Chapter 2461

2461 Business plan (4)

as expected, one was one accurate.

After that, in order to increase the intensity of the cancer cell attack, she simply made a genetic list of all the blood serums of late-stage cancer patients to see which genetic chain had gone wrong with this patient.

After finding out the problem, she simply abandoned all the cancer patients 'serum samples and used some chemical components to study the chemical gene strands. Then, he increased the destructive force and concentrated the medicine.

In the end, from the process of making the medicine to the completion of the research, it only took two days.

After it was made, Nangong Nuannuan used it on the venomous Scorpion that loved venomous snakes and went crazy.

She had never touched the insects on the Scorpion's body, all for the sake of her research.

this time, it was finally useful.

He injected the Scorpion's skin with an enhanced version of the medicine to stop the vomiting. The Scorpion's cells, which were different from ordinary cells because of the bugs, quickly dissipated under the corrosion of the medicine.

The insects in his brain also seemed to have suffered a great attack and began to frantically condense new special ability cells.

However, Nangong Nuannuan was using a powerful drug that she had developed herself. It was not an attack from ordinary or late-stage cancer cells. This drug was several times more powerful than all the terminal stage cancer patients combined.

In the end, with just one shot, the Scorpion's body, which looked like special ability cells, began to wither. Even if the worm began to quickly produce new cells, it could not avoid being corroded by the violent drug.

Yes, it was completely corrosive.

In less than ten seconds, the Scorpion's body began to wither rapidly.

Because the bug was a foreign object to the body, the body must have gone through a series of torture when accepting the bug.

Insects could secrete and produce things like special ability cells, which could change the physique of ordinary people. However, the special ability cells produced by them were very different from real special ability cells. They were only slightly similar.

Even ability cells were afraid of cancer cells, let alone these ability cells that had been created using some unknown method.

In addition, she had increased the amount of medicine she consumed.

The Scorpion's body quickly withered.

And at the moment when he was rapidly dejected, could a group of top-notch special combat members not kill them?

It was impossible!

Therefore, Nangong Nuannuan was not worried about the bugmen around the president at all. It wasn't difficult to take them out at a critical moment.

Nangong Nuannuan reckoned that if she, Shi Yalin, knew that she had created such a medicine, she would probably die of anger.

The president put away all the watches that Nangong Nuannuan had given him with a smile and said goodbye to her with a smile.

Nangong Nuannuan jumped out of the second-floor window with a whoosh and landed lightly on a tree in the distance.

At this time, the summer wind blew, and the branches swayed, making a rustling sound.

However, none of the people below had noticed it.

The president:

Nangong Nuannuan had left and the president's hypnosis had been lifted. Huang Ziyu said, "mr. president, i'm leaving too. This is the business proposal that my sister-in-law asked me to pass to you."

The president took it with some doubt. After reading the contents of the proposal, he couldn't help but smile and shake his head.

Nangong Nuannuan was not only smart, but she was also very meticulous.

Chapter 2462

2462 Demoted (5)

was she worried that shi yalin or feng kun would ask her about what she had said to her?

This was too much of a joke.

As the president, there were some things that he did not need to explain to anyone.

the president flipped through a few pages before throwing the proposal into the trash can.

Huang Ziyu glanced at it and understood, then left.

The moment the door was opened, the president's two bodyguards immediately walked up to him. They surrounded the president and looked at Nangong Nuannuan with wary expressions.

Nangong Nuannuan reached out to the president and said, " Mr. President, I look forward to working with you.

the president looked at nangong nuannuan and, after some thought, extended his hand to shake her hand.

When the president came out of the study, the security Captain had already gathered his men. The president ordered his men to send Nangong Nuannuan out, while he returned to his study.

Suddenly, there was a knock on the study door. The president said, " "Come in."

The head of security walked in and closed the door.

This security guard was the one Feng Tan had sent to the president to protect him. The president had hesitated for a long time before accepting the order.

"Mr. President."

"What is it?"

