

## Physician Wife 1671

### Chapter 1671 Do Not Believe

“Ning Wenhao isn’t married. He doesn’t have a spouse or children. You’re the closest person to him. Ning Wenhao has no way to make his own choice now, so you are his guardian. What you say has full legal effect. If

someone is dissatisfied with something and goes to court to sue you, you have a 100% chance of winning.”

Nangong Nuannuan’s words offended the Ning family thoroughly, but she did not care.

Because Ning Wenhao was Chi Yang’s sworn brother, he was also her sworn brother. Now that Chi Yang’s sworn brother was in trouble and only his mother was fighting for his rights, Nuannuan would spare no effort

to help his mother.

“Miss Nangong, you’re overstepping your boundaries!” Xiao Yushan could not maintain the smile on her face and revealed her anger.

“Aren’t you the one overstepping your boundaries? You’re not Ning Wenhao’s mother, so what right do you have to criticize him in front of his own mother?”

“You don’t understand the rules of our Ning family, so you don’t have the right to speak.”

“Does Auntie mean that the rules of the Ning family are above the laws of Camino? Why don’t you ask Grandfather Ning and Uncle Ning whether the rules of the Ning family are more powerful than the laws of

Camino?”

Xiao Yushan, “...”

“Send Ning Wenhao into the operating room.” Chi Yang also spoke, his voice not allowing any room for refusal.

The doctor thought for a moment and gave the nurse a look. Ning Wenhao was wheeled into the operating room.

“Chi Yang, Hao is the eldest grandson of the Ning family. Although he’s not as powerful as you, he has great potential. If anything happens to him, are you willing to take responsibility?” Old Master Ning asked

unhappily.

Chi Yang looked at Old Master Ning and said, “Grandfather Ning, didn’t you understand Nuannuan’s words just now? As long as Auntie Mao agrees to the surgery, it will go ahead. Even if something really happens to

Ning Wenhao on the operating table, I don't need to explain anything to you."

"You..."

"Ning Wenhao is your grandson, but he is also my subordinate, my sworn brother, and my comrade-in-arms. I won't idly sit by and watch his life drain away when we can do something to stop it. YRHBO-3 was

developed by Nuannuan. Compared to the doctors in the military hospital, Nuannuan has a stronger say when it comes to the drug. If you don't believe the words of the inventor of the drug, then I'm sorry. I can't be on

your side."

Old Master Ning was so angry he took a few deep breaths. He was speechless.

Although Chi Yang's words were infuriating, they still made sense.

Xiao Yushan said righteously, "Is it true that she said she was the inventor of the drug? What evidence does she have to prove that?"

"What evidence do you want?" Chi Yang asked with a cold expression on his face.

"YRHBO-3 was produced by Angel Pharmaceuticals, which is a pharmaceutical factory under Imperial Phoenix Group. Miss Nangong is a young lady from a wealthy family in Camino. Even if she had stayed in Luntan

and was the daughter of the duke, how could she have a relationship with Imperial Phoenix Group of Sab?"

"That's because I'm the chairman of Imperial Phoenix Group and the leader of the group. Are you satisfied with this answer, Aunt Xiao?"

Old Master Ning, "..."

Ning Haoran, "..."

"How's that possible? The chairman of Imperial Phoenix Group is Feng Shengxuan. The whole world knows this. Even if Feng Shengxuan transferred Imperial Phoenix Group to our country, it's impossible for him to

transfer the chairman position to someone else, right?"

As Xiao Yushan was talking, Nuannuan got on a video call with Feng Shengxuan.

"Little Girl, what's going on? I'm playing chess with Second Uncle."

Feng Shengxuan was a chess fan, but his chess playing was so bad that he often lost to Second Uncle..

**Chapter 1672 Witness**

Even so, Feng Shengxuan kept pestering Second Uncle to play chess with him. He had been defeated again and again.

"I need you to confirm the answer to a question."

With that, Nuannuan handed the phone to Xiao Yushan.

Grandfather Ning and Ning Haoran, who were standing beside Xiao Yushan, also looked over. They were shocked to see that the man in the video was Feng Shengxuan. Since he was still playing chess, he had asked a

servant to hold the camera for him as he focused on his game.

Sitting opposite him was Chi Yang's second uncle, Chi Zeyao!

Old Master Ning and Ning Haoran looked down on Chi Zeyao. He was just an adopted son who his adoptive parent picked up on their way home one day, and he was half-disabled.

