Chapter 7131

After ye Chen left, he thought about the map direction given by Zhu Yuan in his mind, and planned to tear the void away.

The tattoo on the back is a worry after all.

Besides, there are many things involved in this place of death.

It even involved ten thousand ruins and had to go.

But just then, in the reincarnation cemetery, the jade symbol suddenly lit up.

This is what the original ruling Lord handed over to Ye Chen!

When the jade talisman lights up, it is the time to start.

It seems that the Lord of the ruling is ready.

Ye Chen's eyes coagulated and thought for a moment. The place where he died and the tattoo behind him were far less important than covering the devil emperor.

For him, the immortal city was the top priority in the plan to save the demon emperor.

Only through the space transmission array of the immortal city can we save the demon emperor quietly and quickly.

Otherwise, in the face of no sky, you will only die.

No longer hesitated, ye Chen went to the earth's heart.

.....

Half an hour later, ye Chen appeared in the heart of the earth and saw the Lord of the ruling who had been waiting for a long time.

Seeing the ruling Lord again, ye Chen found that the ruling Lord was haggard. He said strangely, "what have you experienced these days?"

The judge shook his head: "no, let's go first."

Ye Chen knows what must have happened to the Lord of the ruling, but since the other party doesn't say it, he doesn't need to be investigated.

Then they set out, walked through the endless wasteland, and tore more than a dozen layers of space barriers before they reached the periphery of the immortal city.

Until now, ye Chen finally understood why the immortal city was isolated from the outside world, because it itself was in an extremely desolate area.

At the periphery of this space, crazy sand is raging and storms are rampant. Ordinary people can't enter this area at all.

Moreover, ye Chen also found extremely terrible traces here, just like those left by some kind of creature. They were very vague and destroyed all the outer Tao.

Those traces extend to the periphery and stop when they reach the center of the storm.

After passing through the storm, white bones piled up into mountains on a dark land, which was extremely silent.

There is no light here, completely shrouded in darkness.

"How far is the immortal city?" Ye Chen asked.

He used the reincarnation heaven's eye, and did not find out the specific location of the city, but peeped into some nothingness.

The Lord of the ruling looked dignified. This time he turned into a human warrior, and his face looked a little vicissitudes. At this time, a look of caution appeared in his eyes.

"I remember there were not so many anomalies in this place before. It's strange..."

While the ruling Lord murmured to himself, ye Chen suddenly turned his head and looked in another direction, where a strong breath was approaching.

Then came a soul power as sharp as a sword, which was almost to split the sandstorm in the wasteland in two!

Ye Chen took the ruling Lord, tore the void and retreated to a place hundreds of miles away. Only then could he escape the soul sword.

Extending hundreds of miles vertically and horizontally, we can see how terrible the power of the divine soul is!

"What was that just now? Even I felt the threat of death!"

The Lord of the verdict looked creepy.

Ye Chen's strength is not what it used to be. With his real combat effectiveness, he can easily solve some opponents in the later stage of baijiaying.

If you meet a half step heavenly king, you also have the power of a war.

After he absorbed the mother sword formula of all things and the crown of thorns, he dared to fight him even in the face of the strong who had just stepped into the level of heavenly king.

But now, just one soul thought makes him aware of the crisis of death. How terrible should the other party's soul strength be to achieve such a state!

However, if the soul is strong, the general martial arts strength may be weak.

Before long, a figure came out slowly from the sword Qi.

He was dressed in broad black clothes. He was shrouded in darkness. His face was gloomy. His nose was high and curved downward, as sharp and fierce as an eagle's beak.

And his eyes were dead and could not see the slightest look.

Ye Chen can be sure that this guy is definitely not a simple expert. Maybe he can't be called human.

"Who are you? Why are you here? Who allowed you in?"

The man in black did not change his face and issued a series of questions in an extremely cold tone.

Ye Chen looked at the judge. The latter immediately said, "I came here to visit the second miss of Ouyang's family. I had an agreement with her in my early years, so I came to keep the appointment."

When ye Chen heard the name of Miss Ouyang, he guessed it. This person is estimated to be the immortal city man who had contact with the Lord of the ruling.

But it's a woman.

The hidden information is worth pondering.

When he said this at the time of the ruling, he was very confident.

He knew that the Ouyang family was one of the big families in the immortal city, and had a strong foundation.

"Oh? Really? The second lady of Ouyang's family seems to be called Ouyang Qian."

The man in black suddenly became strange and asked in a deep voice.

The judge nodded.

He thought his smile was strange, but he didn't know where to start.

Suddenly, the man in black looked up and laughed, like a shrill crow, how ugly it must be.

"What's funny?"

The Lord of the ruling was immediately unhappy.

The black robed man's smile suddenly stopped, and his eyes became very cold and contained a strong sense of killing.

"The Ouyang family has long been destroyed by our heiyang clan, and it is the whole clan of Zhulian. None of them will be left!"

"I seem to have some impression of the second miss ouyangqian you mentioned. It seems that it was after being tasted that she was thrown into the endless cliff by people of our sect. Do you want to find her? I'm afraid you have to go to hell!"

The words of the man in black shocked their faces at the same time.

"Ouyang family is one of the five aristocratic families in the immortal city. If you say die, you'll die. Are you kidding?"

The voice of the judge was cold.

The man in black sneered and didn't make too many excuses. His eyes were like two cold pools, straight to the bottom of people's heart, which made people panic.

The judge didn't want to say much to him, but turned his palm and took out an ancient token.

On the token, there is a grain extending from the top to the bottom, emitting a mysterious totem light.

"This is a token made by the immortal city. External holders can have the qualification to enter the immortal city once a year before the totem dissipates."

Ye Chen was slightly surprised to see this.

It seems that the relationship between the Lord of judgment and the immortal city is not as simple as he said.

The man in black saw it, and the smile on his face became more and more strange.

Chapter 7132

"Do you know what it means to take out this token at this time?" he stretched out his slender tongue and licked his lips, which was divided into two parts from the middle, which was obviously not owned by human beings.

Seeing this, ye Chen made a quick decision, grabbed the Lord of the ruling and retreated thousands of meters again.

The place where the ruling Lord stood just now was pierced by his long tongue, and even the surrounding space ripples were broken into pieces, and the chaos was rippling.

"Oh? It seems that your strength is not bad. You hid it twice."

The man in black withdrew his tongue and his pupils became colder and colder.

"It's easy to enter the immortal city. Open your spirits. I'll search to see if you have a bad heart."

Hearing this, ye Chen and the judge's face changed.

For a friar, the spirit is the most private door. Almost all one's secrets are hidden in the spirit.

To open the soul to people means to open all privacy. No matter how deep your secret is, it will be seen by people!

