Chapter 9721

Qing Fuxue's beautiful eyes narrowed, and she looked at Ye Chen with interest.

The alchemy attainments shown by Ye Chen are much more powerful than she expected. It seems that he can easily mix into the team of alchemists, set off to cut the spirit time and space, and help the blood knife evil ancestor cast alchemy to heal his injuries.

The Heaven-reaching Profound Dragon Qi, the Samsara Star Dou Qi, and the two pill qis were stalemate in the air. The golden light and the star's light confronted each other, and they were evenly matched.

Xin Xingya watched nervously, secretly praying for Ye Chen.

As long as Ye Chen can last for a stick of incense, he will pass the examination.

Dandi narrowed his eyes slightly, silently counting the time.

The many alchemists who were watching had a look of astonishment, they didn't expect Ye Chen to really have the qualifications to fight against Qing Fuchen.

Qing Fuchen's face darkened, and he activated the Tongtian Xuanlong Qi, trying to suppress Ye Chen, but he couldn't make any progress.

"Qingfu Tianmai, spiritual energy added to the body, go!"

Qingfuchen yelled secretly, the law of heaven and earth in the whole Qingfutian was rumbling and singing, bursts of ancient syllables erupted in the void, like the singing of an ancient god, the power of the earth veins of the whole world gathered on Qingfuchen and go.

He actually mobilized the power of Qingfutian's earth veins, and in an instant, the mighty power of heaven and earth added to his body, his alchemy instantly soared, the dragon roared, and the golden dragon manifested from the alchemy changed from one to three.

The three golden dragons stretched their teeth and danced their claws, entangled with each other, with a magnificent momentum, the majestic golden light burst, and immediately suppressed Ye Chen's reincarnation star fighting spirit violently.

In an instant, Ye Chen felt bursts of pressure coming, like the power of heaven and earth in the entire blue sky, pressing on him.

Click!

Under this tremendous pressure, the floor tiles under Ye Chen's feet cracked and shattered instantly, and his knees buckled slightly.

Seeing this, all the alchemists in the audience became commotion, discussing one after another:

"It seems that the young master is more powerful."

"The young master died and resurrected, it seems that he was broken and then erected, and his alchemy was vigorous, and he was able to mobilize the general trend of the world."

The corners of Qing Fuchen's mouth curled up a bit, and the sky-reaching profound dragon energy kept oppressing Ye Chen, saying:

"Lord of Reincarnation, I think you should admit defeat, don't die here."

Under the pressure of the general situation that day, Ye Chen's viscera vibrated, and a trace of blood leaked from the corner of his mouth, which shows how strong the oppression of Qing Fuchen's Dan Qi is.

"Admit defeat? It's still early."

Ye Chen smiled, wiped the blood from the corner of his mouth, still not panicking at all.

"Seven stars of reincarnation, three stars converge!"

The next moment, Ye Chen straightened his knees, stepped forward with the soles of his feet, and with a click, the ground was crushed, and at the same time, the power of the three reincarnation stars in his body also poured out.

Long Teng's life star, scorching sun's life star, and night's life star, the three life stars opened together, and their energy converged.

The weather of Tianlong, the weather of scorching sun, and the weather of night suddenly emerged from Ye Chen's Samsara Star Dou Qi.

The three weathers are intertwined, the sky dragon is roaring, the scorching sun is shining, the dark night reveals the deepest and most mysterious background, manifesting thousands of stars.

Competing with Danqi, other supernatural powers are not allowed, but Ye Chen's reincarnation star is the original power of his blood, so it can be used naturally.

Under the infusion of the power of the three reincarnation stars, Ye Chen's alchemy suddenly expanded fiercely, and exploded from a beam of light into a vast universe.

This universe is vast and mighty, full of pill energy as magnificent as a torrent.

In the vast universe of alchemy, the night is the background color. In the universe, the sky dragon dances and the scorching sun hangs high. The scorching sun in the dark night is particularly eye-catching, and the weather is extremely spectacular.

When seeing this elixir universe appear, everyone in the audience was shocked.

Such a vast amount of elixir, even a heavenly-level elixir, can be refined.

"What!"

Qing Fuchen's pupils contracted, and he was taken aback. He didn't expect that after Ye Chen used the power of the Seven Stars of Samsara, his alchemy would expand to such an extent.

The power of reincarnation can be said to surpass the heavens.

Even if he used Qingfutan's world power, he could no longer suppress Ye Chen.

Rumble!

Ye Chen's Dan Qi universe, in turn, oppresses Qing Fuchen.

The vast universe even wants to swallow Qing Fuchen whole.

"The divine way is soaring to the sky, I am a true god, and I will destroy everything!"

In the midst of a crisis, Qing Fuchen yelled violently, and the blood and dantian spiritual energy all over his body burned violently, making a sound like a big bell, and he used his own power of the Divine Dao Realm, as well as the power of the law of cause and effect.

After all, he is an existence at the peak of the Divine Dao Realm, and in terms of cultivation realm, he is much higher than Ye Chen.

Facing Ye Chen's alchemy universe, Qing Fuchen immediately burned his energy and blood, regardless of the cost, and unleashed all his power at the peak of the Divine Dao Realm.

He issued the law of cause and effect, and the law of cause and effect is to destroy everything.

boom!

Under the blessing of the law of cause and effect, Qing Fuchen's sky-reaching profound dragon energy turned into a golden light, charged upwards, and shot fiercely into Ye Chen's pill energy universe, trying to break through this universe.

Ye Chen suddenly felt a tearing pain, as if his muscles, bones and skin were about to be crushed by Qing Fuchen.

It has to be said that Qing Fuchen, as the existence of the pinnacle of the Divine Dao Realm, is indeed a bit skilled, and on the boundary of the Tiandan Pagoda, he has the advantage of the ground veins.

However, Ye Chen was still not afraid.

Facing Qing Fuchen's fierce killing, he also used his last trump card.

"Heavenly Ni Shenmai, reverse it for me!"

With a loud shout, Ye Chen suddenly opened the Heavenly Ni God Vessel.

boom!

As soon as the Heaven-Defying Divine Vessel was opened, Ye Chen's body erupted with a sky-defying sharp thought, with a strong aura, like a rebellious beast, against the sky and on the ground, invincible.

From Ye Chen's eyes, a boundless golden light burst out. At the moment when he opened the Heaven Against God Vessel, he seemed to be transformed into an invincible king against the sky.

Under the blessing of Ye Chen's Tianni Shenmai, that piece of alchemy universe also has a great power of reversing the world.

laugh!

The golden divine light shot by Qing Fuchen, under the rebound of the Heavenly Ni Divine Vein, unexpectedly reversed its momentum, and counterattacked towards himself like an arrow.

