### Chapter 9401

Seeing that Ye Chen's body was about to be beheaded, in a crisis, Ye Chen controlled the clone and summoned a magic weapon.

"Apocalypse of the Nine Gods, guard!"

Ye Chen shouted violently, nine-color divine light bloomed in the void, and a volume of heavenly scriptures emerged against the backdrop of infinite rays of light and infinite auspicious mist.

It is Nine Gods Record!

As soon as the Nine Gods Record came out, the majestic law of the avenue flickered in the void.

The nine-color rays of light are like a rainbow, surrounding the Nine Gods Record, bursting out the singing of the heavens, rumbling like thunder, shocking people's hearts.

As soon as this volume of Nine Gods appeared, it was suspended above Ye Chen's head, emitting a vast protective brilliance.

"This is... the Record of the Nine Gods!?"

Xiong Bayao's face changed wildly, and he swung his sword down, which was enough to destroy the starry sky, but it was completely unable to break through the protection of the Nine Gods Record.

Ye Chen's body, under the protection of Nine Gods Record, was as stable as a mountain, motionless, without any harm.

"Fortunately, there is Nine Gods Record Body Protection."

Ye Chen secretly breathed a sigh of relief. The potential power of the Nine Gods Record is very terrifying. It contains the mystery of the Nine Gods Tianzhao. It heralded the birth of the Nine Gods back then, and it has the power of the world.

With Ye Chen's current cultivation base, he still can't display the real killing power of Jiushenlu, but it is easy to use Jiushenlu's body protection.

Under the protection of Jiushenlu, Xiong Bayao was completely unable to break through.

"Damn it, you are mere Sky Profound Realm, you can exert the power of Nine Gods Record? I don't believe it!"

Xiong Bayao gritted his teeth, his face was furious, he didn't believe that Ye Chen could control the Nine Gods Record, and immediately swung his knife like a shower, slashing wildly again and again, one after another knife energy smashed through the void, hissing, and the sonic boom was intense.

bang bang bang!

Countless sword qi slashed at the surface of Ye Chen's skin, but they were all blocked by a nine-color divine light, and did not hurt Ye Chen himself.

That nine-color divine glow is exactly the protection of the Nine Gods Record.

Under the protection of the Nine Gods Record, Ye Chen seems to be invulnerable to all dharmas, indestructible to the heavens, invulnerable to King Kong, extremely powerful.

However, after all, Xiong Bayao is a strong man in the Divine Dao Realm, and a small part of the saber energy he slashed madly, still had a small part of his strength, and killed Ye Chen's body.

This small amount of strength, accumulated over tens of thousands of knives, also made Ye Chen's muscles and bones ache, and his body seemed to be torn apart.

"It seems that you are not invincible."

Xiong Bayao saw this keenly, swung his knife like splashing ink, and continued to slash Ye Chen frantically.

Ji Siqing, Wang Pingan and others were horrified when they saw this scene.

Xiong Ba Yao Wu Dao is too powerful, the rage of the sword is so crazy that it is impossible to get close to it.

Even with the protection of the Nine Gods Record, Ye Chen would still be under enormous pressure under such a strong saber force.

However, he gritted his teeth and endured it, as long as the watch tree fully recovered, it was time for him to fight back.

Time passed bit by bit, and the brilliance of the watchman tree became more and more intense.

Seeing that the situation was not good, Xiong Bayao bit the tip of his tongue, spewed out a mouthful of blood, and splashed on the knife. Immediately, the knife's aura surged, and he chopped Ye Chen even more frantically, trying to force him to stop recovering the watchman tree.

The berserk sword qi radiated out, causing all the branches of the watchman tree to be cut off, and the fallen leaves were flying all over the sky, which was a spectacular sight.

"not good!"

Ye Chen felt the power of Xiong Bayao's madness, and his face sank.

The pressure he was under suddenly increased a lot, and his bones creaked, as if he was about to be crushed, and he could hardly bear it anymore.

"Lord of reincarnation, I bless you."

At this moment, a faint voice, like a clear spring and as cold as an oriole in an empty valley, reached Ye Chen's ears with some sweetness and resentment.

This voice actually came from inside the temple, and I don't know whose voice it was.

"Lord of reincarnation, I pray for you."

"The forest will protect you, the wind, the clouds, the sky, the earth, the flowers, the dreams, all the beauty in the world will protect you."

The voice was very gentle, reaching the ears of everyone present.

People from the Grass God faction and the Yuhuang faction, Wang Ping'an, Yuhuangdong, etc., were fighting fiercely, but after hearing this voice, the murderous aura and fighting intent in everyone's hearts disappeared miraculously, as if they were captured by an invisible force. The power was dissolved, and everyone stopped fighting and stared blankly in the direction of the temple.

"It's the traitor Lianmeng! Is she still alive?"

Yuhuang Dongda was furious, as if he knew who made that voice.

After the sound of prayer came out, the sky, the earth, the wind and clouds, the flowers and plants, the forest, and everything seemed to have a wonderful power.

That is a force of nature.

Ye Chen could feel that the power of nature, the power of the forest, and the power of the entire leylines of the forest guarded him, as if they were all gathered in him, bringing him supreme blessings.

Under this blessing, Ye Chen's spirit was lifted up, and he completely harmonized and merged the breath of reincarnation blood and origin fairy water inside the watchman tree, and completely revived the watchman tree.

The fully revived watch tree has doubled in size, and the tree has been inserted high into the sky, with leaves covering the sky and the sun, and the majestic and abundant vitality spreads in every corner of the forest.

Under the nourishment of this vitality, the grass god faction and the Yuhuang faction, who were injured in the battle, all healed immediately, as if everyone had been blessed by the watch tree.

And Ye Chen, as the person who revived the watchman tree, the blessing he received was deeper than all the people combined.

Crash!

A green radiance enveloped Ye Chen's whole body.

Chapter 9402

Under the cover of this green light, Ye Chen felt that he had infinite power.

brush!

Ye Chen stretched out his hand and grabbed the blade of Xiong Bayao's slashing blade.

He just grabbed Xiong Bayao's knife with his bare hands, and he was unscathed.

On the palm of his hand, there was a layer of emerald light surrounding him, protecting him from injury.

At this moment, the Watching Tree has fully recovered, bringing Ye Chen the supreme blessing.

Under the protection of the Watching Tree, Ye Chen's combat effectiveness has improved a lot.

If it was in the outside world, it must be very difficult for him to fight against a powerhouse like Xiong Bayao in the divine way. If he wants to win, he does not know how much he will have to pay.

But now, within the scope of the Temple of the Grass God Sect, under the protection of the watch tree, Ye Chen's combat power has improved, and it is much easier to fight against Xiong Bayao.

He was even able to grab Xiong Bayao's knife with his bare hands!

"Damn it! The ancestor said you have great luck, and His Majesty the Ancient God also said that you are difficult to deal with. You really are not easy!"

Xiong Bayao was furious. He had heard that Ye Chen had great luck and was extremely difficult to deal with.

He had never seen it before and had always been skeptical.

Now that I have experienced it myself, I immediately feel that Ye Chen is terrifying.

Originally, he thought that relying on the power of his own godly realm would be enough to suppress Ye Chen, but he didn't expect that Ye Chen had received the supreme protection of the watch tree at this moment, and wanted to suppress him in turn.

"War mad source body, open!"

Xiong Bayao abandoned the knife and took a step back, his face became extremely ferocious, he clenched his fists suddenly, shouted wildly, his muscles exploded, violent power erupted, his black hair turned into a golden color, strands stood up, roaring with golden flames all over his body, the weather is very spectacular.

At this moment, he actually activated the source body of the war madman!

