Chapter 7241

Some people are guessing what it means to show the image to them.

When they watched the battle, the ancient emperor Yu Huang was meditating in his eyes. After a long time, he slowly opened his eyes. His eyes seemed chaotic, but hidden a cold ray breaking through the sky.

"As you can see, the Lord of reincarnation has now grown so strong that the wanxu Temple sent people to kill him again and again, all of which ended in failure. Even Hong Tianjing died in his hands."

The feather emperor said in a calm tone, but everyone could hear it. It was the ultimate anger.

What kind of person is the feather emperor? Led the ten great ancestors to wipe out the old masters from the last term, overthrow the decadent old Dynasty, and establish a new era alliance led by the wanxu temple.

Unify the heaven and the world, and ascend to the top of the world.

Such achievements shine through the ages and across the ages. In addition, who has done it?

And for thousands of years, no one has been able to threaten the position of the feather emperor.

Even the reincarnation Lord of the previous life is only making a lot of trouble in the lower world, and can't get into the eyes of the emperor.

But it was from this life that the rising star named Ye Chen was like a meteor, shining brightly in the sky.

The reincarnation Lord of this life not only has an inseparable connection with Ren family, but also understands the way of nothingness outside the real world and is juxtaposed with Hongjun's ancestor.

This talent is shocking.

The proud sons of heaven in Lianwanxu Temple usually claim to be the first in the world, but after seeing Ye Chen's performance, they can't help but sigh.

In terms of talent, perseverance and luck, Ye Chen has reached the top of the heavenly world. I'm afraid few people in the world can reach it.

No one can guess what the ancient emperor Yu Huang is thinking. At this moment, the person who wants to kill the Lord of reincarnation must be him!

Once the Lord of reincarnation really rushes to the supreme world, he must come with a strong attitude of landing on the heavens.

At that time, the whole Wanxu temple will fall into unprecedented difficulties.

They don't want to see such a scene!

"I don't believe it yet. Our Wanxu Temple commands the whole heaven and world. Any forces must obey our orders. Who dares not to obey? It's just a small reincarnation Lord! Ancestor, disciples are willing to take orders and go to the lower world to kill him!"

"And the strength and potential of the reincarnation Lord are terrible, but the real strength is still vulnerable to us."

"Xuanjiyue died in his hands. He was extremely difficult, but it must be very easy for us to kill Xuanjiyue."

"I'll go with you!"

"Grandpa, please help me! I will kill this Liao forever!"

"....."

Many people in the wanxu Temple felt that they were oppressed and angry. The first sect in the world of heaven could not clean up a younger generation. It was a great humiliation.

But the feather emperor seemed very calm.

As soon as he closed his palm, the Xuantian divine realm was like streamer and returned to the ancestral land of the wanxu temple again.

"Several times ago, I sent people to the lower boundary to intercept Ye Chen, but they all ended in failure, which also attracted the attention of heaven. Now my rules are more and more strict."

The ancient emperor Yu Huang directly urged a separation last time and wanted to cast the sword under the net, but he was blocked by the supreme daughter, Ren Feifan and the evil ancestor Wutian.

It was this war that made the rules of heaven come completely. In addition, the Jiuding array was destroyed many times. Now he can only stay in the Taishang world and can't go to the lower world at all.

When people with the whole wanxu Temple went to the lower boundary, they were restricted by many inexplicable rules. When they went there, their strength was greatly reduced.

Therefore, the feather emperor should call them over and fully realize the horror of the Lord of reincarnation, so as to make subsequent plans.

"You go down and prepare first. Whoever can kill the Lord of reincarnation himself can become the little door Lord of the wanxu temple and accept my real inheritance."

The feather emperor said slowly.

As soon as this remark came out, thousands of disciples of the wanxu temple were stunned and their eyes lit up with hope.

Both the Shao sect leader and the personal disciples of the ancient emperor Yu Huang have irresistible temptation.

Then the ancient emperor Yu Huang gathered a group of brilliance in his palm and twinkled with soft power. With a flick of his fingers, that part of the power turned into an incomparably small firefly, flew to the distance and drilled into each of the disciples of the wanxu temple.

"This is the source of the wind and the power left by the Supreme Master. Attaching to you can enhance your strength and let me know who killed the Lord of reincarnation in the end. Spread out. If there is any new situation at that time, I will send someone to inform you."

"I take orders!"

"Subordinate, take orders!"

“.....”

Ye Chen didn't know that the picture of fighting with Xuan Jiyue was seen by the people of the whole wanxu temple.

Even if he knows, he doesn't care.

Wanxu temple is the biggest enemy in his life. His goal is to overthrow the wanxu temple under the rule of the ancient emperor Yu Huang.

Even if the other party knows?

The power of reincarnation can't be dealt with.

His current strength may not be enough in front of the wanxu temple.

Even in the wanxu temple, many strong people come. If they are not suppressed, it is easy to kill themselves.

But the reincarnation of Qi is destined to only let him stand after breaking!

Chapter 7242

After crossing several empty lands, they returned to beimangzu land, and Ren extraordinary also successfully passed the pass. They learned the cause and effect of xuanhai from several people.

When he heard the false shadow of Hongjun's ancestor reappear, Ren extraordinary couldn't help falling into meditation.

It's not a trivial matter for Hongjun to reappear his father's separation!

Moreover, Hongjun's ancestors seemed to attach great importance to Ye Chen, and I didn't know what purpose it was for.

When Ren Feifan reaches the peak level of the world, the people and things he sees are relatively different, so he will think more comprehensively.

"No matter what Hongjun's ancestor means, this road is always right. Your next task is to find Lei stele and the remaining reincarnation xuanstele and complete the promotion of reincarnation blood."

"However, the world should already know about your defeat of the Lord of destiny, so you should be prepared. No one knows how the emperor will arrange the next matters."

Ren Feifan thought for a long time and said to Ye Chen.

The feather emperor is gloomy and unfathomable. Even he can't determine what the other party is thinking. Now, he can only take one step at a time.

"That's the only way. I'm going to shut up for a few days and thoroughly understand the changes of this reincarnation blood."

Ye Chen thought for a while and then said.

"It's so good. Maybe you can communicate more with fate. The two complement each other. Previously, reincarnation and fate were enemies. Now they have become partners and don't have to be so bound."

Ren Feifan looked at him and showed a meaningful smile at the corners of his mouth.

On the other hand, Ji Siqing, after hearing this, his ears became red.

She vaguely gave Ye Chen a look, quite a little resentment.

Ye Chen pretended not to see it and returned to his cave to practice in isolation, as if all foreign things could not shake his determination to practice.

But after dusk, when the night came, ye Chen left his cave and used the virtual stele and virtual spirit pulse, quietly and undetected by anyone.

Then he came to another cave. At this time, Ji Siqing had finished his cultivation and was going to bed. He planned to let the spirit sleep in the way of sleep, so as to accelerate the integration of himself and the power of fate.

But just then, she suddenly heard a sound, and then a man appeared beside her.

"You..."

Ji Siqing was immediately surprised, but ye Chen made a silent gesture, and then turned over to bed. Without any explanation, he took it into his arms.

