

Physician Wife 2641

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2641

2641 Zhou ruxue was beaten up (4)

What was she thinking back then?

If she hadn't taken the medicine, Chi Yang would have definitely forgiven her.

if she hadn't taken the medicine, nangong nuannuan wouldn't have suspected her of taking medicine for her seriously injured son, and she wouldn't have done the dna test.

If the heavens gave her another chance, she would definitely not have drugged Chi Yang's soup. No, she would definitely treat Chi Yang well for the past 17 years. No, she would never, ever, ever marry PEI Jitong!

Then, she would still be the young mistress of the Chi family. She was Chi Yang's biological mother and Nangong Nuannuan's mother-in-law. Even Feng shengxuan, the heir to the nice family, had to address her as 'Auntie'! he would have unlimited honor!

but now, she had nothing.

Her mother had died long ago.

His father chuckled and did not mention that old thing. If he hadn't thrown her onto this planet, if he hadn't crippled her 3S level Foundation, she might have already become a person who could command the world with her own ability.

Zhou ruxue's mouth was gagged, and those people were punching and kicking her.

She wanted to struggle and call for help, but no one helped her.

This was a house with 12 people. Even if a few people didn't come up to beat her up, they just hid by the wall and watched her being abused without offering any help.

Zhou ruxue wanted to talk about her countless backgrounds, but her mouth was tightly blocked by people. They even used tape to seal her mouth. Her hands were also tied.

The soft grunts could not attract the attention of the prison guards outside.

she felt as if a part of her body had been broken when the burly man's foot fell. After a burst of pain, she could feel her stomach bulging.

Those people continued to kick her until blood gushed out of their nostrils. Most of them stopped kicking out of fear.

Someone removed the large tube of adhesive from Zhou ruxue's mouth and the rope around her hands. Then, they pulled out the towel and newspaper that were stuck in Zhou ruxue's mouth.

When everyone saw that the thing they pulled out was filled with pus and blood, they were shocked.

They just wanted to teach this newcomer a lesson and make her be more obedient and not act all high and mighty. Who knew that she would start coughing blood?

"We just want to teach you a lesson. If the prison guards ask about it later, just say that you're crazy. If you dare to Sue us, we'll make sure you suffer in the future."

Zhou ruxue was very scared, and she curled up her body into a ball.

She had never been in so much pain before. Perhaps Yingluo was in so much pain when her father abandoned her and took away her Grade 3S talent?

However, she was too young at that time and had no memory of this at all.

Although her father didn't treat her well, Lin Siqian was very good to her.

It was really very good!

she was even better to her than her mother.

She could have been best friends with Lin Siqian for life, but she had fallen in love with a man who only had eyes for Lin Siqian and no one else.

If she had known that she would meet other good men by following Hiroshi chizawa, perhaps she would not have harmed Lin Siqian back then.

That way, she would be able to settle down in dizhou through Lin Siqian. Then, she would have her own child.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2642

2642 Regret (1)

Chiyang Union was her closest nephew. With Lin Siqian's help, Hiroshi chizawa would not have died.

Their family could live happily together.

It wouldn't be like now, when Lin Siqian was taken away. She thought that after Lin Siqian left this planet, he would fall in love with her. However, a fake marriage was a fake marriage. In order to give Chi Yang a complete family, he wanted her marriage but never looked her in the eye. Why did all these years cause her mentality to collapse and her heart to die long ago?

She was too empty and lonely, which was why Pei Jitong's soul had left her.

Thinking back, she had really made one wrong step and then all the wrong steps!

Zhou ruxue vomited large mouthfuls of blood, and the female prisoners who had hit her all swayed.

The few people who had been standing at the door and did not join in immediately joined forces. They called the prison guards and reported the people who had hit them.

Seeing Zhou ruxue spit out so much blood, the prison guard knew that she was in a bad situation and quickly called the prison doctor.

By the time the prison doctor arrived, Zhou ruxue was still bleeding, but her body had already stopped moving, and her pupils had started to dilate.

