.

Ye Chen remained as motionless as a mountain, controlled the Longyuan Heavenly Sword to shoot out, thousands of brilliance and cold circulation, and suddenly killed the poison gas barrier!

"The blood dragon helps me, and the Seven Star Dragon cuts me!"

Ye Chen spit out a few words coldly. The Dragon roared all over Longyuan Tianjian, shaking the sky and the earth. He shook his tail fiercely and split it with an angry sword.

The blaze of the flame is penetrating the sky and sweeping through a lot of poisonous gas.

Under the impact of Longyan, the poison gas around the top collapsed.

Xi Wuji couldn't believe it when he saw this scene.

No matter how strong the reincarnation Lord is, he is just a martial artist who has just entered the Taizhen realm.

But he didn't expect that his original miasma was split by Ye Chen's sword without leaving any room.

"Many wrongs will kill themselves!"

Ye Chen came out with his sword and his eyes were sharp. He slapped Longyuan Tianjian fiercely. The blood dragon roared and bit Xi Wuji's head.

Xi Wuji's five fingers are close together, the ten thousand poison heavenly beads turn into a broad throne, and the handrail is placed under his fingers.

He and the ten thousand poison Tianzhu meet and blend, and the two become one.

"Lord of reincarnation, now I am the ten thousand poison Tianzhu, and the ten thousand poison Tianzhu is also me. See how you want to kill!"

He roared with laughter.

Dark clouds rolled in the sky, and countless poisonous gases spewed out, covering the heaven and earth and blocking the earth.

A poisonous dragon slowly takes shape in the black fog and carries through the world. Its body is like a column.

The poisonous dragon opened its huge eyes, and the ten thousand heavy dark clouds were like magic soldiers, blocking out the sky and the sun, suppressing everything.

The realm of the poisonous dragon is even stronger than the dark dragon Ye Chen met in the endless sea.

The poisonous Dragon flew in the air, and the poisonous gas exploded all over the sky, just like the current demon God returning to the world and rushing to Ye Chen with the dark breath breaking through chaos.

Ye Chen bit his teeth.

The sword Qi he displayed dissipated invisibly under the crushing of the poisonous dragon.

The ten thousand poisonous heavenly beads are buzzing and shaking constantly, constantly sending power to the poisonous dragon.

Xi Wuji is connected with the poisonous dragon consciousness, and now his soul is attached to the poisonous dragon.

This poisonous dragon is the product of Kuang Gu Shuo today. Its strength is extremely terrible and almost invincible in the same realm.

The highly toxic attribute is a great weapon to wipe out thousands of troops.

The poison gas cage surrounds Ye Chen so that he can't move.

With Ye Chen's strength, it only takes a breath or two to split the cage.

But it was this rapidly changing situation that put him in prison.

The poisonous dragon and poison gas reflected each other and completely blocked his way.

The horn on the poison faucet is like a sharp blade and as thick as a giant peak.

It's going to pierce Ye Chen's body.

At the critical moment, ye Chen took a deep breath and the veins on his arm protruded.

He's going to try today. What effect does the reincarnation blood have after promotion!

Chapter 6730

However, ye Chen knows very well that using reincarnation blood is not a last resort, because its biggest disadvantage is that after the war, he estimates that he will have to rest for a long time.

Reincarnation blood, too much power!

When he was about to summon reincarnation blood, a tremor suddenly came from his chest.

When I looked down, it turned out that the box I carried was flashing with gold.

The box looks very ordinary. It is the size of a palm. A copper lock is inserted in one place and has not been untied.

It emits a pure color light as jade.

Ye Chen had some doubts. The box came back from the void. After closing, he didn't have time to study it.

Unexpectedly, there has been a change now!

The pure white light spread all over the meridians along his chest and rushed into the Longyuan Heavenly Sword.

The whole Longyuan Heavenly Sword erupted into a hot, masculine sword like the scorching sun, as if tens of millions of people were shouting into the sky!

The thundering sound of heaven blooms thundering flowers above Ye Chen, and thousands of auspicious images continue to emerge.

The resonance sound of the avenue is like a bell, which spreads all over the four fields. Among them, there are fairy Buddhas singing and reciting ancient scriptures, which is magnificent and magnificent.

Xi Wuji's eyes finally showed a look of fear.

Ye Chen didn't expect that the small box had sent him such a vast energy, which made him resonate with the avenue without using reincarnation blood.

The bright sword Qi is as dazzling as the sun. It attacks the Yellow Dragon and is extremely powerful.

The ten thousand poison Tianzhu behind Xi Wuji seemed to feel something, trembled a few times, and even left the center of the battlefield, leaving his master alone.

"Wandu Tianzhu, what are you doing!!"

Xi Wuji roared angrily, but it didn't help.

Ten thousand poison Tianzhu is obviously avoiding sword Qi.

What kind of extreme sword technique can make Wandu Tianzhu willing to give in after tens of millions of years.

Ye Chen just rode the east wind and soared up, allowing the huge energy from the small box to fill the Longyuan Tianjian.