"Don't talk. If you speak too loudly, others will hear you."

Ye Chen smiled and said. Immediately he reached out and waved, and the invisible power spread quietly, enveloping the field.

"I... I..."

It may have been too long to spend a good night with Ye Chen. Ji Siqing was shy and his eyes kept dodging.

"Elder Ren said that reincarnation and destiny need to be combined into one in order to play a greater effect! That's true." Ye Chen said seriously.

"Oh..."

Soon, Ji Siqing's response became long-lasting and even contained a taste of shame.

In this sealed field, the outside is calm, but the inside is surging and rolling.

Moreover, in the field of reincarnation, time can be infinitely prolonged, and an hour can reach a year.

That is, during this year, the wind and rain did not stop.

When the wind and rain stopped, ye Chen lifted the closed state, wiped the sweat on his forehead and gasped.

Ji Siqing also felt that the fate and reincarnation cultivation of an hour was more difficult than the cultivation for several years in the past year.

"The effect of cultivation is pretty good."

Ye Chen narrowed her eyes and said with a smile.

Ji Siqing turned her eyes angrily. She found that ye Chen had become more and more extravagant since he ate marrow and knew the taste.

In the past year in the field, their cultivation sites ranged from mountains and forests to river secret places. Finally, they were still in an ancient relic, facing an abyss and practicing hard.

Of course, the results of cultivation are also extremely significant. At least they feel tired on the surface, but they have already been happy in their hearts.

Moreover, the blood flow in the body has become much smoother. If you persist in this way in the long run, it will be of great benefit to the improvement of blood level.

"Let's get here first today!"

Ye Chen breathed a sigh of relief and thought that the little girl looked good and clever, but she was so wild! With the divine body of the Lord of reincarnation, I felt tired.

Ji Si nodded, his eyes a little angry.

She didn't expect her fierce attack. Ye Chen carried it down one by one.

That's a powerful force mixed with fate!

Thinking of his later life, Ji Siqing was happy and worried.

Ye Chen touched her head, and then sat down to meditate. There was a faint radiance emerging from his body. Koi, like flowers, surrounded each other.

He used the immortal Koi copy to absorb all the Qi, fortune and laws, which can resist all the attacks of ghost Qi Shura.

Tianxian Koi copy and protect the periphery, while ye Chen uses the eight trigrams Tiandan technique in his body, which can help him restore the power of the elixir field.

Then he took out the page of tianwu Wolong Sutra. At that time, the Lord of the ruling sent someone to send it before he entered the xuanhai sea, just to give him this page of tianwu Wolong Sutra! After all, he promised himself.

Tianwu Wolong Sutra is not so good and easy to refine. It belongs to one of the 33 Tianhong Mongolian laws, and it is also the most special existence.

Zhutian divine sword formula, Tianlong eight divine sounds, Bagua Tiandan technique, Tianshan Koi copy and Hongmeng starry sky are all Hongmeng ancient methods he has!

In addition to the Kaitian wuwolong Sutra, the other 32 Hongmeng ancient methods are amazing enough.

These 32 kinds of ancient Hongmeng methods are: Six path samsara method, crape myrtle fatalism, Xingdi Haoran Qi, Zhutian divine sword formula, Tianxing five Jue array, eternal Dala sky, fahua silencing the sky, Tianlong eight divine sounds, misty rain covering the sky fog, Tiangang Jue Ming Fu, Tianmo Langyan blade, blazing sky rosefinch sword, juehan Tiandi chopping, snow startling Tianhuang sword, Bagua Tiandan technique, Tianxian Koi copy, five dragon tour Tiandao Tianshang Stardust sand, burning wild Tianjing explosion, Tianmo dragon subduing seal, Shenwu shaking the sky strike, Tianyin ghost killing stab, Dahuang Tianlei body, dead spirit prison lead, black prison breaking Tiantong, Yongye great magic day, giant elephant town Tianjin, Tianmo cave bright eye, huangquan disappearing Tianjue, Taiyan Tianxing art, hiding from the sky stealth art, Tianmo disintegration Dharma!

The ranking order of the thirty-three Tianhong Mongolian methods is somewhat exquisite. The tianwu Wolong Sutra is the last, which is the skill of the former top strongman Wuzu.

But if it comes to power and value, tianwu Wolong Sutra will never lose to any other Hongmeng ancient method.

Chapter 7243

Even to some extent, it can be completely comparable to the six samsara method! And the complete tianwu Wolong Sutra can surpass everything! The reason why tianwu Wolong Sutra ranked so low was that when Wuzu fell, the scriptures of tianwu Wolong Sutra disappeared with the disintegration of the whole palace.

Even though the ancients were able to see a variety of Hongmeng ancient methods, they could not find a complete tianwu Wolong Sutra.

Therefore, it is not because its power is too weak, but because it is too difficult to find.

Ye Chen also has an indissoluble bond with tianwu Wolong Sutra. Without obtaining it, he refined it into a Hongmeng starry sky.

At the same time, it also activated the heart of Wu Zu's Taoism. With Wu Zu's protection, his martial arts went more smoothly.

After that page of tianwu Wolong Sutra floated out automatically, the whole room was filled with incomparably vast and dazzling divine light.

As soon as ye Chen raised his hand, he condensed into a boundary and blocked the space directly.

The power of reincarnation is slightly higher.

Ji Siqing did not lag behind, but directly waved a holy light and integrated into it.

This border, suddenly become solid, unparalleled power, can be said to be cruel!

Under such powerful pressure, tianwu Wolong Sutra is no longer as powerful as before.

That page of Scripture suddenly flew out, surrounded by divine light, brilliant as gold, as if shuttling from the distant void.

Vaguely, a dragon turned into a shape, and its Sabre was so fierce that it almost turned over here.

"Stop fighting! Do you want to continue to be a page of incomplete book paper?"

Ye Chen snorted coldly, raised his hand and pressed down. Suddenly, he only heard the rumbling sound, just like a thunderbolt.

Tianwu Wolong Sutra seems to penetrate many seals, like dragon symbols, broken out, like an extremely ancient totem, weaving an extremely gorgeous image, which is very magnificent and incisive.

However, he couldn't escape Ye Chen's suppression after all. He ran rampant in the blood mist, churned with Ye Chen's air sea, and even the reincarnation blood also appeared turbulence.

"Let me help you?"

Ji Siqing met the difficulties and took the initiative to get close to Ye Chen, conveying the power of fate to his body.

This page of tianwu Wolong Sutra has long followed the Lord of judgment, and has been contaminated with some evil breath.

Once that power breaks out, it will be earth shaking. I'm afraid I can't even stop the God of murder.

On that day, Wu Wolong Sutra suddenly stopped moving and was silent for a moment. Then it looked like a dragon looking up, carrying countless swords and shadows, and rushed up.

This time, even the power of fate can't bind tianwu Wolong Sutra.

The black light of this page of Scripture penetrated the big net formed by fate and went straight to the outside world.

Ji Siqing was immediately surprised that she had used a lot of strength and was easily broken by this guy.

