Chapter 8151

The boy shrugged, "who knows..."

"However, with your current cultivation, if you go to kill God hell to win the sword, you can't have half of your vitality!"

His expression was slightly playful.

Obviously, the young old guy also saw that the realm and strength of Taishen had improved!

"What!"

Ye Chen secretly wondered, what a dangerous region this is. Even the strength of Taishen is only half alive?

"Well, I see!"

Taishen nodded and said to the boy, "do you have any requirements?"

A glimmer of hope flashed through the bottom of the boy's eyes, but it was quickly and cleverly covered up by him.

"Lord of reincarnation, after you reach the top and defeat the ancient emperor Yu Huang, come here for a talk!"

He looked at Ye Chen and said.

Too God smiled gently, seeing through but not telling.

"Elder, do you also belong to the reincarnation camp? Believe that you can defeat the feather emperor?"

Ye Chen didn't know why. He wanted to ask carefully, but he found that Taishen had taken him and Zhu Yuan, tearing the space and leaving the dark realm.

"This old man, you have today!"

Outside and without mystery, the two tacitly teased.

.....

"Killing God hell?"

Waiting for ye Chen to react, Taishen has led him and the two of them to tear the void and leave the dark realm. As for what the young strong man finally said, he was full of fog.

Ask too God, too God just shook his head and smiled, indicating that ye Chen didn't have to care too much.

"Master, this so-called 'killing God Hell' is a forbidden area that is the premise and has been passed?"

Ye Chen asked.

Taishen pondered for a long time, slowly opened his mouth and said:

"It's not too much to say..."

"This God killing hell is not in this world, nor on the world too high. It is a moving area!"

Ye Chen and Zhu Yuan both looked sideways and said, "have the coordinates changed all the time?"

"Yes, its spatial coordinates are extremely unstable, which is somewhat similar to the six realms of samsara. It is more like a ship sailing aimlessly in the void than a continent!"

"In that murderous hell, countless strong men and even many immortal emperors have been buried! It is a natural evil place!"

"I heard that the mysterious space has the power of 'bringing the dead back to life', so there are countless threats hidden in it, not only natural disasters, but also man-made disasters!"

"Bring the dead back to life?"

Ye Chen and Zhu Yuan widened their eyes. This is too shocking. Is there such an unnatural force in killing God hell?

"It's not really about bringing the dead back to life, but being dragged by the will of heaven and earth and becoming a walking corpse!"

Taishen explained.

Of course, these are mostly rumors outside the market, and the authenticity needs to be investigated, but only a few words can infer that this God killing hell is definitely not simple!

"It's not easy to find that place. Let's talk about the countless God killing hell!"

Ye Chen frowned, this evil sword revenge, good deep calculation.

I'm afraid that even if he came together with the revival dragon soul, he may not have enough confidence to win back the evil dragon soul killing sword!

.....

An hour later.

The three came to a deserted place.

The great God stared at the sky, as if waiting for something. After a incense stick, the great god suddenly stretched out his hand!

A space crack appears here.

"Is this the entrance?"

Ye Chen murmured to himself that at the end of the space torn apart by Taishen, the breath of chaos had filled the air, and it should be at the end.

"On!"

The illusion of a huge palm directly into the space crack, once again opened a gap, in an instant, it was eroded by the terrible chaotic atmosphere, and blood sprayed!

The chaotic world was broken, and at that crack, endless death swept through.

Zishan's Taishen seemed to have been prepared for this. Immediately, he broke into the mysterious chaotic space and exploded into countless starlight and chaotic breath.

"I have weakened the phagocytosis of chaos, and you take the opportunity to enter the world!"

A shout came out, ye Chen and Zhu Yuan looked at each other and nodded, his body did not stop at all, and went into chaos.

Hum!

For a moment, ye Chen felt that the bones of his whole body were being squeezed, even if the reincarnation God body was so, the intense pain made his gums giggle. While there was still a trace of consciousness, he looked at Zhu Yuan.

Zhu Yuan's green shirt was full of blood. At the moment of entering this chaos, Zhu Yuan's physical strength was far less than ye Chen's, and his blood vessels had burst and turned into a blood man.

Bang!

Zhu Yuan's right arm burst to pieces, but half a breath, and his left leg turned into a blood mist. Fortunately, he had three clear Qi of heaven and earth near his body, which was all right for the time being.

"This is still the chaotic atmosphere weakened by Taishen at the cost of self explosion, so terrible!"

If not, the devouring power of terror in an instant could make them disappear into the world.

It seems to have been expected that such a situation, the separation of Taishen, a crack that turns into a huge palm to support the space at the other end with the force of flesh and blood, and a devouring force that weakens the breath of chaos at the cost of explosion.

At this moment, the Supreme Master of Taishen looked at Ye Chen and his two people who were struggling. His arms opened and closed, and a strong wind crossed, pushing the two people in chaos into the crack.

Watching Ye Chen and Zhu Yuan's body slowly dissipate at the end of the world, Taishen also lowered his heart. With a flash of his body, he went straight into the dead world. In the sky, the power of terror instantly dissipated, and everything was calm.

.....

This is a region full of buried creatures. Countless broken bones are scattered in the dust, and half of them are buried by the loess. The rugged roads are mostly black bottomless abysses, and death swept through.

"It seems that the luck is really good enough. It was directly transmitted to the location we are looking for in this domain. Is this killing God hell?"

Tai Shen looked around, and the bloody sunset seemed to be frozen. Standing in that posture forever, it seemed that the yellow sand all over the sky was more lonely and lonely, and the mountains piled with countless skeletons were hundreds of feet high.

Creak.

One step can crush a lot of dead bones, during which there are many white bones shining, which are the bones of the peerless strong!

Even if it falls for countless years, there is still a spirit, which is a creature of immeasurable territory.

"Strange, those two little guys have a deviation from my position? Shouldn't they!"

No matter how strange the scene is, what's more worrying is that ye Chen and Zhu Yuan didn't transfer to the same position with themselves.

"Ye Chen, Zhu Yuan!"

