Chapter 6801

Their eternal demon family has been suppressed by the eternal temple for a long time. Even if the demon family defeated the protoss in that year, they still can't get involved in the home field of the eternal void.

Because the people of the eternal protoss have established the eternal temple and combined other human strength to form an opposition with the eternal demon family.

Therefore, both races account for half of the eternal void, but this half of the land where the eternal temple is located, regardless of its geographical location or cultivation resources, is far more than the place where the demon family stays.

The heads of some unformed eternal demons are relatively dull and simple in intelligence.

However, the demons who turned into human beings were not so simple minded.

They found that several people along the way sent a distress signal to Ye Chen.

"Be careful, this person is definitely not easy!"

"No one can be careless. We should get rid of these people as soon as possible in case of accidents."

They knew very well that they were at the home of the eternal temple. Today, they entered it with the help of special channels. God didn't know it. When dawn came, all the dust settled.

At that time, they can announce in the name of the eternal demon family and re rule the eternal void.

But before that, we need to destroy the eternal temple!

However, at this time, a big man with a big body smiled grimly. He picked up a long gun in his hand and forced it out, which was like running thunder.

"How strong can it be? Let me get rid of him! "

The gun in the big man's hand turned into a ferocious magic cow, raised his strong front hooves, tore the void, led to a violent torrent, and turned into thunder.

His noumenon is a ferocious mang ox with ancient blood. Later, he changed and belonged to the eternal demon family.

The demon cow turned into a matchless momentum and collided, as if to tear Ye Chen in two.

Seeing this scene, many people in the demon family turned into human shapes were amazed one after another.

This demon cow is the leader of their trip. Its strength has reached an extremely strong level, which is comparable to the five-tier strong man in the hundred yoke realm of mankind.

"Ha ha, the demon cow monster has to kill again. His magic cow virtual shadow has the blessing of ancient blood and its power has increased sharply. This boy can't stop it."

"Well, so the boy's strength should not be simple, but it's just some skills. It's still poor compared with the magic cow."

Many monsters talked. The people in the temple they faced either died or surrendered. At this time, they also became a part of doing nothing.

In their eyes, ye Chen didn't even move in the face of such violent killing moves. He must be scared silly.

The so-called Savior is just a joke.

Those who cried for help only saw Ye Chen break the sword array at the bottom of the lake, but they didn't see how he fought with others. At this time, they had no bottom in their hearts and couldn't help but burst into despair.

The ghost of the demon cow broke through all obstacles and was about to crash Ye Chen out.

At this moment, ye Chen raised his head, the light in his eyes Rose, turned into infinite cold meaning, poured out and soared up.

"Jiutian Fangong: military formula."

These skills represent the ultimate meaning of killing and cutting.

The tide of soldiers is surging, and there are more than Pengbai.

How can ordinary people bear the power of the nine divine arts.

"By you? I don't deserve it. "

Ye Chen's expression was indifferent. The light in his pupil intertwined and condensed into a peerless magic weapon. He cut it out in horror, mixed with broken fragments of the heavens, and instantly penetrated the void.

Peng!

Under the sudden collision of the military formula, the magic cow phantom broke, and the killing of the Dragon killing knife did not stop. It ran through the magic cow phantom, cut off the body of the magic cow monster and split it in four parts.

Several demon family experts behind him died!

If ye Chen didn't just want to end the battle quickly and didn't want to expose his strength, he would have used the Longyuan Heavenly Sword to use the sun's red cutting or water stop sword. In an instant, he would sweep hundreds of demon monsters in front of him into ashes.

"This..."

Everyone present, including those in the eternal temple, was stunned.

They thought there would be a fierce battle, but they didn't expect their strong opponent to be killed by Ye Chen.

This strength is too terrible!

It's no wonder that Miss Yaqing will stand in front of the public and choose him as the future husband. She must have known Ye Chen's real strength in advance.

Ye Chen no longer paid attention to these people, but flew up and ran directly to the main peak.

That's where Nangong Yaqing is!

.....

In the sky above the eternal temple, the two men and horses stood against each other, powerful enough to shake the sky and the earth.

One party of people and horses is the master of all kinds in the eternal temple. The leaders are the great elders and three elders of the temple. Both of them are at the level of heavenly monarch. They can destroy the sky and destroy the earth with every move.

Although not as good as Nangong's sword breaking the stars and dominating the eternal void, he is also one of the best experts in the eternal void.

But today, both elders were injured. They looked dignified and stared at a dark shadow not far away.

The dark clouds gathered, the wind roared, and the black thunder loomed in the depths of the clouds, as if afraid of something.

On a black cloud, Yao Ye, the chief of the eternal demon family, stood with his hands down and looked very indifferent.

In his opinion, the eternal temple without Nangong asking the sky is like a Warcraft without claws and teeth, which is vulnerable at all.

Chapter 6802

"Are you the daughter of Nangong Wentian? The talent is very good. You can control the door of xuanzun. If you are willing to obey the eternal demon family, I can protect your life and recommend you to become the head of the hall. "

Yao night said faintly.

The division under the command of the eternal demon clan is still an organization with real power.

Nangong Yaqing's mouth was covered with blood. It was obvious that she was injured in the previous fight.

Facing Yao Ye's promise, she was not moved at all, and her pretty face was covered with frost.

"The demon clan should stay in your territory. If you dare to offend my eternal temple, you will pay a price!"

Nangong Yaqing's tone was very cold. This move angered Yaoye. His eyes flashed Sen Han's killing intention, his body flashed, and there was only a residual shadow on the black cloud he was standing on.

"Be careful, miss!"

As soon as the elder gritted his teeth and waved his sleeves, he covered a field boundary, which also exhausted part of his life force.

This border protected Nangong Yaqing. She only felt that something hit the light of the border. The violent sound made her eardrum ache and her mind was in confusion.

More than ten other elders started one after another and locked the Yao night on the edge of the border.

However, Yao Ye was dismissive. He took two steps back. It was a natural and unrestrained step, but he crossed the void and returned directly to the original place, which failed the attack of more than a dozen elders.

"Your current strength is so poor that it is a miracle that you can maintain the eternal temple to this day."

Yao Ye smiled and stopped more than ten elders with his own strength.

The Luo Tian general standing on the other side took a hand and slapped Nangong Yaqing hard.

"You traitor! The eternal temple made you a general, but you betrayed us and surrendered to the eternal demon family! "

Several strong men who were also generals shot angrily, and three different palm prints hit one after another, shocking the sky and frightening the earth, and surrounded the general Luo Tian.

Luo Tianzhan smiled. He betrayed the eternal temple at the last moment, not because he was not firm in mind.

But from beginning to end, he was sent by the eternal demon family.

This time the eternal demon family came to attack the eternal temple, thanks to him as a leader.

In these years as a war general, he used his power to open up an extremely secret void channel to Changsheng Island, and this time the deployment of the eternal demon family for tens of thousands of years has been used.

