Chapter 9681

It is already very extravagant to spend 1.5 million to buy a heaven-reaching elixir, and it is not worth it to increase the price. Even if it can be photographed, it is not worth the loss.

"Very good, Miss Xingya, I can't compete with you, you win."

Ye Han gritted his teeth, and finally did not increase the price, his face was full of gloom.

Xin Xingya won the Heavenly Soul Blood Bone Pill at a high price of 1.5 million source jade.

"Brother..."

Meixin, who was sitting next to Ye Han, wanted to shake his hand to comfort her, but he just shook her off.

Yehan said in a dark voice again: "Contact the people in Tianzhu Palace for me."

Charm Heart trembled when she heard the word "Sky Moat Palace", and said, "Senior brother, this... alright."

There are four major killer organizations in Wuwu Time and Space, namely the Deep Underworld Domain, Tianzhu Palace, Remnant Dream God Sect, and Black Blood Sect.

Among them, the Black Blood Cult belongs to the ancient god Tuodi, who once assassinated Ye Chen.

Among the four major killer organizations, the Black Blood Sect is the weakest, and it exists by relying on the ancient god Tuodi.

The other three killer organizations are much more powerful and mysterious than the Black Blood Cult. Most people don't know where those killer organizations are.

Heavenly Moat Palace is in

Chapter 9682

The bone of the demon emperor is a sacred object of the demon clan, so Ye Chen naturally didn't want to be photographed by Ye Han.

If he can help the Tongtian Ape Clan to take down the demon emperor's bone and form a good relationship, Ye Chen may be able to find out the whereabouts of Xuanyao.

When Ye Chen opened his mouth and offered to borrow money, everyone was shocked.

The old ape king was even more shocked, he was stunned for a while, and excitedly clasped his fists and said: "Gao Yi, the lord of reincarnation!"

Then he continued to raise the price: "1.6 million!"

Xin Xingya looked at Ye Chen, thought for a while, and said softly to the old ape king: "I, Jubao Chamber of Commerce, can also provide loan services. Your Excellency, ape king, you can borrow as much as you want."

Hearing Xin Xingya also spoke, the old ape king was even more excited, and said repeatedly: "Thank you, thank you!"

Ye Han was furious, and said, "Xin Xingya, do you really want to fight against me?"

Xin Xingya smiled and said, "Master Yehan, what are you doing wrong? This is just a fair competition."

Yehan was so angry that smoke was coming out of his seven orifices, and Tiandi's anger was boiling, as if he wanted to attack immediately.

At this time, around the auction site, the Taoist guards who maintained order immediately became vigilant.

The guard leader Chen Lie said: "Master Yehan, please calm down."

With the Daozong guards present, Ye Han couldn't move his hands randomly. Under his anger, the knuckles of his palms were pinched, and his heart was extremely angry.

"Very good, very good, Xin Xingya, Lord of Reincarnation, let's wait and see."

Yehan snorted, got up immediately, and left with a charming heart.

Xin Xingya whispered to Ye Chen: "After this Ye Han returns, he will definitely release the Moon Emperor Demon God to deal with you. You have to be careful."

"The strength of the Moon Emperor Demon God, even after years of wear and tear, is at least at the peak of the divine way. To you, it is a great threat. Do you want me to accompany you, and we will fight together."

Xin Xingya knew that there was a guardian behind Ye Chen, and that was Ren Feifei.

But people like Ren Feifei naturally wouldn't make a move easily.

If the enemy is only at the peak of the Divine Dao Realm, he will not care about it, and leave it to Ye Chen to solve it by himself.

If Ye Chen can't even solve this danger, he is not qualified to be in charge of the reincarnation camp anymore. He has to be alone and try to solve most of the dangers by himself in order to truly grow.

Ye Han obviously knew this too, so he didn't take action himself, but summoned the Moon Emperor Demon God to take action, in order to force Ye Chen to face it alone.

The Moon Emperor Demon God Clan, who used to be the subjects of the Moon God and Heavenly Emperor, possessed extremely powerful supernatural powers, and were born to hunt and kill geniuses. Compared with ordinary warriors at the peak of the Divine Dao Realm, they were much more powerful.

With Ye Chen's current strength in the Fifth Heaven of the Immeasurable Realm, he can cross a large realm and rebel against the existence of the Fifth Heaven of the Divine Dao Realm.

However, it is obviously a bit difficult for him to deal with the demon god who is at the peak of the divine way.

Therefore, Xin Xingya wanted to stay by Ye Chen's side and fight against the Moon Emperor Demon God with him.

Ye Chen was grateful in his heart, and said with a smile: "No need, Miss Xingya, I can solve it myself."

Ye Chen has many trump cards, and he is not afraid of the Moon Emperor Demon God's attack.

On the contrary, he was still looking forward to it.

After all, the Moon Emperor and Demon God clan were the former subjects of the Moon God and Heavenly Emperor, so they must have the karma of the Moon God and Heavenly Emperor.

If he could kill the Moon Emperor Demon God and collect those causal traces, he might be able to speed up the repair and decipher the treasure map of the Moon God Heavenly Emperor.

Seeing that Ye Chen didn't need her company, Xin Xingya looked a little disappointed, and said worriedly:

"Okay, then be careful yourself."

"If there is any danger, you call my name, and I will help you."

"After all, we're friends."

At the end, Xin Xingya smiled gently, her eyes seemed to contain stars and moons.

Ye Chen's mind fluttered slightly, he shook hands with her, and said, "Yes, we are friends."

The auction is over.

Ye Chen took a photo of an Infinite Ascending Profound Pill, and successfully got the fragments of the Demon Castle. It can be said that he is very satisfied.

Xin Xingya got the Heavenly Soul Blood Bone Pill, the Ape King of the Tongtian Ape Clan, and the Demon Emperor God Bone, and everyone was overjoyed.

The Tongtian Ape Clan was able to win the Demon Emperor's Divine Bone because Ye Chen agreed to borrow money, which gave them a backing guarantee, otherwise, they really wouldn't be able to compete with Ye Han.

After the auction ended, the ape king of the Tongtian Ape Clan came to Ye Chen with a face full of joy, and said respectfully: "Master of Reincarnation, thank you for your help today, what can I do for the Tongtian Ape Clan in the future?" , please open your mouth."

As he said that, he took out a communication jade charm and handed it to Ye Chen.

As long as Ye Chen infuses spiritual energy into the jade talisman, the Tongtian Ape Clan will be able to perceive the news, come to help, and repay his kindness today.

"It's okay, it's just a matter of raising your hands."

Ye Chen smiled, but still accepted the jade talisman, thinking about the Xuan Yao and the black-patterned stone egg in his heart, he looked around first, then lowered his voice and said:

"Senior Ape King, I have something I want to talk to you alone, I wonder if I can take a step to talk."

Tongtian Ape King saw Ye Chen's mysterious appearance, his heart trembled, he nodded and said: "Yes."