The Zhankuang source body is a special physique of the Zhankuang family.

The power of this physique is very violent, and it must be hidden in normal times, otherwise it will easily make people fall insane.

And after opening the source body of the war madness, all the hidden power will explode, and the combat power of the person will soar in an instant, just like turning into a berserker, very ferocious.

This Zhankuang source body cannot be activated frequently, otherwise Zhankuang's hostility will erode the Dao heart, make people lose their minds, and go crazy.

Therefore, even members of the Zhankuang family will never activate the Zhankuang source body unless it is absolutely necessary, because the cost is too high.

But now, facing Ye Chen, Xiong Bayao didn't care about so much at all, and directly turned on the Zhankuangyuan body, transformed into a golden berserker, furious, his height was at least half raised, his physique became thicker twice, like a head Like a giant, he punched Ye Chen.

"Lord of reincarnation, if you can force me to activate the source body of the war madness, you deserve to die!"

Xiong Bayao grinned, his eyes were ferocious and violent, the power of his fist was much more ferocious than before, it was as if he wanted to smash the laws of heaven and earth with one punch, extremely tyrannical and domineering.

Even though Ye Chen had the protection of the watch tree, facing such a violent punch from Xiong Bayao, he still felt great pressure and a dangerous aura rushed towards his face.

Ji Siqing, Wang Ping'an, Yu Huangdong, and all the fighters in the audience were astonished and shocked when they saw the power of Xiong Bayao's punch.

"Is this the power of the Zhan Kuang source body? It really is domineering and invincible."

"This Xiong Bayao is so powerful, how can the Lord of Reincarnation be an opponent?"

"Could it be that the good luck of the Lord of Reincarnation has really come to an end?"

There were bursts of voices, and after feeling the violent power of Xiong Bayao, everyone thought that Ye Chen was going to be blown away with a punch.

The power of the Zhan Kuang source body is indeed too strong.

"Extraordinary source body? Hehe, I have it too!"

Under the tremendous pressure, Ye Chen didn't panic, he smiled coldly, and then his whole body burst into bursts of dragon chant, which was melodious and ancient, and spread throughout the whole world.

Roar!

Then, the sound of the dragon's roar turned into a terrifying roar, and a golden dragon flew out of Ye Chen's body and hovered over his arm.

That is the power of the Tianlong source body!

The Tianlong source body can transform every cell particle in the body into a dragon.

The human body is composed of hundreds of millions of particles, each of which can transform into a dragon.

At the peak state, hundreds of millions of dragons soar to the sky, enough to overwhelm the gods of the emperor of heaven. This is the power of the source body of the dragon, and it is the extraordinary power created by Emperor Yuantian himself.

After Ye Chen awakened the Tianlong source body, his body already had 100,000 particles that could transform into a dragon.

At this moment, he summoned a golden dragon and wrapped it around his arm.

The strength of his arm suddenly increased sharply, and he also punched out without any fear, wanting to face Xiong Bayao head-on.

"This is... the source body of Tianlong!? The extraordinary power created by Emperor Yuantian!"

Seeing this, Xiong Bayao was shocked, but seeing that Ye Chen's cultivation was only the seventh level of the Profound Sky Realm, he felt relieved and sneered:

"It's a pity that you are mere seventh-level sky of the Sky Profound Realm, and you still can't exert the power of the Heavenly Dragon Origin Body! Die for me!"

Xiong Bayao's face was extremely ferocious and ferocious, his whole body was violent and arrogant, and the power of his fists exploded to the peak. He didn't believe that with his strength close to the first level of the Divine Dao Realm, he would lose to Ye Chen.

boom!

The fists collided and struck each other.

This is not only the collision of the fists of the two, but also the collision of the source body of the war madman and the source body of Tianlong.

The moment the two fists collided, the roar of the war madness and the roar of the sky dragon exploded in the void, and the billowing air burst, tearing the void, and even the sky was shattered, revealing pieces of black unknown space.

Chapter 9403

The Temple of the God of Grass is protected by a watch tree, and it can still remain intact under the impact of the majestic airflow.

However, the large tracts of forest in the outside world and the trees were directly destroyed by the energy generated by the collision between Ye Chen and Xiong Bayao. The big trees fell to the ground, rumbling sounds came from all directions, and dust flew .

Ye Chen snorted, and took three steps back in embarrassment, feeling his fists were numb, and his bones seemed to be smashed.

In terms of extraordinary power, his Tianlong source body is not inferior to Xiong Bayao's Zhan Kuang source body.

But what Xiong Bayao said is right, the difference in strength between the two is too big, Ye Chen only has the strength of the seventh level of the Profound Sky Realm, so if he wants to go head-to-head with Xiong Bayao, he will naturally fall into a disadvantage.

"Boy, although you have great luck, it's over."

"You are only in the Sky Profound Realm, but it seems that you still can't compare with me in the Divine Dao Realm."

Xiong Bayao sneered again and again, and looked complacent again.

The people around Yuhuangdong and other Yuhuang faction were already cheering and applauding, praising Xiong Bayao's strength.

Ye Chen listened to Xiong Bayao's words, but smiled lightly, and said to him: "Really? Look behind you."

Xiong Bayao was taken aback for a moment, then looked back subconsciously, and then saw an incredible scene.

I saw another "Ye Chen" holding a sword, with a terrifying destructive aura on the blade, slashing towards his back fiercely.

That's Ye Chen's Qinglian avatar!

Ye Chen sneered, controlled the clone, and destroyed the sword energy to burst out to the extreme.

"Five Decays of Heavenly Emperor, Sword of Destruction, break!"

Ye Chen shouted violently, and the clone raised his sword and slashed out.

The sword qi howled fiercely, and rushed towards Xiong Bayao's back.

Ye Chen knew that Xiong Bayao after activating the Zhan Kuang source body was extremely powerful, and it would be difficult to win if he confronted head-on.

Therefore, he secretly mobilized Qinglian's avatar to make a sneak attack and assassination.

Under the cover of the breath of the watch tree, Xiong Bayao didn't notice the sneak attack at all.

Now he turned his head and saw Ye Chen's avatar, swiping his sword with a terrifying murderous aura of destruction, sweeping towards him, his pupils suddenly contracted violently.

This sword is the sword of destruction in the Heavenly Emperor's Five Decay Swords, and its lethality is extremely terrifying, even with a body that dominates the Yao Shen Dao realm, it is unbearable.

The Sword of Destruction is terrifying. If you cultivate to the peak level, you can kill even the Lord God of Heaven.

With Ye Chen's current strength, it is naturally impossible to hurt the real God of Heaven, but now with the help of the watch tree and the blessing of the rules of heaven and earth in the real world, it is very possible to kill a lower god of Xiong Bayao's level of.

Puchi!

The terrifying destructive sword energy slashed hard at Xiong Bayao's back.

Xiong Bayao was attacked suddenly, unable to dodge in time, he was hit by the sword on the spot.

I saw the muscles on his back were torn off by the sword energy, and the blood was dripping with blood, exposing the thick bones. The horrible wound carried a terrible breath of destruction, even with his body in the divine realm, he couldn't recover and heal.

The horror of the Sword of Destruction is that the wounds caused by the sword qi will never heal, and the wounds will bleed forever until the injured person bleeds dry and dies.

"Ah, Lord of Reincarnation, if you dare to hurt me, I will kill you!"

Xiong Bayao was injured, his back was in severe pain, heart-piercing, he yelled ferociously, he transformed into a berserker, at this moment he was even more mad and violent, like a madman, the aura emanating from his whole body changed from golden to golden. It turned into a blood-red color, and the pupils of the eyes seemed to have been soaked in blood for thousands of years.

