

Physician 7281

Chapter 7281

Ye Chen immediately sprouted a retreat. The guy in front of him was stronger than the yanzun who had just been suppressed with the strength of nine cattle and two tigers!

Now he is in the periphery of the desperate situation of death, and his power of heaven and earth suppression is also extremely limited. This guy has escaped. No wonder he is not afraid of a war!

Ye Chen looked at ling'er. They thought it through and nodded gently.

"Whoosh!"

The white haired ling'er stepped back and pressed the array. Ye Chen fought again with the Heavenly Sword. Every time the cold light flickered, the figure in front of him didn't have any superfluous actions. He dodged gently!

"My action was completely seen through by him!"

Staring at the dark pupil, ye Chen was surprised. "Is it that pair of eyes?"

It was another blow through the void and the galaxy. The mask man in front of him did not hide or flash, and his deep eyes stared at Ye Chen.

"Ding!"

I don't know when a wall as thin as paper and sand blocked Ye Chen's blow for him, an unbreakable sand shield!

"Is this your tough confidence?" the condescending figure said dismissively.

In the distance, Zhou Xinyou didn't have the slightest intention to intervene in the fight to kill the great emperor. Looking at the almost one-sided situation ahead, she muttered: "two mole ants don't even have the qualification to please. What does the great emperor want to discover on them?"

.....

"Damn it, if I use the sword of water stop and am accepted by the other party, the consequences will be worse."

Ye Chen failed with a blow. He was about to withdraw. However, he lost the figure behind the sand wall!

"You dare to be distracted when fighting with me. You are really not afraid of death!"

As soon as the voice of killing the great emperor fell, his slender arm had crossed Ye Chen's eyes.

"Cough!"

The five fingers were firmly fastened on Ye Chen's neck and gently closed, and a heat wave gushed in Ye Chen's throat.

"Where is that power?"

At the moment when the killing emperor came into contact with Ye Chen, he could clearly feel that he had no power of the guardian golden seal. Even in his blood, that power was extremely weak.

However, ye Chen has an extremely terrible power around him, which seems to represent reincarnation.

Ye Chen's face was flushed and uttered a few notes.

"What?"

The masked man loosened his fingers and seemed to be trying to listen to Ye Chen's words.

"Wu Tao reincarnation map, seal!"

Ye Chen, who had a red mouth and red teeth, drank fiercely, and the terrible space cutting force burst out in an instant!

"Yi!"

When the wind strangled suddenly, the sand armor buckled on the arm between Ye Chen's throat burst, and ye Chen felt pain. Ye Chen took the opportunity to withdraw and retreat!

"The door of space!"

Linger's voice sounded in his ear. At the back of Ye Chen's body, a space crack slowly expanded!

Not surprisingly, this blow will accurately bring ye Chen into space!

"Jie Jie!"

A cold laugh gradually rose, "very good cooperation, unfortunately, it's still useless!"

I don't know when the figure of killing the great emperor has stood behind ling'er. No one noticed when he appeared!

"Sand binding, burial!"

The sound without any emotion sounded, and the whole body of ling'er and the wall made of white sand firmly trapped ling'er!

The slender right arm stretched out slowly and squeezed the four walls in an instant!

"No!"

Ye Chen's roar sounded!

"Bang!"

There was a dull noise. Under the white sand, bursts of crimson came out, and the smell of blood began to diffuse

"The guy in the way!"

The evil killing emperor snorted coldly, then turned his head and looked at Ye Chen. Ye Chen's eyes trembled, and the sky sword in his hand was also scarlet!

"Ye Chen, I'm all right. Don't lose your mind and concentrate on the enemy!"

At the critical moment, a weak voice came, which was linger who thought through with Ye Chen.

"Ling'er?"

The overjoyed Ye Chen's eyebrows recovered a trace of Qingming, but she immediately worried about her heart. Listening to linger's voice, her state was very bad!

"If you fight with this guy again, there will be only one way out!"

Ye Chen looked at the man in front of him. He knew that the gap between them could not be crossed!

The Longyuan Heavenly Sword scattered a little star light into the body, and ye Chen stood still.

"Oh? It seems that I'm going to give up resistance. Mingzhi's choice!"

The murderer could not peep under the silver mask, but he immediately restrained some of his killing intention and said frivolously: "the more you want to live, I must kill you!"

"If you don't want to live, I'll consider letting you go. I like to do the opposite!"

Seeing ye Chen's move, he thought the young man in front of him was dead because of his companion's war.

"Tell me, what the guardian told you!"

The murderer asked immediately.

Ye Chen pondered for a long time. He seemed to think of something. He smiled and said, "my responsibility is to replace him and guard the desperate situation!"

"He also said that everything here is mine, and there are great opportunities in some places..."

"Continue!"

"But he didn't say where it was. He just told me that my current cultivation is weak and not to be close! I once mobilized the power of the dead desperate world to investigate..."

"Still nothing!"

Ye Chen seriously shook his head and spread his hands, showing a helpless meaning.

A trace of killing intention flashed in the eyes of the great emperor, "boy, do you really think the emperor dare not kill you?"

Ye Chen got up and said softly, "I'm waiting for the opportunity. What are you waiting for?"

For a moment, on the white sand wasteland, there was a sudden change!

Ye Chen saw a terrible breath sweeping through the space cut by the previous martial samsara map!

.....

Ye Chen had planned to find Huang Lao and chaotic Lei Di to fight, or try to communicate with Ren extraordinary, but just now, the voice of ling'er also sounded in Ye Chen's ears.

"Ye Chen, elder Ren should have no time. We must find a way to leave here. We don't know the origin of this guy. I'm afraid such a strong strength can't fight."

"I have a way and the only way. You can use the virtual monument to break out reincarnation blood, build spatial coordinates and connect the nine peaks!"

"Are you going to?"

"The chain can suppress yanzun, and it must scare this guy away!"

"Can we do it? Once we miss, we can..."

"Sure!"

From the guardian's last advice, on the one hand, it was built to suppress the bronze black coffin, on the other hand, it was to suppress the existence of those who could not be killed by the way of heaven at that time!

Of course, all this is Ye Chen's speculation. It depends on the specific situation.

Just then!

Two pale gold chains broke through the air and came to the killing emperor!

"Hmm?" he felt the smell of the golden mark on it, and his eyes showed a dignified color. The sand shield coagulated and firmly surrounded himself.

Chapter 7282

"Bang!"

The broken chain is just a flick, which easily breaks the sand shield that killed the great emperor.

The other chain came straight to his body!

"This breath can even sense my existence. The power of the guardian is here!"

The faint golden mark is integrated into the entanglement chain. It seems that it has an instinctive hunting power for the existence of the change. It is gently thrown and pulled on the back of the killing emperor!

"Click!"

A whip smashed his flesh directly and scattered it into a pool of white sand, sputtering bursts of white awns.

"It's over?"

Just when ye Chen was surprised, not far away, bursts of white sand surged, and unexpectedly condensed into the appearance of a man in black.

"Sure enough, this guy's power is outrageous. The boundless white sand wasteland is transformed by his power. It's difficult to suppress him in this world!"

The killing emperor calmly looked at everything in front of him. It seemed that such a gesture angered the tangled chain at the other end of the void, and the whole space slowly cracked!

"Click!"

