

Physician Wife 2171

Chapter 2171: Not His Mother

Trying to hide his red face, Xu Feiyang replied with a straight face, "I already know who the traitors on my side are."

"That's good. What do you want to do? Do you plan to go back and kill them, or do you plan to sneak out first and have me call the police for you?"

"I'll go back and kill them."

Even if he was at a disadvantage, as the boss of War Leopard, Xu Feiyang was definitely not a timid and short-sighted person.

If he called the police today, his reputation in the underworld would be tarnished.

If he could kill Cheng Shitian today, War Leopard's reputation in the underworld would be greatly improved.

"Okay, go straight back, turn left... turn right, stop, and enter the vents again. Take down the third and second ceiling tile on the top right and climb up."

Xu Feiyang did as Nangong Nuannuan said and quickly climbed back into the vents.

What Xu Feiyang did not know was that he had already been gone for ten minutes. After six minutes, Cheng Shitian felt that something was wrong and ordered someone to go into the opposite room to check on the situation. However, he was stopped by Xu Feiyang's men and was not allowed to go in and disturb Xu Feiyang.

In the end, Cheng Shitian secretly got someone to pull out surveillance footage from the opposite room. Only when he saw that the person in the opposite room was still making a call did Cheng Shitian patiently continue to wait.

He did not know that Nangong Nuannuan had already hacked everyone's phones and all the surveillance cameras in the underground club.

After Xu Feiyang crawled into the vents, Nangong Nuannuan hacked the surveillance cameras in the room opposite K999 and created a virtual image. The surveillance camera now showed Xu Feiyang's talking on the phone with his back to the camera.

Only when the real Xu Feiyang returned and the surveillance camera turned around did the surveillance camera return to projecting reality.

The door opened. The two bodyguards outside the room bowed respectfully to Xu Feiyang. Initially, Xu Feiyang was always good to his brothers. However, he had treated these people as his brothers, yet they wanted his life.

Now, though...

The corners of Xu Feiyang's lips curled up. These two people did not have guns on them as they wanted to avoid getting caught. Everyone with guns had been killed by him. Now, he was the one with the most guns.

He wanted to see who would end up as the fish being shot in the barrel if these people wanted to fight him.

Nangong Nuannuan could actually help inform Xu Feiyang's underling, or at least inform the underling who had accompanied him to prison. However, she did not do so because she felt like she had already helped enough. After all, Xu Feiyang had been stupid enough to be deceived by the Xu family after so many years. He had still treated them as his trusted aides. If she was in such a dangerous situation herself, she was confident that she could escape unscathed no matter who the other party was. She had already helped Xu Feiyang so much. If she continued to help him, she would be doing charity.

Therefore, Nuannuan only closely monitored the situation from then on.

"Why didn't you help him inform his brother?" Chi Yang asked from the side.

"Do you think I should? I don't! I'm not his mother, so why do I have to think everything through for him? Is he the boss, or am I?"

Nuannuan's words made the dark-faced Chi Yang's face instantly clear up.

Chapter 2172: Just Friends

"What are you laughing at?"

Chi Yang did not know that his happiness was showing on his face. When he heard his wife ask that, he said smugly, "So no matter how much he likes you, you treat him no differently from other people. If I ever encountered the situation he's in now, you would definitely inform my brothers."

Nuannuan looked at Big Brother Chi Yang and pouted. "Isn't that obvious? Why do you always compare yourself to him? He's just an ordinary friend. I only helped him because we might need his help in the future. Who are you? You're my husband and the most important man in my life! If you, or Selina, or any other of my close friends were to encounter such a situation, I would also help you guys and handle everything for you."

Chi Yang was completely relieved.

Xu Feiyang was only a friend Nuannuan planned to use later!

After Xu Feiyang returned to the negotiation room, he heard someone lock the door from the outside.

He felt like dozing off. Could someone hand him a pillow?

Initially, he was worried that if there was a conflict inside, Cheng Luo's men would rush in. He had no idea how many men Cheng Luo had arranged to kill him. He was still a little worried that the men would rush in from the outside.

