

Physician Wife 1401

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1401: Entrusting

"Big Sis Yue, Big Bro isn't sensitive to anesthesia at all. The anesthetic was ineffective against him."

After hearing what Nuannuan said, Bai Liyue was at a loss for words.

Looking at how tormented Feng Shengxuan looked like as he endured the pain, her heart ached.

Feng Shengxuan's ward was located in the VIP area of the military hospital. Outside the VIP area, not only were there specialized doctors and nurses taking care of these VIP patients but there were also professional soldiers guarding them.

Due to the pain, Feng Shengxuan had not been able to rest. He looked terrible but he had never made a sound from beginning to end.

Seeing Feng Shengxuan coming out of the operating room, Old Master Chi and Second Uncle Chi immediately surrounded him.

"Why is Lil Xuan so pale?"

"Was the anesthetic ineffective?" Chi Zeyao asked the doctor.

The anesthetist was still thinking about how to explain the situation. When he heard the question, he immediately found an excuse for himself.

"Yes, yes. I don't know what happened to Mr. Feng. We used twenty times the recommended dosage of anesthesia on him but he woke up very quickly. Has this happened to the patient before?"

Chi Zeyao, "..."

"He hasn't had any surgery before, so we can't know."

Seeing that the anesthetist was scared out of his wits, Nuannuan finally said, "This is a problem within his body, not you guys. Don't feel guilty."

After hearing Nuannuan's words and confirming that Old Master Chi and Second Uncle Chi seemed satisfied, the anesthetist felt like he had been pardoned and apologized to the people in the room before leaving.

After a while, the director of the Emperor District Military Medical University arrived.

"Old Marshal, hello!"

When he saw Xu Ming, the old master greeted him with a smile before introducing him to Nuannuan.

"Nuannuan, this is the principal of the Emperor District Military Medical University, Xu Ming."

Nangong Nuannuan immediately walked toward Xu Ming and nodded slightly. "Hello, Principal Xu."

"Hehehe, Little Girl Nuannuan, how are you?! Ever since my father returned from the Chi residence that day, he couldn't stop talking about you. He said that you're a very impressive child, and very outstanding

too. Not only are you talented in both the pen and the sword, you're also a business genius. You're really amazing."

"Grandpa Xu is too kind."

"Okay, okay. I didn't invite you here to chat with our Nuannuan. Firstly, I'm entrusting my granddaughter-in-law to you. From today onward, she'll be having her internship at your hospital. So long as she's willing, let her sit in any of the surgeries and watch. Secondly, about the matter that I asked you to do last time, how's it going?" Old Master Chi did not hold himself back when talking to the principal of Emperor District Military Medical University.

Xu Ming chuckled and said to the people outside, "Come, come, come in."

Following Xu Ming's order, the director of the Emperor District Military Medical University's Affiliated Medical University, the group of specialists, and professors followed him in.

Xu Ming immediately introduced everyone. "This is Old Marshal Chi, my old leader."

The dean and the group of experts greeted Grandpa Chi respectfully.

"This is the old marshal's future granddaughter-in-law, Old General Nangong's granddaughter, Nangong Nuannuan. Nuannuan, this is the hospital director, Qin Muyang."

Nuannuan bowed and said, "Nice to meet you, Dean Qin."

"Hehe, I've finally met the legendary Nangong Nuannuan. Let's learn from each other in the future!"

Seeing that Nuannuan was stunned and did not know what he was talking about, Qin Muyang laughed and said, "Previously, your grandfather had a heart attack and was sent to the hospital for emergency treatment. In the end, he got off the ambulance while playing with his phone on the stretcher. After asking around, I found out that not only did you treat him during his heart attack, you also cured his leg. At that time, I begged your grandfather to see you, but your grandfather made you sound like a treasure too precious to see.. We finally met today."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1402: Taboo

"What? Miss Nangong is the miraculous doctor who cured General Nangong's myocardial infarction using acupuncture?"

"So you're the miraculous acupuncture physician! Hahahaha... In the future, you can observe me during surgeries and I'll watch you do acupuncture, okay?"

Originally, the dean had asked them to meet the child entrusted to them by the old marshal. As the old marshal's future granddaughter-in-law, all the specialists and professors were naturally willing to teach their medical skills. However, they did not expect that this young girl would be the miraculous doctor whose news of her impressive practices had already spread throughout the whole medical university. Everyone exploded animatedly.

