

Physician 8331

Chapter 8331

Chen Nan's face was dignified, and his right hand urged the purple fire lotus, and a trace of fiery breath came out of the fire lotus.

This purple flame lotus gathers the aura of hundreds of purple flame, and its energy is very vast.

The fire lotus hovered over Ye Chen's head, and the fiery breath became more and more hot, like volcanic magma.

Hiss hiss!

Flames and streams of air burst out of the fire lotus, like a waterfall, rushing to pour on Ye Chen's head.

Ye Chen only felt a fierce smell of fire above his head, pouring down madly, seeping into his head, acupoints and orifices, and penetrating into his energy channels.

For a moment, ye Chen felt the terrible high temperature, as if he had fallen into the magma.

The intense high temperature scorched his body crazily, trying to burn him completely into ashes.

"It's hot..."

Ye Chen bit his teeth. Although he had been prepared for it, the high temperature of the purple fire was beyond his imagination.

Under the intense temperature, ye Chen's whole body emitted white smoke, hissing and transpiration, and his skin was completely red, as if he had been cooked.

He gritted his teeth and tried to endure the burning pain. He worked his internal breathing to continuously absorb the energy of the purple fire into his Dantian.

Wisps of the aura of the purple fire continue to converge into the Ye Chen Dantian.

The aura in Ye Chen's Dantian is also growing.

Little by little, ye Chen did not know how long it had passed.

He only felt that the terrible high temperature gradually cooled down and turned into warmth, not scorching heat.

The energy aura of purple fire gradually merged with his body.

Nourished by the aura of the purple fire, ye Chen's injury completely recovered, and his weak vitality also returned to the peak, full and fiery, and his whole body seemed to have inexhaustible strength.

Hiss!

Ye Chen opened his eyes, and there were two red mans shooting out of his eyes. If it was a raging fire, it was very spectacular.

Ye Chen still ranks in the golden list in the sky

Chapter 8332

Chen Nan said, "Lord of reincarnation, thank you very much. The headmaster's wife is a miserable person. If she can get transcendence, it is also a relief."

Ye Chen nodded silently. At that moment, he said goodbye to Chen Nan, walked out of the dark fog and returned to the outside world.

The sun is dazzling. It's day now, and the dark smell of the non secluded area has dissipated.

But behind Ye Chen, the dark fog is still strong, obscuring the secret of heaven and making it impossible for the outside world to investigate.

Here is the accumulation point of the dark breath. The black fog does not disperse, and Chen Nan is imprisoned in it forever.

Ye Chen took a deep breath, calmed his mind, and looked at the area ahead. The dead area was not far from him.

But now, it's not time to go to the dead zone.

Because Xia Ruoxue, Ji Siqing and others are all in the hegemony area.

Moreover, they are likely to be in danger!

"Ruoxue, Siqing, Wei Ying, wait for me!"

Ye Chen clenched his fist, and now his state was completely restored to the peak. Under the quenching of the purple fire, his strength was even better than before.

At that moment, ye Chen's body swept violently and flew towards the hegemony area again.

The secret of nature is closed in the battlefield, and it is difficult to capture the breath of each other between contestants.

However, ye Chen was baptized by the purple fire, and he felt that the mystery fog in the battlefield was scattered layer by layer under the impact of the fire.

Almost instantly, he captured the coordinate positions of Xia Ruoxue, Ji Siqing, Wei Ying and others, and his body shape swept away like the wind.

Outside the battlefield, on the holy city square, countless guests and spectators saw Ye Chen's figure again, and they were all shocked.

Last night, countless monsters attacked Ye Chen. Under the cover of the silted black fog, they could not see the picture of the battle, only heard bursts of fierce fighting and the screams of monsters.

The result of the battle was that the monsters fled in confusion, and the number of Ye chenzihuang's fire soared sharply, reaching

Chapter 8333

The moral God smiled calmly and said, "my father has never been involved in the cause and effect of the real world. Whether the Lord of reincarnation rises or falls is the same for me."

Chapter 8334

The air flow between heaven and earth turned into extremely cold frost.

Snow and ice are falling from the sky.

Everyone felt the biting cold.

Under this terrible cold, ye Chen's sky orange flame air flow was also forcibly suppressed, and there was no breath of fire around, only the majesty of ice and snow.

"Can force me to use the blood of ice God, ye Chen, even if you die, your life will not be wasted!"

The feather emperor Aoxue's eyes are proud, looking at Ye Chen like a bird's-eye view, and the killing machine surges.

The violent smell of ice and snow bloomed, and even directly in the field, built a gorgeous ice and snow border, and countless ancient ice runes were flashing.

Ye Chen's body was also directly covered by the ice and snow, and the skin was covered with layers of frost.

"Hehe, what about ice God's blood? You only have a drop of ice God's blood, and you are not qualified to suppress me!"

Ye Chen disdained to smile, and with a wave of his big hand, an ancient seal emerged.

The seal, surrounded by purple electricity and thundering, released bursts of noble breath. It was the thunder god ancestor given by Chen nan to Ye Chen, the thunder seal in the sky!

"Is this... Ancestor?"

