

## Physician 9731

### Chapter 9731

He just crushed and killed Tiangang Divine Daowei, but he also left a front line. He didn't kill them all, but just showed his attitude to the blood knife evil ancestor.

"yes!"

Yu Fengwu listened to the order, and immediately led the big snow dragon rider, disappeared in the void, and left soon.

Woo.

Ye Chen's summoning scroll also turned into fly ash.

Between the heaven and the earth, Youran still had the mighty and murderous aura of the Daxue Dragonriders, and the audience was solemn.

"Senior, you said just now that Han Yan and I can leave as long as we defeat your Tiangang Shendaowei."

"Now, can we go?"

Ye Chen smiled and said to the Blood Knife Evil Ancestor.

Blood Knife Evil Ancestor's face was distorted. He did say this sentence just now.

With his status as the emperor of heaven and the ancestor of Taoism, it is naturally inconvenient to break his promise.

But under the eyes of everyone, he was so slapped in the face by Ye Chen, and his Tiangang Shendao guards died, how could he swallow this tone?

"Okay, Lord of Reincarnation, you can go."

"But, my good nephew, he can't leave."

Xuedao Xiezu thought for a while, then showed a stern smile, and stared at Han Yan with a trace of cruelty in his eyes.

With a light wave of his hand, he forced Ye Chen back with a burst of energy.

Then, there was a whistling sound in the void, and thousands of sharp knives flew out from the sleeve robe of the Blood Knife Evil Ancestor.

A pair of sharp knives, with a cold glow, fell from the sky with a puffing sound, and in an instant, Han Yan's body was nailed to the ground.

Han Yan snorted, his body was full of sharp knives, and he was nailed to the ground. At least half of the timeline on his body was cut off. He was seriously injured, and blood flowed from the corner of his mouth.

"Brother Han!"

Ye Chen was taken aback, and took a step forward, but was blocked by an invisible wall of air, unable to get close to Han Yan.

Xuedao Xiezu smiled and said: "The lord of reincarnation, you are invincible, and you can summon the snow dragon rider to descend, I have nothing to say."

"However, my nephew, he has no ability. On his own words, he must be no match for my Tiangang God Daowei."

"So, you can go, but he can't."

Han Yan was nailed to the ground, feeling extremely uncomfortable. Looking at Ye Chen, he called out with difficulty: "Brother..."

He was covered with sharp knives, and even his throat was pierced by several sharp knives. His voice was hoarse and moving.

Ye Chen was furious, looked at the blood knife evil ancestor and said: "Blood knife evil ancestor, that's enough! He is your own nephew!"

Xuedao Xiezu smiled and said: "Yes, he is my own nephew, so I didn't kill him."

"Lord of Reincarnation, I will give you a face. If you want to save people, tomorrow you will refine the Life Realm Nine Origin Pill, and you will be the master alchemist."

Xuedao Xiezu was seriously injured and needed Mingjie Jiuyuan Dan to treat him.

This Life Realm Nine Origin Pill was originally planned to be refined tomorrow, with Qing Fuxue as the master alchemist and Ye Chen as the assistant.

But now, Xuedao Xiezu said that he wants Ye Chen to be the master alchemist himself.

Then, the Blood Knife Evil Ancestor continued: "I want you to shed the blood of reincarnation on your body and quench the pill for me."

"Hehe, your samsara bloodline is strong, even if the blood is drained, it will take a year or so at most to recover."

"I need your blood of reincarnation, quenching pills to heal my wounds, such pills are the most effective, hehe, how about it?"

"As long as you are willing, I will let Han Yan go."

Just now Ye Chen wiped out the Tiangang Divine Dao Guard, which made the blood knife evil ancestor very angry. Now he wants Ye Chen to pay the price of blood, the price of real blood, and wants Ye Chen to shed all the blood to quench his pill.

Hearing the words of the Blood Knife Evil Ancestor, everyone in the audience was shocked.

Ye Chen's complexion changed. If he bleeds dry, even if he can recover in the future, his vitality will be severely damaged, affecting his original foundation, and the price will be extremely huge.

"Lord of reincarnation, no!"

Qing Fuxue categorically dissuaded her, and she also knew that the consequences of doing so would be very serious.

She said to Xuedao Xiezu: "Xuedao Xiezu, you release me immediately, otherwise my Heavenly Pill Tower will not make alchemy for you again."

The Blood Knife Evil Ancestor looked gloomy and said with a smile: "You Tiandan Pagoda dare to violate the contract, are you not afraid of being punished by heaven? Besides, you are just the saint of the Tiandan Pagoda, not the master behind the scenes. You are not qualified to follow I negotiate."

"Even if Qingfutu came, he would not dare to offend me. What are you? I give you face because you are a descendant of the Moon God. If you dare to mess around, I will kill you!"

At the end, Xuedao Xiezu's tone became more and more ruthless, with the potential to tear his skin apart and never stop dying.

Behind Qing Fuxue, Qing Fuchen and Emperor Dan, who had never seen this scene before, were silent like cicadas, daring not to make a sound.

And behind the throne of the blood knife evil ancestor, many strong men who cut the spirit time and space are already ready to move.

As long as the Blood Knife Evil Ancestor gives the order, they will attack immediately, crushing and killing all enemies, regardless of the cost.

Seeing that the situation was on the verge of getting out of control, Ye Chen's expression darkened.

Now there are three ways before him.

One is to summon the top powerhouses of the reincarnation camp to come down and fight to the death with the Blood Knife Evil Ancestor.

But doing so will cost a lot. After all, this is the territory of the Blood Knife Evil Ancestor. Even if he can win, it will not be worth the loss.

Chapter 9732

And this matter, if it gets out, can also strengthen his reputation.

It is a great honor to be able to force the Lord of Reincarnation to the point of bleeding, which is enough to shock the world.

"Don't worry, I will keep my promise."

"As long as you obediently use your own blood to quench the pill for me, I will release Han Yan after the pill is made."

The Blood Knife Evil Ancestor made a promise. Of course, he can't let Han Yan go now, at least until tomorrow, when Ye Chen successfully refines the elixir.

Ye Chen nodded, looked at Han Yan who was covered with sharp knives, and said, "Brother Han, you have to endure for a day."

Han Yan's eyes were full of pain, unwillingness, helplessness, and a hint of gratitude.

After the discussion, Ye Chen, Qing Fuxue and others returned to the residence of the Starry Sky Palace.

Xuedao Xiezu sent people to detain Han Yan and put him under strict supervision.

As soon as she returned to the starry sky palace, Qing Fuxue was full of anxiety, and said to Ye Chen: "If you shed all the blood on your body and pay such a terrible price, what should you do in the future?"

Ye Chen smiled lightly, it was useless to worry about the things that had been decided, and said: "Let's talk about tomorrow's matter, at least, even if the blood dries up, I won't die."

Qing Fuxue sighed: "Hey, whatever you want, anyway, if you are in the reincarnation camp, or Mojin Patriarch blames you, you can't say that I harmed you."

Ye Chen smiled and said, "Got it, thank you for coming out today."

In fact, Qing Fuxue had said long ago that if Ye Chen offended the Blood Saber Evil Ancestor, she would not show up, but she still came just now.

Although in the end, Ye Chen was still in trouble, but at least Qing Fuxue was willing to help, and he was naturally grateful.

Back in the room alone, Ye Chen first recalled Qinglian's avatar.

Previously, the Qinglian avatar was used to lure away the guards of the Sword Ancestor's Sword Realm, and it went smoothly. Ye Chen's avatar was not damaged.

This is undoubtedly good news for him.