"Click!"

The nine days were broken, and the breath of heaven came out at the end. Two light golden chains extended to attack and kill the great emperor!

"If you can absorb this power, you can really leave this ghost place!"

The great murderer looked at the pale golden energy, and a glimmer of greed flashed in his eyes. The power of the guardian was his dream existence!

"Forbidden!"

The sand in the palm surged, and the endless white sand solidified into a ferocious hand, firmly grasping the chain above the nine days!

"Today you belong to the emperor!"

At the moment when the sand palm clenched the chain, a trace of fanaticism appeared in the eyes of the killing emperor!

"Hmm? This is..."

In an instant, like the heretical power of a flood of beasts, it melted the sand palm and killed the great emperor. His pupils widened. In his deep and bottomless eyes, there was a sense of fear for the first time!

"Impossible!"

"Impossible!"

His body was backward again and again. He looked at the winding chain in front of him with an ancient and simple smile and said blankly.

Even ye Chen in the distance can clearly feel that this great man as strong as Taishen has a deep sense of powerlessness at the moment. Even the isolated silver mask is hard to hide his loss!

"Boom!"

There was another startling explosion. On the nine days, a corner of the bronze black coffin loomed!

When ye Chen saw this, his hair suddenly began to rise. He could not be more familiar with this thing. He came all the way with such a terrible thing. He was afraid when he thought about it!

"Sure enough..."

It seems to have verified the conjecture in his heart. The tone of killing the great emperor was a little complicated. He said to Ye Chen, "I see. Since the one chose to be born, he will save your life today, and we'll see you again!"

"The next time we meet, it will be the time for the emperor to ask for his life!"

The man in black left only an understatement, and his body turned into a mass of loose sand.

Zhou Xinyou, who watched the war secretly in the distance, saw his master retreat. Although he was stunned by the things that came up in nine days, he also knew the interests, and his body shape dispersed with him.

Even if ye Chen's divine consciousness was fully open, he still couldn't find any trace. After confirming that it was safe, he put down his guard.

The black and gold chain on the nine days is like a dragon hovering around, constantly looking for the trace of the previous emperor!

"Let me out!"

Ling'er's voice came, and ye Chen returned to his mind. Only then did he find that the girl was still trapped in the sand prison.

"Wu Tao reincarnation map, seal!"

The mountains and rivers behind Ye Chen are rising, reflected by the full moon. The powerful cutting force rises from the bottom of the sand prison and evaporates all the white sand!

"Buzz!"

Just when ye Chen used the reincarnation map of martial arts to break the seal of ling'er, the nine peaks of emptiness and heresy seemed to be inspired by the mysterious power of Mou Zi and stepped into the air!

Even the girl in front of her has never seen such a vision. A mountain comes across time and space, facing Ye Chen!

With a dull sound, he drilled into the mountains and rivers behind Ye Chen. At the same time, eight winding chains on the nine days came with the peak, pulling the bronze black coffin containing the breath of vastness and terror into the picture!

"This..."

Ye Chen and ling'er were silly in an instant. They just got rid of the great terror. In an instant, they came back again?

"Ye Chen, the dead end seems to be embedded in your... Martial arts reincarnation map?"

Ling'er wiped the blood stains on her face and squeezed out an ugly smile.

"What are you looking for to kill the great emperor? Why is the ninth peak of suppressing the bronze black coffin connected with the world of the reincarnation map of martial arts?"

Before the guardian died, there were too many words that had not been mentioned to him. Ye Chen had deep doubts about the dead end and the giant peaks.

"Maybe someone knows the origin!"

Ling'er held his cheeks with both hands and blinked his big eyes.

"You mean, respect the old?"

Ye Chen also thought of the zunlingtian family, whose divination can push cause and effect, which is actually against the sky!

But soon he was lost in thought. He still remembered that when he asked about the desperate situation of death, the old man looked reluctant to mention it, which contained too many secrets.

Perhaps, it will be eaten back by terror!

"Don't worry, he will be willing with me!" how can linger not know what ye Chen thinks? Even if this guy has gone through thousands of disasters, the trace of goodwill in the bottom of his heart will never go out.

Ye Chen just wanted to speak, but a voice sounded in the mountain and river world behind him:

"Guardian, please show up!"

Ye Chen could not help but be surprised that there were people on the ninth peak?

Chapter 7283

Nodding to ling'er, the girl understood it, disappeared in situ and fled into Ye Chen's reincarnation cemetery.

"Strange, this voice, this call..."

Ye Chen's eyes could not help looking at the once top of the nine peaks, the broad platform that had never climbed!

"Ka!"

"Ka!"

The wooden steps extended all the way to the top, and the sound of footsteps came out. At that end, the "self" under the former broad stage had disappeared.

"Yes, I am now the guardian of the desperate situation. I can go between the nine peaks!" put away my thoughts and ye Chen strode up. He also wanted to see the master of the voice!

"Here you are!"

As he went up step by step, finally, on the broad platform that had never reached the top, a figure sat upright, and the fragrance of tea overflowed in front of him!

"Sit down!"

Ye Chen was shocked to find that the man waiting for him in front of him was another "Ye Chen" who could not resist at the bottom of the previous broad platform!

"Do you have many questions?"

"Yes!"

"I am the spirit of this abandoned desperate situation. It will appear only when this desperate situation is on the verge of collapse or extremely important!"

Ye Chen was surprised, but he heard the man in front of him say, "I was invisible. The first person I saw was you, so I existed with this appearance!"

"The guardian is extinct. If I can't do it, my task is to completely bury the dead!"

Ye Chen was surprised when he heard the speech, "I have become a guardian. How can I be so?"

The 'ye Chen' sitting in front of him opened his mouth and explained: "you have emptied the inheritance power of the guardian, integrated into the eight heaven chains to suppress the God coffin and stored it in yourself. The weak power of the guardian's golden seal has almost dried up with the previous war with the evil killing emperor!"

"That's why I wake up!"

"What would you do?" Ye Chen realized the seriousness of the problem.

"I was a time bomb to completely bury the dead. I was used to destroy the God coffin. The inheritance of the guardian was broken. That's when I was born!"

Ye Chen asked, "my previous move triggered your mechanism. I think the bronze black coffin and those trapped guys are going to get out of trouble?"

"Yes, and I'm not me, so once I wake up, there's no reason to stop!"

Another 'ye Chen' smiled.

"After a period of time, if the guardian's golden seal lights up again, the desperate situation may be alive. On the contrary, you and the desperate situation will die together!"

Ye Chen was stunned. He came to the dead end. Did he find a time bomb?

"What do I need to do?" Ye Chen asked directly. Since this guy invited himself to show up, there must be hope!

'ye Chen' still smiled and said: "in the previous war, the evil killing emperor took the power of some of your guardians' golden seal and completely suppressed it. This situation can be solved! Therefore, if you don't suppress the evil killing emperor, you will die."

"Why did you help me just now?"

Ye Chen asked without expression.

"My existence is for some cause and effect in the God coffin... If it is in advance, it is against the will of the desperate Lord!"

Ye Chen waved his arm. I don't know when the tea table he sat down on seemed to have disappeared. All that remained was the scene of the eight chain earthquake lock copper coffin.

"I see!"