Led by the power of the divine soul, Taishen shouted loudly, hoping to get a response. This roar really made the sky palpitate, but there was no response at all.

.....

At the same time, ye Chen and Zhu Yuan woke up in an unknown space, but the scene in front of them was another world!

Ye Chen woke up and looked at Zhu Yuan beside him. His green shirt had been dyed blood red all over. Fortunately, his chest was slightly undulating, which showed that it was OK.

He no longer hesitated, displaying the eight trigrams heaven elixir and celestial Koi copy, and a bright light wrapped Zhu Yuan's body.

But at this moment, ye Chen seemed to hear something!

Chapter 8153

A white haired girl appeared not far behind Ye Chen at some time. She was about sixteen or seventeen years old, and her crescent eyebrows picked up, as if she had been attracted by Ye Chen's previous battle traces.

"Are you?"

Ye Chen looked at the white haired girl with alert eyes. There are all kinds of wonders in this God killing hell, as if it were born from the burial of reincarnation. Is it to kill himself again?

The white haired girl looked up and down at Ye Chen several times and said to herself, "so you only have Baijia realm... It seems that I felt wrong!"

"Baijia realm?"

Ye Chen didn't change her face when she heard the words, and didn't mention anything else or explain more. From the words of the white haired girl, it's not difficult to see that the girl is not the existence of the so-called burial reincarnation, but also the warrior came to this God killing hell.

At this time, ye Chen was in rags and did not explode martial arts except Baijia territory. No wonder this white haired girl would be unprepared for herself.

In addition to extreme self-confidence, ye Chen is also expected to have no threat at all.

"My name is Xueji!"

She just understated and left a sentence, which was to turn around and leave, which was in response to Ye Chen's initial questions.

Looking at Xueji's figure disappearing at the end of his line of sight, ye Chen staggered again to Zhu Yuan's missing reverse array, staring at something.

"By the way, I forgot to ask you, what are you doing here!"

Suddenly, the voice of the girl named Xueji sounded in her ear again. Ye Chen suddenly looked back, but she saw a girl in white standing not far away. Her eyes were smart and looked at him up and down.

"You know my name, so you're not going to tell me your name?"

Xueji completely let down her guard this time and asked with a smile.

"Ye Chen!"

"What are you doing here?"

"Find my friend!"

Maybe because reincarnation blood has the reason to attract women, Xueji seems to have a little favor for ye Chen.

The two of them chatted one after another, which was also regarded as sending away the loneliness here.

Ye Chen also knows the reason why Xue Ji came here. It seems that she is looking for her master, but she didn't say much in detail. Xue Ji also knows Ye Chen's experience here.

"It seems that your friends are very important to you, but this place is not the place where Baijia realm should come. For the sake of chatting with me, ye Chen, I will protect you. The demons here can't get close to me!"

Xueji vowed.

"This girl is really weird..." Ye Chen looked at her cultivation as if she was not high, and she didn't even step into the boundless realm.

Such cultivation, dare to enter the God killing hell alone, it seems that there is really nothing to fear.

"You just said that you came to find your master?" Ye Chen continued to ask.

Hearing the words, Xueji stopped and looked back at Ye Chen, saying, "it's true."

"Is it?"

Ye Chen asked suspiciously.

"I come from the heavenly spirit sect of the supreme world!"

Xueji said.

"Tianlingzong?" Ye Chen is very strange to this name, but it is normal. There are too many sects in the world.

I don't know whether this girl named Xueji will participate in the supreme merit war.

"My master is the former leader of Tianling sect. Ten thousand years ago, he came here because of my seal, but unfortunately he died."

"Now that I have successfully passed the pass, I must retrieve the remains of the master, but I have also heard..."

Seeing Xueji's injury, ye Chen said, "you mean, life and death are human flesh and bones?"

"Well..."

Looking at Xueji's inexperienced mind, ye Chen also sighed lightly that the warrior eroded by the God killing hell might have fallen into a devil.

"As you say, you just left the pass and came to such a dangerous place. Doesn't tianlingzong have the protection of a strong person?"

Ye Chen was suspicious, but there was no other creature nearby except his breath.

Is it a strong man of that level like Ren Feifan? You can't even notice?

The foundation of lingzong on that day is too deep.

Thinking of this, ye Chen couldn't help but take a breath. How noble the identity of this white haired girl Xueji is, so it can be.

But he soon noticed something strange. When ye Chen asked about it, the Shanshan smile on Xueji's exquisite face made Ye Chen think of another possibility.

"You didn't sneak out by yourself?"

This question, seeing Xueji's helpless nod, ye Chen was also stunned immediately.

"Do you know where this is? Dare you come here alone?"

He couldn't believe that he had to come here because of the deal with evil sword and hatred. He was still under the protection of the great God. Although he was separated now, he would still meet again.

How dare this Xueji set foot in the God killing hell alone?

"I said, I will protect you. Don't worry!"

Xueji vowed to speak again.

"Haven't you found that you and I are all in peace all the way here? Compared with your previous situation, it can be regarded as stained with my light."

"Otherwise, I don't know which monster in the pile of bones will eat you!"

Seeing ye Chen's incredible eyes, Xueji's smart eyes blinked and said.

Ye Chen heard the words and thought about it. Did this Ni Zi have a treasure on her, which can isolate the breath?

If so, it's not a bad thing to be safe all the way, but if you meet an ancient monster, I'm afraid something will happen.

"Hey, how did you and your friend get separated?"

Seeing ye Chen no longer with an indifferent face, Xueji asked.

"In order to save me, he entered a special ancient teleportation array. I don't know where he was teleported!"

Chapter 8154

Ye Chen used his soul to feel the whereabouts of Zhu Yuan and others all the way, but the ancient trees around him were towering, but they were suffused with a strange gray color. He could not feel the breath of vitality all the way, but the rustling sound was endless.

Every bone buried in half of the loess is clucking, making a very uncomfortable sound.

.....

At the same time, another place.

"Where is this place, childe? How are you?"