If this war is not successful, the efforts of the eternal demon family over the years will be in vain.

But how can it not succeed when it is so far?

This time, both sides fell into a chaotic war. The leader of yaoyeda defeated many with one, and did not lose the slightest in the face of the elders of the eternal temple.

The violent shock wave, centered on several peaks, spreads to the whole Changsheng island. If it is not supported by several large arrays, only the aftermath of the battle of these top powers can destroy the whole eternal city.

All kinds of people and other forces in the city looked up at the sky, where lightning and thunder, dark clouds and communication seemed to come to an end.

Many people crawl on the ground, praying that bad luck will not come.

At this time, ye Chen was stopped by several fierce demons on the hillside of Changsheng island.

Those monstrous beings stared at Ye Chen and glanced at him. His face was not good.

"What happened to the devil cow monster? Even let a fish slip through the net? "

One of them, a short old man, said in a strange way. When he spoke, the folds on his face turned up, revealing dense red meat pieces, like fish gills wriggling.

Even with Ye Chen's determination, he couldn't help nausea when he saw his appearance.

He traveled all over the world for many years, met countless demons and ghosts, and felt physical discomfort for the first time.

The old man seemed to see ye Chen's behavior, as if he had been stabbed by a string in his heart. He was so angry that he jumped to his feet. The fish gills on his face were one by one, splashing fishy liquid.

The two companions standing beside him unconsciously stepped back and avoided the liquid.

"How dare you disrespect me! I want you to die!"

The fish plug monster roared. The two rows of fish gills were entangled together, making an extremely harsh sound, and suddenly burst out a very sharp cold, sweeping towards Ye Chen.

Ye Chen's eyes coagulated and scolded. His first reaction was not to cut a sword, but to fly back. He didn't want those smelly liquids to stick to himself.

Then he used the "Array Formula" to build an extremely powerful spiritual barrier in front of him to block the incoming liquid.

The fish gill monster's mucus has a strong corrosiveness. It falls on the array and makes a Zizi sound.

In addition, the fish gill monster screamed and rushed towards Ye Chen.

"Deep sea bone spur!"

The fishgill monster's hands were impressively transformed into two white bone thorns, and the cold awn flowed on them, and there were fine holes on the bone thorns, which then sprayed out a fishy unknown liquid and turned into another offensive to attack Ye Chen on both sides.

The two bone spurs penetrated the void, as if they had attracted the power of thunder between heaven and earth. They were very fast. The violent thunder attached to the bone spurs and stabbed them like a storm.

The array constructed by Ye Chen was broken by the bone spurs, but ye Chen didn't seem to be alarmed. His fighting spirit soared into the sky, and the whole person turned into a streamer and shuttled under the shadow of the bone spurs.

At the same time, he summoned the Heavenly Sword of disaster, which continued one after another and smashed the smelly liquid all over the sky.

The endless disaster gas was like the coming of a ferocious God, and the magic light was swirling. In a short moment, the two white bone spikes of the fish gill monster were completely broken.

The fish gill monster was stunned. He didn't expect Ye Chen's sudden attack to destroy his most trusted trump card.

Click.

The disaster Sky Sword is like a crazy Jiao coming out to sea, covering the fish gill monster and making it have nowhere to escape.

With a clear sound, the head of the fish gill monster fell to the ground, and his whole body was reduced to ashes and no longer existed under the attack of disaster gas.

Among these people, the most powerful fish gill monster was annihilated by Ye Chen's sword. The other two monsters were dumbfounded. They were stunned for a second or two before they reacted and ran away together.

They can't beat such a strong man!

However, ye Chen snorted coldly. Two dark chains separated from the disaster sky sword, tied the two people and pulled them at will. The two monsters fell on the spot and destroyed both their form and spirit.

The strength of the fish gill monster is even stronger than the magic cow monster Ye Chen met just now, but for ye Chen, it is an object that can be easily slaughtered.

He finally came to the peak. At this time, many strong people at the level of emperor had fallen into a fierce battle.

Ye Chen also saw an old acquaintance who came to hunt down his Luo Tian general.

Chapter 6803

However, ye Chen's face became a little strange, because he found that Luo Tianzhan had changed his camp, cast himself into the eternal demon family and was fighting with his previous partner.

He fought alone against the three strong generals in the eternal temple. He did not lose the wind at all. A big gun stirred the stars, tore apart the thunder, and vaguely gained the upper hand.

"It seems that this guy hid his strength when he chased me."

Ye Chen came to the edge of a cliff, stood in the ancient wood forest and observed the battle above.

Naturally, he can't participate in such peak battles with his strength, so he is watching the changes and looking for opportunities.

Suddenly he saw a beautiful shadow, fell from the clouds and smashed it into the jungle below.

Nangong Yaqing!

Ye Chen's eyes suddenly coagulated, urging the virtual shadow to rush there with the help of his body shape.

After Nangong Yaqing fell into the jungle, two figures emerged one after another. They were old and young. The old man wrapped the whole person in a strange set of black clothes, only showing a pale face.

The young man was born with a strange long hair, which floated like a swimming snake.

The two men looked at Nangong Yaqing, who hit the ground in a mess, with a sneer on his lips.

The young man named Cai Zewu is one of the young heroes in the team. His father is the hall leader of the eternal demon family. He has amazing power. This time, he followed the big leader to the battlefield for training.

But unexpectedly, the daughter of the Lord of the eternal temple was so beautiful.

The old man in black around Cai Zewu is the black old man of his guards, who is usually responsible for protecting the safety of the young Lord.

The two joined hands and shot down Nangong Yaqing after only a few moves.

"There's no need to struggle. It's useless. Although your strength is good, it's a little worse than me, let alone fight with the black old man."

Cai Zewu's evil spirit smiled. He had a pair of obvious Danfeng eyes, his pupils were all black, and there was a shallow mark between his eyebrows.

It is the symbol of the noble in the eternal demon family, symbolizing the Supreme Identity and status.

In the mountains and forests below, Nangong Yaqin stood up from the deep pit. Her body shook a little, and her blood surged in her body. It took a long time to calm down.

The strength of the old man in black was immeasurable. She was hurt by a light palm.

Nangong Yaqing looked out. Cai Zewu caught the scene. He laughed and said, "don't expect someone to save you! They'll beat the big leader first. "

"Black old man, catch this chick. I'll take her back to the demon family as something for my demon warrior to play with! At that time, I will be the one who has made the most outstanding contribution among all the students of the demon clan. "

"Over the years, no one can catch the daughter of the Lord of the eternal temple and bring it to the Hui nationality as a plaything."

Cai Zewu licked his lips, his eyes full of enthusiasm.

Before taking it back, he has to taste it himself, so let's start from this moment.

Brush it.

Cai Zewu's figure suddenly disappeared, and the rolling devil Qi roared out with the turbulence of the void. In the blink of an eye, he came to Nangong Yaqing.

"It depends on whether you can take it or not."

