

Physician Wife 2391

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2391

2391 Good-tempered father (3)

Her tears could not stop falling.

What could she say?

She could only say that her sister-in-law's two children were too talented.

Not only were the children talented, but even the servants were quick-witted.

Seeing the veins popping on her big brother's forehead, Nangong Nuannuan wanted to light candles for him.

He had no choice. He had chosen a wife and given birth to his own daughter. He really had to pamper them to the end even if he had to kneel down.

"Director, I'm really sorry. I promise that this will only happen once. There won't be a second time."

After all, Nangong Jin's identity was special and he was a senior officer. In addition, although Nangong Ling was eccentric, she was quite popular in the kindergarten.

Therefore, the Dean nodded and no longer pursued the matter after hearing Nangong Jin's promise.

nangong jin walked to his daughter's side and sighed. he put away the terrifying solemnness on his face and squatted down beside little ling with a gentle expression. he held her short and chubby arms and asked, " "Little Ling 'er, do you know that skipping school is wrong?"

"Yes." Little Ling 'er's big, watery eyes were already filled with tears. As she nodded, her tears began to fall. Nangong Jin's heart ached so much that it tightened.

"Then tell me, why did you play truant? why did he lie to the teacher? Why did you say that granny Zhang has passed away?"

Little Ling 'er sobbed like a child who had been wronged and mumbled, " "Because luosheng's father is disabled and his mother has passed away, luosheng can only stay at home to take care of his father. He had to do everything, so I stayed at his house to help him."

nangong ling then looked at nangong nuannuan and said, " " auntie, brother luosheng's father is so pitiful. can you help him heal his legs? "

Nangong Jin and the Dean were both surprised. They did not expect Nangong Ling to skip school to help Qi luosheng.

"luo sheng's father's legs are indeed disabled, but didn't he already have artificial limbs? The cost of the artificial limbs is paid by the combat service department, and they're also giving him the best artificial limbs on the market." The Dean said.

"Yeah," Nangong Ling nodded. but half a month ago, uncle Qi's leg suddenly became pus. It's getting more and more serious. He's been having a fever for the past few days. uncle qi couldn't move, and he wasn't feeling well, so luosheng couldn't go to school. i saw that he was busy taking care of his father, so i asked granny zhang to help cook for uncle qi every day. i'll also stay at brother luosheng's house to take care of his father.

dad, after brother left, brother luosheng has been the best to me in kindergarten. " Now that he needs help, I think I should help him too."

Nangong Jin's eyes softened as he rubbed little Ling's head and said, " "Luosheng is your good friend. He helped you when you needed help. Now that he's in trouble, we should help him.

However, you shouldn't have played truant and lied to your teacher. If you could have told the teacher, the Dean, or father about this, we would have definitely found a way to help Brother Luo Sheng's father. After all, your uncle Qi used to work in the combat service department. Although he's no longer working there, we'll definitely take good care of him. don't you think so?"

The tears in little Ling 'er's big eyes hadn't dried yet. She sobbed and said,"But brother Luo Sheng said that his father didn't want to trouble the combat Services Department. He said that it was just a small illness and that he would be fine in a few days. That's why Brother Luo Sheng didn't tell me and didn't let me tell you."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2392

2392 Dad, I was wrong (4)

"little ling 'er, you're already five years old. there are some things that you need to make your own judgment on. take brother Luo Sheng's father for example. You know that he's been running a high fever for a few days. Think about it. Every time you have a fever, you'll lose your strength after two days, right? your entire body feels very uncomfortable?"

little ling 'er frowned and nodded.

"Then think about it, uncle Qi has been running a high fever for a few days, but he still hasn't been treated. In such a situation, shouldn't you look for father or the director? do you think uncle qi's life is more important than brother luosheng's trust?"

"I was wrong, dad," Ling 'er said with her head lowered.

After all, she was his little lover. Although Nangong Jin was usually serious and didn't show much of his emotions, he doted on this little girl to the bone.

nangong jin rubbed little ling's head again and said, " then let's go and see uncle Qi first, then we'll go and see the teacher who was hospitalized because of granny Zhang's shock, okay? "

"Alright!"

hence, nangong nuannuan once again followed nangong jin, his nephew, and niece to his uncle's house.

Uncle Qi's name was Qi Fang, and he used to be a first lieutenant in the combat Department. Later on, in a battle, his leg was injured in an explosion and had to be amputated.