"How can you have ancestral weapons!?"

The feather emperor Aoxue was completely surprised to see the seal.

I saw the thunder mark in the sky, constantly releasing the powerful light of thunder, breaking the surrounding ice and snow, and forcibly opening up a lightning barrier.

Ye Chen stood in the thunder and lightning barrier, like the incarnation of Thor, shining with lightning all over, which was very spectacular.

"Sky thunder seal, purple lightning God thunder knife, break it for me!"

Ye Chen shouted violently, waved his big hand in the air, and a terrible purple lightning light was brewing in his palm. Immediately, it exploded violently, turned into more than ten purple lightning blades, and cut off towards the feather emperor Aoxue across the air, with a momentum of destruction.

The strong current, rushing by, made the ice and snow in the void burn and explode.

This purple lightning God thunder knife is a magic power passed from Daozhen mountain to Ye Chen, which originates from the scattered God pulse knife family.

With the power of the thunder seal in the sky, ye Chen burst out the purple lightning God thunder knife, whose power was simply earth shattering.

With the blessing of the God of thunder, the dozens of purple electric knives seemed unstoppable, as if they could break everything.

"Ice shield, guard!"

The feather emperor Aoxue was frightened and hurriedly mobilized the power of ice and snow to build a solid ice and snow shield in front of him.

Bang!

But ye Chen's purple lightning God thunder knife was extremely fierce. More than a dozen knives cut through the ice shield at once.

The feather emperor Aoxue saw that the purple light knife awn reached, and her beautiful eyes contracted. She didn't expect Ye Chen's power to be so terrible.

If you are hit by those purple electric knives, you will be seriously injured if you don't die.

At the critical moment of life and death, the feather emperor Aoxue rolled over a dozen strong people in the wanxu temple around him as a meat shield.

Puff, puff, puff!

Ye Chen's purple electric knife was as powerful as a bamboo, killing all the more than a dozen strong people in the ruins, with blood splashing like rain.

The feather emperor Aoxue escaped, but he was also surprised in a cold sweat.

"Go!"

In panic, the feather emperor Aoxue waved his hand and ran away with the remaining strong people of the wanxu.

Ye Chen at this moment is really invincible. Even for her, there is no possibility of confrontation.

The audience in the square outside was stunned at this scene.

The feather emperor Aoxue is the adopted daughter of the feather emperor. She has been closed for many years until this session of the supreme meritorious war.

The ancient emperor Yu Huang had high hopes for this adopted daughter, and wanted to rely on her to kill the Lord of reincarnation and win the championship.

But now, the feather emperor Aoxue was defeated by Ye Chen.

Countless audiences are shocked. After all, the feather emperor Aoxue has the blood of ice God, and his talent is very strong.

But now it seems that no matter what kind of blood, in front of reincarnation blood, it is incomparable.

In the battlefield.

Ye Chen saw that the feather emperor Aoxue ran away, and did not catch up, but flew to Xia Ruoxue and Wei Ying, holding two women, and said softly, "is it all right?"

Xia Ruoxue's face was flushed with excitement and pale with weakness. She said, "it's all right, just... She was hurt."

Ye Chen's face sank, and he touched the pulse of the two women, only feeling that their breath was very weak.

Last night, Guichen broke out, and they had been injured long ago.

Later, the feather emperor Aoxue chased and killed them all night.

In the fierce battle, the injuries of the two women were also more serious, and they must be treated as soon as possible.

Ye Chen showed the eight trigrams heaven elixir, slightly stabilized the two women's injuries, and asked, "where is Siqing?"

Xia Ruoxue said, "I don't know. We've long been separated. We were chased by the wanxu temple. She should be chased by the Jianmen."

Ye Chen's face sank, pinched his fingers and quickly caught Ji Siqing's breath.

In addition, I also felt the breath of Jianmen, quite fierce and gloomy.

Sure enough, Jianmen is chasing Ji Siqing!

"Let's save her!"

Ye Chen made a quick decision, and immediately took Xia Ruoxue, Wei Ying, and others, as well as the people of the Xingyue cult, the realm of life and death, and the sea world, and Yufeng flew in the direction of Ji Siqing.

"Do you know where Siqing is?"

Xia Ruoxue looked at Ye Chen with some surprise. After all, in the battlefield, it was difficult to judge the position of others because of the natural machine blockade.

"Well."

Ye Chen nodded, but didn't explain too much. It's urgent to save people.

He drove the wind of morning light with great speed, and took the people all the way. Less than half an incense burning time, he came to a lake.

Ji Siqing was sitting cross legged in the middle of the lake, and her figure was reflected in the water.

Chapter 8335

A trace of red flame, accompanied by the call of rosefinch, continued to flow out of Ji Siqing and turned into a gorgeous rosefinch guarding the border on the lake.

The saint of QIANXING palace, fan Xingyan, the disciple of Double Ninth immortal, is beside Ji Siqing.

Beside them, there are also some Xingyue deities, disciples of QIANXING palace, and Xia Yu.

And around the lake, there are the strongmen of Jianmen, besieged layer by layer.

