

Physician Wife 1511

Chapter 1511: Shi Yalin's Encounter

After all, the man had already found the paparazzi and they were currently taking photos from an obscured place.

As the daughter of the Shi family, Shi Yalin was not stupid even though she had a messy private life; even though she was as drunk as a lord.

These young masters from wealthy families tried to get her drunk and then take questionable photos of her. This would ruin her reputation and they could blackmail the Shi family for her hand in marriage. Fortunately, she had experienced this way too much.

Seeing how Shi Yalin reacted so quickly even when she was drunk, the man felt slightly annoyed.

Shi Yalin looked at him with a cold smile, and the passion she had felt earlier vanished.

"You must be regretting not pushing a few more drinks on me before coming out with me, aren't you?"

Seeing the slight hint of guilt on the man's face, Shi Yalin laughed even harder.

"Initially, I wanted to sleep with you. If you're good in bed, I can consider staying with you for a while. Unfortunately, you weren't satisfied with what you got and wanted to expose me. Why don't you take a look at yourself! I'm telling you now, I'm going to marry Chi Yang. Chi Yang, you know who he is, right? He's the prince in the military; someone who can cover the sky with one hand in the future. How dare you spoil my plans?! Just wait and see. The Wu family will be destroyed!"

With that, Shi Yalin prepared to get out of the car in a huff.

However, the next moment, the man grabbed her arm.

"What are you doing?"

"Yalin, I really like you. Please give me a chance!" the man begged.

"Get lost!"

Shi Yalin was about to leave when she realized that she could not shake her hand out of his grip. The coldness in her eyes intensified.

"Are you threatening me?"

"I wouldn't dare! I really like you! I... I just want to be with you... I didn't hire any paparazzi or anything."

Shi Yalin slapped the man again.

"No paparazzi? Then, am I the one who hired these people then?"

The man looked in the direction Shi Yalin pointed at and saw that the few paparazzi that he hire had been dragged out like chickens by a few sturdy bodyguards.

The next moment, his car doors were pulled open by two bodyguards. Before the man could react, the bodyguards started beating the man up.

Shi Yalin staggered out of the car, walked up to the man, and kicked him.

"I'm way out of your league! Do you think you can get away with doing anything you want without my consent just because I got into the car with you?"

After saying that, she looked at the man lying on the ground in disgust. All of her physical urges were gone, and she said to the bodyguard, "Keep beating him up! Just don't kill him. And those paparazzi, too. How dare they take photos of me? Beat them up too!"

The bodyguard received her orders and mercilessly beat up the rich heir and the paparazzi until the nearly lifeless man could barely make a sound on the ground. Only then did they stop the assault. The bodyguards helped Shi Yalin into the car before driving away.

To prevent Nangong Nuannuan from taking revenge, Shi Yalin had brought a group of top-notch bodyguards with her no matter where she went recently.

These people were either retired special forces from other countries or top international mercenaries. They were all at least Rank-S.

Shi Yalin was also filled with regret. If she had sent these people to kill Nangong Nuannuan in the first place, the Shi family would not have been in so much trouble.

Therefore, while she hid from Nangong Nuannuan, she also hoped that Nangong Nuannuan would come at her instead.

Tonight, Shi Yalin's wish had finally come true.

When the car passed by a secluded road...

Chapter 1512: Reap What You Sow

A white limited edition Lamborghini blocked Shi Yalin's convoy.

Shi Yalin, who had been half-asleep in the car, suddenly realized that the car had stopped. Since there was another car in front of the car she was in, she could not see what was happening.

"What's wrong?"

"Miss, someone is blocking our way. It's a woman in a limited edition Lamborghini."

Shi Yalin perked up in alert.

She had been investigating Nangong Nuannuan as well. When she sent someone to kill Nangong Nuannuan that day, the enemy's red Ferrari had been damaged, so she had been driving her Lamborghini ever since.

"It's Nangong Nuannuan."

Shi Yalin's eyes lit up in a peculiar glow. Without waiting for the bodyguards to open the door for her, she pushed the door of the car open and nearly stumbled out of the car.

When the bodyguards saw this, they ran over to help her down.

