Chapter 9741

That ugly god was extremely terrifying, with a terrifying aura.

If there is a complete protection of the heart of light, Ye Chen is confident that he can confront the ugly god head-on.

It can be said that the blueprint for making the Bright Heart is extremely important to Ye Chen and should not be missed.

Ye Chen came to the tomb palace, but saw a fair-skinned girl in a moon white red robe standing at the entrance of the tomb palace, it was Qing Fuxue.

"Do you want to find the ancestor?"

Qing Fuxue seemed to be waiting for Ye Chen here, and when she saw him coming, she asked with a smile.

"Um."

Ye Chen nodded.

Qing Fuxue said: "The old ancestor is not here, he has already returned to the Taoist sect."

Ye Chen frowned, and said, "Have you returned to Daozong?"

Qing Fuxue said: "Yes, there is an inner ghost in the eighth patriarch of the Taoist sect. The great master summoned many elders to go back to discuss and deal with it. The patriarch has already been recalled."

"But, don't worry, what the ancestor promised will not be forgotten."

"After the Taoist Grand Competition is over, he will take you to meet the descendants of the God of Light, Tianzun, and give you the blueprint for making the Heart of Light."

Ye Chen frowned and said, "Will it be so long until the Taoist Grand Competition ends?"

Qing Fuxue said: "Of course, even if I give you the blueprint now, you still can't understand it, your cultivation level is not enough."

"Besides, Dao Zong Dabi is considered a catastrophe for you."

"If you can survive this catastrophe, you will have the possibility of rising."

"If you died in Daozong Dao, wouldn't it be a waste to give you the blueprint of the Heart of Light now? This is the most precious thing left by the God of Light, and it is the top-level tool that will illuminate the road to the other side of the starry sky in the future." Fantasies should not be wasted."

Ye Chen was speechless for a moment, and he also knew that it would never be easy to get the blueprint of the Heart of Light.

But I didn't expect that it would be possible to get it after the Daozong Grand Competition was over.

Seeing Ye Chen's disappointed expression, Qing Fuxue walked up suddenly, stood on tiptoe, hooked Ye Chen's neck, and kissed him deeply again.

When the four lips touched, the bursts of warm and abundant life realm nine-source elixir were transmitted to Ye Chen's mouth, which lifted his spirits and swept away all the stuffiness.

"Is it more comfortable?"

Qing Fuxue said with a half-smile.

Ye Chen was very skeptical whether this woman was deliberately trying to seduce him.

But thinking that she was just a pill, Ye Chen didn't think much about it.

"The most important thing for you now is to seize the treasure of the Moon God Emperor."

"Only if you get this chance, you will have the possibility to compete for the championship in the Dao Sect Grand Competition."

"After you go to the treasure place of the Moon God, you must be careful of the ancestor Yindan."

Qing Fuxue solemnly reminded.

"Patriarch Yindan?"

Ye Chen's heart trembled. When he heard Qing Fuxue say this name, he seemed to have glimpsed a figure in the dark. It was extremely ruthless and cold, filled with sinister aura, and there was blood in his eyes. The sea, people dare not take a closer look.

Qing Fuxue said: "Yes, the Moon God and Heavenly Emperor once refined a Heavenly Emperor level pill, called Yin Yang Killing Pill."

"This yin-yang fatal pill is divided into two halves, yin and yang. It has the power to overwhelm the heavens and the earth, and invade the mystery of the sun and the moon. It is the reliance of the moon god emperor to attack the super-grade emperor."

"I am Yangdan, and the ancestor of Yindan is Yindan. I cultivated in human form, and he has already cultivated in human form, and has occupied the entire treasure land of the Moon God and Heavenly Emperor."

"But among the treasures, he doesn't look down on ordinary treasures of heaven and earth."

"He has been worn out by the years, and sooner or later he will perish one day. Now he is going crazy. He has his eyes on the bones of the Moon God Emperor, and wants to get his hands on the bones and use the corpse to be reborn."

"I have a breath connection with him, and I can feel his madness and brutality. If you dare to approach the treasure place of the Moon God Emperor, you will definitely be attacked and killed by him madly."

"You must be careful."

When talking about Patriarch Yindan, Qing Fuxue's tone was full of guard and fear, obviously she did not dare to be careless towards Patriarch Yindan.

"Yin Yang Killing Pill, are you Yang Pill?"

Ye Chen's eyes froze, Qing Fuxue's words contained a huge amount of information.

Qing Fuxue said: "Well, yes, don't look at me with such eyes, although I am Yang Dan, I can still be regarded as a real woman, do you want to try it at night?"

"Back then, Lord Moon God and Heavenly Emperor wanted to use the method of reversing yin and yang to attack the super-grade Heavenly Emperor. Therefore, yang is female and yin is male, which is to reverse the universe and reverse the meaning of heaven and earth."

Ye Chen said: "Chaopin Tiandi, I'm afraid it's not so easy to succeed in the impact?"

Qing Fuxue said: "I don't know, because the Moon God Emperor hasn't had time to attack, otherwise, I would have been eaten by her long ago, and I wouldn't be here today."

"At that time, the Moon God Emperor was just about to attack, but was attacked and killed by Huazu."

"Emperor Moon God was seriously injured and knew he was going to die. Before he died, he would collect all his life, secret books of magic skills, treasures of heaven and earth, weapons and magic weapons, etc., all in one place, and that place was her treasure trove. She ended up in the treasure trove. Fell and turned into dry bones."

"The flower ancestor was later invited by the master to become one of the eight ancestors of the Taoist sect. He is also a very powerful figure, in charge of flowers and plants. According to legend, he came from the original world. He was originally a boy under the seat of Qinglian Taoist ancestor."

Listening to Qing Fuxue's secrets, Ye Chen felt that layers of mystery were intertwined. It seemed that there were many causes and effects behind the moon god and emperor, and even the existence of the original world.

As for Qinglian Taoist Ancestor she mentioned, Ye Chen has already seen it through his insight.

The so-called Qinglian Taoist ancestor is actually the transformation of the creation Qinglian. A green lotus stretching open the sky is a great existence that created the original world. It is also the lighthouse, idol and worship target of the first grass god Zilan. Doppelgänger, the fantasy source of Qinglian Casting Saint Dharma.

"Wait, how did you escape?"

Ye Chen asked, Qing Fuxue is part of the Yin-Yang Killing Pill, and the Yin Pill is still in the treasure field, only she came out.

Ye Chen was very curious about how Qing Fuxue escaped.

Qing Fuxue didn't hide anything, and said: "Patriarch Mojin wanted to rob the tomb. Although he had never actually been to the treasure place of the Moon God and Heavenly Emperor, he used some special techniques to shake the treasure and stole a lot. The treasure comes out."

"I was brought out by Patriarch Mojin. He helped me cultivate my human form, ease the wear and tear, and arrange me in the Tiandan Pagoda. I was regarded as one of his pawns. Without his help, I couldn't fight against the ravages of time." Wear."

"Once it is worn out and eroded by darkness, just like the ancestor Yindan today, he has almost fallen into madness, and even wants to get his hands on the bones of the Moon God Emperor."

Ye Chen suddenly realized, and finally knew all the ins and outs of the matter.

Moon God Emperor, Flower Ancestor, Mojin Ancestor, Great Master, Qing Fuxue, Yindan Ancestor, their fates are intertwined.

However, these many battles have become a thing of the past.

Chapter 9742

What Ye Chen needs to be vigilant about now is the ancestor Yindan!

This ancestor Yindan was on the verge of madness, and even wanted to get his hands on the bones of the Moon God Emperor.

It is conceivable that if Ye Chen dared to approach the treasure land, what kind of terrible attack and killing he would encounter.

"Hey, are you awakened?"