Ye Chen's Heaven-Defying Divine Vein is extremely mysterious, it can use the way of the other to return it to the body, rebound all the attacks of the enemy, and has the power to reverse the world.

"How can it be!"

When Qing Fuchen saw that his sky-reaching profound dragon energy actually wanted to kill him, he was shocked.

The scene in front of him was obviously beyond his expectation.

The alchemists in the audience were also extremely shocked.

That sky-reaching profound dragon aura is so fierce and ferocious, even Qing Fuchen himself is likely to be pierced and killed without any defense.

The Tiandan Pagoda does not have a second nine-turn life-returning pill that can revive him.

Scoff!

At this time, a snow-white slender palm came through the air, and with a very elegant posture, with a flick of the fingers, it shattered the golden light directly, saving Qing Fuchen's life.

Chapter 9722

The golden light and the shattering of the Heaven-reaching Profound Dragon Qi caused Qing Fuchen to suffer a backlash, and with a puff, he vomited blood on the spot.

But fortunately, he was only injured, and was not really killed by his own alchemy.

"Sister Snow..."

Qing Fuchen stared blankly in front of him, a young girl wearing a moon white pill, who did not know when, appeared in front of him and saved his life.

This girl is none other than the Saintess of Tiandan Pagoda, Qing Fuxue.

Qing Fuchen looked at Qing Fuxue with a bit of fear in his eyes.

He has always been obsessed with female sex, and he also has a bit of unreasonable thoughts about Qing Fuxue, but he never dared to show it.

When he was very young, Qing Fuxue was already the saint of Tiandan Pagoda, even his parents were courteous to her.

Qing Fuxue's identity is very mysterious, at least, Qing Fuchen doesn't know her origin, only knows that her alchemy is very powerful, and her cultivation base is also very powerful.

Many of his alchemy techniques were taught by Qing Fuxue.

For Qing Fuxue, Qing Fuchen is respectful and fearful, treats him like a real sister, does not dare to reveal the inappropriate thoughts in his heart, Qing Fuxue also regards him as a younger brother.

Many alchemists in the audience, seeing Qing Fuxue's attack, easily resolved the danger, secretly admired and admired the Saintess's means.

"Qing Fuchen, you lost this assessment."

Qing Fuxue looked at Qing Fuchen, then at Ye Chen, and said with a smile:

"Lord of reincarnation, you are so powerful that you almost killed my younger brother."

Ye Chen smiled, and said, "Young master Qingfu has powerful supernatural powers, how can he die so easily?"

Qing Fuxue said: "You don't have to laugh at him, my incompetent brother, I know how much he weighs best."

"No matter how powerful he is, he is not as powerful as you, the Lord of Reincarnation."

"Your cultivation of alchemy has already surpassed that of my younger brother."

After a pause, Qing Fuxue said to Emperor Dan:

"Elder Alchemy Emperor, why don't you rate the Lord of Reincarnation as a sixth-rank alchemist?"

Ye Chen originally only wanted to become a fifth-rank alchemist, but now he has the strength to defeat Qing Fuchen.

Qing Fuchen is a sixth-rank alchemist, so he is at least a sixth-rank alchemist.

"Everything is under the orders of the Holy Maiden."

Emperor Dan said politely, he was also very respectful to Qing Fuxue.

"very good."

Qing Fuxue nodded, took out another token, threw it to Ye Chen, and said:

"Lord of Reincarnation, this is my token of Tiandan Pagoda. With this token, you can freely enter and exit many places in Tiandan Pagoda."

"You practiced blood sacrifice, and from now on, you will be an alchemist certified by my Heavenly Alchemy Pagoda."

"A sixth-grade alchemist can receive generous allowances and rewards every month. If you need it, you can go to Fulu Pavilion to receive it."

"In addition, if you want to become an alchemist of my Heavenly Pill Pagoda, you must have a pure heart, and you must not have the slightest malicious hatred towards my Heavenly Pill Pagoda. If you can do it, you can sacrifice this token with a drop of blood."

The rules of the Tiandan Pagoda, in Wuwu time and space, any alchemist who wants to join can join after passing the assessment.

The tokens of the Tiandan Pagoda are arranged with a special law of cause and effect, and anyone who harbors ill intentions towards the Tiandan Pagoda cannot be recognized by the tokens.

Therefore, Tiandan Pagoda is not worried about someone taking advantage of troubled waters and trying to harm Tiandan Pagoda.

However, if a person reaches the Heavenly Emperor Realm, he can still escape the restriction of the token.

But the masters of the Heavenly Emperor Realm, the Lord God of the Heavenly Emperor, can turn the world upside down by themselves, and they are the top power in Wuwu Time and Space. Even Daozong dare not say that they can absolutely limit control.

Ye Chen took the token, and saw the word "Dan" printed on it, surrounded by six pill patterns, representing the identity of a sixth-rank alchemist.

At that moment, Ye Chen started the blood sacrifice, and took charge of the token very smoothly.

Although he and Qing Fuchen have grievances, but he himself has no hatred or malice towards Tiandan Pagoda.

Tiandan Pagoda is an alliance force, but it's not that the Qingfu family can cover the sky with one hand.

The alchemists present saw that Ye Chen had been approved by the token, and there was another commotion.

From today onwards, Ye Chen, the master of reincarnation, is the alchemist certified by Tiandan Pagoda. For Tiandan Pagoda, it is hard to predict whether it will be a blessing or a curse.

Qing Fuxue smiled slightly, and said: "Okay, Lord of Reincarnation, from now on everyone will be our own."

"I know that you and my brother have some grievances and grievances. Today, for my sake, you turned your hostility into friendship, and all grievances and grievances are written off. How about it?"

When Ye Chen heard that Qing Fuxue actually came forward in person to mediate, he couldn't help being stunned.

In fact, the conflict between him and Qing Fuchen was provoked by Qing Fuchen, he will not take the initiative to cause trouble.

Now that Qing Fuxue wanted to mediate, Ye Chen didn't care, and said: "Yes, I don't care, as long as your brother doesn't mess with me again."

Ye Chen expressed his attitude, he can give Qing Fuxue a face, but he also has his bottom line.

If Qing Fuchen is still so closed-minded and insists on taking the initiative to conflict with him, he will never be polite.

Qing Fuxue was overjoyed, and said: "The Lord of Reincarnation, indeed, there are a lot of adults."

Turning to Qing Fuchen, he said, "Why don't you hurry up and apologize to the Lord of Reincarnation?"

"As for your marriage with Miss Xingya, we'll talk about it later."

Qing Fuchen's face was flushed with anger, his eyes were full of resentment, but he didn't dare to disobey Qing Fuxue, he immediately walked up to Ye Chen, bowed his head and said, "Lord of Reincarnation, it's my fault that I offended you so much before."

