

Physician 6761

Chapter 6761

When ye Chen said this, he condensed into the image of Ji Siqing through the surrounding mist. Ji Siqing's frown and smile have been deeply engraved into Ye Chen's heart. When his mind moves, he can come easily.

The spirit of the throne instrument slowly closed his eyes, soon opened his eyes and said, "I didn't find out the specific location. I only know that she has been to the bloody desert. You can go and find out."

Ye Chen arched his hand and said, "thank you very much."

The spirit waved his hand and said faintly, "I am willing to help those who are close to the God King. I can send you to the bloody desert."

After that, he thought for a while and continued: "remember not to trust the people of the demon family. They are murderous, crafty and good at bewitching people."

Ye Chen nodded in response. The spirit of the instrument slowly raised his hands, and the mist rolled, holding Ye Chen and Xiao Huang up slowly. The mountains and rivers flew away, and the scenery changed. In the blink of an eye, the scene in front of him had become a blood red desert.

A hot sun hung in the sky. The desert temperature was very high. Ye Chen stood still. Sweat had seeped from his forehead. He felt dry in his mouth, and his body fluid had become manna.

Xiao Huang was also very hot. He gasped and said, "master, what the king's throne instrument Spirit said may be true?"

"False is true, true is false." Ye Chen said.

"I think there's something wrong with the spirit. He said that the demons are bloodthirsty, but the ten girls tried their best to stop the demons from attacking us. He said he could help us, but he tricked me into contacting the throne and asking the master to help him. Although it is simple to ferry people into reincarnation, it is a waste of thousands of souls. The resentment is so great that how can we say that we can spend it. "

Ye Chen also shook his head and said, "find Siqing first."

Xiao Huang also shut up and stopped talking.

It's too hot in the desert. Xiao Huang can't stand taking the lead in using his spiritual power and double pupils to resist the temperature of the scorching sun.

Fortunately, in a short time, ye Chen found something.

"This is Siqing's skirt hem."

Ye Chen picked up a piece of cloth from the bloody desert. He naturally remembered Ji Siqing's clothes. What worried him most was that there was blood on the cloth. It seemed that Siqing was eager to hurry, but he was injured. He had to wrap it roughly with a cloth to stop bleeding.

"Siqing, where on earth are you?"

Ye Chen clenched the cloth in her hand and clenched her fist.

Who hurt you!

If you let him know, you must break the man to pieces!

.....

At the same time, the eternal holy king, who is far away in the realm of heaven and man, is lost and practicing.

Suddenly, cause and effect vibration!

Ancient Runes appeared in his eyebrows.

His slightly wrinkled face was so dignified that he seemed to feel something and suddenly opened his eyes.

"Eternal void! This breath... Seems to be ye Chen's! "

"Shouldn't Ye Chen be in the inner earth or the dark sea now? Why go to the eternal void? How did he step into the eternal void? "

He discovered the secret and still wanted to see it more clearly, but the clues were limited.

The only thing he can perceive now is that ye Chen seems to be in danger in the eternal void.

The eternal void is connected with his cause and effect, which can naturally give him a glimmer of enlightenment. But the eternal void was the place he didn't want to set foot in easily. If it wasn't about ye Chen, he certainly didn't want to pay attention.

The eternal holy king thought for a moment, then got up and left the cave, and flew away to the xiaoshuihan retreat.

Once he might help Ye Chen secretly, but ye Chen is getting stronger and stronger. The eternal holy king knows that ye Chen may not need him.

He and Xiao shuihan have been practicing in isolation.

The change of the rules of heaven and man also made his blood more aware of the word "eternity", and his strength was also much stronger.

Xiao shuihan should have left the pass a few days ago, but he always felt that the state was not stable, so he polished it in the cave again, felt the breath of the eternal holy king outside, stopped, and slowly opened his eyes.

There are stars in the eyes, the stars change, and the vicissitudes of life are in the blink of an eye.

As soon as the eternal holy King arrived, Xiao shuihan stood in front of the door and waited.

When the eternal holy king saw him, he knew that he must come to find him. He left the pass in advance and told Xiao shuihan everything he had previously perceived about the eternal void.

Xiao shuihan's eyes coagulated and said in surprise, "yonglao, are you sure the master is inside?"

"And what does the existence of the eternal void mean? It has something to do with your blood? "

The eternal King gazed at the sky, fell into meditation, and said for a long time: "I don't know many things. The memory in my blood tells me that there is my root."

"I have even dreamed of glorious temples and empty solitude for countless nights."

"In my dream, I seem to be on a void, and many void fierce beasts fly before my eyes."

"And in front of me, there is a throne."

"Specifically, I can't tell. Many years ago, I explored it several times, but because the strength is not qualified for there, I didn't go deep into it."

"I thought I wouldn't be contaminated with it in my life. Unexpectedly, ye Chen went there."

"I fear that the eternal void will change all my life. Ye Chen is not safe in it." The eternal holy king said, "by the way, there is not only one entrance. I know there is another entrance in heaven and man, and you need to go with me."

Chapter 6762

Xiao shuihan was worried when he heard that it had something to do with his master.

Although Ye Chen's strength is slowly recovering after reincarnation, it is still less than the freedom of thousands of worlds. Even if the eternal holy King shows the way, he rushes to that entrance.

The void fluctuated, and the two figures continued to go.

I don't know how long later, they came to the entrance of the eternal void in the heaven and man domain, and there was only a barren and barren land.

Xiao shuihan knew that the eternal king would not deceive him, so he looked at the eternal King: "yonglao, are you sure it's here?"

"The aura here is much lower than that of other places in heaven and man. It doesn't look like the entrance to the so-called eternal void in your mouth."

The eternal holy King's eyes seemed to flow through the ancient world. He glanced around and seemed to be determining what. Then without explanation, he directly bit his fingertips and forced out a blood essence.

"Open the door of the void sanctuary in the name of my eternal Protoss."

He pointed his finger out slowly and landed in the air.

The air turned into a lake, and was thrown into a small stone, with ripples. The blood essence slowly separated from the fingertips of the eternal king and hung in the air. The ancient breath suddenly rose and swept the whole world.

The blood essence turned into a virtual shadow, and a tightly closed door appeared. The blood essence was particularly abrupt, turned into a red door handle and inlaid on the golden light door.

"Let's go."

The eternal king put his hand on the handle, pushed the door open with a slight effort, took a step forward, and disappeared into the golden light alone.

Xiao shuihan also followed up. He was a little surprised at the eternal holy King's means.

In an instant, the void fluctuated and the door closed.

Xiao shuihan and the eternal holy king came to the place Ye Chen had stepped into!

At first glance, it is a desolate space. The cliffs are stacked and intertwined, colliding with each other and breaking away. Some small space debris is silently swallowed by large space.