Stimulated by the pain of the wound, Xiong Bayao looked like a madman, he stepped on the ground with his feet, the world collapsed, his body rushed out, and the fists in his hands erupted with unprecedented ferocious blood, blasting towards Ye Chen's head.

Ye Chen's eyes narrowed slightly, Xiong Bayao at this moment was more ferocious and terrifying than any other moment just now, if he was punched by him, he would be seriously injured even if he did not die.

But Ye Chen knew that such a fierce and violent state would not last long.

The damage caused by the Sword of Destruction will soon weaken Xiong Bayao.

At the moment, Ye Chen was not in a hurry, he was calm and calm, Lingfeng Shenmai was opened, and the breeze surrounded him, avoiding Xiong Bayao's attack.

Under the rage, Xiong Bayao bombarded and killed him repeatedly, but because he was too violent, his moves went straight and straight without any subtle changes, allowing Ye Chen to easily dodge.

Gradually, Xiong Bayao was unable to attack for a long time, the wound on his back was bleeding continuously, and even a dark aura of destruction emerged, eroding into his bones, causing him pain to the bone marrow, and gradually fell into weakness, panting, and his offensive became weaker. have to slow down.

Yuhuangdong and other elite warriors of Yuhuang faction saw the bad situation and immediately wanted to leave, but they were stopped by Wang Pingan and Ji Siqing.

At this time, the Watching Tree has recovered, and with the help of the Watching Tree, the Caoshen faction has the upper hand, and Yuhuangdong and the others are no longer their opponents.

Seeing that Xiong Bayao was weakened and it was time for him to fight back, Ye Chen immediately slashed out with a sword.

This sword is still the sword of destruction, but it is Ye Chen's body, and the lethality of the sword is much more terrifying than before.

I saw a destructive sword energy like a dark thin line, with extremely fierce killing fluctuations, tearing the void, emitting a sharp sonic boom, whizzing towards Xiong Bayao's waist, intending to kill him in the middle.

Xiong Bayao was terrified, the power of the Zhan Kuang source body was rapidly declining, his hair was loose, his eyes were confused, and his face was full of exhaustion. Facing Ye Chen's sword energy, he was already unable to parry.

Chapter 9404

Ye Chen's Sword of Destruction is one of the Heavenly Emperor's Five Decay Swords. It has a huge lethality. If it is shot by him himself, it is enough to cut off all the timelines of Xiong Bayao and cut off any possibility of his resurrection.

At the juncture of life and death, Xiong Bayao signed seal formulas with both hands again and again, laying down a series of prohibitions to protect.

Scoff!

However, Ye Chen's sword energy was too fierce and fierce, directly cutting through his layers of restraints and guards, and finally slashed hard at Xiong Bayao's waist.

"ah!"

Xiong Bayao let out a scream. Even though the restraint and protection were dispelled, the power of Ye Chen's sword energy was slightly weakened, but he couldn't cut him in half.

However, the terrifying sword energy of destruction still cut a deep wound on his waist, and the blue and green intestines fell out. The scene was very bloody and terrifying, and he completely lost his fighting power.

Seeing this scene, Ji Siqing, Wang Ping'an, Yu Huangdong and others were all shocked.

Xiong Bayao is a master who is close to the first level of the Divine Dao Realm. Even if he is suppressed by the rules of heaven and earth, Ye Chen still has the blessing of the watch tree, but with such a big difference in realm, he was almost cut in half by Ye Chen.

Of course, the biggest source of strength is the shelter of the watchman tree to achieve this step.

But no matter what, Ye Chen's fighting power was almost beheaded to kill the Divine Dao Realm, which can be called earth-shattering, unprecedented in all ages.

"Very good, I have stepped into the late stage of the Sky Profound Realm, and my strength is indeed much stronger than before."

Ye Chen nodded secretly. He could feel his fighting power. Compared with the past, it was advancing by leaps and bounds. He was already capable of fighting against a strong man at the first level of the Divine Dao Realm.

Xiong Bayao held his belly to prevent his intestines from falling out, he looked very embarrassed, his face was pale, and he backed away again and again.

Let alone Ye Chen now, any warrior in the audience can kill him.

"Old Ancestor, help... help..."

Xiong Bayao snorted, and uttered some vague syllables in his throat, as if he wanted to ask for help, or as if he was praying.

With a cold expression on Ye Chen's face, he wanted to strike out another sword to completely kill Xiong Bayao.

"Lord of reincarnation, wait a minute!"

However, at this time, the sky and the earth turned pale, the nine heavens were heavenly, the thunder was rolling, the dark clouds covered the top, the laws of time and space were distorted, and the heavens were in turmoil. An old, calm, and faintly domineering voice came down from the nine heavens.

This is actually the voice from Wuwu time and space!

"who is it?"

When Ye Chen heard this voice, his heart was shocked, and he faintly caught the master behind the voice. His cultivation was very powerful, and he might be a big shot at the same level as Emperor Jiantian, Buddha and others.

It is the Ninth Grade Heavenly Emperor!

"Old Ancestor!"

When Xiong Bayao heard this voice, he seemed to hear the sounds of nature, and his expression suddenly became excited.

The old voice said: "This old man is the Patriarch of the Xiongba Clan, the Ninth Rank Heavenly Emperor Xiong Batian, Ayao is a member of my Xiongba Clan, the Lord of Reincarnation, please hold your hand high and spare his life."

The Xiongba family is the famous Zhankuang family, possessing the source body of Zhankuang.

The person behind that voice is actually the patriarch of the Xiongba family, Xiongbatian!

Xiongbatian is not only the patriarch of the Xiongba family, but also a high-level elder of the Tuodi Tianzong. Even the ancient god Tuodi is courteous to him.

In Tuodi Tianzong, there are people who dominate the family in various important positions.

In Wuwu time and space, the Xiongba family can be called a giant, and it was able to keep pace with the Wuque family back then.

Now the Wuque family has declined, but the Xiongba family is still at its peak.

Ye Chen was very surprised when he heard that Xiong Batian actually pleaded for mercy and asked him to let Xiong Bayao go, and said, "What if I say 'no'?"

Xiong Batian chuckled, and said: "Master of Reincarnation, you have to think clearly, offending my Xiong Ba family is not a good thing."

"His Majesty the Ancient God wants to kill you, but I don't approve of it. Wuwu Time and Space is big enough to accommodate two overlords."

"I don't intend to be your enemy, but you can't hurt the people of my Xiongba family. This is my bottom line."

Ye Chen chuckled, glanced at Xiong Bayao, and said, "You guys from the Xiongba family almost killed me, and you said you don't want to be my enemy?"

Xiong Batian said: "The younger generation is ignorant and offended. Please forgive me, Lord of Reincarnation."

"Well, as long as you are willing to let him go, I can tell you an important piece of information about Sanwei, how about it?"

"Three tails?"

Ye Chen's heart trembled.

Xiong Batian said: "Yes, I wonder if you are interested in the information about the tail beast? After many investigations, I have confirmed that Sanwei has come to the real world. I can tell you the relevant information, as long as you are willing to let him go."

Xiong Batian's words were quite sincere.

But in the dark, Ye Chen caught a hint of conspiracy and crisis.

Although there are no traces in Xiong Batian's words, no good or bad secrets can be seen.

However, Ye Chen had a keen sense and still felt some danger.

"Hehe, Xiong Batian, don't you want me to fight Sanwei, and you hide behind and reap the benefits?"

Ye Chen sneered, seeing Xiong Batian's intentions.

Xiong Batian said: "Where is the matter, you think too much."

Ye Chen said: "Stop talking nonsense, if you want Sanwei's information, I will check it myself, if you Xiongba family members want to kill me, then you can only pay with your life!"

