

Physician 7161

Chapter 7161

This is also what people of that era left behind. Every move is contained in the way of heaven, which is very terrible.

There are probably more than 100 independent palaces left here, each with traces of Tao.

When ye Chen and others came to an ancient palace, they stopped. On the steps outside the palace, there was a man wearing a plain white robe and silver hair.

According to the description given by his predecessor extraordinary, this person should be tianhunzi.

Ye Chen and the demon emperor looked at each other, and they went forward together and came to the side of the stone steps.

"Master tianhunzi?"

Ye Chen shouted tentatively.

The other party didn't respond.

Then ye Chen tried to get close to him, but he was not close to him within two meters. He was blocked by an invisible force and couldn't get close.

In an instant, ye Chen's mind became in a trance. It seemed that a cruel face of the ancient battlefield appeared in front of him. People were crowded, blood was flying, and the light of various magic weapons and supernatural powers rose into the sky, countless.

Where the hell is this? The spirit is too strong!

Ye Chen couldn't help exclaiming.

Every enlightened person has his own way to pursue and constantly explore it. Once he steps here, he can escape by himself.

But if you insist on pursuing, you will fall into the mud. At that time, you can't escape by relying on your own strength.

Tianhunzi seems to be in this state.

Ye Chen couldn't decide whether he was alive or dead, so he called the old Lord out again.

The old lord stared at tianhunzi for a long time.

His eyes seemed to be two fire lights, slowly pouring out of the spirit and falling on the body of tianhunzi, which could show all the avenue Qi he was exploring.

After a while, the old Lord looked back.

"There is only a wisp of spirit left here. The body is gone and will wake up soon."

After using this move, the old lord became a little tired. His soul returned to the famine demon sky sword again and went to have a rest.

This time, the old Lord helped a lot, and ye Chen was also more grateful. Therefore, he injected a trace of reincarnation power into the wild demon Sky Sword for its absorption.

But just at this moment, a voice sounded, very abrupt, and instantly broke the peace.

"Where do you come from? Why don't you sit down and understand the Tao? Instead, you wander here."

Ye Chen suddenly shook his body, and the demon emperor also changed his look.

The blood gas protective cover suddenly gushed out of the body surface, and the rune swam away with cold light.

They didn't feel anything.

But a moment later, ye Chen immediately calmed down, because he found that tianhunzi, sitting on the steps, woke up.

At this time, tianhunzi stood up and was officially separated from the endless road of seeking Tao.

Where he stood, there were seeds, which germinated again and changed into green plants in an instant.

In this desolate land boundary, it seems abrupt but vibrant.

This strong vitality made Ye Chen feel an impulse in his heart. He wanted to sit down and grow with the strong vitality.

The devil emperor pushed him again, and he recovered his consciousness, and his eyes became clear and bright.

A small vegetation can not produce such a mysterious truth, which leads directly to the essence of the avenue.

After inhaling the fresh air, ye Chen and the demon emperor became much more comfortable.

"Master tianhunzi, we came here specially to find you! Not to understand the Tao."

Ye Chen said with a smile.

Tianhunzi nodded. His eyes were on Ye Chen and hadn't moved away for a long time.

"You... Have the breath of reincarnation!"

The heavenly soul son stared at him, and there was a complex look surging in his eyes.

Ye Chen generously admitted that he was the reincarnation of the Lord of reincarnation.

The sky soul son's eyes flickered a few times, and he smiled bitterly.

"What gave me the opportunity at the beginning is related to the word samsara. Now it is you who rescued me."

Ye Chen was stunned when he heard the words of tianhunzi.

In his memory, there seems to be no intersection with tianhunzi.

However, the memory inheritance he accepted was limited, and he did not fully understand the memories of the previous life, not to mention the previous lives.

The word samsara represents life after life and never ends.

"Sit down and talk slowly. I'm afraid your friend has been in trouble recently."

Tianhunzi glanced at the demon emperor, then waved his sleeve robe, and a round stone table and several stools appeared in front of them.

There are also a few dishes and a pot of aged wine.

Ye Chen and Zha Tianmo emperor took their seats without politeness. Tian hunzi used his aura to resist the jar of wine and slowly poured it in front of them.

The wine pouring out of the mouth of the pot is crystal clear and emits a strong fragrance. It smells delicious. I was drunk before I tasted it.

"Good wine!"

Ye Chen exclaimed.

The demon emperor also nodded secretly.

This pot of wine is really very good. It seems that it has been brewed for many years, and it is made of top-grade magic medicine.

"This pot of wine was brewed when I came here. At that time, there were beautiful mountains and rivers here. I made a pot of wine with local materials and spiritual fruits and herbs. I originally planned to take it out to celebrate when I succeeded in enlightenment."

At this point, the look of tianhunzi became a little trance.

He had come with a winning mentality, but he had never expected to fall into such a situation today.

But before coming here, who expected it?

The dead bones all over the place are monks who came with faith in those years.

They are full of confidence in themselves, but who had expected that they would succeed in the end!

"How many reincarnations can there be in life? Happiness is the real way at present."

Tianhunzi smiled. Now he has become very free and easy.

Ye Chen took the glass of wine and asked, "Sir, why do you only have a wisp of soul to stay here?"

Tianhunzi's face did not change and said calmly, "I realized the Tao here and searched for tens of thousands of years without results. Finally, when I woke up, I found that I still couldn't escape. After using various methods, I couldn't escape this reincarnation."

"In the end, I chose to cultivate and separate myself. At the cost of losing this wisp of soul, I let other souls disperse and escape here."

Tianhunzi said it lightly, but ye Chen and Zha Tianmo Emperor didn't understand the danger contained in it.

Scattered spirits are equivalent to dismembering themselves in advance.

If you want to recover again, it is extremely difficult!

Unless you have reached the peak state of cultivation like Hongjun's father, you can freely separate the spirits and let them wander in Kyushu.

However, after countless years, from the founding of the world to chaos Hongmeng, there was only a peerless figure named Hongjun's ancestor.

Chapter 7162

Tianhunzi is indeed very powerful, but compared with Hongjun's ancestors, it is like the difference between fireflies and bright moon.

After drinking a cup of wine in his hand, the emperor of the devil covered the sky asked, "master tianhunzi, do you think this kind of soul in my body can be relieved?"

The demon emperor asked directly.

That's why they came here.

Tianhunzi has been troubled by the soul species. He must have a similar experience.

Sure enough, tianhunzi already knew their intentions. He calmly said, "can you let me see the soul seed in your body?"

The devil emperor nodded, and immediately he released the hollow God, took off all his precautions and showed the spirit.

The soul seed was planted in the depths of his divine soul. Compared with the previous small seed, it has now become a complete soul seed.

"This soul seed has taken root and sprouted in your body. Even if I do it, I can't completely eliminate it, because the strength of the seed applicator has exceeded my current state."