Ye Chen said "hmm" and bid farewell to Xin Xingya, and went to a secluded place in the Misty Land with Tongtian Ape King to shield the sky from the secrets.

Tongtian Ape King saw Ye Chen's serious appearance, he was very puzzled, and asked, "Lord of Reincarnation, what do you want to say?"

Ye Chen said: "I want to ask, where is the Xuan Yao ancestor now?"

Chapter 9683

Tongtian Ape King was shocked when he heard this, but he was also vigilant, and said: "You want to find out the whereabouts of Master Xuan Yao? What do you want to do?"

Seeing the vigilant look of the Tongtian Ape King, Ye Chen knew that he had misunderstood, so he immediately sacrificed the blood of the mysterious demon, showed it, and quickly took it back, saying:

"Senior Ape King, please don't get me wrong, I am actually the descendant of the Xuan Yao ancestor."

When the Tongtian Ape King saw the blood of the Xuanyao, he caught all kinds of secrets. Knowing that Ye Chen and the ancestor of the Xuanyao are indeed closely related and have a deep relationship, he immediately respected him and said:

"Lord of Reincarnation, it turns out that you are the descendant of Master Xuan Yao, please accept my worship!"

As he spoke, he knelt down to worship.

Ye Chen helped him up, and said: "Senior, you don't need to be too polite, I just want to know where the ancestor Xuanyao went, and I want to call him into the reincarnation camp, so that we can share the spirit and benefit everyone."

"Also, there is a black-patterned stone egg here, which was left by the ancestor of Xuanyao back then. I can't hatch it, and maybe he has to do it himself to hatch it."

At the end, Ye Chen sacrificed the black-patterned stone egg again. The black patterns on the stone egg looked a little permeable in the sunlight, and there seemed to be some mysterious and gloomy existence hidden in the stone egg.

"Ah, it's the forbidden demon egg!"

The Tongtian Ape King exclaimed when he saw the black-patterned stone egg, obviously knowing the origin of the stone egg.

Ye Chen's heart moved, and he said, "What forbidden demon eggs?"

Tongtian Ape King looked a little panicked, he didn't dare to look at the black-patterned stone egg carefully, as if he was afraid of touching some evil existence.

He swallowed his saliva, calmed down, and then continued:

"The thing inside this black-patterned stone egg is actually a powerful forbidden demon."

Ye Chen said: "Forbidden demon?"

Tongtian Ape King said: "There are legends about the ascension of forbidden gods in the world. The lord of reincarnation, you are forbidden gods, right? This forbidden demon has a similar experience to yours. It also forcibly ascended to the sky before reaching the realm of ascension."

"You taboo existences are likely to master some mysterious and powerful laws."

"The forbidden demon in this stone egg is very powerful. It was even regarded by my demon clan as the source of evil. When it was at its peak, the forbidden demon killed the heavens and committed all kinds of evil. It even became known as the Ten Thousand Demons and once dominated the era."

"But later, something happened. He fell and turned into an evil egg, which is the black-patterned stone egg in your hand."

"Back then, this forbidden demon egg was obtained by Lord Xuanyao. He wanted to hatch the forbidden demon inside. Back then, many of our demon clans, iron lion guards, Tongtian ape clan, phoenix, bone dragon clan, etc. Help hatch."

"But later, Master Xuan Yao was hunted down by the ancient star gate, and we were also forced to flee in all directions, and the incubation was terminated."

"I vaguely remember that this forbidden demon egg was finally taken away by the iron lion guards, but I didn't expect it to fall into your hands now."

Tongtian Ape King talked about the past, and Ye Chen was a little astonished after hearing it.

It turns out that the black-patterned stone egg, the thing inside, has such a big origin, it is a forbidden demon, it is the source of evil in the eyes of the demon clan, and it is an extremely terrifying existence.

Back then, the Forbidden Demon, even known as the Ten Thousand Demons Heavenly Venerable, once dominated the Era and was extremely powerful.

"Such a powerful and evil Forbidden Demon, the Xuan Yao Patriarch actually wants to hatch?"

Ye Chen was very curious.

Tongtian Ape King said: "Master Xuanyao wants to deal with the ancient star gate. He joined hands with Lord Sky Demon, Lord Earth Demon, etc. to lay down the law of cause and effect on this forbidden demon egg. As long as the forbidden demon inside hatches, it will automatically go to kill people from the ancient star gate is a way to drive away tigers and wolves."

Ye Chen suddenly realized, and hesitantly said: "So that's how it is, driving tigers and devouring wolves... This strategy is a bit risky. If the forbidden demon gets out of control, it will be really unimaginable."

The four demons of heaven, earth, black and yellow have actually been targeted by the ancient star gate.

The ancient star gate had great ambitions. Back then, the five heavenly emperors, headed by Wu Tiandi, jointly founded the ancient star gate. The purpose was to hunt down the gods of the heavens, collect the bones and vitality of the gods, and create a supreme god king in fantasy, known as Xuanyuan king. .

King Xuanyuan's fantasy is probably inspired by the fool's fantasy, but it is not as crazy as the fool's, and it is so outrageous to cast all the creatures in the heavens.

The fantasy of the ancient star gate is to create a supreme god king as a tool to dominate the heavens.

Although Wu Tiandi's current ending is very miserable, but when she was at her peak, she was illuminated by the Heavenly Emperor's star, established the Tiandi Family, and established the Ancient Star Gate.

In Wuwu time and space, none of the characters who can become the emperor of heaven are trash, they are all people with the ambition of domination, and each one is crazier than the other.

The Heaven, Earth, Xuanhuang and Four Demons, like Martial Ancestor, were all targeted by the Ancient Star Sect.

The ancient star gate wants to hunt them down and use them as materials for casting the supreme god king.

In the end, Martial Ancestor missed and was captured, and the four demons of Xuanhuang and Tiandi were forced to flee.

The four demon ancestors of Tiandi Xuanhuang are very powerful.

However, the ancient star gate has a profound background and is even more powerful.

Facing their hunting and killing, the four great demon ancestors, Xuanhuang and Tiandi, could only choose to retreat and lay out slowly.

It wasn't until later that there were disputes within the ancient star gate, and there were many forces rising in Wuwu time and space, challenging the position of the ancient star gate, which made the ancient star gate consume a lot of power, and their arrogance was slightly weakened, but they are still very hot now, yes The top power, extremely powerful.

Chapter 9684

Xuanyao can't fight against the ancient star gate alone, so it's understandable to want to hatch forbidden monsters and drive away tigers and wolves, but in Ye Chen's view, this is indeed too risky.

Now that he is holding the black-patterned stone egg, he can vaguely feel that the things inside the stone egg are extremely eerie and terrifying. Once it is born, it will surely come like the end of the world.

The Tongtian Ape King pondered for a while, then took out a secret scroll, handed it to Ye Chen, and said, "Lord of Reincarnation, this is the secret method to hatch the eggs of forbidden demons. Wait for the adults to create it together."

"Relying on this life-invoking trick, you may be able to hatch forbidden demons, just give it a try."

