Chapter 2601

2601 I want to kill pigs (4)

But later on, his son fell in love with that little girl.

To her, it was no big deal even if she liked him.

After all, her son was the only fruit of her and Feng Ming's love. So, whoever her son liked, as long as he was happy, Feng Jimian would never ask.

Even though she knew that her son had fallen for Nangong Nuannuan, Feng Ji Mian had only treated her as her daughter-in-law from that moment on and cultivated the relationship between her and her mother.

Although she and Nangong Nuannuan did not meet often, she had always treated Nangong Nuannuan very well, so she had a very good relationship with her.

In public, she had introduced Nangong Nuannuan as her niece, but in reality, Nangong Nuannuan was the daughter-in-law she had acknowledged.

Even if they knew that Nangong Nuannuan was a member of the Nangong family, as long as Nangong Nuannuan did not return to the Nangong family, he would seal off her identity and Nangong Nuannuan would never be able to return to her real family.

However, she did not expect Nangong Nuannuan to be so outstanding since she was young. He was so outstanding that not only did he destroy the KE family, but he also went back to the Zhong family and even found the Nangong family through the Zhong family.

More importantly, before she even returned to the Nangong family, there was already news that her engagement with Chi Yang had been approved.

Feng Ji Mian was angry, and because of that, she had not contacted Nangong Nuannuan even once, not even once.

In her opinion, Nangong Nuannuan was a typical betrayer!

Even though she was completely convinced by Nangong Nuannuan, the person Nangong Nuannuan had betrayed was her only son.

feng jimian couldn't accept it and had already made a few calls to scold feng shengxuan.

The King of the KE team couldn't even win against Chi Yang.

However, every time he called, his son would only be met with silence.

She also knew that her little Xuan Xuan was heartbroken. At this time, as a mother, she should give more care and encouragement.

However, when she saw that the cabbage that she had painstakingly raised was eaten by a pig before her son could even have a bite, the pent-up anger in her heart could not be eased.

However, later on, his son got stomach cancer, and it was in the middle or late stage. She didn't know how to describe the anxiousness in her heart.

Feng Ji Mian was completely convinced as she watched her son go to find Nangong Nuannuan in high spirits.

On one hand, she was impressed by her son's infatuation. On the other hand, after knowing that Nangong Nuannuan would definitely be able to cure her little Xuanxuan's illness, Feng Ji Mian had let it go.

What's that? What nice family? What council member? In Feng Jimian's eyes, none of them were as important as her son's life.

At first, she felt that Nangong Nuannuan had let Feng Shengxuan down and was thus hostile to her. But later, before she could think of a way to take revenge on Nangong Nuannuan, when she found out that she could cure Feng Shengxuan, she felt that the two of them were even.

However, even though Feng Ji Mian had retracted her thoughts of taking revenge on Nangong Nuannuan, she could no longer feel any affection for her.

Today, after hearing that Nangong Nuannuan had proposed to Chi Yang, the first thing she had been worried about was what to do with her son, Feng Shengxuan.

His son loved that girl so much. For that girl, he was willing to get himself into gastric cancer to look for her. One could only imagine how sad he would be when he found out that Nangong Nuannuan was going to propose to Chi Yang.

Only she would feel heartache for her own son.

Chapter 2602

2602 A female boss I can't afford to offend (1)

When she saw Nangong Nuan Nuan's happy and sweet expression when she proposed to Chi Yang, Feng Ji Mian could feel the pain her son was going through.

Senator Feng, if I remember correctly, you did mention that you liked Sunny a lot and that you wanted her to be the Feng family's daughter-in-law? " The representative asked fearlessly.

The representative was from the Ryan family, the second most powerful family in Saibo. Therefore, the patriarch of the Ryan family also had a lot of authority. He had always wanted to surpass the nice family, but every year, the nice family would become the number one family in the whole of cyber country with just a little more assets than them.

The Lai en family and the nice family had never been on good terms, and the Lai en family was also a powerful family with deep roots. So, he had the most arguments with Feng Ji Mian.

feng ji mian had been looking at the news online. she was already angry when she saw nangong nuannuan's gaze on chi yang. now that hunt, that annoying fellow, was making sarcastic remarks in front of her, she was instantly unhappy.

He raised his head and looked at Hunter, asking, " "You want to cause trouble?"

Hunter was frightened by Feng jimian's bone-chilling gaze. He rubbed his nose in embarrassment and shut up.

