Chapter 2521

2521 Why Don't You Just Die (4)

With so much top-grade Jade, how many top-grade jewelry would be made? How much would it be worth?

Based on her visual estimation, the Jade could be used to make hundreds of millions of jewelry. This is simply ...

The woman couldn't help but swallow a mouthful of saliva. Her eyes were full of greed.

The other people were also surprised and found it strange, but since he could withstand such a heavy cement and steel ceiling, they wouldn't be surprised or find it unacceptable even if they were told that this officer lived on Jade.

"Did you eat those pieces of jade? Can you make them appear again?"

Chi Yang glanced at the woman and ignored her.

Although it was his and Eagle's duty to protect the Kamino citizens, protecting them did not mean that he had to speak to them. It did not mean that they were his God.

In the face of Chi Yang's indifference, the woman did not give up and said, "How did you manage to conjure up those jades? Can you make more Jade out of thin air?"

.....

the woman still refused to give up and continued, "Supreme Commander, you see, it's also fate that we're trapped here together. Since you've used your life to save us, you should save us to the end and help us to the end. Can you make some more Jade out of it?"

Seeing that the other party was still unmoved, the woman, who was already dazzled by the hundreds of millions of items, said, "the earthquake this time was so terrible that our homes were destroyed a long time ago. our family members are gone. we have no money or savings. If we do this, even if we make it out alive, what's the difference between us and the dead? Even if we can get out, we're still refugees who can only rely on the little subsidies given by the country to live. Supreme Commander, since you have the ability to turn into Jade, why can't you help us?"

"Shut up!"

One of the Eagle team members couldn't take it anymore and scolded the woman, "If you think that it's not enough for us to save your life, then you can just die now. It will save us the effort to save you."

"Hey, what do you mean by this? Is this something you soldiers should say? wasn't the war department's responsibility to protect the lives and property of the people? Do you know what life and property safety is? When we encounter danger, not only must we protect our lives, but we must also

protect our property. Now that we have lost all our assets and we didn't ask you for compensation, what's wrong with asking him to make some Jade for us and sell it? Shouldn't I?"

"You're so silly!"

The Eagle Special combat officer was so angry at this woman that he almost hit her. Just as he was about to retort, Chi Yang called out to him.

"Blackie,"

"Captain, this woman is asking for a beating. Why can't I say it?" The members of the Eagle squad were so angry that they wanted to vomit blood.

Did they owe her something? Why did he have to risk his life to save her and even make her Jade?

However, Chi Yang wasn't angry at all. He said to his Flying Eagle Special Forces, "Don't you think it's lowering your status to talk to her? Do you really want to fight with a crazy woman who scolded you?"

"That's true." The members of the Eagle squad were very happy to see that the woman had been criticized.

Crazy woman:

"Some people just don't know their own worth. Even if he could turn it into Jade, why should he turn it into Jade for you? Who Do You Think You Are? They saved your life, but they still want to promote you and make you rich. Otherwise, do you feel that there is no meaning in living? hehe, then you might as well just die."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2522

2522 Hand slipped (1)

"This is the first time I've heard someone explain 'the safety of people's lives and property' in such a way. a talent!"

"What are you talking about? I'm not asking you to change. Let everyone say, is what I said wrong? Since this officer can make Jade out of thin air, what's the problem with asking him to make some Jade for us? Since he had already been a good person, he should be a good person to the end! What do you mean by saving us and then making us poor?"

This was a low-end bar, and the people who came in were not of high class. After seeing the red sun Jade, two people also became greedy.

"actually, she's right. We've lost our money, bank cards, and ID cards, and we don't have any savings at home. If we go out, we'll be at the bottom of society. If that's the case, why should we go out? Sir, since you have a way to make Jade, then please make some for us. As long as you can make an Emerald as big as the one you just made, we won't tell anyone about you."

"shameless!" Someone in the crowd couldn't help but curse.

"How can this be shameless? Our Yingluo ..."