This was great. Those people thought he was a fish in a barrel waiting to be shot, so they simply locked the door. He did not have to worry about someone coming in and causing trouble later.

Cheng Shitian saw Xu Feiyang come in and smiled. "Boss Xu, you've been on call for a long time. It seems that not only did your Xu family affect my Flying Dragon gang, offended Miss Nangong too."

After Xu Feiyang sat down, he slipped the gun hidden in his sleeve down into his palm. Then, he placed it in the hand of his brother, Yang Shuo.

Even though Nuannuan looked down on Yang Shuo and Fan Dong, they were actually very smart. Otherwise, they would not have been able to get to where they were today.

Because there were tables in front and behind them, Cheng Luo, who was on his left, could not see Yang Shuo, who was on his right. Therefore, when Xu Feiyang openly shoved his gun to Yang Shuo, no one else saw it.

Yang Shuo received the gun with a note. He looked down and saw that there were eight names on it. One of the people sitting directly behind him had a gun.

When he read the note, Yang Shuo knew what his boss was thinking. He knew that they were going to have a big fight tonight. Yang Shuo's expression did not change, but his heart started to beat faster.

Facing Cheng Shitian's question, Xu Feiyang leaned back hard on his chair. The four-legged chair now had two legs.

Xu Feiyang smiled at Cheng Shitian and said, "Boss Cheng has jumped to a big conclusion. Nangong Nuannuan and I are very good friends."

Cheng Shitian had a look of disbelief on his face. "Nangong Nuannuan is the eldest daughter-in-law of the Nangong family and the future granddaughter-in-law of the Chi family. Boss Xu, are you telling me that you and Nangong Nuannuan are friends?"

Xu Feiyang chuckled. "If you don't believe me, you can ask my two most capable subordinates. They also have a good relationship with Miss Nangong."

As Xu Feiyang spoke, he knocked on the bottom of the table with his hand. Right behind him was Fan Dong.

Everyone heard the sound of Xu Feiyang knocking on the table behind him. Fan Dong's legs suddenly tightened.

Because as Xu Feiyang knocked on the table, he successfully stuffed another gun between Fan Dong's legs.

Chapter 2173: Short-sighted

In order not to be discovered by Cheng Shitian's people, Fan Dong had to clamp his legs tightly around the gun. He did not dare to put it in his hand and then into his bag. Cheng Shitian would definitely see it.

The members of the Xu family who were around Fan Dong had no idea that he had a gun now.

Fan Dong did not intend to hide it this way. He was really just afraid that his actions would be seen by others.

Since the Xu family wanted to kill him, they wanted to catch him off guard.

The one with the highest combat power among them was Yang Shuo. Because they had to check their guns before coming in, the Xu family could not bring too many guns in or they would risk being discovered.

In order to kill him in one shot and catch him off guard, Cheng Luo on his left, and Cheng Shitian, the boss of the Flying Dragon, who was directly opposite him, were probably responsible for killing Xu Feiyang. Cheng Luo's nephew, Cheng Ji, sat directly behind Yang Shuo and was responsible for killing him. As for Fan Dong, the Xu family was by his side and behind him, so these people were responsible for killing him.

After killing the three of them, the remaining people would be much easier to control.

Plus, they had guns, so who knew what would happen after the situation came to an end.

Fan Dong said to Cheng Shitian, "Boss Cheng, our boss and Miss Nangong are indeed friends, so you'd better respect him, or you'll offend him and thus Miss Nangong."

After Fan Dong said that, War Leopard's brothers all laughed to cheer for their boss.

After War Leopard's men finished laughing, Cheng Shitian also laughed, and then the brothers of Flying Dragon also laughed to cheer for their boss.

Xu Feiyang could not help but secretly roll his eyes.

He had been in the underworld for so many years, and he still could not stand this idiotic way of creating hype.

If a person was so powerful that others looked up to him, why would he need this kind of low-quality hyping up?