Even their own cards, reincarnation cemeteries and reincarnation blood will be at a glance!

How could they agree to such a rude request?

The judge's face became very ugly. As the master of a domain, he was insulted by an unknown nobody.

Who can bear it!

Ye Chen seemed very calm. He said, "I want to confirm whether what you said is true or false?"

"True or false? Hehe, it doesn't matter whether it's true or false for dirty guys like you. If you want to enter, hurry up. If you don't want to enter, get out of here. Otherwise, when I'm hungry, you can't go."

The man in black immediately smiled and looked very contemptuous. He didn't put Ye Chen in his eyes at all.

"When we come, we must go in." Ye Chen said firmly and sparingly, "but we won't search the spirit for you."

The smile on the black robed man's face gradually disappeared and he climbed up.

"It seems that you are looking for death, then I will help you." the black robed man's face is like frost.

Ye Chen shook her head: "you are picking things from beginning to end. I don't have half a point to humiliate you."

Ye Chen doesn't want to tear his face completely until he knows the situation here.

But the man in black looked very angry.

"Just outside mole ants still want to enter the immortal city? Don't dirty the land inside! Since you don't want to open the yuan God, I'll help you."

The black robed man's fingers moved forward. Suddenly, a voice like a sudden storm sounded and ran through the void. That finger was terrible.

Ye Chen can't see through this person's strength realm, but in such strange fields, the other party must rely on it.

Therefore, we should not be careless.

His mind moved, the power of the dust monument surged, and the gold armor condensed from the invisible and covered him.

Red dust divine pulse!

On the other hand, the ruling Lord waved the virtual shadow of the ruling temple to block the thought of killing.

"Attack or stay?"

Ye Chen turned and looked at the Lord of the ruling.

The judge thought for a moment and then said, "since he is so ignorant, cut it."

"Good! Big destroy void finger!"

Ye Chen also flexed his fingers, and the streamer roared out, which was reflected in the pupils of the black robed man. It was like a thunder ball coming straight. It seemed that there was no other lethality except glittering.

"If you have only this strength, don't come out and make a fool of yourself."

The black robed man held a magic weapon covered with light. As soon as he received it, the hot thunder ball was included in his treasure.

But just before the thunder ball was about to enter, with Ye Chen's order in his heart, the ball exploded, and the thunder swept out of the sky, like a point awn condensed to the extreme, as if to blow up the desert space.

The man in black changed his look and was soon swallowed by thunder.

When the thunder disappeared, it was surprising that the man in black was still intact.

Ye Chen was suddenly surprised. His great destruction of the void means that he was born out of daqianchonglou palm and also has the power to crush the world.

The black robed man was wearing a set of silver and white armor. The armor was sparkling, like a river, surging, roaring and shining.

At this time, the man in black shook at will, and the scales on the armor were like fish scales. They opened and closed one by one, making a sound.

It is glittering and powerful.

Ye Chen doesn't know what this is, but knows that his defense is very strong.

"I just went out on patrol today and happened to find a prey."

The black robed man looked solemn. There was an anger on his face and stretched out his hand. The palm wrapped in silver white armor was like a dragon's claw, which fell boldly, and was about to smash the whole world.

Ye Chen's eyes were like a knife. As soon as he grasped the palm of his hand, the Longyuan Heavenly Sword emerged. A blood dragon sat on it and quickly cut it out.

When one silver and one red dragon collided, the strong wind and sandstorm in the whole world were shaking, and the strange light and haze were blazing and spreading.

After a blow, the two shook hands and made peace.

"I can't see that you still have such strength and hide deeply! In this way, I'm more interested in your spirit. What's the secret in your mind?"

The man in black stared at Ye Chen with a look of great interest.

Chapter 7133

But the killing intention in Ye Chen's heart at this time surged more than a hundred times.

As the Lord of reincarnation, he bears the blood of heaven. Naturally, he has many secrets that cannot be disclosed.

If this guy finds out, I'm afraid his luck will change.

Not only he, but also his friends and partners around him can't bear the consequences.

So ye Chen had a strong killing heart in his heart.

It's not easy to search for spirits. I'm afraid this guy has some unique method in front of him, so he will put forward such abnormal requirements.

"Then let me see how powerful your power is!"

The color of the silver armor on the black robed man changes instantly, from silver white to deep darkness, emitting endless cold and surpassing all sentient beings.

The sword Qi burst out by Ye Chen was stopped by the armor phantom in the void.

The powerful wave spread, and the roaring sword Qi was refracted in a disguised way, bounced on the armor phantom and shot violently into the sandstorm.

Nine days and ten places, the extreme boiling, the vast ocean evaporates in the blink of an eye.

The armor phantom seemed to condense into an invincible vision, with anger boiling and dark shadows sweeping out.

"Hand over all your powers!"

The voice of the man in black is shrill and roaring, which is bound to win.

The divine power contained in Ye Chen's sword really made him greedy.

Under the sandstorm, in the wilderness.

Ye Chen stood alone on the plain. He first let the Lord of judgment take refuge in the xuanhuang tower of heaven and earth.

Then he raised his eyes and looked into the far sky.

His eyes instantly became blood red, just like the bloodthirsty tyrant. If he disagreed, he would kill.

But just as he was about to do it.

A roar cut off the attack of the man in black.

Someone's coming!

Ye Chen followed the trail and looked, only to see a figure not far away. In an instant, he held a thundering sword in his hand. Looking at that face, he looked younger.

Who is this person?

When ye Chen was wondering, the young man holding the thunder sword spoke, and his tone seemed angry and helpless.

"Shi Tianqi! Do you heiyang sect really want to kill all the people outside?"

The man in black didn't think much of what he said. He punched out directly, tore the void at a very fast speed, and collided with the thunder!

"What is killing all? I just wanted to see their spirits, but they turned around and wanted to kill me."

The man in Black said as he punched, and his face was full of dark meaning.

Thunder splashed and fire soared into the sky.

The battle between the two is like a hot sun. After blooming, it explodes and instantly cuts the sand storm thousands of miles in two.

They passed more than a dozen moves in an instant, but from the momentum, it was the man in black who had the upper hand.

The young people were also very strong, but they lost half of the chips after all, and soon became dangerous.

According to Ye Chen's judgment, the strength of the black robed man is at the level of banbu Tianjun.

The reason why he can suppress Ye Chen at the beginning is because of the mysterious silver armor.

Young people may have touched some mysteries at the level of heavenly monarch, but they do not grasp them completely, and the revealed Taoist rules are not perfect.

When ye Chen was about to help the young man, suddenly there were ancient lights on the ground, rising into the sky, one after another, and all the dust storms were still.