At that moment, Ye Chen cut through his palm, and guided part of the blood in his body, as well as the most original blood essence, into Qinglian's body first.

In this way, even if his main body runs out of blood tomorrow, he can replenish some with the blood of Qinglian's avatar, so that he won't really be exhausted.

After that, Ye Chen sealed the Immortal Pond in his dantian.

The Immortal Pool is one of the top ten fairy pools, and the water source of the pool is abundant.

If Ye Chen runs out of blood, he can also speed up his recovery by borrowing the energy from the Immortal Pond.

After getting ready, Ye Chen took out the Luobao money again, hoping to absorb the aura of the surrounding world and collect traces of the laws of the world.

As long as there are enough traces and clues, touch the Jin Patriarch's side, you can calculate the secret and determine whether the blood knife evil ancestor is really the ghost.

However, the purpose of using Luobao money to absorb spiritual energy is too obvious, and it will definitely touch the secret and be discovered by the blood knife evil ancestor.

Now the conflict between Ye Chen and the blood knife evil ancestor is on the verge of breaking out. If he finds out again that Ye Chen has the idea of plotting against him, the situation will definitely be out of control.

After thinking about it, Ye Chen put away the Luobao money first, and planned to wait for the right time to collect the spirit law.

Nothing to say all night.

Chapter 9733

Xuedao Xiezu said: "The elixir I need to refine is the half-step Heavenly Emperor-level Life Realm Nine Origin Pill. This pill has excellent healing effects, so you don't need to look at the recipe."

"I have laid down the law of cause and effect. You just need to fuse these medicinal materials and refine them into elixirs. The elixirs you refine will definitely be the Nine Origins of Life Realm."

Ye Chen nodded, expressing his understanding, similar to how he used to refine the Moon Emperor Demon Pill.

As long as the medicinal materials are successfully fused into a elixir, the elixir can be baked, and there is no need for a elixir recipe.

It is impossible for the Blood Knife Evil Ancestor to leak out the half-step Heavenly Emperor-level elixir formula easily.

The Blood Knife Evil Ancestor smiled again: "However, all the medicinal materials of the Nine Origin Pill of the Life Realm are rare, and I only collected one."

"So, this alchemy, you only have one chance, don't fail."

Ye Chen said: "Okay, I know."

Xuedao Xiezu didn't say what the consequences of failure would be, but Ye Chen also knew that if he failed in alchemy, Han Yan would definitely not be able to save him, and it would be difficult for him to get out.

The Blood Knife Evil Ancestor smiled and said: "Very good, let's start, remember to use your blood of reincarnation when quenching alchemy."

Ye Chen nodded, then looked back at Qing Fuxue, Dandi and the others, ready to start alchemy.

Qing Fuxue took a step forward and said: "Wait a minute, use my pill furnace."

She sacrificed a bronze alchemy stove, thick and simple, with gossip patterns printed on it, and the decoration of bright moon and flying clouds, which reveals a trace of delicacy in the simplicity.

"My Bagua Qingyue Furnace may be more suitable for alchemy."

Xuedao Xiezu said: "It doesn't matter, as long as you can refine the Nine Origin Pill of the Life Realm."

At that moment, Xuedao Xiezu asked someone to remove the alchemy furnace he had prepared, and replaced it with Qing Fuxue's Bagua Qingyue furnace.

Qing Fuxue glanced at Ye Chen and said, "Lord of Reincarnation, you can start."

Seeing Qing Fuxue's eyes, Ye Chen seemed to have other meanings, and couldn't help but feel his heart move.

Alchemy began.

Ye Chen is the main alchemist, standing at the front, put the blindly medicinal materials on the jade table into the alchemy furnace, and then run the Taoist alchemy technique, turning them into reincarnation star fighting energy, and began to smelt the medicinal materials.

The medicinal materials prepared by the blood knife evil ancestor have different attributes, and it is very difficult to fuse them together.

You also need to pay attention to the sequence of steps in the refining of medicinal materials. If you are not careful, you will fail, and the entire batch of medicinal materials may turn into fly ash.

Ye Chen was careful, and slowly smelted and fused according to the medicinal properties of the medicinal materials.

This kind of integration, the requirements for Ye Chen's alchemy cultivation, as well as the requirements for spiritual power and aura background are very strict.

If it was him alone, it would be impossible to refine a half-step Heavenly Emperor-level pill.

Fortunately, he was not alone in alchemy this time.

He is the main alchemist, and behind him are Qing Fuxue, Qing Fuchen, Dandi and others.

Standing behind Ye Chen, all alchemists such as Qing Fuxue borrowed their alchemy power to Ye Chen.

With the assistance of Qing Fuxue and others, Ye Chen was naturally much more relaxed.

However, it is still very cumbersome to refine half-step Heavenly Emperor-level pills. Under normal circumstances, it would be impossible without thousands of years.

The Blood Knife Evil Ancestor played out one after another hand formula, laying down an enchantment of the law of time, covering the square.

Under the cover of this time barrier, the time in the square passed very slowly, much slower than the outside world.

Ye Chen and others have practiced alchemy for a hundred years, and the outside world has only passed half an hour.

It is not surprising that this kind of application of the law of time is very common in Wuwu time and space.

Finally, after 1,000 years of alchemy, it only took five hours for the outside world, and all the medicinal materials have been fused in the alchemy furnace, turning into a ball of golden medicinal liquid.

It took Ye Chen another hundred years, and the golden liquid medicine gradually condensed and solidified into an elixir.

Ye Chen did not deliberately shape this pill. Under the influence of the law of causality of the blood knife ancestor, layers of totem runes emerged on the pill. The small pill was actually as heavy as a star. The runes on it The text reveals the power of the law of the emperor of heaven, the rich danxiang permeates the air, and the vigorous vitality is moving.

"Very good, Lord of Reincarnation, your alchemy is really powerful. In just a thousand years, you have refined my Nine Origin Pill of Life Realm!"

Seeing the pill taking shape, the Blood Knife Xiezu was overjoyed.

Looking at the aura emanating from the Life Realm Nine Origin Pill, no matter how serious his injury was, it was enough to heal him.

Seeing that the elixir was refined, Ye Chen secretly breathed a sigh of relief.

This time alchemy, in fact, Qing Fuxue contributed the most.

Ye Chen, the master alchemist, just controls the sequence of alchemy steps.

The outside sky has already dimmed.

Ye Chen has practiced alchemy since the morning, until now, night is almost coming.

Of course, in the past half a day, Ye Chen has actually experienced thousands of years.

Fortunately, Ye Chen's Dao heart is strong, and it's not worth mentioning to him because of the wear and tear of thousands of years.

It's just that refining a half-step Heavenly Emperor-level elixir is really stressful, and he was sweating, but luckily he succeeded.

"Lord of Reincarnation, next, it's time to use your blood to quench the pill."

The Blood Knife Evil Ancestor had no intention of letting Ye Chen rest, the corners of his mouth curled up, and he urged with a smile, but his voice was a bit playful and cruel.

Ye Chen bleeds dry this time, even if he can recover in the future, his vitality will probably be seriously injured.

Seeing others suffer and suffer, Xuedao Xiezu felt happy in his heart.

Chapter 9734

Ye Chen gritted his teeth and didn't talk nonsense. He took out a sword and cut the palm of his hand, and blood gushed out.

He mobilized his spiritual energy to expand the wound on his palm, preventing it from healing, and allowing the blood in his body to flow out continuously.

A large amount of blood poured into the alchemy furnace.

Ye Chen's blood of reincarnation had a golden luster in the blood color, and the aura was very abundant. When it was poured on the Life Realm Nine Origin Pill, the medicine pill gradually turned into a golden red color.

