

## Physician 8221

### Chapter 8221

.....

"This direction..."

The Third Master of the emperor's family, Emperor Luo, and others continued to deepen, and their faces gradually became dignified. Just taking two steps in the direction of the Youming ravine, it was trembling.

A dozen people followed him, trembling and bristling.

Anyone here can fight Xianjun with his bare hands, but they are all extremely shocked at the moment.

"In those days, Emperor Hai fell into the Youming ravine. I was ordered to hunt him down. I once saw the nine heavenly spirit grass in his arms!"

"I'm the only one in the emperor's family who knows this secret. Despite emperor Xin's layout, I never thought I would be one step ahead of him!"

A trace of fear flashed across the bottom of emperor Luo's eyes. In the past, he was also the chaotic world he had just set foot in under the protection of the elders of his family. At that time, although the atmosphere of darkness and chaos was diffuse between heaven and earth, it was far less domineering than it is now.

I don't know why thousands of years ago, the dark matter energy mixed with chaos became rich, and even the strong in immeasurable territory were difficult to resist.

.....

"Cough!"

With another mouthful of black blood, Zhu Yuan looked pale and said feebly, "master, childe, this world is too evil..."

But Taishen knocked and said, "don't talk much, this is also your practice!"

Ye Chen looked at Zhu Yuan, who was in a bad state but followed by his will, and couldn't help feeling a burst of pity in his heart.

"This boy can have today's achievement, too God master's contribution, is really forced to walk on the tip of a dead end..."

Ye Chen, who was filled with emotion in his heart, had adjusted at the moment. He cut off the shackles of his heart, and the demon of his heart had already been broken. Although the chaotic dark matter here was eroded, it was no longer a big deal with the blessing of reincarnation blood and the fire of the Taoist spirit operating the whole body meridians.

Although Taishen rapped on his mouth, he was extremely satisfied with his disciple in his heart. Zhu Yuan, who was suppressed, had reached this level after only a few years of practice.

The terror of Tongming Wu soul lies in that the more the realm is understood to the depth, the faster the practice is!

"Elder, is this it?"

Ye Chen looked at the dilapidated ruins, and it was faintly visible that half of the cracked black gravel was engraved with the word "emperor".

Among the dilapidated monuments, half of the blood has long disappeared, and in the dark deep forest, inexplicable breath is surging.

Boom!

With a loud noise, the dust stirred up and set off a hundred feet of spray, there are countless strong players fighting!

"Di Xin has arrived in advance!"

Looking at the passing Taishen, Zhu Yuan just wanted to raise his feet, and his trembling legs staggered to the ground.

Ye Chen smiled and joked, "I have a suggestion that you may be able to kill the strong in immeasurable territory here. Are you interested?"

Hearing this, Zhu Yuan immediately looked stunned and said excitedly:

"Young master, are you serious?"

"That's natural."

Along the way, as far as Taishen's eyes are concerned, there are many unrecognized black figures fallen in the ruins, all of whom are warriors who were invaded in this area in the past and left here with insufficient strength to escape.

After the erosion of chaotic dark matter, it has completely become a puppet.

"Strange, how can there be so many corpse slaves and puppets at the former site of the emperor's house?"

With the deepening, in the dark forest, even the chaotic substances in the air are solidified for a little, and even the Taishen himself and his blood vessels have faint signs of agitation.

"Bang!"

In an instant, a cry of surprise came out not far away:

"Fourth!"

Too God step a meal, there are countless strong body explosion and death!

In this world filled with chaotic materials, the majestic spiritual power will be instantly transformed and absorbed by the will of heaven and earth, but turned into a mass of blood mud, gradually dissolved in the black earth, and became dust under the ruins.

"Damn!"

Emperor Xin screamed loudly. These people were their long hidden cards, which had just damaged one person at the beginning.

"The root of chaos without time and space!"

Taishen hid in the dark and followed the reputation. On the dark branches, strange black flowers and branches were everywhere, turning into tentacles, absorbing the blood mud broken by a dead Shura Wei, and then spreading a new strand of branches.

Although it is called root, it is actually towering into a tree!

This strange root of chaos is blocked in front of the forbidden area of the former site of the emperor's house. Behind it, a towering giant palace can be seen standing for ten thousand years.

With an angry palm, Emperor Xin nearly snapped the swaying branches, and the swirling black leaves fell, turning into wisps of killing!

Whoosh!

Countless black mans were almost to the extreme, and instantly disappeared into the chest of several people behind them, and then dissipated.

"Home owner..."

Immediately, the three people flashed a faint light in their eyes, and their faces gradually became ferocious.

The invasion of dark matter between heaven and earth became more and more terrible. Even today's emperor Xin's palm almost hurt his own foundation.

"Danxin Diyi!"

Boom!

In an instant, the will of heaven and earth of Dan Yu came, breaking through the dark chaos, a line of clear and bright, and the shrouded three people gradually restored calm.

"Quickly, refine the dark matter. When I return to the Dan realm, I will naturally have a way to solve this poison!"

Emperor Xin wiped away a wisp of bright red hair and black blood from the corner of his mouth. With the blessing of a wisp of emperor's will, although he could not intimidate the road here, he also achieved a glimmer of vitality.

"Something's wrong!"

The secret Taishen always feels something strange. The root of chaos is extremely weird, but its own defense is not strong, so... Someone must guard here!

Just thinking of this, the war situation below is full of changes.

Hiss!

A dark sword penetrated Di Xin's chest without his noticing.

.....

"I'm just speculating. Once I fail, the risk is great!"

Ye Chen said in the dark forest outside the former site of the emperor's house.

"Hey hey, young master, you cut off hundreds of shackles at the beginning, didn't you also narrowly escape..."

Zhu Yuan showed a smile on his pale face and nodded slowly to Ye Chen.

Zhu Yuan always wanted to catch up with Ye Chen, just to stay by his side and help him.

He knew that he would never be wrong in choosing the reincarnation camp.

"According to my understanding of Tongming Wu soul, there is no bottleneck in your practice, which means that your Taoist heart is pure enough!"

Ye Chen's eyes coagulated, and suddenly a strong breath burst out!

In this chaotic world, the erosion of dark matter to spiritual power is extremely rapid, and it is eliminated in an instant.

"Childe, how can your breath change so much?"

Zhu Yuan widened his eyes and looked at Ye Chen in front of him. Although it didn't seem to last long, his breath was too strong!

When others are distracted and need to suppress the restlessness of the demon, he can go all out to fight!

