

Physician 7141

Chapter 7141

In this way, their family can get rid of the fate of having no top power.

And it can also get rid of the brutal rule of Beiluo wilderness.

The leaders of the big families looked at each other, and then came to Ye Chen.

"I really want to thank you this time! I don't know my little brother's last name. I always feel familiar with the power of Kendo you radiate."

The leader of the Simon family was a middle-aged man with long hair. He asked immediately.

"Ye Chen."

When they saw the name, they thought a little. Soon someone pinched his fingers and turned pale.

"Are you the legendary Lord of reincarnation?"

This time, before they could react, the consul of the immortal city was surprised.

Ye Chen didn't say much. It was a default.

And this time, the whole immortal city is boiling!

Ye Chen is even a little strange. Is his identity so surprising?

"Lord of reincarnation! You have finally come here. We have been waiting for you for thousands of years!"

Ye Chen was stunned at this.

Through the explanations of these people, he learned that there has always been a legend in the immortal city.

It is said that at a certain time, the immortal city will fall into darkness and never return. At that time, they were trapped and could not save themselves.

Only when one person comes, can the immortal city get out of trouble and regain its light.

That man is the Lord of reincarnation!

Of course, people of several families know the weight of this prophecy, which was left by the golden high priest 100000 years ago!

After the high priest left this prophecy, it drifted like the west wind and fell.

After waiting for so many years, they finally came the Savior!

Let alone use the altar array, even if they want to give up the whole immortal city, they will consider doing it!

Ye Chen was strange in his heart, but he could be relieved after thinking about it.

After all, the Lord of reincarnation, after many, the memory he received is not complete, and there are many deficiencies.

Perhaps such prophecy is what he has experienced, but he has not received this part of memory inheritance.

Then ye Chen followed them to the altar array. The evil spirits in the void were countered by several families. At this time, they were unable to move. They were pressed into the flame dungeon of the immortal city together with beiluohuang.

The altar array is just above the fire dungeon, and a steady stream of heaven and earth forces emerge to support its operation.

Ye Chen told them his thoughts and wanted to send the army to the old alliance.

Hearing this, the leaders of several families in the immortal city looked at each other and frowned.

Of course, they know the danger. The evil ancestor Wutian is not so easy to deal with.

And since ancient times, no one has dared to make such a bold move.

"Lord of reincarnation, it's not that we don't want to help you, but that we have never tried such a distance transmission... There is a very powerful taboo door outside the old alliance! I'm afraid we can't urge it with our strength."

"Unless we can find a top power in the world to control the underground flame and set the transmission destination with his power."

After ye Chen understood the principle of transmission, he nodded and immediately crushed a thousand paper cranes with magical power.

He sent the location and information to Ren extraordinary!

Only letting Ren Feifan manipulate the altar array will not be stained with the cause and effect of the immortal city.

In the caverns many miles away, Ren Feifan opened his eyes, in which the sun, moon and stars kept flowing.

"Good... I can finish it alone."

Ren Feifan smiled and then used the power of the giant whale tree to forcibly tear open a space crack.

The void is turbulent and roaring. A blue whale runs into it and goes down the water. Ren extraordinary steps on the back of the whale, natural and unrestrained.

Before long, there were ripples in the space near the altar array, which had never happened before, and shocked the top leaders of several families.

Then the void tore open, and a figure in white appeared impressively. He existed between heaven and earth, and seemed to be independent.

Free and easy, free and easy.

"Is this the transmission array?"

Ren Feifan came to the bronze array and looked at it carefully.

At the speed of his moment, basically no one can catch the trace.

The heads of several families became very serious. In front of such strong people, they had completely exceeded the scope of their cognition.

"May I ask your excellency?"

A leader asked cautiously.

"Ren extraordinary."

Ren extraordinary simply reported his name without using any prefix.

Those three words represent everything.

But as soon as the name came out, the whole world seemed to tremble. Wind, rain and lightning gathered. The spiritual power contained in the immortal city produced a trace of waves.

When they heard the name, they thought a little, and soon their faces changed greatly!

Ren family's destiny, Ren extraordinary!

At that time, it was the future star shining incomparably in the whole world. Now it has grown to such an appalling level.

The leaders of several families secretly determined to help Ye Chen get things done this time and make a good impression in front of Ren extraordinary.

"Elder Ren, can this altar array still work?" Ye Chen asked.

Chapter 7142

Ren Feifei nodded: "yes, I will help you set up the power transmission and destination of this array, and stay next to this array. If there is no movement from the devil, I will stop it."

"Good!"

Ye Chen's figure disappeared in place. He went to inform those forces one by one. Now he can start!

Before long, the space ripple vibrated again.

After the release of the prohibition of the immortal city, a large number of people poured in.

Leading the way are the people of the three ancient nationalities. They are already in the dark forbidden sea and don't deal with the old alliance. This time, they sent a number of good players to take the lead.

Then came the forces under the Lord of judgment, covering the major families in the inner earth.

Mo family and Lin family are also among them.

There are many independent and powerful people, such as the Golden Lion and the broken knife. In the first World War of geocentric region, Hong Tianjing wanted to destroy the whole interface. It was Ye Chen who shot in time and defeated it to avoid the biggest loss.

At the same time, ye Chen also saved their lives. Now the benefactor has a request. Naturally, he will go through fire and water and die.

On the other side of heaven and man, Xiao shuihan and the eternal holy king also have a strong appeal. As long as they speak, countless forces will flock to them.

In addition, there is a huge sea beast, rolling up thousands of heavy waves, in which countless shrimps and crabs will roar.

In the middle of the huge wave, there is a throne, wearing green clothes, on which the quiet and beautiful Zhang tingling sits.

As long as she waved her jade hand, all kinds of sea warriors waved weapons and were willing to sacrifice their lives for Lord Haidi!

From the void, several huge tusks tore the ban and came here.

The leader is Xiao Huang, who has changed into a combat form. He grins at Ye Chen.

Nightmare beast, come!

The strong people from all sides made several families sweat.

So powerful! Almost all the active forces in the inner earth, heaven and man and the dark forbidden sea converge here.

"What kind of person can make up such a lineup?"

"I don't know. I'm glad we didn't bully others after we were saved. Otherwise, I'm afraid we were the one who was bullied."

People from other families nodded in agreement.

Ye Chen stood in the sky with his hands behind him, looking at the forces pouring in everywhere. His eyes were quite complicated.

"Everyone, thank you for coming to help me today. I've written down this kindness!"

Ye Chen hugged his fist heavily and said in a loud voice.

There was a warm response immediately.

"Lord of reincarnation! We don't need to be so polite. If you have any requirements, just say that we will go through fire and water!"