Tianhunzi said, shaking his head again and again.

When ye Chen and the devil emperor heard the speech, they were shocked.

Can't even tianhunzi have a way?

Tianhunzi stared at the soul seed and looked at it for a long time. Then he looked up and said calmly, "maybe I have a way to keep you alive!"

"Please give me your advice!"

That day, the devil emperor said seriously.

"OK! Listen, these souls have taken root in your body and can't be removed by any external force. Do you understand? Now the soul of the seed applicator has formed a connection with you."

"So you have a symbiotic relationship with him. No one can control this balance. Only when you die or he dies can you completely determine the ownership of your body!"

Tianhunzi once dealt with the soul species and suffered from it. Finally, he found the magic to peel it off before he could get out of the sea of suffering.

However, the difference between the person who planted the soul seed on him and his strength was not too great, and he used a trick to plant the soul seed without any precaution.

Therefore, to release the shackles of the soul species behind him is also based on their similar strength.

There may be no better solution for the demon emperor.

"Although it can't be completely eradicated, there is a heaven vertical technique that can help you produce another soul species in your body. After swallowing it, it can be transformed into the soul power in your body!"

Tianhunzi said.

Then he put his palm in front of him and gave birth to a smooth mirror like water, in which ye Chen and the devil emperor can see the image transformed by the art of Tianzong.

"Elder, the art of heaven's vertical is so powerful. Why isn't it included in the list of thirty-three heaven's supreme supernatural powers?"

Ye Chen said his doubts.

"Hehe, the world has experienced countless times. In fact, the treasures in the world are not only the Supreme Master of the thirty-three days, reincarnation Heavenly Sword, nine heavenly gods and other things, but also some unknown secret magic powers, which have been handed down from that distant era!"

"You may not have heard of it, but it really exists! Tianzong's skill is one of them! What I got was the incomplete part of Tianzong's skill, so I used it to remove the soul seed in my body, and now I teach it to you."

As Tian hunzi said, the pot of wine in his hand seemed to get some instruction, flowed back from the hanging handle and inhaled into his body.

Behind him, there was a steaming fog, which turned into thousands of visions, turned into a ladder and climbed up.

The so-called Tianzong is to surpass heaven and earth and climb to the top!

These are the skills of heaven!

When ye Chen saw such a ladder, he suddenly felt a burst of pain in his heart! Sit upright and keep your eyes fixed.

The art of heaven vertical is indeed mysterious. The metaphysics contained in it is by no means weaker than any super supernatural power.

In a way, it may be comparable to the top nine heavenly divination.

"Thank you, master tianhunzi!"

The demon emperor of Zhetian bowed his hands and thanked him. He had not accepted the real inheritance. He had felt the power of the art of Tianzong just by breathing into his body.

Tianhunzi closed his eyes, and then suddenly opened a bright light, like a sky ladder, which spread rapidly, passed through the body of the hidden devil emperor and pointed to the depths of the divine soul.

"What supports the art of Tianzong is a heroic spirit from the heart, a magnificent mind and a persistent spirit! First think about whether you have the determination and belief to fight this soul to the end!"

The tone of tianhunzi was like thunder, which went down and reached the depths of people's hearts.

What he needs is the truest answer, not a lie!

"If you don't have such determination and belief, even if you accept the inheritance of Tianzong's skill, you will be defeated by the soul seed. At that time, Tianzong's skill will become a big constraint for you!"

The demon emperor was shocked.

Tianhunzi's words caused him to think briefly. Just for a moment, he seemed to recall all the past events again.

He has experienced pain and suffering, disappointment and destruction, but now he has a chance to get a new life.

If you choose to give up, I'm sorry for Yuchi Yao and my brother Ye Chen who gave up his life for himself!

"I have!"

The concise and powerful word was transmitted through the spirit of the demon emperor covering the sky. It collided with the vertical ladder and went up against the current without fear of the impact of the torrent.

This time, the devil emperor understood the faith in his heart and immediately showed a happy smile.

Chapter 7163

It seems that this time, he did not choose the wrong person!

"OK! Put down all your mental vigilance."

The essence of heaven's vertical operation is transmitted to the emperor of heaven.

Time revolves and years shuttle. The three people sit in front of this small stone table. Tianhunzi and Zha Tianmo emperor fall into a certain static state.

And ye Chen was watching nearby and looked around.

Except for the heavenly soul son, none of the seekers in front of these more than 100 palaces is alive.

Or they are in a state of being saved, and the soul is only the last step away from extinction.

Ye Chen is not a saint and doesn't have so much energy to save them.

He looked at flowers and never stepped within ten meters of the palace.

At the beginning, he also entered a palace with deep sword marks, and was immediately attracted by the bottomless sword wound.

Endless moral rules penetrated from the inside and made him stare.

Ye Chen stayed for a whole day and night, but she was already in a state of fascination and couldn't get away from it.

Finally, he was cruel and bit the blood at the tip of his tongue. The hegemonic power of reincarnation pulled him out of that addictive state.

When he reacted, he was already panting and sweating, and the whole person lost weight.

This way of seeking Tao is too terrible. Even the strong with extremely firm mind will be addicted to it when they find the Tao trace.

I'm afraid those people were dragged to death by the so-called Tao. They put their efforts into it, but they didn't get results. Instead, they were heavily bound.

Therefore, ye Chen did not step within 100 meters of any palace.

"The traces left by this era are terrible. Not everyone can bear this suction."

Even with Ye Chen's strength, I still have lingering fear.

There is no rotation of the sun and the moon here. Neither day nor night is known. Ye Chen only infers the time and day by relying on the alternation of day and night in the picture of yellow spring and blue fall.

A few days later, the inheritance between tianhunzi and Zha Tianmo emperor was announced to be completed.

The demon emperor breathed a sigh of relief.

He has completely inherited the art of Tianzong, and his temperament has changed a little.

Become stronger and more confident.

The soul species in his body had been surrounded by a vast white fog, forming a certain degree of suppression.

Next, we need to rely on the demon Emperor himself!

The art of Tianzong is divided into three books, the first of which is mastered by tianhunzi.

The next two books need to be found, swallowed and cultivated by the demon emperor, and we need to persevere.

Tianhunzi also imagined a possibility of being startled by heaven and man.

If the demon emperor can master the complete art of Tianzong and cultivate to a certain height, he can integrate the soul of the seed applicator into his own soul!

At that time, the soul power of the sower will also be inherited by him!

Hearing this possibility, ye Chen immediately smacked his mouth, which was incredible.

Who planted the soul? He is the second person in today's world of heaven and the brilliant figure of the old era: the demon ancestor has no heaven.

At that time, Hong Tianjing and several generations of strong men joined hands to lead the coalition forces of the top ten families to besiege the demon ancestor Wutian.

Almost all the strength of the whole family failed to completely eliminate it.

It can be seen that the magic ancestor is powerful!