Seeing his tone of voice, Ye Chen was full of resignation, and he didn't think he was sincerely apologizing, so he just nodded and didn't say much.

Chapter 9723

Xin Xingya took a step forward and said to Qing Fuxue, "Miss Saint, I will not marry your brother."

Qing Fuxue stared at Xin Xingya, with a smile on her lips, and said, "Of course, my younger brother He Dehe Neng, how can he be qualified to marry you? After all, Miss Xingya, you are the legendary beauty... Ha, ha ha..."

After a pause, Qing Fuxue changed the subject and said, "Let's not talk about this, Miss Xingya, you also want to test alchemy? We will arrange it for you."

Xin Xingya said, "Yes."

At that moment, Qing Fuxue and Pill Emperor arranged for a second-rank alchemist to be assessed by Xin Xingya.

The result of the assessment was exactly the same as Ye Chen's.

Ye Chen defeated Qing Fuchen, and Xin Xingya also defeated the second-rank alchemist who was examining her.

Her alchemy, like a rainbow of seven colors, exudes a perfect aura of the Dao.

Judging from the quality of the elixir, it must be enough for the first grade, at least the third grade.

Such a result caused all the alchemists in the audience to be in a violent commotion.

No one expected that Xin Xingya also had such a powerful supernatural power of alchemy.

In the end, Emperor Pill and Qing Fuxue rated Xin Xingya as a third-rank alchemist, and she also became an alchemist recognized by the Tiandan Pagoda, and she could freely go in and out of Qingfutan.

After getting the authentication token of the Tiandan Pagoda, Xin Xingya couldn't wait to bid farewell to everyone, stepped into the Tiandan Pagoda, went to the Library Pavilion, and looked up the prescription of the Nine-Turn Returning Life Pill.

Qing Fuxue looked at her leaving back, but shook her head lightly, and said: "She won't succeed."

Ye Chen stood beside Qing Fuxue, and when he heard her speak like this, he asked, "Why?"

Qing Fuxue said: "The recipe of the Nine-Turn Life-Returning Pill is actually not complicated, but the alchemy materials needed are extremely demanding, and she can't collect them all."

Ye Chen said: "Not necessarily, Jubao Chamber of Commerce is

Chapter 9724

Ye Chen's eyes shrank slightly. He had never heard of Sword Ancestor, but the name of Emperor Jiantian was like thunder, and he had also been in contact with Emperor Jiantian.

His Myriad Sword God Star came from Emperor Jiantian.

If that sword ancestor is really the teacher of Emperor Jiantian, he must be very powerful.

Han Yan said: "The original world is the heavens

Chapter 9725

What Ye Chen saw in his eyes was a vast expanse of darkness and nothingness, filled with oppressive atmosphere.

In the darkness, there are many shadows of monsters passing by, very penetrating.

As expected, those monsters launched a crazy attack on Tianzhou.

Fortunately, Qing Fuxue was already prepared to activate the forbidden method on the sky boat to resist monsters.

If a monster crosses the restriction and comes to the ship, the accompanying guards will attack and kill the monster.

Although the journey was dangerous, because Qing Fuxue had made sufficient preparations, no one died, and even if someone was injured, they could be treated quickly.

Even so, a group of people traveled hard for four days in the dark void before arriving at the boundary of Zhanling Time and Space.

Ye Chen narrowed his eyes slightly, and saw the scene of cosmic starlight appearing in the dark void ahead.

That piece of universe is obviously Zhanling Time and Space.

The sun, moon and stars in the universe are all running in perfect order, without any sign of chaos.

"There is something about this Blood Knife Evil Ancestor, who was able to open up such a cosmic time and space in such a dark and chaotic place."

Ye Chen nodded secretly, admiring the methods of the Blood Knife Evil Ancestor in his heart.

This is a dark place of death, full of darkness, rage and chaos, and all kinds of monsters.

To be able to establish a stable order in such a place, open up space and time in the universe, and create the sun, moon, and stars. It is impossible for ordinary emperors and gods to do this. Only the top emperors have this ability.

"The time and space of killing spirits is coming soon, everyone, wake up your spirits."

Qing Fuxue saw that Zhanling Time and Space was in front of her eyes, so she spoke.

Many alchemists and guards, after several days of difficult march, were already tired. After hearing Qing Fuxue's words, and seeing the stable universe time and space appearing in front of them, everyone's spirits were greatly lifted.

Han Yan looked excited, he was very energetic, and the difficult journey for several days did not kill him at all.

"Brother, my second uncle's territory is coming, we can finally see the sword of the sword ancestor!"

Han Yan was extremely excited, and whispered to Ye Chen.

Ye Chen nodded. If Han Yan insisted on taking risks and went to observe the sword of the sword ancestor, he would definitely not sit idly by and would accompany him.

Han Yan is the reincarnation of the Sword Demon. If he grows up, he will become a powerful support for the reincarnation camp. Of course Ye Chen doesn't want to see anything happen to him.

Moreover, even if this is ignored, Han Yan is his good friend, and he can't watch him really die.

If he was with Han Yan, he could at least take care of him.

Besides, the sword of the sword ancestor is so mysterious and great, Ye Chen also wants to see it in his heart.

Tianzhou drove forward and soon came to the outer edge of Zhanling Time and Space.

"who?"

More than a dozen powerful guardians flew over and asked vigilantly.

Qing Fuxue showed her token, and said: "Qing Fuxue, the saint of Tiandan Pagoda, was entrusted by the blood sword ancestor, and came to visit your place to help the blood sword ancestor heal his wounds."

Hearing this, the dozen or so guards suddenly changed their attitudes.

A guard said respectfully: "So it's a friend of Tiandan Pagoda, please come in, please come in."

He invited Qing Fuxue and others to enter.

Qing Fuxue drove the sky boat, sailed into the time and space of Zhan Ling, and under the arrangement of the guardian, it landed in a starry sky palace.

This starry sky palace is suspended in the void of the universe, surrounded by the sun, moon and stars, it is very magnificent.

The guard said: "You rest here for one night, I will report to the ancestor first, if there is no accident, you can go to the central holy place tomorrow to make alchemy for the ancestor."

Qing Fuxue nodded in agreement, and the group settled down in the starry sky palace to recuperate.

Han Yan couldn't sit still, so he came to Ye Chen quietly and said, "Brother, let's go out, I can feel that the sword of the ancestor of the sword is not too far from here, let's take a look quietly."

"Otherwise, when the alchemy is over tomorrow, you may have to leave immediately. Today is the only chance!"

Ye Chen heard Han Yan's tone, full of scorching meaning, obviously very eager for the opportunity of the sword of the ancestor of the sword.

