### Chapter 7251

Fighting against the Buddha is one of the most powerful Buddhas in Buddhism. The golden light God's palm can shake the sky and destroy the earth and smash all darkness and vanity in the world.

The thunder robbery disappeared under the expulsion of the golden light and turned into traceless!

The first thunder robbery was successfully carried.

But ye Chen did not relax at all, because he knew that the real battle had just begun.

A moment later, the second thunder disaster came. Like snowflakes, it was overstocked and covered. This time, the thunder disaster was more powerful and powerful. It was almost to break through the sky and burn everything up.

Ye Chen pushes the power of Tianxing and Tianxian Koi to the extreme. On the shield of the stars, there are Koi, trying their best to maintain the formation.

At this moment, the thunder fell quietly like the silent darkness, but at the moment of contacting the wish star, it burst out an extremely terrible threat.

Even these two kinds of magical treasures are struggling under the indiscriminate bombardment of thunder.

Ye Chen was also shaken by his strength, but he did not choose to retreat, but went up against the difficulties and opened a void channel with his strong speed!

The heaven and earth xuanhuang pagoda was wielded from this void channel to frighten the sky and destroy the second heaven disaster from the source!

Ye Chen is the holder of the dark yellow tower of heaven and earth. The devouring power borne by the God tower will be more or less reflected on him.

Therefore, after a while, ye Chen became panting, and a cold sweat came out on his forehead. With his physical bearing capacity, these regurgitations were nothing!

His eyes suddenly coagulated, suddenly urged the reincarnation blood, and integrated it into the Taoist magic weapon in front of him, because soon after the second thunder robbery disappeared, the third came.

Ye Chen's pupil also changed a lot, fierce and ferocious, like a sharp sword out of its sheath, piercing the sky and reaching the sky.

His body has a magic pattern, which is the symbol of the heavenly demon body!

Today's too heavenly demon body can't keep up with Ye Chen's fighting intensity, but you can help when it's critical.

On the surface of Ye Chen's skin, there are layers of grinding lines, and the momentum of the whole person becomes strong and powerful.

Below these dark magic patterns, dark red blood flows away, providing unimaginable burst energy to the flesh.

**Boom!**

Only heard a loud noise, the dark brilliance, gradually spread on him, demonized jade, brilliant!

Ye Chen compresses the reincarnation blood to the extreme and transforms it into evil power.

At this moment, what is the supreme power!

Under the blessing of reincarnation blood, the supernatural demon body has become extremely powerful and even detached from the common world.

The third thunder robbery disappeared and disappeared under Ye Chen's active siege, and the sky was temporarily restored to tranquility.

The soul of chaotic thunder emperor stood in the distance and looked at the scene. A strong shock color appeared in his pupils.

In any case, he didn't expect that the first three thunder robberies were dissolved by Ye Chen, and he was unharmed.

In addition, ye Chen even absorbed those dark thunder, turned it into his own use, transformed it into rolling spiritual power and integrated it into his body.

For a time, ye Chen's spiritual power reached an extremely terrible level. He talked endlessly and burned his brilliance, almost drowning the world.

Chaotic thunder emperor was amazed. Since he woke up for thousands of years, he has also seen many unparalleled Tianjiao, but no one has stopped the disaster so easily as ye Chen!

He turned his eyes again and saw Ren extraordinary standing on the peak, silently defending Ye Chen.

Moreover, seeing Ren extraordinary as plain as water, his expression was not half worried. It seemed that he didn't care. Ye Chen would be washed away by thunder robbery.

What a strange combination! Chaos Leidi thought.

However, when he thought of Ren extraordinary's real strength, he didn't have so many worries in his heart.

He can't see through Ren extraordinary anyway, but he can be sure that Ren extraordinary is stronger than he was at his peak!

So he didn't dare to provoke Ren extraordinary. He had to stand far away.

At this time, the battlefield was so quiet that it seemed as if a storm was brewing.

Ye Chen's mind and spirit are highly unified, reaching the point of unity of man and God.

At this time, the fourth thunder robbery came quietly!

Compared with the previous ones, the natural disaster was somewhat different. It looked strange, scary and slow. It was not like an incoming natural disaster, but more like a beam of falling thunder.

Chaotic Leidi frowned. In his impression, the fourth disaster should not be like this.

Ye Chen is also a little stunned. This thunder robbery doesn't look like much.

Only let the extraordinary face show the color of thinking.

"Be careful, that's a disguised thunder!"

Ren Feifan uses his mind and speaks to Ye Chen.

At this moment, the slow thunder showed its real fangs, and the infinite blasting force poured out of the thunder.

"No... there's more than one thunder!"

Ren Feifan immediately judged the difference between this thunder and ordinary thunder!

One, two, three

This time there was not just one thunder, but three.

Until it fell into the air, the three thunders showed their real fangs!

The infinite power of heaven's calamity ran out boldly, and even the mountains appeared wide cracks!  
It's terrible and scary.

But at this time, the natural disaster only targeted Ye Chen, and formed a close field with him. Even Ren extraordinary could not intervene.

Chapter 7252

Chaotic thunder emperor's look suddenly changed. He didn't expect that there were three thunder robbers coming at the same time.

How can you do such a thing if you don't talk about martial virtue?

But now there is no other way. These three thunders fall at the same time. They are terrible and frightening enough to make the world turn pale and the sun and moon shine.

At this time, ye Chen is in an endless thunderstorm.

The three lightning rays from heaven are stronger and stronger than each other. It's impossible to parry. The Tianxian Koi and wish Tianxing in the periphery are broken after resisting for a moment.

Then there are two sacred towers, directly facing the broken thunder.

The defense attribute of heaven and earth xuanhuang tower is very high, but Rao is so. Under the attack of thunder, he also becomes shaky.

The power of heaven is so terrible that it can't be easily stopped!

Ye Chen also knows that danger is coming. Now he must make a choice.

He gritted his teeth and directly used the six samsara method. Three heavenly swords were struck out in horror and arranged under the sky. Behind him, there was a virtual shadow of the samsara disk.

The six majestic breath, like the turbulent waves, surged out and gathered on the three heavenly swords. Suddenly, the power of reincarnation appeared. It was terrible. It seemed that it was born from chaos and radiated brilliant brilliance!

Ye Chen's reincarnation blood has reached the shackles of breakthrough. It needs to introduce the power of Lei Bei to completely refine it and complete its transformation.

"Damn... I'm afraid the power of the six thunder behind has gathered here!"

Ye Chen's reincarnation heavenly eye burst out the ultimate light, and a golden light sealed the road, which took shape in horror, illuminating the three vast thunders.

The next moment, the three thunders changed violently, and they were divided into two.

Suddenly there were six strong thunders, which formed a huge annular field and shrouded Ye Chen in it.

The destruction storm is about to blow the whole world.

Even the disk of reincarnation can't suppress this violent power.

The three heavenly swords are shaky under such a crazy momentum. Although they try their best to resist, they are only the end of a powerful crossbow.

But ye Chen's heart calmed down in an instant.

He knew that no one could save himself at this time.

Or no one can save themselves.

There is a field connection between this thunder robbery and him. The spearhead is aimed at him. If other people forcibly participate, it will lead to more thunder robbers.

Ye Chen wanted to quench the body and enhance the power of the spirit by virtue of this thunder robbery.

Since the following six thunder catastrophes come at the same time, can't it have the best quenching effect?

As long as you can carry this disaster, you can temper a perfect body!

Maybe in the future, there will be a chance to turn into the body of Thor!