If the devil emperor absorbs the power of heaven, it is equal to having the Tao of heaven!

How open and terrible it is!

If Zha Tianmo emperor really succeeds, he, Ren extraordinary, plus himself, will have the real strength to fight against the feather emperor!

They stayed here for a few more days.

Ye Chen also went to look for information about the old treasure, but found no trace.

The identification of the old lord must be correct.

But I'm afraid it will take some effort to find the treasure hidden in the depths of space.

In other words, there is only a trace of clues about the treasure!

In order to help Ye Chen open the channel, the old lord exhausted the power of the spirit accumulated for several days and fell into deep sleep again.

It seems that only when he wakes up again can he ask cause and effect.

After temporarily saving the life of the demon emperor, ye Chen and he also plan to leave here.

Before leaving, he thanked tianhunzi.

"Lord of reincarnation, many years ago, you helped me obtain Tao fruit, and my strength has improved by leaps and bounds. Now you have saved my last soul and helped your friends. It's what I should do!"

The last divine soul of tianhunzi is running out of time and is destined to be swallowed up by the monsters contained in the palace.

This is the price for him to turn one into ten and escape here.

"Lord of reincarnation, what I understand here is the way of death, which is almost closely related to reincarnation. I want to ask you one or two!"

Tianhunzi raised a glass of wine and asked aloud.

"Elder, please say, I can't say it's for advice!"

Ye Chen knows that he has mastered the way of reincarnation, but he has not yet touched the deep essence of reincarnation.

This is related to their own strength. Only when they reach that level can they be qualified to enter the threshold!

"What is the relationship between the past life you understand and reincarnation?"

Such problems have plagued tianhunzi for tens of thousands of years.

He never got the answer.

Ye Chen's eyes were a little confused, even though he began to think.

He thought of his life experience as the Lord of reincarnation. He experienced many reincarnations and became a man for several generations. During this period, he didn't know how many innings he had set and how many foreshadows he had buried.

He inherited some of the previous memories, but more of them were lost. He needed to dig out the original truth himself.

This process is far and very close.

In the process of climbing all the way up, he met all kinds of people who called him the Lord of reincarnation, some with incomparable hatred and some with special admiration.

Ye Chen can't count how many times this extreme opposite emotion has appeared.

But he was impressed by one person.

This man is the demon general who follows the Lord of reincarnation in the previous life. He has always been loyal. When he saw Ye Chen, his exclamation was: you are not him.

Ye Chen still had some doubts at that time. He was born with reincarnation blood and was naturally the Lord of reincarnation, which was beyond doubt.

But the other side denied his identity and didn't want to work for him.

In the final analysis, it is because he is not "he".

This "he" is the Lord of reincarnation in the previous life. He has his own independent thinking, and also laid a situation of falling into reincarnation, which directly promoted the birth of Ye Chen.

Because the blood is still continuing, the Lord of reincarnation, and all kinds of magical powers still exist.

But the Lord of this reincarnation is not the Lord of that reincarnation.

Ye Chen thought so far and blurted out a conclusion.

"Death and reincarnation may have the same original meaning, but you are bent on finding out the difference and trying to distinguish the essence of the two, so you fall into a misunderstanding."

Chapter 7164

After ten thousand years of enlightenment, tianhunzi was the first time to hear such remarks and couldn't help shaking his face.

"This... But the past and reincarnation have gone through a period of twists and turns. When you look back at them from the beginning, you can see them, can't you?"

Tianhunzi asked again.

This time, a glimmer of light flashed on the palace behind him.

Ye Chen thought silently. After a moment, he shook his head.

"I think the past life is a cycle of life and death. When I come to the second, I can look back and see all kinds of the previous life. Reincarnation is different. Maybe it can be called reincarnation without death!"

"What do you say?"

Tianhunzi seemed a little impatient.

"An experience, a past, or even a blink of an eye, can be called reincarnation. Reincarnation does not count on the years, but only looks at the past. There are reincarnation of thousands of years and reincarnation in the bomb command room. The standard of judgment is not only time."

Tianhunzi's body began to tremble.

Reincarnation does not count the years, but only look at the past!

This sentence was like a thunder, which hit him hard in the heart.

Yes, he has been in the dimension of time, repeatedly tangled and jumping, thinking about the meaning of death and reincarnation.

But if you jump out of the scope of the word time, there are many more options!

One flower, one world, one thought, one plant.

This is also a reincarnation!

Reborn, bathe in fire and nirvana.

It can also be called reincarnation!

Tianhunzi sat down cross legged. His silver hair was shrouded in a faint glow and gradually turned into green silk, and his whole body was gradually blurred.

"Ye Chen, he is..."

The demon emperor of zhetien has never been in contact with samsara, so he has no accurate concept of it.

But ye Chen knows why.

Because tianhunzi realized this way!

After epiphany, you can get rid of the shackles of this palace.

Or real freedom.

This last wisp of spirit will become the basis for him to reunite his body. When other spirits return again, tianhunzi's strength will rise to a higher level and truly rank among the super popular columns in the world of heaven.

"Let's go!"

Ye Chen took the lead in tearing the void and left along the channel opened by the old lord.

The demon emperor immediately followed.

They followed an ancient road and returned to the broken old star road again.

The firm heart of Tao will lead them out of here and back to the real world.

Ye Chen didn't know how long it took. They finally reached the end of the world. In the void, the outline of a giant whale appeared.

"Here we are!"

Ye Chen knew that Ren Feifan was picking them up, so he crossed the endless turbulence in the void.

The giant whale caught them, flapping its huge tail with waves of law, and immediately opened a channel against the flood of emptiness.

He solved a worry for the hidden devil emperor. Ye Chen felt happy. No matter how the follow-up events developed, at least now the hidden devil emperor has no worry about his life.

They stepped on the back of the giant whale and were hit by rough waves, but there was no law to change their look.

"Ye Chen, if you hadn't helped me during this trip to the dark forest, I'm afraid I would have lost my life in the hands of the devil ancestor. I don't know how to repay you."

The demon emperor sighed softly and said.

Ye Chen waved and directly interrupted him.

"You and my brothers, you don't have to be so polite. This time, try to devour the boundless spirit of the demon ancestor. I will also use reincarnation to help you!"

The demon emperor smiled.

He will not say more, but in his heart, he has regarded Ye Chen as the same important person as Yuchi Yao.

The two talked through the void. I'm afraid the giant whale has been waiting here for a long time. After all, the void is very wide. Even with the magic power of the giant whale tree, it will take some time to reach the other shore and return to the real world.

The broken ancient star battlefield was getting farther and farther away from ye Chen, and he just looked back with some doubts in his eyes.

Just as he was leaving, he seemed to notice a faint smell.

In fact, when he first entered, he noticed something, but the breath was so weak that he was not sure.

There was a doubt in his heart: How did tianhunzi divide the spirit and escape?