"Boss Xu, do you think I, Cheng Shitian, am scared by that? I won't dilly-dally anymore. I invited you here today to talk to you about that tunnel. I don't care if your War Leopard does it or not, but my Flying Dragon definitely will. Give me the resources you have, and in the future, Flying Dragon won't encroach on War Leopard's territory again."

"I, Xu Feiyang, am not scared of you, Cheng Shitian. Why should I give you my resources?"

"You don't want to do it, so why shouldn't I?"

"I'm not forbidding you from doing it. If you want to do it, that's between you and your gang. I don't have the authority to control you, so how could I not allow you to do it?"

"But those suppliers only recognize you as their contact. I contacted them privately, but they wouldn't do anything."

“That’s your business. You have no way to gain the trust of the suppliers and no way to open up the channel you want, so you came to my War Leopard to cause trouble. What gave you the idea that my War Leopard is easy to bully?”

Cheng Shitian put on a shameless smile and said, “Boss Xu, I didn’t want to snatch away your War Leopard resources. We could’ve worked together and made money together. But didn’t you quit? So why can’t you share what you don’t want anymore?”

Xu Feiyang also smiled slightly. “The resources I have are mine, and they’re good resources from good channels. Even if I don’t do it in China, I can still expand my business overseas in the future and do everything abroad. Even though War Leopard is a gang, I’m not a short-sighted person. I’ll lead us to heights that short-sighted people can’t even fathom.”

Chapter 2174: Robbed Too Many People of Too Much Money

“I won’t touch a country or society’s bottom line, but I have good resources, so I’ll do my business in other countries where it’s legal. If Boss Cheng really likes my business is not bad, when I expand overseas, I’ll consider working with you.”

Cheng Shitian’s eyes had turned completely black. He narrowed his eyes dangerously and asked, “Boss Xu, I hope you can think about this carefully.”

“There’s nothing to think about. If I really handed over such good resources to you, that would be idiotic.”

Cheng Shitian leaned back and slowly put his hands on his waist.

“It seems that Boss Xu is planning to do this the hard way.”

Xu Feiyang smiled. “What? You’re threatening me because you can’t get the money? Boss Cheng is indeed a bandit. But modern gangs must stay in line with national and international laws. The days of blindly pursuing profit by doing jobs then staying alive to eat well after are gone forever. Gangs nowadays should not break laws and try to walk their own path. They should rely on their brains and their connections. Gangs that fight and kill stopped existed after the 1990s.”

Cheng Shitian was enraged by Xu Feiyang’s rebuke, but he just smiled and said, “Oh, is that so? So that’s how boss Xu defines a gang. No wonder boss Xu was able to come out and negotiate with me so easily today. It turns out that after all this time, you think that modern gangs won’t shoot and kill people anymore. They’re going to walk a legal path now!”

Xu Feiyang still said calmly, “It’s not that I won’t kill people. But under normal circumstances, I won’t kill anyone, unless I’m betrayed or someone else wants to kill me first. What? Judging by Boss Cheng’s smile, are you preparing to kill me today?”

“I’m afraid that I’m not the only one who wants to kill you today! You’ve robbed too many people of too much money!”

As Cheng Shitian finished speaking, the originally peaceful negotiation hall was instantly filled with the sound of gunshots.

Cheng Shitian had yet to come back to his senses when he was inexplicably shot. Before he could even cry out in pain, his entire body slumped over like a dead dog, with his head only propped on the table by Xu Feiyang.

“Don’t come over! Get over there, or I’ll blow his head off!”

The people of Flying Dragon who had followed Cheng Shitian here were all his trusted aides, so they all knew that Boss Cheng and some of War Leopard’s men had colluded to kill Xu Feiyang.

However, what was happening now?

Besides Cheng Luo, who was not completely dead yet, the rest of War Leopard’s men who had colluded with them had all been killed by Yang Shuo and Fan Dong. Flying Dragon’s people were all stunned and rooted on the spot, unable to understand what was going on.

Flying Dragon’s men only wanted to save their boss, but Xu Feiyang had a guns, and not just one or two.