Qing Fuxue asked suddenly.

Ye Chen said: "What's wrong?"

Qing Fuxue reached out and brushed the few strands of hair hanging from her forehead, she said as if nothing had happened, "It's nothing, just ask."

"Looking at you, you haven't awakened yet, have you?"

"If you wake up in the future, I want you to use the power of the fire and life star to nourish me and help me dissolve the darkness and wear and tear."

Ye Chen said with a smile: "You want me to moisturize you? How do you moisturize? Reincarnation blood?"

The corners of Qing Fuxue's mouth curled into a charming and charming arc, it was clearly a young girl's face, but her eyes were more captivating than any woman's, she said:

"Some things, you will naturally know later."

Ye Chen narrowed his eyes slightly, and said lightly: "I have the right to choose. For some things, I will definitely refuse."

Qing Fuxue blinked and stopped talking.

...

Two days passed quickly, and the agreed day of departure arrived.

Ye Chen's state in all aspects has been adjusted to the peak.

In the early morning of this day, he and Han Yan came to the gate of Shacheng City.

Xu Yourong and Xu Tianlang were already waiting for them.

Perhaps because Xu Yourong was about to step into the territory of his ancestors, Xu Yourong was very excited. He had carefully dressed up, with a touch of rouge on his face, and his face was flushed. I don't know if it was because of the flush of excitement or the blush of rouge.

She was wearing a set of snow-colored tulle skirt with light gauze, which was half exposed proudly. On the exposed half, there was a tattoo of a half round moon, which was particularly eye-catching, making people fall in love at a glance. in her beauty.

Many passers-by at the gate of the city cast amazed eyes, marveling at Xu Yourong's beauty and figure.

Ye Chen had seen a lot of women, and when he saw Xu Yourong who was well-dressed, his mood didn't fluctuate much.

Xu Tianlang is a tailed beast. Human women are all the same in his eyes. There is no difference between pink and skeleton, and naturally there is no strange expression.

He followed Xu Yourong's side mainly to repay his kindness.

If it wasn't for Xu Yourong back then, he would have fallen into darkness long ago.

It can be said that Xu Yourong is his beacon, he only has the intention of protecting it, and has no other thoughts.

It's like Ren Feifei guarding Ye Chen.

In addition to Xu Tianlang, Xu Yourong also had a few extra attendants, all of whom were members of her family and were quite powerful.

Those followers, after seeing Ye Chen, silently bowed and saluted Han Yan with a very respectful attitude.

The Moon God Emperor is an ancient god, so naturally she has more than one descendant.

The Tiandanzong that Ye Chen met in the Tiandan Realm, the Pill Emperor, is a descendant of the Moon God.

And Xu Yourong is another descendant bloodline.

Ye Chen reckoned that the power behind Xu Yourong would never be inferior to Emperor Dan.

"Lord of Reincarnation, can we leave today?"

Xu Yourong asked very politely.

"Okay, let's go."

Ye Chen didn't talk nonsense, he directly sacrificed the Titan Godship, and with a wave of his hand, he boarded the ship first.

Then, Xu Yourong, Xu Tianlang, Han Yan and others boarded the ship one after another.

Ye Chen drove the Titan Godship, then left Shacheng, locked on the coordinates of the treasure place of the Moon God and Heavenly Emperor, Tianyue Guigu, and left through the sky.

This time to treasure hunt, Qing Fuxue did not accompany her, she had already gone back to Tiandan Pagoda.

Ye Chen drove the Titan Godship, and traveled through time and space in an instant.

It's just that when the moon returns to the valley that day, the coordinates change moment by moment, wandering with time and space.

With the cooperation of Ye Chen and the blood dragon, it took a full half a day to finally arrive at the planet where Tianyue Guigu was located, break through the atmosphere and descend.

The planet where Tianyue Guigu is located has been wandering in the universe of the heavens, so the coordinates change all the time.

It has to be said that the Moon God Emperor is very cautious. In order not to be easily discovered by outsiders for her treasure, she actually let the moon planet wander in the sky.

You must know that there is no time and space full of darkness, there are many tides in time and space, space storms are everywhere, and dark monsters are rampant. A small planet can wander through time and space, and it will survive hundreds of millions of generations. how it is done.

Without the causal induction of the treasure map, Ye Chen would not have been able to locate the planet.

When Ye Chen and his party landed on this planet and captured the secrets of the past, they also lamented the power of the moon god and the emperor's supernatural powers, and his methods were against the sky.

This is an extremely desolate planet, full of craters and traces of storms.

It can be imagined that when the heavens were wandering, this planet was not unscathed, on the contrary, it was also severely impacted, causing most of the planet to be reduced to dead ruins, without a blade of grass.

The only place with life is a valley.

That valley is the Tianyue Returning Valley shown on the treasure map, it is the treasure place of the Moon God Emperor, and it is also the place where her bones are buried.

The sky and the moon return to the valley, which has a radius of tens of thousands of miles, vast and vast, with its own sun, moon and stars, forming a perfect circular trajectory of sun rising and moon setting, like a small world, with blue sky, white clouds, stars, mountains and rivers, green grass, forests, Immortal energy flows, divine light fills, Ruimang rolls to the ground, spirit beasts run, birds chirp, and the empty valley is melodious.

Ye Chen and his party came down, and from a distance, they saw the wonderful scene of Tianyue returning to the valley.

Chapter 9743

On this desolate and dead planet, the piece of sky and moon returning to the valley is like a piece of jasper, inlaid on the ground, which is particularly pleasing to the eye.

"Brother, the aura in that valley is so abundant!"

"If you practice in it, it's enough to get twice the result with half the effort!"

Han Yan became excited, as if seeing a fairyland outside the world, he strode towards Tianyue Guigu.

"Brother Han, don't be impulsive."

Ye Chen's expression darkened, he pulled Han Yan back, and looked at Xu Yourong and Xu Tianlang.

Xu Tianlang said in a calm voice, "Before entering the valley, let's do a fortune-telling and calculate the danger."

Xu Yourong nodded lightly, thinking the same thing in her heart.

At the moment, a group of people simply calculated the divination, and then everyone's face changed.

Tianyue's return to the valley was right in front of him, besides Ye Chen, Xu Tianlang, Xu Yourong, and Han Yan also deduced the existence of the ancestor Yindan inside.

This valley looks beautiful, but if they step into it rashly, they are likely to be attacked and killed by the ancestor Yindan immediately.

Moreover, it's not just the ancestor Yindan.

After they step into Tianyue Guigu, the mysterious aura of the Moon God and Heavenly Emperor's treasure will inevitably be exposed.

Such a huge treasure cannot be concealed.

In a maximum of two days, people outside will know the existence of the Moon God's Treasure, and they will be able to lock the coordinates and swarm over.

That is to say, there are only two days at most for Ye Chen and the others to hunt for treasure.

In these two days, they must seize the treasure.

Otherwise, latecomers will flock to them, and they are bound to get into trouble.

However, with the ancestor Yindan sitting in the town, it is not easy to seize the treasure within two days?

Once time delays and latecomers flood in, Ye Chen and the others will be in danger.

With the existence of the Heavenly Sword Oath, it is inconvenient for those top powerhouses to compete with Ye Chen, but even if it is only in the Divine Dao realm, if there are too many influxes, it is not something Ye Chen can stop.

Ye Chen vaguely glimpsed that if he could not seize the treasure in time, Zhou Wuhuang of the Great Zhou family, the young Tianjiao of the Xiongba family, and even the Emperor of Taihai might come in person to compete with him.

"Lord of Reincarnation, this treasure competition is full of dangers. It seems that it is not easy for us to successfully capture it. What's your trick?"

Xu Yourong flexed her fingers, calculating again and again, the more she calculated, the more danger and panic she felt.