"If the forbidden monster can be hatched and the tigers and wolves can be driven away, it can deal a heavy blow to the ancient star gate."

"Now Xuan Yao, Tian Yao and other adults have gone to Desolate World and have important matters to deal with."

"They won't be able to come back in a short time. The hatching of the forbidden demon eggs still depends on you."

Ye Chen said: "The ancestor Xuan Yao went to the wild world?"

Tongtian Ape King said: "Yes."

Ye Chen frowned, he still wanted to call Xuan Yao into the reincarnation camp, but Xuan Yao was not in the main world, so he had to give up the recruitment.

But asking him to hatch the black-patterned stone egg, he felt it was a bit dangerous, so he said: "Senior Ape King, why don't you hatch it?" He wanted to hand the black-patterned stone egg to Tongtian Ape King.

The Tongtian Ape King was terrified, and hurriedly said: "The lord of reincarnation, the forbidden demon is the supreme being of the ancient demon way. Once hatched and born, the weather will be earth-shattering. I can't suppress it. Only your reincarnation luck can make it happen." suppress."

"It's better for you to hatch this forbidden demon egg yourself. You don't know when Master Xuan Yao will come back. This evil egg is about to die completely, and you can only hatch it by you."

As he said that, he stuffed the scroll of life-evoking tricks into Ye Chen's hands.

Ye Chen thought for a while, then sighed: "Okay." Then he accepted the spell scroll.

There is no doubt that the existence in this black-patterned stone egg is extremely dangerous.

However, there are many masters in Ye Chen's reincarnation camp, even if the forbidden demon is really born, he is confident to suppress it.

If the forbidden demon is hatched, it will be an extra card against the ancient star gate in the future.

The way to drive away tigers and devour wolves is to take risks indeed, but since Xuan Yao, Tian Yao and others made such a layout back then, they must have their reasons.

Ye Chen chose to believe them!

After the discussion, Ye Chen and Tongtian Ape King separated.

He is not in a hurry to leave Misty Land, because after the auction, Misty Chamber of Commerce will hold a celebration parade, with colorful flowers, sky lantern lighting and other activities.

Combining work and rest in all things, in the infinite time and space, it is especially necessary to pay attention to the rhythm of the body, not to rush too much, otherwise the order in the body will be disrupted, and it will be easily eroded by darkness.

Ye Chen stayed in the Misty Land that night, having fun with Xin Xingya, feeling very happy in his heart.

In the end, the two held hands in a tacit understanding, but they just held hands and did not make any further moves. Both of them maintained restraint.

"Ye Chen."

Xin Xingya's eyes were as bright as stars, she no longer called Ye Chen the Lord of Reincarnation, but called him by his name directly.

"I'm going back to the Jubao Chamber of Commerce tomorrow. If you are free in the future, you must come to the Jubao Chamber of Commerce to see me."

Xin Xingya said with a smile.

"must."

Ye Chen also smiled, and gently raised his hand to straighten Xin Xingya's hair that was blown tousled by the evening wind.

Xin Xingya took his hand and rubbed it on her face, and the two looked at each other and smiled.

Then, one of Xin Xingya's servants suddenly came from a distance and whispered something in her ear.

Xin Xingya's face became serious for a while, and then she was surprised. She nodded, and the servant backed away.

Ye Chen asked: "What's wrong?"

Xin Xingya said: "I asked my staff to investigate the legends related to the Goddess of Beauty. They just found some, um... It seems a bit strange that the Goddess of Beauty, the legends related to her, were deliberately erased, as if behind What a secret."

Ye Chen said: "Did you find the clue so quickly?"

He didn't expect that the Jubao Chamber of Commerce would be so efficient.

Xin Xingya said: "I'm not sure, the God of Beauty didn't find it. My people just told me that they found another god, which may be related to the God of Beauty."

Ye Chen asked: "What god?"

Xin Xingya said: "Ugly God."

Ye Chen asked in astonishment: "Ugly God?"

Xin Xingya smiled and said, "Yes, ugly god, beautiful god, hehe, the cause and effect behind this must be very interesting."

Ye Chen was also very surprised. Could it be that in this world, there is another god who is called the ugly god opposite to the god of beauty?

Things have become a bit confusing, and the cause and effect behind it are by no means simple.

Xin Xingya said again: "If there is any result, Ye Chen, I will definitely tell you."

"Okay, thank you very much."

Ye Chen nodded, and immediately separated from Xin Xingya, and he returned to the room alone.

There are many causes and effects intertwined in front of him, and fate is changing. Ye Chen smells a little undercurrent. Many things cannot be grasped, but fortunately, he can still grasp his cultivation base.

No matter how the chess game changes, as long as one improves one's self-cultivation, there will be no mistakes.

Ye Chen sat down cross-legged, took out the Immeasurable Rising Profound Pill, and swallowed it directly.

Crash!

Immeasurable Sheng Xuan Dan entered the stomach, and immediately turned into a pure liquid medicine, flowing to Ye Chen's whole body, and a vast auspicious light bloomed, and there were also laws of cause and effect, resonating with the sky, and sending out a rumbling thunder.

The medicinal energy of this elixir is actually not enough for Ye Chen to break through, but the law of cause and effect behind it has driven the power of the Dao of Heaven and Earth, and with the addition of the Dao of Heaven, Ye Chen's cultivation base has soared rapidly.

In a short time, he was promoted from the level of the fifth level of the immeasurable realm to the high level of the sixth level of heaven!

"Very good, this elixir is really wonderful."

Ye Chen clenched his fists, feeling that the aura in his body had increased a lot, and he was secretly happy in his heart.

However, relying on the improvement of the cultivation base of the pill, the foundation is a bit weak, and it needs combat experience to consolidate it.

After taking the Immeasurable Promoting Profound Pill, Ye Chen took out the

Chapter 9685

"It turns out that it takes a lot of resources to hatch this forbidden demon egg."

Ye Chen murmured in his heart, according to the method of evoking life tricks, it is necessary to prepare a large number of treasures of heaven and earth, as sacrifices, directly sacrifice them, nourish the black-patterned stone eggs, and melt the many seal runes on the stone eggs, and it will be enough. Let the forbidden demon inside the stone egg break out of its shell.

Ye Chen took out some golden source jade, and some medicinal minerals, and piled them up around the black-grained stone eggs, chanting words in his mouth, and performed the trick of summoning life, sacrificed all those materials, and turned them into strands of dark golden Solution, poured on the black stone egg.

Under the pouring of many sacrificial solutions, the black seal pattern on the black-patterned stone egg showed no sign of weakening.

"It seems that my sacrifice is not enough."

Ye Chen frowned. The resources he provided were not enough to hatch the black-patterned stone eggs. He needed more resources as sacrifices.

"It seems that the treasure of the Moon God Emperor must be excavated as soon as possible."

Ye Chen murmured in his heart that if he could dig out the treasure of the Moon God Emperor, he would be able to make a fortune. He would definitely have enough resources to hatch the black-patterned stone eggs, and he could even help the Emperor Xuanchen reshape his body.