Suddenly, Chi Yang's hand loosened a little, and the cement debris that had been firmly held above his head instantly poured down.

A deafening sound was heard in the narrow space of the second underground floor.

the person who was talking was so scared that he screamed.

"What's going on?"

"What's wrong?"

"My hand slipped." Chi Yang's answer was simple and brutal.

Everyone was silent.

"I'm also feeling very tired and I can't hold on much longer. Since you guys feel that there's no meaning in living, I'm preparing to relieve some of the pressure."

Everyone had heard Chi Yang's threat clearly. This time, their faces had already turned pale from fear. The people who had said that they would rather die than live in poverty were now as silent as cicadas in winter.

Most of the remaining people still had a more upright view of the world. Looking at these people who didn't know the immensity of heaven and earth and didn't know how to be grateful and content, some people couldn't help but laugh.

"Didn't you think that there was no point in living? You can go to hell!"

"poverty is too scary, and the construction debris up there is too heavy. why don't we send you off with our eyes? "

After that, no one spoke again. In the entire confined space, only the sound of everyone's breathing could be heard.

Because a lot of things fell down, the fresh air down there was once again filled with dust, making everyone very uncomfortable. However, he also felt Chi Yang's unyielding attitude.

Although he was from the combat Department, he was still the commander of the flying Eagles.

The Eagle didn't belong to the general Administration of warfare, it only listened to the orders of the president. Each and every one of them was the most powerful character in Flying Eagle.

Therefore, when they thought of the identity of the person in front of them, everyone kept their mouths shut.

You can't just turn around and complain about someone else after they risked their lives to save you, right?

However, when he thought of the woman and the other two men, he didn't intend to let them go so easily.

Everything could wait until they got out of here.

They didn't believe that the other party would let them reveal such a big secret. As long as he didn't want them to tell anyone, he had to pay them hush money.

Although they knew that this was not very loyal, they would not have much interaction in the future anyway, so what was the point of being so loyal? Wasn't the purpose of these people's existence for the sake of the people?

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2523

2523 Destruction (2)

The people who had not been moved by the disaster relief efforts of the outside world and were buried under the ruins from the beginning always felt that the earthquake had come too suddenly and the destruction of their lives was too complete. From the beginning, the world owed them.

As time passed, the construction debris at the back was obviously harder to clean up than the ones at the front. Even though the drivers had been listening to Nangong Nuannuan's instructions very carefully, they still couldn't help but make mistakes.

Fortunately, this mistake did not cause too much damage to Chi Yang.

Even though the amount of debris pressing down on Chi Yang's head was decreasing, he was still injured. His Esper ability was constantly being lost, and his physical strength was constantly decreasing.

The steel bar that was already in his shoulder had moved up by another two centimeters, but during that mistake, the steel bar had pierced in by another one centimeter. Currently, the steel bar was only two centimeters away from his heart.

Just when Nangong Nuannuan was worried that brother chiyang might not be able to hold on any longer, Selina finally arrived.

Selina had brought a variety of Jade, but all of them were the best in the Phoenix Court.

Nangong Nuannuan quickly asked Wu Lingyun to help her send the Imperial Jade in.

Ning Wenhao had long since run out of strength, and Chi Yang was the only one left who was still struggling to hold on. Just when everyone saw that the commander's hands, body, and legs were all trembling, and they were afraid that if he couldn't hold on any longer, the thing above his head would come crashing down and crush everyone to death, another huge Jade appeared in front of Chi Yang.

The king's Green was an extremely rare item in the world, but it had appeared in front of everyone a few times, and each time it was in such a large piece. It was impossible to say that they were not tempted.

However, for people with good three views, the key was to save their lives at this time. These jadeite were just worldly possessions. Besides, Flying Eagle's commander saved your life. What more do you want?

However, for some people, when this kind of top-grade Jade appeared again, and they could only look at it but not take it, it was simply a blow to their hearts.

The few of them stared at the Jade with green light in their eyes.