When Zhu Yuan woke up again, there was silence around him. In front of him was no longer loess and bones all over the sky, but dark black.

It seems to be led by the brilliance of stars, and a straight and wide road ahead is faintly visible.

Looking down, a magnificent hall appeared in front of me, full of ten thousand feet and faint stars.

"This palace, based on stars, was born and refined. What a big hand!"

If it is said that he can destroy the star with brute force, but if it is refined and formed, it must be a great magic!

"In the past, the Loess and bones all over the sky didn't look like a place to hide treasures. It's possible here."

Zhu Yuan looked around from afar and murmured, "maybe the evil dragon soul killing sword we're looking for will be suppressed here. Go to explore the way first. It's best if you can help the child find it!"

When the words fell, Zhu Yuan made a gesture and stepped out, and then turned back.

"Green spirit sword, open!"

Zhu Yuan inserted the green spirit sword with several notches on the blade in place. The direction pointed by the handle was the palace piled with stars, connecting the magnificent place at the end of the horizon.

"There should be no problem..."

.....

Screen rotation.

Ye Chen naturally doesn't know Zhu Yuan's situation. He and Xueji have been looking for what they need.

"Unexpectedly, it's broken... The master's breath stayed in this area!"

Xueji stopped, looked around, and felt something in her eyes.

Ye Chen, who has no clue, also stops to have a look.

"Even if it is a transmission array, even if it is reverse, it should have an array base. How can it lose all traces at the touch?"

Within an hour, ye Chen and Xueji went through many places in the God killing hell, but basically they couldn't find any clues about the foundation of the array, and the strange chanting voice never reappeared.

Ye Chen couldn't help but feel anxious. The longer he dragged on, the more dangerous it was.

Although Zhu Yuan's luck is different as his own, this place is unusual, and the Immortal Emperor may fall!

The only good news is that ye Chen's injuries have healed since he was farther and farther away from that place.

Boom!

With a loud noise, ye Chen hurriedly looked back and looked. Not far from the position Xue Ji stood, a huge hole collapsed and went straight to the ground!

"This..."

Before ye Chen spoke, Xueji whispered, "I feel it. The master came here before his death, and he's down there!"

Ye Chen checked several times before and got nothing. There should be no hidden secret place or channel here. Is it his carelessness?

"This is the secret method of my tianlingzong. This murdering hell can't be guessed by common sense!"

Xue Ji said.

They walked down for an unknown length of time, and there was still no end. The slippery stairs went down all the way until they were dim and no light anymore.

"Unexpectedly, there is a passage hidden thousands of meters underground!"

Gradually, there was a faint light in front of her eyes. Xueji saw it and immediately accelerated her pace. Ye Chen also quickly followed.

What came into view was a group of mountains glittering with dim stars, which was really strange.

The unbroken mountains stretch boundlessly, but the eight most towering mountains, led by them, shine with a strange sunset red. At first glance, they look like a lying down person!

"Master?"

Xue Ji's eyes were red and whispered softly.

"What!"

Ye Chen looked back at the girl in surprise and said, "you said that the eight peaks are the remains of your master?"

Xueji shook her head gently, "I feel breath, but I'm not sure!"

Language fell, she took out the Lingyu seal of tianlingzong from her arms, and the warm Purple Jade burst into light in an instant.

"It's the master! This spirit jade is printed as the son and mother jade, and the other one was taken away by the master that year. It has induction!"

Xueji had a runny nose and tears, and her small hands were constantly wiping her face. At this moment, a purple awn rose from the strange sunset not far away, which looked like the human shape of the eight linked peak!

Click!

In an instant, the eight peaks jumped together, the heaven and earth trembled, the void was twisted and deformed in bursts, and the debris was agitated. For a time, the dust covered the eyes, and ye Chen's eyes coagulated, hurriedly pulling Xueji back.

When everything was silent, in the ruins, a middle-aged figure sat around, accompanied by debris and mud, with long hair scattered, mixed with roots and weeds, pale and bloodless, motionless, and had long lost his vitality.

Although he has passed away for thousands of years, his body doesn't look rotten at all. Compared with the pile of white bones outside, his cultivation can be called the top!

The skirt has been weathered and ragged, but the exposed arms and chest are still no different from ordinary people, and even faintly glittering.

It is the leader of the previous generation of Tianling sect, Tianling Taoist!

"Master!"

With a sad cry, Xueji fell directly into the arms of the middle-aged body.

Ye Chen hurriedly reminded that there seemed to be a killing opportunity, but the body that wanted to make some action was the moment when it sensed the girl's breath, and the mysterious power was removed from its body.

"Is it the Lingyu seal of lingzong that day?"

The two jade seals were combined into one, and the purple mark wrapped Xueji and her master. Ye Chen no longer bothered, so he wanted to leave here silently.

Even he didn't realize that at the moment when the eight peaks jumped to pieces, a dark shadow twisted the void, and then disappeared.

"Master!"

Suddenly heard Xueji's exclamation, ye Chen looked back in a hurry and found a strange scene!

Taoist Tianling's eyes were a deep black, I don't know when he had got up, and an arm was like a pliers firmly locking Xueji's tender and smooth neck.

"Jie Jie!"

It seemed to be extremely painful. The Taoist priest of the gods showed a ferocious expression, opened his mouth, spit out a gray breath, and struggled.

"Daqian Chonglou palm!"

Ye Chen shouted violently, and the steel and blood dragons wrapped around his right arm, and his muscles exploded. He slapped out with his palm, and directly used the nine heaven magic ranking

Chapter 8155

Xue Ji didn't care to wipe pear blossom's rainy face, and immediately her face sank, "who are you, and dare to take away my master?"

"Well, give up?"

"Jie Jie, this corpse is nothing but a ownerless thing, not to mention, it is so disobedient!"

"If you disturb my purity, please stay with me today!"

Taoist Tianling stepped forward, killing the enemy step by step. Ye Chen just wanted to move in her hand, but Xueji waved her hand and stood up.