Ye Chen also absorbed the aura of heaven and earth around him, and the law of Dao Yun, and continuously poured the medicine to strengthen the medicinal power of the Nine Origin Pill of the Life Realm.

Ye Chen's heart skipped a beat when he absorbed the aura of heaven and earth for the pill.

If at this time, he let Luo Baoqian absorb the aura of heaven and earth together, with the cover of the Nine Origin Pill of the Life Realm, he would definitely not be discovered by the blood knife evil ancestor.

Thinking like this, Ye Chen remained calm, turned the Luobao money in his body into a golden streamer, mixed it with his own blood, and poured it into the alchemy furnace together.

This alchemy furnace is Qing Fuxue's gossip Qingyue furnace, not the blood knife evil ancestor's.

Ye Chen's falling treasure money, falling into it, will not attract the attention of the blood knife evil ancestor.

Only at this moment did Ye Chen understand why Qing Fuxue changed the pill furnace.

He turned his head to look at Qing Fuxue, Qing Fuxue smiled at him, saying nothing.

Without leaving a trace, Ye Chen divided a part of the absorbed heaven and earth aura and law power into Luobao money.

As long as Luobao money absorbs enough aura from the Zhanling Time and Space, the Patriarch Touching Jin will be able to sense it, and calculate all the secrets behind it based on the traces of aura.

The powerhouses in the Heavenly Emperor Realm have very powerful deduction methods. As long as there is a little trace of clues, it is possible to catch all kinds of clues behind it.

The Blood Knife Evil Ancestor on the throne did not notice Ye Chen's little move.

After all, all of Ye Chen's actions seemed to be hardening the pill with blood, and outsiders could not find his abnormal actions at all.

Only behind Ye Chen, Qing Fuxue, Qing Fuchen, Pill Emperor and many other alchemists who assisted in alchemy could vaguely feel that Ye Chen's alchemy actions suddenly appeared a little abnormal, and the alchemy seemed to fluctuate.

However, it is normal for the breath to fluctuate when refining half-step Heavenly Emperor-level pills, and no one thinks about it.

Only Qing Fuchen had a gloomy sharpness in his eyes.

Finally, the quenching alchemy was also completed.

Ye Chen poured all his blood of reincarnation on the Jiuyuan Pill of the Life Realm.

The entire Life Realm Nine Origin Pill exudes a golden-red qi, soaring into the sky, the energy is majestic and magnificent, and it is no less than a real Heavenly Emperor-level elixir.

Because, this elixir absorbed a lot of Ye Chen's reincarnation blood.

Ye Chen was covered in blood, which had already drained dry, and now his body was very weak, his skin was wrinkled on his bones, and his whole body was almost dry.

He hurriedly circulated the energy that created the Immortal Pond, and strands of water from the Immortal Pond nourished his dry meridians, so that he did not die from exhaustion.

"Senior, Dan is done."

"You can let my brother Han go."

Ye Chen gasped, looked at the blood knife evil ancestor and said.

In order to refine this elixir, he paid an extremely heavy price.

However, he couldn't watch Han Yan die. Even if he paid a heavy price, he had to save people first.

"Very good, very good, Lord of Reincarnation, you value love and righteousness, I admire you very much!"

The Blood Knife Evil Ancestor applauded and praised, and the guards around him were also extremely moved. They applauded. It was unexpected that Ye Chen would sacrifice so much.

The Blood Knife Evil Ancestor has always had a perverse temper, but at this moment, he was also shocked by Ye Chen.

The Life Realm Nine Origin Pill, suspended in the sky above the pill furnace, exuded a majestic pill energy, and it was full of the energy of Ye Chen's reincarnation blood.

Xuedao Xiezu wanted to bring the elixir, but at this moment, Qing Fuchen came out and shouted:

"Senior, wait a minute, this elixir, the Lord of Reincarnation may have tampered with it!"

Hearing Qing Fuchen's words, Xuedao Xiezu was stunned, and the strong guards around him were also stunned.

Ye Chen's many alchemists were even more stunned.

Qing Fuxue gave Qing Fuchen a glance, and said: "What nonsense are you talking about!"

Qing Fuchen said in a loud voice: "I just clearly felt that the lord of reincarnation, his alchemy fluctuated abnormally, and I don't know what he did, and I ask Senior Blood Knife to investigate clearly. If this kid intends to harm you, then you can contact me with Tiandan Pagoda." Nothing to do."

Hearing Qing Fuchen's words, Xuedao Xiezu's face turned completely gloomy, and strode to the gossip Qingyue stove, touched the alchemy stove with the palm of his hand, and counted with his fingers. Fierce and murderous.

boom!

The Blood Knife Xiezu slapped heavily on the alchemy furnace, and there was a buzzing sound, a golden light flew out of the alchemy furnace, but it turned out to be a copper coin with wings, which was Ye Chen's falling treasure coin.

"Low treasure money, touch the things of Patriarch Jin?"

When the Blood Knife Evil Ancestor saw it, his facial features became distorted, and his insight into the secrets became clearer. He stared at Ye Chen and said:

"Did Patriarch Mojin send you here?"

"You want to plot against me!?"

Seeing this falling treasure money, Qing Fuchen was stunned for a moment.

From the appearance, Ye Chen didn't seem to have done anything in the pill, but had other plans.

Seeing that the matter was brought to light, Ye Chen's face became completely gloomy.

"Say! What is your conspiracy?"

The Blood Knife Evil Ancestor was furious, and his palm shot out like a ghost's claw, and he strangled Ye Chen's throat.

He still doesn't know what Ye Chen and Patriarch Mojin's plan is.

Because Ye Chen conspired with Patriarch Mojin in the sand city and in the tomb, plus Patriarch Mojin deliberately concealed the secret, so it was very difficult for outsiders to speculate and spy.

Even the Blood Knife Evil Ancestor at this moment only vaguely felt that Ye Chen and Mo Jin Patriarch might be against him, but he didn't know exactly what the plot was.

When Ye Chen saw the palm of the patriarch Mo Jin attacking him, he felt a majestic coercion of the heavenly emperor covering his whole body, and his body stiffened immediately, making it difficult to resist.

But at this time, a slender hand protruded from the side, and with a snap, it repelled the palm of the blood knife evil ancestor.

The person who shot was Qing Fuxue.

Qing Fuxue reacted very quickly, she grabbed the Nine Origin Pill of Life Realm in her hand, and said to the Blood Knife Evil Ancestor with a smile:

"Blood Knife Evil Ancestor, you know best what you have done."

The Blood Knife Evil Ancestor said in a deep voice: "What did I do? Hmph, pretend to be a ghost, return the elixir to me!"

Seeing that Qing Fuxue took away the Nine Origin Pill of the Life Realm, he was afraid that something would change, in order to forge this pill, he spent countless talents and treasures.

Moreover, this Life Realm Nine Source Pill, tempered by Ye Chen's reincarnation blood, is extremely precious and full of energy. It is no different from the real Heavenly Emperor level medicine, and he must not lose it.

Chapter 9735

Qing Fuxue said with a smile: "If you want pills, that's fine, you just need to answer me, why did you betray Lord Hun Tiandi?"

When she spoke, there was a faint fragrance of dan, which permeated the air, refreshing.

The Blood Knife Evil Ancestor smelled the fragrance of the pill, he was in a trance, stunned for a moment, and subconsciously said: "What betrayal, I am loyal to Lord Hun Tiandi, how could I betray?"

Saying these words, the Blood Knife Evil Ancestor suddenly felt something was wrong.

Behind him, many Taoist guards looked at him with surprise and astonishment.

Many alchemists and guards on Ye Chen's side were also terrified.