The first is GUI Chen, and situ Chen.

They besieged Ji Siqing, but for a moment, they could not break through the Suzaku guarding barrier under Ji Siqing, and the two sides were deadlocked.

"This woman actually inherited the divine blood of the God of fire."

Situ Chen felt Ji Siqing's burning rosefinch flame, and his face couldn't help becoming very ugly.

GUI Chen's face was slightly weak and pale. Last night, he was eager to kill reincarnation. He broke out too badly, and his Reiki consumption was intense. He hasn't completely recovered until now.

He looked at Ji Siqing's figure and frowned. Then he said calmly, "it doesn't matter. I don't think she can last long. At most, her aura will be exhausted in half an hour. When the time comes, her guardian will naturally break through."

Hearing this, situ Chen couldn't help laughing and said, "when I catch that woman, I'll deal with her! If her Vulcan blood is fused into my body, it's perfect."

GUI Chen calmly said, "whatever you want, as long as she dies, all the people in the reincarnation camp must die."

Hearing the dialogue between the two, fan Xingyan, Xia Yu and others in the lake were extremely anxious.

They know that once Ji Siqing can't hold on, it's their death!

Under the crisis, everyone poured their aura into Ji Siqing, hoping that she could last longer.

Ye Chen saw Ji Siqing from a distance and couldn't help shrinking her eyes.

Because he found that what reflected in the lake did not seem to be Ji Siqing's own appearance, but another woman.

It was a woman of extraordinary temperament, gorgeous demeanor, dressed in red, as noble as a God.

It turned out to be the legendary god of fire!

However, the figure of the God of fire was slightly distorted and turbulent with the ripples of the lake.

Ye Chen knows that Ji Siqing won't last long.

Fortunately, he has come.

"The wind rises and the thunder falls, suppress it!"

Ye Chen's eyes were cold, and without saying a word, he directly sacrificed the wind of dawn and the thunder seal.

Bursts of storms, thunders, mixed into a terrible storm and natural disaster, burst out from ye Chen's hands, rumbled, shook the whole world, fiercely toward Guichen and situ Chen by the lake, and fell violently.

This natural disaster, like the judgment of the end of the world, is so fierce and terrifying that it is suffocating.

This piece of heaven and earth was just clear and sunny, but with the arrival of Ye Chen's wind and thunder natural disaster, it immediately turned into darkness. Thunder clouds were brewing, storms roared, and pieces of wind and thunder continued to fall from the sky.

Crackling!

Fierce thunder exploded, and on the edge of the lake, there were more than a dozen Jianmen strongmen on the spot, which were split into coke by lightning.

The terrible current and storm swept everything.

GUI Chen and situ Chen were also thrilled under the bombing of the fierce wind and thunder.

They looked back and saw Ye Chen's figure. They were stunned.

"Lord of reincarnation, it's you boy!"

Situ Chen's eyes contracted and he was completely stunned.

Ye Chen at this moment is simply the embodiment of Thor and Aeolus. The majesty of wind and thunder is so strong that it explodes. Compared with yesterday, it is simply different.

GUI Chen stared at Ye Chen, silent, with a very complex expression.

In the lake, in the boundary of rosethroat, fan Xingyan, Xia Yu and others stared at Ye Chen's lofty figure, looking up at the gods, and their hearts were only shocked.

Ji Siqing also opened his eyes and was stunned.

Her figure reflected in the lake is not her shadow, but the figure of the God of fire.

At this moment, the God of fire seemed to be looking at Ye Chen, and the reflection in the lake was completely distorted, and finally returned to Ji Siqing's own appearance.

"Siqing, sorry, I'm late."

Ye Chen looked at Ji Siqing's face and was very distressed.

Ji Siqing was injured and used enchantment guard. His aura consumption was extremely serious. His face was pale and bloodless, and he looked very weak.

Then, ye Chen's eyes swept from Gui Chen and situ Chen. The sharp murderous spirit flashed in his eyes.

"Gui Chen, situ Chen, yesterday's humiliation and hatred, I want you to repay a hundred times!"

Ye Chen's tone was furious, and his heart lit up a raging anger. With a wave of his hand, a huge ghost ship full of skeletons flew out.

It's the boat of sin. The truth Buddha gave it to him!

"The boat of sin, sacrifice to me!"

Ye Chen's eyes were sharp, and he was actually sacrificing the boat of sin in the air.

This boat of sin is very precious. Ye Chen also borrowed the power of the boat of sin when he cut off the shackles of his heart.

At this moment, ye Chen did not hesitate to sacrifice the boat of sin directly.

Because he knew that situ Chen and GUI Chen were not ordinary people.

If you want to kill them, you must pay a price!

Bang bang!

The boat of sin was sacrificed, and its body burst. Countless mysterious and terrifying black gases rushed out madly, all converging on Ye Chen.

Huhuhuhu——

The terrifying black gas and magic gas kept roaring around Ye Chen.

Chapter 8336

At this moment, ye Chen, blessed by the evil power of the boat of sin, was like the oldest demon God. Layers of terrible weather appeared around him, countless evil spirits Shura were roaring, countless innocent souls were crying, and the purgatory of the sea of corpses was boiling.

