Chapter 8051

Ye Chen looked around and saw that the ground was full of scars, heaven and earth, mountains and rivers, forests and the earth were all broken, and there were many cracks in the sky. The law was disordered, but the aura was very rich and deep, which made people feel relaxed and happy with a breath.

"This is the battlefield of the Taishang meritorious war before?"

Ye Chen's eyes narrowed slightly, looking at the broken ruins in all directions.

"Yes, this place has been abandoned by Zihuang fairy palace. It is a piece of ruins. Although it has abundant aura, the laws of heaven and earth are much more chaotic than those outside. If you enlightenment here, once you succeed, you will gain more!"

Ye evil god laughed.

"What if it fails?"

Ye Chen smiled bitterly.

Ye evil God smiled brightly, patted Ye Chen on the shoulder, and said, "grandson, I look after you. In short, you are good at cultivating and understanding the Tao, that is, I will go elsewhere first to refine this Rainbow free sword, and we will meet again in seven days."

Ye Chen nodded and said, "OK."

Ye evil god said again, "don't walk around in this place, just meditate and understand the Tao. After all, this is the former virtue battlefield, and there may be residual danger."

Ye Chen said, "yes!"

Ye Xie said, "see you in seven days." With that, he turned and left, and went elsewhere to refine the rainbow free sword.

Ye Chen calmed down and wanted to practice enlightenment. Suddenly, he felt the change of reincarnation cemetery, and the figure of Zihuan emperor floated out.

"Panlong star? This place is really missed."

Zihuan emperor looked at the landscape scenery on the Panlong star, and his old eyes were full of ancient memories.

Ye Chen said, "elder, have you been to this place before?"

Zihuan emperor nodded gently and said, "well, I and Hongjun have been here, and this Dragon Star was once the same

Chapter 8052

"Roar..."

Just floating, deep underground, suddenly a deep animal roar came out.

"Stop!"

Zihuan emperor immediately stopped Ye Chen.

Ye Chen paused and heard it without being reminded by Zihuan the great emperor.

"There is something strange under the ground..."

Ye Chen frowned and looked down. Through the crack, he could see that there was a dark abyss under the ground.

But if you observe carefully, you can see some unique architectural reincarnation in the dark abyss, like an underground palace hidden in this underground world.

"Go down and have a look. I seem to smell a trace of treasure. Hehe, can't you bury the treasure under the old thing of Duobao Tianjun?"

Zihuan sneered, and his eyes flashed a chill.

"Treasure? Duobao Tianjun?"

Ye Chen was stunned for a moment.

"Go down quickly, be careful, there may be prohibitions."

Zihuan emperor road.

Ye Chen nodded. It seemed that there might be a hole under the ground.

He immediately flew down along the crack in the ground, holding the reincarnation Heavenly Sword in his hand, carefully on guard.

Flying to the underground world, ye Chen really saw that there was a huge underground palace here, which was very spectacular.

Outside the underground palace, there is a layer of prohibition and protection.

"Roar..."

Another low animal roar came from the depths of the underground palace.

Ye Chen frowned slightly. It seemed that there might be some powerful beast lurking in the underground palace.

However, his cultivation has just broken through, and the skilled people are bold, but they are not afraid. They immediately waved the reincarnation Heavenly Sword, and the nine sword of chopping the sky broke out. With a hiss, the prohibition of the underground palace was severely broken.

WOW!

As soon as the forbidden system of the underground palace was broken, rays of light, with Xianxia ruicai, gushed out of the void, illuminating the whole underground palace world.

Ye Chen stared and was shocked.

Under the endless Fairy Light, the palaces and palaces are shining with warm brilliance.

Every palace is actually made of the finest spirit stone, which is extremely expensive.

When ye Chen stepped into the underground palace, he only saw statues on both sides of the passage, which were also made of special spirit stones.

Inside the halls, the doors are open, filled with all kinds of natural materials and earth treasures, exotic flowers and plants, and the aroma is pungent.

"What a rich treasure!"

Ye Chen was surprised. Glancing over, he saw a lot of concentrate jade, top-grade gold and silver, all kinds of ancient medicinal materials, law crystallization and so on.

In terms of the richness of the treasure, it is also second only to the old treasure, but there is no collection of magic scripts, nor weapons and magic weapons, all of which are all kinds of rare materials.

"Hehe, it's really the treasure of Duobao Tianjun. It's cheap for you."

Zihuan emperor floated behind Ye Chen and couldn't help laughing at the dazzling treasure materials.

"Duobao Tianjun, who is he?"