After the amputation, Qi Fang continued to participate in the training. Although he could not return to the team, he was allowed to stay in the Department hospital because he had previously studied medicine.

after that, the hospital's medical association was separated, and qi fang followed them to the medical association.

Normally, the medical Association should be responsible for the relapse of Qi Fang's injuries. However, Nangong Jin had already promised to help Ling 'er's good friend, so he still went to Qi Fang's house.

Qi Fang was still living in the courtyard of the combat Department. It was a two-room apartment.

Nangong Jin knocked on the door, but no one answered. Nangong Nuannuan peeked inside and saw Qi Fang puking out a large mouthful of blood. Qi luosheng had been scared silly and was crying so hard that she did not hear the knock.

Nangong Nuannuan stretched out her hand and was about to split it open, but after some thought, she decided not to. After all, this family didn't seem to be rich. If she broke the door, she would have to find a door repair master to fix it. hence, nangong nuannuan took out a random card from her bag and stuffed it into the door. Then, under the dumbfounded gazes of little sun and little Ling 'er, the door opened after two thuds.

Nangong Nuannuan quickly ran in, followed by Nangong Jin, little sun, and little Ling.

qi luosheng was alarmed to see a stranger in her house.

"who are you?"

As soon as he finished his question, he saw Nangong Jin and little Ling standing behind Nangong Nuannuan.

"Brother luosheng, this is my aunt! My aunt is an amazing doctor. She will definitely be able to cure your father."

The moment Qi luosheng heard that Nangong Nuannuan could cure her father, her tears immediately stopped, and her face was filled with anticipation and happiness.

"Aunt, really? Can you really cure my father?"

Nangong Nuannuan was sweating profusely!

"I don't know yet, but I'll definitely do my best."

Nangong Nuannuan stood by the bed and looked at the man who was lying there with a pale face and black blood stains on the bedsheets and blankets.

How was this an inflammation and high fever?

He was clearly poisoned!

nangong nuannuan quickly took out the silver needles from her wrist and inserted three of them beside the man's heart to protect his heart.

My Sweet Physician Wife Calls The Shots

Chapter 2393

2393 Shi Yalin was scammed again (5)

Then, he immediately opened the blanket and looked at the amputated leg.

At this moment, pus was flowing out of the wounded part of the leg, and the quilt was stained with white and red pus and blood.

Qi Fang was already in a semi-conscious state. He was a little nervous when he saw Nangong Nuannuan, but he relaxed when he saw Nangong Jin.

"Commander Nangong Yingying."

Nangong Jin walked to the side of the bed and reached out to hold his hand in an attempt to ease his pain.

"Qifang, what happened to your legs? Why didn't you report this to the War Department?"

Qi Fang opened his mouth, but it was hard to tell if he could not speak due to the pain or if he did not want to answer. His lips opened and closed for a long time before he finally said, "commander, I'll entrust luosheng to you. Please help me.

"I don't want to! I don't want to! I don't want anyone! I only want you! Wuwuwuwu!"

Qi luosheng stood to the side, her initial joy replaced by sorrow.

he was already five years old, and he was also a child from a single-parent family, so he matured early. qi luosheng already knew what qi fang's words meant.

In his heart, his father was a hero who would never die.

So, when she heard her father's words, Qi luosheng broke down.

qi fang was extremely thin. his face was pale and black, and his eyes were sunken.

in nangong jin's eyes, he was a man who was about to die.

He used to be a soldier under his command and was someone he had high hopes for. Nangong Jin was very upset that things had turned out this way.

"Nuannuan, how's his condition?"

he's not sick. He's poisoned. As long as we clear the poison in his body, it'll be fine.

Nangong Nuannuan then looked at Qi Fang and said, "You won't die, and don't entrust your son to someone else. He needs you."

Qi Fang was shocked to hear that he had been poisoned.

nangong nuannuan squinted her eyes and asked, " "You know that you were poisoned, don't you?"

Qi Fang did not answer Nangong Nuannuan. Instead, he held Nangong Jin's hand even more tightly.

"Commander, please protect Luo Sheng! you must protect Luo Sheng!"

Nangong Jin held Qi Fang's hands with both of his hands and said, " "I'll protect Luosheng, and I'll cure you. Nuannuan, do you need to go to the hospital?"

"Yes." yes. Nangong Nuannuan nodded. I need to go to the hospital for an operation.

"Alright," he said. Nangong Jin nodded.