After the sacrifice of the sin boat, the evil spirit erupted, which was enough to make the strong in immeasurable realm instantly fall into madness, collapse of the Tao heart, and become possessed.

However, ye Chen cut off all the shackles, and his heart had long been free of shackles.

The evil spirit of the boat of evil will not bring him negative influence, but will only bring him infinite power. It is the energy from time and space. The evil spirit is thin, the darkness is rolling, and it is suffocating.

GUI Chen and situ Chen, as well as a group of strong men in the Jianmen, felt Ye Chen's terrible evil spirit, and everyone was completely shocked.

Ji Siqing, fan Xingyan and others were also shocked, and even many disciples of QIANXING palace and Xingyue Shinto were filled with fear.

That's instinctive fear.

Fear of darkness and death.

At this moment, ye Chen, with the dark evil spirit of the boat of sin, is simply the embodiment of death. He is the demon king of the end of the world, and is extremely terrifying.

"Rock god blood, boil!"

"Rock gun, dark thunderstorm!"

Ye Chen's eyes were cracked, and he roared like a startling demon God, and the blood of the rock god in his body also boiled.

He shook his big hand, which was boundless and endless void. Countless rock and earth auras converged, turned into a huge rock gun in his hand, and threw it from the sky.

Every rock gun is so huge that it's almost like a straight mountain falling from the sky.

Moreover, this is not an ordinary peak.

Every rock gun Ye Chen threw had the evil spirit of the boat of sin, as well as the ancient thunder smell of the thunder seal in the sky.

On the ancient barren rock guns, black fog surrounded, thunder and lightning exploded, crackled, fell into the sky, and the dark thunder exploded, tearing the void, which was extremely spectacular.

This is an unimaginable terrible magic power, an earth shattering means of destruction.

If ye Chen had not been baptized by the purple flame last night, he would not have been able to exert such a powerful killing.

Everyone was stunned, as if they saw the end of the world.

A huge rock gun, accompanied by darkness and lightning, fell to the ground.

Bang, bang, bang, bang, bang——

The terrifying impact sound burst, and the originally flat land was forcibly smashed and collapsed everywhere. Even the underground plate burst, and countless rocks and soil protruded, transforming the terrain, turning the flat land into a mountain.

Rock guns are like rain.

The strong men of Jianmen were embarrassed to avoid Ye Chen's rock gun throwing.

Someone dodged a little slowly and was immediately smashed and nailed to death by the terrible and huge rock gun.

Even if someone escaped, they were also affected by the violent explosion caused by the rock gun landing, and died alive.

Under Ye Chen's terrible rock gun magic, at least half of the Jianmen strongmen died on the spot.

Even some strong men of ancient genius are as fragile as ants under the explosion of such a rock gun.

GUI Chen and situ Chen were also extremely embarrassed, dodging Ye Chen's attack.

Ji Siqing, fan Xingyan and others were stunned.

Ye Chen was already very strong. Now he sacrificed the boat of sin, and the great demon gas was added to him, which was as strong as the ancient demon God. Even GUI Chen and situ Chen could not face Ye Chen's edge.

Let alone in the battlefield, their accomplishments have been suppressed. If they are not suppressed, it will be difficult to fight.

After all, ye Chen at this moment, in order to kill them, also at any cost, even the boat of sin, which is an artifact, is directly sacrificed.

"This boy is crazy, go!"

Situ Chen hissed, burning half a drop of rock god's blood in his body, turning into a rock god shield, protecting his body, and quickly ran out.

GUI Chen's face sank. He consumed too much aura last night. Now he couldn't fight ye Chen at all, so he had to take his people and escape from the other direction.

"Don't run away, just stay!"

"100000 times gravity, suppress it!"

Ye Chen snorted coldly and pressed with a big hand. Yan Shen's blood broke out completely, controlling the earth's vein and directly making the gravity of the earth soar to 100000 times.

Boom!

The huge pressure of 100000 times the gravity made the mountains collapse on the earth, completely unable to maintain their own gravity.

Puff, puff, puff!

Many Jianmen strongmen vomited blood on the spot. Under the huge gravity of 100000 times, some people died suddenly and others were seriously injured.

GUI Chen and situ Chen's body shape, which escaped, also rigidly slowed down because of the huge gravity.

In the lake, Ji Siqing, fan Xingyan and others were not affected at all.

Ye Chen's magic power can be easily retracted and released. Whether it's the rock gun rain just now or the 100000 times of gravity now, it only attacks and kills the enemy without hurting its own people.

This perfect control can highlight his power.

"Situ Chen, you chased me last night and forced me to escape to the Wuyou area. Wasn't it great?"

Ye Chen smiled indifferently and fell from the sky in front of situ Chen. As soon as he grabbed his palm, he grabbed situ Chen's neck.

Situ Chen's teeth chattered, and his eyes were extremely frightened.

If it is an ordinary duel, he is sure to defeat Ye Chen.

But now, his cultivation was suppressed, and ye Chen sacrificed the boat of sin, and he was completely unable to resist.

