

## Physician Wife 1551

### Chapter 1551: Subordinate of Phoenix Pavilion

The man pointed at Nangong Nuannuan and the other two, who were all still standing by the passenger ship, and said, "They bullied my son on the ship and argued with us. After getting off the ship, they caught up with us and tried to kill us. They're martial artists, and they killed all thirty of my bodyguards! You have to help my family! These people actually dared to kill the citizens of Naboo on Naboo territories. They're simply too arrogant! Such people should be sentenced to death!"

When the man pointed at Nangong Nuannuan, the crowd cleared a path for him.

When Dai Wei saw who the man was pointing at, his pupils suddenly contracted. He quickly walked over and stood before Nangong Nuannuan, smiling politely and asking, "May I ask... Are you Chairman Nangong?"

The man, "..."

The fat woman, "..."

The crowd, "..."

What was going on?

Could it be that these people had a better background than this man and woman?

Once Nangong Nuannuan nodded, Dai Wei immediately stretched out his hand. "Hello, hello. I'm Naboo's Minister of Foreign Affairs. My name is Dai Wei."

Nangong Nuannuan smiled slightly, reached out her hand, and gently shook Dai Wei's before separating.

"Hello, Minister Dai Wei."

"This is such a surprise visit! You didn't even inform us beforehand. President Wei Du simply heard that you showed the people an invitation letter at the dock, so he ordered me to hurry over from S City where I was working."

"There's no need to be so polite. It's just a meal. I can go to the presidential residence by myself."

"How could we let you do that? You're President Wei Du's distinguished guests, and you'll be treated as such! This way, please!"

It was Dai Wei's first time seeing Nangong Nuannuan too. While he was shocked by her beauty, he also wanted to welcome the arrival of this god of wealth. Hence, he forgot about the existence of the fat woman's family for a moment.

However, only he had forgotten. Nuannuan would never forget.

After taking a few steps, the man noticed that something was wrong and deliberately shrank back. However, just as he let out a sigh of relief, the group of people suddenly stopped in their tracks.

“Chairman Nangong, is there anything I can help you with?”

Nangong Nuannuan smiled faintly. “Of course.”

After saying that, she turned to look at the man whose face had already turned pale from fright and said, “This person bumped into me on the ship and threatened me by saying that he wasn’t someone to be trifled with. He said he wanted me to never return home. When I got off the ship, he brought thirty people over to kill me. He threatened to beat me to death! Just now, I saw that you seem to have a good relationship with him. May I ask what kind of business this man is in?”

Nangong Nuannuan’s words were light, and her voice was gentle and pleasant. However, anyone hearing them felt a chill run down their spine.

When Dai Wei heard this, his mouth could not help twitching a few times. Instead of answering, he asked, “Chairman Nangong... You don’t know him?”

Selina could not help but sneer, “Who is he? Is he very famous? He has such greasy hair and a large intestine for a brain! Don’t tell me he’s a celebrity!”

Selina’s vicious words made Dai Wei’s mouth twitch again. He glanced at the man whose face could no longer be described as pale, then at the woman beside him who looked as if she had seen a ghost. Only then did he awkwardly begin speaking.

“Isn’t... isn’t this a subordinate from your Imperial Phoenix Group?”

Nangong Nuannuan, “...”

Dan Qi, “...”

Selina, “...”

“Before this, I was fortunate enough to be able to attend the annual meeting organized by the general manager of Phoenix Pavilion in Naboo, Lyons.. That’s where I met him.”

## **Chapter 1552: Nangong?**

“If I remember correctly, he should be the person in charge of the supply of raw stones in Phoenix Pavilion in Naboo. His name is Shi something... I remember him because he mentioned that he’s a member of the Shi family, one of the Four Dominant Familines in Camino.”

Nangong Nuannuan looked at the man. “A member of the Shi Family?”

At this moment, the man already knew that he was completely finished. Under Nangong Nuannuan’s questioning gaze, his legs went soft and he fell to the ground on his knees.

“Chairman... Chairman, I’m too dumb to have not recognized you, thus offending you. Please... Please forgive me this time!”

“Do you know my surname?”

That man hurriedly nodded. “I didn’t know before, but now I do. Your surname is Nan... Nangong?!”

That man widened his eyes and looked at Nangong Nuannuan in shock.

Damnit!

What did he discover?

The chairman of Imperial Phoenix Group, Miss Q, actually reverted her surname to Nangong?!