Ye Chen turned and wanted to leave. In other words, there was only enough time to suppress the killing of the great emperor!

At the moment, he urgently needs all the information about this guy!

"How sure are you if the things in the bronze black coffin are born?" since it is the last hand left by the desperate Lord, ye Chen wants to know what the odds are of dying together.

The 'ye Chen' in front of him gently raised a finger, "ten percent!"

Ye Chen's eyes coagulated and said helplessly, "if you become a guardian, you will be clamped down by this desperate situation."

This is a complete cause and effect!

At this time, chaos Leidi, who had not made a sound, said, "this may be a good thing for you."

"You have enough time to suppress the killing of the great emperor, and once you suppress the killing of the great emperor, it means that you have been completely recognized as a desperate situation of death, which must be beneficial."

"I've been observing the reincarnation cemetery for a long time. I'm sure that the desperate situation of death is definitely an adverse thing."

Ye Chen thought for a while and said, "but you can see the strength of killing the great emperor. Are you sure I have the strength to compete? Unless with the help of the existing power like elder Ren."

Chaotic thunder emperor paused for a moment and said, "if you get the thunder monument, you may have a chance to fight the killing emperor."

"So, right now, go to Tianlei Shenfeng as soon as possible and find Lei Bei!"

Ye Chen's eyes coagulated and murmured, "that's right. In that case, go to find the thunder tablet according to the picture given by the grass."

"I don't know what divine pulse can I awaken this time?"

Ye Chen no longer thinks much, tears the void and disappears in this land.

.....

Ye Chen crossed a space and directly used the power of the virtual monument to freeze the space debris in front and transform it into a long channel.

And he went to thunder world along that channel.

Ye Chenfei entered as like as two peas of grass before him. He could hear the thunder and thunder, the light and the thunder.

In just a moment, he used his fast body method to avoid thousands of thunder.

Boom!

His whole body was shining with golden luster. The Buddha's light protected his body. He was very powerful. He moved like a comet. He passed through the clouds in just a few breaths.

When he suddenly became open in front of him, he also came to the thunder sea, and finally saw the island reached by the spirit.

"Tianlei Shenfeng is actually floating in the air!"

Chaotic Leidi was surprised when he saw such a scene.

The island was vast and boundless. From the depths of the endless void, there were thunders shuttling out, flashing from time to time and turning into violent lightning.

It can be said that the periphery of Tianlei Shenfeng is a thunder field, full of crisis and very dangerous.

Ye Chen's look also became a little dignified.

Looks like he has to find a way through here.

While ye Chen was about to try, a cold voice suddenly came from the thunder sky.

"Who are you? Non thunder practitioners can't get close to Tianlei Shenfeng. They don't leave quickly."

Ye Chen looked up and saw a middle-aged man in a gray robe coming out of the purple thunder. There were thousands of thunder intertwined on his body, making him look like an ancient giant.

Non thunder practitioners can't enter?

Ye Chen frowned. He wasn't Lei Xiu, but he wasn't very close, was he? Is it difficult that only Lei Xiu can pass through the area outside Lei Shenfeng!

Without waiting for ye Chen to speak, the eyes of the gray robed middle-aged man swept him and immediately became a little disdainful.

Chapter 7284

"How dare you come to Tianlei Shenfeng with such strength? Even if you are Lei Xiu, you can't break through the thunder field outside the sacred mountain. You'd better go back as soon as possible."

The middle-aged man in the gray robe was straight and spoke impolitely.

Ye Chen shook his head: "no, I came here for Tianlei Shenfeng! I won't go back."

The middle-aged man in grey robe was stunned when he heard the speech, and immediately laughed.

A few laughter came from behind him, and several people came out. Their breath was strong and they were surrounded by all kinds of thunder.

"Just like you, do you still want to enter Tianlei Shenfeng? Are you dreaming!"

"If it's not Lei Xiu's, you can roll."

“.....”

Those people stay in this thunder field to refine their flesh. They are extremely pure thunder cultivation. For them, Thunder God peak is the holy land of cultivation.

What the heavens and all worlds are too high in the world has no attraction to them.

Only thunder can make them intoxicated and unable to extricate themselves.

Ye Chen ignored them, but summoned the Longyuan Heavenly Sword, and the strong blood light rose in the air. Suddenly, there was a blood dragon entrenched, and the martial arts were extraordinary.

When the blood dragon slowly opened his eyes, Lei Xiu, who was present, actually felt a thrilling force.

"Who is this guy? I'm afraid his strength is not weak!"

"I don't know... But the soul of the blood dragon is really very strong."

"Hehe, if you put it in the outside world, you can still show prestige. Here? I'm afraid not!"

“.....”

Those Lei Xiu were surprised and disdained. After glancing at it, others entered the Lei domain again and continued their cultivation.

Ye Chen concentrated and burst out a powerful sword power.

"Longyuan Tianjian: the sun is red and brilliant!"

A hot sun rises and shines like a thousand feet of light.

He cut away in the face of the endless thunder storm. The scorching sun was invincible, spanning hundreds of miles, and officially formed a confrontation with the thunder storm.

But the thunder field composed of countless thunder lights seemed to be an enraged lion, and the thunder suddenly became more turbulent.

Ye Chen saw something bad and resolutely retreated to the distance. He watched the thunderstorms gather into a huge mouth and swallowed up all the bloody sun. He was immediately crushed into pieces and disappeared without trace.

What a terrible power!

Ye Chen couldn't help exclaiming.

Some Lei Xiu burst out laughing and mocked Ye Chen for not knowing the heaven and earth. If he wants to break through again, I'm afraid the violent thunder will affect himself.

The middle-aged man in grey robe shook his head and refused to comment on Ye Chen's reckless behavior.

"This is the thunderstorm space outside Tianlei Shenfeng. It has existed since its birth. If you want to enter the sacred mountain, you need to break through this thunder storm. As long as you succeed once, you can get through unimpeded in the future. You can also temper your body and enhance your strength in these storms."

The grey robed middle-aged man finally explained to Ye Chen, which made him suddenly realize.

"But don't think about it. Only the orthodox Lei Xiu can break into the thunderstorm. I can see that you are a sword Xiu. Your strength has been finalized. You'd better go back and think about it. If you really want to enter Tianlei Shenfeng, you should be ready to become Lei Xiu."

The middle-aged man in grey robe is Lei Xiu, who is older and has strong strength.

Later, Lei Xiu, a young and vigorous man, said sarcastically, "brother Wang, why do you talk so much to this lengtoug and let him live and die? There are not thousands or hundreds of other monks who want to break into it to get the treasure for thousands of years. They are all here to die!"

After Lei Xiu finished, he entered the thunder field again.

The middle-aged man in grey robe looked at Ye Chen and said that his words were enough, so he turned back to practice.

Ye Chen stood outside the thunder field and fell into meditation.

If you really go back as the grey robed middle-aged man said, I don't know how long it will take to come back to this place.

He won't be reconciled!

"Reid, what can you do?"

Ye Chen sank down and asked chaotic Lei di.

The chaotic Leidi in the reincarnation cemetery was silent for a long time and then said: "we have also observed the situation around here. There are strong rules and restrictions here. Indeed, only leixiu can enter it. Even if you have the reincarnation blood against the sky, you don't meet the conditions."

"What if I want to be Lei Xiu now?"

