### Chapter 8312

The ancient emperor Yu Huang and the ancient god Tuo are actually the same person, but one is the present body and the other is the future body.

Peering into the sky, ye Chen saw the hope of the future, that is, the supreme meritorious war!

Only in the battle of supreme merit and virtue, and with the blessing of great merit and great fortune, can he have a real opportunity to fight the ancient emperor Yu Huang.

Two days later, the supreme meritorious war is the most critical existence for ye Chen!

Ji Siqing said, "I went out to look for opportunities this time, and I also caught a glimpse of the mystery of the God of grass."

Ye Chen said, "God of grass?"

Ji Siqing said, "well, the God of grass, also one of the nine gods, is the God in charge of plants and life. The image is the image of a 13-year-old girl. She sent an appeal to Sun Yi."

Ye Chen's eyes narrowed and said, "what did you say? Sunyi!?"

Ji Siqing said, "yes, at the beginning, Sun Yi accidentally heard the call of the God of grass somewhere, and under the guidance of the God of grass, she stepped into wuwuwuspacetime. If it goes well, she will get the inheritance of the gods like me."

"But it's a pity that she met the death cult, and was knocked down by the death cult, and was trapped until now."

Ye Chen's face shook and said, "Sun Yi was trapped in the demon star sea. Was it the death cult?"

Ji Siqing said, "yes, but don't worry, she has the secret protection of the God of grass, and there will be no accident for the time being."

The demon star sea gathers the most terrifying darkness in the world, death, filth, turbidity and filth. Even the strong Immortal Emperor who falls into the demon star sea may be contaminated.

Sun Yixiu was not strong. She was trapped in the sea of demons and stars. She could save her life. It turned out that she was protected by the God of grass.

Ye Chen bit her teeth. Unexpectedly, the death cult was still the culprit for entrapping Sun Yi!

Fortunately, Sun Yi was sheltered by the God of grass and was temporarily safe, which made Ye Chen feel at ease.

Ji Siqing said, "Sun Yi was inspired by the God of grass, and I was inspired by the God of fire. We are all your women, which is a bit coincidental."

"I guess that both the God of grass and the God of fire have the meaning of assisting reincarnation."

Ye Chen's heart was shocked, and he was secretly happy, saying, "if those ancient gods all mean to help me, it would be better."

Ji Siqing gently shook his head and said, "don't be too complacent. The cause and effect is not clear. I only know that you inherited the blood of the rock god, and the Death Cult wants you to die."

Ye Chen was helpless and knew that the death cult was strong. He provoked such a terrorist force. The road in the future will be more difficult.

"Anyway, Siqing, you can heal my wound first."

Ye Chen shrugged and stared at Ji Siqing's eyes, saying.

Ji Siqing blushed and nodded gently.

The two hugged each other again, hugged each other tightly, and their skin was close to each other, like water and milk, a deep obsession.

Two days later, with Ji Siqing's Huoshen blood nourishing, ye Chen's injury greatly improved.

In these two days, ye Chen also absorbed the energy of the ignition source at the same time, constantly restoring his vitality.

Up to now, his injury has recovered sevenoreight.

"Your injury should be OK."

In the pool, Ji Siqing still maintained a deep and obsessed attitude with Ye Chen, whispering.

Ye Chen said, "it's not enough. It hasn't recovered to its peak."

If it's normal, ye Chen is enough to solve most of the dangers with 70% or 80% combat power.

But today is the day when the Taishang merit war begins. Strong enemies are around. If there is no peak state, ye Chen is not sure to fight against the unknown danger.

"With me fighting side by side with you, you don't have to worry too much."

Ji Siqing gently stroked Ye Chen's face and said softly.

Ye Chen felt warm, kissed her and said, "well, thank you."

Dang, Dang, Dang——

At this time, there was a melodious bell on the other side of the holy city square.

The supreme meritorious war is about to start!

Hearing the bell, ye Chen looked at Ji Siqing and nodded.

The two came out of the pool, dressed and walked out of the courtyard.