Ye Chen frowned, still thinking in his heart, hesitated to answer.

Xu Tianlang pulled out his saber and said fiercely: "I'll go straight in, don't care about the ancestor of Yindan, Miss Xu, with my strength, if I explode with all my strength, even half an incarnation of pill can stop me?"

In the field, Xu Tianlang is the strongest. If his tail beast power explodes at full strength, it is really enough to fight against first-class powerhouses.

Xu Yourong said: "Sirius, don't be impulsive, the Yindan Patriarch occupies a favorable location, even if you force your way in, you may not be able to break in."

After a pause, Xu Yourong looked at Ye Chen again: "Lord of Reincarnation, what's your decision?"

Ye Chen thought for a while, and said: "Let Brother Sirius, fight the Yindan Patriarch. As long as the Yindan Patriarch is killed, we can go in and grab the treasure."

Xu Tianlang said happily: "Brother Ye understands me, that's why, what kind of Yindan patriarch, I will kill him with one blow!"

Xu Yourong said in surprise: "This is impossible, in the decisive battle of Tianyue Guigu, the sky wolf may not be able to beat it."

Ye Chen said with a smile: "Not necessarily, as long as I cut off the land of the ancestor Yindan, I can help Brother Sirius defeat the enemy."

Han Yan couldn't help asking: "Brother, how do you want to cut off?"

Ye Chen's gaze was fixed, and the alchemy and aura gushed out, and samsara energy fluctuations exploded on his body, forcing Han Yan, Xu Tianlang, Xu Yourong and the others to back away.

"Dark Star, open it!"

The next moment, Ye Chen opened his arms and sang a song, and the samsara was soaring.

In the sky above Tianyue Guigu, the blue sky became dark in an instant, and the outlines of the seven stars of reincarnation emerged, among which

Chapter 9744

That was the voice of Patriarch Yindan, the guardian of the Moon God Heavenly Emperor's treasure.

The Yindan patriarch guarded the treasure not for the purpose of protecting it, but just wanted to seize the bones of the Moon God and Heavenly Emperor and use the corpse to be reborn.

Once he gets the bones of the Moon God Emperor and successfully fuses them, he will devour all the treasures.

The arrival of Ye Chen, Xu Tianlang, Han Yan and others made the ancestor Yindan feel threatened.

Moreover, the shroud of the star in the night made him even more creepy.

Under the shroud of night, even Patriarch Yindan couldn't see things, couldn't see anything, and was completely cut off from the connection with the earth veins, without the slightest feng shui luck.

"Patriarch Yindan, get out and die!"

Under the protection of Ye Chen, Xu Tianlang's eyes were like torches, and he could see things in the dark night. He strode into Tianyue Guigu, his body gradually boiled with tailed beast aura, releasing a domineering, stern, and fierce aura.

In Tianyue's return to the valley, Yin Qi surged, and a cold and oppressive alchemy filled the air, and then condensed into the figure of an old man in gray robe.

The old man in the gray robe, the signs of wear and tear over the years have been very serious, his face is full of wrinkles, his waist is hunched, and he is leaning on a crutch, but his eyes are very sharp, as sharp as a sword, surrounded by murderous aura, he is the ancestor Yindan.

Although it was difficult for the ancestor Yindan to see under the shroud of the fate star in the night, Xu Tianlang's tailed beast breath was still too obvious, and the night could not cover it up, so he quickly locked on to it.

"I'd like to see how capable you, a wild wolf, are."

Patriarch Yindan snorted, raised his cane, and poked at Xu Tianlang with the tip of his cane, this poke was as sharp and vicious as if it could penetrate the stars.

Xu Tianlang's heart trembled, he raised his knife to block, and with a clang, he felt his tiger's mouth go numb, and couldn't help but take two steps back.

This ancestor of Yindan, although his appearance is crooked and decayed, his strength is surprisingly great.

Xu Tianlang took a deep breath, slashed forward with his saber, and fought fiercely with the ancestor Yindan.

"Brother, looking at them, it seems that there is no winner for a while."

"Let's go treasure hunting first."

Seeing this, Han Yan said.

Ye Chen nodded, and felt very strange in his heart. He never thought that this Yindan patriarch, under the suppression of his dark night star, could still maintain such a strong fighting power.

But when the ancestor Yindan was fighting, his sleeves fluttered, and Ye Chen vaguely glimpsed his right arm, which was thick and powerful. There seemed to be a totem of flames on the skin of the arm, which was not commensurate with his crooked and decayed body. The strength was surprisingly great, and Xu Tianlang was at a disadvantage.

"His arm..."

Ye Chen was startled, and wanted to take a closer look, but Han Yan had already pulled him into Tianyue Guigu.

As soon as he entered Tianyue Guigu, Ye Chen felt that layers of Yin Qi surged up around him, blocking his sight and eroding his heart.

These yin qi, with a strong smell of elixir, penetrate into the muscles, bones and viscera from every pore of the human body, corroding people into dry bones.

Ye Chen immediately circulated the reincarnation blood to resist the erosion of Yin Qi.

Xu Yourong also brought a few followers into the valley, and said to Ye Chen: "Master of Reincarnation, the laws of this valley are disordered, and I don't know where the bones of my Moon God ancestor are buried. Let's search separately."

Ye Chen said: "Okay."

At this time, the ancestor Yindan saw Ye Chen and the others enter, he sneered, and said, "Do you dare to touch the remains of the Moon God and Heavenly Emperor? Since you dare to come in, you will all die here!"

As the voice fell, the body of the ancestor Yindan shook, and the majestic Yin Qi surged out, forming layers of thick fog and covering the valley.

There was a gust of gloomy wind in the valley, and the wind brought the smell of elixir, which was very unpleasant, like the smell of poison, very uncomfortable.

Ye Chen urged the blood of reincarnation to resist, and at the same time felt his aura was passing away rapidly.

With Ye Chen's cultivation at the moment, it is not easy to maintain the operation of the Black Night Star.

Soon, after a quarter of an hour, Ye Chen could no longer sustain it.

With a buzzing sound, Hei Ye Ming Xing fell down and turned into a streak of light, returning to Ye Chen's body.

The dark night dissipated, and the sky and the moon returned to the valley to restore the light. The sky was blue and white, and the sun was shining.

However, the sun shone in the valley, but it was gloomy and cold.

Because, the entire Tianyue Guigu is filled with the cloudy mist emanating from the Yindan Patriarch.

The cloudy mist is very strange. It is not as simple as evil or miasma poisonous gas, but a special kind of medicinal gas, which contains the killing intent of a heavenly emperor-level pill.

Even with the wear and tear of the years, the strength of the ancestor of Yindan could not be compared with that of the peak period, but the Yin evil medicinal energy exuded was still very violent and could invade human bones.

Xu Tianlang could no longer rely on his body to resist, roared, and manifested the shape of a tailed beast wolf, ferocious and ferocious, and the terrifying tailed beast spirit boiled up.

The breath of the tailed beast gathered into billowing gray mist, filling Tianyue Guigu, making the entire valley more violent.

"The way of birth and death in the beginning, the birth and death of the palm."

Ye Chen shouted lightly, squeezed a hand formula, and displayed the Dao of Birth and Death in the Beginning.

Immediately, circles of white light spread out from Ye Chen like ripples, and the layers of evil mist could no longer erode Ye Chen.

Han Yan was also protected by Ye Chen's side, and said happily, "Brother, your Taoism is really powerful."

This Dao of birth and death in the beginning comes from the Tao of the original world, which Ye Chen comprehended from the sword of the sword ancestor. At this moment, when he casts it, the edge of the palm is born and dies, so that the eroded evil spirit mist will be wiped out layer by layer, unable to cause damage.