One of the Flying Dragon’s brothers tried to take advantage of the chaotic situation, but just as he got close to Xu Feiyang, he was shot in the head with another gun Xu Feiyang was holding.

There were indeed many desperados in the underworld, but... no one would choose to die if they still had a good chance to live!

After that brother was shot in the head, not only were they scared, but even Cheng Shitian was so scared that he shouted, “Get lost! Get lost! Don’t come over!”

They had been confident that Xu Feiyang would not have a pistol, so they did not bring a lot of guns in when they first came in.

Chapter 2175: Very Curious

Flying Dragon had been confident that Xu Feiyang would not have a pistol, so they did not bring a lot of guns in when they first came in. Cheng Shitian’s guns were brought in by Cheng Luo from War Leopard.

Now, Xu Feiyang had two guns and Yang Shuo and Fan Dong each had one. That was a total of four guns. The gun in Boss’ hand had been snatched by Xu Feiyang during the chaos just now.

They were now under the butcher’s knife. They thought that they were the knife. They did not expect to suddenly become the meat under the blade in the blink of an eye.

“B-Boss Xu, this is all a misunderstanding... This is all a misunderstanding. Let’s discuss this properly. Can you let go of me?”

Xu Feiyang had been smiling from the beginning to the end of this. Flying Dragon thought that Xu Feiyang’s smile just now was one of fear, but now, they could see how sinister it truly was.

Looking at Xu Feiyang’s smile now, it was clear that he had great confidence in himself. Boss could not be compared to him at all.

Facing Boss Cheng, who was so scared that he could not even speak clearly, Xu Feiyang did not give him a second glance. He turned to look at Cheng Luo, who was lying on the ground with a bullet in his chest. He was huffing and puffing. With an incredulous expression, Xu Feiyang said in disbelief, "Cheng Luo, I treated you and Su Zhi so well."

Feeling his body temperature rapidly decrease, Cheng Luo was scared to tears. "B-Boss, t-this has nothing to do with me. S-Su Zhi is behind this. P-please... save me... I don't wanna Die!"

Cheng Luo was Su Zhi's brother-in-law.

Fang Lanzhi had an elder sister and a younger sister. Her elder sister was Fang Lanxin from the Shipley family. Her younger sister was the one who had to fly first class with Fang Lanzhi on Nuannuan's plane. She had even helped Fang Lanzhi and Nuannuan argue. Her name was Fang Lanxi. Cheng Luo was Fang Lanxi's husband. Because he worked under Su Zhi, Fang Lanxi and his wife had always followed their elder sister, Fang Lanzhi.

Xu Feiyang had come to Emperor District this time to deal with Flying Dragon. The Xu family had been experiencing some chaos. Xu Binren was captured. If the Xu family did not have another backer, they would slowly fade into the shadows. Therefore, Xu Feiyang's War Leopard became their only hope.

In order to not attract Xu Feiyang's attention, Su Zhi had not gone with him this time. The Xu family handed all their tasks to Cheng Luo and promised him that if he could kill Xu Feiyang, he would be the second-in-command of War Leopard in the future.

That was why Cheng Luo and Cheng Shitian had conspired.

Cheng Luo did not understand how things had changed so quickly.

Looking at Cheng Luo's terrified expression and thinking about his betrayal, Xu Feiyang felt like it was impossible for him not to be angry.

Especially when he thought about how his parents and grandfather had been harmed by Xu Jianye's family. The anger in his heart could not help but surge forward. The corners of his lips curled up into a bloodthirsty smile as he asked, "You're a traitor who tried to kill his master. Why do you think you deserve to live?"

"I-I was wrong... B-Boss... Please..."

"Do you know where I got these guns?"

Cheng Luo, "..."

Cheng Shitian, "..."

The members of Flying Dragon, "..."

War Leopard's brothers, "..."

Everyone was very curious about this.

After all, Xu Feiyang's martial strength was very high. If he had a gun and was on guard, neither the Xu family nor Cheng Shitian would have dared to attack him so blatantly.

This was also why Xu Feiyang never doubted the Xu family. Xu Jianye, Xu Binyi, and Su Zhi were not stupid. They knew how to read people.