The prison doctor examined Zhou ruxue's body and pressed on her internal organs. When the chest compressions reached the liver, more blood gushed out of Zhou ruxue's mouth.

The prison doctor looked at her pupils and shook his head at the prison guard. "It should be a ruptured liver with massive bleeding. He's beyond saving."

The prison guard glared at the group of prisoners who kept quiet out of fear and said to the prison guards behind him, "Interrogate everyone in this cell separately. I'll immediately report this."

"Is there any need to save her?" he asked the prison doctor.

"There's nothing else. Judging from the amount of blood loss, he would be dead by the time he was sent to the hospital."

alright, " the prison guard nodded. carry her out first. We'll report it after she's dead.

"Alright," he said. The prison doctor waved his hand, and a few prison guards who were already waiting at the door came in.

They already had a stretcher in their hands, and one of them lifted Zhou ruxue's arm while the other lifted her leg. They then threw her onto the stretcher.

Yes, it was thrown.

Although Zhou ruxue couldn't speak at this moment and her pupils had started to dilate, she could still feel it.

her body was still in pain. she still remembered everything and was still extremely afraid.

She opened her mouth a little and wanted to ask the prison doctor to send her to the hospital as soon as possible. She could still be saved because she was from another planet. She would definitely survive.

However, the two men carried her and threw her on the stretcher.

In her daze, Zhou ruxue could only vaguely see the ceiling moving. It didn't move for long before she was placed in a dark room.

Zhou ruxue could almost feel her body becoming heavier and her soul becoming lighter. She was extremely terrified and opened her mouth to call for help. But she couldn't say anything, and the prison doctor could only see her mouth opening and closing.

Blood continuously flowed out of her mouth, but it gradually slowed down. However, Zhou ruxue still felt like she was on her last breath.

However, Zhou ruxue could only blame her bad luck. Although they were both humans, the planet where they could cultivate was actually slightly different from the one on the glory planet.

Take Zhou ruxue for example. As long as her heart wasn't damaged, a bleeding liver wouldn't be enough to kill her immediately.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2643

2643 Zhou ruxue's death (2)

as long as someone injected spirit energy into her body at this time and allowed her liver to recover quickly, she could actually continue to live.

even if she could not repair her liver quickly, she would die slower than the average person. As long as the prison doctor could send her out in time, receive a blood transfusion in the hospital, and undergo surgery to repair her liver, she would still be able to survive.

However, how would the prison doctor know that she was an alien?

Everyone only estimated how long she could survive based on the amount of blood she had lost and the fact that her liver was damaged, which delayed Zhou ruxue's most precious treatment time.

Zhou ruxue was lying on a stretcher, which was placed on the ground in the storage room.

There were all kinds of rusty medical equipment in the storage room. Due to the loss of blood and the darkness of the room, Zhou ruxue felt like her body was covered in ice.

on her deathbed, she recalled her life.

In the end, she concluded that she might really not have been born in this world!

She was not blessed at birth and could not get what she wanted. Her mother threw her away like garbage to the men in the mountain village.

But in general, fate still favored her.

She had met her sister, Lin Siqian.

However, perhaps her mother's despicable and sinful blood flowed in her bones, so even though her sister treated her with all her heart, she still betrayed her for a man.

After that, fate had given her countless choices, but she had avoided every step perfectly and correctly.

So now, she was getting her retribution, right?

Zhou ruxue recalled the female prisoner who had gone out to answer the phone. She didn't need to guess to know who wanted to kill her.

At this moment, after giving up her title of being the wife of a rich and powerful family, the title of Chi Yang's mother, and losing everything, even her life, Zhou ruxue's mind suddenly became clear.

The PEI family had only ever used her.

At that time, old master Chi had already severed ties with old lady PEI. Only by getting her, Chi Yang's mother, could old master Chi use her to get close to the Chi family after his death.

The PEI family had always wanted to rely on the Chi family. They had been good to her for 17 years just to build a relationship with the Chi family again.