"let's go."

Ye Chen took Han Yan to the depths of Tianyue Gui Valley to explore deeply.

Xu Yourong, on the other hand, took a few family followers to explore on the other side, with the goal of finding the remains of the Moon God Emperor.

There are layers of moonlight protection on her body, and her followers, desperate to protect the master, can barely block the erosion of the evil spirit.

"A group of thieves!"

Patriarch Yindan was furious and wanted to intercept him, but he was held back by Xu Tianlang and couldn't escape.

After Xu Tianlang transformed into a tailed beast, he was very ferocious, his body blasted out strips of mist, sealing off the escape route of Yindan Patriarch.

This battle between the two is destined to be a battle of life and death, and life and death must be decided.

"There are only two days, so it must be fast."

Ye Chen let out a breath of turbid air, and brought Han Yan to the depths of Tianyue Guigu.

The sinister aura here has faded a little.

Ye Chen looked around and saw pavilions and simple buildings built on the surrounding mountains.

And in those buildings, there is a faint aura of jewels and jewels, and the auspicious glow is dense, obviously there are rare treasures in the collection.

The treasures of the Moon God and Heavenly Emperor are not sealed in some cemetery, but in this valley, in the buildings among the mountains, and among the mountains, they are dotted with the light of the gods, and every bit of light is a place. treasure.

Chapter 9745

Ye Chen only had two days to collect these treasures.

Two days later, when the secrets spread, outsiders will know where the treasure is, and countless warriors will flock to it.

"Brother, there is a treasure here!"

Han Yan rushed to a building, surprised and said to Ye Chen.

Ye Chen strode over, and saw that there were more than a dozen weapons, as well as sets of cassocks and armors, all of which were shining artifacts in the building.

However, the gate entrance of the building has a strict barrier of prohibition.

This layer of prohibition barrier is as dense as mercury, completely impervious to force, and it is difficult to break through brute force.

Han Yan swung his sword for half an hour before cutting open the barrier and stepping in smoothly.

Ye Chen's heart sank, it took so long for a single treasure.

In this piece of Tianyueguigu, there are hundreds of thousands of treasure points, all of which are protected by prohibitions. If you want to break all the restrictions and seize all the treasures, how easy is it?

"Brother, these robes and armor are pretty good."

Han Yan was excited, and rushed into the house. He was not interested in the weapons placed in the house, but the vestments and armors were a bit attractive to him.

He picked and chose, and chose a "Star Chasing Sword Robe", and put it on, looking very happy.

Ye Chen was not interested in these ordinary weapons, so he waved his hand and said, "You can accept all of them if you like them."

Han Yan was overjoyed, so he accepted the treasure here and said, "Thank you, brother!"

Ye Chen frowned slightly, calculated with his fingers, and murmured: "I don't know where the remains of the Moon God Emperor are."

In this land where the sky and the moon return to the valley, the law of spiritual energy is orderly, but the law of heaven is very chaotic, making it difficult to calculate the location of various treasures.

For a while, Ye Chen couldn't figure out where the remains of the Moon God and Heavenly Emperor were.

Relying on his cultivation in the Divine Dao Realm, Han Yan also tried to calculate, but was still at a loss, and said, "Brother, the rules here are too chaotic, so it's hard to calculate."

Ye Chen frowned, and tried to deduce the location of the Shenxuan chain, but still couldn't deduce it.

Ren Feifei said that in the treasure of the Moon God Emperor, there may be a mysterious chain.

That is the key to connecting the ten reincarnation monuments and allowing Ye Chen to awaken the source body of reincarnation!

Now, Ye Chen can clearly grasp that there is indeed a mysterious chain in this treasure land, but he doesn't know where it is.

The same is true for the bones of the Moon God and Heavenly Emperor.

He could sense that the remains did exist, but he couldn't lock the location.

The rules are too confusing.

hum!

At this time, Ye Chen felt a change coming from the cemetery of reincarnation.

In the cemetery of reincarnation, the demon-forbidden stone egg seemed to be shaking.

Ye Chen mentally projected it, and saw the little forbidden demon in the stone egg, looking at him anxiously, babbling, pointing a small finger in one direction, and struggling at the same time, trying to get out of the eggshell. break out.

However, this thin layer of eggshell, which seems to be broken when it is dropped, is as strong as a blockade of heaven, and the little forbidden monster can't break it out, so it can only struggle to show Ye Chen the direction.

"Little guy, do you know where the remains of the Moon God Emperor are?"

Ye Chen's heart moved and he asked.

The little forbidden demon also couldn't speak, but just babbled to show Ye Chen the way.

Ye Chen then said to Han Yan: "Brother Han, let's search separately, and if we find the remains of the Moon God Emperor, or some special treasure, we will contact each other."

Han Yan was a little flustered, and said, "Brother, I don't want to be separated from you."

Ye Chen patted him on the shoulder and said: "It's okay, your cultivation base is much stronger than mine, you are a powerhouse at the peak of the Divine Dao Realm, what are you afraid of?"

After speaking, Ye Chen separated from Han Yan, and continued to move forward along the point of the little forbidden demon.

Under the instructions of the little forbidden demon, Ye Chen gradually came to Tianyue Guigu, a very desolate place.

This place is almost out of the valley, and the surface of the desolate planet can be seen outside.

In this place, there are no buildings, and it doesn't look like there is a treasure.

"Yeah..."

The little forbidden monster moved its body vigorously and pointed to a nearby mountain.

The mountain, covered with vines and weeds, looks very desolate.

Ye Chen frowned, and the little forbidden demon pointed at the mountain through the eggshell, babbling loudly, as if there was some treasure in the mountain.

Ye Chen's heart moved slightly, and with a wave of his hand, he sent out a force, sweeping away all the vines and weeds covering the mountain.

After sweeping away the weeds, a cave appeared in front of Ye Chen.

"It turns out there is something wrong."

Ye Chen's eyes lit up, he felt carefully first, and after making sure that there was no dangerous atmosphere in the cave, he just bent down and got into the cave.

The entrance to the cave is narrow, but after getting in, it becomes much more spacious.

What Ye Chen saw in his eyes was pitch black, and he couldn't see anything clearly.

He ignited a ray of fire on his fingertips, and then saw a rather horrifying scene.

In this cave, there is actually a dead corpse hanging by an iron chain!

Ye Chen narrowed his eyes, and looked carefully, it seemed that it was not a corpse, but a sculpture, a sculpture made of clay.

This sculpture is divided into six parts, namely the head, body and limbs.

These six parts are connected by chains to form the appearance of a human body.

Ye Chen subconsciously looked at the face of the human body, and then he was stunned.

This clay sculpture has graceful lines, the proportion structure follows the perfect order of the human body, and the facial features are even more lifelike.

Chapter 9746

As soon as Ye Chen saw the facial features of the sculpture, he recognized it, it turned out to be Emperor Yantian!

"Ah, this is Emperor Yantian."

"This sculpture was carved by the Moon God and Heavenly Emperor. What does she want to do?"

"Could it be that she wants to collect parts of Emperor Yantian?"

Ye Chen was taken aback.

As far as he knew, before the fall of Emperor Yantian, he cut his body into six parts, namely the head, torso and limbs.

Legend has it that if all the body parts of Emperor Yan can be gathered, it is said that he can be resurrected.

If you don't choose resurrection, but refine it by yourself, it is equivalent to seizing all the power of Yantian Emperor, which is enough to change your fate against the sky.

At present, Ye Chen has obtained the left arm of Emperor Yantian and has successfully refined and controlled it.

As for Emperor Yantian, he didn't want to be resurrected.

The endless years of vicissitudes have made him exhausted, he has no interest in world affairs, and hopes that Ye Chen can gather all his body parts and perfectly inherit his orthodoxy.