Shi Yalin was accompanied by 11 bodyguards who were all Rank-S, so she was not afraid at all. She smiled and walked to the front of the car in the middle.

In front of them, Nangong Nuannuan was clad in a black leather jacket and pants. Her hair was no longer tied up in her usual innocent and cute bun. Instead, her long hair cascaded like a smooth river down her back. Coupled with the leather jacket and pants, she looked like a night fairy. Even Shi Yalin could not take her eyes off her.

When Shi Yalin finally returned to her senses, the hatred she had for Nangong Nuannuan intensified.

All this while, Shi Yalin was convinced that she was the top socialite in Camino. The Shi family's status was close to that of the Nangong family, surpassing the Ning family that was constantly in chaos, and the Xiao family whose family had been going downhill in recent years.

However, Nangong Nuannuan's appearance swerved them off this path. Not only was Nangong Nuannuan prettier than Shi Yalin, but Nangong Nuannuan's net worth was also higher than hers. Furthermore, Big Brother Chi Yang loved Nangong Nuannuan.

Recalling the way Chi Yang looked at Nangong Nuannuan as he held her hand, Shi Yalin's heart burned with jealousy so much that she would burst into flames if she could.

Even though her private life was a little messy, she was a socialite from a prestigious family. Which socialite did not have a messed up socialite? However, Shi Yalin knew that her feelings for Chi Yang were sincere and she was deeply in love with him. Other men were nothing but friends with benefits that she would not even look at twice after she got out of bed.

However, Chi Yang, whom she loved deeply, whom she had sworn to marry since young, was now with this woman.

Even if the Shi family and the Nangong family did not have any old grudges, she would never let this woman who obstructed her off.

"Miss Nangong, what does this mean?"

Nangong Nuannuan leaned against the car door, one of her legs slightly bent as she leaned one foot on the car door behind her. Although she was an extremely beautiful woman with long, flowing hair, she possessed the suaveness of a man right now.

Nangong Nuannuan smiled. "Is it possible Miss Shi is unaware of what this means? I have a video here. I believe Miss Shi will understand after watching it."

After saying that, Nangong Nuannuan tapped on the phone screen and turned up the volume. On the screen, the Shi family's warriors tried to kill Nangong Nuannuan, but Nangong Nuannuan had used a silver needle on one of them to gain control over his brain functions. The warrior then revealed that Shi Yalin was the one who sent them to kill Nangong Nuannuan.

Shi Yalin's eyes narrowed. She did not expect the so-called suicidal warriors trained by the Shi family to be so unreliable.

Afraid that Shi Yalin would not admit it, Nangong Nuannuan continued, "I originally believed his words, but to avoid slandering Miss Shi, I made it a point to check the bank accounts of these people who died."

Chapter 1513: Leave Your Life Behind Here

"Their families received three million bucks each in compensation. It seems like the Shi family treats their sacrificial warriors pretty well. They're not risking their lives in vain to protect you. At least their lives are worth three million yuan."

When the bodyguards heard Nangong Nuannuan's words, there was a doubtful flash in their eyes.

After all, in the contract they signed with the Shi family, they should obtain 60 million in compensation if they died while their normal annual salary would be 6 million. Otherwise, with their Rank-S status, they would not have come to the Shi family as bodyguards.

However, Shi Yalin had no intention of letting Nangong Nuannuan leave alive today. She believed that the evil woman, Nangong Nuannuan, would definitely not let Shi Yalin off easy since Nangong Nuannuan was the one who approached Shi Yalin. Therefore, Shi Yalin admitted everything generously.

"That's right. I was indeed the one who hired someone to kill you. Unfortunately, I didn't know that you can actually fight. Not only did I fail to kill you, but our Shi family lost so many men of sacrifice, and you even got that piece of land. How infuriating!"

Nangong Nuannuan smiled. "The fall of those five people from your Shi family was also my doing."

When Shi Yalin heard this, her breath got caught in her chest out of anger.

Initially, Fourth Uncle had said that Nangong Nuannuan was the reason the five members of the Shi family fell from grace. However, she did not believe him because she refused to admit that Nangong Nuannuan was that skillful.

However, now that Nangong Nuannuan said this, Shi Yalin had no choice but to believe her.

