

## Physician Wife 2411

### [My Sweet Physician Wife Calls The Shots](#)

#### Chapter 2411

“Don’t you think this golden lock is very cute?”

Feng shengxuan’s lips twitched when he heard what Nangong Nuannuan said. Gold with white and red, he really didn’t know what was cute about it.

You can’t even tell the truth now, can you?

Feng shengxuan was filled with deep resentment as he looked at the girl he had raised in the fire pit with tears in her eyes and the gifts that other wild men had given her. He felt as if all the hair on his body was standing on end.

suddenly, her thigh was electrocuted again.

feng shengxuan quickly jumped away and looked at his father with a look of despair.

in the past, he didn’t feel anything when his father hit him when he was young. but now, he seriously suspected that the person alive was his uncle, hiroshi chizawa. Otherwise, how could he be so biased?

nangong nuannuan stood up and walked to the second cake after looking at the first gift box.

The words on the cake were-

[ I wish my girl a Happy 2nd Birthday. I wish you a healthy growth! ]

The second box contained a gold Dipper.

The word ‘Fu’ was still embedded in the gold Dipper with a diamond.

On the card, Chi Yang’s words were vigorous and powerful.

[ may my girl live a life of wealth and happiness. ]

The bucket was used to store rice in ancient times, meaning that the family was rich. Later on, jewelry like the gold Dipper was given the meaning of ‘to be filled with happiness, fortune, and wealth, to live a happy life together, and to look forward to the future when everything goes well’.

Just like before, Nangong Nuannuan used her finger to scrape some cream off the cake. Because of the different colors, shapes, and flavors, she wanted to have a taste of how sweet the cake was before she finished all of it.

Then, he came to the third cake. On it were the words-

[ little princess, happy third birthday! ]

there was a hair clip in the box at the side.

On the hair clip was a whizard that was about to fly. The White Marsh was an auspicious beast in ancient mythology. It was said to be able to ward off evil and foretell great fortune.

on the fourth cake, it said-

[ my beautiful little princess, you're already four years old. You must be happy! ]

In the box at the side, there was a pair of small shoes made of rubies.

On the card was written-[ I hope that every step you take will not be let down. I hope that everyone you meet is a good man. ]

Nangong Nuannuan looked at the birthday gift that brother chiyang had given her.

Because she had been kidnapped since she was young, she had never received the warmth of a family, and because he had been absent from her life for 17 years, he had to make up for everything before that.

There was a full diamond Mirror that foretold perfection, perfection, and a happy marriage. There was also an Abacus that foretold a peaceful and rich marriage.

Some foreshadowed the name of Ruyi, some foreboded the comb that tied hair for a hundred years.

Finally, it was her 18th birthday cake.

As she unwrapped the present as she walked, Nangong Nuannuan had unknowingly walked into the heart of the crowd.

The song in the Music Box was still playing on loop.

[ I'll sing me to you and move you with my most passionate feelings, okay? time is worth reminiscing, nostalgic, and shy. Who can replace you? Love to your heart's content while you're still young, my dearest person, the journey is long, let's be together ]

Nangong Nuannuan stood in the middle of the red candle. She opened the curtain and revealed a huge seven-layered cake.

Because Nangong Nuannuan had said that her lucky number was 7, Chi Yang had specially made a seven-layered cake.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2412**

The cake was an icy gray color that Nangong Nuannuan liked. It looked gorgeous yet low-key.

On each layer of the cake, there were several cartoon figures of the two of them carved out of candy.

Some of them were big brother chiyang feeding her, some were her pouting her lips at big brother chiyang, some were her looking at the sky, but big brother chiyang was looking at her, some were the two of them kissing, and some were in a daze, afraid of being blocked.

Nangong Nuannuan's face turned red because she realized that on the top layer of the cake was the image of their first time in the car.

She looked at him, and he looked at her. Even if it was just a cartoon, the eyes that should be there were already in it.