The Nangong family had ever only acknowledged one daughter, so... the chairman of Imperial Phoenix Group was actually Nangong Nuannuan, the daughter of the Nangong Family?

The nature of this piece of news was simply too explosive.

It bombarded the man's head to the point of ultimate destruction.

Did that mean he ordered someone to beat the bigshot of Imperial Phoenix Group and the daughter of the Nangong family to death?

He had been in the Naboo for so many years, and only now he realized that he had been doing odd jobs for the Nangong family all these while?

"Dan Qi."

"Big Sis."

"Hand this person over to Lyons. Someone who's merely in charge of Phoenix Pavilion's raw stone supply department is set on ending our lives and he has so many hired thugs under him... Investigate him! Get him to return the exact amount he embezzled from Imperial Phoenix Group."

Dan Qi peered at the blind old thing from the corner of his eyes. Then, he could not help but say, "I can see that his intestines are about to explode from all the food he's been eating. He's probably caused quite a significant loss to Phoenix Pavilion. If we demand him to compensate, I'm afraid that he won't even be able to return the money even if we cut off all his meat and sell!"

"If he can't afford to return our money, then let the Shi family pay in his stead. Isn't he a member of the Shi family?"

When the man heard that they were about to ask the Shi family to pay for him, he was instantly horrified. On all fours, he crawled in front of Nangong Nuannuan. He wanted to grab Nangong Nuannuan's ankle, but Selina kicked him away.

"Get lost!"

"Chairman! Chairman, please do me a favor. On account of my many years of hard work for Phoenix Pavilion, please spare me this time! I'm merely a collateral relative of the Shi family; the Shi family won't help me!"

Seeing that Nangong Nuannuan did not want to bother with him anymore, Dai Wei immediately ordered, "Quickly arrest this person and his family. Naboo will never tolerate this kind of ingrates. Dispose of the dead bodies on the ground!"

"Yes, sir."

“Chairman Nangong, I’m really sorry to let you go through such an awkward situation the moment you arrived.”

“It’s nothing. This is also our own fault.”

Dai Wei might have given the man some respect on account that he was a senior executive of Phoenix Pavilion. Yet, now that he had offended his own chairman, this kind of person had no value to Dai Wei anymore.

Ever since the fat woman found out that the person she had offended was the chairman of Imperial Phoenix Group, her arrogance had completely disappeared. She fell to the ground and let the soldiers drag her away.

She knew that their family was finished.

If she had known earlier, she would have asserted more control over her kid, so that he would not grab the melon seeds from Nangong Nuannuan’s table.

Originally, Nuannuan’s main reason for coming to Naboo was to contact her Big Brother Chi Yang. Who knew that crossing the international borders properly would end up so troublesome? It alarmed Wei Du immediately.. Under Dai Wei’s lead, Nuannuan and the other two could only go to Naboo’s capital, City A, first.

### **Chapter 1553: Kill Nangong Nuannuan**

The news of Nangong Nuannuan’s arrival in Naboo spread like wildfire. At this moment, the people inside Wei Du’s private meeting room had already been divided into two factions due to disagreements.

Wei Du sat in the main seat without saying a word as he listened to the arguments between the two factions.

“In short, I firmly oppose you all taking action! Nangong Nuannuan must not be killed! Do you think Imperial Phoenix Group is the same as those so-called conglomerates in our country? Imperial Phoenix Group is a super conglomerate that has spread throughout the entire world. Even in Sab, no one dares to say that they want to destroy Imperial Phoenix Group! Not to mention that Nangong Nuannuan is also the daughter of the Nangong family in Camino. If you kill Nangong Nuannuan, do you honestly think the Nangong family will let it rest? You’re simply digging a hole for Mr. President!”

“If we don’t kill her, what do you think we should do? Pang Long stole all the resources from the national treasury. Forget about fighting a war, in another half a month, our economy will collapse. At that time, before we talk about fighting Pang Long, even the saliva of the common people could drown us.

“At that time, Phoenix Pavilion of Imperial Phoenix Group took advantage of the civil strife in our country to continue acquiring 37 super large-scale mines and river beds in our country. Most of the mines and river beds that other merchants bought were useless resources, but what about the ones they bought? Over the years, they only mined seven of them, and there were real treasures below all of

them. Hu Li, as the president's military advisor, have you calculated how much of the rare resources that Phoenix Pavilion has mined from our country over the years?