At first, everyone thought that this matter would be over. Who knew that Hunter would step on Feng jimian's sore spot this time?

Feng Ji Mian picked up her phone and called the company.

"From now on, stop all cooperation with the Lai en family," Feng jimian ordered.

"Feng Ji Mian, are you crazy?"

Hunter's eyes widened when he heard Feng jimian's words.

The onlookers were also staring at Feng Ji Mian. Although they didn't say anything, they all had "are you crazy?" expressions on their faces.

The person on the other end of the phone clearly didn't know what was going on, and Feng Ji Mian said, " "You didn't hear wrong. It means to stop all cooperation with Ryan family."

Hunter Clayon's eyes widened.

"Right! 9 billion it is! I don't want it anymore! I'll pay! in any case, the contract was a win-win situation, and both parties did not pay much. Even with admiration, it was only 10 billion. Find a lawyer immediately, I'll settle this matter today."

with that, feng ji mian hung up the phone. when she looked up again, she met everyone's disbelieving eyes.

Cyber was the largest country on glory planet, and their money was the most valuable. What did 10 billion mean?

Even the most powerful families could not withstand such losses!

The key point was that this project was a win-win situation. The Ryan family couldn't take it all in one go. In addition, the nice family had a strong background, so the final project was jointly developed by two of the top families in Saibo.

because of the huge profits, the two companies were in mutual control, so there was no possibility of a breach of contract. Therefore, when they signed the contract, both parties did not set the terms too firmly.

Although one billion was a lot, compared to the main bid, it was only one-ninth of the penalty. This was just a small number to Feng Ji Mian.

She believed that when disheng became the world's No. 1 next year, or in a few years, when the world's No. 1 had left her, the world's No. 2, far behind, these people would know how powerful she and her son were.

The entire conference room was silent for a long time before Hunter recovered from the shock.

2603 sweat (2)

He slammed the table and stood up, pointing at Feng Ji Mian's nose as he began to curse, " "Feng jimian, are you crazy? That project is still being invested in. If you withdraw it, what should you do with the rest? You don't even cheat people like this, do you? If you withdraw the funding for the project, you'll only be the one losing!"

Feng Ji Mian, on the other hand, looked at him mockingly and sneered, " "No, you're the one who's going to lose too!"

"So you want to cause a huge loss to the Ryan family just because of my words? In order to make us suffer losses, you're willing to kill 3000 enemies and sacrifice 3000 of your own? Yingluo, are you sick in the head?"

Feng Ji Mian's depression was swept away when she saw Hunter's angry face.

you don't have to worry about whether I'm crazy or not. You only need to worry about the 9 billion you lost and the 10 billion you'll never be able to earn in the future. How are you going to explain it to your family? "

Hunter was so angry at this crazy woman that he almost lost his mind and shouted, " "If I can't explain it to the Ryan family, do you think you can explain it to the nice family? Feng Ji Mian, we're in the same boat now. If I capsize, you'll capsize too! How can you do such a thing that harms others and doesn't benefit yourself?"

"Why can't I do it?" In contrast to Hunter's roar, Feng Ji Mian was much calmer. She sneered, " "Even if we're in the same boat, I can swim, and you can't. If your mouth is so foul, why can't I do things that harm others without benefiting myself? Hunt, don't think that I don't usually argue with you. I, Feng jimian, don't have a temper."

everyone was embarrassed.

Many people agreed with Feng jimian's first sentence, ridiculing Hunter for his love of kicking an iron plate. However, no one agreed with her last sentence.

They had never thought that this lady was someone without a temper.

On the contrary, this woman's temper was different from Hunter's. Hunter was furious, but this woman was calm. However, under the calm, she would always do dangerous things to kill her enemies.

If they had to describe it, perhaps it would be "the water doesn't boil, and the water doesn't make a sound." Or 'dogs that bark don't bite, dogs that bite don't bark'!

Feng Ji Mian and Hunter were the two extremes.

Hunt was so angry at Feng Jimian that he couldn't do anything about it. He finally came back to his senses and remembered how vicious Feng Jimian was. Feng Shengxuan's personality was exactly the same as his mother's.

The nice family was much richer than the Ryan family, not to mention that they had the Disheng group behind them.

Although Disheng group was currently ranked behind the Ryan family, it had just been established five years ago and no one had heard of it yet. But four years ago, it entered the world's top 500, three years into the world's top 100, two years into the world's top 50, one year into the world's top 10, and this year, it became the world's third.