Nangong Nuannuan took a closer look and realized that the steering wheel was made of diamond.

When she looked again, it was not a steering wheel, but a men's diamond ring.

Then, he looked again and saw a lady's Diamond ring hidden under the place where Chi Yang was pressed.

Nangong Nuannuan put her hands together and made her 18-year-old wish to the tune of the Music Box.

She hoped that brother chiyang could return safely.

She hoped that her family and friends would have a good life.

She hoped that she and brother chiyang could stay together until they were old.

After making her wish, Nangong Nuannuan reached out to open the car door and took out the steering wheel and the Women's Diamond Ring.

Then, she put the lady's Diamond ring on her ring finger and put the diamond ring that belonged to brother chiyang into her handbag.

Nangong Nuannuan asked Aiden to help her take a few sets of photoshoots before she finally cut the cakes and distributed them to everyone.

Since everyone was here to celebrate her birthday, she really had to be happy together.

Unfortunately, when she was cutting the cake for everyone, she found that her first uncle and big brother were gone.

His big brother had told him that he had come to Eagle to contact the war service department in the North.

He was the commander of the North War Department, his uncle was the general Commander of the North War Department, and brother chiyang was the general Commander of the flying Eagles. They were in charge of leading the charge, while the rest of the transportation of resources and personnel were left to the North War Department.

nangong nuannuan called disheng's finance department. even though it was early in the morning, everyone was probably still awake due to the strong earthquake.

Although she had not experienced the earthquake in her previous life, she knew how much of a disaster it had brought to Kamino.

After the earthquake, there were countless aftershocks, and the number of people affected reached one million. 270,000 people died in the earthquake, 140000 of which were missing. After a year, they became the dead.

It could be said that the earthquake this time was very tragic.

She hadn't reacted to the earthquake just now, but now she had completely reacted.

although it was a hot summer, the surrounding area had started to cool down after the earthquake. the original temperature of more than 30 degrees would drop by 15 to 20 degrees after the heavy rain that was about to arrive during the day.

The magnetic field of Heaven and earth was changing, and the temperature was also changing. This temperature would last for about 10 days before it would rise again and return to about 30 degrees.

Right now, the survivors in the disaster area were still in a state of panic, but the rain in the early hours of the morning would make them fall into despair and panic.

The survivors wanted to save their loved ones and companions, but the people they wanted to save were either dead or suppressed.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2413**

It was not easy to save the people, but when they sent their dying relatives to the hospital, they found that the nearest hospital had also collapsed in the earthquake.

The doctors in the hospital were also buried under the ruins like their relatives.

After that, more and more people were carried out and gradually lost their vitality.

The sudden drop in temperature and the heavy rain made the lucky escapees who had nothing on their bodies, were in their sleep, and were only able to escape in Kucha (sound), feel despair.

Cold, no clothes, no food, contaminated water, and not even a place to live. All he could see were collapsed houses and the bodies of his loved ones.

The director of the finance department picked up the phone very quickly. Chairman, why are you calling at this time? do you have any instructions? ”

order 200000 tents, 100000 boxes of milk, 100000 bottles of mineral water, and donate 2 billion Yuan to the disaster area. Send it to Shengzhou under the name of disheng.

yes, Chairman. I'll get it done immediately. I guarantee that I'll complete the task as soon as possible.

“Auntie, how did you know that the earthquake happened in Shengzhou? can you see Shengzhou? You're so powerful!” Little Ling 'er said with a face full of admiration.

Because her parents had taken her to Shengzhou before, it took her nearly three and a half hours to get there by car.

Her aunt could actually see it from such a distance. It was amazing!

Nangong Nuannuan:

Nangong Nuannuan's distress points were extremely high as she looked at her beautiful little teammate.

So what should she say?

Should she say that the earthquake happened at this time in her previous life, so she knew?

But it was obvious that she couldn't.

she could let the people closest to her know that she had experienced a new life, but she absolutely did not want anyone to know about her previous life. even until her death, she had not given brother chiyang a good look.

