

Physician Wife 1641

Chapter 1641: Blind Date

After receiving the order, Aiden mobilized the ordinary female employees under the Imperial Phoenix Group's headquarters the next day. As long as you were willing, the young and beautiful were encouraged to sign up.

These so-called ordinary female employees referred to the staff who had been recruited by the Imperial Phoenix Group through normal procedures, and not some of the higher-ups in the company.

Although there were a few bewitching women among the upper echelons who wanted to participate in the social gathering, Aiden rejected them outright. This was because most of these women had followed them from Saibo, and some of them were KE's trusted aides.

This.

Nangong Nuannuan gave them a special greeting, determined to not allow these demons to harm her brother's comrades.

The soldiers of Eagle Special Forces were all outstanding soldiers. They could really be considered the cream of the crop. The lowest rank was Captain. These people's future in the Eagle Special Forces was unimaginable, so almost 70% of the single women in the main company participated in this gathering.

There were a total of 150 members from Eagle Special Forces who had gone to Naboo to participate in the evacuation operation. Among them, 76 were married and 23 were dating. Nuannuan wanted to find a wife for the remaining 51 soldiers. Meanwhile, more than 200 women from Imperial Phoenix

Group had signed up. Hence, in order to complete the mission assigned to him by his boss, Aiden even conducted a screening process and selected 51 women to participate in the evening gathering.

These 51 members of the Eagle Special Forces had just completed a major mission and were resting at home for two days. In the afternoon, Nuannuan invited everyone to a farm in the suburbs.

The farm was huge. If one wanted dinner, one would have to pick vegetables, slaughter pigs, kill sheep, and so on.

They worked together and got to know each other during the process. Afterward, they barbecued and drank together at night.

At first, after the two groups met on the farm, the girls were clearly a little shy, so everyone split into two camps.

However, not long after, they began to talk as they shared the work amongst themselves. Soon, the two camps became one.

Chi Yang looked at how happy his soldiers were and felt warmth surging in his heart. He looked at his little wife and praised her sincerely, "My little wife, you're amazing."

The corners of her lips curled up.

Big Brother Chi Yang's brothers were her brothers. Nuannuan would never be stingy when it came to finding a wife for a brother of hers.

Nuannuan reached out to hold Chi Yang's hand. "Big Brother Chi Yang, let's go pick some vegetables."

Chi Yang smiled. "Okay!"

Chi Yang swept his gaze over the fields in the farm.

"Little Girl, what do you want to eat?"

Nuannuan looked at the vegetables in the fields in a daze. Suddenly, her eyes lit up and she pulled Chi Yang toward the bitter melon fields.

"I want to eat sizzling minced garlic with millet and spicy eggplant."

As soon as she finished speaking, she stretched out her hand and grabbed a small bitter melon that had yet to ripen.

Chi Yang glanced at Nuannuan. He did not expect his wife, who had a photographic memory, to recognize the plant wrongly. He could not help but smile. "Little Girl, this is a bitter melon, not eggplants. Eggplants are purple."

Nuannuan was stunned. "Aren't eggplants green?" All the eggplants she had ever eaten had been green.

"That's because the eggplant skin has been processed. The chopped meat is green with hints of dark green, but the eggplant's skin is purple. Come, I'll show you an eggplant.."

Chapter 1642: Be a Father

"Sure."

Nuannuan followed Big Brother Chi Yang to identify the plants with interest.

It was not that she could not remember. As long as Big Brother Chi Yang taught her how to recognize them, she would remember them all. The reason why she used to not be able to differentiate between goose and duck was that in the past, she had only been responsible for eating and never cooked.

Therefore, she did not recognize these ingredients at all.

Through this social gathering, Nuannuan got to know the origins of many of her favorite dishes.

A bonfire had already been lit on the farm. Everyone sat around it, eating fresh vegetables and barbecued meat with smiles on their faces.

Nangong Nuannuan had Aiden prepare some drinks and drinks. A group of people with good culinary skills were roasting the food while the rest were sitting down to eat after washing the vegetables and cutting the meat.

