Chapter 7221

But in the purity of Taoism, the thunder seed is better.

It blooms on Xuanji moon, holding the power of heaven and earth and facing the land of heaven.

The divine light is diffuse and the vigorous wind is mighty.

That explosion can tear apart all obstacles in front of us.

The ultimate power has no flaws at all. It is enough to sweep all things, stand aloof and invincible.

"Die!"

With only one word, the mountains and rivers will be turbulent, the sun will be hot, and the endless sound of fury will gush out, connected with the avenue and the Republic of heaven and earth.

Scold!

Everything has spirit, but I feel such turbulence at this time.

Almost everyone was dispelled by this thunder seed, and there was only fear in his heart.

Thunder seed is a mysterious seed evolved from the Shinto of heaven and earth, which can be said to be as high as the sky.

Even those with low strength knelt down, worshipped and fainted directly.

This is the fear and ups and downs of the Tao, which no martial artist can avoid.

Only when you are strong enough to a certain level can you subdue this surrender!

Ye Chen also felt this power. Even if the reincarnation blood is extremely burning, it can't be stopped.

But in any case, he will meet the difficulties.

But at this time, an old voice sounded in his mind.

"Boy, you should take some brains when fighting! You can't rush forward blindly. Can't you fight if you lose your magic power?"

The speaker is an old man! The old man who has gone through ages can always give ye Chen some help at a critical time.

His words seem to have a deep meaning!

"Huang Lao, do you have any good way? I feel xuanhai has suppressed me, and xuanhai has endless power to bless Xuanji moon! If I fight outside, I may kill her!"

Ye Chen immediately asked.

"The fact is that the land of xuanhai is also a Jianjia saint. Xuanhai must infinitely bless Xuanji moon, and that thing is a kind of thunder bred by the power of heaven and earth. It is very magnificent and terrible. You can't defeat it with ordinary power, especially you have made a vow of heaven. Even if you want to use magic power now, you can't do it!"

Huang Lao opens his mouth and helps Ye Chen analyze.

Ye Chen nodded. He looked at the endless roaring thunder in front of him. There was infinite anger in his heart. He wanted to explode at this moment.

Even if he dies, he will pull Xuanji moon together!

.....

"What should I do? That force is too strong to resist."

Sun Yerong was extremely worried.

Now that area has been completely blocked. Reincarnation and destiny, two forces, each of which is extremely powerful, can not make a single breakthrough at all.

Especially with the blessing of heaven, we can't break through!

"Only wait, if you can't carry it..."

The demon emperor shook his head. He didn't say anything later, but they both understood.

If you can't carry it, you'll be dead.

According to today's development trend, fate and reincarnation can only remain one.

Around that field, there was a continuous chain of order wrapped around it, covering the surface of the thunder. The extreme power also shook and burst the void.

"Boy, now you can get out of this dilemma only by squeezing yourself completely! The power of reincarnation has not been fully developed by you. It was waiting for your strength promotion, but now you need to break through the shackles!"

Huang Lao's voice also seems a little hasty. If you can't carry it, you can't take over the power of fate with Ye Chen's current physical strength!

The thunder seed has been in full bloom. For a moment, it devours mountains and rivers and shakes the heaven and earth, as if it was going to smash the ancient road in the starry sky!

Xuanji moon has no reservation at all. In the thunder seed, there is also the power of Jianjia divine sword.

The reason why she is so sure this time is also related to her absorbing the power of Jianjia divine sword.

As the saint appointed by Jianjia sword sect, she must inherit the orthodoxy in the future.

Now, she has the supreme power to kill Ye Chen without reservation and do her best.

Boom!

Boom!

Mountains and rivers collapse and star rain breaks.

An earth shaking blow, at this moment, it blooms in horror.

Ye Chen was surprised and shocked. He quickly condensed the pure Qi of reincarnation blood and turned into a shield to block the blow.

Boom!

This shock force made him retreat and fly out one after another.

At the moment, Xuanji moon is like a real fairy Taiyu coming out of the fairy world. She comes down with a high attitude and completely suppresses him.

This kind of power is really terrible. He can only passively resist it with his fist in a moment. Every time he receives an instant blow of thunder, there will be a crack on his body.

Even with the strength of this flesh and blood body, it gradually deforms, the blood splashes, and the thick white bones are exposed.

Sun Yerong, who was watching the war outside, was worried. She wanted to rush in right now.

The demon emperor of the sky was also sullen, and his fist was clucking.

But now they can't enter and can only stay outside.

The rest of the people also saw the war inside through the gap of the thunder curtain in the sky.

Saint or saint, once the outbreak of full strength, few people in the world can fight!

But the strength of the other side is amazing enough.

This top-level war can go down in history.

Xuanji moon is like a hegemonic emperor. The empress ascends the throne and is majestic. Lei Chong is attached to her. Now she does it herself!

One palm and one fist, delicate and slow, but it has the momentum of opening up and closing down. There are no fancy ways to block it directly!

The momentum is magnificent and falls directly.

Chapter 7222

Ye Chen forces himself to calm down. He has been thinking about what kind of level to break through in order to break through this shackle?

Ye Chen fell into some confusion.

Until now, he has never seriously thought about what kind of reincarnation shackles he has to break through?

Can we say that only by reincarnation can we have the opportunity to understand all this?

In a short moment, many thoughts flashed through Ye Chen's mind, but they were rejected one by one by himself.

Maybe this is the moment before death.

There are always strange ideas.

"Calm down and think about what you want?"

Huang Lao's reminder made Ye Chen have an epiphany.

What exactly does he want? What do you want to do?

Is to defeat fate!

This is fate and a belief. He will never give up until he has achieved his goal.

Now the enemy is close at hand, but he can't win. This feeling is very uncomfortable for everyone.

Does he want to win? Of course! Even want to win completely.

At this moment, ye Chen's heart calmed down and became ancient well without waves.

It seems that a drop of water, entering the calm lake, has ripples. Those ripples, mysterious and ancient, are bred by taboo forces.

"This..."

Even ye Chen was a little surprised, because there was a trace of inexplicable power, like vines, growing in his sea of consciousness, and even growing higher and higher, forming a force, close to Hongmeng, but connected with chaos.

Ye Chen was very surprised and stunned.

Welcoming him, I felt a mysterious and familiar power, and my soul immediately trembled!

That force is a breath of nothing!

Born from the reincarnation blood, it is integrated with its own spirit and consciousness.

Ye Chen was surprised, but suddenly realized.

Because he can feel the breath of nothingness, one door after another is opened in his body, and the most original power is released from it and flows all over his body.

Now he can be sure that Huang Lao's shackles are to integrate powerlessness into reincarnation!

The sudden discovery can be said to be unprecedented.

Wuwu represents an extreme power, such as a sword of water. Only a few people can echo Wuwu time and space and sweep everything in the world with the help of its power.

Some people have thought about the relationship between nothingness and the Tao of heaven, or the origin of the universe of the heavens? And where does nothingness come from? How was it born?