Because the space is not stable, there is a lot of turbulence. These spatial turbulence can not be captured by the naked eye, so more people are willing to call them spatial undercurrent, which can easily take people's lives in silence. This is why most people are reluctant to set foot in this area.

Although they experienced the picture of Ye Chen at the beginning, this time they were not lost.

And the reason is because of the blood essence of the eternal king.

Tracing the source, the eternal holy king is the person of the eternal Protoss, and that blood essence is the guide of the eternal Protoss.

"Yonglao, what should we do next?"

Xiao shuihan looked around and coagulated.

At the moment, the eternal king is covered with a faint light, as if he existed here, which is eternity.

Suddenly, his eyes looked at a direction, then stretched out his hand and said faintly, "when we went there, I felt a trace of Ye Chen's cause and effect."

.....

The picture turns, eternal void, bloody desert.

Ye Chen and Xiao Huang continue to look for Ji Siqing according to the guidance of the trace.

Even ye Chen feels extremely hot and dry after walking in the desert for a long time. Fortunately, ye Chen can guard it with a burning monument.

Even with the help of Yan Xuaner's spiritual fire, he can absorb some.

Ye Chen had always wanted Yan Xuaner to grow up, or to make the fire of the Taoist spirit more terrible.

Unfortunately, Yan Xuaner needs too many fire attribute resources to grow again.

And the fire of Tao spirit is already strong among many flames, and it can't meet a stronger flame to absorb at present.

This also leads Ye Chen to seldom use Yan Xuaner.

Of course, ye Chen can also feel that Yan Xuaner is working hard at ordinary times, and seems to want to completely change at a certain moment.

Ye Chen doesn't think much anymore. If he has a chance, he will make Yan xuan'er the strongest fire spirit in the world!

Bound by the rules here, Xiao Huang is a double pupil nightmare with strong strength, but he is also restricted by many restrictions. He was too tired to talk about what he said before.

But at this time, on the nine days of the world, suddenly came a cry, with a clear voice.

Ye Chen looked up and saw a rosefinch hanging in the sky. There was no cloud in the clear sky. The shadow of the rosefinch looked so close to him.

Xianxia covered the sky and pressed slowly towards the bloody earth.

"Rosefinch gate!"

Ye Chen's eyes lit up, it was Siqing!

Ji Siqing seems to be fighting with who!

It's dangerous!

He and Xiao Huang looked at each other, the virtual spirit and divine pulse worked, and the surrounding void fluctuated. Then he spread out his body and flew to that place quickly.

But half a quarter of an hour later, ye Chen heard the sound of fighting in front of him.

Ji Siqing hung on the nine days, his eyes were cold, his slender jade hand waved down, his fingers flicked, and a red door crashed down.

That's the rosefinch gate, one of the nine gates of the wilderness!

Boom, boom, boom!

The door of rosefinch has thousands of rays, and the divine awn surges. The auspicious atmosphere guards the rosefinch. The divine bird came to the world, which is spectacular.

The man who was suppressed by the rosefinch gate showed a greedy smile on his face.

"You refuse again and again. Do you know that this is death seeking?"

"I want your rosefinch door, and you give it to me. Come on, come on!"

With a loud cry, he washed thousands of golden lights all over his body. It was as bright as the fierce fire formed by the combination of countless stars and swept away towards the rosefinch gate falling from the sky. It seemed that he was going to refine the rosefinch gate directly.

Chapter 6763

In the sky, the golden light and red glow collided together, and the world was eclipsed for a moment.

The rosefinch Phoenix divine bird seemed to be overwhelmed with a clear cry, and its figure became more and more illusory. It seemed that it would dissipate in the next moment.

And the flaming stars, which are punished by the gods, still fly towards Ji Siqing.

Ji Siqing's eyes flashed a touch of despair. She knew that the other party was strong and blessed by the rules here. In the final analysis, she didn't belong here, but was suppressed by the rules everywhere!

Of course, she still clenched her silver teeth and put her slender hand on her chest.

Even if she fights, she will fight to the end!

She is Ji Siqing, and she is also a female martial arts Shenqu Chenyan!

But just then, the sudden change protruded!

Void wave! An inexplicable force suddenly came!

In an instant, a bead suddenly appeared in front of Ji Siqing.

It was a brass bead. It turned slowly. As soon as it appeared, a figure appeared on the bead.

The shadow, wrapped in a red flame, rose with great fighting spirit, powerful and fierce, just like the fighting God in ancient legends!

No, it is the fighting God of the same era as Wuzu!

"Doushen Tianzhu!"

Ji Siqing also recognized the bead, and two clear tears came out of her eyes.

This is the object of Ye Chen, which means Ye Chen is coming!

Before that, she wanted to be ye Chen's Lighthouse and broke into here together. Unexpectedly, she couldn't do anything like Ren extraordinary to be a lighthouse with Ye Chen.

Perhaps this is the friendship between men, or, two generations, the Lord of reincarnation and any extraordinary cause and effect.

This cause and effect, even beyond their own.

"Ye Chen."

She looked down and saw Ye Chen's figure approaching rapidly. Tears wound down her cheeks. Her hand on her chest also lost strength and slowly fell down.

As soon as this God fighting pearl appeared, the tyrannical spirit of God fighting was washed away in the world.

"I am the fighting emperor. I should suppress everything!"

The red flame figure on the heavenly bead roared and waved with a big hand, and the huge palm appeared in the sky. It was fierce and waved down with one hand. With one hand, the man's stellar flame shining in the sky was pressed down, passed through and fell on the man.

He hurriedly formed an array, but was patted on his body by the big palm.

"This is... Fighting spirit!"

The man took a breath when he saw the scene.

"Brother, you and I have no grievances. It's better to give me face in the eternal temple!"

He saw that the red flame figure hanging above the nine days increased again and waved his palm down again, so he quickly shouted.

"When you provoke Siqing, you and I have a bitter hatred."

Ye Chen's voice was indifferent. At this moment, his voice seemed to be a God who dominated life and death. It fell into the man's ear and made him fall into the ice abyss.

"No!"

Ye Chen urged his aura, and the giant shadow waved it. The man had just been injured. Now he couldn't stop it. His eyes flowed out of infinite hatred. He crushed a spell in his hand and waved his palm to meet him, but the next moment he was smashed by the giant palm, and his body burst and no longer existed.

Ji Siqing slowly fell back to the ground. Her face was pale and exhausted. As soon as Fang fell to the ground, she fell to the ground and was caught in her arms by the fast-moving Ye Chen.

"Siqing!" Ye Chen looked at Ji Siqing and said with some heartache.

He looked at Ji Siqing with no blood on his lips and no tears on his face. He only felt bursts of pain in his heart.

Previously, if I could be tough, resolutely refuse Ji Siqing's company and leave her outside, I wouldn't let her encounter all this!

Ye Chen hated that he didn't arrive in time and protected Ji Siqing early.

Ji Siqing looked at Ye Chen's face and suddenly laughed, "don't worry, I'm fine."