However, in this world, Ye Chen is obviously not the only person who is interested in Emperor Yantian's body.

Judging from the sculpture in front of him, the Moon God Emperor seems to have a strong interest in Emperor Yan.

Ye Chen noticed that the sculpture's right arm was missing.

He thought of the right arm of Patriarch Yindan, which was extraordinarily strong and powerful, and had the totem of flames, and the breath of flames, which seemed to be related to Emperor Yantian.

"Could it be that the Moon God Emperor has already obtained the right arm of Emperor Yan Tian, and was also inherited by the ancestor Yindan?"

Ye Chen's mind was active, silently calculating the causal connection behind it.

"Yeah..."

At this time, the little demon in the stone egg called out, and pointed to the sculpture with his little finger, as if what he wanted Ye Chen to look for was this sculpture.

Ye Chen's heart moved, and he looked carefully. There was nothing special about this sculpture, but the iron chain connecting the parts of the sculpture seemed to be very special.

The iron chain was pitch black, and there was a faint layer of Shenxi on the surface. The Shenxi was as condensed as mist. If you sense it carefully, you can capture the vast and incomparable energy breath, which is endless.

Ye Chen's palm lightly touched the iron chain, and he felt that the texture of the iron chain was also very special. It was not entirely metal, but also revealed the texture of wood. It was so cold and full of vitality, which was very strange.

"This iron chain is what Senior Ren called the Shenxuan Chain!"

Ye Chen's heart was greatly shaken, the heavenly coincidence, he already knew the origin of this chain, it was the mysterious chain that Ren Feifei said, it is said that it can connect all things.

This Shenxuan chain is the treasure of the Moon God and Heavenly Emperor. I don't know what it is made of, it is very mysterious.

Back then, the Moon God Emperor, who was in charge of the Shenxuan chain, seemed to collect the body parts of Yan Tiandi and connect them together.

But obviously, the Moon God Emperor had already fallen before he succeeded.

This Shenxuan chain now appeared in front of Ye Chen.

"I don't know if this Shenxuan chain can connect my ten reincarnation monuments."

With a slight thought, Ye Chen untied the Shenxuan chain.

On the chain, the clay sculpture of Emperor Yantian shattered with a bang.

Ye Chen dripped blood to sacrifice for refining, and he took control of the Shenxuan chain very smoothly, and established contact with it.

This Shenxuan chain seems to have become a part of his body.

"Reincarnation Xuanbei, come out!"

In the next moment, Ye Chen summoned all the mysterious monuments of reincarnation, including the Yanbei, Fengbei, Chenbei, Mobei, Tianbei and so on.

The ten reincarnation monuments were suspended in the air and scattered around Ye Chen's body, buzzing, emitting a majestic aura of reincarnation.

This aura of reincarnation soared into the sky, shaking the law of heaven and earth that made Tianyue return to the valley. The aura of heaven and earth in this place spread out more violently, and many places in no time and space gradually sensed the return of Tianyue the existence of the valley.

Ye Chen knew that this treasure land would soon be discovered, and a fight was inevitable.

If he can connect the mysterious tablet of reincarnation, connect the energy breath of all the mysterious tablets, and integrate them into one, he will have a chance to awaken the source body of reincarnation.

The source body of reincarnation, known as the top extraordinary source body, is domineering and invincible, reflecting the blood of reincarnation, one for the outside and one for the inside.

If Ye Chen can awaken the source body of reincarnation, then he will have a huge advantage in the next battle!

"Shenxuan chain, connect!"

Ye Chen sacrificed the Shenxuan chains, and the Shenxi was like a tide, and the chains shot out, entangled the reincarnation monuments one after another, and tried to connect the aura and laws of all the reincarnation monuments.

However, the ten reincarnation black tablets have different aura attributes, especially the sky tablet, which is extraordinarily powerful, stronger than the other nine reincarnation black tablets combined.

If you want to connect and integrate, the difficulty can be called terrifying.

The moment Ye Chen tried to connect, the attribute conflict between the mysterious tablet and the mysterious tablet exploded violently, forming a violent wave of energy, which hit him back.

"Puchi!"

Ye Chen vomited blood on the spot, his face was pale.

However, he felt that this conflict of attributes was not irreconcilable.

As long as you are patient, as long as you find a balance point, there is still a possibility of connecting and merging these ten reincarnation monuments!

Thinking like this, Ye Chen gritted his teeth, sat down cross-legged, and continued to try to merge.

The ten reincarnation monuments surrounded his body, like planets suspended in the universe, slowly rotating along a mysterious trajectory.

In the cave, there were only the whistling air and the sound of iron chains turning.

Gradually, Ye Chen entered a state of ecstasy, ignoring the affairs of the outside world.

But at this time, everywhere in Wuwu time and space, there was a huge wave.

"Is there an ancient treasure born?"

"Which mighty treasure is it? Moon God and Heavenly Emperor? I've never heard of this character before. What kind of mysterious existence is that?"

"The Lord of Reincarnation is taking the treasure, do you want to fight with him?"

The secret of Tianyue Guigu has been exposed, and countless people can sense it.

There are many powerful people in Wuwu time and space, and they are all trying their best to search for the coordinates of Tianyue's return to the valley.

But many sects and forces, after catching Ye Chen's existence, felt a lot of fear.

Ye Chen is the head of the reincarnation camp, and the Heavenly Sword Oath has been established, even those who have not joined the Heavenly Sword Oath, dare not provoke Ye Chen easily.

Otherwise, many powerhouses in the reincarnation camp will be furious, and ordinary forces cannot bear it at all.

The only ones who dare to challenge the reincarnation camp are the top forces such as the Ancient Star Gate, the Tianxu Temple, and the Death God Sect.

Therefore, after knowing that Ye Chen was hunting for treasure, many forces cut off their desire to compete and did not dare to compete with Ye Chen.

But those top forces will not give up easily.

"The treasure of the Moon God and Heavenly Emperor? Interesting, I, Zhou Wuhuang, want it."

"Emperor Moon God, what kind of god is that? The secrets of heaven are so vast, mysterious, ancient, and powerful. Her treasure must be of no small importance. My Xiongba family must seize it!"

"My Ancient Star Gate Bantian Emperor wants this treasure!"

Chapter 9747

"Hehe, Lord of Reincarnation, so you are here, so the old guy Xuanchen Tiandi must be by your side, right? It's time to settle the accounts of the past together."

...

A series of figures began to move, searching for the coordinates of Tianyue's return to the valley, and broke through the air.

Tianyue returned to the valley, in that cave, Ye Chen was concentrating on merging the reincarnation monument.

With a keen mind, he gradually grasped a balance point, and connected the auras of the ten reincarnation monuments together through the mysterious chains of the gods.

And when the spiritual energy gradually connected and merged in the mysterious monument of reincarnation, Ye Chen's body also produced a wonderful change.

He felt that the aura of the Xuanbei of Reincarnation was tempering his skin, muscles, bones, and meridians, making his physique constantly stronger.

Ye Chen's muscles became hotter, as if they were thrown into an oven to be roasted. From hotness to burning pain, his physique became stronger, stronger, and full of strength, and all impurities were squeezed out.

Time passed bit by bit, and soon, two days passed.

At the entrance of Tianyue Guigu, Xu Tianlang and Yindan Patriarch were still fighting.

After two days of fierce fighting, both of them were exhausted, and their breathing gradually became short of breath.

A large piece of the robe of ancestor Yindan had been torn, exposing a strong and exploding right arm.

His body was stooped and thin like a skeleton, but his right arm was extremely strong, filled with the power of an explosion, the skin of his arm was surrounded by red flames, and waves of flames soared into the sky.

If Ye Chen were here, he would definitely be able to recognize that right arm was the arm of Emperor Yantian!