She was stupid enough to think that PEI Jitong really loved her. It was to the extent that she felt that Chi Yang was not her own child, but the child of the woman she was jealous of and who brought her an unfortunate marriage. That was why she was not good to Chi Yang.

Now that she thought about it, she had been able to live peacefully in the PEI family for the past 17 years because of her relationship with Chi Yang.

Sadly, it was too late for her to react.

The PEI family must have gotten someone to kill her because they were angry at her for being a fake.

Sadly, she had always thought that PEI Jitong loved her.

It was sad that she had always thought that even without Chi Yang and the Chi family, she would still be able to live a very happy life.

One day, when the Chi family really ignored her, Chi Yang really couldn't bear to see her anymore. She couldn't even live for three days in this world.

Two streams of tears fell from her eyes. After regretting for an hour and a half, Zhou ruxue finally stopped breathing.

the prison doctor and prison guard were both surprised by zhou ruxue's tenacious vitality and felt a little sorry for her.

If he had known that Zhou ruxue only died after an hour and a half, he would have sent her to the hospital when she vomited blood.

However,

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2644

2644 What does it have to do with me (3)

Since he was already dead, the guardsmen definitely couldn't push the responsibility onto him.

The remaining 11 guards were already under control. From the large population, they could basically determine who the mastermind was.

Zhou ruxue's liver had been kicked by the female prisoners, causing her to die from internal bleeding. It had nothing to do with the prison.

The guards immediately informed the PEI family of Zhou ruxue's death. After all, Zhou ruxue was the young mistress of the PEI family.

However, after PEI Jitong received the call, he said that he had already divorced Zhou ruxue. Thus, he didn't plan on taking Zhou ruxue's body away, nor did he plan on pursuing this matter.

The guards were stunned. They had no choice but to report this to the higher-ups and report this matter to the Chi family.

In the hospital, Nangong Nuannuan had been taking care of Chi Yang.

Chi Yang's every move would be monitored by his wife.

His wife was a gentle but strict doctor. Under her supervision, he had to sleep when it was time to sleep, and even if he couldn't sleep, he had to close his eyes. When it was time to drink water, even if you were not thirsty, you had to drink water. This was because his wife said that humans were made of water. If you wanted to recover quickly, you had to replenish your cells with water.

Although Chi Yang didn't feel that he was that pampered, who asked him to be a man with a wife now?

Now that he had a wife, he had to listen to his wife.

After the combat Department, the wife was the most important.

Chi Yang was quite good at putting himself in his place, and he simply listened to his little girl's words.

Feng shengxuan, who had been watching over Chi Yang, couldn't help but roll his eyes.

Previously, he had thought that Chi Yang had used some incredible means to deal with his Nuannuan. In the end, this person was just a typical Lackey.

Seeing how obedient he was to Nuannuan and how he looked like the most beautiful wife in the world, Feng shengxuan wanted to pick him up and give him a good beating.

Nangong Nuannuan was reading the top searches on Weibo to Chi Yang on her phone. As she read, she liked to mock Feng shengxuan, making him so angry that he was fuming. Suddenly, his phone rang.

It was Chi Yang's phone. Nangong Nuannuan glanced at the incoming call and picked it up.

Hello, is this miss Nangong? "

Nangong Nuannuan raised her eyebrows. Was the person calling brother chiyang looking for her?

"It's me, who is it?"

"Hello, I'm the director of the Shengzhou guard station. It's like this, Ms. Zhou ruxue had a conflict with a prisoner in the same room at the detention center, and she got her liver kicked by the prisoner. Now, Yingluo is dead."

The Bureau chief was still very worried. after all, he had heard that although zhou ruxue wasn't chi yang's biological mother, she was his aunt and was related to him by blood. He was afraid that this Lieutenant General was just angry and threw her aunt into the detention center. What if she thought things through? after all, they were still family. Maybe he would forgive her?

However ...

"Why did you call us if she's dead?"

The director was at a loss for words. After thinking for a long time, he was about to say something when Nangong Nuannuan said, " "Zhou ruxue is the PEI family's young mistress. You should call the PEI family and ask them to come and collect her body."