Even if he didn't accompany him, Han Yan would definitely go.

"Okay, I'll go with you."

Ye Chen smiled wryly and agreed.

Han Yan was overjoyed and said: "Brother, you are so kind, you are with me, even if I am killed by my second uncle, there can be someone to help collect the body, you are the master of reincarnation, my second uncle must not dare to embarrass you your."

Ye Chen smiled and said, "What nonsense are you talking about, let's go."

Han Yan nodded, and immediately left the Star Palace with Ye Chen.

There were guards guarding the gate of the palace. When they saw that the two were about to go out, the guard asked:

"Both guests, where are you going?"

Han Yan's heart tightened. Afraid of being discovered, he suddenly became nervous and dared not speak.

Ye Chen was very calm, and said: "The time and space of Zhan Ling is vast and magnificent, we want to go out for a tour."

The guard nodded and said: "Tours are fine, but you have to be careful. Any place covered by the crystal wall system is forbidden to enter. Anyone who tries to step in will be killed without mercy. You have to pay attention."

Ye Chen's heart trembled, and he said, "Yes, thank you for reminding me."

After speaking, he threw out two golden source jades as a reward, and then left the palace with Han Yan and came to the void outside.

"Brother, it's probably in this direction."

Han Yan settled down and pointed to a direction, which was the direction where the sword of the sword ancestor was.

"Walk."

Chapter 9726

Ye Chen didn't talk nonsense, and went directly with Han Yan Yukong.

The two passed by patches of sun, moon and stars, and gradually, without Han Yan speaking, Ye Chen could feel a majestic and domineering sharpness filling the void of the universe.

That kind of sharpness was so domineering and fierce, enough to kill God, even Ye Chen felt a burst of heart palpitations.

Soon, Ye Chen saw a vast land boundary.

This land boundary does not exist in the form of a planet, but a picture scroll spread across the void of the universe, stretching over a hundred thousand li in length and breadth. Flowers and auspicious grasses are everywhere, and auspiciousness is transpiring.

In the center of that land, there is a huge sword, ancient and vicissitudes, inserted into the earth, almost piercing through the earth, with a strong killing atmosphere, and even broke through Xiaoyu, cutting off all the sun, moon, and stars in the nearby universe. .

Ye Chen saw that in the sky above the land boundary, there were many fragments of meteorites floating, as well as the embers of stars that had already exploded. They were all the sun, moon and stars that were crushed and exploded by the giant sword and sword energy, and all turned into meteorite.

"That sword..."

Ye Chen looked at the giant sword from a distance, and captured bursts of terrifying and murderous murderous aura, which was only slightly inferior to the ancient sword of Heavenly Sin.

Moreover, the laws on the giant sword seem to be incomplete.

This is not a complete sword, it can only be regarded as half.

If it is a complete sword, its killing aura can even be comparable to the ancient sword of Heavenly Sin.

"Brother, that is the divine sword that descended from the revival of Sword Ancestor and the turmoil of heaven and earth!"

"Let's go over and have a look. Observing that sword will definitely improve the way of the sword, and it will be of great benefit!"

Han Yan was so pleasantly surprised that he wanted to rush to the land to observe the Sword Ancestor's sword up close.

"etc!"

Ye Chen hurriedly pulled Han Yan back, with vigilant eyes, and said: "This land is surrounded by the crystal wall system restriction, and there must be strong guards inside, so don't act rashly."

Han Yan was taken aback for a moment, and when he took a closer look, he saw that the land boundary was covered by a layer of light yellow crystal wall system, and there were faintly ancient runes circulating on the crystal wall system.

The guards in the starry sky palace have already warned that if they break into the boundary covered by the crystal wall system, they will be killed without mercy!

If Ye Chen and Han Yan went in, they would definitely violate the taboo and be killed by the strong men from the Spiritual Dimension.

Han Yan sensed carefully, and caught bursts of terrifying aura from that land boundary.

The guardians on that land have the lowest cultivation level and are in the divine realm, and the strongest ones even have the existence of high gods.

With his and Ye Chen's current strength, they definitely can't fight against the upper gods. Once they break the taboo, they will only end up being killed.

"Brother, what should we do?"

Han Yan suddenly became a little anxious. Now that he is so far away and blocked by the crystal wall system, he can't really observe the subtlety of the sword. He has to watch it at a close distance to realize the existence of the law of swordsmanship.

Ye Chen frowned slightly, thinking about how to enter.

Now he saw from afar the existence of the sword of the ancestor of the sword, and he could also feel the vastness and greatness of that sword.

If you can observe it up close, you will definitely reap great benefits.

Even without Han Yan, Ye Chen wanted to go in by himself, because this is an opportunity not to be missed.

"I have a way, but it's a bit risky."

After thinking for a moment, Ye Chen said.

"Brother, what can you do?"

Han Yan asked hurriedly.

Ye Chen said: "I can use my Qinglian avatar to create chaos and lure the guards away, and we can go in quietly."

"However, my Qinglian avatar is not easy to create. If it is destroyed, I will suffer a huge loss."

Han Yan said happily: "This method is good, and it is not a risk. Even if there is a little loss, as long as you can observe the sword of the sword ancestor, you will make up for any loss."

Ye Chen smiled wryly, but Han Yan didn't know his difficulty.

It takes a lot of resources to hatch the forbidden demon stone eggs and recast the body of Xuanchen Tiandi. Ye Chen is very cash-strapped. If Qinglian's avatar is destroyed again, he doesn't have so many resources to recast.

However, at this juncture, Ye Chen couldn't care less.

The sword of the ancestor of the sword has aroused his strong interest. Even if Qinglian's avatar is sacrificed, he must go in and have a look.

At that moment, Ye Chen sacrificed Qinglian's avatar and sent it to another direction.

boom!

Ye Chen controlled Qinglian's avatar, punched out a huge gap in the crystal wall system of this land boundary, and the momentum was shocking.

"who!"

Many guards were immediately alarmed and flew out one after another.

Ye Chen controlled Qinglian's avatar, turned around and ran away.

Those guards were furious immediately, and chased and killed them one after another.

"Brother, the guards have been led away!"

Han Yan was overjoyed when he saw that the guards were being led away.

"Well, let's hurry up and leave immediately after watching the sword and enlightening the Tao."

Knowing that time was running out, Ye Chen immediately took Han Yan, flew into the boundary from the gap in the crystal wall system, and landed near the giant sword.

Near the giant sword, there were still some guards staying behind, but they were not strong enough to even notice Ye Chen and Han Yan approaching.

Han Yan flew over like a ghost, and knocked out all the remaining guards to ensure that there was no worries. Finally, he was able to calm down and observe the giant sword carefully.