However, he was now playing chess with the chairman of Imperial Phoenix Group, Feng Shengxuan!

After Imperial Phoenix Group moved to Camino, the Ning Group had wanted to ask Feng Shengxuan out for a meal, but Feng Shengxuan had not even picked up their phone calls. It was not an exaggeration to say that

Feng Shengxuan had been arrogant and did not give them any face.

The Ning family had now been overtaken by the Shi family. Now, the Ning Group's business was falling more and more—they were shadows of their past self. If they did not get a few decent projects soon, they would

probably be engulfed by Shengyang Group or even Eagle Eye Group.

Therefore, seeing that Chi Zeyao had the chance to sit across from Feng Shengxuan and play chess with him, Old Master Ning and Ning Haoran were very envious.

Feng Shengxuan was watching the game seriously when Chi Zeyao glanced at the video because he heard Nuannuan's voice. Feng Shengxuan took advantage of Chi Zeyao watching the video and quickly reached out to

the plate of pine nut cookies in front of Chi Zeyao.

The pine nut cookies were filled with pine nuts. They were crisp and delicious with the rich fragrance of the nuts. When eaten with a little red wine, the aroma of the cookies would curve around the sweetness of the

precious red wine. The taste was indescribable.

Who knew that Chi Zeyao would torture Feng Shengxuan so relentlessly? After letting Feng Shengxuan eat a few cookies, Chi Zeyao forbade him to eat more. Feng Shengxuan had been eyeing the cookies ever since.

Even when Chi Zeyao looked at the screen, Feng Shengxuan did not realize the camera was no longer trained on the same person. He asked, “What question?” He reached out to grab a pine nut cookie in front of Chi

Zeyao.

Chi Zeyao realized that it was a member of the Ning family in the video. He immediately shifted his gaze back to the game with disinterest. Just as he shifted his gaze, he saw Feng Shengxuan’s sneaky hand. Hence,

without thinking, Second Uncle Chi... reached out and slapped Feng Shengxuan’s greedy claw.

Chi Zeyao was so fast that Feng Shengxuan quickly retracted his hand. Only then did Feng Shengxuan look at the video again gloomily.

In the end, he was faced with someone he did not know. Feng Shengxuan frowned.

“Why did you casually give your phone to random dum-dums | don’t know?”

Old Master Ning, Ning Haoran, and Matriarch Xiao Yushan, who were in the frame of the video, were speechless.

“Aunt Xiao, since you know Feng Shengxuan so well, you should be able to tell that the Feng Shengxuan in front of you isn’t an impersonator, right?”

Xiao Yushan, “...”

“Big Bro, I just told this aunty that I’m the Chairman of Imperial Phoenix Group. She refused to believe me no matter what and even wanted me to produce evidence. I don’t have any other evidence at the moment, so I

can only call you.”

Feng Shengxuan peered at Xiao Yushan without bothering to look at Old Master Ning. Chi Zeyao did not take the initiative to greet anyone in the video call, nor did he have plans to introduce them to Feng Shengxuan.

“The chairman of Imperial Phoenix Group has always been Nangong Nuannuan. My responsibilities in Imperial Phoenix are the same as Aiden’s in Tianheng Holdings—helping Nuannuan manage the company.”.

## **Chapter 1673 I Will Do It**

Although Feng Shengxuan’s eyes were filled with disdain, he still dutifully explained his responsibility and Nuannuan’s position in Imperial Phoenix Group. Xiao Yushan, Old

Master Ning, and Ning Haoran, the Ning family’s patriarch, were all so shocked that their eyes widened.

“Nuannuan, didn’t you go out with Chi Yang?” Chi Zeyao asked.

Nuannuan then took the phone from the stunned Xiao Yushan.

“Yep, Big Brother Chi Yang is by my side. I’ve encountered a little problem, but it’s been settled now.”

“That’s good. Are you coming back for lunch?”

“Yep, save some for me. Big Brother Chi Yang will head to the special forces once he’s done here. Don’t worry about him.”

“Okay.”

Then, the call was ended.

“How about that, Aunt Xiao? I’ve now introduced you to Feng Shengxuan. Don’t tell me you still think I’m bluffing you? If you still don’t believe me, I’ll allow you to

investigate the legal representatives of Imperial Phoenix. Of course, whether you believe me or not, I’ve already said it—as long as Ning Wenhao’s biological mother, Auntie

Mao, agrees to this, it’s imperative. It’s useless for you to stop me.”