"Yes! If you hadn't helped me, I'm afraid our sect would have been destroyed!"

This is what several people in the core of the earth say.

The golden lion is shining all over. His mind is very simple. Whoever treats him well and saves him will repay him!

The master of broken knife was even more straightforward and asked Ye Chen to kill them directly.

Ren extraordinary lost his hands behind him and looked at the scene lightly. His eyes were full of joy.

The boy who asked him for help had grown up to such a point!

"OK! Everyone, your task is to help me stop the people of the old alliance. Once the Zhetian demon emperor is rescued successfully, you will retreat immediately. Remember, life first! This time, I don't want to have too many casualties!"

Ye Chen looked at them and said seriously.

Everyone waved flags and shouted.

He turned his head and nodded to extraordinary.

The latter immediately wielded a trace of spiritual power and completely opened the altar array.

That space channel was built long ago and directly connected to the general forum of the old alliance!

"Kill!"

Ye Chen whispered. He urged the reincarnation blood in his body, burning and boiling, and summoned three heavenly swords at the same time.

The blood light emerged and rushed into the sky, while the virtual shadow of the blood dragon was entrenched between heaven and earth, with cold pupils and momentum like a rainbow.

Disaster gas and evil gas mixed together and turned into a space storm, almost covering up the world.

Ye Chen's strength today is not what it used to be. He just wants to cheer up those people below.

The most important thing in a war between the two sides is "potential". Once the momentum rises, it can form a potential of maneuvering and sweeping thousands of troops.

Three heavenly swords poured out together, opening the way in front, followed by Ye Chen. He gathered a huge fight to defeat the Buddha Dharma, clapped it with one hand, and the whole space was shocked.

As soon as this shock came out, it immediately penetrated the barriers of space and reached the old alliance!

.....

At this moment, many people gathered at the general forum of the old League.

Troops are arrayed and heavily guarded.

Above the high platform, there is an altar.

The puppet was sitting on it and was tied by dozens of dark chains.

The demon emperor was bound, leaving only two eyes outside.

The dark substance changed into viscous armor, which surrounded the demon emperor.

The strongmen of the old alliance were ordered to take care of it, because soon, the demon ancestor Wutian will leave the pass and seize it again!

This time, we will never allow the mistakes of the last time!

So they laid layers of defense.

However, at this time, a huge crack vortex suddenly appeared at the far end of the void, which immediately took shape.

Several soldiers were puzzled. They thought it was a vision sent out by the demon ancestor Wutian when he left the pass.

But at the next moment, the surging power came, and the blood gas filled the sky. A blood dragon with a length of ten thousand feet broke through the void and roared up to the sky.

Just the sound wave came out, the sound shook thousands of miles and continued, smashing all the old alliance strongmen along the way.

The rest of the guards were shocked! What the hell is this? So strong!

After the blood dragon, disaster gas and evil gas swept out from left to right, almost swallowing the world.

Tens of thousands of strong members of the old alliance were scattered and torn apart by the storm.

One of the sixteen devil generals guarding the border wasteland, the crazy wind devil general was also terrified at this time. Before such attacks came, he had no omen at all.

"Come on, it's too late. Set up an array and stop it!"

The wind devil will roar loudly. He immediately put his hands together, and the void storm around him surged. With his arms torn apart, a violent killing storm with a height of 10000 meters suddenly took shape.

"Kill!"

The wind devil will lean forward, like a general ordering thousands of troops. The hurricane wrapped in yellow sand and dust rushes forward, vast and mighty. There is no grass and everything is broken!

In the face of such violent attacks, the blood dragon silk was not afraid. There was towering blood in the huge dragon eyes, like heaven and earth, shining on the earth.

Chapter 7143

The huge body of the blood dragon withstood the space storm, and they kept pestering, roaring and roaring.

At this time, under the waves of space, countless strong people were killed out of the wide channel.

There are people, beasts, and the supreme gods. Shrimp soldiers and crab generals will follow. All kinds of invaders make the strong men of the old alliance confused on the spot.

"This... How is this..."

Some people were engulfed by the endless tide before they finished speaking.

Other demons will react quickly and lead people to fill the gap and resist the attack of the army!

Sixteen demon generals, there are five here at this time. They lead their subordinates to guard the five sides.

In addition to the four magic generals of wind, rain and lightning, purple dragon magic generals are also among them.

"What's going on, gale? What's wrong with the void you keep?"

The storm devil could not help shouting angrily. His defense line was overwhelmed and would soon be submerged by those shrimps and crabs.

"You ask me, who am I going to ask?"

The wind demon general was also very angry at this time.

The boundary where he was stationed was broken by endless blood dragons and suffered huge losses.

He hasn't reasoned about it yet!

The two magic generals were about to quarrel, but they were stopped by the purple dragon magic generals.

"All right, shut up!"

The purple dragon devil will roar in a low voice, and the other demons won't dare to speak.

The purple dragon magic general is the second of the sixteen magic generals. His strength is very strong. With his own strength, he can deal with the joint action of the four magic generals of wind, rain and lightning.

"Lord of reincarnation... Sure enough, he came. As his majesty Mozu expected, he even brought reinforcements."

The purple dragon devil looked at that piece and swept half of the battlefield of the old alliance, and a strange smile came up at the corners of his mouth.

"Although I didn't expect this, so what? No matter how powerful the army is, it can't kill your majesty!"

"You guard the battlefield in all directions. They will arrive soon. Let me meet the reincarnation Lord for a while!"

With that, the purple dragon devil will rise into the sky, and a low dragon roar came from the depths of the far sky.

A purple dragon that occupies half the sky rises in the air. It is the purple dragon demon general.

The breeze is cool, the golden light is sparkling, and the whole body is filled with purple. It is incomparably strong.

Purple represents nobility and elegance.

The purple dragon demon general is a noble among many dragon families. He is born a strong man. When he reaches the peak of cultivation, he can shake the stars at will.

As soon as he shook his tail, many coalition forces nearby screamed, and then the flesh and blood burst into pieces.

It's the strongman of the purple dragon family!

On the Allied side, the feeling of the golden lion is very strong, and his body is also flowing with noble golden blood.

Therefore, the golden lion is very resistant to the existence of such blood.

It opened its fangs and growled in a low voice.

The whole body's golden light turned into a fighting spirit and aimed at the purple dragon demon general.

"Don't go, you're not his opponent."

A trill of samsara whispered in the golden lion's ear, which made him stunned.

The speaker is Ye Chen!

He knew that the golden lion was very brave and good at fighting, and had a fearless heart and dared to challenge all his opponents.

But not any opponent, it can fight.