Cai Zewu stood still, clapped a palm and blasted at Nangong Yaqing's head.

If it's true, even if she doesn't die, Nangong Yaqing will end up seriously injured.

She hurried to summon her aura and dodged aside. When the soles of her feet stepped on the ground, a burst of empty power came out, making the soles of her feet windy and as fast as thunder.

"The eternal way: resist the wind and tread the waves."

What Nangong Yaqing exerts is the first level body method of the eternal Temple: resisting the wind and treading the waves.

Cultivate it to a high level. As long as there is wind and water in the place, you can rise up in the wind and walk on the waves without ghosts and trace.

There is little water on Changsheng Island, but there is wind. The strong wind wrapped Nangong Yaqing and let her escape the blow.

"Oh? It's interesting. I actually know the skill of such body method, but let's see how many you can use."
"

Cai Zewu smiled deeply. He showed part of his body shape, spread his hands, and sharp nails suddenly emerged and turned into two sharp steel knives.

His speed exceeded the wind speed, one step ahead of Nangong Yaqing.

what?

Nangong Yaqing's pupils dilate sharply.

She was not out of danger, but the other party caught up one step ahead, and the speed was much faster than her.

The steel knife flashing with rolling magic fire chopped down and blocked Nangong Yaqing's way forward. At this time, she had no choice but to avoid it by force.

If you want to leave your life, you must pay the price of losing an arm.

At this point, she can only choose the big from the small. Nangong Yaqing is not an indecisive person. She has made a decision between lightning and flint.

Losing an arm is better than losing your life!

But sooner or later, another cold light came in time, blocked Nangong Yaqing, and stopped the steel knife with evil spirit.

Nangong Yaqing took advantage of this moment to get out of danger and quickly retreat to 100 meters away.

She just felt her heart beating, and then death was so close to her.

After the hanging heart was put down, she looked up. A familiar figure stood against Cai Zewu and took the other party's knife.

It's Ye Chen!

Nangong Yaqing never expected that ye Chen would arrive here and save her in time.

Chapter 6804

Cai Zewu was stunned after the surging offensive was stopped, but he quickly reacted and was greatly annoyed when he noticed the strength of the other party.

Such a weak mole ant dares to fight against him. Is it to die!

Cai Zewu's hair rose and soared into the sky, and the fierce light in his eyes became stronger and stronger, as if he wanted to swallow Ye Chen alive.

After ye Chen took the blow, he released his strength and retreated, and he didn't mean to tangle with each other too much.

He stepped back to Nangong Yaqing, looked at her and asked, "aren't you hurt?"

Nangong Yaqing shook her head, her pretty face still dignified.

She has many questions to ask Ye Chen, but now is not the time to ask questions.

"It turns out that the daughter of the Lord of the eternal temple has a new love. No wonder she has no strength in battle. It's too fierce to enjoy fish and water at night. Tut tut."

Cai Zewu's tone is sinister and strange. He is neither fish nor fowl. He can kill his popularity.

Nangong Yaqing is innocent. She can't resist Cai Zewu's provocation and insult. She just wanted to refute, but she was held by Ye Chen.

Ye Chen smiled and said, "in this world, all slander comes from jealousy. Even if it is me who enjoys the pleasure of fish and water with her, what does it have to do with you?"

Ye Chen's words directly killed himself and then regenerated, which made Cai Zewu speechless for a time.

Nangong Yaqing's face turned red. When did she go with Ye Chen.

"OK, then send you two to the underground for reunion." Cai Zewu's look sank and he was very angry.

Nangong Yaqing and other beautiful things in the world should be tasted by him for the first time, but they were taken advantage of by these boys.

He waved the steel knife in his hand and suddenly split forward. This knife disrupted time and space, and countless turbulent air currents poured out one after another.

But ye Chen was not worried at all. Instead, he pulled Nangong Yaqing behind him.

"Disaster Heavenly Sword, dawn of the living dead!"

Ye Chen slashed a sword forward obliquely, and the terrible disaster turned into a rolling wave, as if it came out of the abyss in the depths of the universe, carrying a terrible smell of destruction.

Those disasters suddenly changed in the middle of the way and turned into terrible fuzzy faces. They roared and roared, carrying strong anger and reluctance.

It is these extreme emotions that attach to the sword spirit and become another symbol of destroying the sky and the earth!

Cai Zewu's look suddenly changed. The disaster contained in the sword was so obvious that he had to avoid the edge for the time being.

At this time, the old man in black standing quietly like a sculpture moved. His pale old face was calm to the extreme, stretched out a palm and blasted at the disaster.

This palm is ordinary, but it seems to be rolled down by all kinds of thunder, in which all heaven and all worlds are reincarnated and endless.

The majestic power even penetrated the ground layer to the depths of the earth, waking up the monsters sleeping in it.

Under the slap of this palm, all the attacks disappeared, and the sword body trembled violently, and the tiger mouth of Ye Chen holding the sword also collapsed.

"What a powerful momentum!"

Ye Chen secretly exclaimed that the strength of the young man was about eight or nine days in the hundred yoke territory. Ye Chen was confident that he could solve each other within 200 moves.

But the strength of the old man in black has exceeded the hundred yoke state, and even vaguely, people feel the fear from the depths of the body, which can be called the half step heavenly king.

One step away, it is a world apart.

The martial arts within Baijia territory are born in heaven and earth and used in heaven and earth. It can be said that they live on everything in heaven and earth and cannot escape the scope of the five elements and six Tao.

However, the strong who are promoted to the level of Emperor may be different.

Heaven and earth can be connected from the top, and everything can be connected from the bottom. As you like, it came into being.

In the face of the strong man in black, ye Chen was obviously more cautious.

Before that, he had never really fought with an opponent at the level of banbu Tianjun, so he could not find out the depth of each other's strength.

Let's try it today!

After the old man in Black shot, Cai Zewu was full of confidence. He stood with his hands down and looked down at Ye Chen and Nangong Yaqing.

"Give you a chance. Surrender now may not die. Don't think you can escape. The strength of the big leader is unfathomable and you can't resist it. "

Cai Zewu's tone is arrogant and indifferent, but it can't be refuted.

Now Nangong Wentian is seriously injured, and no one in the eternal temple can resist the power of Yaoye.

"If you hadn't traveled to the world of heaven, where would you be rampant?"

Nangong Yaqing said angrily.

Ye Chen is curious about the so-called little martial uncle in her mouth, but now it's an emergency and there's no time to talk about it.

Just when Cai Zewu wanted to do it again, at the other end of the far sky, a dazzling silver light suddenly appeared, illuminating the whole night sky like day.

After this fluorescence appeared, the people of the eternal temple were stunned and then ecstatic.

Those people of the eternal demon clan didn't look very good. They put up the momentum of attack and looked up to the depths of the clouds.

The big leader Yao Ye also returned to the front of the demon family. Although he was not frightened and afraid, his wandering temperament disappeared.

