

Physician Wife 1581

Chapter 1581: Chi Yang's Illness

There was no way to accurately pierce into his blood vessels and kill the supernatural cells determined to kill him.

"Nuannuan... I'm so warm..."

Chi Yang felt as if his body was about to burn up. It felt as if every blood vessel in his body was being branded with a red-hot iron.

It was as if his body would explode and die at any moment now.

"I-I'll get you some water."

Nuannuan jumped off the bed and rushed into the bathroom barefoot.

However, this was a five-star hotel. There was no bucket inside.

Nangong Nuannuan saw that the bottom of the ceramic sink in the bathroom was flat. Thinking quickly, she held the two ends of the sink with both hands, stretched out her leg, and kicked the wall, directly striking where the welding was weakest.

In just a moment, one end of the sink bowl collapsed.

Nangong Nuannuan raised her leg and kicked at the other side of the wall. There was a screw there, and when she kicked it, it embedded itself into her flesh. Her foot was drenched in blood.

Luckily, the sink dislocated after those two kicks.

As if she could not feel the pain, Nuannuan quickly filled it with cold water and brought it to the bed.

After soaking a towel and wringing it dry, Nuannuan carefully placed the cold towel at the area where Chi Yang was bleeding the most.

When Chi Yang's burning body came into contact with the cold towel, his body instinctively trembled. Nuannuan's heart clenched imagining the pain that he was in, and she quickly moved the towel away.

"Hot... Hot..."

Hearing Chi Yang's words, Nuan Nuan quickly put the towel back on him.

At that moment, Chi Yang's endurance seemed to reach its limit. His entire body turned completely black and red, and his capillaries completely popped out.

"Hot... Still hot..."

Chi Yang felt like he couldn't take it anymore. He turned over and sat up, his body was covered in blood. Despite his appearance, Nuannuan wasn't afraid at all. Her heart ached as she quickly hugged him.

"Big Brother Chi Yang, what else do you need? Tell me and I'll help you."

“Hot... I’m hot...”

Chi Yang struggled to get off the bed. When he saw the water in the “basin” on the floor, he scooped some up and splashed it on himself.

“Big Brother Chiyang...”

Watching some of the blood wash down his body, Nuannuan’s heart ached terribly. She rushed forward and hugged him again, trying to lessen his pain.

However, Chi Yang’s entire body was spasming, and his eyes were bulging out. Although he had not cried out in pain since the beginning, Nangong Nuannuan knew that he had reached its limit.

At first, she was afraid she might catch a cold if she were to wash her hands in cold water. However, right now, Nuannuan could not have cared less. Suddenly, her powers as a fiance increased, and she lifted Chi Yang up into the air. He was in extreme pain from the sudden movement, but before he could adjust to it, she had already placed him in the bathtub. She took the hose and sprayed water over his blood-soaked skin.

His body was burning up, and the sudden coldness from the outside world caused Chi Yang’s entire body to convulse violently.

As that was happening, Nuannuan realized that as Chi Yang’s body convulsed, those supernatural power cells started to become more orderly.

However, as Chi Yang’s body slowly adapted to this coldness, the spasms in his body lessened slightly, and the cells started to run wild again.

Chi Yang gritted his teeth and did not make a sound. However, from his confused gaze, one could tell that he too knew that his endurance had reached its peak. It was only because of his years of training that he was able to not squeak out a sound.. However, he had never been trained to control his body’s movement.

Chapter 1582: Near Death

An idea suddenly occurred to Nuannuan. She rushed to Chi Yang, trying to wake him up. “Big Brother Chi Yang, Big Brother Chi Yang...”

Seeing that her words were not having an effect on him, Nuan Nuan aimed the hose’s stream of water at Chi Yang’s head.

Chi Yang’s body spasmed again as he was drenched in the cold water. The messy supernatural cells in his body started to become more orderly again. Nuannuan quickly said, “Big Brother Chi Yang, pull yourself together. You must gain control of your body. As long as your will is clearer and you control your body, the cells in your body will become more orderly. Big Brother Chi Yang, can you hear me?”

