### [My Sweet Physician Wife Calls The Shots](#)

#### Chapter 2511

2511 Chi Yang is seriously injured (2)

Just as he was about to ask someone to put the depth detector in to probe Chi Yang and the others 'situation to the maximum, he heard Nangong Nuannuan's voice from the helicopter.

His sister had always been a lady.

That was what Nangong Jin and all the other brothers in the Nangong family thought.

No matter how strong Nangong Nuannuan was, she was still a lady. this was the first time nangong jin had heard nangong nuannuan yell.

Therefore, Nangong Jin quickly looked at the two cranes beside him and was about to stop them when Nangong Nuannuan's roar was heard again.

He had already seen the driver of the crane.

he had clearly heard nangong nuannuan's roar, but he completely ignored her and continued to drag another building.

"Stop!" Nangong Jin immediately shouted. Stop!"

The soldiers from the combat Department saw this and immediately surrounded him.

the driver of the crane still didn't realize that what he was doing was killing the sun below and was still pulling hard.

However, he didn't know that every time he pulled, the entire chain of buildings below him would shake.

Although the entire house had collapsed, the current house was no longer made of brick and concrete, but a frame structure. So even if it collapsed, the frames and connections between the houses were still there, and a slight change would really affect the whole.

The steel bar was originally inserted into Chi Yang's shoulder. When the crane on top pulled it forcefully, some places loosened. Once it loosened, more buildings fell on Chi Yang's shoulder.

Chi Yang had been supporting the entire collapsed building with his hands for more than two hours. In addition to his injuries, his body was seriously exhausted. He was aware of what was happening above, but at this moment, it was as if he had taken root and sprouted in the same place, not moving at all. He could sense the danger from above, but he also knew that he couldn't move even if he died.

Because the balance below had been formed, many people below had been injured and could no longer bear the torment. Once he moved, the balance would be disrupted, and some things above would fall from the huge gap.

Even if a board were to fall, it was not something an ordinary person could withstand.

Therefore, when he saw the huge commotion above, Chi Yang knew that he was in trouble. However, he still didn't move.

Ning wenhao saw that something was wrong, so he activated all the power in his body to help his boss raise the ceiling a little.

It was unknown which idiot had made such a big movement above. The force that was already so heavy that it made people doubt their lives suddenly pressed down again, and the entire ceiling sank a few centimeters in an instant.

"Boss!"

Ning Wenhao suddenly let out a loud cry. His eyes were red as he looked at Chi Yang, who was groaning in pain.

Blood gushed out, and the thick steel bar stabbed deeper into his shoulder.

Nangong Nuannuan's eyes almost popped out of their sockets. Just a little bit more!

The steel bar, which was originally 7 cm away from piercing the heart, was now only 1 cm.

And all of this was the fault of the idiot on the crane.

Nangong Nuannuan was thoroughly enraged.

In fact, Nangong Jin was already furious when he saw the driver ordering him around. He immediately ordered his men to arrest the driver who had violated the rules.

Just as the soldiers from the combat service department went over, Nangong Nuannuan opened the cabin door and jumped out to the pilot's surprise.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2512**

##### 2512 The Furious Nuannuan (3)

Looking at the height of more than ten meters,

However, Nangong Nuannuan was able to jump from the cabin to the crane without any difficulty. In the shock and panic of the other party, he pulled the other party out and threw him to the ground.

After she entered, she immediately closed all the valves of the crane before jumping out.

at this time, the driver of the crane had been caught by the soldiers of the combat department. the members of the flying eagle team had also rushed over from all directions after seeing their sister-in-law.

When they arrived, they saw Nangong Nuannuan mercilessly slap the crane driver's face. His mouth was crooked from the slap.

"Are you f \* cking crazy? why did you hit me? Is there something wrong with your brain?"

"I told you to stop. What are you doing? I told you to stop, why didn't you stop me? I told you to stop twice, why did you still use brute force to drag that building? Why didn't you stop? Why didn't you stop? Why didn't you stop?"

Nangong Nuannuan was like a Shrew at that moment, punching and kicking the driver. Even though she had held back, the driver's face was still bruised and bleeding from his mouth and nose.

"Nuannuan!"

seeing this, nangong jin immediately walked up and hugged the excited nangong nuannuan, pressing her into his arms.

However, Nangong Nuannuan was completely unwilling. She kept shouting, " "Make them stop! Stop! All of you stop!"