"Nangong Nuannuan, you're really something!"

The corners of Nangong Nuannuan's lips curled up slightly, and a smile blossomed like a beautiful and elegant red spider lily in the dark night.

"I have many tricks up my sleeve. The ones I'm currently using on your Shi family are just minor tricks."

Nangong Nuannuan did not think that she was lying to Shi Yalin at all. After all, for her to be able to stand at the pinnacle of the world at such a young age, she was definitely not someone a minor socialite like Shi Yalin could compare to.

Although the Shi family had deep roots, it was nothing to Nuannuan.

Although destroying the Shi family could not happen overnight, it was not difficult at all. If not for the increasing number of people she cared about and was afraid that something would happen to the people around her, Nangong Nuannuan would have already killed the Shi family under normal circumstances.

“Looks like you have a lot of tricks up your sleeve. Even my father fell for your tricks.”

“Your father didn’t fall for my tricks. He’s stupid, and he’s a little b*tch. He obviously knows that the land would appreciate in value, but he didn’t bid the full amount just so he could save that mere 60 million. Let’s say, if he bid the highest amount possible, or if I bid the same amount, the auction for that land would have been invalid too. At least you’d have a chance to start over, but now, it feels as though you’re presenting me with such a big piece of land on a silver platter. So, you can’t blame me.”

Looking at Nangong Nuannuan’s expression, which seemed to say, “You guys are stupid and dumb; I’m just taking advantage of you.” Shi Yalin gritted her teeth angrily.

Thus, she said with a twisted expression, “That’s right. If I had killed you back then, our Shi family wouldn’t have to go through so much trouble. However, Nangong Nuannuan, you really don’t know how to give yourself a way out. You clearly know that I have a convoy, yet you still insist on coming to find trouble. So, don’t blame me for being ruthless. After all, you can already cause so much trouble if I let you live for a few more days. If I don’t kill you this time, our Shi family might face even more problems in the future. Since you’re here, then stay.”

Almost as soon as Shi Yalin finished her sentence, her bodyguards surrounded Nangong Nuannuan and took out their guns.

Chapter 1514: Queen

Shi Yalin had two bodyguards protecting her, so she was not worried at all.

Seeing that Nangong Nuannuan was surrounded, Shi Yalin crossed her arms in front of her chest and teased, “Nangong Nuannuan, what’s that saying on television? Oh, instead of walking on the path to heaven, you barge into the doorless hell instead. Originally, the hatred between us shouldn’t have grown so wild, but you just had to provoke my Brother Chi Yang. I’ve taken a fancy to this man since I was young, so how could I let a socialite who came out of nowhere stain him with your touch?”

Hearing Shi Yalin talk about her Big Brother Chi Yang as though he belonged to the Shi family, Nuannuan’s smile froze on her face.

Without another word, Nuannuan moved.

With a 360-degree turn, before Shi Yalin could see clearly, a few black things rolled toward her.

When she saw what was rolling on the ground, Shi Yalin thought she was hallucinating. She immediately looked up at the Shi family’s Rank-S bodyguards.

At that moment, while they all seemed to be suspended in the stance of holding their guns, their heads were gone. The arteries on their necks burst open as fresh blood spurted out like a massive fountain, dying the ground red.

Several seconds passed before the headless bodies started collapsing to the ground with subsequent thuds.

“Argh—”

Although Shi Yalin had seen murder before, this was the first time she had seen such a gruesome murder scene.

Most importantly, they were all Rank-S bodyguards hired by the Shi family!

How could it be so easy? In less than a second, this woman destroyed Shi Yalin’s defenses?

Nine people!

All of them died before Shi Yalin could react.

This was simply...

Fear was not enough to describe the fear in Shi Yalin’s heart.

Seeing that Nangong Nuannuan had killed so many people in the blink of an eye and was still smiling brightly, Shi Yalin finally remembered what Fourth Uncle had told her.

In the 14 years that Nangong Nuannuan had been abducted, no one knew what she went through. When she reappeared 14 years later, not only had she become the little princess of the Nangong family, but she also had the support of Tianheng Holdings, in which its prestigiousness could come eye to eye with Fortune Group. Nangong Nuannuan must not be underestimated.

