### Chapter 7411

The world shook, the magic clouds were surging, and a huge shadow shuttled out of the shadow.

The dark shadow was a demon bird, stirring up the wings of the sky, filled with dark clouds and rushed towards the sea.

"That's the magic Skylark!"

Someone exclaimed.

The magic Skylark came to the top of the cliff. In a pair of huge eyes, black clouds twinkled and stared at the fire god bird nest at the cliff, with greedy desire in his eyes.

Boom!

But just then, a huge dragon rose, and the tsunami soared into the sky.

The water splashed by the strong power swallowed up the sky.

Many of the strong were photographed and immediately spit blood.

However, the huge dragon did not aim at the people, but rushed at the magic Skylark.

Boom!

Its purpose is to drive the magic bird away and don't want it to touch the baby in it.

Because in its eyes, the only threat is the magic bird.

Both Warcraft are the existence of overlord level, and no one will let anyone.

Therefore, the world was turned upside down in an instant, fierce battles continued, and terrible runes burst out, shocking the world.

Even the water vapor in the sea area below evaporated, and the rolling air waves swept away, turning many living creatures around into ashes.

This kind of prestige made many people around them unable to avoid and were hurt.

Those with poor strength will be scared on the spot.

"These two fierce beasts are very powerful. I'm afraid they have approached the ancestor level of each sect!"

When ye Chen saw this, his eyes coagulated and he couldn't help sighing.

"Their strength is good, but their perception of Taoism is still poor."

Sun Yerong stared at the two fighting monsters, also analyzed them, and said.

She inherited the Taoism of Qinglian fairy and had a deep understanding of it.

While the two giants were fighting, the other creatures broke through the heavy defenses and rushed to the nest of the flaming god bird.

At this time, the flamingo was scarred. He was entangled by the strong man of the Terran and couldn't get away.

That nest doesn't belong to it at this time!

The purple lion was scarred. It roared and burst into a bright purple thunder light. Then it fled the void and left the battlefield.

Not only it, but also many Terran strongmen have retreated.

It has completely evolved into an ancient battlefield. Fight to the utmost. Whoever has the strongest strength can stand out.

Want to pick up the leak? That doesn't exist!

However, there is still a mixture of good and bad people here. Many strong people hide their strength and wait in dormancy in order to rush into the nest of the flaming god bird.

There are even many strong people at the level of ancestors who change their faces, stay in the sea and are ready to go.

They think they are hiding well, but in fact, ye Chen has seen through all the vanity through the reincarnation heavenly eye.

"These guys are really sneaky! But the battle is coming to an end. We have to pick a time to go there."

Ye Chen stayed in the crowd, away from the central battlefield, and in his eyes, the nest of the flaming god bird has become a gate.

And the desire from there became stronger and stronger, and almost evolved into a light door in Ye Chen's eyes.

Vaguely, ye Chen had a certain connection with the nest of the fire god bird. As long as he passed, he could open the door.

However, the nest is located on the cliff. It looks very close and very clear, but I don't know what magic method has been set. Anyone who approaches will stay away.

The cliff is vast and unattainable. Even if someone approaches it, he can't break through the shackles.

"What's going on?"

Those people were puzzled. They had clearly crossed the battlefield, but they still couldn't break through.

"It's not a cliff in the sea, but a blurred place! It seems that when the Flamingo built its nest, it integrated the power of Kunpeng into it!"

Ye Chen felt the surging power contained in it, so he inferred.

Sun Yerong also thought so.

In the sea area, many forces fought continuously without stopping.

Ye Chen completely locked the fire bird nest on the cliff. There was a strong resonance between the nest and him, like some ancient call, attracting him to go.

"Let's go and have a look at the nest of the flaming bird. What strange and mysterious place is there?"

Ye Chen took the lead in stepping out. He stepped on the sea and walked thousands of miles. Sun Yerong followed him without delay. When they reached the periphery of the battlefield.

The battle in the sea area continues, and it has entered a white hot stage at this time.

There was a smell of gunpowder between the dragon and the magic skylark, and the war became more and more intense.

Seeing that they can't do anything about each other, they also begin to use their real strength.

At the same time, two divine beasts participated, one of which had a scuffle with the Terran.

For a time, the whole sea area became a pot of porridge, and those with weak strength did not dare to approach at all.

When ye Chen came to the periphery of the battlefield, he drew a circle by hand, and then condensed an ancient and dark stone tablet from it.

"Ha ha, I found the secret of this cliff!"

A strong man suddenly shouted that he was close to the nest of the Flamingo. I don't know whether it was his strength or luck,

Others are still in Tiguan.

But the man was soon smashed by the light from the nest and disappeared in an instant.

The energy in the fire god bird's nest was not simple, and others were surprised.

It was when this energy burst out that ye Chen also opened the virtual monument.

The majestic force is carried out, turned into a phantom and shot out at the speed of streamer.

His timing was just right, and the empty monument appeared, almost drowning the scene in front of Ye Chen.

"Follow me!"

Ye Chen grabbed sun Yerong's hand and stepped into the space crack in front of him.

Sooner or later, ye Chen's figure disappeared and appeared in front of the fire bird's nest the next moment.

At this time, no one can get close to the nest of flamingo, which is stopped by taboo forces.

"Look, there are people there!"

Some people always pay attention to the nest of the Flamingo. When they see the two figures, they can't help shouting at the other side.

When others heard the speech, they turned back one after another.

Sure enough, they saw two human warriors floating in the nest of the Flamingo, wearing ghost fangs.

They were shocked.

They couldn't break through that place if they wanted to. Why did a figure suddenly appear?

Not only the human warrior, but also the several fierce beasts who were fighting stopped one after another and looked this way.

Chapter 7412

The fire god bird roared up to the sky and made a rapid cry.

Its nest is located between the forbidden places of heaven and earth, so it forms its own array field.

But now it has been broken. How can it not be anxious?

The humans and fierce beasts outside the nest seem to have formed a tacit understanding. They even began to attack the nest of the Flamingo. Anyway, beat down the invaders first!

The eyelids under sun Yerong's mask jumped.

Such a fierce attack, even this array, can't last long.

Several Heavenly King level human beings and fierce beasts work together, as vast as a tide!