"Let's go to Angel Love hospital." Nangong Nuannuan instinctively felt that something was wrong. She didn't think it was safe to go to the hospital.

At least, she had the final say in Angel Love hospital. And it wasn't that easy to bribe her.

After Nangong Nuannuan gave Disheng's Hospital a call, Angel Love hospital quickly sent an ambulance over.

This was the combat department's compound and there were many people. When the car drove in, many people asked who was the one who had caused the accident.

After a while, the medical staff came down with a stretcher.

There was a large group of people beside the stretcher.

In the human experiment group of the fifth research group of the Medical Association, Shi Yalin quickly walked into the office of the research department's head and gave him a tight slap.

The head of the human experiment Research Department was a Saibo man. Now that he had been slapped by Shi Yalin, his eyes were wide open.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2394

2394 Idiot (1)

"Why did you hit me?" It was obvious that this person was very angry.

"You idiot! Didn't I tell you that you can't let anyone else know about your research?"

"But I didn't let anyone know about it except for the last time! And that Qi Fang is about to die, why did you still hit me?" The director was still thinking about the inexplicable beating he had just received. This was the second time he had been hit.

He was a doctor of Medicine, and a very powerful one at that. He had come to Kamino and worked for the Medical Association only because of the high annual salary. However, he was also a man with a temper. What right did he have to be hit by this woman again and again?

"I've already told you, this research did not receive any support from the Internal Affairs Bureau? If it's exposed, the entire Medical Association will be in trouble! However, you didn't kill Qi Fang immediately

after you found out about him. Do you know that he has been saved by Nangong Nuannuan? Don't you know that that woman is constantly trying to drag the medical Association down with her? did you know that after he was saved by nangong nuannuan, he would be completely out of your control?"

The director looked at Shi Yalin in a daze, and a trace of panic flashed through his eyes.

"Then what about Yueyue?"

"What else can we do? Before Nangong Nuannuan reported it to the president, the medical Association could only push you out to block the disaster. There's no other way!"

"What?" The director's eyes widened, and he was instantly indignant.

"On what basis? You're the ones who hired me to do experiments with a high salary, why are you pushing me out to deal with the disaster now? I won't do it! I'm going to say this first, if you dare to push me out to block the disaster, I'll report you immediately! So you'd better not do that. Not only will you not get my cooperation, but you will also be dragged into this."

The people outside could only see that the director of the branch was quarreling with Shi Yalin, but they didn't know what they were arguing about.

Shi Yalin took a look at the crowd of onlookers outside and pulled the blinds.

At this moment, his family could neither see nor hear.

Facing the director's roar, Shi Yalin wasn't angry. She said to the other side of the phone, "Send me Paul's information."

The director named Paul squinted his eyes slightly, and a bad feeling welled up in his heart.

In order to work in Kamino, he had brought his wife and children along.

The people from the medical Association had not only taken photos of their residence, but they had also placed surveillance cameras in their house. They even knew where his wife usually played, where his children went to school, and where the mistress he found had given birth to their children.

"What you're doing is illegal!" Paul said fiercely.

"Of course I know it's illegal. I also want to know that you're a selfish person. Even if I show you these, you might not keep the secret for us. So now, use your left hand to find the area three inches below your left rib, and then use your right hand to find the area of the right thoracic lobe, and press it at the same time."

Although Paul didn't really believe it, he still stretched out his hand to press it.

Usually, these two places could be pressed often, but they would never be pressed at the same time. However, when Paul pressed them at the same time, he screamed in pain. Not only that, but he also spat out a mouthful of black blood.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2395

2395 Scapegoat (2)

Looking at the blood on the ground in fear, Paul was in a bad mood.

“What did you guys do to me?”

Shi Yalin smiled. it’s a kind of ‘when I need you to be obedient’. You have to be obedient. Otherwise, you’ll die.

Paul shook his head in disbelief. He looked at Shi Yalin as if he was looking at a venomous snake.

“You can’t do this! You are Kamino’s official Medical Research Center. You can’t treat your researchers like this!”

“Why can’t I?” “You guys are paid more than any other medical research institution in the world, yet you still can’t complete your research even after half a day. If you can’t even be obedient, then what are we hiring you for?” Are you a master?”

Paul’s body trembled, and he didn’t know how to respond.

In the beginning, he was willing to come here for research. On one hand, the salary here was very high. On the other hand, it was because this Medical Research Institute was not only very powerful, but also officially authorized.