But how could ye Chen let it go easily?

"Today is also the time to refine you."

Ye Chen's eyes suddenly coagulated. He just suffered the impact of this page of tianwu Wolong Sutra, and his spirit was shocked, but he immediately recovered to intercept.

This page of tianwu Wolong Sutra is much more ferocious than before! If we let it rush out, I'm afraid it will cause great disaster to the outside world.

He didn't believe it. With the power of reincarnation blood, he couldn't accept this page of Scripture.

Seeing that the remnant page of the wuwolong Sutra flew up that day and wanted to escape, which led to the leisurely ghost spirit of the forest, ye Chen directly summoned the sword shadow, the sharp sword breath burst, swept all directions, and sealed the way of that page of the tianwu Wolong Sutra.

Ji Siqing saw this and quickly mobilized his spiritual power again to help Ye Chen. Finally, he calmed down the tianwu Wolong Sutra.

Ye Chen breathed a sigh of relief, then pulled Ji Siqing into his arms and praised him as his capable wife.

Ji Siqing hurriedly sat upright and urged Ye Chen to deal with this page of tianwu Wolong Sutra, so as not to have too many dreams at night.

Ye Chen's look became serious. His blood was like a surging volcano. He suppressed his accomplishments and flowed slowly. His aura suddenly gushed out and splashed into a river, arousing a large amount of runes.

These runes are like wandering snakes, wrapping that page of tianwu Wolong Sutra. At the beginning, the incomplete page is still shaking, and only in the end, it is completely submerged.

Ye Chen started the refining process. He closed his eyes and felt the surging power from this page of tianwu Wolong Sutra.

there is nothing comparable to this! Destroy the sky and the earth!

Ye Chen only touched a few pictures and saw the scene of mountains and rivers collapsing and stars falling.

In that picture, there is a great figure, whistling in the wind, which can almost overturn the whole universe. There are thousands of stars on his head.

Cycle, endless!

That's the invincible war master who dominates the world: Wuzu. It was an existence as famous as Hongjun's ancestors in those years. It could have broken the void and went to places outside the real world, but he finally chose to stay in the heavens and the world for the benefit of future generations.

The opening of the old era began with the inheritance of Wuzu being carried forward!

Ye Chen is a person selected by Wu Zu. He bears the power of reincarnation, has a supreme divine body, has extraordinary strength, and is not afraid of the rain of sabres, lightsabers and swords.

When ye Chen completely inhaled the vast power of tianwu Wolong Sutra into his body, he fused the spiritual power of reincarnation blood, burst out amazing energy, and almost tore the sky in an instant.

Chapter 7244

Fortunately, the room bounded by the cloth is very strong, allowing the divergent force to pass through and go straight to the sky, and the house itself is still intact.

Other people in Beimang ancestral land saw the visions in the sky, crossed the sky, echoed with those broken illusions, and seemed to reflect mirror ripples thousands of miles long.

"What vision is that?"

Some people were surprised because they found that the force had suppressed beimangzu land.

Even the ancestors of Beimang and Ren Feifan came out of the pass. Seeing the violent illusion in front of them, Ren Feifan showed a satisfied smile.

This guy really has a relationship with Wu Zu. He has absorbed the fragments of Taoism left by Wu Zu. If he can fully inherit his Taoism, he will become the first person in the world of heaven.

On that day, swords collided in the clouds and the atmosphere of killing was very strong. It was an illusion left by Wu Zu. Once someone inherited his orthodoxy, such a strange scene would appear.

Ren Feifan can't help sighing that ye Chen really has the right time, place and people, so as to take advantage of the east wind and go up high-rise buildings in one fell swoop!

As far as I could see, the thunder and storm intertwined, and suddenly fell and wrapped the hut, like the power of a natural disaster.

Ren Feifan was very surprised. He thought that after ye Chen absorbed tianwu Wolong Sutra, his strength would be further, and he still needed to slowly study and understand Taoism.

But who knows that he will touch the threshold of breakthrough at the same time.

Ye Chen was in the middle of the array. He also felt the restless aura in his body, as if countless soldiers were shouting and ready to go.

The spiritual power flowing in the body was like a rolling river, which immediately surged.

Ye Chen's eyes reach thousands of miles, as if there is a layer of magic light passing through the endless pupils, capturing the cause and effect between heaven and earth.

He was shocked and absorbed immediately. Using the power of the pupil of the extreme devil, he looked through the void and saw the distant place.

There was a divine light, which rose suddenly and almost penetrated half the sky.

There are cumbersome Ancient Runes, which spread rapidly, almost occupying half of the sky in the blink of an eye.

These ancient runes are not others, but the virtual shadow of the starry sky introduced by tianwu Wolong Sutra, which has extremely powerful power.

It can be broken with one eye. It is mysterious and eye-catching.

Ye Chen also saw Wuzu's "Tao" in it, and the moves depicted on the totem are in one form, infinitely changeable and thought-provoking.

He also learned it. One move did not fall down. He even broke through an extreme way. The fierce power burst out, making his sea of Qi churn, and a divine thought spread from his whole body to his mind.

"Collapse!"

With this wisp of thought, ye Chen entered a state of forgetfulness. His eyes turned into a golden yellow, and burned more and more.

When he completely integrated this wisp of mind into the flesh, he also successfully broke through that level, breaking through again and again, and even stepped into the fifth level of the Taizhen realm in one breath!

Ninety nine chains were cut off in his body. He was the first person in history and obtained a new soul power.

Although tianwu Wolong Sutra focuses on the supreme martial arts, it is also good for soul quenching!

This time, he can his own strength, relying on his flesh alone, he can fight against some ancient strongmen!

If the soul power breaks out again, he can cope with those powerful heavenly kings in the world. Even if the enemy is not strong, he can escape unharmed!

When he opened his eyes again, the power of the whole person was restrained and sublimated.

"Congratulations on your breakthrough again. Now there are thousands of boundaries in the heavens. No young strong man can keep up with your cultivation speed."

Ji Siqing said with a smile.

Her words are exaggerated, but they are not unreasonable. Even if ye Chen goes to the world, he belongs to the camp of top Tianjiao.

Who could have thought that a martial artist in the lower world could burst out such a rapid cultivation speed! It's almost catching up with the Tianjiao piled up by those famous families with resources!

Apart from the backward realm, the real strength is not weak at all.

"I still have a long way to go. Now it's just the beginning."

Ye Chen smiled and looked calm. He was not complacent because he broke through a little realm. On the contrary, he was more cautious in his words and deeds.

Through the ages, those who are arrogant will eventually lose. Only by being careful can they sail for thousands of years.

If it were not for the change of the situation, ye Chen didn't want to expose his strength too early.

When he walked out of Ji Siqing's boudoir and returned to his cave, someone had been waiting here. Ren extraordinary and his party came to congratulate him.

"Good boy, I didn't cultivate as fast as you. According to this trend, I'm afraid you can reach my current state in a thousand years!"

Ren Feifan is really happy for ye Chen. As the protector of Ye Chen, he naturally hopes that ye Chen can break his own heaven in the world of heaven.