"Blood Dragon, how long will it take to repair the treasure map?"

Ye Chen asked.

"Cough...Master, it may take a few months."

The blood dragon said helplessly that the difficulty of restoring the treasure map was much more difficult than it imagined.

"Will it take so long?"

Ye Chen's voice sank.

"As soon as I can, master."

The blood dragon said helplessly.

"All right."

Ye Chen shook his head, it seems that in a short time, the treasure of the Moon God and Heavenly Emperor cannot be expected.

He thought to himself: "Tomorrow, I will go to the vicinity of Shacheng to destroy the Sand Thief's Treasure Group. Since they are called the Treasure Group, they must have robbed a lot of treasures, right?"

Thinking of this, Ye Chen couldn't help but licked his lips, his eyes showing a hint of fiery intent.

The lord of the Treasure Pirates of Sand, Jawei, who only has the cultivation of the fifth level of the Divine Dao Realm, dares to steal the Heavenly Soul Blood Bone Pill from the Misty Chamber of Commerce, which can be described as audacious.

In the letter of entrustment of Ye Chen from the Misty Chamber of Commerce, Javert's ability is clearly stated. The other party has an ancient artifact called Luobao Money, which can ignore all forbidden laws of cause and effect in the world and make treasures fall, which is very powerful.

It is because of the Luobao money that Javert can steal things from the Misty Chamber of Commerce in just the fifth level of the Divine Dao Realm.

It is said that this ancient artifact was originally the magic weapon of the eighth ancestor of Daozong, the ancestor of Mojin.

During a great battle, the treasure money belonging to the patriarch Mojin was lost, and by chance, Javert got it.

Relying on the treasure money, Javert actually plundered a lot of treasures. It is said that he would take part of the treasures he plundered and give them to the ancestor Mojin as offerings.

It was also because of this that Mojin Patriarch did not seek back the Luobao money from him, and turned a blind eye to it.

But this is just a legend, Mojin Patriarch holds his own identity and will never admit it.

Ye Chen didn't care so much, anyway, the task of destroying the treasure troupe of the sand was issued by the Misty Chamber of Commerce, even if he killed the treasure troupe and killed Javert, it wouldn't be his fault.

Besides, it was the Treasure Thief Group who took the first step and stole the items from the Misty Chamber of Commerce, so don't blame others for revenge.

Ye Chen now only wants to wipe out the Treasure Bandit of the Sand, seize their savings, make a windfall for himself, and maybe successfully hatch the black-patterned stone eggs.

The Sand Thieves are active in the desert near Shacheng, but their whereabouts are secretive and erratic. No one knows where their lair is, even the Misty Chamber of Commerce does not know, so they issued a reward of 300,000 source jade.

Ye Chen planned to try his luck tomorrow.

He had a premonition that as soon as he left Misty Land, the Moon Emperor Demon God awakened by Ye Han would launch an attack.

However, he was not panicked.

Now he has four fragments of the Heavenly Demon Castle. The defensive power of the summoned Heavenly Demon Castle is strong enough. Even if he encounters the Moon Emperor Demon God who is at the peak of the Divine Dao Realm, he can defend himself if he cannot be defeated, and his life will not be in danger. .

In the early morning of the next day, Ye Chen bid farewell to Xin Xingya and prepared to leave for the desert.

"Ye Chen, I heard people from the Misty Chamber of Commerce say that you accepted the entrustment letter and want to destroy the Treasure Pirates of the Sand?"

Xin Xingya asked with a smile.

Ye Chen said: "Exactly."

Xin Xingya hooked her fingers, and a follower brought a map, and she handed the map to Ye Chen, and said with a smile: "The Treasure Pirates of the Sand are erratic, I have a map here, which marked their lair It might be useful to you."

She unfolded the map, and it really marked the exact location of the Sand Thief's lair.

Ye Chen was startled, then overjoyed, and said: "Miss Xingya, you have helped me a lot, thank you very much."

He immediately accepted the map, thinking that the Treasure Gathering Chamber of Commerce is really powerful, and any information can be investigated.

"Ye Chen, if you're free in the future, remember to come and see me at the Jubao Chamber of Commerce, don't forget."

Xin Xingya laughed again.

"must."

Ye Chen smiled and cupped his hands, and immediately said goodbye to Xin Xingya, then went to say goodbye to the members of the Tongtian Ape Clan and Misty Chamber of Commerce, and then left Misty Land.

After leaving the Misty Land, Ye Chen immediately summoned the Titan Godship, locked the location of the desert, and left through the air.

And when Ye Chen set off for the desert land, Yehan's territory, the extremely cold land.

A strange demon god appeared from an altar as if he had received an ancient summon.

This demon god has dark skin, with a silvery-white moon-pattern totem printed on it, and the whole body is filled with cold moonlight, with a menacing aura, and his eyes are like a crescent moon, eerie and terrifying, with a murderous aura.

Chapter 9686

If Xin Xingya was here, she would definitely be able to recognize that this Demon God was the legendary Moon Emperor Demon God.

The Moon Emperor and Demon God, the former subjects of the Moon God and Heavenly Emperor, made a living by hunting and killing geniuses, and their methods were extremely cruel.

The Moon Emperor Demon God woke up, looking at Yehan with cold and indifferent eyes.

Surrounded by the aura of the Emperor of Heaven, Ye Han was riding on Nine Tails, his aura was very vast.

There was a hint of awe in the eyes of the Moon Emperor Demon God, and he knelt down on one knee and said:

"Great God, Lord God, thank you for your call, save me from the past time and space, and serve you."

A trace of ferocity flashed across Ye Han's face, and he said, "Help me kill someone."

Doing the math: "His name is Ye Chen, and it's inconvenient for me to make a move in the desert."

The Moon Emperor Demon God seemed to have sensed something, his expression changed, and he said, "Ye Chen, the master of reincarnation in this life?"

Ye Han said: "Yes, although your current strength is not as good as when you were at your peak, you still have the cultivation base at the peak of the Divine Dao Realm. It may not be impossible to suppress the Lord of Reincarnation."

"Also, even if you can't kill him, you can seriously injure him, that's enough."

The Moon Emperor Demon said: "Yes!"

...

At this moment, Ye Chen could probably sense Ye Han's killing intent, as well as the Moon Emperor Demon God's killing intent.

However, he wasn't too worried.

He still has absolute confidence in his own strength.

Riding on the Titan Godship, Ye Chen soon came to the big desert outside Shacheng.

In the desert, he could vaguely see the majestic outline of the sand city in the distance.

Ye Chen narrowed his eyes slightly, took out the map Xin Xingya gave him, deduced the location, and soon locked the coordinates of the Sand Pirates, hehe smiled, thinking:

"When the Treasure Bandit of Sand is wiped out, all the treasures they plundered over the years will be mine!"

Licking his lips, Ye Chen's eyes became more and more intense. He immediately put away the Titan ship, concealed his breath, and ran silently towards the lair of the Sand Thieves.