Many of his capillaries had already ruptured. Under the impact of the supernatural cells, even a few thick blood vessels had started to burst too.

If this continued, he would definitely die.

“Big Brother Chi Yang, did you hear me? Don’t solely use willpower to resist this pain. You must think of a way to control your breathing.”

Chi Yang felt like his body was about to burst into pieces. He could vaguely hear a warm voice telling him to adjust his breathing.

He immediately followed Nuannuan’s instructions.

Although he was in extreme pain, his endurance was extremely strong. Otherwise, he would not have remained quiet even when his body felt like it was about to explode.

As expected, after he adjusted his breathing, the cells seemed to grow attracted to something. They began to follow Chi Yang’s breathing and gradually became more orderly. Although they were still moving around aggressively, this was much better than the chaotic and disorderly war his body had been host to just a few minutes ago.

Chi Yang’s pain lessened a little, and he seemed to have found a trick to control. Although he was still being driven mad by the pain, his immense willpower allowed him to endure the pain and continue to monitor his breathing.

Fifteen minutes later, countless mutant cells had dispersed all over Chi Yang’s body. Just when Nuannuan thought it was over, the mutant cells all returned to his head.

The meridians in his head, which were already experiencing some blockages, instantly swelled up. Chi Yang’s head felt the effects of it, and his breathing immediately quickened and grew more erratic. The supernatural cells immediately began to riot, attempting to colonize his body again.

“Big Brother Chi Yang, monitor your breathing!”

This time, Nuannuan did not dare to use cold water to wash his head. She was afraid the water would be too cold and Chi Yang’s head would be too hot. The old injuries on his head that she had painstakingly patched up might just reopen.

When he heard her warm words, although he could not answer her, he did as she said and tried his best to adjust his breathing.

With the adjustment of Chi Yang’s breathing, the violent energy cells calmed down once again. Slowly, with Chi Yang’s controlled breathing, they entered his blood vessels in an orderly fashion like normal blood cells.

Due to the previous damage, most of his sticky blood vessels had been ruptured. Now, most of the supernatural cells were able to pass through Chi Yang’s remaining blood vessels smoothly. Only a few small areas were still blocked. In those areas, the supernatural cells behind them violently rammed into them.

Although the water in the bathtub had already gone red with blood, Nuannuan was pleasantly surprised to discover that the rate of blood seeping out of Chi Yang’s body had decreased.. Chi Yang’s face had also gone from a reddish-purple color to a weak pale white now.

Chapter 1583: Adjust Your Breath

“Big Brother Chi Yang, you’re the best. Don’t stop. Continue adjusting your breathing. The cells are still swimming around in your body.”

The first time the supernatural cells swam around his body, it had taken fifteen minutes. However, it only took them five minutes for the second time.

After that, the supernatural cells swam another round. Most of them had gotten into order, so the speed at which they swam this time was even faster. This third time took less than a minute.

After that, the fourth time, then the fifth time...

Nangong Nuannuan opened her eyes wide and realized that it had only taken the blink of an eye for the cells to circulate throughout Chi Yang’s body.

She could not remember how many times he had gone through this. In short, other than his supernatural cells, Chi Yang had a normal blood flow throughout his body.

However, no matter how many of those supernatural cells were swimming around, they no longer affected Chi Yang. He finally calmed down.

Nuannuan let out a breath of relief and quickly reached out to drain the cold bloody water in the bathtub. She did not want Chi Yang to catch a cold while he was weak.

Just when she thought everything was over and was about to stand up to take the towel before Chi Yang opened his eyes, the supernatural cells suddenly stopped moving. They slowly moved away from Chi Yang’s blood vessels and headed for his meridians instead. Then—

Just like how they had attacked his blood vessels without warning, these supernatural cells attacked Chi Yang’s meridians now.