Chapter 8337

"Lord of reincarnation, in the battlefield, my cultivation is suppressed. Even if you beat me, you will not win. The Taoist heart must have a loss. If you have the ability, wait until you go out."

Situ Chen felt Ye Chen's murderous spirit and knew that he was dying. At that time, he strengthened his self composure and said.

"Hahaha, what a winner."

Hearing situ Chen's words, ye Chen couldn't help laughing.

"However, you are right. Even if I kill you now, you will certainly refuse. Then I will spare your life." Ye chendao.

Situ Chen could hardly believe his ears and said happily, "really?"

Ye Chen said grimly, "I can spare your life, but the rock god blood in your body belongs to me!"

After that, ye Chen slapped on situ Chen's head, and the aura worked like a black hole vortex. With a violent suction, a drop of golden blood was extracted from situ Chen's body.

This drop of golden blood, with the color of the earth and rock, faintly hidden in it is the figure of an ancient god.

That was once the rock god!

In the age of nine gods, one of all gods, the rock god Tianzun was the most powerful existence.

This drop of golden blood is actually half a drop of God's blood!

With this half drop of rock god's blood being extracted, situ Chen screamed sharply on the spot, as if he had been robbed of his soul, and his face and facial features were all distorted.

"Ah, Lord of reincarnation, you must die hard! You unexpectedly took my rock god blood!"

Situ Chen screamed ferociously, losing Yan Shen's blood, and his body instantly fell into weakness and pain.

Although Ye Chen didn't kill situ Chen, taking out half a drop of Yan Shen's blood from his body was more torture than killing him, which directly made his life worse than death.

Ye Chen's hand was taken back from situ Chen's head, and the latter's body fell to the ground with a soft paralysis, and his eyes were already full of despair.

Ye Chen, who got the half drop of rock god's blood, immediately integrated into his body and refined it on the spot.

Hum!

As ye Chen refined the half drop of rock god blood, the rock god blood in his body finally converged into a complete drop.

A drop of rock god's blood took charge, such as a small and complete realm. Ye Chen was full of the brilliance of the rock, and his breath became more calm and magnificent, revealing the abyss and vastness of the earth.

In the dark, ye Chen even peeped into the ancient mystery picture, and saw the scene of the God of rock, who used to forge the book of the emperor of the earth.

The book of the emperor of the earth is in the hands of the supreme goddess, not in the hands of Ye Chen.

However, integrating the whole drop of rock god blood, ye Chen can also borrow part of the power of the earth Emperor God book.

Ye Chen's eyes fell on GUI Chen, and now he wanted to try the power of the earth Emperor God book.

However, seeing ye Chen's strong appearance, GUI Chen had no idea of fighting for a long time.

"Brother ye, you won this battle."

"But I won't easily admit defeat. Let's fight again next time!"

GUI Chen's eyes were tough and determined. Regardless of his own consumption, he forcibly summoned the power of the demon Xinghai. Wisps of dark water vapor wrapped his body, making his body extremely light and disintegrating the pressure of Ye Chen's 100000 times of gravity.

In the next moment, GUI Chen waved his palm and directly took his men away.

At the moment, although he is not ye Chen's enemy, ye Chen can hardly stop him if he wants to escape.

After all, he can use the energy of the demon Xinghai. His body method is too weird.

Ye Chen looked at GUI Chen's leaving figure and recalled the pictures of getting along in the past. His eyes filled with a trace of complexity, and he didn't pursue it.

Besides, Ji Siqing was injured and weak, so it was important to save people.

Ye Chen rushed into the lake immediately. Ji Siqing lifted the barrier and stared at Ye Chen, but with a bitter smile on his mouth, he said:

"I thought I got the inheritance of Vulcan God and could be invincible in the battlefield, but I still overestimated myself."

Ye Chen hugged Ji Siqing, gently stroked her cheek and said, "it's okay, Siqing, I'm here."

Ji Siqing looked at Ye Chen's resolute eyes, his heart warmed, and gently nodded.

At this time, situ Chen saw that the general situation was gone, and he also struggled to get up and fled to the distance.

Xia Yu rushed out of the lake, like lightning, rushed behind situ Chen, drew his sword and stabbed forward, piercing situ Chen's body.

"Xia Yu, you..."

Situ Chen looked back at Xia Yu, his face and facial features completely distorted.

"Situ Chen, the Lord of reincarnation doesn't kill you, but I didn't say I'd let you go."

Xia Yu's voice was indifferent and slowly pulled back his long sword.

Plop.

Situ Chen fell to the ground and was killed on the spot.

Xia Yu looked at situ Chen's body, but his eyes flashed a sigh.

Situ Chen once had half a drop of rock god's blood, but perhaps, the blood of that ancient god is not something ordinary people can take charge of and forcibly occupy, which will only bring death to themselves.

Only those who have great fortune like Ye Chen, Ji Siqing and Yu Huang Aoxue are qualified to inherit the legendary divine blood.

Xia Yu felt a little lucky. He gave his half drop of rock god blood to Ye Chen, which may be the wisest choice in his life.