"They've stopped. They've all stopped." Nangong Jin quickly said, "Nuannuan, I'll leave all the commands here to you." I'll leave it all to you! I'll leave everything to you!"

When Nangong Nuannuan heard that all the excavators and cranes had stopped, she couldn't take it anymore and buried herself in Nangong Jin's chest, sobbing.

However, she didn't cry for long. After two seconds, she left Nangong Jin's arms as soon as her tears fell.

Before she left, she even wiped her red eyes. When she saw the driver, she still couldn't help but kick him.

When the members of Flying Eagle saw this, they were afraid that something would happen to their Captain. They quickly asked, " "Sis-in-law, did something happen to Captain? how is he?"

Because Nangong Nuannuan had introduced girlfriends to the single men of Flying Eagle, many of them had relied on Nangong Nuannuan to get out of their single life.

Therefore, when Nangong Nuannuan challenged so many of them and blew up so many cars that night, everyone knew that their sister-in-law was not an ordinary person.

Therefore, they had placed all their hopes on sister-in-law.

"He's in a very dangerous situation and can't take any more turbulence. If you do it again like just now, just one more time and he will die."

the eyes of fei ying's brothers turned red at once.

The captain was not only their Captain, but also the spiritual leader of the Eagle Clan.

"ha, you say he's going to die and he's going to die? who do you think you are? On what basis do you have the final say?"

"shut up!"

Nangong Nuannuan flew into a rage. She immediately pulled out a dagger from her waist and stabbed it into the ground less than a millimeter away from the driver's hand. The driver could feel the coldness of the dagger.

The driver didn't even know how Nangong Nuannuan had done it.

At first, he thought that this girl was just beautiful and had a good family background, which was why she was so arrogant in front of him. But now, looking at the dagger in front of him, the driver immediately shut up.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2513**

2513 The five million that flew away

nangong nuannuan asked nangong jin if the remaining drivers were reliable, and if there were people from the combat services department who could operate the cranes and excavators.

this was because she was only one centimeter away from brother chiyang's heart. if the difference was more than one centimeter, brother chiyang's heart would be damaged.

Once her heart was damaged, even if she had the power to turn the situation around, it would not work.

At this moment, the helicopter was already parked in the open space. The moment Nangong Nuannuan had jumped out of the plane and pulled the motorcycle out with one hand, the pilot had already prostrated himself in admiration. at this moment, he was standing beside nangong nuannuan and was at her beck and call.

After Nangong Jin handed over the command to Nangong Nuannuan, Nangong Nuannuan immediately made Nangong Jin the chief Warden and was responsible for gathering the manpower and vehicles she needed.

The drivers of the excavators and cranes were under Nangong Nuannuan's command.

At first, everyone was dissatisfied with Nangong Nuannuan's attitude. However, after finding out that the Lieutenant General of the Eagle Special Forces who had been buried a few hours ago was her husband, Nangong Nuannuan promised that as long as they followed her orders and rescued the people inside, she would give each of them a reward of five million.

These were all coolies. After the earthquake, they had been transferred by the company to help save people. Some of them did their best to save people, while others were just following orders. They had been working overtime for days and had a stomach full of resentment, just like the driver who had been beaten up by Nangong Nuannuan.

However, after hearing that each person would be paid 5 million, everyone became excited.

As for the driver who had been beaten up by Nangong Nuannuan, after everyone was in their positions, he was actually thick-skinned enough to continue working.

If he had known that this woman was so rich, he would have listened to her and helped her dig out her husband, which would give him five million Yuan. He would not have been crazy to fight with money.

But,

This person had obviously been blacklisted by Nangong Nuannuan forever.

It was good that Chi Yang was fine.

If anything happens to Chi Yang, hehe hehe

She, Nangong Nuannuan, had never been a good person anyway. If big brother chiyang really sacrificed himself because of this person's stupidity, then he and his family would be buried with big brother chiyang!

That's right!

She was such an unreasonable, vengeful, brutal, and bloodthirsty person.

Chi Yang was the most important person in her world. Whoever dared to touch him, she would touch them. Even if she had to go against the entire world, she would not be afraid.

Just as the man was about to climb into the car, he was pulled down by the Eagle members, who didn't allow him to touch the car.

This car was occupied by another driver who had been transferred over.

he could only watch helplessly as the 5 million disappeared from his sight.