She was definitely not willing to let anyone know about this.

The people around her were all smart people, and they were all very considerate of Nangong Nuannuan.

Even though everyone knew that Nangong Nuannuan had x-ray vision, it was impossible for her to look at a distance of 350 kilometers.

Everyone had their own secrets. They didn't know how Nangong Nuannuan knew where the source of the earthquake was, but they only knew that Nangong Nuannuan had done it out of good intentions.

2 billion! Boss, our group will definitely be the one to donate the most! Selina changed the subject and looked at Nangong Nuannuan with eyes full of stars.

Even though they were all from KE, who said that those who came out of KE must be bad people? Even King was a child of the Chi family.

That's why ...

At this moment, Nangong Qin also made a phone call to the finance department and said, " order 200000 tents, 100000 boxes of milk, 100000 bottles of mineral water, and donate 2 billion Yuan to the disaster area. Send it to Shengzhou under the name of the Imperial Palace.

Everyone looked at second uncle and chuckled.

"Second uncle, you're so awesome!" Selina made fun of her second uncle, who was on par with disheng.

Nangong Qin and the other members of the Nangong family couldn't help but giggle at Selina's words.

although the total assets of 'Imperial' are not as good as 'Emperor Xun', 'Imperial' has made some money over the years. In addition, the Nangong family, from my father to my big brother and third brother, and then to Jin, Li, Yi, and ze, are all in the sequence.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2414**

"In the face of such a natural disaster, the Nangong family should take the lead."

Seeing this, chizawa Masahiro also made a call to the finance department and said, " order 200000 tents, 100000 boxes of milk, 100000 bottles of mineral water, and donate 2 billion Yuan to the disaster area. Send it to Shengzhou under the name of Shengyang.

In such a short time, they had raised 6 billion for the disaster area. Looking at all the bosses in front of her, Selina felt that her boss was awesome.

Leng Qirui, who was at the side, saw this and called the finance department as well. order 100000 tents, 100000 boxes of milk, 100000 bottles of mineral water, and donate 500 million Yuan to the disaster area. Send it to Shengzhou under the name of the Leng Corporation.

Selina looked at the man beside her and teased, no, boy! After all, up until now, although she was Leng Qirui's fiancée, Leng Qirui had not yet reached the legal age of marriage, and she had not taken this young hunk into her mouth yet.

Selina was very clear about the Leng corporation's current situation. In order to do their overseas shopping, the Leng Corporation had suffered heavy losses.

Now that they had finally stopped their losses and started to make a profit, he had donated 500 million Yuan despite the financial difficulties of his own company.

Although 500 million was much less than 2 billion, the Leng Corporation and disheng could not be compared.

Leng Qirui's decision to take out 500 million was even more shocking than disheng's decision to take out 50 billion.

leng qirui's generosity also made the people present completely change their opinion of leng jinpeng, their son who was once said to be useless.

The reason why some companies had their own names, such as disheng group, Shengyang group, Hawkeye group, Nangong family's Tiangong group, Xiao family's Yunxiao group, Shi family's time group, ning family's ningwen group, and others were named after their family's surnames, such as Huang group, Gu group, Leng group, PEI group, Wu group, and Xu group from Haizhou, was that there were only a few companies that could be ranked among the top companies. The remaining companies were named in this way to let the public know about them, to boost the reputation of their own companies and to promote their families.

This was also the reason why many commoners could easily tell which family was from which wealthy family in dizhou province.

After Nangong Nuannuan distributed the birthday cake to everyone, she cut the cake into small pieces and sent them to the dormitory of the Special Forces members who were still guarding the Eagle Post.

Although this cake was definitely not enough for everyone to share, since brother chiyang had already prepared it, then he would let his comrades also share it.

After all, elder Nangong and elder Chi were getting on in years, and Chi zeyao's health wasn't very good. So, after cutting the cake and having a few bites, Nangong Nuannuan had someone send everyone home. Only Feng shengxuan and the others were left to help her with the chores.