Qing Fuxue said with a smile: "Oh, so you really converted to Emperor Huntian. As the ancestor of the Dao Sect, you should know that Emperor Huntian is the person whom the Great Ruler named to kill, and the sworn enemy of Daozong. You actually took refuge in him, Do you want to betray the Great Ruler?"

Xuedao Xiezu said angrily: "Qing Fuxue, you dare to lie to me?"

Until this time, he finally knew that Ye Chen came here to investigate his secrets and determine whether he had converted to Emperor Soul.

Just now he was tempted by Qing Fuxue, but he took the initiative to tell the truth.

He did convert to the Soul Emperor.

The matter was brought to light, and behind the Blood Knife Evil Ancestor, half of the guards were strong, with surging aura and gushing devilish energy, manifesting a dark and ferocious face.

The other half of the powerhouses were those who were loyal to Dao Sect, and they were stunned when they saw such a change.

"Come on, kill them all!"

The Blood Knife Evil Ancestor shouted, and all the dark powerhouses behind him rushed out.

Strange changes appeared in their eyes one after another, with layers of death patterns appearing, which turned out to be the magic eye of death.

The Devil's Eye of Death is the supreme supernatural power of the Dark Soul Clan. Most of the followers of the Soul Heaven Emperor practice this supernatural power.

These dark powerhouses are not of high grade, but hundreds of powerhouses opened their eyes, and their murderous intent became one, and the pressure of death was so strong that everyone on Ye Chen's side couldn't breathe.

Ye Chen originally had the real Devil's Eye of Death, which would not be affected, but now, his body is bleeding, his meridians are almost withered, and he is very weak, but even ordinary Devil's Eye's murderous aura is hard to resist.

"Go!"

Seeing that the situation was not good, Qing Fuxue took Ye Chen away immediately.

Qing Fuchen, Dandi and others also fled in a hurry.

"Qing Fuxue, leave the pill for me!"

Blood Knife Evil Ancestor Lei Ting yelled violently, staring at the elixir in Qing Fuxue's hand, that Life Realm Nine Origin Pill, was his hope of healing and recovery, he must not lose it.

boom!

Behind the Blood Knife Evil Ancestor, the bloody demonic energy gushed out, and a pair of blood-red wings exploded. With a flap of his wings, he soared into the sky like a demon, and chased after Qing Fuxue, Ye Chen and others.

"Give me the pill."

Ye Chen was weak, so he said to Qing Fuxue that this Life Realm Nine Origin Pill was filled with his blood. If he took it, he might be able to replenish the blood and greatly improve his cultivation.

After all, it took countless precious treasures of heaven, material and earth to refine this Nine Origin Pill of Life Realm, and the aura of this pill is very abundant.

"No, a half-step Heavenly Emperor-level elixir will blow you up."

Qing Fuxue shook her head with a dignified expression.

Of course she wanted Ye Chen to recover, but this elixir had too much energy, and it was absolutely impossible for Ye Chen to withstand it with Ye Chen's cultivation of the seventh-level heaven of the immeasurable realm.

As long as Ye Chen dared to take it, he would explode and die on the spot.

While the two were talking, the Blood Knife Evil Ancestor had already chased him down. Since his identity had been exposed, he didn't have to hide it anymore. A ferocious demonic energy exploded all over his body.

In his eyes, the death totem emerged, and the Devil's Eye of Death was also opened.

Ye Chen looked into the eyes of the Blood Knife Evil Ancestor, and felt the tyrannical pressure of death enveloping him, and he suffocated on the spot.

The Devil's Eye of Death of the Blood Knife Evil Ancestor has reached the level of the eighth rank, which is very powerful.

"Death with a knife, broken!"

A battle knife emerged from the hand of the Blood Knife Evil Ancestor, the blade was stained with blood, with awe-inspiring aura, he slashed out across the air, mixed with the murderous aura of the Devil's Eye of Death, this knife was overbearing, destructive, unstoppable.

"It's over, Sister Xue, we are going to die!"

Qing Fuchen trembled with fear when he saw the knife slashing, and cursed at Ye Chen again:

"It's all the boy's fault, he killed us!"

Qing Fuxue gritted her silver teeth, her beautiful eyes stared at the sword light coming from the sideways cut, knowing that it was difficult to resist, she opened her arms, and chanted with the most pious gesture:

"Moon God, please protect your most loyal believer."

The sound of her singing fell, and the blood and energy in her body burned violently, as if she had become some kind of sacrifice, to be enshrined to the greatest god.

Rumble!

The void oscillated, and a round moon like a jade plate emerged from Yemu Tian's heart.

Then, a cold, bright, aloof figure with fluttering white clothes descended from the full moon like a fairy in the Moon Palace.

It is the legendary Moon God Emperor!

The moon god Tiandi has a beautiful appearance, a cold temperament, and snow-like skin. As soon as she appears, there will be pieces of moonlight falling down like clear water waterfalls.

The knife slashed by the blood knife Xiezu Biao, as well as the monstrous murderous aura of death, all turned into nothingness under the cold moonlight.

However, Qing Fuxue, who summoned the Moon God and Heavenly Emperor, seemed to have exhausted all of her blood, her face was extremely pale, her body was staggering, almost falling from the sky.

"Moon God Emperor?"

Chapter 9736

"Damn it! On my territory, you can also summon the Moon God?"

The Blood Knife Evil Ancestor was enraged, and turned his Demon Eye of Destiny to the limit. The knife in his hand was so bloody that it slashed out again.

"The Evil Knife Profound Truth, Heavenly Evil Slashes in Blood!"

The blood light exploded, and phantoms of blood demons erupted from the blade of his blade. The blade's aura roared, extremely violent and vicious, with a murderous aura. With a violent blade, he beheaded the Moon God and Heavenly Emperor.

The moon god Tiandi waved his slender hand, and the moonlight swept out like a horse, blocking the knife of the blood knife evil ancestor.

laugh!

The evil knife and the moonlight collided in the void, bursting out a shocking Heavenly Emperor Qi, and the air waves tore through time and space, shaking the universe.

"Puchi!"

The Blood Knife Evil Ancestor was shaken violently, vomited blood on the spot, and retreated in embarrassment.

He was already injured, but after colliding with the Moon God Emperor, his injury was even worse.

And the figure of the Moon God and Heavenly Emperor seemed to have exhausted his energy, and slowly dissipated in the void. The full moon in the sky collapsed, turning into little fireflies and falling down, and the world fell into the darkness of night again.

"Go!"

Qing Fuxue gritted her teeth, she was already extremely weak, and with her last bit of strength, she summoned a sky boat, boarded the sky boat with Ye Chen, Qing Fuchen, Dan Di and others, and flew out of Zhanling Time and Space.

After boarding the Tianzhou, Qing Fuxue, who was extremely weak, leaned against the railing to rest.

Ye Chen was also extremely weak, his whole body had been drained of blood, and he also needed to rest.

But at this time, Qing Fuchen came over and grabbed Ye Chen's shoulder, angrily said: "Sister Xue is so miserable, it's all your fault."

"We were all almost killed by you, get out of here!"

After finishing speaking, Qing Fuchen pushed Ye Chen off the boat.

Ye Chen was weak and unable to resist, his body fell to the ground.

"Lord of Reincarnation!"

Qing Fuxue was shocked, but it was irreversible.

Ye Chen fell to the ground, his bones almost fell apart, the pain was excruciating, and he passed out on the spot.

Several dark strongmen quickly flew to Ye Chen's side and took him away.

After an unknown amount of time, Ye Chen woke up in a daze.

As soon as he woke up, he saw a sinister and ferocious face in front of him, which was the Blood Knife Evil Ancestor.