The head of security smiled. nothing much. I just wanted to ask if you were alright when Nangong Nuannuan came to look for you.

"i'm fine. you can leave." okay, " the president replied politely and started to read his documents.

The captain of the bodyguards was Feng Kun's man. He was a little confused when he saw the president's indifferent attitude.

Shouldn't the president be obedient after being hypnotized?

"What did Nangong Nuannuan talk to you about just now?" The captain of the bodyguards asked.

This time, the captain of the bodyguards had completely crossed the president's bottom line.

"What did Nangong Nuannuan tell me that I need to report to you?"

The captain of the bodyguards:

do you have some misunderstanding of your current identity? "

The captain of the bodyguards:

"men, come."

The two bodyguards at the door came in and looked at the president, standing straight.

"I tried him out yesterday and felt that he might not be suitable to be the security Captain," the president said lightly. You'll be the head of the security team and teach him how to speak to his superior. Teach him what he can ask and what he can't."

"Yes."

Most of the people in this villa were the president's trusted bodyguards. Feng Kun only had two of those he didn't trust.

So when the president suddenly said this, the security Captain was dumbfounded.

This Yingluo must be joking, right?

He had just been promoted to security captain yesterday, and now he was immediately dismissed from this position.

"Mr. President, I didn't do it on purpose. I'm just worried about you, that's why I asked."

The president looked at the security Captain and said calmly, "That's why I don't think you can shoulder such a heavy responsibility. Let's go down and learn some basic etiquette from them."

the president didn't say anything more to the security captain and continued to deal with the documents in his hand.

The head of security's intuition was wrong, but the president only removed him from his position and didn't kill him, so he shouldn't have been exposed, right?

Nangong Nuannuan didn't say anything overboard when she came just now, did she?

The head of security followed the two bodyguards down. Before he went down, he saw a document being thrown into the trash can.

(The plane is at seven o'clock in the morning. I have to attend an event in Shanghai and take care of my baby. He probably didn't have time to write, so the few days of updates in Shanghai might have an impact. But don't worry, I won't stop updating no matter how busy I am. I will recover when I return)

Chapter 2463

2463 Why aren't you hypnotizing me?(1)

The words on the cover of the document were very conspicuous. It was a cooperation plan. He was very familiar with the sign below, it was di gang's.

after he left, the demoted security captain gave shi yalin a call and explained the situation.

In the end, Shi Yalin started scolding him.

"I'm asking you to protect the president, not to be a spy. do you need to worry about the president's decision? You're just a servant, what right do you have to meddle in the president's Affairs? Is there a hole in your brain? did i tell you to monitor the president?"

The security guard Captain who had just stepped down did not feel good. but ran ran, didn't master hypnotize him yesterday? Wasn't he already her Excellency's subordinate? We're all Sir's subordinates, why can't I monitor him? What if he hooked up with Nangong Nuannuan again and wanted to harm you?"

The security guard leader felt extremely wronged. He could not understand why his position as the security guard leader had been taken away, and why he had been scolded by Shi Yalin. There were all sorts of dissatisfaction in his heart.

"He was only hypnotized, and the content of the hypnosis was to make him hate Nangong Nuannuan. The hypnosis didn't even require him to listen to the Shi family's orders, what right do you have to monitor him? idiot!"

Shi Yalin was so angry that she laughed.

"Then why don't you ask the adults to hypnotize him and make him submit to the adults?" the head of security was depressed.

"Do you think it's that easy to hypnotize? No one in the world could dispel his hypnosis, but if one wanted to hypnotize others, one's own spiritual energy would first be greatly destroyed. After making him hate Nangong Nuannuan, he naturally wouldn't let Nangong Nuannuan have it easy. In the future, whenever the Shi family and Nangong Nuannuan went against each other, he would definitely stand on the Shi family's side. If he wanted to kill Nangong Nuannuan, he would have to go against Chi Yang. He was the president, so he knew better than you what he should do. It wasn't easy for me to take advantage of the fact that he was still afraid of us yesterday and put you guys in. But if you do this, he might turn around and deal with us. A good game of chess was actually destroyed by a dog like you. Go and beg for mercy from the Lord!"