"Miss Nangong, please come to the cardiovascular department I'm in charge of during your internship."

"Nuannuan, you're about the same age as my granddaughter, so I'll call you Nuannuan, okay? Come and intern at the hepatobiliary and pancreatic surgery department. I can let you be my first assistant!"

"Nuannuan, come to the nephrology department. I heard that your second uncle's kidneys aren't doing well, and you're the one taking care of him. Didn't you say that you want to operate on your second uncle personally in the future?"

If not for the fact that this VIP ward was a super large suite with several rooms—and they were in a large living room—Feng Shengxuan would definitely be cursing.

He had been in so much pain from head to toe throughout his surgery that he could hardly breathe, but the group of old fogies was still making a ruckus in his room.

"Okay, okay, don't be so loud. Nuannuan's Big Bro has just had surgery for his stomach cancer, so he needs to rest." Xu Ming reminded everyone when he noticed that everyone was in high spirits.

Nuannuan was also amused by this group of old experts.

"I'll gladly accept the kindness that all of the uncles and grandfathers offered me. I came to the military hospital for an internship not just to choose one subject throughout my internship. To be honest, I want to learn about surgeries in all departments, so please forgive me when I disturb you in the future."

Grandpa Chi also quickly spoke up for Nuannuan, saying, "My granddaughter-in-law has a very strong memory, so she can learn everything easily. Therefore, I believe that my granddaughter-in-law will definitely do a good job supporting everyone."

Everyone was a little confused. This was not because they looked down on Nangong Nuannuan, but because they felt that this little girl thought very little of medicine.

They were all specialists, and the same specialists were scholars who had reached the pinnacle of their field. Therefore, for these specialists, being willing to focus on a single field of study was the ultimate path.

This kind of unorthodox method might allow one to learn a little of everything, but although they seemed to know everything, their knowledge would not be enough. This was a big taboo in the medical world.

"Even if it's easy, there are many things that we need to learn in every subject. As the saying goes, learning is a lifelong goal. Even though we're nearly more than half a century old, we wouldn't dare to say that we've managed to master all of the knowledge in the field that we specialize in." One of the specialists still expressed his opinions, knowing that he risked displeasing the old marshal.

However, Grandpa Chi was not angry at all. He smiled and said, "Indeed, there's no end to learning. My Nuannuan also intends to be as devoted to the field as all of you here. I'm not flattering Nuannuan here. She learns faster than the average person. Even if she intends to specialize in a particular field, she wouldn't take too long. Perhaps everyone will think that this old man is praising his own family, but as for the specifics, you'll find out once you interact with our little girl."

"That's right. That's right.. My Nuannuan's memory is beyond that of ordinary people."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1403: Miraculous Pharmacist

"So, when it comes to learning speed, her speed is ten times, twenty times, or even more than thirty times faster than others. Something that others might not be able to remember in thirty days will be etched in Nuannuan's mind in a day. I'm sure you'll know the specifics once you start interacting with our Nuannuan."

A voice suddenly came from the door. Everyone turned to look and immediately greeted him.

"Old General Nangong!"

"Grandpa, why are you here?"

"How could I not come to Lil Xuan's surgery today?"

"By the way, speaking of Mr. Feng's surgery, Miss Nangong, I would like to know why you and Mr. Feng insisted on only removing the tumor? Why didn't you let me remove more? After all, if we only remove the tumor, Mr. Feng's stomach cancer will most likely relapse."

The one who asked the question was the specialist who operated on Feng Shengxuan today. He still did not understand why Nangong Nuannuan and Feng Shengxuan made this decision.

"That's because he knows the mysterious pharmacist from Sab. The pharmacist promised him once the tumor is removed, the pharmacist will make sure that he recovers through the medicine he administers."

Initially, she was only curious about medicine, so she researched all the Chinese and Western medicine in the world. Then, she used her creativity to concoct some of the medicine. Unexpectedly, Feng Shengxuan marketed the medicine that she came up with and earned a fortune. The mysterious pharmacist from Sab instantly shot to worldwide fame.

Therefore, Nuannuan had used the mysterious pharmacist from Sab as a shield.

After all, she could not tell these people that she could use acupuncture to cure a patient who was in the middle stage of cancer.