"Boy, you are awake. God is sorry, you still fell into my hands in the end."

Xuedao Xiezu smiled sinisterly, his eyes full of killing intent.

Ye Chen's heart sank, and he looked around, only to find that he was imprisoned in a cell.

In the same cell as him was Han Yan.

Ye Chen and Han Yan were bound by iron chains and could not move.

Those iron chains, with special restrictions, sealed their aura.

The blood knife evil ancestor is very cautious. Even if Ye Chen's blood has been drained, he must completely block Ye Chen's aura to avoid any accidents.

Under the blockade of layers of iron chains, Ye Chen's contact with the cemetery of reincarnation was completely severed, and he could not mobilize the magic weapon, let alone spread his thoughts and spirits. It was absolutely impossible to ask for help.

"Brother."

Han Yan smiled wryly, and looked at Ye Chen. He didn't expect Ye Chen to become a prisoner just like him.

Under his insight, he probably knew what happened.

He never expected that the Blood Knife Evil Ancestor had converted to Emperor Huntian.

"Second Uncle, you are so powerful that you actually joined Emperor Huntian."

"No wonder you were able to organize several raids after you left home. Presumably you borrowed the power of the Dark Soul Clan."

Han Yan smiled wryly.

"Shut up, you're all going to die tomorrow."

Blood Knife Xiezu sneered.

Ye Chen said: "What do you want to do?"

The blood knife evil ancestor said gloomily: "It's nothing, I just want to treat you as sacrifices to Lord Huntiandi."

"Thank goodness, Lord of Reincarnation, you are still alive, and you still have the value of being a sacrifice, hehe..."

Ye Chen's heart sank, but he didn't expect that the Blood Knife Evil Ancestor would treat himself as a sacrifice to Emperor Huntian.

Han Yan heard that he was going to be sacrificed together with Ye Chen, but he smiled and said: "Second Uncle, am I so powerful? To be able to be with Brother Ye, I'm afraid that I'm too humble, and Emperor Huntian won't accept it." I."

Xuedao Xiezu smiled and said: "Han Yan, you may not know your own life experience."

"Actually, Lord Huntiandi told me that in your previous life, you were the legendary Sword Demon."

"You are the reincarnation of the Sword Demon. Back then, you and Emperor Yantian were close friends and old enemies. The reason why you are obsessed with swords in this life is because you were the Sword Demon in your previous life!"

"You have a special status, even if you are not as good as the Lord of Reincarnation, you still have the qualifications to be a sacrifice to Lord Soul Heavenly Emperor."

"Haha, sacrifice you all, Lord Huntiandi will send down the power of protection, it must be able to save my life and avoid the pursuit of the Great Master, I want to thank you."

Han Yan's head was buzzing, and he said, "What sword demon, what Yantian Emperor?"

Before Emperor Yantian fell, he had already erased all traces in the world.

Therefore, in today's world, very few people have heard the legend of Emperor Yantian.

As for the sword demon, it is also a very secret existence, and the traces of heaven are faint and inaudible.

In this world, there are countless people who practice swords, and there are many people who are known as sword demons.

But for some reason, Han Yan's head ached so badly after hearing the words of the Blood Knife Evil Ancestor, that he was about to tear apart, as if some memory had revived.

In the dark, he seemed to see a desolate figure who was lonely and accompanied only by a sword.

In his heart, there was an inexplicable sense of great sadness and sadness, as well as grief, indignation and helplessness.

This feeling of sadness and desolation came from nowhere and stimulated his Dao heart, and a line of clear tears fell from the corner of his eyes on the spot.

"Hehe, how about it, do you remember?"

"You were a sword demon in your previous life, and killing them was terrifying. In this life, you have awakened the source body of the heavenly sword, but you still can't suppress the sword intent in your previous life. You are also obsessed with swords."

"You are a very special person. If you are sacrificed to Lord Hun Tiandi, he will be very happy, ha ha."

Xuedao Xiezu laughed, and was very satisfied with Han Yan as a sacrifice.

Han Yan's head hurt even more after hearing the words of the blood knife evil ancestor, and he muttered to himself in great pain: "Could it be that my previous life was really a sword demon?"

Xuedao Xiezu smiled and said: "This is your last night, enjoy it slowly."

"I will send you to the altar tomorrow morning."

"At that time, you can go to see Lord Hun Tiandi."

"This is a great honor."

After finishing speaking, Xuedao Xiezu turned and left the cell.

In the cell, only Ye Chen and Han Yan were left.

Seeing Han Yan's painful appearance, Ye Chen didn't know what to say for a while.

Han Yan covered his head, his facial features were distorted by the pain, he gritted his teeth and struggled for a while, and then he fell into a drowsy sleep.

Ye Chen didn't want to sleep, thinking about the way to break the situation.

He vaguely felt that the air flow outside was changing, and the Blood Saber Evil Ancestor had completely sealed off the entire Spirit Slashing Time and Space.

Chapter 9737

Layers of crystal walls are restricted, covering the spirit-slaying time and space. Even if it is a powerhouse at the level of the emperor, it will take at least a few days to break through.

But, tomorrow morning, Ye Chen and Han Yan will be treated as sacrifices to Emperor Huntian.

In other words, even if Ren Feifei and Buddha came to save him, it would be too late.

"Am I really going to die?"

Ye Chen's heart sank, and he thought about it until midnight, when he suddenly smelled a faint fragrance of dan.

This danxiang, like sandalwood or musk deer, floats from nowhere, and when people sniff it, they feel like they are floating in the sky, as if ascending to heaven.

The dozen or so strong men guarding the prison all fainted after smelling the danxiang, and their bodies fell to the ground with a thump.

Danxiang floated over, from a wisp as light as smoke, gradually concentrated and concentrated, and finally turned into a human form, which turned out to be Qingfuxue.

"Qing Fuxue, it's you!"

When Ye Chen saw Qing Fuxue appear, he was both surprised and happy.

"Lord of Reincarnation, I'm sorry, it was my ineffective younger brother who harmed you."

When Qing Fuxue saw Ye Chen, she apologized very guiltily.

If it wasn't for Qing Fuchen who pushed Ye Chen off the boat, then Ye Chen wouldn't have fallen to this point, and would have left Zhanling Time and Space long ago.

When Ye Chen heard Qing Fuxue's apology, he shook his head and didn't speak.

At this point, it's useless to talk too much.

Qing Fuxue said: "Anyway, now I will find a way to rescue you."

Saying that, Qing Fuxue took a step forward, grabbed Ye Chen's shoulders, moved her body closer, and stared into his eyes:

"You open your mouth first."

Ye Chen sniffed the fragrance of Qing Fuxue's body, felt her gentle body temperature at a close distance, frowned, and said, "What do you want to do?"

Qing Fuxue didn't speak, but suddenly leaned forward, her lips pressed against Ye Chen's.

"Well?"

Ye Chen's eyes widened, and he could only feel a ray of pure medicinal energy, spiritual energy, and blood energy from Qing Fuxue's mouth to his.

This breath, so familiar, turned out to be the breath of the Nine Origin Pill of the Life Realm!

The Life Realm Nine Origin Pill was filled with Ye Chen's reincarnation blood.

Now, the aura of this elixir, including Ye Chen's blood, flowed back into his body again.

In an instant, Ye Chen felt that his exhausted meridians became active again, his whole body was refreshed, full of blood energy, and majestic aura, even if he was bound with the chains of forbidden spirits, his aura could no longer be restrained.

"alright."

Qing Fuxue let go of her mouth, and looked at Ye Chen with burning eyes.