Chi Yang, who had just decided to open his eyes, once again experienced a pain worse than dying. However, this time the pain was different from the pain he had felt when he thought his body was close to bursting. This time, Chi Yang felt as if all the muscles in his body were about to be torn apart by the pain.

“Brother Chi Yang, adjust your breathing! The cells are attacking your meridians again.”

Nuannuan’s warm words easily reached Chi Yang’s ears. He quickly held onto his willpower and tried his best to adjust his breathing under the influence of intense pain. If his breathing stopped for a moment due to the pain, he would face an even greater pain the moment right after.

Chi Yang did not dare to be negligent. He discarded all distracting thoughts and continued to adjust his breathing.

Nuannuan held Chi Yang’s hand and continued to spray cold water on him, trying to alleviate his pain.

His face turned red from the effort.

Although he still didn't make a sound, his meridians bulged up like the blood vessels had just now all over his body, from his head to neck to torso. It looked like he was fit to burst. Nuannuan's heart ached so much that she began crying again. She did not know how much damage these despicable superpower cells planned to inflict on Big Brother Chi Yang's body.

What made things worse was the intersection of crises right now. His body was nearing collapse, and Wei Du's people were rushing to kill her.

That idiot could not wait even a night for the little mineral vein under Country D's Phoenix Pavilion.

At first, Nuannuan thought that Wei Du would wait until tomorrow at the very least. After all, he had clearly seen more than ten armed vehicles.

However, he was actually so impatient even tomorrow was too far away for him.

Looking at Chi Yang soaking in the bath, Nuannuan, who had had no intention of taking Wei Du's life, now had a cold look in her eyes that could almost freeze ice. Murderous intent surged in her heart.

In her heart, Wei Du had already been sentenced to death.

Just then, Nuannuan's phone rang. It was Selina.

She picked up the phone and gave her orders. "I can't leave the hotel. Do whatever you can to stop Wei Du's attack.. Don't let anyone disturb us."

Chapter 1584: Control

Without waiting for Selina to respond, she hung up and threw the phone aside.

Selina stared at her phone in shock as Dan Qi asked, "What's wrong?"

"Boss said she couldn't leave. She told us to try to stop Wei Du's attack so people wouldn't bother them."

"They..." Dan Qi was speechless. "If Big Sis and Bro-in-law want some private time, why can't they go somewhere else? Wei Du is the president of Naboo. If he wants to kill someone, won't he get what he wants? What if he wants to blow up the entire hotel with them in it?"

Selina scratched her head in frustration. "Then, we can only pray that our Bro-in-law is quick and we can leave as soon as possible."

Dan Qi was at a loss. He thought for a moment and said, "That's not right. Big Sis is definitely not that kind of person. This is no small matter, or Big Sis would never get so many people involved."

Selina chuckled and patted Dan Qi on the head. "Kid, you've grown up a lot. I believe Boss has encountered something tricky. Otherwise, she wouldn't ask us to throw ourselves into the flames of war. This is between Wei Du and Pang Long, and it's none of our business. If she wants to kill Wei Du, she should let Pang Long kill him. How could she ask us to fight Wei Du?"

After laughing, Selina's expression finally turned serious. She was no longer the enchanting witch she had been a moment ago. She said, "Lil Dan Qi, immediately hack Wei Du's communication network. As you're doing that, hack the weapons he has too. Keep me updated with how everything's going. Leave the rest to me."

"Yes."

Dan Qi responded affirmatively and immediately returned to the house, swiping his fingers quickly over the computer's keys.

All of a sudden, all the lights in the hotel went out, and the phone went offline.

Only Selina's and Nangong Nuannuan's rooms were unaffected.

At this moment, a hundred fully armed men arrived on the 27th floor. They were less than 80 feet away from Nangong Nuannuan's room when they realized that the five mercenaries who had been guarding her door were missing.

Among the hundred-odd people, someone raised his hand and gestured at Nangong Nuannuan's room door, signaling for everyone to immediately attack.