After a while, the dishes were served one after another. Nuannuan and Chi Yang held hands as they sat on the mat on the ground. In an instant, they became everyone's focus.

“Captain, how did you meet such an outstanding sister-in-law? Are you two childhood sweethearts?”

Chi Yang rolled his eyes at his tactless subordinate. “Have you seen childhood sweethearts have nearly a ten-year age difference?”

This was the little wife he had spent so much effort to get.

Chi Yang glanced at his smiling wife, who was the most outstanding amongst all the girls on the farm, and could not hide the smugness in his eyes.

As the saying goes, an old cow eats young grass, and this old cow had eaten the most delicious young grass in the world.

At the side, the members of Eagle Special Forces were all staring with bulging eyes. One of them asked again, “No wonder Sister-in-law looks so young. Captain, you’re not even 27 years old yet. If you’re older than Sister-in-law by 10 years, doesn’t that mean she’s not even 17 yet? Captain, you’re

abducting a minor!”

“Go away!” Chi Yang was so annoyed he shouted at them, making everyone laugh.

“My wife will turn 18 at the end of July!”

“We’ll have to wait until the second half of the year, then. Captain, if I beat you, will you be annoyed at me?”

The man who was speaking had already found a lady who he got along with. This lady was pretty, had a gentle personality, and looked like she especially admired him. Therefore, this man felt like good things were about to happen to him.

‘When he said that, the girl beside him blushed. Clearly, she liked him very much.

The two of them had feelings for each other, and Chi Yang felt extremely suffocated when he saw this.

His wife was good at everything, but she was too young. Even though the country had lowered the legal age of marriage, his wife still did not qualify.

Seeing their captain be defeated, the crowd once again burst into laughter.

“Captain, do you have to do everything when you’re with Sis-in-law?”

“Captain, Sister-in-law is so young. Do you feel like her father?”

These soldiers were all elites in the Special Forces of Camino. None were very obedient. In addition to that, they usually got along well with Chi Yang, so now that they were relaxed, all of them spoke without restraint, laughing so hard that the group of girls from the Imperial Phoenix Group laughed too

until they were swaying back and forth.

Chi Yang looked at his laughing subordinates and said proudly, “Although your sister-in-law is young, she never does anything I need to worry about. Unlike you guys, who I’m always worried about. I’m afraid you’ll never learn and always get hurt when you go out. Your sister-in-law never does that to

me.”

At this moment, the men from the Eagle Special Forces displayed their prowess

Chapter 1643: Are You Sure?

He wanted the girls to believe he was a hero on the battlefield—the kind with outstanding martial strength. How could he accept such criticism?

Hearing Chi Yang’s words left him feeling quite dissatisfied.

“Captain, your words are quite demotivating for our brothers. We are, after all, elites in the special forces. If you don’t even worry about Sister-in-law, why should you have to worry about us? Are we less capable than her?”

Chi Yang glanced at one of his elite soldiers. Amongst this group of elite special forces soldiers, he was considered one of the stronger ones. Chi Yang handed a skewer of roasted chicken wings to the soldier and said, “How about you have one of these?”

The soldier was unhappy.

“Sister-in-law, I want to challenge you!”

One of the Imperial Phoenix Group’s female employees tugged at his clothes and whispered to him, “That’s our chairman.”

The soldier still felt that his authority had been challenged. He said, “Even if she’s the chairman, she’s still my sister-in-law. Sister-in-law, I want to challenge you. Don’t worry, I definitely won’t hurt you. I just want our captain to understand the situation. He said that he’s not worried about you, but he’s worried about me. That shows his lack of confidence in my combat abilities.”

Nuannuan had just put a chicken wing in her bowl. The chicken wing was a ripe gold, coated with a layer of grease so fresh it was still crackling. It was a little too hot to eat for now, so Nuannuan stood up.

“You may challenge me, but I can’t guarantee that I won’t hurt you—so I suggest you don’t go too easy on me either.”

“Don’t worry, Sister-in-law. I know what to do.”

“Okay.” Nuannuan nodded. “Go ahead.”

As soon as he finished speaking, he gestured for her to come over.