Ye Chen looked at her bright red lips, and really wanted to bite her, and said, "You...you have already taken the Nine Origin Pill of the Life Realm?"

Qing Fuxue nodded lightly: "Yes, you can't take that pill, so I'll take it first."

"But don't worry, the medicinal energy of the elixir and your reincarnation blood, I have not refined them, they are all stored in the body, and now they are transmitted to you."

"The spiritual energy of the elixir is very abundant, and it can't be transmitted in one transmission..."

Saying that, Qing Fuxue came up again, put her arms around Ye Chen's neck, kissed it again, and sent the medicinal energy of the Nine Origin Pill of Life Realm to Ye Chen's mouth.

Ye Chen was infused with medicinal energy again, and the reincarnated blood returned to the body, and the blood swelled. The medicinal power of the elixir was also very fierce, and his cultivation was continuously improved.

His cultivation quickly rose from the elementary level of the infinite seven-layered heaven to the middle level.

If he absorbed and digested all the medicinal power of the Nine Origin Pill of the Life Realm, he might be able to ascend to the gods. After all, it is a half-step Heavenly Emperor-level pill, and the medicinal power is too strong.

Qing Fuxue loosened her lips again, and said: "Okay, your cultivation is only at the Immeasurable Realm, you can't absorb too much of the medicinal power of this elixir at once, otherwise it will be harmful to your body."

"After you get out, whenever you want to absorb it, just call my name, and I will come to you and transfer the power of the medicine to you."

Ye Chen nodded and asked, "Then shall we leave now?"

Today's Ye Chen has reincarnated into his body, his spiritual energy has recovered, and he is even stronger than before. The iron chains on his body can no longer restrain him, and he can break free at any time.

But the problem is that the Zhanling Time and Space has been sealed off. It is not easy for him to leave, and he will definitely be discovered by the blood knife evil ancestor.

With his and Qing Fuxue's strength, it is difficult to fight against the Blood Saber Evil Ancestor, after all, this is the latter's territory.

Qing Fuxue said: "We can't leave now, with our strength, it's not enough to escape from the Blood Saber Evil Ancestor."

"I have already contacted a friend. She is a descendant of the Moon God and Heavenly Emperor. Her own strength is not too strong, but she has a very powerful follower."

"Wait until tomorrow, she will bring her followers and come down to save you."

Ye Chen was very curious, and said: "The time and space of Zhanling has been sealed, and it is difficult for the emperor and the gods to break in. That friend of yours is so powerful, can he break through the blockade?"

Qing Fuxue smiled and said: "You will know tomorrow, so don't act rashly now."

"I go first."

After finishing speaking, the green floating snow turned into a wisp of Danxiang, and disappeared with the wind.

Ye Chen frowned, now that his strength has recovered, if he insists on rushing out, there may not be no chance of escape.

However, if you act rashly, it is indeed too dangerous.

After thinking about it, he decided to wait until tomorrow.

He really wanted to see how powerful the friend Qing Fuxue invited was to break through the ban of the Blood Saber Evil Ancestor.

One night passed quickly.

Chapter 9738

Han Yan passed out last night, and he didn't know that Qing Fuxue had been here, nor that Ye Chen had recovered his strength.

"Brother, we are going to die today."

Han Yan had a wry smile on his face, already freed from the pain.

What sword demon, what reincarnation, is not important at this time.

Because he and Ye Chen were about to be sacrificed to death.

Around the altar, densely packed, are all strong men from the Spirit Slashing Time and Space, full of murderous aura.

The Blood Knife Evil Ancestor sat on the Scarlet Throne, watching Ye Chen and Han Yan's arrival with a smile.

"Come on, dig out this kid's eyes first!"

"He has swallowed Lord Hun Tiandi's Demon Eye of Destiny, and he deserves death."

The Blood Knife Evil Ancestor pointed at Ye Chen with a cold voice. Immediately, a dark guard strode out, pulled out a sharp knife, and came to Ye Chen's side, raising the knife to dig out his eyes.

Ye Chen's face darkened, the helper Qing Fuxue said hadn't arrived yet, but his eyes were about to be poached away, how could he sit still and wait for death?

boom!

In the midst of a crisis, Ye Chen didn't care too much, his whole body erupted suddenly, and the violent breath of reincarnation burst out of his body.

In an instant, the iron chains tied to his body were completely smashed, and countless debris flew away.

"What!"

The sudden scene shocked the Blood Knife Evil Ancestor, his eyes were full of astonishment, and he looked at Ye Chen in disbelief.

But he didn't expect that Ye Chen's condition had recovered, without any sign of bleeding.

Even, from Ye Chen, he smelled the breath of Nine Origin Pill of Life Realm.

Ye Chen had already absorbed the aura of that elixir.

"Ah, Qing Fuxue, damn it!"

The Blood Knife Evil Ancestor cursed loudly, and suddenly saw the secret, knowing that Qing Fuxue had come last night and met Ye Chen.

Scoff!

The samsara energy on Ye Chen exploded and turned into a sword beam, cutting the dark guard who wanted to gouge his eyes into pieces.

The audience was in an uproar.

"Brother!"

Han Yan looked at Ye Chen in shock and astonishment, as if looking up at the greatest god.

"Lord of Reincarnation, I want you to die!"

The Blood Knife Evil Ancestor was furious. He had already prayed to Emperor Huntian, and today he would sacrifice Ye Chen.

If the sacrifice failed, Emperor Huntian would be angry, and he couldn't bear it.

call!

The Blood Knife Evil Ancestor swung a palm, and the wind of the palm was fierce, covering Ye Chen.

"Titan Star Dou Fist!"

Ye Chen felt the strong pressure, but he didn't flinch. He gritted his teeth and punched out with a punch. The starlight exploded, like a giant god descending into the world, the punch was overbearing and fierce.

boom!

Fisting and palming, Ye Chen was shocked back ten steps on the spot, the blood in his chest and abdomen was churning, and he almost vomited blood.

However, the blood knife evil ancestor was also shocked back two steps, his face was very ugly.

He was injured by the Sword Ancestor's sword. He fought against the Moon God Emperor yesterday, and his injury became more serious. Even if he is facing Ye Chen, who is in the Seventh Heaven of Infinite Realm, he can't suppress it with one move. It can be seen that under the influence of the injury, his strength has been damaged. serious.

"Heavenly evil slashes in blood!"

The Blood Knife Evil Ancestor pulled out his knife, and the blood energy and evil energy on the blade exploded, and the knife was bathed in blood, bringing up thousands of demon phantoms, and beheaded Ye Chen.

Ye Chen suffocated immediately. With his strength, even facing the blood knife evil ancestor who was seriously injured, it was difficult to defeat.

"Sky Monument, Yu!"

In a crisis, Ye Chen activated the stele to protect himself.

Zheng!

The energy of the Tianbei gushed out, forming a protective cover to protect Ye Chen inside.

The Blood Knife Evil Ancestor slashed at him, but he couldn't break through the protective cover, instead, his mouth was numb from the shock.

"The legendary celestial tablet really has some tricks."

Blood Knife Evil Ancestor's heart sank, his eyes became dark again, and he continued to slash out fiercely, saying fiercely:

"Boy, how many times can you stop me?"

A series of fierce sword lights slashed wildly on the protective cover of the Tianbei.

Ye Chen's expression was dignified. He might not be able to hold on for long after being slashed by the Blood Knife Evil Ancestor.

Gritting his teeth, Ye Chen was ready to go all out.

He has many trump cards, such as the Devil's Eye of Death, Heaven Dou Massacre Sword, Zhishui Kendo, etc. If he uses them regardless of the cost, he may not have a chance to fight back.

Rumble!

