

Physician Wife 2451

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2451

The entire villa wasn't very big, and the president only had one study room. So, after coming here yesterday as an ordinary employee, Nangong Nuannuan had asked Huang Ziyu to bring the president to the study room.

She was waiting for him in the study.

Although there were 360-degree surveillance cameras outside, and Feng Kun would also monitor the president through these surveillance cameras, what was Wanwan afraid of? There's little danqi!

all the cameras around the president had been controlled by dunchi.

As for identifying him from the satellite? I'm sorry, although this isn't the President's House, it's the president's private residence. It's understandable that the satellite can't see anything.

Even though Feng shengxuan's hypnosis had not been removed, Nangong Nuannuan and Huang Ziyu already had a way to deal with it.

Feng shengxuan's subconscious hypnosis had already been severely damaged, but Feng Su still didn't know that Feng shengxuan already knew everything. This was enough to prove that even if they removed the president's hypnosis the next day without anyone knowing, Feng Su and Shi Yalin would still not know.

Therefore, Nangong Nuannuan paid close attention to the black energy fluctuation in the president's mind.

As the black energy rose from the president's mind, Nangong Nuannuan stabbed at the black mist without mercy.

When the black mist started to shrink, Nangong Nuannuan pulled back her hand to prevent it from damaging the president's nerves.

This was why in the dream, when the president's wife used her powers to clear the sea, Nangong Nuannuan did not use the silver needle to Pierce her head. The president's wife was also able to temporarily not be attacked and endure the pain in her body.

In the Dreamland, a huge sea wall had already formed.

Huang Ziyu could sense that it wasn't just the sea that was facing her that had turned into a sharp thorn. Behind the sea, all the seawater had turned into a sharp thorn.

Outside, Nangong Nuannuan also realized that the black gas had been shaking violently earlier. Why was it slowly shrinking until it was about to become a dot?

But was Yingying's help?

She had x-ray vision, so she could clearly see that the black gas was being compressed rapidly.

How to explain this? It was like when the trigger was pulled, the bullet would be extremely compressed in the chamber, just like when a shell was about to be fired, it would be rapidly compressed in the barrel.

The more ruthless the compression, the greater the power that burst out.

As she watched the black gas shrink, Nangong Nuannuan, who had only held five needles in her hand, quietly took out ten silver needles from her wrist.

15 arrows could even pierce through a person's head. It couldn't be that he couldn't get rid of the black gas, right?

In the dream, all of a sudden, the sea water crashed toward Huang Ziyu's direction like a landslide.

The immense pressure of the sea water, the sharp spikes of the sea water, and the suffocating killing intent suddenly exploded at that moment.

Huang Ziyu's body was instantly surrounded by a white light, which wrapped around him.

However, she also knew that this white light was only to allow her to survive as much as possible.

Just as the spikes were about to pierce through her body, a white light burst out from Huang Ziyu's body.

however, this small circle of white light was like a weak firefly in this sea that almost covered the sky and the sun, only emitting a faint light.

"BOOM!"

All of a sudden, the seawater seemed to have met with some resistance. It suddenly exploded near Huang Ziyu with a loud boom.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2452

2452 Lifting the hypnosis (5)

"Boom boom boom boom--"

The sharp spikes that were charging at Huang Ziyu like a tidal wave exploded violently when they hit the barrier. Huang Ziyu was so frightened that he could only use all his strength to protect himself to avoid getting hurt. He did not even hear the screams of the First Lady.

The violent explosions were still going on, as if they would never stop.

And in another place, a blinding light was suddenly emitted.

the light seemed to light up the entire sky, as if a huge fireball had suddenly exploded.

the moment the light burst out, the huge spiked sea wall suddenly fell apart.

When the light suddenly lit up and then disappeared, the sea wall disappeared as well. In the entire dream, there was only the calm sea and the dumbfounded President.

“Nuannuan, what happened just now? They’re not my wife and son, are they?”

The president looked at Nangong Nuannuan. In an instant, he felt clear-headed again.

Nangong Nuannuan’s sudden change in appearance shocked the president.

Mr. President, I’m not Nangong Nuannuan. I’m a member of the Eagle Special Forces. My name is Huang Ziyu.

When the president heard that it was Eagle, he immediately calmed down.

He had full trust in Fei Ying. although there were very few members in eagle, every one of them had gone through life and death situations and were extremely loyal to the country and the president.