However, he had never expected that these people would actually sell their sheep’s heads and use the official’s banner to do those prohibited experiments in private.

Shi Yalin wasn’t afraid that Paul would expose her, so she said, “After you were arrested, you were only charged with the crime of recklessly developing drugs. After all, the drugs developed by Group Five are clearly recorded and followed up. Therefore, this research can only be carried out by you alone in secret. as for the poison on qi fang’s body, it was also your doing. as for how you did it, you should know best. So now, you can go back and chat with your family. When the police come to arrest you, do whatever you want. Don’t worry, since a talent like you has already entered the medical Association, the medical Association won’t leave you alone. You’re only illegally researching drugs. We’ll hire the best lawyer to file a lawsuit with the judicial Court and try to give you the lightest sentence and the least jail time. After you come out, you’ll still be a good man.”

Paul hated Shi Yalin and the medical Association to death.

If he had known earlier, he would have stayed in Saibo instead of coming here.

as for nangong nuannuan, after the car stopped at angel love hospital, the director sent his most capable doctor over.

Nangong Nuannuan was in charge of administering acupuncture on Qi Fang so that he could spit out all the poison in his body.

although he had vomited a lot of blood, the other party was transfusing blood to him. therefore, after he vomited out the poisonous blood, qi fang looked much better. his high fever of more than 40 degrees had also reduced to 38.8 degrees.

It took half an hour for the toxins in his body to be completely removed. Then, he let the doctor perform the operation on him.

After the poison had seeped into the blood through the wound on the leg, it would then circulate through the blood and enter the whole body.

As long as the toxins in the body were removed, the wound on the leg only needed to be cleaned and the rotten flesh removed.

The surgery only lasted for slightly more than two hours before Qi Fang was wheeled out and entered the VVIP Ward.

In Angel Love hospital, the VVIP rooms were much better than the VIP rooms.

The VIP rooms only had better in-patient resources and better medical resources, but the VVIP rooms not only had medical resources, but they also had protective resources. As for the bodyguards, they were, of course, mercenaries of various levels who were willing to follow Nangong Nuannuan.

Angel Love hospital was very expensive, but there were still many noble people who were willing to come here for treatment.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2396

2396 Exchanging life for medicine (3)

On one hand, it was because the medical facilities here were top-notch. On the other hand, it was because this hospital was really not just a little bit powerful. The hospital had 360-degree surveillance with no blind spots, and mercenaries of all levels were stationed in the hospital all year round.

It was almost impossible to do anything here.

After the anesthesia wore off, Qi Fang woke up under the stimulation of Nangong Nuannuan's Silver needles.

When he saw Nangong Jin, Qi Fang wanted to say something but stopped himself.

Nangong Nuannuan got someone to bring the three children out. When they were the only ones left in the VVIP Ward, she said, "The fact that the other party was able to poison you without you being aware of it is enough to show that they have the means and the determination to get rid of you. So if you don't tell him, it'll be hard for my brother to protect you and your son. After all, we don't even know where the enemy is or who they are. And after you die, you don't need to doubt that they will definitely lay their hands on your son. We may be able to guard against it for now, but we can't guard against it forever."

Nangong Nuannuan's words were like a heavy hammer that struck Qi Fang's chest. He could not help but tremble.

"I don't know who is the one who harmed me, but I can vaguely guess."

"who is it? What's happening?" Nangong Jin asked in a deep voice.

“The people from the medical Association must have poisoned me.”

Nangong Jin frowned.

Although he did not have a good impression of the Shi family, the medical Association was still an official medical research institution. Were these people so bold as to openly eliminate dissidents?

“What did you find that made them want to attack you?”

I found that they have violated the basic principles of the Ministry of Health and are doing genetic experiments to change human DNA.

Nangong Jin’s eyes squinted slightly as he looked at Nangong wuque in disbelief.

In contrast to Nangong Jin’s disbelief, Nangong Nuannuan was unusually calm.

After all, it would be strange if the medical Association didn’t do anything when they had a poisonous snake.

However, the Viper’s ability wasn’t that great. He couldn’t even do this kind of thing cleanly and was actually discovered.

“How do you know they’re doing genetic experiments?”

“In the medical Association, medical research is divided into levels one, two, and three by weight. Ordinary research was at level one, which was conducted in the front yard. The most important research was at level three, which was conducted in the backyard. The people in the front yard had no right to enter the back yard.