But the more dangerous it was, the more Ye Chen calmed down.

"Chaotic reincarnation, nowhere to hide..."

Ye Chen murmured to herself, and her eyes became bright!

In front of him, everything in heaven and earth evolved, as if there was a chaotic flame, burning brighter and brighter, and then condensed into dark gold metal, clanging, with an extremely powerful majesty.

Sun Yerong turned around and looked at Ye Chen with a surprised look in her eyes.

She noticed a burst of great breath, which broke out from ye Chen.

This breath seems to be integrated with the array outside.

The heaven and earth array was already crumbling and was about to be broken, but when this breath was poured in, it became extremely strong in an instant.

Boom!

The violent sound was heard all around.

Ye Chen's eyes were amazing, emitting dazzling brilliance. Almost in a twinkling of an eye, she opened her mouth and roared.

In an instant, the thunder was rolling and the lightning was surging. The heaven and earth array turned into a sharp spear, endless and continuous.

Ye Chen turned into a god of war and burst out strong combat power, as if walking against the sky.

The blood colored light is as hazy as fog, and the glow overflows everywhere, as if ten thousand light swords tremble and Clank together.

This heaven and earth array is integrated with Ye Chen's reincarnation blood, and the scene is extremely frightening.

Bang, bang!

The popping sound flashes out and urges the array to the extreme.

All the strong outside were affected. In a short moment, they turned into countless lightsabers to illuminate the whole sky!

"What... What's going on?"

"It's... Such a powerful force!"

"My arm..."

Many strong men were cut by this sharp sword, cutting everything, and their flesh also broke.

Roll and kill, infiltrate and let them retreat one after another.

Others were seriously injured and looked up at the fire bird nest on the cliff, filled with horror!

Boom!

Ye Chen temporarily blocked the towering array, then turned around and faced the nest of the flaming god bird.

The momentum of reincarnation is like a vast ocean, constantly surging, turning into birds and fish, like a huge Kunpeng.

The nest of the Flamingo seems to fluctuate violently in the face of this form.

"Sure enough! Reincarnation blood is related to the prohibition here!"

Ye Chen was delighted and continued to urge the blood in his body.

The nest of the Flamingo is not just a nest, but like a psychic thing.

Ye Chen's consciousness swept away, and he could see a huge wave rising from the sky, like a big fish with a huge tail, as if it came from another void.

The sword shook open when it swept away.

The endless essence of heaven and earth gathered towards Ye Chen.

Bang!

The dripping blood scattered everywhere, which caught people off guard.

Ye Chen looked shocked, and his consciousness recovered. It turned out that the blow just now was not the damage of the body.

"Still want to play tricks in front of me?"

Ye Chen snorted coldly and then took a step. He drank coldly in a low voice. His eyes seemed to turn into two bright moons, competing with the scorching sun.

"Reincarnation heavenly eye, daqianchonglou palm!"

Ye Chen simply used the nine heavenly gods!

His hands seem to gather two stars, both of which are composed of mysterious runes.

The majestic divine palms were combined and gathered into a domineering offensive, as if they were broken from the Star River and made a violent roar.

Two beams of light, like two gods of war, flew through the sky and the earth.

After these two beams fly out, it is like a star river dreaming, from which all things are born!

The two lights changed their forms and condensed under Ye Chen into two huge palms, mysterious and magnificent, all over the sky and stars, as if rolled in them!

The light in his eyes rose rapidly and came out of his body. His extraordinary means were like a round of heaven and moon.

Ye Chen has a unique feeling when he uses this set of palm technique that belongs to the Lord of reincarnation again!

The previous "daqianchonglou palm" was like the strongest means under the starry sky. It was extremely hegemonic and unstoppable.

But now his palm technique seems to have transcended the starry sky, created a new world and reshaped the stars.

The power of the two is almost the same. After all, ye Chen's strength is limited to this. The power of daqianchonglou palm is also the top in the world and can't get rid of the limitations of the world.

But the artistic conception between them is very different.

The strange shadow of the palm fell slowly, as if it had a strange magic. It was like a meteorite falling and a meteor falling. It was necessary to fix the idea.

The whole nest of the fire god bird shook violently. The idea was extremely arrogant. It seemed that ye Chen would be swallowed up immediately and become king independently.

But the next moment, when the palm of a thousand heavy buildings fell temporarily, the destructive power rushed in, turned into violent waves, and simple violence directly crushed it.

Chapter 7413

A crack appeared in the nest of the Flamingo, and a strange smell overflowed from it.

"Come with me! The door is open!"

Ye Chen took sun Yerong and entered the open door together.

Sun Yerong was still a little stunned and didn't react.

When she was pulled forward by Ye Chen, the crack that looked like chaos and could not be seen through was closing quickly.

Pop!

Ye Chen took her into it. The next moment, the crack closed and the whole nest became intact.

At the same time, the nest array outside was broken, and countless powerful beasts and Terran strongmen poured in.

Some of them saw the crack, watched Ye Chen and sun Yerong drill into it, and then closed quickly.

When they arrived, the entrance was closed.

"Damn...! open it for me!"

There was a violent beast king, who roared angrily, turned his fists into hammers and smashed the nest crazily.

But soon, he was rebounded by powerful forces, suffered heavy losses and died.

The man who wanted to follow the attack stopped and looked suspicious.

"How did that guy get in? I didn't even see clearly, he disappeared!"

"What is his identity? We have no way to get the entrance to the new world, but he can enter safely, and none of us found any sign before that!"

“.....”

At this time, the strong in this large sea area stopped fighting. They were both angry and surprised.

The dragon and the magic bird hung at both ends of heaven and earth, looking gloomy.

The snipe and clam fight, and the fisherman gains.

To some extent, they really underestimated Ye Chen.

"Keep attacking! Now that he has opened the door, there must be other ways!"

A strong man of the sect roared. Their mission is to enter the new world and find treasures.

Now it has paid a heavy price. It is impossible to return it. In that case, all your efforts have been wasted!

.....

They still stay outside to fight, and now ye Chen has reached a new boundary with sun Yerong.

The space in front of them suddenly widened.

Around Ye Chen, there were dense holes, which were connected in series and turned into divine lights.