After saying that, Shi Yalin hung up the phone in exasperation.

If not for the fact that they had to meet Nangong Nuannuan the day before and that the mansion was not far from the President's House, they would not have been so lucky to get so close to the president.

It wasn't easy for the other party to acknowledge them, but in the end, it was ruined by this idiot.

If she didn't want to do things perfectly, Feng Luan would never go against the restrictions of heaven and earth and hypnotize any ordinary person.

When he had hypnotized old King, he had suffered an unprecedented backlash. After that, when he had hypnotized Feng Shengxuan, he had almost died.

Although hypnotizing ordinary people was much easier than hypnotizing someone like Feng Shengxuan, Feng Luan's Foundation was already broken, and he was one step closer to the day when his soul would be destroyed. In order to see Feng Shengxuan kill Chi Yang before he died, he was willing to give up his life.

Now that Feng Shengxuan had already made his move on the Chi family, Chi Yang's revenge on Feng Shengxuan was only a matter of time. When they were finally able to take their revenge, she would go and help Feng Shengxuan. That way, when Chi Yang was killed, she would stay by Feng Shengxuan's side.

Now, he was no longer Wen Wan, the venomous snake. She was Shi Yalin, the young lady of the Shi family.

When Nangong Nuannuan returned home, she ran into Zhou Ruxue at the entrance.

Chapter 2464

2464 what right do you have 2

Nangong Nuannuan was truly speechless at this woman.

for the sake of pei jitong, you could ignore your son's feelings and had an affair with another man in your late husband's funeral hall, causing your son to hate women until now. as long as he touches a woman's skin, he will break out in rashes all over.

if you've left, then so be it. if you have a temper, don't ever look back. however, zhou ruxue was different. when she was living well, she didn't care about brother chiyang. now that the pei family's motive was revealed, they might not let her go home. she started to want to be a kind mother every day to compensate brother chiyang for his motherly love.

How could there be so many free lunches in the world?

You abandoned your husband and son 17 years ago for your own benefit. Now, in order to continue being a rich wife, you're here to eat your son.

Nangong Nuannuan felt disgusted at the thought of the three conditions that Zhou ruxue had given her.

She was disgusted by the PEI family and even more so by Zhou ruxue.

To be honest, Zhou ruxue was a brainless, inhumane, and innocent girl.

She really couldn't understand why her father-in-law's taste was so bad. He could even fall for such a woman and even give birth to such an outstanding man like brother chiyang.

This was because one had to swipe a card, face card, and identity card to enter. Otherwise, one would not be able to enter at all.

Thus, when Zhou ruxue saw Nangong Nuannuan's car, she immediately rushed over and used her body to block the car. She shouted, "Nuannuan, get out of the car. I have something to tell you."

"But I have nothing to say to you."

"Then tell Chi Yang to come out. I have something to discuss with him." Zhou ruxue's eyes were bloodshot, and even her eyeballs seemed to be protruding. From the looks of it, it was a little similar to brother chiyang's situation when he couldn't control his emotions and had insomnia for a long time.

Nangong Nuannuan was extremely depressed when she saw Zhou ruxue's expression.

Could it be that brother chiyang's eyes were a little bulging when he couldn't control his emotions and had insomnia because he inherited it from this woman?

simply ...

Nangong Nuannuan couldn't describe what she was feeling at that moment. It was as if she had her eyes on a beautiful and bright jade cabbage, but in the end, it was always being nudged around by a sow. It didn't eat, but it smeared its name.

It was really disgusting.

Nangong Nuannuan couldn't be bothered to talk to this woman. She looked at the security guard at the door and said, "take her out."

"Yes."

"You guys let me go! I want to see Chi Yang! Chi Yang is my son! I'm Chi Yang's biological mother. What right do you have to not let me see my own son? I'm going to sue you!"