Such a terrifying growth rate wasn't something the Ryan family could compare to. It wasn't even something the nice family could compare to.

So, huhu

Feng Ji Mian might really not care about this money.

After thinking it through, Hunter was very, very, very regretful.

In an instant, all of his arrogance disappeared. He looked at Feng Ji Mian seriously and apologized, "Representative Feng, I'm sorry! I said something wrong just now. Please be magnanimous and don't hold it against me."

Chapter 2604

2604 If an apology works (3)

"The cooperation between the Neth family and the Ryan family is a win-win situation. If you withdraw your capital, not only will our early investment of nearly 10 billion go down the drain, but we will also lose the profits later. Tell me, it's just a sentence, is it worth the 30 billion of our families combined? The nice family was a hundred-year-old family with many members. We were all waiting for profits, but you suddenly stopped the cooperation. It wasn't just you and me who were losing money, but also everyone in the Neth family and the Ryan family! I'm really sorry for what I said just now. I won't say those words again. Can you take back what you said just now?"

Hunter felt that his apology was sincere enough. The key was that the total investment of the two families was 18 billion, and the profit could reach at least 10 billion. The two families would each have 5 billion in investment. Even a fool would not give up just like that, right?

But unfortunately ...

Feng Jimian only looked lazily at Hunter and replied, "If an apology is useful, why do we need the police?"

Hunter was speechless.

Everyone was stunned!

"Then do you think that the nice family will let you go if you suddenly stop working with them?"

"Hehe." Feng Jimian felt that Hunter was a joke.

"So, who gave you the impression that those people from the nice family dared to go against me?"

Hunter:

Everyone was speechless.

In Saibo, every single noble family was deeply rooted and had mutual interests. It was only when everyone's interests and fate were tied together that everyone could unleash their potential in the family for this common interest.

This was the law of the rich and powerful.

However, who would have thought that this law would be completely useless in the No. 1 family of the nice family?

In the nice family, Feng Jimian had the final say. From the moment Feng Ming, who was now Chi Zeyao, returned to the nice family with his little girlfriend at the age of 16 and helped her seize the position of the head of the family to avenge his mother, the nice family had already been completely massacred.

Those who were able to remain in the nice family were all the lucky ones who had stayed back then. And these lucky ones had also witnessed Feng Jimian and Hiroshi Chizawa's ruthlessness.

In the face of money and life, interests and survival, survival and life were always 1. The rest of the interests and money were just circles behind this 1.

As long as he could keep his life and survive, he would be able to accumulate more and more money.

If he lost his life, then he would really have nothing left.

Therefore, the people of the nice family only had one bottom line when it came to benefits, and that was to never offend the demoness, Feng Jimian.

But Hunter didn't know this. He immediately made a call and put it on speaker so that the nice family could put pressure on Feng Jimian.

"Hello," he said.

A sleepy voice came from the other end of the phone. Mr. Hunter, why are you calling me so early in the morning?"

"Slater, do you know that because of one wrong word I said today, your Feng clan head wants to withdraw the project that our families have jointly invested in? Our two families have already invested 18 billion, and now is the time for your family to give us the technology and let us profit. But now, your family head Feng Jimian wants to terminate the cooperation and the project."

tell her immediately. See if this family head who doesn't put you in his eyes, the family head who has tarnished your family's reputation, is really going to be stubborn and become a sinner of the family? "

"Slater?" Feng Jimian raised an eyebrow. Wasn't this the first elder of the nice family? He was her father's big brother.

"I didn't expect you to be in contact with the grand elder of our nice family." Feng Ji Mian's voice was a little cold.

Hunter saw Feng Jiming's face fall and sneered, "Representative Feng, I didn't want to do this at first. After all, you're the patriarch of the nice family. It's not good to tattle on you in front of your clansmen. But you're too arrogant and don't have a bottom line. I can't win against you. If you have the ability to convince your people, then I, Hunter, will be the one to suffer. Anyway, it's on speaker. If there's anything, you can tell Slater."

as Feng Jimian's uncle, Slater had struggled to survive 30 years ago. After agreeing to let them continue to stay in the nice family, Slater had lived very carefully for a long time.