After all, this was the Flying Eagle, and they couldn't get people to come in and help them. Furthermore, they had to clean up the things that brother chiyang had set up before.

She had thought that it would take at least the next morning to finish, but the Special Forces members who were guarding the Eagle were worried about the earthquake, so most of them did not sleep. When they saw Nangong Nuannuan and the others packing up, they all ran out of the dormitory to help her.

## [My Sweet Physician Wife Calls The Shots](#)

### **Chapter 2415**

When she reached the ground floor of the dormitory building, she realized that Nangong Nuannuan had placed her birthday cake below.

The team members were very touched.

Although they didn't lack material things, it felt good to be remembered and cared for.

With the help of the team members, everything was packed in boxes in less than an hour.

Because brother chiyang had personally prepared these things for her, Nangong Nuannuan couldn't bear to throw them away. She immediately sent someone to the entrance of the Flying Eagle to take these things away and bought a villa to store them.

Since midnight, the news had been replaying reports about the earthquake.

At seven o'clock in the morning, everyone turned on the morning news. All the news channels on the TV stations had already started to cover the recent earthquake.

The epicenter was located in Shengzhou, which was only 350 kilometers away from dizhou. The magnitude of the earthquake was 9, and the crack was 12 degrees. It was the most dangerous earthquake since the establishment of Kamino.

Shengzhou was a B-Class city. According to the grades of A-Class, B-Class, C-Class, S-Class, 2S-Class, and 3S-Class cities, a B-Class city was only the lowest-class city in Kamino. Even so, this city had a population of one million.

The reporters who were in charge of reporting the news had not yet entered Shengzhou by car, but even if they reported on the surrounding state cities, the destructive power of the earthquake and the damage to people were still extremely shocking.

Even in the surrounding areas, so many people had died. What about Shengzhou? How many people had died in Shengzhou?

Some large media outlets, such as those under the Imperial Group, Shengyang group, and Yunxiao group, sent several helicopters to take the reporters in.

From the helicopter, Shengzhou, which used to be a tourist destination, was now in ruins.

It had been raining since the wee hours of the morning. The reporters were wearing raincoats and carrying their cameras, filming in the state capital that was filled with screams and cries.

As far as the eye could see, there were corpses all over the ground.

The corpses that were carried out of the ruins could still be placed in the crematorium in Shengzhou.

However, in just one night, the three crematoriums in Shengzhou were already full of corpses.

The number of dead and injured continued to increase, and Nangong Nuannuan could already see the Eagle rescue team through the reporters' shots.

Their clothes were different from the other rescue teams of the combat Department. Eagle's battle uniform had always been black.

In the hearts of the Kamino people, the Eagle was like a god.

No matter how difficult the situation was, as long as the members of the Eagle Special Forces were by their side, they would feel at ease and comforted.

What did not disappoint them was that the members of the rescue team were much more agile than the normal members of the combat Department.

Whether it was movement, strength, command, or team strength, they were the best.

And the place where they appeared, the place where they were going to rescue, would definitely be the most difficult and dangerous place.

Nangong Nuannuan's heart was filled with pride as she looked at the figures in black camouflage.

At the moment, there were still very few media outlets in Shengzhou, and the captured images would still need to be sent back to the broadcasting Hall for post-production. Therefore, there weren't many scenes so far, and those touching scenes hadn't been sent back yet.

In her previous life, Nangong Nuannuan had only known a little about this, but she had only read about it as an ordinary piece of international news.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2416**

Furthermore, he was in cyber country, where there was not much news about this place. At this moment, he was standing by the TV, looking at the figures of the combat Department and the Eagle Special Forces. He couldn't help but feel sorry for them.

This should be the so-called 'love the house and its Crow'.

because she was worried about her brother chiyang, she was also worried about all the rescue personnel.