After finishing speaking, Ye Chen's eyes suddenly became sharp, and he swung his sword to kill Xiang Xiongbayao's neck.

"you dare!"

In the sky, Xiong Batian's voice was furious.

Everyone in the audience was also horrified. They didn't expect Ye Chen to be so bold. Xiong Batian even came forward to intercede, and he wanted to kill someone.

But, suddenly, Ye Chen's sword edge stopped in front of Xiong Bayao's neck.

Xiong Bayao's face was ashen, and his body was trembling.

Ye Chen smiled and said, "I've changed my mind."

Xiong Batian was delighted, and said: "Lord of Reincarnation, you know how to measure, as long as you don't kill people, you can say anything."

Xiong Bayao is a member of the Xiong Ba family. Like these extraordinary families, all the disciples are connected with each other. If one person dies, his luck will collapse, and other people will be implicated.

Therefore, most extraordinary families must be very united, because they are united, and once there is internal fighting or death or injury, it is likely to lead to the decline of the entire family, such as the Wuque family.

Members of the Transcendent family, because they possess the Transcendent source body, will not die under normal circumstances, and will retain a timeline to some extent, allowing them to be resurrected.

However, Ye Chen's sword of destruction is too strong, enough to kill all the timelines of some strong people whose realm is not too against the sky.

Therefore, as the head of the family, Xiong Batian had no choice but to intercede in person after sensing the danger, otherwise Xiong Bayao's death would have a huge impact on the family's luck.

Hearing that Ye Chen was willing to change his mind at this moment, Xiong Batian was delighted.

Ye Chen smiled and didn't speak, but sacrificed a dark lair, which was the mother's lair of the rune ghost.

## Chapter 9405

Xiong Bayao, who thought he didn't have to die just now, changed his face instantly after seeing the appearance of the nest of rune ghosts.

Xiong Batian also felt something was wrong, and shouted: "Lord of Reincarnation, what do you want to do?"

Ye Chen said with a smile: "It's nothing, I won't kill him, and I want to turn him into my companion."

Ye Chen activated the talisman ghost's mother's nest, and a powerful force of darkness devouring it was released immediately.

With a scream, Xiong Bayao was swallowed into the mother's nest of the talisman ghost.

"Old Ancestor, help, help!"

Xiong Bayao screamed a few times, but his voice was quickly drowned out by the darkness of the lair.

Ye Chen waited for the darkness in the lair to brew for a while, and then released Xiong Bayao.

The released Xiong Bayao's skin has turned black, covered with dark runes, his face is numb, his eyes are empty, and he has lost all brilliance.

He has become a puppet.

Ye Chen's mother nest of rune ghosts is very terrifying. In addition to summoning rune ghosts, it can also devour enemies and turn them into rune ghost puppets.

Of course, this must be when the other party is extremely weak or seriously injured!

At this moment, he made Xiong Bayao his puppet.

An extraordinary puppet, even if it is seriously injured, but at least the other party is also a puppet who used to be a puppet in the divine way, and its combat power can be imagined.

After becoming a puppet, Xiong Bayao stood silently beside Ye Chen.

Puppets can't speak, and they don't have feelings or thoughts anymore. They are pure killing machines.

As long as Ye Chen has a thought, Xiong Bayao will even kill the members of Xiong Ba's family.

"Ahhh, boy, you, you, you, you are so insane that you turned the people in my dominant family into puppets!"

Xiong Batian's voice collapsed on the spot, and he could no longer keep calm, completely furious and mad, the sky thundered and the wind and clouds roared, as if the end was coming, it was very terrifying.

However, Ye Chen knew that Xiong Batian was a big figure of the Ninth Rank Heavenly Emperor, and under the restrictions of the law, he could not come to the real world, even if there was great anger, he would not be able to attack Ye Chen.

Ye Chen transformed Xiong Bayao into a puppet, which would allow Xiong Batian to break through the defenses more than killing him directly, and it was also an extremely heavy blow to the Xiong Ba family.

"You wait for me, dare to offend my Xiongba family, in the future, if people from your reincarnation camp step into Wuwu time and space, I will kill one!"

Xiong Batian was completely furious, and uttered harsh words, and then his voice gradually disappeared with the thunder.

The weather in the sky also slowly dissipated.

On the ground, many warriors were still in shock, unable to recover for a long time.

The Xiongba family is a well-known extraordinary family, and the head of the family, Xiongbatian, is a ninth-rank emperor.

In front of Xiong Batian, Ye Chen turned Xiong Bayao into a puppet, which was to offend Xiong Ba's family to the death.

Everyone looked at Ye Chen with horror.

Ye Chen looked indifferent, anyway, the Xiongba family is the power of Emperor Tuo Tianzong, and it is incompatible with the reincarnation camp. Even if there is no today's incident, he and the Xiongba family are destined to have a fight in the future.

And he had a vague feeling that Xiong Bayao's appearance was arranged by Xiong Batian to kill him.

For those who want to kill him, his way is to absolutely retaliate with an eye!

That being the case, it would be better to accept Xiong Bayao directly, turn him into a puppet, and reap the immediate benefits first.

Xiong Bayao turned into a puppet, the watchman tree revived, and the battle between the Grass God faction and the Yuhuang faction came to an end.

Yuhuangdong and the thousands of elite warriors of the Yuhuang faction were all trembling and looked at Ye Chen in great fear.

When the voice of Xiongbatian came down just now, the strong fluctuation of the will of the emperor almost made them kneel down, and the pressure was huge.

However, when Ye Chen faced Xiong Batian, he talked and laughed freely, and even didn't give Xiong Batian any face at all, which made them extremely shocked and admired.

At this moment, facing Ye Chen, no one dared to resist anymore.

Yu Huangdong was frustrated, and lowered his head, finally knowing the gap between himself and Ye Chen.

In front of Ye Chen, he, the so-called holy son, was even worse than an ant.

"My lord, kill them all, they are all heretics who betrayed the God of Grass!"

In the cemetery of reincarnation, Qiyuan saw that Ye Chen had taken the initiative, so he said in a deep voice.

Ye Chen said to Wang Pingan: "Senior, how do you see these people? Are you going to kill them all?"

Wang Pingan hurriedly said: "That's not necessary, as long as they are willing to change their ways, give up their dark beliefs, and return to the God of Grass, after all, everyone is a citizen of the forest, and killing is useless."

"Actually, part of the reason why they betrayed the Grass God was because of the existence of the darkest starry sky."

"The darkest starry sky distorted their spirits, so they threw themselves into the darkness and believed in the ancient god Tuodi, so it can't be all their fault."

Ye Chen frowned: "The darkest starry sky?"

Wang Ping'an said: "Yes, in our Watching Forest, there is a forbidden area called the Dark Starry Sky. It is said that Master Zilan, the first God of Grass, cut off a fragment of the starry sky when he hit the other side of the starry sky. Come back, store it in the forest, and it will be the darkest starry sky today,"

The other side of the starry sky is the ultimate world pursued by many powerhouses without time and space.

Even Emperor Yuantian, who was eager to go to the other side of the starry sky, forced an impact at any cost, which eventually led to the shattering of the Dao and the end of the Dharma.

Zilan, the first God of Grass, a powerhouse of her level naturally wants to go to the other side of the starry sky.

Chapter 9406

However, Ye Chen did not expect that Zilan was so powerful during her peak period that she could chop off a piece of the starry sky, and now it has become a forbidden area of the Watcher Forest, the darkest starry sky!

Wang Ping'an said that the followers of the Yuhuang sect were probably influenced by the darkest starry sky, their minds were distorted, and they couldn't distinguish between good and evil, so they believed in the ancient god Tuodi.