At this point, ye Chen sank his consciousness into his body, and the blood of Dantian and Qihai burst out wildly, just like a shaking volcano, with countless magma spreading out. It was really a fire burning the prairie, emitting an extremely enchanting luster!

Taoist inscriptions, like magic symbols, circulate in his body, exuding the true interpretation of primitive morality and morality.

In the dark, ye Chen seems to feel something.

He opened his eyes. In his pupils, he outlined a divine ring, blooming extremely mysterious and mysterious rules.

This law was silent, as if it was creeping out from the deepest part of Ye Chen's heart, without any sign at all.

I didn't expect that there was an unprecedented mysterious Qi machine on Ye Chen.

He had planned to stay aside and watch the change. If the six Tianjie thunders could not be completely avoided, he would force his hand. Even if he damaged his own Taoism, he would never let Ye Chen die in the hands of Tianjie.

Chaotic thunder emperor has some guilt in his heart. After all, it is his misjudgment that led to such a abnormal Tianjie thunder!

Therefore, he plans to use the great thunder power of the divine soul. Even if he can't stop the six powerful sky robbery thunder, he can delay it for a moment and let Ye Chen increase his chances of escape.

The two divine towers and the three heavenly swords finally couldn't support them, turned into streamer and flew back to Ye Chen.

As early as the time of casting, these thirty-three day supreme deities have been integrated into a flexible spirit. If they encounter forces that cannot be blocked, they will choose to retreat temporarily.

Of course, this is only true when there is no blessing. Hongjun's ancestors also want to prolong the service life of these gods and avoid unnecessary damage.

All the five streamers ran back, and ye Chen also went upstream at this moment and rushed to the six sky robbery thunder.

At this moment, there is only war, not retreat.

In a short moment, ye Chen only saw the place where the thunder spread, and a small grass appeared impressively.

Ye Chen was stunned.

He originally wanted to burn the spirit, focusing on the disc of reincarnation, and forcibly break through the field composed of six thunders.

But after the grass appeared, a resistance seemed to form in front of him, making it unable to move forward.

The speed of the six thunders also became much slower, like slow motion playback.

"Grass!"

Ye Chen couldn't help calling.

And the grass turned and looked back at Ye Chen in a trance.

Then he rushed into six thunders like a fierce warrior who was not afraid of death.

That's a thunderbolt. It's supreme and irresistible. How can we tolerate the invasion of unidentified objects?

Six thunders broke out immediately, like the doomsday disaster.

The grass was immediately submerged in the thunder storm. Ten thousand thunder suddenly gathered in one place!

The endless thunder power, sending out a roaring sound, almost shook the whole sky.

The thunder here is dark and dark, and the dark light splashes, emitting a burning temperature like a towering flame.

The thunder reached its peak, like entering the frost world. Although the thunder was twining, the temperature suddenly fell.

The rolling thunder also brought a trace of frost to freeze the cloudless mountains into an ice field.

Ye Chen stopped moving forward, because all the attack points gathered on the grass!

And his area is safe and sound, there is no need to worry.

The sudden changes stunned Ren Feifan and chaotic Leidi. Ren Feifan once saw the power of this grass, but did not recognize its origin.

Ye Chen was also anxious. Since the grass depended on him, he had saved him from fire and water two or three times.

Grass is definitely not a general thing. It has self-consciousness and its identity is extremely mysterious.

This time, it took the initiative to stop the sky robbery thunder for itself.

The vast sky is filled with thunder, sacred and majestic, and has the chilly feeling of hell.

No one knows what the war is like inside.

Ye Chen uses the reincarnation heavenly eye to forcibly break through the diffuse sky thunder outside, and can barely see some conditions inside.

And this look immediately changed his look.

Chapter 7253

Because the grass in the thunder soared hundreds of thousands of times, like a green god of war, waving grass leaves around like a crazy whip.

The six thunders were also so fierce that they retreated step by step, and could not support the vast power of grass leaves.

Ye Chen's look suddenly became a little strange. He wanted to laugh but couldn't laugh.

Seeing this, Ren Feifan knew that most of the crisis had been lifted, and he also took back the magic sword in the palm of his hand.

Ye Chen stood quietly below and looked up at the performance of the grass. With one shot after another, the grass directly swallowed up two thunder.

Then everything became very simple. The six thunders could not resist under the indiscriminate bombing of the grass, as if they had met a natural nemesis.

Even chaotic Leidi didn't expect that this very critical dilemma would be easily solved by a grass.

Maybe now it can be said to be a big grass.

The body of the grass soared to more than ten thousand feet, like a violent monster, with a bright luster all over.

And those grass leaves are blooming like willow leaves, shining like jade on the heaven and earth, flickering and sacred.

He was also startled and immediately took off, staring at the grass after the surge.

However, the grass didn't care about other people's eyes, but excitedly waved the grass leaves towards Ye Chen.

"Be careful!"

When ye Chen saw behind the grass, the remaining thunder launched a deadly blow, and his look changed, so he quickly reminded him.

However, the grass had been on guard for a long time. He shook the grass leaves and waved them suddenly. He only heard a burst sound and the thunder was completely broken.

The grass retracts its leaves and shrinks sharply with the naked eye under the gaze of several people.

When the grass returns to its original shape, a wisp of light emerges from its leaves,

Those lights gathered together in an instant and became a bead about the size of a palm.

"This is..."

Ye Chen was surprised because he felt an inexplicable shock from the bead.

"This is the thunder pearl."

Chaotic Leidi said, and his face still had a look of shock.

"Thunder god bead?" Ye Chen looked back and wondered.

Chaotic thunder emperor explained: "the so-called Thunder God beads are beads condensed by the most original thunder power. Everything originates from the heaven, and the heaven represents the most original power. The bearer of the thunder disaster summoned by it is either unable to carry it or has carried it completely. There are few cases that can destroy and absorb the thunder disaster of the heaven."

With that, chaotic thunder emperor also took a look at the grass, but the grass didn't care. After it handed over the thunder god bead, it swaggered back to the Yellow Spring Blue falling picture.

Chaos Leidi did not hide his surprise. He has experienced too many times since he was born from heaven and earth and the beginning of Hongmeng. Even if he was like him, he could not compete with the way of heaven.

The thunder robbery from heaven is extremely mysterious and terrible, representing the supreme power. How many people can successfully resist?

But now, the emergence of grass has subverted his previous cognition.

Is it true that there is an ultimate power to deal with the way of heaven?

Chaotic Leidi dare not think deeply.

However, ye Chen has no idea about this. He doesn't believe in authority. If the way of heaven is unfair, he will rise up and resist.

According to chaos thunder emperor, Thunder God beads need a certain amount of lightning power to condense and form. Since the beginning of Hongmeng and the founding of the world, there have been few Thunder God beads in the world.

Therefore, the bead floating in front of Ye Chen is very mysterious and precious. The power of thunder contained in it is enough to explode a powerful Lei Xiu.

But the next problem came again. Ye Chen was supposed to carry these thunders and then catch a glimpse of the location of Tianlei Shenfeng, but now the six thunders are all subdued by the grass. How can he catch a glimpse of the future.

Ye Chen asks chaotic Leidi if there are other ways to find Tianlei peak. For this, chaotic Leidi shakes his head.

He can help Ye Chen lead a nine thunder disaster, but he can't do it again.

"If you want to wait until the next time, the God of thunder will come, it will take a hundred years."

Said chaotic Leidi.

It is still a difficult problem whether he can maintain the state of God and soul until a hundred years later.