"If I come a little later... You may be in danger." Ye Chen said.

Ji Siqing remembered that he had just decided to sacrifice the power of blood. Even if he escaped by chance, most of his body cultivation was lost.

"No, you won't! I know you will come and save me! " She just wanted to say something, but she covered her mouth and coughed.

Ye Chen saw the blood seeping from Ji Siqing's hand and hated it in his heart.

Eternal temple!

The man seemed to be the man of the eternal temple. He remembered that the throne spirit he met earlier also claimed to be the eternal temple.

I don't know whether the eternal Temple mentioned by the two is a force.

Ye Chen held Ji Siqing and said, "Siqing, talk later."

He used the eight trigrams Tiandan technique, cooperated with the Tianxian Koi to copy, and even used the spirit tablet in the reincarnation xuanbei and his own blood to help Ji Siqing recover quickly. Fortunately, Ji Siqing recovered soon.

Ji Siqing felt her breath and felt that the injury had completely healed, her aura had recovered to its peak, and her serious injury had been cured. She even vaguely touched the sign of breakthrough, which seemed to improve her strength a lot.

"Ye Chen, thank you." Ji Siqing's face also became ruddy. She smiled and kissed Ye Chen on the cheek.

Xiao Huang turned his back very consciously and muttered something.

"Siqing, you're so stupid. What are you talking about between me? Thank you."

Ye Chen did not refuse, but accepted the kiss.

"By the way, I also made a lot of efforts!" Xiao Huang turned around and suddenly said.

Ji Siqing smiled, touched Xiao Huang's head and said, "thank you too! Xiao Huang! "

But Xiao Huang is obviously not satisfied.

"Smelly boy, what do you think!"

Ye Chen saw that Xiao Huang was eager to try, and knew that he had a crush on Ji Siqing's kiss!

Xiao Huang smiled and said, "master, I was just kidding."

"By the way, master, I'm trying to find a secret way to enter the xuanhai." Xiao Huang said.

Ji Siqing also said: "you wasted a lot of time looking for me. I came in to help you..."

Ye Chen can't hear her grievance. Where can she blame her? She just wants her to be safe and harmless.

"What do you think? I don't want to listen to you anymore." Ye Chen said, "I need to be responsible for you. If you don't want to help me, you won't fall into danger. These are all because of me. You and I are one. If you say so, can you be happy to separate you and me? "

Hearing Ye Chen's words, Ji Siqing hammered him with a pink fist and said, "what are you talking about! We! "

Ye Chen was hit by her. She was sweet in her heart. She smiled and said, "well, well, we all listen to you."

Ye Chen and his party redefined their position and flew away towards the bloody desert.

This is also a unique space. Ye Chen communicates with the void, escapes into it with Ji Siqing and Xiao Huang, and flies to the place where Xiao Huang previously perceived the method of entering the xuanhai.

Chapter 6764

"Xiao Huang, is this it?" Ye Chen looked at his eyes, slightly frowned and asked.

Xiao Huang nodded definitely and said, "I'm sure it's here!"

Ye Chen said no more and used the virtual spirit and divine pulse to take them through the void and into the lower space.

There was a heavy fog below. Through the fog, several people fell to the ground and saw a towering mountain in front of them.

Among the mountains are mountains of rocks, surrounded by green trees and flowers. A stone road leads to the top of the mountain. Lifelike cliff statues can be seen along the road. The mist is dense, just like a fairyland.

There is a temple on the top of the mountain. Looking up from below, the temple is not big. From a distance, you can only see the glazed tiles paved on the top of the temple, reflecting the light of the sun. There are many immortals carved on the ridge of the temple, each in different forms and bright colors.

Ye Chen tried to fly up, but found that his body was extremely heavy and was pressed on the ground, but there was no obstacle when walking on the ground.

Ye Chen discussed with Ji Siqing and Xiao Huang and decided to go up first. Xiao Huang sensed some information from the temple. The mountain looks deserted, like a fairy mountain in the world.

Ye Chen could not perceive any malice from it, so he took the lead in stepping on the flagstone road.

It took them about an hour to climb up the steps to the peak.

There are too many restrictions here. I'm afraid Tianjun can't do it if he wants to climb the top in an instant. Moreover, ye Chen vaguely feels that what he sees is not strength.

Ji Siqing was panting and sweating.

Ye Chen wiped her sweat. Later, he wanted to carry her up, but Ji Siqing glared back. He had to stop talking about it and see Ji Siqing show off.

However, Ji Siqing may be really tired, and his physical strength is not as good as ye Chen. When he got to the gate of the temple, he held the gate of the temple for a long time before he came back.

"We'd better have what we want here!" She glanced at the temple and expected.

Because this is their only purpose. Once they get it, they can leave.

As a woman's intuition, Ji Siqing felt that staying here for one more second would be a crisis.

Although that sentence was not deliberately said to Xiao Huang, Xiao Huang still shrunk, nodded quickly and replied, "some, trust me!"

In fact, he can't be sure, but he calmed Ji Siqing first.

Ye Chen took this opportunity to look inside. The temple is located between a piece of lush trees, surrounded by beautiful flowers and plants. The most striking thing is the towering ancient locust in the yard in the temple gate.

The ancient pagoda tree is pulled out of the ground, and its green leaves are as green as jade. The pagoda flowers on the tree are in full bloom. Standing here, there is the fragrance of the pagoda flowers. The shadow of the tree is heavy, blocking out the sky and the sun. Because the crown of the tree is too big, there is not much sunshine passing through.

Ye Chen vaguely felt that there was something wrong with the tree, but he couldn't tell where it was. After looking at it for a long time, he also looked away.

Ji Siqing saw that ye Chen had been looking at the locust tree and looked along his eyes. When she saw that there were many red ropes wrapped around the branch, she was very interested and leaned over to see it for a moment.

One end of the red rope is wrapped around the branches of the locust tree, and the other end is hung with a large folded locust leaf. Each locust leaf has the size of a palm. I do not know how many years have passed, the leaves have not withered, yellow and brittle, but still green.

Ji Siqing took off a red rope on his toes, opened the leaves and looked at it. It said a wish: I hope I can be with him all my life.

Ji Siqing secretly glanced at Ye Chen, and his mind moved. He also picked a leaf from the locust tree, pinched his fingers, gathered a spirit pen, and engraved a line of words on the leaf with the pen.

"If you think so, if you don't tell me, I can help you achieve it immediately!"

Ye Chen's voice suddenly appeared in her ear.

Ji Siqing turned up red clouds on his cheeks and scolded, "how can you peek!"

Ye Chen hugged Ji Siqing's slender waist and put his chin on her shoulder. When she was unprepared, she grabbed the locust leaf from her hand.

"I'll save this for you." Ye Chen smiled and said.

Ji Siqing saw that he was so cheeky, his face was slightly red and lowered his head. Of course, he was not really angry. Looking at Ye Chen's face, he soon smiled again.