"Elder Ren, you flatter me. I don't have the terrible cultivation speed you used to have."

Ye Chen couldn't help laughing bitterly. He knew Ren extraordinary's glorious achievements in the past. Since he became famous, he has made great progress all the way, pressing all the Tianjiao of his peers below, and leading the coquettish of an era alone.

Such achievements are unprecedented, and there is no future. Ye Chen will not be arrogant enough to think that he can defeat all his opponents.

Although reincarnation is strong, it can command the world at its peak.

But that is the state of reincarnation reaching the peak, and at present, he is moving in that direction!

Xiao Huang, Xia Xuansheng and others also came one after another. Congratulations.

The little yellow, red and blue pupils are full of bright light and are very excited. The stronger Ye Chen becomes, the more he depends on him.

Moreover, he and Ye Chen are the contractual relationship between the master and servant. Ye Chen's strength is enhanced. How much can it pull its strength to a higher level!

Xiao Huang can clearly feel that his flesh has produced a subtle change.

That change, saying whether it is strong or not and whether it is weak or not, gives it a direction for future cultivation.

Xia Xuansheng's eyes were full of envy.

After he unloaded the burden of the yin-yang temple, he was relieved to practice here. In a flash, a year later, he also successfully broke through the previous level of strength and stepped into the level of 100 flail.

He meditates almost every day, and then practices an unthinkable knife. Up to now, the knife technique has been perfected. Waving it at will can cause confusion of the rules.

No thoughts, no worries, no joy, no love.

Only when the whole person is really empty can the sabre technique show great power.

Xia Xuansheng kept this mentality and practiced his Sabre technique repeatedly, but the more he went back, the more he found that he seemed to be missing something.

This time, ye Chen broke through a new realm, and his strength increased greatly, which also stimulated him greatly.

So he came to visit Ye Chen to seek the answer.

Chapter 7245

After Ren Feifan and others left, Xia Xuansheng remained in place.

As soon as ye Chen saw that he had something to do, he made a pot of tea and asked him to sit down and talk while drinking.

"I've been running back and forth all over the country this year. I've experienced many wars. I'm really ashamed that the yin-yang Temple hasn't taken into account!"

Ye Chen sighed.

The yin-yang temple is a force left by the reincarnation Lord of the previous life. Due to various changes in this life, the yin-yang temple has suffered an unprecedented disaster.

Ye Chen only went to see it once. Later, he had been shuttling through the world of heaven, and he had no chance to go back and have a look again.

When Xia Xuansheng heard the speech, he immediately said, "don't say that, temple Lord. If you didn't return to the yin-yang temple and let those people see hope, I'm afraid they are still living and breathing like walking corpses!"

Since ye Chen's return, the yin-yang temple has regained its former vitality. Now, with the help of Xia Xuansheng, it has secretly developed into a force that can not be ignored.

Ye Chen made great contributions.

Although some people are still missing, I'm afraid the reincarnation Lord of the previous life has his own arrangements.

When hearing Xia Xuansheng's description of the situation of the yin-yang temple, ye Chen smiled comfortably.

"That's great! Then I have nothing to worry about! Let's talk about you next."

Ye Chen came straight to the point and asked Xia Xuansheng directly.

Xia Xuansheng did not hesitate to tell the martial arts difficulties he had encountered one by one. He was confused.

"A knife without thinking is a knife without thinking. I think I have done this, but why can't I show this strongest knife technique?"

Xia Xuansheng wondered that he had outstanding talent since he was a child, and he was particularly enthusiastic about martial arts.

As long as he can become a warrior and preach, he will be willing to give up all his feelings.

After hearing this, ye Chen knew it clearly in her heart.

In fact, according to him, Xia Xuansheng has fallen into a vicious circle of self.

I've been thinking about it, but I can't figure it out.

Such thoughts hover in my mind. Over time, they will become demons.

At this time, Xia Xuansheng had a sign of heart demons.

After a moment of silence, ye Chen said, "maybe you can try to accept some feelings, such as family affection, friendship and love."

"But Lord, what I cultivate is a knife without thinking. Without thinking is destined to cut off seven emotions and six desires..."

"I know." Ye Chen waved and interrupted him. "The so-called unthinking is to empty your mind. There is only martial arts in your eyes, but have you ever thought that the unthinking knife really means this?"

"How do you say that?" Xia Xuansheng sat upright and listened attentively.

Ye Chen's look was also very serious. He slowly opened his mouth and said, "waterstop sword and Wuxiang sword are essentially the same. At the beginning, I also thought of giving up all my feelings to practice waterstop sword. At the beginning, the progress was very fast, but it was very difficult at the back."

All the understanding of martial arts is not achieved overnight, but has experienced a long period of meditation and perception.

Ye Chen is naturally the same. He polished every minute of the foundation of martial arts.

In this process, emotions also have constant changes.

He gave Xia Xuansheng an example.

Understanding the ultimate martial arts can be divided into three levels.

On the first floor, the mountain is the mountain and the water is the water.

On the second floor, the mountain is not a mountain, and the water is not water.

On the third floor, look at mountains or mountains, water or water.

Xia Xuansheng nodded at the speech.

Such martial arts remarks are the evidence that has existed in a long time.

Ye Chen took out the Longyuan Heavenly Sword, concentrated his mind, waved the pure power of a sword at will, cut it quickly along a track, and cut a terrible crack in the void.

Now ye Chen can control the power level of shuistop sword. Now he just makes a slight stroke and uses a little breath.

"This is to see that mountains are mountains and water is the realm of water. Practitioners will think they have understood such a supreme way, but it is not, because they have not yet exerted their real power."

With that, ye Chen took another step forward, which fully crossed thousands of miles and came to the sky far away from the island.

This place is far away from the habitat of the nightmare Protoss. Ye Chen doesn't have to control the fluctuation to practice his sword.

He waved another sword, but this time, the overbearing sword light seemed to shuttle from the long river of time, which was extremely dazzling.

The bloody light of reincarnation turns into a round of God's day, shining continuously, crowning heaven and earth.

However, Xia Xuansheng practiced the unthinkable sword and approached it. He sank down and felt it carefully. He could detect other charm contained in the sword.

This sword is actually incomplete!

When ye Chen waved his sword, he was clear and transparent without any distractions.

But even so, this sword is still incomplete!

Xia Xuansheng was confused. According to reason, after ye Chen's heart reached the state of no thought and no thought, he could wave a completely pure water stop sword.

But why can only use incomplete Kendo?

Ye Chen turned back and smiled at him.

"This is to see that the mountain is not a mountain and the water is not a water realm. It is the same as your current realm. The sword and the sword are essentially interlinked, so the principle of water stop sword is also in line with Wuxiang one!"

Xia Xuansheng frowned and asked, "why?"

"The real unthinking, perhaps not as you think, completely abandon all ideas and become a puppet."

Chapter 7246

Ye Chen explained faintly. Then he waved the third sword. This one was plain and seemed to have no waves, but in fact, the sword was smooth and smooth. He reached the top and couldn't pick out any flaws.