"Damn it, the power of the tailed beast is so difficult."

Patriarch Yindan gritted his teeth. In the past two days, he had exploded the power of the Heavenly Emperor's arm to the extreme, but he was still unable to suppress Xu Tianlang. Now he was almost exhausted, and the flame aura on his right arm was gradually becoming weaker. get dim.

Without saying a word, Xu Tianlang slashed straight with the saber. The strength of the saber was not as good as before, and the saber was covered with mottled marks, which was on the verge of shattering.

The two days of fighting had almost made him fall, and he relied on his will to support him.

"Damn beast, you are amazing."

Patriarch Yindan gritted his teeth, knowing that if he continued to fight, his willpower would definitely not be able to fight against Xu Tianlang.

At that moment, he turned around and fled to the depths of the valley.

However, at the critical moment of life and death, he wanted to get out of the battle, how could it be so easy?

Xu Tianlang slashed at him with his saber, Yindan Patriarch's energy was exhausted and he couldn't resist, so he had to raise his Heavenly Emperor's arm to block.

"Puchi!"

Xu Tianlang swung his saber sharply, and cut off the Heavenly Emperor arm of the ancestor Yindan on the spot.

That Heavenly Emperor's arm, but Yantian Emperor's arm, is now broken, the ancestor Yindan was so angry that he spat out a mouthful of blood, but he didn't dare to stay, clutching the wound of his severed arm, bleeding profusely, staggering towards the valley fleeing inside, cursing:

"You guys have disturbed the peace of the Moon God Emperor, and when I summon Lord Moon God to come down, you will all die!"

After Xu Tianlang cut off the arm of the Yindan Patriarch, his strength was also exhausted, and he could no longer pursue him. He could only watch the Yindan Patriarch go away, and his figure disappeared into the valley and jungle.

"cough....."

At the end of the battle, Xu Tianlang knelt down on the ground in a state of embarrassment, exhausted from the tail beast aura, exhausted a lot.

"Hehe, isn't this Erwei? Why are you in such a mess?"

At this moment, a sneer sounded.

I saw a young man descending outside Tianyue Guigu, it was Zhou Wuhuang from the Great Zhou family in Tianxu Temple.

On Zhou Wuhuang's shoulder, there is a mink. The mink has four tails. On the surface, it looks harmless to humans and animals, but if you look closely at its eyes, you can feel a fierce and terrifying ominous aura like a nightmare.

That's no ordinary marten, but a four-tailed one!

The fur of four-tailed mink is purple, so it is also called purple cloud mink.

"Zhou Wuhuang, Siwei, it's you."

Xu Tianlang's face darkened. Seeing Zhou Wuhuang coming, the coordinates of Tianyue's return to the valley must have been completely exposed.

In addition to Zhou Wuhuang, there will definitely be more people coming to Tianyue Guigu to compete for the treasure.

"It's really God helping me. I didn't get the treasure of the Moon God and Heavenly Emperor, but I met you."

Zhou Wuhuang's eyes flashed, and he saw the Heavenly Emperor's arm that fell on the ground: "Hehe, there is also the Heavenly Emperor's Arm of Yantian Emperor, this is a great opportunity."

"Four tails, swallow these two tails first!"

When Xu Tianlang was weak, it was an excellent opportunity to devour him.

Zhou Wuhuang immediately gave orders, and the mink on his shoulder flew out like lightning, the ominous energy in his eyes exploded, and the devilish energy surged up into the sky, forming a heaven and earth magic image behind him, it was a hundred feet high, it was the body of a magic mink. With a ferocious appearance, he rushed towards Xu Tianlang, trying to devour him.

Xu Tianlang's pupils contracted, and he was already unable to resist under his weakness.

But at this time, there was a roar from behind him, and a giant python rushed out, repelling Siwei, and even almost crushed Siwei's heaven and earth dharma.

That giant python has a pitch-black body and blood-red eyes. If you look carefully, you can find in horror that the body of the giant python is made up of tens of thousands of poisonous snakes as thick as a thumb.

Surrounded by countless poisonous snakes, a figure gradually emerged from the giant python's head. It was a young man with a sinister appearance and snake-like pupils.

"Zhou Wuhuang, you already have a tailed beast, let me devour the second tail."

After reading, remember to vote for monthly and recommendation tickets~

Chapter 9748

The young man laughed, his hair was fluttering in the wind, his hair and the tip of his tail also had the head of a poisonous snake manifested, which was very mysterious.

"Xiong Bazhen, why are you here?"

"I thought that you went undercover under the Snake Emperor, and you were already dead after you were discovered."

When Zhou Wuhuang saw this young man, the corner of his mouth curled up in a cold arc.

"You are not dead, how can I die?"

The young man named Xiong Bazhen also sneered.

He came from Tianxu Temple, and he was from the same sect as Zhou Wuhuang. Strictly speaking, he was from the same camp, but they were from different families.

Zhou Wuhuang belonged to the Great Zhou family, while Xiongbazhen came from the Xiongba family.

In his early years, Xiong Bazhen used to go undercover in the ancient star gate, lurking under the Snake Emperor, and was discovered later. He was almost killed by the Snake Emperor, and fled back to his family with difficulty.

During his undercover period, he obtained the true biography of the Snake Heavenly Emperor, and his poisonous skills and the method of controlling poisonous snakes are very powerful.

This time Tianyue Guigu Treasure was born, the Great Zhou family sent Zhou Wuhuang out, and Xiongbazhen represented the Xiongba family.

The high-level officials of the two families, because of the restrictions of the Heavenly Sword Oath, are inconvenient to compete with Ye Chen, so they each dispatch the younger generation of Tianjiao.

It's just that before meeting Ye Chen, these two geniuses met first.

"The tail beast is mine!"

Xiong Bazhen's eyes turned cold, he drove the giant python, roared, opened his bloody mouth, and devoured towards Xu Tianlang.

"you dare!"

Zhou Wuhuang was furious, and immediately swung his sword, the sword energy was like a rainbow, and the laws of the divine realm were like a waterfall, unstoppable.

The male domineering real giant python was beheaded by sword energy, thousands of poisonous snakes were cut off, and terrible poisonous gas and dirty venom flowed out.

Surrounded by divine light, Zhou Wuhuang grabbed Xu Tianlang with his palm, unaffected in the slightest.

"Greedy! You already have four tails, and you still want to fight with me?"

Xiong Bazhen's eyes were gloomy, he snorted, his palm shot out, his arm twisted and alienated, and burst into thousands of tiny poisonous snakes.

Every venomous snake swallowed its tongue, its small and sharp teeth glowed with poisonous light, and it rushed to bite Zhou Wuhuang.

Zhou Wuhuang dismissed it, and with a backhand palm, he killed all the poisonous snakes. The violent palm style even made Xiong Bazhen step back again and again.

"interesting."

Xiongba really felt tight in his chest, and he only felt that Zhou Wuhuang's power was overbearing, not weaker than him in the slightest.

His cultivation has reached the peak of the Divine Dao Realm.

And Zhou Wuhuang's cultivation is only the fifth level of the Divine Dao Realm.

Logically speaking, Zhou Wuhuang is not his opponent.

But unfortunately, Zhou Wuhuang was still overwhelmed by Xiong Ba, who was separated by four floors.

This is because Zhou Wuhuang used to be a great existence in the realm of the emperor of heaven. Later, he practiced self-cultivation. Although he fell to the fifth level of the gods, the foundation of the emperor of heaven is still there, so the ability to fight leapfrog is very strong.

"War mad source body, open!"

Xiongba was really not afraid, he raised his head to the sky and screamed loudly, his hair fluttered, and he actually activated the source body of the war madman on the spot.