In the past, Zhou Ruxue would still put on airs as a rich lady. However, ever since she was chased out of the PEI family, she no longer had any airs to speak of.

She was dragged 10 meters away by the guards, so she could only watch as Nangong Nuannuan's car drove in without any hesitation.

Zhou Ruxue felt as if her world had collapsed. The moment the guards caught her, tears started to flow.

"Let go of me!" She wailed. You all know that my son is Chi Yang, so why can't you let me in? I'm Chi Yang's mother, I want to go in and find my son, you're not allowed to stop me, I don't have a home anymore, if even my son doesn't care about me, what should I do? Let me go, I want to go in and find my son, I want to go in and find the old master, I want the old master to be my judge, I am Chi Yang's mother, what right do you have to not let me in?"

Chapter 2465

2465 To see her son (3)

The PEI family wouldn't let her take a single step into their house, and the Chi family wouldn't let her either. Zhou Ruxue felt like she had been abandoned by the entire world.

But what did she do wrong?

Didn't she cry uncontrollably at the funeral Hall of Hiroshi Chizawa and ended up rolling around with PEI Jitong?

Chi Yang didn't understand her, and the old man didn't forgive her. But thinking about it, what did she do wrong?

If she married Hiroshi Chizawa, she would be a living widow. The number of times he returned home could be counted on one hand, but even if he did, his focus would never be on her.

She was a woman, she needed nourishment, she needed men. Koho Chi Ze was dead, what was wrong with her sleeping with PEI Jitong?

Why did everyone in the world think that she was the one in the wrong? The unforgivable one?

The guard saw that Nangong Nuannuan's car had already entered and couldn't be bothered with Zhou Ruxue anymore.

The iron fence outside the door was charged with electricity, so she was not stupid enough to break it.

Thus, Zhou ruxue could only cry on the ground.

tired from crying, she sat on the ground in a daze and looked at the bustling crowd.

in fact, she really, really, really loved hiroshi chizawa, but she had worked so hard for so many years, until chi yang was nine years old and he had already sacrificed himself, but she still had not been able to obtain his love.

What could she do?

That was why she was so passionate about it when she met PEI Jitong.

Even if she knew it might be an illusion, she was willing to fall into it.

But in the end, all his beautiful dreams were about to be shattered. At this moment, Zhou ruxue began to regret. She should have held back and not had sex with PEI Jitong in the mourning hall.

This way, the old man would not hate her. Even if she cheated on him later, the old man would forgive her on account of his son's death and turn a blind eye to her.

She shouldn't have married PEI Jitong either. She should have continued to be the young mistress of the Chi family. She would maintain a relationship with PEI Jitong as the young mistress of the Chi family.

That way, she would have a man and status.

ever since the chi family and the pei family had severed ties, she really felt that the young mistress of the chi family was more respected than the young mistress of the pei family.

But now, if she didn't bring Chi Yang back, she would have nothing left.

now, she could still rely on the balance in her card to live. pei jitong pitied her and even let her live in another villa of the pei family, where there were servants to serve her.

However, she knew that the PEI family was determined to let Nangong Nuannuan help the PEI family through this difficult time. If she couldn't take down Nangong Nuannuan, her future days would only be more difficult.

there was an led display outside the district. it was already the third day since the earthquake. the members of the combat service department had grown from a single north division to a team of various combat service departments.

The War Department, the various state administrative offices, the various Foundation organizations, and foreign medical aid had already begun to arrive at the disaster area.

The earthquake happened at 23:44 three days ago. Although it was already the third day of the earthquake, only 35 hours had passed. It was the golden time for rescue.

On the TV, the Eagle team had arrived at the epicenter of the earthquake in the shortest time possible to carry out the rescue. They had also transmitted the situation at the epicenter of the earthquake through advanced electronic equipment. At the same time, they had accurately estimated the manpower, equipment, and medical conditions that were in urgent need. This allowed the work in the disaster area to be carried out in an orderly manner.

