Chapter 9521

As for his body, no one knows where it went.

The ancient Emperor Yuhuang hid it so deeply, and the secrets of the heavens were hidden so top-secret, and even Ye Chen didn't catch the slightest clue.

This is certainly not simply the method of Emperor Yuhuang.

If it was just the method of Emperor Yuhuang, it would be impossible to hide it from Ye Chen's eyes.

Behind this, there must be the help of Hongjun Patriarch!

Ancestor Hongjun concealed his secrets and deceived Ye Chen.

Apparently, both Patriarch Hongjun and Ancient Emperor Yuhuang are afraid of Ye Chen, and they all know that at the critical moment of ascension to the gods, Ye Chen will definitely enter the Myriad Ruins and try his best to stop him.

With Ye Chen's strength, Wanxu may not be able to match.

Therefore, Patriarch Hongjun simply concealed the truth, concealed the secrets, and asked Emperor Yuhuang to leave a clone to confuse Ye Chen.

This time, Ye Chen smashed the projection of the avatar of Emperor Yuhuang, and the secret was finally revealed.

Everyone can feel the foresight of ancestor Hongjun.

"Old Ancestor..."

Xiong Bayan was stunned for a moment, he originally wanted to protect the Ancient Emperor Yuhuang desperately, but he never thought that the Ancient Emperor Yuhuang in Wanxu was just a clone.

In order to confuse Ye Chen, Ancestor Hongjun used him as a pawn and put on a serious look, but in fact, Emperor Yuhuang was not here at all.

hum!

With the revelation of the secret, the golden light of the blessing talisman in the void completely dissipated and turned into ashes.

The real blessing is not here.

Ye Chen knew that he was tricked, and his heart was extremely shocked.

In fact, Patriarch Hongjun had a conspiracy, and if Ren Feifei was vigilant enough, he would be able to discover it.

However, in the past few days, Ren Feifei had to take care of Ye Luoer, Yemu Fengyuying, and solve Ji Siqing's problem, but he had no time to get away, and he didn't notice the conspiracy of the ancestor Hongjun.

Of course, Ye Chen would not blame Ren Feifei, he sighed in his heart, knowing that it was inevitable for the ancient Emperor Yuhuang to become a god.

The Ancient Emperor Yuhuang he was about to face was no longer an immortal emperor, but a true god!

rumbling...

Sure enough, at this time, an astonishing breakthrough vision came from the distant sky.

I saw a true god totem, like the heaven and earth dharma, soaring into the sky.

The appearance of that totem is the same as that of the ancient Emperor Yuhuang. It is ten thousand zhang high, towering above the sky, surrounded by billions of stars and rivers, filled with rosy clouds, with thousands of pieces of auspicious light, thousands of celestial spirits, countless suns, moons and stars, rising and falling. , spectacular to the extreme.

The totem of the true god opened his mouth and sucked it in, and all the heavens, myriad worlds, and Dao Yun's inspirations in the vast universe would all be absorbed by him.

The kingdoms of God's Domain layer after layer rotated around the totem of the True God, and in each layer of God's Domain, there were billions of trillions of creatures and people, all of whom worshiped the True God, and the sound of singing was earth-shattering and soul-stirring.

Countless golden dragons of good luck roared upwards and surrounded them endlessly.

The laws of the avenue, the chain of true gods, hang down like waterfalls, star-studded, and extremely gorgeous.

There are also many imaginary holy places, which transcend the existence of the laws of reality, and make people want to worship and indulge in lifelong surrender after just one glance.

This breakthrough vision comes from Heaven Beyond Heaven.

Ye Chen even locked the specific coordinates, which is in the Meteor God Stream in Tianwaitian, where he killed Demon Ancestor Wutian before.

This breakthrough vision belongs to Ancient Emperor Yuhuang!

At this moment, Ancient Emperor Yuhuang has officially stepped into the realm of the divine way.

Although it is only one level of the Divine Dao Realm, it is the realm of the gods after all, and the Ancient Emperor Yuhuang is a man of great luck, and the aura he erupts far exceeds that of ordinary people.

The real combat power of Emperor Yuhuang, let alone inferred by common sense, is an extremely powerful existence.

Xiong Bayan is also at the first level of the Divine Dao Realm, but if he fights with Ancient Emperor Yuhuang, he will probably be defeated within ten moves.

The fortune background of both parties, the momentum of future destiny, and the law of the road are completely different.

Ye Chen took a breath, the Emperor Yuhuang had finally become a god, his heart beat faster, and he felt unprecedented pressure.

On the reincarnation camp, Ye Xieshen, Xuan Hanyu, Wu Yao and the others looked extremely solemn.

There seems to be only one level difference between the Divine Dao Realm and the Immortal Emperor Realm, but in fact it is a world of difference.

One is a fairy in the world of mortals, and the other is a true god in the sky, the two are not the same.

"His Majesty Yuhuang has finally ascended to God!"

"One person attains the Tao, chickens and dogs ascend to heaven, and we can also receive great blessings!"

"Hahaha, my martial arts breakthrough."

On the side of the Wanxu Temple, many warriors were excited and ecstatic, shouting excitedly.

After the ancient emperor Yuhuang ascended to the gods, they also received the favor of the Dao. In the temple of Wanxu, golden light gushed everywhere, flowers fell from the sky, and golden lotuses burst from the ground. The cultivation realm of many warriors broke through in an instant.

The people who were terrified of Ye Chen just now became fierce at this moment, shouting and roaring, and rushed towards Ye Chen.

Ye Chen's face darkened. At this time, Emperor Yuhuang ascended to the gods, and Wanxu was full of arrogance, but his reincarnation camp seemed to be declining.

"Walk!"

Ye Chen made a decisive decision, immediately spread his wings of freedom, and flew away from Wanxu.

Knowing that the situation had been reversed, Ye Xieshen, Wu Yao and the others hurriedly led many warriors from the reincarnation camp to evacuate the Wanxu Temple and return to the Star-Moon Realm.

"Hmph, isn't it too late for you to escape now?"

Xiongbayan's eyes flashed fiercely, and the sky demon flapped its wings, leading many powerful men from Wanxu, chasing and killing Ye Chen.

"Scorching sun and life star, shine on me!"

Chapter 9522

Ye Chen gritted his teeth, knowing that the situation was dangerous, he didn't hesitate at the moment, and regardless of the burden on his body, he directly summoned the Burning Sun Star.

Rumble!

The scorching sun and life star were summoned, and the huge and blazing sun was suspended in the sky, emitting an incomparably scorching light.

Under the strong light of the scorching sun and star, the eyeballs of many Wanxu powerhouses who came after them exploded in an instant, and there were bursts of screams.

Xiong Bayan's demon body, the skin is also sizzling, as if being boiled by boiling water, under the intense high temperature, it is constantly twisting.

"Damn it!"

He hurriedly backed away, covering his eyes, not daring to look directly at the light of the scorching sun and fate star.

Under the coercion of the scorching sun and life star, even his heavenly demon source body could no longer sustain, all the demon energy collapsed, and he regained his human form.

Even the breakthrough weather of the ancient Emperor Yuhuang in the distance, the towering totem of the true god, was completely crushed by the radiance of the scorching sun.

Ye Chen panted heavily, retracted the scorching sun and life star, already sweating profusely, exhausted more than half of his physical strength, and there was a huge burning pain everywhere in his meridians.

Not long ago, he gave up his samsara blood essence, and his physical condition was not good. Now that he used the scorching sun life star, the consumption was even greater, and he was a little unable to support it.