At this moment, she felt a little relieved.

Along the way, they faced too many dangers, and at this moment, they seemed at ease.

As if ye Chen is not the Lord of reincarnation, and she is not the female martial god of the previous life.

Xiao Huang didn't see them love each other. He had gone straight through the gate and continued to walk up the stone road. There were many trees along the road, but none of them was as spectacular as the locust tree.

In his perception, there was a lot of relationship between xuanhai Xinmi and here. Ye Chen also led Ji Siqing to follow up. Seeing that Xiao Huangben was moving forward, he suddenly stopped in situ and meditated. He didn't know what he found.

"There." Xiao Huang suddenly said.

Ye Chen saw that he did not point to the temple in front, but a side hall on the right.

"Let's go and have a look." Ye Chen nodded.

After a while, they came to the door of the side hall. The door was wide open. Inside, incense and candles were burning and misty, offering rows and rows of longevity tablets.

The space inside is very wide, with a word hanging in the middle, which says "the strongest in the world".

The strokes of those four characters are vigorous and powerful, which vaguely coincides with a certain Tao rhyme!

When ye Chen saw that line of words, his expression changed slightly.

This is a little close to the breath of Wuwu!!!

Chapter 6765

As soon as ye Chen's eyes coagulated, he let go of his perception and was suddenly surprised.

This is not without breath, but because of the age, the residual meaning of martial arts is extremely powerful.

The earlier the times, the more terrible the martial arts will become.

This is also one of the reasons why no one can match the martial arts of Hongjun and Wuzu.

The goods are available in all varieties. Many goods are available in all varieties. The censer is clean. It seems that people always clean up. But the whole temple has no other people except leaf and Chen.

Ye Chen approached and saw that the immortal memorial tablet was engraved with names, Taoist names and so on, as well as the passing time. When he looked at them one by one, he felt that he had heard several names.

"This is the most powerful Temple of the human race 100000 years ago."

"It's surprising that a Terran warrior has been here."

Ye Chen was still checking, and Ji Siqing's voice rang.

"I know some of the strong on these tablets, some of which have participated in the ancient war."

"How many people were dazzling at that time." Ji Siqing continued.

Ye Chen also has some impression on one of the names. He once heard Ren extraordinary mention it.

The man's original means shook the world and nearly split the world.

How terrible it is.

But then, somehow, the man disappeared.

Ren Feifan once went to Taishang world to investigate the matter, but there has been no news.

Now it seems that somehow, the strong man also came to this eternal void. Is it the same as his goal to find an opportunity to enter the xuanhai?

It's just a pity that the other party didn't achieve his goal and fell here.

Ye Chen could not help feeling a little sad, and even had a trace of admiration for these strong people in her heart.

"Since it is the temple of the strong man of mankind, of course I don't know each other. We are also compatriots, so I'll put a column of incense on it."

Ye Chen said and went to the altar. He took out three long joss sticks and lit them on the long light.

Then, he worshipped the calligraphy and painting that said "the most powerful in the world", and inserted the three incense into the censer.

This is not only his attitude, but also the respect and belief among martial artists.

However, Changxiang Fang was inserted into the soft incense ash, and the ground suddenly trembled slightly.

Ye Chen thought it was his illusion. He was afraid that Changxiang would break. He also stretched out his hand in an attempt to protect it with spiritual power.

Boom!

There was another dull noise, which was a tremor from the ground, as if it had been transmitted layer by layer from the depths of the mountain.

Ye Chen looks dignified. What happened?

"Look outside!" Ji Siqing found something and suddenly said.

Ye Chen turned around. In the huge courtyard outside the right side hall, there were suddenly many black stone tablets. From their point of view, they could only see the back of the stone tablet, which was engraved with large sections of inscriptions.

"It's life." Ye Chen glanced at the content above and said faintly.

The inscriptions are all the life stories of the fallen human powerful and powerful, as well as their great achievements and contributions to the martial arts civilization.

It must be that the sculptor knew them very well that he could write these messages in such detail.

The earthquake at the bottom of the earth became more obvious. Ye Chen grabbed Ji Siqing's hand and said, "let's go out and have a look."

There seems to be a certain law in the vibration at the bottom of the earth. Black stone tablets break through the earth in the huge roar, one after another emerging from the ground. In a short time, there are more than a hundred.

The material of these stone tablets is very ordinary. After reading a few, ye Chen lost interest, but he had a few other feelings in his heart.

Ji Siqing was looking at it carefully. She said to Ye Chen, "these stone tablets should correspond to the memorial tablets in the hall of eternal life. Presumably, this temple is also used to worship these fallen human strongmen."

"Just at that time, why did you send so many warriors to the eternal void? Is it war? Or to get something? "

Ye Chen was thoughtful. There were more and more stone tablets. Looking forward, he couldn't see the end. He took two more steps forward, seemed aware of something, and suddenly turned back. Then he saw the endless stone tablets behind him. The longevity hall they had come out earlier had disappeared.

If there are 100 tombstones, it can be said that they are somewhat similar to the reincarnation cemetery, but the dense tombstones will only make people feel depressed.

Ji Siqing saw Ye Chen's action and turned around. She suddenly said, "did Xiao Huang just follow us out?"

Just now they came out of the side hall and didn't pay attention to Xiao Huang, but Xiao Huang was still around when ye Chen ordered incense.

Ye Chen thought for a moment and tried to feel Xiao Huang's position in her heart.

"How's it going?" Ji Siqing asked.

Ye Chen shook his head and said, "I can't locate Xiao Huang."

"Xiao Huang should be fine. Maybe he found the secret method of xuanhai and went to find it by himself." Ji Siqing road.

"It's hard to say." Although Ye Chen felt that Xiao Huang would not do so, he could only think so first.

"I don't think this stone tablet is special, but it seems to be protected by secret law. I can feel some kind of energy fluctuation. Their actions like this should be the art of array. And there are several different prohibitions in this space, so we can't use them." Ye Chen said. He pinched Ji Siqing's hand and said, "follow me until I break the ban."

Ji Siqing also thought in his heart. He suddenly heard Ye Chen say so. He only felt sweet in his heart and didn't object. He nodded meekly and said, "I'm not afraid of you."

Ye Chen sensed the spiritual fluctuation in the surrounding space and looked for the complex energy.

Ye Chen has not let go of jisiqing's hand, Ji Si Qingmei eyes are staring at Ye Chen, just like the eyes of all stars.

"Here it is." Ye Chen touched a stone tablet and said.

There was no taboo or life of any strong person printed on the stone tablet, only a few strokes were drawn. Ye Chen couldn't recognize what pattern it was, but he didn't want to know. He tried to run the spiritual power, but the pressure from the space was great, which solidified the spiritual power in his body and couldn't flow.

Ye Chen hum cold, clenched fist, a fist hit on this side of the black stone. The stone tablet broke at the sound, and immediately broke into several pieces and fell to the ground.