He didn't even regret it this much when Nangong Nuannuan hit him earlier. However, at this moment, when he thought about how others were about to have 5 million Yuan that their entire family couldn't earn in a lifetime, he couldn't help but slap himself in the face in regret.

Nangong Nuannuan boarded the helicopter again and had it take off. She then had to re-observe the gravity points of all the buildings.

Her memory improved with the improvement of her ability. She had a photographic memory and x-ray vision. She could see the internal structure of every object, as well as the gravity points and fragile points. so, after walking around the building, he felt a little relieved. Nangong Nuannuan used her phone to take a photo of the entire building debris and some key areas. Then, she directly established a one-way communication with Nangong Jin's computer and sent the pictures she took to Nangong Jin.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2514**

##### 2514 Pushing up (1)

When Nangong Jin saw the picture Nangong Nuannuan sent him, he immediately used his powerful flashlight to light up one of the buildings. Nangong Nuannuan said through the loudspeaker on the helicopter, " excavator No. 3 will hold the side of this piece of construction waste with the inverted hook, crane No. 3 will lift this piece, and excavator No. 4 will dig out the red piece below.

due to nangong nuannuan's instructions and the experienced drivers of the excavators and cranes, everyone quickly moved the two huge buildings away according to nangong nuannuan's instructions.

Nangong Nuannuan immediately sent out the second photo, and Nangong Jin immediately followed her instructions and illuminated the seven pieces of construction debris with a strong light.

The seven pieces of construction slag were scattered in two places, which required the use of three cranes and five excavators. However, all the cranes and excavators had been numbered. Only the excavators and cranes that Nangong Nuannuan had mentioned would be moved. Otherwise, they would be waiting for orders.

soon, another seven large pieces of construction debris were dug out.

Although this seemed to be much slower than before, Nangong Jin knew that the current digging was the most effective.

fortunately, nuan nuan had come. otherwise, chi yang would have lost his life.

It should be known that it did not collapse to this extent at the beginning. There was clearly a path at that time, but after the people went down, there was no way to bring the injured back up. The excavators above wanted to dig a bigger hole for everyone to go in and out.

However, he didn't expect that he would dig into a lightning area. The building that was already on the verge of collapse completely collapsed, and Chi Yang was buried under it.

Nangong Nuannuan did not dare to slack off in directing the excavation below. An hour passed, and a lot of huge construction debris had been dug away. chi yang clearly felt a wave of relief.

The pressure from before was really too great. In addition to his injuries, he was almost unable to bear it.

However, after an hour, the pressure from above gradually decreased, and the steel bar that was almost piercing through his chest did not sink any further.

Taking advantage of this time, Chi Yang gathered some of the Qi in his body around his heart, allowing this Qi to protect his heart.

In addition, his recovery ability was powerful. Although the steel bar had pierced into his body, as long as it didn't go any deeper into his heart, he would be fine.

He could use his healing ability to quickly recover from his injuries.

Ning Wenhao, who was standing beside them, also felt the pressure on him lessen a little. His eyes gradually lit up.

"Boss, do you still have any strength? Let's put in some effort and push this ceiling up a little, how about it?"

Ning Wenhao knew about Chi Yang's injuries. He clenched his toes tightly, afraid that he would suddenly feel some gravity.

"alright," he said. Chi Yang agreed.

The steel bar was too close to his heart, so he had to keep it away from his heart.

Although it would be painful to pull out such a thick steel bar from his body, he couldn't care so much at the moment. His life was more important.

“Then boss, you must hold on, you must endure!”

“Yes.” “I’ll count to three, and we’ll push upwards,” Chi Yang replied.

“Alright,” he said.

“One, two, three!”

After Chi Yang finished counting, the ten-story building waste that ning Wenhao and he had worked together on was pushed up by three centimeters.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2515**

2515 repeated damage (2)

In just an instant, Chi Yang was in so much pain that he was sweating profusely. At first, Chi Yang wanted to pull out the steel bars that were stuck in his body. Unfortunately, on the one hand, the construction waste piled up on the top ten floors was too heavy. Even if the weight was not all on them, it was not easy to push these things up by even a centimeter.

On the other hand, he was too heavily injured and had lost too much blood. Because he had to hold on all the time, he could still feel the blood flowing out of his body uncontrollably even with his ability to protect his body. From time to time, it would cause Chi Yang to feel dizzy.

However, although it was only three centimeters away, it was still a little bit further from death.

The steel bar was too close to his heart. He thought he was going to die the moment the steel bar pierced him.