"Brother Ye Chen, are you okay?"

Wu Yao came over to support Ye Chen. At this time, there was a piece of silk wrapped around her arm, which was mourning the demon ancestor Wutian.

Previously, Ye Chen killed the Demon Ancestor Wutian, and according to the agreement, brought his ashes back to the Star-Moon Realm so that the old master could be buried properly.

However, the grievances between Ye Chen and Wanxu are still going on.

"It's okay, I can't die yet."

Ye Chen took out some elixir to restore spiritual energy, took it, and his condition improved a little, so he brought everyone from the reincarnation camp back to the Xingyue Realm.

However, Ye Chen was a little touched when he just summoned the scorching sun star, which illuminated the ancient emperor Yuhuang's true god totem and crushed all the breakthrough visions.

"Wait, I'm going to Meteor God Stream."

Ye Chen paused and said to Wu Yao, Ye Xieshen and others.

Wu Yao was shocked, and said: "Brother Ye Chen, are you going to Tianwaitian? The ancient Emperor Yuhuang just ascended to the gods, do you want to challenge him? Isn't this courting death?"

Ye Xieshen also said: "Ye Chen, don't be impulsive. You now need to rest. The ancient Emperor Yuhuang ascended to the gods, and the arrogance is blazing. If you go to him, don't you die?"

Wu Yao said: "Yes, Brother Ye Chen, let's go back first, relying on the earth veins of the Star-Moon Realm, even if the Emperor Yuhuang ascends to the gods, it is impossible for him to suppress us."

Ye Chen grinned, but said with a smile:

"The Ancient Emperor Yuhuang has just ascended to the gods, and his foundation may not be solid yet, and his aura is very vain. This is an excellent opportunity for me to rebel against him!"

Being able to break through the breakthrough vision of Emperor Yuhuang and crush the totem of the true god, Ye Chen sensed that the foundation of the divine way of Emperor Yuhuang at this time may not be stable.

If he makes a move, it is possible, taking advantage of the unstable foundation of Yuhuang Ancient Emperor, to kill him directly!

Wu Yao was shocked, and said: "The foundation of Emperor Yuhuang is not stable, brother Ye Chen, but your condition is not good either."

Ye Chen smiled and said: "It's okay, I still have a hole card, you go back first, guard the Xingyue Realm, be careful of the Wanxu attack, I will deal with the ancient Emperor Yuhuang."

After all, Ye Chen ignored the dissuasion of Wu Yao, Ye Xieshen and others, directly tore through the void and went to Tianwaitian Meteor God Stream.

Yes, although his condition is very bad and his breath is very weak, he still has a hole card, which has a chance to directly kill the ancient emperor Yuhuang.

That is, Zhishui's sword!

Shishui Kendo, this is the ultimate sword way, a supreme killing that can reverse everything.

General martial arts supernatural powers need to follow the logic of reality.

However, Zhishui's sword is a supreme existence that defies the sky and the earth, cuts against all causes and effects, and does not need to follow any laws.

The horror of this sword is enough to make ants rebel against gods!

Ye Chen is indeed weak, all other supernatural powers, all magic weapons can't be used at this time.

However, Zhishui's sword can be used without his consumption.

This is a sword that reverses the cause and effect of reality, does not speak logic, and breaks through the existence of all laws.

Ye Chen shattered the void and landed on Meteor God Stream.

I saw an old figure sitting cross-legged in an open space in Meteor God Stream.

Around him, streams gurgled and flowed, reflecting the law of the avenue. It was obviously just a small stream, but it gave people the impression that it was as magnificent as a galaxy.

That figure was none other than Ancient Emperor Yuhuang.

The Ancient Emperor Yuhuang had already ascended to the gods, and the majesty of the gods permeated his breathing, making the entire Meteor God Stream seem to be a holy land of the gods.

With Ye Chen's arrival, the ancient Emperor Yuhuang, who had closed his eyes and adjusted his breath, opened his eyes.

The ancient emperor Yuhuang's eyes were not disturbed by the ancient well. After he became a god, his state of mind seemed to become much deeper, as if there was nothing in the whole world that could touch his heart.

"Lord of Reincarnation, you are here."

Emperor Yuhuang smiled lightly, while slowly getting up.

Standing together, his body is obviously only seven feet tall, but it gives people the impression that they are as great as thousands of feet tall, standing upright, making people feel that the universe is vast and the starry sky is magnificent, but he is so small that he wants to kneel down and worship,

Of course, Ye Chen's Taoist heart is tenacious, and naturally he will not be affected in any way.

He stared at Ancient Emperor Yuhuang, and could clearly feel that the other party's aura was indeed not stable, and there were still some illusory parts.

It seemed that his conjecture was correct. After being promoted to the Divine Dao Realm, the foundation of the Ancient Emperor Yuhuang was indeed not yet solid.

"Hehe, it seems that I came at the right time. If it was a little later, your foundation of the divine way might be stabilized. It will be difficult for me to attack you again."

Ye Chen smiled and said.

Emperor Yuhuang didn't feel annoyed when his weakness was pointed out, he stroked his beard and smiled and said: "My foundation is not yet solid, but your condition seems to be worse, right?"

His eyes were like torches, and he could already see that Ye Chen's condition was very bad. Ye Chen, who gave up the blood of reincarnation and used the scorching sun and life star, is now very weak, and his condition is much worse than that of Emperor Yuhuang.

Ye Chen smiled and said, "Yes, I'm in a bad state, but it's enough to kill you."

While speaking, Ye Chen slowly drew out the long sword.

Emperor Yuhuang laughed loudly, and said: "It's up to you? You may think that I am a fairy in the world of mortals, but I will tell you now that I am a true god in the sky!"

"My majesty is not something you can compete with!"

"Yuhuang sword style, kill me!"

With a loud shout, the aura in Emperor Yuhuang's hand exploded, gathering a blade light, and slashed towards Ye Chen in the air.

This is the sword technique he created himself after he was promoted to the Divine Dao Realm. The Emperor Yu's sword style has an abnormally overbearing aura.

Such a sharp knife, even in Ye Chen's heyday, it would be difficult to parry, let alone he is weak now.

Chapter 9523

However, Ye Chen was not afraid at all, with a smile still on the corner of his mouth, he swung his sword calmly.

"Shishui Kendo, reverse it."

From the edge of Ye Chen's sword, there was a faint ray of sword energy. This sword energy seemed to be not powerful, but it seemed to carry the wonderful essence of the Dao that reversed the world. Once the sword energy was released, the supreme Dao The truth resonates.

Buzz buzz!

The avenue oscillates, the purple galaxy descends from the sky, and the infinite dao is the wonderful cloud, which emerges at this moment.

Ye Chen's faint stream of water-stopping sword energy touched the domineering sword energy of Emperor Yuhuang, and an astonishing scene appeared.

The seemingly thin and weak sword energy easily disintegrated the sword energy of the ancient emperor Yuhuang, and even left the sword energy, beheading and killing the ancient emperor Yuhuang.

This is really unimaginable, because from the common sense, Ye Chen's sword of Zhishui is very weak, as if it can't even cut a bigger tree.

But the saber energy of Ancient Emperor Yuhuang is overbearing against the sky, enough to cut through the galaxy of the universe, unstoppable.

But unfortunately, such a domineering saber energy was crushed by Ye Chen's reverse slash.

When Emperor Yuhuang saw such an unimaginable thing, his eyes widened completely, and he shouted in horror: "This is... a sword of Zhishui! Your Zhishui kendo has actually been cultivated to this level?"