Chapter 2176: Licked Blood off Their Blades

The Xu family all knew Xu Feiyang. Even though he was young, he was a very steady and cautious person. Therefore, even though the Xu family wanted the resources he had from the very beginning, they did not dare to touch him until they could kill him with one blow. Otherwise, the Xu family would be destroyed.

It was also because of his many years of being in the family that even though Xu Feiyang did not have deep feelings for the Xu family, he still had basic trust in them.

Cheng Luo did not understand how Xu Feiyang was the first to shoot at him.

“Boss, where did you get the guns?” Yang Shuo asked excitedly.

“I stole them.”

Yang Shuo asked, “How?”

“When I went out to make a call just now.”

Everyone’s eyes widened in disbelief.

Yang Shuo asked, “Boss, didn’t you leave to pick up Miss Nangong’s phone call just now?”

“Yeah. Nuannuan was the one who told me that the Xu family wanted to kill me.”

Cheng Luo, “...”

“Then, she helped me hack all the surveillance cameras in the clubhouse and told me who had guns on them. I only came back after robbing seven guns. Including one gun from this thing, so a total of eight guns. You guys should come over here. I still have four guns. Take them for protection.”

War Leopard’s brothers knew that their boss was referring to them. They were initially stunned because they were afraid that their boss no longer trusted them thanks to the Xu family, but he was now giving them guns.

Allowing them to take the guns was giving them a ticket to renewed life.

The remaining brothers from War Leopard were excited. They quickly walked to Xu Feiyang and took the guns from him. They stood beside Xu Feiyang and aimed their guns at Flying Dragon’s members.

Ding dong! There was a knock on the door.

The atmosphere in the room suddenly dropped back to freezing point.

Xu Feiyang smacked Cheng Shitian’s head with the barrel of his gun and ordered, “Ask them who they are.”

Cheng Shitian had been shot in the abdomen. His face was pale, and his body was weak. However, after being hit on the head by Xu Feiyang, he could only angrily shout, "Who is it?"

"Boss Cheng, I'm from War Leopard. I wanted to ask if you needed help."

"Let them in," Xu Feiyang ordered.

Cheng Shitian quickly said, "Come in."

These people were all traitors to Xu Feiyang. Only after Xu Feiyang took his anger out on them would he be happy.

"Okay."

The people outside heard Cheng Shitian's words and opened the locked door from the outside.

As soon as the door was opened, a series of bangs could be heard. War Leopard's brothers rushed out with their guns and killed the people outside.

The people outside did not expect this. They were caught completely off-guard as they tried to walk instead, and before they could say another word, they saw the Xu family's corpses on the ground, surrounded by bullets.

They did not even have time to take out their guns before they died.

The brothers of War Leopard were in charge of sniping at the front, while those at the back were in charge of collecting the guns of these traitors.

Most of the people outside were from the clubhouse. There were not many people among them who could really fight and kill. The guns had been for the sake of cooperating with Cheng Luo and the others. If there were any accidents, they could just help a bit to finish the job. They were completely not on the same level as the brothers who surrounded Xu Feiyang, who licked blood off the edges of their blades every day.

It was almost effortless for these people to destroy the clubhouse men sent by the Xu family to watch over the place.

Chapter 2177: Silently Watch Her From Afar

Xu Feiyang didn't kill Cheng Shitian immediately. He left the mess to Boss Cheng's brothers to clean up and left with his own crew.

The people from the military base arrived as soon as he left.

Flying Dragon was a tumor upon the country. Even though both they and War Leopard were gangs, they were completely different. Flying Dragon was like a poisonous pest. The country had long wanted to take care of them. However, Cheng Shitian was like a cockroach. He could always find a scapegoat and escape justice.

However, it was different this time. This time, they had been caught red-handed.

Flying Dragon's Cheng Shitian had started a fight, wanting to kill Xu Feiyang. Xu Feiyang was only forced to defend himself. The people from the military base captured Cheng Shitian and all the people in the clubhouse.