However, the moment he ordered his men to attack, a bloody hole was put in his head.

Before his men could react, another group of people arrived.

As they got ready to shoot, their bodies suddenly started to fester at an astonishing speed.

The intense pain made them unable to hold their guns, let alone shoot them. They screamed in fear.

Under the intense corrosion, their hands, bodies, and internal organs melted at a speed visible to even the naked eye. In less than half a minute, the people had disintegrated into pools of blood on the floor.

After they died, Selina led the five mercenaries who had been guarding the door to pick up the guns on the ground.

At this moment, Nangong Nuannuan called. Selina picked it up.

"Walk forward. At the first fork, turn right, then right again, then right again. Someone's setting off a bomb."

Selina turned on her Bluetooth earphones and put her phone in her pocket. She quickly found the man by following her boss's instructions and shot him without hesitation.. She then grabbed hold of the explosives.

Chapter 1585: Imperial Phoenix's Weapons

The manufacturer of the explosives turned out to be the Imperial Phoenix Armament Group.

F*ck!

Wei Du was using the weapons they had sold to the Naboo Kingdom against them.

As Nuannuan gave her commands, she held onto Chi Yang's hand and gave him some strength to try to get his body to feel better.

When Chi Yang heard the conversation Nuannuan was having with Selina, he got nervous.

On top of that, he felt guilty too.

Initially, he had come to help Nuannuan. He had not expected that all he would do was put her and his friends in danger.

His mind was a mess, and this allowed his supernatural cells to start to run amok. At this moment, they entered the most important meridians in his body. In an instant, they exploded, and his skin split open.

"Big Brother Chi Yang, don't worry! I have a backup plan. Selina and the others will definitely be able to protect us. Even if they can't, they know how to protect themselves. As for us, as long as I'm here, I won't let anyone hurt us. Don't worry. Just focus on monitoring your breathing."

Nuannuan's words were like a warm ray of light, calming Chi Yang's panicked heart and soothing his breathing.

He knew that he would only be able to help his Nuannuan after this ordeal ended, so the faster he got himself under control, the better.

Thinking about the fact that his wife was helping him defend the attacks by a country's president, Chi Yang felt extremely warm and at ease.

The intense pain was no longer able to stymie his breathing. It got more and more stable, and his energy cells started to move in a more orderly manner as they passed through his meridians.

As she observed the hotel, Nuannuan had Selina and her five Rank-S mercenaries do everything they could to prevent the enemy from blowing up the hotel with a bomb. At the same time, she kept a constant eye on Chi Yang's condition.

She was surprised to discover that the blood vessels that had been broken through by the supernatural cells had all been repaired. Right now, the blood vessels in Big Brother Chi Yang's body seemed to have regrown a lot more flexibly, and there was even an unusual healthy glow about him.

The same was true of his meridians. Under the cleansing of these supernatural cells, they seemed to have turned into steel bars full of explosive power. Nuannuan was dumbfounded.

So, her Big Brother Chi Yang... had his superpowers improved again?

On the streets below, because it was already past curfew, ordinary residents did not dare to exit their homes. When the hotel staff saw so many soldiers trying to attack the hotel, they were so frightened they had fled through the main door.

As president of Naboo, Wei Du did not want to hurt the ordinary citizens in the hotel. Therefore, it was only after all the citizens left that the lead general ordered, "Blow up the entire hotel! I don't believe they'll be able to escape the hotel alive. They're simply being stubborn!"

As soon as he said that, a rocket launcher descended from the sky.

Before everyone could flee, the command vehicle next to the general suddenly exploded.

After the explosion, an eerie silence fell upon the entire street.

In the command hall, Wei Du had been at his younger brother Winnie's command.

Seeing that a hundred people had left and not returned, Wei Du had been furious. He had ordered Winnie to evacuate the people in the hotel and immediately bomb the place.