It was only a few years later that everyone discovered that this family head was actually particularly terrifying when she seized the position of the family head. At other times, as long as the family members did not go too far, she would not ask about it.

this also made the other families think that Feng Ji Mian was an easy person to get along with.

But in reality, no one in the nice family dared to say no to any of Feng Ji Mian's decisions!

Even if they only had 10 billion in total and Feng Jimian was going to give them 10 billion, not a single person in their family would dare to say no, let alone the fact that they were the world's number one family with 100 billion in liquid assets.

So when he heard Hunter bad-mouthing Feng Ji Mian, Slater had completely woken up from his sleep.

He woke up in shock!

The bystanders were gloating. It didn't matter if Feng Ji Mian was planning to go back on her words or prepare to fight three hundred rounds with the clan's number one elder, they were all happy to see it.

After all, Feng Ji Mian was too domineering!

a strong woman like her was not cute at all. She should be taught a lesson by the man! However, the depressing thing was that the powerful Saibo country could not find a man who could teach her a lesson.

Now that there was someone to restrict her, everyone was happy to see it.

After all, because of one sentence, he made others lose 15 billion, and he would also lose 15 billion. This was simply too vile.

In the future, who would dare to cooperate with the nice family?

But,

The nice family was also the richest family in the world, so it was impossible not to cooperate. So, find someone to quickly take care of this demon!

Feng Ji Mian sneered at Hunter's words. Her voice was neither too loud nor too soft, neither too fast nor too slow. Slater, do you have a problem with my decision? "

Hearing Feng Ji Mian's question, Slater didn't even need 0.1 seconds to think. He immediately shook his head and said, "How could that be, patriarch? You're the one who brought our family to the peak. No matter what decision you make, it'll definitely be the best choice for our family. Since you've decided to terminate the cooperation with the Ryan family, then there must be a reason for it. "

"Slade!" Hunter was so angry that his eyes were about to pop out.

"I've already told you that she's going to stop working with us because I said something bad about her son! No matter how rich your nice family is, you can't just throw away 15 billion, right? If even you don't say a word, then the cooperation between our two families will really be over!"

"If it's yellow, then it's yellow!" Once again, the other party did not even need 0.1 seconds to react before he retorted Hunter. "since you know that you're saying bad things to our family head and our young master, then you should be prepared to speak nonsense! Let alone 10 billion, even if our family wanted to use all of our power to resist your Ryan family, you deserve it!"

Hunter was speechless.

everyone was stunned!

The president, who had just entered the room, heard the conversation on the phone. He glanced at Hunter, then at Feng Jimian, his face calm and collected.

Hunter did not feel good at all. He stared at his phone, dumbfounded, and his brain couldn't react for a moment.

On the other side of the phone, Slater didn't give Hunter any chance to catch his breath. He continued to shout, "I thought you were a straightforward person and wanted to be friends with you, but who knew you were such a person! Hunt, from now on, we're done! Don't ever call me again! You've ruined such a good business of our nice family so early in the morning, what bad luck!"

Then, he slammed the phone down.

everyone was speechless.

Hunter was speechless.

Who was he? Where was he? What did he do?

What did he mean by ruining the nice family's business?

What business did he mess up?

The one who messed up the business was obviously that arbitrary woman, Feng Ji Mian, alright? He was the one who was trying his best to save the business!

Who knew that the people of the nice family were all f * cking Mad Dogs? he had only said one sentence and such a big business had been ruined.

more importantly, he didn't understand why the nice family would think that he was at fault.

F * ck you!

Is there something wrong with his brain?

"Hunter, are you alright? If there's nothing else, we'll start the meeting."

Hunter looked at the president with a constipated expression.

He was fine?

Did he look fine?

He was in big trouble!

"O"jb"K"!

The president obviously didn't want him to waste any more time. Hunter could only respond stiffly and then sit back in his seat.

Feng Ji Mian was also planning to turn off the laptop's interface. However, the moment she closed her eyes, her gaze suddenly shrank. Her eyes were fixed on the man sitting in a wheelchair around Chi Yang's bed.

The man had an extremely ordinary face, but his eyes were filled with a sense of foreboding.

His gaze was disdainful.

Why did his gaze look so familiar?

This was a moving picture. Everyone was smiling and wishing Nangong Nuan Nuan and Chi Yang well, and this person was the same.

He didn't look like anyone from the Chi family, nor did he look like anyone from the Nangong family. But at this moment, he was among the family and friends of the Chi and Nangong families.