!!

This way, they could clean up the people in the club, easily take back their territory, and even destroy the entire gang.

Xu Feiyang could guarantee that Cheng Shitian would either be sentenced to death or be sentenced to life in prison. Moreover, he would send people to monitor Cheng Shitian's every move and would never let him go.

As for the Xu family...

A cold smile tugged on the corner of Xu Feiyang's lips.

Killing his father, mother, and grandfather was something unforgivable!

Duke Leyton was going to have an operation the next day, and Nangong Nuannuan had agreed to accompany him into the operating room.

Duke Leyton full name was Leyton Carter. He was the child of the Carter family of the royal family of Luntan. He was the grandson of the old king's younger brother.

Because he had a very serious congenital heart disease, even though he had been extremely smart since he was young and was also a good businessman, he had not had a girlfriend until he was 23 years old.

Previously, the doctor had said that even if he had a heart transplant, he would not be able to live past 23 years old. However, when he was 17 years old and his condition was the most serious it had ever been, he met someone special: the 12-year-old Nangong Nuannuan.

At that time, even though Nuannuan did not know how to perform surgery, she already possessed an amazing set of acupuncture skills.

All these years, Leyton relied on warm acupuncture to keep his spirit going until he found a suitable heart for a transplant. His body was in the best condition it had ever been in now.

To doctors, Leyton's body was a miracle.

A patient with severe congenital heart disease who could not walk on his own at the age of 17 and that the world's cardio-cerebrovascular experts had declared would never live past 23 had not only survived past that but even was living healthily.

All of this was thanks to Nangong Nuannuan.

Leyton chose to have surgery at Benevolent Angel Hospital, which was under Imperial Phoenix Group's purview.

Leyton knew that Nangong Nuannuan was not only the chairman of Tianheng Holdings, but she was also the chairman of the Imperial Phoenix Group of Sab.

The doctors in Benevolent Angel Hospital had very good resources, and in addition to that, this hospital was very welcoming. Leyton had confidence handing himself over to such a hospital.

Leyton kept looking at Nangong Nuannuan as the doctors injected him.

Nangong Nuannuan smiled at him and said, "Don't worry. With me around, everything will be fine."

Leyton smiled. "Okay."

"After this surgery is done, you'll be a normal person. You can date girls you like, get married, have children, and carry on the Carter family's bloodline."

Leyton was still smiling, but the depth of his eyes dimmed a little.

"Okay."

He had fallen in love with the girl in front of him from the moment he first laid eyes on her.

However, with his illness and how outstanding she was, he never dared to express his feelings for her. He could only bury them deep in his heart and use his identity as a big brother to silently watch her from afar.

Chapter 2178: Cardiac Surgery

"Sunny, thank you for coming to accompany me for the surgery."

Nuannuan smiled. "I'm your sister. Of course I should accompany you to such an important matter. Relax. Just take a nap. Once you wake up, everything will be different."

"Okay." Leyton nodded. He did not know whether it was the effect of the anesthetic kicking in or Nuannuan's words, but he soon lost consciousness.

The surgery began once the chief surgeon cut open Leyton's chest. Nangong Nuannuan observed the chief surgeon's every move.

This was the first time she was watching a cardiac transplant surgery.

!!

She had already accumulated some experience in surgery, and her superpowers had improved to the point where she could visualize cells. Nuannuan silently watched the chief surgeon operate, however, she immediately stopped him when she saw that something could be done better to make the surgery more successful.

Then, she took the scalpel and made her own incisions.

The chief surgeon was a specialist hired by the hospital, so he was the absolute authority in the operating theatre. However, Benevolent Angel Hospital was a private hospital, after all, and the person who took the scalpel from him was the boss of the company that ran this hospital. Thus, the chief surgeon submissively allowed Nangong Nuannuan, who was not even twentyyears old yet, to operate on Leyton's heart.

Initially, the expert did not think much of Nangong Nuannuan's technique. He even thought about how since there were surveillance cameras in the room, it would not be his fault if something bad happened.