But just when Ye Chen was about to go all out, the sky shook violently.

Then, the strange breath began to spread between the heaven and the earth.

A dark, bleak, and fishy mist covered the sky and the sun.

Between the heaven and the earth, there was an ominous, terrifying, and nightmarish aura, and the faint roar of beasts and wolves resounded, making one's hair stand on end.

Under the shroud of this aura, many powerhouses in Zhanling Time and Space were all stunned, and two words came out of their hearts: Tailed Beast!

This is the breath of the tailed beast!

The next moment, the sky and the earth were filled with mist, and a vision of a tailed beast really appeared.

It was a ferocious wild wolf with bleeding teeth, red eyes, and two fluffy tails on its back. It stepped out of the void. Its huge body traversed the sky, as if it was about to overwhelm the mortal world. It was very spectacular.

"Two-tailed blood-fanged wolf!?"

When the blood knife evil ancestor saw the huge tailed beast figure, he was terrified.

That figure was the two-tailed blood-fanged wolf.

I saw the huge wild wolf that traversed the sky, its body gradually condensed, and turned into a human form. It was a stern and steady man with a knife on his waist.

Ye Chen naturally recognized this man as the second-tailed Xu Tianlang.

After Xu Tianlang appeared, two more women appeared behind him.

One of the women is Qing Fuxue.

The other woman, with a very plump figure, turned out to be Xu Yourong.

Chapter 9739

Ye Chen suddenly realized that the friend Qing Fuxue mentioned, the descendant of the Moon God Emperor, was Xu Yourong.

Xu Yourong's powerful follower is the second-tailed Xu Tianlang.

Even the Heavenly Emperor and Lord God are hard to break through the ban of the spirit-slaying time and space, but Xu Tianlang is very special, he is a tailed beast.

The ominous breath of the tailed beast can easily corrode all crystal wall system blockades.

Therefore, he directly broke through the blockade and descended.

"The lord of reincarnation, I am frightened."

With cold eyes, Xu Tianlang descended from the sky, drew his saber out of its sheath, the saber was shining brightly, and slashed at the Blood Saber Evil Ancestor.

The Blood Knife Evil Ancestor's face turned cold. He was wounded, but it was difficult for him to fight against a tailed beast like Xu Tianlang, and it was difficult for him to return his sword to block.

Ye Chen took this opportunity to rush to Han Yan's side, his sword energy surged, and he cut off all the iron chains on Han Yan's body.

"let's go!"

Ye Chen took Han Yan's arm and flew into the sky.

"yes, Sir!"

Han Yan was overwhelmed with surprise, thinking that Ye Chen is really powerful and has a wide network of contacts, and he can even ask the moving tail beast to rescue him.

As long as he can leave Zhanling Time and Space, he and Ye Chen will be safe.

"Stop!"

The Blood Knife Evil Ancestor was furious, if Ye Chen and Han Yan were to run away, he would be completely finished.

He hastily chased after him with a knife, and the emperor's anger burst.

"In front of my eyes, you also want to hurt the Lord of Reincarnation?"

With disdain in Xu Tianlang's eyes, he swung his saber and slashed out.

His saber doesn't have any supernatural powers, but only the unique ominous aura of the tailed beast, which is fierce and terrifying like a nightmare.

Zheng!

In the confrontation between the two swords, Xu Tianlang did not lose the wind in the slightest. On the contrary, it was the Blood Saber Evil Ancestor. Because of his poor condition, he was so shaken that he almost vomited blood.

Xu Tianlang accepted him as soon as he saw it, and didn't chase him any more.

After all, this is the territory of the Blood Knife Evil Ancestor, and if he is really desperate to fight to the death, he will definitely not be able to get cheap.

At that moment, Xu Tianlang waved his hand and was about to leave completely with Ye Chen, Han Yan, Xu Yourong, Qing Fuxue and the others.

"Hmph, since you're here, don't even think about leaving."

"Leave them all to me, and make them all sacrifices to Lord Huntian!"

"The keel seals the sky, traps the lock!"

The Blood Knife Evil Ancestor roared and chanted, his blood was burning, and a terrifying change appeared in the sky.

One by one bones were seen, crackling, emerging from the high sky, intertwined into pieces, and vaguely transformed into a giant dragon, sealing off the entire sky.

Those bones, with dragon energy entwined on them, and the vicissitudes of life, are very ancient keel bones.

"This is... the skeleton of Longzu?"

Ye Chen's expression changed, he looked at the bones, and caught a familiar breath.

That turned out to be the breath of Longzu!

This is the skeleton of Longzu!

"Hehe, boy, you still have some eyesight."

Xuedao Xiezu laughed, it was the bones of Longzu.

Back then, Dragon Ancestor was slaughtered by the Great Master, and some of the dragon bones fell into the hands of the Blood Knife Evil Ancestor.

He sealed the sky with the keel, immediately blocked the sky, and blocked Ye Chen, Xu Tianlang and others from leaving.

"This keel is a bit weird, I can't even rush out."

Xu Tianlang was taken aback, only felt that Fengtian's keel was very strong, stronger than all crystal wall systems in the world, even the power of the tailed beast couldn't break through it.

Click!

The keel of Fengtian rang, and the auspicious energy gushed out, and it gradually pressed down, as if it wanted to suppress Ye Chen and others to the ground.

The Blood Knife Evil Ancestor grinned grimly. His energy and blood were burning at this time, which consumed a lot and cost him a lot.

However, as long as Ye Chen and the others can be suppressed, no matter how high the price is, it will be worth it.

Ye Chen looked at the keel that covered the sky, suppressed it, and his eyes flickered slightly.

If the Blood Knife Evil Ancestor uses other means to suppress it, it may be difficult for him to resist.

However, using this keel to suppress it, he saw a way to crack it.

His Dragon Fate Star can be called the origin of the dragon, the ancestor of all dragons.

As soon as Longteng's star came out, Wanlong surrendered.

If you borrow the power of Longteng Fate Star, you may be able to break the keel ban.

"Blood dragon, merge with me!"

Ye Chen called out in his heart, and sent an order to the blood dragon.

"Yes, master!"

Sensing Ye Chen's thoughts, the blood dragon immediately roared, roared out, and merged with Ye Chen.

Xu Tianlang, Xu Yourong, Qing Fuxue and others saw an extremely domineering scene.

A blood dragon hovered over Ye Chen, barking its teeth and roaring.

At this moment, Ye Chen was full of dragon energy, like the supreme dragon, dominating everything.

Under the shock of Ye Chen's dragon energy, the keels spreading all over the sky could no longer be suppressed, and even made explosive noises, and the keel bones cracked and were on the verge of shattering.

"Longteng Fate Star, break it for me!"

Ye Chen yelled loudly, and directly activated the Longteng Fate Star.

hum!

Soaring Dragon's life star came out of his body, the bright starlight, the powerful dragon aura, and the phantoms of golden dragons suddenly soared into the sky.

Ye Chen's whole body was full of violent dragon power, and he was invincible.

Rumble!

The keel in the sky was shattered on the spot under the impact of Ye Chen's dragon star, and the shattered bones poured down like a torrential rain.

"What!"

The Blood Knife Evil Ancestor was horrified, who would have thought that Ye Chen would be so domineering that he could even break through the blockade of the Dragon Ancestor's bones.

"Walk!"

Ye Chen waved his hand without any hesitation. Surrounded by Wanlong, he took Xu Tianlang, Xu Yourong, Qing Fuxue, Han Yan and others, and left Zhanling Time and Space together.

The eyes of the blood knife evil ancestor were cracked, but he couldn't stop him, so he could only watch Ye Chen leave.