He tried to communicate some spiritual power in his body, and the sense of obstruction became slight. Although it was improved, it had not been completely solved.

"This is only one place, there should be..." before ye Chen finished his words, the vibration of the ground came out again.

As like as two peas of stone were broken, a new stone appeared again and again, just like the one before. If the fragment that had been blasted out by Ye Chen's fist was not still on the ground, he would even think it was still the stone tablet.

Chapter 6766

"No use? No, it's not useless. "

Ye Chen can clearly feel that even though the new stone tablet has slowly emerged, the prohibition should be disconnected. In other words, the new stone tablet is still very weak and does not connect the closed loop of the prohibition.

"Ye Chen!"

Ye Chen was still looking at the stone tablet in front of him, but he heard Ji Siqing shout and hurried to see her.

"Something just flashed by!" Ji Siqing glanced around and said.

Ji Siqing looked a little dignified. Ye Chen looked forward and saw only one after another. He couldn't see the end of the black stone tablet.

"Who plays tricks?" Ye Chen said coldly.

No one answered. It seemed that the wind was blowing around. The wind blew through the forest of steles. The sound of sobbing was very like the sound of crying.

Ye Chen wanted to show Hongmeng's great starry sky, but he still stopped.

"Did you hear anything?" Ji Siqing said close to Ye Chen's ear.

She was just acutely aware and slightly frightened, but now she has calmed down. This place seems to be a temple built for the worship of heroes. Logically speaking, there should not be "ghosts", but what if it was not for the worship?

She was startled by the sudden thought in her heart.

Ye Chen naturally heard it. He "hissed" and gently shook his head at Ji Siqing.

Ji Siqing immediately understood and closed his mouth.

Ye Chen had heard it before, but now the sound became louder and louder, like sobbing and crying, and like wailing and weeping. It sounded like a ghost.

Ji Siqing subconsciously leaned against Ye Chen, and ye Chen hugged her shoulder. The sound really made people feel creepy, and everywhere, so that people couldn't find out where the sound was made.

"Since you don't want to show up, I'll smash all these stone tablets!" Ye Chen's voice sounded colder and jumped up with the momentum enough to make thousands of gods and Demons kneel down.

"Miso!"

When the sharp sword came out of its scabbard, the Longyuan Heavenly Sword suddenly rose up with countless swords wrapped around it, and instantly cut off dozens of stone tablets around it.

The earth shook again and new stone tablets filled up.

Ye Chen shouted and smashed the stone tablets again before they came out completely.

"Ha ha ha, good smash! Have fun! It's been a long time! "

The wailing around gradually became clear, and ye Chen understood this time.

That's what sounds a little wrong.

Without reminding, ye Chen has found the difference.

He squinted and looked slightly.

At the place where countless stone tablet fragments are piled up, there is a dense ghost gas gathering quietly. The ghost gas is attached to the stone tablet and seems to be absorbing its energy, slowly becoming more and more.

It was gradually entangled and turned into countless ghost eyes.

The ghost eye seemed to look up at the world from the dark abyss, showing endless hatred. One eye could feel infinite despair.

With the temperature of the surrounding space getting lower,

Ye Chen had seen a similar array before. It was the nether demon pupil array he had seen on Tianxi island.

But the ghost gas in front of Ye Chen was like a non array, so ye Chen couldn't be sure.

The ghost spirit gradually became strong and rolled around.

Seeing this scene, Ji Siqing felt more and more that his previous guess was correct.

"I'm afraid these stone tablets are used to suppress this ghost spirit." Ji Siqing said.

When ye Chen saw the ghost gas, he had stopped his action. He vaguely felt that Ji Siqing was right.

"What on earth needs to be suppressed by such a number of strong souls."

Ye Chen couldn't help guessing that if the temple was really used to suppress the master of ghost Qi, if he was completely awakened, I'm afraid something terrible would happen.

However, the forest of Steles is an array, and there is also a large array in the temple. Together with the mountain, there is a larger natural array. The three arrays are born together, which makes the stone tablets continuous and the heroic soul immortal.

Enough to guard everything and block all spiritual power fluctuations inside.

This is the reason why Ye Chen can't urge too much spiritual power after entering the mountain.

Ye Chen wants to understand everything, but he is in a dilemma. If he can't destroy the forest of Steles, he will lose a lot of means. Naturally, he can't deal with the ghost spirit. Now the ghost Qi only cares about swallowing energy. It seems that it is because the previous loss is too heavy that it makes it so greedy as soon as it appears.

Although it did not show the slightest hostility to Ye Chen, how could this ghost master let go of two larger resources!

It doesn't provoke Ye Chen and Ji Siqing now. It must have sensed that they are not easy to provoke. With its weak body, it can't solve Ye Chen and they will be killed.

"It's smart." Ye Chen sneered, "if you want to destroy the forest of Steles, I will do as you want, but you have to pay a price if you want to hit my attention."

Ye Chen gave a loud drink and offered the sword of disaster, drawing a disaster Valley in the heavy ghost spirit. Where the gully went, the stone tablets collapsed one after another.

The stone tablet suddenly lost a third, and ye Chen's spiritual power gradually became smooth.

"Siqing, help me!" He gave a loud drink and then waved another sword.

Chapter 6767

Ji Siqing also gave a soft drink, urged his spiritual power and attacked another forest of steles.

The forest of Steles was completely destroyed, and the ghost spirit rolled more and more fiercely. The dark breath became stronger and stronger, pouring into the place where ye Chen and Ji Siqing were located.

The ghost eyes opened one after another, and the sharp strange laughter was far and near, and the sound of bone friction became clear, like countless bones dragging towards them.

Ye Chen summoned the wish sky star. The light of the stars lit up some of the Black Ghost gas. The Milky Way fell from the sky, and the glow covered the clouds.

"Wish Tianxing, I wish to protect Siqing and me."

Although he had not experienced the power of the ghost Qi, ye Chen could clearly feel that it had become more powerful, and it increased a little with each passing breath.

The sound of ghosts crying and wolves howling seems to have the effect of confusing people. It is the so-called obsession, but so it is. The extremely evil breath is getting closer and closer, and a trace of ghost fire is also lit up, as if competing with the bright star river of the wish star.

If you are really swallowed up by this ghost gas, even ye Chen may completely become the puppet of the other party.

Wish sky star is one of the most precious treasures of chaos in the thirty-three days. With the help of the supreme Star River, wish stars can cross the world and star regions, and make wishes come true.

But ye Chen's strength is really limited now. In the face of this ghost gas, the star array seems to be unable to bear the weight and becomes smaller and smaller. There are cracks on the star wall.

The vibration came from the ground again, which came from the inside of the mountain and came from the violent vibration in the deep.

"Roar!"

A huge roar came up from the depths of the earth, filled with infinite resentment and hatred.