"The remains of the master should not be desecrated. Let me handle the affairs of tianlingzong!"

She obviously believes that ye Chen's Baijia state is not enough to cope with the current situation. The main reason is that she is not deeply involved in the world, and naturally she does not know daqianchonglou palm.

"Don't force yourself, do what you can."

Ye Chen didn't refuse. This is a knot in Xueji's heart. She needs to untie it by herself.

"Little girl, you almost mean it just by yourself!"

Taoist Tianling saw Xueji come forward, happy and unafraid, licked the corner of her mouth, broke her arm, and stepped into the air without a pause

Xueji was also undaunted, and there was an extremely terrifying rhyme around her. When she really started, even ye Chen was a little surprised. Her skill was extremely unique, her steps were light and her momentum was rising.

When I raised my hand, the space was distorted, and the rudiment of the flower of the avenue loomed, showing the void.

"This girl has such fighting power?"

You know, at the beginning, it never caused such a vision to do it yourself.

"It seems that the so-called tianlingzong is really not simple!"

Ye Chen looked at Xueji, whose breath was getting stronger and stronger, and murmured.

Click!

Not far away, mountain peaks could not bear such strong pressure and collapsed one after another.

The Taoist priest Tianling resisted the erosion and cutting of the flowers of the avenue with the purest flesh, leaving only a few shallow white marks.

Is the terrorist force enough to tear open the void, but it can't break the defense of a corpse?

Xue Ji couldn't help frowning and looking at the broken arm of Taoist Tianling. She couldn't help glancing at Ye Chen subconsciously.

"How did this baijiajing do just now? Is he better than me?"

Without time to think about it, Xue Ji waved her arm and pulled out a silver sword, emitting five colored light, and the river surged at the edge of the sword.

"Eh? Such antiquities exist!"

The Taoist priest tut tut sighed, no longer holding big, ready.

"What's the matter? It's obviously a sword, but it seems to be a person?"

"Is there a strong sword spirit among them?"

"No, raise people's souls with sword bodies?"

Even ye Chen was stunned. The sword in Xueji's hand seemed unparalleled and powerful, but it was not so, more like a... Container?

Boom!

Taoist Tianling took the initiative, and his thin and pale palm directly popped out. At the moment of tearing the space, the dust stirred up turned into a point of heaven and earth!

"Out!"

A trace of perseverance appeared on Xueji's slightly immature face, which showed her martial will and combat experience that did not belong to her age. She gently lifted her jade arm, waved her thin blade, and spurted the glow!

Ding!

A sword will crush the dust of the Taoist priest.

The pale palm came, but it seemed as if it was far away. Xueji waved several swords in succession and rushed into the sky!

Boom!

In the whole underground world, a position shook, the void collapsed, the sky chapped, and pieces fell into the sky, with colorful eyes.

And the pale palm that stood still seemed to look at each other across the river of time, but the landslide did not change its color, and integrated itself into the world with a great magic power.

"Why did this guy fight with the flesh of the Taoist priest from the beginning?"

"Obviously, a dead corpse can't explode any combat power, and even the magic can't be used..."

"Is it stalling?"

Ye Chen realized that something was wrong, and immediately greeted Xueji:

"Be careful of this guy, he is deliberately delaying time!"

Even if she saw Xueji using means, she didn't hesitate to tempt herself and didn't fight back

"Heaven's law! Break everything!"

Xueji shouted loudly. The original Xia Rui's ten colored sword and light were combined, and a tyrannical breath came to her face. This is an extremely ancient technique, which is a secret of the tianlingzong.

Ye Chen even found that this technique is similar to the nine heavenly gods technique. Is it related to Hongjun's ancestor?

Boom!

The whole hundred foot space covered under the dome is broken into tens of thousands of pieces under this sword!

"Good domineering power!"

Ye Chen, who was not far away, saw this and used the dust tablet to block it for a few minutes, muttering.

In an instant, the pale palm of the Taoist priest was twisted into ashes with the space, but he didn't care about it, and the expression on his face was calm, without any pain.

"I see..."

"Little girl, I said that after so many years, why has there been no door? Hey, thanks to your pair of jade!"

Honghou's voice rang out, and the Taoist priest who lost his arms collapsed and did not move.

"Death!"

Xueji looked cold and locked the air engine of the sound. The divine sword raised her hand and stabbed directly into a space not far behind her!

Ka!

The void broke like a mirror. At the other end of the space, there was a terrible beast, looking at her and ye Chen with a ferocious face.

It looks like a rhinoceros, but it has two extremely sharp fangs. The faint breath on it is flickering with thunder. There is no detailed facial features. There is only a huge mouth on the face, which is blue and hundreds of feet high.

"No fierce beast! Ghost void beast!"

Ye Chen's eyes coagulated instantly. He let his predecessors mention this.

In wuwu spacetime, this fierce beast is not very strong, but it is very intelligent, and it is easy to survive in many camps.

I thought it was difficult to see in real life, but I didn't expect to see it in the deep underground of this God killing hell today.

It seems that this place has indeed been eroded by Wuwu.

"After a long time, I didn't dare to see anyone. It turned out to be a humble beast without time and space!"

Xueji seemed to recognize the identity of the behemoth in front of her, disdaining a cold hum.

"Humble human beings, dare to compare the blood of this noble spirit clan with those low-level monsters and seek death!"

Between the lines, it reveals nobility and pride. This is a blood from nothing, flowing with mysterious power, which cannot be blasphemed.

Although nothing is very humble, it must be the same as God in real life.

"Get out and die!"

Xue Ji's cold voice gradually rose, and she was disrespectful to his master and to tianlingzong. She had a murderous heart.

The sound of the sword was humming, and the sky and the earth had broken in response. This terrible sword was almost blurred.

Although it is far less than the killing heart without trace of the nine swords, it can also be regarded as the hegemony in the sword. Xueji's strength is as general as herself, which cannot be measured by realm.

"That's all!"

A sword that cracks the heaven and earth can penetrate all things. Such a sword that destroys all spirits has failed!