In the desert, the wind and sand are all over the sky, and the environment is very harsh. The billowing wind and sand attack people's skin and spirit, making people very uncomfortable.

With a thought in his mind, Ye Chen summoned the Heavenly Demon Castle, turned it into a magic robe, and put it on his body. The castle turned into a castle pattern, which was printed on the robe.

With the protection of the castle's magic robe, Ye Chen immediately felt much more comfortable, and easily blocked the attack of the wind and sand.

Running all the way, on the road, Ye Chen saw many bones hidden in the desert.

The large desert area near the sand city is the place with the most dead people in Wuwu time and space. Every day, a large number of fugitives are killed by their enemies before they reach the sand city, or are robbed and killed by thieves hiding in the desert.

There are so many thieves in the desert, and the Sand Thief is one of them.

Those particularly ferocious bandits had been wiped out by the Dao Sect long ago, while the Treasure Bandit of the Sand, the lord Javert only had the strength of the fifth level of the Divine Dao Realm, so they were not too conspicuous, but survived.

However, there are also rumors that Javert is protected by Patriarch Mojin, who provides a large amount of offerings every year, so Patriarch Mojin takes special care of him, and the people of Daozong also turn a blind eye.

Even outsiders can't find the location of the Treasure Pirates of the Sand, it is said that it is because the Patriarch Mojin deliberately concealed the secret.

However, Ye Chen doesn't care so much, now that he has found out where the treasure troupe of the Sand Thief is located, he is killing people and seizing treasures, even if it is looting.

If there is any consequence, if Patriarch Mojin blames it, he can't be blamed. It is the entrustment of Misty Chamber of Commerce, and it is also the Sand Pirates who made mistakes first.

"Roar!"

While running all the way, Ye Chen suddenly felt a huge shock coming from the sand under his feet, and a terrifying roar came out, and then he saw a huge desert scorpion, the size of a house, breaking through the ground, waving the scorpion pincers towards Ye Chen. Chen attacked.

In the desert, there are many evil beasts, which are very dangerous.

However, Ye Chen is powerful, and he doesn't pay attention to ordinary beasts.

This huge scorpion that suddenly appeared was just a snack delivered to the door.

"Daozong alchemy technique, suppress it for me!"

With a wave of Ye Chen's hand, wisps of cyan-blue Dao Yun radiance burst out from the palm of his hand, bursting out and landing on the body of the huge sand scorpion.

The sand scorpion roared in pain on the spot, its body quickly twisted and then shrank, as if being squeezed by an invisible big hand, and finally its huge body was cast into a blood-colored scorpion on the spot under the suppression of the Taoist alchemy technique. Elixir.

Ye Chen grabbed this elixir, threw it into his mouth and swallowed it, eating it as a snack tonic.

His Taoist alchemy technique is very powerful, and he can directly cast the enemy into a elixir and swallow it alive.

Back then, the Moon God Heavenly Emperor used the Moon Emperor Demon God to hunt and kill many geniuses. He also directly used the Taoist alchemy technique to crush those geniuses, cast them into pills, and swallow them alive. The method was very cruel.

Ye Chen continued to move forward, and encountered several fierce beasts on the road, all of them directly used the Taoist alchemy technique, and all of them were cast into pills to eat.

After rushing for half a day, instead of exhausting his aura, he became more and more energetic.

Ye Chen took out the map and looked at it again, and found that he was only less than thirty miles away from the lair of the Sand Thieves, which was very close.

But at this time, Ye Chen heard the sound of fighting.

On a sand dune in front of him, the dust was billowing, and people and horses neighed.

A group of bandits, straddling fierce horses, wielding scimitars, surrounded a team dressed as businessmen, and were circling and attacking.

Among the merchant team, several guards fought desperately, and another girl, wearing a burqa and a turban against the wind and sand, was also fighting against the enemy with a sword.

The battle was fierce, and the strong wind blew away the girl's headscarf, revealing a pure and fair face, and there were two coral-like dragon horns on the girl's forehead.

It turned out to be Long Xueyan, the granddaughter of Long Zu!

Ye Chen was surprised when he saw Long Xueyan appearing here and being besieged by sand bandits.

That team of Sand Bandits had a pattern of a copper coin printed on the front of their clothes, and there were wings on both sides of the copper coin, which was very unique.

This is the unique emblem of the Sand Thieves.

The pattern of copper coins with flying wings is the most precious treasure of the Sand Thieves Group, the appearance of falling treasure coins.

Long Xueyan and the caravan's guards, fighting against the bandits of the Treasure Pirates of the Sand, gradually felt overwhelmed, and their faces turned pale.

She bit her red lips, and suddenly shouted:

"Super Dragon Bloodline, open!"

hum!

A bright golden light suddenly rushed out of Long Xueyan's body, turning into a golden dragon, baring its teeth and claws, roaring in the air, the dragon's roar was shocking, shaking the universe, rolling up monstrous wind and sand, billowing smoke and dust.

That was the appearance of her super dragon blood.

The bloodline of Chaolong is a bloodline ranked extremely high in Wuwu Time and Space. It has a strong background of power. Those who have the bloodline of Chaolong may even have the opportunity to challenge the realm of Chaopin Heavenly Emperor, which is very powerful.

Chapter 9687

As soon as Long Xueyan opened the super dragon bloodline, the golden dragon soared to the sky, her whole body was entwined with dragon energy, and she became extremely powerful all of a sudden.

Scoff!

Long Xueyan slashed out with a sword, the dragon on the sword roared, murderous aura shot up to the sky, and the sword light billowed.

The sand bandits around, under the killing of her super dragon sword energy, blood splattered, fell down one by one, and screamed.

The guards in the caravan, as well as many merchants, all cheered and shouted:

"The dragon girl is mighty!"

However, Long Xueyan's face was very haggard. Her originally slender body became weaker after opening the Chaolong bloodline, as if she was about to fall down at any time.

Obviously, opening the Chaolong bloodline consumes a lot of energy and blood in her body.

"Hey, Super Dragon Bloodline, the granddaughter of the Dragon Ancestor Tianzun?"

"I never imagined that I, Javert, would be able to intercept and kill such a girl from heaven, hehe..."

"Super dragon bloodline, if you are my cauldron for me to harvest and squeeze, wouldn't I have to change my life against the sky?"

At this moment, a cold laughter came from the distant sand dunes.

I saw a burly man with a tuft of black hair on his chest and a fierce and tough face, riding a white-haired camel.

"Master Javert!"

The surviving sand bandits immediately screamed loudly when they saw this burly man, as if they had seen a savior.

That burly man is none other than the leader of the Treasure Thieves Group of Sand, the existence of the fifth heaven of the Divine Dao Realm, Javert.

"A bunch of trash, you can't even beat such a delicate girl, why should I keep you?"

"The law of karma, die for me!"

Javert's expression was gloomy, and a law of cause and effect came out from the air, and there was a sound of puff puff, and those remaining sand bandits burst into sudden death on the spot without a whole body.