Xia Ruoxue, Wei Ying, fan Xingyan, Xia Yu

Chapter 8313

More overhead, a sacred palace is suspended, surrounded by thousands of auspicious gases, resplendent and ancient.

On the throne with a golden dragon hovering, there is an old man with fairy light. The light and dignity he exudes cannot be described in the language of the real world. The feeling he gives is only the concepts of greatness, holiness, brilliance, immortality, immortality and grandeur.

Anyone who sees him will feel invincible.

This old man is the leader of Zihuang fairy palace, the last guardian of the real world, the moral God!

In the past, the Supreme Master of virtue never appeared. He always hid behind the scenes and never interfered in the actual gratitude and resentment.

But this time, the Supreme Master of virtue actually presided over the war in person.

Even before the war, there were rumors in Zihuang fairy palace that the moral God had a daughter named

Chapter 8314

All the other organs of his body were gone, leaving only a head and heart suspended in midair.

The heart is still beating.

As for the head of demon Zu Wutian, not only his eyes were dug out, but also his facial features were all dug out, leaving only holes, which looked extremely terrifying and even monsters than monsters. People felt creepy at a glance.

His head and heart floated, and wisps of magic gas spread into blood vessels and bodies, connecting his head and heart, and building a magical body of magic gas, which looked very strange.

A black robed young man, standing beside the demon ancestor Wutian, was Guichen.

Now the fusion of Guichen and magic ancestor Wutian is almost perfect.

Most of the body organs of demon Zu Wutian have been integrated into Guichen's body.

There is only one head and one heart left, and there is no fusion.

Under a high degree of integration, the breath that permeated Guichen was simply incredibly powerful.

He is the embodiment of good thoughts, and the devil ancestor Wutian represents the devil thoughts.

The integration of good and evil, such as the integration of Buddha and devil, makes the dust return at this moment emit a breath of impermanence and mystery.

The eyes that return to dust are the eyes that have no sky.

The trunk returning to dust is the trunk without sky.

The hands and feet of returning to dust are the hands and feet of heaven.

In a way, Guichen is already

Chapter 8315

Many contestants also lined up to set foot on the transmission array and went to the battlefield.

"Let's go, too."

Ye Chen glanced at Ji Siqing and other women, and then he took all the women and set foot on the transmission array together.

WOW!

A blue light flashed.

Ye Chen felt a whirl of heaven and earth. As soon as his sight lit up, he appeared in a strange place.

This is a vast heaven and earth, the sky is a tile blue, floating clouds are floating, and you can see the boundless ancient forest when you look at it from the extreme.

In that forest, huge trees hundreds of feet high stand in the sky, as high as mountains and peaks, which is very spectacular. Above the forest, there are a large number of birds of prey and beasts, flying by, making a sharp neighing, echoing around, casting a huge shadow.

In more distant areas, you can also feel the mysterious dark breath, which seems to come from nothing.

"How can there be no breath here?"

Ye Chen was surprised. After listening carefully, he even heard the breathing sound of wuwuwu monster, as if there was a fight between monster and demon God.

In the void, light points flashed, and all the contestants were successively transmitted to the space between heaven and earth.

They also felt the breath of the distant place, which was a burst of surprise.

You know, this is the fire god world, a world built on the source of fire.

The core and most precious fire source in the real world is under the earth, and everyone can clearly feel the temperature of the fire on the earth.

Once the ignition source is eroded, the real world is in danger of destruction.

Now there is a breath of Wuwu in this place, which makes everyone worried.

Wouldn't it be bad if the fire under the ground was eroded without any erosion?

All the contestants present were a little nervous, as if their hearts were going to be poisoned.

## Chapter 8316

Such a powerful existence could not have been invited to the war, but Situ Chen could come. Ye Chen estimated that it was the arrangement of Duobao Tianjun, which was aimed at himself.

And Xia Yu was also invited, mostly the Moral God, who made special arrangements for the balance of the situation.

However, Xia Yu's rock god blood was absorbed by Ye Chen, which is estimated to be beyond everyone's expectation.

For the sake of fighting justice, people who are especially strong in cultivation will be suppressed to a level of immeasurable territory.