The stars dream, the silver moon hangs, and the vast momentum of heaven and earth unfolds at this moment.

Sun Yerong was surprised. She didn't expect that the nest of the fire god bird had such a mysterious scene.

"Grass, is this the place you mean?"

Ye Chen couldn't help asking the grass.

The grass was fluttering happily in the green bamboo pool. Seeing ye Chen's question, it raised a burst of water, and then drilled into the bottom of the pool.

When ye Chen saw this, he couldn't laugh or cry. He put away the picture of the blue falling yellow spring and focused on looking at the scene in front of him.

There are ten divine rings, and each ring represents a road.

The ten rings were placed in front of Ye Chen, obviously asking him to make a choice.

Ye Chen simply closed his eyes and divided ten soul thoughts, respectively on the God ring.

Ding!

The two collided and made a clear sound.

The light of the ten God rings rotates at the same time, just like flowers in full bloom, charming and holy.

Sooner or later, ye Chen seemed to catch the light in a circle of God ring, which was quite close to his reincarnation breath.

"That's the way!"

Ye Chen immediately stopped hesitating and stepped into it.

The scene in front of him changed rapidly, and a pattern familiar to Ye Chen slowly appeared.

It was a round of yin and Yang Pisces, with infinite heaven and earth, and black and white light shining continuously.

Yin and Yang double heaven, Tai Chi Double heaven and earth.

Yin Yang Temple!

Ye Chen's look was shocked. He found the trace of the yin-yang temple here.

The secret about the yin-yang temple has been handed down from the Lord of reincarnation in the previous life.

To control the yin-yang temple is to control the endless rules of the six samsara.

Yin Yang Temple is one of the cards left by the last reincarnation Lord, which hides a huge secret.

As for the secret, ye Chen did not know it, nor did he know it from the memory of the Lord of reincarnation in the previous life.

He still remembers one thing.

When Qi Yunshu gave him the Pisces jade pendant, he had already told him that when the yin-yang Pisces flow, it is the day when the yin-yang Temple meets.

He knew that Qi Yunshu belonged to the temple of yin and Yang, as well as Xia Xuansheng's father. At the same time, he was also a strong man in charge of the double altar of the temple of yin and Yang.

But he wants to know when the yin-yang temple can really get together?

Or when the most powerful force under his command will gather!

Ye Chen was agitated.

If you can control the yin-yang temple, you will be in charge of the back hand secretly left in the previous life.

That legend has been circulating since ancient times.

But for the world, it is equivalent to nonexistence.

Does not exist, does not mean does not exist.

Ye Chen also believed that he would not do useless work in the previous life. He left the power of the yin-yang temple, which must be used to deal with the wanxu temple.

This arrangement is related to the life and death of the world, and ye Chen has to pay attention to it.

Therefore, he firmly stepped into this road.

When ye Chen entered this road, at the end of the halo God Road, a sacred mountain had a violent turbulence.

At the foot of the sacred mountain, there are several ancient villages, among which thousands of old farmers, vegetable farmers and Chaifu are working.

In the wide green farmland, a white haired old farmer with a straw hat raised his head and looked at the deep pit, with a thick color of surprise on his face.

"That breath... Is the master! The master is back!"

After a moment of shock, the old farmer muttered to himself and immediately became ecstatic.

The sacred mountain in the endless void has undergone drastic changes. The snow covered for many years has scattered down one after another!

It was like an earthquake, which almost split the whole holy mountain in two and burst into dust!

Thousands of figures flew into the air.

Their eyes were full of excitement that could not be concealed.

While they soared up to show their strength, they opened a seal of Zhenshan, completely isolating the atmosphere here.

After all this, they slowly rose into the sky, turned into streamer, and flew into the air to welcome the arrival of their master.

"Everyone! We have been dormant here for many years, just for this moment today! Please be prepared! Go through fire and water for the master at any time, and never die!"

The white haired old man took off his straw hat and looked solemn and inviolable.

The eyes showed an extremely terrible momentum, as if someone had changed.

"Go through fire and water and die!"

Thousands of strong men roared with them, and they also looked quite excited at this time.

Chapter 7413

A crack appeared in the nest of the Flamingo, and a strange smell overflowed from it.

Chapter 7415

So far, the chaotic ancient tree has become a static thing! Standing completely in this space, there is only a trace of breath.

It is this breath that has become the source of a world and attracted countless people.

People outside don't know that there are traces of chaotic ancient trees in the new world they pursue.

"Even if there is only a breath of virtual shadow, I will get it!"

Ye Chen's eyes were firm, and he was determined at the moment.

Li Yaoshan was stunned for a moment. He saw the shadow of the reincarnation Lord from ye Chen.

"Lord of reincarnation, as long as you like, we are your most loyal slaves, following you through the darkness and reshaping the light!"

Li Yaoshan immediately knelt down in the void, and the disciples of the yin-yang Temple behind him also knelt down one after another.

Ye Chen's mind is very transparent. Naturally, he can see many things.

He could see that some people joined the temple not out of respect for reincarnation, but for another reason.

If you can't understand the real reason why these people join the yin-yang temple, he can't collect the power of pure faith.

"I know there must be some reason for you to join the yin-yang temple. If there is anything to say, I can help you solve everything within my power! If there is no request, you don't need to join the yin-yang temple, are you right?"

Ye Chen said with a smile and disclosed his sincerity to the public.

Many people were stunned when they heard the speech.

Ye Chen's words echoed in their ears for a long time!

"Lord of reincarnation! I am willing to join the Yin and Yang Temple to avenge my brother! My brother was killed by the people in the wanxu temple, and his bones are gone!"

"Tell the master! I want to avenge my wife! The other party used sinister means to take my fiancée! It was done by the vulture sect under the wanxu temple."

“.....”

There are many sounds, one by one into Ye Chen's ears.

Most of them join the yin-yang temple and rarely have pure faith.

One part is because of hatred, and the other part is to revive the close people with the help of the power of reincarnation.

If ye Chen can regain his reincarnation and climb to the top of the six ways, they will die without regret!

The Lord of reincarnation, but the legendary reincarnation leader, can control people's life and death, resurrect heroes, and complete feats that ordinary people can't do!

If you help the Lord of reincarnation, you can revive their close people.