Not to mention, there will be all kinds of changes in the middle.

When several people were talking, ye Chen felt the vibration in the sea of consciousness. It was the little grass that ran out alive again and floated up slowly in front of Ye Chen.

Ye Chen looked at it silently and wanted to know what the little guy wanted to do.

The grass slowly waved the grass leaves and pointed at the center of Ye Chen's eyebrows. Suddenly, ye Chen seemed to have a fierce current across his body, pulling his consciousness into an illusory space.

Ye Chen quickly converged and came to the world that Xiaocao led him into.

Here, there is a vast and endless void, surrounded by thunder on the sky, forming an extremely special world.

Ye Chen's mind moved. He seemed to know something. He accelerated his speed, followed the red dot light in the sky, and finally entered a cloud. There were still thunder around him, mixed with the clouds, and the fog surged and was extremely mysterious and hazy.

Chapter 7254

Finally, ye Chen's consciousness also passed through this sea of clouds and came to the center of thunder. There was a floating island floating in the void, which was extremely vast.

Ye Chen was shocked. He had never seen such a powerful island in the void. There were huge peaks one after another, connected together to form an incomparably vast mountain range.

The most spectacular is the thunder around the island, as if endless and boundless.

At this time, the light of the red dot that led him here became blurred, then dissipated, and his consciousness withdrew from this space.

When ye Chen woke up again, the grass had disappeared and returned to the picture of green falling and yellow spring. Ye Chen saw the grass curled up in the corner of the green bamboo pool, motionless, as if he had exhausted all his strength.

Even he felt a little distressed when he saw it!

Although Xiaocao seems to have natural restraint against the thunder disaster, he can't win it so easily.

After the battle, the grass did not absorb too much essence. Instead, they turned the thunder into a pearl and gave it to Ye Chen, and then urged another force to convey the message of the island to Ye Chen.

After so many operations, if you can't make ends meet, you will surely work hard and skin lesions.

Ye Chen succeeded in finding the legendary Tianlei peak according to the guidance of grass.

The so-called Tianlei Shenfeng is not a mountain, but an island floating in the void.

There, surrounded by mountains, there are no other cities on this island, only countless thunder ancient trees.

Ye Chen can determine that this is Tianlei Shenfeng. He can't be wrong! But they all misunderstood the former Tianlei Shenfeng.

Tianlei Shenfeng is an island of the sky combined with mountains. It is in the distant void, and ordinary forces can't find it at all.

"Now you can go there!"

Ye Chen locked the position of Tianlei Shenfeng and stared at the distant void.

There is the coordinates left by the grass.

Chaotic Leidi nodded. After sleeping for thousands of years, he finally saw a glimmer of dawn.

As long as he can absorb the thunder liquid of Tianlei Shenfeng into his hand, he can reshape an ancient thunder body, accommodate this spirit and free himself from the reincarnation cemetery.

Of course, the success of Lei Chu depends on some luck.

"Well, the emperor will go with you!"

Chaotic Leidi is ready, and even can't wait.

Ye Chen also put away the magic weapon of the divine power, leaving only a treasure to protect himself.

Immediately, he gathered a divine idea, dispersed and told Ren extraordinary and chaotic Leidi the specific location.

But when he was leaving, Ren Feifan suddenly perceived something. He slowly raised his head, and his deep eyes crossed the sky, facing the people outside the void.

"A guest is coming. I have to greet him. You go first."

Ren Feifan looked at it, turned his body into a streamer and floated slowly. He tore the void in front of him and left.

Ye Chen's expression was also a little dignified. It must be that some big man came here to stop them.

And that big man needs Ren Feifan to go out in person to intercept it.

"OK, let's go first! Be more careful, elder Ren!"

Ye Chen used the power of the virtual monument to expand rapidly, and the ripples in front of him slowly bounced open, forming a wide door.

Chaotic thunder emperor's soul flashed into the reincarnation cemetery, and ye Chen quickly went to that place according to the information obtained from his mind!

But at this time, ye Chen suddenly felt a burning sensation on his back!

The next second, the brain seemed to be filled with an extreme force, and the body fell directly to the ground.

The chaotic thunder emperor was stunned and quickly gathered a trace of lightning to Ye Chen's sea of knowledge. Ye Chen opened his eyes hard.

"What happened just now?" Ye Chen's eyes were full of accidents.

Just now, he found that his body seemed to be controlled by some force!

It's not like giving up, but it's like giving up!

How is that possible.

Chaotic Leidi's eyes were dignified and said, "you just lost control. It seems to have something to do with your back."

Ye Chen suddenly realized that it had something to do with the grain behind the ten robbery God devil tower.

And this line represents the desperate situation of death.

I don't have much time left for myself. It seems that at present, the desperate situation of death is more important than the xuanbei of reincarnation.

Ye Chen thought for a moment, and Zhu Yuan's map came to mind.

He was a little surprised. When he went to Tianlei Shenfeng, he just had to pass through the dead end.

Is this a coincidence?

Or is this the fate of samsara?

Father Lian Hongjun also knew something about the desperate situation of death, and reminded himself that I'm afraid that place is by no means that simple.

Ye Chen no longer thinks much and goes in one direction!

.....

After a long time, the void fluctuated.

Ye Chen follows the map pointed by Zhu Yuan, tears the void with the help of the virtual monument, and comes to the end of a domain.

There is an atmosphere of lost time and space here.

But it is very far away from the lost time and space.

Even for some reason, ye Chen felt that it was mixed with the smell of xuanhai.

Chaotic Leidi suddenly said, "this place seems to be caused by the formation of a space fault."

"I just don't know whether this space fault is caused by nature or man-made."

"If it is man-made, the strength of the other party can not be underestimated."

"You'd better be careful."

Ye Chen nodded. His eyes coagulated and saw the border town. At last, his eyes stopped on a sea area. His eyes were blue.

Even the deep sea under its feet has never turned up huge waves. Everything is so peaceful and calm.

"It's strange that there are no abnormalities in this place. Even in the remote border town, they are so ignorant of the world that they don't even feel the breath of the practitioner. Is it that the map given by Zhu Yuan is wrong?"

Ye Chen muttered to himself that the map carved by Zhu Yuan that day had already been firmly engraved in his mind. He tore and pursued all the way. He thought it was a natural moat Jedi, but he didn't expect it to be such a paradise.

"I can finally come out."

Just when ye Chen was surprised, there was a sudden movement in the reincarnation cemetery, but ye Chen was a touch of ecstasy in his eyes.

This familiar voice is the spirit who hasn't moved for a long time!

Although the xuanhai World War I, with the help of the virtual Monument and many forces of ling'er, ling'er has not appeared, and it is obvious that he has been in a closed state.

"Ling'er!"

Feel the familiar wave, ye Chen shouted softly.

"Huh?"

Ling'er changed and appeared impressively in front of Ye Chen. She was still delicate like a porcelain doll, setting off a trace of fun.

"I thought you were going to fight the feather emperor."

As soon as ling'er appeared, he joked to Ye Chen.

## Chapter 7255

"Ling'er, I hope so, but now my strength is not enough." looking at ling'er in front of me, ye Chen always feels that she has changed, but it seems that nothing has changed.

Is this caused by the stone obtained from the great God?

"Eh?"

Looking around for a long time, he sniffed the smell in the air. Ling'er's smile converged a bit. Instead, he looked at Ye Chen and asked:

"Why did you come here?"

Ye Chen told ling'er about the ten robbery of the God and devil tower, the speculation of respecting the elderly, the desperate situation of death, Zhu Yuan and Hongjun's father again.