The purple dragon demon general in front of him, even he, must be in strict readiness and dare not relax.

The huge purple dragon's eye also has a little vortex, and its whole body is radiant.

Purple scales are dreamy, intoxicating, profound and noble.

I don't know how many people marvel at the noble temperament of the purple dragon!

"Lord of reincarnation, you are not old and have great courage. Do you know where this is?"

As soon as the voice of the purple dragon devil came out, it swept the whole audience. There was a sense of dignity in it.

Ye Chen smiled faintly: "why, don't you welcome so many guests to visit here?"

As soon as these words came out, the purple dragon devil was stunned.

How can there be such a brazen man in the world when the invasion is said to be a guest.

"Well, now you're so hard spoken that you won't be able to laugh later."

The purple dragon devil drank coldly in a low voice. Suddenly, the powerful pressure fell from the sky and swept over. The Immortal Dragon Power fell like a meteorite and aimed at the place where ye Chen was, so that he could not get out of trouble.

Ye Chen's whole body was shocked, which shook away the figures of the coalition forces fighting around.

If they are infected with such Longwei, I'm afraid they will explode and disappear in an instant.

"Zilong Magic general, I heard that the first of your sixteen magic generals has never been seen. In that case, why do you want to be second? For so many years! Are you willing?"

Ye Chen's words were like a thorn, which stabbed the purple dragon demon general's heart.

But what a man he is! After countless prosperous times such as the wars of the heavens, how could ye Chen be angered by his words.

"You talk too much. You'd better die."

The purple dragon devil was expressionless. The purple scales on his whole body glittered, echoing the mighty dragon power. The whole space began to become distorted and seemed to be torn.

"It's just a purple dragon. What's arrogant! I'll crush you into a worm!"

This disdainful voice came from the blood dragon.

After he condensed his body, he had the strength to fight with the five clawed Golden Dragon.

Although the purple dragon demon in front of him is powerful, it is nothing to him!

Chapter 7144

Ye Chen smiled after listening.

His eyes narrowed slightly, and his fingers were constantly printing.

And his palm quickly condensed the five elements, eight trigrams and six samsara.

"Blood dragon, let go of the fight! Today is the time for you to become famous. The purple dragon demon general should have a good taste."

Ye Chen's move is to release the blood dragon completely from the Longyuan Heavenly Sword.

Although the blood dragon had a perfect body and soul before, if it was separated from the Longyuan Tianjian, it could not rely on the power of the Longyuan Tianjian.

So ye Chen fed back the power of Longyuan Heavenly Sword to the blood dragon and let it escape.

Just a moment later, the dragon Yuan Heavenly Sword shook violently, spinning, even blooming incomparable blood brilliance.

The powerful tearing force cracked the void, and all illusions began to distort.

A blood dragon emerged faintly, as if condensed by the spiritual power of heaven and earth. The blood dragon patterns all over the body spread from head to foot, containing the mysterious power of runes.

Above the head of the blood dragon, there is an illusory sword shadow looming.

At this moment, Longyuan Tianjian became an accessory of the blood dragon body.

Ye Chen stood not far away and looked at the scene with satisfaction.

The blood dragon has experienced several fusions, and now it has completely become the supreme existence of the dragon family.

But the world does not know the blood dragon, only the dragon Yuan Heavenly Sword.

Today, ye Chen wants to make the blood dragon famous and establish a reputation in the world of heaven.

"Hum! It's just a miscellaneous dragon with some chance. It can only be born by relying on the Heavenly Sword. I'll see how long you can hold on!"

The purple dragon devil sneered with disdain. His speed was as fast as floating light. In a twinkling, he had swept a distance of ten thousand miles to the blood dragon.

At this moment, space condenses and becomes extremely slow.

"The space magic power of the purple dragon devil is so terrible!" Ye Chen whispered.

But for him, the most afraid thing is space blockade.

"I don't know the law of space. Who is better than you?" Ye Chen sneered immediately. Although linger hasn't passed the pass, he offered a virtual monument, used the virtual spirit pulse, whispered the Dharma curse, and instantly released his space field.

The power was also transmitted to the blood dragon. In a blink, the huge blood dragon virtual shadow quickly retreated.

This made the purple dragon demon rush into the air!

"What!"

The purple dragon devil was immediately shocked.

He clearly has blocked the surrounding space, and it will take at least five seconds for the other party to get out of trouble.

Five breath time is enough for him to tear each other to pieces!

But now, the blood dragon broke away from his bondage in advance.

"Let me see what you can do."

The purple dragon demon general was immediately furious, and the blood dragon faced his rage, and the attack was not empty at all. He raised the Dragon hand and waved the sharp dragon claw to meet him.

The two dragons collided. The purple and red lights intertwined and moved like thunder!

The two sides are in a fierce battle!

But ye Chen's figure disappeared. In a few breaths, he had come near the altar.

The devil is here! He was locked up in a cage like a pig or sheep to be slaughtered.

Those chains lead to the depths of darkness. I don't know what material they are made of. They are full of strong Yin and evil Qi.

The aura of the demon emperor was greatly suppressed.

Ye Chen was surprised and angry.

This damn old League should treat his friends in such a way!

"Devil, wait, I'll save you right away!"

Ye Chen took a deep breath and used the dark abyss symbol.

Only darkness can counter darkness.

A faint smell of darkness came out like a poisonous snake and wrapped around a black chain.

At the same time, ye Chen used the power of the thorn crown. The previous thorn crown has been kept in the depths of the broken GOD Devil battlefield and used by evil spirits, so it is also contaminated with some evil breath.

But at this time, this evil breath can be used by Ye Chen and exert the greatest effect!

At this time, the mysterious dark chain was imprisoned by inexplicable forces, as if it was entangled by a snake, slowly became thinner and dissipated in the invisible.

The demon emperor who fell into endless darkness seemed to have a little reaction at this time. He slowly raised his head to see Ye Chen and his eyes surged.

He opened his mouth but couldn't say a word, because at this time, most of his strength had been drained by the dark chain.

The reason why the people of the old alliance did this was to empty out the spirit and spirit of the hidden devil emperor, so that the devil ancestor could have the next fight.

"You... You shouldn't have come..."

The demon emperor of the sky said intermittently in a weak voice.

Ye Chen stretched out a hand and pressed it on his shoulder. A steady stream of spiritual power poured in one after another to restore his physical strength.

"No, even if there is no one to help me, I will come." Ye Chen said flatly, "you are my friend and my brother. I will never give up on you. Moreover, if you really let the demon ancestor win, I'm afraid the whole heaven and the world will suffer. I'll do it in love and reason."

After the dark bondage on the demon emperor disappeared, the viscous armor condensed on him gradually dissipated, revealing his white and handsome face.