I’m the lowest-level medical researcher in charge of the research in the front yard. They see that I’m not of much use, so they often let me keep watch and work overtime. That day, I was on Night Watch for someone when I suddenly heard a loud noise coming from the backyard. Although I knew that as a medical researcher in the front yard, I was not qualified to go to the backyard, I was afraid that something would go wrong, so I immediately went to the backyard to help.

When I quickly arrived at the backyard, I found a few mercenaries fighting with an old man. The old man’s body was very fast and his strength was boundless. Those few mercenaries were all beaten down. Then, they shot the old man’s head with a gun.

the medical research done by the medical association was of high value, so there would often be thieves in the medical association who tried to steal information. All the countries also used secret methods to deal with such people. Therefore, killing someone in the hospital wasn’t a big deal.

Moreover, that old man was so skilled. It was obvious that he had a purpose. So I didn’t take it to heart.

You know that many people who are seriously ill and have no money for treatment will voluntarily sign an agreement with the medical Association and hand themselves over to the medical Association in order to survive.”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2397

2397 I let you down (4)

In this way, the medical Association could give these people drugs that were not yet on the market, or use some kind of machine that was not yet on the market to perform surgery on patients. The medicine and machinery would only be available on the market when the expected effect was achieved. Some of the people who signed the agreement did leave the hospital alive. As for the dead, the medical Association required their family members not to take back their bodies in any form. Therefore, once these patients died, they would be reduced to a tool for dissection.

As for me, my other job is to take in these patients. "we'll register their conditions one by one, and after handing them in, my superiors will grade them and see if they should be arranged to receive treatment in the front, middle, or back courtyard.

Because I've taken on too many jobs, I couldn't think of this person for a while. The next day, I was fired for entering the backyard without permission. When I got home, I realized that I had forgotten to hand in a USB drive. The USB drive contained a batch of patients I had received half a month ago.

I opened the USB drive and found the old man among the five patients. He was a patient with late-stage pancreatic cancer. His family was poor, and he had the king of cancer. His family could not afford to treat him. His son was autistic, and his wife's legs and feet were inconvenient, so he took the initiative to sign an agreement with the medical Association. He wanted to get his illness cured without spending a single cent. Even if he could not be cured, he did not want to be a burden to his family.

It was impossible for such a person to suddenly possess such great strength and martial arts. That's why I suspect that they didn't treat this person at all, but used him as an experiment."

After Nangong Jin heard this, he angrily slammed his hand on the back of the chair with a bang.

"Simply hateful! When did this happen? Why didn't you report this to the battle Bureau?"

"The first thing I wanted to do was to report this to the battle Bureau. In the end, the second night after I was fired, the people from the hospital came. A few foreign men injured me and warned me that if I dared to tell anyone about this, they would kill Luo Sheng."

Qi Fang's eyes turned red.

"Commander Nangong, my parents died early. Everything I have today is all thanks to my own efforts. I love my family, and I love my job more. That's why I didn't regret my choice when my wife left me after I was injured. I only have Luo Sheng. You can say that Luo Sheng is my everything. I can't just watch Luo Sheng die. Commander, I'm sorry for betraying your trust. In order to protect Luo Sheng, I didn't report this to the battle Bureau."

Nangong Jin looked at him with disappointment in his eyes.

"do you know that qi luosheng's survival rate would be even lower if you didn't tell her? they'll think that you've already told your son about this, and your son will seek revenge on them in the future. This way, after you die, your son's survival rate will be almost zero."

Qi Fang lowered his head.

“Yes, I was wrong. I shouldn’t have kept this matter a secret for my own benefit and not reported it. I have let down the trust of the War Department and the commander.”

“You have indeed let me down. However, you’re not letting us down, but you’re letting yourself down. When faced with such a situation, you know that the other party has already cut off all means of retreat. As an outstanding soldier of the combat Department, I think your first reaction should be to report this matter to the higher-ups without hesitation.”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2398: explosive Update 1

“first, we can catch the other party off guard. second, we can protect ourselves and our family to the greatest extent.

Although the combat Services Department can’t guarantee your and your family’s safety, you can’t do anything about it. However, as long as you reported it to the military service department, you would be able to file a case. From then on, there would be many pairs of eyes watching you and the medical Association. If anything happens to you and your family, the combat department’s first target will be the medical Association. With the combat Services Department keeping an eye on them, even if they were to make a move, they would definitely plan it very carefully. After all, if they were not careful, they could easily get themselves killed while killing you. It’s such a simple logic, why don’t you understand?”