"I have the heart of Wu Zu Dao, so I'm not afraid of the heart demon to ignite the dark matter in my body. I just need to pay a little attention."

Ye Chen opened his mouth and explained.

"If my expectation is not bad, you can do the same!"

Chapter 8222

"This rich breath, even those who are strong in the limitless realm are busy with themselves. Your realm is not as good as limitless, but it's just as simple as spitting a few mouthfuls of blood. Half of it benefits from your martial spirit!"

Recalling that Zhu Yuan was in the inferno of killing gods, even he and Xue Ji were led by the magic array. If they had not defeated Jiuyou desperately, they might have died on the spot.

Zhu Yuan, however, could not enter the illusion at all!

"In other words, your real strength here is even stronger than me!"

"But the only risk is to extradite the dark matter from no time and space into the body, which requires your physical body to bear great pain, and you should always be rational!"

"If you refine this power..."

Zhu Yuan's eyes lit up when he heard the speech. He even gritted his teeth and said, "I'm willing to try!"

Ye Chen's eyes coagulated and said, "try your best to operate the spiritual power in Dantian!"

Boom!

Between the whole heaven and earth, a moment of black fog swirled, and the smell of chaos continued to flow into Zhu Yuan's body. That trace of dark matter was actually excluded!

"Ah!"

Although there was only a hint of darkness surging, the penetrating pain still made Zhu Yuan fall on the spot, rolling in place, and his body was like a swollen ball, swelling and shrinking

"I Zhu Yuan is not afraid of everything!"

Zhu Yuan's heart rending cry echoed in the forest, but it was swallowed up by the dark substances between heaven and earth

"Hoo..."

Ye Chen breathed a sigh. As expected, the taboo of martial artists such as heart demon did not exist in this guy at all.

If emperor Shi Tian didn't fall, the nine layer sky of the heart demon would be difficult to affect Zhu Yuan.

After a while, black smoke came out of Zhu Yuan's throat. He collapsed on the ground and gasped heavily.

"Childe, it's really going to kill me..."

Even now, the heart piercing pain has not completely dissipated. Under the skin, it is like the transit of thousands of ants, itching and biting!

"Let's go..."

Ye Chen looked at Zhu Yuan's back. The boy's whole body was trembling. Between the broken body, a faint breath of chaos broke out, and the dark substances around him retreated faintly.

"Interesting boy!"

"I didn't expect it to be chaos..."

The voice of the female emperor of the blood Phoenix clan came from the depths of Ye Chen's sea of knowledge. Since she refined a wisp of fire from the nine heavenly gods, she has been active in Ye Chen's sea of knowledge from time to time.

The female emperor is obviously familiar with this chaotic dark world.

All this was carried out under her guidance. If not for this, ye Chen would never dare to gamble with his friend's life.

"What's the problem?" Ye Chen is rumored to ask.

After waiting for a long time, the female emperor came back quietly and said, "little Kirin has two days left at most..."

"I see." Ye Chen's eyes are full of determination!

"Master, I'm coming!" Zhu Yuan stepped firmly into the depths of the former site of the emperor's house, "this time, I will guard!"

.....

At the same time, the former site of the emperor's house is deep in the forbidden area.

"Go to hell!"

Emperor Cynthia's cries rang through the darkness, opening and closing between his palms, and a strong wind swept through, even breaking the black figure holding the sword!

At his chest, there was a faint trace of dark matter that was still nibbling away. Emperor Xin's fingertips condensed a little light, and he refined it when he swam away. The owner of the emperor's family was not in vain.

Ka!

Ka!

In the dark, the corpse slave holding the sword condensed into an invisible shadow again. Every time it was broken, its breath would be more strange.

"Home owner..."

The three people behind Shura Wei are at the end of their power. After all, Emperor Xin is not a real Immortal Emperor. That wisp of will can't resist the dark erosion that has entered the body!

The eyes of the three Wuliang strongmen gradually lost their luster. At that last moment, one of them shouted angrily:

"Root of chaos, cut it!"

The three men of Shura Wei suddenly rushed out of the protection of emperor Xin, frantically rushed to the corpse slave holding the sword, and surrounded it with a triangular attack.

"Master, hurry!"

The ferocious look gradually became numb, and wisps of dark lines began to spread all over the body. The warrior spat a mouthful of dark blood and angrily scolded:

"I'll fight with you for something that's neither human nor ghost!"

Bang!

A dull sound, in most parts of the world can be regarded as a powerful generation, chose to explode to maintain the final dignity, but also won a frontline opportunity for emperor Xin.

Bang!

Bang!

The remaining two people also made the same choice. Before dying, they mobilized all the spiritual power around them. Before being swallowed by the dark matter, the light burst in an instant, forcing the sword holding corpse slave to retreat repeatedly.

"Root of chaos!"

The furious emperor Xin didn't lose his mind. Three boundless three-tier strong men sacrificed their lives to create opportunities for him. In an instant, his body floated in front of the towering tree, and the cold color in his eyes showed up.

"Yellow spring silence palm!"

The tyrannical breath spewed out instantly, and the blow that was enough to tear the space was swallowed up by the dark matter in the void in the next second, but even the residual power was still the power to destroy the sky and the earth.

At this moment, di Xin didn't leave his hand at all.

He knew in his heart that he must solve the root of chaos!

The bright light mixed with the will of infinite destruction instantly exploded, and the towering \* \* flew like dust in it, and sprinkled it one after another into powder.

The secret too God can't help but be shocked, this emperor Xin, hide so deep!

Chapter 8223

"Cough!"

Forced to urge the spiritual force, even he was affected by the force of counterattack, and a dark line flashed across his forehead, which was a sign before he became possessed.

"Home owner!"

"Home owner!"

"Home owner!"

The six Shura guards behind hurried forward. They fought hard in such a desperate situation, and there was always a danger of falling, and the strong in immeasurable territory was no exception.

"No harm..."

Di Xin took a deep breath, gently waved his hand, and sighed, "go to find the emperor's seal, get it and go. You can't let your brothers lose any more."

Not far in front of everyone is the magnificent black hall.

"Sure enough..."

The two closed Black God doors, after countless years of wasted time, the pressure remained unabated, and even emperor Xin felt a trace of oppression.

"Dihaishan, it's your turn!"

Di Xin raised his head and looked deep into the dark forest. The six people behind him were suddenly surprised. Is there anyone else?

There is no doubt that the forbidden area of the former site of the emperor's family is the same as the broken God gate. Only the pure blood people of the emperor can open it.