Therefore, he believed that the girl in front of him would definitely not hurt him. Even if he was in a strange place and had just witnessed the tragic death of his wife and son.

However, it was not until they died that he realized that he could not resonate with Yingluo and the other two people at all. Not only that, but after that woman disappeared, he felt as if the shackles that bound him were suddenly unlocked.

“The person you killed just now wasn’t their Wufu, right?”

“Yes, Mr. President,” Huang Ziyu replied with a smile. The man I just killed, who looked like your son, was actually an illusion. The woman who became your wife was the restraint to hypnotize you.”

“hypnosis?” the president grasped huang ziyu’s words in time.

at this moment, the sea around him had completely receded. the president suddenly found himself on a golden beach. the sun was setting in the west, and the afterglow spread out. the whole world was beautiful.

The next moment, the scene changed rapidly, and he was standing in a desolate desert.

The next moment, the president found himself floating in the air, standing on a white cloud.

After that, Huang Ziyu brought him to an empty space.

Everything here was white, and there was nothing in the world.

“You’re now in a dream world I’ve set up,” Huang Ziyu explained. Yesterday, when my sister-in-law, Nangong Nuannuan, was talking to you on the phone, she realized that you might have been targeted by the Shi family. In fact, my sister-in-law has been keeping an eye on the Shi family, and she knows the Shi family better. So after the phone call with you, she disguised herself as a male employee of disheng and came here to get something.

Because sister-in-law had carefully changed her appearance, the people in your room didn’t notice him. However, sister-in-law saw Shi Yalin and the person with her. ”

Following Huang Ziyu’s account, the events of the day flooded into the president’s mind.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2453

2453 Leaving the dream (1)

Yesterday, he had gone to the place he had made an appointment with Nangong Nuannuan.

But when the bodyguard opened the door, a group of people came out. These people used extremely cruel means to kill all his bodyguards and then captured him.

After that, Shi Yalin and a man beside her appeared. Both of them were smiling and looking down at him.

after that, he seemed to be bound by something. after hearing what they said, he developed an inexplicable and deep resentment towards nangong nuannuan.

This kind of resentment even made him want to directly attack the powerful Nangong family.

As for Shi Yalin and the Shi family, he had developed a good impression of them. He felt that he had to help the Shi family deal with the Nangong family, especially Nangong Nuannuan.

so, the reason why I suddenly hate Nuannuan and even have the intention to kill her is because I was hypnotized? ”

Huang Ziyu nodded, ” sister-in-law saw that person. She knows that he’s a hypnotist. That’s why she asked me to hypnotize you. That person was very strong, and sister-in-law and I had to work together to remove the hypnosis. So, sister-in-law has been waiting for you here for a long time. I’m not as good as her, so I could only pretend to be Nangong Nuannuan. So, when you wake up later, you’ll see two Nangong Nuannuan.”

“I know.” The president nodded.

“Then let’s leave the dream now. Otherwise, even if I didn’t do anything, your brain would automatically block out the dream after five minutes.”

“Alright,” he said.

After the president responded, Huang Ziyu’s hand flicked gently, and the president, who was sleeping on the chair, slowly woke up.

It had not been more than five minutes since the dream, and Huang Ziyu had not erased the president’s memory of the dream. When he opened his eyes and saw two identical Nangong Nuannuan, the president was only stunned for a moment before he smiled.

“You guys are really amazing.”

Nangong Nuannuan was amazed and asked, ” “Mr. President, you already know about it?”

“Yes.” yes. the president nodded. Ziyu has already told me in my dream. Moreover, I can still remember everything about the hypnosis even after it’s removed, so I know what happened. Nuannuan, thank you. If you hadn’t noticed in time, the entire Kamino Kingdom and I might have gone through an unexpected disaster.”

“it’s nothing. i’m very happy to be able to help you.”

The president looked at the sealed off area and asked, " "where is this place?"

" "This is your study."

The president glanced at the bookshelf behind him and understood. Then, he followed Nangong Nuannuan out of the area covered by the printed paper.

When she walked out, she was stunned to see Feng shengxuan, who looked exactly like her, a third Nangong Nuannuan, and a crumpled piece of paper that was still indistinguishable from real paper from a distance.