Yet...

Was “must not be underestimated” enough to describe her skills?

Who could tell Shi Yalin why Nangong Nuannuan was able to kill nine Rank-S bodyguards hired by the Shi family in the blink of an eye?

Furthermore, Nuannuan murdered by chopping off their heads?

“It’s... it’s... it’s you...”

Shi Yalin started to retreat when she realized the mess she was in.

The two Rank-S bodyguards by Shi Yalin’s side also felt unsettled.

As soon as an expert made a move, they would know if they were legit or not.

They recognized what Nangong Nuannuan had just done. Even if they were given enough time, they would not be able to cut off the head of a Rank-S assassin with a poker card. Even if the poker card was made of sharp edged blades, they still would not achieve that.

Not only were the poker cards too weak to cut, but it was also because if they wanted to behead someone, they would have to find the right lines.

It was just like cutting meat. If one could not find the optimal line, it would not be enough to slash the meat into pieces.

Of course, there were not many people in this world who could behead someone with this method.

Coincidentally, they were aware that such a monster existed.

That person... was the person who destroyed KE!

Meanwhile, they... were once KE's mercenaries.

Although they had never met Queen, but...

Chapter 1515: Do Not Kill Me

The bodyguards used to practice Queen's beheading before.

They practiced on real people.

Queen threw poker cards, so they threw knives. If they were lucky, they could cut their target's artery and cause death. If they were unlucky, they could only make a small cut on their target's neck.

Those who had not been in KE would not know how scary Queen was. Meanwhile, those who had been in KE, Queen was no different from the God of Death.

"Kill her! Kill her!"

Shi Yalin could sense that something bad was about to happen. She watched as Nuannuan inched closer to her in every step she took, fearlessly ignoring the two bodyguards who still had their guns pointed at Nuannuan. Shi Yalin was scared out of her wits, and she roared at the two bodyguards beside her.

However, those two bodyguards were even more scared than Shi Yalin was!

They were not afraid to fight with anyone else.

Yet, this...

It was a battle with Death!

What was the point of battling when you knew you would not even have the chance of retaliating...

"Queen... You're Queen..."

One of the bodyguards shivered as he voiced the deepest fear in his heart.

Nangong Nuannuan raised her brows, a beautiful yet bone-chilling smile appeared on her lips.

"You have good eyesight, but you followed the wrong person."

At this moment, Nangong Nuannuan had slowly walked toward the two bodyguards. Shi Yalin was right behind them.

She did not hear what the two bodyguards said, but from the looks of it, they were afraid of Nangong Nuannuan.

Shi Yalin was so frightened that she turned around and ran away. She felt that as long as she could get into the car, close the car door and windows, and drive away, she would not be caught by Nangong Nuannuan.

Bang!

With the sound of a gunshot, Shi Yalin stopped running.

That was because only her bodyguards had guns. Shi Yalin did not recall Nangong Nuannuan picking up some weapons from the ground when she moved toward her.

Therefore, when she heard the gunshot, Shi Yalin's eyes widened in anticipation, and turned around excitedly. She hoped that the first thing she saw was her bodyguards shooting Nangong Nuannuan to death.

However, one's imagination would be more beautiful than cruel reality.

When Shi Yalin turned around, she saw that one of the bodyguards had collapsed to the ground. The other bodyguard was already holding a gun to his head. When Nangong Nuannuan took another step toward him, the last bodyguard also shot himself.

The original 11 Rank-S bodyguards died in nine seconds, and the remaining two committed suicide.

No matter how foolish Shi Yalin was, she knew that she bumped into an iron plate and met a tough opponent.

"Don't... don't kill me! I... I'm the Shi family's young miss, you mustn't disrespect me!"

Nangong Nuannuan found it hilarious. "I'm the young miss of the Nangong family too. What gave you the courage to order my death then? I'm not afraid to tell you that in this world, there are only people who are afraid of being killed by me. There is no one I don't dare to kill."

Shi Yalin, "...!!!"

In the past, Shi Yalin was convinced that Nangong Nuannuan was putting on airs no matter what Nangong Nuannuan said, but now Shi Yalin realized that Nangong Nuannuan was telling the truth—Nangong Nuannuan was not just not putting on airs, but she was also keeping a low profile.