While saying these words, Zhou ruxue saw Chi Yang.

Chapter 2466

2466 I have shares (4)

Although Chi Yang almost never appeared on screen, and only his back would appear, he was still her son, after all, so Zhou ruxue was able to see him with a single glance.

Nangong Nuannuan took advantage of her wealth and was like a stone in the toilet, smelly and hard. In addition, she had offended Nangong Nuannuan in the past, so she was definitely looking forward to seeing her suffer.

She would wait and see. After she went to the disaster area and took care of Chi Yang for a while, she would see if Nangong Nuannuan would still dare to be so fierce to her mother-in-law.

The disaster area lacked food and clothing, and the combat Department and members of the flying Eagles were in poor conditions. They were definitely eating compressed biscuits. No one there would cook for them, so she would just go there and cook for them!

No, she was not good at cooking.

But she knew how to make soup!

The PEI family loved the soup she made. It was thick and nutritious. It would be great if she could stay there and make soup for Chi Yang or his subordinates.

Even if his subordinates drank it, he would remember it.

she had to build a good relationship with chi yang first and let him accept her. then, the pei family and nangong nuannuan would not be a problem anymore.

Thinking of this, Zhou ruxue hurriedly got up from the ground and started thinking about what she should buy to make soup. Only then could soup taste good.

At this moment, at the board meeting of mingya international, canglan star was sitting in the Chairman's seat. He looked at the angry Gu Wanyan and Huang Yuhang with a calm expression. He was in a good mood.

Gu Wanyan and Huang Yuhang's left arms were secured with suspenders, but their other hands were not idle. Their palms were red from clapping.

Cang LAN star smiled and said to the Director of Finance, " "Get this done immediately."

However, the Chief Financial Officer had been replaced by Huang tianyun's people, so he was in a difficult position and didn't want to listen to the words of planet Cang LAN.

you're the Chief Financial Officer. You have to listen to the chairman. You have to do whatever the chairman asks you to do.

"The chairman is Huang tianyun. He can't come now, so of course I have to listen to Madam and young master."

Canglan star sneered, "it's a pity that your wife and young master don't have any shares in mingya international, so you can't listen." Also, your Chairman is now in the detention center. If you have a way to get the Chairman's signature and seal before the end of the meeting, we don't have to donate this money. However, I hold the most shares at the moment, so I'll be acting as the chairman to make the decision. does anyone have any objections?"

"No objections!"

"no objections!"

"I agree!"

"I agree!"

.....

Canglan star nodded. then do as I say. If director yang is not willing to transfer the money, you can give up the position of Financial Director. The finance staff of mingya International will transfer the money.

"No! I said no!" Gu Wanyan slammed her hand on the table again and scolded angrily, " "you said i don't have the right to make decisions, do you? The chairman of mingya international was originally your mother. If there's anything, let your mother say it!"

Cang LAN star smiled, "my mom has already transferred the shares to me." so now, i have the final say."

" what a joke. you're not even 18 years old yet. what right do you have to own the shares? "

"I turned 18 some time ago. Are you going to give me a birthday present?"

Canglan star laughed like a hooligan, which was annoying to Gu Wanyan and Huang Yuhang.

Chapter 2467

2467 Donation (1)

"Even if you want to make a donation, you don't have to donate 20 million! Mingya international is poor to begin with. Don't tell me the shareholders won't have any objections if you donate 20 million?"

"No, I didn't,"

"No, I didn't,"

we don't have any. We'll follow the Chairman's arrangements.

the directors shook their heads.

This was because the earthquake was the largest one in Kamino.

Kamino was not located on an earthquake belt, so it had only experienced two earthquakes since ancient times. Therefore, in the face of this sudden disaster, life seemed particularly fragile. However,

love was boundless. This time, whether it was the country, enterprises, or individuals, they all gave their best. Coupled with the media's exaggeration, everyone had the idea of doing their best for the people in the disaster.