Of course, they didn't know that Chi Yang was absorbing the spiritual energy in the Jade. They only knew that the commander of the Flying Eagle was very strange. Every time the Jade appeared in front of him, it would disappear soon after.

Everyone watched as several top-grade high-ice jades appeared and disappeared in front of Chi Yang, and their hearts itched.

Because she had held on for too long, and because chiyang's injuries were getting worse, Nangong Nuannuan realized that even if she sent the Jade to her brother chiyang, it wouldn't be of much use.

Because once this spirit power was absorbed, it would automatically gather towards the wound, and not spread throughout his body to increase his physical strength.

Ability cells had a strong healing effect on internal injuries, but not on external injuries.

Nangong Nuannuan observed that although these special ability cells were all concentrated on brother chiyang's wound, they were simply too weak when compared to healing his internal injuries.

In the beginning, when the special ability cells had gathered around the wound, Nangong Nuannuan had thought that they would be able to flatten or even melt the steel bar, and then heal big brother chiyang's wound. In the end, even with so many cells gathered there, it didn't have much of an effect.

The key was that she could see that her brother chiyang was already trying to mobilize his special ability cells to the maximum extent to all parts of his body.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2524

2524 On the verge of death (3)

However, those special ability cells seemed to have gone stupid and completely ignored Chi Yang's body's commands. No matter how much Jade she piled up, she couldn't make these ability cells active all over her body.

Therefore, the second time he used the Jade, it only replenished Chi Yang's body a little, but the effect wasn't good.

Seeing that Chi Yang's hands were still trembling even after absorbing the Jade, Nangong Nuannuan had no choice but to ask Nangong Jin to mobilize a few more cranes and excavators.

Countless Eagle soldiers and the northern combat department members requested to join the team to move the debris with their bare hands, but Nangong Nuannuan rejected them all.

This was because once a person stood on it, the gravity of the entire pile of debris would change. Once the gravity changed, she would have to reorganize it.

Brother chiyang doesn't have much time left.

Although Jade could no longer increase Chi Yang's ability cells, Nangong Nuannuan still asked Wu Lingyun to transport the top-grade Jade into his body for him to absorb.

Regardless of whether it was useful or not, it was at least a psychological comfort.

Meanwhile, Nangong Nuannuan stepped up her efforts to clean up the construction waste.

Half an hour later, Chi Yang finally couldn't hold on any longer. Under the situation where the construction slag had clearly decreased, his back was becoming more and more bent, and the veins on his arms were trembling so much that they were almost popping out.

At this moment, everyone could already see the light from above and the light from outside. The crowd was shouting for help.

They had thought that these people were buried under the ground, but when they saw the situation inside, they were all shocked.

the one who had saved these people was the commander of flying eagle.

"Let's go!" Chi Yang lifted a huge, thick cement ceiling and let out a roar that sounded like a trapped beast.

Just as the trapped people were rejoicing that someone had come down to save them, they saw Chi Yang, who had been lifting the ceiling high up, suddenly let out a muffled groan.

Everyone was shocked by Chi Yang's power, and only Nangong Nuannuan suddenly shouted when Chi Yang let out a muffled groan.

"Big brother chiyang!"

The crane finally removed the second last piece of construction debris that was blocking the way, but at this time, Chi Yang was also kneeling on the ground. His knees cracked the man-made marble floor.

Nangong Nuannuan quickly directed the crane to lift the last piece of the huge cement ceiling that was on Chi Yang's shoulder. She jumped down from the high ground and arrived in front of Chi Yang as fast as she could.

Although she had x-ray vision, she already knew how much blood Chi Yang had lost. However, when he arrived in front of Chi Yang, he was still shocked by the huge pool of blood on the ground.

"Big brother chiyang, I'm here! Pull yourself together, you'll be fine! it'll be fine!"