Because Nangong Wentian came out, it was like a great change for them.

A demon clan elder frowned and looked at Luo Tian's general.

"Didn't you say that Nangong Wentian was seriously injured by the eternal God? Why come out now? "

Luo Tianzhan is also confused.

"I've asked people to find out the news, and hundreds of people saw Nangong asking heaven that day and were seriously injured. It can never be false."

Luo Tian's general was upset. He was already very sure. Nangong Wentian couldn't fight.

"The purpose of training you in the family is not to let you provide wrong intelligence information." The demon clan elder was indomitable.

"You..."

"All right, shut up."

Yao Ye, the leader standing in the front, spoke.

"Have you ever heard a saying that the trapped beast is still fighting, and the old lion will give his last breath when his children suffer from life and death."

Yao night looked into the far sky, his eyes were deep, as if he had penetrated the thick clouds and looked at Nangong Wentian from a distance.

A moment later, the thick clouds broke open and a figure stepped out. It was Nangong asking the sky with a long sword.

His imposing manner is incomparable, and he still has the demeanor of a peerless strong man.

Only a few people could detect it. Under the strong appearance, it was quite fierce.

"Yao night, I haven't seen you for many years. You still like to put this smelly face."

Chapter 6805

Nangong asked Heaven with a gentle smile, but the sword light in his hand didn't leave his hand. Just a moment ago, he wiped out thousands of elite demons.

"Lord Nangong, aren't you the same? In order to save face, we will do anything. It's time to repay the debt many years ago! "

Yao Ye fought back. His eyes, which were as plain as water, finally burst out the flame of hatred after seeing Nangong asking the sky.

Everyone did not expect that the leader of yaoyeda had such a strong hatred for Nangong Wentian, even the people of the demon family were different.

"Chief, do you have a holiday with Nangong Wentian? From the beginning, he was serious and came here to kill. "

"I also think there must be a certain past, otherwise the big leader wouldn't be so rude."

"....."

Nangong asked the sky and his eyes coagulated slightly. He is really strong now. His strength is less than 50% of that at the peak.

But if he doesn't come out, I'm afraid the whole eternal temple will be destroyed.

"Yao Ye, you still have such a character that you haven't changed. No wonder you can only linger in the position of the general and can't get the reuse of those old guys."

Nangong asked Heaven and sighed.

Yao Ye didn't want to say anything more with him. He raised his fist and burst over. The incomparably vast evil spirit took shape behind him and condensed into a ferocious ancient beast.

The ferocious molten flame erupted from the mouth of the giant beast. There were flames all over the sky, burning the void and melting.

"Magic rock limitless palm!"

Yao Ye summoned the supreme supernatural power. This is a move created by an ancestor of the eternal demon family after fighting an ancient Warcraft at the level of heavenly king for 7732 days.

At that time, the ancestor of the demon family killed the void monster born in the years of chaos and trance with this palm, and made the skeleton into the prototype of today's void ship.

It was Yao Ye and others who took the experience of dozens of generations of demons to complete the production by riding a huge ship through the void.

In the investigation process of crossing the void and avoiding the eternal temple, the huge void ship played an irreplaceable important role, hiding from the sky and the sea, and reaching Changsheng island where the eternal temple is located.

One palm stirred, the wind and cloud tore open the stars, and the transparent clouds were blown up a wide ancient road by the endless long wind.

And the end of this magic palm is Nangong asking the sky!

The devil's palm brought endless thunder and wind, and two tongues of fire came out from the side, as if melted into two palaces full of supreme thunder. Between the bell rings, it is vast and mighty, trying to devour all things.

Nangong asked the sky and looked awe inspiring. His strength was really better than Yao night, but it was before he was seriously injured. Now he has sealed the eternal power in his body in order to heal his wounds and can't use it.

The terrible giant palm carrying the exterminating demon Yan was severely suppressed to completely seal Nangong Wentian.

Nangong asked Heaven how he could easily give up as a peerless strong man in the eternal void. He snorted coldly. There was a dazzling cold light in his body, which rose up with the roaring sword Qi and tore everything.

That cold light enveloped the whole world for a time, and countless people were shocked.

The illusion composed of sword Qi is also a huge sword. It rises up and pierces the huge magic fire palm, which slowly dissipates and becomes invisible.

The people of the eternal demon clan took a breath. Is such strength really like that of a seriously injured person?

However, among the people present, Yao Ye was not surprised. He just slapped at random, and the consumption was not huge.

On the contrary, Nangong asked Heaven. This sword used a lot of his residual strength.

.....

Ye Chen and CAI Zewu had to retreat to their respective camps because of the war in the sky.

Many people in the eternal Temple looked at the sky and looked dignified.

As the high-level of the temple, their strength is also extraordinary. Naturally, they see that Nangong asking for heaven is difficult to support.

Ye Chen frowned, a little tangled for a moment.

If Nangong Wentian is defeated, the secret of obtaining xuanzun's gate will really come to naught.

On the far empty battlefield, Nangong Wentian broke the two magic fists of the big leader Yao Ye with his sword, but he was obviously a little shaky.

"Father, I'll help you!"

The sound of a charming drink suddenly sounded. The people saw that it was Nangong Yaqing! Her face was solemn, with a touch of determination in her eyes, and she stood in front of Nangong Wentian without hesitation.

Her thin fingers, as white as congealed fat, outlined a complex array in the air. As her palms closed, mysterious forces slowly emerged, enveloping her and Nangong Wentian.

The big leader Yao yeyi gave a sound, and his pupils suddenly contracted.

"Unexpectedly, Nangong Wentian's daughter has such a talent. Hehe, she can mobilize the power of xuanzun's gate, but how long can you support this?"

He once again struck a blow that destroyed the sky and the earth, and even the clouds in the sky burned.

At night in the eternal temple, countless people see a flame like day, which is thrilling and shocking.

The huge fist full of magic flame hit the xuanzun array interwoven by Nangong Yaqin.

The pure mysterious power rippled twice like water waves, but it always stood.

The Qi and blood in Nangong Yaqing's body surged. She tried to restrain the rhythm of breathing and breathing. Mysterious spiritual lights emerged from the void. In each light, there was a magical natural material and earth treasure, which appeared and turned into soft power to calm the fluctuations in her body.

Chapter 6806

Seeing this, the leader's eyes suddenly sank, and this time he directly waved his fists.

The whole Changsheng island is tottering under the invisible hegemonic force, as if it would fall the next moment.

"Help! I don't want to die here! "

"Let me out. I'm not from the eternal temple. I'll leave the eternal city immediately. Please don't kill me."

"I have nothing to do with the eternal temple. I'm innocent."

“.....”

Many such voices, one after another, seemed to them that the eternal temple was over.

At this time, it is better to abandon the darkness and turn to continue to seek a new way of life.

The roaring wind made Ye Chen and others' cheeks ache, but ye Chen didn't care. He stared at the two huge flame palms tightly.