Ye Chen didn't care about situ Chen's life or death. Anyway, the half drop of rock god's blood was also in hand.

At present, ye Chen offered a sacrifice to wish Tianxing, taking Xia Ruoxue, Ji Siqing, Wei Ying, fan Xingyan and other women, as well as the disciples of Xingyue deity, Canghai world and the realm of life and death, to have a rest.

Xia Ruoxue and other women are seriously injured, which is no longer treatable by ordinary means. They must borrow the essence of reincarnation.

Ye Chen and Xia Ruoxue, Wei Ying and Ji Siqing are in the same room. Their flesh and body are in harmony, and they pass their own essence to the three women to nourish their bodies.

Such consumption of essence and Qi is also a huge burden for ye Chen.

Fortunately, last night, he got the topping of the purple flame, and just refined another half of the rock god blood, which greatly improved his physique.

Otherwise, ye Chen may really be unable to hold on and want to be squeezed dry alive.

After ye Chen's essence and Qi nourishment, the three women's injuries have recovered a lot. Next, as long as they have a good rest, they can completely recover.

However, the injury of fan Xingyan made Ye Chen extremely headache.

After all, fan Xingyan is just his ordinary friend, not his woman. Such a special treatment is naturally inconvenient for her.

Night.

Ye Chen came to fan Xingyan's room and tried to cure her with the eight trigrams heaven elixir combined with some valuable medicinal materials, but the effect was not good.

In fan Xingyan's body, there was always a trace of mysterious black gas, which was the killing breath of the demon Xinghai.

Last night, Guichen broke out extremely, and even borrowed the power of the demon Xinghai, as if to destroy everything.

Fan Xingyan was also greatly impacted. That day, the magic star sea was one of the four highest artifacts, and even a little energy was enough to kill a powerful person in immeasurable territory.

Chapter 8338

The black gas in fan Xingyan's body comes from the demon star sea. If it is not dispersed as soon as possible, she is definitely in danger of falling.

"Brother ye, is my injury better?"

Fan Xingyan stared at Ye Chen and asked softly.

Ye Chen is silent.

"If ordinary means can't cure it, is there any other way?"

Fan Xingyan blushed and asked like a mosquito. She even breathed a little fast.

The atmosphere of the room also became a little charming.

Fan Xingyan's room is next to Xia Ruoxue's and other women's rooms.

In other words, when ye Chen mingled with Xia Ruoxue, Ji Siqing and Wei Ying, she probably heard a voice

"Cough... Miss Fan, I'll think of another way."

Ye Chen coughed awkwardly. He knew what Fan Xingyan meant, but that kind of special treatment can't be used casually.

Even if fan Xingyan doesn't mind, ye Chen doesn't want to mess with cause and effect.

Fan Xingyan was also embarrassed. There was another disappointment of being rejected in her eyes, and she whispered, "OK..."

Ye Chen nodded, and then left fan Xingyan's room.

In the next few days, ye Chen was on the wish star to nourish the bodies of Xia Ruoxue, Ji Siqing and Wei Ying, so that they could recover as soon as possible.

On the other hand, ye Chen is also doing her best to treat fan Xingyan's injury.

With his efforts, the injury on the surface of fan Xingyan completely recovered, but the black gas in her body always lingered, like a tarsal maggot.

That's the killing smell of the demon Xinghai, but it can't be dispelled by ordinary means.

Five days later, Xia Ruoxue, Wei Ying and Ji Siqing recovered completely from their injuries, and their vitality also recovered to the peak.

On the battlefield outside, the situation has also changed.

The golden ranking in the sky, ye Chen's ranking, has fallen to

Chapter 8339

Red flame fairy grass is in the dead zone. If you want to pick it, you must go to the dead zone, which is undoubtedly very dangerous.

After all, the dead zone has been polluted by the dark atmosphere.

Ye Chen's heart moved, thinking of Chen Nan's commission.

The wife of the moral God, the moon soul fairy, fell in the cataclysm of that year, and the remnant soul drifted in the dead zone, which was eroded by darkness and turned into a monster.

Chen Nan hopes Ye Chen can go to spend the moon soul fairy if he has a chance.

And Shen Tu Wan'er is probably also in the dead zone!

On the other hand, the monsters in the hegemony area and the non secluded area are almost killed.

Ye Chen also needs to go to the forbidden area if he wants to get the purple flame and regain the first place.

"Miss Fan, I'll help you find the red flame fairy grass. Just as I'm going to the dead zone."

Ye chendao.

Fan Xingyan was excited and said, "really?"

Ye Chen nodded and said, "well, it's not too late. Let's start as soon as possible."

At present, other contestants are still in the hegemony area and Wuyou area. Everyone knows that the monsters are about to be killed. If you want to get a new purple flame, you can only go to the back two areas.

However, because the dead zone and merit zone behind are surrounded by darkness, it is too dangerous. No one dares to step in rashly and is waiting for others to open the way.

Therefore, all the contestants fought fiercely in the first two districts. The new purple fire has disappeared. If they want to increase their chips, they can only hunt others.

In the fierce fighting, many strong men fell, and many people, unable to bear the brutal killing, withdrew from the race one after another.