Chapter 8156

The hundred foot beast disappeared in full view of the public.

There was no spatial fluctuation, as if it had never occurred.

"The existence of no world is an unspeakable and unpredictable existence. Humble human beings, with your little means, can't shake me!"

The ghost void beast is still a high-profile, in this space between heaven and earth, despise all things, it is the Tao.

Xue Ji threw the divine sword into the air and stood with her hands down. The divine sword in front of her turned into a bright flame. With the girl's order, she scattered into a 10000 sword array!

Each sword is burning with blazing fire, distorting the space, and is extremely terrifying.

"Burning blood gas?"

Ye Chen at the bottom could not help frowning when he saw this. Unless this war method was at a dead end, there would be endless trouble.

"No, it's the power of the sword..."

"Do you want to use the sword to launch a stronger attack and kill, and scatter the whole space together!"

Soon, he noticed something strange, and Xueji's breath was very stable.

And the terrible wave was still condensing, and her whole body was also shrouded in blazing light.

"Jie Jie, it's interesting, but it's not enough!"

In the void, a burst of sarcasm came out, and the ghost void beast sneered at Xueji's means.

Click!

The curtain of heaven opened a gap, and ten thousand swords roared together, surging out like a large bow.

Xueji knew that this ghost void beast could control the space freely and was extremely cunning. She planned to destroy the whole space of the underground world!

At the same time, the space under Ye Chen's feet is collapsing, and the buzzing in his ears is endless, which is the prelude to the collapse of the world!

Even ye Chen had to use the dust tablet to defend against this indiscriminate terrorist attack.

The swaying spirit grass leaned for half a minute, and instantly scattered into a dozen pieces. The towering ancient trees did not tremble, and even the bark disappeared in an instant.

In the distance, the mountains stand towering for one second, and the next second is reduced to dust.

Originally, the dark sky was destroyed and turned into black.

Everything is disappearing, becoming robbery.

After a few breaths, it turned into a hazy place, as if it had returned to the original uncivilized state of heaven and earth.

The power of a sword!

Ye Chen was completely shocked. Xue Ji didn't even step into the boundless realm. She was able to achieve such terrible destructive power. She deserved to have the courage to come here!

In the hazy depth of space, several crisp sounds came out one after another, and the overwhelming sword seemed to cut on something.

"Useless attack!"

The beast roared.

At this end, there were only a few light sword marks on the huge blue body of the ghost void beast, and the deepest one was only a foot of flesh broken by the clang, exuding a little red.

The indiscriminate attack could not accurately hit all the targets, and the damage caused by the scattered sword to the ghost nether beast was not as abnormal as expected.

One of the sharp fangs was scarlet and the other was dark, and a killing machine appeared in its heart.

"Spirit tooth penetrates soul!"

For a moment, the netherworld beast no longer hesitated, and a sharp fangs were shot out of his bloody mouth. The terrifying evil spirit waves swept the shore and rolled up thousands of waves!

The dim light flashed away, traversing the hazy space, and everything was in two!

"Xueji!"

Ye Chen exclaimed, and the direction that fangs aimed at was Xueji's delicate neck!

The extreme micro awn was just a flash in front of her eyes. Xueji had no time to escape. The terrorist force that was enough to break the world wanted to take her head.

Hiss!

A blood arrow shot out, and a stuffy hum sounded. Xueji was surprised to open her eyes, but she was intact?

Who will be injured?

"Ye Chen!"

The girl's shrill roar sounded and looked at Ye Chen fiercely. To her surprise, ye Chen was injured, but the injury was not too serious.

Is the body of a warrior in Baijia territory so terrifying? How is this possible!

What's the origin of this guy?

"Evil beast!"

No longer think about it, a few mysterious Dharma Seals formed between the angry Xueji's palms, and her figure immediately became uncertain.

"Nine heaven calming formula!"

Behind her, the glow suddenly spread and rose, turning into a nihilistic scene, especially magnificent.

Behind the hazy, a figure loomed, unable to see her face clearly, but it was extremely powerful. At the moment of the figure, Xueji's breath was soaring.

But at the same time, her vitality is also declining rapidly!

This is an access control technique, a method of burning vitality for power. She wants to kill the netherworld beast at all costs!

"Xueji, don't use the power that burns life. Just an animal is not worthy of killing me!"

Ye Chen stretched out and said faintly.

He stopped Xueji's action of taking life with forbidden skill, and his indifferent face showed calm, as if the previous injury had nothing to do with him.

From the beginning, countless people wanted to kill him. Carrying any one out was not inferior to this ghost void beast.

This gang is just relatively difficult, with erratic whereabouts. They can do whatever they want using space. If it comes to real combat power, that's all.

"This guy, leave it to me!"

Ye Chen didn't talk nonsense. His heart moved. The magic gas of the gourd of heaven and earth was spewing out. The magic armor guard he received in the gourd was released.

Many magic armor guards, issued a low roar, murderous, like a ruthless killing machine, quickly surrounded the netherworld beast.

Click, click, click!

Then, in the hands of a Demon Armor guard, the breath of steel converged, condensing into a cold weapon, and the sharp edge of the sword glowed, suffocating.

Chapter 8157

The ghost void Beast instantly felt the smell of the magic armor, and his pupils widened, extremely shocked.

"This... How can this be possible! How can these guys appear here... Still under your control! Who are you!"

The surrounding magic armor guards ignored it at all, and rushed forward like crazy demons, with swords and swords, aiming at the netherworld beast.

Ye Chen said faintly, "do you still want to delay time?"

"How do you know I'm procrastinating... Why do you have these guys!"

For a moment, there was a trace of panic in the tone of the ghost void beast.

Xueji wondered, "what does it mean?"

Ye Chen explains:

"This nether spirit beast is not the product of this God killing hell. Moreover, this family has always been living without time and space, absorbing the power of stars."

"Trapped here, even if it used to be powerful, it is no better now. It happens that the skill of tianlingzong gives it hope!"

"I saw you fight before. The skill of tianlingzong is very special. Presumably this guy is dormant here for himself!"