Originally, when he was promoted to the Divine Dao Realm, his state of mind was much thicker, but the scene in front of him was so shocking that even with his state of mind, he couldn't keep calm anymore.

In fact, Ye Chen also used the sword of Zhishui in the decisive battle with Tiannv before.

However, after all, the Ancient Emperor Yuhuang didn't touch it personally, and he still couldn't feel the strength of Zhishui swordsmanship.

Now that he faces it directly, he deeply feels that this sword of Zhishui is worthy of being the ultimate in the way of swordsmanship. It is an unreasonable existence that can reverse everything and reverse all laws and logics. It also contains profound philosophical thinking.

Is what you see real?

The logic and reason you think are really eternal?

Powerful, really irreversible?

Weak, is it really weak?

These profound Dao philosophies are projected onto Ye Chen's sword, which is Zhishui's sword, which can reverse all existence.

Although he was weak, he used the water-stopping sword to reverse the situation immediately, breaking the sword energy of the ancient emperor Yuhuang, and beheading the ancient emperor Yuhuang's body with a single sword.

The Ancient Emperor Yuhuang was terrified, he hurriedly pulled away and flew back, but he was still half a step too slow, a hideous sword wound was cut on his chest, the bones were visible deep, and blood flowed continuously.

Even if he was promoted to the Divine Dao Realm and protected by layers of gods and laws, he still couldn't resist the divine power of this Zhishui sword.

The ultimate swordsmanship, at this moment, showed the power to rebel against the gods.

"I don't believe it, this Zhishui swordsmanship can really be unreasonable and reverse the law of the Dao? I don't believe it!"

Emperor Yuhuang's face twitched, and he still couldn't believe that Zhishui swordsmanship was so outrageous.

The legendary water-stopping kendo, after practice, can make ants rebel against the gods, ignoring all differences in realm and power, ignoring the laws of reality and fantasy, and ignoring the existence of cause and effect and logic.

With one sword strike, the heavens and the earth will turn against each other, ghosts and gods will cry out, and the heavens will not be able to stop them.

This is the ultimate sword.

But Ancient Emperor Yuhuang never believed that there would be such an outrageous swordsmanship.

If it is the Heaven Dou Massacre Sword, it is still within his understanding.

But this sword of Zhishui has completely exceeded his conceptual scope.

Unreasonably powerful!

"Qinghong Divine Star, suppress it for me!"

Emperor Yuhuang didn't believe it, he gritted his teeth, and sacrificed a star, with thousands of blue rainbow lights gushing out, billowing haze and scattered colors, it was very spectacular.

It turned out to be the Qinghong God Star among the Seven Stars of Destiny!

This Qinghong Divine Star was originally in the hands of Patriarch Hongjun, but now it appeared in the hands of Ancient Emperor Yuhuang.

With just one glance, Ye Chen could see clearly that the real blessing of Patriarch Hongjun was not Wanxu's talisman, but this Qinghong God Star.

This Qinghong god star contains the will of ancestor Hongjun, and there are countless spiritual blessings, which are enough to assist the ancient emperor Yuhuang to ascend to the gods.

"Ancestor Hongjun is really powerful. When did he lend the Qinghong Divine Star to Emperor Yuhuang? I didn't realize it at all. Such a secret concealment method is really unpredictable."

Ye Chen felt more and more how powerful Patriarch Hongjun was.

Among the many heavenly emperors in Wuwu Time and Space, Patriarch Hongjun is ranked in the top three existences, and it really is not for nothing.

Rumble!

Emperor Yuhuang urged Qinghong Divine Star to suppress Ye Chen.

Ye Chen is just weak, and if he is suppressed like this, he will almost die.

However, he didn't panic at all, and with a light wave of the sword in his hand, it was still Zhishui's sword, smashing out.

With this water-stopping sword, the sword energy is still very weak, unable to break trees and rocks.

But unfortunately, when this light sword hit the Qinghong God Star.

That Qinghong god star seemed to have received the most violent counterattack in the world, and was immediately knocked out, and cracks even appeared on the star.

"Puchi!"

Emperor Yuhuang vomited blood on the spot, stunned, and looked at Ye Chen in disbelief.

"Impossible, this... this is impossible."

"This Zhishui sword, how could it be so outrageous?"

Emperor Yuhuang's face was extremely distorted, and he even smelled the breath of death.

If Ye Chen strikes again, he will be the one who will be slashed backwards.

Whoosh!

Without the slightest hesitation, Emperor Yuhuang turned around and fled, looking extremely embarrassed, like a frightened wild animal, fled away in the wild, never daring to face Ye Chen again.

Chapter 9524

Emperor Yuhuang's eyes were bloodshot, even though he was defeated and fled, he still thought in his heart: "In this world, it is impossible to have such outrageous swordsmanship."

"By the way, I must have just broken through, and the foundation of the divine way is not yet firm. After I retreat for a month, I will first stabilize the foundation, and then go out and kill this kid!"

At this time, he had been injured by Ye Chen's sword energy and needed to retreat and recuperate.

Ye Chen looked at the fleeing figure of Emperor Yu Huang, and wanted to chase after him, but his body suddenly throbbed violently.

This pain comes from the deepest source.

Ye Chen paid a very high price for using the water-stopping sword to the extreme.

His aura has not been consumed, but his martial arts foundation, original essence, and blood all over his body have been severely worn out.

The foundation is worn out, this is the price of using Zhishui sword!

Ordinary injuries can be recovered slowly through breath adjustment.

But if the foundation of martial arts is worn out, how many natural materials and earthly treasures and source jade will be consumed to nourish it back.

"This ultimate sword is very powerful, but it also costs too much. It wears down the foundation and even damages the essence of life. If the wear is too serious, I'm afraid I may die suddenly on the spot."

Ye Chen grinned, and clenched his fist helplessly.

This water-stopping kendo can be said to be his ultimate hole card at present, it is enough to cut everything back, and the lethality is unimaginably huge.

This sword of Zhishui also helped him defeat Tiannv and Yuhuang Gudi one after another.

However, the cost of using such a powerful sword is too high.

If it is not a last resort, Ye Chen will not use it.

Otherwise, the foundation of martial arts will be worn out, and even his life will be endangered.

"Emperor Yuhuang will be in seclusion for a month, and I have to make good adjustments to this month's time."

Ye Chen took a deep breath, and had a glimpse of the ancient Emperor Yuhuang's thoughts, which was to retreat for a month to heal the wounds and stabilize the foundation of the divine way.

After waiting for a month, Emperor Yuhuang will break through and come out, and it is very likely that he will use his supreme posture to coerce the reincarnation camp.

At that time, it is time for the real decisive battle.

Ye Chen also needs time to rest and adjust. The most urgent thing right now is to solve Ji Siqing's problem.

"I don't know Miss Yuying, sent my blood of reincarnation to Wuwu time and space, did it go well..."

Ye Chen returned to the Star-Moon Realm, thinking about it, feeling a little worried.

Ji Siqing was attacked and killed by Ye Han's rotten sword, and only his reincarnation blood can dissolve it.

...

At this time, there is no time and space.

Yemu Fengyuying, who has already brought Ye Chen's reincarnation essence and blood, arrived in Wuwu, tearing apart the void all the way, heading to the Zen garden, ready to hand it over to Ren Feifan.

Wuwu time and space is very large, so big that it has no boundaries, and the space is expanding all the time, and new fantasy spaces are born every day.

If you want to cross endless time and space, the vast darkness, and reach any corner in an instant, you must at least have the cultivation of a high god.