After saying that, Nuannuan said to the doctor in a domineering manner, “Let’s go in.”

When the chief surgeon and nurses heard that Nangong Nuannuan, who usually came to observe surgeries, was actually the chairman of Imperial Phoenix Group, they were

extremely excited and adored her. However, to show off their professionalism at this moment... They had no choice but to calmly push the unconscious Ning Wenhao into

the operating theater together with Nangong Nuannuan.

Outside the operating theater, Old Master Ning looked at Chi Yang and asked with joy in his eyes. “Chi Yang, is your fiancée, Miss Nangong, really the chairman of Imperial

Phoenix Group?”

Looking at Old Master Ning, who instantly changed his attitude when he kept his interaction with Nuannuan to a minimum just a moment ago, Chi Yang’s expression went a

little cold in return.

“Yes.”

“That’s great. Then, I’ll have to trouble you to tell your fiancée that I have something to talk to her about after the surgery. I want to discuss the cooperation between our

Ning Group and Imperial Phoenix Group.”

Old Master Ning had always been bossy when he spoke. Other than being a little modest in front of Chi Yang’s grandfather, he treated everyone else as if they were beneath

him. Chi Yang could not be bothered to argue with him. He only said, “I’ll pass on the message.” Then, he walked to the other side and began to talk on the phone, no longer

paying attention to the people from the Ning family.

Xiao Yushan looked at Mao Yating, and her heart filled with hatred and jealousy. She did not understand why Mao Yating could have anything she wanted even though she

had given birth to a bastard child like Ning Wenhao. How could she still befriend people as noble as Chi Yang and Nangong Nuannuan?

Nuannuan had spent nearly every day in the military hospital recently. She was very familiar with the chief surgeons in every department and had already memorized all the surgeries she had seen.

The chief surgeon was about to start when Nuannuan said, "Can I do it?"

The person who was lying on the hospital bed was Ning Wenhao. Nuannuan felt that if she were to be the chief surgeon, the suturing of the wound would be better.

The chief surgeon looked at Nuannuan in surprise. "That won't do. Although it's not a major surgery to amputate a few necrotic alveoli, you've only come to our department

to observe a few surgeries. How can I put him through such a risk?"

Even though the doctor wanted to be on good terms with Nuannuan after learning that she was the chairman of Imperial Phoenix Group, human lives were at stake.

Moreover, their patient was the young master of the Ning family. He did not dare to act recklessly.

"Don't worry, Dr. Cai. Ning Wenhao is my fiancée's sworn brother. I won't harm him for sure. I can guarantee that this surgery will go perfectly."

#### **Chapter 1674 Visual Learner**

"If you don't trust me, you can stand at the side and supervise. If I do anything wrong, how about you take over immediately? I can also guarantee that Ning Wenhao's

wound will be kept within 0.2 inches."

"That's impossible! After all, it will be cut with a scalpel, so the minimum wound will be at least 0.8 inches." Dr. Cai immediately refused Nuannuan's request.

"I can make sure that it's 0.2 inches, and I can complete the entire operation in less than 15 minutes."

"Isn't that..."

"It's possible! I promise!" Nuannuan did not give Dr. Cai a chance to speak and just looked at him.

Dr. Cai felt goosebumps all over his body the longer Nuannuan stared at him. Then, he agreed, even though he had no reason to.

As soon as he agreed, he regretted it. However, Nuannuan had already started to move.

Because Ning Wenhao was already in a deep coma, there was no need to go through the initial steps of anesthesia. Nuannuan started to slice into him directly, and it scared

Dr. Cai so much that all the blood in his body rushed straight to the front of his head.

Once the cut was finished, Dr. Cai was close to stopping her. He wanted to tell Nuannuan that the cut was not long enough and that operating inside would be very difficult.

Who knew that when his eyes would catch a glimpse of the situation from the monitoring device, he was suddenly be stunned.

Nuannuan's cut had been very fast and accurate, and it was deep enough to reach the most crucial part of Ning Wenhao's body. She did not need a second attempt, and

neither was her cut excessive in any aspect.

What made Dr. Cai even more surprised was that Nangong Nuannuan was an intern—she was a student who observed surgeries without ever performing one before. In

spite of that, each of her movements was extremely precise and swift.

She was so fast he could only see the cuts left behind through the monitoring devices, not her movements.