The purple shirt's too God came slowly, and several people behind Di Xin saw that the visitor was only alone, and their dignified expression also gradually slowed down.

Although the former is strong, one person can't turn the sky.

Di Xin was not too surprised to see Taishen coming alone. After all, even immeasurable three Jedi fell. It was reasonable for the two hairy boys around him to die.

However, the Lord of reincarnation is great luck, and should not fall here.

"Kylin domain coordinates!"

Too God indifferent way.

"You help me open the forbidden area. After I get the emperor's seal, I will give it to you with both hands. Don't worry, it's in the depths of the world, and the Terrans won't be interested!"

Emperor Xin smiled, a coordinate of useless food and pity abandonment, but before that, he must find emperor's seal!

"When I find the emperor's seal, you will be a hero of the family. It's OK for the emperor's family to accompany you to the Kirin domain!"

Taishen obviously didn't have any interest in emperor Xin's words. This old thing is also the Lord who doesn't see rabbits and don't scatter eagles, not to mention that emperor seal is about too many things.

Tai Shen waved his hand and motioned for Di Xin and others to step back, while he stepped forward and clasped his palms on the ancient gate.

After a few breaths, Taishen gently shook his head: "the forbidden area of the ancestral hall has been eroded by this heaven and earth for thousands of years. The dark breath clings to the God gate. With my strength, I can't resist the dark erosion and turn the Tao into blood at the same time."

Emperor Xin's eyes twinkled. He knew that what Taishen said was true, but now that he had experienced the previous battle of the root of chaos, he had been hurt. If someone took advantage of it, there would be endless trouble.

"I'll help you!"

Measuring how much, di Xin still gritted his teeth.

Emperor seal is close at hand. It's impossible for him to give up!

Boom!

Suddenly, the general trend of heaven and earth condensed at its feet, and the immeasurable emperor Xin revealed a trace of loyalty to the emperor, and the smell of being rejected by the chaotic world instantly attracted countless dark substances.

"Bang!"

Emperor Xin pressed his palm on the ancient palace gate and made a loud noise.

Boom!

A trace of dust laden old soil fell. In the palm of his hand, Emperor Xin swallowed and wrapped up wisps of dark matter without time and space, refining it with his own imperial intention. However, it is difficult to hide a drop in the bucket.

"Come on!"

The black veins on his forehead burst, and a dark black strange light flashed in his eyes. Emperor Xin pressed hard and shouted in a low voice.

The palm of the great God immediately covered the God door. With the spirit of the God poking out, the originally dark god door turned out to be lit with a trace of purple lines, which spread in front of him, like a divine pen outlining a 'Emperor' mark.

Click!

The four corners of the 'Emperor' seal jumped to pieces and turned into a wisp of Dan fire. After a while, it condensed into a pair of purple hands and slowly pushed the dusty door.

"Imperial seal!"

Emperor Xin withdrew his spiritual power, and a trace of ecstasy flashed in his slightly ferocious expression. Regardless of the dissuasion of the people behind him, he turned into a flash of streamer and swept into the forbidden area palace.

The huge hall is extremely transparent and bright. Shura Wei and others, the Supreme God, have stepped into it one after another, and they are all shocked by the scene in front of them.

"That is, Emperor's ancient jade?"

A simple Runyu sparkles with the glow of fireflies, but it reflects and illuminates every corner of the entire infinite palace.

There is nothing else!

Di Xin's expression was uncertain, "Damn, di Yin, it's not here..."

The power of emperor Xin's blood turned into a fine awn, wrapped a Runyu in the void, and held it tightly in his hand. In an instant, the world lost color, as if darkness enveloped the world.

"I see..."

Wisps of soft luster shone on emperor Xin's body, and a faint lingering light appeared, as if it had condensed into an indestructible armor.

Bursts of comfortable feelings poured into my heart, and the dark matter without time and space that had been rampant in my body gradually slowed down at this moment. Emperor Xin's eyebrows restored a bit of clarity.

"Dihai, Dihai, you cheated me after all!"

"The emperor's seal is in the Youming ravine, and only our ancient jade can wake up."

Di Xin, who held the emperor's ancient jade in his hand, looked back at Taishen: "I said I would give you the coordinates when I found the emperor's seal, but I'm sorry..."

"There is no imperial seal here!"

A harsh look flashed in di Xin's eyes: "the father owes the son, and you die!"

With an order, six immeasurable strong men surrounded Taishen firmly.

"If you hadn't woken up to the remnants of the ancient jade, you would have been cheated by the old fox Dihai!"

Emperor Xin's eyes flashed: "after you solve him, set off to the Youming ravine to find emperor seal!"

A flash of urgency flashed between his eyebrows. Even after telling the six Shura guards, his body flashed and tore through the void.

Emperor Yin, he doesn't want to delay for a moment!

As for Taishen, six to one, don't say that it's difficult to find an opponent in Shura Wei in the Dan region. Looking at the whole Taishang world, it's a terrible force.

Different from the nine fire temple, these six people are not good stubble. They are all the strong people in wuliangjing junior high school!

"Hum!"

Tai Shen snorted coldly, as if he had expected this situation for a long time. The spiritual power in Dantian worked, but behind him came a sudden cry:

"Tiandi fist!"

Zhu Yuan's fist was as bright as a column, and a faint smell of chaos swirled around it. Unexpectedly, it directly tore the void filled with dark matter, coming from outside!

Boom!

One of the leaders of the weakest Shura guard was solidly punched by Zhu Yuan, and his body flew straight out.

Bang!

"Damn it!"

Several people exclaimed and hurriedly looked back. Zhu Yuan grinned and shouted, "master, am I powerful!"

Taishen was slightly stunned and found that there was something wrong with Zhu Yuan at the moment.

As if he had the power of timeless space in his hand!

Zhu Yuan can never do it!

What happened to him and the Lord of reincarnation just now?

Chapter 8224

With such means, even he dared not take a fight in the chaotic world. How could Zhu Yuan?

It's like everyone present is weakened by the dark matter without time and space, but Zhu Yuan strangely borrows the potential of heaven and earth here!

"Smelly boy!"

The strong man of Shura Wei who flew upside down stood up again. He spat with dark blood, but did not hurt the root.

"This boy is a little weird!"

On the other side, the boss of Shura Wei gave a voice to remind him.

How dare you fight in this world without fear of the encroachment of dark matter without time and space?

"Chaotic breath was purified..."

With Zhu Yuan's approach, the dark energy around him even faintly collapsed, which was seen by the immeasurable strong present.