This series of problems have plagued all sentient beings in the past.

Even if you practice to the top of the world, you can't solve the mystery.

Now ye Chen seems to have caught something, but he can't make a complete clue.

In any case, first solve the immediate crisis and dilemma!

Ye Chen pulls that wisp of breath into his body! They are connected with their own blood, surging madly, forming a burst of manic blood force.

Everything happened in just two seconds!

Thunder is coming, darkness is coming, and a large number of dark clouds are piling up. It's almost swallowing heaven and earth, and everything goes to naught!

The breath of nothingness shuttles from chaotic time and space, suppresses all evil things in the world, is pure and flawless, and almost reaches the peak of the world.

This is already invincible, sweeping all the existence of the world, nothing is more powerful than him!

Ye Chen felt the breath, surging in his body, mixed with his own blood, and produced an extremely wonderful feeling.

It seems that there are strands of vigorous vitality, churning in their own bodies, almost drowning this world.

It is majestic and startling, and there is no hiding place.

This is the first time ye Chen has directly combined with Wuwu's power. Before that, he used the medium of Heavenly Sword to exert Wuwu's power and wield the sword of water stop!

But now, unlike in the past, he released his deepest potential through this breath.

There are no fancy moves or the so-called ultimate way.

When Wuwu reaches a certain peak, it is the ultimate martial art in the world.

It's a minimalist Avenue!

Ye Chen closed her eyes and opened them suddenly after a moment of silence. A strong light almost collapsed the world.

Everyone thought Ye Chen was in big trouble and must be destroyed under the attack of Xuanji moon. Who can carry such a turbulent power in the world?

But just then, the beam of light burst into the sky and almost overturned the dome of the starry sky!

This force can actually compete with Xuanji moon's destiny and holy way!

It's incredible. It's completely different from what they predicted.

Xuanji moon also felt the chaotic Qi burst out by Ye Chen, and suddenly her face changed.

The invincible blood she condensed was quite domineering. At this time, it was almost rigid, and then it became exhausted.

This seed is more terrible than before! Among them, Tao Yun flows and becomes extremely broken.

Boom!

Endless noise comes out at this moment. Even if it is suppressed by moral law, it can't cover this breath!

In this violent collision, ye Chen turned into a sharp thorn and pierced the whole balloon with an unimaginable attitude.

Xuanji moon's expression changed from calm to surprise, and then to shock.

She never thought that the strength of Ye Chen's outbreak at this moment was so strong that it could almost fall apart!

The void seemed to crack a door, emitting a shaky clear light. Almost in a moment, it climbed to the extreme and reached the highest peak!

Ye Chen almost unreservedly used such a powerful force to gather all the momentum at one point and quickly burst to stop the blow!

Regardless of the consequences, even if he will be abandoned, even if he will die, he has no complaints.

Boom!

Almost at this moment, ye Chen's fist broke the whole starry sky, and the ancient road seemed to open a door to ancient times.

On this road, countless dead bones fell to the ground and turned into the dust of history. All traces should be wiped out.

The road he took was extremely difficult. No one has succeeded since ancient times!

Since ancient times, who dares to take risks with their own flesh and carry the power of nothing? That's almost impossible!

But now someone has done it. That force is so terrible that no one in the world can stop it.

After the endless sword light broke, Xuan Jiyue also felt a strong threat and retreated quickly, ignoring her image.

It contains a fist of reincarnation Avenue. It collides violently with the purple air and thunder. It has no momentum and can't be matched!

This abyss burst out with unparalleled strength to swallow everything in the world.

Chapter 7223

It's as heavy as Mount Tai, and its shape is like the collapse of heaven and earth!

These punches almost suffocated people.

When the thunder light dissipated, there was only the reincarnation of the holy light in the field, which was endless, light and rain poured, and terrible visions emerged.

Hiss!

It seems that there is a holy ancient animal in the flesh. When it looks up, the earth collapses, ghosts cry and howl, flying sand and stones, forming a terrible scene of the fall of the gods.

Even the mysterious thunder bred in heaven and earth trembled violently. The vast electric light flickered and couldn't be stopped!

Xuan Jiyue even spits blood at her mouth and looks shocked! The invincible power of the other party.

Ye Chen's action is not fast. It seems that he is walking slowly. In the void, he walks forward step by step, just like patrolling the heaven and earth of the heavens. Each action is extremely terrible.

Where can we achieve the wonderful realm and ordinary power contained in it?

Bang!

The wind howled and the troubled times died out.

The invincible posture of the reincarnation Lord is displayed incisively and vividly at the moment. His body is like the God of war and his eyes are like electricity. He wants to take these heavens into it.

Then he grew lotus step by step and raised his hand to make flowers. Ye Chen looked very indifferent. His arms stretched out, almost covering the void of thousands of miles. The extreme power burst out and was unmatched.

The endless glow, like the torrential rain, the coast burst, the flash and thunder, completely submerged the space.

This kind of power is too terrible. Even if fate blocks it, it can't stop the combination of samsara and nothingness.

In an instant, ye Chen was mighty and towering.

On the other hand, Xuan Jiyue looked a little embarrassed. He was shocked by the boundless power, coughed up several mouthfuls of blood, staggered his feet, scattered his hair, and even his spotless white robe became stained at the moment.

Xuanjiyue, as the master of fate and the saint of Jianjia sword sect, has been in a high position for many years. She has been treated like the moon. When has she been so down.

She even has a feeling that if ye Chen completely releases the breath of nothingness, she will definitely disappear and dissipate the world now.

But ye Chen may become a loser.

This reincarnation is a duel with fate. She must win it. How can other factors interfere with it!

At this point, Xuan Jiyue no longer hesitated, but took out her own bottom box ability.

"Lord of reincarnation, it seems that I underestimate you, but no matter how you burst your talent, it's all in my expectation! Today, it's all over!"

Xuanji moon radiated an incomparably holy light, and her black hair was dyed silver by the moonlight!

This accident surprised everyone.

It seems that xuanjiyue also has to fight hard. If she doesn't succeed, she will become benevolent. There has never been a reconciliation between fate and reincarnation.

Xuanji moon was boiling with silver white light, and did not hesitate to burn violently.

When you open your eyes, the pupils become red.

"Today, I will sacrifice mountains and rivers with reincarnation! Pave the road to heaven of my destiny!"

Xuanjiyue crushed something in her hand and immediately rolled out like thick black smoke. The mysterious Qi machine surrounded it and gradually disintegrated the bondage of heaven on her.

Seeing this scene, the pupils of the people below vibrated.

Xuan Jiyue can automatically release the oath of heaven? Then she can use magic powers and treasure skills next!

For ye Chen, this is a very bad news!

Opposite the void, ye Chen was also surprised.

He was in his heyday, sanctified in his flesh, almost unmatched.

But Xuan Jiyue actually broke through the limit of heaven. For him, it was like a blow to the head and a disaster.

Although the physical body is powerful, it can't compare with the holy magic weapon and divine power after all.