"Now, the resources of our country, especially raw stones, are all sold to merchants in various countries through the form of public auctions. Imperial Phoenix Group is the only one that mines directly from our country. Just the raw stones alone, we should've earned a lot, not to mention that the mines and riverbeds that Imperial Phoenix Group had bought all contain real diamonds and precious jade. For them to have managed to become one of the top three super conglomerates in the world in a single leap, how much of that is the result of the original resources that they dug out from our country?

"Right now, they still have a total of 30 mines and riverbeds that they haven't truly mined. If we can completely convert their employees and make them stay here, then the treasures under these 30 super large mines and riverbeds will all be ours. Not only will we have the money to fight Pang Long, but we can also use this money to bribe the higher-ups of Sab and Camino, asking them not to pursue this matter."

After saying that, that person looked at Wei Du and bowed, "Mr. President, we finally managed to drive Pang Long out of office. Are you willing to hand over your presidential seat to Pang Long after going through such great difficulty?"

"Dan De!" Military Advisor Hu Li roared and berated the man. "Why are you giving the president bad ideas? Don't you know what kind of family the Nangong family is, huh?! Even though the president of Camino was Commander-in-chief of three armies, how many of the generals under his command were from the Nangong family? You might've missed the fact that it'd be very likely that we'd take a huge blow from Camino if we angered the Nangong family. Before that, just think about Nangong Nuannuan. Do you think that an ordinary girl who's barely 18 years old can develop a super conglomerate like Imperial Phoenix in just a few short years? Don't forget that Imperial Phoenix is given the privilege of doing whatever they want in Sab before this too. Are you sure you want to claim that they don't have their ways in Sab?

"We're indeed short of money now, but we aren't going to lose our lives yet. However, if you use some underhanded methods to kill Nangong Nuannuan and the other two vice presidents of Imperial Phoenix, then we won't just have to deal with Pang Long's hostility. We'll also have to deal with the Nangong family's revenge and the unknown forces in Sab.. Oh, and the royal family of Luntan. So, do you intend to make the president an enemy of the world?"

#### **Chapter 1554: The Shi Family's Visit**

Hu Li's words silenced Dan De. In the end, he said in a rather weak voice, "The president of Camino's term is about to end soon, and the Nangong family is also overwhelmed. If we kill Nangong Nuannuan, the person sitting at the top of the pyramid in Imperial Phoenix Group will be gone, and the various countries will definitely try to divide the assets under their name. Why would they care about us?"

Hu Li scoffed coldly. "Do you think Feng Shengxuan is dead? The reason Imperial Phoenix becomes what it is today is all thanks to him!"

“Yet, Nangong Nuannuan is the de facto chairman of Imperial Phoenix Group! She managed to make Feng Shengxuan willingly be the vice president; she made Imperial Phoenix Group a dominating existence in various countries. That is enough to show that Nangong Nuannuan is the core member of their conglomerate. As long as Nangong Nuannuan’s dead, Imperial Phoenix will definitely fall into internal strife. When that happens, who’ll have the time to care about Phoenix Pavilion, an insignificant branch under Imperial Phoenix?”

“Utter fool!” Hu Li had no intention of talking to Dan De anymore. He looked at Wei Du and said, “Mr. President, although Nangong Nuannuan is young, you mustn’t underestimate her at all. You mustn’t do anything to hurt her. Otherwise, you’d be going for wool and come home shorn.”

Sitting above them, Wei Du observed the arguments without saying a word.

That was because his heart was wavering along with the people’s words too.

Naboo possessed the most jade mines and gem mines. Five years ago, Imperial Phoenix Group bought up dozens of super large mines and riverbeds in Naboo and excavated a large amount of rare jade, diamonds, and gemstones. It was then that Naboo regretted selling those mines. Naboo finally started to manage its mineral resources and no longer sold them to outsiders. Even so, the number of gemstones sold by Naboo in the past few years just could not compare to the amount mined by Phoenix Pavilion.

He did so much to kick Pang Long down. At this critical juncture, Wei Du needed the support of more people, which meant that he needed a lot of money. Taking all of that from Imperial Phoenix was the most effective method.

However, he also knew that Imperial Phoenix would never give him what he wanted easily. Hence, he thought he wanted to end the bigshot controlling Imperial Phoenix during this banquet.

Even so, he hesitated when he found out that the boss of Imperial Phoenix was the young miss of the Nangong family.

Now, Nangong Nangong had already brought Selina and Dan Qi to Naboo. She would be able to meet him in two hours. However, he had yet to come to a decision...