Although it was a little bit of an overreaction, as long as Nangong Nuannuan died, he could put all the blame on Pang Long.. Everything would be fine.

Chapter 1586: Kill For Sure

A five-star hotel was nothing in exchange for dozens of mineral veins.

However, unexpectedly, just as he gave Winnie the order to pull him out and prepare to bomb the entire hotel, the command car suddenly exploded. Immediately after, all the cameras went off.

"What happened? What happened? Can someone tell me what happened? Where did the explosion come from?"

Winnie was Wei Du's younger brother, and he had always relied on him a lot. However, he had sent 5,000 people to surround him, and the other party had suddenly thrown a powerful bomb at him.

He had witnessed Winnie's car being blown up. This was something that Wei Du could not accept.

The command center was dead silent. No one dared speak.

Suddenly, Wei Du's command screen turned blue.

Luntanese alphabetical figures appeared on the screen.

[President Wei, it won't be that easy to kill me. Here's a gift in return. You're welcome!]

"Damn it!"

Wei Du pulled a gun from his waistband and fired several shots at the screen. Even when there were no more bullets in the barrel, he continued to pull the trigger.

"Nan... Gong... Nuan... Nuan—"

Wei Du's eyes were completely red with the sorrow of his brother's death, as well as his unwillingness to admit defeat.

"Mr. President, our network has been hacked. What should we do now?"

"We use a dedicated network for these battles, and this firewall is the most advanced in the world. How could it have been hacked?" Wei Du roared angrily.

"But the other party... has really hacked our system." The person in charge of the network looked at Wei Du with a twisted-up face full of tears. He had no answer for what had happened either.

“Investigate! Investigate! Find this hacker!”

“President, our priority now isn’t to investigate the hackers but to think of a way to kill Nangong Nuannuan. If we let Nangong Nuannuan escape tonight, it’ll cause us endless trouble!” Shan De reminded.

“President, I don’t think Nangong Nuannuan can be killed. She was the one who sent you the message on the blue screen just now. That means that not only does she know what’s going on, but she’s also in our network. And not only is she in our network, but she also has experts who can defame us. For her to be able to contact us and warn us before she does anything, that means she’s definitely able to contact her people and mobilize them. I don’t think we can outsmart her,” Military Advisor Hu Li said gravely.

“Hu Li, this is a critical moment. If we don’t kill Nangong Nuannuan, she will immediately turn to Pang Long. Have you forgotten that the President still has that video of Shi Zhongcheng? Even if she can contact the Nangong family now, we can push things to the Shi family and let them fight the war themselves. In short, Nangong Nuannuan must die. Even if not for the mineral veins, for the President’s dignity!”

Shan De’s words greatly affected Wei Du.

“Stop talking! Yes, I’m definitely going to kill Nangong Nuannuan! Hmph, so there are hackers around us now, as well as weapons... I want to see if they can intercept our dedicated network for battle, intercept satellites, and block one of our shells. Could it be that they can intercept all the shells? Dan De...”

“Yes.”

“Immediately tell our soldiers to split up into five groups and hide. Once I give the order, we will fire at the same time.”

“Yes.”

Meanwhile, in the hotel, Selina and Dan Qi arrived outside Nangong Nuannuan’s room after defeating Wei Du’s army with five Rank-S mercenaries.

Chapter 1587: Action

“Boss, they’ve already started using artillery shells. If Dan Qi hadn’t hacked one of their missiles, we would definitely have already been blown up. However, right now, Wei Du is on guard and has shut down all the missiles. If we don’t leave right this instant, this hotel might very well be obliterated.”

Nuannuan glanced at Chi Yang, whose veins were still bulging. She thought for a moment before saying, “You and Dan Qi leave first.”

Selina was shocked. “What about you?”

“I’ll meet up with you guys later. Don’t worry, I’ll be fine.”

“We can’t do that! Let’s go together!”

“Selina, you guys go first,” Nangong Nuannuan said firmly.