The people who were protected by Chi Yang before, even those who didn't covet Chi Yang's many jades, at this moment, only one or two were still here, unwilling to leave. They wanted to help Chi Yang. The rest, when they realized that Chi Yang couldn't hold on any longer and knelt on the ground, they were so scared that they immediately left.

nangong nuannuan was the first to come to chi yang's side. her eyes were filled with tears as she hurriedly inserted a dozen silver needles into chi yang's heart muscles. she cried as she said to chi yang, "Big brother chiyang, try to hold your breath, don't breathe. Just tell me when you're about to breathe. Alright?"

Chi Yang's face had turned completely pale, and large beads of sweat rolled down his face. He was about to say something when Nangong Nuannuan stopped him.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2525

2525 Heart damage (4)

“Don’t speak! maintain your physical strength!” With the crane already hooked onto the ceiling, she quickly said, ” “Brother chiyang, bear with it, the steel bars are going to be pulled out.”

Almost as soon as he finished speaking, the steel bar and the ceiling were hung up.

Chi Yang let out a muffled groan. His face, which was already pale to a certain extent, instantly became even more unsightly.

“A helicopter! Call a helicopter!”

Nangong Nuannuan shouted loudly. Nangong Jin, who was on top of her, also jumped in immediately. then, someone behind him put down a stretcher.

“Nuannuan, the helicopter is ready. It can take off at any time.”

“No need for a stretcher, it’s troublesome.”

Nangong Nuannuan immediately picked up the pained Chi Yang and stepped on the construction debris, easily leaping onto it.

After they got on the helicopter, Nangong Nuannuan once again abandoned the stretcher and carried Chi Yang directly into the helicopter. Everyone was stunned.

No one knew what Chi Yang’s condition was like, but those who knew Nangong Nuannuan knew that they had never seen Nangong Nuannuan’s aura so cold.

Just as they were about to board the plane, Nangong Nuannuan shouted, ” “Catch that woman who just came up.”

everyone was speechless.

For a moment, no one could figure out who Nangong Nuannuan was talking about. Nangong Jin reacted quickly and immediately ordered his subordinates to arrest the only woman they had just rescued.

The woman was a bar girl. She was carrying a bag when the earthquake happened, so she put the red sun Jade in her bag after snatching it.

However, her action of spearing Fei Cui was too sudden. She didn’t know that while Chi Yang was absorbing the spiritual energy of Fei Cui, he also needed to divide a part of his mind to establish a connection with Fei Cui. Because he was seriously injured, his mind was already on the verge of collapse, and the connection was suddenly cut off by the person he had saved. This was no different from a knife cutting his body.

Chi Yang was already an arrow at the end of its flight. With his spiritual energy suddenly cut off like this, it directly led to his collapse, and he knelt on the ground as if he had lost all his strength.

Fortunately, the rescue team came in time and rescued everyone in time. Otherwise, they would have been crushed to death.

However, he was saved. At the moment Chi Yang collapsed, he made the steel bar, which was already a little bit away from his chest, stab down again.

this time, neither chi yang nor nangong nuannuan had expected this, so their luck wasn't as good as before.

The steel bar pierced through his chest and into his pericardium.

Right now, Chi Yang's pericardium was oozing blood. His heart had contracted, causing a large amount of blood to overflow from the pericardium and soak in his internal organs.

A damage to the heart was actually equivalent to a damage to the heart.

For humans, once the heart was injured by a sharp object, the pericardium would be damaged, and it would lead to massive internal bleeding. In less than a minute, the person would die from excessive blood loss.

but even at this time, even though his heart was pierced by a steel bar, chi yang still used all his strength to protect those people.

Nangong Nuannuan didn't understand what Chi Yang was feeling. In short, if it was her, she would not care if they died!

However, Chi Yang was different.

He had his own beliefs, and even if he had to give up his life, he would protect the people and things he wanted to protect.

Nangong Nuannuan didn't know that much. She only felt that she could respect his beliefs and even turn Chi Yang's beliefs into her own.