He is still in this field, bound by the current rules of heaven and unable to use magic powers.

Ye Chen and other people outside felt the incomparably powerful momentum. Those who opened the heavenly eye could vaguely catch a glimpse of a sacred lightsaber above Xuan Jiyue's head, which was gradually disappearing!

Ye Chen felt the overwhelming breath, and her pupils were as sharp as a blade, staring at Xuanji moon all the time.

I see, he understands!

Xuan Jiyue actually destroyed the source of Kendo in her body. At this price, she broke free from the bondage of heaven!

This thread of Kendo is a gift from Jianjia sword school, and it is also the foundation for her to accept Jianjia inheritance in the future.

Now xuanjiyue breaks it, which means that it can no longer take over the inheritance of Jianjia sword school in the future.

After the first layer of identity peels off, there is only the second layer left!

But Xuan Jiyue is the master of fate after all. Even if she loses her identity as a saint of Jianjia, she won't hurt the root.

In contrast, ye Chen is completely at a disadvantage.

Xuanjiyue smashed her fist and tore all kinds of vigorous wind. She was condescending and powerful. She aimed directly at Ye Chen!

Ye Chen was locked in the field at this time. He couldn't escape and had to answer.

Xuanji moon used the supreme sword light of fate, like a brilliant Star River, waving down and cutting all the sun, moon and stars.

Even if ye Chen used reincarnation blood as a shield and crossed his chest, he could not stop the blow. The strong shock wave beat him away, and even the ribs and meridians in front of his chest were broken.

When people outside saw this scene, they couldn't help taking a breath and looked very white.

After xuanjiyue regained her real strength, it was as simple as killing a mole ant to crush Ye Chen!

Although this move is too small, it can directly determine the war situation!

What about the world of martial arts?

Seeing this, sun Yerong was pale as snow and trembled with anger. Her heart was like a knife, but there was no way.

The demon emperor who covered the sky regretted that he had used up the opportunity to summon the demon ancestor Wutian! If you can call later, you may be able to break the field and save Ye Chen's life.

But now it seems too late to say anything.

Ye Chen was miserable, but even so, he didn't choose to surrender. His black hair danced disorderly and roared in a low voice. The incomplete blood light appeared on his body surface and couldn't cover the terrible scars.

Those wounds are corroding his flesh and killing his strength bit by bit. In addition to dealing with Xuanji moon, ye Chen has to divide some of his mind to prevent these decadent forces from entering his body and eroding his reincarnation blood.

He must not let such things happen!

Boom!

Ye Chen's fate seemed to be doomed to be blown away by the power of fate, and his body became ragged. If it weren't for a red blood light to emerge in an instant and wrap it, I'm afraid Ye Chen would die under this palm.

But even if it is Xuanji moon's Taoist temple, the way of heaven is on Xuanji moon's side, so what!

Chapter 7224

Everyone was shocked and knew the results in advance.

The struggle between reincarnation and fate ends with the victory of fate.

Even so, they also saw the power of Ye Chen and wrote his own myths, which will be recorded by later generations.

Xuanjiyue looked down at Ye Chen, as if she had won.

"Lord of reincarnation, you will eventually lose to me. Say a last wish before you die. When I am in a good mood, I can help you realize it."

Xuanjiyue's words are compassion, compassion and ridicule.

She held the destiny in her hand. At this time, it seemed as if she had a new Heavenly Sword in her hand.

It may be the destiny Heavenly Sword, which is in charge of the fate cycle of the myriad worlds of the heavens. It is endless. In the twinkling of an eye, it can engulf all kinds of boundaries.

Ye Chen bit his teeth and didn't respond.

Even if he dies, he can't give in.

Fight again!

Ye Chen burned the power of the last reincarnation, just like a rising sun, rising slowly. The hot temperature wants to burn the world without leaving any trace!

Everyone was surprised. Even if ye Chen was so seriously injured, he could burst out a powerful reincarnation force. It can be seen how outstanding his talent is.

Someone below was so excited to see such a fierce battle that he waved and cheered.

Not because of anything else, just because Xuanji moon has a delicate face and is an invincible fairy in their eyes.

For a time, the whole void was eclipsed and the situation was turbulent.

Ye Chen exhausted his last strength and completely fell into passivity. He could feel it. The edge of the sword Qi penetrated into his body and seemed to destroy all his internal organs!

The void shook, the ancient void exploded, and the sand and stone splashed, drowning Ye Chen.

Xuanjiyue didn't seem worried at all. She stood quietly in the air, watching the development of the situation coldly.

This time, it seems to be calm to stop, but in fact, her hands have condensed frost spikes.

The void in front of her burst and her breath leaked out, making her unable to determine the specific location of Ye Chen.

So she's waiting! When the star fragments dissipate, they will completely send Ye Chen into reincarnation based on the vertebra of fate.

This is her last kindness!

After almost three breaths, the torrent of this fragment will pass, and ye Chen will have nothing to hide.

The stars collapsed, and the faint light soared into the sky, sending out bursts of sound of fragmentation, accompanied by matchless noise.

At this moment, ye Chen fell into endless darkness.

"Boy, don't you just want to give up? Don't forget that you are the Lord of reincarnation, and there are many missions waiting for you to complete! You can't give up halfway!"

Huang Lao's reminder sounded in Ye Chen's mind.

Ye Chen can't draw much strength at this time. That trace of boundless strength is the limit he can bear.

"Smelly boy, I have another item here that may help you break the prohibition of the flesh, but it can only be used once."

"But if you want to use it, you need to rekindle your reincarnation blood. Come on, you can't sink here, otherwise you will be completely wiped out by the power of fate!"

Huang Lao encourages Ye Chen to stand up again.

Ye Chen's eyes trembled slightly. He really didn't have half his strength. Like a vegetable, he could only hear the voices of the outside world and the inland sea, but he couldn't respond to it.

No matter how the old call, it can't produce effect.

He tried to use various methods to wake Ye Chen up again.

"Boy, think about beautiful things. Think about your confidants. If you don't wake up in time, I'm afraid you'll be abducted by others!"

Huang Lao is also anxious at this time. If he can't wake up Ye Chen again, I'm afraid he will be swallowed up by Xuanji moon's attack. At that time, everything will be over!

This shout seemed to have an effect, and ye Chen's fingers trembled slightly.

Seeing that this was effective, Huang Lao was immediately happy and went the opposite way, saying it as quickly as broken thoughts.

Sure enough, ye Chen's eyes began to struggle violently, slowly opened the low and dissipated vitality, and gradually restored consciousness.

Seeing this scene, Huang Lao was very pleased, so he took out such things from his reincarnation cemetery.

"Smelly boy, you have to use it well! This object is called heaven and earth roulette. Even in ancient times, it is an invincible existence that tore apart space! It was with this object that the God of war of the West sky defeated the old enemy Immortal Emperor."

In Ye Chen's sea of Qi, there was an object flying, wrapped by a faint light mass, which did not completely manifest, but only exposed a sharp corner.