The female employee was shocked. She stood up and said, “This is our chairman. Take it easy.”

“Don’t worry. She’s your chairman, but she’s also my sister-in-law. I won’t hurt her.”

Despite what he had said, the female employee was still very worried.

Eagle Special Forces was a team that only the most elite soldiers in the special forces could enter. Although the man she liked was considered one of the more average soldiers of the Eagle Special Forces, he had the status of a second lieutenant. Hence, it was obvious that he was very skilled.

The female employee had been hired by the Imperial Phoenix Group through the company's standard hiring process and had nothing to do with KE. Of course, she did not know anything about their chairman. Hence, when she thought about how this silly big guy was about to stand up to her, she broke out in a cold sweat.

"sister-in-law, you should attack me first instead. I'm afraid I'll hurt you if I attack first."

Nangong Nuannuan smiled. "Are you sure?"

"Yes, I'm sure."

"Fine."

Upon agreeing, Nuannuan suddenly rushed toward her opponent. She moved so quickly that only Chi Yang was able to see her clearly.

The soldier saw his sister-in-law approaching him from three yards away. In a flash, he subconsciously reached out to block her attack—but who could have guessed that she would be so terrifyingly strong?

However, this soldier was still, after all, a top-class special forces soldier. He could hold his own against a Rank-S international mercenary. Furthermore, Nuannuan did not exert much force in her kick. Therefore, after being attacked by such a powerful force, he immediately decided to sweep Nangong Nuannuan off her feet.

Nangong Nuannuan could have kicked his calf, but she did not do so. Instead, she jumped away and gave him a chance to recover.

After all, he was Big Brother Chi Yang's subordinate and currently was on a blind date. She could not embarrass him just like that..

Chapter 1644: Sparring With An Elite Soldier

Everyone present was an elite special forces soldier, so they naturally had good eyes.

Initially, when they first laid eyes Nangong Nuannuan's sweet and delicate appearance, they all thought that their sister-in-law was a delicate young lady from a wealthy family. Who could have guessed that she was actually so skilled?

Everyone's eyes lit up—impressed by the exchange of first blows, they all encouraged the sparring to continue.

"Iron Arm, you have to hang on! Don't lose to Sister-in-law, it'll be embarrassing!" His comrades started to mock him.

Iron Arm glanced at his group of friends. It was a classic case of peer pressure.

'Taking a deep breath, he faced Nangong Nuannuan.

However, to stop himself from losing face, Iron Arm still said to Chi Yang, "Captain, I really didn't expect Sister-in-law to be so powerful."

Chi Yang knew exactly what this fellow was thinking inside his heart. Looking at his brother's defeated look, Chi Yang almost could not stop himself from laughing.

"Then fight seriously. Don't just be all bark and no bite, talking so much but unable to actually win the match."

Nuannuan looked at Big Brother Chi Yang and felt like he was not as nice to his brothers as he was to her. It was surprising that he would let his brother embarrass himself in front of the girl he liked.

Tron Arm clenched his fists and stretched out his arms in a fighting stance.

'When he reached out his arms, the girls who were around him could hear the sound of his movements as he carried them out with swift agility. They instantly felt that like boyfriend was amazing.

"Sister-in-law, come on."

Nuannuan raised an eyebrow. "Should I really?"

"Yes. You come to me, or I'm afraid I'll hurt you."

Nuannuan's eyes narrowed slightly. "Okay."

Then, she rushed to Iron Arm's side like lightning and swung her arm at Iron Arm.

Iron Arm did not expect this opponent to use her arms against him, but he did not take it to heart. After all, his nickname was "Iron Arm", which meant that his arms were his strongest defense.

Just a moment ago, he had thought that nothing could go wrong. He had even planned to use his strong arm to hit Nangong Nuannuan and knock her to the ground, but was left dumbfounded when she used it against him.

It had been a swift movement, but he could already feel his arm turning purple.

Before Iron Arm could react, Nangong Nuannuan kicked him to the ground.

Iron Arm stood up and wanted to continue fighting, but Chi Yang stopped him.

"Well, you only get one chance. You lose."