If he were the enemy, he might be despised.

When ye Chen used this sword, it seemed to be an instinctive behavior. There was a smile on his face and he looked very relaxed.

Suddenly, he seemed to feel something, and his body suddenly shook.

"When I wield my sword, I don't think so much at all. Taking this sword technique as my instinct, I can wield it wantonly and unhindered."

Ye Chen said with a smile, "if a person wants to be complete and experience the love, hate, bitterness and bitterness of the world, he can understand Baiwei life, water and no thought, and go through this process from incomplete to perfect."

"Amorous swordsman, ruthless swordsman, maybe this is the way you want to go!"

Amorous swordsman ruthless sword!

When Xia Xuansheng heard this sentence, he was shocked all over, and his eyes suddenly became bright and bright.

He is a swordsman. People are ruthless and knives are ruthless.

If both are like this, how can we change from ruthlessness to sentimentality? In other words, ruthlessness is based on sentimentality.

The knife can be ruthless, but people can't!

Ye Chen's third level is the extension of the first level.

Mountain or mountain, water or water.

After experiencing the secular world, keep a plain heart, everything is still as old!

"Thank you, temple Lord! I can understand what you mean now, but I can't spy on the emotion. Maybe I need to experience it myself before I can understand!"

Xia Xuansheng said solemnly, looking solemn.

Ye Chen also supports his idea.

After all, Xia Xuansheng lived in a relatively claustrophobic environment from urination. Although he was gifted, he didn't experience too much hardship in the world after all.

If you want to fully understand the perfect state of no thinking knife, you must appreciate the various forms of life and strengthen your self-belief.

After leaving Ye Chen's cave, Xia Xuansheng stopped staying. After thanking Xiao Huangdao, he took up his burden and left alone.

He wants to go to the secular world and travel around the world!

Ye Chen and Ji Siqing, Xiao Huang and others looked at Xia Xuansheng's gradually leaving back and stood for a long time.

"Everyone has his own way to go. Gathering is joy and parting, not worry."

Ji Siqing sighed softly.

At the same time, the brilliance in his eyes is becoming more and more firm.

Her way is to accompany Ye Chen and ascend the world with you.

Xiao Huang, who always likes to fight, is also silent at the moment.

Perhaps, it should also find its own way.

After seeing Xia Xuansheng off, several people returned to the cave, and Ren Feifan also brought news about Tianlei Shenfeng.

According to Ren Feifan, that sacred peak is extremely mysterious and hidden, and will change its hiding place at any time. It lingers in the depths of the void and is very difficult to catch traces.

He went to the void and found no effective clues, but he found a fragment in a star wreckage.

The fragment should be a falling object on a boulder, bent and hard like a turtle shell. Using the heavenly eye to look carefully, you can detect the thunder lines on it, flashing a strange luster.

The tortoise shell was kneaded in Ye Chen's palm, quite soft.

Ye Chen is trying to use reincarnation blood, trying to activate it.

But after a while, the fragment didn't move, and ye Chen had to give up temporarily.

Not long after he returned to the cave, he found that there was a violent vibration in the sea, which immediately made his whole body tremble.

What happened?

Ye Chen quickly sank her consciousness and looked at the situation in her body. She only saw a towering scene.

The shining reincarnation cemetery was opened again, and this time there was a great movement, which shocked his mind.

The opening of reincarnation cemetery is both joy and sorrow for ye Chen.

There are too many top leaders in a certain field hidden in this cemetery. As long as one comes out, you need to practice for many years to realize the martial arts and experience you can teach.

But at the same time, the people who come out are unpredictable and may become an obstacle.

Huang Lao is one of them. When he first came out, he wanted to fight against himself many times. Until he knew that he was completely bound with his destiny, Huang Lao gave up his idea of Ye Chen and helped Ye Chen instead.

Only when ye Chen is alive or stronger can he leave this place and get a new life.

This time, ye Chen was really stunned, because in the reincarnation cemetery, five breath burst out at the same time.

Violent hurricanes, pouring rain, irritable thunder, thin flames, and roaring loess.

The five breath seemed to be born at the same time and swept out, which shocked Ye Chen's whole body.

In the reincarnation cemetery, the color stele, which was originally like scorched earth, became colorful. Ye Chen even saw that there was an inexplicable smell in it, surging like a wave.

This strong wave directly opened the many checkpoints of reincarnation cemetery.

Among them, ye Chen felt the most powerful breath, which was the power of thunder.

The thunder roared up and went straight to the sky, stirring the sky that had not calmed down again. At the end of the day, the thunderstorm sounded like destroying the sky and the earth.

In the strange and extraordinary reincarnation cemetery, he noticed a virtual shadow rising from the sky.

A human shadow appeared slowly, and then came a series of ancient information, which turned into startling words and passed into Ye Chen's mind.

Originally, there were five awakened consciousness, but four of them only awakened a trace of spiritual thoughts and produced some fluctuations.

Only one way is to really wake up!

These five ways of consciousness have existed since the beginning of chaos and the origin of Hongmeng. The five great emperors were born together with the creation of the world. They have existed for a long time.

They are:

Chaotic wind emperor, in that era, it was rumored that the strongest means to cultivate speed, wind system skills and martial arts was to destroy the wind god.

Chaotic rain emperor, the master of water system skill, was the strongest means of that year: ten thousand rain turned holy.

Chaotic thunder emperor, cultivate immortal thunder emperor's formula, control thunder Dao skills and means, and the strongest means is five thunder to destroy the top.

Emperor Yan of chaos, the fire skill, is condensed from the first flame born in heaven and earth. It is very powerful and the strongest means: Shenhua Avenue.

Chaotic earth emperor, earth series skill, main defense, known as unbreakable and the strongest means of Cultivation: Armor storm.

These five great powers, known as the five sons of chaos, also known as the five emperors of chaos, were born in chaos. They have strong talent and cold personality. They have no desire for secular ideas and pursue the supreme martial arts wholeheartedly.

Chapter 7247

It is the sense of the thunder breath from ye Chen that the chaotic thunder emperor among the five emperors will wake up.

The other four emperors were still in a state of lethargy, but they awakened some divine thoughts and did not fully awaken.

Chaotic thunder emperor is shrouded in thunder light, full of gorgeous thunder light. His eyes are like electricity. There is a ray of thunder mark on his forehead, flashing mysterious runes, which is very powerful and frightening.

"Did you get the mark of Tianlei?"

Chaotic Leidi's eyes go straight to heaven and earth. Looking at Ye Chen like that, it seemed as if the thunder pressure of the whole sky had accumulated and released the supreme majesty.

There was a trace of disdain in his eyes. He looked down at Ye Chen as if he were a servant.

In the face of his unfriendly tone, ye Chen frowned.

This guy has no entity, but wakes up from the reincarnation cemetery. Where does he come from so arrogant.

However, ye Chen is also used to it. Those sleeping in the reincarnation cemetery are the big men of the powerful side in ancient times. It is not easy for them to recognize reincarnation and obey orders.

Ye Chen is not worried about this. He believes he has enough strength to let the leaders of reincarnation cemetery cheer for him.