In less than a minute, Nuannuan had taken out a small piece of alveoli from Ning Wenhao's lungs. Dr. Cai was about to offer to suture the wound close.

However, he saw that Nuannuan had already started suturing the inner layer of the wound without any hesitation.

The speed of her movements was so quick and so skillful that Dr. Cai was left dumbfounded.

Nuannuan had told Dr. Cai that she would finish the surgery within 15 minutes. In the end, it had only taken her five minutes to finish the surgery from the cutting to the

removal and then to the suturing.

Five minutes!

Dr. Cai went crazy.

Even his mentor could not move his hands so quickly, right?

He looked at the perfectly sewn threads on Ning Wenhao's body. Before he could even find his voice, Nuannuan put the alveoli chunk into a container.

"Nuannuan, this... Is this really your first surgery?"

"Yes." Nuannuan nodded. "I've been learning from everyone here, haven't I?"

Dr. Cai's mouth could not help but twitch. "So, you found out how to perform the surgery just by watching me? You managed to move your hands that fast too?"

"My hands have always been fast. They call me the Tentacle Monster." After Nuannuan finished what she was doing, she looked at Dr. Cai and answered him with a smile.

Dr. Cai, "..."

it really was a fitting nickname.

Initially, Dr. Cai had wanted to take in Nuannuan as his disciple, aiming for her to become the future rising star and an outstanding figure in the pneumology department.

However, when he thought about Nuannuan's identity, he swallowed his words.

How could a girl with such an impressive status ever become his disciple?

If she really became his student, he reckoned that he would become the most famous person in the medical world.

"Dr. Cai, please don't tell anyone about my surgery today."

"Why?" Dr. Cai did not understand. After all, not just anybody had the potential to comprehend and understand how to perform surgeries and become a future godly doctor

after just watching a few surgeries.

If he had such speed in his hands and such amazing skills, he would definitely make it known to the public as soon as possible..

## **Chapter 1675: Do My Best**

"No reason. Just to avoid trouble."

Nuannuan spoke in a casual manner. She did not have any desire to get famous because of this.

She thought about how she was the chairman of the Imperial Phoenix Group, yet her style of doing things was so low-key. She had not even bothered to tell the world that she was the chairman of Imperial Phoenix Group, so why would she make her medical prowess known?

Dr. Cai looked at Nuannuan with admiration in his eyes. "Okay, don't worry. I'll deal with it."

After they left the operating theater, Mrs. Ning rushed over. "Miss Nangong, how is Hao?"

Nangong Nuannuan just cracked a smile on her face when Old Master Ning walked up. "Miss Nangong, I've already made a reservation in Yihe Garden. Everything on your side of things is settled, right? If there's nothing else, let's go and have a chat."

Nuannuan looked at Old Master Ning. His attitude toward her had improved a lot, but he was still bossy. She was quite displeased with this old man's attitude.

Old Master Ning also lived in the courtyard, but Grandpa Nangong and Grandpa Chi rarely hung out with him.

"I thought that since Ning Wenhao's surgery just finished, someone who's as concerned about his grandson as Grandfather Ning would check on Ning Wenhao's condition first."

Old Master Ning frowned and felt that Nangong Nuannuan was a little arrogant. However, when he thought about her being the chairman of Imperial Phoenix, he put it out of his mind.

After all, she had the right to be arrogant.

Old Master Ning suppressed the anger in his heart. He said to Nuannuan, "I saw that Miss Nangong appeared indifferent and even smiled at Hao's mother. I assume that the surgery must have been very successful. As his grandfather, I care about Hao. But since Hao is fine, we can certainly talk about the collaboration between the Ning Group and Imperial Phoenix.

"Old Master Ning, I still have to go back and study the infection of bacteria in Ning Wenhao's lungs. How would I have the time to have tea with you? And I've never meddled in the affairs of Imperial Phoenix Group. So if you have anything to discuss, you can go to my big bro, Feng Shengxuan, or to the other two vice-presidents, Bai Liyue and Aiden."

After saying that, Nuannuan gave him a small nod, turned away from Old Master Ning, and walked toward Chi Yang.

Seeing this, Mrs. Ning immediately followed Nangong Nuannuan.

Chi Yang glanced at Nuannuan and asked, "How was it?"

"I performed the surgery, and it was very successful. His wound is also very small, so it's not a big problem for his body."

Hearing this, Mrs. Ning let out a sigh of relief and asked, "Miss Nangong, with Hao's current condition, how long more can he hold on before you develop a targeted drug?"