Even if ordinary people tear apart the void and walk through the void, if the distance is too far, they will not be able to arrive in an instant, it will take time.

Feng Yuying estimated that it would take half a day for her to reach the Channa Garden, which is the greatest Buddhist holy place in no time and space, and it is also the territory of the Buddha.

She was a little excited, because not everyone could see the true face of the Buddha.

There is a Heavenly Emperor List in Wuwu Time and Space, with ten seats on it, including the most powerful Heavenly Emperors in the world.

Among them, the top three Heavenly Emperors are: Tuodi Ancient God, Sakyamuni Buddha, and Hongjun Patriarch.

These three heavenly emperors are hard to distinguish between superior and inferior, so they are tied for the top three.

As for the legendary Yuantian Emperor, it is a super existence, and it cannot be accommodated by the Heavenly Emperor List.

Among the top three heavenly emperors, Sakyamuni Buddha is the oldest existence. Before the birth of the ancient god Tuodi and Hongjun ancestor, he already existed, and he was the main leader of the ancestral court of the heavenly emperor back then. one.

Seeing the Buddha, Feng Yuying was naturally a little excited.

While flying through the air, Feng Yuying suddenly caught a trace of murderous intent.

This trace of murderous aura is so fierce and sharp, so cold.

As soon as she caught it, all the excitement in her heart turned into fear and vigilance. She immediately stopped her figure, placed numerous legal restrictions on her body, and drew out her long sword.

"Hehe, Night Mother, don't panic."

In the surrounding dark void, a thick and deep voice came out.

Then, I saw a middle-aged man from the demon clan striding out.

This middle-aged man from the monster clan was very tall and tall, with a beard on his face, two sharp horns on his head, a bloody mouth, and two rows of sword-like teeth exposed when he spoke. He was wearing a black suit. The heavy iron-colored armor, with an ax hanging from his waist, looks very wild.

"Old Venerable Qingniu, it's you!"

When Feng Yuying saw this person, her expression changed immediately.

This man from the monster clan is actually Qingniu Ancient Venerable, the mount of Fengshen Tianzun in the past, and later transformed into a human form, controlled the Immortal Slaughter Pond, opened up the Immortal Slaughter Pond, and was quite famous in Wuwu time and space. god.

"Hand over the blood essence of reincarnation, and I can let you go."

Qingniu Guzun looked at Feng Yuying with a smile, and went straight to the point.

"How do you know I have reincarnation blood essence?"

Feng Yuying's face was gloomy. Logically speaking, the strength of the high god Qingniu Guzun is not enough to see such secrets.

Qingniu Guzun narrowed his eyes, and said with a smile: "Master Ye Han told me, Mother Ye, you better not spoil the good deed of Master Ye Han."

Chapter 9525

"Be obedient and hand over the essence and blood of reincarnation, I will never make things difficult for you."

Feng Yuying's eyes turned cold, and said: "If you want to steal my things, you must kill me first."

While delaying time with words, she spread her will, wanting to summon Ren Feifei and Buddha to come.

Qingniu Guzun seemed to see Feng Yuying's thoughts, and said: "Don't waste your energy, the surrounding space has been blocked by me, and it is impossible to convey your will."

"I don't want to hurt you, otherwise it will not be fun if I disturb Emperor Yuantian, so you should obediently hand over the blood essence of reincarnation."

In fact, Qingniu Guzun, seeing Feng Yuying's slender waist and plump figure, wanted to suppress her and take her back to his cave, but he didn't dare to act rashly when he thought of Yuantian Emperor behind him.

When Feng Yuying saw Ancient Venerable Qingniu, she seemed to be afraid of Emperor Yuan, she dared not make a move, she turned her eyes, and immediately turned around and fled away.

She failed to snatch the authority of the god of death back then, and her strength has declined a lot. The new god of death is not her.

With her current strength, it is absolutely impossible to confront Qingniu Guzun.

Unless Ye Chen lights up the star of the night, and she gets the blessing of reincarnation, it is possible for her to recover her strength and even surpass her peak.

But now, she couldn't possibly match against Ancient Zun Qingniu, so she could only avoid the battle.

"Want to run?"

"You can run, give me the essence of reincarnation."

"The law of karma, things stay!"

Qingniu Guzun suddenly let out a chant, laying down a law of cause and effect.

As soon as this law of cause and effect came out, Feng Yuying felt that there was a huge force covering her body with the coercion of the Great Dao.

She couldn't resist, the blood essence of reincarnation hidden in her bosom flew out of the body uncontrollably, and finally fell into the hands of Qingniu Guzun.

Qingniu Guzun got the bottle of samsara essence blood and felt the warm and blazing majestic aura, he was stunned for a while, as if he couldn't believe it, then he laughed loudly and said:

"Ye Mu, how did your strength decline to such an extent?"

"I just followed the law of karma, and I snatched your things, hahaha, hahahaha..."

Qingniu Guzun was laughing wildly, because he didn't expect that it would go so smoothly.

The law of cause and effect is the basic law that all gods in time and space master.

In the infinite time and space, the weak are like ants, and the strong are supreme.

A strong man's word is the constitution of heaven in his mouth, with the coercion of the law of cause and effect, what he says is what he says.

It can be said that the strong take life and death from the weak. Just one sentence can deprive the weak of everything without any action at all.

Because the words spoken by the strong are the truth of the Dao, the law of cause and effect, and something that will inevitably come true.

Qingniu Guzun didn't expect that he would have such an overbearing attitude towards Feng Yuying, and with a single sentence, he would snatch the blood essence of Samsara.

He knew that Feng Yuying's strength had declined too much, and he couldn't resist even a law of cause and effect that he casually uttered.

He even felt that as long as he asked Feng Yuying to kneel down and be his servant, Feng Yuying couldn't resist, unless it was suicide.

This is the coercion of the strong over the weak.

But of course, Qingniu Guzun didn't dare to do this.

If it really hurt Feng Yuying and alarmed Emperor Yuantian, it would be extremely troublesome.

He got the reincarnation essence blood at this time, fearing that there would be an accident, after laughing for a while, he quickly turned around and flew away.

Seeing that the essence and blood of Samsara had been taken away, Feng Yuying felt a sigh of relief, knowing that something was bad.

She even got a glimpse of the future. The ancient Qingniu got Ye Chen's reincarnation essence blood, and planned to set up an evil formation, integrate the blood essence into the Immortal Slaughter Pond, and use the murderous aura of Immortal Slaughter Pond to erode Ye Chen's origin.

That is to say, the loss of the essence and blood of this reincarnation is not only the loss of Ji Siqing's "antidote", but even Ye Chen may be backlashed.

In a panic, Feng Yuying speeded up and flew towards the Channa Garden, intending to report the situation to Ren Feifei and the Buddha.

...

At this time, Taishang World.

Ye Chen has returned to the Star-Moon Realm, everyone has sensed the secret, and they are all shocked when they know that Ye Chen has defeated the Ancient Emperor Yuhuang.

The ancient Emperor Yuhuang had already ascended to the gods, yet Ye Chen could still defeat him, he was simply invincible.

Of course, the price Ye Chen paid was also very huge. The foundation of martial arts has been worn down, and it may take a lot of resources to restore it.

Ye Chen returned to the World-Proud Heavenly Palace and retreated to rest.

After resting for half a day, Ye Chen's condition improved a lot.

At this time, someone knocked on the door outside the retreat.

Ye Chen sensed the aura of Ice God Dance Linghua, and he was a little puzzled, and said, "Miss Linghua, what's the matter?"

Wu Linghua said outside the door: "Ye Chen, can I come in and talk to you?"