"Even if you are buried here, I will make you restless all day!"

The mountain trembled again. The existence of an evil god, which was deeply suppressed, seemed to break the mountain completely.

For a time, the earth shook and the mountains shook, and a crack really appeared on the ground.

The crack became bigger and bigger with the shaking of the mountain. In the blink of an eye, it had penetrated the courtyard where ye Chen was staying.

"Here we are."

Ye Chen held the sword of disaster tightly in his hand, and Ji Siqing had called out the rosefinch gate. The auspicious omen of rosefinch Phoenix all over the sky came down from the sky, and the fairy music was faint, which also suppressed the sad cry of Ai Ai.

Soon, a hand stretched out from the crack. To be exact, it was a huge hand with white bones. This giant hand is not an ordinary human hand bone, but a huge white hand composed of countless human bones.

The bone hand clasped the edge of the crack in the ground, and soon a white bone giant hundreds of feet high climbed out.

As soon as the white bone giant Fang appeared, he roared at the ghost spirit all over the sky, as if he was venting his depression.

"Even if you suppress me for 100000 years, what can you do! You have become white bones, but I can use you to improve my body! Isn't it beautiful! "

The voice of its vicissitudes is mixed with some dumb and ghost gas, which is very gloomy and terrible. This picture is also shocking enough.

"Speaking of it, I want to thank you two little guys for letting me out." His eyes were originally two dark holes. He looked at Ye Chen and Ji Siqing. If the essence of his eyes fell on them, he just felt creepy.

"No need to thank you, because you still go back and forth."

Ye Chen thought very clearly. Since this place has a secret method to enter the xuanhai sea, it can't be destroyed. If you want to search here, you naturally have to get rid of all the demons and ghosts in it. The white bone giant was included in the clean-up list by Ye Chen.

"If you help me get out of the mountain, I can naturally spare your life, but your cultivation and magic weapon will completely belong to me."

Ye Chen had expected that it would come to their idea. Sure enough, as soon as the white bone giant appeared, he raised his huge bone hand and patted it in the direction where they were. The ghost spirit also rolled up and hit the star wall of the wish star heavily.

The crack became bigger. Seeing the wish star, it couldn't last long.

Such as the cold air coming from the nether world falls from the sky and strikes the light of the stars, and the light mask is completely broken.

"Hum! Die! "

As soon as ye Chen's mind turned, he blinked out with Ji Siqing. In an instant, the terrible ghost gas had drowned the place where they had just stood.

This ghost gas has countless ghost eyes. It seems that there are countless ghosts hidden in it. Each ghost gas seems to be really drawn from the nether world, which is extremely cold.

If ye Chen and Ji Siqing were weaker, they would be completely assimilated under this cover. In an instant, they would be terrified and disappear.

As soon as ye Chen waved his hand, he copied and released the Tianxian Koi. The Tianxian Koi poured out one by one, emitting holy light and dispersing some of the ghost gas.

The dark ghost spirit surged and screamed. It seemed that it didn't need the command of the white bone giant, so it had followed him.

The sword Qi suddenly exploded, and the Longyuan Heavenly Sword erupted into the sound of Qingyue dragon chanting, suddenly rising into the sky. The sword Qi gushed out like a landslide and tsunami, and impacted straight down.

Ghost Qi was cut out by this sword.

The white bone giant was in doubt. It seemed that he didn't expect Ye Chen to have such combat power. It stealthily glances at Ye Chen and Ji Siqing, and naturally will not let them go. Then he roared, and the huge white bone hand slapped heavily on the ground, and the ghost gas changed again.

"The ghost method makes all souls mourn."

It was suddenly dark between heaven and earth, and the sky suddenly subsided. In the dark space, only the immortal Koi copy released by Ye Chen and the rosefinch gate summoned by Ji Siqing.

The ghost gas became more and more strong, and became a huge dark vortex around Ye Chen and Ji Siqing. The ghost eyes opened. If the color of resentment was real, it was shining blood red. The ghosts in the array were laughing and crying.

Ji Siqing's face became pale with the naked eye. Ye Chen took a look at her and mobilized her spiritual power to wrap the pure Qi copied by Tianxian Koi around her.

"Don't listen, don't think, rush out with me." Ye chendao.

The white bone giant naturally saw Ye Chen's action.

"Are you willing to be buried here and suppress me with your own blood? Even the soul is forbidden here forever, no reincarnation! Look, these are their grievances. With their 100000 years of nourishment, the king will only become stronger! "

The white bone giant Jie laughed, and the towering hatred made it roll up the ghost gas in the sky, making the whole space into a dark world, such as falling into hell. Thousands of ghosts came fiercely and flew to collide with the aura of immortal Koi condensed by Ye Chen!

Chapter 6768

Koi swim freely in the Milky way, but the water in the Milky way will soon be no longer clear.

The Longyuan Heavenly Sword came out again, and the Dragon took off. Thousands of sword lights were like thousands of feet of sunshine. They were gorgeous and magnificent. They opened a bright road paved with sword lights in the ghost air.

The momentum of the Lord of reincarnation is fully open. Ye Chen penetrates the thick ghost gas and looks at the white bone giant who laughs up to the sky.

The sword light did not stop after cutting off the gloomy ghost gas. With the breath of indomitable progress, it continued to move forward and rushed to the white bone giant.

The giant patted the ground again, and the stone tablets all over the ground suddenly became crushed. The lush vegetation in the yard withered instantly, as if it had absorbed vitality, turned into powder and disappeared. The earth trembled, but no black stone tablet appeared. Instead, it was covered with dark green mucus.

Between heaven and earth, there is no sun and moon, and there is a surge of ghost Qi. There are countless human bones.

Ye Chen vaguely guessed that these might not be the bones of the strong human beings, but now they were attached by evil things and became a weapon used by the white bone giant to hang him.

He also heard from a few words of the white bone giant. It had a deep hatred with these strong men before, but now it doesn't cherish these bones at all.

Those bones flew up one after another and hit the sword light in an attempt to weaken the sword light. Thousands of bones formed a bone wall in front of the white bone giant.

"Well done! Damn you! Damn everyone! I help you break the game, but you treat me like this in turn! What about the past 100000 years! You have become a pile of loess and are buried here. The king will keep you awake all day! "

"Ghost bone, listen to my orders and kill! Kill everything in the world! Mankind has survived for 100000 years! It's time to pay the debt! "

A pale ghost fire was born in the black hole eyes of the white bone giant. The ghost fire turned from white to red. The towering resentment stirred the changing situation and made the whole world tremble.

Ji Siqing was also impolite, directly summoned the rosefinch fire, and rushed to the white bone giant after the vast sword light.

"Brahma divine skill, array word formula!"

Soon, the white bone giant found that ye Chen not only had peerless sword skills, but also peerless magic skills.