The Zhan Kuang source body is a first-class extraordinary source body, passed down from generation to generation by the Xiongba family.

boom!

I saw that Xiong Bazhen, as soon as he opened the Zhan Kuang source body, his whole body fell into a state of rage, his eyes were blood red, his devilish energy exploded, his muscles burst, his hair turned into poisonous snakes, and poisonous snakes came out of every pore in his body, extremely hideous and terrifying.

The tens of thousands of poisonous snakes crawled and scurried around, gathering under his feet, making the giant python under his feet much thicker, opening its mouth and roaring, extremely ferocious.

Seeing Xiong Bazhen's violent and ferocious posture, Zhou Wuhuang also became vigilant, not daring to be careless, swung his sword like splashing ink, and slashed out with a roar.

Xiongba really summoned thousands of poisonous snakes, gathered them into a snake spear, and the poisonous juice flowed, stabbing at Zhou Wuhuang.

The two fought with all their strength, and the momentum was fierce.

And at this time, there were another figure, flying from all directions.

These people are ordinary casual martial artists, and there is no support from powerful sects behind them.

Naturally, they didn't dare to offend the reincarnation camp, but after feeling the aura of the treasure, they still couldn't help coming over to see if they could try their luck and pick up something cheap.

As soon as these casual cultivators descended, they saw Zhou Wuhuang and Xiong Ba fighting fiercely, the tyrannical aura of the Divine Dao Realm, and the poisonous gas erupting from the poisonous snakes, which immediately caused an uproar among the crowd.

Someone who got too close was contaminated with venom on the spot and turned into dry bones.

Seeing this scene, many casual warriors turned around and ran away in fright.

The treasure of Tianyueguigu, if ordinary warriors want to fight for it, it is almost like courting death.

Zhou Wuhuang and Xiongba really fought fiercely, and they didn't even notice the arrival of outsiders.

boom!

But at this moment, a huge explosion shocked both of them.

The eyes of the two looked deep into the valley.

I saw a samsara golden light, brilliant and vast, great and sacred, as if carrying the supreme law, rising into the sky and penetrating the sky.

This samsara golden light is so domineering and strong, showing the surging and invincible aura of the people behind it.

"This breath... this is the breath of the Lord of Reincarnation!"

"That kid, has another breakthrough? Damn it!"

Zhou Wuhuang was completely stunned when he saw the golden light of reincarnation.

In the golden light of reincarnation, there are totems flickering, the totem of wind, the totem of fire, the totem of thunder and lightning, the totem of light and darkness, etc., counting carefully, there are nine totems, representing nine different kinds of totems. Attributes, faintly fit with Nine Gods.

Chapter 9749

Zhou Wuhuang's heart tightened, knowing that Ye Chen must have got some incredible opportunity, his strength has been greatly improved, and the atmosphere is surging, like the descending of the nine gods from the peak, invincible, and the pressure is strong, like a supreme king.

"Is this... the weather of the Lord of Reincarnation?"

When Xiongba really saw this scene, he was also secretly surprised.

His cultivation base has reached the peak of the Divine Dao Realm, and he has activated the source body of the war madness again, and his momentum is at its peak.

However, facing this scene of reincarnation and the golden light soaring into the sky, he also felt his own insignificance, unable to fight and match.

"Xiong Bazhen, let's stop fighting among ourselves, now is not the time to fight."

"I'll take Erwei, and you take Yantiandi's arm. After capturing the treasure, go back to Tianxu Temple and discuss how to divide it up."

Zhou Wuhuang felt the danger, so he discussed with Xiong Bazhen, looked at Xu Tianlang, and then at the arm of Emperor Yantian who fell to the ground.

Xu Tianlang had just fought with the Yindan Patriarch, and he wasted a lot, and now he is extremely weak. When Zhou Wuhuang and Xiong Bazhen were fighting each other, he also tried to adjust his breath to recover. Unfortunately, the consumption was too great, and it was difficult to recover in a short period of time. come over.

At this time, when he heard that Zhou Wuhuang wanted to capture him back to the Tianxu Temple, he immediately felt the danger, without saying a word, his body turned into a ray of bloody light, and fled towards the sky.

However, how could he escape under the eyes of Zhou Wuhuang and Xiong Bazhen when he was weak?

"Want to run?"

Zhou Wuhuang and Xiong Bazhen both shot, with their palms left and right, they intercepted and killed Xu Tianlang.

Xu Tianlang's heart felt cold, and he was about to be captured.

"My friends, do you dare to move?"

But at this moment, a shocking storm erupted, the wind blew up between the sky and the earth, and the wind howled. Black tornadoes blew from the ground and penetrated the sky, setting off billows of smoke and dust. Many forests, trees, rocks and dust were all swept up, and even a few nearby hills were crushed by the storm.

This storm is so intense that it is enough to tear ordinary powerhouses in the Divine Dao realm into pieces.

Under the fierce storm, Zhou Wuhuang and Xiong Bazhen's bodies were also blown away, their bodies were unstable, and they almost fell to the ground.

In the turbulent storm, a stalwart and domineering youth descended.

It was Ye Chen!

At this moment, Ye Chen's cultivation has reached the peak of the Seventh Heaven of the Immeasurable Realm, which has not improved much compared to before.

However, his body exuded a powerful and perfect aura, which made everyone's heart beat violently when they saw it.

Ye Chen's body is as tough as a sculpture, with perfect lines and proportions. The muscles are not exploding, but just right, strong, strong, calm and powerful, showing a perfect sense of strength.

The golden skin, without any blemishes or impurities, was surrounded by an extraordinary aura. Compared with the skin of the Emperor of Heaven, it was smoother and more sacred.

"Your body..."

Zhou Wuhuang was stunned, only feeling that Ye Chen's body had undergone an astonishing change compared to before, becoming perfect, powerful, and holy like a palace, exuding a sense of greatness and extraordinaryness.

On Ye Chen's forehead, there is a wind totem printed.

This totem, like a tattoo brand, slightly reveals Shenxi, causing Ye Chen to breathe, causing a billowing storm, like the master who controls the wind.

Zhou Wuhuang thought of a very old legend about the supreme supernatural source body, the source body of reincarnation.

Among all the extraordinary source bodies, the reincarnation source body is the most powerful, the most domineering, and the most invincible.

The source body of reincarnation is the source body favored by the supreme heaven. It has the great power of heaven's blessing. All evils and demons cannot invade. Once awakened, it can easily resist the darkness of the world and the wear and tear of time.

These source bodies are only legendary existences, and the masters of the nine reincarnations in the past have never awakened.

Zhou Wuhuang had only seen legends about the source body of reincarnation in some very ancient cheat books.

Legend has it that if reincarnation does not end, the Nine Gods rule the roost.

The source body of reincarnation brings together nine core attributes between heaven and earth, namely: wind, thunder, water, fire, rock and soil, light, darkness, ice, and vegetation.

The source body of reincarnation gathers the nine core forces of the world, and is the highest and most invincible extraordinary source body, surpassing all extraordinary ones.

However, this reincarnation source body has never been born.

The nine attributes of heaven and earth gathered into the Apocalypse of the Nine Gods, which announced the birth of the Nine Gods.

If the source body of reincarnation could be born, there would be no Nine Gods at all.

The luck of the Nine Gods will all gather on the source body of reincarnation.

Just like the blood of reincarnation, the core is the seven stars of reincarnation.

The core of the source body of reincarnation is the "Nine Heavens Totem". This source body has nine totems, and each totem represents an attribute.

The so-called Nine Gods are considered to have stolen the luck of the Nine Heavens Totem and eventually became gods.

At this moment, Zhou Wuhuang looked at Ye Chen's body, the smooth skin, and the perfect muscle lines. Concepts such as sacred, great, vast, supreme, invincible, and king appeared in his mind.