Unfortunately, Shi Yalin did not understand that.

Neither did she know Nangong Nuannuan enough.

At that moment, Shi Yalin had already retreated to the car at the front, so she pulled the door open as fast as she could, scuttled into the car before frantically locking the door.

Thankfully, the car's window was closed, so she stepped on the gas and prepared to leave.

However, the moment she stepped on the accelerator, the window shattered.

Shi Yalin screamed, but she still stepped on the accelerator, determined to escape the devil's clutches.

Chapter 1516: Shi Yalin's End

However, the moment her car dashed out, the only thing Shi Yalin felt was a strong force on her arm before her entire weight was dragged out from the window.

With a loud thud, Shi Yalin flew from the car to the wall behind her. She slammed into it and fell off the wall to the ground.

At that moment, Shi Yalin felt the approach of death.

Her body was numb from the pain, but her survival instinct still forced her to crawl up from the ground as fast as she could to escape the clutches of the evil incarnate.

However, the second she stood up and collapsed to the ground again, she realized that her leg had probably gotten scratched on the shattered glass window when Nangong Nuannuan dragged her out of the car earlier. There was a deep scar in her leg that revealed a chunk of white bone.

As the daughter of a wealthy family, Shi Yalin had never been hurt like this before.

The intense pain sent her collapsing to the ground. She tried to get up several times, but her legs hurt so much that she could not move.

Seeing Nangong Nuannuan walk towards her step by step, Shi Yalin backed away in fear as she supported her body weight on her palms.

At this point, Shi Yalin could no longer feel any jealousy or hatred toward Nangong Nuannuan.

Only then did she realize how large was the difference between her and Nangong Nuannuan was.

Now, Shi Yalin only had fear for Nangong Nuannuan.

"Please... please, don't... don't kill me! I... I was wrong..."

Shi Yalin looked at Nangong Nuannuan in horror as she pleaded with her expression.

However, Nangong Nuannuan sneered sarcastically. "Oh, Miss Shi, you know how to beg now? I thought you won't, considering how arrogant you are. You even threatened me by telling me that I refused to take the path to heaven and chose to barge into hell instead!"

"Sobs..." Shi Yalin wailed when she heard that.

Thinking about the things that she had done to Nangong Nuannuan and how Nangong Nuannuan had killed her 11 bodyguards without batting an eyelid, Shi Yalin was now convinced that Nangong Nuannuan was possessed by the god of death.

Otherwise, she could not understand why Nangong Nuannuan, who usually wore her hair in a cute bun and often acted like a demure woman in front of Chi Yang, would become like this.

"I... I understand what I did wrong now. Just... just let me go! I won't fight with you for Chi Yang's hand anymore. He... he's yours."

"Shut up!"

Nangong Nuannuan's cold rebuke made Shi Yalin shut up immediately.

"If I hear Chi Yang's name from your mouth one more time, do you believe me if I say that I'll blow your mouth into smithereens?"

Shi Yalin, "...!!!"

Tears streamed down her face, but Shi Yalin covered her mouth and did not even dare to cry.

"Shi Yalin, we don't know each other, so there were barely any grudges between us. However, just to get your hands on Chi Yang, you ordered for my death. I gave you and the Shi family a chance, a whole ten days, but you guys acted as though nothing happened. Since you guys don't think much about ending my life—so much so that the Shi family can't even show some basic respect after suffering so much—you can't blame me for reciprocating your horrible deeds. I've always believed that if you give me one foot's worth of respect, I'll return you with ten feet. Yet, if you step on my bottom line, I can only destroy your whole family."

Shi Yalin's eyes widened. She did not expect Nangong Nuannuan to be so terrifying to threaten to exterminate her entire family.

Seeing Nangong Nuannuan walk up to her, Shi Yalin did not know if there was any way for her to beg for mercy anymore.. She could only stare in horror at this monster who seemed to have walked out of Hell.

Chapter 1517: The Person Who Carried Shi Yalin

Nangong Nuannuan came to Shi Yalin's side and smiled at her.