Hearing this rule, Ye Chen secretly breathed a sigh of relief and looked at Situ Chen, GUI Chen, Yu Huang Aoxue and others.

If these people's accomplishments are suppressed to a level of immeasurable territory, his pressure will be greatly reduced.

After all, Ye Chen's comprehensive combat power is enough to instantly kill the strong in ordinary immeasurable territory.

Of course, Situ Chen, GUI Chen, Yu Huang Aoxue and others are not ordinary and will never be easy to deal with.

But anyway, their cultivation realm was suppressed, which was undoubtedly a good thing for Ye Chen.

Hearing this rule, Situ Chen, GUI Chen, Yu Huang Aoxue and others all slightly sank their faces, obviously not very happy.

"Then, the conditions for victory."

Immortal Chongyang continued.

"As you can see, this battlefield is divided into four areas..."

Double Ninth immortal points to the forest ahead.

The crowd stared over and looked carefully. Sure enough, they found that this piece of heaven and earth and mountains were vaguely divided into four areas.

Areas are separated by a big river.

"The order of these four areas is: hegemony area, non secluded area, dead zone and merit area. Each area can obtain a certain number of Zihuang fire. Whoever finally masters the most Zihuang fire and survives successfully can win."

Chongyang immortal said the rules of the game and the conditions for victory.

That is, fight for the fire of purple light!

In the four areas of the battlefield, there are purple flames hidden one after another, and the contestants win by strength. The final ranking of the supreme meritorious war depends on the number of purple flames held by each person.

The more Zihuang fire you have, the higher your ranking will be.

The person with the largest number is the champion!

Hearing the words of immortal Chongyang, everyone's eyes showed a fiery color, and with a sense of war, they looked at each other warily, subconsciously distancing themselves.

The battlefield must be full of powerful monsters, and those purple fires are likely to be hidden in many monsters.

But compared with monsters, the greater threat comes from other contestants.

Among the contestants, they can kill and fight with each other and snatch each other's purple fire.

It can be said that in the battlefield, others are hell!

"Immortal Chongyang, which of the four war zones has the largest number of purple flames?"

Some contestants asked.

"Naturally, it is the dead zone and merit zone behind, but unfortunately, those two areas are eroded by the atmosphere of no time and space, which is very dangerous."

Chongyang immortal's voice was heavy, pointing to the last two areas.

Those two areas have been surrounded by layers of black fog, filled with a mysterious and ominous atmosphere, which is thrilling.

The crowd looked at the layers of mysterious black fog, which was also dignified.

Although they are far away, everyone present can feel the strange smell of uncertainty and darkness, and there is an inexplicable palpitation in their hearts.

Immortal Chongyang then said, "of course, if you are not afraid of death, you can also break into those two areas to suppress the dark atmosphere and seize the fire of purple light."

Hearing this, many people swallowed their saliva and dared not speak.

The dark breath of time and space is very mysterious. Where is it so easy to fight?

It is undoubtedly difficult to break into the dead zone and the merit zone and seize the fire of Zihuang.

"Immortal Chongyang, why don't you suppress the darkness in Zihuang fairy palace? Aren't you afraid of the dark atmosphere without time and space, eroding the fire?"

A woman in white stood up. It was the feather emperor Aoxue of the temple of the ruins.

Her cold eyes, overlooking the darkness in the distance, her tone was cold and proud.

The double ninth immortal just smiled and said, "it's not time for me to fight in Zihuang fairy palace. This year's supreme meritorious war is set in the fire god world, just to use the power of you contestants to exterminate the darkness and suppress the unknown."

Hearing the speech, the crowd suddenly burst into a commotion.

The dark breath has eroded to the fire god world, and it is only a short distance from the fire source. Is it not time to take action at such an urgent moment?

The feather emperor Aoxue laughed and said, "you purple fairy palace really look up to us."

The double ninth immortal still smiled, looked around and said, "in short, the strong contestants might as well go to the last two areas to capture the fire of purple light."

"All Zihuang fires are condensed from the energy of the core of the kindling source, which has great merit and good luck. After the competition, you can accept the baptism of my Zihuang fairy palace with the Zihuang fire in your hand."