Taboo runes were arranged in a large array, gathered into a chain as thick as a mountain pillar, and pulled hard at the black robed man in the air.

The black robed man naturally noticed the danger, flashed his body and quickly avoided it.

The runes are intertwined, and lightning flashes in the big array. A woman sits cross legged and is shocked by the surrounding Qi machine. Her black hair is flying and her face is solemn. She controls the big array and comes out with her fingers flying.

"Zhou Yan, get back quickly!"

Her voice was attached to the light of lightning and shook the whole sky.

The young man named Zhou Yan immediately retreated and disappeared like a cloud.

When the man in black saw the appearance of the women in the array, he couldn't help scolding his mother in a low voice.

"Damn it, why are you so unlucky today? I met this crazy woman..."

With a wave of his big hand, the silver armor fell off and combined into striped lattice shields to cover all his area.

But the woman sitting in the array smiled contemptuously at this time. Her palms were spread out, each with a mysterious power, holding Ye Chen up in the air, quickly plundered, and entered the door of thunder with her.

Thunder and light intertwined and burst into the sky. After three full breaths, the man in black noticed the difference. His eyes penetrated and saw that there were still a few people.

"Damn it! This smelly woman dares to play with me! I can't spare you!"

All that remained in the sky was the endless roar of men in black.

.....

meanwhile.

Under the transmission of lightning, they returned to a vast jungle, which formed a strong contrast with the previous desert plain.

Deep in the jungle, at the foot of endless mountains, there is a village.

"Here we are."

The woman surrounded by lightning waved and put them down slowly.

Ye Chen looked everywhere. He found that the strength of the people in the village was very good, which was a bit stronger than the ordinary martial artists outside the country, and the aura here was also rare and rich.

It seems that there are still many secrets in the inner earth and deeper places.

He summoned the heaven and earth xuanhuang tower and released the ruling Lord from it. He just left a mind when he came out of the tower and hid the supreme breath of the heaven and earth xuanhuang tower by using the shielding function of the wish star.

What is presented to the public is only a slightly powerful pagoda.

The Lord of judgment was born in the xuanhuang tower of heaven and earth and felt everything outside. He took out the token and asked eagerly, "are you also from the immortal city? If I guess right, you should be from the storm thunder family!"

Zhou Yan became surprised when he saw the token in his hand.

"Sister Yuqing, look! It's the token of Ouyang's family, and it can only be owned by the direct lineage."

After the lightning disappeared all over the woman, she showed her light blue clothes. Her temperament was like a valley orchid, pure and beautiful, giving people a strong affinity.

"It's really the legitimate keepsake of Ouyang family. Where did you get it? Now the Ouyang family has been destroyed. If you go to the ancient road with this token, you will naturally be watched by the people of heiyang sect."

Her words revealed a lot of information.

I'm afraid all the original patterns of the immortal city have undergone earth shaking changes.

All these changes should be related to the heiyang sect they mentioned.

"Can you tell me what happened?" asked the judge.

Chapter 7134

Ye Chen gave him a strange look, as if he had never found this guy so eager to do things before.

In their narration, ye Chen also probably understood the power distribution of the immortal city.

It was originally controlled by the five families of Dongfang, Ximen, Beiluo, Nangong and Ouyang.

The people with these big surnames have established multiple sects to stabilize each other, guard the altar array and the secrets behind the whole immortal city.

But someone always wants to make trouble!

Heiyang sect was established by Ximen and Beiluo, one of the five families.

The Holy Son of the Simon family even killed the patriarch and became king. He didn't know where to get the dark treasure, which also caused the unrest of the whole immortal city.

Several parties fought and robbed, and finally heiyang sect occupied the whole immortal city.

It is said that before the war, the whole Ouyang family was disposed of, and the nine families perished without bones.

They are the subordinate forces of the Dongfang family. In this village, almost all of them escaped from the Dongfang and Nangong families.

They formed a coalition army here to fight against heiyangzong.

Hearing the news of the collapse of the Ouyang family, the Lord of the ruling suddenly turned pale. Ye Chen didn't understand that this guy was clearly a tool spirit. Why was his mood so obvious?

Ye Chen patted him on the shoulder, and the Lord of the ruling came back to God.

"I'm fine. Don't worry."

Ye Chen nodded and didn't ask much.

Since the judge is unwilling to say, he will never dig into the bottom.

"What's your purpose here?" Yuqing asked.

Ye Chen considered for a moment and chose to tell the truth.

After hearing the altar array, all the people in the League shook their heads.

"That array has been damaged in the war and can't be used. You'd better go back early."

"It can't be said to be damaged! But the seeds of the altar flame are extinct, the flame can't be lit, and the array can't be opened naturally."

"The Ouyang family kept the seeds of the flame. Overnight, all the people with Ouyang surname disappeared. Do you think it's strange?"

People in the alliance have different opinions on this matter. In short, many doubts have not been revealed.

"Come on, since you are also here for the altar array, maybe we can reach cooperation. Let's take you to meet the current alliance leader first!"

Yuqing said, lotus steps moved gently, and soon they came to a delicate wooden house.

"Ally leader, guests are coming."

Then there was an echo in the room.

"Bring it in."

Ye Chen was stunned when he heard the sound.

Because this is a female voice. It sounds ethereal and pleasant. It seems that she is not old.

Push the door and enter. The room is also arranged concisely. At the desk, a woman in plain white is practicing.

Her pen and ink danced in front of her, automatically describing calligraphy and painting.

Every time a word is written, a vision emerges, swallowing the word and turning it into a hot ink stain.

Groups of ink dye around the line, actually outlined a mountain ink painting, dotted between heaven and earth, vivid, very vast.

Ye Chen's eyes fixed on the ordinary brush and the inkstone on the static table.

With his psychic perception, he can judge that all the strangeness comes from these two treasures.

The white skirt woman opened her eyes. Her facial features were not very outstanding, but after opening her eyes, it was like a full moon, shining brightly, shining in people's heart.

It is clear without trace and exquisite.

This pair of extremely beautiful eyes raised her whole temperament to a higher level, and also changed from ordinary to beautiful.

"What do you see?"

She looked at Ye Chen, smiling and looking forward to it.

Ye Chen turned her eyes to the mountain ink painting.

This landscape painting is hidden between heaven and earth. At a glance, it looks like a condensed illusion, but ye Chen knows that it is definitely not an illusion, but a real existence!

But the brush and inkstone are too powerful to include this world.

"In fact, it is just a refraction. The real world should receive it."

Ye Chen's eyes shifted and moved to the inkstone. The reincarnation heavenly eye penetrated the endless space obstacles.

In his eyes, the inkstone turned into a heaven and earth containing all things, with stars, seas, mountains and rivers in it.