Ye Chen's heart moved, he communicated with the cemetery of reincarnation, and said to Qi Yuan: "Senior Qi Yuan, what do you think?"

Qiyuan said in a deep voice: "Being able to be affected by the darkest starry sky shows that the belief is not strong enough, you should kill it!"

"However, the killing is too bloody, and it may pollute the holy tree of watchman."

"Master tomb owner, you kill all the leaders, and the remaining ordinary believers, look at their performance in the future, it's not too late to make a decision."

Ye Chen nodded, which meant the same thing, and said to Wang Ping'an: "Senior, if the ordinary believers of the Yuhuang sect are willing to surrender, it's okay to forgive them, but the leader must be dealt with, after all, their sins are too deep."

Ye Chen can clearly see the secrets of the past.

The Yuhuang sect believed in the ancient god Tuodi, and killed countless people, some were the people of the forest, and some were innocent people from the outside world.

These blood sins must also be paid with blood.

Wang Pingan nodded and said, "That's right."

When Yu Huangdong heard the conversation between the two, he was terrified, knelt down, kowtowed to Ye Chen, and said: "Master Ye, don't kill me, don't kill me, I am willing to surrender!"

Ye Chen shook his head and didn't speak.

Wang Pingan understood, and shouted: "Come here, take this Yuhuangdong down and chop it up!"

"yes!"

Then two guardians of the God of Grass sent out, escorted Yu Huangdong to the God of Grass Temple, and beheaded him on the spot.

Ye Chen saw the blood flowing, dyeing the temple square red, and knew that there would be bloody killings today. Although the watchman tree has recovered, it is really not the time to make a wish.

"Senior, I want to rest, and I will leave the rest of the matter to you."

Ye Chen said calmly.

"Yes, Master Ye."

Wang Ping'an was full of respect, and immediately sent someone to arrange a place for Ye Chen.

Ye Chen and Ji Siqing rested and settled down in the territory of the Grass God Sect, planning to watch under the tree and make a wish in the morning.

In the early morning of the next day, Wang Ping'an came over to greet Ye Chen and report yesterday's situation.

The followers of the Yuhuang faction have all surrendered. Everyone is awed by Ye Chen's prestige, and no one dares to resist.

Some priests and elders of the Yuhuang Sect have been dealt with by Wang Ping'an because of their serious crimes.

Ordinary believers, one after another, corrected their evil ways and restored their belief in the God of Grass.

Now in the entire Shouwang Forest, there is no Yu Huang faction anymore, they are all believers of the God of Grass and of Reincarnation.

There is also the forbidden area to the dark starry sky, and Wang Ping'an sent people to strictly block it, so as not to leak the dark breath and affect people's spirits.

Seeing that everything was settled, Ye Chen was overjoyed, so he took Ji Siqing to the temple square.

I saw the temple square, crowded with people, and many kind-hearted believers came to pay homage to the Watching Tree.

The watchman tree was full of vitality, and its aura was a little stronger than yesterday.

On the watch tree, there are many wishing signs, as well as red strings, talismans, wind chimes and other things, which are made by couples in the forest.

When the wind blows, the leaves rustle, the wish sign on the watch tree, the wind chimes and other things are swaying with the wind, and the sound of the wind chimes is very pleasant, which makes people feel peaceful and gentle in their hearts.

Ye Chen and Ji Siqing, holding hands, came to the square. Yesterday's bloody slaughter was no longer visible, and what can be seen today is only excitement and hope.

The Grass God faction and the Yuhuang faction have ended their split and reunited, and the entire forest is full of hope.

All these changes were due to Ye Chen.

"You changed the forest, and you deserve a lot of credit."

Ji Siqing said with a smile.

"It is also a good thing for us that the forest becomes better."

Ye Chen smiled, the people who watch the forest all believe in the God of Grass and can provide God of Grass with a lot of power of faith.

Whether it is the first grass god or the current little grass god Qingyan, they are all absolute allies of the reincarnation camp. Their strength will naturally benefit Ye Chen.

"Go and make a wish."

Ye Chen saw some stalls under the watchman tree selling wishing signs, red string charms and other things, so he took Ji Siqing over, bought two signs, and gave one to Ji Siqing.

"What do you wish for?"

Ye Chen asked with a smile.

"Well....."

Ji Siqing held a blank sign, pondered for a while, then smiled playfully, and said:

"I won't tell you."

Then he turned his back and picked up a pen to write something on the sign.

Seeing Ji Siqing's rare and cute appearance, Ye Chen's heart fluttered slightly.

After a while, Ji Siqing turned around, holding the sign in his hand, still not showing it to Ye Chen, and said with a smile: "I've finished writing it, what is your wish?"

"My wish?"

Ye Chen looked at the blank sign in his hand and fell into deep thought.

He has great wishes. One is that he can defeat all powerful enemies and rule the heavens. He also wants everyone around him to be safe. secret.

After much deliberation, Ye Chen thought of a very vulgar sentence, and wrote down his wish on the sign, which was ten words:

Wake up and hold the power of the world, and lie drunk on the lap of a beauty!

Ji Siqing poked his head over, saw Ye Chen's written wish, and immediately made a cute vomiting expression, saying: "Wake up and take power in the world, and lie drunk on the lap of a beauty? Is this your wish? Uh... so vulgar."

Ye Chen laughed, and said, "Maybe I'm just that vulgar."

Ji Siqing said: "My wish is that you are safe and sound."

As she said that, she hung her own sign on the tree. On the sign, there were indeed words wishing for her lover's safety.

Ye Chen's heart was warm and grateful, he took Ji Siqing's hand and said, "Thank you very much."

He also hung up his wish sign, and held hands with Ji Siqing under the tree to pray, hoping to be blessed by the gods.

In fact, both of them knew that whether it was Zilan, the first god of grass, or Qingyan, the little god of grass, their strength had declined a lot, and they probably couldn't protect them anymore.

However, the two are still praying, and only regard this wish as a testimony of their relationship and a trace of love.

However, to the surprise of Ye Chen and Ji Siqing, after the two of them prayed, the watchman tree bloomed with vigorous emerald brilliance, the law of time was shaking, time lines, past, present, future, all kinds of great power gather.

Above the Watching Tree, a magnificent scene appeared. It was a picture of an extremely holy little girl carved from jade, with her hands clasped together, her eyes closed and praying.

Chapter 9407

That little girl is exactly what the little grass god Qingyan looks like.

Ye Chen and Ji Siqing's wish was indeed answered by the God of Grass, and a blessing came.

That blessed weather comes from all timelines.

The power of the grass god is declining now, but it was very strong before.

Now, the grass gods of all timelines, including the first grass god Zilan, are blessing Ye Chen and Ji Siqing with their power.

This power of blessing descended on Ye Chen and Ji Siqing, coating their bodies with a layer of emerald green brilliance.

Ye Chen felt that his cultivation had broken through at this moment, from the elementary level of the seventh level of the Sky Profound Realm to the middle level.

You know, Ye Chen has a profound background in martial arts, and it is more difficult to be promoted than ordinary people. Now that he has directly broken through, one can imagine how powerful the blessing power of the Grass God is.

"My God, the God of Grass has appeared!"

"Praise the God of Grass! The power of the little God of Grass is really great!"

"Look, the Holy Fruit of Watching has come out."

Many faithful men and women on the temple square were all overwhelmed when they saw the totem of the God of Grass appeared.

Everyone's eyes fell on Ye Chen and Ji Siqing in unison, their eyes full of envy.

I saw that on the watchman tree, the divine light gathered, and a red fruit was born, full of aura.