Chi Yang was lying on his bed, looking at his wife on the phone. He wasn't surprised to hear that Zhou ruxue had died.

He knew very well what kind of family the PEI family was. When the Chi family gave up on Zhou ruxue, she would be completely abandoned by the PEI family.

however,

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2645

2645 Feeling uncomfortable (4)

The PEI family was as ruthless as ever.

“Miss Nangong, we called the PEI family as soon as we could, but the chairman said that he divorced Zhou ruxue a long time ago, so she’s no longer a part of the PEI family. The PEI family won’t bury her.”

“The PEI family isn’t willing to collect Zhou ruxue’s body, so you’re calling me?” Nangong Nuannuan smiled, but it did not reach her eyes. She asked, “Do you think the Chi family or the Nangong family is a shelter?”

The Bureau chief’s forehead was covered in sweat as he said, “I didn’t mean it that way! I was just thinking that Zhou ruxue used to be a member of the Chi family, and that she had been Lieutenant General Chi’s mother for so many years.”

“Inspector, I think you might not have paid much attention to Weibo. Zhou ruxue had only been the Chi family’s daughter-in-law for nine years, but she had been the PEI family’s daughter-in-law for seventeen years. Now, even the PEI family doesn’t want to collect her corpse. Why did you think of calling our family? Also, she’s been my husband’s mother for so many years, but my husband has never drunk a mouthful of her milk, nor has he ever received a day of her raising. Moreover, they had already severed their mother-son relationship 17 years ago. Therefore, even if they are not related by blood, they don’t exist.”

“Yes, yes, I didn’t think it through.” The director was sweating profusely as he nodded repeatedly.

He was only thinking that since Zhou ruxue was dead, someone had to take over. However, he didn’t expect that neither side would take over and directly hand over this hot potato to the guards.

But the key was Wufu.

“It’s like this, miss Nangong. Zhou ruxue was kicked to death by a female prisoner in the prison, and there’s a murder case that you need to give Zhou ruxue an explanation for. Do you want to interfere?”

“She’s not even a part of our family, so why should we participate if she’s dead? There are so many murder cases in the world, I can’t be involved in all of them! I’m not their defense lawyer.”

Nangong Nuannuan hated Zhou ruxue to the core.

She had only found out in the past two days that her good brother chiyang had actually been abused by Zhou ruxue when he was young.

In addition, brother chiyang had suffered such a serious injury this time. Her heart ached so much that she couldn’t even bear to touch him. This vicious woman had actually poisoned the chicken soup.

Nangong Nuannuan would not have been angry about other things. After all, it was all in the past. However, she could not forgive this woman just because of these two points.

He had originally wanted to wait until this matter was over before messing with her and making her suffer for the rest of her life. However, she didn't expect someone to be even angrier and more hateful than her, to actually use such a clumsy method to do her.

Nangong Nuannuan felt very uncomfortable about letting Zhou ruxue die so easily. Therefore, she was in a bad mood when she heard that Zhou ruxue had died.

And now, he wanted her to collect Zhou ruxue's corpse and even wanted the Chi family to fight a lawsuit for Zhou ruxue?

She was still depressed that she hadn't been able to step on Zhou ruxue before she died.

The director understood the Chi family's intention and said, "yes, yes, i understand. This Zhou ruxue only had herself to blame. Since she had some connections with the Chi family, we called to report this to the old Marshal. But the old Marshal gave me this number directly and asked me to ask for your opinion. That's why I'm calling you. If I have offended you in any way, I hope miss Nangong can forgive me."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2646

2646 In the past (1)

Nangong Nuannuan calmed the anger in her heart. Knowing that the guards did not do anything wrong, she said, "It's nothing. It's your duty to ask. But now, our intentions are clear. If the PEI family doesn't collect the corpse, then you can deal with it as you see fit."

"Alright, alright. then we'll just drag her to the funeral parlor and cremate her."

"As you wish."

Nangong Nuannuan hung up the phone.

She didn't feel that Zhou ruxue's matter was worth wasting a minute.