At this moment, the scene cut back to the broadcasting Hall.

in front of the camera, the host said that the earthquake was heartless. less than 12 hours after the earthquake, shengzhou had received 2 billion in donations from disheng group, 2 billion from imperial group, 2 billion from shengyang group, 2 billion from eagle eye group, and 500 million from the leng group.

In addition, disheng group, Palace group, Shengyang group, Eagle Eye group, and Leng group would also donate 200000 tents, 100000 boxes of milk, and 100000 bottles of mineral water to the disaster area.

as the earthquake came too suddenly, it was still difficult for the big five to gather a million tents in a short time. From last night until now, they had only managed to gather 100000 tents.

Even so, the people of the country would still thank the Big Five for their kindness to the people in the disaster area.

The Big Five's generosity not only shocked the president and the Internal Affairs Bureau, but it also made the blood of the people boil.

No matter how much money they had, they were all generous.

after the earthquake, the blood in the blood bank was instantly cleared, and everyone went to the streets to donate blood. There were even some who bought supplies from dizhou or other places and drove into the disaster area because they knew that only the frontline warriors had entered the disaster area and there was a serious shortage of manpower.

The president attached great importance to this matter and immediately organized the war service department to send people to rescue them.

However, the ones who contributed the most were the vanguards, Eagle, and the Big Five, who were the first to extend help to the disaster area.

On the official website, everyone was praising the actions of the Big Five corporations.

Especially disheng group, as a Big Boss overseas, they were so generous. The key point was that disheng group's donation date was even ahead of that of digong group. This was very worthy of everyone's praise.

All of a sudden, disheng group became the object of everyone's praise.

Within the 24 hours of the earthquake, countless companies had also started to donate. However, if he wanted to attract people's attention and get everyone's praise, he seemed a little powerless.

At this moment, the ning family and the Shi family were the least pained.

This was because disheng, Imperial Palace, Shengyang, and Hawkeye, the four top-tier rich and powerful families, had all generously donated 2 billion.

2 billion!

Not 200,000! Not 2 million! Not 20 million!

In order to develop the medical field, the Shi family had invested a lot in their researchers. Although the drugs they developed made them a lot of money, no other economic entity could compare to the Nangong family.

In addition, the medical Association had been researching on heaven-defying medicine. The materials, manpower, and resources needed were beyond the imagination of ordinary people. If the Shi family wanted to take out two billion Yuan in spare money, it was like scraping oil off a chicken's leg. It was a pain that they wished they could die.

The ning family was the same as the Shi family.

Elder ning's blood pressure rose in anger when he saw the four companies offer two billion without a word.

They were all first-class wealthy families. Although he knew that there were differences between the first-class wealthy families, could the difference be as big as the Milky Way?

## My Sweet Physician Wife Calls The Shots

### **Chapter 2417**

Although the ning family was a first-class wealthy family and had a net worth of more than 100 billion Yuan, this 100 billion Yuan represented fixed assets and working capital.

The bigger the business, the more investment there would be, and the money that could really be kept in the hands of operation would become very little.

It wasn't that the ning family couldn't give out 2 billion, but if they really did, they would lose a layer of skin!

Originally, earthquakes were natural disasters. Whether or not to donate, and how much to donate, all depended on the enterprise itself.

However, these four corporations seemed to have discussed it beforehand. They donated 2 billion at once, and they donated it together.

The remaining first-class noble families were the ning family, the Xiao family, and the Shi family.

If they didn't donate 2 billion, would the president and Internal Affairs Bureau have a bad impression of them? If they didn't donate 2 billion, would they still be in the top ranking next year? This year's first-class wealthy families had joined the mysterious Shengyang group and the Eagle Eye group, which ning Wenhao had a share in. The number of top six wealthy families was already large. Would the ning family directly fall to the second-class next year?

Even though the nings were one of the most powerful families in the world, in the eyes of the public, the nings and the Nangong family, as well as Shengyang and the Eagle Eye group, were worlds apart.