However, all of this was built on the foundation of the red sun.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2526

2526 on the verge of death (1)

The red sun was the number 1 in Arabic numerals, and everything after that was 0 to her. 0 was after 1, and the more circles there were, the larger the number. However, once there were no more '1's, those' 0's were just circles.

Therefore, Nangong Nuannuan had no intention of letting go of the person who had harmed chiyang.

She would definitely make her die an ugly death!

"Boss, how are you?" This was the first time that ning Wenhao had seen Chi Yang suffer such a serious injury, and he was scared out of his wits.

As Chi Yang's assistant, ning Wenhao quickly followed Nangong Nuannuan onto the plane. The work of their team was handed over to li jingrao.

Wu Lingyun had come with Nangong Nuannuan, but he had left in a hurry with Nangong Nuannuan before he could even see li jingrao.

However, the moment he left, Wu Lingyun exchanged a glance with li jingrao through the cabin.

Although li jingrao really wanted to come over and see Chi Yang's condition, they had just saved two disaster victims at that time. He had his own things to do, so no matter how worried he was about Chi Yang and how much he missed Wu Lingyun, he could only endure it.

The plane took off, and Selina flew it to the nearest hospital.

"Sis-in-law, my boss will be fine, right?" Ning Wenhao saw that Nangong Nuannuan was ignoring him, and he also knew about chiyang's injuries. He couldn't help but cry.

"Sis-in-law, my boss Yingluo!"

Nangong Nuannuan continued to ignore him.

Before Chi Yang's life was out of danger, she didn't want to bother with anyone.

If she really wanted to, she would probably kick ning Wenhao to death.

if ning wenhao wasn't so useless, brother chiyang wouldn't be in such a difficult situation.

If ning Wenhao hadn't been so useless, that woman wouldn't have been able to get the Jade.

If ning Wenhao had not been so useless, brother chiyang would not have been so badly injured.

So no matter how ning Wenhao asked him, or how sad he was about how useless he was, Nangong Nuannuan never gave him a good look.

At this moment, Nangong Nuannuan's entire mentality had collapsed. She simply felt that ning Wenhao was useless.

He just felt that ning Wenhao didn't protect Chi Yang well.

Chi Yang knew that his injuries were fatal to ordinary people. Even to his Nuan Nuan, they were extremely troublesome.

He didn't want to die, not at all. He was afraid that if he died, there would be others who would covet the girl he loved more than his life.

Therefore, whenever Nangong Nuannuan told him to hold his breath, he would try his best to hold his breath. Even if ning Wenhao was crying in front of him, it was the first time he had seen his brother cry, so he didn't have the mood to comfort him.

He was always unable to accompany his family at the most critical time and even let his family be worried about him. He was not a good man. Therefore, at this moment, he only wanted to be an obedient and good patient and give everything to Nuannuan.

Therefore, Chi Yang tried his best to hold his breath. Although it was very difficult for him to hold his breath, and he didn't know why Nuannuan wanted him to do so, he still did it.

when the air in his chest was really used up and he needed to breathe, he didn't say anything and only squeezed nuan nuan's hand.

When Chi Yang pinched her hand, Nangong Nuannuan quickly removed all the silver needles that were stuck in his chest. She then said to him, "Inhale."

As soon as he inhaled, the heart muscle that had just stopped contracting contracted again.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2527

2527 falling below the barrier (2)

it had only been two hits, but a lot of blood had seeped out from the rupture of the pericardium.

nangong nuannuan's heart clenched at the sight, and her heart ached so much that she held her breath.

But she didn't dare to stay idle. Even when she was on the verge of a mental breakdown, she still didn't dare to slack off.

After Chi Yang's lungs had absorbed enough air, Nangong Nuannuan used the silver needle to expand his heart muscle again, stopping each powerful contraction.

This was because every time the heart contracted forcefully, it would lose a large amount of blood.

Chi Yang was already seriously injured and had lost a lot of blood. at this moment, he only had 60% blood left in his body.