Although it's just a corner, it's shining enough to see all kinds of mountains and rivers flowing and fluctuating.

Taking this power out, you can easily step on high mountains, kick away giant mountains and evaporate rivers. It can be said to be extremely terrible.

"Remember, this thing is made of the green ox horn of the Holy Land Lao Tzu! It can tear the heaven and earth and break the void. It is also rumored that the green ox horn is the most powerful thing in the world!"

Ye Chen regained his mobility. In his heart, the last reincarnation blood is flowing slowly.

As for his internal organs and meridians, all his bones have been completely exhausted, and the whole human form is haggard and thin to disfigurement.

He could feel the horn of the green bull. It was extremely sharp and contained endless power. Although it is still in its initial state, the invisible field has spread.

This breath is invincible and dominates the whole void.

Many people are waiting to see a good play. They don't like these outsiders who invade xuanhai.

No matter how domineering and powerful Jianjia saint is, she is also a person of xuanhai. At least what she does will be subject to xuanhai's interests.

But they really think too much. For Xuanji moon, as long as she can destroy Ye Chen, even if she takes the whole xuanhai to be buried with her.

It's late, it's fast.

The time of three breath passed in the blink of an eye. When the broken starry sky and Haigu scattered, Xuanji moon threw down the sword without hesitation.

The road is simple and plain. All the killing moves are condensed at the tip of the sword.

The power of fate blooms to the utmost, shining for nine days at this moment, crossing the eternal star river and reaching the depths of the sky.

Those present have long appreciated the power of fate, which is an existence against the sky.

Whether in the past or in the future, the power of destiny is enough to rank in the top five!

The sword light falls, the Star River is bright, and the unparalleled killing move suddenly rises.

But at this moment, ye Chen stepped on a divine light, deviated, stood in the distance, and just avoided the art of divine sword.

The change for a moment came so fast that even Xuan Jiyue reacted after she waved the sword light.

Other people were even more shocked, staring at Ye Chen's figure, with an incredible face.

Chapter 7225

The devil emperor and sun Yerong stared, and then breathed a sigh of relief.

It would be great if ye Chen is all right. At least now there is still a chance to turn over.

Moreover, the demon emperor of Zhetian faintly felt that ye Chen had a strange power, which did not belong to the ten thousand realms of the heavens.

Is this a force from the supreme world?

Or somewhere else?

"It seems that your life is hard."

Xuanji said coldly without expression.

Even if she had the upper hand at the moment, she couldn't help getting a little angry.

He shot again and again, and each time he let Ye Chen escape.

This is her ashram. She sacrificed almost everything for this war, and even it was difficult to break through for some time.

This is the price.

When the smoke and dust dispersed, ye Chen stood in the starry sky. His body had recovered as before, and his muscles were wriggling, as if he were going to break out.

Reincarnation God's body is extremely strong and powerful. Even to some extent, it is better than the martial artist who cultivates aura. Now it integrates with the horn of the green bull and has mastered the unparalleled treasure. Its short momentum should roar like the clouds of Lingtian and cross the world!

Xuanji moon also noticed the strong breath on Ye Chen and couldn't help frowning.

For the body refiner, the breakthrough of blood is the most difficult.

If you want to transform, Nirvana and rebirth, and transform the whole body, it is even more difficult for physical cultivation.

But if you succeed, you will be famous for thousands of history and become a thick ink and heavy color.

Since ancient times, only one stone emperor has ever completed such transformation, ruling the heavens and the world for nearly an era!

Eventually died of Qi and blood failure.

Until his death, no one in the world was his opponent. It can be said that he dominated the world and didn't give anyone a chance to challenge authority.

In the face of xuanjiyue's ridicule, ye Chen's look was calm without waves.

The two stood against each other in this way, fighting for a battle round.

The horn of the green ox appeared behind Ye Chen. It seemed that there was an old Taoist with an ox nose, riding a green ox, walking leisurely in the clouds.

It was also at this time that the boundless blood waves came up, which surprised the whole world and completely covered up the field.

That is the power of reincarnation to fight against fate.

Scenes of ancient images emerged from it. For a time, blood and flesh splashed in the void, shouts shook the sky, bones were buried and formed, and the red river ran through it.

The momentum of the two is rising, and at the end, a terrible scene comes, and a trace of fire burns out the world.

Blood is terrible.

With the horn of the green bull, ye Chen cut off the void here and temporarily cut off contact with Xuanji moon.

Xuanjiyue stretched out her hand and found that the void had been completely locked. Even she couldn't push it away easily.

"Do you think you can get a chance to breathe and escape here? It's impossible. I said if you want to die, you have to die, even if I pay the price of disability."

Xuanjiyue said it very decisively. The power of fate in her hands was transformed into majestic vitality and gave birth to infinite vitality.

The glow is scattered and auspicious in groups. The Xuanji moon comes slowly, graceful and beautiful.

She walked forward slowly. The leaves of ancient trees floating around her were full of the power of fate. As long as she played a little, she could immediately stop people's mind.

And the seed of fate, combined with the thunder, will float to the utmost and grow into a majestic and turbulent force! To penetrate the void in an instant and cover it.

At the moment, she is incomparably beautiful, and people will worship her at the first sight. The rich vitality emitted by fate is far from ordinary strength!

There was also a slight change in the appearance of Xuan Ji's moon. A silver gray long hair turned to a green color, giving more colour to her skin, a pair of bright eyes, a strong spirit, and an eye shadow changing to dark green, as if it was an ancient elf coming out of the forest.

"Fate is not limited to one place. It will show you today."

"If I were outside, I might have fallen into your hands, but in xuanhai, this is my only chance to kill you."

"As the saying goes, I've let you escape twice. The third time, you'll die."

Xuanjiyue was tired of saying this. She launched the final kill. As soon as she grabbed the palm, the black hole compressed and turned into the ultimate point awn, and then it erupted violently and spread in all directions!

Boom!

The star like light rippled away and rushed to the lonely place.

Ye Chen took a deep breath. When he opened his eyes again, the green light intertwined. The horn of the green cow attached to his body and slowly fused with the reincarnation blood.

At this time, it has been integrated into one third!

In front of Ye Chen, the blood of reincarnation explodes and involves the galaxy. There are thousands of visions and amazing power.

Since he can't use any auxiliary means, he will take the other party with the power of the flesh!

"Cut!"

In the black hole controlled by Xuanji moon, strong vitality burst out, which is very majestic and amazing.

Like a falling star river, unparalleled breath burst out.

The outside is also wrapped with a layer of sugar coating, green and lush. If you are careless, you will be stabbed by the killing machine hidden inside!

Bang Dang!

The light golden ripples burst one after another, and the dark light suddenly became clear, blooming like a sword and cutting in the void.

The so-called random cutting is aimed at Ye Chen!

Chapter 7226

Xuan Jiyue shot very quickly.

But ye Chen is not waiting to die!

He stretched out his hand and pinched it. There was a fairy family around him. The fog filled the air. That was what he had gained by tempering his body for many years. With this, he could form a strong defense array.