Elder ning and the chairman of the Ning Wen group, ning Haohan, were sitting on the sofa in the living room. They were watching TV with a sullen face.

"Dad, I think you really need to educate ah Hao. Does he still have you, his grandfather, in his heart? is there our ning family? Did he really think that he could stop treating himself as a member of the ning family now that his wings had hardened? You see, as the major shareholder of the Eagle Eye group, he made the Eagle Eye group donate 2 billion Yuan without discussing with us. If the Eagle Eye group can merge with us, please add our name to the donation. The kid from the Xiao family is also a major shareholder of the Eagle Eye group, so they will add the Xiao family's name. I suspect that Xiao shenbin and a Hao are both following Chi Yang's lead, so it is very likely that Chi Yang is the real leader of the Eagle Eye group. In this way, our family, the Xiao family, the Chi family, and the Eagle Eye group will have the largest amount of donations. But he asked the Eagle Eye group to donate the money without even discussing with us. Isn't this just to embarrass us?"

Ning Haohan's chest heaved in anger even though he was sitting on the sofa.

Elder ning was sitting on the sofa in a depressed mood, thinking about something.

"Dad, say something! What should we do?"

"What should I do, what should I do? you only know how to ask me what to do! Who was the real Chairman of the ningwen group? If you don't know anything, why are you still the chairman?"

You're always so mean to ah Hao when you're free. If it weren't for your instigation, ah Hao wouldn't have been kicked out of the ning family. Why would he live so miserably? If you had been more open-minded, would ah Hao have given us such an attitude today? Now that his wings have hardened, he doesn't even put me, his grandfather, in his eyes. Who are you? Why does he have to put you and the ning family in his eyes?"

Ning Haohan looked at his unreasonable father with bulging eyes. He was so depressed that he could not say a word.

He was the one who looked down on second brother's wife and refused to let her into the ning family, causing second brother to never be happy in his life. Now, he was the one being blamed?

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2418**

However, the man in front of him was a general and his father. It was all thanks to his father that the ningwen group could have its current scale. He didn't dare to argue with his father, so he could only swallow his anger.

Elder ning was also very nervous. He couldn't contact ning Wenhao, and the four groups had already donated their money. It was all on the news. They had to come up with a feasible plan by today and report the amount of donations.

However, it was unrealistic to ask the ningwen group to donate 2 billion Yuan. It was no different from asking for his life.

Finally, elder ning couldn't help but call elder Xiao.

The call went through, and it was the Butler. After elder ning introduced himself, he asked the Butler to get elder Xiao to answer the phone.

In fact, he had never been on good terms with old master Xiao. Because the other party was a very serious and old-fashioned person, he used to like to argue with him about everything when he was young, so he usually did not have much contact with old master Xiao.

However, he really had no other choice now, so he called to ask.

Just as the Butler invited old master Xiao to answer the phone, the news about the donation was broadcasted on the TV again.

[ okay, now we'll broadcast another piece of news about donations. A reporter had just received news from Shengzhou's fundraising office that Yunxiao group had donated 2 billion Yuan to the disaster area. At the same time, Yunxiao group had opened up a welfare apartment for employees that had just been built. It was said that the employee welfare apartment that the Yunxiao group was building this time covered an area of 32000 square meters, with a total of 2100 apartments. The interior of the apartment was about 46 to 100 square meters. This apartment was originally a welfare house for employees, but the Yunxiao group's Board of Directors had announced in the morning that the house would be temporarily used to accommodate the victims of Shengzhou. [ it's reported that the Yunxiao group's staff dormitory is large enough to accommodate a total of ]

The news continued to broadcast, and the screen had already switched to the morning board meeting of the Yunxiao group and the employees' apartment mentioned in the news. However, elder ning felt that he could no longer hear what was said after that.

2 billion!

Another 2 billion!

The Nangong family and the Xiao family had both offered 2 billion. Could it be that the ning family really couldn't escape the fate of being donated 2 billion?