He really looked very ordinary!

He was so ordinary that if he was thrown into a sea of people, he would definitely be drowned in an instant.

However, his gaze did not match his appearance at all.

She believed that even if this person was drowned in the vast sea of people, as long as his eyes were open, he would definitely be able to quickly stand out from the sea of thousands of people.

Chapter 2607

2607 Taking leave (2)

The brilliance in his eyes was definitely not something that anyone could imitate or compare to.

They met at the age of 7, were childhood sweethearts for 11 years, married for 12 years, and even gave birth to such an outstanding son together. Although her son had died when he was 11 years old, and she had been alone for 17 years.

However, that person's voice, smile, and even his eyes were deeply engraved in her mind.

Even though it had been 17 years, his departure felt like it was only yesterday.

So, when she saw that extremely familiar gaze, Feng Ji Mian's eyes immediately went wide. His pupils suddenly shrank, and his eyes stared at the moving picture.

Akira chizawa was not the main character, so the camera only flashed past him.

However, in less than two seconds, Feng Ji Mian was sure that this person was him!

Even though his mesmerizing face was no longer there, Feng Ji Mian still had this feeling.

This person must be the man she had been thinking about day and night!

Feng Ji Mian's fingers didn't slide down. She just looked at the moving picture on the internet again and again. She saw the man's gentle smile, as if the spring water had turned into the spring breeze and transformed into spring rain.

"representative feng, what's wrong? Are you uncomfortable?"

He had thought that Hunter was the only one who wouldn't be able to listen to the meeting today. However, Feng jimian was already crying before Hunter could.

Following the president's words, everyone turned to look at Feng Ji Mian, only to see that her face was covered in tears.

The president's voice also woke Feng Ji Mian up. She wiped the tears off her face and said to the president excitedly, " "I'm sorry, Mr. President, I might have to take a leave. i won't be able to attend this meeting."

The president nodded. okay. Anyway, today is just a routine briefing for everyone on the things that have been decided before. If you have something else to do, go ahead. I'll get my assistant to send you the documents of this meeting.

"Many thanks." after feng ji mian thanked him, she stood up and prepared to leave.

"Just let me know if you need help." The president had a good impression of Feng jimian. He knew how difficult it was for a single woman, so he extended an olive branch to this "She-Devil."

"Thank you," Feng Jimian smiled, "I'll ask the President for help if I need it."

After responding, Feng Ji Mian packed up her things and ran out as fast as she could.

"Mr. President, I'm sorry."

After Feng Ji Mian ran out, Hunter stood up. Before he could say anything, the president waved his hand. go.

"Thank you, Mr. President!"

The first and second most influential families had left, and the two most important people in the meeting were not present. The president made the meeting short. After reporting the economic development situation, he dismissed everyone.

Hunter came after her as soon as she left.

"Representative Feng, please wait!"

But now that she strongly suspected that the person in the wheelchair was Feng Ming, Feng Ji Mian no longer had the mood to chat and argue with anyone.

hunter was chasing her from behind, while she was running in front, with no intention of stopping.

"Feng Ji Mian, stop right there!" hunter saw that the other party was running away so quickly, he was furious and shouted.

However, the other party still had no intention of stopping.

Back then, after Feng Ji Mian's mother gave birth to her, she wasn't accepted by the nice family. Later on, her mother died of illness, and Feng Ji Mian was stranded in a rainforest area, almost snatched away by the indigenous people there.

2608 You better stop right there (3)

It was Feng Ming who happened to meet her when he passed by with his men and saved her. From then on, Feng Jimian had become a member of the team.

She was extremely talented in martial arts. Under Feng Ming's tutelage, she quickly rose to prominence in KE city and became one of the top mercenaries in the world.

Although Feng Jimian wasn't as strong as her son and Nangong Nuannuan, she was on par with Selina and Aiden.

Even though she was wearing a pair of 10-centimeter stiletto heels, Hunter realized that he could not catch up to her. He could only pray in his heart, "He fell! He fell! He fell! He fell!"

However, he didn't fall!

Not only did he not fall, but he ran even faster than before.

Hunter could only watch as Feng Ji Mian stood on a 10-centimeter stilt, holding a document in one hand and making a phone call in the other.

When they reached the entrance, the woman ignored her bodyguards and ran straight to the parking lot.

Hunter's bodyguards were also at the door. Seeing this, Hunter shouted, " "Stop her! Quickly stop her!"