When the flame swept across the sky, it burst into a bright light like a golden wheel. Even Nangong Yaqing supported the door array of xuanzun's power, he could not completely avoid the damage.

Ye Chen even noticed that the bones in Nangong Yaqing's body had been broken by virtue of his far-reaching eyesight. If it goes on like this, even the meridians will not be able to withstand such a mighty pressure.

"Daughter... Is incompetent as a father." Nangong asked Heaven, painfully closed his eyes and muttered to himself.

A moment later, his eyes burst into dazzling light.

"Yao Ye, if you dare to touch my daughter, the Lord of our temple will die and will take you down to the yellow spring!"

Nangong's words to ask the sky are like nine days of thunder, which frightens ten parties. It contains uncontrollable anger.

When the emperor was angry, blood splashed thousands of miles.

Strong as Yao night also had to weigh it, and finally withdrew part of the offensive.

Nangong Yaqin was very anxious when she saw her father going out to fight with death, but she couldn't be distracted to maintain the array of xuanzun's power at this time.

When she was exhausted, a figure came behind her and broke the array constructed by opening the door of xuanzun.

Nangong Wentian also found that it was this guy!

But why can he walk through this barrier like no one else?

People who noticed this scene were also surprised by it. For a moment, they couldn't figure out the reason.

Ye Chen uses the power of the "virtual monument" in his body to tear a void and come behind them.

Because he vaguely heard the call of xuanzun's door to himself, and the sword light left by the sword keeper at the bottom of the lake was prompted. At this time, the sword light was also integrated with heaven and earth.

Ye Chen knew that it was guiding her!

"Why are you here?" Nangong Yaqing asked without looking back, and her shoulders trembled imperceptibly.

Ye Chen thought and immediately gave a less abrupt reason.

"Maybe I have some fate with the xuanzun gate. I can hear it calling me. Nangong hall leader, do you mind? "

Nangong asked Heaven and smiled bitterly. At this time, ye Chen can enter the array constructed by the power of xuanzun, which must mean that he has some connection with the door of xuanzun.

As long as we can summon the real xuanzun gate to guard Changsheng Island, this crisis may be solved.

How could he mind if he didn't even have time to be happy.

"Ye Shitian, if you can work with Yaqing to save my eternal temple, the position of the future Temple Lord is yours!" Nangong asked Heaven with a serious look and a determined tone. Two thunders flashed on his head, which was incomparably bright.

This is an oath! Let Ye Chen not doubt the authenticity of such a commitment.

If the promisor goes back on his promise, he will be eaten back by heaven.

Nangong asked Heaven, this is the blood! Ye Chen couldn't help but wonder at it.

He turned and went to Nangong Yaqing, sat down and stood side by side with her.

Even so, he still didn't feel the wonderful connection and couldn't help frowning. While he was thinking, Nangong Yaqing stretched out her jade hand and grabbed him.

At this moment, ye Chen's mind flooded with huge information like a tide, and soon arranged and combined, and a faint light door appeared on his forehead.

Seeing this scene, Nangong Yaqing couldn't help laughing. At the same time, she was relieved.

"My guess is right. According to the book, when using the door of xuanzun, one Yin and one Yang must be connected with each other in order to summon the most powerful door of xuanzun."

Among the ancient books she has read, the records about the door of xuanzun are like this.

She understood that the so-called "one Yin and one Yang, mutual connection" is the common strength of men and women to gather strength, and she has always rejected men and didn't want to contact men. Therefore, she has always refused to control the door of xuanzun.

Therefore, she had never taken the initiative to accept the power of the xuanzun gate until she was ordered to take charge of the gate again.

Just now, ye Chen said that when he also had a sense of xuanzun's door, Nangong Yaqing couldn't help finding something.

Perhaps this means that only when she drives the door of xuanzun together with Ye Chen can it be natural!

.....

At the same time, another place.

Ren Feifan, sitting cross legged, suddenly opened his eyes.

His eyes were bloodthirsty and determined.

Then, Ren extraordinary stood up, and his cold eyes stared at the sword in front of him.

The sword with strong blood moon power and surrounded by ten rounds of blood moon in the sky!

The body of the old man on one side is dim. I'm afraid it will dissipate soon.

He took a slightly profound look at Ren extraordinary and said, "do you want to try?"

"Do you know how terrible your injury is these days?"

"If you go on like this, don't mention the situation of the ancient emperor Yu Huang. You can't even leave here."

"This is a warning, not a reminder."

However, Ren Feifan smiled: "there are so many warnings in this world."

"What I want to take charge of, I never fail."

"It's just a sword!"

The next second, Ren Feifei holds the hilt again!

The void fluctuated, as if countless Taoist lights penetrated any extraordinary body!

But Ren extraordinary has a strong blood light guarding his whole body!

Not only that, but the ancient texture flows on any extraordinary body!

This is Ren extraordinary Guardian!

At the moment, Ren extraordinary's eyes are ferocious!

Bear all kinds of damage from the sword!

The old man on one side was quite moved and muttered:

"I'm afraid those who have such great perseverance in this world can only be the fate of their family and the Lord of reincarnation."

"But it failed."

At the moment, Ren extraordinary, the vitality of the whole body is rapidly losing, as if to fall!

The old man knows what kind of power is hidden in the sword.

The prohibition of sealing this sword was enough to destroy a supreme emperor!

Not to mention that Ren Feifan is still resisting the resistance in the sword!

But at this time, the old man's eyes shrunk fiercely, and his original face became extremely angry.

He stared at Ren Feifan and said in silence: "how can... This guy peeped into that world in this world..."

At the moment, Ren extraordinary, his eyes are no longer ferocious and bloodthirsty, but indifferent.

In his pupils, he seemed to reflect a world.

It's a world of nothing.

.....

Chapter 6807

Ren Feifan seemed to be pulled somewhere by a force.

He didn't really see nothing.

And this world of nothingness gives people an illusory and unreal feeling.

But he seemed to see the magnificent mountains and rivers.

Is this a mirage?

Or what?

Ren extraordinary tried to feel the world in front of him, but it backfired.

Even though his strength is in the top five in the world, his physical condition has been extremely loaded.

In reality, his pupils, corners of his mouth and ears all shed red blood.

But he still chose to continue to focus all his attention on the world.

Suddenly, Ren Feifan seemed to see several figures.

Those figures are suspended in the world.

Even staring at him.

Is this Hongjun and Wuzu?

Ren Feifan tried to see the faces of those people, but found that he couldn't.

A sense of extreme emptiness seemed to sweep through.

He found that the world he saw in his pupils was torn apart.

I don't know whether the world of nothingness has collapsed.

In real life, Ren extraordinary vomited a mouthful of blood, and the blood gradually stained on the long sword.

The blood was absorbed by the sword in an instant.

And Ren extraordinary's body fell down.

The injury this time is much worse than the last time.