For an ordinary person, losing 30% of blood would kill them if they didn't get enough blood for more than 7 hours. Losing 40% of blood meant that most people would die immediately without even having the chance to replenish their blood. And losing 50% of blood would lead to rapid death.

In the two hours that Chi Yang had used all his strength to help everyone withstand the powerful pressure, he had lost more than 30% of his blood, close to 40%. That was why he had become so weak in the end and couldn't even withstand a single blow. This was because if an ordinary person lost so much blood, they would basically have no chance to replenish it.

however, in order to save her brother chiyang at the last moment, his pericardium was damaged, and a large amount of blood flowed out of his heart and into his body. his blood immediately fell below the 60% mark and rapidly approached the 50% mark.

Even though Nangong Nuannuan had x-ray vision and could see the organs and blood of a human, she was not a God. She could not repair Chi Yang's pericardium with her bare hands and return his blood.

the only thing she could do was to expand his heart muscle with silver needles so that his heart could not contract. if the heart could not contract, the torn pericardium would not bleed profusely due to the compression of each heartbeat.

However, Chi Yang was a human, and he needed to breathe. Therefore, every breath would still cause serious bleeding in the pericardium.

This made Nangong Nuannuan uncertain if Chi Yang would be able to make it to the hospital.

chi yang also roughly understood nangong nuannuan's method, so he was very, very, very cooperative.

He had already let her Nuannuan down by allowing her to suffer such a serious injury, so nothing could happen to him.

However, he believed that Nuannuan would not be like his mother, who had been with another man at his father's funeral.

However, when he thought of the day that she would fall in love with another man after he had died for a long, long time, after a good man had treated her well for a long time, and eventually walk into the hall of marriage with another man, becoming someone else's wife, Chi Yang felt terrible. He wanted nothing more than to burn both Jade and common stone. He would rather take her away with him and protect her himself. At the worst, they would reincarnate together.

But Yingluo couldn't be so selfish.

So, if he couldn't get her to live and die with him, he must not die.

As he thought of this, Chi Yang held his breath for twice as long as the previous time.

It was only when his body was about to start twitching and Nangong Nuannuan saw that his lungs had contracted so much that they were about to stick together that she quickly removed all the needles and resumed the contraction of her heart muscles.

At this moment, Nangong Nuannuan felt uncomfortable when she saw her brother chiyang's heart muscles contracting, and she felt uncomfortable when she saw him holding his breath. She still had to try her best to control her emotions and not let her eyes turn red. Otherwise, when her tears came out, it would be hard to see. Chi Yang, on the other hand, could not afford to be delayed.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2528

2528 i'll be with you (3)

Chi Yang looked at Nuan Nuan and felt extremely uncomfortable.

He knew that his body was in pain, but Nuannuan's heart ached.

If their situations were reversed, even if Nuannuan was not so badly injured, he felt that he would die from heartache.

Chi Yang felt very guilty as he watched Nuan Nuan blink her eyes so hard that her eyes would turn red and dry again. In order to conserve the air in his lungs, he could not speak. He could only look at Nuannuan and reach out to hold her hand.

he was holding nuan nuan's left hand, and he accidentally touched the ring on nuan nuan's ring finger.

this ring was the one he had prepared to propose to Nuannuan on her birthday three days ago.

The ring was placed on the big cake. Nuannuan had already put the ring that belonged to him on his ring finger. Now, as he touched the ring on Nuannuan's finger, Chi Yang's gaze softened.

Nangong Nuannuan felt as if she was about to drown in her brother chiyang's pampering gaze.

She kept preparing herself mentally-

There was nothing to be afraid of. If brother chiyang died, then she would die too. Just like in her previous life, they died together. This way, they might be able to be reborn together.

Even if they could not be reborn, at least they could reincarnate together. In their next life, they would definitely meet again and love each other again.

with that thought in mind, nangong nuannuan no longer felt that sad.

Anyway, they were together.