Seeing this scene, Long Xueyan's face turned pale, her body's qi and blood couldn't hold on any longer, her Chaolong blood was restrained, and the golden dragon aura above her head dissipated in an instant, and her body fell limply on the desert.

"Dragon girl!"

The surrounding guards and caravan members were shocked.

"hey-hey....."

Javert grinned grimly, holding the handle of the scimitar at his waist, rode a camel, galloped quickly, and stopped in front of Long Xueyan.

He narrowed his eyes slightly, looked at Long Xueyan's pure face and graceful figure, couldn't help but burst out laughing, and said: "Little girl, your body is really moist."

"The law of karma, take off my clothes and let me take a good look."

Javert acted as if no one was there, and issued a law of cause and effect on the spot, to use the will of his own god to forcibly oppress Long Xueyan and force her to take off her clothes.

Long Xueyan gritted her teeth tightly, but felt that her hands were not in control, she really wanted to untie her clothes.

This is the power of the law of causality.

The great gods follow the law, and a word casually spoken is the supreme truth, which cannot be refuted.

Scoff!

But at this moment, a shocking thunder and sword light came through the sky, directly crushing all the fluctuations of the law of causality and the suppression of the will of the gods.

The tyrannical lightning and sword light rolled towards Javert's head even with a ferocious killing intent.

Long Xueyan rested her palm on the button of her clothes, she was stunned for a while, and when she looked back, she saw a tall and straight figure, it was Ye Chen.

The person who brought out the sword was also Ye Chen.

"Reincarnation... the Lord of Reincarnation."

Long Xueyan felt like she was in a dream, she couldn't believe her eyes.

"who?"

Javert was terrified. Seeing Ye Chen's thunder and lightning sword attack, he only felt that it was powerful enough to slay the gods. He hurriedly pulled out the scimitar and tried his best to block Ye Chen's sword with a bang.

"You are... the Lord of Reincarnation!?"

Javert's face was full of horror, looking at Ye Chen's slowly approaching figure.

Ye Chen's cultivation was clearly only the sixth level of the Infinite Realm, but the oppression brought to Javert was as huge as the sky, and he even thought he was facing the Emperor of Heaven.

"You are Javert? What a coincidence."

"The Misty Chamber of Commerce commissioned me to kill you."

Ye Chen smiled, and realized that Javert's cultivation was indeed only the fifth level of the Divine Dao Realm, and he did not have the support of great luck.

This kind of existence, with Ye Chen's current strength, can be crushed easily.

"Excalibur Yu Lei Jue, go!"

Ye Chen waved his sword, and thunderous thunder was brewing in the sky, and a sword energy of thunder and lightning that was several times more violent than before slashed out wildly, and slashed straight at Javert.

Feeling the power of this sword, whether it was Javert, Long Xueyan, or the people in the caravan, they were all shocked. They marveled at the strength of Ye Chen's swordsmanship. That's more than enough.

Javert's face was full of fear, knowing that he would not be able to take the sword no matter what.

Ye Chen's strength is too strong, enough to instantly kill him, the fifth-level existence of the Divine Dao Realm.

"Luobao money, order!"

At the juncture of life and death, Javert sacrificed a copper coin with white wings on both sides. It has a very special appearance, surrounded by fairy light and filled with golden aura. It is his magic weapon. , falling treasure money.

As soon as the Luobao money came out, there was a golden aura, hitting Ye Chen.

Ye Chen was taken aback, and hurriedly turned sideways to avoid it.

The golden aura did not hit him, but he felt that there was a law of cause and effect shrouded in his hands.

Ye Chen's wrist softened, his jaw numb, and the Samsara Heavenly Sword in his hand fell on the sand with a puff, and even buzzed, ready to fly towards Javert.

Chapter 9688

When the Heavenly Sword of Reincarnation fell to the ground, Ye Chen's thunder and lightning sword energy also lost its aim. It deviated directly from the trajectory and slashed past Javert, but did not hurt Javert himself.

Seeing the Samsara Heavenly Sword falling on the ground, Javert opened his hand and made a move, and shouted: "Take it!"

He actually wanted to collect Ye Chen's weapons directly.

However, Ye Chen's will was strong, and although the Samsara Heavenly Sword buzzed and bounced slightly to fly away, it did not escape Ye Chen's control in the end.

"Huh?"

Javert was taken aback. Knowing Ye Chen's strength, he didn't dare to act recklessly. He immediately rode a camel, turned around and fled away, and soon disappeared.

The two fought against each other, and everything was in the blink of an eye.

The Samsara Heavenly Sword stopped beating, and Ye Chen realized that the reason why the Samsara Heavenly Sword wanted to leave him just now was because the Luobao money was playing tricks.

Luobao money, this magic weapon is very special, it can attract people's weapons and magic weapons, and even grab other people's weapons and magic weapons forcibly, and take them for their own use.

However, Ye Chen's Heavenly Sword of Reincarnation is considered a part of his body, and it is connected with his blood, so naturally it will not be taken away easily.

"This falling treasure money is really amazing, I must seize it!"

In Ye Chen's mind, if he can win the treasure drop, it will be much easier for him whether he is fighting against the enemy or hunting for treasure in the future.

"Lord of Reincarnation, thank you..."

At this moment, Long Xueyan tidied her clothes and hair a little, her face blushed a little cautiously, and she came over to thank Ye Chen.

The members of the caravan also bowed to Ye Chen one after another: "See the Lord of Reincarnation!"

This caravan is from the Qingyun Chamber of Commerce, and it is the people under Thunder God Yin Suzhen.

"Hi everyone."

Ye Chen nodded in return, smiled at Long Xueyan again, and said:

"Miss Long, why are you here?"

Long Xueyan said: "Lord of Reincarnation, that day in the dark abyss, you saved me and told me to go to Qingyun Chamber of Commerce, so I went, and I also saw the legendary Thunder God Tianzun."

"Sister Thunder God, she is really a magnificent woman, I adore her so much..."

When it came to Thunder God Yin Suzhen, the flush on Long Xueyan's face became more intense, and she looked like a deer bumping wildly, bewildered again.

"Sister Lei Shen stayed with me for one night, taught me how to cultivate, and asked me to escort a batch of goods to Shacheng. The time was a bit rushed, but I still set off."

"Unexpectedly, I ran into sand bandits on the road."

"Lord of Reincarnation, fortunately I have you, you saved me again, otherwise... otherwise I will die."

After hearing Long Xueyan's words, Ye Chen nodded and said, "I see."

"However, you don't have to worry. Even without me, Thunder God Tianzun will come and take action. She must be protecting you in secret."

As he said that, Ye Chen smiled, touched Long Xueyan's head, and motioned her not to panic too much.

"Really? Is sister Thor protecting me?"

Long Xueyan looked around, but with her cultivation, she obviously didn't realize that Thunder God Yin Su really existed.

Ye Chen could probably feel that Yin Suzhen was mostly hiding in the void, watching everything silently, so that no accident would really happen to Long Xueyan.