The old man sighed and knew that Ren extraordinary had failed. He murmured, "although you shocked me, you still want to take charge now..."

The sound suddenly stopped.

Because the old man found that the chains began to break.

A few seconds later, the chain broke half.

That means half the seal is lifted.

This... How possible!

It was really done by Ren extraordinary!

The old man suppressed his inner shock, and everything still needs to wait for Ren extraordinary to wake up.

But this time Ren extraordinary is too risky. I don't know when to wake up.

A strong man of his level, suffering from such a serious injury, although his recovery speed is very fast, it will take some time.

The figure of the old man has faded a lot.

He glanced at the comatose Ren extraordinary and murmured, "Ren boys are so amazing. What about the Lord of reincarnation? Can his potential cut off a hundred chains? "

"It seems that no one has done it in the history of martial arts."

"But the reincarnation Lord has stepped into the Wuxu realm. It's really not necessarily..."

The old man stopped talking. He took a look at the sword, then closed his eyes and chose to guard Ren extraordinary silently.

.....

At the same time, the eternal void.

After a moment of struggle and entanglement, Nangong Yaqing is ready to close the two and complete the Union in another void, so as to borrow the power of xuanzun's door.

Fortunately, it is no longer needed.

But somehow, Nangong Yaqing's heart was hollow and lost.

Ye Chen didn't have time to take care of her emotional changes. When Nangong Yaqing's jade hand clasped with his fingers, the majestic force instantly entered his body.

The mysterious and profound spiritual power was running quietly, and turned into a burning flame on Ye Chen's body surface.

As time went by, the people in the eternal Temple waited anxiously.

The invaders of the eternal demon clan are a little impatient, but even the big leader can't break the defense array. What can they do?

"Big leader, if we only control Changsheng island and the eternal city, we should have the absolute right to speak. At that time, even if he gets out of trouble, he won't escape far."

The others also think it makes sense.

Yao might simply waved his hand and let several high-level demons lead his subordinates to clean up other places.

Yao Ye, the big leader, stood with his hands down and floated in the air. He didn't destroy the barrier, but waited quietly.

He saw that after ye Chen entered the border, the power of the xuanzun gate suddenly increased and wonderful changes took place.

Even if he attacks with all his strength, he can't crack the power of xuanzun's gate in a short time. He will only consume magic in vain.

Now let's see how they react.

As soon as his thoughts fell, ye Chen, who was sitting next to Nangong Yaqing, opened his eyes, and the atmosphere of bullying broke out from his body.

Ye Chen smiled, the corners of his mouth raised, and the inexplicable power in his pupils flowed. As long as he looked in his direction, it would make people palpitation.

His whole body was surging with majestic spiritual power. In an instant, it was like a wave sweeping through the sky.

The people who looked up from below turned pale with fear. In their sight, it seemed that there was a rough River falling from the sky, covering the whole earth and drowning everyone.

In the middle of the river, a bright light quietly emerged and turned into a surging light, hanging high in the sky like a moonlight.

As the light rose, countless rivers transformed by spiritual power were absorbed by it one after another, just like whales absorbing water. The scene was very shocking.

After the light dissipated, the old breath swept the whole hall again.

The real door of xuanzun was born!

The earth shaking noise attracted everyone's attention.

The ancient door, quietly suspended in the air, was closed, leaving a gap.

But if someone looks through that gap, the scene will change dramatically.

The endless mountain ranges stretching for thousands of miles connect the other end of the horizon, with overlapping mountains and beautiful mountains and rivers, including tens of thousands of rivers and rivers, which pass through cliffs and cliffs. There is a lonely wind and beautiful scenery.

This magnificent and spectacular scene is built by the nature of heaven and earth.

The leader of yaoyeda looked very dignified facing the xuanzun door.

He never thought that the two people were really connected. The combination of yin and Yang summoned the legendary body of xuanzun gate.

You know, the xuanzun gate hasn't come out since it went deep into the ancestral land of the eternal temple. Even if the eternal temple has encountered the crisis of extermination, the xuanzun gate hasn't moved.

What was used before was just the virtual shadow of the gate of xuanzun.

But this time, the body of xuanzun's door came out!

"Xuanzun's gate, in my name, orders you to distinguish good from evil and evil, and protect my eternal temple."

Ye Chen held the Dharma seal in her hand, and a flaming red lotus gradually appeared behind her.

The red lotus is the mark formed by the power of xuanzun's door. It will not disperse and disappear forever.

The big leader Yao Ye knew that if he didn't act at this time, he might have no chance again. With a flash of cold light in his eyes, his wrist turned over, and a secret dagger turned into a dark rainbow and burst out.

Instantly cut through all obstacles and went straight to Ye Chen's eyebrows.

The speed of the dagger was extremely fast. Even if it was blocked by layers of empty power, it was run through in an instant, spanning hundreds of miles and arriving in an instant.

But another wisp of cold and quiet fire suddenly bloomed at this time. The ice blue frost and snow flower stuck the dagger and couldn't enter another half inch.

Chapter 6808

In front of Ye Chen, Nangong Yaqing, wearing a red skirt, looked cold, and her eyes exuded an eternal chill.

They sat on the left and right sides of the door of xuanzun, like the masters of ice and fire. The power emitted by them made the whole Changsheng Island tremble.

The people of the eternal demon clan became a little flustered for a time.

Because the ice and fire from the xuanzun gate covered the whole Changsheng island. Every time a mass of ice and fire light was scattered, it would envelop the body of a person in the eternal temple.

Such repetition is almost completed in a few breaths.

When the people of the eternal demon clan cut off again with a knife and sword, they found that their weapons could not penetrate each other's body protection ice and fire.

"This..."

The people of the eternal demon clan looked at each other and were at a loss.

The top level of the demons looked even colder. The obviously good situation fell into a rigid state at this time. How can it not be annoying?

In mid air, many people of the eternal demon clan launched an attack towards the gate of xuanzun.

But in the end, they all came back in vain.

The boundary barrier of xuanzun's gate cannot be broken by ordinary forces.

The frost flower behind Nangong Yaqing suddenly broke into bursts of strong ice force and entered her body.

Finally, they gathered on her arm and condensed into a frozen sword.

The frost covered sword gave a clear roar, and the cold feeling of ice appeared in the void.

The power of this sword is not so powerful, but it is extremely pure. It is almost the peak of a sword in cold days. If you understand the meaning of the sword, you will break the sword technique.

"Kill all invaders in the name of the eternal temple! Those who resist will be cut off! "

At this time, Nangong Yaqing is like the high ice queen who holds the power of life and death. Without any emotional color, her frost sword draws a beautiful and strange arc. In rotation, frost and snow are all over the sky!

The strong men of the eternal temple at the bottom were red eyed. They took up arms, showed great moves, and rushed to the people of the eternal demon family fearlessly.

"You killed my master. Take your life today!"

"The eternal demons who deserve to die, go back to your hometown!"