"Don't worry, for the sake of the Nangong family, I won't massacre your entire family for the time being. However, that will depend on whether your family acts sensibly after this. If not, I really don't mind making the entire Shi family disappear off the face of the earth."

Then, Nangong Nuannuan's tone changed. "But you, even if I don't plan to kill you, you'll lose a layer of skin! Who asked you to covet my man and still want me dead? However, since I'm someone who turned over a new leaf, I'll spare you your life. I'll let you live in a conscious but comatose state forever—you'll sense everything around you, but you can't look, can't speak, and can't move... You'll be what is commonly known as the living dead!"

"No... No... You can't do this to me! You can't..."

Seeing that Nangong Nuannuan had already extended her hand, Shi Yalin subconsciously reached out to stop her. However, Nangong Nuannuan flicked her hand away.

"Argh!"

Shi Yalin let out an ear-splitting screech.

She realized that the hand that she reached out earlier was now bent in a weird way, and a few fingers had been pulled back at a 90-degree angle. The excruciating pain sent her wishing that she could die.

Shi Yalin watched as Nangong Nuannuan pulled out a long and thin needle from her wrist. Shi Yalin's eyes widened in an instant.

This woman...

Shi Yalin thought that Nangong Nuannuan was merely wearing an exclusively designed bracelet. Never did Shi Yalin expect Nangong Nuannuan to bring along something so lethal on her body like that.

“Nangong... Miss Nangong, please... please spare me! I beg you! Please spare me! I really know how wrong I was now.”

“No, it’s not that you know you’re wrong; you just know how to be afraid now. If I was just a normal socialite, I would’ve died on the mountain that day. The fact that I didn’t die means that I’m amazing, but that doesn’t mean that you’re soft-hearted or that you realize you’re wrong. Even just now, I merely wanted to beat you up, but you had all the intention to kill me. So... I’m sorry, Miss Shi.”

“Argh!”

Accompanied by a pitiful scream, a few silver needles pierced into Shi Yalin’s nervous system at an extremely fast speed, destroying it.

After the intense pain, Shi Yalin could no longer get up.

She could sense what was going on around her, but she could not move; could not open her eyes; could not speak, and could not even move her fingers.

Shi Yalin was so scared that she wanted to cry, but to her horror, she realized that it was far-fetched for her now.

She heard an engine roar. It was Nangong Nuannuan’s Lamborghini.

The car sped away, leaving behind dead silence.

Shi Yalin lay helplessly on the ground as she listened to her phone ring in the other car. She knew it was her family calling her, but she could not answer.

Thinking about how she was going to spend the rest of her life in this dark fear, Shi Yalin was scared to death. She could not even pee even if she wanted to.

She knew she was wrong. She truly knew she was wrong.

She did not provoke a love rival, but a maleficent existence.

She finally understood that there was always someone better than her. Even though she was the daughter of a rich family; even though she had many bodyguards around her, they were no match for someone stronger than a Rank-S killer.

After god-knows how long, Shi Yalin suddenly sensed that someone picked her up.

Shi Yalin started to feel anxious..

Chapter 1518: Strange Conversation

Shi Yalin’s anxiety was justified—if it was someone from her family, they would definitely call out to her or yell her name, so that she could hear their cries.

However, the person did not call her. The person merely picked her up and placed her in the car.

When she was held in the man's embrace, Shi Yalin instinctively felt a sinister and dangerous presence. This presence was similar to the one she had felt when facing Nangong Nuannuan, and it gave her the feeling of meeting Death himself.

However, in her current state, what reason could he have by taking her away? Where was he taking her?

She sensed that there was only one person in the car as he put her into the car...

Could he have seen that she was unconscious and wanted to rape her before dumping her body?

Shi Yalin was shocked by her own thoughts, but there was nothing she could do to avoid that. She could only wait quietly for the worst fate to arrive.

Her beautiful life had been completely ruined. Shi Yalin only hoped that this was a nightmare.

When she woke up from this nightmare, she would open her eyes once more, and she would still be the rich daughter of the Shi family.

However...

This wish would never come true for her.

The car stopped. Shi Yalin could not know where the car stopped. All she knew was that there was silence.

Suddenly, the man who carried her into the car spoke.