The feather emperor Aoxue's eyes were slightly frozen and said, "what if we don't go to the last two areas?"

Immortal Chongyang said, "it doesn't matter if you don't go. After all, it's an area shrouded in darkness. It's too dangerous. Our purple fairy Palace won't be difficult."

"If you don't go to the last two areas, you will compete in the competition area and non secluded area in front."

"Generally, the purple flame is hidden in the demon beast. As long as you kill the demon beast, you can successfully obtain the flame."

"The more powerful the monster is, the more purple fire in its body!"

"But you should be careful not to enter the non secluded area at night, because the monsters in this area will fall into riots at night, which is very dangerous."

Everyone's heart was cold, and they all nodded silently.

The double ninth immortal squinted and said, "well, I declare that this session of the supreme meritorious war officially begins!"

After a pause, he said, "however, if you want to enter the battlefield, you must first pass my test!"

When the voice fell, the double ninth immortal waved his hand, and a circle of golden light as hot as the sun burst out, quickly forming a cylindrical golden junction between heaven and earth.

Ye Chen, Yu Huang Aoxue and other contestants were all shrouded in the circle of this column.

"Break through this barrier, and you can step into the battlefield!"

Chongyang immortal shouted.

Ye Chen looked at the golden border in front of him, and vaguely caught a very blazing breath, like the sun in the sky, approaching his eyes.

Even, he felt this blazing breath, but also revealed very familiar fluctuations.

"Is it the breath of the Golden Wheel of the emperor of heaven?"

Ye Chen was surprised.

The Golden Wheel of the emperor of heaven is the highest artifact that scatters the spirit in Wuwu space-time.

At this moment, on the golden border, ye Chen actually felt the breath of the Golden Wheel of the emperor of heaven!

Chapter 8317

The aura of the Golden Wheel of the emperor of heaven vibrated, so that layers of magnificent runes appeared on the surface of the golden border, which was quite spectacular.

"This double ninth immortal is indeed the future Sanshen Tianzun!"

Ye Chen secretly thought that the current emperor of heaven's golden wheel, in Ren Feifan's hand, if it is an ordinary person, it is absolutely impossible to mobilize the breath of the emperor of heaven's golden wheel.

However, the identity of the double ninth immortal is not trivial.

His future body is the master of scattered gods!

Therefore, he is qualified to borrow the power of the Golden Wheel of the emperor of heaven!

Even, ye Chen felt that Ren Fanfan's ability to take away the Golden Wheel of the emperor of heaven was also tacitly approved and helped by the future body of immortal Chongyang.

But ye Chen can't see the specific cause and effect of heaven.

All he knew was that the double ninth immortal was very mysterious and should not be underestimated.

Boom!

At this time, many contestants began to attack the golden border under the double ninth immortal cloth.

This layer of enchantment contains a trace of aura of the Golden Wheel of the emperor of heaven, which is very powerful.

Many contestants, under the forced impact, not only failed, but were exposed to the light of the Golden Wheel of the emperor of heaven, screamed, and were burned to serious injury on the spot, losing the qualification to continue to participate in the war, and were forcibly transmitted out and directly eliminated.

Ye Chen was shocked. It seemed that the screening mechanism of this supreme meritorious war was very strict. It was not easy to officially enter the battlefield.

Boom!

At this time, a bombardment came.

I saw a man, holding a rock gun, who had forcibly penetrated the barrier and made a big hole.

That man is the owner of the other half of rock god's blood, situ Chen!

Situ Chen's eyes were indifferent. After breaking through the barrier, he flew out.

As soon as he flew out of the barrier, he was immediately wrapped by a space airflow, and then randomly transported to the battlefield.

On the border, there are still big holes he made.

Nearby contestants immediately rushed up, and along the hole, they also broke through the barrier.

Subsequently, they were randomly transmitted to all parts of the battlefield.

Double Ninth immortal stood with his hands on his back. Seeing this scene, he just smiled and did not stop.

Seeing this, the contestants on the far side also want to pick up a bargain and go out through the hole.