Nuannuan was silent for a moment before she said, "Five days at most. After five days, his condition will completely deteriorate."

Mao Yating's brimming tears started flowing when she heard that.

"Then... Then can you develop a drug to suppress the bacteria in his body within those five days?"

"Auntie Mao, I'll do my best."

Since even her YRI-IBO-3 drug failed to suppress the outbreak in Ning Wenhao's body, Nuannuan definitely did not dare to casually guarantee that.

Although she was interested in developing a new drug in less than five days, she dared not make such grand claims.

Mrs. Ning also knew that it would be impossible to complete medicinal research within a year, let alone five days. However, Nuannuan was now her only hope, so all she could do was depend on her.

However, Nuannuan's promise to do her best could not comfort Mrs. Ning at all.

Seeing her sorrowful face, Nuannuan could only say, "Auntie Mao, I was able to perform a surgery on Ning Wenhao and get a sample of his lung alveoli to study in his current state. This means that there's still hope for him."

## **Chapter 1676: Why**

“Don’t worry, Ning Wenhao is Big Brother Chi Yang’s sworn brother. I’ll definitely do my best to develop the medicine to treat Ning Wenhao’s illness.”

“Good! Good! Then thank you, Miss Nangong! Thank you for your hard work!”

“It’s my pleasure. Alright, I have to go back and conduct experiments. Please take good care of Ning Wenhao.”

“Okay!”

Seeing that Chi Yang and Nuannuan were about to leave, Xiao Yushan stood up.

“Miss Nangong, my father-in-law said that he’s willing to cooperate with Imperial Phoenix. You said that we can look for Chairman Feng Shengxuan if we need anything. However, you know that Chairman Feng is usually more... chill. Of course, I understand that too. After all, Imperial Phoenix Group is high and mighty; it’s only reasonable that Chairman Feng has that aura about him too. However, since Miss Nangong has already agreed to cooperate with our Ning family, can you help us inform Chairman Feng and bridge this relationship between my uncle and Chairman Feng?”

Looking at Xiao Yushan’s self-righteous smile, Nuannuan also reciprocated with a smile.

“Aunt Xiao, I only said that if you’re seeking cooperation, you can go to my big brother. I didn’t say that I wanted to cooperate with your Ning family. Although I’m the founder of Imperial Phoenix and the Chairman, I’ve never been in charge of the

company’s affairs. So whether I work with the Ning family is entirely up to my Big Bro, or maybe it’s up to the two vice presidents, Bai Liyue and Aiden. If you have any proposal for cooperation, you can just send someone to submit it to them. I believe that if the proposal is truly a win-win one, they’ll definitely take the initiative to contact you.”

After saying that, Nuannuan politely nodded at Xiao Yushan and then left hand in hand with Chi Yang.

Looking at the backs of Nangong Nuannuan and Chi Yang as they left, Xiao Yushan slightly frowned and looked at Mao Yating.

“Mao Yating, although Father has never acknowledged you, Father has acknowledged Hao. After Hao returned to the Ning family, whatever the grandchildren of the Ning family have, Hao has them too. It could be said that the Ning family treats Hao well. You also know that the family was a first-tier wealthy family in Camino and that the wealthy have their own rules. If you don’t come from a good background, you won’t be able to join the Ning family. But even if you couldn’t join the Ning family, the Ning family has given you money. The house you’re living in now is a luxury mansion in Emperor District. It’s incomparably superior in terms of material goods. How could you collude with outsiders to embarrass your own family? If Nangong Nuannuan doesn’t cooperate with the Ning family, do you think the Ning family is the only one at the short end of the stick here?”

Xiao Yushan’s righteous words made Old Master Ning even more dissatisfied with Mao Yating.

“Since Nangong Nuannuan recognizes you as her sworn brother’s mother, you should think of a way to get her to cooperate with our Ning Group.”

Old Master Ning gave the order. He believed that the reason why Nangong

Nuannuan did not cooperate with the Ning family was because of Mao Yating.

It must have been because Mao Yating brought up how horribly the Ning family treated her in front of Nangong Nuannuan, which had made Nangong Nuannuan unwilling to cooperate with the Ning Group.

Seeing that Mao Yating did not respond to his words, Old Master Ning was very angry and said, "If you can't do it, then you don't have to watch over Hao. From now on, Hao is a member of the Ning family and has nothing to do with you."