"Your arrival, that pair of jade seals aroused its hope..."

From the beginning, ye Chen was observing everything on the battlefield. Seeing that Tianling Taoist was taken away, he guessed that this guy would delay time again.

Seeing the ghost void beast, ye Chen thought of Ren's introduction. This family is all powerful, but in reality, it must be at its peak, and its combat power is quite shocking. I'm afraid that only Taishen is here to check and balance.

It can be seen that Xueji made a move and combined with previous guesses, this ghost void beast was suppressed by the God killing hell!

"Boy, what about those guys you have? They not only suppress me here, but also those guys who suppress you! They come from wuwuwuspacetime, haha!"

Suddenly, the ghost void beast thought of something and said.

Ye Chen's eyes narrowed slightly. Sure enough, he felt that there was something wrong with the magic armor guard, as if his body was bound by a chain. Ye Chen no longer thought much, but waved his big hand to take them back to the gourd of heaven and earth.

"If it had been before, I might have nothing to do with you, but now, you have nothing to hide!"

Ye Chen shouted loudly, and immediately his whole body was lit with bright red flames. A fire phoenix virtual shadow accompanied him, and the temperature of the whole space soared in an instant.

"What flame is this?"

Xueji was instantly dull. Although she was not huoxiu, she also knew how terrible the flame was!

How many secrets does this guy have?

"Over here!"

Ye Chen's line of sight never looked into this hazy space, but the reincarnation Heavenly Sword in his hand can always accurately find the location of the netherworld beast.

As long as ye Chen urges Yan xuan'er's power, he can feel the location of the ghost void beast at any time. It is in the void and has nowhere to hide.

Prick!

A sword once again crossed the scales of the netherworld beast, making a harsh sound, but only leaving a shallow impression.

"Jie Jie, hairy boy, your handle is really strange, but your cultivation is too weak to play!"

Every sword stabbed on it is painless.

"Ye Chen, although you can find its position with divine fire as a guide before, this guy is rough and fleshy, and he can't break its defense at all!"

Xueji began to remind, but her expression was a little unnatural.

Ye Chenmo was silent, and he continued to attack and kill.

"Boy, at the end of your strength, you'd better die peacefully!"

The ghost void beast felt that Ye Chen's strength of fire was gradually weakening. It sneered and no longer defended passively.

"Spirit empty nine turn!"

The blue scaly animal skin is shining, and it looks more and more tough.

The huge mouth of the abyss above his face, each fang is emitting unparalleled different awns, there are nine kinds!

"Out!"

With a violent drink, the Supreme God's light from his breath swept the whole underground space, and a column like light broke through the ground and reached the sky man.

For a time, countless dead bones in the whole God killing hell were shaking in bursts.

"Ye Chen, didn't you say that this guy has no fighting power..."

Xueji quickly put away the body of her master Taoist Tianling, looked back at Ye Chen and asked.

"Just relatively speaking, if it's really the peak state, I'm afraid your master's resurrection is not necessarily an opponent!"

Ye Chen responded.

"What about now?"

Xueji asked.

Ye Chen did not speak, and the red light of fire lit up again, swaying up!

Seeing ye Chen's back, the original bright red was a little dim at the moment. Xueji gently bit her thin lips and didn't know what she was thinking.

At this time, the yellow sand was still flying all over the earth, and the column like breath was radiant, setting off endless yellow storms in the interface of God killing hell, blocking the sun.

There are also countless Yingying shining broken bones that are pulled, absorbed and turned into blades, and turn the spearhead to stab Ye Chen!

"Emperor's holy knife, break it for me!"

Under the absolute crisis, ye Chen's muscles were tense, his eyes were like electricity, and suddenly pulled out the emperor's holy knife.

The complete blade was pulled out by Ye Chen.

If other means can't hurt each other, then we can only use the emperor's holy knife!

The complete emperor's holy knife came out of its sheath, and the bright golden light, which was even more dazzling than the sun, tore the sky.

"This... How can you have this thing! You... You... You..."

Even so, the ghost void beast broke out a terrorist resistance!

He knew that if he didn't use his cards, he would die!

Chapter 8158

The two extreme forces collided, and the boundless desert was dissipating. A ruined landscape sprang and spread for thousands of miles, and this place became a real hell.

Boom!

After a bang in the sky, the figure of the ghost void beast completely disappeared, but the blood stained the sky, obviously injured!

"Still want to go, have you asked me? Array formula, reincarnation lock!" Ye Chen shook his five fingers, and the power of reincarnation seemed to turn into ropes!

The whole world of the ghost void beast was imprisoned in an instant, so that it could not move in the void.

Hiss!

Chains grew savagely from under the Youlan scale of the netherworld beast. One end of the golden chain linked to the sky, and the other end linked to its flesh and blood.

It seems to be born out of thin air and unbreakable.

"Is this reincarnation will?"

The ghost void beast was terrified, and it unexpectedly found that it could not break free from its shackles, nor could it dig into the void and escape!

The shackles are deeply embedded in flesh and blood, and moving will take away their supreme cultivation!

"When did he put an array on me..."

The ghost and the empty beast were stunned, thinking of all kinds of moments just now.

"It was at that time... What a wonderful layout!"

From the beginning, ye Chen was in charge of the game.

Although this ghost void beast has no peak combat power, with Ye Chen's cultivation, if it acts recklessly, it will inevitably fall into a miserable situation of serious injury.

After all, his realm is a weakness. Even if he is a demon, such a giant beast in ancient times, his cultivation time is longer than his breathing time.

Not to mention whether they can win or not, after all, there is no attainments of space-time monsters, so that even if they can't fight, they can escape thousands of miles.

Today, this guy must stay here for no other reason. Maybe he can use this force to find Zhu Yuan and Taishen.

It's too reluctantly to find the evil dragon soul killing sword alone.

Bang.

Ye Chen's body fell to the ground, which was the price of pulling out the emperor's holy knife. Xueji in the distance rushed to help him up and looked at the giant beast imprisoned by his reincarnation will and the shackles of the formation formula on the nine days.