The president felt that it was fortunate that these people were on his side. Otherwise, he would have been so angry that he would have wanted to kill Nangong Nuannuan. He was afraid that the other party would have already killed him without him knowing before his men even touched him.

At this moment, the president only had one thing in his heart, and he said it out loud.

"Thank you for not giving up on me."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2454

2454 One ability after another (2)

The president then bowed to Nangong Nuannuan and the others.

"Mr. President, you're being too serious. You've been taking care of the Chi and Nangong families, so it's only right that we help you when you're in trouble."

Nangong Nuannuan then turned to Feng shengxuan and the others and said, " "Big brother, sister Yue, be careful when you go out."

"Don't worry. Don't you trust my skills?"

After saying that, Bai Liyue glanced down and jumped out of the window when the people below were not paying attention to the top.

The president's pupils suddenly shrank.

Because he found that Bai Liyue had only jumped lightly, how could there be no one there?

"Did she escape into the ground?" The president naturally knew about the existence of superpowered people in this world. However, other than Chi Yang, Nangong Nuannuan, and ning Wenhao, who had been reported to the higher-ups not long ago, no one had ever heard of such a person.

After all, ability users weren't as common as cabbages, and they couldn't appear frequently. if that was the case, wouldn't the world be in chaos?

However, Bai Liyue's move just now ... She should be an ability user, right?

Nangong Nuan Nuan, Feng shengxuan, and even Huang Ziyu had seen clearly that Bai Liyue had jumped onto a tree far away because she had been too fast. However, the president had said that she had escaped through the ground.

This Kasaya

Nangong Nuannuan coughed and said to the president, " "She flew into the sky."

The president's eyes twitched. He wanted to say, " I'm not strong. Don't lie to me.

However, on second thought, Nangong Nuannuan had no reason to lie to him.

The president really looked up at the sky suspiciously.

Feng shengxuan:

Huang Ziyu:

Nangong Nuannuan wanted to say that even if he was in the sky, he couldn't be above her head. wouldn't she fly away?

Feng shengxuan glanced at the president, then jumped down without a word.

just as the president was surprised that someone would notice, he saw that everyone below had left.

As for why they had left so suddenly, the president had no idea at all. All he could see was Feng shengxuan swaggering away like an Emperor without any intention of hiding.

At that moment, he was even more grateful to Nangong Nuannuan. He believed that if Nangong Nuannuan stood firmly on his side, he would have to make these people his enemies in the future.

Only Nangong Nuannuan, the president, and Huang Ziyu were left in the room.

Huang Ziyu wasn't a strong fighter, so she had to leave from the main entrance.

However, Nangong Nuannuan still had something to say to the president, so she stayed for the time being.

Huang Ziyu was in charge of the aftermath and kept the 3D paper in the room.

Because of the special material, the large piece of paper was finally folded and put into the small bag on Huang Ziyu's back.

my hypnosis has been lifted. Will Shi Yalin and that man know? "

"I won't,"

"Who is that man? What organization has the Shi family joined?"

Nangong Nuannuan felt that there was nothing to hide from the president. After all, the president was extremely intelligent. With the president around, it would be much easier for them to deal with Shi Yalin and Feng Kun.

"The man beside Shi Yalin is called Feng Kun. You might not have heard of the name Feng Kun, but you definitely know ke. and feng su is the one who truly controls KE."

"He's King?"

Nangong Nuannuan pondered for a moment. She realized that Feng Luan's motive was to make brother chiyang and Feng shengxuan kill each other.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2455

2455 He's King3

If he found out that Feng shengxuan had tricked him one day, would he reveal all of their identities in a fit of anger? At that moment, what if he incited the crowd to say that the Chi family had to make brother chiyang kill Feng shengxuan to prove their innocence?

Rather than that, it would be better to get a reliable and powerful ally from the beginning.

King is the man you saw just now. He's the one who impersonated you. He's my big brother, Feng shengxuan.

"What?"

The president's eyes widened.

They had never expected that the person Kamino and Eagle had been trying to kill was the vice-chairman of disheng. And he had actually helped him just now!

Nangong Nuannuan told the president about Feng Kun's background and Chi Yang's matter.

Of course, she did not tell anyone about her second uncle. Because there was no need. There was no need for her to say something that even Feng Kun didn't know.

the president was shocked by the news that old King was the second son of the chi family and that he had sacrificed his life with hiroshi chizawa in order to save kamino.