Qi Fang:

Now that Nangong Jin had mentioned it, Qi Fang felt that he had indeed been foolish back then.

However, as the saying goes, concern makes one confused. In the situation at that time, he really did not know what to do.

“Commander Nangong, I was wrong!”

“Fortunately, we found out in time, otherwise the consequences would have been unimaginable. qi fang, you have to remember that one person’s strength can not compete with an organization. That’s why we need to live in groups. You have the combat Department behind you, I hope you can trust them completely.”

“Yes!”

“Do you still have the USB drive?”

“I’ve already returned the USB to them, but I’ll make a separate copy.”

“Give it to me,”

“yes!”

Qi Fang immediately unlocked his phone and opened a hidden folder.

Who knew-

Qi Fang’s face turned pale.

“there’s no more, zhenzhen, there’s no more.”

“So now you know how weak you are?”

Qi Fang:

“Maybe you thought you were keeping this a secret, so you copied the video and kept it in a hidden folder. If something happened to you, the hidden folder you set up might automatically send the video out.

but have you ever thought that there are hackers in this world? And a very powerful hacker at that! They didn’t even need to touch your phone or computer to hack everything inside.

Qi Fang, you haven’t been able to become an outstanding officer in the past few years. Do you not even know the most common things?”

Nangong Jin’s words were rude, but Qi Fang knew that his officer was right.

Ever since his leg was amputated and his wife ran away with another man, he had been dispirited.

Although in front of others, he still had a positive attitude towards life, in private, only he knew that he had already given up on himself.

And all these years of living as a disabled person had not only smoothed out his edges as an excellent officer, but also obliterated the vigilance that was engraved in his bones.

that was why he had become so passive after the incident.

“Give me your phone.” Nangong Nuannuan reached out her hand.

Qi Fang was slightly taken aback, but he immediately passed the phone to Nangong Nuannuan.

Qi Fang’s eyes widened when he saw Nangong Nuannuan type out some code on her phone and the screen turned blue.

From the earlier mass lung poisoning incident, he already knew that the girl in front of him was Nangong Nuannuan. She was an excellent doctor. However, he was shocked to find out that she was not only a famous doctor, but also a hacker.

Nangong Nuannuan’s fingers flew across her phone.

The original files in the phone could be restored after they were deleted. However, if the other party was a venomous snake, the person who did it must be a hacker.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2399: explosive Update 2

if the things in the phone were deleted by a hacker and were broken, it would be very difficult to recover them. If dan Qi had done this, he might have only needed five minutes. However, even though Nangong Nuannuan’s strength had increased, it still took her more than ten minutes to recover the video.

After he recovered, he immediately sent a copy to Nangong Jin and himself.

“Have a good rest. Leave the rest to me.”

“Yes.”

At this moment, Qi Fang was so ashamed that he could not show his face.

“Many thanks, commander!”

Nangong Jin nodded slightly and left with Nangong Nuannuan.

Qi Fang looked at Nangong Jin’s back as he left. His eyes were filled with self-blame and shame.

He felt that he had wasted his years as a soldier.

“Brother, how do you plan to deal with this?”

the medical Association is getting more and more chaotic. This is not a good sign. I will send this information to the president and let him make a decision.

“I’m afraid it’s too late.”

Nangong Jin stopped in his tracks and looked at Nangong Nuannuan. what do you mean? ”

I’m guessing that someone has been keeping an eye on Qi Fang. We’re already here. Do you think that the other party doesn’t know what we’re doing?

Since they knew, there would definitely be a scapegoat. They will definitely be faster than you.

If the medical Association made the first move and you handed this to the president, the president might think that the northern War Department was deliberately suppressing the medical Association.

Nangong Jin looked at Nangong Nuannuan for a long time before he said, ” “Nuan Nuan, why do I feel like you know the medical Association very well?”

Nangong Nuan Nuan’s lips curved into a radiant smile. because I also have an Angel Medical research base. Big brother, don’t you know that my angel Medical research base is currently being severely suppressed by the medical Association? Therefore, knowing one’s enemy and knowing one’s self would ensure one’s victory. I definitely know more about the medical Association than you do. So if you need anything in the future, it’ll be much more useful to ask me about the medical Association!”