Ling'er was calm.

"I see..."

"However, the little old man sent you to this place so early. What medicine is sold in the gourd!"

Ye Chen was puzzled about ling'er's attitude. Obviously, ling'er knew he would come here, but he didn't expect it to be now.

"It doesn't matter. Since you're here, come and have a look!"

Ling'er just waved her hand lightly. When the time came, the world changed color and the sea surged.

"This girl..."

Ye Chen was shocked. He always felt that ling'er was different from the original. This closure made the reincarnation xuanbei stone that Taishen obtained belong to the same stone, which made ling'er's breath so strong.

"It's interesting. It seems that I can do it and I can do it!"

Compared with the past, ling'er's figure and posture are still ling'er's appearance, but his mind has matured a lot. For some dusty old memories, it is also another corner.

Ling'er looked up at the sky and just laughed with ridicule. Soon the heaven and earth in his palm turned upside down, just his little hand turned over, and the blue deep sea immediately merged with the blue sky.

Ye Chen lifted her eyes again and looked at the sky. The waves were surging, and the blue sky and floating clouds moved under her feet!

"This..."

Such a terrorist means of turning the world upside down is just a small hand turning over with one palm?

Even ye Chen didn't feel the fluctuation of half space, so he had already done the act of stealing heaven and changing the sun. Is this ling'er's attainments in space?

"Unexpectedly, there is a layer of space barrier?" ling'er obviously saw the clue. Before ye Chen asked, he gently pointed his fingertips to the ground.

"Boom!"

The invisible fluctuation with Linger's fingertips, the blue sky under Ye Chen's feet twisted up, and the auspicious clouds dissipated.

"Now!"

Linger looked at the blue sky stretching for thousands of miles under his feet, and his little hand gently grabbed it in the air, as if he had pinched all the heaven and earth in his palm.

After a while of sideways looking and playing, Linger shook his head, only gently lifted it in the air!

The boundless blue sky under my feet was like a mattress, which was lifted by the spirit in front of me, gently lifted up and dissipated into the sky.

Ye Chen looked at the scene in front of him in surprise. It turned out that there was heaven and earth here!

With this sweep away, the white sand under my feet was flying, and the familiar wasteland was still in front of me.

It was the boundary that I passed when I set foot on the ten robbery God devil tower with the old guy of Shenwu hall to pursue Zhu Yuan's footprints!

exactly alike!

"What you see in the hinterland of Shijie magic tower is an illusion derived from this place. Maybe here, you will experience something again!"

Seems to see through Ye Chen's idea, Linger whispered.

"Are you surprised? How do I know what you're thinking?"

Linger's pretty face rose with a mysterious smile, but it didn't explain it. That means, I don't say, guess for yourself!

"So, the border towns I saw just now are all illusions. This white sand wasteland stretching for thousands of miles is the desperate situation of death?"

Ye Chen asked.

"The small town you saw earlier is true, and here is also true!"

Ling'er whispered and explained.

"When you break through the Baijia realm, you will naturally know the true meaning!"

Obviously, Linger's attainments in space have reached a terrible level.

"However, the space here is extremely strange. We should be careful since we set foot here. Here, even the emperor and grandfather can't easily tear the void!"

Ling'er told Ye Chen.

"Even Tianjun and Laozu can't tear up the space of the dead end at will?" Ye Chen feels that the dead end is becoming more and more complex.

.....

At the same time, another place.

Two figures came in this direction of Ye Chen.

"There are no living creatures in this desolate land except white sand. That person is a little too vigilant!"

"It is God's will to destroy the dust and separate from the land boundary. We can't guess the will of that one!"

"Hoo..."

The roaring sharp wind blade swept over the wasteland, mixed with bursts of sand, raging.

"Huh?"

"Do you feel the seal, too?"

"How long has there been no life in this place?"

The two voices sounded alternately, as if there was an indisputable color of excitement. How long has passed? Facing the white sand, one grain is a day.

"Is it the prophet?"

"Play, it's boring anyway..."

"The man seems to have mentioned the desperate situation of death!"

.....

Screen rotation.

Ye Chen's eyes narrowed slightly, with an ominous premonition.

"By the way, it's not really a dead end, but a space to be exiled together by the forbidden area!"

Ling'er explained to Ye Chen.

"According to common sense, this place is absolutely impossible to have vitality..." ling'er just wanted to explain, but he noticed that there was a little more fluctuation in the space.

Chapter 7256

Before the voice fell, a touch of stars burst out in Ye Chen's eyes. He felt a sense of oppression!

In an instant, the white sand in front of the two people surged up, the raging wind blade rolled up the sand, and the sand gathered up. In front of Ye Chen, a huge sand ball kept expanding!

"Who dares to come here?"

The voice of Sha Miechen and Sha Tianxi came out and shouted loudly.

"However, Jie, since you are here, let's play!"

The atmosphere of tyranny soared. In the sand ball in front of us, there was a killing opportunity, and countless grains of sand came almost everywhere!

"Whoosh!"

A small sand grain invisible to the naked eye burst out from the sand ball. Ye Chen didn't intend to use the dust tablet to protect it. Only one grain hit on Ye Chen's right arm and a blood line suddenly flew out!

This sand grain unexpectedly contains the extremely terrible destruction rhyme.

"Ye Chen, get back!"

Ling'er said hello loudly. The white sand surging all over the sky, not to mention out of reach, can't hide even if it can be covered by perception!

Their bodies rushed to the distance one after another, but the white sand behind them was like a shadow.

Ling'er sees it, the universe in his palm turns over, and the powerful force of space will condense the sand waterfall in front of Ye Chen!

"Time and space are still!"

Just for a moment, it was enough for ye Chen to pull out several positions. Ling Er took up the power of the field and chased Ye Chen.

"Jie, what a strong space!"

"Put out the dust and work harder!"

The sound of Sha Mie Chen and Sha Tianxi pondering echoed on the wanzhang white sand wasteland. With a burst of crazy laughter, the white sand under the feet of Ye Chen and ling'er began to condense slowly. The strong adsorption force made their bodies stagnant!

"White sand field!"

"Jie, let's see our strength in the field!"

The white sand under his feet turned into arms and entangled Ye Chen and ling'er's feet. The sand waterfall surging behind him was in front of him.

"Feel despair!"

The voice of the as like as two peas of dust extinguish again, that is, immediately before ye Chen, several sand balls that are exactly the same as before have risen and become bigger and bigger.

Ling'er's eyes are dignified. Running all the way to the wasteland is definitely a way to die. We must find a way to break the situation!

"Ye Chen, I'm afraid their real bodies are hiding in a corner of the wasteland. If we don't find them, the white sand won't stop!"

"Such a big wasteland, two people's real bodies..." linger woke up the dreamer with a word. Ye Chen's brain was running rapidly, and the vast spiritual power was revealed in an instant. That was enough to be comparable to the power of the strong emperor of heaven. They crossed the wasteland. Under every grain of white sand, they were swept by Ye Chen!

"Your mental power has reached this level! It seems that a lot has happened in xuanhai." ling'er was surprised, his actions did not stop, and the universe in his palm turned again.

"Congealing!"

The power of the field reappeared, and the sand waterfall surging in front of Ye Chen suddenly.

"Come on, I can't support it for too long. I can't fight until I lock my real body under the pressure of the other two heavenly kings!"

Ling'er's eager voice came. Ye Chen's terrible spirit comparable to the emperor of heaven could really find the real body hiding them!