After clapping his hands, Ye Chen looked at the people in the surrounding caravan and said, "Come with me, I will take you to destroy the Treasure Bandit of Sand, and share some spoils with you by the way."

Earlier in the real world, when Ye Chen had a decisive battle with the Wanxu Temple, Yin Suzhen borrowed hundreds of thousands of Yuanyu from him to restore and strengthen Qinglian's avatar.

Ye Chen is a person who borrows and repays, of course he will not let Qingyun Chamber of Commerce suffer in vain, now is the time to repay the money.

However, Ye Chen wouldn't pay for it himself, and it would be more refreshing to plunder the Sand Thief Group directly.

The people of the Qingyun caravan were very respectful to Ye Chen, and they had no objection at the moment, and said one after another:

"Everything is under the orders of the Lord of Reincarnation."

Ye Chen nodded, unfolded the map, and once again determined the location of the lair of the Treasure Pirates of the Sand.

Javert ran away just now, and Ye Chen didn't know where he went.

However, if you can run away from a monk, you cannot run away from a temple.

He believed that Javert would definitely show up when he killed the treasure troupe's lair.

Ye Chen asked the people in the caravan to rest for a while, and then set off with him.

He and Long Xueyan were riding on the same horse together, he put his arm around Long Xueyan's waist from behind, and rode the horse forward.

Ye Chen is a generous and forthright person, so naturally he won't be too rigid about the differences between men and women.

He rode with Long Xueyan to take care of her. After all, she had just opened the Chaolong bloodline, and she had consumed too much, and now she looked very haggard.

Driving all the way, Ye Chen soon came to the lair of the Sand Thief.

"arrive."

Ye Chen reined in his horse and stopped.

"Is this the lair of those bandits?"

Long Xueyan was stunned for a moment, looking around, there was only endless wind and sand around, without any buildings or people.

The caravan members at the rear also looked at all this in astonishment, and someone asked cautiously:

"Lord of Reincarnation, did you make a mistake?"

Ye Chen smiled and said, "There is no mistake."

"Law of Karma, show yourself!"

Ye Chen puffed up his breath, let out a loud shout, and issued a law of cause and effect, which touched the law of reality and fantasy.

hum!

The surrounding void suddenly twisted violently, and a cottage-like territory quickly emerged from the fantasy space, appearing in front of Ye Chen, Long Xueyan and others.

This cottage territory is the lair of the Treasure Pirates of the Sand. It is usually hidden in the fantasy space, and ordinary people can't detect it at all.

Chapter 9689

If it wasn't for Ye Chen having the map given by Xin Xingya, it might be difficult for him to find the lair of the Treasure Bandit.

In the cottage, there are many sand bandits, drinking and having fun, and some sand bandits are counting stolen goods and treasures. They are very busy, and there are bursts of noise.

Long Xueyan and the members of the caravan were all stunned.

They are in the middle of this cottage!

With a cold arc on the corner of Ye Chen's mouth, he looked at the bandits and thieves who were still immersed in joy.

A group of bandits and thieves froze for a while after their illusions appeared and their territory was exposed, and then all the noisy voices fell silent.

All the bandits looked at Ye Chen in unison.

"Where did you come from, you can actually find out the territory of my treasure thief group."

"A mere sixth-level heaven of the immeasurable realm, dare to come here to make trouble? Court death!"

"Hey, that chick is not bad, she looks very moist."

After a short period of silence, those sand bandits, seeing that Ye Chen's cultivation was only the Empress of the Infinite Realm's sixth level, felt at peace, thinking that Ye Chen was just a blind cat who ran into a dead rat and accidentally broke into their territory .

Many sand bandits laughed and made noise again. Those who drew their swords drew their swords, and those who drew their knives drew their knives, with fierce murderous looks in their eyes, and soon surrounded Ye Chen, Long Xueyan and a group of people, and they were about to strike.

"Don't be careless, that is the Lord of Reincarnation!"

Suddenly, an angry shout came from outside.

I saw Javert, the leader of the sand bandits, riding back quickly on a camel, looking at Ye Chen, full of fear.

Hearing Javert's words, all the sand bandits in the audience were stunned.

"Boss, you... what did you say, he is the Lord of Reincarnation?"

Many sand bandits were completely shocked and looked at Ye Chen.

They had heard of Ye Chen's reputation long ago, but now that they saw it with their own eyes, they were still amazed at Ye Chen's youth and cultivation.

With such a small amount of cultivation, can he really push the real world to be invincible, and soar to the infinite time and space?

"Hehe, Javert, you're back."

Ye Chen looked at Javert and smiled, now that he was on guard, even if Javert offered Luobao money, he would never want to take anything from him.

"Lord of reincarnation, everything is negotiable. I have no grievances or enmities with you. How can you let me go?"

Javert said in a deep voice, obviously not daring to challenge Ye Chen's majesty.

Ye Chen smiled and said: "There is no grievance or hatred, but you stole things from the Misty Chamber of Commerce, and I took their commission to kill you. I can't go back empty-handed. If you borrow the head on your neck, I will leave immediately." ."

Javert's face twisted, and he said: "Lord of Reincarnation, this is my territory, I advise you not to bully others too much."

"How about this, I will give you all the treasures and resources I have plundered for many years, and I just ask you to spare my life. From now on, I will definitely wash my hands, change my mind, and never do anything that hurts nature, how about it?"

"Boss..."

The sand bandits were terrified, but Javert was so terrified that they didn't dare to challenge Ye Chen on their own territory, and would bow down and beg for mercy.

Is the lord of reincarnation really so powerful?

Looking at Ye Chen's superficial cultivation, he only has the sixth level of the Infinite Realm.

Ye Chen said with a smile: "As long as I kill you, don't all your things belong to me?"

Javert's face was gloomy, and he said: "Too much deceit! Lord of reincarnation, you are trying to drive me to a dead end, do you know that the people behind me..."

He wanted to tell the important person behind him, but there seemed to be some big taboo of karma, his face was instantly covered with a haze, and he couldn't say what he said next.

Ye Chen chuckled and said, "No matter who is behind you, you will die today!"

After the words fell, Ye Chen stopped talking nonsense and made a bold move.

"The mother's nest of talisman ghosts, Beiming swallows the sky!"

Ye Chen sacrificed the mother's nest of talisman ghosts, fused with the magical powers of Beiming Swallowing Heaven.

The entire mother's nest of rune ghosts seemed to have turned into a terrifying black hole, emitting an extremely terrifying power of devouring, devouring all the sand bandits around.

A crowd of sand bandits screamed, their faces were full of horror, they couldn't control their bodies at all, as if they were sucked into the vortex, and they were sucked into the mother's nest of talisman ghosts, and soon they fell silent.

Javert was terrified and felt unsteady on his feet, as if he was about to be pulled over.

"Damn it, what a weird technique!"

"Shen Dao Tianliu, break!"

As soon as Javert gritted his teeth, the aura of the Divine Dao Realm bloomed to the extreme, and the laws of the Divine Dao fell from the sky like waterfalls, and rushed towards Ye Chen's rune ghost mother's nest, wanting to destroy the huge and dark lair directly.