Ye Chen suddenly asked.

Rao is chaotic. When Emperor Leidi heard this, he couldn't help but be silent.

As we all know, the direction of cultivation is done well when they are young. Some people choose to become monks and concentrate on the way of supreme weapons such as Kendo, Dao and gun.

Some people choose to become ice cultivation, fire cultivation, earth cultivation, etc., but these monks need to change the operation mode of their spiritual power and fit with heaven and earth, so as to explore the mystery of heaven and earth elements.

If you want to change the way of cultivation, there is also a way to follow. For example, if you want to change sword cultivation into sword cultivation, the first step is to change your weapons.

Changing from sword to sword is just a handy thing, but if you want to change from sword repair to thunder repair, you need to change your physique and re understand the natural power of heaven and earth. This process can not be formed overnight!

However, this situation is only for the vast majority of monks.

For that kind of shocking evil, we can't use constant theory.

"If you want to be Lei Xiu right away, this is the best place."

Chaotic Leidi thought and said.

"How do you say that?" Ye Chen asked.

"If you want to become Lei Xiu, the simplest and direct way is to harden your body with lightning until the power of thunder flows in your blood, and you become Lei Xiu! However, many people can't withstand the critical blow of lightning, so they choose to go through layers of cultivation in a more circuitous way to transform your body and absorb the gas of thunder!"

"However, since ancient times, some people have directly entered the thunder essence to refine their flesh and finally become a powerful Lei Xiu! To go through this process, we need not only an invincible flesh foundation, but also a strong will."

Chaotic Leidi explained simply to make ye Chen understand that he may directly become the physical basis of Lei Xiu, but will is also the key factor.

"OK, I see!" he sat down in the air at a place and removed all the divine protection.

Chaotic Leidi understood his meaning and his eyes were cold.

This guy is really not afraid of death. He has made it so clear that he still wants to harden on the spot and transform into Lei Xiu.

However, through the ages, those who have achieved great things have the courage to make decisions and pursue success.

This boy has the qualification to become a generation overlord!

"OK! I'll give you a hand today, but whether you can succeed in the end depends on your own will and nature! After all, if you want to practice the body of lightning again, it will be much more dangerous than ordinary people!"

Chapter 7285

Chaotic thunder emperor waved his two palms, his left hand stretched out, his five fingers stretched out together, and even if there was a concussion breath, it turned into a condensing beam, and collected a lot of scattered thunder at once.

The thunder was manic and fierce, but it became very clever in his hands.

Thunder jumped at its fingertips, rolling like a tide, and the vision was very amazing.

Chaotic thunder emperor is the ancient emperor who existed when Hongmeng was born and created the world. He was born at the same time with the first ray of thunder in the world and has absolute deterrent power to all kinds of thunder in the world.

Immediately, his soul suddenly changed, emitting a dark black light, his palm suddenly expanded, and the terrible soul breath spread everywhere. Each finger was like a wing of the sky, frightening the spirit!

Ye Chen seemed to see such a means and couldn't help reading low: "heaven and earth in the palm!"

When a monk reaches that level of cultivation, the body or spirit is not limited to the method he practices, but can evolve all kinds of magical powers to form a more powerful skill.

Chaotic thunder emperor's palm fell suddenly, and all the hundreds of thunder he collected were refined and turned into a lightning armor!

Between his hands, the blue light flickered on the lightning armor, and the thunder flowed like liquid.

"This thunder armor can help you counteract some wild thunder! Turn it into pure thunder power and integrate it into your body!"

Chaos Leidi said, and pushed the armor in front of Ye Chen.

"Thank you, master!"

Ye Chen let the thunder armor crawl slowly like a worm and surrounded his body.

When the last ray of thunder climbed up Ye Chen's pupil, he felt a burst of gentle power.

"What you need to do next is to provoke the thunder! When you really practice the body of thunder and become Lei Xiu, the thunder will stop attacking!"

Chaos Leidi said faintly, and then he entered the reincarnation cemetery.

Ye Chen narrowed his eyes and looked over there. He clenched his fist and rushed out like an arrow.

Thousands of thunders, like wild snakes, gathered here, flying wildly and surging.

In the face of thunderstorm area, ye Chen is as small as a drop in the sea.

However, his eyes did not shrink back, but burned with the spirit of war.

It's just Lei Xiu's body. I'll catch it today!

When ye Chen stood near the thunder field and stared, several Lei Xiu who were practicing in it also found Ye Chen.

"Look, that fool's sword repair is coming again."

A young leixiu opened his eyes and said with a smile.

"Oh? This guy is really green headed. He's really not afraid of death, but his strength is still too weak. If someone is stronger, he will be found by Lei Yu as long as he gets close."

"Just look. There are countless such people every year, but it is impossible to break through thunderstorms."

“.....”

Lei Xiu talked about it one after another, and others were betting that ye Chen would stop and stare and leave, or plunge into it.

Most people chose Ye Chen to leave. Only a young friar took Ye Chen to break into the thunder field again.

"Zhang Wenyu, why are you so sure that this boy will enter the thunder field?"

The young monk named Zhang Wenyu shook his head and smiled without saying anything.

He just wants to give the other party some confidence, even if the other party doesn't know.

Because that's how he came here!

"Is it that easy to be Lei Xiu? It's impossible. Come back in ten years. Maybe there's still hope."

“.....”

Ye Chen didn't hear the conversation of Lei Xiu in the thunder field, and he was not interested in listening. Now he has thrown away all his thoughts, and there is only an endless thunderstorm in front of him!

He has only one belief in his heart: to be Lei Xiu!

As soon as his eyes coagulated, he stepped over the warning line of thunder and lightning, immediately waved the Buddha light and slapped it down.

This palm condensed the hegemonic power of reincarnation, and the supernatural demon body emerged and fell with a surging polishing blow.

All the thunder was disturbed by the evil spirit and immediately made a mess.

The evil spirit also tore more than a dozen beams of thunder into pieces. Suddenly, an empty space appeared in front of Ye Chen.

The thunder reacted very quickly, and soon roared out and smashed at Ye Chen.

The whole thunder area trembled one after another, the roar was heard, and more thunder was awakened.

The thunder is sending a signal.

There are strong invaders!

Lei Xius, who were practicing, turned around one after another and looked stunned.

"What's going on? What happened?"

"Why is my Qingxiu disturbed? Which great God broke through again!"

"No, it's not a breakthrough, but someone wants to forcibly break into the mine area, which aroused the rage of the mine area!"

"There hasn't been such a crazy guy for many years. Didn't anyone warn him before he came in?"

"I've warned! That guy is crazy and doesn't listen!"

“.....”

Some leixiu didn't want to pay attention to it, but as the riot in LEIYU became stronger and stronger, they began to feel uneasy, so they retreated one after another.

Tens of thousands of Lei Xiu were forced to withdraw from the mine area. Standing in the front are several Lei Xiu with the most powerful strength!

"What the hell is going on?"

A powerful Lei Xiu with white hair and beard burst into thunder and shouted angrily.

He is one of the most powerful Lei Xiu in this area and even Tianlei Shenfeng. Ordinary Lei Xiu dare not provoke him.

In the face of his anger, almost no one dared to say a word. Finally, the middle-aged man in gray robe stood up and simply told the story.