Even if they die, they are willing!

Of course, ye Chen read what they thought. Not only was she not angry, but she was quite pleased.

If a person has no love or hate in his heart, he will lose the driving force to move forward.

What he wants is the power of will!

The power of pure faith may be very pure, but it can not support strong combat effectiveness.

At that time, he will really climb to the top of reincarnation, which can release his strong will and benefit all sentient beings.

"Please rest assured that you treat the yin-yang Temple wholeheartedly and follow faithfully, and I will never fail you. When I climb to the top of the world, I will meet your requirements!"

Ye Chen agreed to their request.

Reincarnation is a promise, you can't go back on it.

If you repent, you will be punished by heaven. Thunder robbery will never turn over.

Therefore, ye Chen also made an oath for himself.

The people of the yin-yang temple were grateful again.

After Li Yaoshan was excited, he set his eyes on sun Yerong.

He doesn't quite understand why Sun Yerong can come with Ye Chen!

At this time, sun Yerong did not show his strength.

"This is the green lotus fairy, who is my friend!"

Sun Yerong smiled and said nothing.

She came with Ye Chen. Just follow her silently.

Next, ye Chen learned about the chaotic ancient city.

He followed Li Yaoshan to the back of this sacred mountain and saw the endless waves of the sea!

The waves, like divine talisman lines, are extremely prosperous. They melt into a river in the void and sink into the sea bit by bit.

"Here is the seed of the ancient chaotic tree! The void is so vast that no one can find it."

Li Yaoshan shook his head and couldn't find out.

It turns out that this seed needs the power of an extremely pure spirit to open. They have arrived.

"You and I will try together!"

Ye Chen said to sun Yerong.

Sun Yerong nodded.

They immediately shot.

Boom!

Almost at the same time, they formed an array.

Ye Chen's hands glowed and his bones crackled.

His flesh could not bear the pressure of such spiritual power!

Ye Chen suddenly opened her eyes.

The fierce golden light, shining, frightens the world!

At this moment, many people were stunned.

The Lord of reincarnation casually opened this channel. It was easy and incredible.

You know, they spent a lot of effort before, but there was no result!

Ye Chen's whole body merged into nine caves, releasing immortal power.

Across a sacred mountain, his reincarnation blood spread to the vanity here and reached the depths of space.

In a trance, he seemed to see a very realistic ancient tree with open branches and scattered leaves!

That tree should be the virtual shadow of the chaotic ancient tree! It is also the source of supporting the world.

Sun Yerong sat beside him in the air, thundering around the city one after another, and the flame floated on it.

"Such means are really earth shaking!"

Li Yaoshan couldn't help sighing.

These people who live in the chaotic ancient city have never seen the seed left by the ancient tree for many years.

As soon as the Lord of reincarnation came, he saw the seeds left by this chaotic ancient tree.

The talent of people is very different!

But this is also very good.

If the Lord of reincarnation can complete the trial and accept the chaotic seed, they will also be liberated.

"Let me give you a hand!"

Sun Yerong saw that the war situation was a little anxious. The strength of reincarnation encountered some obstacles and stagnated.

With a wave of her arms and hands, the light cyan light condensed into light lotus blossoms.

Those lotus flowers float gently, emitting a little brilliance.

Hoo

The four lotus flowers scattered and floated to Ye Chen. At each point, ye Chen's reincarnation blood became strong.

It is under such urging that the boundary is dissolving little by little.

People from the yin-yang temple also came to the holy mountain. Seeing this scene through the mountain, they couldn't help but be excited.

The Lord of reincarnation is about to complete a feat!

Li Yaoshan stood in the middle of the sky, full of tears.

Thousands of years of waiting, there is an echo at this time!

And the echo came so fast!

Chapter 7416

.....

At this time, the supreme world far away from this land boundary, the sacred hall of chaotic Protoss, is extremely silent.

Chaos Protoss is a magical race. As one of the powerful forces in the world, it is usually hidden in the secret space.

The number of this group is small, but basically everyone is an elite.

The disciples cultivated by chaos protoss have terrible strength.

They have the most powerful chaos skill in the world of heaven, as well as all kinds of treasures with the power of chaos.

The patriarch of chaos Protoss, named Zhou Tianlei, is sitting on a mountain and breathing, as if he were integrated with heaven and earth.

His whole body was surrounded by the air of chaos, vaguely revealing his burly figure and his face as carved as a knife and axe.

The Qi of chaos, circling and crisscrossing, actually retreated from that layer of confusion and became as pure as a mountain spring.

That layer of white spring exudes endless power.

It's the origin of Hongmeng!

If the real strong see this scene, they will be surprised.

Because the things around him come from the beginning of heaven and earth and the beginning of Hongmeng.

From the beginning, it was speculated whether the chaotic Protoss came from the beginning of the universe.

Now it seems that there is an answer.

Zhou Tianlei didn't practice for a long time, so he heard a voice outside the door.

"Who?"

Zhou Tianlei adjusted his posture and regained the dignity of the leader of the clan.

However, the two wisps of Hongmeng Qi in his eyes still did not disperse.

"Clan leader Zhou, it's me!"

Outside the main hall, an old man came in. He was smiling, his white robe was floating, and he looked like a fairy.

This man is the head of the king's family in the world, Wang Zhenwu.

The Wang family is a rising star in the world. In terms of achievements and details, it is no better than the top ten Tianjun aristocratic families.

However, with the passage of time, the strength of the top ten Tianjun aristocratic families eventually declined.

Rising stars like the Wang family seize the opportunity and rise rapidly.

However, both the Wang family and other families need an opportunity.

Zhou Tianlei certainly knew what the other party was doing. He was neither anxious nor slow. He made a pot of good tea and entertained him to sit down.

"I don't know, Lord Wang, what are you doing here today?"

Zhou Tianlei raised his head with a smile on his face, but said in his heart, "you know why you ask."

Wang's family leader didn't want to talk about it all of a sudden, so he called for a drink.

"I wonder if the nobles have the idea to join hands with our Wang family to strive for the position of a great Tianjun aristocratic family?"

Wang asked directly. He didn't participate in the practice.

"Oh?"

Zhou Tianlei picked his eyebrows when he heard this.