At this moment, he held Ye Chen's hand tightly and suddenly smiled.

"How can I repay you for such kindness?"

Ye Chen also smiled and said, "when you travel around the sky with Yuchi Yao, remember to collect good wine from all over the world and bring it back to me."

"Well, that's a deal."

Chapter 7145

"It's a deal."

They looked at each other and smiled. Everything was silent!

A moment later, the demon emperor recovered his strength. At the moment, pure reincarnation blood was surging in his body. Although there was only one short promotion, it was enough for him to recover!

Their eyes flashed and their faces were suddenly cold.

The next moment is when they kill!

Ye Chen directly used eight Fu Tu Qi, which is also one of his most handy means.

The great power of heaven and earth contained in the Buddha light and the light of the supreme right path have a strong deterrent to these evil practitioners in the old times!

Therefore, wherever he went, all the defenses and arrays collapsed like destruction!

The last time, in order to protect Ye Chen and others from escaping, the demon emperor of Zhetian detonated his treasure: the seven evil spirits ten thousand magic pot.

But in the silence, he understood some original spells, and his strength became stronger than ever.

With a clap of the palm, ten thousand magic lights fell down. Each one was like a towering mountain, which directly suppressed the strong of the old alliance!

"Take this!"

Ye Chen temporarily erased the mark belonging to him on the wild demon sky sword, and poured a powerful reincarnation force into it.

Then he threw it to the demon emperor.

Logically speaking, once the eight heavenly swords recognize the Lord, they cannot be easily replaced.

But for ye Chen, it's no big deal!

As long as he is willing, he can give the wild devil Heavenly Sword to the emperor of Zhetian devil.

The demon emperor of Zhetian took the Heavenly Sword and immediately felt a vast magic Qi.

Immediately surprised and sighed.

These eight heavenly swords are indeed the most powerful Kendo in the world! With a touch, you can feel the infinite energy contained in it.

With this wild devil sky sword, the emperor of Zhetian devil immediately increased his confidence. He gathered his strength and waved a sword, which set off a frenzy like chopping waves.

The two of them worked together to strike a sword. Even the two demons could not resist the storm. Their faces changed greatly and they fled to the outside!

In the distance, the purple dragon demon general, who was still fighting with the blood dragon, saw this scene and his eyes kept flashing.

If you don't crush the blood dragon, the impact of the current situation will only be worse.

The purple dragon devil will no longer hesitate and increase the strength of the attack, but the blood dragon is very smart. He has no plan to fight for life and death with him, but wants to waste time.

He goes in, the blood dragon goes back, he goes back, the blood dragon goes in! But the purple dragon demon will have no way to take the blood dragon again.

The other party's blood, magic power and prestige are almost the same as him.

Even better at killing.

"Dragon Storm divine light!"

The purple dragon demon finally couldn't help it. At this time, the old alliance has completely fallen into the disadvantage. If it is entangled again, I'm afraid the devil emperor will really be taken away.

The evil ancestor Wutian is still closed at this time and cannot intervene.

After they leave the pass, I'm afraid they will be very angry if they know the news. Maybe they will be angry.

He doesn't want to accept the boundless punishment of the demon ancestor. The taste of purgatory is too hard.

The scales on his whole body trembled sharply, emitting endless purple thunder light, connected with the earth that day, killing time, and the whole world trembled!

The purple thunder is a thunderstorm star born in the universe. Countless years ago, in ancient times, the prosperous dragon family refined the thunder power of extraterritorial cosmic stars.

Finally, the purple dragon family inherited such magic!

Although the current dragon clan is no longer in its heyday, it will be old and the trapped animals are still fighting. Moreover, he is stationed in the old League as the second of the 16 magic generals, which can be described as an absolute high-level.

The prestige of the second devil general! How can an unknown blood dragon be destroyed!

The purple dragon devil turned his eyes extremely resentful. His whole dragon body stood up, and the endless thunderstorm took shape in front of him!

"Go to hell!"

The purple dragon devil roared with a fierce momentum.

Like the sound of thunder, it frightens all directions.

In the face of such a monstrous attack, even the blood dragon played with its tail and drove the blood gas to the extreme.

As a dragon, although he ascended to the top of his blood, the purple dragon demon will have the inheritance of the purple dragon, which is not weak.

He had to deal with such a thorough attack with twelve points of spirit.

At this time, ye Chen's voice sounded in the blood dragon's ear.

"Blood dragon, the power of the crown of thorns is under your control! Defeat this guy. If you can absorb the power of his blood, it will be of great benefit to your cultivation growth."

Ye Chen's words shocked the blood dragon immediately.

He felt that a third longan grew on his forehead, and his blood gas rose spontaneously. There was no force in the world to stop it!

"Such a breath... Is what I want!"

The blood dragon closed his eyes and took a deep breath. The continuous thorn blood force entered his body, which made the bright red dragon scale deep.

At this moment, his fighting spirit seemed to be transmitted to the whole sky, and the bloody sky became very dim.

The thunderstorm all over the sky seems to have changed a little, and it becomes very scared at this time.

Yes, the purple dragon demon will feel fear from it!

He didn't think that the magic power inherited from the ancient times would have the meaning of fear at this time.

"What kind of magic power do you use? Tell me quickly!"

The purple dragon demon will become very frightened.

He has never seen such a soul stirring momentum among all kinds of dragon magic powers and treasures.

The blood dragon smiled coldly: "who are you? Why should I tell you!"

With that, I only heard a loud noise from the sky!

That touch of war swept away, accompanied by a thick blood, pressing people out of breath.

Many people were surprised and looked back one after another. They saw that the blood dragon had occupied the absolute upper hand in the depths of the clouds, and the purple dragon demon was a little alarmed!

Blood gas collided with thunder light, like a mushroom cloud rising and bursting in the crack of the cloud, many people were involved.

Some people who were fighting immediately retreated in horror and gushed out the magic power of defense. In a moment, the colorful light of the whole battlefield rose.

"What the hell is that? It's terrible!"

The people of the old League were panting and looked uncertain immediately.

That kind of power can hardly be sent out by man!

The purple dragon demon will also fall rapidly under such impact, and the noble purple Qi surrounding the body will dissipate with it.

His dragon body was seriously injured. The dragon claw on the right suddenly broke and blood flowed. The Dragon scales on his body turned up, which can be said to be broken in half, and then photographed back, which made him miserable.

The boundless wasteland was splashed with smoke and dust, and the huge dragon body like a mountain fell heavily here, breaking open the terrible rift valley.

Chapter 7146

In a short moment, the outcome has been decided.

Most people didn't expect that the fierce devil general who ranked second under the magic ancestor Wutian was defeated in such a miserable way!