He looked at Nangong Nuannuan for a while and wanted to say that the Chi family should have told the battle Bureau about this earlier. That way, the Chi family's second son wouldn't have to bear so many bad names.

However, Yingluo

What was the point of saying so much when he was already dead?

The president nodded and said, " I understand. Nuannuan, don't worry. I'll find a way to file a case and deal with this matter. One day, I'll definitely be able to give the Chi Family Justice.

This could be considered as Nangong Nuannuan's repayment for saving her.

Nangong Nuannuan nodded and thanked the president.

She had never expected that by telling the president what she was thinking of, she would really block Feng Kun's path. One day, he was almost killed by Nangong Nuannuan.

Thinking of what happened yesterday, the president said, " "They treated me like this, so the drug developed by the medical Association is really a genetically modified drug? If that's the case, I must immediately order the people in the disaster area to stop using this medicine."

Nangong Nuannuan shook her head. I've already checked the medicine. Although it's a direct effect on the genes, it's mainly for recovery. It would not cause any substantial harm to the human body. The injured people were currently trapped in Shengzhou, and the medical facilities were not good. If they had this medicine, it would be a help to them. The only downside was that other external medicine might not be as effective in the future. It was just like how spores were used in the market. It was said that cephaloid shouldn't be eaten indiscriminately. Cephaloid must be used if it wasn't an inflammation. However, many people were still willing to use cephaloid all the time. They were willing to use cephaloid because the anti-inflammatory rate was indeed faster after using cephaloid. Also, after using cephaloid, other anti-inflammatory drugs wouldn't be very effective. Therefore, compared to his life, using such medicine was better than having his wound fester and become inflamed, which would eventually lead to amputation. That's why I'd rather use this medicine. However, you can send someone to make a statement that since the Shi family has donated the medicine and there are only 100000 boxes, the medicine will need to be arranged by the medical team in the disaster area."

"I know." The president nodded, but he was still frowning.

"Are there really no side effects? Then why did they hypnotize me?"

" because they were afraid that i'd notice something wrong with the medicine, so they told you about it. "

since it's not genetic modification and the negative effects aren't too great, what other clues can there be? "

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2456

2456 The source of superpowers (4)

The president had a bad feeling.

He recalled the strange scene of Feng Luan suddenly disappearing in front of him yesterday.

"I suspect that Feng Kun and Shi Yalin are aliens. Because the chemical structure in their drug doesn't belong to our glory planet."

"....."

The president fell silent after hearing this. Nangong Nuannuan was silent and not surprised. She knew that the president might really know something."Mr. President, are there really aliens? why don't we people on glory planet know about it?"

you didn't tell your old master and old master Chi about this medicine? "

Nangong Nuannuan shook her head.

"If you had told them, they would have told you that there are aliens in this world."

Nangong Nuannuan:

“However, this is something only the Presidents of the various countries and the most senior generals know. It was because the door to the other world had been closed a long time ago. There had never been an alien in decades. Although it’s not up to us on glory planet to decide whether the door will open or not, the humans in that world are also bound by legal constraints. They won’t open the door casually.”

Nangong Nuannuan listened for a long time before she asked, “Who is inside that door? What world?” that planet is called shield. It is actually 200 million light-years away from glory planet, but for some reason, it suddenly crossed with glory planet one day. The ruler of shield planet is also a human who looks exactly like us, but the people there are tested for their aptitudes from a young age. Those with aptitudes will learn from the mechanisms of the higher level, or perhaps from sects or aristocratic families. those who are different from ordinary people are called cultivators.”

Then, the president looked at Nangong Nuannuan and asked, “do you know why you have an ability?” nangong nuannuan was taken aback, and a thought suddenly struck her. her eyes widened. “that’s impossible, yingluo!”

“Nothing is impossible,” the president smiled. Your grandmother was a cultivator from shield planet. She fell in love with your grandfather, Nangong Renyi. That’s why you and your mother both have superpowers.”

nangong nuannuan’s mouth was slightly agape as she said, “then brother chiyang ...”

his grandmother is also a cultivator from shield planet. His grandmother and your grandmother are good sisters. Why else do you think your grandfather and your grandfather Chi are so close? ”

Nangong Nuannuan wanted to say that, but after some observation, she realized that the one with the superpower was actually Grandpa Chi. However, she didn’t say anything. After all, she knew what she could and couldn’t say.