"Qing'er, you not only killed my Qing'er, but also defiled her innocence. I want your dog's life!"

One after another, the voice of anger sounded everywhere.

Then there was the shadow of the sword, the blood rushed to the sky, and fierce fighting broke out everywhere.

Inspired by this momentum, those who participated in the battle were strengthened by the body protection of xuanzun gate, and the other party could not hurt them.

As long as they do it, the other party can only avoid it.

Fighting is in a one-sided form.

No one expected such a result.

The leader of yaoyeda didn't expect such a situation! The door of xuanzun was jointly opened by two young generations, and called out the real door.

With the blessing of xuanzun gate, I'm afraid they have won half.

Many soldiers of the eternal demon clan were scattered and defeated, which affected the overall situation.

However, even so, the war situation is still under the control of the demon clan. After all, they have brought more than one team.

"King of void, come out."

The leader of yaoyeda whispered silently. At the same time, he took out a string of Bone Necklace, which glittered with a palpitating inexplicable luster.

This is the skull of the king of the void beast. With this skull, shout out its name, and the void beast can cross the stars and the Milky way, ignoring the obstacles of time and space.

As his voice fell, the thunder rolled in the depths of the sky, as if rolled up some kind of storm, in which endless violent thunder was brewing.

Many people looked up one after another. They saw that the dawn that was about to arrive was swallowed up by endless darkness again. At tens of thousands of meters high on Changsheng Island, an unimaginable huge void ship broke through the air, blocking out the sky and the sun, and the great shore was boundless.

Thunder clouds are like a natural disaster, one layer after another, stretching for tens of thousands of miles, with no end in sight.

Everyone was shocked, including many strong men in the eternal city. Even the largest floating ship in the eternal temple was only one tenth of its volume.

The ancient and boundless breath slowly spread out from the depths of the void, and the whole sky was shocked.

The skeleton ship is a huge ship made by the king beast of the void family. It is extremely powerful. Even if the beast has died for millions of years, the bones left are still infinitely powerful, which is far more powerful than the ordinary void beast.

This time, the eternal demon clan sent a large number of troops, and it was also the first time to make this giant ship appear in the world.

"How is this possible?"

"It's terrible... What kind of ship can it have such a terrible volume?"

The warriors on Changsheng Island were shocked one after another. After all, this huge ship was too shocking!

Yao Ye, the big leader, opened his hands and slowly rose up into the sky. Unexpectedly, he slowly disappeared into the huge empty ship. At the next moment, there seemed to be two red lights in the depths of the clouds.

Ye Chen, who controls the gate of xuanzun, stared at this scene. He could feel that the huge ship had a strong and incomparable consciousness, which belonged to the leader of yaoyeda.

"Hehe, when the ship was built, Qingyao said that if a person's strength and spirit were injected into it, it might be integrated with the huge ship."

Chapter 6809

"Those old people are greedy and afraid of death. They don't have the courage. Finally, they all asked me to try. I didn't refuse, and I didn't want to refuse. Since ancient times, the winner is the king and the loser is the bandit. As long as I win the eternal temple this time, I can master the secret of the eternal void. It's not easy to kill those old guys? "

The dull voice came from the emptiness, and only a few people could hear it.

The south palace asks heaven and stands with a sword, acting as the first protective barrier of the gate of xuanzun.

The power of xuanzun's gate penetrated into his body, temporarily suppressed the injury and restored his strength to 80% of his peak period.

This 80% may only be equal to Yao Ye, the big leader after the combination.

"Yao night, you need to know that if you integrate the spirit with the void beast, even if you succeed at that time, it doesn't mean that you will be safe in the future."

Nangong asked Heaven to think for a moment and said heavily.

"Don't worry!"

The red light of the empty giant beast is like two violent meteors staying in the depths of the clouds, sometimes flashing and sometimes silent, showing a very unstable state.

"Do I still use you to teach me what to do? Nangong asks heaven, take care of yourself first! "

This voice is not only the majestic surge of the empty beast, but also the hysteria of the Obsidian night.

Nangong Wentian, ye Chen and others all look dignified. They know that Yao Ye's mind has been affected by the powerful power of this empty beast.

The empty beast opened its big mouth, like a towering black hole, burst out a surge of Yin Qi, turned into a hurricane, swept across most of the sky, roared, and was about to break through the world.

The people below were all surprised when they saw the huge peak.

It's so strong! Far more than most of the strong in the eternal temple can contend with

The towering power contained in this hurricane seems to destroy everything in an instant. Even Nangong Wentian is weighing whether he can continue intact with his 80% strength.

The distance between the hurricane and them was only more than a hundred miles. In the blink of an eye, it turned into a sharp blade. Even if half a step Tianjun was involved, he was either dead or disabled.

People who had no time to escape were involved, and the rolling blood color immediately spread. The bright red dyed the sky into a blood curtain, rotating wildly with the hurricane.

Nangong asked Heaven and knew that if he didn't go up again, I'm afraid their place would be burned by the hurricane.

His sword soared into the sky, and the dazzling silver light rushed out of the sky. The sword Qi as hot as the sun was dripping and moving forward.

Nangong Yaqing bit her lips tightly and felt very uneasy in her heart.

At this time, she couldn't help looking around, but found that ye Chen had closed her eyes and stood still, emitting a faint golden light.

Just then, a huge peak carrying the breath of destruction came and fell over the gate of xuanzun.

The void beast still has this consciousness and dares to sneak around.

The hurricane seemed to penetrate the defense array formed by the gate of xuanzun and wrapped Ye Chen round and round.

Many people were shocked at this.

All their hopes are pinned on Ye Chen and Nangong Yaqing. Up to now, they can only rely on the xuanzun gate to defeat the enemy.

The whirling hurricane is like a sharp blade, cutting Ye Chen's body.

However, ye Chen instantly summoned the red dust divine vein, and a layer of gold armor covered his body. It was as hard as ancient black iron, and even the fierce hurricane of the empty giant beast could not be torn open.

Nangong Yaqing was worried because she had just seen that where the hurricane passed, several strong people who were not strong enough were stirred to pieces.

Others, whose flesh and blood were stripped into pieces, looked like a dying blood skeleton.

After a while, the hurricane dissipated, which should be shaken away by some powerful force.

Ye Chen's whole body was shining with a dazzling golden divine light. He seemed to be wearing heavy armor and a crown. With a cold hum, a murderous golden divine beam burst out in his eyes.

"Die!"

Ye Chen, like no one else, fell in place safely, and took the initiative to attack and disperse a large hurricane.

Nangong Yaqing had a hanging heart, so she put it down and marveled at Ye Chen's defense ability.

The others looked like they had seen a ghost. They were chased around by the hurricane for fear of becoming a walking skeleton. This guy was good and killed directly.

The vitality is so strong that it is worthy of the existence of the daughter of the Lord of the eternal temple.

In a forest in the distance, yongshuang Zunwang was trapped by several strong men of the eternal demon family. Although he said he had no fear of life, he could not escape.