Nuan Nuan held Chi Yang's hand with one hand, caressing his palm to give him strength. Her other hand remained empty the entire time. She kept a close eye on the changes in Chi Yang's body. Once there was no more air in his lungs, she would have to immediately pull out the silver needles.

Otherwise, under the circumstances of excessive blood loss and lack of air, it was easy for a person to die directly.

"Big brother chiyang, you'll be fine. No matter what happens, I'll be by your side. I won't let you be alone."

At this moment, because of his injuries, Chi Yang's reaction was a little slow.

When he understood what Nuannuan meant, his pupils suddenly contracted.

Although he didn't show any expression on his face because he was holding his breath, the change in his pupils made Nangong Nuannuan feel the shock in brother chiyang's heart.

Nangong Nuannuan's grip on Chi Yang's hand tightened.

Chi Yang also turned around and held Nangong Nuannuan's hand.

If he understood correctly, what his Nuannuan meant was that if something happened to him, he would not live on either?

If other women loved a man, in order to stimulate him to live at this time, wouldn't they say something like "if you die, I'll immediately remarry, and if you dare to die, I'll immediately be with someone," right?

However, his Nuannuan was really a different girl. She wouldn't say those words that would pierce his heart just to let him live. Not only that, she also told him that if he died, she would not live alone.

This was Chi Yang's closest experience to death. He knew very well that his heart had been injured. If it wasn't for Nuan Nuan's help to protect his heart, he would have died from excessive blood loss.

Just as he was so close to death, his girl was still so gentle, so good to him, and told him that she wanted to live and die with him.

his girl was so good. how could he bear to let her suffer the pain of losing him and then leave with him?

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2529

2529 It's too late 4

At this moment, he couldn't tell her that he would protect her well. He would definitely live with her in this world. Even if he were to die, he would protect her first, and then he would die.

However, in order to survive to the greatest extent, Chi Yang couldn't say it. He could only hold Nuan Nuan's hand again.

The two of them held each other's hands like this, you held my hand, I held your hand, and you held my hand again.

The people around them looked on as they shook hands with each other. They didn't say anything and didn't know what they meant.

However, Nuannuan knew what brother chiyang meant.

At that moment, Nangong Nuannuan's phone rang. Wu Lingyun quickly picked it up for her.

After the call, Wu Lingyun said, " "Nuan Nuan, the blood has been delivered and the person is in position. If you don't have enough blood, you can always replenish it. "

Nangong Nuannuan only nodded her head, but her eyes were fixed on the condition of her brother chiyang's body.

Her only hope was that brother chiyang could make it to the hospital. As long as he could make it to the hospital, she would definitely think of a way to save brother chiyang's life.

however, yingluo

"How long more before we arrive?"

Wu Lingyun and ning Wenhao were startled by Nangong Nuan's cold voice. After spending so much time with Nangong Nuannuan, she gave people the feeling that she was just like her name-very warm.

Nuan Nuan was a very capable person, and anyone who dared to provoke this rich young lady would end up in a terrible state. However, Nuannuan had always been very warm to her family and friends.

It was the first time Wu Lingyun and ning Wenhao had heard such a cold voice.

But it was also because of this that their hearts sank.

especially ning wenhao.

He knew that his boss's condition was definitely not good.

"The fastest is 9 minutes." Selina's answer was very careful.

As she had grown up with Nangong Nuannuan, she was well aware of how dangerous Nangong Nuannuan's voice was.

She had heard a similar voice before. It had been the fake King who had angered Nuannuan. Not long after Nuannuan's voice had appeared, KE's various tribes and even their headquarters had been wiped out.

Nuannuan had never been a ruthless person, but once she became ruthless, she would destroy everything.

"We won't make it in time to change locations." Nangong Nuannuan's voice turned even colder.

"Yingluo is."

Even though the surrounding hospitals were all in ruins due to the earthquake, and they didn't have a complete set of medical equipment, which might be of no help to Chi Yang's injuries, Yingying was in a position where whatever her boss said was final. Selina definitely didn't dare to say no to Nangong Nuannuan at a time like this.