If that was the case, then she could forget all about living her own private life.

Going through the stages of life, old age, illness, and death was inevitable, even for the most powerful and influential people.

Once this matter got out, those people would probably come latching on to her like locusts.

No matter how fast she was, she only had 24 hours a day, and she only had two hands. Therefore, she was determined to use her two hands to save those she believed deserved to be saved.

She did not owe anyone anything. There was no need for her to become a thankless saint.

"What?" All the specialists were shocked and envious.

"Mr. Feng knows that mysterious pharmacist?"

"His medicine is limited!"

"The pharmacist concocted a very good medicine to suppress heart disease. Can you ask Mr. Feng to help us import more?"

"There's also that cancer-prevention drug. Even though it costs seventy thousand bucks per bottle, and there are only thirty pills per bottle, we're always in need of more!"

Before she could tell them that she could use acupuncture to treat cancer, Nuannuan was already buried in the hole that she dug.

The specialists surrounded her, trying to get more goods from her.

"You will all be my tutors in the future. I can ask my Big Bro to ask for the things you want from that pharmacist."

In the end, the matter of Nuannuan becoming the disciple of all the specialists in the hospital was happily decided on.

Although the specialists still did not think that Nuannuan would really be able to learn anything like this, the reassurance that they could get their hands on the goods that ran out a long time ago from the mysterious pharmacist allowed them to overlook this problem.

Learning medicine did not mean that one had to be a specialist. There was nothing wrong with being a successful medical businessman.

After the specialists left, only Xu Ming and Qin MUYANG were left. Old Master Chi then asked, "What about the other matter I told you about? Have you solved that for me?"

Xu Ming said respectfully, "Old Marshal, the conditions you set previously were too harsh."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1404: Pulled Some Strings

"Setting aside all that talk about silver needles smaller than 0.001, we've never even seen 0.09 silver needles before, and we can't make one. 0.09... This is a mere 90% of one millimeter. How are we supposed to make them?"

Disappointment flashed across Old Master Chi's eyes.

Xu Ming continued, "Old Master, don't be anxious. What do you want the silver needles for? In the medical field, when we reach a certain degree of precision, we'll use the Y-ray, which is commonly known as Gamma Knife. We can be as precise as 0.001 using the Y ray. The thinnest ray can be as precise as 0.3 microns. According to your requirements, it can reach the precision of 0.0003 microns."

Old Master Chi's eyes lit up and he looked at Nangong Nuannuan. "Little Girl, can that work?"

Nuannuan, "..."

Even though she had heard of the Y-ray before, she had never seen anyone use it before. After all, she had always been in charge of killing in the past, not saving people. She had studied acupuncture and medicine because she was interested in them, so...

"I'll have to see if it's feasible."

"Then, should we get one at home?" Old Master Chi asked.

"Not for now. If I need one, I have my channels and I can just get one from them." After all, she had a chain hospital under her company, and getting her hands on a machine was too easy.

"However, can I try operating the Y-ray first?"

Xu Ming nodded. "Of course. If you want to use it, I can arrange for a special tutor for you."

"Thank you, Principal Xu."

"Nuannuan, you don't have to be so formal with me. Then... should I bring you there now?" Even though he did not know what Nangong Nuannuan wanted to do, Xu Ming would support her unconditionally.

It was not only because she was a student that his old master had taken a liking to, but also because this girl already possessed extraordinary acupuncture skills at such a young age. When she truly mastered it, she would definitely be a shining star.

When the day the medical department of the Emperor District Military Medical University crushed the Medic Association Hospital finally arrived, Xu Ming would realize the benefits Nuannuan had brought to the Military Medical University, all because of his interaction with Nuannuan today.

Xu Ming brought Nuannuan to the place where the Y-ray was being used. He explained the situation to the person in charge and then personally led Nuannuan around the various departments. He made sure that everyone in the department recognized Nuannuan. Once there was a specialist in the department who was going to perform surgery, he would call Nuannuan to inform her.

Of course, whether she showed up or otherwise was up to her.

Since they had already greeted the various specialists, the specialists accepted her presence willingly for the sake of getting their hands on the mysterious pharmacist's medicine. However, this also caused the nurses and doctors in the various departments to look at Nuannuan differently.

When the principal introduced her, he only asked everyone to call her Nuannuan. He did not introduce her family name, and no one thought it was appropriate to ask either.