Ye Chen immediately summoned the Titan Godship after leaving the Soul Slashing Time and Space, took Xu Tianlang and others, sat on the Titan Godship, pierced the darkness, penetrated the void, and returned directly to the vicinity of Shacheng.

Near Shacheng, everyone disembarked and walked towards Shacheng.

Recalling the scene when they were almost blocked by the keel just now and stayed forever in the spirit-killing time and space, Xu Tianlang, Xu Yourong, Qing Fuxue, Han Yan and others still had lingering fears in their hearts.

Han Yan excitedly said: "Brother, it's lucky to have you, otherwise we wouldn't be able to get out."

Ye Chen said calmly: "It's nothing, it's all thanks to Erwei."

Xu Tianlang gave him a sideways look, and said: "My name is Xu Tianlang, don't keep calling me Erwei, I want to be a human being more than a tailed beast."

Ye Chen smiled and said, "I'm used to it, sorry."

Qing Fuxue said: "We have finally come out, the Blood Knife Evil Ancestor converted to the Soul Emperor, the Grand Master will deal with this matter, so we don't need to worry about it."

He asked again: "Ye Chen, are you tired?"

Ye Chen narrowed his eyes slightly, but still nodded and said, "A little bit."

Qing Fuxue giggled, walked to Ye Chen's side suddenly, and kissed him.

When the lips of the two were touching, she sent a wisp of the medicinal energy of the Nine Origin Pill of the Life Realm to Ye Chen's mouth, which immediately lifted Ye Chen's spirits and made him feel exhausted.

It's just that Qing Fuxue kissed so boldly under the eyes of everyone, it was a bit too much.

"Xue, you are going too far."

Xu Yourong glared at her.

Chapter 9740

Han Yan was also dazed, only Xu Tianlang kept a stern look on his face, as if nothing could shake his heart.

Qing Fuxue said with a smile: "It's nothing, I'm just afraid that the Lord of Reincarnation will be tired."

"Yourong, next, he will take you to find the treasure of the Moon God and Heavenly Emperor."

Xu Yourong nodded lightly, and asked Ye Chen, "Lord of Reincarnation, I don't know how well you deciphered the treasure of my Moon God ancestor?"

She is a descendant of the Moon God Emperor, so she naturally wants to find the treasure of her ancestors.

Ye Chen's heart moved slightly, and he first communicated with the blood dragon, saying: "Blood dragon, have you successfully cracked the treasure map?"

Xuelong said: "Thanks to the closeness of Qingfuxue Saintess, cough... I have obtained enough clues to the secret, and I have successfully cracked it."

The blood dragon looked a little embarrassed. Qing Fuxue was the elixir cast by the Moon God and Heavenly Emperor back then. Her breath could assist in deciphering the treasure map.

Ye Chen and Qing Fuxue didn't know how many times they kissed, so the blood dragon had collected enough clues, and the secrets of the sky had been snooped out.

Ye Chen also coughed lightly, feeling quite embarrassed.

The blood dragon continued: "The treasure of the Moon God Emperor is hidden in a place called Tianyue Guigu. The coordinates of that place are very secret and change all the time. The place is not fixed, but flows from time to time. Fortunately, we have the treasure Map, but it can lock the secret of the sky, and go to the sky and the moon to return to the valley smoothly."

Ye Chen nodded, and when he heard that the treasure map had been cracked and the coordinates could be determined, a burning feeling suddenly surged in his heart.

The treasures of the Moon God Heavenly Emperor must be very rich in resources. There is great hope for him to recast the real body of the Xuanchen Heavenly Emperor, or to hatch forbidden demon stone eggs.

"Miss Xu, I have already found out where your ancestor's treasure was hidden."

At that moment, Ye Chen spoke frankly to Xu Yourong.

Xu Yourong was suddenly excited, and asked, "Where is the treasure land?"

Ye Chen shook his head and said: "The secret must not be leaked, if I say it, it will probably be perceived by outsiders."

"If we are targeted by someone with a heart, it will be difficult for us to find the treasure."

"Let's rest in Shacheng for two days first. After two days, I will personally take you to treasure hunting."

Ye Chen spent a lot of energy in the battle with the Blood Knife Evil Ancestor, and needs to adjust.

Xu Yourong could only suppress the curiosity in his heart, and said helplessly, "Okay."

Xu Tianlang said: "Miss Xu, I will accompany you to protect you. I will kill anyone who dares to compete with you for the treasure!"

Xu Yourong smiled and said, "Okay, thank you very much."

Ye Chen said: "Miss Xu, ten percent of the treasure, how much do you want to share? Let's make an agreement in advance, so as not to cause disputes when the time comes."

Xu Yourong said: "Actually, I don't need any treasures. I just want to find my ancestor's bones and her magic treasure beads. I don't need anything else."

"But the remains of my Moon God ancestor, as well as her talisman, must be given to me!"

Ye Chen said: "Is this enough?"

Xu Yourong said: "Enough is enough, the remains of my ancestors are more precious than any other natural treasures."

Ye Chen said: "Okay, I see, we will meet at the gate of Shacheng in two days' time."

After the discussion, Ye Chen and Han Yan went back to Qingyun Chamber of Commerce to rest.

Xu Yourong and Xu Tianlang stayed at the Shacheng Inn.

Qing Fuxue went to the tomb palace, and met Jin Patriarch first.

She was considered a hidden chess piece for Patriarch Jin.

Ye Chen was resting in the room of the Chamber of Commerce, adjusting his breath silently. Just now, in order to break through the keel blockade of the Blood Saber Evil Ancestor, he activated the Dragon Fate Star to the extreme, which consumed a lot of energy.

"It's a pity that you can't take the remains of the Moon God Emperor."

When Ye Chen was adjusting his breath, he heard the helpless voice of Emperor Xuanchen coming from the cemetery of reincarnation.

It turned out that Emperor Xuanchen had set his sights on the remains of the Moon God Emperor.

If the bones of the Moon God and Heavenly Emperor were used, it might be possible to create a top-notch body and restore him to his physical body.

However, Ye Chen had already made an agreement with Xu Yourong that he would never get involved in the battle for the remains of the Moon God Emperor.

Ye Chen smiled wryly, and said, "Senior, please rest assured, the resources in the treasure of the Moon God and Heavenly Emperor should be enough to help you build a physical body."

Emperor Xuanchen sighed: "I am enough, but what about the forbidden demon?"

"Your forbidden demon stone egg hasn't fully hatched yet."

"The resources in the treasure are given to me, but they are not enough for the forbidden demon."

Ye Chen said with a smile: "It should be enough, even the rain and dew, hehe..."

Emperor Xuanchen said: "You think it's beautiful."

At this time, probably hearing Emperor Xuanchen's words, the demon-forbidden stone egg that Ye Chen kept in the cemetery of reincarnation also shook violently.

The little forbidden demon in the stone egg slapped the eggshell wall desperately, babbling and screaming, as if expressing anger, and did not want the Emperor Xuanchen to take all the resources away.

Ye Chen smiled wryly and said: "Stop arguing, the treasure is not in hand yet, let's talk about it when we get the treasure."

He settled down, pulled his mind out of the cemetery of reincarnation, then got up and left the room, strode out of the chamber of commerce, and went straight to the tomb.

According to the agreement, he helped Mojin Patriarch to find out the details of the Blood Knife Evil Ancestor, and Mojin Patriarch would take him to meet the descendants of the God of Light, and then get the blueprint for making the Heart of Light.

As long as there are blueprints for building, it is possible for Ye Chen to create a complete heart of light to fight against the engulfment of darkness in the future.

Moreover, he has recently been infected with the karma of the ugly god.