When Mao Yating heard that Old Master Ning was going to ban her from accompanying Hao, she was instantly furious.

"What right do you have to take away my right to accompany Hao? I am Hao's mother. I've repeatedly given in to avoid hurting the Ning family's feelings. What right do you have to not let me accompany my own biological son?"

"The right I have as the head of the Ning family. Every decision in the Ning family is up to me."

### **Chapter 1677: The Ning Family**

"It's not that I don't want you to accompany Hao. As long as you can convince Nangong Nuannuan to cooperate with us, I won't be so unreasonable to you since you're Hao's mother."

Mao Yating was so angry she could not even speak.

She had always known that Old Master Ning was selfish and self-centered, but she never expected this old man to use pull a despicable trick on her while her son was still unconscious in a hospital bed.

"General Ning, I, Mao Yating, have never thought about joining your Ning family. The only person I love is Hao's father. If it wasn't for the fact that Hao went down to the river to save someone and was already unconscious after he was rescued, I wouldn't have come to seek help from Haoyu. Otherwise, I would never have allowed Hao's presence to be made known to the Ning family.

"Even though you broke us up and used despicable methods to get me to leave Haoyu, I respected you as a father and treated you as my own elder all because you found someone to save Hao. Ever since Haoyu died, I thought you'd feel the pain of losing your son in your old age more intensely, so I made sure to be considerate to you on many accounts. But this doesn't make me a pushover. If you really can do something like not letting me accompany Hao, trust me when I say I'll risk it all and make your Ning family the butt of every joke."

Mao Yating had never gone against Old Master Ning so blatantly in her life. Her words angered him so much that even the veins on his temples started popping.

"Mao Yating, watch your attitude!" Ning Haoran hissed unhappily.

Seeing that Old Master Ning was about to get angry, Xiao Yushan smiled like the matriarch she was again.

“Mao Yating, don’t be angry at Dad. Hao is now in the intensive care unit. Since

you believe in Nangong Nuannuan so much, you should also believe what she said. YRHBO-3 is useless against Hao. Think about it. How long does it take for a drug to be developed and put into production? Even if Nangong Nuannuan really is a genius pharmacist, or if she can find a genius pharmacist to help develop it, can the drug really be developed within a month or two?

“If YRHBO-3 really is useless, then Hao is doomed. In the future, you’ll be a woman without a son and without any protection from family. How are you going to survive? Thus, only if the Ning family is taken care of, will you be taken care of.

Dad’s doing this for your own good too.”

After Old Master Ning heard Xiao Yushan’s words, his expression clearly improved.

Seeing that Old Master Ning and Xiao Yushan were in cahoots with each other, Mao Yating only felt disgusted.

Just as she was about to retort, the director of the Military Hospital, Qin Muyang, came over with a few hospital seniors.

Seeing Old Master Ning and Ning Haoran, Dean Qin immediately greeted them cheerfully, “Hello, Old Master Ning, General Ning. You’re here to see Ning Wenhao, right?”

Seeing that Qin Muyang had come in person, Old Master Ning had to give him some face. He smiled and said, “Dean Qin, thank you for taking care of our Hao.”

“Old Master Ning must be joking. Ning Wenhao is the hero of our Eagle Special Forces. The military hospital will certainly spare no effort to treat him.”

At this point, Qin Muyang’s face darkened. “It just so happens that Old Master Ning is here today. There’s something I have to tell you first. Before this, I contacted Sab and introduced a drug called YRHBO-3 to Ning Wenhao. I thought it would help

his condition. Now, his comprehensive report has just been released. This drug is of no help to his illness.”.

## **Chapter 1678: The Dean’s Support**

Mao Yating looked at Old Master Ning in surprise.

He had been bragging to her that he had gotten YRHBO-3 imported from Sab. However, she had clearly heard what Director Qin said just now. This medicine had been imported from the military hospital.

How... could he be so shameless?

However, even when facing Mao Yating’s surprised gaze, Old Master Ning’s expression did not change. He sighed heavily as if he had aged a lot in just a moment.

“I heard about this too. It’s our Hao’s poor fortune... Thank you for your concern, Dean Qin.”

Old Master Ning did not make the fact that Nangong Nuannuan was the chairman of the board of directors of the Imperial Phoenix Group known. After all, once that was publicized, many people might attempt to approach her.