The blood dragon had no such qualification at all, but the bonus of the thorn crown was too terrible.

Ye Chen's realm limit made him unable to give full play to most of the power of the thorn crown, but the state of the blood dragon is different at the moment. Of course, this also has some influence on the origin of the thorn crown.

At the moment, the four demons of wind, rain and lightning are also losing ground under the siege of other strong forces, and the defense circle is getting smaller and smaller.

"Retreat!"

Ye Chen rescued the demon emperor, and immediately stopped fighting. He took him to the exit of the general altar of the old alliance.

At this time, the space barrier thousands of miles away suddenly became dark, and a huge long gun stood between heaven and earth.

He walked out of a huge figure like Kuafu, with blue sky on his head, feet on the wasteland, eyes like thunder pools and waist like mountains.

This person is the top five ancient longicorn among the sixteen magic generals.

When he came back at this time, he saw that someone was provoking the majesty of the old alliance. He was so angry that he immediately roared. The storm shot out and splashed a ground hurricane.

The strongmen of the three ancient tribes were there, and many people were immediately torn to pieces by the violent hurricane.

Seeing this, Luoxi elder of Luosheng ancient family was not happy. He waved his sleeve robe and the dark and mysterious bells brought from Luosheng Island stood between heaven and earth.

"Who wants to kill me? I'm afraid it's not that simple!"

Elder Luoxi is the highest combat power of the Luosheng family on this trip.

His heart is very grateful to Ye Chen, because it was Ye Chen who realized the last change of the star change and told him the secret that he was able to unlock the demons that had remained in his heart for thousands of years.

After solving this evil, Luo Xi finally broke through himself. After years of accumulation, his strength was greatly improved and he became the top three expert of luoshenggu family.

Now, he can confront the masters of the sixteen demons.

"I think you're looking for death!" the archaic longicorn was so angry that it opened its mouth and spit out the hot flame, which directly burned this half of the sky, and thick black smoke billowed out and filled most of the sky.

But rosis was not afraid. Instead, she went straight up and urged the power of the stars to the extreme.

This star change is one of the most powerful forbidden magic powers in the world! It can change into ten thousand stars, which is very terrible.

It was with this move that ye Chen defeated Xi Xuantian at the height of the sun!

When the two strong men fought, the void storm took shape, and behind it, more and more old League strong men came back.

Those monsters are taller and more terrible!

Ye Chen and Zha Tianmo emperor and others covered the retreat of the big army.

Facing the pursuer, ye Chen immediately looked cold. Two small swords flew out of his pupils and directly disappeared into their team.

Those two little swords shuttle quickly, pointing to the sky and integrating with this heaven and earth!

In the distant sky, the demons felt the great threat, changed their looks and retreated immediately.

The flying sword expanded into two shining magic knives.

When the two magic knives appeared, several magic generals who came from a distance felt the great threat, changed their looks and hurried back.

Because there is a strong old breath on the magic knife.

They are very familiar with this, because ye Chen's skill is not another treasure, but the Jiuyou emperor Sutra, mixed with the domineering magic power of the magic knife, which is completely destroyed!

At first, ye Chen got the inheritance of tianwu immortal sect in the hunting battlefield. Others thought he was the star of hope for the future of the old alliance.

But I didn't expect that the once star of hope was the Lord of the reincarnation of the old enemy!

Not only that, the once star of hope even defected and led the army to attack the old alliance.

For many years, no force in the heaven and the world had the courage to attack the old alliance and provoke the boundless majesty of the demon ancestor. However, the Lord of reincarnation did it and did it very resolutely.

"This damned reincarnation Lord... He has done all things by himself. If he runs away today, it will be a disgrace that my old alliance can't wash away!"

The black wheel Dharma King clenched his teeth. For the first time, a strong sense of anger appeared in his eyes, which had always been indifferent as water.

However, he still dared not accept the two magic knives, because the Jiuyou emperor sutra was a powerful skill of the tianwu immortal sect in the old times. It has been handed down since then. After years of precipitation, its power has become more and more powerful.

"The damned Lord of reincarnation wants to trap us with the old breath so that they can escape. He must not succeed."

The cracked demon with a double handled sledgehammer said angrily.

The other devil, Tianqing fox, put up the sound wave of the jade Pipa and shot out to fight against the Jiuyou magic knife.

However, the skills they practiced belonged to the ancient methods handed down from the old times.

Jiuyou emperor's Sutra has fundamentally suppressed them!

Even so, these two magic knives can't last too long. After all, the strength of the magic generals is not covered.

"Hurry up! If they break through the blockade, I'm afraid it's too late."

Ye Chen's reincarnation heavenly eye, through the barrier formed by the two magic knives, saw the continuous flow of the old Alliance Army in the rear, and shrunk fiercely.

Chapter 7147

Behind that, there is an extremely magnificent and vast force!

If those demons rush over, I'm afraid the Alliance Army led by him will immediately become fragmented, surrounded one by one and fall into trouble.

"Be careful. The army led by those magic generals has the legacy of the old times. Once they are released from the cage, the consequences will be unimaginable."

Ye Chen conveyed this idea, because he could feel that among the towering flames, only the ferocious monsters belonging to the old times were ready to go.

The monstrous flame, rolling up suddenly, is extremely terrible!

Those things are hard to deal with!

Even he has a headache in the face of these old relics.

The so-called legacy of the past is a monster with fragments of the past in its body. It is a violent demon species that comes out of the same vein with the ancient wilderness.

These old relics have no reason or consciousness. Killing and swallowing have become their instinct.

"I felt the extremely violent idea of killing..."

The golden lion's golden eyes stared straight into the distance and said in a deep voice.

As one of the remaining species, it is naturally very sensitive to the ideas of similar monsters.

"No! It seems that those guys can't suppress their killing thoughts."

The Golden Lion took the lead in perceiving the abnormality. It was shocked and its golden pupils expanded rapidly!

On the other side of the magic knife, those old seeds were released. Their bodies were stronger and stronger than the stars, hitting the barrier with immortal bodies.

The whole space became shaking, as if it would crash the next moment.

Jiuyou magic knife has become shaky and will collapse at any time.

On this side of the void channel, ye Chen pushed the demon emperor in.

"Go, or their death will be meaningless!"

Ye Chen saw that the demon emperor still hesitated, and immediately roared.

On that side, the old legacy seed has almost broken through the blockade of Jiuyou emperor Jing. Ye Chen is not sure whether he can take over the attack of these fierce beasts.

If the demon emperor is trapped here and can't go back, their previous efforts will be wasted.

"Good!"