The huge sword was stuck upside down on the ground, it was thousands of feet high, and the top of the sword pierced into the sky, towering like a mountain cliff, very spectacular.

"It's really spectacular. I don't know if this sword is the sword ancestor's weapon, or the crystallization of his kendo."

Han Yan admired, his eyes were full of obsession, staring at the many totem runes and law tracks on the giant sword.

This gigantic sword is so majestic, it does not know how great and powerful the law of swordsmanship is contained on it.

Those kendo rules are very murderous. If ordinary people dare to look directly, they will only die.

Ye Chen and Han Yan had a profound background in swordsmanship. Of course they could look directly at them, but they were also greatly shocked in their hearts.

In front of this sword, both of them felt their insignificance.

It can be imagined that if this sword came to kill them, the two of them would definitely die.

Even the Blood Knife Evil Ancestor couldn't block this sword, and he would be severely injured, which shows how powerful this sword is.

From the body of the giant sword, Ye Chen caught a wave of laws that did not belong to this world.

That is the primordial law, very mysterious.

Moreover, these original laws have been so strong that they have formed energy aura, which can be absorbed and refined to control them.

Ye Chen knew that this was a rare opportunity, so he immediately sat down cross-legged, concentrating on observing and comprehending.

Han Yan also sat cross-legged quietly, staring at the giant sword with both eyes, comprehending the laws of swordsmanship on it.

Compared with the original law, he is more interested in the law of kendo.

Ye Chen used the power of Zhou Guang's blood to slow down the flow of time laws around him as much as possible, and bought more time for him and Han Yan to comprehend.

Chapter 9727

A quarter of an hour has passed outside, but Ye Chen and Han Yan have actually realized it for a day.

Both of them are extremely talented people, and one day's comprehension is enough to obtain huge benefits.

"So that's how it is, that's how it is..."

"The original law is the beginning, the original, the starting point of life, the way of birth and death in the beginning."

"The original law is shrouded, and everything can flourish with the most vigorous vitality."

Ye Chen muttered to himself, realizing something.

He kept absorbing the energy aura formed by the original law, and gradually realized a little bit of the mystery of the original law.

The original law contained in this giant sword originated from the sword ancestor.

Based on his understanding of the original law, Jian Zu created a Taoism called the Dao of Birth and Extinction in the Beginning.

This is the way of birth and death in the beginning, and it can be born and died in the palm of the hand, which is very powerful.

Under Ye Chen's perception, he also initially comprehended the mystery of the birth and death of the Dao in the early days.

This is the way of birth and death in the beginning, and as soon as he realized it, Ye Chen felt that his body, all the traces of the wear and tear of the years and the erosion of darkness, were all erased, and the whole person had a kind of spirit and vigorous vitality, just like returning to the time when he was born.

Time goes by endlessly, and the years will bring huge wear and vicissitudes. Even if there is no time and space, everyone has an endless lifespan, but the continuous passing time will eventually bring everyone to the inevitable aging and vicissitudes. Vicissitudes.

However, the Dao of birth and death in the beginning is very wonderful. It contains the original law, which can reverse the years, cut through wear and tear, and bring people back to the time of birth, so as to maintain youth and vitality forever. It is very amazing.

After comprehending the Tao of birth and death in the early days, Ye Chen also vaguely glimpsed the secret of heaven and saw the figure of the sword ancestor.

Ye Chen thought that Jianzu would be an old man, but to his surprise, Jianzu looked very young, only about fifteen or sixteen years old, with eyes as sharp as swords, and a young man with shocking vigor.

This is because Sword Ancestor practiced the Dao of Birth and Extinction in the Beginning, and he would never age, and the wear and tear of the years would not accumulate on him.

boom!

Ye Chen comprehended the Dao of birth and death in the early days, his vitality burst forth, his whole body's strength multiplied, his qi and blood blazed, and his cultivation level broke through immediately.

The golden light of reincarnation was blazing, penetrating the sky, and disturbing the entire time and space of killing spirits.

Ye Chen's cultivation has directly broken through from the sixth heaven of the immeasurable realm to the seventh heaven.

Moreover, after comprehending the Dao of birth and death in the early days, his vitality was greatly exuberant, and the vigorous vitality burst out, like a wild and wild tree, shocked the world.

Even the dark and chaotic mists outside the spirit-killing time and space receded a lot under the shock of Ye Chen's majestic vitality.

Ye Chen was excited. The Martial Ancestor said that he would be swallowed by darkness, but now that he is in charge of the Dao of Birth and Death, Ye Chen is confident that even without a heart of light, he might be able to fight against the darkness.

The aura of breakthrough in reincarnation and Ye Chen's vigorous vitality woke Han Yan up.

Han Yan opened his eyes and looked at Ye Chen in amazement.

Ye Chen saw the sharp sword intent in Han Yan's eyes. Obviously, he also gained a lot from watching the sword this time, and his swordsmanship was greatly improved.

But Han Yan's gains, as well as his appearance, obviously cannot be compared with Ye Chen.

Under Ye Chen's vigorous vitality and the vast golden light of reincarnation, even Han Yan, who is at the peak of the Divine Dao Realm, looks insignificant at this moment.

"Brother, have you mastered the original law? You have also broken through in your cultivation? It's amazing, it's amazing!"

Han Yan was amazed and happy for Ye Chen.

The original law on the giant sword is very complicated, not the law of the main world. Even if Han Yan wanted to understand it just now, he couldn't understand it thoroughly.

Only Ye Chen, relying on the indomitable talent of reincarnation, successfully comprehended the original law, and took control of the Dao of birth and death in the beginning. From then on, he will not age anymore.

"Brother Han, have you realized it too?"

Ye Chen asked.

Han Yan said: "No, big brother, but I have comprehended the sword skills of Sword Ancestor back then, and they are also very powerful and domineering. Hahaha, this time I have gained a lot!"

Ye Chen nodded and said, "That's good, let's go."

Ye Chen knew that the weather he had just broken through had already disturbed the entire Zhanling Time and Space, and he had to leave as soon as possible.

Han Yan is also afraid of accidents. Although the chance on this giant sword is the existence of no owner, this sword fell in the time and space of killing spirits after all. He and Ye Chen got a big chance for no reason. , Most of them are unable to accommodate, and they may want to retaliate.

Han Yan knew the second uncle's temper best, so he hurriedly wanted to leave with Ye Chen.

However, before the two of them flew out of the crystal wall system of this land boundary, there was a rumbling loud noise in the void of the universe outside, like thunder and vibrations, and then there were countless loud and solemn singing sounds, as if in the sky. Praise the greatness of the gods, pieces of auspicious light burst out, and the gods soared to the sky.

Rolling Shenxi, rolling Ruixia, under the vibration of the singing of the heavens, a scarlet throne appeared.