The dazzling light flew over and crossed thousands of miles. It was huge and amazing. It exploded the clouds, smashed the void and moved forward at a high speed.

This is the power of the Lord of destiny, mixed with the principles of heaven and earth, and condenses the most amazing Taoism in the world of heaven and earth.

Ye Chen deeply knows himself. If he can't bear the blow, don't talk about the Jedi counterattack!

Xuanji moon, who is in the void, is flexible and elegant, just like a relegated fairy in the fairy world.

But at the same time, the power she exudes is amazing and terrible.

One side is dancing, while the other side is like devil's nonsense. The two poles of yin and yang are opposite.

Half god, half devil, this is the mystery of fate. Ordinary people can't stop it at all.

Those sword Qi turned into evil spirits and opened their huge mouths to swallow Ye Chen.

Xuan Jiyue shook her hand and sent out an unparalleled sword. She wanted to poke the void through.

Such lethality is extremely frightening, and even goes beyond the level of some heavenly kings to the depths of people's soul. The strong people who see this scene are shocked one after another.

Let alone Ye Chen, who is strongly supported now, even if they enter them, there is only a dead end.

The divine light was terrifying and overwhelming. It pressed towards Ye Chen and completely released. It wanted to form a space gap, suddenly closed up and burst his body.

In any case, both of them will win or lose in this move.

After this move, Xuan Jiyue will exhaust herself, but she will also become the final winner.

If you win, ye Chen still has a chance to fight back. However, no matter in terms of volume, power, or the divine way of heaven contained in it, even if the bondage of the divine way is opened now, it may not be able to stop him from using his divine powers.

Boom!

Ye Chen deeply understood the truth here, so he no longer hesitated. He had completely swallowed the horn of the green bull and turned it into his own body blood, shining out with reincarnation.

The thunder was raging, and the crazy lightning was like a dragon, fluctuating layer by layer, swallowing Ye Chen's body.

Ye Chen withstood the pressure, just like a startling God of war. All his internal organs are open, showing one terrible light after another. All of them split into a river, and the clear light flows.

The cave of all things was also opened and boldly formed.

Ye Chen recited softly. Heaven and earth morality and primitive truth were transformed into streamers, which shot out of his mouth and became a mysterious Rune law.

All the forces gathered in a reincarnation gate, and the cave was fully opened, like a bright sun, enveloping Ye Chen.

Ye Chen stood at the air outlet of the cave, as if he had practiced the eternal golden body, and all the dharmas were inviolable. Even if it was a violent spatial fluctuation, he couldn't help him!

At this time, ye Chen realized that the most powerful thing was the original Rune on the horn of the green bull! It can resonate with the body and supplement a steady stream of strength.

The reincarnation in his body continued to shine, emitting bloody light.

Now ye Chen is possessed by pure light and blood, and the two poles of yin and Yang flow through his body, turning into a mysterious and towering force.

"Come on, Xuanji moon, there must be a death today, but it may not be me!"

"If there's anything else you can do, just do it! I'll take it!"

Ye Chen's voice is as cold as ice.

Endless power came through the air and attracted the sky. Even if thousands of miles of terrible visions fell for it, they all fell in front of Ye Chen, but they were blocked by mysterious runes.

Green light and blood light, combined together, took the initiative to attack, and even resolved several startling visions from the fall.

The mysterious Rune position is stable, and the earth shaking brilliant divine awn erupts.

The people below were stunned. Ye Chen Mingming had fallen into a dead end, but at this time he became extremely overbearing.

The two forces collided and fought, separated again, and the whole void was turbulent.

Xuanji moon's eyes at the moment turned into dark and deep.

Her anger, obviously, had reached its peak.

Ye Chen is like an immortal Xiaoqiang. No matter what means he uses, he can't completely eliminate it.

"I don't believe I can't kill you today!"

Xuanji moon roared angrily. The whole person had lost the style of being relegated to the immortal. She covered the sky with one hand and left the whole sky behind.

Even ye Chen felt a short suffocation. His body was imprisoned and couldn't move at all.

Xuanhai is even more desperate to help xuanjiyue deal with herself. I don't know how Hongjun's father will feel about this scene.

Xuanji moon is like an ancient dark existence at the moment. Standing at the end of the long river of time and overlooking the ages, she is bound to kill Ye Chen!

Who can stop such a person?

The amazing power of fate tore the eternity through the ages, and even a large void was shattered. It was a faint light that drove slowly, almost shaking away the human spirit.

The stars are shining and trembling, and the void is chaotic.

The boundaries shrouded in this field are all turned into powder and cannot be condensed again.

Ye Chen only felt that the whole human spirit was about to split, as if there were thousands of wild beasts circling and roaring in his ears, and he would swallow them into his body the next moment.

Ye Chen was so dark that he almost fainted.

But the horn of the green bull emits a faint green light, protecting the meridians all over his body!

Ye Chen was able to avoid it.

In this war, he seemed to see nine days and ten places, opening up at the same time.

Such a scene, brilliant and tragic, but everything will eventually return to the dust and earth, just like their own destiny, is about to crash like a meteor.

"Fate and reincarnation seem to have other causal entanglements..."

However, ye Chen has no time to manage these at this time. He needs to pursue the extreme way and surpass the current strongest state in order to relieve the current dilemma.

Stronger, I want to be stronger?

At this moment, ye Chen's eyes burst out a terrible light, and his powerful breath oppressed him, and his thick hair spread, and all the stars around him burst into pieces and bloom.

At the moment, ye Chen seems to have entered the world he has opened up. He stands alone in the center, overlooking the ages and watching the rise and fall of the ages. Whether it is sadness or joy, joy or sorrow, he has been detached and has no intention to pay attention to these.

The world is vast, but ye Chen is very lonely.

He stood on a man's battlefield, bleeding and sweating, fighting alone for a long time.

Finally, in his old age, it was very desolate. The reincarnation blood was nearly dry, and the fire of life was flickering faintly.

I don't know what's going on. The sadness and sadness in his heart become more and more intense, which makes Ye Chen couldn't help sighing.

Chapter 7227

An invisible future? How to crack it.

Ye Chen clenched her fists to find an answer.

His mind has been separated from this field, even through the void and came to a distant place.

There is a boundless sea area. The waves are surging and the sky is covered by dark clouds. The scene is very frightening.

In that sea area, there is a place that has never been attacked. Even if there are waves, it cannot be submerged.

It seems that at this moment, ye Chen's pupil pierced the future and saw a golden sword, which was inserted straight into the sea, some real, but vague.

The sky is bright and vast. If you want to turn it around, I'm afraid it will take a great effort.

But at this time, a divine sense told ye Chen that as long as he found the divine sword, he could know everything.

All the secrets are hidden here, but ye Chen has to be able to find them here!

Ye Chen's whole body was shocked, as if he had received some guidance. At the center of his eyebrows, a blood red brand slowly emerged.

Ye Chen's heart was shocked. He digested this wisp of divine knowledge, and his eyes shone when he opened his eyes again.