“Boss, what happened to Bro-in-law? Tell us and we can help!”

“I’d have called you if you could help. Selina, you and Dan Qi need to go downstairs now. Get down there and get some weapons before their next army arrives—cover us. We’ll keep in touch over the phone. I’ll let you know if we need anything.”

Selina agreed instantly.

“Alright, we’ll take our leave then. Boss, take good care of Bro-in-law. I’ve placed a few grenades outside the door for you.”

“Okay.”

Upon hanging up the phone, Selina asked Dan Qi to leave with her.

Although Dan Qi was young, he was still a child from hell—so he knew what he had to do when Selina agreed.

They could not do anything if they were to stay here. If they went downstairs, they could still help fight Wei Du’s army.

While talking to Selina, the next army battalion sent by Wei Du entered the hotel. Nangong Nuannuan did not tell Selina about this.

“Big Brother Chi Yang, rest assured and stay here. I’ll be back soon.”

Chi Yang was still fighting against the supernatural cells in his body. He could hear Nuannuan’s words, but his skin and his constantly-breaking meridians made it difficult for him to focus on anything else.

Nuannuan knew that he had heard her, so she immediately left after saying what she had.

At this moment, this group of people had already split into two, each entering from the west and east gates respectively. They pressed the 26th-floor button as well as the 28th-floor button on the elevator. Needless to guess, this group of people was trying to attack the 27th floor—where they were.

After grabbing her bag and heading out, Nuannuan quietly closed the door and picked up the grenades left on the floor. Then, she went next door and kicked open the door. Upon entering the house, she kicked the floor-to-ceiling glass, shattering it.

Those who did not know about its strength would think that the floor-to-ceiling glass of the five-star hotel was made of sugar crystals from how easily she broke it.

Only those who were very familiar with Nangong Nuannuan would know that although it was just a light kick, she had targeted the most fragile part of the glass.

Nangong Nuannuan activated the mechanism of the silver handbag. From a silver ring-shaped handbag, it turned into a flying claw-like object that fastened firmly to the wall.

Then, Nangong Nuannuan jumped gracefully through the window of the next floor.

She glanced at the window of the house next door, pulled the rope, and took a step back before quickly running towards the window and kicking it.

With a loud crash, the large window shattered. Nuannuan put her wristband on the window and jumped in, hanging a grenade on the door.. Then, she took out thin silver threads from her bag, calculated the time and her position, and strategically placed all the grenades in different places.

Chapter 1588: Missed

By the time she strung up the last grenade and left, the first group just arrived on the 26th floor.

Nangong Nuannuan jumped back up to the window and retrieved the bracelet she had left there. She hit a switch, and her entire body was lifted by a huge force. Following this, Nuannuan pushed herself off the 90-degree wall and nimbly leaped up. Then, she took off the bag and activated the button on the bag, immediately turning it into a solid iron ring.

Nuannuan flung the metal ring towards the glass upstairs. There was a suction mechanism on the metal ring, which immediately latched onto the glass. Nuannuan pressed a button in her hand, and the suction mechanism immediately shrunk and stuck tightly to the glass.

When she pressed the button again, Nuannuan was pulled up and flew directly to the 28th floor.

With a hard kick, she shattered the glass on the 28th floor.

At this moment, the army group had just opened the door to the 28th floor with their key cards.

As soon as the leader entered, he was shot in the forehead. Due to the bullet's very strong penetrative force, it went right through him and also hit the faces of two people who were slightly taller than him.

Boom!

An explosion suddenly came from the 26th floor. Nangong Nuannuan knew that the army group had arrived on the 26th floor.

What awaited them was uninterrupted explosions.

Three of the people on the 28th floor had been killed before they could even step into the house. Nuannuan snatched a handful of their weapons from them and started fighting them.

Although many people had rushed in, they were all just ordinary soldiers. Compared to Nuannuan, the top mercenary leader of 3S Queen, they were like a flock of quails who had rushed into a dragon's nest.