Ye Chen shouted loudly and floated slowly. The force of thunder in his hand was crazy. The thunder tide was rolling and magnificent. He pushed the thousands of thunder forward, and a terrible swallowing force broke out.

The space in front of Ye Chen ruptured and collapsed, and the ghost gas was forced to roll in and break up. The ghost eyes bled red blood and tears, and the smelly gas filled the whole space. At the same time, the black hole became larger and larger, the force of thunder gushed out, and a huge black hole appeared in the distance.

The dark cave distorts everything around, and the vast gas is emitted, and the powerful force of thunder is emerging. Ye Chen waves the Longyuan Heavenly Sword, which is thousands of sword gas. The mountains fall and the earth fall, and the rivers fall and the sea fall, so that the white bone giant has no time to respond.

Not only that, it also contains the towering power of the blood dragon!

Several extreme power blessings, invincible!

The black hole tore open space and built a bridge in the void. The sword was fierce, but in an instant, it was cut on the body of the white bone giant.

The fierce sword split, the white bone giant screamed and waved his big hand. Before he could move, Ji Siqing's rosefinch door also fell down. The auspicious atmosphere and the glow slowly condensed, sealing the white bone giant in it.

The white bones on his body were broken, and the ghost spirit all over the sky subsided like a tide. All ghosts cried together, and blood red tears flowed all over the ground, smelling very fishy.

The white bone giant was still howling. The bones attached to it fell one after another and were hanged into powder by the sword.

The body of the white bone giant was getting smaller, and soon it was only the size of an adult man. It collapsed and sat on the ground. The blood red ghost fire in its eyes also turned into a long-term blue. Looking across the sky, the color of resentment seemed to disappear.

The sky lit up, and the strong ghost spirit in the sky finally dissipated.

"Boy, you might as well purify the king!" The white bone said, no longer looking like a giant.

Ye Chen stepped across the mess, walked to the white bone, looked at it and said, "you still have use value."

The white bone turned his eyes to the ghost fire in his eyes and gave a Jie smile, like countless bones rubbing against each other, which was very harsh.

"Boy, you can beat the king, not because the king has been sealed here for more than 100000 years and his strength is greatly reduced. If you let the king recover, you are just a finger bone of the king!" The white bone disdained to say.

"Now I am a knife and you are a fish. A hundred thousand years ago, the strong man of mankind could seal you here, but it must not solve you. I am different. I can make you completely disappear in the world! " Ye chendao.

"That is! Just those little ants want to kill the king! Those damned human beings used up the king and were afraid that I would harm mankind. They couldn't beat the king. They could only use the advantage of many people to seal the king here. When the king goes out, he will kill all mankind to vent his hatred!
"

Ye Chen wanted to laugh. The white bone still had a little pride. He must have been a strong man more than 100000 years ago, and his strength should be far better than his peers.

Chapter 6769

It hasn't seen anyone else for many years, and it has been pressed in the mountain. It is becoming increasingly depressed and its strength has dissipated seriously. If ye Chen hadn't broken the array of stele forest today, so that the white bones can take advantage of it and climb out from below, one day it would really disappear between heaven and earth.

"This is not the human world." Ye Chen said, "even if you go out and meet only the eternal demon family and groups of empty monsters."

"What?" Bai Gu didn't understand. He was stunned when he looked at Ye Chen. "I was buried here 100000 years ago. At the beginning, I devoted myself to human beings. After my death, Bai Gu became a saint and practiced peerless ghost skills. It's not to protect human beings. Who would have thought that human beings are all disciples with two sides and three swords. I stole my strength and turned to deal with me after the war!"

Ye Chen turned his mind and said, "you could have erected a monument here and enshrined a memorial tablet in the hall of eternal life, but you were not treated like this."

White bone Leng didn't reply.

Ye Chen continued, "I'll ask you something. If you tell me the truth, I can set up a monument for you and place a memorial tablet in the hall of eternal life. When this temple comes down to earth one day, you can also get people's incense. "

The white bone sighed and said, "it's all right. There's nothing to get if you stick to it."

"I'm also human. I've made up for it by doing this for you."

"You ask."

Ye Chen thought and said, "I'm here to find the secret method to enter the xuanhai. Can you know it, elder?"

The ghost fire jumped in Bai Gu's eyes. Looking at Ye Chen, he said thoughtfully, "I don't know the xuanhai, but I know there are many secrets hidden in the temple. There is a secret room underground. What you want is inside."

"Chamber of secrets?"

"If you want to go, I can take you there, but do you want to let me out before that?" White bone said, "I hope you won't lie to me."

Ye Chen knew that he must have a lot of resentment against the deceiver. The previous resentment was completely perceptible. The loneliness and pain of more than 100000 years, as well as the hatred, became deeper and deeper.

"Nature." Ye Chen should say, "I promise to do what I say."

Ji Siqing takes back the door of rosefinch first. Ye Chen keeps a few wisps of sword Qi on Bai Gu. Even so, he still has to stop it.

Bai Gu didn't mind. He regained his freedom and became less depressed. It pointed the way for ye Chen and Ji Siqing, and took them to the ground in front. Soon, ye Chen saw a secret room.

The secret room looks very simple, but it can be said to be simple. The wooden door is a good Tianling mahogany. However, after more than 100000 years underground, it has been corroded into a bad shape. The only thing still in operation is the array in the secret room.

"I have never entered this secret room. At that time, I was still working for human warriors, and my bone sword was also stored in it. If you find what you want after you go in, can I ask you to bring out my bone sword?" Bai Gu said, "it's not that I can't get it myself, but this array is urged by the power of life. It's like a highly toxic thing to me. If I touch it, my bones will be corroded."

Ye Chen looked at each other, thought for a few seconds, and finally nodded. As soon as she wanted to say something, she heard a series of voices from the secret room, and something walked quickly through it.

Ye Chen became alert and suddenly saw a shadow ejected from inside and flew out straight at Ji Siqing.

"Be careful!"

Ye Chen only had time to shout.

Ji Siqing was smashed. In his hurry, he condensed a rosefinch fire on his body.

The shadow twisted its body lightly, fell to the ground, rolled for several circles, removed its strength, and jumped forward continuously, avoiding several sharp swords flying behind him.

"Xiao Huang!?" Ye Chen was surprised to see who the shadow was.

Xiao Huang grinned when he saw Ye Chen laughing again and said, "master, I found the map, but I'm not sure if it's a real xuanhai map."

He flicked the map of the painting in his hand and flew towards Ye Chen.

Ye Chen took it in his hand and didn't look carefully, so he rushed over to see Xiao Huang.

Although he ran into Ji Siqing before, he didn't hit hard. He had sensed their breath, so he came here.

Xiaohuang now has countless fine wounds all over his body. Some have solidified and scabbed, and some are still bleeding. Ye Chen is distressed and quickly uses the eight trigrams Tiandan technique to treat him. Xiaohuang also takes this opportunity to tell about his experience.