Without hesitation, the Wang family leader continued to smile and say, "I know your ambition is not just your current position! How about you and my family united?"

"What kind of combination method?"

Zhou Tianlei didn't refuse, but took a sip of tea, narrowed his eyes and asked.

Then the Lord of the Wang family said one thing at will.

It turned out that some time ago, the Wang family got a mysterious treasure. It is said that it originated from chaos and was born together with Hongmeng.

Therefore, the strength radiated is particularly strong!

"My magic weapon was also born between chaos Hongmeng. Let's call it nameless Heavenly Sword! Although this sword is powerful, it still has some incomplete rules and cracks. I want to repair it with some power of chaos ancient tree."

The Lord of the Wang family clearly knows that only the chaotic Protoss has the complete power of chaos and can repair this magic weapon for him.

That would be good for both sides.

"OK! Since the king wants to cooperate, I won't refuse any more!"

After thinking for a moment, Zhou Tianlei agreed.

The competition in the Taishang world is extremely fierce. Even if his chaotic Protoss has always lived in seclusion in the mountains, did not ask about the world and did not participate in the struggle, it is inevitable to be involved in this vortex.

You have to prepare early for this.

The Lord of the Wang family smiled and immediately revealed another news.

Daligu nationality joined the wish god religion and became one of the sixteen affiliated sects under its command.

"Oh? Did even daligu choose the camp?"

Zhou Tianlei was a little surprised in his voice.

Like their chaotic Protoss, daligu is a race born at the beginning of Hongmeng. It has been indelible for thousands of years. It is still inherited by blood and passed down from generation to generation.

If the chaos Protoss is hidden in the mountains and forests, the daligu family is hidden in the fields.

But now the mighty Protoss also chose the camp.

This made Zhou Tianlei fall into thinking.

"Clan leader Zhou, this time I came to the aristocracy, I also brought a hint of the meaning of the Lord of the thousand army hall."

Yuhuang Qianjun!

Zhou Tianlei's look suddenly coagulated slightly.

If the feather emperor's army comes forward in person, the meaning of the matter will become different!

The feather emperor Qianjun is an important figure of the feather emperor family, the right-hand arm of the feather emperor, and one of the several deputy hall owners of the wanxu temple.

The Lord of the Wang family took out a secret letter and gave it to Zhou Tianlei.

Open the letter, Zhou Tianlei can confirm that this is the handwritten letter of the feather emperor!

"I see! I'll be there on time!"

After reading the letter, Zhou Tianlei breathed a sigh of relief and had made a decision in his heart.

"Then I'll wait for your good news. See you in Tianfeng forest in three days!"

The master of the Wang family said that and left with his body as fluttering as the wind.

After he left, a confidant gathered around Zhou Tianlei and asked, "clan leader, why should we agree to his request? You should know the seed power left by the ancient chaotic tree, use it less once..."

Chapter 7417

Zhou Tianlei lost his hands behind him and looked into the distant sky with deep eyes.

"Now the supreme world may not be called a single sect. Even we can't escape this huge vortex. We can only stand in line to save our lives!"

Zhou Tianlei knows that Wang Zhenwu is not here today just to repair the magic weapon with the help of the power of chaotic ancient trees.

There is also part of the reason, is to test and beat!

I'm afraid all the forces in the world have to choose to stand in line.

If he doesn't agree, or hesitates.

I'm afraid the Lord of the Wang family will take this news back to the wanxu temple and report it to the ancient emperor Yu Huang.

They have heard of the temperament of the feather emperor.

There is only one way to deal with those who refuse.

Kill!

At the thought of this, Zhou Tianlei's back was in a cold sweat.

"The war between heaven and earth is about to start... The wanxu temple and the desire cult, two giants, fighting with each other, the old alliance of the dark forbidden sea, and Ren extraordinary, who is not weaker than any top sect, are becoming more and more restless."

Zhou Tianlei sighed again and again. He remembered that at the turn of the old and the new era, it was also now that the heroes stood together and separated in chaos.

Will that picture be repeated now?

While he was standing on the edge of the cliff, sighing and enjoying the scenery, there was a sudden sound of rapid footsteps behind him.

"Patriarch, it's not good! The seeds of chaos ancient tree have been attacked, and it has been turbulent at this time!"

"What?"

Leighton changed his look on Sunday and flew up to the intersection of the lower world.

When he came here, he found that the seeds of the chaotic ancient tree had indeed become erratic.

"No! We strengthened our defense there. With the strength of the people in the lower world, we can't break it at all!"

Zhou Tianlei's look suddenly became gloomy.

They are the guardians of the ancient chaotic tree. If the ancient chaotic tree is damaged, the foundation of their family will also be seriously damaged.

"Immediately call out the black-and-white two generals and send them to the lower world. We must find out the reason. Whoever dares to covet the chaotic ancient tree will be killed without amnesty!"

Zhou Tianlei clenched his fist and said fiercely.

"Yes, patriarch!"

Soon after, two young figures, one black and one white, crossed the space channel and reached the lower boundary.

If people in the world are too powerful, they will be banned from going to the lower world.

.....

At this time, ye Chen is about to open this taboo.

His reincarnation heavenly eye saw the chaotic ancient trees growing inside.

The branches are luxuriant, the fruits are bright, and the green leaves are crystal clear, which is more attractive than the fruits.

Before he got close, ye Chen felt the surging power.

"It is worthy of being the treasure of the beginning of chaos! Indeed, it has great heaven and earth power!"

Ye Chen whispered to herself, amazed.

On one side, sun Yerong also felt the majestic energy. The flower of green lotus in her body also had a desire to devour it.

Ancient chaotic trees deserve their reputation!

Bang!

That taboo border has broken a hole.

Ye Chen was shocked. He took a step forward and wanted to enter the territory where the chaotic ancient tree was located.

Sun Yerong, meanwhile, summoned lotus flowers and paved an ancient road.

She boarded the ancient lotus paved road.

But at this time, ye Chen seemed to feel something and suddenly raised his head.

"Don't go!"

Ye Chen took a hand and held sun Yerong.

Sooner or later, sudden changes occurred, and a wisp of quiet fire burned silently, making people unaware.