After hanging up the phone, he looked at Chi Yang, whose eyes were full of profound meaning, and revealed a happy smile again. "brother chiyang, i'm going to perform acupuncture on you."

With that, he put down the phone in his hand and prepared to take out the silver needles to give Chi Yang acupuncture.

However, Chi Yang grabbed Nangong Nuannuan's hand and said, "I still want to listen to Weibo."

For the past two days, Nangong Nuannuan didn't allow Chi Yang to speak or move. She was the one who usually spoke. If he had to move, she would help him clear his meridians with silver needles and massage his muscles to prevent his muscles from deteriorating after lying down for too long.

This was the first sentence Chi Yang said in two days.

After all, Zhou ruxue had been brother chiyang's mother for 26 years. No matter how well she treated him, she was still special to him.

Even though he knew that she was not his mother, her death must have had a certain impact on him.

She wanted to let brother chiyang calm down and digest this matter. That's why she said to give him acupuncture.

however, looking at big brother chiyang's expression, zhou ruxue's death didn't seem to have any effect on him.

And that was the truth.

When he was young, Chi Yang couldn't understand why Zhou ruxue would always hit him whenever his grandfather and father weren't around. He had already been very obedient, but Zhou ruxue would still hit him.

In the beginning, he was still very sad. he felt that other children's mothers were very good to their babies, but his mother always liked to be fierce and hit him.

After a long time, when scolding and beating became a habit, he no longer had any expectations for his mother.

The child was crying so miserably because he was hurt. in a real fight, even a little bit of blood wouldn't hurt much, because they recovered quickly. That was why he cried at the beginning, only because he was sad.

After that, he didn't have any expectations and treated Zhou ruxue differently in front of his grandfather and father. He had already seen through her. She could tell that her father was nice to her grandfather and him, but not to Zhou ruxue.

As such, when Zhou ruxue hit her, he wasn't sad anymore.

After all, his father was always right in his heart. If his father did not treat his mother well, it must be his mother's fault. And he really felt that there was something wrong with his mother.

later, when he grew up, he was nine years old, and he would not cry because his mother hit him. He had always been indifferent to this mother of his.

After that, his father, whom he admired the most, died. At his father's funeral Hall, his mother actually hung out with his great-aunt's uncle without a single piece of clothing.

because of zhou ruxue's terrible treatment when he was young, coupled with the grief of his father's death, and his mother's disgusting actions at his father's funeral, chi yang was filled with disgust and loathing towards women.

After seeing Zhou ruxue rolling around with another man, he had a high fever that even turned into meningitis.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2647

2647 Take care (2)

Although he had recovered under his grandfather's careful care, from now on, whenever he saw women, especially those who showed good feelings for him, he would have goosebumps all over his body and feel nauseated.

If anyone really touched him, he would have rashes all over his body, vomit, and diarrhea. In serious cases, he would even have a fever.

And all of this was because of Zhou ruxue.

Although he was ashamed of Zhou ruxue, he couldn't escape the fact that he was her son. This fact was like a shackle to him.

Like his father and grandfather, he was a self-disciplined and self-respecting person. He could not tolerate his mother being that kind of person. So, when he found out that Zhou ruxue wasn't his mother, he felt as if he had been freed from his shackles.

In fact, he was glad that this woman was not his mother.

So when he heard that this woman was dead, Chi Yang found that his heart didn't have any fluctuations.

On one hand, Zhou ruxue's death was within her expectations. After all, it was not a good thing to ask for the Tiger's skin. Moreover, when the Tiger found out that the prey it had spent so much effort to catch could not be eaten, the fate of the prey could be imagined.

On the other hand, Zhou ruxue wasn't even a mother to him. Now that they weren't even related by blood, she was just a stranger to him.

He could have protected her from harm. However, Yingluo

why?

This woman had caused his parents to be separated and their family to never be able to be together. However, she had used their family to live a good life for so many years. Even if he was the Commander-in-Chief of Flying Eagle, he would not be willing to save such a woman.

If he died, then so be it.