However,

Even though he was already an arrow at the end of its flight, the corners of Chi Yang’s lips couldn’t help but slightly curve up into a beautiful arc.

After pushing the ceiling up a little, ning Wenhao began to run out of energy.

At this moment, he was in despair.

He knew the situation of this building. After the whole building collapsed, even if there were people outside, the possibility of them being able to get out within an hour was very small.

After all, there were so many piles of construction debris on top.

However, Jian Jia didn’t have much energy left. He probably wouldn’t even be able to last half an hour, let alone an hour.

“Boss, do you think we’ll die down there?”

“What I said before is possible. However, I won’t do that now.”

“Why?”

“Your sister-in-law is here.”

“Yes. Ah?” Ning Wenhao’s eyes brightened, and he felt much better.

“how did you know?”

“I don’t know. I guessed.”

“How did you know? Tell me about it. ” He really needed some encouragement now.

“Our situation wasn’t that bad when we were trapped here before, but later on, because they dragged the construction debris without any rules, our situation became more and more difficult. However, in the past hour, they didn’t drag away any construction waste, and we didn’t get hurt a second time. Just now, I said that I wanted to push this ceiling up with you, and the construction on it stopped immediately. Who do you think can do that?”

Although Chi Yang had never told ning Wenhao about Nangong Nuannuan’s ability to see through objects, as Chi Yang’s trusted brothers, ning Wenhao and Xiao shenbin actually knew about Nangong Nuannuan’s ability.

The other party could see them and could clearly see the connection and gravity between the piles of building debris, which was why they had not suffered a second injury in the past hour.

It was also because of Nangong Nuannuan’s x-ray vision that she could see what they were saying. So, when they decided to push the ceiling up a little, the one at the top immediately stopped moving. When they completely lifted the ceiling, the focus of the construction debris above would change again. So now, the other party must be making a new plan.

On the plane, Nangong Nuannuan’s lips also curved up slightly. She knew that her brother chiyang was the best. He knew everything that she was thinking.

Seeing that Chi Yang and ning Wenhao had successfully lifted the ceiling, Nangong Nuannuan rushed into a new round of command.

Not to mention ning Wenhao, even brother chiyang’s physical strength was almost unable to hold on. She had to be faster.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2516**

2516 Physical exhaustion (3)

Senior, can you call Selina for me and ask her when the things I need will arrive? ”

“Alright,” he said. Wu Lingyun’s heart had already clenched into a ball. She didn’t understand why Nangong Nuannuan had brought her here, but she knew that she had a use for her.

So, Wu Lingyun called Selina immediately. On the other end of the phone, Selina said that the things were ready and on the way. She would be there in half an hour.

Wu Lingyun conveyed his words to Nangong Nuannuan, but she only nodded and said nothing more. She was completely focused on directing the cranes and excavators to move the construction debris.

As Nangong Nuannuan had promised them a reward of five million Yuan, the workers in charge of lifting the cranes were afraid that their men would die, so they were very careful. It could be said that they were highly focused on each operation.

At this time, it was more and more difficult to successfully bring up a huge piece of building debris. Sometimes, it even required several cranes and excavators to work together to dig up a piece of building debris.

However, they also realized that every time they thought they should take away the big one above, the other party would insist that they work together to take away the small one below, and then move to the side. It wasn't until they had gathered a lot of huge pieces of construction debris that they suddenly realized that the huge pile they had seen at the top was only the tip of the iceberg. Its true volume was buried under it. If it was forcefully dragged away, it was likely to cause a large area of collapse below.

The more they worked together, the more the drivers admired Nangong Nuannuan.

They had never seen someone who could control gravity to such a degree.

It was as if this pile of ten-story building debris was all under her control.

Nangong Nuannuan was already moving the construction debris away as fast as she could. However, the further down he went, the greater the impact on the second floor, and there was no way to speed up at all.

Below, Chi Yang and Ning Wenhao's physical strength was getting weaker and weaker.

After all, Ning Wenhao had just gained his power and was still in the early stage. Nangong Nuannuan could see that the power in Ning Wenhao's body was almost exhausted.

Although Chi Yang's ability had been upgraded, it was much stronger than Ning Wenhao's. However, Nangong Nuannuan realized that Chi Yang's special ability did not listen to her at all. Most of it went to help him with his injuries.