Eventually, he realized that Nangong Nuannuan had performed a series of complicated techniques, including the removal of excess blood vessels in Leyton's chest. The expert was shocked.

This... Was this really a technique that could be performed by a young girl who was not even twenty years old yet?

He could not have done it so accurately himself, even with the help of a machine!

Nangong Nuannuan had completed the most dangerous part of the surgery. Once she was done, she returned the scalpel to the chief surgeon.

The doctor's eyes were filled with surprise. He took the scalpel and continued.

After retrieving the donated heart and using the pacemaker to maintain rhythm, Nangong Nuannuan took over the scalpel again.

She could see the areas around Leyton's heart that were congested due to perennial diseases. She used the gamma knife and gamma rays to remove all the small blockages in the blood vessels. Only then did she return the scalpel to the chief surgeon again.

The chief surgeon's eyes were wide open.

Many experts were qualified to perform heart transplant surgery now, but the survival rates of patients varied greatly. Successful ones could live up to several decades longer, but those that were unsuccessful only survived another few months.

This was due to the treatment of these small blood vessels.

Since many doctors were unable to clear the debris in the blood vessels due to poor technique, the patient's body would automatically begin to reject the new heart once the transplant was completed.

If the blood vessels that were filled with debris were rejected by the heart, it would soon cause them to become congested.

If they could not be quickly unblocked, it would cause a serious rejection reaction. Just one to two months after the operation, death due to the blockage of the small blood vessels around the heart and the aorta could happen.

If the rejection was not serious and the blood vessels slowly became congested, the patient could live for up to ten years.

However, in some lucky people, their blood vessels were cleaned very thoroughly, and because the cell rejection was minimal, there was no blockage of blood vessels. As long as the transplanted heart did not go through any organic changes, it would function normally, until it failed due to disease or old age.

Chapter 2179: She Had Everything

The chief surgeon saw that Duke Leyton's initially congested blood vessels had been cleaned up by Nuannuan. He did not know what method she used.

He placed the donated heart into the patient's chest cavity and began to suture the major arteries one by one.

Just as he was about to start, Nangong Nuannuan interrupted. "Let me do it."

After witnessing her superb technique, the chief surgeon was very impressed. If he did not know that she was the chairman of the entire Imperial Phoenix Group and did not have any extra time to spare, the chief would definitely beg her to be his mentor.

Now that he had a chance to learn from her, the chief surgeon was very happy to hand over the suture needle.

!!

The suture was an upgraded version of the Gore-Tex suture specially produced by Angel Pharmaceuticals. It performed much better than standard top-notch Gore-Tex sutures used in other hospitals. It had improved flexibility and strength, and its biocompatibility was stable. It would definitely not cause any adverse reactions.

When this brand-new and upgraded version of the suture was stitched through the graft, it left a negligible number of gaps. Most importantly, once the suture encountered blood, it would immediately expand. As a result, the number of needle holes required was much fewer than other sutures.

This suture by Angel Pharmaceuticals had yet to be officially sold to hospitals around the world. Nangong Nuannuan had specifically asked headquarters to send this suture over for Leyton's surgery. She planned to personally suture his arteries.

Initially, the chief surgeon wanted to learn. After all, Nangong Nuannuan could not hide her technique if she was suturing.

However, after watching her, he gave up.

Due to the precision and stability of Nangong Nuannuan's hands, even if he spent another 20 years practicing, he would not be able to achieve such perfection.

He suspected that Nangong Nuannuan was a robot.

How could an ordinary person's hand behave so much like a machine? No, it was even more stable than a machine.

This was simply unbelievable!

The chief surgeon could not clearly see every needle stroke and line of thread that Nangong Nuannuan placed. He could only see her weaving through flesh and blood vessels. He thought that she might accidentally sew several blood vessels together, but she was so fast and every stitch was done perfectly.

In the end, the chief surgeon could only see the final stitching through a magnified lens.

Organ transplants took a long time. For such a large-scale transplant operation, if it was successful and ran smoothly, it would take fifteen hours. If there were some complications, it might take more than twenty-two hours. Most of this time was not spent on organ replacement, but on the suturing of the blood vessels.