As far as he knows, if the spirit wants to leave, it needs not only a firm will, but also the assistance of external forces.

What's more, at that time, tianhunzi was at the end of a powerful crossbow. He was trapped in the bondage of Taoist traces. How could he break free himself?

So at that time, he released the divine consciousness of reincarnation and captured the faint breath passing in an instant.

But he just kept this doubt in his heart. Since tianhunzi didn't want to say it, he wouldn't force it. After all, everyone has his own secret.

The demon emperor covering the sky is checking the soul species in his own body. He has suppressed the germination speed of the soul species with the art of Tianzong. Next, he needs to find another two art of Tianzong within a certain time limit to completely disintegrate the soul species planted by the demon ancestor Wutian.

But just at this time, a ray of subtle light flashed on the seed of the soul.

Even the demon Emperor himself was not fully aware of it.

The whale leaped up and led two pieces of emptiness, about to step out of the ancient road of the starry sky.

Chapter 7165

But at this time, a sudden change occurred. At the end of the empty Star River, there was a loud bang, and a huge shadow emerged, completely blocking the empty river.

At the next moment, the long river of emptiness was broken.

"What!"

A strong sense of danger rose in Ye Chen's heart. Without thinking, he directly separated from the back of the giant whale and entered the empty river.

Even so, he was still hit in the back by a sudden move, the blood in his body vibrated, and a mouthful of blood slowly overflowed from the corner of his mouth.

Ye Chen immediately summoned the red dust divine pulse, protected it on his body surface and formed a layer of gold armor.

"Be careful, there is an enemy attack!"

After he regained consciousness, his first reaction was to look for the demon emperor to see if he had successfully separated, but when he looked back, he was stunned.

The demon emperor kept his palm horizontal and pushed forward.

Remembering the palm thunder just printed on his back, ye Chen's look changed wildly.

"Demon emperor, you..."

Ye Chen's mind was full of thoughts. He could not imagine that it was the demon emperor who secretly attacked himself behind his back.

But soon, ye Chen calmed down, because he found that the eyes of the demon emperor turned dark and very cold.

"You're not the devil who covers the sky!" Ye Chen stared at him, gnashing his teeth and said, "you're the devil Zu Wutian!"

A strange smile appeared on the indifferent iceberg face of the demon emperor.

"Lord of reincarnation, I didn't expect your reaction to be very fast. Just a little short, I can break all your meridians."

Now the 'demon emperor covering the sky' calmly opened his mouth.

Now he is not the devil emperor who covers the sky, but the devil ancestor Wutian.

The immortal soul of the demon ancestor temporarily occupied this body.

He came from the soul seed. After planting this soul seed, the demon ancestor Wutian has absolute dominance.

Not long ago, he took away his divine soul and wanted to take away the heavenly body of the demon ancestor for the time being.

But he found that he could not sense his own soul species, or where the soul species stayed, and the heavenly media could not reach!

At this time, the devil Zu Wutian reacted. He experienced the old and new times, and vaguely guessed what the devil emperor was doing!

So he kept the spirit ready to go. When the demon emperor broke away from the broken ancient road in the starry sky, the spirit of the demon ancestor rushed up immediately.

Burst out from the soul species, echoed with each other, and occupied the body of the demon emperor with a lightning speed!

As far as his eyes were concerned, ye Chen was facing him with his back, and was completely unprepared.

How could the devil Zu wudian miss such an opportunity, so he gathered his strength, quickly took out his palm and slapped it on Ye Chen's back.

Who knows Ye Chen's reaction is so fast that he has pulled away quickly before the palm wind falls completely.

But even part of the palm wind is enough to cause physical damage!

The devil Zu Wutian gradually exudes fierce chaotic Qi. His clothes are floating and his body is slender,

The whole person is covered by ambiguity!

Now he has a very long breath. He doesn't belong to the present or the future. He just stands on the back of the giant whale.

Even the giant whale uttered a cry, and sank into the bottomless void torrent under the impact of the boundless spirit of the demon ancestor.

It is also equivalent to cutting off Ye Chen's escape tools.

"It turns out that you have been holding back, step by step, pretending to fail, just for this moment!"

Ye Chen's mind suddenly flashed a lot of past events, connecting these causes and consequences together, and he finally understood the real intention of demon Zu Wutian!

In that battle, the devil Zu Wutian didn't do his best at all, but left his hand to let them save the devil emperor.

But in fact, he had already planted a soul in the body of the demon emperor, ready to replace it at any time.

He didn't realize that while planting the soul, the demon ancestor Wutian also set an opening for himself to hide the power of the spirit.

At this moment, the wisp of spirit hidden by the magic ancestor Wutian broke out, which was enough to occupy the body of the devil emperor covering the sky. For at least two days, the magic ancestor Wutian had the absolute initiative.

And his spirit has reached an extremely powerful state.

"The demon emperor is just the container I seek, and you are the real target I want to kill. The Lord of reincarnation, my layout is aimed at you from beginning to end."

Mo Zu wudian spoke slowly. His voice was cold and heartless, containing the ultimate meaning of killing.

Ye Chen immediately looked cold.

He knew he could not escape the war.

The devil Zu wudian borrows the body of the devil emperor who covers the sky. Although the realm and cultivation have not changed, the divine soul is a level stronger than ye Chen.

The more the cultivation goes to the back, the more afraid the power of the divine soul becomes.

If the ancient emperor Yu Huang controls an ordinary person with a divine soul, it can also make ordinary people burst out the power to kill the strong in Baijia territory!

What's more, the strength of the demon emperor is strong!

"Lord of reincarnation, it was a crime of fraud for you to sneak into the old alliance and gain my trust. I shouldn't forgive you, but I think your talent is outstanding and your ability and ambition can match. If you join my camp, I can ensure you to the top in the future!"

Wutian, the devil ancestor who occupied the body of the devil emperor, said slowly. He held an iron sword in his hand, as if chaos gathered for it. At this moment, it was shining with incomparable brilliance.

"Want me to give in to you? Dream!"

Ye Chen sneered repeatedly. The light in his hand flashed, and the disaster Heavenly Sword emerged, which also represented his attitude.

Chapter 7166

"OK! Let me see where your confidence is!"

The demon ancestor had no sky and smiled without anger. His hands suddenly closed. At this moment, the sun, moon and stars standing in the void seemed to move.

Countless huge objects fell, and there was a black sun hanging at the end of the void, which completely burst, and the black magma fell one after another like extinct fireworks, carrying the hot temperature.

This majesty is beyond the reach of ordinary monks.

The dark void directly opened a deep gap and spread rapidly, like a mirror, becoming extremely fragile.

Black holes are suspended in one round after another.

Ye Chen clenched the disaster Heavenly Sword in his hand, looked dignified and said nothing.

Now he will face the powerful enemy alone!