The Longyuan Heavenly Sword at the moment is stronger than ever.

"The sun is shining!"

As soon as the sword was released, it seemed that millions of suns exploded at the same time. The light of the sword shocked people's hearts and souls.

The light of the sun condenses into a waterfall to disperse thousands of miles of poisonous fog and bring light and heat to the earth.

Demons and ghosts retreat and disperse, and Demons and monsters are unable to resist.

When the sky sword light enveloped the whole Luosheng Island, a small golden light came out of the small box in front of Ye Chen's chest.

That little golden light is very pure and refined.

Ye Chen watched this little golden light blend into the light of the sun, and inserted the ten thousand poisonous heavenly beads in one fell swoop.

The ten thousand poison Tianzhu wanted to escape and wanted to escape from here, but he was entangled by death.

Then an amazing scene happened.

The endless poison gas in the ten thousand poison Tianzhu was absorbed by Xiao Jinguang.

After all this, Xiao Jinguang blinked back and lay quietly in the box.

The light of the sun's immortal light faded, and Xi's traceless figure fell heavily to the ground. His face was haggard, his body was thin, and his face was full of wrinkles, like he was thousands of years old overnight.

"I... what's wrong with me..." he struggled to get up and looked at his wrinkled hands, terrified.

But when he looked up the next moment and saw the slowly falling ten thousand poison heavenly beads, the whole person almost collapsed.

The dark and profound ten thousand poison heavenly beads have lost their former brilliance and become transparent and white.

The people around me also feel incredible.

Ten thousand poisonous heavenly beads have been circulating for thousands of years and have never been destroyed. They are famous and frightening!

But today, it returns to its original form in the hands of the Lord of reincarnation.

After the crowd was silent for two seconds, there was a great sense of war on the side of the luoshenggu family.

They were forced to defend and suffered heavy casualties. They had long held a breath in their hearts.

After Luo Linsheng roared, the remaining Luosheng soldiers ran out of the array and killed anyone they saw.

Evil demons and demons were absorbed by the ten thousand poison heavenly beads. In addition, Xi Wuji was defeated, and he was defeated at once.

The number of Tianxi ancient people was very small, and they were defeated day by day.

Luoshenggu nationality soon gained the upper hand. It's only a matter of time before they win.

Ye Chen received his sword and fell, sitting on an ancient tree.

He took out the rusty box on his chest and observed it carefully.

He found the small box from the nothingness. He thought it was ordinary, but he didn't expect to hide huge energy.

He opened the sea of consciousness and looked at the turbulent reincarnation blood in his body, which was clearer and purer than usual.

It seems that the inexplicable power emerging from the small box can not only help him improve his combat power, but also quench his reincarnation blood.

Congenital treasure is nothing more than that!

Ye Chen was surprised. He tried to open the rusty copper lock on the small box, but he couldn't do it anyway.

This little brass lock seems to have some magic.

It seems that you need to find the key before you can open the box and have a look.

From day to sunset, the war was finally over.

Evil demons and demons were killed in rout, dead and fled, and suffered heavy losses.

The situation of Tianxi ancient people is slightly better, but there are many deaths and injuries.

As for the Luosheng family, they hold a breath in their hearts and have natural advantages. The evil demons and Demons without the blessing of ten thousand poisonous heavenly beads are naturally not their opponents.

When the enemy was driven away, the luoshenggu family won a complete victory.

Luosheng island has restored the peace of the past. Many people repair the city and recuperate.

Ye Chen also decided to stay one more day to prevent accidents.

He was treated courteously by the core high-rise of luoshenggu nationality, and arranged the best palace for the night.

.....

Half a day later, Rosen island.

On the top of the white cloud shrouded mountain, there is a simple and Grand Palace on the edge of the cliff.

The palace is located at the head of the earth, independent of heaven and earth, floating and slim.

The palace has plenty of aura and multiple fortune. It looks like Jackie Chan on the side of the palace, stretching and dancing like taking off.

Ye Chen looked indifferent and sat on the flat boulder at the edge of the cliff. He closed his eyes, breathed and breathed. When he moved and was quiet, it implied the law of heaven and earth, and the long and distant way came endlessly.

At the foot of the cliffs and dangerous peaks not far away, there is a spirit pine tree standing proudly in the wind.

There was no one in the danger, and the blood dragon left the Longyuan Tianjian and soared for nine days.

The lonely peak is towering and the clouds are billowing, just like a fairyland on earth.

Longyuan Heavenly Sword is inserted at the edge of the cliff and stands quietly. It's fun for a dragon shadow to walk up and down in the clouds.

If you look carefully, you can find that it is a bloody dragon with the power of destroying the world.

The blood dragon is like a giant whale, fluttering and tossing in the waves, with a small dark box beside its mouth.

No matter how the blood dragon bites, it can't leave an impression on the rusty box.

Half an hour later, the blood dragon turned into a blood light and returned to the Longyuan Heavenly Sword.