It is the holy fruit of keeping watch given by the God of Grass after the couple made a wish and was blessed by the God of Grass.

Legend has it that eating this sacred fruit can prove the Tao and become a god.

"Siqing, the holy fruit of Shouwang has come out, let's eat together."

Seeing that Ye Chen and Ji Siqing's wish was blessed by the grass gods of all timelines and produced the holy fruit of watching, it was also a pleasant surprise and accident, so he decided to pick off the holy fruit.

This sacred fruit is extremely full of aura. If he continues to take it, Ye Chen estimates that his cultivation can reach another level.

"Master Ye, Miss Siqing, congratulations, you have been blessed by the God of Grass and have produced holy fruit, what a joy!"

Wang Pingan came forward and congratulated the two of them in surprise.

Ye Chen and Ji Siqing both smiled and wanted to eat the holy fruit together.

"Ahhh!"

But at this moment, an extremely sharp, painful and crazy cry came from the temple not far away.

Ye Chen seemed to have heard this painful cry when he revived the Watching Tree before.

He also asked Wang Pingan who was screaming, and Wang Pingan only said it was a traitor.

Now, the cry came out again, making one's heart shudder.

Many good men and women in the square looked in the direction of the temple with doubts and horror in their eyes.

Around the square, the warriors responsible for maintaining order, as well as the elders who guarded the temple, all became vigilant.

Wang Pingan frowned, and ordered: "The traitor is screaming again, tell him to shut up quickly, don't disturb Master Ye..."

Before he finished speaking, the screams in the temple became more and more shrill. A tall man with disheveled hair, his hands and feet bound with iron chains, who looked like a madman, rushed out of the temple and rushed towards Ye Chen .

Behind the man, several guards tried to chase and intercept him, but they couldn't stop him at all.

The man like a madman, with his sharp gaze, stared at the sacred fruit in Ye Chen's hand, full of desire and greed, and shouted in a hoarse and sharp voice:

"Holy Fruit, Holy Fruit, Holy Fruit is born, Lianmeng is saved! Give it to me!"

He rushed over madly, trying to snatch the holy fruit of watchman from Ye Chen's hand.

Ye Chen frowned, not knowing who this man was, so he turned sideways to avoid it.

The man was extremely crazy, his hands were like ghost claws, and he grabbed Ye Chen again, the wind on his nails was fierce, obviously his martial arts were strong.

Ye Chen saw that his skin was branded with a series of prohibition runes, which limited his strength.

Even if he was restricted, this crazy man's attacks were still as fierce as the wind, extremely ferocious.

"At least a strong man in the half-step divine realm!"

Ye Chen was taken aback. He could feel that the real strength of this crazy man was at least half a step to the Divine Dao Realm, which surpassed that of the Immortal Emperor.

Such a powerful martial artist can be said to be a heaven-penetrating existence in the real world.

But now, the man looks like a prisoner, with disheveled hair and blood all over his body.

Ye Chen turned his head to look at Wang Pingan. Could it be that this man is the traitor Wang Pingan said?

How did this crazy man achieve such a terrifying cultivation level at the half-step Divine Dao Realm?

For a while, Ye Chen couldn't see the cause and effect. Fortunately, the crazy man's strength was restricted by the forbidden rune, so he couldn't hurt Ye Chen.

"Xiong Bayao, suppress him!"

Ye Chen summoned a rune ghost puppet, it was Xiong Bayao.

Xiong Bayao's skin is dark, his body is cast like steel, full of powerful and domineering power, his eyes are cold and numb, without the emotion of a living person, like a killing machine, he only knows to obey Ye Chen's orders and kill for him.

But the strength is no longer at the peak, but no matter what, the martial arts are extremely powerful.

After Ye Chen issued the order, Xiong Bayao rushed out immediately, punching the crazy man with his fists.

The crazy man also punched him.

boom!

The two fists collided, and the crazy man's fist bones were instantly exploded. With a muffled grunt, his body flew away in embarrassment.

Xiong Bayao chased him up, kicked him over, then stepped on his face, stomping him to the ground, his movements were crisp and neat.

Although this crazy man has at most half a step of the Divine Dao Realm, Xiong Bayao was once a true Divine Dao Realm powerhouse.

Chapter 9408

After Xiongbayao became Ye Chen's puppet, he lost all the luck of the Xiongba family. In terms of real combat power, he couldn't compare with Tiannv, Yuhuang Gudi and others.

After all, Tiannu, Yuhuanggudi and others are all people with great luck and the ability to leapfrog combat. It is absolutely impossible for Ye Chen to rely on a hero to defeat them. At most, he can only cooperate with himself to fight. Improve your odds.

However, it is naturally easy to suppress the crazy man who is not in a good state.

Seeing this, Wang Pingan immediately called the guards, grabbed the crazy man again, and put heavy shackles on him.

The crazy man's gaze was still like a wild beast, with fierce eyes, staring at the sacred fruit of watchman in Ye Chen's hand, with a look of burning desire and sorrow in his eyes.

"Master Ye, I'm shocked."

Wang Pingan hurriedly apologized to Marven Ye.

Ye Chen frowned slightly, looked at the crazy man, and asked, "Who is this man?"

Wang Ping'an was silent for a while, then sighed, "It's a traitor from my Caoshen sect."

Ye Chen said: "He betrayed the Grass God Sect?"

Wang Ping'an's expression was very complicated, and he sighed again, "That's not true, it's just..." The voice hesitated, as if he didn't know how to explain.

Ye Chen asked: "Just what?"

Wang Ping'an was silent for a while, as if sorting out words, with a hint of reminiscence and regret in his eyes, he pointed to the crazy man and said:

"His name is Wu Zhan. Tens of thousands of years ago, he was a genius of our Grass God Sect. He is also the most promising person to succeed Qiyuan and become the new watcher."

"oh?"

Ye Chen was quite surprised. If he could become the watchman of the forest, he would be blessed by the God of Grass, which would be of great benefit.

After Qiyuan left that year, the forest split into two factions, the belief in the God of Grass declined, and luck was insufficient, so no new watchers were born.

But now, Wang Ping'an said that this crazy man named Wu Zhan once had the possibility of becoming a watcher!

Wang Ping'an went on to say: "Our entire Grass God faction has high hopes for Wu Zhan, and given him countless resources, we hope that he can become a watchman, revitalize our faction, and fight against the Yuhuang faction."

"However, who would have thought that he would give himself up to depravity, have an affair with Lianmeng, the saintess of the Yuhuang sect, and secretly marry him."

That crazy man Wu Zhan, after hearing Wang Ping'an talk about the past, the violence in his eyes gradually disappeared, and the sadness and sadness became more intense.

"An affair?"

Ye Chen frowned tightly, but he didn't expect that there was such a past in Wu Zhan.

Back then, the Grass God faction and the Yuhuang faction were at odds with each other. Both factions regarded each other as enemies, and it was too late to kill each other, and intermarriage was absolutely impossible.

It can be said that Wu Zhan and Lianmeng have an affair, which can be said to be a big taboo!

Moreover, Lianmeng's identity is so special, she was the saintess of the Yuhuang sect back then.

It is conceivable that the relationship between the two is unacceptable to both the Grass God faction and the Yuhuang faction.

Wang Pingan said: "After the two became husband and wife, they often met in trysts. Finally, one day, when the matter was revealed, our Caoshen faction and Yuhuang faction were both furious and accused each other of conspiring to seduce each other."

"Wu Zhan and Lian dreamed that the situation was out of control, and they were afraid of being punished, so they took the risk to escape into the darkest starry sky."

Ye Chen said: "The darkest starry sky, isn't that a forbidden place in the forest?"