The devil emperor was not a fool. Naturally, he also understood the interests. He bit his teeth and crossed the void channel.

But just as he entered the void passage.

A mighty breath suddenly fell from the sky, just like the afterglow of the sunset filling the space between heaven and earth. Suddenly, the wind roared and thunder surged.

The sky was shaken and roared.

In this wasteland, Rift Valley appeared everywhere, thousands of miles across, and countless wild animals were frightened and fled one after another.

Behind the sunset, there is endless darkness, covering the sky and blocking out the sun.

"What's going on?"

Someone immediately asked a question in a somewhat suspicious tone.

And ye Chen suddenly looked up and looked at the far sky.

There was no darkness, but a big hand controlled the endless magic Qi to crush down.

"Don't look up, or your spirits will be sucked away!"

Ye Chen hurried out a voice to remind.

Above the sky and deep in the sky, a ferocious face emerged, like the Shura in the devil of hell, with green face and tusks, eyes like copper bells and teeth like sharp thorns.

The ghost face seems to have a strange magic, which can firmly attract people's eyes, and during this period, the spirit is also sucked away, and he himself has become a ghost free body, confused and walking corpse.

In the Alliance Army, a small number of people stared at the ghost face for a moment. Soon, the spirit was pulled away by invisible forces.

Ye Chen summoned the returning wild devil Heavenly Sword and cut it with a sword. The surging devil gas rushed out, but he could not break the blockade of the void by the black gas emitted by the ghost face.

The demon emperor was in the void, facing the barrier like a mountain in front of him, and looked dignified.

This is the move of the devil Zu Wutian, which directly blocked the passage of the void and prevented the devil emperor from escaping.

With their strength, I'm afraid they can't break this barrier in a short time.

When ye Chen frowned and thought, there was a long roaring sound in the depths of the void.

At this moment, the violent void torrent seemed to see some very terrible existence, which scattered one after another and gave way to a wide waterway.

The light blue light shines on the whole void!

A behemoth came down from a distance and approached quickly.

It was a pale blue whale, tumbling in the water and splashing with waves.

Under the impact of this giant whale, the black magic gas that cut off the whole void was also broken, just like a mirror and water moon!

When ye Chen saw this scene, he immediately looked shocked.

Ren Feifan is coming!

The phantom of the giant whale transformed by the giant whale divine tree has a vast and sacred breath. Just waving its tail and slapping a spray, it has surpassed all the old relics.

This whale is the absolute king in front of them!

After feeling the suppression of blood breath, those old seeds showed their fear for the first time.

Their fierce and cruel bloodthirsty eyes became flustered. Looking left and right, their huge bodies retreated one after another and dared not move closer.

Taking advantage of this opportunity, ye Chen took the time to repair the magic knife condensed by the nine you emperor.

The faltering, nearly broken magic knife glowed again.

But it is no longer the protagonist.

The real protagonist is the ghost face in the depths of the sky and the giant whale swimming in the void.

"Ren Feifan, you have broken my plan again and again. Do you really think I dare not do it to you?"

The sound of the devil's wrath, like thunder, came to the earth.

Even if he is in the underground cultivation cave and can't get out of the pass in time, the pressure of separation is not covered! Almost rolled the whole audience.

The whale's eyes are very clear.

Ren extraordinary noumenon didn't come over, but separated a wisp of spirit and attached it to the giant whale.

"The devil has no heaven. You are a man of the old times, but now you have to forcibly change the container and cast a new body. Aren't you afraid of the wrath of the heaven? When 99 thunder disasters come, you will die without a burial place."

Ren Feifan said faintly.

But the demon ancestor has no heaven, but he doesn't care about it.

"I don't need you to worry about my business. You'd better start to consider the battle of fate with Ren tiannv!"

The voice of demon Zu Wutian was colder.

The two top powers no longer have the mood swings of ordinary people.

Only by touching the thing they care about most in their hearts can they shake it.

Just a few words, the dialogue between the two has turned into a killing opportunity and launched a fierce confrontation. On the plain of Pingchuan, the momentum of Jidao poured out and cut all the mountains, forests and rivers in half!

Chapter 7148

The world's top power is so terrible. Just a few words can trigger such a magnificent vision.

The two of them fought here, and the demon emperor was stunned for a moment. Under the urging of Ye Chen's eyes, he bit his teeth and immediately left the land.

After the devil emperor left, ye Chen was completely relieved.

Now there are no worries. You can let go of the fight!

"Bold!"

The magic ancestor's eyes changed instantly.

He could only watch his container being turned away.

But as a former Emperor and absolute king, he doesn't allow this kind of thing to happen in front of him!

"Nine Youtian devil's palm!"

The demon ancestor wudian summoned a dark and powerful God's palm, which came from the far sky with the majesty of the heavens, like the demon emperor of the world, unstoppable!

The Jiuyou power he controls can be said to be vast and boundless, which is unique from ancient times to today!

Endless silence and evil spirit burst out, covering all the empty areas, and even into the depths of space, trying to stop the demon emperor.

But how can Ren extraordinary let him succeed?

The mysterious whale jumped up and separated thousands of illusory lightsabers!

Those lightsabers are the invincible sword idea separated by Ren extraordinary, which almost runs through the whole wasteland.

Even in the face of Jiuyou evil Qi, I am not afraid at all!

At the time of the stalemate between the two strong men, ye Chen bit the blood at the tip of his tongue and transmitted it to the devil emperor.

"Right now!"

Ye Chen shouted in a deep voice.

His reincarnation blood burst out in an instant, enough to destroy all the void prohibitions.

Like a meteor, the lightsaber soared all over the sky.

The evil ancestor Wutian was once the second leader of tianwu immortal sect. In terms of strength and status, he was second only to the old master.

The method he used is naturally the supreme martial art of the old times.

The two collide with each other, making the whole world change color.

It was at this time that the demon emperor covered the sky used Ye Chen's reincarnation blood to cross the void and break all taboos.

The rumbling sound was heard all the time.

Ye Chenchang breathed a sigh of relief when he saw that the demon emperor had successfully escaped.

His blood had an effect, and it was naturally him who was eaten back. At this time, he had been turbulent in the void, cut several wounds, and bones could be seen in the serious parts.

As soon as ye Chen waved his hand, the healing power of the gossip pill stove slowly covered his wound.

As a result, the flesh and blood gradually recovers and is full of luster.

Deep in the sky, Wutian, the devil ancestor, had sensed that the devil emperor covering the sky had fled here, and was immediately angry.

When the devil was angry, even the general altar of the old alliance was shaking!

"Take people away quickly! I've only divided a spiritual thought, which can't last long. If the demon ancestor doesn't show his real body, this spiritual thought can't protect you!"