And thousands of auspicious omens also flow in it. In the cracks of the void, there is a trace of auspicious Qi that floats in this room to enhance the vitality of this place.

Ye Chen points out two sentences. This time, it's the turn of the white skirt woman to be surprised.

"You can see it!" she looked quite surprised. "My ink, ink, paper and inkstone are the magic weapons left by the literati and the emperor of benevolence, righteousness and truth at that time. The essence of the whole set of magic weapons lies in this inkstone! It can be open-minded and accept all rivers."

The white skirt woman changed Ye Chen's senses and began to talk with her.

Her name is Nangong ZhuYue. She is the daughter of Nangong family leader. Now she controls the resources in the hands of Nangong family.

Before ye Chen came in, he glanced around the neighborhood and didn't find the older calm old man.

The youngest and middle-aged man!

Where did they go?

Nangong sighed month by month and said, "that time... The last war broke out among the five families, and all high-end combat forces entered a promising space to launch the final decisive battle!"

Chapter 7135

"But at that time, the heavens were broken, and the dark clouds from nowhere completely blocked the passage of the space. Then there was lightning and thunder, and the storm poured down! We stood below, at a loss, but we didn't dare to approach."

As Nangong talked month by month, ye Chen and the ruling Lord finally understood the cause and effect of the matter.

The Ju clan of Ouyang family disappeared before, and then the four families appeared irreversible abnormalities in the decisive battle.

All this is linked together and full of doubts.

Now the whole immortal city and the land outside the city have become a land of gunsmoke.

They wanted to negotiate with Ximen and Beiluo families, but Beiluo Huang, the young tyrant of Beiluo family, was unwilling to negotiate with them.

Then beiluohuang used cruel means to force the people of other families to kill them, and some were expelled from the immortal city.

"So you want to use the power of the altar array! But the altar array is useless. The seeds of the holy fire are in the hands of the Ouyang family, and the array broke in the last war."

Nangong said month by month.

"But... Maybe we can cooperate!"

Nangong's mind turns fast month by month.

She plans to use Ye Chen and the Lord of judgment, who have never appeared, to disguise and lurk into the immortal city!

"OK! We have the same intention!"

Ye Chen immediately agreed to come down as long as he could get close to the altar array.

After all, this is the only way to save the demon emperor.

Of course, ye Chen wants to go directly to the dark forbidden sea to save people, but the last time he rescued Yuchi Yao, Wu Tian has been vigilant. If he really goes through the dark forbidden sea, he will die.

Although he is much stronger, the gap between him and Wutian is still too huge.

Nangong sent some people month by month to follow Ye Chen.

They approached the city disguised as ordinary residents outside the city.

Ye Chen narrowed his eyes and looked at the boundless magnificent city.

This immortal city is very grand, with terrible bones everywhere, surrounded by random stones.

Importantly, the city wall emits seven colors of light, and those divine senses seem to be moved out of the forbidden area of life, which is very mysterious.

More surprisingly, the city could not see the real shape at all. It was covered by a chaotic mist. What ye Chen reached was only a corner.

Space debris flying everywhere, falling stars one after another, as if they were pouring into an endless abyss.

Ye Chen looked at this scene and couldn't help frowning.

This huge city is really strange. He has never heard of such mysterious existence in the inner earth before.

The geocentric domain is related to the world and those ancestors. Indeed, it is far from as simple as the surface.

The white fog billowed and the glow rushed up. Ye Chen seemed to transfer from one space to another in an instant.

An old man dressed as a refugee is walking slowly. His name is Dongfang crane. He is the leader sent by the alliance.

There were several people behind him, wrapped in the same clothes, covering most of his face.

Ye Chen suddenly felt strange. The alliance's move was to let them into the city to inquire about the situation, do something, and bring them in.

But ye Chen always felt that things were not so simple. Let alone the strange behavior and strange behavior of these people. It's also rather annoying that the immortal city can't see the entrance.

The Oriental crane walking in front suddenly slowed down. He still turned his back to Ye Chen, but his voice could be heard in Ye Chen's ears.

"Young man, you need to be careful and follow us closely, otherwise you will easily lose your way in this immortal city."

The Oriental crane warned.

Ye Chen answered. He felt that the identity of the Oriental crane should not be simple. After all, looking at his indifferent appearance, it is obviously not the first time to come to this immortal city.

Then ye Chen looked back. The Lord of the ruling silently followed him. Looking at the thick haze, a look of remembrance appeared in his eyes.

"How many times have you been to this place?"

Ye Chen couldn't help asking.

The ruling Lord was stunned and immediately said, "there should be two times. At that time, the immortal city had not fully developed, but had the appearance of some giant cities."

Ye Chen turned his head and continued to move forward. After a while, the thick white fog dispersed, and he also saw clearly that many people came out of the fog.

The outline of the huge city gradually appeared in the clouds. When ye Chen looked at it, he immediately felt a little depressed, because the immortal city was not standing on the land, but standing in the void.

It left the ground and rose in the air, like a place where gods live, out of reach.

In the middle of the immortal city is a sea of clouds, in which there are visions evolved from clouds, rising like a sea tide.

Almost half the wall high!

Even if some strong people want to break through, they have to weigh their strength and whether they will be swallowed up by this wave before reaching the immortal city.

Between this heaven and earth and the immortal city, there are bridges paved with iron locks, which seem extremely withered in the sea of clouds.

Ye Chen probably counted. The number of iron cable bridges was about 100. They shook in the air and looked very dangerous.

But no matter how rough the wave is, it can't affect the bridge.

The iron cable bridge is as stable as Mount Tai.

Ye Chen walked to the bridge and felt the endless wind blowing from below. His face became a little dignified.

His robe made a hunting sound, and soon there were runes displayed, free from the wave.

Ye Chen followed Dongfang crane and others, stepped on the iron rope, crossed step by step, and finally reached the opposite bank.

After the iron cable bridge, you can see the towering and magnificent appearance of the city.

The gate of the city was like an open devil's mouth and two tusks.

The actual tusks, when approached, were actually two pillars supporting the devil's upper jaw.

Just when ye Chen wanted to go in, an old beggar stopped him in the desolate place outside the city gate.

"This immortal city is unfathomable. You must pay attention when you go in. Don't be dazzled by the false appearance in front of you. It's most important to follow your heart."

The old beggar suddenly sat up, grabbed Ye Chen's clothes and muttered to himself like a madman.

Ye Chen looked at the old beggar and looked thoughtful.

But soon, he entered the city with Dongfang crane and others, while the old beggar still sat in place and said nothing.

There are many guards at the gate of the city to check the identity of the people entering the city.

Before entering, ye Chen put a bracelet given by Dongfang crane on her wrist.