Qin Muyang said, "Ning Wenhao's illness isn't completely hopeless. Our hospital will do our best. Angel Pharmaceuticals just called and said they're going to focus their research on Ning Wenhao's illness. However, Ning Wenhao's health is getting worse and worse. Our military hospital will also need to take some protective measures. Therefore, from today onwards, apart from Ning Wenhao's guardian, his mother, who will be allowed to accompany him for five hours a day, no one else is allowed to enter the intensive care unit to visit him."

Old Master Ning's pupils suddenly constricted, and he immediately put on an unhappy expression. "Dean Qin, you mean that even as

Hao's biological grandfather, I can't come and visit my grandson?"

Qin Muyang seemed to not understand Old Master Ning's expression as he walked closer to him. "Yes, that's right. I'm not willing to risk it. No matter how much you disinfect yourself, the more contact he has with other people, the more risk he's in. It's not that I don't want you to go in. If you insist on going in, then you'll be the only person going in from now on. The patient is terminally ill and needs company. I thought that since you're already very old, if I let you sit in there for five hours every day, your frail body might not be able to take it."

"Then, let my daughter-in-law go accompany him," Old Master Ning said forcefully.

"That's right. I said Ning Wenhao's mother should go in and accompany him."

"Ning Wenhao's mother is not the Ning family's daughter-in-law. I said let the Ning family's daughter-in-law go in."

Qin Muyang immediately shook his head, "That won't do." After all, she was not his biological mother. No matter how good she was to

Ning Wenhao, she could not evoke an emotional reaction from him. "Old Master, if you really want to do good for your grandson, let his mother accompany him. Give him the strength to go on, and not leave him alone in this world as he leaves to the next."

Then, without waiting for Old Master Ning to refute, he gave all the doctors and nurses in the VIP intensive care unit some orders. "Look carefully. From now on, only this madam is allowed to go in to take care of Ning Wenhao. No one else is allowed to enter the intensive care unit. Do you understand?"

"Yes, we understand." The doctors and nurses nodded in unison.

Old Master Ning,

Xiao Yushan smiled. "Director Qin must have been given some compensation by a mysterious entity to come here and help Mao Yating, right?"

"Yushan!" Old Master Ning called out. This was the first time he had stopped Xiao Yushan from speaking.

Qin MUYANG smiled at Xiao YUSHAN. "Madam, I'm the director of the military hospital. I'm in charge of all the patients in this hospital. I am indeed doing this for Ning Wenhao's good. Why? Do you really want Ning Wenhao to die?"

### **Chapter 1679: What Attitude?**

"How could I possibly want that?"

"It's good that you don't." Qin MUYANG's face had already darkened. "Ning Wenhao's father sacrificed himself on the battlefield. As his son, Ning Wenhao is the focus of the campaign department and also someone very important to the country's protection. Although you're not his biological mother, you should be kinder. He's the orphan of a martyr, after all."

With that, Qin MUYANG could no longer be bothered to argue with a woman like Xiao YUSHAN. He nodded at Old Master Ning and Ning Haoran and left.

Xiao YUSHAN was about to find trouble with Mao YATING when a nurse beside her asked with a smile, "Mrs. Ning, you only have five hours to see the patient today. Would you like to go in now?"

"Yes!" Mao YATING immediately nodded.

"Please come in with me. I'll tell you some things to take note of over the next few days."

"Okay."

Mao YATING was extremely disheartened by the Ning family. She did not even look at Old Master Ning before she followed the nurse into the intensive care unit.

"What kind of attitude is that?!" Xiao YUSHAN's face instantly darkened, and she could not help but say angrily, "Do you really think you can look down on the Ning family now that you have Chi Yang and Nangong Nuannuan's backing?"

Ning Haoran glanced at Xiao YUSHAN and said, "Dad, don't be angry. It's not like you didn't know about this woman, Mao YATING. When you gave her money to leave Haoyu, she didn't take a single cent before leaving. Right now, Hao is the most important thing to her. The Ning family and money mean nothing to her. If we really want her to help the Ning family, she has to be able to feel our kindness."

Old Master Ning thought about it and felt like that made sense. He could only swallow his anger and order Ning Haoran, "Tell her to come home for dinner tomorrow night."

"Yes."

Xiao YUSHAN glanced at Ning Haoran, her eyes full of depression.

Nuannuan and Chi Yang left the military hospital. After they got into the car, Chi Yang asked, "Nuannuan, you looked at Ning Wenhao's body just now. Do you know why his illness is so serious? Is his illness coming from a source we have yet to pinpoint?"