Ren extraordinary made a sound to remind him that the fragments of divine patterns in his body suddenly burst out and turned into a light mask to protect Ye Chen and others.

"The evil ancestor has no heaven. Don't be stubborn. The old times shouldn't exist. Even if it is not replaced by wanxu, there will be other forces to replace it!"

Ren extraordinary's words were like the sky. The thunder sounded through the sky. They were very ruthless and hurt many people's hearts.

But these old alliance strongmen could not refute them. Some of them, as the last fighters of the old era, although they did not return to their glory, they still retained hope.

Where does hope come from? No one knows.

The old alliance seemed to dominate the dark forbidden sea. In fact, it was just curled up in a small place in the world of heaven.

Compared with the wanxu temple that rules the world, it is more than eighteen thousand miles away.

This statement annoyed many people in the old League.

It is at this time that the towering waves brought by the giant whale tree have taken away part of the alliance.

But there are still some who have been killed by several demons, which has caused irreparable losses.

When the huge waves receded, the general forum of the old alliance returned to calm.

There were casualties on both sides. In addition to the rescue of the demon emperor, many Alliance troops were permanently left here.

Several generals led the subordinates of the old alliance to search for weapons and treasures on those people.

The loss is irreparable and can only be made up by seizing some booty.

In a practical sense, the old alliance lost the war.

Lost in Ye Chen's raid, lost in the absence of heaven, lost in Ren extraordinary intervention, but also lost in a unique reincarnation potential.

The indomitable momentum is like Ye Chen's Wuzu Taoist heart and Lingxiao Wuyi.

In the void, the black fog filled the air, and the devil Zu wudian's separation was still in it. He stood in place for a long time.

Other subordinates of the old alliance dare not move, for fear of being angry by the demon ancestor.

But a moment later, the dark shadow of the void left by the devil Zu Wutian gradually dispersed, and the people present were finally relieved.

In the underground cave tens of thousands of miles away, the real body of demon Zu wudian is in the extremely cold ice. The ice that will not melt for thousands of years provides a trace of cold for it.

Wutian's eyes slowly opened, and the flowers of frost flowed endlessly. They were magnificent and captured people's hearts and souls.

"Zha Tian Mo Di, do you really think you can escape my palm? It's impossible!"

Devil Zu Wu Tian sneered.

There was a shadow in the dark and came slowly.

Looking carefully, it turned out to be the appearance of the devil ancestor, and the shadow had no vitality at this time. There was a black pure bead on his head.

Chapter 7149

Devil Zu wudian picked up the bead and swallowed it slowly. His smell of withered MI was restored to its peak for a time.

When the magic ancestor wudian absorbed the power of the bead, he opened his eyes again.

"This thing is a kind of soul refined by the emperor. After thousands of hardships, it succeeded in two."

"This kind of soul is a twin soul, and the other one has been planted in the body of the demon emperor. Hehe, do you think you can escape this time? You will eventually become a turtle in my urn!"

Magic Zu Wutian's palm was slowly pinched, and his eyes were cold.

How can he exist as an overlord without a backhand?

He had long known that ye Chen would come to save people, and at that time, the old alliance would be difficult to resist.

With the Lord of reincarnation's adverse luck, the demon emperor covering the sky will be saved.

Seizing and giving up will also be destroyed.

Since the general trend cannot be changed, why not follow the trend?

Wutian has never been a brainless existence. His careful mind is one of the reasons why he survived in the old times and became the top five in the world.

.....

meanwhile.

Under the sky countless miles away, there is an illusory black hole, which opens slowly and props up automatically, forming a vortex!

An illusory and powerful whale dashed out in a huge wave, followed by an Alliance Army. When it came out, it seemed a little embarrassed.

But fortunately, they picked up a life.

"How dare we escape from the old alliance? That's the boundless base camp of the demon ancestor! It's incredible!"

"Ha ha, I can boast about it all my life. Even my children and grandchildren will be proud of it!"

"Don't be happy too early. We may not be able to escape unless there is a mysterious strong man at last."

"What you said is true, but who is the mysterious strong man?"

Once this sentence was said, it ignited the doubts in everyone's heart.

Some of them do not know the existence of Ren extraordinary, so they will doubt it.

Of course, the people of the three ancient tribes know very well. Look at me and I look at you. They are all silent.

Finally, an elder of luoshenggu family couldn't stand such noise and told Ren extraordinary's identity.

When the words "Ren extraordinary" and "Ren family destiny" echoed on their heads, the whole league team became silent.

Silence, very silence, silence like death.

They know very well what it means for strong people like Ren Feifan to help! That is the supreme existence in the world. Its strength is second only to the ancient emperor Yu Huang and the demon ancestor Wutian.

It was such a strong man who rescued them from the enemy's hinterland.

At the front of the team, ye Chen, Ji Siqing, and Zha Tianmo emperor came to Ren extraordinary.

The demon emperor of zhetien took the lead in bowing his hands and boxing and making a big gift.

This time, if Ren extraordinary didn't make a move, I'm afraid he couldn't get out of the control of the devil ancestor and the old alliance!

"Ren extraordinary! Thank you for your help!"

In a sense, the devil emperor and Ren Feifan are people of the same era, so they don't need to be commensurate with their predecessors and descendants.

Ren Feifan smiled and said you're welcome.

But they all understand that if there were no Ye Chen, Ren Feifan would never help.

"Brother devil, you're back!"

Yuchi Yao is wearing a pale white elegant skirt with a flower like smile.

She was very happy when the demon emperor was out of trouble.

So he rushed over immediately and embraced the devil emperor warmly. They hugged each other tightly and didn't want to separate for a moment!

When ye Chen saw this scene, he was finally relieved.

The demon emperor who covered the sky was finally out of the control of the devil ancestor Wutian and completely free.

Next, ye Chen thanked the forces of all parties.

And promised the promise of reincarnation. If he reaches the top of the six reincarnations in the future, he will give back a hundred times.

Of course, these people know what reincarnation means, so they are very happy.

Moreover, ye Chen gave them treasures and cultivation powers. This action has yielded a lot!

These people retreated one after another and returned to their respective sects through the array.

Ye Chen and Ren extraordinary and others also plan to return to Beimang ancestral land.

But at this time, ye Chen suddenly noticed a burst of nothingness and suppressed it.

And this burst of breath gushed out from the invisible, and then, like a pillar of smoke, rushed into the sky.

The magic spirit is swirling, the bones are thick, and the laws of the universe emerge, which shocked all the people present.

Immediately, ye Chen roared, his hands were sealed, and the divine light twinkled in his pupils.

"Array word formula: five thunder Zhenxiao!"