"Your divine way cultivation is not qualified to shake me."

Ye Chen shook his head. During this period of time, he broke through again and again and was promoted to the sixth level of the immeasurable state. The existence of the fifth level of the divine way like Javert could not threaten him at all.

The bursts of divine air flow rushed over, but Ye Chen's rune ghost mother's nest did not shake in the slightest, it was as stable as a rock, and it was not affected by Javert.

And with the engulfing of the mother's nest of rune ghosts, the entire treasure troupe of sand robbers, all the sand bandits, were all sucked in, turned into puppets, and re-summoned by Ye Chen.

These people burned, killed and looted too many things, and his actions may have saved more people.

"No....."

Javert saw that his brothers had all turned into emotionless puppets, and his face suddenly turned pale, which was unacceptable.

"Lord of reincarnation, you are a demon!"

Javert cried out in grief and indignation, Ye Chen's cruel methods were beyond his expectation.

"Hahaha, demon? Maybe."

"But, I have a clear conscience, that's enough."

"You go in for me too!"

Ye Chen grabbed the palm of his hand in the air, and a powerful force enveloped him, trying to capture Javert's body into the mother's nest of talisman ghosts.

Javert was terrified, he refused to die easily, he made a formula in his hand: "The spiritual pulse of heaven and earth, apply to me!"

Rumble!

In an instant, the spiritual energy of the surrounding world frantically gathered towards Javert's body.

He has managed this territory for many years, and with the blessing of geomantic omen, he can unleash even stronger fighting power in this place.

The violent air flow burst out from Javert's body, directly crushing the strength of Ye Chen's palm.

"Why bother struggling? Fu ghost puppet, go!"

Ye Chen didn't panic at all, with a wave of his hand, a bunch of sand bandits and puppets brazenly rushed towards Javert.

These sand bandit puppets were all former subordinates of Javert.

Shawei was distraught, pulled out the scimitar at his waist, and fought fiercely with the sand bandit puppets who came up to him, but under the suppression of the evil spirit of Ye Chenfu's ghost nest, he gradually lost, his body was covered by those sand bandit puppets, A series of hideous wounds were cut out, dripping with blood.

The corner of Ye Chen's mouth curled up into a cruel arc, looking at the struggling Javert in a rather cat-and-mouse attitude.

Now he wanted to kill Javert, one sword was enough, but he didn't do it directly, he wanted to torture Javert.

Chapter 9690

After all, this Javert actually dared to steal the medicine from the Misty Chamber of Commerce, and just wanted to insult Long Xueyan, Ye Chen naturally wouldn't let him die so quickly, he had to teach him a lesson.

"The sun, the moon, the stars, and the stars are all dust! The treasures and money are sacrificed to me!"

Javert knew that he was going to die, his pupils were bloodshot, like a dying beast, he roared, and sacrificed the Luobao money, his blood was burning violently, and he wanted to sacrifice the Luobao money.

This falling treasure coin is a very ancient artifact. With Javert's cultivation, he is not even qualified to sacrifice, unless he sacrifices himself and burns blood regardless of his life.

At this moment, Javert was crazily burning his own qi and blood, pouring strands of Divine Dao energy into the Luobao coin, resonating with the sky, and sending out rumbling thunder.

This falling treasure money is about to be sacrificed. It is full of divine light, and there is a vast and terrifying aura blooming out, just like falling stars.

The magic weapon of Luobao money, the peak power, is enough to fall the sun, moon and stars from the sky, causing the universe to collapse. It is very powerful.

Now Javert just wants to die with Ye Chen, sacrifice his life, and unleash the most powerful power of Luobao Money.

"Want to die with me? Daozong's alchemy technique is suppressed by me!"

Ye Chen shouted violently, and immediately used the Taoist alchemy technique.

Although he was holding a cat-and-mouse attitude, he was actually very vigilant, watching Javert's actions keenly.

When he saw Javert offering Luobao coins and burning his blood, he knew something was wrong.

Therefore, when Javert's blood was just burning, Ye Chen had already made a move, interrupting Javert's sacrifice.

"Ahhh!"

Javert screamed miserably, the light of Taoist alchemy shrouded him, his body was twisted and squeezed continuously, blood burst out, and finally the whole person was squeezed and twisted into a small pill, the picture is extremely terrifying.

Long Xueyan and the people in the caravan were horrified when they saw Ye Chen's methods so fierce.

puff.

The dropped treasure coin was not sacrificed, and with Javert's death, the copper coin with wings also fell to the ground.

Ye Chen threw Javert, which had been turned into a pill, to the blood dragon to swallow, and then grabbed the falling treasure money with his palm, and took it for his own use.

The audience was silent.

After a moment of silence, Long Xueyan ran up happily, took Ye Chen's arm, and said excitedly: "Lord of reincarnation, you are really amazing!"

Javert was an existence in the fifth heaven of the Divine Dao Realm, but was easily crushed and killed by Ye Chen.

If it wasn't for Ye Chen, Long Xueyan would have been insulted by Javert before.

"It's nothing, collect the things here, and then we will return to Shacheng."

Ye Chen looked at the many treasures of heaven and earth piled up around him, and ordered the caravan members to count and confiscate them.

It has to be said that the Treasure Pirates of the Sand Group has been operating for many years, and the treasures they plundered are really rich.

The gold source jade alone is worth 800,000 yuan, and the value of various precious materials must add up to more than one million.

Ye Chen secretly sighed, just looking at the wealth of Yuanyu, this treasure group of robbers in the sand is even richer than grandpa's Shanghuang Tiangong.

The financial power of the Outer God Alliance has always been controlled by Patriarch Hongjun, and grandpa can't get much income, so he is so poor and destitute.

Of course, there are many magic treasures and artifacts in the Heavenly Palace of the Supreme Emperor, rare birds and animals, spiritual plants and medicinal materials, etc., which cannot be simply measured by Yuanyu.

Ye Chen estimated that this time, with so many treasures and resources confiscated, he might be able to hatch the forbidden demon in the black-patterned stone egg.

However, even if you want to hatch, you have to wait until you return to Shacheng, this is not a place to stay for a long time.

Sand City is a safe zone. It is also a good choice to incubate forbidden demons in Sand City, which can ensure their absolute safety.

Thinking in this way, Ye Chen packed up the loot, distributed part of it to the Qingyun caravan, took the big head himself, and the group rushed towards Shacheng.

After rushing for half a day, gradually, the majestic silhouette of Shacheng appeared in front of everyone.

The entire sand city is shrouded in a nearly transparent protective cover. On the protective cover, there are many translucent runes flowing, and the rays of light are shining like dragons and phoenixes, making the whole sand city look very magnificent.

Only by entering the range of this protective cover can it be regarded as truly protected by Shacheng.

When Ye Chen first ascended, he was attacked and killed by the Gutian Emperor, but he almost failed to enter the sand city.

Long Xueyan is