Taishen is even more shocked. Such means can be called a stroke of genius. How does he control it?

By the way, where is Ye Chen?

"Tiandi fist!"

Zhu Yuan has always kept a distance from these old guys. He can maintain his peak combat power by dispersing the dark energy with the assimilative chaotic atmosphere. After all, his cultivation is thousands of miles away. If he is close, he will be instantly killed!

Bang!

Another punch came through the air and was printed on the chest of Shura Wei.

"Boy, so many ants also want to break my defense?"

The immeasurable body, even if Zhu Yuan was against the sky again, could not cross this gap.

At this moment, he pulled a meaningful smile from the corner of his mouth, and at the end of the flash of his fist, another person appeared!

That's Ye Chen!

"Wind sword, thousand birds thunder way!"

The morning breeze in Ye Chen's hand instantly condensed and converged, turning into a green wind sword.

Then, ye Chen cut out with a sword and used the thousand birds method in the thirty-six ways of Taishang. Immediately, he saw the power of the raging thunder, turned into a thousand birds running, mixed with the fierce sword storm, rolling towards the man.

With the blessing of the wind of dawn, the lethality of the thousand birds Taoist method broke out to an unprecedented level of ferocity. Coupled with the power of Lei Bei in Ye Chen's body, it was simply thunderous, and the storm roared, trying to destroy everything.

"I..."

The strong man of Shura Wei had no time to speak, and his eyebrow was pierced by a sword, and his spirit was refined in an instant.

Bang!

The tall body fell straightly, and the dust was scattered everywhere, but the strange figure that shot was startled and disappeared in the sight of everyone again.

"Ye Chen!"

There is no doubt that it is Ye Chen.

"My breath can purify the dark energy that pervades here. You can kill them by hiding in it!"

Zhu Yuan patted his chest and preached to Taishen.

Seeing this, the leader of Shura Wei was furious. Their line of ten people has now lost more than half.

"Brother, you..."

Several others saw the flickering passage of a dark breath between their eldest brother's eyebrows and eyes, which was a precursor of the unknown cause of demons here.

"Back!"

"These two boys are so evil that they can show their spatial will in the chaotic world..."

The commander of Shura Wei pressed his anger and slowly opened his mouth and ordered to retreat.

"Help the owner find the emperor's seal. These people are left outside to kill!"

Before Zhu Yuan pursued, the remaining five Wuliang of Shura Wei flashed and took the road

"Stop chasing!"

Ye Chen hurriedly called Zhu Yuan, who was struggling to catch up, and his face was slightly pale:  
"although fearless demons are rampant, this dark energy from boundless space and time is too overbearing, and this is the result of your role..."

Forced to use the will of space, even ye Chen felt great pressure in this world, and cold sweat penetrated the skirt.

"Nonsense!"

After Taishen asked about the means of the two people, his face sank immediately. Zhu Yuan's physical condition was extremely bad. The dark energy in Tongming's soul was constantly eating his meridians. If it was not handled in time, it would be in danger of exploding.

As for ye Chen, the same is true. Even the immeasurable strong dare not trust the big chaotic world. His chaos also breeds a little dark energy in his body.

"It seems that this trip, the nine heavenly spirits have to be taken!"

Taishen murmured.

"Let's go to the Youming ravine!"

.....

At the same time, the bottom of Youming ravine.

The faces of emperor Luo and others were also not good-looking. Only a few of the strong people brought by him and Emperor Chen were left.

"The root of chaos without time and space has spread so fast!"

From the last time he set foot on the periphery, the so-called root of chaos was only about half a finger wide sprouting grass root. I didn't expect that it was now in the sky.

"What about the beast?"

Emperor Luo asked with his eyes darkened.

"Seriously injured and ran away, I didn't expect that there were still living nether people here..." emperor Chen was also livid, looking around, all his people fell down.

After countless falls, the blood gas was swallowed up by the dark energy of the chaotic world, and the erosion smell at the bottom of the Youming ravine became more intense.

"Now that we have come, there is no retreat!"

Emperor Luo lowered his voice and roared. He thought it was safe, but who ever thought that the dark energy of this world had become so rich.

"Third brother, jiutianlingcao..."

Emperor Chen regretted that a spirit grass was worth so many countless lives?

"It's still unknown whether Jiucui Zhuan elixir has miraculous effect and can make the ancestor step into that realm. We have lost ten immeasurable..."

These are all the details of the emperor's family for thousands of years, and the foundation of dominating the Dan domain. If there is another mistake, I'm afraid it will not be able to hold out until the Jiucui Zhuan Lingdan comes out, and it will be attacked by the crowd.

Chapter 8225

Emperor Luo's eyes flickered, and he whispered to Emperor Chen:

"The place where emperor Hai buried his bones, except for Jiutianlingcao, he once entered the forbidden area of the emperor's family before the incident..."

"The reason why the family is angry with him is not apparent, but... He is likely to take the imperial seal from the ancestral hall!"

Emperor Chen was stunned at the words.

"Master the imperial seal of the lifeblood of the whole family?"

"But the family mark did not appear. If it was true, he would have been able to remove all people with two hearts at one thought!"

Emperor Chen was a little unbelievable. Once the person who really refined and controlled the emperor seal appeared, all the emperor's clans would show their family marks, and if they were put on eternal chains.

If there is any disobedience, no matter how powerful the cultivation is, the spirit will be shattered and die on the spot. Emperor seal is both power and nightmare!

"Gulu!"

Emperor Chen swallowed a mouthful of saliva. He looked at the man in front of him. How can such an important thing be said now?

"It's only possible. Anyway, if the emperor seal is not born, it's OK. Once it is born, it can only be in our hands!"

Emperor Luo's expression was dignified. He didn't want to be trapped by that shackle. He practiced as an apprentice and made others' wedding clothes all his life.

"There's a light source there!"

When Emperor Luo talked with emperor Chen about rumors, an immeasurable strong man behind him exclaimed, which also attracted everyone's sideways eyes. In this ruined world that had already been swallowed up by darkness, there was light?

Several people walking through the ruins should even rise up and advance towards the depths of the Youming ravine.

"Is this... A village?"

At the unknown end, there was still a dark forest of huts, or collapsed and decayed. Occasionally, a few dilapidated huts stood still, and the dead grass on the top had long been covered with boundless black marks.

At a glance, in the center of the light source, in front of the door of a small temple that is compatible with the thatched house and has no sense of conflict, there is an ancient green lamp flickering. What is more strange is that the faint light is reflected in the sky.