Originally, there were tens of thousands of contestants in the supreme meritorious war, but after five days of fighting and killing, only 3000 people remained.

Ye Chen deduces the secret of heaven, has an insight into qiuhao, and clearly perceives all changes in the outside world.

He knew that it was obviously more important to open up a new fire source than to roll it inside.

Going to the dead zone is undoubtedly a better choice.

Although it is said that the dead zone is heavily polluted by the dark atmosphere, ye Chen also has absolute confidence in his strength.

At that moment, ye Chen discussed with Xia Ruoxue, Ji Siqing and others briefly.

They are also willing to follow Ye Chen and step into the dead zone together.

Ye Chen led the team and urged the wind of dawn. The group gathered their breath and went to the dead zone with a very low profile.

Start from the hegemony area, cross the non secluded area, and finally come to the boundary of the dead zone.

There is a very clear boundary between the non secluded area and the dead zone.

It is during the day that the non secluded area has a fresh and bright weather.

But the area ahead is surrounded by black fog, which will not disperse.

In the black fog, there were faint bursts of gloomy growls, and ancient singing, just like the murmur of gods and demons, which was creepy.

"This is the dead zone..."

Ye Chen looked at the dark area in front of him, and his heart was also dignified.

Xia Ruoxue, Ji Siqing and others felt the terrible dark breath, which was also extremely dignified.

"Let's go."

Ye Chen didn't hesitate too much. With a wave of his hand, he took the people forward.

Although the dead zone is dangerous, there is no reason to retreat at this time.

The party followed Ye Chen and carefully entered the dead zone.

The moment everyone stepped into the dead zone, there was a feeling of suffocation.

The dark smell here is too strong. There is black fog everywhere. As soon as people come in, they are surrounded by black fog. Even the aura in the Dantian seems to be blocked.

Ye Chen launched the Tianxian Koi copy to resist the erosion of the dark mist for the people. With a concentrated reaction, he caught the secret breath of the red flame fairy grass, winked at the people and continued to move forward.

The audience outside the battlefield were shocked to see ye Chen and others step into the dead zone.

The dead zone is surrounded by black fog, and the mystery is extremely closed, so that the audience outside can't see a clear picture, only see layers of black fog.

Mo Zu Wutian, Yu Huang GuDi, Duobao Tianjun, willing to leave, ye Linyuan and others all wanted to know ye Chen's trend, immediately released their divine consciousness, crossed the void, shrouded over the dead zone, and tried to visit.

On the square, many strong people also released their divine consciousness and peeped into the cause and effect of the dead zone.

However, under the cover of the dark atmosphere, even the most powerful people, such as the ancient emperor Yu Huang and the demon ancestor Wu Tian, could not completely see the whole picture, but could only vaguely see a little outline.

.....

At the same time, in the dead zone.

Ye Chen was cautious and walked towards the direction of red flame fairy grass with fan Xingyan, Xia Ruoxue and others.

The dark smell around was getting stronger and stronger, and everyone felt a palpitation.

In the boundless darkness, they seemed to hear all kinds of secret singing.

"Feel grace!"

"Listen to the truth!"

"The holy household of death!"

"Embrace greatness!"

"Holy glory!"

"Death will last forever!"

"The end of the trial!"

The chants, from weak to clear, from clear to loud, and finally in all directions, are full of devout and passionate chants, such as the most fanatical believers, praising their great Allah.

The black fog twisted, like a surge of tide, and countless ferocious monsters emerged from the black fog.

It was a head of human monsters, a head of twisted demons, a piece of worms bigger than Python dragons, and countless strange and mysterious existence, with a dark and dirty smell, came to Ye Chen and his party all around.

Their arrival is so abrupt that there is no sign one second before, and the next second they appear from the black fog, with an overwhelming smell of filth and the terror of death.

Ye Chen looked at the countless monsters around him, and his pupils contracted slightly.

At a glance, he could be sure that these monsters came from the Death Cult!

Sure enough, the death penalty area has been invaded by the death cult, and I don't know how many demons hover here.

A ferocious and twisted monster, with a terrifying roar, came from all directions to fight ye Chen and others. It was like a group of demons.

"Be careful! Follow me!"

Ye Chen shouted, and the blood of the rock god in his body flowed, and the brilliance of rock and soil burst out all over his body, forming a boundary of rock.

Hum!

The enchantment of rock was released, enveloping Ye Chen's body, as well as fan Xingyan, Xia Ruoxue and others.

Hiss!

Those monsters came and crashed into the crystal wall system of the rock junction, as if a little snow fell on the red stove, melted at a sniff, and turned into the most primitive black fog and dispersed.

Ye Chen, the boundary of rock, is extremely strong, containing the majesty of the ancient rock god.

The earth and rock and soil, which originally symbolize absolute defense, are as solid as gold and unbreakable.

Moreover, this border of rock has a special restraining effect on the monsters of the Death Cult!

Chapter 8340

After all, the sea king demon, who was called the God of death, was also suppressed by the God of rock.

Under the impact of the energy of the rock barrier, many monsters that came up to kill collapsed and scattered, and purple flames fell out of their scattered bodies.