As if it had sensed the invasion of a foreign object, the ability had a strong hostility to the invasion of steel bars. Especially when Chi Yang lost too much blood, his physical strength became weaker due to the loss of a large amount of blood. More and more special ability cells gathered at the place where Chi Yang was injured, accumulating in his chest.

It had been pierced by a steel bar earlier, and there was a huge wound in its body. After these special abilities were accumulated here, even though Chi Yang was still using his strength, he felt that his blood flow had miraculously stopped.

However, with all his special ability cells running to treat his wounds, the pressure on Chi Yang's body would increase.

Ning Wenhao's physical strength couldn't take it anymore. Chi Yang was almost holding on alone, but it seemed that Chi Yang was also about to die. However, there were still nearly five floors above.

In an hour, she had only removed the height of the top five floors. In other words, it would take at least five hours.

## My Sweet Physician Wife Calls The Shots

### Chapter 2517

2517 what? 4

Chi Yang's body was getting weaker and weaker, and as his injuries developed, more and more special ability cells went on strike in order to protect his body.

The heavy pressure instantly caused the veins on Chi Yang's forehead to pop out.

Nangong Nuannuan had no other choice. She looked at Wu Lingyun and removed a ring from her neck. Then, she took out a bracelet worth hundreds of millions from her bag and gave it to Wu Lingyun. "Senior Sister, do me a favor. Find a way to send this to big brother chiyang."

Wu Lingyun looked at the ring and bracelet.

The ring was a man's ring, so she thought it should be Chi Yang's wedding ring. The bangle was a lady's, so she guessed that it was Chi Yang's gift to Nuannuan.

Wu Lingyun really hoped that he could help Nangong Nuan and chiyang, so he immediately nodded.

but I can only be in charge of the transportation. I don't know what to do.

nangong nuannuan gestured for wu lingyun to look at an object below and said, " "First, put these two things on the brick-red protrusion below."

"Alright," he said.

The two items were already on the list almost as soon as Wu Lingyun agreed. Although it was so expensive that ordinary people couldn't imagine it, it was too far away and the item was too small, so no one noticed it.

now, go through the gap. 30 centimeters to the left, 80 centimeters to the left, a little bit to the right, five centimeters to the left, three meters to the right, one meter to the right, 40 centimeters to the right, and keep going down.

Just like that, Nangong Nuannuan continued to send pictures of the construction slag being moved to the people below while she asked Wu Lingyun to send things over to Chi Yang.

There were some jade stones in her bag. They were things that she had randomly collected from the Nangong family's storage when she left.

However, although the Nangong family was very rich, no one had the hobby of accumulating Jade at home. Nangong Nuannuan felt that it was not enough even though she had collected almost everything.

So, before he left, he immediately asked Selina to bring over all the best jade stones in the Feng Luan Pavilion's warehouse.

At that time, she had thought that if brother chiyang was buried under the ground and had no energy left, she could ask Wu Lingyun to send these jades down.

After big brother chiyang was injured, the Jade stones could heal him and even increase his energy. As long as he had these jade stones, big brother chiyang would definitely be fine.

However, when they arrived, they discovered that the collapse was very serious. Especially the place where brother chiyang was buried, it was almost completely blocked by some gravel. There wasn't even a bigger passage.

Therefore, Nangong Nuannuan could only use this method to give brother chiyang something.

He could only hope that these jade bracelets were of high quality and would be of use to him.

Nangong Nuannuan paid attention to the gravity field while giving Wu Lingyun directions at the same time.

The two of them, one had x-ray vision and the other could transmit things through objects. It could be said that they had a tacit understanding. However, the only thing that made Nangong Nuannuan depressed was that this method of transmission was too slow.

She felt that her brother chiyang wouldn't be able to hold on for that long.

"nuannuan,"

"what?"

Although he felt that it was too busy to interrupt Nangong Nuannuan and that she could no longer multitask, Wu Lingyun still felt that it was necessary for her to tell Nangong Nuannuan her ability clearly to avoid any misunderstandings.

"If you know brother Chi's exact location, you don't have to go through so much trouble to tell me the route. If you can get his precise location and distance, I can directly send this thing to him."

What???

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2518**

2518 that was mine (1)

Nangong Nuannuan looked at Wu Lingyun in surprise, her eyes lighting up.

"As long as I tell you the location and distance, you can deliver it?" She didn't hear wrong, did she?

"Yes." Wu Lingyun knew that he had guessed correctly and smiled.

From her observations, Nangong Nuannuan had the ability to see through objects. Therefore, she would be perfect partners with a superpowered person like Nangong Nuannuan.