Ye Chen said: "Come in."

Squeak.

Wu Linghua pushed the door open and came in, with reddish eye circles and a haggard look.

Ye Chen knew that she was abandoned by her family, and that even the Ice God lineage might be deprived, so she was very sad.

"It's okay, Ling Hua, as I said, even if your Ice God authority is taken away, I will protect you forever."

Ye Chen waved to Wu Linghua, and hugged her in his arms, so as to comfort her.

Wu Linghua was grateful in his heart, and said, "Ye Chen, I came here today just to talk to you about this matter."

"Rather than being deprived of my Ice God authority by the Gutian Emperor, I might as well dedicate it to you."

Ye Chen was taken aback, and said, "Give it to me?"

Wu Linghua gave a "hmm" and said, "Yes."

After a pause, he continued: "However, your reincarnation bloodline is supreme, and my ice god authority is not worthy of you."

"You can pass on my ice god authority to people in the reincarnation camp, which is better than falling into the hands of a goddess."

Wu Linghua's mother, Wu Yue, has been coerced by Emperor Gu Tian, who intends to deprive her of the authority of the ice god and pass it on to Tiannu.

In this way, the future goddess will be the new ice god.

However, Wu Linghua naturally didn't want to see this happen. Even if she wanted to lose the authority of the Ice God, she didn't want the new Ice God to be a celestial girl, but someone from the reincarnation camp.

Hearing Wu Linghua's words, Ye Chen's heart was agitated, and he immediately thought of Wei Ying.

Wei Ying also practiced ice spells, so it would be great for her to inherit the authority of the ice god.

However, Ye Chen was also worried about Wu Linghua's body, and asked softly, "Linghua, if you lose the authority of the ice god, what will be the consequences?"

Wu Linghua said sadly: "Actually, there are no consequences. After all, my era has passed."

"After losing the authority of the Ice God, I may not have a godhead, and I will change from a true god in the sky to a fairy in the world of mortals."

Hearing this, Ye Chen breathed a sigh of relief, and said: "That's okay, the immortal in the world of mortals is also an immortal emperor. With the protection of my reincarnation camp, you can enjoy eternal life and happiness, and I will not treat you badly."

Wu Linghua put his arms around Ye Chen's waist and said, "Well, I naturally trust you."

Chapter 9526

"It's just that I can't completely dispose of the power of the ice god, because this is not a godhead I got by myself, but my family's help behind it."

"If Miss Wei Ying wants to inherit my lineage, she needs the assistance of an artifact."

Ye Chen said: "What artifact?"

He was about to start a war with Wanxu at this time, so he naturally wanted to urgently improve the strength of the reincarnation camp.

If Wei Ying can become the new ice god, the aura of the reincarnation camp will definitely flourish.

Wu Linghua said: "That artifact is one of the top ten ancient artifacts. It's called the Taiyi Yin-Yang Disk. It can transfer cause and effect and change Yin and Yang. It's very wonderful."

"If I can get the Taiyi Yinyang disk, my ice god authority should be passed on to Miss Wei Ying. Otherwise, there will be resistance from my family, and the inheritance will not be smooth."

Ye Chen said: "Is the Taiyi yin and yang..."

Since this Taiyi Yin-Yang plate is one of the top ten ancient artifacts, it must be very precious.

After all, there are only ten artifacts that have been passed down from ancient times to the present that have not been worn out, and each of them is an earth-shattering existence.

Among the top ten ancient artifacts, Ye Chen has already seen the power of the Nine Heavens Fulong Seal and the Broken Heart Bell.

The Yin-Yang disk of the Taiyi is similarly mysterious and powerful.

"Do you know where the yin and yang disc of the sun is?" Ye Chen asked.

Wu Linghua shook his head and said, "I don't know, I can't even catch a trace of the secret. It seems that someone deliberately erased the traces of this artifact. You have great powers, and I believe you can find it."

Ye Chen smiled wryly, and said, "So you don't even know?"

Wu Linghua didn't know the whereabouts of Taiyi's yin and yang disk, so it seemed very mysterious.

Ye Chen thought to himself, it seems that he has to ask Ren Feifei for help again.

This thing is very important, it is the key to ensure that Wu Linghua's ice god lineage can be passed on to Wei Ying, and there is no room for loss.

Ye Chen summoned the Tianjun Fengshen Monument, and wanted to communicate with Ren Feifei.

But I didn't expect that as soon as the Tianjun Fengshen Tablet was called out, it buzzed violently. Ren Feifei in Wuwu time and space was trying to contact Ye Chen.

"Senior Ren, what's wrong?"

Ye Chen sensed Ren Feifei's intention to contact, quickly established communication, and asked.

"problem occurs."

Ren Feifei's voice was quite heavy, and next, he told Ye Chen a terrible news.

That is, the blood essence of reincarnation carried by Yemu Fengyuying has been taken away by Qingniu Guzun!

When Ye Chen heard the news, he also got a glimpse of the secret, and saw the picture of Feng Yuying being coerced by Qingniu Guzun, who was helpless.

He was suddenly furious, and said: "This guy, dare to take my things? Why didn't Emperor Yuantian make a move?"

Ren Feifei said: "Emperor Yuantian will not easily get involved in the cause and effect of the world. If a person in the reincarnation camp has not suffered substantial harm, he will not make a move."

Emperor Yuantian and Emperor Huntian are twin existences of one body.

If Emperor Yuantian left too many causal traces in the world, and Emperor Huntian could use these traces to be resurrected and reborn, it would be a more serious disaster than the collapse of the Dao and the collapse of the sky and the earth.

Therefore, if it was just things being robbed and no one was injured, Emperor Yuantian would not make a move.

As for Ji Siqing, being attacked by the sword of decay is a foregone conclusion, and Emperor Yuantian is irreversible, so Ye Chen can only solve it by himself.

The corner of Ye Chen's mouth twitched, and said: "It seems that outsiders are still unreliable, Senior Ren, only you are my real guardian."

Ren Feifei said: "The situation is very bad now. The Qingniu Ancient Venerable took your blood essence, and it is very likely that it will be integrated into the Immortal Slaughter Pond, using the murderous aura of the Immortal Slaughter Pond to directly erode your origin. Once he succeeds, you will not die. Also seriously injured."

Ye Chen's face darkened, he peeked into the future, and saw that in the future timeline, he was in danger of being corroded and backfired. Although he did not die, the source of his blood was corroded and polluted, and he stopped at the Sky Profound Realm for the rest of his life. environment of hope.

"This damned Ancient Venerable Cyan Ox, when I go to Wuwu Time and Space in the future,

Chapter 9527

If you ask Beiming Tiandi, you may be able to know the coordinates of Qingniu Guzun, but Ye Chen naturally doesn't want to disturb.

Ren Feifei glimpsed Ye Chen's concerns, and said, "Okay, then I'll wait for you."

Ye Chen nodded, and was about to ask about the yin and yang disk of the sun, when he suddenly felt a severe colic in his heart, and every meridian in his body seemed to be pricked by thousands of needles, which was very uncomfortable.

"Old Venerable Qingniu has started to attack!"

Ye Chen snorted, knowing that it was Guzun Qingniu, who had already set up an evil formation, and wanted to use the breath of the Slaughtering Immortal Pond to eat back his reincarnation blood.

If this backlash cannot be resolved as soon as possible, the consequences will be extremely serious.

Ren Feifei's expression was heavy, and after a few seconds, he seemed to think of something, and said quickly: "This is troublesome, I suggest you go find someone, he may be able to help you."