But ye Chen's speed was so fast that he hugged sun Yerong with one hand, and with the other hand, he bent his fingers, and the Golden Buddha light roared out and burst out suddenly.

The faint light was also ejected far by the Buddha Qi.

Boom!

Then came the thunderous sound.

Endless majestic breath, like waves, comes from the heavens.

Ye Chen summoned the star of desire to build a solid layer of stars.

The dark light like the waves fell down and collided with the wish star.

Between the two sides, it condensed into water droplets, and then split and dispersed.

But before long, those offensives all turned into rain, floating and falling, cold and cold.

"Who? Don't hide there, sneaky."

Ye Chen looked around coldly.

Not far from him, there are pieces of petals scattered, black and white interwoven and falling, floating in the wind, looking quite artistic conception, but very penetrating.

Ye Chen saw it and looked a little frozen.

In the twinkling of an eye, colorful, countless color petals, like snowflakes, came down.

Beautiful mountains and rivers are intertwined with aura. They are all covered by petals.

"What the hell is this..."

The people in the yin-yang temple were surprised and surprised.

They have lived here for so long that they have never encountered extreme weather.

When Li Yaoshan looked there, snowflakes flew out, just like ordinary snow!

But when the snow reaches the low altitude, it contains a sharp killing intention!

Ye Chen had already summoned the wish star, covered himself, and extended the scope of the cover, covering the entire residence of the yin-yang temple, forming a huge yuan cover boundary.

But the next moment, it was broken!

A black light pierced the border and came here with an extremely arrogant attitude!

Ye Chen and sun Yerong hurriedly stepped back and avoided the black light. At the same time, they looked frozen and ready.

At the same time, there is a refreshing fragrance of flowers.

But for people, it's a deadly poison!

Ye Chen and sun Yerong motioned to everyone to hold their breath.

After a while, among the snowflakes, a graceful woman came out. She was wearing a black skirt and swaying in a very moving manner.

Her face is charming. Even if she is dressed in plain white, she can't stop the enchanting.

At the same time, someone from the other direction came out, which was formed by the condensation of the black light!

The man was dressed in a black shirt, his hair curled up, and showed a cold and solemn face, like a crow, lifeless.

This combination of black and white shuttles from the desolate void.

And it's a killing move. It's definitely malicious.

"Who are you?"

Li Yaoshan frowned and thought quickly, but he still didn't think of the answer.

Over the years, he has seen many people in the chaotic ancient city, but he really has no impression of the two in front of him.

"You don't have to care about who we are. Just know that if you dare to tamper with the treasure of our chaotic Protoss, you will have to pay a price."

The woman in White said softly, smiling, but her eyes were full of dark murders.

Chaos Protoss!

Ye Chen was stunned when she heard the name. She didn't remember where the race was.

## Chapter 7418

"Lord of reincarnation, chaotic Protoss comes from the supreme world. It is a powerful race that has existed in ancient times! But it has been living in seclusion for years..."

Seeing ye Chen thinking for a long time without fruit, Li Yaoshan couldn't help whispering a reminder.

"I see!"

Ye Chen was suddenly surprised and showed a surprised look.

However, this scene, in the eyes of the black and white people, was particularly ironic.

Their chaotic protoss have been hiding in the mountains and forests over the years. They are not familiar with the world. Although they have become extremely low-key, although the protoss is dead, the remaining prestige is still there.

What's more, they haven't died yet.

It's abominable that this guy doesn't even know their names.

"Die! Dare to disrespect my chaotic Protoss. I'm afraid you're impatient!"

The woman in black looked cold and arrogant and shouted at Ye Chen.

She has the pride of belonging to the chaotic Protoss and will never allow others to defile her.

However, ye Chen was very disdainful.

No matter how powerful the race is, he has seen it, not to mention this small chaotic Protoss.

I'm afraid I'm not qualified to be arrogant in front of him.

The woman in black has black hair flying all over her head, and her eyes are like an iceberg that hasn't melted for thousands of years.

"Chaotic magic formula: break the sky and cut!"

The woman in black used one of the unique moves of chaos Protoss. She seemed to be wearing dark armor, turned into a towering magic gun and pointed forward.

And this finger aimed at Ye Chen!

How can ye Chen ignore such provocations?

With a cold snort, he was covered with blood, as if he were in a sea of blood.

Longyuan Heavenly Sword got some kind of call, trembled and hummed, Shua broke through the sky and came to Ye Chen.

The virtual shadow of the blood dragon is burning on it. At this moment, the endless virtual shadow turns into a towering God, flowing and mysterious.

"Since you want to fight, I will meet your wishes!"

Ye Chen didn't give in. His eyes coagulated and said coldly in an instant.

The woman in black looked as cold as ice. She raised all kinds of flames, like an angry Beast, to drown all the world.

A fierce battle broke out between Ye Chen and the woman in black. The woman in black was holding a big gun with magical Qi, which seemed to sweep the sky.

Ye Chen was unwilling to show weakness, and directly sacrificed Longyuan Tianjian.

The Heavenly Sword in his hand soared more than ten times, and ye Chen held it in his hand, like swinging a demon subduing pestle, mighty and powerful.

Boom!

Boom!

The two collided one after another, resulting in violent fluctuations.

The sound of shaking the sky and the Earth spread far away, as if there were meteorites roaring.

Ye Chen was a little surprised. The strength of the woman in black was pretty good. Her body was very strong. Otherwise, she couldn't have played so many rounds with him.

"You can't cross this border today! Chaotic ancient trees, how can you lower mole ants touch?"

The woman in white also came. She held a long sword. The whole body of the sword was full of hazy chaotic light.

What she did was another unique skill of chaos Protoss: Chaos Heavenly Sword!

The chaotic Heavenly Sword in her hand was born in the eternal chaos. Although the Dao of the sword was damaged and has not been included in the list of thirty-three heavenly supreme artifacts, its strength can not be underestimated.

"Chaotic sword formula - sharp sword breaks the sky!"

The woman in white rose up and soared up, with black hair flying all over her head. Like a relegated fairy, she used the means against the sky.

Many strong men in the temple of yin and Yang looked dignified when they stood not far away to watch the war.

Some of them wanted to help the temple Lord, but Li Yaoshan stopped them.

"The way of the temple Lord needs him to go by himself. Even if we can help the first level, we can't help the second level!"