Nangong Nuannuan smiled at the defeated Iron Arm and said demurely, "Thanks for letting me win." Then, she returned to her seat.

Chi Yang handed her her roasted chicken wings back and Nuannuan immediately started eating the fragrant flesh.

Iron Arm was embarrassed when faced with his comrades' teasing. He still did not understand how an elite special forces soldier like him could have lost to a girl less than 18 years old in just a few hits.

Even if his sister-in-law had joined the military at a very young age like he had, he was 28 years old—more than 10 years her senior! How could he lose to a little girl!?

The girl next to him tried to calm him down. “Don’t worry about it. I’ve heard that our chairman is very powerful. Not only is she good at business, but she’s also very skilled at combat. Otherwise, how could she have become the chairman of Imperial Phoenix Group?”

Even with the help of the Nangong family, it would be impossible to lead such a large corporation without some special capabilities.

Chapter 1645: Ignorant

When everyone heard this girl say that the chairman of the Imperial Phoenix Group was very powerful, they were instantly eager to try sparring with her too.

“sister-in-law, can I spar with you?” another fearless soldier asked.

Nangong Nuannuan was still eating her chicken wings. Before she could even finish her first wing, Chi Yang looked at these ignorant fellows and said, “Your sister-in-law hasn’t eaten yet. If you want to spar, talk to her later.”

“Alright, alright. Sister-in-law, don’t forget to spar with me first.”

“sister-in-law, I’ll go second.”

“And me third!”

Even though he saw many people eager to get hurt, Chi Yang did not stop them.

They would definitely work harder to improve themselves when they saw the gap between their skills and the skills of top international mercenaries.

In order to spar with Nangong Nuannuan sooner, the group of people who had been sitting down and enjoying their food rushed to help with the barbecue.

If they finished eating quickly, they could spar with their sister-in-law.

After the meal, everyone made room for the special forces soldiers who had reserved battles with Nangong Nuannuan.

“sister-in-law, be careful!”

The soldier only uttered a few words before moving to attack Nangong Nuannuan. He had already seen how fast Nuannuan could be.

Therefore, even though he had told Nangong Nuannuan to be careful with his words, he still used 100% of his martial strength.

After his first attack, he used his leg to kick her torso. If she was an ordinary person, that kick would definitely have broken a few ribs.

He knew that if his sister-in-law could not handle his strength, their captain would definitely immediately stand up for her. However, he was shocked to see that their captain was actually just enjoying his barbequed food and taking his sweet time eating it.

Hence, this soldier continued to use all his strength.

Seeing that her opponent was not going easy on her, Nangong Nuannuan also decided to show him a few new moves.

Thanks to her X-ray vision, she could clearly see her opponent's weakest point. Coupled with her speed, Nangong Nuannuan attacked the opponent's Achilles' heel as she dodged his attacks. Although she had only landed a light blow, her attack forced the soldier to retreat. Not only was the soldier

shocked, but so were the other elite special forces soldiers who were spectating.

Nangong Nuannuan did not use any other moves, but she was able to easily avoid all of her opponent's attacks. At the same time, she was able to accurately identify her opponent's weaknesses while dodging swiftly.

Their captain had pointed out their weaknesses before, but they had not gotten around to fixing them yet. Sometimes, when sparring, it was just a matter of adapting to it. However, if they did, they would slow down.

Therefore, they could only minimize the exposure of these weak spots whilst ensuring they fully utilized their own strengths.

Unexpectedly, their seemingly fragile sister-in-law easily found their weaknesses and targeted them.

The team member who was fighting with Nangong Nuannuan could feel that his sister-in-law had been holding back the entire time. He was trying his best to not expose his weaknesses.

However, as the battle progressed, he became increasingly powerless.

In the end, she hit him right at his weak point.

In the end, he was kicked so many times and staggered back so many steps—only stopping when he had completely fallen to the ground.

After a moment of silence, cheers erupted.

Everyone present was a skilled fighter. All the soldiers who were part of the Eagle Special Forces had similar ability levels, except for Chi Yang who had super strength that could not be surpassed...