In the outside world, he seems to be lost. His eyes are red and confused. He has been struggling all the time.

Sooner or later, ye Chen's body moved slightly, and the void under his feet suddenly broke, and the black crack spread immediately.

The horn of the green bull was divided into two, turned into two blue circles, floating at his feet, as if to lift him up into the sky and rush into the sky.

Ye Chen's potential was inspired!

He must survive to find the mysterious sea!

There is the power of reincarnation Heavenly Sword. The golden light shines and is unmatched.

Only by finding that place can we unlock the secret!

Ye Chen suddenly raised his head to face the almost invincible black awn. His eyes were firm. His flesh erupted into the final bright light, clenched his fists and blasted upward, shaking him.

The void, which stretches across countless miles, seems to burst into two, sending out a loud bang through the starry sky.

The collision between the two sides not only tore the void, but also made everyone present tremble.

At this moment, the horn of the green bull soared in horror, emitting a fiery cyan light, emitting a smell of fairy fog, intertwined with mysterious runes to eliminate all obstacles.

Dong!

Ye Chen's body broke through all kinds of obstacles, and this time, he clenched his fist, wrapped his reincarnation blood into a layer of armor, and suppressed it upward!

What a powerful force, sacred and terrible, that can almost fight against the lost breath.

Xuanji moon also noticed the great crisis. She didn't expect Ye Chen to reverse heaven and earth at the last moment. Such a divine light broke out, just like the supreme artifact that suppressed heaven and earth.

Ye Chen's body is not only a body in a single sense, but comparable to the existence of the supreme artifact.

He pierced the black awn and killed Xuanji moon in front of him, with four eyes facing each other.

Then, ye Chen no longer kept his hand, and the sound of banging was heard all the time. His fist sent out a bleeding red flame and hit xuanjiyue's body hard.

Xuanji moon couldn't escape. She flew out upside down and penetrated more than a dozen broken mountains, which made her stop.

But ye Chen followed, and a pair of fists contained the power of the law of the great road. Each blow would break xuanjiyue's body and form irreparable scars.

Xuanji moon didn't expect that the trap she set finally completed Ye Chen!

Let Ye Chen practice invincible holy body in the face of death threat.

This time, ye Chen broke free from the bondage of heaven with the power of the holy body.

The chain of heaven that this oath puts down is unfair, but only when ye Chen reaches a certain level can he get rid of it.

With a dragon chant, three fierce heavenly swords came boldly and locked xuanjiyue's hands.

The dragon Yuan Heavenly Sword was even more ferocious. The blood dragon roared down, manipulated the blade and directly penetrated into the eyebrows of Xuanji moon.

The three heavenly swords split into chains and suppressed Xuan Jiyue in the void.

Soon two more pagodas came, strengthening the confinement here.

The horn of the green ox on Ye Chen's body flew out and stabbed Xuanji moon's heart.

Even if there is no penetration, it still poses a great threat to it.

After finishing these, ye Chen sat in the air. With a wave of his palm, a Dan furnace shining with divine light flew out, rotated automatically, and the flame rose to refine Dan medicine.

The pills inside flew out, scattered into a little light, and fell into Ye Chen's body.

On the other side, the light of five colors and six colors flashed, and the colorful Koi jumped out and surrounded one after another to treat Ye Chen's injury!

Xuanjiyue used all her strength to struggle desperately, but she was suppressed by several magical treasures. She couldn't escape from Shengtian in a short time.

Just as Xuan Jiyue wanted to use his cards, a grass slowly flew over and shook like a drunken man. It fell on the hilt of Longyuan Tianjian.

Xuanji moon suddenly looked crazy!

This grass looks ordinary and no different, but it completely calms the sword in the center of her eyebrows and makes Xuan Jiyue unable to move.

"No, what is this? Get out of the way!"

Xuanji Yue was anxious. If ye Chen really used the strongest card means, she would be the most direct target. There was no room for resistance at all.

Chapter 7228

She must break free from the shackles of these treasures before she has a chance to live!

Xuanjiyue's eyes burst out lightning. It was she who attracted the thunder buried in her body and hit the two God towers hard, which immediately made the God tower crumble.

Lei Zhong continued to rage. Even the three heavenly swords that blocked his limbs became shaking and were about to fall out!

In a way, this is xuanjiyue's last resort, like a struggling trapped beast.

Seeing that these supernatural powers couldn't hold her down, and ye Chen was still in a state of healing, Xuanji moon filled with hope at the bottom of her heart.

If you can get out of trouble now, you can kill Ye Chen!

But she didn't expect that after the grass noticed her movement, it stood up slowly. When it stood firm, the mighty power swept out and introduced it from the void.

All of a sudden, those magic Tongbao tools stopped moving. It seemed that only this grass was left between heaven and earth, suppressing all things and connecting ancient and modern times!

The sound of rumbling can't be heard. It's heaven and earth shaking!

Xuanji moon was stunned. She never knew that ye Chen had such a magical treasure. The grass seemed to have self-consciousness. What kind of species is it?

However, she had no time to think. The grass completely restrained her. From top to bottom, it was dignified and almost imprisoned the whole void.

"Damn... Ah!!"

Xuanji moon sent out a heartrending roar. At this time, her hair was scattered, her expression was terrible, and her body began to twist.

This scene frightened many people watching the war. Who could have expected that the Jianjia saint, who was high in the past, would be beaten so miserable at this time.

The next moment, ye Chen slowly opened his eyes, reincarnated his blood, turned into two rounds of blood days, rotated and flowed in his eyes, showing an invincible state.

When he got up, the whole world was awed. Everything in the world stopped swinging and dared not move, as if they were welcoming the new king.

"Lord of fate, you are selfish, greedy, indifferent and ruthless, slaughtering countless creatures, regardless of justice or not. Do you know your sin?"

Ye Chen's voice contains the mighty power, sweeping away, and the unparalleled momentum broke out, pressing down the strong in this place!

Xuanji month's forehead burst out layers of cold sweat.

But she still stubbornly refused to admit it.

Ye Chen was not half polite to this and directly blasted it with a sword.

And the grass stepped aside in time, so that all the sword light fell on Xuanji moon.

Xuan Jiyue screamed bitterly. When she lost the shelter of fate, her original strength was much weaker.

Other attacks may not hurt him, but reincarnation will.

Fate and reincarnation have always been in a state of mutual generation and restraint. If one side is strong, there will be one side weak.

With one blow, she was seriously injured.

To some extent, she is now at the end of a powerful crossbow.

Ye Chen is ready for the last blow.

He separated the horn of the green bull from his own blood and took a slow and deep breath.

This time, he wants to kill each other completely without leaving any room.

No one can touch his woman.

Ji Siqing's death needs her blood!

Boom!

The horn of the green bull is the supreme supernatural power left from ancient times. At this time, he also felt the ultimate killing intention in Ye Chen's heart.

Calm to the extreme, that is unable to turn back!

Boom!