The devil ancestor Wutian occupied the body of the devil emperor covering the sky. It is a real spiritual power, far from being separated.

This is a tough battle!

Ye Chen bent down and bent his knees. He sank and held the sword to his left. Endless disaster gas gushed out and gathered into a violent vortex.

He gathered all reincarnation forces on this sword, threw away all physical attack means and hit the spirit directly!

The body used by the devil Zu Wutian now is the body of the devil emperor covering the sky. Don't have severe damage!

If the demon ancestor abandons the container in advance, all his attacks will fall on the demon emperor covering the sky.

Ye Chen will never allow this to happen!

He roared and waved a sword. The extremely compressed edge penetrated all the laws here and stabbed the devil's boundless eyebrows!

A sword can open mountains, split the earth and level the river and sea!

But this sword did not make the demon ancestor avoid it.

The devil Zu wudian stepped on the long river of emptiness, the dark fog shrouded his body, and his own face became mysterious.

Everything was still, like time at a standstill.

When the disaster gas came to the heavens and swept in, it was stopped by a black vortex.

Immediately, the whirlpool turned into an ancient bell, silent, murderous and silent.

Whew, he came to Ye Chen.

It is silent and breathless. There is endless magic Qi.

"Do you think this will bind me?"

Ye Chen blocked the disaster Sky Sword in front of him, then burst out and turned into a residual shadow, and the waste demon Sky Sword ran out at the same time.

The evil spirit on the blade scattered around Ye Chen and condensed on his face to form a ghost mask.

At the same time, ye Chen's face condensed a light blood scab, as if thorns and thorns had grown! Then it blends perfectly with the ferocious mask.

Smile rather than laugh, cry rather than cry. When people look at it, they feel frightened.

The next moment, the mask seemed to become the most terrible Shura in the world.

Directly penetrated the defense barrier set by the demon ancestor Wutian.

"Oh?"

This time, it was the turn of the devil. Wutian was a little surprised.

"Shura ghost cry is refined from the yellow spring water in the netherworld. Where did you get such a treasure?"

The devil Zu wudian recognized such a treasure.

"It has nothing to do with you!" Ye Chen said directly.

The demon ancestor had no God and his color changed smoothly. A bright beam of magic gas was emitted from his eyes. In only a moment, it condensed into a violent killing intention, looked down at the world and covered everything!

Jiuyouling mountain: town!

The magic Qi cultivated by the evil ancestor Wutian comes from Jiuyou, which is more secluded and terrible than huangquan hell.

Under the suppression of his evil spirit, the ghost mask on Ye Chen's face was black and red, revealing the interlayer full of thorns.

"I see... It's the power of the nether world led by the crown of thorns. It seems that you have mastered this nine heaven divinity skill well!"

The devil Zu wudian exclaimed, and then a terrible breath rose behind him.

It was derived from the void! Directly across the long river of time and space, ran towards Ye Chen, ignoring all attack rules.

In an instant, countless towering waves started to engulf this place completely.

Even if the wild devil Sky Sword broke out a towering light, it could not stop the momentum of the storm.

Ye Chen was swept by the storm and retreated countless steps. Even if he opened the red dust God pulse and the wish star at the same time, he couldn't stop it.

Even the reincarnation blood was forcibly suppressed at this moment, and his internal organs were greatly disturbed and twisted into a ball in an instant.

If ye Chen hadn't been strong and protected his heart pulse in time, I'm afraid his internal organs would be broken at the next moment.

His body pierced back, smashed countless broken stars, and finally stopped at the end of the flood of emptiness.

Damn it! Without guidance, he could not escape the void.

The magic ancestor's heavenly means exceeded his imagination. Even with the help of the body of the demon emperor covering the sky, he also reached the point of showing divine power.

The road is famous for its ups and downs. Even the power of heaven and earth here retreats and avoids, and dare not fight with it head-on.

Ye Chen was in the middle of the empty river. From the upper reaches, countless magic Qi rolled in, just like dark clouds pressing the sky, beyond imagination.

Each magic Qi represents a magic power. When they reach Ye Chen, they all choose self explosion.

Ye Chen vomited several mouthfuls of blood. He used the sword of water stop, which led to the breath of lost time and space in the starry sky and opened up a way to escape.

But the next moment, his eyes suddenly coagulated, because the cut void magic gas, after a moment of stagnation, slowly closed again, as if it had not been affected at all.

Damn it, the water stop sword didn't work!

How is this possible? Even a sword can fail?

This is the first time ye Chen has experienced this situation.

The water stop sword cut by Ye Chen has reached the extreme peak of martial arts in the world, but there is a fundamental gap in strength between him and Wutian, so the means he uses can't hurt each other.

After this sword, he exhausted his strength, and his flesh and soul were traumatized before.

You can no longer use reincarnation blood to show such unique skills.

He won't be willing to die here!

It will not let the demon emperor who covers the sky become the puppet of the demon ancestor.

"Lord of reincarnation, your talent is really amazing, and your growth rate is faster and higher than that of the previous eight generations. If you keep you, I'm afraid it will pose a great threat to my future plans, so you can go on the road at ease."

The evil ancestor has no movement. This is the first time he has taken the initiative to attack since he launched the attack. His incomparable domineering spirit is revealed. He floats in the air, overlooks all things, and doesn't pay attention to any creatures.

He gathered a black fog sword, and his mind manipulated the sword and flew out.

Chapter 7167

The foggy sword turned into a cloud hanging from the sky, rolled down, magnificent and magnificent, gushed from the top of the long empty River, and completely suppressed the wide and endless river.

"This sword... Unexpectedly drew the power of Jiuyou!"

Ye Chen was surprised. In a hurry, he had to sacrifice all three heavenly swords.

In his body, the futu God tower and the heaven and earth xuanhuang tower are ready to move.

If you really can't escape, you can only sacrifice the supreme artifacts and other important things in these thirty-three days! After the explosion of the futu pagoda, the eight futu Qi will also disappear. I don't know how many years it will take to re evolve.

But now, I can't care so much.

The nine evil spirits came so fast that they destroyed the city, uprooted the stronghold, covered the sky and the earth, avoided the stars and opened up all kinds of disasters.

Under such rolling, whether ye Chen can survive this move is still unknown!

While ye Chen was biting his teeth and preparing to take the move forcibly, the demon Zu wudian standing in the air suddenly trembled, and the dark light in his eyes became bright and dark.

His eyes recovered a trace of clarity.

"No... don't... You... Hurt him..."

The voice of the demon emperor was squeezed out of his teeth.

In an instant, the eyeball was congested and the blood was diffuse.

Endless dark devil Qi swept up.

That clear and bright moment was replaced by dark eyes.

"On the power of the spirit, I'm afraid you're not my opponent for the time being!"

This cold hum came from Wutian, the demon ancestor.

But immediately he frowned, because half of his eyes were squeezed out of a white.

That's the will of the demon emperor!