"Damn human!"

The ghost void beast was captured, the roar lasted for thousands of miles, and the sharp fangs stirred, but no matter how to layer it out, it broke into bubbles at the moment of contacting the shackle.

"Damn reincarnation!"

Xueji looked at Ye Chen with a complicated expression and said:

"What are you going to do?"

He had no power to fight back in front of this big guy, but he was forced to be captured alive by Ye Chen's calculation step by step.

You know, this is a fierce beast without time and space!

Whichever is stronger or weaker, the higher the judge.

"I want to find my friend. As I said earlier, he stepped on a reverse transmission array. Maybe he can find some clues with the power of space of the ghost nether beast!"

Ye Chen said.

"Do you mean to borrow him to look for it?"

Xueji tentatively asked, can't this guy really have such a great magic power?

"Yes, I want to deprive it of the power of space and cover the earth. Since there is such a reverse array in the God killing hell, there is definitely more than one place."

Ye Chen finished the analysis, and before Xueji could speak, he offered a virtual monument.

The virtual tablet also has the power of space. Combined with this beast, the virtual tablet is bound to determine the whereabouts of Zhu Yuan and Taishen.

"The power of the virtual monument, melt it for me!"

Ye Chen threw the empty stele directly, and the dark, inky body of the stele swished through the void and inserted it into the huge mouth of the abyss of the netherworld beast.

"Ow!"

The nether ghost beast's mouth was speechless, and he made a loud cry of pain in the sky, and immediately felt the crazy passage of power in his body

"Will it die?"

Xueji asked.

Ye Chen shook his head gently and said, "this thing will absorb all the empty power of its body. After that, its cultivation level will fall, but it will not die

As soon as the words fell, the giant beast on the nine heavens seemed to be extremely resistant to this, but there was a stone tablet in its mouth that constantly plundered its own power like ink. At this moment, it made a choice!

Bang!

For a moment, the netherworld beast aroused the evil spirit in his Dantian, and scattered all his accomplishments, together with his flesh and blood, into the void. It would rather explode to death than be pulled away from its strength.

At the moment when the scales were jumping and falling off, the reincarnation shackles covered in the flesh and blood had quietly dissipated, and the impact overturned Ye Chen and others for dozens of feet, and the surging blood dance covered the sky.

"Damn!"

Ye Chen scolded secretly. Now it seems hard to find Zhu Yuan and Taishen.

When the sky and earth were clear again, six bottomless holes were opened in the void, and thunder surged in every hole, and the smell of killing was filled with.

"The sky, six black holes have been torn apart..."

Was Zhu Yuan previously attracted by such a black hole?

"No, the space thousands of miles around seems to have shifted. The self explosion of the netherworld beast is not only terrifying, but also makes the original spatial coordinates shift, and all the nodes have shifted sideways. It's more difficult for you to find your friends..."

Xueji explained that this is the most terrifying thing about the self explosion of Wu Wu. The ghost void beast heard that ye Chen was looking for someone before he died, so it was deliberately so.

"But..."

"At present, the space is chaotic, but it is also an opportunity to find people!"

Xueji opened her mouth and laughed.

Ye Chen heard the words, and his eyes lit up, "are you serious?"

"The secret method of tianlingzong may be feasible, which originally needed to be searched one by one, but the self explosion of this ghost void beast pushed all the nodes out of order, so you can directly explore it!"

"Do you have your friend's belongings!"

Xueji asked.

Ye Chen immediately nodded. Zhu Yuan's clothes were still in the reincarnation cemetery. He took out one and gave it to Xueji. He only heard that Xueji continued to say, "I will use the secret method to open the hazy eyes with the power of my ancestors. Then you will see some scenes, and then it depends on your intuition!"

I saw a faint lingering glow around Xueji, a few fingerprints fitting down, and another virtual shadow appeared behind her.

Different from the previous fight, the virtual shadow at this moment, Xiarui's light is even more serious. The shadow slowly stretched out his hand and pointed at Ye Chen's eyebrows.

Brush!

It was a misty forest, and countless tombstones looked particularly desolate and lifeless under the water mist

"No, change again!"

Ye Chen had a faint thought in his mind, and in front of him was a magnificent Buddhist palace, with chanting constantly.

"It's here..."

Ye Chen felt it carefully, but he still had an unspeakable feeling. Although the chanting sound was still the same, this place was extremely unknown.

After several scenes, I finally saw a touch of cyan in a dark world.

It was a divine sword diagonally inserted into the ground, with a faint cyan glow. There were several gaps in the blade edge. It was deliberately left.

"Zhu Yuan!"

Ye Chen shouted loudly, and soon woke up from the haze. Xueji wiped a trace of red on the corner of her mouth and smiled; "If you are later, I have to go with the beast..."

Chapter 8159

"Is it the location of the last sword?"

Xueji asked.

"Can you see it?" Ye Chen couldn't help but be a little surprised that Xueji had such a terrible ability because of her unusual origin.

Xueji shrugged her shoulders and said, "what do you think of the secret method I used?"

"It is deep in the black hole, which seems to be the center of the God killing hell. I'm afraid it will be dangerous."

.....

An hour later.

After ye Chen confirmed the spatial coordinates with the help of Xueji's sect secret method, ye Chen and other two people worked together to open a gap and smoothly stepped into this silent land.

"If it weren't for the space disorder caused by the self explosion of the netherworld beast, we really wouldn't be able to step here. The space of God killing hell is very solid!"

Ye Chen pulled out the green spirit sword that was diagonally inserted into the ground, and it was this faint green light that led them here. Different from the exterior scene, except for a dark moon hanging in the sky, it was dark, dark and very gloomy here.

"The so-called loess withered bones is just an illusion. It seems that this is the center of the God killing hell. I can feel it!"

Xueji also looked around for a long time and said leisurely.

Suddenly, ye Chen found something and went in one direction!

There is a hall!

"This is..."

Even she, who has seen countless treasures in tianlingzong, has a dazzling feeling, which is simply a miracle.