At this time, they were attracted by the visions of the sky and had no regard for each other's battle.

"His strength is so strong... Can he be connected with the gate of xuanzun?"

Yongshuang respects the king and mutters to himself. He suddenly regrets.

The boy's talent is definitely far beyond the young heroes of the eternal void, reaching an unprecedented level. Over time, he will become the top power to frighten the stars.

"Unexpectedly... The so-called mediocre people you brought here have such outstanding talents."

The Cangwu old man not far away sighed. He looked a little sad. He seemed to sigh that he had missed such a monster.

However, in yongshuang's ears, it's more like mocking him that his eyes don't know beads.

In the far space, ye Chen suddenly had a feeling in his heart. He turned his head and looked at the door of xuanzun.

The ancient portal emitting a faint radiance is still floating quietly without any reaction.

But the war intention in Ye Chen's heart is getting stronger and stronger.

He confirmed again and again. Finally, his eyes penetrated the door of xuanzun and saw a scene hidden in the door.

The vast wasteland has evolved into an ancient battlefield where all creatures kill each other. Countless powerful beasts, creatures and even gods are fighting. The situation is extremely tragic.

And the towering war spirit was sent out from a standing banner.

Ye Chen could not help looking at this scene.

He understood.

The significance of the existence of xuanzun gate is not defense or guarding at all.

It's attack, which can also be called fighting.

The ultimate destination of xuanzun's gate is the endless war of killing and anger.

That flag revealed too much information and rushed into Ye Chen's mind. It was only meaningful and unspeakable.

At this time, ye Chen suddenly felt the vibration of a jade pendant in his body.

This is the jade pendant originally given to Tianxue heart.

There was a movement at this critical time.

It seems that Tianxue's heart is urging Shenwu order.

However, I did delay for a long time in dealing with the eternal emptiness.

Ye Chen felt it slightly and heard the voice of Tianxue's heart in an instant.

Chapter 6810

"Ye Chen, have you finished your business? I can't hold on here. If you don't get the divine weapon order within ten days, the consequences will be very serious. If you are summoned, please go to the heavenly temple as soon as possible. "

"Before that, I sent several disciples of Tiangong Shenjiao, but they all failed, and may even have fallen!"

Ye Chen's eyes coagulated and knew that it was time for life and death. It was good that Tianxue's heart could last so long. It can be imagined how terrible pressure she had at the moment!

Since he once promised Tianxue heart, this has formed cause and effect. If he doesn't complete it, I'm afraid it will have an impact on his Wuzu Taoist heart.

But at present, only by solving the crisis of the eternal temple can we go to the heaven palace.

It seems that the progress of xuanzun gate will be accelerated.

Ye Chen secretly guessed that if he helped the eternal Temple survive today, I'm afraid there won't be much problem with the door of xuanzun.

In that case, fight! No choice!

Ye Chen suddenly opened his eyes, but what they didn't find was that a bloody light flowed through the door of xuanzun.

On the other side of the battlefield, the empty giant beast devoured wildly with the advantage of the divine body, and Nangong Wentian was completely at a disadvantage.

He can only use 80% of his strength in ordinary times, and can't use a thought of eternity, which is equivalent to only playing half of his real strength.

In this way, it is naturally suppressed to death.

"In that case, try it!"

In Ye Chen's eyes, an extremely strong light emerged. He mobilized the reincarnation blood in his body, gradually boiling up, circulating in the meridians, and constantly gathering powerful power!

Nangong Yaqing was anxious, but she had no choice. After all, the battle between the top powers, even if close, would be burned to ashes.

"Miss Yaqing, I have other wonderful uses for this xuanzun gate. Maybe I can help the Nangong hall master."

Nangong Yaqing was stunned when she heard Ye Chen's voice.

Immediately, ye Chen walked out of the protective cover built by the xuanzun door and came directly to the door with his eyes burning like the flame of heaven and earth.

The gate of xuanzun seemed to awaken some special blood, and the spatial fluctuation spread out from it, enveloping Ye Chen's whole body.

Nangong Yaqing was stunned. As far as she knew, the gate of xuanzun should be just guarding and defense. It seems that she has never had any other contact with others.

Ye Chen's move made her pupils shrink suddenly. Before she had any other reaction, her towering power rose into the sky and went straight into the sky, as if it had brought hundreds of millions of years of star power.

A bright red flag appeared silently from the gate of xuanzun, but the moment standing in this space brought endless power.

The bright red flag tore open a space and stayed in front of Ye Chen.

Ye Chen is only a few meters away.

The bright red flag seemed to be able to speak. There was no wind in the deep sky, but it was hunting, and a strong desire to fight emerged.

A burst of supreme pressure fell on Changsheng Island, which was extremely terrible.

Even the giant empty beast and Nangong asked the sky when they hit the sky and earth, they couldn't help looking at each other and were surprised.

"This breath is the power of xuanzun's door..."

"Are you wrong? How could the gate of xuanzun be so manic? "

"It is indeed the door of xuanzun."

The people around him stopped talking and looked at the bright red flag.

At the next moment, the bright red flag burst into a mighty heavenly power, like the supreme divine fire burning through heaven and earth. In an instant, the hot flame turned into a pillar of heaven and soared up.

And the instant of this blazing flame is enough to split the space and melt the whole channel of the void, which becomes extremely unstable, shaky and billows.

Some people in the distance didn't know why and looked around hurriedly, thinking that the world was about to collapse.

The nearest person hurriedly mobilized his aura and Yuan force to resist this fierce heat wave.

Ye Chen, who was under the gate of xuanzun, raised his head, fixed his eyes, and aimed at the place where the Nangong asked Heaven and the empty giant beast were located.

"Yaqing! I need your help. "

Ye chentou didn't look back and said to Nangong Yaqing behind him.

"How can I help you?"

Nangong Yaqing didn't refuse, but asked directly.

"What I understand should be the" attack "side of xuanzun's door. The rage is fierce. I'm afraid it's not easy to control. What you understand should be" guard ". I need you to help me hold it!"

Nangong Yaqing nodded, then tiptoed to the clouds and came to Ye Chen.

Ye Chen summoned the Longyuan Heavenly Sword, looking solemn and ready. Under his control, the Longyuan Heavenly Sword soared to more than ten times its width, looking like a giant sword straight into the sky.

Wearing a golden armor made of red dust, he sat on the Longyuan Heavenly Sword, but his eyes were very hot.

Nangong Yaqing also sat down next to him in case of need.

A silvery white light suddenly rose in the depths of the starry sky, which was extremely bright, but the accompanying black fire was more violent.

Nangong asked the sky. He was surrounded by silver sword light, barely resisting the dark light from the empty beast.

Nangong Wentian fell completely downwind. He bit his teeth and waved his sword like a rainbow, destroying the sky and the earth.

However, the void beast is independent of heaven and earth and is not controlled by the five elements. It only has its origin with the void.