"You... Can't... Go..."

The last roar was told by the demon emperor to Ye Chen. At this time, he was trying his best to fight against the spirit thousands of times stronger than himself. He was very hard and could only last for a while.

When ye Chen saw the demon emperor like this, he was angry and his eyes were red.

But he knew that this was the best time to escape.

The devil Zu Wutian is only a temporary control of the spirit, and can not completely occupy the body of the devil emperor covering the sky.

Moreover, the hidden devil emperor is the container he will choose in the future. He will never allow the surface of the container to be damaged at all.

Ye Chen bit his teeth and retreated directly. He could only run as far as he could with his own strength.

After all, we can't find a way out without the guidance outside the void!

Ye Chen stepped on the wind and walked thousands of miles in an instant.

After two or three breaths, the spirit of the demon emperor was completely suppressed. The demon ancestor snorted and threw out a wisp of magic gas in his hand!

"Want to escape? I'm afraid it's not that easy!"

With one palm of his hand, the sky thousands of miles around was shattered, and the broken ancient stars exploded one by one.

In the void universe, the magnificent fragments burning with fire form a strange landscape.

His palm is like a mountain with infinite power. He claps it forward and faces the sky.

The tall and powerful figure stands between heaven and earth, with the magic light surging all over, and even the hair flying up. The whole person looks like the king of LuoCha coming out of hell.

This is the spirit power of the demon ancestor Wutian: the body of the nine ghost king.

It can summon the power of Jiuyou yellow spring and revive the terrible creatures in the past.

The fleeing Ye Chen had to turn around and the three heavenly swords roared together, but under the endless collision, even the heavenly swords could only retreat step by step.

The devil Zu Wutian walked out like a king. His body turned into a huge mountain. He didn't know how high it was. The whole void seemed to be pierced by him.

The whole body is surrounded by the sun, moon and stars, and when the magic hand is raised, it emits an extremely introverted light, forming the power to destroy the world!

Accumulate a lot, break and then stand, endless, nameless rules emerge one after another, breaking through the clouds against the sky.

Facing these forces, all escape routes around Ye Chen were blocked.

Now he has only one war to decide life and death!

"Then come!"

Ye Chen has made up his mind that even if he explodes himself, he will hurt the devil's ancestor Wutian.

The reason why the devil ancestor wudian wantonly shot is that he used the body of the devil emperor to cover the sky, and connected the star sky and ancient land with the incomplete way of heaven in the depths of the void.

The cause and effect of heaven can't find him at all!

Ye Chen also deeply understood this, so he tried his best to rush out.

Otherwise, he will experience reincarnation for several generations. At that time, he was still the Lord of reincarnation, but not "he" himself!

Between life and death, ye Chen forcibly mobilized the remaining reincarnation blood in his body, and the murderous figure of the blood dragon rushed to the sky. This time, he turned into an entity shape and wanted to help Ye Chen get out of his death.

The chain of order God one after another is soaring like a rainbow.

There are cracks in Ye Chen's body. His body can't bear the oppression from the heavyweight spirit.

The next moment, fragmentation is imminent!

The blood dragon also gave a cry, and the sharp dragon claw was attacked by Taoist magic gas, and half of it melted in a moment.

Do you really want to fall here today?

Ye Chen bit his teeth and his eyes were full of unwilling. He was angry and determined.

He even called for Shuo Lao, Huang Lao and Xuanhan jade, but there was no movement.

It was as if he felt the power of anger, and the devil's head hurt again.

A spirit competes with him!

Chapter 7168

The evil emperor who had been suppressed revived again, and this time, the coming of the divine soul was very fierce, which directly interrupted the attack of the evil ancestor Wutian!

The powerful pressure all over the sky collapsed in an instant. Ye Chen fell back and gasped heavily.

Wutian's eyes were cold, and the cold light in his pupils shrank into a needle!

"Do you really think I dare not destroy your spirit?"

Devil Zu wudian was very angry.

He cut Ye Chen under his palm twice, but he was interrupted by the spirit of the demon emperor.

"Hehe... You dare not! Once you destroy my spirit ahead of time, this body will be deserted."

The demon emperor of Zhetian fought the danger of death and jumped out to stop the demon ancestor Wutian.

"Zha Tianmo emperor, do you know that with your spiritual power, you can't compete with me at all. If you go on like this, you will lose your soul!"

"I don't care... Ah... If you want to kill him, I'll stop with death."

The two are in a fierce entanglement, a battle between heaven and man.

The evil ancestor Wutian directly used his divine thoughts to suppress the evil emperor covering the sky again.

This time, he produced a Dharma seal, sweeping the sky with boundless soul power and swallowing the stars.

Ye Chen just wants to curse his mother. This guy is really endless!

But just as the mind was about to fall, a vast ocean gushed out from the depths of the sky, clear and traceless, rippling like a diamond.

Suddenly wrapped Ye Chen's body.

This force is gentle, gentle and has no intention of killing,

Ye Chen subconsciously wanted to resist, but suddenly he was stunned, because he noticed the familiar smell.

Then he let the rippling blue wave sweep himself away.

Everything happened between lightning and flint. It was very fast. At the next moment, the terrible mind fell, turning the nothingness into a chaotic black hole, and all vitality was crushed.

Devil Zu wudian suddenly looked up and stared at the red figure appearing from the void.

"Who are you?"

Then he waved his hand, took the broken ancient stars in the void as the array point, and put down the cage of heaven and earth.

The figure in red stood there, never moving. Her body was very unreal. She just took out a plain flower and bent her fingers.

The flower bounced on Ye Chen, and his figure became illusory in an instant.

Wutian's eyes narrowed slightly. He saw the origin of the flower.

"The flower of dawn cultivated in the wish fairy pool? What is your relationship with Ren tiannv!"

The evil ancestor had no power in the dark, but the dark forces that rushed over could not touch the body of the girl in red.

"With your body now attached, you can't break the boundary of dawn flowers."

The girl in red opened her lips and said calmly. With a wave of her sleeve robe, she took away Ye Chen, who was seriously injured and nearly fainted.

They are like the moon in the water and flowers in the mirror. They disappear slowly, and no force can keep them.

The demon ancestor's look became extremely gloomy.

In this regard, he had no choice but to wish that Xianchi was a unique existence among the four Xianchi, which was very powerful.

The flower of dawn is a mysterious flower in the pool that only bears one flower for thousands of years. It has the power to control the void and mobilize all things!

He had never calculated that Ren tiannv's own disciple would do anything to save Ye Chen.

The great Qi carried by the Lord of reincarnation is reflected incisively and vividly here

"It seems... I can only find another chance next time. I have the devil emperor covering the sky. Ye Chen, I don't believe you will stop. At that time, I won't let you go like last time."

The evil ancestor murmured to himself, and his expression gradually disappeared into the void, because next, he had a more important thing to do!