Even though these people had guns, grenades, time bombs, and powerful weapons, they were all be killed by Nangong Nuannuan before they even got the chance to use them.

There had already been two explosions on the 26th floor. Nangong Nuannuan saw that the group of people who had been communicating via walkie-talkie no longer dared to enter the floor. After dealing with the soldiers on the 28th floor, she jumped down to the 26th floor and dealt with the soldiers who did not dare to go in.

Then, she went up to the 27th floor.

Standing in the darkness of the corridor, Nangong Nuannuan loaded four long-range gun barrels into her pistol before walking to the main corridor.

On the other side of the corridor, a small window had been opened. A group of people was monitoring their every move from half a mile away.

When Nangong Nuannuan looked toward them, they too saw her through their binoculars and sniper rifle sights.

“That’s Nangong Nuannuan! Shoot her!”

Nangong Nuannuan was standing in the corridor, facing them. She did not have a telescope in her hand. The commander in the room was excited and instructed the sniper to fire.

If they could kill Nangong Nuannuan here and now, they would be making a great contribution.

The sniper was very happy to do so. At this moment, he had already set his sights on her. She seemed to have not yet noticed them—continuing to face them without any expression.

The sniper aimed and pulled the trigger without hesitation.

Whoosh—

A bullet fired from the barrel.

This was the world’s most advanced sniper rifle bought from the Imperial Phoenix Group. The bullet was fired at a speed of 3200 feet per second.

Nangong Nuannuan’s head should have been blown off just a second after he pulled the trigger.

Unexpectedly, when the sniper pulled the trigger, Nangong Nuannuan tilted her head slightly.

Chapter 1589: The Strongest Sniper

It could not be that she had tilted her head slightly simply because such a fancy had seized her. It was as if she was watching a bullet fly past her.

“Impossible!”

Everyone in the camp-out site was shocked, including the sniper.

The other party...

She had actually managed to dodge the sniper’s attack by just tilting her head.

Damn...

Was this a dream?!

Nangong Nuannuan turned around and smiled at the person inside the house from half a mile away.

She was a beauty, and her smile was devastatingly captivating. However, when they saw Nangong Nuannuan's smile, the soldiers in the far-away house felt like her smile was filled with an indescribable strangeness and horror—like something out of a horror movie.

In reality, what Nangong Nuannuan was performing for them was not a horror movie, but a disaster movie.

After she smiled, the sniper took the opportunity to fire a second shot—which she dodged again. She raised her gun again.

She raised a pistol, but it had a long barrel.

Since the soldiers were not looking carefully, they had not noticed the long barrel. Hence, they estimated the range of the pistol to be only 500 feet. No one took it seriously, thinking that Nangong Nuannuan had raised the gun only to intimidate them.

Unexpectedly, she pulled the trigger. With a 'pop' sound, the sniper's head started to bleed.

The three men in the room were shocked and got ready to escape.

Pop! Pop! Pop! As their three heads exploded almost simultaneously, the three men were all shot through the back of their heads. They died instantly.

All the people who had entered the hotel were dead. Nuannuan opened the door with the key card and snuck in.

Big Brother Chi Yang was still soaking in the bathtub. It had only been a short time since they had last been together, but Big Brother Chi Yang looked as if someone had splashed tar onto him. His entire body was black, and he gave off an indescribable stench.

F*ck! Who had done this?

Nuannuan looked all around. There was no one around!

Although she had killed someone on the 26th and 28th floors, she had also been paying attention to the situation on the 27th floor. Obviously, no one had gone up to the 27th floor before, so Big Brother Chi Yang must have done it to himself.

Nangong Nuannuan quickly used her X-ray vision to see what strange things Big Brother Chi Yang had encountered. Then, she saw the supernatural cells moving rapidly within his body. Every time they moved, his internal organs and meridians would expel black, foul-smelling secretions.