Chapter 1646: Sister-in-law Was Awesome

This was especially true for the group of people that Chi Yang had taken a liking to. Their abilities had all reached the level of Rank-S soldiers. Even if they were to encounter assassins, they would be able to take on countless people by themselves.

They thought that they had almost reached the pinnacle of skill until suddenly meeting an opponent like Nangong Nuannuan, who seemed weak but in reality, had a clear understanding of them and had been able to identify their weaknesses so quickly. It was even more exciting than today's blind date session.

"Sister-in-law, may I spar with you?"

The strength of the second special forces soldier had already reached Rank-5 and was close to Rank-2S. He was considered above average amongst the members of the Eagle Special Forces. Many special forces soldiers who wanted to compete with Nangong Nuannuan had already given up. At this

moment, this elite soldier, with a rank approaching Rank-2S, stood up and looked at Nangong Nuannuan with a burning gaze.

"Of course."

Looking at Nangong Nuannuan's refusal to turn down a fight, and then at his own captain who was completely unmoved and not at all anxious for his wife, the special forces soldier made his judgment.

While he was surprised, he was hoping to be able to use some tricks on his sister-in-law.

"Thank you for your guidance, Sister-in-law. In the past, Captain kept saying that I had once made a fatal mistake but he wouldn't tell me what it was, and I still haven't figured it out. Please enlighten me, Sister-in-law."

After saying that, he mustered up 100% of his strength and used an ultimate move on Nangong Nuannuan.

The speed of this soldier was obviously far quicker than the two previous soldiers. His agility was considered top-notch even among the Rank-2S mercenaries.

It was said that in the world of martial arts, speed was the key.

The first reason that made Nuannuan so powerful was that she could see other people's weaknesses. Secondly, she was very fast. Thirdly, because she was very strong.

That was why she was the Queen.

Therefore, the soldier's speed still did not give him an advantage over her.

At first, Nangong Nuannuan did not point out his weaknesses and continued to fight him. Their combined speed was so impressive that it almost seemed like a special effects show. Even the spectating special forces soldiers were overwhelmed.

Everyone widened their eyes as they watched Nangong Nuannuan calmly fend off their comrade's attack.

This... was probably the most elite soldier in their special forces team!

The more everyone watched, the more shocked they became.

Their seemingly weak sister-in-law was actually able to fight Eagle Special Force's top special forces soldier in what seemed like a draw of skill.

Meanwhile, the special forces soldier who was exchanging blows with Nangong Nuannuan was getting increasingly alarmed.

This was because despite how much he increased his speed, his opponent was still able to easily dodge his attacks.

He was frantically throwing punches and kicks.

It could be said that from the very beginning of the spar, his opponent had calmly blocked all his different attacks with ease.

Just as he was about to repeat all eighteen of his martial arts techniques, Nangong Nuannuan suddenly blocked him.

"Have you used all the moves you know?"

"Then I'll tell you where your fatal weakness lies."

After saying that, Nangong Nuannuan finally took the initiative and attacked.

This time, it was different. With just one move, Nangong Nuannuan stabbed the man's throat quicker than he could comprehend. Though she did not even use much force, her opponent still began coughing violently.

She continued with another move. Nangong Nuannuan poked the other party's chest, just over his heart. Although it was just another light touch, the soldier knew that if not for his sister-in-law's mercy, he would have died twice already..

Chapter 1647: Train You

After he used another move, Nangong Nuannuan slapped him on the cheek—making his face turn red.

Nangong Nuannuan continued with another move, kicking the side of her opponent's manhood. If her aim were to skew little bit more, that would have been the end of his manhood.

The soldier's face grew increasingly pale as he continued to fight.

Finally, Nuannuan had hit all the weak spots on her opponent's front and back. She then stopped and asked, "Now do you know your weaknesses?"

The special forces soldier's eyes instantly went from gloomy to determined when he saw Nangong Nuannuan's gaze.

"I do."

"What is it?" Chi Yang asked.

"Captain, my weakness is speed."

The soldier's reply shocked all his comrades.

Speed was clearly his strength!

However, Chi Yang nodded.