This broken ancient battlefield, which has been untouched for thousands of years, has become even more chaotic.

At the same time, silence was restored.

.....

The girl in red is ye luo'er.

After escaping from the void, ye luo'er took Ye Chen to a vast mountain range.

It is far away from the broken ancient battlefield. It is very quiet and far away.

The mountain wind blows, and a series of trees rise and fall like the waves. The sound of the waves is constant. Looking around, it is refreshing and happy.

But ye Chen could not calm down at this time.

He is very worried about the safety of the demon emperor!

"Don't worry, he will be fine. Mo Zu wudian would rather compromise than hurt this body. He must be afraid."

Yeluoer said softly.

Ye Chen raised his eyes to see her, looking a little complicated.

He can't remember how many times he was saved by yeluo'er!

In those years, he was chased by the feather emperor's Excalibur sword and used the ten square sword technique.

But there is still someone behind him to help him out easily.

At that time, he was not sure. Until his strength became stronger and he could spy on the cause and effect, he determined that ye Luo'er was the one who helped.

At that time, ye Luo'er was trapped by causality lock. Even if he had love, he could not meet.

It was very painful for ye Luo'er.

At that time, ye Chen was still a little confused. Until his strength gradually improved and he could use the power of reincarnation to deduce cause and effect, he knew that ye Luo'er had long been banned by the supreme goddess, so he could not meet himself.

Even so, ye Luo'er still hid in the dark and followed him silently.

"Why are you so stupid, you girl? If the evil ancestor insists on leaving you and me, I'm afraid it's useless for you to borrow the wish fairy pool!"

Ye Chen sighed and looked very pity.

When ye Luo'er saw Ye Chen's serious look, she finally relaxed, and she became happier.

Ye Chen is the most important person in her life. Even if she is allowed to go up the knife mountain and down the sea of fire, she doesn't care as long as she can protect Ye Chen's safety and go through many dangers.

"Now, like you, I'm gambling every step. You once told me that the confrontation with the first-class strong is not only strength, but also psychological and emotional. I won the bet only by grasping the point that the magic ancestor has no heaven!"

Ye Luo'er's delicate little face was full of smiles, adding a trace of charm.

And her proud little eyes seemed to be asking Ye Chen for credit.

Ye Chen smiled helplessly. He struggled to stand up.

Seeing this, ye lu'o'er hurried to help him.

"You see, I'm hurt like this now. I need your help to get up." Ye Chen mocked himself.

Ye lu'o'er held Ye Chen for fear that he would fall down again, and ye Chen touched the softness from his arm and was in a trance.

How long has it been since yeluo'er was restricted by the heavenly daughter that they haven't been able to talk with each other as happily as before?

At this moment, ye Chen bowed his head, and ye lu'o'er just looked up. The two had four eyes opposite each other, and their eyes were like water.

Ye Chen looked at ye lu'o'er carefully. Her small face was exquisite, Qiong's nose was very warped, her small mouth was ruddy, the pair of willow eyebrows rose slightly, and her eyes were large and divine.

Chapter 7169

These eyes seem to be carefully carved portraits, beautiful and clever.

Ye lu'o'er saw that ye Chen looked at herself like this, and her little face couldn't help blushing. She quickly lowered her head.

"Brother ye, why are you looking at me like this?" she whispered.

"Because I found that you are no longer the ye lu'o'er who was afraid of head and foot."

Ye Chen couldn't help blurting out these words.

After that, he was stunned.

I should be cautious and calm in my daily life. Now why do I want to hold the little girl in front of me in my arms and hug each other?

Maybe it's because she risked her life to save her, or maybe it's because she has been silently following behind her and came out in times of crisis.

A person's life is like a drop in the ocean.

How many people can accompany you in the end?

Ye Chen thought so far and thought of the past.

After hearing this, ye lu'er's Blush had spread from the root of his ears to his cheeks.

"I... i... actually like you... From the beginning..." ye lu'er was incoherent.

Ye Chen's eyes coagulated and took her to the hillside.

He closed his eyes and felt the breeze. It seemed that the spiritual power between heaven and earth had been summoned and swept towards him.

The terrible part of reincarnation is not only the power of extreme explosion, but also the terrible recovery ability.

The wind rises from the ground and explodes, and the rolling spiritual power flows into Ye Chen's pores.

Blood is like a tireless soldier, pulling Ye Chen's spiritual power to the most abundant state bit by bit.

"Sit down, don't think I didn't know you forcibly used the flower of dawn! That thing was banned by Ren tiannv. How do you explain it when you go back?"

After ye Chen opened her eyes, her injuries had recovered.

The terrible part of reincarnation blood is also reflected at this time.

In the world of heaven, some people compare the reincarnation blood with the Phoenix blood of the undead bird, saying that they are the most abnormal restoration blood in the world!

However, in the eyes of many top powers, reincarnation blood is more powerful.

In addition to the abnormal self-healing ability, reincarnation blood can heal others.

Ye Luo'er naturally knew what Ye Chen wanted to do. She reached out and nodded and immediately sat down.

Ye Chen comes to her back and uses the reincarnation heavenly eye to check the injury in Ye Luo'er.

In front of Ye Chen, Ye Luo'er completely released his mind and didn't set any precautions.

Qihai, Dantian, and the spirit are in an open state.

Ye Chen couldn't help sighing to herself. If he had a bad evil idea at the moment, he could stop Ye Luo'er instantly and make him unable to move.

This girl is really stupid!

Don't hesitate to disobey the order of the supreme daughter for yourself.

I tried my best secretly, but then I left quietly, leaving only a letter of soul power.

Ye Chen still remembers the content of the letter.

There is no complaint, no joy, some just talk about it with a touch of missing.

When ye Chen is in trouble every time, ye luo'er will stand up silently.

No matter when or where you are, as long as you look back, the clever girl in red will stand behind you silently and never seem to leave.

"Your original life chart is cracked. Don't move. I'll repair it for you with reincarnation blood."

Ye Chen found the abnormality in ye luo'er's body and immediately said in a deep voice.

Ye luo'er's tone was a little worried: "will that affect your blood?"

Ye Chen's eyes suddenly became extremely complex.

He raised his hand and gently stroked ye luo'er's soft green silk in a very gentle tone.

"It's okay, but you should be obedient. You shouldn't touch this thing again within three years, okay? Otherwise, you can't repair the crack by any means."

Ye luo'er nodded and did not refute.

But ye Chen knew that as long as he was still in danger next time, ye luo'er would appear again.

Bursts of soft blood force merged into ye Luo'er's delicate body along the meridians of the palm.

Ye Luo'er's pale face gradually returned to ruddy.

She turned her back to Ye Chen and always had a faint smile on her mouth.

At this time, I'm afraid it's the most relaxed moment in her life. As long as she stays with brother ye, she feels happy even in purgatory.