In other words, the fact that Feng Luan and venomous snake Wen Wan were aliens was no big secret. do the Presidents of all the countries know about this? ”

“Yes, I know. However, we also have confidentiality rules. This kind of thing can not be spread to the public and cause panic. But since you trust me so much, I should trust you too. “But if the other party is a cultivator ...” The president’s eyes narrowed slightly. He was considering the chances of his survival.

Abdication would not work.

There was no reason for him to let others fight when there was danger.

Nangong Nuannuan could read the president’s mind and said, “What did he do to you?”

“He made me hate and detest you and the Nangong family.”

“What about the others?”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2457

2457 The price of hypnosis (5)

“There’s nothing else,”

Nangong Nuannuan turned to look at Huang Ziyu, who had been silent the entire time. Even when he heard that there were aliens, he was not surprised at all. Nangong Nuannuan was quite satisfied with her performance. After all, in the face of such a powerful cultivator, Huang Ziyu did not leave the dream even in the face of death. This was enough to prove her loyalty to the president and the Eagle.

Huang Ziyu also nodded. there’s no one else in Mr. President’s dream that he hates. In fact, his hatred for the Nangong family is because of you.

“Then why did you change the people you trust around you?” Nangong Nuannuan was confused. This was because the people around the president were not the ones he had seen outside today.

“It’s because the few people who followed me are already dead. I feel that their men are more powerful, so I want to use their men to guard against you. However, I don’t really trust them.”

Nangong Nuannuan nodded. continue pretending then. We’ll think of a way to get rid of these people in the future. Feng Kun’s ultimate goal isn’t too obvious yet, so let’s wait for a while.”

“Alright,” he said. Nangong Nuannuan’s suggestion was also what he was currently thinking. Pretend first, talk when you can’t pretend anymore.

“Do we need to record our conversation today? Otherwise, what if Feng Luan asks about it?”

“No, he’s not qualified to ask me.”

Then, the president threw the listening device on the table.

This proved that even without her, the president would never have allowed Feng Kun and Shi Yalin to monitor him.

Thinking of what happened to Feng Kun yesterday, the president said, “Although I don’t remember Feng Kun hypnotizing me, I do remember the changes he underwent after the hypnosis. Before he hypnotized me, his aura was very strong, but after I was hypnotized, his aura instantly weakened. He couldn’t even stand up, and it was Shi Yalin who helped him to sit on the sofa.”

Nangong Nuannuan’s eyes lit up. does that mean that after he hypnotizes someone, his strength will decrease? ”

“It should be like this. But I don’t know if anything else happened in the middle of the hypnosis, but I’m sure he was very dispirited after that. He also had a talisman-like thing in his hand. After he burned that thing, he disappeared.”

The president’s words reminded Nangong Nuannuan of the war 17 years ago. At that time, no one understood why Feng Su could run from Kamino to Saibo two hours later to express his condolences to Feng shengxuan after having a life-and-death battle with the brothers, Hiroshi and chizeyao.

At that time, everyone thought that the person who had made Feng shengxuan feel sorry for him was in disguise.

However, now that Nangong Nuannuan could think of it, the other party had probably used this method to teleport her away.

although this kind of thing still felt a little unbelievable, since ancient times, there were many mythological dramas that described teleportation talismans.

It was said that art came from life and was more powerful than life. Who knew if the people of the two planets had mingled in ancient times, which led to the appearance of teleportation talismans and "Immortals" such as flying in the sky and burrowing in the earth?

I understand, Mr. President. I'll tell Grandpa Chi and my Grandpa about this.

The president nodded. He then looked at Nangong Nuannuan, as if he found it difficult to speak.

"Mr. President, do you have anything else to say?"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2458

2458 The danger around (1)

"We're already so familiar with each other, so you should just call me uncle Shen. actually, my father is your grandfather's cousin. it's just that my father died early, and after my father died, i was taken away by my mother's people. After I became the president, your grandfather was afraid that people would gossip, so he cut off our contact."

Nangong Nuannuan did not stand on ceremony and smiled. "Uncle Shen,"

"Hey!" The president chuckled. He really liked Nangong Nuannuan, a junior!

"Uncle Shen, do you need my help with anything? Since we're a family, if you need anything, just let me know."