At this moment, someone knocked on the door and came in. Then, he whispered something into the president’s ears.

President Wei Du stood up and said to his board of cabinet ministers, “Continue your discussion. I’m meeting someone outside and will return with an answer.”

Wei Du followed the guard and entered a reception room.

Inside the guest room, a middle-aged man in a suit was sitting with a smile on his face. The two people beside him were sweeping the room with some sort of detector.

Wei Du’s expression darkened. “Mr. Shi, the conference room we arranged for you is a private one. There won’t be any recordings or videos from inside here.”

Noticing Wei Du’s displeasure, the man did not apologize for his rude behavior. Instead, he waited for the two assistants beside him to finish sweeping the room before saying, “President Wei Du, you might

not know this, but a few super hackers appeared in Camino recently.. They can use satellites to intercept the image of the person directly and then, locate their target's cellphone through the image."

## **Chapter 1555: Legitimate**

"Even if your phone is turned off, they can hack into your phone and steal the content of your conversation. This way, they can often catch people red-handed along with the evidence of their crime. So, I wasn't checking if there are recording devices in your reception room just now. I was ordering my people to shield the entire meeting room. The content of our conversation will stay between us, so we don't have to worry about being hacked."

Wei De blinked in confusion.

"Is that true, Mr. Shi? Don't things like that will only happen in the movies?"

The person called Mr. Shi laughed. "Everyone says that art comes from life. Without real life, what would inspire movies?"

Wei Du was profoundly shaken by the man's words.

"Thank goodness those hackers that you mentioned didn't come to me, Mr. Shi."

"If they have their eyes on you, they'll know what's happening here with you without ever coming to Naboo."

Wei Du, "..."

"As the saying goes, 'one can pilot a thousand-year ship and won't sink if one's careful.'" With that, the man extended his hand to Wei Du and introduced himself. "Let me introduce myself. I'm Shi Zhongcheng from the Ministry of Internal Affairs in Camino's executive hall. I'm also a member of the Shi family—one of the Four Dominant Families. I'm very happy to meet you, Mr. President."

Wei Du extended his hand in return. "Hello, hello. Everyone knows the Shi family from Camino. It's an honor to have you here in Naboo, Mr. Shi. Please take a seat."

"Mr. President, you've been busy fighting Pang Long recently. It seems like the situation is getting worse in Naboo." Shi Zhongcheng did not beat around the bush and went straight to the point.

"Mr. Shi, are you representing the Shi family? Or are you representing the highest executive hall in Camino?"

"It depends on what you're offering, Mr. Wei Du." Shi Zhongcheng smiled.

"As far as I know... Your country has given the leader of Eagle Special Forces, Chi Yang, the power to negotiate. I wonder if it'd be useless for me to negotiate with you, Mr. Shi?"

Shi Zhongcheng smiled but he was not angry. "Let me be honest. Lieutenant General Chi is also of a higher rank than me, and he was ordered to come here. However, as the leader of Eagle Special Forces, he naturally has to prioritize the safety of our citizens and assets, followed by the negotiation. It can be said that he has done a very good job in protecting our citizens. Of course, this is also thanks to your

country's support that our people are able to retreat to Camino in such an orderly manner during this chaotic war.

"I can also guess that Lieutenant General Chi Yang must have stayed put without coming to see you, nor did he go looking for Mr. Pang Long. He intends to observe the situation on both sides. After all, this matter is Naboo's and not others. Therefore, it isn't appropriate for our country to interfere too much. To put it bluntly, whichever one of you wins, we'll just stand on the winner's side. After all, both of you will have been President at least once."

Shi Zhongcheng had been staring at Wei Du while he spoke. After noticing that Wei Du's expression had turned grave, Shi Zhongcheng continued, "I know that your situation is a little awkward for now, Mr. President. So, if I can convince the executive hall, even if our President intends to hand this matter over to Chi Yang, he will have no choice but to let go. This way, as long as we, Camino, support you, your position will be legitimate."

Wei Du's eyes glinted ever so subtly but he did not wish Shi Zhongcheng to discover his interest. Wei Du answered, "I'm very grateful for your help, Mr. Shi. But you and I aren't related in any way, so why are you helping me? What does Mr. Shi want from me?"

A small smile appeared at the corner of Shi Zhongcheng's lips. "Mr. President, you're a sensible person.. Working alongside sensible people is the best."

#### **Chapter 1556: Agreement**

"As we all know, although Naboo is small, it is rich in mineral resources. As long as the President can allocate us the mining rights for 10 mineral veins, consider this done!"