Last time, ye Luo'er sent the beast soul path, then disappeared and returned to the supreme world.

Since then, ye Luo'er seems to have disappeared and has not reappeared until today.

What did she experience during this period?

Ye Chen opened her mouth at will and asked two questions.

Ye Luo'er answered normally, but ye Chen felt her first reaction after hearing her question.

Her shoulders trembled twice!

That's out of fear, fear? Or don't you want to look back?

What did she go through? Even ye Luo'er, who has always been indifferent to water, felt flustered.

"Nothing... You don't have to think about it, but my nerves are too tight and sensitive."

Ye Luo'er explained with a smile, but in the front that ye Chen couldn't see, her smile was very reluctant.

During her days in the secret place of killing demons, she struggled with those abnormal monsters every day, and her life hung on the line many times.

Even she didn't want to recall how many life and death difficulties she experienced at that time!

Only a belief supported her and she must escape.

Chapter 7170

She hasn't really talked with Ye Chen. So many words she wants to say are held in her heart. Even if she dies, she won't be reconciled.

It was this thought that supported her to survive in the dark abyss and cliff.

What is terrible is not monsters, not Warcraft, but the regret of love.

But now it seems that all this is worth it.

Perhaps it was her tenacious will in the secret place of killing demons that moved the supreme daughter. The high lady saved her from the secret place and used the spirit water of wish Xianchi to recover her injury.

Then he gave her a flower of dawn and gave her the task of helping Ye Chen's enemy and giving him a fatal blow at the critical moment.

This is the last atonement opportunity given to Ye Luoer by the supreme daughter. If she can't finish it, she will face the infinite anger of the supreme daughter.

Yeluoer did use the flower of dawn, but he did the opposite behavior of the fairy.

She saved Ye Chen with this dawn flower.

After the healing, ye Luoer fell into the sea of Qi and checked the injury. The crack in the sea of Qi wheel really disappeared.

A burst of blood gas lurked in her blood, like a hidden sword, which can give a fatal blow to her opponent at a critical moment.

"This reincarnation blood can help you fight back in a critical situation. Don't use this power until you are at a disadvantage."

Ye Chen patiently explained to ye Luo'er.

Ye Luo'er nodded gently and kept everything Ye Chen said in mind.

"By the way, I got two nine heavenly divinities before. Remember, you must strive to survive in front of Ren tiannv. No matter where she sends you, I will come to you."

Ye Chen said and took out a bloody crown with great solemnity.

The crown was surrounded by thorns. When it appeared, the space around it was shaken, and the visions were continuous, and the blood evil ripple spread. The visions were very amazing.

"Is this... The crown of thorns?"

Ye Luo'er's eyes widened and couldn't help saying.

"Yes! You don't need to worry about reverse bite. This thorny crown has been completely refined by me and has become a part of reincarnation blood. Now you won't resist my instructions."

Ye Luo'er's eyes are bright. She is really happy for ye Chen.

As the Lord of reincarnation, ye Chen carries great luck. At the same time, countless enemies covet it secretly.

One more magic power is equivalent to one more card.

And as like as two peas were holding her hand, she grabbed the thorn crown and pulled out the top of it.

He divided the crown of thorns in two and gave the other half to yelol.

"No, it's your hard work. I can't take it..."

Ye Luo'er was stunned for a moment, then understood Ye Chen's meaning and quickly waved his hand to refuse.

However, ye Chen thrust it into her hand and separated the thorny crown from her own blood. Soon, a brand-new thorny crown took shape.

This crown of thorns converged blood and became incomparably soft, no longer full of fierce murderous spirit.

At this time, the other side of the nine heaven magic gradually appeared.

Ye Luo'er wanted to refuse, but ye Chen insisted on putting the crown of thorns on her head.

"This crown of thorns is not a real nine heaven magic. The real nine heaven magic is still in my body, but what I gave you, it has no murderous spirit and can be fused immediately. You should take it as I gave it to you. You must take it." Ye Chen said with a face, "You must remember what I said. After returning to the world, you will go wherever Ren tiannv asks you to go. No matter what danger you go, the thorn crown will protect your last blood. After I feel it, I will come to save you, okay?"

Ye Luo'er had never seen Ye Chen so solemn. He couldn't help but be stunned and nodded cleverly.

When she thought that Ye Chen was thinking about herself, she couldn't help feeling warm.

"Yes, that's obedient."

Ye Chen smiled and rubbed Ye Luo'er's hair.

Ye Luo'er blinked and smiled. Since she met Ye Chen, Ye Chen never seemed to make such an intimate move to her.

"Well... Can I stay with you for a while?"

Ye Luo'er summoned up his courage and asked carefully.

Over the years, she has never asked Ye Chen anything, but today, she wants to be willful once.

In the past, she wore the cause and effect lock given by the heavenly daughter and didn't dare to get too close to Ye Chen, but now she wants to try more courage.

The sky is changeable and the world is unpredictable. Who knows what will happen in the future? She is afraid that if she doesn't fight for it, she will have no chance in the future.

After all, there are so many confidants around Ye Chen, each of whom looks like an immortal,

Ye Chen looked at her with fixed eyes. This time, Ye Luo'er didn't hide. His four eyes were opposite and affectionate.

Ye Luo'er turned around. She moved quietly, only a inch away from Ye Chen.

They were so close that they could even hear each other's breathing.

"I..."

Ye Luo'er just wanted to say something, but the next moment, Ye Chen held it in his arms.

This hug represents all words.

This girl has always been used to trusting Acacia with the bright moon. She will only help silently behind her back and never ask for credit face to face.

She is so kind.

Ye Luo'er's eyes widened and he was at a loss.

But then her eyelashes trembled slightly and her eyelids closed gently.

Her hands, encircling Ye Chen's shoulders, seemed to grasp the most important thing in life.

The trees wanted to be quiet, but the wind did not stop. In the distance came the loud and clear singing of birds, which was quite cheering and jumping.

For a long time, the two people separated slowly.

Ye Luo'er was just immersed in it and didn't feel much. When they returned to normal, she remembered the tenderness and beauty just now, and her little face turned red.

"I..."

Ye Luo'er just wanted to speak, but he was interrupted by Ye Chen.

"Don't me. Let's go and show you the beauty of the heavens."

He took Ye Luo'er's hand, and then the Longyuan Heavenly Sword flew out of the reincarnation cemetery and turned into the virtual shadow of the blood dragon, while he took Ye Luo'er to sit on the dragon's back and soar freely in the blue sky and white clouds.

Ye Luo'er followed him and saw all the mountains and rivers all day. His small face was filled with a happy smile.

Since she joined the Wish God church, she has been carrying a heavy task and has never been so relaxed as today.

The entanglement of cause and effect lock and the order of the supreme daughter haunt her all the time.

"Brother Ye, thank you..."

Ye Luo'er lay on Ye Chen's back and said softly.

Endless tenderness.