However, everyone had their own opinions about this person who landed like a soldier with a parachute—she shared the same rights as a nurse but enjoyed the privilege of having been personally led by the principal.

The principal and director led Nangong Nuannuan to the various departments of the military hospital before leaving.

Nuannuan went to the toilet, but when she came out, she heard people talking about her.

"Who do you think that Nuannuan is? The principal and the director personally brought her around and introduced her!"

"In any case, it has to be someone with a special relationship."

"Those people who pulled some strings could only go to one department. Just look at how great she is.. She's going to all of the departments on her own. She's just an intern, but she doesn't have to manage any patients or make the beds..."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1405: Culture

"She doesn't even need to be responsible in helping the doctors make records or helping them in general. She'll only participate in the surgeries by specialist professors and chief surgeons. Does she think she's an expert herself?!"

"Hehe, what's the use of feeling indignant here? No matter how indignant you feel, there's no way you can beat the fact that she has a strong and powerful family background!"

Dong dong dong dong!

Several young nurses were whispering viciously to each other at the nurse's station when a female doctor knocked on the table several times with the plastic folder in her hand.

"The hospital didn't hire you to gossip or badmouth others. This world is destined to be unfair. If someone is born into a good family, that is also a part of their capabilities. She found a way to come to the military hospital and learn from the best specialists in the various departments. Do you think someone like her will become a nurse like all of you after graduation, and fight you for job opportunities?"

"There's no comparison here. She has nothing to do with you, so what's there for you to complain about? Instead of criticizing others for having a good family background and strings to pull, why don't you work hard, strive for more achievements, and do something extraordinary for yourself in your ordinary jobs?"

Hearing the doctor's words, the young nurses' faces turned red, and they quickly went back to their work.

When the doctor saw that they resumed their respective tasks, she left too.

Nangong Nuannuan walked out from the corner and headed to the VIP area.

The reason why the Emperor District Military Medical University was the best educational institution in Camino Country was that its affiliated hospital was always ranked first in the country. It did not reach that far just by depending on medicine but it also had a lot to do with the culture here.

Back at the VIP area, Feng Shengxuan was discussing the matters of the Imperial Phoenix Group with Bai Liyue and Aiden.

When Nuannuan saw this, she could not help but butt in, "You just went through your surgery. You should rest more and sleep. You don't have to worry about the company."

Feng Shengxuan looked at Nuannuan bitterly and did not speak.

Bai Liyue had no choice but to help him relay the message. "His wound is so painful that he can't sleep, so he asked us to accompany him for a chat."

"Even if you can't fall asleep from the pain, you have to close your eyes and rest. Don't talk too much, don't look around too much. This is a tumor-removal surgery, and you had your internal organs opened up. If you don't rest well, you won't recover enough of your energy in the future."

Nuannuan discovered that the cells that gave Feng Shengxuan his supernatural abilities were bustling in his entire body. However, even the same cells would not grow where the cancer cells were located.

"You said before that I won't need to participate in chemotherapy after the surgery. You'll be responsible for my acupuncture."

"Yep." Nuannuan nodded. "I've just called the person in charge at Benevolent Angel Hospital to customize the Y-ray for easier operation. You should rest well for the next few days and let your stomach recover. When the equipment arrives, I'll start performing acupuncture on you."

"Using Y-rays for acupuncture?"

"The needles you asked someone to make for me are too thick."

After Nuannuan told Feng Shengxuan the needle size that she needed, everyone fell silent.

Even an immortal would not be able to make something so thin.

"Is the Y-ray reliable?" After all, it was not a silver needle, and it could not be extended according to Nuannuan's wish.

"I did try it earlier. The Y-ray at the hospital is definitely not plausible, but I've requested amendments to make in terms of length in my customization. So, as long as I use it properly, treating you is possible. Don't worry."

With Nuannuan's assurance, everyone was completely relieved.

A proud smile flashed across Feng Shengxuan's previously sinister eyes.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1406: Summoning

His little girl was indeed unique.

At that moment, a nurse walked into the room. When she saw the few people sitting together, she said, "Nuannuan, come out for a moment."

Nuannuan?

Nangong Nuannuan glanced at the nurse and realized that she did not recognize this nurse. She asked, "What is it?"