Chapter 7136

An invisible air machine shrouded him, and at the same time, it extended and opened, almost forming an airtight protective net.

Ye Chen entered them and soon had a new understanding of this place.

This immortal city is huge and vast, in which hundreds of millions of people live, almost forming a small world.

The city gate is just the first entrance. Among them, mountains and rivers are all over the city and integrated together. Such a scene also forms a beautiful scenery.

"Here... It seems smaller than before."

The eyes of the ruling Lord overlook the boundless sky.

"How many times have you been here?"

Ye Chen couldn't help asking.

The judge shook his head, unwilling to say more.

Then the Oriental crane took them to a busy city. Not only human beings, but also all kinds of races are in the city. It seems that they get along very well.

And they temporarily found an inn to rest.

The Lord of the ruling has been silent all the way, looking worried.

Ye Chen doesn't understand. This guy has been the leader in the inner earth for so many years, and now he has become depressed.

There must be some reason!

After about half an hour, they came to a place.

Ye Chen took a closer look. It turned out to be an auction house!

However, the auction house is indeed quite magnificent! It was built in a magnificent way, like a peerless sword standing on the ground, straight into the sky without anger.

The part of the hilt is the attic of the auction house, which extends more than ten miles and is divided into eight floors.

Ye Chen followed them up the steps and came to the fifth floor. An auction will be held here today. Dongfang crane took them here to auction something.

At this time, many people have gathered here and sat down one after another. Ye Chen releases a trace of mind and secretly observes the surroundings.

There are many powerful smells in the auction house, but most of them are hidden.

"Today we're going to shoot a very important thing! The situation may be a little complicated at that time. Please follow us."

The Oriental crane took off his robe and showed an old face. He looked very ordinary in the crowd.

The others remained silent and just sat down with the Oriental crane.

But soon, someone broke the silence in an unfriendly way.

"Hehe, now all cats and dogs can come in. The people of your alliance are really not afraid of death and dare to sneak into the immortal city!"

This voice came from behind and immediately made Ye Chen's heart tight.

They were found!

The same is true for Oriental cranes. Their backs are tight, but they relax.

"Did you get the news from the traitor? Hehe, I wasn't sure before. Now I can basically identify the traitor."

Although he was discovered by the people of the immortal city, the Oriental crane did not panic, but stood up. Until this time, his momentum broke out.

Several others also stood up one after another and were not afraid in the face of the enemy's encirclement.

The leader is the elder of Beiluo family! It's called Beiluo Changqing.

They received the news from Xianzi that Dongfang crane will bring people in to perform the task.

"Now that you have come, don't go any further. Take a good look at the scenery of the immortal city. It can be regarded as fulfilling your wish."

He spread his arms and palms upward. When the spiritual power of the surrounding field condensed to a certain extent, he suddenly waved his hands and pressed them down.

The invisible gas fields crush each other, stimulate a violent current, and rush straight into the clouds.

In just a moment, thunder roared in the depths of the clouds, and pillar like lightning landed over the immortal city.

The Oriental crane looked indifferent. He smiled and said nothing about it.

"I've been in the immortal city for so many years. I've seen all the scenery. It's really boring. I'll play with you young people today."

Beiluo Changqing snorted coldly. He raised a finger, pointed to the Oriental crane in the distance, his eyes were like electricity, and whispered, "dare you come up for a war?"

As soon as the Oriental crane shook his sleeves, some object felt his call in the vast sea of air.

Immediately broke through the shackles of blood and roared out.

It was a sword with silver white light, with mysterious patterns carved all over it, and the word "East" with dragon flying and Phoenix dancing was engraved in the center of the sword.

When the Oriental crane reached out to move, the streamer flashed over the Oriental crane and suddenly burst out a powerful sound wave, breaking all the surrounding laws!

The sword seemed to have self spirituality. Whew, it cut through the void and swept towards Beiluo Changqing. It was completely lightning fast.

Ye Chen was surprised that the Oriental crane was a hidden expert. He didn't see it before.

The fighting speed between the strong was so fast that people were startled that even several martial artists in Baijiao territory didn't react.

Beiluo Changqing shot in an instant. A mighty Qi sword cut everything and rushed towards the Oriental crane!

But who is Dongfang crane? He was one of the older generation who didn't go missing at that time. In terms of his profound cultivation, he was even higher than Beiluo Changqing.

"Don't fool me with these."

The thunder and lightning intertwined in a flash. The Oriental crane was full of angry eyebrows and silver hair. The powerful field gathered behind him and condensed into a huge Dharma phase.

Chapter 7137

The Dharma minister is a thunder giant. He holds a tower in his left hand and a knife in his right hand. His eyes are like copper bells. He exudes extremely strong dignity all over his body.

"Oh?" seeing this, Beiluo Changqing frowned slightly: "it's the Dharma phase of ancient gods and demons. It seems that the alliance is really willing to pay blood on you. The girl of Nangong month by month actually took out all the old money, ha ha."

The eastern crane snorted coldly, no longer answered, but manipulated the thunder FA Xiang to launch an attack.

Neither wants to affect the people in this immortal city, so it is more than 100000 meters to cross the clouds and reach the other end of the sky.

This is the periphery of the immortal city, so there is a large battle area.

Now the two strong men of the two sides are fighting, and the following beiluojiangling and beiluoshang have nothing to do.

One of them is the four elders of Beiluo family, while the other is the Tianjiao of Beiluo.

Their eyes glanced around and finally locked Ye Chen.

"Four elders, why don't we join hands to kill that boy? He looks like a young man newly trained by the league. If he is killed, it may hurt the league. Why not do such things?"

Beiluoshang said first.

The North Luojiang River's face sank like water. He nodded and said: "the alliance is getting bolder and bolder. It dares to do the right thing with us. If someone hadn't reminded us, we wouldn't have thought that the Oriental crane dared to enter the city."

"That's right. I also want to try. What's the strength of the young people in this alliance!"

After unifying their ideas, the two strong men immediately stopped hesitating and launched an attack.

The black robe behind the North Luojiang Ling is windless and automatic, which is connected with the dark and empty stars. Countless bats flapped their wings and gathered into a huge cloud.

Beiluoshang summoned a colorful black gold tower, which was full of light and contained soul stirring power fluctuations.

"If you don't want to die, you can choose to surrender. We may consider a lighter punishment!"

North Luo Shang stared at Ye Chen and said solemnly.

Ye Chen turned around and looked at this guy inexplicably.

He was studying the location of the altar Dharma array in the immortal city, but he didn't pay attention to these guys.

"Go!"

After ye Chen gave the order, on the Longyuan Heavenly Sword, the blood of the blood dragon differentiated into two monsters, full of blood, and rushed towards the sky.