Zhou ruxue's death didn't cause any emotional fluctuations in him. The one who caused this was his little wife.

His wife was the best girl in the world. With her personality, if it wasn't for the fact that Zhou ruxue had been involved with the Chi family for so many years and was indeed related to him, she would've definitely made Zhou ruxue wish she was dead.

She had been holding it in for so long, and she couldn't help but scold the station chief when she was on the phone just now. Now, she had to take his feelings into consideration and stop telling him about the comical comments on Weibo and let him have some peace and quiet.

In fact, he was only looking at her because he was grateful to her, not because he was in a bad mood.

Nangong Nuannuan looked at her brother chiyang, who was indeed fine, and her mood brightened up. She continued to chat with him about how badly the PEI family and PEI Xiyu had been scolded.

He didn't know if it was because the content was really funny, or if Chi Yang thought that his wife's story was funny, but in short, Chi Yang's eyes were full of laughter.

Nangong Nuannuan saw that Chi Yang's mood was still very good, and she gradually relaxed.

"brother chiyang, it's time for the acupuncture."

when it was time for acupuncture, nangong nuannuan put down her phone and looked at chi yang.

Chi Yang nodded slightly. His deep eyes had not left her for even half a second since he opened his eyes.

Nangong Nuannuan lifted the thin blanket on Chi Yang's body and used distilled water to wipe the area where he needed acupuncture. Then, she took out a silver needle from her bracelet.

from the head to the neck, to the arms, chest, abdomen, legs, all the way to the soles of the feet, there were silver needles.

although there were not many silver needles, there were only about 70 in total. it was much less than those who had to insert more than 200 needles just to slim down their faces.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2648

2648 nuannuan in a bad mood (3)

However, if an old Chinese doctor Who knew acupuncture was here, he would definitely be shocked.

This was because the places that Nangong Nuannuan had stabbed into Chi Yang's body were called Dragon's caves.

The so-called Dragon's acupoint was also known as the fierce acupoint. Once it was stabbed, even if it was just a slight mistake in one acupoint, the five senses would be damaged at the least, and in the worst case, it could even lead to blood vessel rupture and death.

However, Nangong Nuannuan had directly inserted needles into more than 70 of these acupuncture points. She had practically inserted needles into every Dragon's acupuncture point in the human body.

however, after the silver needle was inserted, chi yang felt that the blood in his body was circulating much faster. his meridians, which were previously blocked and felt sore, were suddenly cleared up under the impact of the blood flow.

Although the moment of impact was very painful, after the impact, what followed was the comfort of that place.

Nangong Nuan Nuan placed the hot water she had prepared earlier on the side and gently wiped Chi Yang's sweat whenever he was in pain.

Half an hour later, he retrieved the needles.

Chi Yang realized that there was a sequence to taking out the needles. it was not from top to bottom, or from bottom to top.

The only person in the world who could use acupuncture to this extent was his wife.

Even though Chi Yang's entire body was in pain and covered in sweat, he was in a very good mood.

Feng shengxuan didn't want to say anything when he saw how stupid he was.

He didn't want to admit that the girl he had fallen in love with had fallen in love with a fool.

He didn't want to admit that his cousin was an idiot.

While she was performing acupuncture on Chi Yang, she received another call from the detention center. Nangong Nuannuan finally returned the call.

"Miss Nangong, it's me again, the director of the detention center who called you just now. Previously, when Lieutenant General Chi was rescued, you asked the combat Services Department to capture a woman. Now, this person had been in the detention center for three days. Every day, she would say that she did not do anything wrong and wanted to go out. In addition, her relatives also came and said that if we continue to detain her, she will Sue us. As you know, those without any charges will only be locked up for 48 hours at most. She's been locked up for 72 hours, so we want to ask if there are any charges that can keep her locked up."

"There is. Does the crime of killing the commanding officer of Kamino's Flying Eagle Special Forces count?"

"It counts! of course it counts!" The warden didn't expect this woman to be guilty of such a serious crime. He immediately said, " then we'll keep her in custody until you bring out the evidence to Sue her.