The bodyguards didn't know what had happened, but they had to follow their boss's orders. Hence, the bodyguards quickly chased after Feng Ji Mian.

Feng Ji Mian's bodyguards saw this and immediately stopped her.

in the end, hunter had to go after feng ji mian himself.

Luckily, Feng Ji Mian was going to the parking lot, so when she found her car keys and stopped, Hunter finally caught up with her.

"Feng jimian, stop! What will it take for you to retract your previous order?"

Feng jimian was filled with anxiety, uneasiness, excitement, anticipation, fear, and worry. Just as she was feeling all sorts of emotions, Hunter came knocking on her door.

Unable to express the desolation in her heart, Feng Ji Mian opened the carriage door and replied, " "In your dreams! Just wait for death! Goodbye!"

Then, he got into the car.

"Come out! You're not allowed to leave until you take back your order!"

As he spoke, he tried to drag Feng Ji Mian out of the car.

Feng Ji Mian had already started the car. Seeing this, she took advantage of the moment Hunter pulled the door open to raise her long leg and kick him in the face, sending him flying a meter away.

then, the limited-edition white silbe was like a lion, making a heart-shaking roar and rushing out like an arrow.

Very quickly, the car arrived at the nice family. Feng Ji Mian drove the car directly to the tarmac at the back of the family. There, a helicopter was already parked. Seeing Feng Ji Mian's arrival, the other party quickly came up to welcome her.

Feng Ji Mian got off the plane and said to the pilot,"Hurry up and leave!"

"Ji Mian,"

Feng Ji Mian was about to board the plane when someone called her from behind. Hearing a familiar voice, Feng Ji Mian turned around and saw Feng Su slowly walking towards her.

This person seemed to be walking slowly, only taking one step forward. It seemed like he had covered more than a foot, but in reality, the distance had shortened by several meters.

As Feng shengxuan's mother, Feng shengxuan had never hidden anything from Feng jimian.

That was why when Feng shengxuan told her that Feng Yao wasn't as aloof from the world as he seemed on the surface and that this old man was trying to stir up something big, she had let her son start his own business.

Feng shengxuan was only 13 years old when he went out and started his own business. And the KE that Feng shengxuan had helped Nangong Nuan with was actually this old man's doing.

Chapter 2609

2609 A battle between the strong (4)

Feng Luan was Feng Ming's elder brother. An elder brother was like a father, and Feng Ming used to respect this elder brother very much.

By right, she should also love the house and its Crow because she loved Feng Ming. Under normal circumstances, she would also like and respect what Feng Ming liked and respected.

She had never liked Feng Kun.

now that she saw feng luan, feng jimian respectfully greeted her, " "Big brother,"

It wasn't easy to get Feng Ji Mian to call him big brother. After all, in the nice family, even the elders of Feng Jiming's grandfather generation were addressed by their names by this Big Shot.

"Ji Mian, where are you going?" Feng Kun asked.

"Go to Kamino. Big brother, is there something you need me for?" feng ji mian asked.

"Why are you in such a hurry to go to Kamino?"

"Big brother, what do you want from me? Or are you following me?" feng ji mian's eyes narrowed.

Feng Luan kept asking Feng jimian why she wanted to go out, but she didn't answer her questions directly. Feng Ji Mian immediately exploded.

Anyway, this man was already disloyal, so it didn't matter if she offended him. It didn't matter.

"Why would I follow you?" Feng Kun had a pleasant expression on his face.

just like before feng ming's death, feng kun had always been a gentle and good big brother to her. he had never blushed at her.

It was also because of this that Feng Ji Mian instinctively felt that this man was fake and dangerous.

After Feng shengxuan's wings had fully grown, Feng jimian had wanted to take over this man's power.

At that time, Nangong Nuannuan had wanted to destroy the team, so she had immediately raised both hands in agreement.

However, after KE was destroyed, Feng SU's power was basically gone, and even Viper, who was loyal to him, was dead, she hesitated again.

For some reason, even though Feng Kun had nothing left, he still listened to little Xuanxuan and stayed in his Castle all day, watering the flowers and reading books. He did nothing and seemed to be doing nothing, but she still felt a faint sense of unease in her heart.

Therefore, she had always warned her son to stay calm and endure. He must not go against Feng Kun before he was completely confident.