When the nurse saw that Nangong Nuannuan did not even want to acknowledge her, she frowned unhappily.

"You'll know when you come out." She did not explain and retracted her head behind the door.

"What's her problem?" Selina could not help but ask.

“I’ll go take a look.”

The elders of the Chi and Nangong families had already left. There was no one to support Nuannuan, so Aiden stood up and was ready to leave with Nuannuan.

“No need, I’ll go.” Nuannuan stopped Aiden and ordered, “You guys, stop talking to him and let him rest.”

Then, she looked at Feng Shengxuan. “And you! If you can’t sleep, close your eyes and rest. Don’t talk.”

As soon as Nuannuan finished speaking, Feng Shengxuan obediently closed his eyes.

Feng Shengxuan always listened to Nangong Nuannuan.

Nuannuan walked out of the room and went to the nurse’s station. Several nurses were whispering to a female doctor.

When they saw Nuannuan walk over, they finally moved away from each other.

Nuannuan walked over to the group of medical staff. She looked at the nurse who had summoned her out and asked, “What’s the matter?”

The nurse smiled and introduced herself to Nuannuan. “My name is Shao Xiaoke. You can call me Xiaoke from now on.”

Nuannuan nodded, indicating that she understood.

However, she understood that there must be more than meets the eye for this person to introduce herself in this manner.

As expected, after Shao Xiaoke finished introducing herself, she pointed at a doctor who was sitting in a revolving chair behind her as she read a medical report on the computer. However, the doctor did not even bother looking at Nuannuan. Shao Xiaoke said, “This is Sis Bian Yin. You can call her Dr. Bian.”

Nuannuan glanced at Dr. Bian, who still had no desire to talk to her. Nuannuan did not even bother nodding this time.

“So...?”

Shao Xiaoke was stunned for a moment. She did not expect Nangong Nuannuan to be so arrogant that she refused to greet Bian Yin. Hence, she asked again, “Nuannuan, what’s your surname?”

This time, Nangong Nuannuan’s face turned grave completely. “What exactly are you trying to say by summoning me here?”

Seeing that Nuannuan was not willing to reveal her surname, Shao Xiaoke felt that Nuannuan was not giving her any face. She continued, “Just now Director Yu came over and informed us about you, saying that you’re starting your internship at the hospital today. In that case, you’ll be working under Sis Bian Yin in the future. That’s why I called you here; so that you can get to know Sis Bian Yin. What’s your relationship with Director Yu? Why can you go in and take care of Best Actor Feng the moment you arrive?”

Noticing Nuannuan's silence, Shao Xiaoke continued, "Since Director Yu has introduced you personally, you must have a powerful background, right? Let me tell you, many of the doctors and nurses in the VIP area come from good family backgrounds. For example, Sis Bian Yin's family is a third-tier wealthy family!"

Nuannuan was speechless. She turned around to leave.

Eventually, Dr. Bian, who buried her nose in the computer screen the whole time, suddenly turned around. She slammed the stack of documents in her hand on the counter of the nurses' station and ordered, "Lil Nuan, make a trip and pass these documents to Dr. Wang, the section chief of the medical administrative department."

Nuannuan glanced at the information before her and understood that the doctor was trying to intimidate her.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1407: Courting Death

"I think you might have misunderstood something. I'm not assigned as Feng Shengxuan's caretaker. I'm a friend of his, so I'm only here to accompany him. Also, I'm here for an internship at the military hospital to observe the specialists' surgery, not to help you pass documents around. So..."

Nangong Nuannuan picked up the documents and placed them in front of Shao Xiaoke before turning to leave.

Bian Yin's expression immediately darkened, while Shao Xiaoke leaped out of her seat.

"This woman is too arrogant, isn't she? She's just an intern, what right does she have to challenge you, Sis Bian Yin? How dare she!"

After Nangong Nuannuan left, another nurse who had not dared to make a sound all this while added, "Newbies nowadays are getting more and more arrogant. When I was still doing my internship, I'd run super fast even if the head nurse asked me to do some errands for her, what more doctors. Does this woman really think that she can disregard Sis Bian Yin just because she's pretty and has some sort of relationship with Director Yu?"

"Is she really Feng Shengxuan's friend?" Bian Yin asked bleakly.