Nangong Jin’s intuition told him that this wasn’t the case. At least, it wasn’t completely the case. However, he couldn’t tell what it should be, so he could only forget about it.

“Thank you for helping me out with Qi Fang.”

nangong nuannuan was unhappy when she heard this. ” are we still siblings? ”

A smile suddenly appeared on Nangong Jin’s usually serious face. of course, but it seems that ever since you returned to the Nangong family, you’ve been helping us. We originally wanted to give you a strong backing, but we found out that we couldn’t.

Suddenly, Nangong Nuannuan’s phone rang. It was Chi Yang.

"big brother chiyang, you're done with your work?" Although she could not see the person, Nangong Nuannuan's eyes curved into beautiful crescents when she heard his voice.

"yes, soon. And you? Are you done?"

"how did you know i was busy?"

"Yueyue, I'll call home first. Grandpa said that you went out with big brother and that little Taiyang's parents were called?"

"Yes."

when she talked about little sun and little ling, nangong nuan couldn't help but smile.

How could such a serious man like her big brother give birth to two funny children?

"Are you done with your work? Is little sun alright?"

"Yes, I'm fine. However, little Ling 'er's Auntie caused her teacher to have a heart attack, so I'm still going to go take a look with my big brother."

"It's already 10 O'clock."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2400: explosive Update 3

"Yes, because I helped to watch over an operation just now. I'll tell you the details when I come back. Her teacher is fine, but we have to pay for her hospitalization fees and buy her some supplements. Big brother chiyang, is there something you need?"

"It's nothing much. I just missed you a little."

"I missed you too. When will you be back today?"

"I still have things to do at Flying Eagle, so I might not be able to go back today. Can you come to my place?"

Nangong Nuannuan took a look at the time and nodded. yes, but it's already 10 O'clock. By the time I go to see the teacher and come to Eagle, it'll probably be past midnight.

"It's okay, I'll wait for you."

"alright," he said. Nangong Nuannuan nodded in agreement.

Normally, today was her brother chiyang's holiday, but ever since he came back, he had been busy for the past few days. He didn't know what he was busy with.

She felt that he didn't have to be so busy these few days.

because tomorrow was a saturday, although the kindergarten did not have winter and summer breaks, little ling 'er did not need to go to class tomorrow. Nangong Nuannuan and Nangong Jin brought little Ling to the hospital. As the kindergarten was a hospital under the War Department, the teacher was sent there after having a heart attack. However, he still had to pay for the medical expenses.

Nangong Jin and Nangong Nuannuan first found the doctor and asked about the patient's condition. After paying the hospital bill, they went to the ward where their teacher was.

little ling 'er's form teacher was a sensible woman of about 45 years old. she looked very gentle and even though she had a heart attack from being scared, she was still smiling at little ling' er.

Little Ling knew that she had done something wrong, so she apologized to the form teacher.

after the class teacher found out about the ins and outs of the matter, she didn't know whether to laugh or cry at the wit of xiao ling's nanny zhang.

Now that she knew that he wasn't dead and hadn't returned for seven days, she wasn't afraid anymore.

Ever since she was young, she had been afraid of nothing but ghosts. She always felt that she had seen a ghost when she was young. In addition, she believed in Buddha, so she believed that she had divine eyes and could see things that others couldn't.

So, nanny Zhang suddenly told her with a gloomy face that she couldn't bear to leave the Nangong family, so when she came back for the past seven days, she thought that she had been hit by a ghost. He lost his breath and fainted.

Now that he knew that nanny Zhang was not a ghost but a human, the fear in his heart disappeared, and he felt alive again.

In fact, the teacher-in-charge and little Ling 'er had a good relationship.

Looking at her conversation with little Ling 'er, he could tell that her usual interactions with little Ling' er were actually quite interesting.

Otherwise, there probably wouldn't have been the classic topic of Ling 'er not being able to reach 8+16 even with the addition of a brain.

after talking to the teacher for a while, nangong jin apologized to the teacher. as it was already very late, the brother and sister left with little sun and his sister.

brother, it's already 11 O 'clock. I can take a taxi to the Flying Eagle Special Forces. You can take little sun and little Ling' er and leave first.

"aunt, let us send you off!" Little Ling 'er blinked her big eyes with anticipation.

Nangong Nuannuan pinched her pink cheeks and rejected her, " " children must sleep before 10 o 'clock every night. even if there's a holiday tomorrow, it should be the same. "