The Scarlet Throne is made of thousands of knives, hideous and strange, full of bloody aura

Then, a majestic, stern, vicious, and hostile figure slowly emerged from the throne.

It was an old man wearing an evil-patterned imperial robe, his eyes were brighter than the sun, moon and stars, full of the arrogance of a superior, and the supreme coercion of a god.

However, the old man's face was a little sallow, and he coughed lightly from time to time, as if he was injured.

But even if he was injured, the ferocious aura emanating from him was enough to make people chill.

Chapter 9728

An injured tiger is still a tiger and can eat people.

The old man supported his cheek with one hand, sitting on the bloody throne, looking at Ye Chen and Han Yan, his eyes were so cold that they seemed to be able to kill people.

After the figure of the old man appeared, hundreds of figures appeared one after another around him, each with a strong aura, fierce and murderous, like stars holding the moon, guarding the old man, as if as long as the old man gave an order, they would all To come out in full force, gods block and kill gods, and Buddhas block and kill Buddhas.

"Second...second uncle."

When Han Yan saw the old man appear, cold sweat broke out, his whole body was stiff, and he called out with a dry smile.

He has always been careless, as if he is not afraid of anything, but facing this old man, he is like a lamb facing a tiger, trembling all over.

The old man was his second uncle, the younger brother of Emperor Daotian, one of the eight ancestors of the Taoist sect, the blood knife evil ancestor.

Seeing the appearance of the blood knife evil ancestor, Ye Chen also felt his body stiff and difficult to breathe under the pressure of the other party.

This Blood Knife Evil Ancestor is a top Heavenly Emperor, even if he is injured, the majesty he exudes is enough to suppress Ye Chen.

It is absolutely impossible for Ye Chen and Han Yan to leave under the eyes of Xuedao Xiezu.

Xuedao Xiezu nodded lightly, and said to Han Yan, "Han Yan, you still recognize my second uncle."

"After I left home, the years have gone through many vicissitudes, and today I have worn out and aged so much. I thought you didn't even recognize me."

Han Yan hurriedly said: "Second Uncle, no matter what, you are not old at all, your demeanor is even better than before, and the aura of the Emperor of Heaven is immeasurably magnificent, even my father can't compare to you."

Blood Knife Evil Ancestor chuckled, and said a little lonely: "Your father has practiced Wuxiang's sword, and he has reached the top three in the list of heavenly emperors. The gap between me and him is getting bigger and bigger."

Han Yan said: "Where, where."

The blood knife Xiezu's smile became a little cold, and he looked at Ye Chen again, and said: "Han Yan, you and the Lord of Reincarnation, since you have come to Zhanling Time and Space, why don't you come to visit me? You must have forgotten me as a second child." Uncle."

Han Yan hurriedly said: "No, Second Uncle, Brother Ye and I, when we first arrived in Guizhou, we are full of travel and dust, and our appearance is simple. We plan to visit you tomorrow after a night's rest."

Before setting off, Qing Fuxue had already informed Zhanling Time and Space, saying that Ye Chen and Han Yan existed among the accompanying people, and the Blood Knife Evil Ancestor knew about it.

The Blood Knife Evil Ancestor smiled, and his voice became colder, and said: "Then why are you here again now? This place is covered by a crystal wall system. Anyone who is not blind knows that it is a taboo." land."

"You broke the restriction of the crystal wall and broke into the forbidden area without humming, do you really think I am air?"

Han Yan hurriedly said: "Second Uncle, no, Brother Ye and I saw a great opportunity here, and we were yearning for it for a while. I took the liberty to disturb you. I definitely didn't intend to offend you. Please forgive me."

The Blood Knife Evil Ancestor sneered and said, "The rules of my time and space, who dares to break into the forbidden area, will be killed without mercy. You just need to tell me how you want to die."

What he said was so murderous that it made people feel heartbroken.

Han Yan was terrified, knowing that the Blood Knife Evil Ancestor was not joking, saying that killing people would really kill people.

"Blood Knife Evil Ancestor, why are you so angry?"

At this moment, a cold female voice resounded in the void.

I saw the void cracking, and a piece of Danxiang came out, like a colorful auspicious mist and a rain of flowers.

A young girl wearing a moon white red robe stepped out of the void, it turned out to be Qing Fuxue.

Behind Qing Fuxue, Qing Fuchen and Dandi followed.

"Green Floating Snow."

When Xuedao Xiezu saw Qing Fuxue appear, a trace of fear flashed in his eyes.

Qing Fuxue looked around the audience, looked at the giant sword that pierced the sky, and said with a smile to the Blood Saber Evil Ancestor:

"Blood Knife Evil Ancestor, the so-called good fortune of heaven and earth, those who are destined to get it, the chance of this sword ancestor sword, you have no ability to get it, now your nephew, and the Lord of Reincarnation have got it, that is their luck, you are angry What's the use? Don't tell me you're dignified and revered your ancestors, the supreme emperor of heaven, and you still have to care about these juniors?"

Hearing Qing Fuxue's words, Xuedao Xiezu's expression became very ugly, he snorted, and said:

"Qing Fuxue, I asked you to come here to help me make alchemy, not to contradict me."

"In short, whoever dares to offend my spirit-slaying time and space rules, no matter who it is, they will be killed without mercy!"

Qing Fuxue's eyes turned cold, and she said, "You dare to kill the Lord of Samsara? Are you not afraid of revenge from the Samsara faction?"

Blood Knife Xiezu laughed loudly, and said: "The reincarnation camp is full of arrogance, and Ren Feifan and Buddha are invincible existences in this world. I must be afraid."

"But my Blood Knife Evil Ancestor has a weird temper. Even if I am afraid, as long as others dare to break my rules, I will kill people, no matter who he is."

"Lord of Reincarnation, I will give you a face..."

The Blood Knife Evil Ancestor stared at Ye Chen: "...I won't do it myself, as long as you and Han Yan can defeat my Tiangang Divine Dao Guard, you can leave."

"If you can't fight, it means your skills are not as good as others, and you can't blame me."

As soon as the words fell, the Blood Knife Evil Ancestor waved his hand, behind him was a divine light, and there were seventy-two guards, dressed in strong and sharp, striding forward with murderous aura.

These seventy-two guards turned out to be powerful existences in the Divine Dao Realm, known as the "Tiangang Divine Dao Guards", and they were powerful combat forces under the command of the Blood Saber Evil Ancestor.

Generally speaking, a strong person in the Divine Dao Realm is qualified to establish a sect, open up time and space, recruit believers, establish the laws of the gods, and rule one side.

Chapter 9729

These seventy-two Tiangang Divine Dao Guards are all true gods and have the qualifications to establish a sect, but they are willing to serve as guards under the hands of the blood knife evil ancestor, which shows how powerful the blood knife evil ancestor is.