When Wei Du heard the request for ten mineral veins, his eyelids twitched a few times.

To tell the truth, at this moment, Wei Du really wanted to chase the man out. The man was asking for too much. Like a lion that opened its jaw wide, the man tried to take advantage of Wei Du's illness and take his life. Once Wei Du handed over the 10 mineral veins, thousands of accusing fingers would point at him even if he obtained Camino's recognition. The people of Naboo would probably blame him to the core.

However, the first thing he thought of was Imperial Phoenix Group—the super conglomerate that purchased 27 of their mineral mines when Naboo was still very backward and clueless. At that time, Naboo was just about to start developing its economy.

Wei Du originally did not want to do anything to Nangong Nuannuan, but after hearing Shi Zhongcheng's suggestion, he instantly felt a chill down his spine. One would do anything when prompted by anger—Wei Du made a perfect decision in his heart.

"10 mineral veins are too much. It's impossible. If I really gave you 10 mineral veins, the fingers of blame will ruin me. I can only give you 4."

Shi Zhongcheng chuckled and stood up.

"It seems that President Wei Du doesn't care about discussing matters with a nobody like me. Goodbye."

After saying that, he pretended to leave.

"Oh, why are you angry, Mr. Shi? Since Mr. Shi is here to discuss business with me, we can bargain. If you don't think this price is good enough, we can discuss new terms."

Shi Zhongcheng did not sit back down. Instead, he looked at Wei Du who was in his way, and said, "If the one who came today was Chi Yang, and he proposed the mining rights for 10 mineral veins, you might not even think of it as expensive, Mr. President. So, since you don't trust me at all, I think there is no need to continue the discussion."

"Mr. Shi, you have misunderstood me. I swear that I never had such intentions! To further develop Naboo, my country sold many mineral veins to Sab years ago. As a result, our own mineral veins are getting depleted. Therefore, whether you or Lieutenant General Chi Yang approaches me, we have not much choice in this matter. However, Mr. Shi's proposal is indeed very attractive. How about this? I'll present two mineral veins to the Shi family as gifts and two more to Camino?"

"Mr. President, do you think that Camino is lacking in mineral veins? Two mineral veins will be of no interest to the Shi family, let alone Camino."

Wei Du's eyes widened. "Once a mineral vein is excavated, it can earn at least tens of billions if it produces jade."

"Yet, can you guarantee that the mineral veins given to us can produce jade and diamonds? If you give us four mineral veins that are full of jade, we can definitely come to an agreement. However, determining jade is difficult even for gods. If we can't find anything good from our four mineral veins, will the president give us four more?"

Wei Du smiled. "If we can mine jade in just any mineral veins in Naboo, then I wouldn't have to ask another country for help. How about this? Six mineral veins. I really can't offer more than that."

"Eight. Nothing less."

"Deal."

"However, we'll select these eight veins ourselves."

Wei Du contemplated that for a while, then nodded in agreement.

"Okay, no problem."

Camino generally liked the jade stones from Naboo, but determining the presence or quality of jade was difficult, even for gods. Even if it was covered in a layer of weathered surface, no one could identify jade, let alone the things buried deep in the river bed.

Therefore, there was no difference between them giving it away and letting others pick.. After all, not everyone could be as lucky as Imperial Phoenix Group.

**Chapter 1557: Nangong Nuannuan Must Not Be Killed**

"Then, I'll bring this good news back. Mr. President, just wait for my good news. In three days at most, I'll definitely give you a definite piece of good news."

Even in his dreams, Wei Du often craved to obtain recognition from Camino. He happily stood up and shook hands with Shi Zhongcheng.

"Mr. Shi, I'll leave this matter to you. If it really works out, I'll give you another reward."

Shi Zhongcheng's eyes lit up. Just as he was about to thank him, a call suddenly came in.

"Apologies."

He picked up the phone and exchanged a few words. After hanging up the phone, Shi Zhongcheng smiled. "There's no need to thank me more. I just received a call from my family. There's something I need your help with, Mr. President. It's just a small favor."

"Go ahead, speak."

"I have a cousin named Shi Weide. He works as a raw stone supplier for Imperial Phoenix Group, but he has never met his boss. Unfortunately, he was on the same ship as his boss. Not only did he offend his boss, but he also tried to have his boss killed. In the end, your minister of Foreign Affairs, Dai Wei, gave the order to arrest him.