Ye Chen and others were quick in their eyes and hands, and received all the purple flames in their hands.

"It's the God of rock!"

"Rock god reborn? It's impossible!"

Many monsters around made twisted and hoarse sounds, full of shock.

Countless dark eyes stared at Ye Chen, unable to believe it.

For the monsters of the death cult, the God of rock, the God of heaven, can be said to exist like a nightmare.

"Kill him!"

"It's a shame to kill the rock god!"

Many monsters roared. Under the distortion of hatred, anger and fear, their bodies were also severely distorted, and there were countless strange tentacles, which grew savagely on the earth like vines.

In the next moment, countless tentacles covered Ye Chen's rock junction crystal wall system. Hundreds of twisted monsters, fearless and fearless, rushed up, and then exploded on the spot.

Boom, boom, boom!

A startling self explosion exploded, and the terrible airflow tore everything apart.

Ye Chen's boundary of rock was also abruptly broken by the terrible explosion.

Even the earthy aura between heaven and earth was suppressed.

Those monsters are so strong that they would rather sacrifice themselves than suppress Ye Chen.

As soon as the barrier was broken, countless monsters left surged up like a tide, and immediately dispersed the formation of Ye Chen and his party.

"Damn it!"

Ye Chen bit his teeth, and suddenly felt a thorny, but he didn't expect that the monster in the dead zone was so fierce.

The formation was dispersed, and ye Chen also separated from Xia Ruoxue, Ji Siqing and Wei Ying, leaving only fan Xingyan.

This is the result of Ye Chen's strong protection. He knows that fan Xingyan's internal injury is not well. If she is left alone, there is only a dead end.

Twisted and huge worms, with mouthparts full of sharp teeth, attacked Ye Chen madly, looking extremely horrible.

"Purple lightning God thunder knife!"

Ye Chen waved his hand, and the thunder and lightning exploded, turning into a dozen knives and slashing fiercely around.

Puff, puff, puff!

The giant insects and monsters were cut off by Ye Chen on the spot, flowing dark green liquid full of filth and darkness, making a lament, and were killed at once.

After they were killed, purple flames fell out one after another, and even some powerful monsters dropped out a red fire lotus.

The red fire lotus is actually made up of hundreds of purple flames.

In other words, getting a fire lotus is equivalent to getting a hundred purple flames!

Although the dead zone is dangerous, the number of purple flames that can be obtained is far richer than that of the outside world.

The monsters here have been entrenched in the dead zone all year round. I don't know how many thousands of years, they have continuously absorbed the breath of the earth vein, and the fire energy in

the earth vein has converged into their bodies to form a purple fire. The energy is pure and numerous, which is not comparable to those monsters outside.

Ye Chen killed all the giant insects and monsters around, and immediately harvested a lot of purple fire.

However, ye Chen was not in a happy mood.

Because those monsters, simply unbearable, constantly emerge from the darkness.

If it goes on like this, no matter how magnificent Ye Chen's aura is, it will be exhausted alive.

Xia Ruoxue, Ji Siqing and Wei Ying are also struggling to fight with the monsters around them.

Ye Chen wanted to help them, but the dark fog in front of him was getting stronger and stronger.

In the end, it had reached the point where you couldn't see your fingers, and the terror was extreme.

Under the cover of the black fog, ye Chen could not see Xia Ruoxue and others, but heard bursts of fighting.

Fan Xingyan was frightened and held Ye Chen's hand tightly for fear of being separated.

Ye Chen took out the reincarnation Heavenly Sword and cut off the monster that rushed out of the black fog, but even if his arms were numb, the monster showed no sign of decreasing.

And under the impact of countless monsters, he and jisiqing and others, the distance is getting farther and farther, completely separated.

There are many monsters that have special power of space law. They deliberately cut space and completely scattered Ye Chen, Ji Siqing and others, so as not to let them work together.

Obviously, these monsters are intelligent and extremely difficult to deal with.

Ye Chen's cultivation is strong, and he can cope even if he fights alone. In his heart, he is only worried about Xia Ruoxue and Ji Siqing. He is only afraid that something has happened to them.

"Roar!"

At this time, a terrible dragon roared.

I saw a huge monster coming down in the dark fog. It was a giant dragon with wings!

The dragon was dark all over, and its body seemed to be cast of obsidian, with a cold light, bloody eyes, and a cold murderous spirit, staring at Ye Chen.

"Lord of reincarnation, you actually inherited the orthodoxy of the rock god."

The dragon's voice was low, full of surprise and anger.

Ye Chen looked at the dragon and immediately felt the boundless darkness and majesty.

Compared with ordinary monsters, the breath of this giant dragon is much stronger.

"No, it's the family member of the sea king, black pterosaur!"

Looking at the dragon, fan Xingyan also made a shocking cry, and her beautiful eyes contracted for a while.

"Black pterosaur?"

Ye Chen's face was also heavy.

"The sea king once had four relatives, each of which was extremely strong. Brother ye, you are not the enemy of this monster, go!"

Fan Xingyan shouted in a frightened voice.