"You have great speed, but in this world, there are people who are faster than you. So, in their eyes, your speed is nothing. Since you focus so much on gaining speed, many of your movements aren't in their proper forms. You could've followed through with your moves so that they actually attack your opponent, but before you can even land a hit, you rush to do the next move.

"If you meet someone faster than you, or someone with more steady and experienced moves, you'll still fail even if you've first held the upper hand. Understand?"

"Yes, I understand! I'll definitely correct this. Thank you for your guidance, Sister-in-law!"

Now, no one dared to challenge Nangong Nuannuan anymore. After all, among the 51 special forces soldiers out that night, this soldier was the most powerful. However, he had still been defeated by Nangong Nuannuan with little suspense.

After Nuannuan gave everyone some pointers, everyone felt unprecedented enthusiasm.

After all, they could not lose to a girl again!

"Sister-in-law, you're amazing. No wonder our captain is so devoted to you."

"Sister-in-law, you're not even 18 years old yet. How did you learn all these martial arts techniques?"

"Sister-in-law, does our Captain train you when he's home?"

"Sister-in-law, I really admire you. Let me toast to you!"

After she displayed her skills, the special forces soldiers' enthusiasm toward Nangong Nuannuan reached a whole new level. They surrounded Nangong Nuannuan and asked her all sorts of questions, even toasting her.

Chi Yang had never seen his Nuannuan drink before. Now, as he watched her constantly gulping down mouthfuls of wine, he knew that this girl probably liked it. In addition, he was here to ensure her safety—so Chi Yang relaxed his supervision of his little wife.

Nuannuan was indeed a very good drinker. She did not reject any of Eagle Special Forces soldiers' toasts. Chi Yang watched as she kept on toasting with the others. He was also amazed—his wife was really good at everything. Even as she drank such an amount of alcohol, she did not get drunk.

However, what he did not know was that although Nuannuan loved to drink, her elder brother, Feng Shengxuan, had never let her drink more than just a little bit. He had said that she did not have much alcohol tolerance. Since she always stopped early when she drank, she did not know what would

happen if she continued to drink. However, Nuannuan felt like she would definitely be fine, considering how well she was handling things at the moment. Thus, with Chi Yang not stopping her, Nuannuan simply allowed herself to drink and get drunk without hesitation.

Chi Yang looked at his wife's delicate face, which was now flushed red. All he wanted to do was carry her away, lay her on their bed, and love her tremendously...

Chapter 1648: Chi Yang Broke Out of His Persona

After drinking, Nuannuan was very cheerful. She quickly became the best of friends with Chi Yang's brothers.

Since there were so many people present, they started playing 'Truth or Dare'. If they could not complete their dares, they would drink a glass of wine. While playing, everyone toasted each other.

Therefore, while drinking with the members of the Eagle Special Forces, Nuannuan joined in their game of Truth or Dare.

In the beginning, everyone was having fun, but 20 minutes later, something went wrong.

The bottle turned to Nuannuan, and the Eagle members were especially happy.

"Sister-in-law, do you choose truth or dare?"

Nuannuan chuckled. "I'm fine with anything. I'm fine with anything!"

"Then be honest... Sister-in-law, when did you fall in love with our Captain?"

Nuannuan's mind was a little muddled. "When he died for me..." She wanted to say that she had fallen in love with him when he died for her, but after thinking about it, she felt like something was wrong. She realized she had fallen in love with him before that.

When?

Nuannuan thought for a long time. Chi Yang looked at her, wanting to know the answer.

Pa! Nuannuan slapped her thigh, making everyone around her wince.

"I remember now. I fell in love with Brother Chi Yang the night he first took me by force. I'm sure of that!"

She nodded.

The members of the Eagle Special Forces and the female employees of the Imperial Phoenix Group all looked at Chi Yang with their mouths wide open. They never thought that something like this could have happened.

Chi Yang, "...". He felt like his reputation had been thoroughly ruined.

He had never expected his reputation to be ruined because of his wife.

The veins on Chi Yang's temples throbbed uncontrollably. He looked at Nuannuan and said, "Little Girl, you're drunk."