If Nuannuan was Feng Shengxuan's friend, then Bian Yin could not afford to offend her. After all, Feng Shengxuan was not just any ordinary Best Actor or a rich man from an internationally wealthy family. He was from one of the top ten first-tier wealthy families in the world. He could crush the Bian family with just one finger.

"How's that possible? I saw her come here wearing a nurse's uniform. She came in with Director Yu. When Director Yu left, I heard him tell Nuannuan to stay here. If Best Actor Feng feels any forms of discomfort, she should call him immediately," Shao Xiaoke replied confidently.

Bian Yin was extremely dismayed.

She had known that Feng Shengxuan was going to be hospitalized due to stomach cancer and that he would be in the ward she was in charge of. She had hoped to get along with this top tycoon properly.

She was only 26 years old, but she was already an associate chief doctor. Furthermore, she was the daughter of a third-tier wealthy family, and she was still unmarried. Furthermore, she was not bad-looking. If she could be friends with someone like Feng Shengxuan or even make him fall for her, then she would never have to worry about anything in this life anymore.

What she did not expect was a stupid nurse to appear out of nowhere. Furthermore, after the nurse came, Director Yu even made it a point to introduce the nurse personally. Moreover, he also told them that if Feng Shengxuan did not invite them in, none of them should go in.

This was infuriating.

Bian Yin flung the book in front of her on the table hard; her face extremely dark.

“Lil Shao, come, let’s go for a ward round.”

“Yes.”

Upon receiving Bian Yin’s order, Shao Xiaoke immediately stood up. Bian Yin hung a stethoscope around her neck while Shao Xiaoke carried a tray with a thermometer and a notebook.

After leaving the nurses’ station, Shao Xiaoke called out to Bian Yin after everyone could no longer see them.

“Sis Bian Yin, wait a minute. Your hair isn’t in place.”

With that, she rushed forward and helped Bian Yin tidy up her hair and clothes.

Only then did Bian Yin ease up on her horrible frown.

“How do I look? Is anything else out of place?”

“Nope, you look shuuperrrr beautiful!” Shao Xiaoke cheered Bian Yin on.

Bian Yin smiled. This Shao Xiaoke was her favorite.

Bian Yin and Shao Xiaoke pushed open the door and entered the ward.

At this moment, Nuannuan was in another room, holding an infrared pen and testing out how it felt in her hand on a pillow.. She had no idea that the doctor and nurse outside refused to listen to her advice and walked into the room so directly.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1408: Are You Questioning Me?

Neither would Nuannuan expect both Bian Yin and Shao Xiaoke to walk straight to Feng Shengxuan’s room. Then, they peered down at Bai Liyue—who stayed by Feng Shengxuan’s side the whole time—with their noses high and said, “Excuse me.”

Bai Liyue frowned in extreme displeasure.

Nobody was standing opposite Bai Liyue, but the doctor refused to approach Feng Shengxuan from there and insisted on coming to her side, demanding that she leave.

“What are you doing?”

Bai Liyue remembered that Nuannuan had already informed the doctors here. If they did not summon the doctors, the doctors should not enter.

As Bai Liyue’s injuries on her back had not fully recovered, she wore a loose set of casual homey clothes. Thus, Shao Xiaoke thought that Bai Liyue was a nanny and said, “The doctor is making her rounds. Please make way.”

Although she said please, her attitude demanded obedience.

At this moment, Feng Shengxuan, who had finally fallen asleep after closing his eyes for a while, woke up from the chatter.

Previously, with so much anesthesia injected into him, it was not that it did not affect him at all. At that moment, Feng Shengxuan’s body was in a weakened state, and he felt extremely tired. Coupled with the pain from his wounds, it took him so much effort to fall asleep. Yet, the brief conversation woke him up in alarm.

Bian Yin stared blankly at Feng Shengxuan.

Previously, she had only seen this Best Actor through movies and television, but now that she saw him in person, her heart started racing.

Gosh! He was so hot!

Not only was he handsome, but he was also the chairman of Imperial Phoenix Group!

If such a man could become hers...

Just as Bian Yin was fantasizing, she was jolted back to her senses by Feng Shengxuan’s cold and icy gaze.

Oh, dear god!

What an oppressive man!

Bian Yin calmed herself down and dismissed her fear. “Mr. Feng, it’s time to take your temperature. How are you feeling now? Does your wound hurt?”