Beiluoshang urged the black gold tower to send out a light beam and smash the two bloody soldiers into powder.

And his face became very ugly.

Insult, this is a naked insult!

This guy used such a perfunctory attack in front of them. It's not an insult!

"Elder Jiang Ling, it seems that this person's strength is very high! In the face of the joint attack of you and me, he is so perfunctory."

Beiluo Shang narrowed his eyes. As a genius of Beiluo family, he was so neglected for the first time.

"In that case, we'll show him."

In the blink of an eye, two strong men set out to surround Ye Chen.

At this time, ye Chen is manipulating his mind and searching around. He seems to have found some clues.

At the critical moment, you can't be disturbed!

"Blood dragon, you should carry these two guys first."

But he looked calm and said with his mind and blood dragon.

"Yes, master!"

Boom! The Longyuan Heavenly Sword roared up to the sky, and a blood dragon rushed out of it and soared up. The dragon's power was mighty, and the blood color was filled between heaven and earth, which was very terrible.

Like the blood red of the fire, it lit up the outer city of less than half of the immortal city. The gathered flame was like a mushroom cloud. After falling down, the smoke filled the city.

Whether it is city buildings or ancient mountains and rivers, there is blood light and shadow everywhere.

However, the momentum of the other two people's joint action is even more shocking, directly penetrating the barrier of this layer and entering it!

It's just an illusory dragon shadow. It's nothing to them!

Beiluoshang is full of confidence. He doesn't believe Ye Chen can survive this blow.

But the result made them Tut, because after the fire dispersed, the blood dragon in the smoke was still standing still, and the dark red scales were burned red, but its combat effectiveness could not be affected.

Seeing this scene, their faces changed.

The dragon is not an illusory shadow!

When the attack hits him, it can hurt the entity.

The blood dragon stared at them coldly, as if he had a sense of self combat, and his eyes lit up with a hot red light.

Followed by the extension of the whole dragon body, the Dragon claws closed, and the blood red light condensed into root spikes, covering the surface of the dragon body.

This is one of the talent skills that the blood dragon mastered in the Longyuan Heavenly Sword: Blood strangling dragon sword.

The red light flowed, and then it turned and made a roaring sound. The huge shadow of the blood dragon rushed out in an instant, as fast as thunder.

Such a fast and decisive attack surprised the two opposite people. When they react,

Over the immortal city, two large mushroom clouds bloom again.

Raging fire swept out, containing extremely powerful phagocytic energy!

The clothes of beiluojiangling and beiluoshang worn out from the flame clouds were somewhat ragged. Beiluojiangling suffered the most positive attack, and the silver gray hair was scorched.

The sleeve robe of beiluoshang's right arm disappeared, leaving only a scorched section.

"You use such means, really don't talk about martial virtue!" beiluoshang's head is still emitting black smoke. He cursed at Ye Chen.

Beiluojiang Ling simply took things from space and brought a mirror. After seeing that half of his hair was burned, he hated to gnash his teeth. His angry eyes wanted to eat ye Chen raw.

Ye Chen is slow and doesn't worry at all.

Although the strength of these two people is fairly good, they are not far from him.

Therefore, ye Chen did not take them to heart.

In the process, people from other families came one after another, which made Ye Chen frown.

I'm afraid they fell into a trap and things got a little tricky.

"What should I do? Do I have to keep looking for something like that?"

The ruling Lord held the Dharma formula in his hand, and the phantom shadow of the temple loomed. He suppressed those people under the ground and was not allowed to turn over.

Ye Chen thought for a long time, and then nodded.

Time is pressing. He must quickly find the entrance of the altar Dharma array and lead the army into the old alliance. Once he misses the time, the demon emperor will really be lost.

At that time, it's too late to regret!

As soon as ye Chen read this, he no longer hesitated. He sank his mind and launched the power of water stop sword.

Heaven and earth are vast, and heaven and earth are bright. Originally, the sky was clear for thousands of miles, but at this time, there were strange phenomena gathering, roaring and spreading in the clouds, which seemed extremely terrible.

Ye Chen stood in the storm, his black robe surging up, like an ancient god of war, with a cold look and detached eyes.

"Die!"

He spit out the word faintly.

Chapter 7138

The people below were shocked. They wanted to trap Dongfang crane and others, so as to lead to the hidden dark son of the alliance!

But I didn't expect that there was such a powerful guy in this team. Even the two strong men of the Beiluo family were crushed in his hands.

"What's the matter? This man uses the ultimate martial arts and is difficult to deal with, but there seems to be no such person in the alliance!"

"I don't know! Maybe it's a new talent in the league."

Below, several family experts in the city talked one after another.

The sword of still water, apart from causing turbulence in heaven and earth, also attracted a series of visions.

Almost everyone in the city looked up, because the power of the sword was too terrible, including several families, who were also full of surprise. They rushed here quickly.

At the next moment, a shocking scene appeared, and a wide gap was opened in the void.

They originally thought that this was just the shock brought by the extreme Kendo, but the sharp eyed people took the lead in discovering that there was an altar emerging from the crack of the void, followed by the endless meaning.

"Look! There seems to be a figure in the crack."

A martial artist with excellent eyesight pointed to the void crack and said quickly.

Hearing this, everyone looked at the other side.

In the vast void cracks, a scene suddenly appeared slowly, and a row of people like sculptures came into the eyes of everyone.

They are among the stars. Looking around, they stand quietly with the stars in the sky and have no vitality.

They looked either surprised or angry, and there was a trace of fear.

Everyone who saw this scene was stunned, because some of them had recognized that the sculptures were the ancestors of the five families who had disappeared.

In those years, the war was extremely fierce, the sky was dark, and the mountains and rivers collapsed. Even under such circumstances, the empty passage was closed.

Many strong men have fallen and disappeared.

But now these people are here!

What kind of mystery is hidden in it? Since the void has been broken, why can they reappear in the world?

After a while, the top leaders of several families in the city arrived, including beiluohuang, which is known as villain slaughter.

He is now the ruler of the immortal city and is very powerful.

After the disappearance of the ancestors of the Beiluo family, he carried the burden of the whole family and became a well deserved ruler in the immortal city.

His strength has entered the ranks of the heavenly king, no weaker than his predecessors!

Others could not help but be surprised and stunned when they saw the scene in time and space. Then they were shocked. Only he had a heavy feeling in the bottom of his eyes.

At this moment, ye Chen, who is in the center of the vortex, feels a trace of help!

And it all comes from this void.

After the lost void opened, the terrible breath came quietly.

Ye Chen hesitated for a moment and chose to receive the signals of those help information.

In an instant, countless pictures poured into his mind and gathered into a complete puzzle.

The picture of ancient war suddenly appeared in his mind.