The president's expression turned serious and he said, "After Feng Kun's incident, I realized that even though I have many people following me around every day, there are five bodyguards in the house, eight outside the courtyard, and more than ten people outside the villa. Under the condition that I can guarantee my safety, I have this many people with me. Not to mention the presidential palace's bodyguards, who were a platoon of top retired Special Forces.

However, even with such bodyguards, I was still caught by Feng Kun yesterday. To a President, this was a great humiliation.

Nuannuan, I've seen your abilities. If it's convenient for you, do you have any good people to recommend to me?"

"There is." Nangong Nuannuan nodded without hesitation.

The president's eyes lit up.

"But uncle Shen, do you know why Feng Kun assigned you a much more powerful person? he killed your bodyguard right away."

The president thought for a moment and said, "Bugman?"

"Yes," Nangong Nuannuan nodded.

"brother chiyang, you've seen the bugmen created by KE before. these bugmen were never managed by my big brother, feng shengxuan, and my big brother also asked for them to be destroyed. It's just that Shi Yalin didn't listen to my big brother at all, because she's directly under Feng Kun's command."

"You wait for Yingluo."

The president stopped Nangong Nuannuan and asked in confusion, "You mean, Shi Yalin is also a member of the KE team? The Shi family is under the control of the KE family?"

Nangong Nuannuan shook her head. the real Shi Yalin has already been killed by Feng Kun. Feng Luan had a person who specialized in researching bugmen. This person's name was Wen Wan, codenamed Viper. However, she secretly attacked Bai Liyue before and was killed by my big brother. However, Feng Luan kept her soul and allowed her to be reborn in Shi Yalin's body. "so, shi yalin is actually the venomous snake of the ko group-wen wan."

Since he had already confirmed Feng Luan's identity as a cultivator, it would not be difficult for her to place Wen Wan's soul in Shi Yalin's body.

"Shi Heng has always been an ambitious person. He wants Shi maowen to be the next president. It doesn't really matter to me who becomes the president. Although I personally feel that li Heyi is more suitable, the final result will depend on everyone's votes. However, it was obvious that the Shi family knew about Shi Yalin's research on these non-human beings, and they even knew about the insect people. However, they had never thought of reporting it. This means that the Shi family is planning to use a big move!"

"isn't that so! These bugmen next to you are definitely above 2S level, plus they are under the control of the bugs, forming a superpower similar to an Esper ability, making them even more powerful than 3S level bodyguards, more resistant to attacks, and the injuries on their bodies heal more easily."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2459

2459 Pit (2)

"That's why the people around you can't beat them. But that doesn't mean that the people around you are lacking."

After all, he was the president of Kamino. Although he was not equipped with the same equipment as Eagle, he was once one of Eagle's top special Forces, so he was definitely not weak.

"If that's the case, we can only forget about it. After all, the other party is using abnormal means. Even if you introduce them, they may not be their match."

Nangong Nuannuan smiled. but I've been confronting them for so long. It's not like I didn't gain anything.

The president couldn't help but laugh. you silly girl. I'm already like this. Why are you still hiding it? "Hurry up and tell me!"

Nangong Nuannuan grinned as she took out a variety of expensive watches from her backpack.

The president's forehead twitched. He looked at Nangong Nuannuan and said, "I don't lack branded watches.

"This watch is the same as the one you're wearing, so it won't attract their attention," Nangong Nuan said with a smile. But I've already done something to the watch. When the medical Association insisted on taking the bugmen away, I had already suspected their thoughts. Now that the poisonous snake has become Shi Yalin, I'm even more certain that the medical Association must have a lot of bugmen. In fact, I've been studying them before I handed them over to the medical Association. Although I didn't know where they came from, how they controlled the human body, and how they could make the human DNA mutate, I knew that no matter what it was, it could find its natural enemy."

nangong nuannuan casually took out one of the watches and pressed on the time-setting button. a needle was revealed.

"This needle tube is hollow, and there's concentrated medicine inside. Once these drugs entered the bodies of the bugmen, they would immediately suppress all their sense of superiority as bugmen. uncle Shen, you can try to think about it. Perhaps the bugmen Feng Tan sent to you were very powerful in the past, even reaching the standard of 3S class. But after the buggers helped them improve their martial strength, they might have more ideas on how to maximize the use of the buggers in their bodies, and they might have given up on the breakthrough of their own bodies. So I dare to guarantee that as long as it's fair, your bodyguards will be able to deal with the bugs."