Ye Chen said: "Oh? Who is it?"

Ren Feifei said: "His name is Xiao Xingyun, it is said that he is a servant of an ancient family, and his strength is quite powerful."

"When he was at his peak, a similar thing happened. It was his blood essence, which was controlled by his enemies, and he was in danger of being backlashed from his origin, but he didn't know how he cracked it."

"You can ask him."

"That Xiao Xingyun, during the Chaotic Era, was entrusted in the ancestral court of the Heavenly Emperor and was protected by the Buddha. Later, after the Chaotic Era ended, he was seriously injured and basically lost his cultivation. He is currently living in seclusion in the real world."

The era of chaos that Ren Feifei mentioned is the era of the end of the Dharma, the era when the avenue of time and space collapsed and faced destruction.

Those who can survive from the chaotic era are not simple people.

Ye Chen said: "Senior Ren, do you want me to look for Xiao Xingyun?"

Ren Feifei said: "Yes, if we can find Xiao Xingyun, maybe we can know the way to break the situation. After all, he encountered the same predicament back then."

Ye Chen's heart moved slightly. When he heard Xiao Xingyun's name, he actually caught a glimpse of the secret connection, and caught the clues related to the yin and yang disk of the sun!

"Senior Ren, is the Yin-Yang disk of the Taiyi also in the hands of Xiao Xingyun?"

Ye Chen asked quickly.

Ren Feifei said: "What solar yin and yang disk?"

Ye Chen said: "It is one of the top ten ancient artifacts. It is said that it can transfer cause and effect and change yin and yang. It is very amazing."

Suddenly, Ren Feifei asked, "Do you want to use the Taiyi Yinyang disk to complete the inheritance of the Ice God lineage and make Wei Ying the new Ice God?"

Ye Chen said: "Exactly!"

Ren Feifei pondered for a while, and said: "I have heard of this yin and yang disk of the Taiyi, but there is no trace of heavenly secret left in the world. It is very strange, it seems that someone deliberately erased it."

"In Xiao Xingyun's hand, I don't know if there is a Taiyi Yinyang plate, you can ask."

"Remember, when you see Xiao Xingyun, you will say that you are a friend of the Buddha. He has received the blessings of the Buddha back then. If you have any questions, he will help you if you think about it."

Ye Chen said: "Yes."

After a pause, Ye Chen worried about Ji Siqing again: "Then Siqing..."

Ren Feifei said: "Don't worry, the Buddha and I will protect her well. Even if her Dao heart is really eroded, the Buddha and I will not let her betray you."

"For now, you still need to solve the problem of the backlash of essence and blood first."

"The Ancient Emperor Yuhuang has ascended to the gods, you and him are about to face off, so there should be no accidents in your body."

Ye Chen said: "Yes, Senior Ren, then I will go look for Xiao Xingyun tomorrow, but I can't do it today, I'm in a bad state."

Based on the existing clues, Ye Chen secretly calculated the secret of the sky, and has vaguely captured the location of Xiao Xingyun, which is in the outer sky.

Ren Feifei said: "Very well, I wish you success."

The discussion has been decided, Ren Feifei will deal with the matter of time and space, and Ye Chen will rest for another night to further recover his state, and rely on the heart of light to illuminate the blood of reincarnation and prevent him from being backlashed by the evil method of Qingniu Guzun.

But the heart of light is only a semi-finished product after all, and it also needs energy to activate it. Relying on the heart of light to shine is not a long-term solution.

Ye Chen only hoped that that Xiao Xingyun could really find a way to solve his immediate predicament.

Also, Ye Chen also wanted to know if the Taiyi Yinyang disk was really in Xiao Xingyun's hands.

With many questions, Ye Chen came to Tianwaitian alone.

In the world outside the sky, there is a vast void, and billions of stars are twinkling.

Ye Chen shuttled in the starry sky, constantly calculating the position of capturing Xiao Xingyun.

Xiao Xingyun's cultivation base was completely lost, and he had no means of concealment or cover-up.

Therefore, under Ye Chen's careful calculation, he also quickly found the specific coordinates of Xiao Xingyun, which is on a huge planet.

This planet is a huge gaseous planet with no land. The interior of the planet is filled with frenzied turbulence and storms. Various violent sources of different attributes are intertwined with each other, and eventually evolve into layers of riotous red clouds. Rumble.

When Ye Chen landed on this huge gaseous planet, he felt countless violent wind disasters and thunder clouds whizzing towards him.

This planet is like a pure natural disaster, gathered together, the environment is extremely harsh, even the immortal emperor can hardly survive, and the vastness of the world's mighty power is displayed to the extreme on this planet.

"Junior Ye Chen is a friend of the Buddha. I would like to interrupt you. I want to see Senior Xiao Xingyun. I wonder if Senior can meet in person?"

Ye Chen called out loudly, and the voice was transmitted very clearly amidst the rolling wind and thunder of this planet.

Although the environment here is harsh and dangerous, with Ye Chen's strength, he can naturally stand firmly.

To be precise, it was not standing still, but floating in midair, among countless frantic red clouds and thunderstorms.

Because this planet is a gas giant planet, there is no solid surface, let alone the existence of land, only pure frenzied airflow.

Ye Chen's voice came out, and after waiting for a while, he didn't get any response.

"Junior Ye Chen, please see Senior Xiao Xingyun!"

Ye Chen shouted again, this time, from the depths of the frantic storm turbulence, came an old voice:

"If you want to see me, you must defeat my puppets first."

After the voice fell, there was a sharp sound of piercing through the air, and there were three puppets breaking through the storm and descending on Ye Chen's body, forming a triangular formation, surrounding him.

The three-headed puppets are made of some ancient black iron. Their bodies are iron-black in color, and blood-colored gemstones are inlaid in their eye sockets. They look like two blood pupils, shining with strange light. They look quite mysterious and ominous. breath.

Ye Chen's heart trembled, these three puppets looked quite strong.

After the end of the Dharma-ending Era, Xiao Xingyun lost all his cultivation, but he has been living in the real world and has not been disturbed by anyone. Presumably it is because of the puppet's protection, which is enough to protect himself.

Chi Chi Chi!

Chapter 9528

The three-headed puppets came to attack and kill at the same time, without any fancy supernatural power changes, just pure martial arts, pure fists.

The steel fist of the three-headed puppet was ferocious and domineering. It blasted through countless red clouds and storms around, and brought up a more violent storm, attacking and killing Ye Chen.

Ye Chen's eyes were fixed. There is no doubt that these three puppets are very powerful.

But, in front of his eyes, these are chickens and dogs, and he can kill them all with a single sword.

Of course, Ye Chen didn't want to lose Xiao Xingyun's face, so when he saw the puppet killing him, he didn't deal with it with all his strength. Instead, he used the divine sword to control the thunder, and struck out thunderous sword energy. It seemed to be a fierce confrontation, but in fact it was perfunctory. .

Clank!

A series of sword qi struck the three-headed puppets, but did not cause much damage. Obviously, the materials of those puppets are also very high-quality, and their ability to resist blows is very strong.

Of course, this was because Ye Chen kept his hand.

If Ye Chen uses all his strength, no matter how powerful the puppet is, he will kill him with a single blow.

Ye Chen swung his sword and dealt with the three-headed puppets, the fight was inextricable, hype fell, and the storm exploded.

Many turbulent red clouds on this gaseous planet disappeared in the fierce fight between Ye Chen and the puppet, and the frantic sky became clear.

In the clear sky, Ye Chen saw an old man sitting cross-legged on a suspended steel island.