Endless light surges around, rendering every inch of space here incomparably transparent, as vast as the ocean.

The figure exposed in the void is just the tip of the iceberg. There are more powerful people of the five families trapped here and can't escape.

Among the crowd below, someone saw that ye Chen was trying to communicate with their family ancestors.

"We have to help him! He seems to have a way to save his ancestors trapped in the void! Those people are still alive!"

When they heard this, they all looked shocked.

In that war, many family ancestors fell, which was also a great pity for them.

Now they have the chance to resurrect. Of course, they spare no effort to help.

Many strong men are trying to help Ye Chen.

But just then, a loud cry came.

"He is the enemy! Do you want to save the enemy's life?"

Hearing the sound, everyone stopped and looked back.

Because the speaker was Beiluo Huang, he stood in the air, holding a divine sword, majestic.

"Why?"

Someone couldn't help asking.

Beiluo Huang walked slowly. Everywhere he went, everyone retreated and gave way to a wide and straight Avenue.

Beiluo Huang stopped and his eyes were indifferent.

"If you have no reason to be kind to the enemy, you are cruel to yourself, okay?"

Beiluo Huang pulled out his inherited wind and snow sword, which instantly brought up a wave of extreme martial arts charm.

Only a buzzing sound was heard, and the divine sword came out of its sheath. The invisible soul of the sword gushed out, forming an extremely powerful sword meaning.

Beiluohuang was originally the strongest person among several families and the absolute commander. Since he issued this instruction, it means that ye Chen and others have nowhere to escape and cannot fly today.

"What you just inspired should be the legendary Wuwu Kendo? It's really powerful, but your strength level is still too low to withstand the destruction of Wuwu Kendo!"

Beiluohuang can naturally see the problem of Ye Chen. He hasn't contacted Ye Chen and doesn't know that ye Chen always likes to challenge beyond his level.

Under the sky, a sword light fell, which automatically led to the God of killing.

That was the suggestion of beiluohuang. He urged his sword while ye Chen used the way of nothingness to integrate with the void.

Such behavior is somewhat despicable! But in order not to let things be exposed, beiluohuang chose to start first.

People were shocked at this scene, and others wanted to stop it, but they were worried when they thought of the hegemonic rule of Beiluo wasteland.

The demon's sword Qi gushed and surged into a divine light.

"Wind and snow sword! Vast snow field! Infinite power!"

That ice sheet burns instantly and turns into wind and snow surrounded by Mars. It runs through the void. It is very powerful and frightening.

Some people can't help worrying about ye Chen. They miss their parents very much and want to find a turn for the better. However, under the pressure of Beiluo famine, they become hesitant at the moment.

At the entrance of the void, ye Chen opened his eyes in an instant, reincarnated his blood and burned to the utmost.

Wish sky star and snow hidden star. The defense line built by them enveloped Ye Chen's body and stagnated the sword light of wind, snow and fire.

"How could you hurt me if you didn't mobilize the power of emptiness!"

Ye Chen's words are sonorous and confident.

Fire, wind and snow are gradually shattered by the light of the wish star.

Chapter 7139

In that void, he peeped into the past wars, so his eyes at Beiluo wasteland became a little playful.

"Don't look at me like that! Believe it or not, I will let you fall into reincarnation forever and never surpass life!"

Beiluohuang gnashed his teeth and said in a cruel voice.

Ye Chen smiled. He waved his hand directly and condensed it into a light rain, which gradually turned into light waves up to several kilometers.

In that light wave, there are pictures surging, as if to slowly unfold everything in the past.

"Your name is beiluohuang, isn't it? It's a good filial generation. It even joined the evil spirits in the altar to seal your ancestors and let several other families suffer."

Ye Chen said faintly, "after finishing these, you also took the position of the city master, held great power and lived comfortably and freely, but you don't know what the people who serve you think?"

His words swept lightly and stunned everyone present.

"What? It's so! It's impossible! How could the Lord of Beiluo do such a thing?"

Some of his subordinates expressed disbelief, but others raised strong doubts.

"Don't you forget that the Lord of Beiluo ascended by killing his own father? It can't be ignored!"

There was much discussion below, and the look of beiluohuang became more and more gloomy.

"I can't see. Your strength is weak and your mouth is very sharp. In that case, I'll send you down to the king of hell!"

Beiluohuang was completely moved to kill this time. He summoned a giant ice and snow beast, lying between heaven and earth. As soon as he opened his mouth, an endless storm roared.

The sword in his hand has been integrated with the beast and erupted into a towering power.

But ye Chen was not in a hurry. He intercepted some pictures in his brain and integrated them into the light wave.

Next, the people of the immortal city below saw the battle picture of that era.

Many good players from the four families have a final duel. You come and go, and they toss hundreds of millions of miles of space.

At that time, several big families were in fierce battle and were jealous!

They are competing for the dominance of the altar array. Whoever can get the recognition of the altar has won half.

But no one found it.

Silently, a dark shadow approached and slowly came to the altar.

The shadow began to wriggle, and even got into the altar in an unknown corner, and his figure slowly disappeared.

Many people in the city were surprised when they saw this scene.

At the same time, ye Chen also summoned the blood dragon, opened his mouth and roared, and there was strong blood gas gushing out!

The blood gas expanded instantly and increased to dozens of times! Burst out between heaven and earth, standing with the wind and snow far away!

In terms of prestige, ye Chen is no weaker than beiluohuang.

Now, his strength has been greatly improved compared with that before, and there are several nine heavenly gods in hand. Even if he has just stepped into the existence of the heavenly king, he can't beat him in a short time!

Beiluohuang turned the attack direction and tried to destroy the light wave screen that played the memory picture.

But ye Chen stopped him.

"Are you so guilty? You don't even have the courage to show them!"

Ye Chen's face is full of laughter. He has learned from the empty memory that beiluohuang has been occupied by evil spirits. Now the whole immortal city is under the control of evil spirits.

The body of the evil spirit is attached to the altar array and is sealed by the power of heaven and earth like the strong of the four families.

However, the swallowing of evil spirits has not stopped. The body is trapped in the void. With the help of altar array, it can still absorb power!

It is equivalent to saying that everyone is sealed, the body can't move, the spirit is restrained, but the consciousness is still there.

There are vegetative people in real life. People imprisoned by the void can be called ice sculpture people.

The people in the immortal city changed their faces when they saw this situation.

Because on the smooth plane like a mirror, the real scene of the ancient war appeared.

The ancestors of several families did not disappear for no reason!

At that time, they were in the middle of a fierce battle, breaking the earth, the sun and the moon, and the stars were dim, but at this time, an object like an ice sculpture fell from space!