Ye Chen walked into a palace, picked up some rare herbs and asked.

The medicinal materials collected here are very rich, and some even have special effects against Wuwu.

Ye Chen thought that if these herbs were refined into pills, it would be enough to alleviate the injury of the goddess.

However, at the moment, Ren tiannv, from

Chapter 8053

Once, Hongjun ancestor wanted to prove the Tao by killing. I don't know how many creatures he killed, and even finally forged the holy cup of human slaughter. He can't be said to be decent and kind.

However, Hongjun ancestor is not evil. He kills people only for preaching, and he can finally face his heart.

The way of Hongjun's ancestor is incomprehensible to ordinary people.

Zihuan the great could not understand, nor could ye Chen.

Ye Chen only understood a few words, that is, face your heart directly, don't regret.

His ability to cut off the shackles of the heart at the beginning is also related to Hongjun's Tao.

Zihuan pointed to the treasures around him and said, "the multi treasure emperor, his favorite, is killing and looting, collecting treasures. He has a large number of rare treasures in his collection. Unexpectedly, there are also his treasures in this place. You can swallow them all. Hehe, it's also a way for heaven."

"Yes!"

Hearing the words of Zihuan emperor, ye Chen didn't hesitate, and even more impolite, directly rolled up the treasures in the underground palace into his own gourd of heaven and earth.

"Roar!"

However, at this time, in the depths of the underground palace, there were startling animal roars.

I saw an ancient behemoth, shaped like a wolf dog, with a green face and fangs, full of magical Qi, breaking through the void, and with sharp claws, stabbing Ye Chen.

"Be careful, it's an ancient fierce beast guarding the treasure, called Jiuyou mastiff!"

Zihuan emperor stepped back and warned Ye Chen at the same time.

"Jiuyou mastiff..."

Ye Chen looked at the behemoth in front of him, and his breath was slightly suffocated.

This Jiuyou mastiff is quite fierce, and even has a special and strong sense of war.

It's Hongjun's fighting spirit!

"The original Hongjun ancestor's residual fighting spirit was absorbed by this Jiuyou mastiff."

Ye Chen grinned, a little surprised.

This Jiuyou mastiff, absorbing the fighting spirit of Hongjun's ancestors, is extremely powerful, and its strength must surpass the flying immortal outside the sky.

With Ye Chen's fighting power at the moment, it is naturally quite dangerous to face such fierce beasts.

"Killing the holy cup with people can suppress this beast."

Emperor Zihuan reminded him that he floated behind Ye Chen and pressed for ye Chen, but he didn't take action easily.

His cultivation is very strong. If he makes a move easily, it is likely to attract the attention of higher-level forces.

Hearing the words of Zihuan emperor, ye Chen reacted quickly and immediately offered the holy cup of human slaughter.

WOW!

As soon as the human butcher holy cup came out, the bloody murderous spirit burst out, and instantly turned into a killing array, covering the nine hell mastiff cage.

Under the influence of the Holy Grail of human slaughter and the killing array, the Jiuyou mastiff barked uneasily, and its body trembled slightly, and its strong fighting spirit also weakened.

Ye Chen's human butcher holy cup was forged by Hongjun's ancestor himself. The idea contained in it can just suppress the Jiuyou mastiff.

As the fighting spirit of Jiuyou mastiff was suppressed, ye Chen obviously felt that the momentum of the other party was greatly weakened, not as fierce as just now.

"Good chance!"

Ye Chen's eyes were sharp and sharp, waved the reincarnation Heavenly Sword, and cut out with a sword.

"Sword six, holy king!"

Ye Chen shouted violently and directly used the nine swords to cut the sky

Chapter 8054

Ye Chen's spirit is also tense. Wu Zu treats him very well. If someone wants to entrap Wu Zu, he will never let go!

The emperor Zihuan then said, "the emperor of Duobao, seeing that Wu Zu dominates the world, was jealous. He deliberately spread rumors that Hongjun was in no time and space, suffering from extinction and dying."

"Although Wu Zu broke with Hongjun, he always thought about his old love and finally ventured into wuwuwu time and space."

"Duobao Tianjun took great pains to spread the news of Wu Zu's entry into wuwuwu time and space to some mysterious and ancient existence, which eventually led to Wu Zu being chased and killed by countless powerful people as soon as he entered Wuwu. Finally, he was trapped and imprisoned, and he can't get out of trouble today."

Hearing this, ye Chen was furious and said, "that Duobao heavenly king is too hateful! Why did he do this?"