"This Shi Weide had previously committed a crime in our country and escaped to Naboo. His biological brother, Shi Weili, is the director of the Finance and Taxation Department of Camino. Even his brother doesn't know what's exactly happening, so we'll have to trouble you, Mr. President."

Wei Du had just found out that the chairman of Imperial Phoenix Group was Nangong Nuannuan.

The Nangong family and the Shi family had always had a grudge between them. Wei Du did not know if Shi Zhongcheng said this with the intention to use his hands to deal with Nangong Nuannuan, or he was truly unaware of this matter. No matter what, Wei Du had already weighed his options in his heart.

Wei Du smiled awkwardly and answered, "But Imperial Phoenix Group has always had a tough hand in handling things. I'm afraid it won't be easy to get your relative released! I'm afraid this is a little difficult for me."

"Mr. President, you're just releasing a person from prosecution. If a mere enterprise dares to challenge you, you can simply..." Shi Zhongcheng made a gesture that meant 'kill'.

"You want me to kill the chairman of Imperial Phoenix Group? If she dies, I'm afraid Imperial Phoenix Group will come looking for me for revenge..."

"Aren't you fighting a war anyway? Even if she dies, you can still use Pang Long as a scapegoat, right? Why would anyone put the blame on you?"

"This..." Wei Du thought for a long time before he answered reluctantly, "Okay. I'll try my best to solve this problem."

"Alright, then I thank you, Mr. President."

After sending Shi Zhongcheng away, Wei Du returned to the cabinet meeting room. Everyone in the meeting room was dead silent.

Military Advisor Hu Li and Cabinet Minister Dan De did not say anything. When they saw Wei Du enter, everyone looked at Wei Du in anticipation of his answer.

After Wei Du entered the room, he only said this—

“Kill Nangong Nuannuan and the others from Imperial Phoenix. It’s best to settle this matter within three days!”

“Yes, sir!”

Most of the people agreed with Wei Du’s method and agreed immediately. Only the military advisor, Hu Li, opposed this decision.

“Mr. President, you can’t do this! You’ll end up losing for sure! Just now, after you went out, I investigated Nangong Nuannuan. She was abducted at the age of three and returned home at the age of seventeen. She’s not even eighteen years old yet. It hasn’t been three months since the Nangong family acknowledged her as their own.

“During the time she was abducted, she became the daughter of Luntan’s Duke Eton, became a member of the royal family of Luntan, established Tianheng Holdings, and even established the empire that we now know as Imperial Phoenix Group.. There must be a huge pit behind such a woman. Even if killing her is easy, have you thought about what will happen after you kill her?”

### **Chapter 1558: Stunning Entry**

Wei Du smiled and opened his mouth. He removed one of his teeth and placed it on a special machine for a scan. The video recording and conversation appeared.

*“You want me to kill the chairman of Imperial Phoenix Group? If she dies, I’m afraid Imperial Phoenix Group will come looking for me for revenge...”*

*“Aren’t you fighting a war anyway? Even if she dies, you can still use Pang Long as a scapegoat, right? Why would anyone put the blame on you?”*

In the video, everyone witnessed that the Shi family member brought up killing Nangong Nuannuan, and then they all laughed.

“Military Advisor, you should be relieved now, right? The Shi family and the Nangong family have never been on good terms. Since the Shi family is willing to bear the responsibility in this matter, then it won’t have anything to do with us.”

Hu Li frowned deeply. “But, Mr. President...”

“That’s enough, Hu Li! You’re the military advisor, not my personal advisor. What you need to do is to give me the strongest technical support after I decide what I want to do.”

Hu Li, “... Yes!”

It was already four o'clock in the afternoon when Nangong Nuannuan arrived in City A. Since she was accompanied by Dai Wei, the Minister of Foreign Affairs, it was not convenient for Nuannuan to head over to the Camino soldiers. She could only follow Dai Wei into the presidential residence.

At this moment, Wei Du had already showered and put on a suave-looking suit. Because he knew that Nangong Nuannuan was a woman—she seemed to be a beautiful woman too—if Nangong Nuannuan could fall in love with him and present him these mineral veins directly, that would be the best outcome.

In front of the door to the presidential residence, a white castle-like building, a Maybach slowly rolled to a stop. Wei Du brought a group of cabinet confidants to the front of the Maybach with smiles on their faces and stopped seven meters away.

The security guard opened the door of the car and a pair of slender, fair, and beautiful legs stepped out of the car.