Bian Yin’s voice was very gentle and tender, much unlike the voice she had used to speak to Bai Liyue.

“Scram!”

Bian Yin was just about to step forward when Feng Shengxuan suddenly berated her with an angry roar.

As Feng Shengxuan’s bad temper formed a scary weight that swarmed at them, Bian Yin and Shao Xiaoke cried out in alarm and fell backward headfirst.

Bian Yin was still fine as she fell onto Shao Xiaoke. However, the same could not be said for Shao Xiaoke as she fell without any premonition. The back of her head slammed onto the ground, hard, and she was in so much pain that she could not react.

Nangong Nuannuan heard the commotion and walked over from another room. When she saw Bian Yin and Shao Xiaoke, she frowned and asked, "What are you doing here? Didn't Director Yu tell you that you can't enter without permission?"

Bian Yin and Shao Xiaoke were already feeling extremely aggrieved and embarrassed after their stumble. Now that they were questioned by Nangong Nuannuan, they felt terrible.

"Are you questioning me? As a doctor, shouldn't I come in to care for the patient?"

Bian Yin was about to die from the anger she had toward Nuannuan. However, because this was Feng Shengxuan's ward, she did not dare to anger this man too much. Therefore, she could only berate Nuannuan in a low voice.

However, Nuannuan had better things to care about. Without restraining her volume, she retorted, "A rule has been set here that no humans should enter without permission. Are you not human?"

Knowing that she was in the wrong, Bian Yin did not dare to argue with Nuannuan. She could only stand up and say to Feng Shengxuan, "Mr. Feng, I'm really sorry. I only wanted to come in to take your temperature and do a basic checkup. I'm really sorry to wake you up. I'll go out now and come back when you wake up later."

Then, she said to Nuannuan, "You! Come with me!"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 1409: My Request

After giving the order, Bian Yin left with Shao Xiaoke.

Seeing that Nuannuan was about to leave, Feng Shengxuan stopped her. "Stop right there! Why did you go out just because she asked you to? Look at how drastic your personality has changed since you got together with people like Chi Yang! Can any insignificant ant climb over your head and poop on it?"

Originally, Nuannuan merely wanted to head out to deal with Bian Yin, but after hearing Feng Shengxuan's words, she was immediately unhappy.

"What do you mean by that? Big Bro, do you think that Big Brother Chi Yang is the kind of person who would let anyone climb over his head too? If not for the fact that you're my big bro, do you think Big Brother Chi Yang would give in to you like this?"

Feng Shengxuan was furious when he saw that the little girl was about to explode at the mention of Chi Yang!

"Fine, fine, fine. Go out and deal with that doctor."

After saying that, he cold-shouldered her in a fit of anger and ignored her.

Nuannuan did not want to talk to the man who badmouthed her Big Brother Chi Yang. She glared at him and left.

When Nuannuan reached the nurses' station, Bian Yin picked up the folder in her hand and threw it at Nuannuan's head.

As the folder flew toward Nuannuan, Nuannuan blocked it with her hand and the folder flew back the way it came, hitting Bian Yin on the head.

"Argh!"

Bian Yin let out a blood-curdling scream as she lost her balance and fell to the ground on her bottom.

"Nuannuan, what did you just do? How dare a mere intern hit Sis Bian Yin? Is there something wrong with your brain?"

Nangong Nuannuan looked at Shao Xiaoke and said coldly, "You're probably the ones with a problematic brain. Since you don't understand human language, we'll let Director Yu handle this."

Nuannuan was about to call Director Yu when she saw Director Yu heading over hastily after hearing the scream.

After all, the people who were hospitalized in this area were not ordinary people. They were either officers, politicians, or leaders in top corporations. They were not allowed to make a scene.

Upon seeing Director Yu, Bian Yin complained before Nuannuan could explain the situation.

"Director Yu, this intern you found actually hit me with a folder. Look, my head is swollen because of her!"

Although Director Yu was a specialist, Bian Yin was from a third-tier wealthy family. Normally, even specialists would not dare to provoke her, let alone a lowly intern like Nuannuan, who was only here under the recommendation of a few specialists.

"She hit you? Why would she hit you for no reason?"

"Director Yu, that's a strange question. Shouldn't the focus be on her intentions to harm? This is the first time I've seen such an arrogant intern. Even if she's your subordinate, you can't be so biased toward her!"