"A swordsman?"

The old man with white hair and beard looked at Lei Yu and frowned.

The thunder encounter seemed to have suffered a severe impact, and many thunder in a silent state were activated to release immortal power.

After ye Chen went in, he seemed to poke a hornet's nest, which had a chain effect and triggered violent turbulence.

"That guy... Is really crazy..."

Lei Xiu couldn't help but smack his mouth and sigh.

In their opinion, ye Chen is dead. As long as he falls in the thunder field, the thunderstorm can't find a new attack target, it will calm down again.

But after waiting for half a column of incense, they still didn't see the thunderstorm stop in the thunder field, but it tended to become more and more intense.

Even they couldn't help wondering who was sacred.

The middle-aged man in grey robe couldn't understand it, but he seemed to overhear Ye Chen's two words to himself, and an idea came out of his heart gradually.

This guy doesn't want to become Lei Xiu through the thunder here!

That's crazy!

But as soon as the idea grows, it is like bacteria spreading and lingering. The feeling in the heart of the gray robed middle-aged people is becoming stronger and stronger.

Chapter 7286

That guy is young, but Kendo has reached a very advanced level.

Real genius is not limited to one kind of Taoism.

"He wants to use the thunder field here to complete the body quenching and become Lei Xiu in one fell swoop!"

The grey robed middle-aged man said almost confidently.

As soon as this sentence came out, many people suddenly felt incredible.

But when you think about it, there seems to be a trace to follow.

"If so... That's crazy."

Some leixiu said.

Whether they or the powerful old man, their eyes focused on the stormy thunder field at this time.

Then move his sight back to Ye Chen. He has been besieged by many thunder.

Ye Chen didn't choose to stay in place, but took the initiative to attack, reincarnated blood surged back and forth between his palms, and caught those shining thunder.

But how hot is the thunder? Even with Ye Chen's strong body, he was scalded with blood red when he caught the thunder.

With more and more contact with irritable thunder, ye Chen's tiger mouth has cracked and many scars have appeared on his body.

But he also absorbed more thunder power!

And with this thunder armor on the surface of the body, the manic thunder is calmed down. After quenching, it becomes a thin flowing thunder light, enters his own body, and then absorbed by the blood to all parts of the body.

The difficulty factor of directly absorbing thunder is naturally very large, but the effect is much better than cultivating martial arts secrets, and the foundation is more unbreakable.

"I'm afraid you can't defeat me just by your thunder!"

Ye Chen's tone was cold and said faintly. There was already thunder in his eyes.

The thunder gathered from all directions and formed a powerful field here.

They have a strong sense of territory. If they are invaded by foreign enemies, they will attack them with all their strength!

Now, ye Chen is the powerful foreign enemy they believe!

Just for a moment, ye Chen felt that the thunder in front of him was magnified many times, like an ancient giant beast, which formed a huge force and made him fly far away.

He looked intently and saw a thicker and stronger thunder pouring out from the depths of the thunder field!

The danger of the whole mine area is also graded. The deeper you go, the more intense the danger will be.

Fundamentally speaking, the source of danger is thunder itself! The thunder deep in the thunder field is the strongest of the strong.

Even up to now, many Lei practitioners dare not enter the depths of the thunder field to practice. They will not pass there when they return to Tianlei peak after completing their practice outside!

But ye Chen's move successfully aroused the power in the depths of the thunder field.

Many Lei Xiu, who watched the war in the void outside, also found this and shook their heads. If ye Chen only provoked the thunderstorm on the periphery, he may still have a chance to escape, but his luck seems bad. He angered the thunder in the depths of the restricted area, there is only a dead end!

However, the more Ye Chen faced dangerous things, he became more calm and calm, and there was a faint excitement at the bottom of his heart.

He is eager to challenge and hone, and has a fearless heart of reincarnation.

"Come to war!"

Ye Chen shouted, squeezed his fist hard, and roared up like a meteor!

Bang!

The wide thunder area also broke out a violent noise, as if two top experts were fighting.

And between heaven and earth, there was a shaking sound, which went against heaven and earth and shocked the world.

A surge of glory rose into the sky and even penetrated the whole mine area, shaking people outside one after another.

In any case, they did not expect that ye Chen should have such explosive power, which could flatten the mountains and seas and open up the world.

"He has a sword repair. Why is the flesh so strong?"

Famous Lei Xiu asked everyone's doubts, but no one could give an answer.

They can only wait and see what happens.

In the thunder field, the competition between Ye Chen and thunder has entered a white hot stage.

Those huge thunders were powerful and fought fiercely with Ye Chen.

Ye Chen was red eyed. The thunder armor on his body was torn open, and its power decreased sharply. He needed his own reincarnation body to bear the threat of thunder.

If you want to quench Lei's body, ye Chen can't use other gods.

The Buddha light cultivated into the body is not beyond itself.

"Fu Tu Buddha Qi!"

Ye Chen's body gradually emerged a layer of light golden awn, which glittered with mysterious ancient words, which was no different from totems.

With the blessing of this layer of golden light and Buddha Qi, ye Chen's pain has been reduced a lot. Even if thunder can invade his body, it has been weakened.

Thunder is coming and chaos appears. Ye Chen exterminates many violent thunder all the way and finally comes to the deepest part of this thunder field.

Suddenly, he found that the thunder around him was empty, and the surroundings became very quiet, as if he was alone.

Looking up, the thunder was like a platoon in all directions, forming a closed circle.

Like a ready soldier.

Ye Chen narrowed her eyes and felt bad in her heart.

These thunders seem to have a certain sense of autonomy. It seems that they want to work together to deal with themselves!

Sure enough, after a moment of silence, the endless thunder shone again and gathered from all directions.

There are dense thunders on each side. The universe is thundering and the troubled times are all gone. Ye Chen is going to be hanged completely.

Chapter 7287

"These guys... Really think I'll give in?"

Ye Chen opened the golden light to the extreme, holy and bright, just like a powerful arhat from bliss in the West.

The reincarnation blood in his body surged out like rivers and gathered all over his body.

There seems to be some connection between the reincarnation blood and the Buddha light, one outside and one inside, merging with each other.

Reincarnation is the supreme and great power between heaven and earth. Even the rulers of the world should be afraid of three parts.

Buddha represents another kind of holiness.

In the era of Taoism and Buddhism striving for hegemony, Buddhism firmly occupied half of the sky. Even now, it is still deep, and it is only a matter of time before it rises again.

The two top forces of heaven and earth can break through all cages!

The rumbling sound was heard, and ye Chen also showed a dignified color.

The ancient Buddhist texts on his body flow frequently and are connected with blood light, which almost drowns his whole body.

The burst thunder can't cover the bright light like the sun in the middle circle.

Boom!

The violent noise immediately spread, but the fluctuating fragments did not spread.

A burst of thunder was shining, so that the spectators couldn't open their eyes. They quickly turned their heads.

When they looked again, they all became frightened and their pupils shook.

Because they saw the Tianlei peak in full form!

It is no longer hazy and visible, but extremely clear, and even the trees on the island can be seen.

The layer of violent thunder surrounding Tianlei Shenfeng evaporated in an instant.

No, it should not be said to be evaporation, but concentrated in a certain place.

In the open area of the thunder field, there was a figure, wrapped with countless thunder lights, mixed with golden and red lights.