A towering huge tree in front of the door had already been devoured by the darkness mercilessly. After the emperor fell, there was a cry of surprise from everyone:

"Another root of chaos!"

Emperor Chen shook his head and sighed, "it's not the dark root, it's a dead bodhi tree."

"Look, there is a figure sitting under the tree!"

The emperor's pupils froze instantly, and the emperor's dust on his side followed his reputation. He was also stunned immediately and said in a deep voice, "emperor sea?"

As soon as the word was spoken, countless people behind him whispered that this name was taboo in the whole emperor's family. Even except for the dead elders, only a few people knew the inside story of that year.

"Stay away!"

Even if emperor Luodang ordered, in such strange darkness, even the ancient bodhi tree was hollow and died. How could that green lamp reflect the sky with a weak glow?

"If something goes wrong, there must be demons. I'll go and have a look!"

Emperor Chen frowned and took a step forward to face the people.

"Be careful!" Emperor Luo took a deep breath and told him.

As emperor Chen's footsteps gradually slowed down, he also felt an inexplicable breath, not like killing intention, but disturbing.

Click!

With one step, he clearly felt that the time around him was flying again!

Countless pictures flitted by, but when he wanted to see them clearly, he suddenly found that he had fallen with a mottled strand of silver.

"Hiss!"

Step back, the distant green light emitted a clear copper sound, step by step, he looked at the temple dozens of steps away and stopped.

"Don't come here, there's a hole!"

Once again, he stabilized his mind. Emperor Chen closed his eyes, walked gracefully under his feet, and the breath of immeasurable territory was exposed. On this dozens of steps of the path, he merged with the heavenly way of the chaotic world, and in a moment, he stood under the dark ancient bodhi tree.

There was a trace of ecstasy in emperor Luo's eyes. He saw with his own eyes that emperor Chen found the rootless and invisible spirit grass scattered in the skirt of the corpse.

"It's jiutianlingcao!"

Emperor Luo was overjoyed, led the crowd to imitate emperor Chen's footsteps, and several people came one after another.

"You... What about you?"

Emperor Chen was shocked when he saw that emperor Luo came in disregard of his advice. Emperor Luo behind him smiled and his face was instantly cold:

"No! We've been tricked!"

Take a closer look again. Under the ancient bodhi tree, where is the remains of the emperor sea?

Only a few Bodhi fruits have also dried up and been swallowed up by dark matter.

"It's the lantern that made the ghost!"

Emperor Luo looked back and looked at the temple not far away. Half the wooden door had already fallen with the erosion of years and turned into dust. The thick floating soil witnessed the loneliness for thousands of years, and only a faint green lamp was shining.

Boom!

Emperor Luo waved with a palm, and the only green in the world suddenly went out. Besides, it was no different from the previous one.

"Ancient bodhi tree!"

An immeasurable man behind emperor Chen exclaimed, I don't know when, the bodhi tree, which had already withered and perished, turned out to be alive and slowly twisted.

Almost human like strange branches twisted, countless branches condensed and fell to the ground, turned into a four clawed monster, and came towards them.

Whoosh!

The claws in the dark came straight through the void and directly attacked an immeasurable strong man behind emperor Chen.

"Hum!"

The immeasurable strong man in black who had been on guard for a long time surged and wrapped his body. He raised his hand as a knife and slashed the invisible monster around his waist.

"Be careful!"

At this moment, the sudden change rises.

The monster killed by the immeasurable strong in black was split in place and turned into two monsters of the same size to attack again.

"The root of chaos without time and space!"

When Emperor Luo saw such immortality and immortality, even if he reacted, it would be difficult to erase its form without uprooting it.

Boom!

The terrifying pressure reappeared: "Qingling zhenhun!"

The blue flame is as vast as the sea, and the burning force of the origin drives towards the root of chaos through the dark matter, and the fire curtain is pulled up.

Hiss!

Qingling Shenhua is one of the powerful flames in the world. It has a natural suppressive force on plants. It comes all the way, and Emperor Luoping takes this to remove many roots of chaos.

Click!

There was a loud noise in the center, and the invincible blue flame was devoured by countless moths and monsters, tearing along with the void.

"Go back!"

Emperor Luo suddenly felt bad and asked everyone to retreat towards the broken temple. Countless monsters smelled the breath, but surprisingly, they lingered around and dared not enter

Wheezing!

With a light sound, the green lamp that was originally extinguished by Emperor Luo was strangely lit again. In an instant, a wisp of green light shone again, and countless monsters turned into a wisp of green smoke and dispersed

"Ancient bodhi tree!"

Emperor Chen exclaimed, and everyone followed the reputation. Where was the previous horror scene?

Like a bright green light, the whole world returns to the original.

All the immeasurable strong people present were palpitating. Such strange scenes were by no means a fantasy!

If we continue to fight, there will be casualties as before.

Chapter 8226

"Is the ancient bodhi tree the root of chaos..."

Emperor Chen murmured to himself, but emperor Luo on the side peeped out the clue and smiled:

"I see!"

He flashed and floated away in front of the temple door, standing in front of the green lamp.

Click!

The terrifying pressure poked out, and with a crisp sound, the whole shell of the green lamp exploded, and a wisp of cyan lamp flickered.

"Hahaha, it's really it!"

"Nine days spirit grass!"

As soon as he said it, everyone present was stunned. How could this strange lamp become nine heaven spirit grass?

"Isn't it a colorless, invisible, rootless spirit grass? This..."

Emperor Chen has only heard a little about the nine heaven spirit grass that has long been rumored in the world. If this lamp is really true, it will be terrible.

Hiss!

"You can't be wrong. The nine heaven spirit grass is colorless, invisible and rootless!"

Emperor Luo opened his mouth and explained, "that is to say, it can be any color, rootless growth, look at this lamp!"

"There is no light oil, why does it last forever?"

"It was born invisibly, and it can isolate all the Qi mechanisms. That's why this broken temple can continue to this day..."

He looked back at the hall, in the dark Buddhist hall, there was faint fragrance and anger.

"But once we take away the nine heaven spirit grass, the root of chaos at the door..."

Emperor Chen's words also made emperor Luo feel headache. Once he forcibly picked the nine heaven spirit grass, everything outside would manifest again. This chaotic root attached to the ancient bodhi tree, and even he was cutting the foundation!

"I'll think of a way. The air machine here is isolated by the nine heaven spirit grass. It's safe for the time being. You act separately to see if you can find the trace of the emperor's seal!"