Wang Pingan said: "Yes, Master Zilan, the first God of Grass, failed to attack the other side of the starry sky, but he chopped off a fragment of the starry sky and came back. This fragment is the darkest starry sky today."

"The dark starry sky is full of unknown dangers. Immortal emperors are in danger of dying if they step into it, but there may also be great opportunities inside, after all, it is related to the other side of the starry sky."

"My Grass God faction and Yuhuang faction both sent people to explore opportunities, but unfortunately none of the people we sent out came back, and they all died in the darkest starry sky."

"Wu Zhan and Lian Meng, desperate, ventured into the dark starry sky. I thought they were going to die, but I didn't expect Wu Zhan to come out with Lian Meng."

"In the dark starry sky, Wu Zhan had a great opportunity to break through and become a master of the half-step divine realm, but his wife, Lianmeng, was eroded by the darkness and seriously injured. Only the holy fruit of watchman can heal her. "

"After the two of them came out, they secretly made a wish under the watchman tree, hoping to get the gift of the God of Grass and bestow the holy fruit of watchman."

"But it's a pity that the watch tree at that time has withered, and their wishes have not received any response, but have leaked their breath."

"I immediately brought people over and captured them."

"It was a fierce battle at that time. The traitor Wu Zhan is already a strong man in the half-step Divine Dao Realm. It is really not easy to capture him."

"Fortunately, his wife, Lianmeng, was seriously injured, so I restrained his wife and threatened him, and finally forced him to be arrested. This method is not very bright, and I am ashamed to say it."

Wang Pingan talked about the past with regret, fear, shame and other expressions on his face.

Back then, Wu Zhan was a person who could become a watchman, but he had an affair with the saintess Lianmeng of the Yuhuang faction, was contaminated with darkness, and eventually lost the qualification to become a watchman.

The two failed in their affair and were forced to flee into the dark starry sky, but Wu Zhan got a great opportunity to break through the limitations of reality and become a master of the half-step divine realm.

It's just that his wife, Lianmeng, was seriously injured. In order to treat him, he had to return to the God of Grass Sect and secretly make a wish under the watch tree.

However, the watch tree had withered at that time, how could their prayers be answered?

In the end, Wang Pingan took Lian Meng as a hostage to force Wu Zhan to surrender, and finally imprisoned the two of them in the temple.

Chapter 9409

"The darkest starry sky does not seem to be simple. There is such a great opportunity to allow people to break through the limitations of reality and touch the mysteries of the divine realm."

Ye Chen's heart moved slightly, and he also became very interested in the darkest starry sky.

He looked at the crazy man Wu Zhan, and thought of the other party's various experiences, he was also a poor man, so he said to Wang Pingan:

"What happened in the past is in the past. Now that the Grass God faction and the Yuhuang faction have ended their split, Wu Zhan and Lian Meng are together, so it's not considered an affair."

Hearing these words, Wang Pingan was stunned for a while, speechless for a while.

Ye Chen was right. Now that the two factions have ended their disputes and reconciled, things that used to be considered taboo are now commonplace.

The men and women of the two factions are friendly with each other, so naturally it is not considered an affair, and they can communicate openly and aboveboard.

Ye Chen took Ji Siqing's hand silently. He fell in love with Ji Siqing, so he couldn't bear to see other couples suffer.

When Wu Zhan heard Ye Chen's words, the pain and hostility in his eyes disappeared. He was stunned at first, then grateful and excited. His mind had recovered and he said to Ye Chen in a hoarse voice:

"Master Ye, please save my wife, I will be a cow and a horse for you in my life, and I will repay you at all costs!"

The sacred fruit of watchman in Ye Chen's hand is the key to saving Wu Zhan's wife Lianmeng.

Ye Chen focused his eyes, pondered for a moment, and then said to Wang Pingan: "Senior, you should bring that girl Lianmeng out first."

Wang Pingan said: "Yes."

After finishing speaking, he sent people to the temple and brought them out.

After a while, several guards came out with a woman.

The woman's clothes were thin, and her delicate body was weak and slender, as if a gust of stronger wind could blow her down. Her face was too pale, as if she had been plagued by calamity, and there was darkness and depression between her brows.

This woman is naturally Wu Zhan's wife, the former saint of the Yuhuang sect, Lianmeng.

Ye Chen took a look at Lianmeng, and knew that she had been eroded by the darkness and was seriously injured. She was tortured by the darkness every day, and she still hasn't recovered to this day.

"Pity Meng!"

When Wu Zhan saw Lianmeng, he immediately became excited, got up and rushed over, the guards who suppressed him also fell silent at this moment, allowing him to escape from control.

Wu Zhan rushed to Lianmeng's side, the two of them held hands, weeping.

"Brother Wu Zhan, thank you for your hard work."

Lianmeng said softly.

Wu Zhan looked excited and sad, speechless.

Then, Wu Zhan knelt down and kowtowed to Ye Chen, and said: "Master Ye, as you can see, my wife is suffering from darkness, and the only way to save her is the Sacred Fruit of Watching. I hope you will be merciful and give us the Sacred Fruit." , our husband and wife will serve reincarnation in this life."

Because Lianmeng is a citizen of the forest, the holy fruit of watchman can exert the greatest effect on her, which is enough to heal her injuries.

Ye Chen looked at Ji Siqing and said, "Siqing, what do you think?"

Seeing that Ye Chen seemed to hesitate, Wu Zhan hurriedly said: "Master Ye, as a reward, I can give you a map, which is the map of the darkest starry sky."

"In the dark starry sky, there are many great opportunities. I can't collect them all, but Mr. Ye, you are so lucky that you may be able to collect all the opportunities inside."

Wu Zhan pondered for a while, then based on the memory in his mind, he drew a scroll of starry sky and handed it to Ye Chen.

This starry sky scroll is the map of the darkest starry sky. To be precise, it should be called a star map.

Ye Chen took the star map, unfolded it, and saw the stars twinkling in the sky, with mysterious and mysterious trajectories, which contained great opportunities.

Where there might be a great opportunity, Wu Zhan specially marked it with a red dot, which was branded by him with blood, very vivid.

"A great opportunity in the darkest starry sky..."

Ye Chen's eyes moved. In the battle for opportunity in the Zhushen Battlefield last time, the goddess got the Origin Immortal Pond, and her strength is bound to skyrocket. In the upcoming decisive battle, Ye Chen is very dangerous.

If he wants to defeat Tiannv, he must have a new opportunity to make a breakthrough in his own strength.

And the star map that Wu Zhan handed over to him marked the great opportunity in the darkest starry sky, which was probably the opportunity for Ye Chen to break through.

"do not go!"

Ji Siqing pressed Ye Chen's hand, and she also knew what Ye Chen was thinking.

But, somewhere, she caught the danger.

The dark starry sky is, after all, a forbidden area of the forest, and there are many dangers in it. She doesn't want Ye Chen to take risks.

"The husband and wife are also for poor people. Just give them the holy fruit of keeping watch, but you can't go to this dark starry sky."

Ji Siqing was also moved by the love between Wu Zhan and Lianmeng. He couldn't bear to see them suffer any more, and was willing to give up the holy fruit of keeping watch and restore Lianmeng.

However, she couldn't watch Ye Chen take risks.

The darkest starry sky, such a forbidden place, has already transcended the real world, even transcended the infinite time and space, and is related to the ultimate starry sky beyond the world.

In this forbidden area, Ye Chen's great luck is likely to fail, causing unknown dangers.

Hearing Ji Siqing's persuasion, Ye Chen couldn't bear her worry, and said with a wry smile, "I don't want to go."

Although Ye Chen said so, he secretly put away the star map, unwilling to throw it away.