A palace based on countless stars.

It emits faint starlight at the end of the distance, and blends with the only dark moon light in this space. It is particularly cold, but it also gives people great pressure invisibly.

Yes, just staring at it, it's cold, and I'm uncomfortable all over.

"Don't look at it!"

Ye Chen gave a voice to remind him that he quickly displayed the Hongmeng starry sky and the reincarnation holy soul sky, and then eased a little.

"Are we going there?"

Xueji looked at Ye Chen's unstoppable footsteps, bit her thin lips and asked in a low voice.

Not far away, ye Chen stopped, turned his head and smiled apologetically, "sorry, I'm eager to find friends, and I forgot for a moment!"

"You came to find your master. Now that you have fulfilled your wish, you should turn back. There may be unknown danger in the depths of the hall. You shouldn't go further!"

Ye Chen spoke slowly.

"But..."

Before Xueji could speak, ye Chen smiled calmly, "tianlingzong, right? When I step into your area one day, I will definitely find you. Let's separate here!"

"You turn back along the space crack just now, and you can return to the original realm. The ghost void beast is dead, and there will be no danger!"

Ye Chen waved his hand at Xueji, and immediately plunged into the dark and endless broad road.

"You..."

Looking at Ye Chen's back, which had melted into the darkness and was no longer seen, Xue Ji turned around with a cold hum and was about to leave. As soon as she took three or five steps, she stamped her feet with great strength and muttered, "hum, I want you to take care of me!"

.....

At the same time, ye Chen's side.

"Eh? There is a space boundary here, but it is extremely weak!"

I don't know how long I walked. At the end of the passage, ye Chen, who was walking in the dark, hit a transparent film and was gently bounced back.

Looking up, the hall in front of me is more and more magnificent. It is only a cornerstone, which is a few heads higher than ye Chen. In front of the hall piled with countless stars, everything seems so small.

"Ye Chen!"

Just when ye Chen was about to tear up the boundary of the space, a charming voice came from behind.

"Why are you here?"

Ye Chen looked back, and the person who came was Xueji who had previously been persuaded by him to leave.

"Because... My master's relics feel here, I must rush!"

Xue Ji straightened out her chest, which was beginning to take shape, and said confidently.

"Seriously?"

"Seriously! You think Miss Ben is free to go to life and death with you!"

Xueji said, ye Chen couldn't say anything more.

"The existence of the barrier here is meaningless. You can tear it apart with one hand!"

Ye Chen forked the topic, looking at the weak border in front of him and said.

But anyway, he must rush.

The direction pointed by the green spirit sword is the clue that Zhu Yuan deliberately left for himself. He walked all the way without seeing his shadow. According to the guy's fearless character, he designated that he had broken into the hall.

"Maybe it's because no one has stepped here for years, and the power of enchantment laid by Da Neng has also been slowly swallowed up by the power of stars!"

Xueji analyzed.

"Go in and have a look. Be careful!"

With one palm, the two scattered the weak border and stepped into it. The stars changed in an instant, and the universe changed in front of them.

The real palace is even more strange than what I saw outside. Half of it is visible to the eye, and the other half is towering into the sky, which cannot be peeped.

At this time, the two people, on the central square in front of the deep hall, seemed to be a lot farther away from the ancient hall in the center.

"Do you feel strange here..."

Xue Ji murmured, although there was no murderous spirit, it gave people an elusive strange feeling.

"The square, the moonlight, and everything around..."

Ye Chen looked around. This scene gave him a very unreal feeling, except for the palace in the distance.

"It's like being in a painting. Yes, that's the feeling!"

Xueji exclaimed.

No wonder they have an unspeakable feeling that everything at the moment is like a picture, lacking a trace of realism.

Chapter 8160

"Go to the ancient temple!"

Ye Chen stopped looking at foreign objects and walked straight to the ancient hall in the center. He wanted to verify some conjectures in his heart.

For half a day, the scene under my feet was constantly changing, but the great palace was still out of reach and seemed to be farther away.

"The power of space?"

Ye Chen murmured, no matter how you go, the empty square in front of you is boundless, and you can't go to the end.

"No, this is the power of time and space!"

Xueji shook her head and whispered, "we have been standing still all the time. What we see is just what the scenery in the picture wants us to see!"

"In other words, we feel that we are moving forward because the time we see is retreating!"

"Trying to trap us here?"

According to Xueji's words, the two of them have been retreating?

"But why doesn't my empty monument feel?"

Ye Chen has a virtual tablet, which is also proficient in spatial will, but he didn't feel anything different with each step just now. The reason for his suspicion is just his subconscious reaction, which is groundless.

"The spatial will you are good at is deliberately covered up by some existence, because what flows back here is time!"

"In other words, the power of time and space is above space, so you can't perceive it!"

When looking for the trace of Zhu Yuan previously, I also saw Xueji perform a secret technique. Is that also a secret technique of time and space?

"Look carefully, what's the difference between now and before!"

Xue Ji stared.

Hearing this, ye Chen looked around for a while and said, "the moonlight is getting colder!"

"What else?"

"The vitality of everything here is getting stronger and stronger, and there are even traces of recovery!"

Ye Chen frowned. When he stepped on this square before, he was dead. You know, this is hell!

There shouldn't be any creatures.

Ye Chen suddenly thought of a possibility. They really went up against the river of time in the space in front of the hall.

Bang!

A punch bombarded the previous thin paper like space barrier, but there were bursts of buzzing sound, and the rules of the road were flashing strange and mysterious runes, motionless.

"Trapped here!"

Xueji looked up at the full moon and squinted to find some answers.

"I know what the problem is!"

Ye Chen said aloud, looking at Xue Ji, he pointed to the whole space where he was, and said, "the problem may be related to the moon, and the key of this array is outside!"

"Outside?"

Xueji was stunned. The full moon, which is currently hanging on the nine days, is the most suspicious. The two of them are in the Bureau, but they say that the way to break the bureau is outside the bureau?

"Yes, do you remember when you set foot here