He choked.

He knew that it was the source body of reincarnation.

Ye Chen, the legendary source of reincarnation, has awakened!

Without reincarnation, the Nine Gods rule the roost.

But if the source body of reincarnation is born, even the powerful Nine Gods in the past will crawl at the feet of reincarnation.

Ye Chen didn't fully awaken the nine-day totem of the source body of reincarnation, only a wind totem.

It was just a totem of wind, Zhou Wuhuang, Xiong Bazhen, Xu Tianlang, and all the warriors present felt suffocated, as if they saw the greatest wind god descending.

boom!

Ye Chen raised his hand, the tornado exploded, and countless storms swept towards Zhou Wuhuang.

Zhou Wuhuang screamed "Ah" and couldn't stop it at all. His body was cut to bloody by countless wind blades on the spot, and he fell to the ground in embarrassment. At least half of the timeline was cut off by Ye Chen on the spot.

"The source body of reincarnation, you have awakened the source body of reincarnation!"

Zhou Wuhuang's eyes widened, and he looked at Ye Chen in disbelief.

He couldn't believe that the legend was true, the source of reincarnation actually existed, and Ye Chen had awakened.

"Hehe, yes, you actually know the source body of reincarnation."

Ye Chen smiled, Zhou Wuhuang was right, he had indeed awakened the source body of reincarnation.

The effect of the Shenxuan chain is very good.

In the cave, Ye Chen has successfully connected all ten reincarnation monuments, and the breath has been integrated into one.

After the breath was connected and fused in the Xuanbei of Reincarnation, his body was also tempered powerfully, blessed by the heavens, awakened the source body of reincarnation, and his cultivation base was raised to the peak of the seventh heaven.

This improvement in cultivation is not too big, but Ye Chen's overall combat power has become stronger.

Because the source body of reincarnation is an extraordinary source body born for battle, after awakening, Ye Chen's physique became extremely powerful.

Chapter 9750

If the Nine Heavens Totems of the Source Body of Samsara can all be awakened, he even has the confidence that he doesn't need to rely on the heart of light, and can contend against the entire darkness without time and space just by relying on his own physique!

The Nine Heavens Totem is a totem unique to the source body of reincarnation, and it contains the power of heaven behind it. Each totem has different attributes, representing the nine attributes of aura between heaven and earth, corresponding to the Nine Gods.

In other words, the Nine Gods were able to be born because the source body of reincarnation was delayed, so the luck of the Nine Heavens Totem was transferred out, and the Nine Gods were created.

Due to the dispersion of luck, after Ye Chen awakened the source body of reincarnation, he only awakened a totem of wind, and the totems of other attributes have not been lit yet.

However, with a wind totem, Ye Chen easily defeated Zhou Wuhuang with almost a crushing attitude.

Seeing that Zhou Wuhuang was defeated and seriously injured, Xiong Bazhen couldn't even block Ye Chen's blow, so he was dumbfounded on the spot, dumbfounded and stunned.

"Are you a disciple of Emperor Snake?"

Ye Chen looked at Xiong Bazhen, and vaguely caught a trace of the cause and effect of Snake Heaven Emperor from him.

Back then, his grandfather was severely injured by Emperor Snake, and today's Martial Ancestor is often tortured by Emperor Snake in the ancient star gate.

The taste of being bitten by thousands of poisonous snakes is not pleasant.

"No, no! My name is Xiongbazhen, and I am from the Xiongba family."

Xiongba really shook his head hastily, explaining his identity.

"Damn it too."

Ye Chen smiled, and probably had a glimpse of cause and effect, knowing that Xiong Bazhen had been an undercover under the Snake Emperor, and was discovered later, almost killed, and escaped by chance.

This time the treasure of the Moon God Emperor was born, and he represented the Xiongba family and came to hunt for the treasure.

With his strength at the peak of the Divine Dao Realm, if it was Ye Chen before, it would be very difficult to face.

But now, Ye Chen has awakened the source body of reincarnation, crushing Xiongbazhen in all aspects in terms of physique, spirit, momentum, fighting spirit, and the opponent is not an opponent at all.

Ye Chen drew an elegant arc with his fingers, and a white blade of wind swept out like a wave.

Puchi!

Xiong Bazhen was cut in half on the spot, screamed and fell from the sky.

However, his body was very strange and strange. When he fell to the ground, his whole body twisted and split, turning into thousands of tiny poisonous snakes, black and black like a black tide, scattered and fled in all directions.

The scene of countless venomous snakes fleeing is really a bit scary.

The warriors present were all terrified when they saw it, and they shocked Ye Chen's methods incomparably.

One must know that Xiong Ba is really a strong man at the peak of the Divine Dao Realm, and he has also practiced under Emperor Snake, so his supernatural powers are very powerful.

However, facing Ye Chen, Xiong Bazhen couldn't even block a move, and was directly cut in half. I don't know how many timelines were wiped out.

Seeing Xiong Bazhen, Ye Chen turned into countless poisonous snakes, this weird scene also made him frown.

"Four tails, kill him!"

At this time, Zhou Wuhuang shouted violently, and the four-tailed purple cloud mink on his shoulders immediately burst out like lightning. The ghost claws of the abyss tore at Ye Chen's body.

However, Ye Chen's reincarnation source body is extremely sacred, great, and tyrannical, and it has an excellent restraint effect on the breath of the tailed beast.

Unless Nine Tails came, it would be difficult for ordinary tailed beasts to get close to Ye Chen's body.

Sure enough, before Siwei's claws touched Ye Chen's body, they were bounced back by a layer of reincarnation golden light.

The four tails were backlashed, squeaking and screaming, like a mouse scalded by boiling water, struggling violently, and its body shrank.

This is the power of the source body of reincarnation, ten thousand demons cannot invade, and all evils cannot enter.

The existence of the tailed beast, which the world is afraid of even ordinary heavenly emperors, can't hurt Ye Chen.

Of course, if the Tailed Beast cultivated some powerful martial arts, it would still be able to suppress Ye Chen.

After all, in the final analysis, Ye Chen's cultivation base is only the seventh level of the infinite realm, not even a god, and his power is always limited.

But the four-tailed purple cloud sable obviously didn't practice any special martial arts, and only relied on its own tailed beast breath to fight, which couldn't even hurt Ye Chen's vellus hair.

Seeing that Siwei was also defeated, Zhou Wuhuang's face changed completely, and he looked at Ye Chen in horror.

Ye Chen's eyes were indifferent, and a trace of pain and suffering flashed across.

He felt his muscles were about to tear apart and explode.

Using the source body of reincarnation to fight puts a huge burden on the muscles of the body.

This is a top-level extraordinary source body, and with Ye Chen's current cultivation, it is obvious that it cannot be used frequently.

"It must be done quickly."

Ye Chen thought to himself, his eyes turned cold, and he stopped talking nonsense, strode towards Zhou Wuhuang, pulled out the Samsara Heavenly Sword, and the storm swept through, wanting to kill Zhou Wuhuang with one sword.

Zhou Wuhuang was the former Emperor of Heaven. Although he killed himself, he still has the possibility of climbing to the top again.

Killing him can also solve a future problem.

Zhou Wuhuang's face was pale, facing Ye Chen who had opened the source body of reincarnation, he was completely unable to resist.

"Yo, you guys are playing so lively, why don't you call me?"

But at this moment, a chuckle sounded.

There was only a sword protruding from the slanted stab, and it easily blocked Ye Chen's sword.

Ye Chen snorted, the sword was blocked, his aura was suddenly turbulent, the source of reincarnation could no longer be maintained, all the golden light on the skin, all the great and extraordinary aura, all converged back, and the aura weakened a hundred times in an instant.