However, the golden light on the border was diffuse, and the hole was soon repaired.

Many contestants, a burst of frustration, had to try to break the barrier by themselves.

However, this barrier, mixed with the aura of the emperor's golden wheel, is extremely powerful, and almost no one can break the barrier.

Hiss!

At this time, a cracking sound came out.

I saw a woman, wrapped in ice, wielding a sword and cutting, but she cut a gap in the enchantment.

That woman is the feather emperor Aoxue of wanxu temple.

"Miss Aoxue is mighty!"

Behind the feather emperor Aoxue, many disciples of the wanxu Temple cheered one after another.

"Let's go."

With a faint smile, the feather emperor Aoxue flew out along the border gap with the contestants of the wanxu temple.

The contestants around rushed up and rushed out of the gap until it was closed again.

Ye Chen's eyes flashed, and he faintly saw a taste.

This boundary, mixed with the breath of the Golden Wheel of the emperor of heaven, is extremely solid, and it is almost impossible for ordinary people to break, which has gone beyond the scope of ordinary tests.

This enchantment made by immortal Chongyang may not be a test for ordinary people, but to see the strength of the really strong!

Hiss hiss——

At this time, the Jianmen side also began to move.

I saw GUI Chen take his hand in person, and the black gas on his palm was blowing out, but a dark vapor burst out.

That's the water vapor of the demon star sea!

This vapor has an indescribable and terrible smell.

Under the erosion of water vapor, most of the border turned from gold to black, and then cracked and smashed, even unable to restore its original state.

The boy in black Guichen, like a dark god of death, was filled with a cold breath, and flew out with his disciples.

The rest of the contestants also flew out in a swarm.

In the field, only Ye Chen, Ji Siqing, Xia Ruoxue, Wei Ying, fan Xingyan, Xia Yu and others were left.

"It's up to you."

Ye Chen smiled bitterly. He had not completely recovered from his injury, but he had recovered sevenoreight and had not recovered to his peak.

With his current appearance, it is naturally inconvenient to break through the barrier, so as not to waste energy in vain.

"I'll do it."

Ji Siqing, such as the supreme goddess, slowly took a step, raised his thin white palm, and the fiery smell of fire broke out, turning into a huge Phoenix Firebird, rushing forward.

Bang!

The remaining half of the barrier burst under the impact of the Phoenix Firebird.

Even in the distance, the dark water vapor left by the dust residue turned into steam under the high temperature of Ji Siqing's Firebird.

The double ninth immortal beside him, seeing Ji Siqing's means, looked slightly surprised and whispered, "is it the power of the God of fire?"

After a pause, he looked calm, looked at Ye Chen and others, and said with a smile, "good luck."

Ye Chen, Ji Siqing, fan Xingyan and others nodded, which was to break through the barrier and fly out.

As soon as they flew out, in the void, there were immediately a lot of air currents in the space, sweeping over and transporting them to the battlefield below.

All contestants, after breaking through the barrier, will be randomly transmitted to the battlefield of the hegemony area.

Ye Chen and others are no exception.

After a whirl, ye Chen was transferred to a hundred feet tall tree.

Chapter 8318

"Is it random transmission?"

Ye Chen stood firm and his face sank slightly.

He originally intended to fight side by side with Jisiquing and others.

But unexpectedly, the rules of the battlefield are strict, and you won't be given the chance to form a team at will.

Now random transmission, Ye Chen and Ji Siqing and others are completely separated, leaving him alone.

In the battlefield, the secret is closed, and the position of the other party can't be calculated at all.

"Well, I'm sending randomly, and so are the Wanxu temple and Jianmen."

"They can't find my position under the heaven's secret."

Ye Chen clenched his fist and calmed down a little.

The battlefield rules are fair. He is randomly transmitted, and so are others.

The battlefield is so large that there are thousands of miles around in the hegemony area alone. Under the closure of heaven, it is almost impossible for the enemy to find him.

"In the battlefield, the smell of the ignition source has also become clearer."

"Maybe I can rely on the aura of the fire to completely recover from the injury!"