"Damn it!"

Ye Chen, who was anxious, felt that he was flying over inch sand, but he always got nothing, and his sight was gradually blurred!

"Jie, good spiritual power. I almost thought that the emperor and ancestor would come. It turned out that it was just a strong spiritual power and spiritual power. Cultivation was just too true."

"Capture him. If it has something to do with the one who explained, it will be a good opportunity for you and my brother to make contributions!"

When Sha Miechen and Sha Tianxi saw Ye Chen's cultivation in the real world, they had such great spiritual power. They immediately remembered the prophecy of killing the great emperor, and immediately put away their playful attitude to capture Ye Chen alive!

"Hongmeng big starry sky, open!"

A star river appeared over Ye Chen. Ye Chen, who calmed down, slowly closed her eyes, carefully felt the warmth from the grain of white sand, and constantly adjusted her breathing.

Between ling'er's forehead, drops of sweat fell, and in the space of the static field of the whole body, the surging white sand was everywhere, but it was not allowed to enter.

"The noumenon of these two people is not in the vast sand sea!"

There was a flash of light in front of her eyes. Ye Chen's closed eyes suddenly burst into tears. The reincarnation heavenly eyes gathered as if they were condensed on the void. The reincarnation light flowed and the breath of Hongmeng filled the air.

"Ling'er, help me!"

According to Ye Chen's cultivation, using the Longyuan Heavenly Sword and using the waterstop sword may kill the other party, but the other party is completely integrated into the rules. How? Only with the help of the power of ling'er and empty stele can we have the opportunity.

"Boom!"

Ling'er's figure nodded gently and slowly dissipated in the void. For a moment, the space field went away with it, and the killing awn had arrived.

"Water stop!"

The bright sword became the only bright color on the whole wasteland, cut through the sky and cut directly into the purple awn above the head.

"Buzz!"

The sword light smashed the light and shadow that condensed the Hongmeng purple gas, and the bright light like a star sprinkled on the white sand. In the wasteland, the killing machine slowly gathered up, and even the hot white sand was dim.

"Sure enough, Hongmeng purple gas can restrain these white sands!"

Obviously, the ten thousand feet of white sand on the wasteland are controlled by Sha Miechen and Sha Tianxi through the array. The Qi of Hongmeng can cut its connection.

"Broken!"

Ye Chen drank loudly, and the Longyuan Heavenly Sword turned again. Several swords roamed in the sky like a dragon, and the star pierced the huge sand balls condensed.

"Bang, bang, bang!"

The muffled sound sounded one after another. Under the light of the sword, the Stardust splashed countless dust, blocking the line of sight, but it also slowly returned to silence.

"Hoo..."

A howling wind blew by and the white sand rose again!

"Good means. I just heard you mention the desperate situation of death. Who are you?"

The voice of the evil seal sounded first. The cold wind swept through half of the sand and gathered into a human shadow. The white sand was used as the skin and solidified into a armor. There were several cracks and spots on the face, which seemed to be hurt by the previous sword.

"It seems that I really guessed right. I can't hide any wind and grass on the vast wasteland by incarnating sand and driving it with the spirit!"

In the eyes of Sha Tianxi, the breath of Longyuan Tianjian dissipated, and Linger's body flashed and stood side by side with Ye Chen.

"Young man, be smart, but you'll come to no good end!"

Suddenly, there was a cold cry in his ear behind him. Before Ye Chen could react, he had cut the tip of his hair, and a few strands of green silk fell.

Linger's eyes on his side coagulated, and the falling green silk suddenly stopped in the air.

Ye Chen immediately summoned the red dust God pulse and protected it on his body surface to form a layer of gold armor. Three heavenly swords are eager to try!

Chapter 7257

In the elixir field, the demon Tianshi scarlet awn flashed and immediately flashed away with ling'er.

The strength of these two people is not weak, but the strength of the outbreak is not as terrible as xuanjiyue, but more importantly, they completely control the rules here, just like the God here.

After shaking his numb right arm, ye Chen looked at the figure that attacked him just now, and there were bursts of black mans on it.

"This abandoned world is guarded by creatures?"

Looking at the Sha brothers who surrounded them at an angle, ling'er also smelled an inexplicable crisis.

It seems that there is something wrong with the real desperate situation of death.

"Pa Pa Pa!"

The Sha seal on the void gracefully raised a pair of sand arms, clapped gently and said, "good ability, girl who is good at space. It seems that you should be the one who took the lead in breaking into here!"

The bland sound sounded. With the waving of the sand arm, grains of white sand splashed around his body, and the stars flickered on it, hiding a killing opportunity.

"I'd like to see if you will think of anything when I step on you later!"

The voice of Sha Tianxi just fell, and the stars around him didn't disperse. His figure had appeared in front of Ye Chen. A striker's knife slashed it down!

"Bang!"

Sand waterfalls gush, and a deep pit emerges in place. In the meantime, stars are dotted, and the atmosphere of brutal logging is filled.

The seal whispered, "good martial arts!"

Not far behind him, ye Chen and ling'er stood still.

The previous hand knife was not lost, but was dissolved by the spirit in front of them in the field of space at the moment when they were close to them!

"What about this!"

The shape of Sha Tianxi slowly fell to the ground, raised his right foot and stomped gently against the vast wasteland. In an instant, the whole body lit up starlight, and the whole person was shining like a star. Ye Chen was not surprised. It was just a flash!

"Bang!"

Ye Chen, guarded by the red dust divine vein, was thrown out by a powerful sand arm, and his huge penetration force shook his body 100 meters away!

But ye Chen didn't hurt. His eyes narrowed slightly and didn't use his cards immediately.

He always felt a pair of eyes staring at himself in the dark.

He found that ye Chen had nothing at all. Linger's hanging heart fell to the ground and stared at the evil seal in front of him again. It's really a hard bone to chew!

"In that case, I'll play with you!"

The evil dust killed Jie. Jie smiled, and the cold breath appeared behind Ye Chen. It was disgusting before he attacked.

A black awn flashed past, and ye Chen outlined it at the corner of his mouth and easily avoided it.

"This evil spirit should step into the emperor of heaven soon, which is much weaker than that evil seal. If you can defeat this guy and cooperate with the rescue spirit, you may not need to use any cards. In this way, you may also confuse the eyes in the dark."

Ye Chen's brain is running rapidly, thinking about battle strategies.

"Meteoric light!"

Ye Chen obviously underestimated the strength of these two people. After all, this guy in front of him is not comparable to the old guy of Shenwu hall.

A point out, set off a hundred feet of dust, a wisp of black awn will condense the sand sea and puncture it towards Ye Chen!

"Ye Chen, use the reincarnation map of martial arts!" linger suddenly reminded.

Ye Chen's eyes coagulated and understood what in an instant. He said loudly, "the reincarnation map of martial arts! Seal!"

Ye Chen's whole body, a dark barrier emerged, which collected all the killing moves of evil dust into the turbulent flow of space.

"Oh? Do you still have such a treasure?"

Sha Miechen licked the corner of his mouth. The space of the abandoned place can't be cut easily. Ye Chen is a too real environment. If he can be so calm, he must have a treasure!

"This thing belongs to me today!"

A black sand awn was resisted by Ye Chen, but Shachen didn't care about it. The wind and cloud in the palm suddenly rose and a little black awn condensed.

"Don't kill him. It's hard to explain to the emperor!"

The Sha seal was opposite Linger's two palms, and immediately opened several positions to command the Sha Miechen.