"alright, then i'll tell you. brother chiyang is now 60 degrees to the left of the ring. The straight line distance is 17.2 meters."

"Alright. there might be some deviations, so you have to be careful."

"Alright," he said. nangong nuannuan acknowledged and turned her gaze to the area around chi yang.

The moment she looked over, she immediately saw the jade pendant and ring not far from Chi Yang.

Because almost everyone was gathered in the same place, everyone was very close to Chi Yang, so the jade pendant and ring just happened to fall on the back of a woman's hand.

the woman's lips were dry and her eyes were dull. however, when she felt the cold touch on the back of her hand and saw clearly, her eyes instantly bloomed with an indescribable light.

Although it was a men's ring and not the kind full of diamonds, it was worth a lot, both in weight and shape. As for the bracelet, even though he couldn't see its color, he could tell that it was definitely not an ordinary item.

The woman was ecstatic. She immediately put the ring into her bag and prepared to put the bangle on her hand.

"That's mine."

other than commanding his men in the eagle team and holding up the sky for everyone, chi yang had never spoken to anyone in private.

Previously, this woman thought that Chi Yang was very handsome and wanted to talk to him. However, Chi Yang ignored her. But at this moment, Chi Yang suddenly spoke.

The others didn't know what Chi Yang was talking about, but this woman clearly knew.

But she pretended not to hear him.

She knew the members of the Eagle Special Forces. They were a very special Combat Team in Kamino. Each and every one of them was a top-tier Special Forces member. Ordinary and medium-level Special Forces members were simply unable to enter this team.

Furthermore, the men in this team were different from the other members of the combat Department. The Special Forces members in this team could take on jobs around the world during their free time. They were equivalent to international mercenaries.

Therefore, all the men in Eagle were capable and rich.

After the woman found out that this group of people were Special Forces members, she had always wanted to hook one randomly. After all, as long as she caught one, she would not have to worry about food and clothing for the rest of her life.

However, after knowing that the man in front of her was the commander of the flying Eagles, the woman had been trying to get close to Chi Yang.

After all, not everyone had the chance to meet the Supreme Commander by chance. She felt that this was a golden opportunity given to her by the heavens.

However, she had just unfurled the net to catch Chi Yang, which caused the dissatisfaction of all the members of the Eagle team and the trapped crowd. In order to prevent these people from isolating her and not saving her, she did not seduce Chi Yang again.

At this moment, Chi Yang finally spoke to her, but what did he say? He actually said that this thing was his?

As the Flying Eagle's Supreme Commander, did he still have any sense of shame?

The woman raised her head to look at Chi Yang. Even in the dark, she knew that this officer was handsome to a certain extent. It was the kind of appearance that no woman could resist.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2519**

2519 I didn't steal it (2)

She also knew that it would be difficult for a woman who sold alcohol to make such an officer like her.

Rather than losing both money and people, it was better to guard his own property well.

"You're talking to me?" When the woman saw Chi Yang staring at her, she still couldn't stand his gaze.

"That's right. That thing is mine." Chi Yang looked at the item that had suddenly appeared and immediately recognized it as the ring that he had prepared to propose to Nuannuan. And this was his.

The woman was depressed. Although this thing was not hers, Chi Yang was so far away from her, how could it be his?

"Officer, this is mine."

"This is mine. It's a man's ring, and I'm planning to propose to my fiancée. My fiancée's name is engraved on it. Use a 30x magnifying glass to look at it, and our vows are engraved on it."

The woman swallowed her saliva. She didn't expect the ring to have so many marks.

However, she would not admit it now. since it had already fallen in front of her, it was hers.

"Oh, then I'm sorry. This ring is indeed mine. I bought it for my boyfriend. My boyfriend bought this for me. You can't possibly say that this bangle belongs to your girlfriend, right? If it's really yours, why would it be in my hands?"

"How can you be like this? If our Supreme Commander didn't come down to save you, would we be trapped here? if it weren't for our supreme commander, would you still be alive? Our Commander-in-Chief said that this is his, so it must be his. He's a Lieutenant General, how could he snatch something from you?"

"Hurry up and return the things to our Captain!"

"How can you be like this? The Flying Eagle's Commander-in-Chief personally came down to save us. Not only Do you not know how to repay a favor, you even stole their things."

"that's right, simply shameless!"

When everyone heard Chi Yang's words, they all began to criticize the woman.