Ye Chen used the method of array word formula to summon a strong thunder in the blink of an eye. He almost fell backwards from the void and landed in the array.

And the source of this evil Qi is the devil emperor covering the sky.

"Not good."

When ye Chen saw this scene, his face suddenly changed. He also felt great pressure, and the endless thunder burst.

The five thunder heavenly array encircles the demon emperor covering the sky in the middle.

However, the billowing black gas did not dissipate, but spread, as if it were carrying out some kind of provocation.

The eyes of the demon emperor have turned dark and become devoid of any emotional color.

It's like a puppet being manipulated!

"This... What the hell is going on?"

Yuchi Yao panicked when she saw this. She was almost bounced away in the blink of an eye. For a moment, she didn't know what to do.

Chapter 7150

And Ren Feifan was aware of it at the moment before the black gas appeared.

However, he did not hurry to start, but narrowed his eyes and observed carefully, as if he had guessed something.

Because the evil spirit came without warning, just like a mountain torrent, suddenly broke out, caught off guard and shocking.

Ren Feifan didn't feel its external lethality. Instead, it was like pouring out from the depths of the devil emperor.

Ye Chen's array word formula gathered thunder light, like a just judgment, came crashing down, and the remaining black gas turned into a towering tree.

The branches and leaves were dark and strong, and the trunk swayed and grew with the wind, breaking away from the five thunder crazy array.

When ye Chen saw this, his face suddenly changed.

The endless black gas turned into a strong hand and gathered into a rolling torrent, but absorbed all the thunder light of the five thunder array!

A dream in the yellow spring, the netherworld.

Hot as thunder, the momentum is fierce!

Ye Chen felt the incomparably powerful concussion. He grasped the Longyuan Heavenly Sword in his hand and immediately cut it out with a sword!

The black gas sent out a roaring sob, like the light of extinction. Almost in an instant, it had turned into streamer and rolled forward!

Boom!

The blood red sword light was directly crushed by it, which was very domineering and fierce.

Ye Chen is facing those magic thunder and is about to cut out the startling sword!

However, at this time, a terrible palm thunder came in an instant, and all kinds of changes almost eroded the light of this beam of lightning!

The thunder burst and shattered.

And any extraordinary virtual shadow moved horizontally, and the remaining light remained in the palm print.

The demon emperor was blocked by the tough power, and the magic Qi light poured everywhere, splashing out from his seven orifices.

The demon emperor of Zhetian sent out a roar like a beast, as if it were an ancient Warcraft, almost in an instant, huffing and puffing a small world of Warcraft.

Then, his face became very pale, his whole face was haggard, and he spewed a mouthful of blood directly.

But those evil spirits did not dissipate immediately, but were trapped by the power of allowing extraordinary use of space.

This power was so pure and terrible that even ye Chen almost got hurt under his hand.

"Elder Ren, what the hell is this? It has such terrible power!"

Ye Chen looked dignified and looked at the lingering magic spirit.

Yuchi Yao hurried to the demon emperor and picked him up with worry and sadness on his face.

"Don't worry, he's fine. He's just temporarily taken control of the body by the demon spirit."

Ren extraordinary said lightly.

He moved his fingers, manipulated the magic Qi to slowly decline, and then put it in front of the devil emperor.

As the evil spirit was crushed and paved, it immediately became as smooth as a mirror, and then printed the five viscera of the hidden devil emperor, as well as the wandering breath in the body.

"What is that?"

Ye Chen frowned and stared at the wisp of magic gas flowing around like the sky. If you look carefully, you can find that the magic gas is surrounded by a small black mass like dust.

However, it does not belong to the noumenon of the demon emperor!

Ye Chen suddenly understood that the devil emperor suddenly became crazy, perhaps because of this small black ball!

"Elder Ren, that thing... Seems strange!"

Ye Chen stared at the small black group for a long time, and his head was dizzy.

If it had been put in the past, neither gods nor demons would have caused him so.

What happened now? That's what happened!

"If I guessed correctly, it should be that the devil Zu wudian planted a soul seed in his body."

Ren extraordinary thought for a long time, and then said slowly.

Soul seed!

Hearing this word, many people were stunned, and some older strong people fell into meditation.

"The so-called soul species... Is a method of soul transfer left over from ancient times. Few people know this method in such a new era."

An old man of XuanZhen ancient clan said that he had lived for a long time. His body was a mysterious turtle and beast.

Even he could not remember how long he had lived in the endless sea area near XuanZhen island. He only knew that he had a panoramic view of the changes and vicissitudes in the past few years.

Ren extraordinary nodded: "the transfer of soul is very popular in the old times, but when the old and new circles of the heavens alternate, the way of heaven has re established the order, so the ancient law of the old times will not exist in the world."

"It is said that people who refine these kinds of souls need to disperse their most original souls into a separate body with blood and flesh, and then refine them with the darkest dark true fire in the depths of the earth!"

Ren extraordinary explained to them.

At the same time, ye Chen was very surprised at the ancient method of refining.

This kind of soul refining is the supreme ancient method between heaven and earth. Only the top strong can practice successfully.

The fire of xuanming doesn't know how many separated bodies it needs to burn in order to refine the beads. In this process, the lost separated bodies are the flesh and blood of the noumenon.

If there is no strong strength as support, I'm afraid this experience will die with the burning of the flame!

The two beads finally refined, one returned to the body, and the other was placed in the body of the object.

At the beginning, even the strong in boundless territory will not be aware of the existence of soul species.

But once the soul seed takes root and sprouts and forms the embryonic form of the seed, it will grow up in this body and cannot be removed with strength!

"This kind of soul is so difficult..."

Seeing Ren extraordinary, ye Chen frowned.

The most fatal thing is not the weakness brought by the soul seed, but under this weakness, the soul seed grows up a little until it completely grows into a soul separation that accommodates the heavenly soul of the demon ancestor.

At that time, the spirit of the devil will be completely grafted over and occupy the body of the devil emperor, so as to complete the seizure.

These two soul species are interdependent and interlinked, and they are sons and mothers.

The demon emperor who covers the sky will be completely transformed into a new body of the demon ancestor.

This process will be longer than direct takeover, but it is more desperate.

Originally, Wutian has been laid out for a long time.

At this time, the demon emperor awoke. At this time, he became much weaker after experiencing the attachment of soul species.

He coughed violently twice, and another mouthful of blood came out when he got up.

The face was as white as snow and had no look.

He was like a dying old man, not half angry all over, and even his hair turned white.

Yuchi Yao stroked his white hair and couldn't help crying.

Originally, they both thought they were out of trouble and ready for a new life, but who knew that the hidden danger suddenly broke out and gave them such a heavy blow.