At first, Chi Yang thought that Ning Wenhao had only gotten pneumonia because his body was frail due to his injury and his immune system had been weakened. However, Ning Wenhao's sudden coma and the fact that even the best anti-inflammatory drugs in the world could not suppress his illness made Chi Yang a little suspicious.

Ning Wenhao was his subordinate and brother. Among ordinary people with no special abilities, he was considered the cream of the crop. Even if he suffered a serious injury, he would recover faster than ordinary people, and his resistance was better than that of ordinary people.

Nuannuan said with a serious expression, "I observed him carefully. The infection in his lungs is not pneumonia caused by a cold. Instead, it's a large area of infection caused by some special bacteria in a wound of his that was triggered by the cold. In other words, an enemy of his planted this cold-activated bacteria in his body. Even if he manages to clear up his infection now, after he recovers from his injury and is discharged from the hospital, as long as he has a cold again, it will retrigger the infection."

"Have you ever seen this kind of infection before?"

Nuannuan shook her head. "Never. The necrotic cells in his lungs look very strange, so I have to study them carefully."

Chi Yang looked at Nuannuan and wanted to ask her more. However, in the end, he did not. Because he did not want to put too much pressure on Nuannuan..

## **Chapter 1680 Kiss Me Again**

However, Nuannuan immediately sensed Chi Yang's thoughts. She said, "Big Brother Chi Yang, don't worry. In the past, I've been able to develop drugs in a few hours. That time my brother was injured, I developed the antidote in less than an hour. So far, the drug that has taken me the longest time to develop has taken only five days. Up until now, the only thing I don't know is how many strands of hair you have on your head. Nothing else is difficult for me."

Chi Yang's eyes lit up. He leaned over and hugged her, and he kissed her delicate face and bouncy cheeks. He said, "Things have been hard on you recently."

Nuannuan nodded. "They've been hard on you too. Give me another kiss."

Chi Yang's eyes darkened. He bent down and sucked on her moist red lips, trying to suck all of her fragrance into his mouth.

Nuannuan felt her lips go numb, and she felt as if she was about to be sucked into Big Brother Chi Yang's mouth. She immediately felt dizzy.

When Chi Yang let her go, Nuannuan realized that her mouth was red and swollen. After bidding farewell to him, Nuannuan returned to the Nangong family.

After learning that Nuannuan was a genius pharmacist with a reputation known across the world, the Nangong family renovated the sub-building they had previously built in memory of Nuannuan's mother, Nangong Yu.

Nuannuan had asked Aiden to build a pharmaceutical research factory for her in the Empire State. After Aiden built it for her, the Nangong family asked Aiden to buy two sets of the most important equipment

she would need, while the other equipment would be moved into the deputy building of the Nangong family.

This had greatly facilitated Nuannuan's secret development of some medicines.

When Nuannuan returned home, the servants of the Nangong family immediately informed the Nangong family. Therefore, her second uncle immediately rushed back from the company and prepared to personally cook for Nuannuan in the evening.

After Nuannuan returned, she locked herself in the deputy building and carried out various experiments.

At Nuannuan's request, there were all kinds of elemental items available to her.

These so-called elemental items contained some chemicals or compound chemicals, all having been arranged by Nuannuan. If these elements were combined, they would become a kind of medicine.

Nuannuan put a little bit of the lung tissue into the container and observed the bacteria that had spawned the large area of infection in the lungs.

She had indeed never seen this type of bacteria before, so she was sure that this was definitely a new type of bacteria that someone had deliberately developed.

As for why this type of bacteria had been put into Ning Wenhao's body, it might have been unintentional. After all, back then, Ning Wenhao and the others had been on a mission to destroy a crime organization and crack down on a trafficking gang.

Ning Wenhao had not been injured initially. It was because of Hong Feixu that he had gotten injured.

However, it could not be ruled out that this was intentional.

As for why they had deliberately allowed Ning Wenhao to get injured, that was not something Nuannuan could know. After all, brother Chi Yang had not told her about this crime organization.

## **Inual**

After Nuannuan observed the shape and size of the bacteria, she dropped a bit of a solution of concentrated common anti-inflammatory drugs on it.

The bacteria did not react.

Nuannuan thought for a moment and divided the bacteria into countless parts, placing only a little bit of it in each test tube.

Then, she began to make all the kinds of anti-inflammatory chemicals she could think of. There were 15 in total, and they were added to the test tubes.