A pair of bright red goatskin high-end custom-made shoes with ten-centimeter high heels landed on the ground first. Even before seeing the person, Wei Du's Adam's apple could not help but slide as he gulped.

Next, a woman with light curls in her brown hair stepped out of the car, clad in a beautiful red evening dress.

Her angular facial features and vivid appearance made everyone's eyes sparkle.

Everyone had gone through Selina's profile before. After knowing that Selina exited the car instead of Nangong Nuannuan, everyone was still attracted by Selina's beautiful and exquisite appearance.

After Selina alighted from the car, a security guard immediately scanned her entire body. After confirming that there were no concealed weapons in her clothes, shoes, and purse, he gave Selina a military salute.

While Selina was being examined, Dan Qi had already gotten out of the car and was being examined.

After the examination, the two of them stood in front of the car door and waited for Nangong Nuannuan to come out.

Nangong Nuannuan stepped out of the car briskly and efficiently.

She wore a pair of handmade leather boots that wrapped around her feet, perfectly accentuating the curls of her legs. She was wearing a black suit that was modified to look casual. The pockets of her clothes were embroidered with bright red flowers that were stitched together, and she was holding a red purse in her hand. The colors of her outfit matched Selina's outfit perfectly. They resembled a matching couple outfit, or matching outfits for sisters. The hem of her top and the hem of the pants were flared.

Her hair was tied up high above her head in a bun. There was a small diamond hairband on top of her head, and two strands of her hair were curled up and casually dangling at her ears.

Her outfit was austere with a hint of playful casualness; elegant tinged with mischief, solemn but lively at the same time.

Together with Nangong Nuannuan's breathtaking facial features....

## **Chapter 1559: The Target Was Too Beautiful**

If Selina had already sent Wei Du and the others into a round of amazement, then Nangong Nuannuan's appearance held their souls captive.

The guard was also stunned for a moment before he went forward to examine Nangong Nuannuan. When he was done, Nangong Nuannuan took a step forward. Selina and Dan Qi immediately followed by her sides.

Nangong Nuannuan took a step forward and stopped because she realized that Wei Du did not come toward her.

Hu Li, the military advisor standing next to Wei Du, tugged on Wei Du's shirt after realizing that whispering to him had no effect. Wei Du recovered from his mesmerization, then, he took large strides and led a group of cabinet ministers toward Nangong Nuannuan and the other two.

At this moment, the Minister of Foreign Affairs, Dai Wei, had already gotten out of the car and hurried over to Wei Du. He introduced everyone, "Mr. President, allow me to introduce you. This is the famous chairman of Imperial Phoenix Group, Miss Nangong Nuannuan. This is the vice president of Imperial Phoenix Group, Miss Selina, while this is also the vice president of Imperial Phoenix Group, Mr. Dan Qi."

After saying that, he solemnly introduced to Nangong Nuannuan and her group each of the cabinet members in Naboo.

"Hello, Miss Nangong. It's a pleasure to meet you. I didn't expect the magnificent chairman of Imperial Phoenix Group to be such a young and beautiful woman." At this moment, Wei Du's eyes were filled with sparkling surprise, the killing intent in his eyes vanished the moment he saw Nangong Nuannuan.

Nangong Nuannuan reciprocated with a small smile when she saw Wei Du extend his hand toward her. She extended her hand and shook Wei Du's hand gently before letting go immediately.

"Hello, Mr. President. It's a pleasure to meet you."

"Hehehehehe, yes, yes. I'm also very happy to meet the Chairman of the famous Imperial Phoenix Group in person. I think that up until now, I'm the only one who is honored to see the reputable chairman of Imperial Phoenix Group, right? Most people seem to think that Feng Shengxuan, Best Actor Feng, is the chairman of Imperial Phoenix Group."

Nangong Nuannuan smiled. "I haven't been managing Imperial Phoenix Group myself. My Big Bro has been making the decisions all along."

Wei Du quickly realized that the Big Bro Nuannuan mentioned was referring to Feng Shengxuan. He smiled and said, "To be able to let such a capable, farsighted, and courageous person serve you, this must also be part of Miss Nangong's charm, isn't it?"

Nangong Nuannuan smiled. She felt that there was no need to explain that she was actually not cut out for business.

“Miss Nangong, it’s already late. I’ve already prepared a banquet. Why don’t we chat while we eat?”

Nangong Nuannuan smiled. “Sure.”