Seeing Ye Chen's strange spirit son turned and wanted to run to him, he only saw the star flash in front of him and stopped it by the seal!

"Ye Chen!"

Linger drank anxiously, but he was entangled by the seal.

Hearing the order of the evil seal, the black miasma that had been killing Ye Chen turned into little particles and stabbed Ye Chen's skin!

"Bagua Tiandan skill, Tianxian Koi copy!"

He used the immortal Koi copy to absorb all the Qi, fortune and laws, which can resist all the dark attacks.

Instant resolution!

When Ye Chen was ready to do it again, I didn't know when the tattoo on his back was like resurrection, gushing out black energy and spreading on Ye Chen, which was the same as the first war with the evil soul in the previous ten robbery God and devil tower.

The mysterious black energy gushed out from behind Ye Chen, watering out the sand awn of the evil dust, and even swallowing the black star awn!

"Huh?"

I felt the strange evil dust and just wanted to stop, but I was shocked to find that the energy around me seemed to be connected with Ye Chen and could not be disconnected!

"Cough!"

Ye Chen, who had returned to God, also felt the breath of the death of evil dust covering himself, and immediately shouted: "the reincarnation map of martial law!"

For a moment, the power of seal emerged, and the pain of tearing the soul appeared in the mind of shachenmie and ye Chen at the same time!

Ye Chen, who has experienced countless life and death struggles and has extremely terrible mental power, almost lost consciousness of such pain. How can Sha Miechen bear it?

Chapter 7258

"Take you on the road!"

When ye Chen saw this, he was determined to completely break his spirit. His huge spiritual power gushed in an instant, and the breath of reincarnation was undoubtedly revealed.

This move also alerted the evil seal who fought with ling'er!

"Vertical son, you dare!"

Although I don't know why, ye Chen pulled the spirit breath of killing dust with strange means, and wanted to turn his own spirit into a sword and directly cut his spirit!

"Ding!"

The divine mind turned the sword and stabbed it hard on the spirit of Sha Miechen who was firmly blocked and pulled by the reincarnation map of martial arts. The center of his eyebrows was cracking!

A flash of stars flashed through, and the terrible speed of the seal quickly swept to Ye Chen. Even Ling Er couldn't catch his whereabouts!

"Go to hell!"

At this moment, the evil seal lost its previous calm, and a crazy sword intention went straight to Ye Chen's mind.

"Boom!"

The light of the sword turned into spiritual force broke and scattered on the seal and the dust. When he thought he had successfully saved the dust, the cracked eyebrows suddenly burst!

The evil dust is extinguished, and the spirit is broken on the spot!

Countless pieces of memory collapsed and scattered. At that moment, ye Chen saw scenes across his eyes.

"Kill the great emperor?"

Ye Chen's eyes were in a trance and reflected a human figure, but the evil seal on one side was greatly frightened!

"No!"

The mad seal's breath soared in an instant, and then he said in a deep voice: "boy, I remember you. Even at the ends of the earth, I'll skin you and cramp you!"

On the sand's face, which was not handsome, particles slipped, and the whole sand body quickly shriveled and cracked. Countless stars splashed at the cracks.

"Ye Chen, be careful this guy wants to explode!"

At the moment, ye Chen fell into a magical state, turned a deaf ear to linger's cry, and his eyes were blurred.

The first white sand star that splashed broke, and the sand that splashed cut linger's cheek!

Ling'er's hand also successfully grasped Ye Chen's skirt.

"Boom!"

In the world where the edge is unknown, the foot of the seal is the center, and the whole area dissipates with it!

As far as linger's eyes are concerned, there is a smell of killing and cutting, with a little star light in between.

.....

A star rushed out of the unknown space at the moment.

"Emperor, the seal is incompetent!"

The six words came out, which was the previously self exploding seal.

"Huh?"

Deep in the void space, a question sounded.

"The man didn't know how to break the spirit of killing the dust, trying to spy on his memory. His subordinates were afraid of the leakage of great secrets, so they had to explode the sand body to stop it!"

It's better than a seal. Under the questioning of that voice, the feeling of fear and fear showed.

"My subordinates will go again and capture the two men!"

"No!"

A faint voice echoed in the void space. Before the seal opened, the breeze blew by, and a spirit disappeared!

Before the seal could feel death, it had dissipated between heaven and earth.

"Zhou Xinyou, you go!"

In the empty world, there is a heavy sound.

A graceful figure walked out slowly. The skin was like snow and could be broken by blowing. The dark long skirt naturally fell down. Its material was empty and bright. The slender thighs were faintly visible up to the root, with a smile on his face. He said charming: "yes, Lord the great emperor!"

"This game of chess is very deep. Don't scare the snake and watch it change!"

Zhou Xinyou's figure left slowly, and the dark voice dissipated. In the void space, he fell into silence again.

.....

On the white sand wasteland.

"Are you awake?"

Ye Chen opened his eyes and frowned slightly. The previous mysterious tattoo actually helped him. Unfortunately, he was interrupted by the self explosion of the seal just peeping into the soul.

Ling'er asked, "what did you say about killing the great emperor?"

Ye Chen closed her eyes again, opened them after a long time, shook her head and replied, "I didn't see clearly, but I was interrupted by that guy when I heard these four words!"

"The secret to protect at the cost of death..."

It is inconceivable that there are creatures on the periphery of the desperate situation of death. It seems that someone is making trouble behind it.

"There must be a problem in the dead end. Since the clue is broken, you can only go in and have a look!"

Ye Chen got up and spoke to ling'er.

"Do you know where the entrance is?"

Ye Chen pondered for a long time and guessed, "those two guys can gather the power of white sand. This is not a talent, but they should have fallen long ago, but they survived in some way!"

"Demon temple?"

Linger subconsciously thought of the holy ancestor of the demon.

Ye Chen shook his head. "The people who use these means are better than the old ghost guy. I don't know how much. Those who can let the remnant soul give play to the power of the emperor of heaven. Those who live in this land, in addition to their predecessors, there is another person who has the power to connect with heaven!"

"You mean, too God?"

Ye Chen nodded gently, "yes, it must have been done by the strong at the level of Taishen! And I feel that there is an anti heaven array under the wasteland through the array formula of Brahma's divine power!"

"Array?" ling'er knew it at the moment. The remnant soul could have such means to force them into a dead end. It was only the power of the array.

"The guy's self explosion just now will certainly expose a mystery to the array. We'll deduce against it and maybe find the entrance!"

Ye Chen turned and looked at the deep pit, but ling'er was in trouble.

"How can I find such a big place?"

.....

Just then, not far away, on the silent wasteland.

Two snow-white lotus root legs slowly twisted to the depths of the wilderness under the symbolic cage of black yarn.

"It should be there..."

Breathtaking laughter sounded, but it was also submerged in the white sand.

One sand and one world, a heavy breath rang out continuously. Ye Chen showed his Hongmeng starry sky, and the spirit poked out and took it back.

Even his vast mind as the Lord of reincarnation can't peep into one or two of them.

"The wasteland is boundless. The seal explodes. Although it has pried a corner of the array, with my current ability, I can only try aimlessly!"

Ye Chen, who sat cross legged, opened his eyes again. Even he felt tired at the moment.

Ling'er saw the flickering lines of Ye Chen's right index finger, so she asked:

"Are the inscriptions, runes and books on your hand made after this array?"

Ye Chen replied, "well, the array formula of Brahma's divine skill is really powerful, but with my ability, I can only outline the remnant array at the moment. I don't know if it can resonate!"

"Boom!"