Reincarnation blood as the handle and the horn of the green ox as the blade are like a small flame, which suddenly rises and becomes a flame burning the void!

Ye Chen's eyes lit up a wisp of fire.

This is the performance of reincarnation power, burning to the end!

As soon as the fire came out, Xuan Jiyue understood that ye Chen really wanted to kill her!

"No, I can't lose. You can't kill me! I'm the master of fate, the saint given by heaven! I'm also the future helmsman of Jianjia sword sect. I must become a figure like Jianjia fairy in the future."

"What are you? What right do you have to take my life!!"

Xuanji's eyes were red and she screamed.

Ye Chenli was in the void, with no sadness or joy on her face, looking at her calmly.

Their fate has been entangled since their last life. The so-called love, hate, love and hatred, and all kinds of entanglements will come to an end from now on!

Let it all end today!

"You are destiny, so accept your destiny."

Ye Chen said faintly. As soon as he pushed his palm, the Dharma sword made of green and red flames pushed forward instantaneously along the track of the void!

Waving the sword, shining like a Phoenix, condensed into shape, took off and hit it.

Xuanjiyue could only watch this flame devour her and wrap her body in it.

She, since taking charge of her destiny, has not realized the meaning of pain for many years.

But today, I do have some experience!

I felt the pain of being burned by the fire for the first time.

Xuanjiyue struggled violently and roared up to the sky. She wanted to break through the cage and even melt her hands out, but it was still useless.

Boom!

The flame condensed by the light sword suddenly tightened. All things in the world can't resist such a pure flame, even Xuanji moon!

Her body could not bear the combination of the horn of the green ox and the reincarnation blood. In an instant, it was burned to ashes and mixed with the sand and stone in the air.

Ye Chen's eyes were not on the flame. He summoned three heavenly swords, suddenly flew up and stared at a gap in the void!

And there came a voice of extreme anger.

"Ye Chen, do you really want to kill me! I can reconcile with you! It's a big deal not to take charge of fate! And never be an enemy to you!"

That was the last ghost left by Xuanji moon, and it was also her means of saving her life.

I wanted to escape quietly, but ye Chen found it.

Her body has been completely destroyed, and her soul has been severely damaged. She may never recover to the peak in her life.

At this time, she was afraid and just wanted to keep the last trace of the spirit alive.

But the fate of the duel, only the theory of life and death!

Ye Chen will never be soft hearted, leaving this hidden danger.

He gently snapped his fingers, and the tip of the three heavenly swords ignited a flame. The aperture suddenly closed, directly killing the last ray of soul of Xuanji moon.

Xuan Jiyue even screamed in the future. She disappeared and disappeared.

Xuanji moon, the master of destiny of a generation, the Jianjia saint and the arrogant overlord of heaven through the ages, has fallen today, the gods and souls have disappeared, and even the flesh has completely disappeared and no longer exists!

This scene stunned everyone. Their brains were empty. They couldn't predict such a scene.

Even sun Yerong and the demon emperor were very surprised.

Sun Yerong only knew that Xuan Jiyue was the saint of Jianjia, incomparably strong, and was known as the first person of the young generation in xuanhai.

Chapter 7229

In the future, she must be a figure who will ascend to the heavens and take charge of Jianjia Taoism. No one in the whole xuanhai can deserve her!

But it was such a person who died in front of her without bones. Such a scene was more or less shocking!

"This..."

Many people looked at each other. After a while, they realized the importance of this matter.

The saint of Jianjia sword sect is dead!

Moreover, the saint of this term is known as a rare genius in ten thousand years. How much turbulence will it cause in the whole xuanhai if she dies here at this time? No one can predict!

But it is certain that Jianjia sword sect will hunt down the Lord of reincarnation.

The field built by fate and reincarnation gradually dispersed. Ye Chen stood in it with no sadness or joy. Even if he eliminated the old enemy of the two generations, his expression did not relax.

Because he knew that a bigger storm was coming, and that was the really tricky part!

And his heart is heavy.

What if Xuanji moon is destroyed? Ji Siqing has turned into dust, scattered and withered, and completely dissipated in this world.

Somehow his heart ached.

Beauty is gone, when can return, this farewell, perhaps forever!

Ye Chen raised his eyes and looked into the void.

Endless sadness surrounds it and condenses it into bursts of cold frost.

And it snowed in this area.

Snowflakes flutter and sprinkle one after another, such as fluff, which instantly wraps the whole heaven and earth into a piece of silver and plain.

The mind of the Lord of reincarnation leads to the way of heaven, and all things mourn.

Under the boundless heavy snow, endless sorrow for separation is like a tide!

Sun Yerong and Zhetian devil emperor also felt the sadness in his heart and came silently to bear with him.

"She died for you. She must not regret it. If you die, her death will become meaningless!"

The demon emperor slowly said.

Ye Chen nodded and suddenly smiled, full of self mockery.

"What can I bring to the people around me? In addition to injury, it is death. Maybe being my friend is not a right choice."

Sun Yerong and the devil emperor denied this statement at the same time.

They don't want Ye Chen to lose the confidence to fight!

However, at this time, changes occurred suddenly. The heavy snow suddenly stopped flying. Time seemed to be static at this moment, the air was silent, and the dropping of needles could be heard.

Many people were surprised and raised their heads one after another. They saw that the snowflakes were fixed in the air and did not fall, as if they had formed a unique set.

"What's going on?"

There was a voice of doubt.

"It's really strange! The battle is clearly over. Why are there still visions now?"

"The power of reincarnation is really terrible! It can't be defeated at all! Let's run away quickly. If the Lord of reincarnation is angry, we can't escape."

"Nonsense! Although the reincarnation Lord is an outsider, in my opinion, he is not a murderous man, but a Jianjia saint, killing people everywhere!"

“.....”

The people below are arguing.

But ye Chen seemed to feel something, staring at the two places ahead!

One is the empty place where Ji Siqing and the rosefinch gate collapsed together, while the other is the place where the three heavenly swords have just completely hanged the soul of Xuanji moon!

There seems to be some connection between the two places! Ye Chen was surprised.

At this time, some changes occurred in these two places!

The invisible Qi machine woke up from the empty air and woke up from the sleeping place quietly, but it sent out bursts of turbulence.

Ye Chen raised his head and looked at it suddenly. He saw part of the divine light in the clouds, shining on the earth and falling slowly.

"That is... The power of fate!"

Ye Chen could see that the power of fate came back to the sky and rolled endlessly.

He immediately rose to the sky and raised the Longyuan Heavenly Sword. Like a shell, he rose up in the air, full of brilliant light, like the sun, set out the field and stared at the power of fate!

Bang!

The power of fate poured down like a torrent.

At this time, ye Chen finally understood what was going on.

After Xuanji Yueshen died, the power of fate became an ownerless thing. At this time, she wanted to escape.

But ye Chen won't let it leave easily!

Perhaps this will be the best chance to revive Ji Siqing.

The power of fate, as the name suggests, can reverse heaven and earth. Whether it is life or death, as long as you get it, you will have a chance.