Ye Chen's face darkened, only feeling the overwhelming pressure.

Most of the seventy-two Tiangang Divine Dao Guards are the existence of the early stage of the Divine Dao Realm. If they are fighting alone, Ye Chen has the confidence to kill them.

However, there are a total of seventy-two divine dao realms, which is too terrifying. The laws of the true gods are connected together, vast and magnificent, and Shen Xi is shocking. It is absolutely impossible for him to defeat these seventy-two heavenly gang divine realms with his own strength. guard.

"Do it!"

The Blood Knife Evil Ancestor yelled loudly, and the seventy-two Heavenly Gang Divine Dao Guards immediately descended from the sky. It was really a true god descending, overwhelming the mortal world.

Ye Chen and Han Yan were immediately besieged by seventy-two Tiangang Divine Dao Guards.

Whoa, whoa, whoa!

Each of the Tiangang Divine Taoist Guards, behind them manifests the appearance of the heaven and earth, a towering phantom with a height of thousands of feet, some with three heads and six arms, some with three heads and six arms, some with dragons and phoenixes, and some with vajra's glaring eyes, appearing in the void, countless gods and laws, intertwined like a galaxy, gathered into a vast universe of laws, facing Ye Chen and Han Yan in the air, and suppressed them.

What's more, the seventy-two Heavenly Gang Divine Dao Guards also stepped forward, with powerful bodies, each holding a sword, spear, sword and halberd, overwhelmingly killing Ye Chen and Xiang Yechen.

What Ye Chen and Han Yan were facing were seventy-two powerhouses of the Divine Dao Realm, who were besieged and killed in all directions, including martial arts, supernatural powers, magic weapons, weapons, laws, will, etc.

They suffocated in an instant, and almost collapsed under the tremendous pressure.

Qing Fuxue's expression changed, she didn't expect the Blood Knife Evil Ancestor to be so vicious, he really wanted to kill Ye Chen regardless of Ye Chen's identity.

Emperor Dan also looked at Ye Chen with great concern, only Qing Fuchen had a playful and joyful gesture, as if he wished that Ye Chen would be chopped into meat sauce immediately.

"Tianmo Castle, Yu!"

In a crisis, Ye Chen summoned the Demon Castle.

A huge ancient castle emerged instantly, protecting him and Han Yan inside.

bang bang bang!

Rumble!

The seventy-two Tiangang Divine Dao Guards exploded with countless supernatural powers, weapons and magic weapons, and ruthlessly bombarded the Tianmo Castle.

The Heavenly Demon Castle shook, bricks and rocks collapsed and flew, the demonic energy collapsed, and dust billowed.

Ye Chen and Han Yan in the castle were both shocked and almost vomited blood.

This Heavenly Demon Castle is not a complete existence after all, and with Ye Chen's immeasurable cultivation base, it is difficult to exert the full defensive power of the Heavenly Demon Castle.

Under the bombardment of the seventy-two powerhouses of the Divine Dao Realm, the Heavenly Demon Castle couldn't stop it.

"Second uncle, you really want to kill me."

A hint of viciousness and sharpness flashed across Han Yan's eyes, and he looked at the Blood Saber Evil Ancestor above the sky.

The Blood Knife Evil Ancestor sat on the Scarlet Throne with a very indifferent expression.

Han Yan's heart died, he grinned grimly, stopped talking nonsense, and drew his sword out of its sheath.

hum!

The sword came out, shining brightly into the sky.

"Wu Sheng Jian Dao, Moon Chasing Sword!"

With callused palms, Han Yan held the long sword at a slant, and slashed out with a sword, slashing towards several Shinto guards in front of him.

A sharp, vicious, deadly and lifeless sword intent erupted from his sword body, making those Shinto guards stunned in an instant and their bodies stiffened.

The moment they felt Han Yan's sword intent, they had the illusion that their past selves had been killed by Han Yan.

The past self is dead, so the present self will naturally no longer exist. Their bodies are completely stiff, and they can't dodge and resist.

Ye Chen was also taken aback when he felt Han Yan's sword intent.

That is not a sword technique that can be found in the main world, it is very unique and weird.

That is the Sword Dao of Sword Ancestor, from the primordial world, it is called Wusheng Sword Dao.

Apparently, Han Yan had successfully comprehended the Sword Ancestor's kendo in the sword-watching comprehension just now, and when he displayed it at this moment, his murderous aura was quite fierce, and it seemed to be able to cut off the timeline of the past.

In Wusheng swordsmanship, what you want to kill is not the current enemy, but to completely cut off the enemy's past timeline, and solve the enemy from the root.

This point is somewhat similar to the Reincarnation Purana.

The Reincarnation Purana also modifies the past, which can obliterate the enemy from the root.

No matter how powerful a person is, when he was just born, he must be very weak, just a baby, who can be killed casually.

Ye Chen reckoned that the fantasy of reincarnation in the Puranas is not groundless.

The master of reincarnation in that life in the tomb palace should have also observed the laws of the original world, so he was inspired and knew the importance of the past and origin.

The past timelines of those Divine Dao realm guards were cut off, and they couldn't resist Han Yan's sword. Seeing that their current bodies would also be cut off.

But at this time, the other Tiangang Divine Dao Guards roared over immediately, attacking Han Yan with swords and swords.

Han Yan had no choice but to back away, turning back his sword to defend himself.

The guards of the Divine Dao Realm recovered, took a breath, and there was a trace of fear in their eyes. They only felt the strangeness of Han Yan's swordsmanship, which was unprecedented in the world.

But fortunately, their seventy-two Heavenly Gang Divine Dao Guards are connected together, and when one person is attacked, the others will immediately step forward to cover.

If you want to defeat them, unless you kill seventy-two of them at the same time, their breath will be endless and you will never be able to kill them.

Even if someone is really dead, other companions can work together to resurrect.

Ye Chen and Han Yan glanced at each other, both feeling dignified. It was almost impossible to break through the siege of the seventy-two Tiangang Divine Dao Guards.

If Ye Chen used all his hole cards regardless of the cost, it would actually be possible to kill all the seventy-two Shinto guards.

But now, the Blood Knife Evil Ancestor is still sitting high above the sky. If Ye Chen kills all his people, he will definitely be furious. What awaits Ye Chen will only be more terrible revenge and crushing.

"Hehe, the lord of reincarnation, Han Yan, you can obediently subdue him, and you can save yourself the pain of struggling."

Xuedao Xiezu laughed, he knew that Ye Chen was a person of status, and if he killed Ye Chen, he would face monstrous revenge and hatred.

But, he doesn't care.

There is someone behind Ye Chen, why not behind him?