In the face of a great disaster, everyone would reveal their true nature. This was already a common occurrence for the members of Flying Eagle. After all, they had seen him risking his life to save them, but when danger really came, the other party pushed them out to block the disaster.

They were glad that most of the people here were kind.

When the woman heard that everyone was on Chi Yang's side, she was instantly indignant. She roared, "What's the meaning of this? What right do you have to say that I stole his things? I've been sitting here all this time, how could I have stolen his things? He's always been so far away from me, and I've never even gotten close to him. Why did you guys say that it's his without even using your brains?"

Chi Yang's eyes were very dark. He looked deeply at the woman and was about to use his special ability to roll up the ring and bracelet, but the woman suddenly let out a scream.

Through the dim light on the helmet of one of the Eagle Special combat soldiers, everyone saw that the woman's fingers seemed to be pulled by a force, and her clenched fingers were pulled apart one by one.

After that, the ring and bracelet flew out of her palm.

The ring flew all the way to Chi Yang's raised left hand, and touched his ring finger.

Chi Yang's heart skipped a beat. He moved his ring finger away from the ceiling and the ring slowly slid into his finger.

Everyone looked at this scene in shock, each and every one of them so shocked that they could not speak.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2520**

2520 Where did the Jade come from (3)

The woman's eyes were about to pop out.

"The bangle has already chosen its owner. You can't shamelessly say that this thing is yours, right?"

Woman:

The ring was already on his finger, and Chi Yang felt as if his heart was burning with warmth. The strength that he was losing also instantly became much more reinvigorated.

At that moment, the bangle was pressed tightly against his heart.

Although the bangle was small, the spiritual Qi inside was abundant. At this moment, he was losing a large amount of power. Having such a bracelet would be of great help to him.

Chi Yang knew that his Nuannuan was not the only person on top. Wu Lingyun was also there.

Although Feng Shengxuan had a similar ability to him, he couldn't move objects out of thin air. Hence, Chi Yang had guessed that it must have been his smart Nuannuan who had brought Wu Lingyun along.

His Nuannuan was the smartest girl in the world.

The red sun Spirit Qi in the bracelet was quickly absorbed. Nangong Nuannuan could see that the number of special ability cells in Chi Yang's body had increased. These new special ability cells had clearly helped Chi Yang recover a little.

However, it was only a small amount.

The next moment, a huge King's Green appeared in front of everyone, floating right beside Chi Yang.

Once Wu Lingyun knew the exact location, he could deliver the items without any errors.

after chi yang had absorbed the bracelet's spiritual power, nangong nuannuan had asked wu lingyun to keep the bracelet. After that, there was another huge King's Green.

With this King's Green, Chi Yang's complexion improved significantly. The better the quality of the Jade, the more abundant the spiritual energy inside.

After absorbing almost all the spiritual energy of the king's Green, Chi Yang's strength had already recovered by half.

Seeing that Chi Yang's ability cells had stopped increasing, Nangong Nuannuan asked Wu Lingyun to keep the king's Green and gave him another violet.

The group of people who were trapped in the basement stared in bewilderment as one Supreme-grade Jade after another appeared in front of Chi Yang, floating beside him. Then, it disappeared.

No one knew what was going on, but they could feel that the Supreme Commander, who had immense strength, was looking much better than before.

A steady stream of jade stones appeared, allowing Chi Yang to absorb enough spiritual energy and produce more special ability cells.

most of the ability cells gathered around the wound and quickly repaired it, constantly corroding the steel bars that had pierced into his body. The rest of the special ability cells entered the body's circulation, not filling up Chi Yang's physical strength.

Because there was a limited amount of Jade in the bag, after Chi Yang had absorbed the spiritual energy of a few pieces of jade, there was no more. Selina hadn't arrived yet.

However, Nangong Nuannuan knew that her brother chiyang could hold on for a little longer.

with the nourishment of the jade stones, chi yang's condition was obviously much better than before. ning wenhao was surprised, but there were too many people here, so he didn't ask.

"Supreme Commander, what were you doing just now? Where did all this Jade come from? Where did the Jade go? Did you eat it?"

The woman's eyes were wide open. Jade was her favorite in her life. Although she couldn't afford it, she had a certain level of knowledge about Jade. She had clearly seen through the light of the flying Eagles 'team members that the Jade in front of the Commander-in-Chief was the best Jade in the world. More importantly, there were so many of them.