Ye Chen clapped his palm directly at the vast wasteland. The lines in the palm flashed, and the grains of white sand surged up.

Although subtle, they can't escape the capture of their perception!

"Valid!"

Ling'er was happy, but not long ago, he was worried. According to this speed, it was impossible to see the whole picture of his array for thousands of years.

Chapter 7259

"Is it..."

In Ye Chen's mind, the scenes in the original ten robbery God and devil tower appeared. The array of locking bronze ancient coffins on the main hall seemed to be very similar to this corner.

The heart reads a move, the huge soul force condenses again, and the golden lines begin to spread on Ye Chen's right palm!

"Hoo..."

Work hard, three fingers, condensation!

I saw that in the white sand, a trace of stars appeared, which was the same as the previous seal.

"Scattered!"

In an instant, with Ye Chen as the center, dozens of feet away, the white sand slowly passed, the bare land gradually appeared, and a series of obscure inscriptions appeared in front of them.

"Succeeded!"

Ling'er followed the spread of runes and went away after a incense stick.

An eyeball shaped pattern with scattered stars appeared in front of them.

"It should be array eyes, that's right!"

Ye Chen was about to come forward, but he was stopped by linger.

"Don't move, it's weird!"

Ling'er's eyes were dignified, his eyebrows tightened, his two small hands stretched out across the air, and his ten fingers seemed to be knocking something.

"Ding!"

The stars split, and Ling Er breathed a sigh.

"This place is protected by space boundary. If you break in forcibly, you will detonate the array!"

"It's dangerous. I didn't find the formula. If it weren't for you, it would have been over just now!"

Ye Chen wiped his forehead. Once this place detonates, the consequences are unimaginable.

"Whoosh!"

A flickering mark appeared between the eyebrows. The faint golden awn was directly directed to the center of the array. A touch of light and shadow was reflected on the ground, shot into the void, and slowly condensed into a star gate.

That mark is actually a refining peak that has not been used in the sea for a long time!

Ye Chen's eyes narrowed slightly. When he first came into contact with the desperate situation of death and the peak of refining God, he knew that there was a great correlation between the two.

Jin Shuhui and his teachers told themselves that Lianshen peak is extremely mysterious and distant.

In those years, with Ye Chen's deepening, ye Chen found that Lianshen peak was a huge peak in the desperate situation of death!

It's just a mystery why the desperate situation of leaving the world appears abroad.

At the same time, the array eyes opened and a channel appeared, leading to the bottomless underground.

"Which way?"

The mark on the center of the eyebrow is only a flash in the pan and is suppressed by the lines on the back.

Ling'er looked at the two roads in front of him and turned over the difficulty.

"Heaven and hell!"

Ye Chen whispered and immediately stared at the star gate above the void. It seems that if you want to solve the puzzle and the mystery of the bronze coffin behind you, you can only go!

"Up!"

Ye Chen said hello to ling'er, and their figures went straight into the void. A moment later, the space crack healed, and there was no trace of everything.

Zhou Xinyou looked at all that happened not far away. It was always the Mid Autumn Festival in her eyes, and she didn't leak half of her breath.

Quietly watching Ye Chen and others disappear, she walked out slowly. Calmly looking at the big array under her feet, she didn't mean to step out.

.....

At the same time, in the real desperate situation of death, the void fluctuates.

Ye Chen and ling'er fell on a plain.

"What the hell is this place!"

They stepped out step by step, suspended in the air, looked at the broad and flat, and said nothing.

"There is a dense forest over there!"

Ling'er raised his little hand and pointed to the southwest. The looming places were all leaf trees.

They went quickly, but the breath on their sides became colder and colder, and white bones scattered in the plain.

"This place has experienced terrible war in that era!"

The shining white bones have experienced the erosion of countless months and years, and their killing intention is still diffuse.

It can be imagined how terrible his strength was!

"Stop, don't come any closer!"

Ye Chen noticed the abnormality for the first time and motioned linger not to move forward.

There are no dense leaves in front of us. All we can see in the distance are mounds of white bones. What's more, the white bones are inserted into the shape of trees for decoration.

"Hoo!"

A cold wind blew behind him, which also brushed the bone leaves. It seems that due to the weathering of years, the residual ashes were ossified and the ember wind was raised in an instant!

Ye Chen couldn't get away. He was only contaminated for half a minute. The clothes on his left arm dissipated with the ember wind, and one of his fingers evaporated instantly!

Ye Chen's eyes narrowed slightly. His body should be more terrible after the first World War of xuanhai and Xuanji month. Even the reincarnation holy body was so, which shows the strangeness here.

Ye Chen took a look at his hand, displayed the eight trigrams heaven elixir and the copy of the immortal Koi, combined with the spirit tablet of the Lord's recovery in the reincarnation xuanbei, strong vitality gushed out and began to derive the blood and flesh at the broken arm. It seemed that the white bone was very disgusted with the breath of life. Behind them, the ember wind accelerated and roared.

"This bone wind seems to be pushing us where?" Ye Chen Ning said again.

"This way!"

Ling'er pointed out a way to live with her strong spatial perception.

Qiang Qiang stepped out in a few steps, and the bone wind behind him was tyrannical and spread towards the two people. Only in a moment, he drew closer to several positions!

"Come on, ye Chen!"

Ling'er looked back, but he saw Ye Chen Leng in situ.

"No, something's wrong!"

Ye Chen's footsteps gradually stopped, and the ling'er in front looked back and urged: "absolutely not wrong, I can feel the orientation, not far in front!"

"Ye Chen, what are you hesitating about? Don't you believe my spatial perception?"

It's about life and death. Ling'er shouted and pulled up Ye Chen to run to the front.

"Pa!"

Ye Chen pulled back the corner of her sleeve, shook off ling'er's small hand and said in a deep voice:

"No, we got into a game at the beginning!"

"This bone wind blocks our sight. We can only subconsciously distinguish the position by perception. There is a real way ahead, but at our speed, it is absolutely impossible to escape!"

"That's the dead end!"

Ling'er was surprised at the speech and looked at the way behind him in disbelief.

"This way!"

Ye Chen took ling'er's small hand and went to the left. The pushing speed of bone wind remained unchanged.

"No, this way!"

After adjustment, the bone wind roared behind him, but the propulsion speed was gradually slow down. Although the tyrannical breath was constantly distributed, they were gradually separated by the two people.

"What the hell is going on?"

Ling'er looked at the bone fog gradually being left behind. He gasped and asked.

"That road may be a way of life, but we don't know how far it is. Once we move forward forcibly or tear through the void, the bone wind will roll us into debris in an instant!"

Ye Chen also gradually stopped the pace of the attack. The bone fog behind him has slowly begun to dissipate and no longer spread.

"At the beginning, although no one appeared here, I always felt a pair of eyes looking at us in the dark!"

"There is a dense forest in Pingchuan, which has a panoramic view. The man has predicted that we will inquire forward!"

"Although the bone wind is overbearing, it also has flaws, leaving a way to live for us to find out!"

Ye Chen frowned and seemed to be pinched!

"You mean, someone told us to go forward?"

Ling'er was surprised and immediately closed her eyes. The huge spatial perception was instantly opened and looked everywhere.

"It's useless!"

Ye Chen shook his head slowly. His mental power was stronger than that of Linger, but there was still no clue, but it was too coincidental!

"Is it..."

What a coincidence?

Ye Chen's heart gushed out such an idea, but Ling'er gently pulled Ye Chen's clothes.

"Look there!"