"I've already made my investigations. This woman's surname is Shi, and her name is Shi Yalin. She is the daughter of the Shi family, one of the wealthiest families in Camino. Although the Shi family isn't considered a military family, Shi Yalin's father, Shi Maode, is the chairman of Fortune Group. Her second uncle, Shi Maocheng, is the director of the Medic Association Hospital. Her third uncle is Lu Guangsheng, the head of the south-eastern division of the military base. Her fourth uncle is currently the 13th officer in Camino's executive hall with a high chance to become the next president. The Shi family's grandchildren are all boys, leaving Shi Yalin the only granddaughter. Everyone dotes on her, so she's a pretty good host."

Shi Yalin heard the man's words and was surprised that he knew her identity. Her first response was to feel relieved.

After all, once they knew who she was, no one would dare to harm her other than that demon, Nangong Nuannuan. Even if they had any ill intentions toward the Shi family, they would at most use her to blackmail the Shi family.

However, when she heard the last sentence, Shi Yalin's heart skipped a beat.

What did he mean by "she's a pretty good host"?

Before she could figure out what was going on, the man spoke again.

“You have no choice. Even though she isn’t as pretty as you, she comes from a good family.”

Shi Yalin, “...”

Who was that man talking to?

Why was she able to hear the man clearly but not the person he was talking to?

The thought of the word ‘host’ gave Shi Yalin goosebumps.

In her free time, Shi Yalin loved to watch movies especially when she had nothing better to do. She loved to watch all kinds of movies, and horror movies were one of her favorite genres.

Not only did the man say that she was a host, but he was the only person that Shi Yalin could hear. It was clear that he was talking to someone else.

Did that not mean...

A scary thought surfaced in her mind.

In both horror films and fantasy films, there was a term called ‘possession’. It would allow a soul to destroy another soul and then occupy the original host body.

So...

So, she had just escaped the clutches of Nangong Nuannuan’s murder, and now she was thrown into another incident where supernatural occurrences were involved?

“It’s no use crying to me. You know that under the suppression of this world’s natural laws, my power has reached an all-time low..”

Chapter 1519: Soul Possession

“I’ve already told you that I can’t refine a body for you anymore. You’re fortunate enough to be able to find a host body from such a prestigious family. If you don’t even fancy her body, then there’s probably no body in this world that you’d fancy.”

Shi Yalin, “...”

At that moment, she was one hundred percent sure that someone had targeted her body. This man was helping another soul to possess her.

What should Shi Yalin do?

What could Shi Yalin do?

To outsiders, she looked like a comatose person who could not open her eyes, cry, or sense anything, but she could clearly feel everything that was happening outside!

She was only 18 years old!

She did not want to die yet!

Shi Yalin was scared out of her wits. She could only listen to their conversation with bated breath. After all, from the looks of it, the other soul did not seem to want to enter her body.

“Nangong Nuannuan? Stop dreaming. The souls of Chi Yang, Feng Shengxuan, Nangong Nuannuan, and Bai Liyue aren’t something that I can touch. If I could, I would’ve done so long ago. So, stop having such unrealistic thoughts. This Shi Yalin’s family is the Nangong family’s enemy. Sooner or later, the two sides will clash.

“So long as you become Shi Yalin, you’ll be able to get your hands on the research results from the Shi family’s Medic Association Hospital and continue the research on our test subjects. Once the Shi family becomes stronger, we’ll be able to use them to control Feng Shengxuan better. He doesn’t even trust me now. It won’t be easy for me to do anything. Therefore, only when you become the precious daughter of the Shi family will we be able to tamper around in secret. Only then will Feng Shengxuan and Chi Yang start fighting between themselves to the death.”

Heavens! What did Shi Yalin hear?

What or who in the world had she encountered?

The man wanted to kill Chi Yang and... Feng Shengxuan???

Feng Shengxuan was the Best Actor and the chairman of Imperial Phoenix Group. He was completely unrelated to Chi Yang. Why did this man want them to fight each other?

Forgive Shi Yalin for she had not mastered the languages.

Did “start fighting between themselves” not hint that people who were close to each other started fighting each other after some sort of bridge had been burned?