"Yes, I woke you up." Ye Chen nodded and said.

Chaotic thunder emperor was unhappy when he heard this: "I asked if Tianlei's mark was in your hand. As for whether you awakened me, I don't care."

At this time, ye Chen's pupil also shrunk suddenly, his eyes narrowed slightly, showing a dangerous arc.

"I started the Tianlei mark first to wake you up, didn't I?"

Ye Chen's words came out and were obvious.

If it weren't for me, I'm afraid you wouldn't even have a chance to be awakened!

Chaotic Leidi also heard the voice outside his words and immediately gave a cold hum.

"What qualifications do you have to order me? It's just a little mole ant. Hehe, since you awakened me, I can promise to do something for you."

Chaotic Leidi's character is arrogant, and identifies with the strong and despises the weak. In their eyes, people with weak strength can't lift their heads.

In the age when chaos was born, everything was extremely barbaric. At that time, the martial friars had to take the most direct method to determine who was the real ruler. The jungle law of the law of the jungle was vividly reflected.

In the reincarnation cemetery, there is an extremely powerful smell of thunder, which evolves into a vast ocean, while the chaotic thunder emperor floats over the thunder god sea, just like a god of thunder and war.

"I don't need you to do anything. The reason why I opened the mark of Tianlei is to find Tianlei Shenfeng! That's why I woke you up."

Ye Chen said coldly that he didn't like the chaotic thunder emperor very much. This guy is too arrogant.

And chaotic Leidi didn't pay attention to Ye Chen.

If it weren't for chaos Lei Di's obsession with Tianlei mountain, he wouldn't take the initiative to communicate with Ye Chen.

As one of the five emperors of chaos, he has experienced countless great times and witnessed too many top Tianjiao. Although Ye Chen bears reincarnation blood, he has unparalleled Tianzi.

But that doesn't mean he's the first genius of all time.

From ancient times to now, there are not a few talents who practice faster than him and have better accomplishments than him!

Ye Chen doesn't have a hot face to stick to his cold ass. although the chaotic thunder emperor is mighty and has extraordinary experience, ye Chen doesn't need to rely on him!

"Tianlei Shenfeng?" chaotic thunder emperor couldn't help sneering. "Do you think you can find it by yourself? Even emperor Ben had been looking for endless years, and there was no way to determine the location of Tianlei Shenfeng."

"If it weren't for the thunder mark you got, the emperor would not be interested in cooperating with you."

What reincarnation, fate and compassion are not worth mentioning in the eyes of chaotic Leidi.

Ye Chen is too lazy to talk to him and plans to forcibly close the reincarnation cemetery.

If it had been in the past, he would never have done such a move, but this chaotic Leidi's character is really not pleasing.

In comparison, Huang Lao is really much better.

Even if he uses the power of ultimate reincarnation, he will seal the chaotic Leidi back.

Seeing this, chaotic Leidi's always indifferent look changed.

"What do you want to do?! you can't find Tianlei Shenfeng without my strength!"

Ye Chen raised his eyelids and glanced. He was indifferent. His spirit had entered the reincarnation cemetery, where a river was flowing slowly, and the water of the Xinghai brought vitality.

Reincarnation blood can not only give birth to infinite vitality, but also exterminate it. Under the control of Ye Chen, the tombstone located in the depths of desolation is slowly shaking and being pushed down!

"Stop it!"

Chaotic Leidi's face changed rapidly, and his mouth was really rampant, because he expected Ye Chen to be respectful to him and obey everything.

But who would have thought that the boy's character was so irritable that he had no idea of obeying authority.

In Ye Chen's eyes, there was a strong blood light, and the aura in the sea of Qi kept churning and roaring.

It seems to form an earth shaking picture, straight into the sky, endless.

Chaotic Leidi was completely flustered. He didn't expect Ye Chen to make such a decision, and he didn't intend to stop at all.

Chapter 7248

Although chaotic Lei Di is one of chaotic Wu Di, he is determined not to wake up without special essential power.

Therefore, the opportunity to wake up this time is rare for tens of millions of years.

If ye Chen forcibly closes the reincarnation cemetery, he will fall into endless sleep again, waiting for the next awakening, or he will never wake up again.

At this point, chaotic Leidi was completely flustered.

He knew what ye Chen wanted. He struggled violently in his head. After a moment, he finally bit his teeth and said, "the previous thing is that the emperor spoke too much. I hope you don't care!"

When chaotic Leidi said this, his fists were clenched and his voice was low, as if he had held it for a long time.

Ye Chen heard the speech, gave him a cold look, and then took back the power of reincarnation blood.

He didn't mean to brag about the other side, but if the other side didn't know what to do, he would be impolite.

Even if the other party was an ancient emperor who had existed since chaos was opened up, he would not let it.

Reincarnation cemetery can be regarded as his taboo place. It is controlled by the power of reincarnation. No matter how brilliant your life experience is, you have to lower your temper and obey orders!

Ye Chen will give full respect to the guides on the way to growth.

For those who rely on the old and sell the old, ye Chen will show no mercy and raise his hand to fight.

Reincarnation cemetery, return to calm, chaotic Leidi lowered his head and was unwilling.

Just then, another old voice came.

"Good boy, I can get such a treasure and use its power. It seems that your martial arts are well cultivated!"

The speaker is Huang Lao. He is also a great power in the reincarnation cemetery. He was a powerful man in those years.

Chaotic Leidi raised his head and looked a little moved.

Then another voice came out.

"Yes, thunder is one of the original powers of heaven. It was born before all things. If you can cultivate the true meaning of thunder, it will also greatly improve your strength."

The speaker is Xuanhan jade, whose voice is as gentle as jade, like an empty valley, which makes people feel relaxed and happy.

Ye Chen was pleasantly surprised. He knew that the two predecessors stood up for themselves.

Is to let chaotic Leidi see the strength of his reincarnation Lord.

"You..."

Chaotic Leidi hesitated. He could detect that Huang Lao and Xuan Hanyu had extremely powerful divine power.

This powerful power is not calculated by time, but by personal energy and talent.

Huang Lao and Xuan Hanyu were born after him, but their strength will never be weaker than him. They were one of the top strengths in this world.

Even these two figures have become the boy's servants? Chaotic Leidi's heart is creepy and moving.

Xuanhanyu's soul gradually appeared in the reincarnation cemetery. She was as beautiful as an immortal. She came out of the dust and attracted the country and the city. Years could not erase her face, but marveled at her immortality.

Among the leaders of many reincarnation cemeteries, Xuan Hanyu's origin can be said to be the most mysterious. Even she can't remember her identity in previous lives and this life, nor can she recall any past events.

She doesn't remember the so-called peerless skill, magic and treasure.

But those techniques have been engraved into the soul. With a wave, they can shake the world.

It can be seen that Xuanhan jade before losing memory is definitely a giant dominating the starry sky.

The identity of Huang Lao is not simple. He has lived for a long time. Even ye Chen doesn't know which era the old man came from.

No matter what kind of crisis, boss Huang can find a solution and provide the most effective suggestions to Ye Chen.