Both sides stopped and looked closely. It turned out that it was Ouyang family. They were sealed in the ice coffin. It seemed that they were frozen!

It's no secret that all the people of Ouyang family have disappeared, but they suddenly appear again, which still startles everyone.

Everyone was surprised, but before they could react, a wisp of black gas swept out and condensed into a thick ice mist, completely freezing the empty universe!

And that wisp of black gas finally attached to one person, which is Beiluo wasteland!

In other words, there has long been a certain connection between Beiluo wasteland and the soul of the evil spirit!

"You were even involved in that year!"

The Oriental crane took the lead in raising his head and looked at beiluohuang mercilessly.

Other people are also full of disbelief. They have been looking for the truth of the disappearance of several families.

But unexpectedly, this matter has something to do with Beiluo famine.

During the investigation, the Northern Wilderness clearly made a lot of efforts! It can only be said that he disguised so well that he didn't show half his vest.

"Really you? In that case, why did you lead us to war with the other two races, causing so many casualties?"

Chapter 7140

"That's why you did it?"

“.....”

Questions, doubts, anger, and even abuse came to my face, making Beiluo Huang look uncertain.

"Just do it. What else can you do with me? I originally planned to devour all of you in a year or two and turn them into food for the altar, but now it seems that I don't need it."

Beiluo Huang grinned. His face was ferocious, his violent momentum shot out, and his long hair blew in the wind, just like a demon standing in the air.

Facing the people, even the people on his side, he was not half afraid, but extremely arrogant.

"What if you lead out the space crack? The crack has swallowed up all your sword Qi. I don't believe it. You can use the sword intention that consumes your energy and spirit for the second time!"

Not long after his voice fell, he saw only a flash of white light. Then, the sword broke through the sky, like a swift meteor.

What's going on?

This time, it was not just Beiluo Wasteland, but even the people around were stunned.

He has such a powerful ability to launch the second sword technique!

Beiluo Huang was shocked in his heart, but he moved quickly on his hand and immediately offered a magic weapon, but then he was shocked to find that the space field around him was blocked and completely unable to move.

Ye Chen's sword actually opened up the field around him. By controlling the flow of air, it turned into a rope and wanted to control his body shape.

"You have some skills! But you want to trap me by taking this and other methods? I'm afraid you think too easily!"

He released the spirit of the spirit and wanted to break through the blockade.

But soon he found something wrong and immediately took back his mind, because he found that there was an invisible force around him, burning his divine source.

Beiluohuang immediately took back this power and wielded a aura to protect his body!

But when he finished these, the water stop sword came to him and burst out incomparable light.

Beiluohuang clenched his teeth, his palm quickly sealed, and then pushed forward. In the void next to him, a wooden fish flew out and turned into a hard barrier in front of him.

Bang!

The two sides collided, and the huge wooden fish couldn't bear the pressure of the water stop sword. After struggling for a moment, it burst into pieces!

The sound of an explosion flashed quickly.

Beiluohuang took advantage of this time and quickly retreated to the rear. Although he was separated by some distance, he was still shocked.

"What is the origin of this sword technique? It's terrible!"

He was panting heavily and still had lingering palpitations.

Ye Chen smiled lightly. From beginning to end, he didn't pay attention to this person, and the so-called evil spirit just froze all the strong with the help of empty array fragments.

As long as he swings a sword, he can break it!

At the moment when ye Chen came out of the sword, the virtual shadow of the blood Dragon flew into the air, roared angrily, and the whole immortal city trembled slightly.

In the starry sky, the light of reincarnation flickers and condenses the blood fog!

When those monks saw this, they all looked terrible, so they hurried back.

They don't want to be affected.

Ye Chen used the space breakthrough power of the virtual Monument and came to Beiluo wasteland in just a moment.

At the moment, the Longyuan Heavenly Sword trembled unceasingly, as if it was the God who suddenly came and smashed it towards the falling Beiluo wasteland!

Beiluo Huang was hit by the divine light and spit out a big mouthful of blood, while his surface defense array was as fragile as a water mirror and broke in an instant.

When he hit the ground, the mountains and rivers were shaken and broken in an instant. The endless rivers evaporated, while the towering mountains cracked countless gaps.

The world has changed dramatically, and all changes occur in a moment.

The rest of the people were almost stunned when they saw this scene.

This guy's strength is terrible.

"Where on earth did he come from? It's terrible to cut down Beiluo wasteland!"

"I don't know. He seems to be one of the Oriental cranes! Does Nangong find the world's top Tianjiao month by month?"

"I don't know! But as far as I know, the people of the supreme world can't come in. The origin of the avenue here is contrary to that of the supreme. If they come in, their strength will be weakened by at least 50%."

“.....”

Many monks in the immortal city talked about it. They won't come forward to help beiluohuang now.

That guy is so arrogant that he has to treat them all as sacrificial materials. Only a fool will jump out and fight against Ye Chen now.

Ye Chen looked around and no one spoke.

When he looked back, the yuan God was still connected with the void, and the cry for help became stronger and stronger, as if he was going to overturn the dome.

"There is only one condition for me to save you."

The condition he said was to let him use an altar array to transmit.

Ye Chen uses the spirit to convey his ideas.

Those people just wanted to get out of trouble now. They didn't care so much, so they agreed immediately.

In this way, ye Chen decided to rescue. He felt the wind from the clouds.

It's very gentle, but when it accelerates suddenly, its power will not be weaker than a sharp knife!

Ye Chen raised his palm and suppressed it. Suddenly, the golden light in the depths of the sky was prosperous, and the bright golden light was suppressed and turned into a golden day to cover the sky.

The scorching sun shines on the void. With the passage of time, even after the eternal iceberg is attacked by the sun, it can't help jumping out to enjoy the beautiful scenery.

"No, don't!"

Beiluo wasteland roared angrily, but it was too late. Under the cover of this endless God's palm, the frozen void disintegrated like ice, and the people trapped in it got rid of their difficulties one by one, and their eyes radiated divine power again.

The first step after waking up, many people's eyes are locked on Beiluo wasteland. Except that Beiluo's family will have some pity, others look at it with hatred on their faces.

"Bold Beiluo wasteland, you collude with evil spirits and destroy several families. Your sins should be repaid thousands of times!"

An elder of the Dongfang family flew up in the air. With a little finger, his huge aura gathered into a towering divine sword and cut towards Beiluo wasteland.

But at this time, several other people started one after another and stopped in front of beiluohuang.

"You can't kill him now! He has taken charge of the immortal city and is integrated with the Qi and fortune here. He hasn't separated him from the origin of the immortal city. He can't get rid of it later."

Another said so.

Several elders of other families came out one after another and saw that they were safe and sound. The people in the immortal city immediately cheered.