Hearing Feng Luan's answer, Feng Jimian didn't continue to touch the bottom line of Feng Luan's temper. Her expression was much warmer as she asked, "Then why did you come?"

"I saw that Sunny was getting married. I was afraid that you would be angry, so I came to look for you."

She was 80% sure that Feng Ming was still alive, so she would definitely not tell Feng Kun.

Before Feng Ming died, he had told her that he had discovered a secret, but he had yet to confirm it. Therefore, before she was sure, she was told to be careful of everyone around her, as well as Feng Luan and those with strong spiritual power.

In the end, Feng Ming didn't even have the time to tell her what the secret he discovered was before he died in the battle with Hiroshi Chizawa.

All these years, Feng Jimian had wanted to strengthen herself and her son so that one day, she could fight against people who might be more brutal than them.

Hence, Feng Jimian continued Feng Luan's words, "Don't you think I should be angry? Our Xuanxuan has been holding her in his hands since young, and I've always seen her as my daughter-in-law! We indulged her like this. We didn't even say a word when she wanted to destroy the team. She was good! Not only did she return to the Nangong family, she even became Chi Yang's fiancée."

Chapter 2610

2610 She went to see her husband (1)

"And now, he's proposing to Chi Yang, not caring about our Xuanxuan's feelings. Do you think I can take this lying down?"

"Even if you can't endure it, you have to endure it!" Seeing that Feng Jimian was indeed going to Kamino for this matter, Feng Luan's doubts disappeared.

"Why should I? Nangong Nuannuan is a woman that my son raised. Even if she doesn't marry my son, she can't marry anyone else! What's wrong with our Xuanxuan? Why did she choose Chi Yang and not our Xuanxuan? Since she won't choose our Xuanxuan, then she'll give back everything Xuanxuan taught her and gave her!"

Feng Luan looked at the Furious Feng Ji Mian and knew that this woman had been spoiled by Feng Ming. She had a bad temper. She laughed coldly in her heart and was happy to see this happen, but on the surface, she pretended to be deep and said, "Xuan'er likes Nuannuan to a certain extent. If you do something bad to her, he might not be happy. Nuannuan has already proposed to Chi Yang and they've already collected their marriage certificate. No matter how unhappy you are, there's no point in going. Moreover, Xuanxuan had attacked the Scarlet origin demon some time ago, and Chi Yang would

definitely investigate this matter thoroughly. Once Xuanxuan was found, he would be in great danger. Why do you have to incite conflict?"

"He attacked Chi Yuan Cheng?" Feng Ji Mian frowned.

"Yes,"

"Then why did it fail?" Feng Ji Mian asked, finding it hard to accept.

Feng Tan sneered. it's because Chi Yuancheng, that cunning Fox, was on guard. In addition, Nangong Nuannuan came back early. This caused Stephen's operation to fail. Stephen also sacrificed himself. What, Xuanxuan didn't tell you?"

Feng Ji Mian pursed her lips and remained silent. then all the more I want to go.

Then, he turned around and left.

Feng Kun didn't stop her. To him, the more chaotic the Chi and Feng families were, the better.

with feng ji mian's explosive personality, she would only add to the already tense situation if she went.

"I tried to persuade Xuan 'er to let him come back, but he didn't listen to me. He was determined to avenge his father. If you go to the Chi family, remember to persuade him to come back. it's no longer safe to stay in the kemino kingdom."

Feng jimian ignored Feng Su and boarded the plane.

Feng Kun was not displeased at all.

As the plane gradually disappeared from his sight, Feng Kun still looked worried.

He had always known that Feng Ji Mian suspected him. However, his internal injuries were too severe. He couldn't afford to use up all his energy to hypnotize a woman like Feng Ji Mian. Therefore, he couldn't be happier to see this wave of people fighting among themselves.

This was the nice family. Although he had arranged for some people to be inside, those with high status had all been picked out by Feng Ji Mian. Although these people didn't betray him, they had been made miserable by this woman and had long been banished from the nice family. Spies who had not been discovered were of low status and could not be used well.

So, even after Feng jimian left, Feng Luan didn't change her attitude.

In Shengzhou hospital, Nangong Nuannuan had her private jet deliver some daily necessities for herself and chiyang. Then, chiyang began to live a life where he was provided with clothes and food.

Seeing a white sheet covered in a thick, wet liquid about to cover his face, Chi Yang's eyebrows furrowed slightly.

He was clearly repulsed by these things.