At this moment, elder Xiao had already picked up the phone, and his voice came from the other end of the phone.

"Hello," he said.

"Hello, old Xiao, I'm old ning." Elder ning forced himself to speak with a smile.

"So it's elder ning. What's the matter, mom?"

"Hehe, it's nothing. I just saw on the news that your Xiao family's donation to the disaster area, and I really admire you, elder Xiao," said the man. Elder ning laughed drily.

"Money is just a worldly possession, you can't bring it with you when you're born, and you can't take it with you when you die. The reason why the Yunxiao group was able to develop to its current scale is partly due to the hard work of the Xiao family. On the other hand, the Internal Affairs Bureau and the Combat Services Department have given us a lot of convenience. Now that our children and grandchildren have a business empire, they should not forget to give back to society."

Elder ning's mouth twitched as he listened.

Originally, he had wanted to discuss with the Xiao family how to deal with this donation. After all, the Xiao family's financial situation was actually similar to the ning family.

Who knew that old man Xiao would actually tell him a bunch of life principles? It annoyed elder ning, but he had to say, "Yes, yes, yes, you're right!"

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2419**

"Old Xiao, I didn't expect you to be so enlightened. I think I should learn from you!"

"No way." Elder Xiao didn't say anything else after that.

By the way, I heard that Xiao Cheng'an isn't your biological son. Someone swapped the child for you. Is that true?"

"Yes, I am. Back then, my wife gave birth to a daughter. Now, I've found my granddaughter."

I heard that your granddaughter is the daughter of the Wu family in Haizhou?"

"Yes, I am."

“Hehehehe, old Xiao, you’re really lucky to be in-laws with the Wu family. Although the Wu family did not have any connections in the combat Services Department, Wu Jingcheng’s reputation in the Internal Affairs Bureau had skyrocketed this time. Who knew when he might be able to enter the Internal Affairs Bureau and become a chief. the wu family was the biggest family in haizhou, and it would be a strong alliance with the xiao family. No wonder you could take out 2 billion so easily.”

After a moment of silence, the other party said, “it’s fate that the Xiao family and the Wu family can become relatives.” However, this has nothing to do with the Xiao family’s 2 billion donation.”

what? don’t tell me that the Wu family didn’t say anything when the Xiao family paid for the house and the money? ”

the Xiao family is the Xiao family, and the Wu family is the Wu family. Why would the Xiao family donate and the Wu family have to express it? ”

The news of the Xiao family’s donation came to an end just as old master Xiao’s voice trailed off. Then, the host began to announce the second piece of news.

The second piece of news was about the Wu family.

Haizhou’s Wu family donated 2 billion Yuan to the disaster area.

At the same time, the host also revealed the relationship between the Wu and Xiao families in the news. At the same time, the Wu family’s granddaughter and the Xiao family’s granddaughter, Wu Lingyun, had become the joint funders of the two companies. When he saw Wu Lingyun, a girl in her early 20s, hand over a check with 4 billion written on it to the person in charge of the fund-raising, elder ning was in a bad mood.

At first, master Xiao had planned to hold a grand banquet to introduce his granddaughter, Wu Lingyun, to all the wealthy families in dizhou, so that those snobs wouldn’t keep bullying her.

Who knew that just as the invitation was printed, they would encounter a magnitude 9 earthquake that had not happened in hundreds of years.

Kamino was in a difficult time. So many victims had lost their families, homes, and health. The whole country was in mourning. It was impossible for the Xiao family to hold any banquets in the next three months.

That was why he invited the media to the board meeting this morning. Not only did he announce that the Xiao family would be donating 2 billion to the disaster area, but he also brought his granddaughter along and revealed her identity to the media.

In the end, Wu Lingyun came forward to give out the donations from both families. This way, her identity was naturally known to everyone.

Elder ning had been slapped in the face twice, and he felt very upset. Thinking of his unfilial son, ning Wenhao, he asked, ” “Old Xiao, there’s something I’ve been meaning to ask you.”