The presidential residence today was filled with celebrities and anyone who was anyone. This was because they had previously made up their minds to kill Nangong Nuannuan and take over the mineral veins under Imperial Phoenix Group in Naboo. Therefore, Wei Du summoned many of the famed people in Naboo over to show everyone how amicable he was toward Nangong Nuannuan. This way, if Nangong Nuannuan was killed, he could use the public’s power to a certain extent to clear off any suspicion on him. The Nangong family would also put more effort into suspecting Pang Long.

Today’s banquet was considered a small-scale banquet. Wei Du only invited the cabinet ministers and the first-tier wealthy families in Naboo.

Although Imperial Phoenix Group only owned a few dozen mineral veins in Naboo, it was enough to be considered a first-tier wealthy entity in Naboo.

Many would consider Wei Du to be someone young and promising too. He was only 38 years old this year, and when he was vice president of Naboo, he had already divorced his wife. He had always wanted to find a woman who could provide him assistance as his next wife. Now that he suddenly saw the beautiful Nangong Nuannuan, the thought of marrying her budded once more.

#### **Chapter 1560: Chairman of Imperial Phoenix**

Wei Du was rather convinced that Nangong Nuannuan would fall in love with him. After all, he was at least the president of a country.

Therefore, when Wei Du brought Nangong Nuannuan to the banquet hall, he introduced themselves as though they were the host and hostess of the party.

Since everyone’s presence was just a foil today, they only had one objective—to see Nangong Nuannuan.

When they saw the president and a very beautiful young woman walk into the hall side by side, everyone’s first instinct was that this girl was the President’s new girlfriend. At the same time, they were all guessing the girl’s background.

After all, many of the wealthy businessmen present wanted to introduce their daughters to this young and promising new president.

Although Naboo was in chaos and everyone was aware of how Pang Long’s influences were suppressing Wei Du every so slightly, most businessmen at the top of the pyramid had connections with both Wei Du and Pang Long. Pang Long had just robbed the national treasury, and Wei Du’s men wanted to strike while the iron was hot. However, once this surge of emotions ended—once Wei Du’s weapons used up all his money—Wei Du’s power would be severely reduced.

Even so, Wei Du was the legitimate president currently, and the tax burden of the people was on his shoulders. Although he had to face huge economic problems now, at least his economic strength was sustainable. Therefore, most wealthy families were still willing to hand their daughters over to Wei Du.

Therefore, when they saw that Wei Du had brought along such a beautiful girl, jealousy and hostility flashed in everyone's eyes.

After all, this girl looked unfamiliar.

If she turned out to be a nobody—not the daughter of some rich and powerful family—she would probably be gnawed until not even her bones were left after today's banquet.

"Everyone!" Wei Du could not hide the smile on his face. His eyes were glowing with a light that should not be there as he stared at Nangong Nuannuan.

"Allow me to start the introductions. This is the daughter of the Nangong family, the head of the Four Dominant Families in Camino, Nangong Nuannuan!"

The rich and powerful people narrowed their eyes when they looked at Nangong Nuannuan. They never expected Wei Du to seduce a rich and powerful family in Camino to consolidate his position.

"So, this is the young miss of the Nangong family. I, too, have some business dealings in Camino, so I have a certain impression of what's going on there. In the early years, I heard that a daughter of the Nangong family went missing and couldn't be found. Now that the Nangong family suddenly announced that their long-lost granddaughter has been found, I believe that young Miss Nangong must be the child of the little princess of the Nangong family with some outsider?"

A bespectacled man in his forties walked out and spoke rudely to Nangong Nuannuan. After all, anyone could tell that this person was criticizing Nangong Nuannuan as a mere child of the Nangong family's long-lost daughter and some unknown man. Furthermore, she was also the granddaughter of the Nangong family, born of the daughter, not a son. It was as clear as day that he was belittling Nangong Nuannuan.

The wealthy families of Naboo realized instantly that although Nangong Nuannuan had the title of Miss Nangong, it was hard to tell if her status could be of help to President Wei Du at all.

Naturally, Wei Du could read between those lines. Coldly, Wei Du replied, "Tang Yao, don't be rude. Everyone here has seen Miss Nuannuan before. In the past, perhaps because she was still too young, she was afraid that her appearance wouldn't be able to convince the public, so she attended a banquet in disguise. Miss Nuannuan is a person that you all respect very much. Now... has everyone guessed her identity?"

As the president, Wei Du did not introduce Nangong Nuannuan formally.. His playful intervention displeased Nangong Nuannuan.