Therefore, Gu Wanyan had originally planned to stir up unhappiness between the Board of Directors and Cang LAN star, but who knew that everyone's answer would be so angry.

"Alright, we'll transfer the 20 million Yuan. Let's move on to the next topic."

"Who allowed you to transfer the 20 million?"

Just as the decision was made, Huang tianyun suddenly walked in with a gloomy face.

At this moment, he was still wearing the clothes he had worn when he was sent to the detention center a few days ago. He did not even have time to return home when he received Gu Wanyan's message, so he rushed over.

Now that the Huang family was not doing well, he did not even want to donate 2 million, let alone 20 million.

Looking at his son, who was sitting opposite him like a ruffian, Huang tianyun was filled with anger. He had actually caused him to stay in the guardhouse for so many days. It was simply too hateful.

Canglan star didn't expect Huang tianyun, who was at the end of his life, to come out of the guard post so quickly. His face also sank.

all the directors and I think that we should donate to the disaster area. Why, Chairman Huang? do you think that our company should not donate to the disaster area? "

"Donating is a personal act. Our company already has many artistes, don't tell me they won't donate? Since these celebrities were the company's artistes, their actions represented the company's actions. The company was already on the rise, so why would the company need to donate more after the artiste had donated? No wonder mingya international didn't develop in the hands of you and your son for so many years. Canglan star, the company belongs to everyone, not you alone. Since you have become a real director, you should be more sensible. We should always consider the big picture."

isn't the overall situation that the people in the disaster area are in need of everyone's support? "

"Bullshit!" " shut up! " huang tianyun shouted angrily and slammed his hand on the table. " that's for the country, not the company. "The company's main concern is how we can spend less money and earn more. As for the disaster victims, they are managed by the Internal Affairs Bureau, the general Administration of warfare, and the country. What does it have to do with us? Why do you have to go and join in the fun? You're just a small management company that can't even be considered rich. What right do you have to donate the amount of a third-rate rich family?"

"because i have a better conscience than you. "I won't get someone pregnant and run away with the woman's money when she's sick. I won't go against my conscience and cheat just to earn more. I also won't think that caring for the people in the disaster area is only a matter for the country. Chairman Huang, the heavens are watching us!"

the gods are watching. Your Huang group is about to be gone, and you still don't understand this? "

"Cang LAN star, How dare you! I've been tolerating you for a long time! Is this how a son should speak to his father?"

Huang Yuhang, who had been weak from the start, now had Huang tianyun's support. He slammed the table and angrily rebuked Cang LAN star.

Cang LAN star laughed coldly, "in my eyes, he's just a fart .."

"Cang LAN star!" "I'm the chairman of the company!" Huang tianyun shouted, "I have the final say in everything in mingya group!"

"Tsk, tsk, you're really amazing. The Huang group was destroyed by you, and now you're here to cause trouble for mingya group. Chairman, you're so impressive."

A pleasant male voice suddenly sounded from outside the door.

everyone turned to look at the door and saw nangong zheng wearing a gray-blue casual suit and a pair of gray-blue casual shoes. he was standing at the door of the mingya international conference room with a smile on his face.

Huang tianyun looked at the man in front of him in a daze, and he instantly felt uncomfortable.

Gu shengyan also stood up at this moment and looked at the man at the door with a face full of fear. Before Nangong Zheng could say anything, Gu shengyan had already started crying.

"Chairman Nangong, Yingluo, please let our family go! Our Huang family has never offended the Nangong family, so why must you exterminate us?"

Back then, Gu Mingzhe mistook the fish eye for a Pearl and let the real pearl be covered in dust. But the main culprit wasn't our Huang family! Even if they did something wrong, it was the Gu family's business and Gu Mingzhe's business! I'll f * ck you!"

"So your surname isn't gu?"