The kilometer area around Ye Chen has formed an extremely terrible pressure, as if it had compressed the thunder to the extreme.

They looked at each other and didn't know what to say for a moment.

When did they see such a scene? A small sword repair conquered the thunder field that no one could completely break through for thousands of years with their own strength!

Moreover, this person has not been exposed to Lei Xiufa before!

One day repair thunder!

I'm afraid no one can imagine that there are such amazing demons in the world!

Before long, the field around Ye Chen was severely distorted, and the thunder light wrapped around him was scattered like a pear rain!

After leaving the 100 meter range around Ye Chen, the light of those fine needles soared to the original length. Unexpectedly, thunder burst out in an instant, filling the peripheral area of the whole Tianlei God peak.

LEIYU is taking shape again! Thunder flickered and spread into the void, just like before.

When ye Chen opened his eyes again, there was a faint flash of thunder in his pupils, which was the sign of the refining of thunder body!

Ye Chen felt the surging thunder power in her body. As soon as she lifted it, a thunder light came out and broke through the sky. It was very strong.

At the last moment, he did the opposite, protected the internal organs and the sea of Qi with reincarnation blood, and then unfolded the Buddha light to collect the power of thunder!

At that critical moment, in Ye Chen's body, the thunder god bead suddenly appeared and burst out the ultimate power to control endless thunder!

The thunder bead seemed to become a suction cup, absorbing all the power of thunder.

It was just that the adsorption force was far beyond Ye Chen's imagination. He didn't expect that such a powerful force would burst out in his body.

The thunder god bead really deserves its reputation. It is an ancient god!

There are many Lei corrections outside watching. At this time, if he goes out, he is expected to be the focus of onlookers.

As soon as he read this, ye Chen turned around and went straight to Tianlei Shenfeng through the depths of the thunder field!

Deep in the mine field, other Lei Xiu can't get in. He can walk safely.

The powerful Lei xiulao outside Lei Yu changed his look.

"It's bad. I have to keep this boy. If you have such a talent, you must join me, too Raytheon! You can't be robbed by other old things!"

He rushed to the thunder field and passed through the thunder light outside, but found that ye Chen's figure had disappeared.

And he did not have the courage to enter the depths of the mine.

"Damn it, I wish I had moved earlier! Now, except for the channel deep in the mine area, all other places have been closed and it will take seven days to enter it!"

Looking at this situation, we can only wait outside for seven days.

The old man closed his eyes and continued to practice.

All kinds of comments and exclamations in the thunder field are continuous.

Ye Chen followed the thunder and entered it.

When he broke through, he attracted endless thunder, quenched his flesh and stepped into the threshold of Lei Xiu at one stroke, but in fact, the thunder light dissipated and retreated like a tide, which showed his real physique. It was the lowest thunder body, which was still in the embryonic stage and needed to be polished and grown continuously.

"What's the matter?" Ye Chen was quite surprised. He clearly attracted so many thunder attached to him, vast and brilliant, but why did those thunder suddenly lose their function?

Chaotic thunder emperor is not surprised. He immediately replied: "this is a normal phenomenon. You just quenched your body with the help of those thunder, so that your body can adapt to the heavy pressure of thunder. After quenching, the thunder will automatically return and will not be integrated with your body, that's all."

Ye Chen suddenly realized when he heard the speech.

The thunder quenching just now is just to lay the foundation for him and help him enter the threshold. The real cultivation has just begun.

Since ancient times, there has been no shortcut in the way of cultivation. If you want to take a shortcut, the consequence is that the foundation is unstable and the avenue is incomplete, which limits future growth.

Of course, the cultivation speed of historical demons such as reincarnation and fate is far from that of ordinary monks.

Therefore, the general strong will not choose to use a large number of drugs to assist their cultivation, unless it is the top divine medicine. After taking it, it will often devour the body's aura without side effects.

Ye Chen carefully felt the thunder power in his body. The ray of thunder was very weak and could not exert any huge power, but the foundation was very solid.

As long as you practice later, ye Chen's accomplishments will enter the country much faster than others.

When he stepped into the Tianlei mountain, the scene in front of him suddenly became blurred, which was a sign of crossing the void.

When he entered, the mountains were surrounded, and the abundant thunder force filled the air, which was very powerful.

Take a breath, full of the power of thunder. This place is worthy of being the holy land where Lei Xiu stays. This area is far broader than ye Chen imagined.

Chapter 7288

Suddenly, there was a change in front of Ye Chen. The thunder light in an area broke and sank directly. The rocks pierced the air, and all kinds of smoke disappeared.

In the smoke, a shadow rushed out and drank loudly.

"Hahaha, I have succeeded in cultivation! I have condensed the body of Tianlei. I can join Tailei sect!"

The Lei Xiu was surrounded by lightning and excited.

He rose into the sky and soon disappeared into the depths of the sky.

Ye Chen found that there were Lei Xiu in other places. Some of them hid in the ancient forest, some stayed in the stone cracks, and some sat in the air and bathed in thunder.

At this time, they looked at the man who was far away with envy.

Tailei Shenzong? Ye Chen's mind moved slightly, but when he wanted to really step into the ancient forest, he was stopped.

Those are also two leixiu. They are weaker than the gray robed middle-aged people before, but they are also strong enough.

"I'm Lei Xiu. Why can't I enter?"

Ye Chen wondered.

The two men were expressionless and said in unison, "you are really Lei Xiu, but Tianlei Shenshan doesn't accept low Lei Xiu who didn't condense Lei beads, so please go back!"

What is the so-called Leizhu! Ye Chen's green veins jump on his forehead, and he has a posture of fighting with the people's Congress.

In his opinion, this broken place is not like a holy land, but like a forbidden area, setting prohibitions everywhere.

At this time, the voice of chaotic Leidi sounded in his mind.

"Don't be angry. I can take you to get Lei Zhu now."

Ye Chen looked at the two people coldly, then bypassed the periphery of the mountains for a long distance according to the guidance of chaotic thunder emperor, and then came to a land of thunder.

"What they call thunder beads is actually a sign that you have stepped into formal cultivation. Some people can condense thunder beads by themselves, while others take faster ways, such as hunting thunder demons, taking out their spirit beads and putting them into their own Dantian as a filter to absorb the power of thunder!"

Chaos Leidi has helped Ye Chen a lot since he went all the way. Otherwise, ye Chen still doesn't know what Lei Xiu's system is.

He now led Ye Chen here and felt the breath of a wild thunder beast.

The wild thunder beast is a powerful existence among the thunder demons. Somehow, the wild thunder beast ran out of the core area of Tianlei mountain and came to the periphery.

Moreover, ye Chen saw through the reincarnation heavenly eye that the wild thunder beast, which had not yet fully grown up, was injured.

In that case, this is a good time!

Ye Chen's body flashed and came to the thunder light intertwined area. The wild thunder beast was bathing in thunder and healing. At this time, he was angry when he saw someone attacking.

Its body is about ten meters long. Its overall appearance is somewhat similar to that of a lion. Its whole skin is silver gray, but there is something like a fin on its back, running through its back from the top of its head to its tail.

The part in contact with the thunder is the silver gray back.

Seeing someone coming, the wild thunder beast showed its ferocious fangs. The spine on its back changed color rapidly from transparent to dark blue.