It can be said that Huang Lao and Xuan Hanyu have given Ye Chen a lot of selfless help along the way.

And ye Chen is really grateful to them.

Chaotic Leidi's mood gradually calmed down. He understood what their actions meant.

Reincarnation cemetery is not only a place for souls to sleep, but also a natural place to imprison them. Once they enter, it means that they can't escape here forever.

If you really want to escape from here, there is only one way: the host is strong enough to make the cemetery get rid of the restrictions of reincarnation and truly escape from reality.

No one has done it since ancient times.

But they seemed to believe the guy in front of them.

Chaotic Leidi took a deep breath and said to Ye Chen, "can you turn on your soul transmission?"

Ye Chen hesitated for a moment and agreed.

Soul transmission is a means to obtain the other party's information. It can quickly let the other party understand the memory picture in his mind through the infusion of soul power in a short time.

Of course, ye Chen can selectively block some things. For example, he doesn't take out all the treasures he gets.

When chaos emperor opened his eyes again after reading some of Ye Chen's spiritual experiences, he couldn't help being shocked!

The memory of such a spirit made him re-examine Ye Chen.

The time of these years flashed by and condensed into a concentrated picture.

Chaotic thunder emperor could not imagine that ye Chen's combat power was so rebellious.

He has been growing up for less than a hundred years. He is so talented that he can be called a terror, which runs through the past and the present.

Even the latecomers may be difficult to surpass.

Now he is really aware of Ye Chen's strength. It is only sooner or later that ye Chen will surpass them if he grows up according to such a trend.

He also put away the disdain in his eyes and looked a little serious.

When Huang Lao and Xuan Hanyu saw this, they knew that their goal had been achieved, quietly retreated and disappeared in the void.

"Your talent and mind are too terrible. I was too careless before."

Chaotic Leidi sighed and thought that he had lived a long time. This time, he looked away.

Ye Chen smiled and didn't say much. His real strength depends on his own efforts, not on a mouth to lobby.

"I have a way to find the heavenly Thunder God peak, but I need someone to bear the thunder robbery of the heavenly way before I can lead out the location of the mountain! Remember, this thunder robbery is not an ordinary thunder!"

Chaotic Leidi said his own way. This method is the only way to find Tianlei Shenfeng at present.

After his proposal, he quietly waited for ye Chen's answer.

And ye Chen also fell into silence.

For a long time, he nodded and agreed.

No matter how violent the thunder comes, he will try!

For Lei stele, he is determined to get it. Only the reincarnation xuanstele can improve the purity of reincarnation blood and deal with the next crisis.

"OK."

Ye Chen agreed.

Chapter 7249

The chaotic thunder emperor also nodded. What he needed was the thunder god liquid in the Tianlei God peak. It did not conflict with Ye Chen's goal, but they could cooperate well.

"In that case, you can prepare for three days! It's best to take out all the body protection magic weapons to deal with the nine special thunder robberies!"

Chaos Leidi solemnly reminded.

"The emperor will also prepare many magic weapons to protect you and lay a divine thunder array."

Having said this, he returned to his graveyard and began to concentrate on preparation.

Ye Chen also came to Ren extraordinary's closed cave and told him a series of changes just caused.

After hearing the name of the five chaotic emperors, Ren Feifan also looked slightly moved.

"It turns out that there is such an ancient existence in your reincarnation cemetery! In that extremely distant era, the five emperors of chaos were indeed amazing and gorgeous characters, but they did not disappear in the end. It turned out that the soul had entered the reincarnation cemetery!"

Ren Feifan came into contact with many ancient mysteries unknown to the outside world at Ren's home, which were collected from the Imperial Palace in the old times and recorded a large number of historical materials.

However, in the end, those history books were taken away by the emperor and burned on the spot without leaving any trace.

The ancient emperor Yu Huang tried to establish the belief of wanxu Temple by this way, unify the heaven and the world, and become a pioneer emperor.

However, some things are firmly remembered in the hearts of all martial artists, and can not be erased by the wanxu temple in various ways.

In order to help Ye Chen successfully survive the Tiandao thunder robbery, Ren Feifan took out the original power of the giant whale divine tree.

"Combine the power of this sacred tree with your Heavenly Sword."

Ren Feifan said and took out Xi Huanglei seal! The ancient gold God seal emits a faint golden light. It is very domineering at a glance.

Xi Huanglei seal! What condenses is the way of thunder, and it is also the only treasure related to Lei Xiu among the seven treasures of Hongjun.

"Thank you, elder Ren!"

Ye Chen doesn't pretend to pinch, and immediately bows her hands to thank her!

He will keep this trust and help of Ren extraordinary in mind and repay it in the future.

"You don't have to be so polite between you and me. You just need to take your reincarnation path. No matter how strong your opponent is, I'll carry it first."

Ren extraordinary said with a smile on his face.

As ye Chen's protector, he also gives Ye Chen strong protection.

Ye Chen also understood that Ren Feifan was not only his partner, but also his master and guide. Now he has become his protector.

Such friendship is as important as a mountain!

In addition, ye Chen also used many thirty-three days' Supreme treasures in his body. With these treasures to protect his body, his hope of defeating the thunder robbery of heaven is growing.

After all, it was a thunder robbery caused by the way of heaven! Roaring furiously, few forces in the world can stop it.

And as the Lord of reincarnation, the thunder disaster he bears must be more terrible.

Three days later, ye Chen came to an open and flat place, surrounded by mountains and many trees. To a certain extent, it can alleviate the pressure brought by the thunder robbery of the heavenly way.

The star gate of reincarnation cemetery slowly opened, and the body shape of chaotic Lei Di also emerged. However, when he saw Ren extraordinary standing silently beside Ye Chen, his pupils couldn't help shrinking.

The man in white is handsome, handsome, natural and unrestrained. He has a natural sense of carefree, as if he were independent of the world of heaven.

Chaotic Leidi tried to use the eye of thunder to explore this person's strength. Unexpectedly, the other party just looked sideways. The inexplicable breath suddenly spread, earth shaking but without waves.

Instead, in the end, chaotic Leidi also hurt his eyes, as if something went in, burning.

He quickly took back his eyes. Now he knows that this guy is not easy to mess with!

"Are you the chaotic thunder emperor? Next, you have to control the direction to lead the thunder robbery of Tiandao and find the Tianlei God peak. My realm has exceeded the lower boundary and can't enter it again."

Ren extraordinary said this, which is meaningful, and chaotic Leidi understood it.

"Don't worry, it's related to my interests. I will do my best!" chaotic Leidi promised.

"So good!"

Then, Ren Feifan stepped aside and landed on a mountain outside the field.

Ye Chen is sitting in the center of the five mountains. Here is the sky thunder god array laid by the chaotic thunder emperor. Through the yellowish brown soil surface, you can see the faint thunder light shuttling and flickering below.

"Let's go!"

Ye Chen took the lead in taking out the wish sky star, shook his hand and built a powerful Star Law array around his head. For a moment, he seemed to enter a starry sky, in which countless laws and runes flowed!