Of course, Nangong Nuannuan was aware of the situation in the smaller hospitals around the area. Even during normal times, the medical equipment in these small hospitals would probably not be able to keep up.

However, seeing that Chi Yang's remaining blood was getting less and less, and was about to drop below 50%, Nangong Nuannuan lost her sense of propriety for the first time.

The blood volume of a human body was about 4000 ml. Once it fell below 50%, which was 2000 ml, one would die immediately. There was no chance at all. Even Chi Yang couldn't escape. Even if she was an immortal, she couldn't turn the situation around.

Based on her visual estimation, the amount of blood in Chi Yang's body was between 2260 to 2300, which meant that he only had 300 ml of blood left to bleed out. Once this 300 ml of blood was lost, there would be no turning back.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2530

2530 My blood (1)

In other words, brother chiyang only had about 260 ml of blood left to bleed.

At this moment, Chi Yang's consciousness was already starting to dissipate. Under the situation where he couldn't forcefully hold his breath, he had to perform a heart contraction and natural breathing every minute.

And every time his heart contracted, 70 ml of blood would be forced out. In other words, from now on to Chi Yang's inevitable death, there were only three breaths of time.

Three minutes was not even four minutes, so it was impossible for them to reach the hospital in time.

However, without blood, there was no way for Chi Yang to come back to life.

This was the first time Nangong Nuannuan felt so helpless in the face of an injury.

She placed the Jade on Chi Yang's chest, hoping that he could absorb the energy of the Jade so that his body could have more energy. However, even though Wu Lingyun had placed the Jade all around him, Chi Yang was unable to absorb it.

Until now, she still didn't know how Chi Yang absorbed the energy in the Jade, so she couldn't help Chi Yang. She could only watch his vital signs gradually disappear in front of her.

Chi Yang's hand that was holding Nangong Nuannuan's hand became lighter and lighter. He could still control his breathing at first, but not long after the next breath, he began to gradually lose control.

Chi Yang, who had been trying his best to keep his eyes open, was now slowly closing them.

Before his consciousness completely disappeared, he saw the fear, despair, and determination in Nuannuan's eyes.

"boss!"

as he watched chi yang slowly close his eyes, ning wenhao's heart ached, and he felt extremely guilty.

It was all his fault! It was all his fault! It was all his fault!

the hospital is just up ahead. Let's get ready to land.

The moment Selina said that, a helicopter suddenly appeared in the air. The helicopter had the symbol of disheng.

"Boss, the blood is here."

Just as Nangong Nuannuan was at a loss as to what to do and watched Chi Yang's life force dissipate, Selina's voice suddenly woke her up.

Nangong Nuannuan's spirits lifted and she said, "Hurry over!"

"Yes!"

The plane was already flying toward them when Selina replied.

The moment the two helicopters collided, the door of the opposite helicopter suddenly opened, and a person jumped in from the opposite helicopter without any safety precautions.

The two planes passed by each other, but the person on the other side had already successfully boarded.

It was Gu Mingcheng, but the voice belonged to Feng shengxuan.

The moment she saw Feng shengxuan, Nangong Nuan Nuan's eyes lit up. To her, Feng shengxuan was a walking blood bank.

Because brother Chi Yang's blood was a rare type of blood, the Chi family had been helping many people with the blood type all over the country. This was so that the blood bank would not run out when Chi Yang was injured. However, it was too sudden, and it was impossible to get someone with a blood type

to rush over. However, Feng shengxuan was a grandson of the Chi family, and his blood type was very compatible with Chi Yang's.

Feng shengxuan's hands were not idle, and his mouth was not idle either.

"Aren't you usually so arrogant? How did you become a sick cat?"

As soon as she said that, the temperature on the plane dropped. Feng shengxuan looked at the heartless little girl who was staring at him coldly and shut his mouth.

However, the temperature didn't rise again. Feng shengxuan said subconsciously, " "This bag is my blood!"