At the same time, the flashing thunder condensed into a light beam. With its bow and swing, the thunder turned into a sword and ran to Ye Chen, as if to pierce the world and freeze the void.

However, ye Chen did not take this threat in his eyes. He took a step gently, flashed like a phantom, moved his shape and changed his shadow, and avoided the thunder beam.

When the wild thunder beast hit and raised his head, he saw a man standing in front of him with a smile.

"The speed is too slow."

Ye Chen shook her head and then blew out with a fist. There was a small thunder like silk thread gathering on the palm, crackling and burning into a ball. Suddenly, it hit out and fell on the head of the wild thunder beast.

The wild thunder beast was caught off guard. Its head blossomed directly, was smashed into pieces, and its body fell to the ground.

He just used the power of thunder. Although it was a little rough, he felt good.

"The wild thunder bead is in its heart. Go and find it. Go quickly after you succeed. The adult wild thunder beast must have sensed the death of its offspring!"

Ye Chen nodded, then prepared to go away and find a quiet place to refine the wild thunder bead.

But suddenly a voice of evil came over him.

"Boy, give me that wild thunder bead. I can consider giving you a way to live."

When ye Chen heard the speech, he immediately looked up and saw that in the ancient forest not far away, there was a man with long hair in a yellow robe floating out slowly. His face was as white as paper, with a little sense of witchcraft.

"Oh?" Ye Chen immediately picked his eyebrow and looked at each other up and down.

The other party may see that the thunder force used by Ye Chen is relatively weak, so he has an idea for a while.

"I have long liked this wild thunder beast. You robbed my things. Shouldn't you return it?"

The man with long hair smiled on his skin and didn't smile on his flesh. Yin evil said. In fact, he came here after sensing the battle fluctuation here.

Ye Chen's strength is so weak that he should give in as long as he threatens him a little.

The long haired man showed his strength. The thunder seemed to have self-consciousness, stretched out, woven into a cobweb and wrapped Ye Chen in it.

The next moment, he made a sudden effort. On those cobwebs, brutal thunder attached, roared, and the flashing thunder filled the sky, melting all the trees within a radius of ten miles into coke.

Chapter 7289

Although the man with long hair is only a beginner Lei Xiu, it is more than enough to deal with Ye Chen, a rookie who has just started.

Ye Chen narrowed his eyes when he saw this. Although the smoke was diffuse, he was like a mountain, standing still.

Does this guy in front of you think he only knows the law of thunder cultivation? If so, I'm afraid he's blind!

Without saying a word, ye Chen flashed the golden light in his hand, and a divine tower slowly emerged, elongated by it, and then photographed it suddenly.

The shrinking God taton turned into a flash of lightning and rushed into the air. He came to the man with long hair almost as fast as he could hide his ears.

With such a thin body as a man with long hair, how can he withstand the impact of the futu pagoda.

A face-to-face was smashed by the God tower, the form and spirit were destroyed, and the cobweb thunder light in the sky was also broken.

Ye Chen turned and took out a light blue bead from the remnant of the wild thunder beast.

That is the crystallization of the birth of the wild thunder beast! The more powerful the wild thunder beast is, the more pure and vast the wild thunder beads in its body.

If those Lei Xiu's strength is raised, they will find high-level Lei monster, kill it and replace the old Lei beads in their body, so as to continue to improve their strength.

Theoretically speaking, Lei Xiu's entry is unlimited!

But Lei Xiu's talent and life span are limited.

After all, Lei Xiu is a cultivation method at the cost of overdrawing life yuan. Lei is the most violent force in the world. Even the purest thunder can not completely eliminate the damage to the flesh. Therefore, Lei Xiu's life is generally lower than that of other monks.

Before long, ye Chen took Lei Zhu in his hand and felt a great breath coming. He no longer hesitated and ran away immediately.

After about half an hour, he had escaped from the place, but he still heard the roar from a distance. It should be that the wild thunder beast cub was found.

The animal roar was earth shaking and made the whole mountain tremble.

It can be seen that the parents of the little wild thunder beast are not simple.

Ye Chen quickly left here, then found a valley without people, sat down and meditated.

He swallowed the thunder bead according to chaotic Leidi's instructions.

The power of this bead will spread along the blood and meridians of the whole body, and finally form and condense in the Dantian.

After about half of the time, when ye Chen opened her eyes again, the look of Lei Zhu reflected in the depths of her eyes, and it dissipated slowly after a while.

Inside his Dantian, the thunder bead took shape and became a bridge between the flesh and thunder.

When ye Chen flew up again and came to the entrance of the mountains, the two people in charge of guarding were obviously very surprised.

"You can go in!"

Under the eyes of those two people, ye Chen entered generously.

He probably knows why Tianlei mountain has set up so many prohibitions and screened out people with poor strength or qualification to leave here, which is the embodiment of the law of natural selection and survival of the fittest.

Because the aura supply of Raytheon mountain on this day is really rich.

With such sufficient aura, why should we let those garbage come to absorb it?

From the logic of the law of the jungle, Tianlei Shenshan did nothing wrong.

Ye Chen walked forward for a while, and dozens of thunder fell on him. When he came out, he was swift and violent, but when he reached his heel, he became extremely gentle, slowly entered his body and nourished his internal organs.

Ye Chen crossed a mountain and saw the vast small world.

Deep in the mountains, it is a huge city, shining with many thunder symbols. It is magnificent, simple and elegant, like a fairy city.

"This city is not small!" Ye Chen couldn't help exclaiming.

He has seen many huge cities, but the city in front of him runs through half a mountain range. It can be said that what ye Chen sees now is only the tip of its iceberg.

"Or it's a small world, not just mountains."

Chaos thunder always sees more about thunder.

Ye Chen glanced around, and there were many Lei Xiu, who seemed to want to go to the thunder city.

Those Lei Xiu stayed in mid air, flapped and glittered with thunder as their wings, looked forward, and couldn't help feeling surging when they saw the magnificent city.

The city is incomparably magnificent. There are stone mountains at the top of the wall. It is actually the cave of immortal Lei Xiu. The thunder is filled with air and the fairy fog is floating, which makes people fascinated.

Tianlei mountain is the holy land of all Lei Xiu. This is not false.

The deeper you go, the more opportunities you can get! The cultivation results are more and more remarkable!

Among these people, ye Chen can feel several strong breath. Although it is covered up, he still can't escape the exploration of reincarnation heaven's eyes and spirits.

Those guys should be powerful Lei Xiu, and look at the surging vitality in their bodies. They should be young.

It seems that many young leixiu talents have gathered here.

Others won't take a look at Ye Chen's weak existence in the thunder way. Even if his eyes come, he just wonders why Ye Chen and other rookies Lei Xiu have the courage to enter here?

The huge city seemed to feel the people outside. In the clouds, thunder burst out and showed extremely gorgeous colors.

The walls and tiles of the huge city are cyan gray, but after being tempered by thunder, they become extremely condensed, like magnificent works of art.

Moreover, the gathered building materials are extremely strange. Even after being hammered by thunder, they do not show the appearance of decay and decline. On the contrary, they are more introverted and deep. Under the reflection of the sun's luster, we can see the palpitating color.