Nuannuan did not mind at all. She reached out and gently touched his body, rubbing it with her fingers. These black secretions not only emitted a foul smell but also contained grease and impurities. It was likely that the things he had accumulated in his body over the years were now being removed from it.

Nangong Nuannuan had X-ray vision, so she could see that even if a person were to bathe and soak in water every day, there would be accumulated impurities stored in their body whenever they consumed whole grains. Although a person could remove some of these impurities by going to the toilet, much would still accumulate in their body. Even newborns would have some impurities upon birth from their mother's body.

These mutated cells had expelled all the impurities from Big Brother Chi Yang's body.

This was definitely a good thing for Big Brother Chi Yang.

Nuannuan looked at Chi Yang's head and realized that the blood clots in the blood vessels in his head caused by the gunshot wound had also completely recovered.

Chapter 1590: New Life

Nuannuan was so happy that she could not wait to pounce on Scarlet Sun and give him a big bear hug.

Nuannuan did not touch Scarlet Sun's body again, nor did she help him clean the black substance on his body. Instead, she endured the stench and looked at him expectantly.

Even though his face and head were covered in that greasy and disgusting black substance, and the veins on his face and head were still bulging, Nuannuan looked as if she was looking at the most precious thing in the world. She smiled, her face was full of admiration.

The Flames of war had already started below. Nangong Nuannuan stood up and observed the situation around her before calling Selena.

"They are divided into four parts. With the hotel as the center, people came from all directions. Each group has five mortars. "Your brother-in-law can't leave yet. You have to think of a way to stop them."Nuannuan's voice was a little deep.

Because she didn't expect such a problem to suddenly appear in Scarlet Sun, after the Phoenix Pavilion's forces sent them to the hotel, they stayed in such a harsh manner. She felt that even if Wei du attacked in the middle of the night, he would be the unlucky one.

Who knew that they would actually encounter such a thing, putting herself and brother Scarlet Sun in danger.

After all, there were only Selena, danqi, and the other five mercenaries below. It was almost impossible to withstand 20 mortars.

"Don't worry, boss. Our people are already here. Everything will be fine."

Hearing that her people had arrived, Nangong Nuannuan's heart suddenly relaxed.

She knew what her people were capable of.

It was easy to buy mines in such a chaotic small country, but it was not easy to manage them well.

Therefore, those who were able to manage the mines in these small countries were the mercenaries who used to work under her.

Among these mercenaries, the most powerful one was a 3s rank, and even the most ordinary one was an s rank.

The corners of Nangong Nuan's lips curled up slightly. "Then I'll rely on you guys."

“Don’t worry, boss. Leave this to us. You just take care of brother-in-law.”

After hanging up the phone, Nangong Nuan returned to Scarlet Sun’s side with ease.

Soon, the sound of explosions could be heard from below. It was probably her people who had extinguished one of the cannons at the same time. Otherwise, there wouldn’t have been such a deafening sound.

Chi Yang closed his eyes and continued to maintain his breathing. The speed at which the special ability cells passed through his meridians was getting faster and faster.

After another five minutes, Chi Yang finally opened his eyes.

The moment he opened his eyes, all the ability cells were like ordinary cells, obediently staying in his body. They were divided into different parts of his body, no longer moving around in his body.

The first thing he saw when he opened his eyes was his wife obediently squatting in front of him. A pair of big watery eyes were staring at him without blinking.

He basically knew what had happened outside just now. Therefore, Chiyang felt extremely grateful towards his wife, but he did not say it out loud.

Because he knew Nuannuan didn’t want to hear it.

“Brother Chiyang!”

Seeing Chiyang open his eyes, Nuannuan excitedly reached out to hold his greasy black hands.

Chiyang smiled and reached out to touch Nuannuan’s face. Just as he was about to say that he was fine, he realized that his wife’s face was smeared with a layer of greasy black.

Chi Yang frowned and realized that his hands, body, and even the water had been covered by this black substance.. Even the water in the bathtub could not hide the stench of this black oil.