When Li Yaoshan said this, he looked dignified and looked at Ye Chen who was caught in the fierce battle, as if he had seen through all kinds of false causes and effects.

In fact, there is a reason for this.

The Qi of the Lord of reincarnation surpasses all people, which they can't touch.

In this process, all problems should be solved by himself.

What they promised was that the reincarnation Lord would leave his life and not be completely killed.

Ye Chen holds the Longyuan Heavenly Sword and merges with the blood dragon, which breaks the earth and collapses the void.

Although Ye Chen fought against two with one, he did not have any decline. Instead, he became braver and braver. He was quite powerful and domineering. He was exclusive between heaven and earth.

The two chaotic Protoss did not worry about being besieged at all.

These yin-yang Temple people live here all year round and are blessed by chaotic ancient trees, and they have the same chaotic blood.

If these people dare to fight, they will suffer the reverse bite of chaotic forces, and the gains will not be worth the losses at that time.

Sun Yerong is the only exception. She has not been blessed by the power of chaos. She wanted to help Ye Chen.

But she suddenly found that ye Chen seemed to be fighting hard, as if she didn't need her help.

So, the green lotus sword, which came out of its scabbard silently, returned to its scabbard silently!

Ye Chen fought alone with black and white generals. Two strong lights covered it up, but he couldn't completely block it.

"Damn it! This guy's strength is obviously average, but why is it so difficult? Has the lower heaven's suppression of us become stronger?"

The woman in black frowned.

She showed the chaotic skills of the chaotic Protoss, and could not break through Ye Chen's blockade, which was enough to show her strength.

Chapter 7419

The woman in white was also surprised. The chaotic sword was not an ordinary thing. It was hit by the sword in his hand.

The woman in white has less knowledge and hasn't recognized that the thing in Ye Chen's hand is Tianjian.

When the blood dragon virtual shadow roared into the air and rushed back the chaotic sword in her hand, she realized that the sword used by Ye Chen was not simple.

They looked at each other and quickly separated. They felt they couldn't fight like this anymore.

If you continue to play, ye Chen can't get real damage.

Ye Chen cut the Red Emperor of the sun. Suddenly, the hot sun surged up and swept the whole sky. Even the two had to retreat temporarily.

Because the energy contained in that hot sun is too strong!

The scorching temperature can almost burn the human body.

Ye Chen always pays attention to the trend of the two. When she sees them join hands, she sneers. She is not surprised at all.

Can it be regarded as the traditional virtue of the weak side?

"I was just going to teach you a lesson, but since you are stubborn, accept the punishment of the chaotic Protoss!"

The woman in black waved her hand, and the distant sky roared and fell several gray lights.

Among those lights, many soldiers swept across, all rushing towards this side.

The group, all dressed in armor, looked cold and arrogant and shouted to the people.

Seeing this scene, Li Yaoshan took the lead.

"Stop them! Don't let them interfere with the master's battle!"

Hundreds of martial artists flew up one after another and showed their unique skills to block the group of people!

A fierce battle broke out between the two sides and there was chaos for a time.

"Chaotic Protoss, isn't it? It's arrogant! If you don't agree, you will take people's lives. Is this the sense of superiority given to you by the supreme world?"

Ye Chen's heart filled with anger.

Even if these two guys were killed halfway, they even called such a large group of people.

In addition to those who participated in the battle, several guys wearing gold armor came to Ye Chen.

The two leading guys, wearing light gold armor, had a very arrogant atmosphere.

"Our Protoss soldiers didn't put you to death immediately. It's a gift from God. Now you dare to resist. Can't you try to die?"

The leading people were angry, their tone was cold, and their eyes were full of arrogance.

These people came down from the chaotic Protoss. They are the legitimate Pro guards. They have always been vigorous and cruel.

Today's style reflects how they deal with people at ordinary times!

Seeing that ye Chen didn't answer at the first time, those Pro guards were furious and immediately used their killing moves.

He jumped up and shot out with a powerful momentum of destroying the sky and the earth.

These people were condescending and besieged. Their long guns flashed mysterious runes and beat them down hard, cutting off Ye Chen's retreat.

The people in the yin-yang temple, who were fighting with another part of the pro guards, suddenly changed their looks.

Those guys dare to be so disrespectful to the temple Lord.

Ye Chen didn't say much. His eyes were cold and fierce. He directly raised the Longyuan Heavenly Sword in his hand and cut it up.

For a moment, blood surged through the sky.

One side was furious and fought back angrily, and the other side responded calmly.

Compare the strength of the two sides and make a judgment!

The several pro guards glittering with gold shouted and almost tried their best.

But the next moment, they were split into several pieces. From top to bottom, the section was complete and smooth like a mirror mouth.

A large amount of blood rain fell, and the smell of blood spread all over the fields, which surprised other chaos Protoss soldiers one after another.

Taking advantage of this round of Kung Fu, several masters of the yin-yang Temple took out the means of pressing the bottom box and reaped several lives between a few interest rates!

"How dare you kill the protoss warrior!"

The woman in black stared and was very angry.

"Kill and kill. What's the big deal? The chaos Protoss is just a dying race. What's the spectrum? Kill all of you, and no one can trouble me!"

Ye Chen was merciless and sarcastic.

The woman in black clenched her teeth and said a few good words. Then she took a step forward. Her black hair was flying. Two fierce cold lights were emitted from her eyes!

"Today I will let you know what is despair in the dark!"

The woman in black had a cold expression. She raised one arm and the wind roared, and the drum swung into a giant arm.

"Chaotic Unicorn arm!"

This arm is left by the ancient power of the chaotic Protoss. It is said that it integrates a scale of a unicorn into the move, which will bring a trace of Unicorn power.

That's the real archaic Kirin! Therefore, this chaotic Unicorn arm can be called the supreme martial arts of chaotic Protoss.

This fist, like a flying thunder, with the cold light, aroused thousands of surging waves!

The powerful field shrouds Ye Chen's place in an instant.

Ye Chen moved his body and quickly shifted his position to avoid the attack.

The remaining power of one punch fell, and nearly tens of thousands of miles of land were destroyed. The mountains were cut in two, and there were wastelands in the distance. Countless cracks were torn, and rolling magma gushed out of it.