The steel island was also built with mechanical techniques, it is quite amazing that it is suspended in the air.

Ye Chen thought, the old man must be Xiao Xingyun.

He gave Zu Xiao Xingyun face, fought hard with the three-headed puppets, and fought fiercely, which looked very gorgeous.

Seeing this, Xiao Xingyun showed a wry smile, took the three-headed puppets away, and said: "No need to fight, Lord of Reincarnation, my puppets can deal with the immortals of the world, but you are the true god in the sky, I am no match for you!" your."

Ye Chen hurriedly cupped his hands and said: "Senior, I was just joking, I'm just at the Profound Sky Realm, I don't even count as an immortal in the world of mortals, so I dare not talk about the true God in the sky."

Xiao Xingyun said: "Although you are only in the Profound Sky Realm, your real combat power is enough to rebel against true gods. Why do you come to see me? I have long since lost my cultivation, and I only rely on a few puppets to protect me. Any ability to spy on the secrets of the sky is beyond me." there is none left."

He has lost his cultivation, and he can't pry into the cause and effect of the heavenly secrets, so he can't see Ye Chen's intentions.

Ye Chen said: "Senior, the Buddha asked me to come..."

Ye Chen didn't say Ren Feifan's name, because he was afraid that Xiao Xingyun would not recognize him, so he only said that he was the Buddha, and he explained in detail that his blood essence of reincarnation was controlled by the enemy, and his own origin was in danger of being backlashed.

Xiao Xingyun let out an "oh", rather surprised, and frowned, "Your blood essence is being used by the enemy to go back to your origin? This is indeed very tricky."

Ye Chen said: "Senior, I heard that you also experienced similar things back then. I don't know how you solved it?"

Xiao Xingyun was stunned for a moment, and said, "I was back then? Hmm...let me think about it."

"These things are too far away, too far away. They are things of the Dharma-ending era. I don't know how many billions of years have passed since now."

"No, not hundreds of millions of years, but hundreds of millions of epochs."

"I have seen countless times in the real world, the stars go out and then light up again, and I see the great universe dying, and the new universe is reborn in the ashes and ruins."

"My memory has been worn out too much. Have I experienced something similar to yours? I don't remember..."

Xiao Xingyun's eyes were confused and cloudy.

He lost all his cultivation, and the wear and tear he endured was already more intense than ordinary people.

His ability to live up to now is all due to Qi, and there must be other forces behind him, protecting his life.

Otherwise, it is absolutely impossible for him to withstand the wear and tear of such a long time when his cultivation base is completely lost.

Ye Chen's heart tightened, and he said, "Senior, think about it slowly, can you remember?"

Xiao Xingyun said "hmm" again, his eyes were still muddy and confused, and he said slowly:

"Headache, headache, the memory wears down so much, it's been too long, I can't remember it."

"Let me think about it from the beginning, um, my name is Xiao Xingyun, I still remember my own name."

"This name was given to me by Ms. Sakurazuka, and I will never forget it."

Ye Chen said: "Who is Miss Yingzuka?"

Xiao Xingyun said: "Well, Miss Yingzuka is Miss Yingzuka, she is the most noble figure in the Yingzuka family, and I am her servant."

"Have you heard of the god cherry tree?"

Ye Chen froze for a moment, and said, "What god cherry tree?"

In fact, Ye Chen doesn't care about Miss Yingzuka, the Yingzuka family, or the god cherry tree. He just wants to know how to deal with Xiao Xingyun when he encountered a similar incident when his blood was used by others.

It's just that Xiao Xingyun has worn out those related memories too much. If he wants to restore his memory now, he has to remember it from the beginning.

When Xiao Xingyun heard Ye Chen ask him, what is the god cherry tree, some ancient memories also came back to life, and his spirit was lifted immediately, his eyes sparkled, and he said:

"The god cherry tree is the biggest tree in the other side of the starry sky."

"Legends say that when the other side of the starry sky suffers from darkness and corruption, and changes from holy to filthy, the divine cherry tree will appear as a sign. When the divine cherry tree begins to wither and the cherry blossoms begin to fall, then it is the time of the fall of the starry sky beyond."

Chapter 9529

"So, when you see that the cherry blossoms of the sacred cherry tree have begun to wither and fall, the creatures living in the other side of the starry sky should flee for their lives, otherwise they will be eroded by the darkness, and there is no possibility of turning back gone."

Ye Chen was taken aback and said with horror, "Senior, are you from the other side of the starry sky?"

Xiao Xingyun hesitated for a moment, seemed to be remembering, finally shook his head very definitely, and said: "I am not, but Ms. Sakurazuka is."

"Miss Sakurazuka and her family are the race under the sacred cherry tree."

"When the sacred cherry tree was still very luxuriant, they already had a premonition that one day in the future, this tree would wither and the cherry blossoms would fall down, so their family name was called Yingzuoka, and it was the place where the cherry blossoms were buried. meaning."

"Later, the sacred cherry tree really withered, and all the beautiful and gorgeous cherry blossoms fell down. Everyone in the Sakurazuka family cried, and Miss Sakurazuka also cried."

"But they have no choice, because the other side of the starry sky is about to fall, and the darkness will drown everything, so they escaped."

"Well, they should have escaped, because later on, I was taken in by Ms. Sakurazuka and became her servant."

"These things were all told to me by Ms. Sakurazuka."

"When she brings up the past, she still sheds tears."

After hearing Xiao Xingyun's words, Ye Chen's heart was greatly shaken. He didn't expect that there was such a magnificent and mysterious legend in the other side of the starry sky.

After hearing the legend of the god cherry tree, Ye Chen's heart was actually touched, and he felt inexplicably sad, as if an ancient picture appeared in front of his eyes.

The huge crimson sacred cherry tree appeared in his eyes, and then the cherry blossoms fell one by one, and the sacred cherry tree began to wither.

Under the sacred cherry tree, countless people are crying.

Inexplicably, Ye Chen also wanted to cry, as if he felt sad for the other side of the starry sky, which was about to be submerged in darkness.

"Senior, you members of the Sakurazuka family, are you in Wuwu time and space now?"

Ye Chen asked again, he was also a little more interested in the Yingzuo family.

Xiao Xingyun thought for a while, and said: "It should be here, but I guess it is very low-key now, because I have provoked too many enemies in the past."

"Miss Yingzuka's father is the patriarch of the Yingzuka family. I have forgotten his real name, but I still remember his emperor title. He is the Ninth Grade Heavenly Emperor, and his emperor's title is Yantian Emperor."

"At the peak, the head of the family was known as the Emperor of Yantian, and he was invincible in all the heavens. He was the ancestor of all the laws of the fire system in the heavens. In the past, there was no time and space without fire. Inspiration creates fire."

"Later, many ancient gods used him as a source of inspiration to create a very powerful magic weapon. It seems to be the seal of Emperor Yan. I don't remember much."

Ye Chen was stunned, and his body stiffened immediately: "Emperor Yantian? Seal of Emperor Yan?"

Xiao Xingyun said: "Yes, you should have heard of it, right? The lord of reincarnation, the head of the family back then, worshiped the law of reincarnation very much, and predicted that there would be a successor of reincarnation in the future, who would completely change the world. You finally appeared."

Ye Chen was speechless in a daze. Of course, he had heard of the name of Emperor Yantian long ago. It was the source of inspiration for the fantasy of Emperor Yan.

However, he did not expect that this Emperor Yantian actually came from the other side of the starry sky, a citizen under the sacred cherry tree, and the head of the Yingzuo Clan!