Ye Chen's eyes were concise and scanned around.

He could clearly feel the smell of the fire source in the earth under his feet.

He seemed to be able to hear the heartbeat of the earth, which was the pulse of the fire source.

In the past two days, ye Chen has recovered 80% of his injury. In addition to Ji Siqing's treatment, the most important thing is the aura of the fire source, which also gave him a lot of nourishment.

At this moment, on the battlefield of the hegemony area, ye Chen obviously felt that the smell of the ignition source was more intense and clear.

The resonance between his reincarnation blood and the fire is also stronger.

Obviously, the battlefield area is closer to the fire than the outside world.

Ye Chen concentrated and sensed all around, and there was silence.

It seems that he was lucky and was transported to a quiet area.

If you heal here, you won't be disturbed or attacked by monsters.

"OK, just heal here!"

"Try to recover completely within today!"

Ye Chen made up his mind, immediately sat down cross legged, silently operated the reincarnation blood, resonated with the fire, constantly absorbed the aura of the ground fire source, and nourished his own lifeline.

This year's supreme meritorious war, the competition is too fierce.

Whether situ Chen, GUI Chen or Yu Huang Aoxue, they are not good people.

If ye Chen wants to compete with them and even win the championship, the current state is obviously not enough.

He must recover his peak!

Absorbed by Ye Chen, the aura of the fire source continuously converges into his body, constantly nourishing his meridians and recuperating his injuries.

However, ye Chen faintly felt that he had pairs of eyes staring at him in the air when he was regulating his breath and healing.

Ye Chen knew that it was a VIP outside the battlefield who was watching the situation here.

He guessed right. At this moment, on the central square of the Vulcan holy city, the light was diffuse, forming light curtain pictures, which were projected in midair.

In the light screen picture, the concrete reality of all contestants in the battlefield is displayed.

The courtiers in all directions scanned the scenes, looking for what they wanted to see.

Boom!

The sound of fierce fighting came from many pictures and mixed together to stimulate people's mind.

The battlefield environment is bad, and there are powerful monsters everywhere.

These monsters, born in an era even older than ancient times, originally existed to protect the source of fire.

They are ferocious, ferocious and powerful, and will tear all intruders to pieces.

In the eyes of these monsters, many contestants are naturally intruders.

Fierce fighting broke out everywhere, making the guests present sweat secretly, as if the battle was in front of them.

Among the many fights, ye Chen, who quietly regulated his breath and healed his wounds, was particularly strange and attracted the attention of many people.

"Is that the Lord of reincarnation?"

"When did he get hurt?"

"Are you afraid of death even if you heal in the battlefield?"

Many guests stirred up, and their reincarnation reputation naturally thundered through their ears.

Today's supreme meritorious war, they are also waiting to broaden their horizons and want to see the style of reincarnation.

But no one expected that as soon as ye Chen entered the battlefield, he directly began to heal.

In Zihuang palace, many elders frowned at Ye Chen's behavior.

An elder came to the moral God and whispered, "master, the reincarnation Lord is absorbing the aura of the fire source. Do you want to stop him?"

The moral God lightly waved his hand and said, "it doesn't matter. Let him go. He can't hurt the core of the ignition source."

Boom!

At this time, a battle picture attracted everyone's attention.

In the picture, a woman in white holding a long sword, as cold as a fairy, is fighting against an ancient gluttonous beast.

That woman is the adopted daughter of the ancient emperor Yu Huang, Ao Xue Yu Huang!

"Ice God incarnate, frost extinguishes thousands of miles!"

With a wave of the feather emperor Aoxue's sword, the surrounding air quickly burst out of endless ice and snow. Countless ice and snow and frost surrounded her delicate body, making it look like an ancient ice God.

The cold blade cut out, and if the ice disaster of the end roared past, it was in the blink of an eye that the gluttonous beast in front of it was directly frozen and cut out.

Everyone felt the fierceness of the feather emperor Aoxue, which was a shock.

"Is this the adopted daughter of the ancient emperor Yu Huang?"

"I heard that she has been closed for thousands of years, and she didn't leave until today."