“Go ahead,”

"I know. Although Xiao Cheng 'an is your son, you've always placed your focus on your grandson, Shen bin. Shen bin would definitely be in charge of Yunxiao group in the future. But old Xiao, did you know that Shen bin and our ah Hao founded the Eagle Eye group behind our back? they're the major shareholders of the Eagle Eye group. Did you know about this?"

After all, the Eagle Eye group was a very powerful group that had only risen in recent years. In addition, the Eagle Eye group had deliberately hidden the news, so many people did not know who the controlling shareholder of the Eagle Eye group was.

### **My Sweet Physician Wife Calls The Shots**

#### **Chapter 2420**

Elder ning only found out that his grandson had a share in the controlling shares of the Eagle Eye group after many inquiries.

Under the control of ning Haohan, the ningwen group had taken a few detours, which caused serious internal damage to the group. The Hawkeye group had to continue to save it.

however, ning wenhao did not help him.

Thus, he wanted to walk the path of elder Xiao.

He didn't believe that elder Xiao knew about the Hawkeye group.

If they knew, the Yunxiao group and the Eagle Eye group would not work separately. They would be very close. At the very least, the Eagle Eye group would definitely give Yunxiao Group A lot of convenience. After all, elder Xiao had always been good to his grandson, Xiao shenbin.

However, according to his investigation during this period of time, the Eagle Eye group had never given Yunxiao group any convenience. Even if there was a cooperation, it was under the circumstances that it was beneficial to the Eagle Eye group. Thus, elder ning believed that elder Xiao definitely didn't know about this.

However, the truth had once again disappointed elder ning.

Old master Xiao only responded with three short words.

"I know,"

"You know? You know about it?" Elder ning's eyes were wide open.

"elder ning, is there a problem with me knowing this?" After all, he was the one who paid for the start-up capital for Xiao shenbin's cooperation with chiyang after he was discharged from the Army due to injury.

"Hehehe, no problem, no problem. It was really good! It was really good! Your shenbin should at least be honest with you and tell you everything. That kid of mine really pissed me off. He ran off to work with Shen bin and set up such a big company, but I, his grandfather, only found out about it recently. Sigh, Shen bin is like a child from another family!"

“You reap what you sow. I’ve always been good to Shen bin. Even though his father has sacrificed himself, I’ve always been good to him. When he wanted to start his own business and establish the Eagle Eye group, I was also the one who funded it. Elder ning, I don’t want to criticize you, but what have you done for ah Hao?”

Elder ning had been in a high position for a long time, and now that he was being ruthlessly rebuked by elder Xiao, he was so angry that the veins on his forehead were popping.

“Elder ning, did you call me to congratulate me? Do you have something to tell me?”

Elder ning’s mood was extremely negative at the moment, and there was nothing he wanted to continue the conversation with the other party. However, there was one thing that he wanted to figure out.

“Old Xiao, I want to ask if the chairman of the Eagle Eye group is Chi Yang?”

isn’t Liao Chuan the chairman of the Eagle Eye group? ” elder xiao retorted.

“Old Xiao, it’s not interesting if you do this. liao chuan is just an orphan, an ordinary special forces member who used to serve in eagle. now that he’s retired, he’s become the chairman of eagle eye group. do you think i’d believe that?”

” would you believe that nangong nuannuan became the chairman of disheng and tian heng di at the age of 17? ”

Elder ning,”Yingluo, how is this the same?”

“So, the world is full of wonders. If you don’t believe it, it can only be said that he’s not worthy of your trust. It was the same logic as how one would never believe that Nangong Nuannuan, who had been abducted at the age of three, could become the chairman of disheng group at the age of 17. Do you still have anything else?”

“Hehe, No. Congratulations on finding your granddaughter!” Elder ning emphasized the word ‘outside’.

“thank you. That granddaughter of mine is very outstanding. It’s my fortune to be able to find her in my lifetime.”