Ye Chen's eyes twinkled. He used his spare power and waved a sword, but it was not a direct attack, but scattered into stars, blocked here and slowly reduced the field.

Then squeeze the power of fate and come to the place where Ji Siqing's body floats!

The silver white sword light flickers constantly to block the power of fate, but it is obviously very difficult!

Ye Chen bit his teeth and used all the source symbol rules in his body!

On the sword Qi, the runes are intertwined, and the power of rules becomes extremely terrible, which is immediately solid.

A flame rises rapidly, melting those gaps directly into a barrier.

"Brahma divine skill! The word of the soldier is broken!"

Ye Chen is iron hearted and wants to beat the power of fate!

The hope of reviving Ji Siqing is here!

Whether he succeeds or not, he has to try.

The broken Shinto contained in Bing Zi Jue burst out from ye Chen's palm and turned into a ray of streamer, carrying the supreme broken mystery.

Break first and then agglomerate.

This is Ye Chen's understanding of the nine day broken Shinto!

Chapter 7230

Those layers of space barriers were scattered and broken by the powerful force of fate.

But soon, there is a broken meaning to make up directly!

The sacred source symbols show a streamer state, which deeply interprets the mystery of taking Yin as Yang and overcoming hardness with softness.

No matter how hard those forces of fate struggle, they can't break through these seemingly soft, but actually tough defense lines.

But those forces of fate are not so easy to deal with! Still struggling violently.

The thunder shook, and even the sun flickered and went out. The infinite fate struggled, like a mountain roaring tsunami.

Look like that, you have to break free from the cage here anyway.

Ye Chen spits out a mouthful of blood, his face is pale, and a strong sense of weakness sweeps through. This is the price of a war with Xuanji moon.

But of course, he still clenched his teeth and used his most powerful strength!

"Samsara heaven: holy heaven!"

Ye Chen sacrificed some reincarnation blood essence and used himself as a melting pot, which directly improved the strength of this layer of space barrier and made the power of fate lose the opportunity to resist!

At this point, the power of fate stopped and could only swim forward along the route paved by Ye Chen.

After a while, the power of fate passed through the place where Ji Siqing died and merged with the dust emitting a little starlight.

Next, ye Chen saw a new body slowly condensing out under the shining light.

Black hair and waist, pretty face and exquisite.

With a wave of Ye Chen's hand, the debris in the sky condensed into a hazy nebula, enveloping Ji Siqing's body.

But the body hasn't fully condensed.

But that's what Ji Siqing looks like!

Ye Chen was immediately excited. He suddenly had a flash of thought, which worked!

On the other side, the devil emperor and sun Yerong looked shocked when they saw this scene.

"Ye Chen, let's help you!"

The demon emperor who covered the sky said that sooner or later, he immediately summoned the heart of the demon emperor, and the transparent light shone out, imprisoning the empty land.

Sun Yerong was more direct, and a huge blue lotus appeared in front of her.

The lotus flower bloomed slowly, with a light cyan light.

If you want to master the rules of fate, you must use twelve points of strength.

Fate is beyond the six ways, not controlled by rules, and represents one of the sharpest and magical forces in heaven and earth.

If there is a power that can surpass the law of fate! It was terrible.

Ye Chen is under great pressure. Even if he uses reincarnation to suppress it, he can't completely deal with it!

For a moment, his eyes were full of light and his arms were spread out, as if to bring the whole emptiness into his arms.

After a moment of struggle with the power of fate, he seemed to know that he could not escape and was gradually suppressed by reincarnation. With the help of two powerful forces outside, he gradually looked for a new host.

In this space, Ji Siqing's body has been condensed into shape!

Black hair danced in the void, and the majestic power startled the world.

When ye Chen saw this scene, he pressed down the excitement in his heart and completed the final spiritual body fusion.

The power of fate gradually integrated with Ji Siqing's body, invisible and untouchable, but it really happened. People with weaker strength can't see this scene at all!

The most mysterious power between heaven and earth is Hongmeng, which is at the same level as chaos and juxtaposed with the Supreme Master.

Hongyi is the beginning of heaven and earth, and Jun is a powerful force.

Born in Hongmeng, destiny represents the most ancient and primitive force in the world and the most overbearing.

Hongmeng shuttles through all times, which was formed before the birth of the universe of the heavens. The so-called Tao generates one, two and three things. The Tao mentioned here is Hongmeng.

Someone once told ye Chen that no matter how powerful people are, they can't overcome the most initial original power between heaven and earth!

But ye Chen doesn't believe this evil.

"What the origin of heaven and earth! What I believe is that man will conquer heaven! If fate is unfair, then fight! If fate is not satisfied, then I will subdue it!"

The reincarnation blood flowed in Ye Chen's body, but what he relied on was the powerful martial arts.

Take this blood to break through the six samsara, control the samsara and drive the destiny at the same time.

Who dares to think of such a crazy idea through the ages?

Perhaps only the ruling Lord once thought that he should rely on the reincarnation of Ye Chen and the forging ability of Xiao Buyi to refine a Hongjun Heavenly Sword that breaks through the reality.

But that idea is just nonsense after all.

Weapons beyond reincarnation not only need to break through the rules and restrictions of the real world, but also need time!

Therefore, the judge was deeply hit later because the distance between ideal and reality was too far.

"Out!"

Ye Chen manipulates three heavenly swords. The sword is perfect and handy. It's almost going to break through the limit of the sky!

Driven by his madness, the power of fate gradually squeezed towards Ji Siqing and gradually approached success!

The power of fate condensed into a solid shape. In a moment, the mighty river scattered and opened, and the pure water source of life was like a big river with waves, dense and turbulent.

Ye Chen bit his teeth and stepped forward. The vast and ethereal breath filled the air.

For a time, the water flows vertically and horizontally, turning into vitality, with strong immortal power. In this river, there is a trace of spiritual shadow, which is transformed by the visions of heaven and earth.

Wow.

The faint sound of water washed Ji Siqing's new body.

The endless river spread rapidly, running thousands of miles, forming an endless ocean.

This sea is not controlled by anything! Even shuttling around at will.

Ji Siqing's body surface condensed a light blue robe. Her eyes were still closed, but her body was conscious.

It is like a fairy in the water, breaking through the waves, carrying a curl of fairy gas, and steaming clouds.

Until this moment, the cohesion of fate was completely successful.

Behind Ji Siqing, water waves turned into vines and bloomed like a divine chain, revealing strong vitality.

And on this basis, the breath of fate gradually increased, breaking up the surrounding void.

Everyone is watching this scene, from the death of the body and soul to rebirth, and then to contact the inheritance of fate, which is enough to startle everyone's eyes.

Under the attention of the public, Ji Siqing's eyes slowly opened, from doubt and confusion to the restoration of Qingming.

It took two breaths!

And these two interest rates, for ye Chen, are as long as vicissitudes of life.

Ji Siqing's soul recovered again and accepted the favor of fate. From then on, he became the master of fate of a new generation.