Since jiutianlingcao is here, it proves that they have not found the wrong direction. Emperor Hai has been here in the past years, and it is likely that emperor Yin will also be here!

A smile appeared on emperor Luo's face, and the nine heaven spirit grass was close at hand, and his goal had been achieved.

.....

"Damn it, I was beaten by others. Is the emperor also here?"

Emperor Xin came all the way. Thanks to the protection of emperor's ancient jade, the dark energy at the bottom of the Youming ravine was isolated by him.

Looking at many familiar faces dying miserably at the bottom of the abyss, Emperor Xin's face was also gradually dignified: "indeed, it was Emperor Luo!"

Walking all the way, I didn't encounter obstacles. A few chopped roots of chaos still left a trace of blue fireworks burning. The Lord of Qingling Shenhua is emperor Luo!

"In that deep place?"

"That light source is emperor seal!"

Di Xin suddenly felt the change from Di's ancient jade, and the ancient jade he carried was constantly flickering. With the acceleration of his steps, the only trace of guidance led him through the endless ruins.

"Home owner!"

At this time, there was a cry behind emperor Xin. It was the five Shura guards who were killed by Ye Chen with the wind of dawn and ran away in confusion.

"The task is finished..." Di Xin just wanted to ask, but he found that Shura Wei was missing one person. From the look of several people, he had expected something.

Ding!

Suddenly, the emperor's ancient jade in his arms sounded low, and Emperor xindang's face sank: "no, stop the emperor!"

At this time, he mastered the indispensable key to the integration of the imperial seal, and must not let the duck fly away.

"Master, the legendary bodhi tree!"

From a distance, Shura Wei and others saw an ancient tree in front of the dilapidated temple. The green light in front of the door flickered and faintly reflected a lavender seal. The word "emperor" was in the air, absorbing the nutrients of the ancient tree that had long disappeared.

"It's the imperial seal!"

A touch of ecstasy also appeared in emperor Xin's eyes. It seemed that emperor Luo had not found this place.

Whoosh!

A line of six people led by Di Xin instantly glanced at the seal under the bodhi tree. In an instant, the youth was gone. Countless space-time fragments seemed to feel a threat. The martial artists in the past paintings actually came across the years!

"Roar!"

At this moment, there were countless strong virtual shadows, and the surging crowd instantly submerged emperor Xin.

"Death!"

"Death!"

"Death!"

It was only in a flash that emperor Xin seemed to be torn apart by the power of countless virtual shadows, and the spirit was shattered by the roar.

Click!

"Home owner!"

"Home owner!"

Fifty steps away from the broken temple, Emperor Xin, who stood in place with his hands on his hands, suddenly sprayed his blood essence. An ancient jade in his arms fell to the dust and was stained with a trace of blood, which seemed to have a sense of Pat and tear, pushing him out of the fantasy!

"Cough!"

Emperor Xin gasped, "is this the battlefield that makes the quasi Immortal Emperor afraid in the legend? It's terrible!"

"I just dreamed back to eternity and saw the scene of the fall of our ancestors..." just thinking back, it made the owner of this emperor's family uneasy.

The Shura guards looked at each other. "Master, we just sensed that it seemed to be a boundary within it. The power of space was disordered, and we were afraid of some mistakes, so we forcibly dragged you back."

Emperor Xin waved his hand: "I know that it is the old memory remaining in the ancient jade that echoes with the emperor seal, bringing my spirit to that life..."

"The imperial seal is in it!"

He clenched his fists and, despite the pain of the spirit, got up again and rushed to the dilapidated temple. The five people behind him saw this and chased away one after another.

To the surprise of several people, the ancient jade did not shine again this time. It was originally moist, but now it is also slightly dim.

"Where is the imperial seal?"

Emperor Xin came smoothly through the space array, and when he looked at the ancient bodhi tree again, his face was cold, and even the fallen leaves did not exist under the ancient tree that had already been destroyed!

Chapter 8228

"But it doesn't matter. The efficacy of jiutianlingcao combined with the burning of chaos is also a good choice to break through the realm."

"The only uncertainty... Is whether this boy's life is hard or not, and he can survive until you leave this abandoned world!"

Ye Chen looked a little dignified when he heard the words. Just when he wanted to say something, he saw that the pupils had already faded, and Zhu Yuan, who was convulsed and trembling all over his body, whispered:

"This... Is this the battle between the strong in the Dan domain?"

"It's really terrible..."

"Zhu Yuan, you..."

Ye Chen held the shaky Zhu Yuan, but the latter had tied his tongue and forced out an ugly smile:  
"childe, my energy channels have been numb, and I can't feel pain..."

"I want to... Sleep, but such a wonderful duel can't be missed!"

Zhu Yuan couldn't speak, but he still stubbornly said, "I'll be... Eyes... The way ahead depends on the childe... You

The boy who was gradually eroded by the dark energy wanted to provide even a little information at the last moment of death.

Taishen tightly held Zhu Yuan's already blackened palm and red eyes.

When ye Chen heard Zhu Yuan's words, he was immediately enlightened. He shook Zhu Yuan's shoulder and shouted:

"Zhu Yuan, hold on for a while. I promise you that you will break into the big picture tomorrow. Then I will compete with you again!"

When Zhu Yuan, who is worthy of being a martial fool, heard this sentence, he smiled knowingly at the corners of his mouth and nodded gently. The slight muscle tugging was the extreme expression of his inner joy.

Once upon a time, he challenged the child countless times. From the initial equal share to the final abuse, he worshipped his child, but he wanted to surpass!

Fighting again is Zhu Yuan's obsession!

"Master, Zhu Yuan still has salvation!"

"Nine days spirit grass!"

Ye Chen looked at Taishen and said, but the former frowned: "we came to search for emperor Xin, originally to find emperor seal, this nine heaven spirit grass..."

There is no trace at all. This thread of vitality is comparable to heaven.

"No!"

"Although I only glanced and saw the confrontation between the two groups, Zhu Yuanfang said... The confrontation between the two strong men!"

"The emperor fell inside!"

"Jiutianlingcao must also be there!"

When Taishen heard the words, his eyes lit up, but Ye Chen answered, "in fact, what have I been ignoring..."

"In the space of its own world, even the ancient bodhi trees withered and died, but the dilapidated temple still stands!"

"It's the invisible characteristic of nine heaven spirit grass, which hides that space and isolates the breath!"

Ye Chen said firmly, "the green light at the door is probably the nine heaven spirit grass! It must not be wrong, otherwise those people will not form an array to protect a broken green light!"