"Drunk?" Nuannuan looked at Chi Yang adorably.

“Yes, you’re drunk. Listen to your nonsense! It’s about time for us to leave. We should go.”

“I’m not drunk, and I’m not talking nonsense! Didn’t you fall in love with me only after you took me too?”

Nuannuan giggled and went to Chi Yang’s side. “Big Brother Chi Yang, tell me. Did you choose me because you thought I had a better figure than Zhong Qianqian?”

Everyone’s mouths gaped even wider. Their eyeballs were about to pop out of their heads.

A... threesome?

The team members looked at their captain. Their eyes seemed to be saying, ‘So, this is the type of captain you are!’

Chi Yang, “...”.

“What are you looking at? Can’t you see that she’s talking nonsense?”

The team members shook their heads.

They did not see it.

“Do you want to return to the army early?”

The team members were shocked and immediately shook their heads.

They were going on dates tomorrow! It had not been easy for them to secure two days of rest, so how could they return tomorrow?

Chi Yang had been sold out by his wife. He was depressed and regretted letting this little girl drink.

Holding her little hand, he coaxed, “Nuannuan, Second Uncle has made some delicious food for you at home. Let’s go, I’ll bring you home to eat.”

“No, I’m not going back. I want to play with them.”

Then, Nuannuan said, “Truth or Dare isn’t fun at all. Let’s play a game of gymnastics stacking, shall we?”

The members of the Eagle Special Forces were a little confused. “How do we play gymnastics stacking?”

“I want all of you to attack me. I will beat all of you down and then pile you up. Hehehe! Do you dare to play?”

Although the special forces respected their sister-in-law and felt that she was very powerful, there were at least 50 of them present. For her to say such words was really embarrassing for them. After all, they were here for blind dates..

Chapter 1649: Come On, Attack!

“sister-in-law, although you are indeed very powerful, there are 50 of us here. We’re all elite soldiers of the special forces. You might be able to beat one or two of us, but if you want to beat all 50 of us at once and even fold us up... Isn’t that a little unreasonable? Furthermore, you’re drunk now. We wouldn’t dare to take advantage of you. Otherwise, Captain will definitely have us killed.”

“No, no! Big Brother Chi Yang will definitely not kill you. How about this: if you beat me, and there’s still someone standing—tomorrow, I will give each of you a pure golden dragon, okay?”

‘When the Imperial Phoenix Group’s female employees heard this, their eyes lit up.

One of the Eagle Special Forces members asked, “Is the golden dragon good?”

The girl nodded. “It’s something our Phoenix Pavilion built to sell. It’s a very cute and young little dragon. It weighs 7 pounds and costs 450,000 yuan.”

The girls working for the Imperial Phoenix Group were all from ordinary families. Some of them came from more wealthy families—but 450,000 was still considered a lot.

However, for the members of the Eagle Special Forces, /,50,000 yuan was not a lot. This was because they were from special departments. Besides carrying out normal missions, they could also carry out some private missions with much higher rewards, with the permission of Chi Yang.

Seeing that the ladies liked this dragon, everyone was tempted.

‘Then again, when they thought about their captain, everyone felt conflicted.

“Are you guys men? Girls are watching you. If you don’t dare to fight me, just admit defeat!”

“Sister-in-law, it’s not that we don’t dare to fight, we’re just afraid of Captain...”

Nuannuan narrowed her eyes and looked at Chi Yang. “Big Brother Chi Yang, if you don’t let them fight me, I’ll ignore you from now on.”

Chi Yang sighed. “Nuannuan, listen to me. You can come back to fight them when you’re not drunk.”

“No, I want to fight now! My hands are itchy!”

Was that a joke?

Chi Yang really regretted letting Nuannuan drink, but he was also afraid that she would really ignore him.

Thinking that this girl was already drunk and that his 50 men would definitely be able to subdue her, he nodded and said to his team members, “Take it easy. Don’t hurt your sister-in-law.”

“Captain, don’t worry. She’s our sister-in-law. We definitely won’t hurt her. But Captain, the little golden dragon that Sister-in-law mentioned, she’s not saying that just because she’s drunk, right?”