"It is said that this woman inherited the divine blood of the ancient ice God. Looking at her fierce ice weather, the rumors are true!"

Chapter 8319

Many guests stirred up, and they had not seen the majesty of the reincarnation Lord, but they clearly saw the power of the feather emperor Aoxue.

After killing the gluttonous beast, three purple flames fell out of the beast's body.

The feather emperor Aoxue took a thin roll, collected all the three purple flames, and then flashed away to go elsewhere to continue to hunt monsters.

Click click!

At this time, another picture attracted the attention of everyone.

In the picture, there is a lonely black robed boy, who is Guichen from the Jianmen, the embodiment of the goodness of the legendary demon ancestor Wutian.

However, from Guichen, everyone can't feel the smell of kindness, only coldness and strictness, darkness and evil spirit.

In the picture, Guichen moves forward step by step.

On his body, the terrifying magic aura surrounds him. Every step he takes will bloom a lotus made of white bones on the earth.

In an instant, a white bone road with lotus blossoming was unfolded at the feet of Guichen. He followed the white bone road and kept moving forward. Finally, he left the hegemony area and stepped directly into the non secluded area.

The monsters in the non secluded area are more powerful than those in the hegemony area. They can obtain more purple fire.

At the beginning of the supreme merit war, GUI Chen stepped directly into the non secluded area, which shocked the guests present.

The monsters in the non secluded area are ferocious and powerful, but they are still weak in front of GUI Chen.

Returning to the dust is like

Chapter 8320

Today, no one found him all day, and even the monster never came near.

But now, situ Chen came directly to the door, which surprised Ye Chen.

"Was it Duobao Tianjun who told you?"

Almost in an instant, ye Chen guessed that it was Duobao Tianjun, who was secretly obstructing behind his back.

Only Duobao Tianjun can accurately perceive the changes in the battlefield and know the coordinates of all contestants.

"No nonsense, tonight is your death!"

Situ Chen laughed, but didn't answer, but suddenly pulled out the long sword around his waist. The breath of the earth and rock burst, and a sword rolled up the rolling dust, and cut and killed Ye Chen head-on.

At the moment of the sword, his rock god blood had burned to the extreme, and the sword was magnificent and powerful, like a mountain collapse.

He didn't underestimate the enemy, and he knew Ye Chen's power.

If it is a layer of sky in the ordinary boundless realm, in front of Ye Chen, it is similar to insects and ants, and one face to face will be crushed to death.

Therefore, situ Chen directly burst out all the energy of Yan Shen's blood and wanted to kill Ye Chen with a sword.

Ye Chen also had half a drop of rock god's blood in his body. Seeing situ Chen's sword cut, he could clearly feel the majesty of the earth contained in this sword, even like the arrival of the emperor's book. The blade of the sword tore the air and directly exploded large tracts of Ancient Runes.

On the use of Yan Shen's blood, situ Chen is obviously much more skilled than ye Chen.

Moreover, ye Chen's injury has not completely recovered.

If he fights with rock god's blood, he is not sure of winning.

"Reincarnation blood, reincarnation sky sword, broken!"

Ye Chen drank violently, directly urging the reincarnation blood and sacrificing the reincarnation Heavenly Sword.

Hiss!

The reincarnation Heavenly Sword was sacrificed, and a golden light of the sword exploded instantly. There were thousands of cyan ethos converging on the sword, killing a blade storm, rolling forward, directly blocking situ Chen's rock sword.

"What!"

Situ Chen was surprised and retreated three steps with the sword. He didn't expect Ye Chen to be so strong under the injury.

Ye Chen also snorted, and did not take much advantage.

Just that sword, he also used the power of the morning wind, and consumed a huge amount of his aura.

In his current state, such a tough offensive is somewhat reluctantly.

However, ye Chen did not flinch at all, but desperate to continue to urge the reincarnation blood and the wind of dawn.

"Wind, respond to me!"

"Cut the sky nine swords, and kill the heart without trace!"

Ye Chen slashed wildly with his sword, and blue sword storms swept out.

At this moment, he showed his nine swords to cut the sky