"Firstly, she ordered me around like an intern and told me to run errands, so I ignored her. Secondly, I told her that she couldn't enter without being summoned by the people inside, but she still went against the order." Nuannuan felt that there was no need to give this woman face, so she listed out every wrongdoing that Bian Yin committed.

When Bian Yin heard that, she sneered. "Hehe, you're just an intern. So what if I let you run errands? It's not too much even if running errands is the only thing I allow you to do! Also, I'm the doctor in charge of the VIP wards for patients hospitalized for gastric-related illnesses. What's wrong with me checking in on the patient's condition? What right do you have to blurt out such nonsense here? Director Yu, if you don't give me an explanation today, I'll see to it that this matter doesn't end here."

Nuannuan looked at Bian Yin, who had her head held high like a proud peacock who peered down on the interns, as though she was better than them. Nuannuan said calmly, "Her request is my request."

My Sweet Physician Wife Calls The Shots

Chapter 1410: Transfer

Angered by what he heard, Director Yu broke out in cold sweat when he heard Nangong Nuannuan's words.

"Yes, yes. I'll give you an answer that you'll be satisfied with."

After Director Yu said that, he called the hospital dean.

"Hello, Dean Qin, it's like this..."

Director Yu reported what had happened to the other party without exaggerating. However, watching Director Yu calling Dean Qin gave Bian Yin a horrible feeling. A slight frown slowly appeared on her face.

"Yes, yes, I understand."

After Director Yu hung up, he said to Nangong Nuannuan, "I'm sorry, Nan... Nuannuan, I've already called the dean. He'll definitely give you a satisfactory explanation."

Bian Yin's face darkened. "Director Yu, what do you mean by that? Don't tell me you think what she's doing is right and I'm wrong?"

"Bian Yin, before we bring up anything else... During our meeting yesterday, didn't we make it clear that unless someone inside requests it, no doctors are allowed to enter Mr. Feng's room?"

Bian Yin raised her chin, ignoring this issue brought up by Director Yu.

Director Yu did not intend to say anything else. He only said, "So, you can explain yourself to the hospital. I can't help you."

When Nuannuan saw that this incident was nearly dealt with, she turned around and left. As she walked, she made a call on the phone and ordered, "Get two bodyguards to guard the door."

Looking at Nuannuan's arrogant back, Bian Yin, "..."

When Director Yu saw that Nuannuan was no longer bothered by this, he turned around and left too.

Seeing Director Yu leave, Bian Yin was about to throw a tantrum when the phone on the table rang. A nurse picked it up and said, "Sis Bian Yin, it's for you."

Bian Yin picked up the call darkly. "What is it? ...hello, how can I help you? ...what?"

Nobody knew what the person at the other side of the line said but Bian Yin's face suddenly changed and her voice became shrill.

When Shao Xiaoke saw this, she could not help but worry.

“Why? She’s just an intern. Why can’t I ask her to do anything? Even if I disobeyed orders and went into Feng Shengxuan’s room, you don’t have to blow it out of proportion and transfer me away, right?”

The nurses at the nurses’ station heard Bian Yin’s words and turned pale.

Shao Xiaoke was especially stunned.

Was Bian Yin not the heiress of a third-tier wealthy family? Not even someone of that stature could stop that vixen of a woman, Nuannuan?

To be honest, Shao Xiaoke was the one who had beef with Nuannuan.

She heard that this woman called Nuannuan refused to let Director Yu make a larger resection for Feng Shengxuan. Even though Director Yu had said that such a resection could cause 99% of the tumor to relapse, she still disregarded Best Actor Feng’s life.

Shao Xiaoke was also one of Feng Shengxuan’s fans. The moment she heard that her idol had been harmed by this woman’s ignorance, she could not swallow the anger in her heart. That was why she did not tell Bian Yin that she had seen Nuannuan walking alongside the principal of the Emperor District Military Medical University and the dean of the military hospital.

After Bian Yin hung up, she glared at Shao Xiaoke angrily. “Why didn’t you tell me that Nuannuan was sent here by the Military Medical University’s principal? Why didn’t you tell me that the principal and the dean had already spoken and that the various departments weren’t allowed to order Nuannuan around? Why didn’t you tell me that the woman’s only job is to observe every surgery in the military hospital based on her mood?”