Even Emperor Yantian was the creator of flames, he was the one who made fire exist in Wuwu Time and Space.

It can even be said that Emperor Yantian is the first generation of Vulcan, he is the source of all fire laws, the source of ancestors.

No, to be precise, the real ancestor of fire should be the fire star in the seven stars of reincarnation.

Because, if there is no Tianhuo Mingxing, Yantian Emperor would not be able to get inspiration and create flames.

Xiao Xingyun said again: "My lord, he still has a magic weapon called the Taiyi Yin-Yang Disk, um... I remembered, before he died, he gave this magic weapon to me for safekeeping."

Ye Chen's scalp felt numb when he heard this, and he couldn't help but interrupted: "Senior, you said Tai Yin Yang disk?"

Before setting off, Ye Chen vaguely grasped that Xiao Xingyun might be related to the yin and yang disk of the sun, but he did not expect this magic weapon to be kept by him.

Xiao Xingyun said: "Yes, what's the matter, do you want this magic weapon? But it has already been snatched away."

Ye Chen's face darkened, and he said, "Who snatched it away?"

Xiao Xingyun showed a painful look on his face, and said: "These memories are too long and too confusing, let me sort them out."

"Well, that's right, when the Patriarch gave me the Tai Yin Yang disk for safekeeping, he died."

Ye Chen couldn't help asking again: "How did he die?"

It is shocking that such a powerful figure as Emperor Yantian would fall.

Xiao Xingyun said: "He was killed by the enemies."

Ye Chen asked: "Who is the enemy?"

Xiao Xingyun said: "I forgot..."

Ye Chen said: "Okay..."

Xiao Xingyun said: "Well... the master of the family said that he is very tired and does not want to be resurrected. He will erase all traces of the secrets. In this world, all legends and traces about him will be completely wiped out within a hundred years. eliminate."

"But his supernatural powers are astounding, and the traces are not so easy to remove. It was not until later, after the Emperor Yan was created, that all the traces about him finally dissipated. Only the word Yantiandi was left in the world, and no one knew his legend anymore. ."

Chapter 9530

Ye Chen nodded, no wonder Emperor Yantian was so mysterious, the rumors were unheard of, it turned out that he himself erased it before his death.

Xiao Xingyun said: "I retained the memory of the Patriarch because I was in charge of the Taiyi Yin-Yang Disk. This magic weapon was forged by the Patriarch himself, and he probably would not be willing to erase it."

"This yin and yang disc of the Taiyi has the miraculous effect of transferring cause and effect and changing yin and yang. Back then, the head of the family created this magic weapon to protect Miss Sakurazuka."

"Whether Ms. Sakurazuka is injured or even dies, he can use the Taiyi Yin-Yang disk to transfer these negative karma to some slaves, so that those who are injured and die will be slaves, and the lady will be fine."

"This magic weapon can also be transferred to the inheritance of Taoism. Whatever supernatural powers the Patriarch has cultivated, will be transferred to the young lady through the Taiyi Yinyang disk."

"Although there will be wear and tear during the transfer process, as long as the transfer is successful, the young lady will be able to obtain countless supernatural powers out of thin air, and she can become the main god of the emperor without hard work on her own."

Ye Chen was shocked, and said: "This Taiyi Yin-Yang disk, is it so magical?"

He knew a long time ago that since the Taiyi Yinyang Disk is one of the top ten ancient artifacts, it must have something extraordinary.

But now, after hearing what Xiao Xingyun said, he realized that the Taiyi Yin-Yang Disk is so miraculous. It is simply unbelievable that he can transfer all his negative states, injuries and deaths, etc. by transferring cause and effect.

Moreover, using the Taiyi Yinyang disk can also transfer the inheritance of Taoism.

If he can get it, then Wu Linghua's ice god lineage can be transferred to Wei Ying smoothly.

Seeing Ye Chen's shocked appearance, Xiao Xingyun was quite proud, and said: "Of course, once on the other side of the starry sky, the starry sky gods were the largest race, and there were four clan branches, namely the Fengjian clan, the Zichuan clan, and the Fengyuan clan. Shi, Makino."

"The head of the family killed almost all the members of the Muye family, and used their bones to cast this Taiyi yin and yang plate. Of course, this magic weapon is powerful. There are tens of millions of bones and souls of the entire Muye family accumulated in it, hehe , but these innocent souls are suppressed by Shenying, but they cannot resist."

Ye Chen was terrified. He had met people from the three great families of the Starry Sky God Clan, the Zichuan family, the Fengjian family, and the Fengyuan family.

It's just that he didn't expect that in the original starry sky god clan, there were four great aristocratic families, and there was also a Makino family.

However, that Muye family has been killed by Emperor Yantian.

Their corpses were cast into sun yin and yang disks.

How powerful is Yantian Emperor's strength, that he can slaughter a starry sky family.

"The magic weapon of the Taiyi Yinyang disk has such a huge background and such a profound foundation, it is really inconceivable."

Ye Chen was amazed, he didn't expect that there was such an ancient bloody and frightening legend behind the Tai Yin Yang plate.

But Xiao Xingyun sighed: "It's this magic weapon, it's too powerful, and it has attracted the covetousness of countless enemies. I have suffered so much, I don't know how many times I have been killed."

"Fortunately, the Taiyi Yin-Yang disk can transfer cause and effect. I laid out the law of cause and effect in advance. As long as I am injured or dies, the Taiyi Yin-Yang disk will automatically activate and transfer all these negative states to my followers."

"Back then, I always had to bring a few dead soldiers with me, otherwise I couldn't stop the enemies from chasing and killing them. They all wanted to snatch the Tai Yin Yang Disk."

"But later, there was an enemy who stole my blood essence and wanted to set up an evil formation to devour my original life. This cause and effect is difficult to transfer, because it involves the original."

"Ah, by the way, your current situation is indeed exactly the same as mine back then, I finally remembered!"

At the end, Xiao Xingyun slapped his thigh, looking sober.

After talking for so long, starting from his origin, talking about the legend of the sacred cherry tree, the past of the Sakurazuka family, the legend of Emperor Yantian, and the mystery of Taiyi's yin and yang disk, he finally talked about this matter.

Ye Chen quickly asked: "Senior, how did you solve it back then?"

Today's Ye Chen is also facing such a predicament.

He could feel that Qingniu Guzun was cursing himself all the time, wanting to use the murderous aura of the Immortal Slaughter Pond to erode his blood essence of reincarnation, and then erode his origin and hurt his foundation.

If it wasn't for the shining heart, Ye Chen would definitely be in great pain.

But relying on the heart of light to shine is only an expedient measure and cannot last long.

Ye Chen must solve this problem as soon as possible!

Xiao Xingyun said: "How to solve it? Naturally, it depends on the yin and yang disk of the sun."

"Because it involves my origin, this cause and effect cannot be transferred to others, so I created a clone."

"The key to breaking the game lies in the avatar. As long as you guide the cause and effect of backlash into the avatar, and let the avatar suffer for you, you will be fine."

"However, this method has extremely high requirements on the quality of the avatar. Back then, my avatar was not as good as it should be, and I was eventually backlashed into a serious injury."

"As a last resort, I had no choice but to take refuge in the Buddha. He took me into the ancestral court of the Heavenly Emperor. I also used the Taiyi Yinyang Disk to contribute a lot when the end of the Dharma came."

Ye Chen's heart moved, and he said: "So it was solved by avatar?"

After a pause, he felt something was wrong again, and said, "No, we still have to rely on the yin and yang disc of the sun!"