Tai Shendang even got up and said in a deep voice, "in that case, I'll go in and try to get it out!"

Ye Chen's speculation is not unreasonable. Even if it is a glimmer of life, he will fight for his apprentice.

"No, there is war inside. Once there is

Chapter 8229

"Di Xin, if the green lamp is broken, you and I will be swallowed up by the chaotic demon root turned into an ancient bodhi tree! This thing comes from time and space, and it is not something that our martial artists in reality can resist. I'm afraid even Wu Zu and Hongjun don't want to be contaminated!"

On the Ninth Heaven, the voice of emperor falling came out. If you let go and fight again, I'm afraid that dozens of top and immeasurable strong people below can't support this space of heaven and earth, and will inevitably jump to pieces.

"Hum!"

A cold hum came out, and di Xin also noticed the immortal lamp. With the old fox's mind, he naturally thought of something.

"I see. I'll laugh together!"

Emperor Xin's cold voice was cold, and his figure showed emptiness, looking directly at emperor Luo in his floating green shirt.

Just when Emperor Chen and others felt bad, they thought that they were ready to turn into dust together to fight for life and death, but emperor Luo slanted his eyes and said coldly:

"Let me see your methods!"

To everyone's surprise, there was no imagined killing attack that destroyed the sky and the earth. The two people actually started a hand-to-hand fight with one move!

The emperor dropped his two fingers and sword, and the light blue light of fire burned into a faint blur, during which the road was intertwined and stabbed towards the emperor.

It is not a divine skill to destroy the world at will, nor is it an anti heaven method!

"Exhausted?"

Seeing this scene, Zhu Yuan outside the Youming ravine was also a little puzzled. Two magnificent super strong men even competed for one move?

"No, what they compete for is the understanding of the road. The seemingly ordinary moves in it contain the supreme terror technique, which requires the input of all gods, and also tests the martial arts' control over the ultimate power!"

Too dignified, I thought I could try my best, but now it seems that their strength has surpassed themselves too much!

Boom!

Just when ye Chen was confused, a bright blue light gushed out from the other side of the space boundary!

The sharp light of the sword danced wildly in the chaotic world, and even the dark energy was faintly evaporating and rising. It took a long time before it went out.

"This..."

Ye Chen and Zhu Yuan are very familiar with this strange dark energy. It's like a big mountain in their heart, which makes people feel powerless.

Such terrible Kendo, these two people hide too deep!

"Senior, I have a plan!"

Ye Chen suddenly said.

.....

Screen rotation.

"Cough!"

"Cough!"

That casually tore open the space where dozens of immeasurable people worked together to lay defense barriers. The seemingly ordinary form turned out to be invincible in the world.

All the people, including emperor Chen, were injured in their original minds. A mouthful of blood spewed out, and the light of the five-color border covering the cage sky also weakened a little.

Emperor Xin's fists were horizontal in front of his chest, and his body was facing the air. The splashed Avenue symbol was then eliminated between the palms of his fists, a pure blow to the finger sword that shook the emperor!

Ding!

There was a crisp sound, but there was no imagined sense of collapse, and even the aftersound was slightly inaudible.

Emperor Chen saw the confrontation in the void and looked dignified: "such extreme power control, it seems that I still underestimate you."

He even felt that if these two people let go, Dan Yu would collapse.

"They are really terrible!"

"If it weren't for the dark energy of this chaotic world coming from no time and space, the root of chaos could be cut off by raising your hand!"

Emperor Chen was looking at the two people in the white hot battle, while secretly thinking about how to safely take away the nine heaven spirit grass.

"It's over!"

Someone drank softly. At this time, the breath of the two strong men was somewhat vain. There were faint signs of space collapse between the fist, palm, finger and sword attacks.

The red dragon reappeared on the side of the emperor's body, and the blue scales exuded a simple and rich aroma, biting away at the emperor Xin, who developed a raptor around him, and his claws probed towards the dragon's head.

"The road is so simple that it's really not easy!"

Suddenly, another cold cry rang out in the void, and the universe hung upside down in the palm of Taishen, bringing the galaxy.

The dazzling purple light and shadow hit emperor Luo and Emperor Xin. In a moment, it was too late for the two strong men to concentrate. In the sky, the red dragon burst and the Raptor wailed!

"Bad!"

Emperor Chen and others just wanted to stop, a figure in the corner jumped out, the bright red light of fire converged, and instantly swept towards the green lamp flame in the center. Before several immeasurable strong people shot, the world changed color, and the earth shook.

Click!

The void burst into pieces, and the dotted halo was instantly swallowed up by the influx of dark energy, and all things went silent.

The cracks on the roads appeared mottled, cutting through the void at the end of the dark night, mixed with terrible storm, thunder and chaos.

Bang!

The cracks in the avenue burst, and the scattered regular fragments instantly broke the chest of a four-layer sky strong man in the boundless realm, and even the spirit was wiped out.

Creak!

The towering ancient bodhi tree turned into a chaotic demon root again, shaking off countless dark leaves and surging out. The terrifying dark energy gushed out, devouring the chaotic heavenly way. For a time, the bottom of the ravine was like purgatory, and the black blood river was dyed all over.

An immeasurable strong man fell!

"Damn it!"

Seeing this, Emperor Luo and Emperor Xin threw their cold eyes at Taishen and said angrily, "emperor Haishan!"

The two shouted through the sky.

"You and I join hands to wake up emperor seal and fight against this chaotic demon root!"

Di Xin is worthy of being the owner of the imperial family of the Danyu giant, and makes a quick decision.

The root of chaos derived from the ancient bodhi tree has long been close to demons. Ordinary methods cannot be destroyed at all. The smell of chaos is mixed with dark energy. They choose to protect themselves and must work together.

Whoosh!

An ancient jade flew out of Di Xin's chest, and the gentle white light came on, opening the dark and silent world in a line.

Emperor Luo's eyes flickered, and he weighed them again and again. He threw a "emperor" seal from his arms. It was the seal found by Emperor Chen and others from the broken temple. Under the collision of the two antiquities, the burning white light was like a sharp blade, opening the sky into two!

Boom!

"Damn it, I thought it was Emperor Hai's deception, but I didn't expect it was the real emperor seal, and the key was on the ancient jade!"

A strange light flashed across the bottom of emperor Luo's eyes. Earlier, Emperor Chen and others found a ragged seal from the broken temple, which could have the trace of "emperor", but there was no body of emperor Hai, and he was allowed to try his best. This seal was unmoved.