Who was this man? What did he plan to do?

“Since you’ve agreed, you must excel in being Shi Yalin. You saw how Nangong Nuannuan had caused her to end up like this, so even if you’re awake, you have to be afraid and fearful when facing Nangong Nuannuan. Otherwise, the intelligent woman would definitely be suspicious, understand?”

Hearing that, Shi Yalin’s heart skipped a beat.

Whoever it was... Would they be trying to possess her?

What... what should she do? What should she do?

Shi Yalin had never thought that she would end up in such an unbelievable situation. However, she had no choice but to believe in those strange and crazy things now that the arrow was nocked on the bow.

Possession... She tried to recall what usually happened when a possession took place on television. After being possessed, could she keep her consciousness from being completely occupied?

Since the other party knew how to possess someone, they would not keep Shi Yalin alive. Then, what should she do? Disappear?

No! She refused to do that!

She could understand why Nangong Nuannuan chose to turn her into a vegetable because Shi Yalin was the one who had sent people after Nangong Nuannuan first. Yet, what right did the person have to enter her body?

This was her body, so why should the person use her identity?

“Okay, brace yourself.. Once I give the order, you’ll rush into her body.”

Chapter 1520: You Are Not A Demon Yet

The man then placed his hand on Shi Yalin’s temple.

Shi Yalin, whose consciousness was originally shrouded in darkness, suddenly felt a fog that was even darker than the darkness inside her body seep in. The fog approached her, and she felt a piercing pain.

She wanted to scream, but she could not. She could only resist desperately.

“Ha, Nangong Nuannuan is really cruel. She beat this girl up so badly but didn’t bother turning her into a complete vegetable.”

The man’s voice rang from outside again.

“I’m guessing she wants Shi Yalin to be unable to move, but she wants her to sense everything.”

...

“That’s right. Other than being unable to stand up and speak, she’s perfectly conscious.”

...

“Don’t worry. It might be a little difficult, but remember who you are. Are you afraid that you won’t be able to handle a host’s consciousness once you enter her body? If that’s the case, there’s no need for you to be reborn.”

...

“I’ll help you weaken her will, and you can sneak in when she’s in pain. Since she’s the host, you won’t feel any pain before you take full control over her body. You only need to focus on devouring the host’s consciousness.”

Before Shi Yalin could think of how the man would weaken her will, she felt a jabbing pain that she felt in the deepest depths of her heart.

The horrible man had twisted another one of her fingers until it broke, then restored it to its original state before breaking it again. Then, he repeated the same thing on another finger.

Shi Yalin was in so much pain that bleakness overwhelmed her consciousness while hatred surged in her heart.

At that moment, she suddenly felt an even more piercing pain in her heart. No, the pain was targeting her head.

A domineering dark light with a tinge of white entered her body.

Shi Yalin witnessed the white light clearly as it started to invade her body as soon as it entered.

At that moment, an annoying female voice resonated in her ears.

"I advise you to stop struggling because struggling is useless. It will only increase your pain. Give me your body, and from now on, I'll live on your behalf in this world. I'll help you take revenge and kill that b*tch Nangong Nuannuan. What do you think?"

Shi Yalin could not see what this person looked like, but when it came to hating Nangong Nuannuan, she would rather hate Nangong Nuannuan herself. When it came to taking revenge on Nangong Nuannuan, Shi Yalin was willing to watch the Shi family deal with Nangong Nuannuan herself.

However, after the confrontation with Nangong Nuannuan earlier, Shi Yalin had already started to cower. She did not want revenge anymore. She would rather live like this in the future so the Shi family could live in peace; she was okay with them taking care of her like this for the rest of her life. She would rather be in bed for the rest of her life than give her soul away.

"Oh? You'd rather be in bed than hand over your soul?" The white light suddenly laughed mockingly.

Shi Yalin was shocked. How did the invader know what she was thinking?

"Because we're now in the same body. You know everything that I say and think, and I know what you're thinking. So, don't resist. Be a good girl and wait for me to consume your soul. When I'm done, I can help you live."

"In your dreams! Even if I die, I won't let you take over my life, you demon!"

"Tsk ts, you make it sound like you're not a demon yourself."