It turned out that ye Chen and Ji Siqing felt the vibration. When they saw the stone tablet in the courtyard and left the Changsheng hall, the Changsheng hall also sank and sank underground with Xiao Huang. Xiao Huang saw that he couldn't go back to the ground for a while, and felt the smell of xuanhai secret method, so he directly looked for the direction, rushed over, broke into the secret room, looked for it, and found the map.

"Xiao Huang, whether it's a real map or not, you've done a good job."

The white bone sighed and said, "well, what you're looking for has been found, and you don't have to go in again. This secret room is dangerous. If you can't do anything, you'll just... "

Before he finished, he saw that ye Chen's body turned and had penetrated through the broken wooden door. He was stunned to see ye Chen disappear in the secret room.

About a quarter of an hour later, ye Chen came out of the secret room with a bone sword in his hand. The bone sword looked ferocious and inlaid with a blood red strange spirit stone, like a real blood red pupil.

"Elder Bai Gu, what you said earlier was this bone sword?" Ye Chen said.

Bai Gu was stunned for a moment, then slowly stretched out his hand and took it. He was a little excited, and even Bai Gu's hand was shaking, "exactly."

It took the sword and looked at it for a moment. Then he looked up and saw Ye Chen. Suddenly he asked, "why?"

"I will do what I promise." Ye Chen said, "not all martial artists will turn back. They are double faced."

"You brought us to this secret room. Although you didn't help us find the secret method to enter the xuanhai, you helped us find Xiao Huang."

Xiao Huang was already well. He smiled and looked at the white bone and said, "yes, if the master hadn't brought him, I couldn't feel the outside world in the secret room. I was already lost in it. I just felt the master's breath before I ran out of it. Thank you, master."

He said and saluted the white bone.

The white bone looked at them and said for a long time, "my body is dead, so I can see the real human."

Ye Chen smiled slightly and knew that the other party had come out of the dilemma in the past. He said, "senior, let's go back to the ground."

Chapter 6770

He put away the map in his hand, and the party spread out and returned to the ground.

Ye Chen erected a stele for the white bone and engraved the memorial tablet of longevity according to what he said earlier.

The hall of eternal life also reappeared on the ground. During the time they went deep underground, the stone tablet debris in the yard had disappeared, the previous smelly bright red blood and tears had dissipated, all traces had completely disappeared, and the power of prohibition was slowly recovering.

"How do I write this taboo?" Ye Chen asked, the memorial tablet has been completed. He took it in his hand and looked at the white bone.

"Then... Write down the word bone king."

Bone king.

Ye Chen remembered the name in his heart, nodded and engraved the two words on it.

There is only a black stone tablet standing in the courtyard outside, which is empty, and only two words are written on it - bone king.

That's what bones asked for.

"Elder, don't you want to leave here?" Ye Chen asked.

The white bone didn't speak for a long time. Looking at the stars and sun about to set in the sky, he said: "no, although these martial artists are hateful, they have also accompanied me for more than 100000 years. I can spend another 100000 years with them. Besides..."

Moreover, even if it leaves, there is no place for him in the world, and he has nothing to ask for. Even if we return to the world, this white bone body is not tolerated by humans. Naturally, it is still a bloody storm, and the two sides are opposed.

This is what it didn't say, but ye Chen already understood.

He took down his sword Qi and arched his hand at the white bone. "Elder, I'm afraid we won't see each other in the future. Take care of each other."

Bones waved their hands and didn't speak.

Ye Chen didn't intend to stay, but used the virtual spirit pulse, so he directly tore the void in the space and left this place with Ji Siqing and Xiao Huang.

"If the white bone gets the flesh, it's not that he can't leave." Ji Siqing said.

"Even if you leave, the world has nothing to ask for. Its skill is extremely evil. If you want to be born to pursue absolute power, you will certainly arouse the dissatisfaction of many people. That evil means has always been inadmissible. " Ye Chen shook her head.

This is the Tao of the world and the so-called Jianghu of the world.

Ji Siqing was puzzled and said, "the elder has a good mind. How can he practice such skills?"

"The worldly skill emphasizes opportunity. It's not that we are willing to practice, but that the opportunity comes and the cultivation method becomes its own. "

.....

At this time, the eternal void is a temple.

"God King, elder Lin's memorial tablet is broken."

Suddenly a voice came in from outside the temple door.

"Well, how?"

The door of the temple suddenly opened, and the messenger was dragged and flew in. He came to the temple and did not dare to look up, so he knelt straight on the ground.

"God King, elder Lin sensed that the eternal demon family had shot at the temple on the floating God Island, so he went to check it and sent a message before he died." Said the man.

The man, who was called the God King, summoned the old Lin master's position held by his hand and poured his spiritual power into it.

The figure of a man and a woman immediately appeared in the hall, which was the picture of Ye Chen killing the man of the eternal temple.

The God King looked at it silently without a squeak. When the picture was over, he said coldly: "the rosefinch gate looks very powerful, much like the magic weapon on the thirty-three days mentioned in the ancient books, and the brass bead..."

"Since it is Lin Changlao who risked his life to summon, how can we sit back and ignore it? Since these two foreigners have no way to leave since they have entered the eternal holy land, they can't leave and try their best to find it."

"Yes, God King." The man bowed down.

"Remember to be careful. Their magic weapon is powerful and powerful. They can crush the elder Lin. report to me first after they find the position. Don't rush to scare the snake."

"I want them not to live out of the eternal void!"

.....

Screen rotation.

In the temple, ye Chen set up a memorial tablet, engraved an inscription, made a slight eye ceremony, and walked out of the temple.

In any case, it was the fault of the human warrior who deceived the white bone elder. Although he had no responsibility to atone, he still expressed his apology.

When ye Chen finished this, he planned to turn around and walk out of the temple. Suddenly, the whole world trembled, countless sparks fell, the wind and cloud changed color, and a light poured into Ye Chen's mind like lightning.

The light was not malicious, otherwise it would have been cut by Ye Chen's sword.

After the light entered his mind, ye Chen's ear sounded a rumbling sound, as if it were the thunder of the avenue, shaking together.

Ye Chen's consciousness has entered a vast world, surrounded by Qiongyu, and countless stars fly around. It's not spectacular.

At the top of the universe, there is an endless light green water curtain, shaking gently like a mirror.

Ye Chen had a few more words in his mind and told him that the other end of the universe was xuanhai.

Ye Chen looked at the bright star river and his eyes were slightly frozen. He knew that it was this wisp of cold light that brought him to see the so-called xuanhai real body.

But what about the stars?

When ye Chen was thinking, the ancient bell filled the air and penetrated the vast power of the whole star. So far, ye Chen saw an ancient door falling from the sky, with thousands of auspicious images and sacred majesty.

The ancient door stopped at the bottom of the xuanhai sea, and countless rays came out, forming a chain of order gods, piercing the stars and opening up a bright and glorious road of starlight.