With a little luck, Emperor Luo left it. I thought it was Emperor Hai who put him together, but I didn't expect it was really emperor's seal!

"After cutting off the chaotic demon root, Emperor Xin, I'll hold on. You will kill all personalities and retreat with emperor seal!"

Emperor Luo's rumors just fell, but he was shocked to find that he couldn't move a dime. I glanced around, and the whole world was still. Even the ferocious chaotic demon root, branches and leaves stood in the air, and the soul man's killing machine was faint.

"The moment is eternal!"

The four words were like the sound of heaven falling, and even the burst void was stagnant. The dust everywhere did not move at all. Countless splashed fragments of the rule of the road seemed to be dotted between the white mans that opened the world like ink.

Chapter 8230

As the sound fell, a person's figure crossed the border from the other side of the void. The fairy like old man's eyebrows were wrinkled, but his skin was as white as a baby, staring around.

"Alas..."

"I never thought I had reached such a level!"

The old man tapped lightly with two thin and slender fingers: "Dong!"

There was a crisp sound in the sky and earth, and everyone was in full readiness. Immediately, they opened a defensive posture to face the old man in front of them.

A thought of eternity, a thought of stillness!

This is more terrifying than chaos demon root. The real strong one may even be immortal emperor.

"The power of blood is so thin that there is no emperor in the imperial family?"

The old man looked at emperor Xin and Emperor Luo, sighed lightly, but his eyes stayed on the purple shirt too God.

Hearing the old man's words, di Xin and di Luo were both stunned, and immediately a smile spread, bowing down and kneeling:

"See ancestors!"

The old man smiled kindly: "you little guys, exemption, Emperor seal reappeared, alas..."

In addition to Ye Chen, all present are immeasurable strong people who have lived for thousands of years, but they are called... Little guys by the old man?

The sad and happy old man looked at the crowd: "can the emperor's high-level family be there?"

Hearing the words, Emperor Xin lifted his eyes and respectfully said, "emperor Xin, the Lord of the emperor's family, has seen the ancestor!"

"Just wait for cultivation!" The old man frowned slightly, but he didn't say anything else. Looking at the emperor in a floating green shirt, he said, "the emperor's family can still have such a powerful Dan master, and the inheritance is not unique!"

At a glance, he looked through the emperor's fall. This elegant middle-aged man, who was so depressed in the Dan region that a generation couldn't lift his head on weekdays, was overjoyed and smiled shyly like a child:

"My grandfather praised me. It's a boy's duty to abide by the emperor's ancestral precepts!"

"Huh? Are you also from the emperor's family?"

The old man looked at it one by one, but Yu Guang kept wandering on the side of the great God in the purple shirt. Finally, he stopped on his body and asked.

What greeted was too God's cold response: "I'm just a casual practitioner, and I don't dare to climb up to the giants of the Dan region."

"You..."

The emperor Xin on one side saw this, and his face was immediately cold, so he wanted to be responsible: "emperor Haishan, don't be unkind."

Boom!

The next moment, the old man just poked out a finger and pointed between the eyebrows of Taishen. It was stronger than Taishen. It was also impossible to resist. The spirit was pulled out of the body.

"Senior!"

Ye Chen shouted anxiously, and immediately it was rumored that he was whispering to the female emperor of the blood Phoenix clan in the reincarnation map of Wu Dao: "beauty... Beauty sister, do you have a way to check and balance this person?"

"Little brother, it's rare for you to condescend to beg me." The Youmei response of the female emperor of the blood Phoenix family sounded, and the next sentence completely broke Ye Chen's hope.

"The strength of this old guy is enough to match that of me in the peak period. I should go from the world of Taishang to Wuwu's existence like Hongjun and Wu Zu, so now, I can't help..."

"Eh?" The old man imprisoned the spirit of Taishen with one hand, but pointed to Ye Chen with the other hand. To be exact, it was the female emperor of the blood Phoenix family!

"Unexpectedly, it still exists in the world!"

"No, why is there such a shortage?"

A word in the clouds, but the crowd present was full of fog, but ye Chen was stunned.

The female emperor of the blood Phoenix clan and Huang Lao were found by each other!

Emperor Luo's eyes flashed and respectfully said, "tell my grandfather that this son is still carrying the wind of dawn, the fire of the Taoist spirit and the holy fire."

The old man laughed: "it doesn't matter, I'm a dying man, and I'm not blessed to enjoy such things, not to mention..."

The female emperor of the blood Phoenix clan in the world of Wu Dao reincarnation diagram turned her lips and whispered in Ye Chen's voice, "old and immortal, you can survive, and I'll settle with you!"

"Hahaha, the little doll has a stubborn temper!" The old man seemed to blame Ye Chen, and seemed to respond.

Emperor Xin, Emperor Luo and others heard the words, but they were happy.

"Dying people... That is, the emperor's ancestors are still alive!" Everyone suppressed the excitement in their hearts. If so, the chess game of too much world and no time and space is extremely complex.

"It takes a hundred years to capture the nine heaven spirit grass, set foot on the quasi Immortal Emperor, master the imperial seal of the family, and refine the fire of the Taoist spirit and the holy fire!"

The abacus of emperor Luo's heart has begun to stir too much.

Whoosh!

The old man fingertips gently, time and space again static.

The spirit of Taishen poured into an unknown world: "little guy, do you have a grudge against the emperor's family?"

In the space where the light was dim and everything could not be seen clearly, the old man looked kindly at the man in front of him:

"But you are the only descendant of the emperor's family who inherited the power of blood!"

Hearing the words, Taishen trembled, and still clenched his teeth and said, "that family can't be saved. Prejudice is a mountain, and you can't climb it!"

"Alas..." the old man shook his head gently, "if it's not for you?"

Facing the kindly face of the old man, Taishen said bitterly, "the demise of the emperor's family is doomed. I once peeped into a trace of heaven's mystery, which is useless!"

In fact, for the whole family, there is still a trace of fetter in his deepest heart.

"Son, you only see a corner, how dare you assert destiny?"

The old man patted Taishen on the shoulder: "I dreamed of a corner of the future, as you said..."

Purple shirt middle-aged figure trembled, raised his eyes and asked, "then why are you?"

"Alas... How prosperous the world was in the past. The Immortal Emperor blessed the earth, and everything grew. What's more, it was beyond the Immortal Emperor to achieve immortality, and all nations shared the master!"

"But now you can see that it is still so declining, even my emperor's family..."

Speaking of this, the old man was also a little impatient, and his trembling thin palm was telling his own feelings.