Suturing needed a doctor, but doctors were people, not machines, so suturing so many blood vessels definitely required a lot of technical experience and stability in both hands.

Nangong Nuannuan had everything required.

Her eyesight was so good that she could see blood vessels that even the chief surgeon, who was a senior expert, could not see clearly. Her hands' speed and accuracy were comparable to that of a machine. Even though the sewing took a long time, her hand holding the needle remained extremely stable. Despite such a long time, the chief surgeon realized that Nangong Nuannuan's hand never trembled.

Chapter 2180: Fifteen to Two

Despite twenty-nine years of practicing medicine and performing countless heart transplants, the chief surgeon had never seen anyone operate better than Nangong Nuannuan.

The fact that Leyton was able to get his boss to personally suture his heart was even more amazing than asking the world's best cardiologist to perform the surgery.

The chief surgeon dared to assert that as long as there were no serious rejection reactions after Leyton's heart transplant, he would be able to live in peace until his natural death.

The originally 15-hour surgery was completed in just two hours with Nangong Nuannuan's personal suturing.

Looking at the beautiful suturing on the patient's chest, the chief surgeon felt that all his years of medical training had been wasted.

Nangong Nuannuan was simply a natural-born doctor.

It was a pity that she did not put much passion into medicine. Otherwise, who knew how famous she would be by now?

If he spread her technique, she would definitely be famous throughout the world, right?

Nangong Nuannuan walked out of the operating room and saw that Big Brother Chi Yang was waiting for her. He was making a phone call. When he saw her walking over, Chi Yang immediately hung up the phone.

Seeing Big Brother Chi Yang's upset expression, Nuannuan asked, "What's wrong, Big Brother Chi Yang?"

Turning around and meeting Nuannuan's concerned gaze, Chi Yang answered without any hesitation, "Ning Wenhao was attacked."

Nangong Nuannuan frowned.

“They probably wanted to kidnap him. He resisted with all his might, but the other party was all bugged, and their power was astonishing. Even if he has superpowers now, they’re still at a low level. Fortunately, he met Xu Feiyang, who was cleaning up a scene, and a group of War Leopard’s men saved him. However, twelve members of War Leopard died, and even Xu Feiyang was injured.”

“How is Ning Wenhao? Is he injured? Is he bleeding? Has the other party stained his blood?” Nangong Nuannuan asked anxiously.

Chi Yang knew what she meant by that question. He said, “Don’t worry. Fortunately, Xu Feiyang and the others arrived in time. Ning Wenhao was not injured. The Eagle Special Forces arrived soon after too. Due to their desperate resistance, they were all killed.”

When Nangong Nuannuan heard that Ning Wenhao was fine, she heaved a sigh of relief.

“I’m sorry. Ning Wenhao didn’t handle this matter well. I advised him to be careful and not to act alone, but he still did and allowed the other party to take advantage of him. I’ll punish him when we get back.”

Chi Yang knew how important this matter was to the country, the Eagle Special Force, and Nangong Nuannuan. Therefore, before he left, he had specifically given Ning Wenhao this warning.

Ning Wenhao’s martial prowess was very high, and now that he had special blood, he had become the target of Shi Yalin—also known as Viper.

Once Shi Yalin had his blood, it was very likely that she would obtain the serum to create a new type of test subject. The country and Nuannuan would face huge trouble.

Therefore, Chi Yang felt that Ning Wenhao had not only violated military rules but also endangered many people’s lives. His actions would bring countless troubles to everyone.

That was why Chi Yang apologized to Nuannuan.

However, there was more to it.

“Big Brother Chi Yang, Ning Wenhao is a human, not a machine. He’s a top-tier special combat soldier of the Eagle Special Forces, and he still has superpowers. You might want to protect him and train him within the Eagle Special Forces, but not allowing him to go out unless he has a crew with him and not allowing him to go on any mission is obviously unrealistic. You don’t have to apologize to me. I know you’re worried about his safety and his capture.”