“alright, you guys fight her. If you win, she won’t give it to you. I will.”

With Chi Yang’s words, the team members were all overjoyed—as if the little golden dragons that cost 450,000 yuan per piece were right in front of them.

“Sister-in-law, we won’t wait any longer, then. Thank you for your kindness!”

The special forces soldiers were all beaming with joy, including the girls that were spectating. They had not been expecting to get a 450,000 little golden dragon tonight during their dates.

Nuannuan moved her wrists swiftly, making cracking sounds as she faced the 50 big fish in front of her.

The Special Soldiers followed suit and flexed their wrists. Their voices were much louder than Nuannuan’s.

‘When Nuannuan walked up to the middle of their group, she stumbled as she lost her balance. This convinced the team members that this was really their sister-in-law’s game to get an excuse to give them a welcoming gift.

“Come on, let’s go!”

Nuannuan smiled and beckoned the group of people in front of her forward.

The team members in front smiled at Nuannuan, while those behind her exchanged glances...

Chapter 1650: Tragic

They had been sworn brothers for a long time, so the person in front said to Nuannuan, “Sister-in-law, we have to prepare now...”

Before she could finish speaking, the people behind her had already launched a sneak attack, planning to subdue her.

It was as if Nuannuan had eyes on the back of her head. Without any warning, she sent a 360-degree spinning kick in their direction.

‘The three team members who had rushed up from the back spat out their dinner at the impact.

They were kicked to the ground and could not get up.

After sending the three of them flying with a kick, Nuannuan did not stay idle. She immediately attacked the people behind her.

She was so fast that the special forces soldiers saw their vision blur. All they could do was instinctively try to block her attacks, but it was pointless.

Everyone felt their bodies soaring through the air.

From the start, it was already Nuannuan’s victory. In the blink of an eye, ten special forces soldiers were beaten down.

They had been kicked or hit at weak points, so they were in so much pain that they could not get up.

The 40 or so remaining special forces soldiers saw how powerful their sister-in-law was, and it made their blood race. All of them attacked Nuannuan mercilessly, forgetting about what their captain had said to them.

Chi Yang watched from the side and felt a headache coming on.

This girl was too heavy-handed!

Chi Yang knew exactly where his soldiers' weaknesses lay. However, Nuannuan seemed to know even better than he did. Almost everyone was afraid of pain, and she showed them no kindness.

Even if a group of soldiers tried to surround and attack Nuannuan, she would be able to defeat them one by one by striking them at the weak points with her abnormal speed.

Nuannuan played as she fought. As she continued hitting the weak points of soldiers, she sent them flying and got them to land in a gymnastics stacking formation, using the first fallen soldier as the foundation.

Soon, the area had a pile of people. One could hear the constant sound of wailing as the special forces miserably cried out.

As Nuannuan continued to fight, her attacks grew more and more powerful. As her gaze got more and more cloudy, her attacks became more and more ruthless. She had been playful at the beginning, but she was now a ruthless killer.

'The fastest special forces soldier tried to subdue Nuannuan and attack her legs, but she easily stomped on his throat.

His movements were so fast that Chi Yang got frightened too. He flew over and stopped Nuannuan's foot with his fist.

Nuannuan took a few steps back after Big Brother Chi Yang's sudden punch.

The remaining Eagle Special Forces soldiers took the opportunity to retreat from the danger zone.

"Nuannuan, you're drunk. We should go home."

How could Nuannuan go home when she was so excited?

"Big Brother Chi Yang, let's play gymnastics stacking!"

Nuannuan gave Chi Yang an angelic smile, but the punches she threw at him were deadly.

Chi Yang did not dare to hold back now. He had no choice but to fight back.

Chi Yang knew his own strength. After his supernatural cells upgraded and he had absorbed some energy from the jade, his strength should have been much better than Nuannuan's. However, Chi Yang was shocked to discover that Nuannuan could see the weaknesses in his body and the weakest part of

his fist every time he threw a punch. Hence, the moment Nuannuan's attacks met his, Chi Yang felt a strong force pushing at him..