This huge city really became a small world. Ye Chen also saw hundreds of caves in the stone forest above the city wall. The fairy fog was filled with fog and haze was chaotic. It was completely in the holy land of thunder cultivation and opened up a self cave. It was never as crowded as it seemed.

There are also powerful young leixiu who saw the scene in the stone forest. The thunder is long and the breath is thin, which means that there are many training places here.

However, no one forcibly turned here, because they all know the rules and can't enter until the giant city takes the initiative to open the door.

The giant city opens in January. You can't go in or out until the opening day.

However, for those who enter, the cultivation cycle is at least more than one year. As Lei Xiu, who is willing to leave this golden holy land?

At this point, only a creak was heard.

The bronze gate opened slowly, and the smell of thunderstorm was surging, which seemed very mysterious.

The thunder door was wide open, and the scene in it appeared unreservedly, and the thunder runes in the void disappeared.

At this time, footsteps came from the city, which was particularly abrupt in the silent place.

Several powerful Lei Xiu walked slowly. They were covered with thunder armor, and their breath was very strong.

Chapter 7290

This is a powerful Lei Xiu who has reached the state of perfection! Some of them are as powerful as the emperor and the ancestors. They are just ridiculously strong.

There are already many Lei Xiu around, showing an envious look.

Isn't it this realm above the heavens that they desire?

All these people held their breath and didn't move. They were waiting for the Lei Xiu to speak.

The armor on those Lei Xiu's body glowed and flashed with metal texture, which vaguely made everyone outside feel the sharpness of thunder.

The weapons in their hands are ancient knives, guns and swords made of thunderstorm attributes. They are heavy ancient soldiers.

A long time can't erase the fierce spirit of these weapons.

The pupils of those creatures burst into thunder light, with an awe inspiring domineering spirit of swallowing heaven and earth.

"When the door opens today, the Tianlei ancient road will spread out, and the people around will quickly retreat to kilometers away!"

One of the famous creatures said, like a low thunder, blowing slowly.

But as soon as this word came out, it immediately made everyone boil.

"It's Tianlei ancient road! This is an ancient god array that is rare to open in a hundred years. We didn't expect to meet it!"

"Ha ha, it seems that it's the right choice to go to Tianlei mountain this time! If you can break an ancient thunder on Tianlei ancient road, I'm afraid you can increase the cultivation limit ten times!"

"Ten times? I'm afraid you still underestimated the power of Tianlei ancient road. If you can really understand it, it will increase more than a hundred times!"

"Hiss..."

There was a cold sound around. Many people looked shocked, but then they were ready and became serious, like soldiers going to the battlefield.

Some people still have a confused look in their eyes, but from the discussion of others, they also know how the Tianlei ancient road exists.

It is a mysterious ancient road that has existed for a long time. It is said that it was born in the ancient restricted area and carries the supreme ancient flavor.

Countless Lei xiuda can practice in seclusion here, and even sit here, leaving their own essence and created Lei xiuda scripts, martial arts and skills!

If the entrant can get one of them, it is great fortune.

Moreover, this Tianlei ancient road has independent consciousness, which is as old as Tiandao. It is only opened once in thousands of years, but every time it is opened, one or even a group of sacred leixiu will be born!

Those names of Lei Xiu will shine in the future and become the object of admiration of countless monks!

More than 300 years have passed since the last opening of Tianlei ancient road. Unexpectedly, it suddenly opened this time.

The powerful Lei Xiusheng looked at each other, which was quite strange.

Normally, before the Tianlei ancient road is opened every time, there will be corresponding omens to remind them to prepare early, but this time, the Tianlei ancient road suddenly wakes up without any signs.

Perhaps Tianlei ancient road has its own considerations, and they are not qualified to intervene. They can only act according to their will!

The magnificent gate is very magnificent, but soon, the inside and outside of the city fell into extreme silence. Everyone held their breath and waited for the arrival of Tianlei ancient road.

Soon, a breath of ancient silence came from the city. People couldn't help admiring and wanted to kneel down and worship.

That is the power of Tianlei ancient road! For Lei Xiu, there is a natural deterrent.

When everyone was worshipping, ye Chen looked left and right and didn't mean to admire.

Unexpectedly, there are many mysteries hidden in Leishen mountain that day. I don't know where the reincarnation leibe is hidden?

Within kilometers of the city, a thunder and quiet ancient road is spread out, like a mountain peak standing here. The shadow is black and suffocating.

Tianlei ancient road came out, but no one dared to step on it.

The prestige of this ancient road is so terrible that it can even make people feel evil.

That is, when people hesitate.

Da da.

A young Lei Xiu took the lead in breaking the heart barrier and stepping on this ancient road.

His footsteps echoed like stepping on a bluestone board, clear and loud, and also sounded in the hearts of many Lei Xiu.

The young Lei Xiu didn't go far and suddenly stopped, because his eyebrows were cracked. He didn't die or shed blood, but there was a red pupil.

And he seemed to bear great pain and issued a terrible roar.

When he roared up to the sky, the naked eye also took shape impressively, burst into a bleeding red thunder, and immediately ran through the sky, winding around and shaking people's heart.

This man has become a thunder naked eye!

Unexpectedly, I understood the special secret of Tianlei ancient road and opened my red eyes!

He found that after opening his red eyes, he became very excited, raised his head and laughed, so as to stride into Tianlei ancient road like a meteor.

This scene shocked everyone. Even with Lei Xiu, he strode forward, followed the steps of the genius and entered the ancient road.

But not all of them can get the secrets, skills and inheritance of Tianlei ancient road. Only a few lucky people can get this honor.

Ye Chen also followed the people in front and entered the Tianlei Valley Road.

Before he came in, a strange feeling came into his heart, as if something was waving to him and attracting him in.

That inexplicable force kept circling in front of him.

When ye Chen stepped on the ancient Tianlei Road, the barren thunder bead in his body actually made a trembling sound, as if he was eager to swallow it.

What's going on? I don't seem to have had any contact with Tianlei ancient road before.

With doubts in her heart, ye Chen continued to move forward!

The benefits of the opening of Tianlei ancient road are not only that people can get the adventure, but also give some benefits indiscriminately.

As they walked forward, someone soon cried out. Looking around, they saw a lotus pond on the ancient road in front. There were three dark blue thunder lotus flowers in it.

That's the magic medicine of thunder attribute. Almost no one can beat it.

"This is divine medicine. It grows in one place. It's a blessing for friars with thunder attribute!"

Lei Xiu was very excited.

Although this medicine is not the best, it is unique and can not be found in ordinary places.

Just one drop can make a person's body change.

And ordinary friars can only bear the power of a drop.

The brilliance of the lotus thunder pool spread in all directions, and the essence was diffuse. The crystal clear water poured into everyone's bodies.

Those Lei Xiu accepted the baptism of elixir and sat down one after another to feel and practice.

Ye Chen also plans to try how effective the elixir is, but the water drops all over the sky bypass him!

Ye Chen was stunned. What kind of thing is this? He reached for it, and the drop avoided it.

Seeing this scene, the corners of Ye Chen's mouth couldn't help pumping.

Is it related to your reincarnation blood?

Or is his thunder talent too low?

At this time, chaotic thunder emperor was surprised and said, "smelly boy, do you know that your thunder repair talent has even surpassed the top thunder power in the world!"