Such visions of heaven and earth made people breathe cold.

It's terrible.

When the heart throbbed, the strong people in the yin-yang temple were still very distressed, but the land they had cultivated for a long time was destroyed, and they were still unwilling.

The strength of the woman in black is very terrible. She turns into a unicorn in the light of her fist and roars out.

Buzz!

Ye Chen took the initiative to attack. This time he used his extreme strength.

The woman in black is very terrible. If she is allowed to display several chaotic powers, I'm afraid the people in the yin-yang temple will suffer.

These people are his team. They can't be slaughtered at will!

The fist light in the void surged violently.

But ye Chen found a peaceful place in the burst space, or the tranquility from his heart, which made the nearby void pause!

He raised his sword and pointed to the front. In an instant, he was as calm as water.

The waves of the whole sea area seem to calm down and fall into a deep sleep.

But the peace of the moment was like the last dawn before the darkness.

Break out in silence, perish in silence!

In the void, inexplicable power erupted.

A sword came from the sky, extremely gentle, but carrying endless killing intention!

A sword of water can penetrate through ancient and modern times and go against heaven and earth.

Terrible nothingness came here from the distant void.

Everyone was stunned, not out of surprise, but the solidification of the law of reality, which made them unable to move or even suffocate.

Chapter 7420

The woman in black was proud and proud, but when she noticed the breath burst out by Ye Chen, her face suddenly changed.

"This... What is this?"

She stared straight, and a sense of fear that she could not speak of spread rapidly at the bottom of her heart.

That breath is too terrible!

"Those who kill me in the yin-yang temple, you exchange your life for your life. You deserve it!"

Ye Chen's eyes were unusually cold, but his tone was flat and loose.

When Longyuan Tianjian finally arrived, the auspicious glow penetrated the clouds and condensed into a beam of light.

All the energy is gathered in this beam of light.

The chaotic Kirin fist, which the woman in black relied on, became as fragile as paper in front of this boundless power, and instantly disintegrated and fragmented.

Wheeze!

When the light penetrated Kirin's light, it also penetrated her fist and cut off her whole right arm.

The breath of destruction spread in an instant, like a silent flame burning it all.

The white forest cold flame, when it was terrified, had swept through the whole body.

"No..."

As soon as the woman in Black said a word, she was engulfed by the forest cold flame and burned to ashes. The gods and souls were destroyed and no longer exist.

Until the light white powder floated down, the remaining group of talents were suddenly surprised.

"You... You..."

The so-called Pro guards of those chaotic ancient families were scared to speechless at this time, and even the women in white stayed in place.

The woman in black is one of the most famous geniuses in the chaos Protoss. Her strength is very strong among the younger generation, and she even has the opportunity to inherit the patriarch in the future.

But now it's so silent, terrible, weird and chilling!

Ye Chen takes back the Longyuan Heavenly Sword, and his look is still cold.

"Block the void here and give it to you!"

He turned his head and said to sun Yerong.

Sun Yerong understood the meaning of his words, nodded, and then took action.

She drew out the green lotus divine sword. The fine blue light was like a thin mist line, which immediately crossed hundreds of miles and surrounded the void here tightly.

Then someone reacted and wanted to break through, but they couldn't break through.

Under this dual attack and defense, the chaotic protoss have no intention of war, just want to escape!

But ye Chen has killed with a sword. His eyes are cold and he has no feelings.

At the same time, he summoned the two towers.

Heaven and earth xuanhuang tower and futu God Tower!

The demons in Liangta town kill everything.

Chaos Protoss people have been sucked in and become trapped animals!

Seeing this, the people in the yin-yang Temple immediately came to the spirit, one after another picked up their weapons, exhausted their magic powers, and faced the soldiers of the chaotic Protoss with a painful hammer.

The woman in white stood at the end, and her face turned white.

It's more elegant and charming than when I first came here, but now I'm wearing hair and full of panic.

Ye Chen led the people in the yin-yang temple to destroy the pro guards and surrounded the woman in white.

"I can give you a chance. If you can break through in 30 seconds, you will be released!"

Ye Chen's face showed a joking smile.

The look of the woman in white became very unnatural.

"A scholar can be killed, not humiliated. If you want to kill, you have to cut it!"

Her hands are filled with white light balls concentrated to the extreme, which is the accumulation of chaotic forces and the precursor of self explosion.

Now, she can't escape!

At this time, on the distant void thousands of miles away, there was a great figure sitting in the middle of the array.

"It's not that easy to destroy my chaos Protoss!"

This person is Zhou Tianlei.

He is the patriarch of chaos Protoss. When he sent people to the lower world, he has been watching their movements.

The woman in black is one of his valued descendants. He never expected to be killed now.

"In that case!... then destroy them all. No one can get the chaotic ancient tree!"

Zhou Tianlei's heart churned with murder.

He looked up at the sky, where a cloud of thunder was slowly gathering.

There is a pool of thunder slurry wrapped in it, which shines brightly and even emits a mysterious smell of runes.

A burst of chaotic force wrapped the thunder slurry without letting it out.

Even with the power of chaos, the thunder slurry is still very terrible.

Cabernet Sauvignon is shining, and the auspicious light is like tide.

Even if only a drop of thunder light drips down, it can penetrate 10000 floors of ground and cause collapse!

In front of Zhou Tianlei, there is a thin light curtain suspended, which can roughly catch a glimpse of the battlefield in the chaotic ancient city.

"Wan Ling, listen up! You have only a dead end to stay there, or become their prisoner. Now I give you a chance to kill all these people. Are you willing?"

The thunder sound of the avenue penetrated the boundary between the ten thousand boundaries and passed into the ears of the woman in white.

The woman in white, who was in despair, was shocked.

She heard it. It was the patriarch's voice that sent a message to her across thousands of miles.

At the moment, she has been surrounded by people in the yin-yang temple, and ye Chen has a strong sense of killing, so there is no possibility of letting her go.

She pondered for a moment, then gritted her teeth and said, "OK!"

If you can't retreat, you'll have a bloody war!

"Now let go of your spirit and pour it near the Tianling cave. Next, I will drop the chaotic thunder and make you an invincible chaotic warrior!"