Naturally, Ji Siqing also noticed Ye Chen's movements, sighed, and said, "If you really want to go, at least you have to wait until I have ascended into Wuwu Time and Space, and it's not too late to go."

She thought that after she ascended to Wuwu Time and Space, she would be in charge of the Ten Thousand Fires Realm and be crowned as the God of Fire. That would be the real god. At that time, she could also bless Ye Chen and protect Ye Chen secretly.

Chapter 9410

In this way, even if Ye Chen ventured into the darkest starry sky, with her protection, at least one more share would count.

"Siqing, don't worry, I won't mess around."

Ye Chen smiled and said.

He also faintly felt that the darkest starry sky was extremely dangerous.

It was miraculous luck that Wu Zhan escaped back then.

This kind of luck may not necessarily happen to Ye Chen.

Therefore, even if Ye Chen wants to go, he must first make complete preparations to ensure safety.

At that moment, Ye Chen and Ji Siqing handed over the holy fruit of watchman to Wu Zhan.

Wu Zhan was fed by Lianmeng, and when Lianmeng ate the holy fruit, bursts of red light burst out of his body, surrounded by vigorous vitality, and the blessing of the grass god came down.

Her dark erosion was indeed eliminated, her injuries healed, and her originally pale face became rosy.

Excited and overjoyed, the husband and wife knelt down, thanked Ye Chen, and vowed to follow reincarnation in this life.

Things are over here, Ye Chen and Ji Siqing are both relieved.

They stayed for another day to receive offerings and blessings from the people of the forest.

The next day, the two returned to the Star-Moon Realm. At this time, there was not much time left before the agreed time to leave. There was already an envoy waiting for them in the Ten Thousand Fire Realm.

Before Ye Chen left, Ji Siqing took her to the holy land of runes, Yongfu Tiangong.

Previously, Ye Luoer received the Fengshen Orb in the Yongfu Tiangong and inherited the orthodoxy of the Fengshen Tianzun.

Up to now, this inheritance has not ended yet, Ye Luoer's body is still wrapped in a feather cocoon.

The feather cocoon already had cracks appearing on it. When the cocoon is completely broken, Ye Luoer will either break out of the cocoon and transform into a new Fengshen, or she will fall, which can be described as extremely dangerous.

"It seems that Luoer has not been able to break through in a short time, otherwise, she can go to No Time and Space with me."

Ji Siqing said with some regret, if Ye Luoer becomes the new Fengshen, she will naturally have the qualifications to go to No Time and Space, and she would also have a companion.

But now it seems that it is obviously not easy to inherit the orthodoxy of Fengshen Tianzun, and Ye Luoer has not yet been able to break through the cocoon.

"Siqing, after you go to Wuwu time and space, ask the Wuque family if they are willing to accept Luo Er as the wind god."

Ye Chen said.

The former Fengshen Tianzun Zhuang Xiaoyao was a member of the Wuque family. Although the Wuque family has declined now, it is still an extraordinary family after all, with some background.

If they are willing to accept Ye Luoer, it will be a good thing for Ye Luoer, just like Ji Siqing has the help of the Ten Thousand Fire Realm behind him, so he doesn't have to be alone.

"Okay, I know."

Ji Siqing nodded.

Ye Chen hummed, and ordered the people in Yongfu Tiangong to continue to take good care of Ye Luoer, and then brought Ji Siqing back to the Star-Moon Realm.

When the agreed time limit came, several envoys from the Myriad Fire Realm, with solemn expressions, prepared to take Ji Siqing to Wuwu Time and Space.

Ye Chen, Su Nishang, Moon Soul Fairy and others all came out to see them off.

I saw Ji Siqing wearing a dress of the Emperor of Heaven, shining with golden light, and wearing the crown of the Emperor of Heaven, giving him a majestic and graceful air.

"Open the way!"

An envoy from the Myriad Fire Realm yelled loudly, shaking the world, and in the depths of time and space, the area of the Myriad Fire Realm resonated.

hum!

The wind from heaven and earth roared, and a ladder appeared, extending from the sky to the land of the Star-Moon Realm, like a ladder leading to the kingdom of heaven.

This ladder, golden light is shining, auspicious clouds are floating, and the weather is myriad.

At the end of the ladder is the area of the Ten Thousand Fire Realm.

The appearance of this ladder seems to have broken the barrier between reality and infinite time and space. Ye Chen looked up and could see the scene in the Ten Thousand Fire Realm.

It was a world full of aura, full of fairy spirit, spirit beasts running around, flying waterfalls and flowing springs, sunlight shining, rain harvesting dark colors, bright and elegant weather everywhere, it is really a holy place in heaven.

"Miss Siqing, please."

Several Ten Thousand Fire Realm envoys respectfully invited Ji Siqing.

Ji Siqing nodded, looking back at Ye Chen with infinite reluctance in his eyes.

"Go with peace of mind, I will soon go to Wuwu Time and Space to reunite with you."

Ye Chen said with a smile.

"Um."

Although Ji Siqing was reluctant to give up, she was not a coddling person. In the past few days, she and Ye Chen had been together day and night, and she was extremely satisfied in her heart.

At that moment, Ji Siqing stepped onto the ladder and walked towards the Ten Thousand Fire Realm at the end of the ladder.

Those envoys from the Myriad Fire Realm followed behind her.

The sky ladder is very long, there are thousands of steps, and it seems that it will never come to the end.

But Ye Chen knew that there would always be a moment when it came to an end.

He looked at Ji Siqing, step by step along the ladder to the sky, and felt a sense of danger in his heart for no reason.

Ji Siqing went to Wuwu Time and Space, and was about to be crowned as Vulcan, which might attract the attention of some enemies.

"Senior Ren, can you hear my voice?"

Ye Chen quietly mobilized the Tianjun Fengshen Monument as a lighthouse, trying to communicate with Ren Feifei.

"Oh boy, are you calling me?"

Soon, Ren Feifei sent a response.

"Hmm! Senior Ren, how are you doing recently?"

Ye Chen asked.

Ren Feifei chuckled and said, "Fortunately, I am recuperating in the Zen Garden, the territory of the Buddha, and my body is fine, and I am attacking the realm of the Super Heavenly Emperor."

Chaopin Heavenly Emperor is a great existence beyond Jiupin Heavenly Emperor.

At present, there is only one Chaopin Heavenly Emperor in Wuwu Time and Space, and that is Yuantian Emperor.

Ren Feifei modified the past before, allowing himself to cut all kinds of shackles, and added countless opportunities, but he did not reach the level of a super-grade emperor.

That is a great realm that transcends the ancient and modern world, and it is an existence that is infinitely close to the other side of the starry sky.

And at this moment, Ren Feifei was about to attack this level.

"Senior Ren, you are really amazing!"

Ye Chen couldn't help admiring, Ren Feifei was indeed invincible, and he wanted to attack the Super Heavenly Emperor so quickly.

Once he becomes a super-grade emperor, it will be enough to crush the entire Wu Wu time and space.

Ye Chen felt the horror of the reincarnation Puranas again. Such a magical tool can modify the past and make people cultivate to the sky in one step. The power is really terrifying.

Ren Feifei was able to progress so fast precisely because of the help of the Ashes of the Reincarnation Puranas.

"It's nothing, Super Grade Heavenly Emperor is very difficult, I'm just trying, and I don't have much clue at the moment."

Ren Feidao, obviously he doesn't have much confidence in attacking the Chaopin Emperor.

After all, looking at the entire Wu Wu time and space, apart from Yuan Tiandi, there is no second super-grade emperor, and there are too few experiences to learn from, almost equal to no.

"Senior Ren, I wish you a breakthrough as soon as possible."