The president's eyes lit up.

Although he had his own beliefs, and it might not be wrong to say that he was not afraid of death, but who was not a fool if they could not die? Besides, he was the president. He and his family would have a good life in the future. He could protect himself. No one wanted to die!

Initially, he had thought that Nangong Nuannuan was very skilled in martial arts. Even though it was unrealistic to ask Nangong Nuannuan to protect him personally, he felt that it was possible for Nangong Nuannuan to send more powerful people to protect him.

Initially, he had thought that since Nangong Nuannuan understood Feng Kun and Shi Yalin so well, as well as the insect people, he would not believe that they would not research on genetic modification under such circumstances.

In his opinion, it was better for Nangong Nuannuan to study these things in private than for the bad guys to study these things in private while he knew nothing about them and could only be beaten up.

Therefore, he subconsciously felt that there must be a reason why Nangong Nuannuan was not afraid of the other party at all. In fact, the other party was still afraid of Nangong Nuannuan even when they had the insect people's trump card.

He had only asked casually, and Nangong Nuannuan had really given him something good.

My Sweet Physician Wife Calls The Shots

Chapter 2460

2460 doing business (3)

Looking at the pile of watches on the table, all of which were world-famous brands, the president smiled.

“These watches are too precious. I’m buying them at ten times the price. Nuannuan, you’re so considerate.”

Nangong Nuannuan did not stand on ceremony with the president. After all, the president of the capitalist class did not lack this little bit of money. Furthermore, Kamino’s President was also from a second-rate family.

“Alright, then I’ll provide you with the medicine on a long-term basis. There are many watches here. If it’s not enough, I can make you more. If you need me to help you with anything in the future, just press these buttons on the phone. I’ll call you automatically after receiving your signal. If they didn’t call, it’s either someone’s beside you or it’s inconvenient for me.”

“Alright,” he said. the president agreed with a smile and couldn’t help but say, “no wonder you’re the chairman of disheng and Tianheng di at such a young age. Your business methods, attitude, and service are all different. Hahahaha!

Nangong Nuannuan knew that the president was laughing at her, but she did not feel embarrassed at all.

To put it bluntly, he helped the president because brother chiyang wanted to protect the president. As for her, she was just reducing brother chiyang’s work and taking preventive measures.

Distant relatives or not, those were just excuses. Relatives who had been estranged from their grandfather’s generation, no matter how close they were, were not a family.

Therefore, Nangong Nuannuan had no qualms about earning some of the president’s money.

She even hoped that the president could give disheng more business to do.

After that, Nangong Nuannuan taught the president how to fire the weapon in the watch.

She had indeed spent a lot of money on these watches because almost every one of them was full of diamonds.

It wasn’t that she was so extravagant that she had to use a diamond, but it was because diamonds would refract light when they came into contact with a little bit of light.

This way, it could provide cover for the needles that were about to be shot out.

In addition, Nangong Nuannuan had rearranged the diamonds according to the principles of optics to strengthen the light and reflection effect, which was very effective in disrupting the enemy’s figure, speed, and reaction.

These watches had actually been made a month ago. They had made a lot and given them to everyone in the family. It was just to protect them from being attacked by the bugmen, so that they could have the power to resist.

And these fake sisters-in-law were the leftovers.

Back when she was treating Feng shengxuan, she had discovered something strange. Although her ability cells seemed powerful, they were actually afraid of cancer cells.

It was just like when Feng shengxuan had stomach cancer. Those ability cells ran as far away as they could from the cancer. She also found that as the cancer cells gradually spread, the number of ability cells was rapidly decreasing in a geometric pattern.

At that time, she didn't dare to scare Feng shengxuan. She only tried her best to burn away his cancer cells every day.

at that time, he had very few ability cells left in his body.

Fortunately, after the cancer cells were slowly destroyed, the ability cells could grow again. Otherwise, Feng shengxuan would have been in deep trouble.

It was also because of this major discovery that after treating Feng shengxuan, she immediately went to the hospital to extract cancer cells from patients from various departments. Moreover, they were all blood samples extracted from patients with late-stage cancer.

these people would have a lot of blood drawn from them every few days, and she only needed to collect a little bit and refine it into serum to experiment on the bugmen.