The bone fog dispersed, and at the end of their sight, a gray mountain towering into the clouds stood.

"It seems that you guessed right!"

On Ling'er's little hand, cold hairs stand.

"Since someone wants to see us so much, go and have a look!"

It's better to have a trace than to wander aimlessly. Even if there are ten dead and no life ahead, you can have fun.

One step out, Ye Chen felt something different.

Four eyes are opposite. Obviously, Ling'er also found an abnormality.

After the bone fog dissipated, the new killing machine reappeared!

.....

At the same time, in a space.

Ren Feifan suddenly opens his eyes. His pupils have blood circulation, and a giant whale emerges.

He looked in one direction, which was meaningful.

"Ye Chen, this game of chess is finally about to begin."

Chapter 7260

.....

"Why do I feel that my spiritual power has been pulled away by this world?"

Ling'er looked at Ye Chen and said in surprise.

Ye Chen glanced at the reincarnation heavenly eye and replied, "it's not an illusion, so am I!"

It was another step to step out, and the spiritual power in the body passed in an instant!

"Ling'er, you'd better go back to the reincarnation cemetery. This place is strange!"

Ye Chen made a quick decision and said, he felt that his spiritual power in Dantian was less and less.

At that time, it will be difficult to use the nine heavenly gods and the water stop sword.

After all, the more powerful the martial arts, the more spiritual power is needed.

Ling'er thought for a moment and finally nodded.

She can also come out to help Ye Chen at the critical moment in the reincarnation cemetery.

"Hoo..."

Ye Chen took a deep breath and immediately rushed up!

After hundreds of steps, he stopped breathlessly in the same place. In the Dantian, the spiritual power that was still circulating dozens of seconds ago has dried up.

"Are you okay?"

Ling'er's worried voice came.

Ye Chen looked up with a smile and said, "don't worry, I'm the Lord of reincarnation. My Qihai and Dantian are far more than others!"

The light of the left and right palms scattered, and ye Chen's steps rushed again.

"Bang!"

I don't know how long it took, ye chenmeng fell to the ground, laboriously raised his eyes and looked at the half way, gasping wildly.

The gray mountain peak that had previously plunged into the sky is now close in front of him, but he doesn't even have the strength to stand.

This feeling has not been experienced for a long time.

"I lend you my strength!"

Linger preached.

"No... although this place is strange, it's just coercion. I can bear it!"

Ye Chen struggled to get up again, raised his legs and stepped. It was only flat, but his legs were like deep in the mud and couldn't move.

At this time, chaotic thunder emperor said, "the layout here is definitely a overlord, not to mention you. Even if the emperor comes, I'm afraid it's useless."

Ye Chen's eyes narrowed slightly and asked, "do you have a solution?"

Chaotic Leidi shook his head: "compared with the arranger, my strength is much worse and can't break the game."

"I suggest you leave here as soon as possible. Although you are in charge of the reincarnation cemetery, it doesn't mean you won't die."

"With the exhaustion of aura and the extreme pressure here, you may die!"

"How to find Lei Bei when he is dead?"

Ye Chen ignored the chaotic thunder emperor and continued to move forward.

How could he shrink back from his martial ancestor's Taoist heart and Lingxiao's martial intention.

After a incense stick!

"Yi!"

Bursts of burning smell came, and the flesh and blood around Ye Chen began to evaporate. The severe pain made him kneel on one knee!

"Ah!"

Stinging pain from the depths of the soul rushed into the mind.

As soon as ye Chen waved his hand, the healing power of the gossip pill stove slowly covered his wound.

As a result, the flesh and blood gradually recovers and is full of luster.

"Come again!"

Ye Chen, who knelt on one knee, got up slowly, adjusted his breathing, and did a good job in the attack again. He worked hard, fell again, and exhausted three times. He wanted to use the last strength to play the game!

Dozens of steps in succession came out, and the glittering light around Ye Chen had already dissipated, and many Taoist methods had dissipated!

"Damn it!"

Looking at the gray peak in front of him, ye Chen drank reluctantly.

"There are hundreds of steps to reach the foot of the mountain!"

The seemingly very close distance, for ye Chen, who can't step out at the moment, is no different from the abyss of heaven.

"Boom!"

With a step of Qiang Qiang lifting, ye Chen's flesh is green tendons, and his blood is clear and audible.

"Stop, ye Chen, you'll die!"

Ling'er shouted anxiously, but now she can also clearly feel the pressure of the outside world. Once she appeared, her situation is not much better than ye Chen. She can't save people, and may even be in a deep quagmire.

The eight trigrams pill oven fell into silence. It was as powerful as its terrible recovery ability. At the moment, it could not help Ye Chen.

"Ah!"

With a roar, his right foot took a heavy step, and immediately the meridians of his whole body burst open, blood and flesh sprayed, and a little blood and sweat was used as bait to ignite a gray flame on Ye Chen's body.

"Hoo..."

With every breath, the fluctuation of the indifferent figure is weakened.

After a few breaths, the stubborn figure stood up again!

"Click!"

It was another step, the flesh and blood of the whole body evaporated and dissipated in a flash, and the gray flame attached to Ye Chen's skeleton and never disappeared.

Stepping out several steps in succession, ye Chen, who has turned into a moving white bone, stopped again.

"Give it to me!"

The soul power of terror and the power of reincarnation overflow on the body surface, trying to resist the terrible pressure between heaven and earth.

The faint lingering light coagulated a pile of broken bones, revived flesh and blood, and the stubborn figure got up again and moved forward.

"This gray flame is burning everything about me! At this time, many of my cards can't be used. Is this the so-called test?" at the moment, ye Chen has lost half of his flesh and blood, and there are two terrible holes in the depths of his eyes. Even so, ye Chen still feels blurred vision.

"Is that all?"

Dragging his broken body, he continued to walk step by step. At the moment, he had already felt no pain. On the contrary, he felt more and more floating all over and walked more and more gently.

"Stop, ye Chen!"

The soul's eyes and canthus in the reincarnation cemetery are about to crack.

For no other reason, ye Chen, who is still marching forward, every step further, the pressure is to crush a bone of his own!

After several steps, the hand bone of the right arm had already disappeared, and the foot to leg bone of the left leg had also dissipated.

His left palm reached out to his eyes and crawled hard

"I won't lose!"

The soul power has been burned out. At the moment, ye Chen is just fighting tenaciously with his will!

"Boom!"

A heavy pressure kept pushing down, and ye Chen no longer struggled.

"Is it over? Damn, there is still the last step..." consciousness gradually dissipated, but there was a golden light in front of me!

"I can't die!"

"I can't die!"

However, the indifferent figure at the bottom of the mountain can't move forward. Even if the idea doesn't disperse, it can't support the body to take the last step.

"Get up! Ah ah ah!"

At this time, ye Chen's eyes were empty, and a golden light burst out from his eyebrows and hit the ground directly. A golden light wrapped Ye Chen's body and moved forward for a few minutes.

This is the power of Lianshen peak!

Refining God peak helped Ye Chen complete the final test.

"Whoosh!"

At the moment when the pressure dissipated, ling'er rushed out of the reincarnation cemetery, stretched out his little hand, held Ye Chen's body firmly in his arms, and a touch of hot tears gushed out.

"Don't die!"

"You must not die!"

Ling'er crazy urged her whole body strength, looking at Ye Chen whose vitality gradually dissipated, a trace of certainty flashed in her eyes.

"The moment is eternal!"

The powerful space force poured into Ye Chen's body, and the gradually dispersed vitality no longer passed, and was fixed here.