If he could get the big shots behind both sides to kill randomly, he might be able to fish in troubled waters and get more profits.

As for Han Yan, he was the son of Emperor Daotian, and the blood knife evil ancestor wanted him to die even more.

He would like to see if Emperor Daotian knew that his only son was dead, if he could keep his mind calm, if his Dao heart would collapse, and if he could maintain his top three ranking in the Heavenly Emperor Ranking.

Ye Chen's expression became gloomy, and the seventy-two Tiangang Divine Dao Guards launched an attack again, roaring over the sky and covering the earth.

It seems that such a situation cannot be solved, only the inevitable end.

Chapter 9730

But in the dark, Ye Chen's eyes were like a torch, but he saw a way to break the situation.

"Big Snow Dragon Knight, come down!"

At the moment of life and death, Ye Chen sacrificed a scroll.

It was the scroll given to him by Bingzu Tianzun, as long as he used it, he could summon three thousand snow dragon riders.

At this moment, Ye Chen unfolded the scroll, sang loudly, and called to the distant time and space.

Rumble!

The moment the scroll was unfolded, the void vibrated, and a fierce, sharp, and stern murderous aura exploded.

It was a military battle formation, where thousands of troops fought, and the gathered killing spirit was extremely violent.

Then, I saw the void split open, Ruiguang burst out, and heavy armored cavalry emerged one by one.

Those heavy armored cavalry, white horses, silver armor, silver spears, and snow-white cloaks behind them fluttered in the wind, hunting and hunting, and the momentum was majestic.

A total of 3,000 white horse cavalry emerged from the void. Under the sunlight, they were shining with silver light and full of murderous aura, like a sheet of white snow.

That is Bingzu Tianzun, an elite unit under his command, the Great Snow Dragon Cavalry!

Legend has it that there are a total of 100,000 Daxue Dragonriders under Bingzu's command.

One hundred thousand snow dragon riders, stretching across a stretch, can kill the emperor of heaven and kill the god of the gods!

There are 3,000 Daxue Dragon Riders summoned by Ye Chen.

Three thousand snow dragon riders, as white as snow, with a majestic military spirit and a murderous aura, gathered into a white dragon, roaring and whistling, circling and dancing in the formation, which was extremely spectacular.

The leader is a woman.

She was wearing a red dress, a red armor, and a red cloak. She straddled a red-blooded horse and led three thousand snow dragons.

Against the backdrop of a snow-white snow dragon ride, she is like a raging fire, a flower blooming in the white snow, bright red, full of vitality, and extraordinarily dazzling.

"The last general, Feng Wu, is here at the summons!"

The woman opened her mouth, the sound shook Xiaoyu, the red tasseled spear in her hand was clenched across her chest, and she was full of vigor.

"Big Snow Dragon Rider, see the Lord of Reincarnation!"

Three thousand Snow Dragon Riders uttered their voices in unison, their expressions reverent, and their voices shook the earth and the universe, so frightened that the Blood Saber Evil Ancestor in the sky almost fell off his throne.

"This is... the Great Snow Dragon Rider!? That old Bingzu, actually entrusted you with such an elite troop?"

The Blood Knife Evil Ancestor was shocked, and looked at Ye Chen in horror, only then did he sense the secret, knowing that behind Ye Chen, there was the shadow of Bingzu Tianzun.

Under the majesty and majesty of the three thousand snow dragon riders, the seventy-two heavenly gang god guards under the command of the blood knife evil ancestor suddenly trembled and stood in place, not daring to move again.

They are all strong in the Divine Dao Realm, and their Dao Hearts are extremely strong, but facing the fierce coercion of the Snow Dragon Riders, they seem to be facing the rush of thousands of troops, and their spirits are almost broken.

In fact, among the Snow Dragon Riders, even a single cavalryman is a very ordinary existence, no match for any lower god.

But the three thousand Snow Dragon Riders were connected together, and the military's murderous aura gathered together. Even the Seventy-two Heavenly Gang Divine Dao Guards couldn't compete, and could only tremble.

This is the power of Bingzu Tianzun. After arranging troops and gathering the weak and weak into an army formation, they can explode with a sky-defying beacon fire. Thousands of troops rush to kill, and even the gods can't stop it.

Ye Chen felt the soaring murderous aura of the Daxue Dragon Rider, and his heart was full of blood and turmoil. He looked at those Tiangang Divine Dao Guards indifferently, and waved his hands decisively:

"killed!"

Three thousand snow dragon riders echoed in unison: "Kill! Kill! Kill!"

Then, the sound of hooves thundered, shaking the world.

Three thousand snow dragon riders rode their horses and rushed out, raising their guns and killing wildly.

The seventy-two Heavenly Gang Divine Dao Guards were crushed by the three thousand snow dragon riders and had no power to fight back. They were trampled to death by horseshoes and stabbed to death by random guns on the spot. Blood rain splashed.

Seeing that all the Tiangang Divine Dao Guards under his command were killed, the Blood Knife Evil Ancestor was terrified and shouted angrily:

"Lord of reincarnation, you dare to kill my people?"

Ye Chen said with a smile: "Senior, it was you who wanted to kill me first, I was just protecting myself."

"And, I didn't kill them all."

"The guards under your command have only been crushed in part of the timeline, and there is still a possibility of resurrection."

The Blood Knife Evil Ancestor's face was very ugly. Although he could resurrect all those Shinto guards, the resources and price he had to pay were extremely huge.

Moreover, after the resurrection, the Shinto Guard, with his Dao heart dusted, must have lost his combat effectiveness.

This blow by Ye Chen can be said to have dealt him a serious blow.

The corner of Ye Chen's mouth curled up. It was the blood knife evil ancestor who wanted to kill him. He couldn't be weak and give in. He had to retaliate with the same means.

If he bows his head and spreads the word, he is no longer fit to lead the reincarnation camp.

"Lord of reincarnation, the enemy has been eliminated, please give me instructions."

Yu Fengwu respectfully asked Ye Chen for instructions, and then looked at the blood knife ancestor in the sky, as if even if Ye Chen ordered her to lead a team to attack the blood knife evil ancestor, she would carry it out without hesitation.

Although there are only three thousand snow dragon riders, if they dare to attack the blood knife evil ancestor, there is only one dead end.

However, since the Daxue Dragon Riders came here at the call, no matter what Ye Chen asked, they would swear to the death, even if they attacked the Lord God.

"Well, that's fine, you guys go back."

Ye Chen nodded, and accepted it as soon as it was good, knowing that Bingzu Tianzun, it is not easy to train Daxue Dragonriders, and he does not want them to sacrifice here.

Moreover, he didn't want to completely tear his skin apart with the Blood Knife Evil Ancestor, after all, this was someone else's territory.