Gu Yuyan:

"If there are benefits, then tie yourself to the Gu family. If there are no benefits, then kick them away. When there were benefits, Gu Mingzhe was your favorite nephew. Now that there are no benefits and the Gu family has gone bankrupt, I don't see you helping them at all. At least on this point, Chairman Huang is not bad. At least he didn't divorce you and protected himself."

Gu Hongyan's beautiful eyes were wide open as she looked at Nangong Zheng in disbelief. She never thought that someone like Nangong Zheng would say something like that.

By saying this, he was forcing Huang tianyun to divorce her!

When the Gu family was in trouble, the Huang family also started to go downhill quickly. She had to spend a long time to convince Huang tianyun to come over. During that period of time, she had been beaten up a lot at home.

Now, she finally remembered that there was still mingya international on canglan star. In addition, canglan star and Cang mingya's attitude towards Huang tianyun had always been bad, so she was able to safely transfer Huang tianyun's anger towards her and Huang Yuhan.

She saw that Huang tianyun had already transferred all his anger to canglan star. He had also promised her that if mingya international was suppressed, he would take all his assets.

In the end, Nangong Zheng came looking for him.

Not only did he come, but he also dissed her the moment he opened his mouth.

Not only did he scold her the moment he opened his mouth, but he also pushed her to her death!

"You shut up! If it wasn't for your Nangong family, would our Huang family and Gu family be like this today? The Gu family didn't do anything to the Nangong family, nor did they do anything to Nangong Nuannuan. Why can't you see the Huang family and the Gu family doing well? We're also victims. If we weren't deceived by the Zhong family, we wouldn't have thought that Zhong Yingying was a daughter of the Nangong family. But can you blame us for this?"

Chapter 2469

2469 Bringing light to my humble dwelling (3)

"did we not get scammed? We've been deceived, and we're already so pitiful. Why do you still want to exterminate us?"

"Does the reason that I don't like you count?"

gu hongyan was at a loss for words after hearing nangong zheng's words. she had a look of disbelief on her face.

"You're so silly!"

"Shut up!"

Gu Hongyan was about to say something, but Huang tianyun stopped her.

It was all thanks to the Nangong family that their Huang family ended up in such a state. however, not only did this stupid woman not take the opportunity to apologize to nangong zheng and win his favor, she even went to question him.

This b * tch, why did he have eight lifetimes of bad luck to marry her?

Huang tianyun immediately smiled and walked in front of Nangong Zheng. He bowed and said,"Chairman Nangong, my wife is insensible and has offended you. I hope you can be magnanimous and not stoop to her level. I didn't know that Chairman Nangong would be coming and couldn't come

out to welcome you personally. I'm really sorry. It's an honor for mingya group to have you visit, your Wanwan."

"Alright, stop flattering me. Even I'm tired of listening to you."

"Zhenzhen, yes, yes, yes!" Huang tianyun quickly nodded and stopped talking.

However, he was very curious as to why Nangong Zheng would come to mingya international.

Even the Huang group and the Nangong family didn't get involved, let alone the mingya group.

Chairman Nangong, I wonder what instructions you have for mingya international today? "

Nangong Zheng looked at the fawning Huang tianyun. He finally understood why planet Cang LAN wanted him to come and support him.

So she walked to Cang LAN star, reached out and dragged the chair behind her to her side, and then sat down. He placed his hands on the armrests and crossed his legs. Then, he looked at Huang tianyun like a boss.

Cang LAN star's mouth was already slightly agape from the moment Nangong Zheng entered.

Didn't Nangong Zheng reject her when she asked for his help?

Why was he here now?

"Chairman Nangong, Nan Zhi Zhi, this is Nan Zhi."

Huang tianyun asked the question on Cang LAN star for her.

"Continue with the meeting and don't worry about me. I'm here to wait for Xingxing. He promised me that he would accompany me to eat hot pot at the newly opened restaurant."

Nangong Zheng didn't do anything. He just sat on the chair casually, but the feeling he gave off was like Mount Tai pressing down on them, making it hard for Huang tianyun and Gu Huiyan to breathe.