On the other side of him, there was a large group of Koi flying, colorful, full of auspicious Xia Qi, very brilliant.

Ye Chen sat in the middle of the mountain and looked up at the towering sky, where the shadows of thunder were gathering slowly.

Tiandao thunder robbery.

Dark clouds are pressing the city, the mountain rain is coming, and the wind is all over the building.

This Tiandao thunder robbery is not an ordinary existence. It was born in chaos and runs across the world.

Chaotic Leidi is also a strong man who comes from chaos and knows the horror of thunder robbery.

"You have to be ready. It's hard to deal with the thunder robbery."

Chapter 7250

Ye Chen nodded and looked solemn. Above his head, the stars and Koi complement each other, forming a gorgeous picture.

But only these two defenses are far from enough!

"Heaven and earth xuanhuang Tower!"

Ye Chen pressed his hand on the ground. Suddenly, the God tower with dazzling golden light broke its shell from the Loess and climbed up, hundreds of stories high.

As one of the seven treasures of Hongjun, the heaven and earth xuanhuang tower itself has extremely high hardness. After the previous tower spirit dissipated, it was taught by Ye Chen to be a defensive magic weapon, which can be called unbreakable.

Three top magic powers show strong defense ability at the moment.

Seeing this, chaotic Leidi was also quite surprised. It was great luck for everyone to get the same top magic powers and treasure skills in the world, but the boy actually had a variety, and judging from his appearance, it was obvious that more cards had not been taken out.

It seems that I underestimated his ability.

At this point, chaotic thunder emperor no longer hesitated, and directly burst out a turbulent thunder atmosphere. His pupils were deep and mysterious, as if he had penetrated the void and looked into the distant depths of the universe.

Under his continuous output, there was a low and dull thunder in the sky, and the inexplicable breath gradually spread like a tide. Before long, it spread all over the whole mountain area.

Chaotic thunder emperor is led by himself, exposed to the thunder robbery of Tiandao, and forced Tiandao to lower the thunder robbery by provoking the majesty of the supreme thunder.

"Be careful, the way of heaven has sensed the breath here! I'm afraid thunder will come soon!"

Chaos thunder emperor gives a voice to remind a way.

Ye Chen immediately looked solemn and raised the magic power to the extreme.

Tiandao thunder robbery is no joke. If you are careless, you may be destroyed.

Even the top heavenly kings and ancestors have to use 12% of their strength to deal with the thunder robbery of heaven when breaking through this realm.

Once the breakthrough fails, there will be a great chance of being buried under the thunder robbery.

Therefore, in the process of cultivation, you are afraid of difficulties like a tiger. If you have the idea of retreating, you are likely to lose the battle.

Ye Chen abandoned those thoughts in her mind and devoted herself to the coming disaster!

The five thunder lights flickered and filled the whole sky in an instant.

According to the chaotic thunder emperor, the nine heavenly robbers are stronger than one. Only after carrying all the thunder robbers can we see the heavenly Thunder Mountain hidden behind the thunder.

Ye Chen's place is uninhabited, with mountains stretching tens of thousands of miles.

The mountains near here are very vast. Even if all the disasters come, they will not affect other religious doors.

Ye Chen made a rest and maintained a calm posture. His mind was released to the extreme, closing all the scenes of thousands of miles to the bottom of his eyes.

A loud noise suddenly came from the sky, which shocked Ye Chen.

And in the next moment, the originally clear sky disappeared in the blink of an eye, leaving only the vast darkness.

When the darkness came, it sent out endless horror, as if it had condensed into a deep channel.

When endless darkness came, ordinary people would have been flustered.

Even if you use spiritual power, your eyes can't see what it is.

Ye Chen was not flustered at all. For him, no matter how deep the darkness was, it didn't work.

Using the dark source symbol, he directly put himself in the dark and saw the scene at the other end of the sky.

In the endless darkness, deep layers emerge, accompanied by unprecedented thunder light and darkness.

He can see clearly that there is a layer of strange power circling around. It seems to be a pathfinder and has a strong sense of thunder.

Are these heavenly thunder robbers?

Ye Chen hesitated, but he didn't think too much.

Soldiers come to block, water comes to drown, and he is fully prepared to deal with the so-called Tiandao thunder robbery.

At the next moment, that force suddenly stopped, like the stagnation of the surging river.

Then the rules broke, the clouds burst, the thunder rolled over, and the endless thunder fell from the sky and spread thousands of miles, vast and unmatched.

Finally!

Ye Chen knew that the thunder disaster had already come. He just hid in the dark and sent the leader to test it.

But now, he saw through the small action of Tiandao thunder robbery, so the other party no longer hesitated and dropped endless thunder, which was vast and unmatched.

The violent thunder came out directly, like a Thunder Dragon in ancient times. It was powerful and roared.

This is the first thunder robbery!

Ye Chen was shrouded in the power of thunder. In the blink of an eye, the space changed violently, as if it was about to be broken by thunder.

The thunder seemed to condense into an entity and cut directly towards Ye Chen.

After a while, ye Chen's eyes suddenly changed.

Even though his body and soul are both powerful, he can't directly fight the terrible thunder.

As the first line of defense, the stars emitted by the wish star blocked the raging thunder and prevented it from moving forward.

The thunder light and the stars fall into a violent entanglement. The sky thunder explodes and the starlight disappears. It is only the first thunder robbery that makes the wish sky star a little difficult.

"Ba Bu Fu Tu Qi!"

Ye Chen directly summons the original meaning of the Buddhist family. He is full of gold and lightning, and the sacred Buddha light is condensed into the ultimate essence.

A god tower of all ten thousand feet high came down, breaking through layers of silent darkness.

The futu pagoda echoes with the dark yellow of heaven and earth, forming a powerful field between them, which directly cuts the dark thunder into countless fragments.

When the fragments were falling, the golden light was scattered, and there were Buddhist scriptures reciting in the void, sad and sad, just like the silence of the sky.

However, it also aroused the anger of the thunder robbery. It roared again, and all the tens of thousands of thick thunder fell, like a large army pressing the border, dense and magnificent.

Ye Chen pushed the eight Fu Tu Qi to the extreme!

"Futu Pagoda: Buddha extinguishes the sky light!"

Above Ye Chen's head, the futu pagoda rotates at a high speed, like an impending storm, high spirited and violent, and the hegemonic power of dragon whispering and tiger roaring faintly!

The thunder swept like darkness, and the power of Dao Dao concussion was frightening. All the invincible roars fell on the futu God tower, emitting strong heaven and earth authority.

Tiandao thunder robbery is so terrible. Only the first way comes down, it has made Ye Chen feel hard!

But even so, ye Chen was not at the end of his tether.

"Ba Bu Fu Tu Qi: Buddha now!"

Ye Chen stood up, like a heavy mountain. His hands were sealed, and a glittering invincible Dharma appeared behind him!

Fight against Buddha!

The Buddha appeared in the air with a dignified face. When he opened his eyes, incomparable bright golden light burst out, shining the whole heaven and earth, and forming a bright confrontation with the sky disaster darkness enveloping here.