Zihuan sneered and said, "no reason, he just can't see others well. He simply wants to harm others, even if he can't get any benefits."

"He once said that his greatest wish is to see the world burn."

Hearing this, ye Chen felt even more indignant.

Duobao Tianjun is the culprit who entrapped Wu Zu!

From a certain point of view, this person's heart is even more vicious than the ancient emperor Yu Huang.

At least, the ancient emperor Yu Huang entrapped and harmed others for his own interests.

However, the emperor of Duobao did harm to others, which was completely detrimental to others and not beneficial to himself.

He entrapped Wu Zu and gained nothing. He even passed on information and secretly arranged, but he had to pay a great price.

However, he just did it, just trying to kill Wu Zu.

Ye Chen's expression sank, his hand waved, and his strength burst, completely destroying the palaces in front of him.

.....

At this time, behind the Mountain Gate of Zihuang fairy palace, there was a gloomy cave.

The Mountain Gate of Zihuang fairy palace is divided into the front and rear.

In front of the mountain gate, there is a fairyland atmosphere of fairy gas and rosy clouds.

But the mountain gate behind, like Senluo refining prison, is a dark world, filled with magic everywhere.

This is the residence of the evil sect.

Zihuang fairy palace is divided into two sects, good and evil. This is the arrangement of the moral God, and few people outside know it.

At the moment, in the most gloomy cave at the evil sect gate, an old man in a gold robe, drunk, sat on a hill piled with gold and spirit stones.

All kinds of natural materials and earth treasures, precious mineral spirit stones, piled up the whole cave, shining.

There are many naked beauties, Dharma protectors and strong ones, waiting on the old man in the cave.

The old man's cultivation breath is strong, and he is infinitely close to the Immortal Emperor. He is the legendary multi treasure emperor.

"Well, someone moved my treasure?"

On the mountain heaped with gold and spirit stones, Duobao Tianjun opened his eyes.

The drunken posture suddenly disappeared.

Instead, it is extremely cold and strict.

"Is it the bastards of Jimie Palace who want to save people?"

Duobao Tianjun's tone was cold and he shouted, "Long Hao."

A strong Dharma protector stepped out and arched his hands and shouted, "Lord evil."

Duobao Tianjun is the leader of the evil sect, also known as the evil Lord.

If Ye Chen is here, he must be able to recognize that this strong Dharma protector is

Chapter 8056

The words fell, Ye Chen angrily pulled out the knife, and only pulled out a small part of the blade. The bright golden blade, with a decaying momentum, crushed all the laws of the surrounding roads, the void was broken, countless black cracks appeared, and the storm rolled.

"Slow down, slow down!"

Chapter 8058

Ye Chen was secretly vigilant and said, "yes!"

Ye evil god nodded and said, "let's go. I'm going to leave too. My communication with the future body and promotion to the Immortal Emperor will inevitably attract the attention of higher-level forces. I can't easily appear in the future, but I'll guard the star moon boundary for you. In short, I won't let your backyard catch fire."

Ye Chen smiled bitterly and said, "thank you, Grandpa."

Although ye evil god was promoted to Immortal Emperor, it was a happy event, but he would be dormant again in the future. This was not a good thing for ye Chen. After all, there was a card missing.

Ye Chen was curious about what those so-called higher-level forces were. They could make grandpa and Ren Feifan so afraid.

At this time, ye Chen held the comatose Chi Fei's blood and walked out of the underground palace with ye evil god.

Ye evil left and returned to the star moon realm.

Holding the scarred Chi Fei's blood, ye Chen thought a little and flew away from the Panlong star. Then he found a quiet place in Tianwaitian world and settled down temporarily.

Ye Chen did not immediately treat Chi Feixue, and he also remembered his grandfather's warning.

This woman, a top killer, must not be taken lightly.

If you cure her, she will bite back like a poisonous snake, and that will be trouble.

Ye Chen placed Chi Fei's blood on the ground, and then shouted in his heart

Chapter 8059

Chi Feixue's injury improved. She also opened her eyes and woke up.

As soon as she woke up, there was a cold murderous gas in her eyes, which burst out.

The whole world, as if instantly cold down, turned into an ice cave, only filled with her murderous spirit.

Her body sprang up in an instant, and her palm subconsciously caught he

Chapter 8060

"Sword six, holy king!"

Ye Chen took a deep breath and was inspired by his aura. The sword burst into light, like the king of the world, who came to the earth. The power of the sword suddenly became more than ten times ferocious, and he cut at it like he wanted to collapse