Huang tianyun's mouth formed an "O" shape as he looked at Cang LAN star in disbelief. He asked a question that almost made his heart roar, Xingxing, you're friends with Chairman Nangong? "

Uncle Nangong didn't have any dates with her, but at this moment, Cang LAN star knew that uncle Nangong must have come to support her.

Since that's the case, Cang LAN star would definitely not waste this opportunity for the uncle to back her up. She asked back, "What does it have to do with you whether we're friends or not?"

cang lan star's words caused huang tianyun to choke.

He saw the disgust in his son's eyes, and then he looked at Huang Yuhang, who was looking at Nangong Zheng with eyes full of desire. Huang tianyun suddenly felt that although they were both 18 years old, there was no place on canglan planet that was better than Huang Yuhang.

Whether it was appearance, temperament, education or control of the company, Cang LAN star was better.

Chapter 2470

2470 I'm your father (4)

Oh, except for his height.

Cang LAN star was only 170 centimeters tall, not even 172 centimeters. Huang Yuhang, on the other hand, was 180 centimeters tall.

But what's the point of being so tall? Did he look that capable to manage a company well? Did he look that capable to be friends with Nangong Zheng?

Suddenly, Huang tianyun began to regret being so cold to Cang LAN star.

Huang tianyun was insulted by planet Cang LAN in front of Nangong Zheng. This was a very embarrassing matter for Huang tianyun. However, this no longer existed.

Because he suddenly thought, since Cang LAN star was Nangong Zheng's friend, then he was the Father of Nangong Zheng's friend.

Nangong Zheng shouldn't suppress the Huang family anymore for the sake of his friend's father, right?

As long as Nangong Zheng was willing to show goodwill to the Huang family, the other organizations and aristocratic families would definitely take advantage of the situation.

Even if the Huang family couldn't return to their former strength as a second-rate wealthy class, it would only be a matter of time before they became a third-rate wealthy class again!

Therefore, after being insulted by Cang LAN star, Huang tianyun was not angry. Instead, he was very happy. He said, "You child, why do you always talk to adults like this? I'm still your father, you Yingluo!"

"Chairman Huang, can we talk about it? Those who don't know better might think that you've been kicked in the head by a donkey. My surname is Cang. It was my mother's naivety that let your tadpole run around. Our relationship is only that. Not only that, but you're now occupying my company like a powerful force and snatching my position as the chairman. why? Do all the people who are defeated by you have to acknowledge you as their father?"

Huang tianyun:

"Let's continue with the topic just now. The 20 million Yuan donation is mingya International's kind intention for the people in the disaster area. Although the artiste donated, it was the artiste's own.

the people in the disaster area have suffered such a great disaster. If an entertainment company like us can't do anything at this time, people will say that we don't know the hatred of our country after losing our daughter. We're still singing harem songs across the river. So, I think this money must be donated, and we should donate more. However, considering the company's own operating condition, 20 million was the minimum.

While you were making use of your artists to earn money and engage in entertainment, indulging in debauchery and feasting all day long, the members of the combat Department were digging up the

injured from the ruins. There was no such thing as peace in this world. It was just that there were people who carried the burden for us. He's done so much for us. Chairman Huang, tell us, why can't we just donate 20 million?"

20 million Yuan was really nothing to mingya international. However, because 20 million was a large sum of money, Huang tianyun didn't want to try to get more money.

So many entertainment companies and artistes across the country had donated their money.

They didn't dare to be a company or an ordinary person. There were too many people donating, and they didn't need to donate at all.

Therefore, Huang tianyun felt that he should not donate the 20 million if he could and use it for himself.

However, his son had become friends with Nangong Zheng. He couldn't offend his son's friend for a mere 20 million, right?

"Xingxing, now that you've put it this way, dad thinks it makes sense. I used to think that 20 million was a huge sum for mingya international. Now that the Huang family is in a difficult time, we should save as much as we can. But now that you've said it, I think it makes sense. Alright, we'll do as you say."