"Yes." don't worry, " Nangong Nuannuan said. I have enough evidence. You can keep her here for now. You don't have to tell her and her family when they can leave.

"Alright," he said.

Nangong Nuannuan hung up the phone and met Chi Yang's questioning gaze. it's the woman who stole your Jade. I've had her arrested. I've decided to leave her alone until you've completely recovered.

"Yes." looking at his wife's indignant little face, chi yang couldn't help but smile and say a word.

"big brother chiyang, do you feel any better now?"

After 15 minutes, Nangong Nuannuan saw that Chi Yang's body and forehead were no longer sweating, so she asked.

It wasn't just a little better.

Chi Yang felt that his body was much better after the acupuncture.

He nodded and looked at his wife gratefully.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2649

2649 Brain breakthrough (4)

“Because my heart was heavily injured, the heart muscle isn’t contracting well. The amount of blood contracting is different, so my entire body’s telepathy is not good. Some blood vessels had less blood, but there was more blood where the concentration was not the same. It was easy to form blood clots, and it was easy to feel uncomfortable in the heart because of lack of blood. after the injection, the blood could burst open the blocked blood vessel walls and make the blood flow even.

However, the injuries on your body won’t heal in a short time, so in order to prevent your blood vessels and meridians from being blocked, we have to perform acupuncture and massage every day.”

“Yes.” Chi Yang nodded and made another sound.

Anyway, whatever his wife said was true. he was already a man with a wife, and everything he owned belonged to his wife.

Including his life.

then I’ll give you a massage now.

chi yang nodded.

Nangong Nuan Nuan covered Chi Yang with a thin blanket so that he wouldn’t catch a cold after wiping his body with a hot towel.

After helping him cover his entire body, Nangong Nuannuan took out a bottle of essential oil from the drawer at the side. It was the result of Angel pharmaceutical’s research.

Nangong Nuannuan poured a few drops on her palm and rubbed them together. Then, she placed her palm, which had already been rubbed, on both sides of Chi Yang’s temple.

Smelling the faint fragrance of the essential oil, the fragrance of his wife’s palm, and the faint warmth on her palm, Chi Yang felt very comfortable.

The moment Nangong Nuannuan’s hand touched his temple, Chi Yang closed his eyes comfortably.

Nangong Nuannuan knew that he was not asleep, so she continued to massage him as she explained, “This essential oil was developed by our Medical Research Institute. It had the effect of clearing the channels and collaterals and eliminating fatigue. Although I’ve let you catch up on sleep for two days, your body was overdrawn previously. Using this kind of calming massage on your head will make you feel more comfortable.”

After rubbing her temples for 10 minutes, Chi Yang felt that her body was a little light. Listening to her faint voice, she felt drowsy.

After rubbing her temples, Nangong Nuannuan moved her hand slightly again. With her Baihui acupoint as the center, she slowly moved her hand toward her Fengchi acupoint.

chi yang only felt an extremely comfortable feeling in his head. he had only opened his eyes for less than two hours, and with this gentle massage, he couldn’t help but fall asleep again.

Chi Yang couldn't see or see through things, so he didn't know that after Nangong Nuannuan had pressed two of his acupuncture points with a special method, a vortex had formed between them.

When he pressed on the third acupuncture point, his entire brain seemed to be pulled by a force, and the vortex kept expanding.

Even Nangong Nuannuan could only vaguely feel a stream of air flowing through her brother chiyang's brain as she pressed on his head.

However, this thing was too mysterious. It was transparent and invisible.

She could feel it because she could see some of the larger cells slowly circulating in her brain.

What she couldn't see was that those extremely small cells were slowly activating the other parts of the brain through the flow of this air.

the human brain was developed between 8 to 11 percent.

Humans who only developed 8% of their brains were almost mentally retarded, mentally handicapped, or born with brain development.

And those who had developed their brains to 11% were the top scientists on the planet with superior intelligence.

In other words, every one percent of the brain's development was an incredible thing for humans. This was also a difficult problem that the human genes were trying their best to break through.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2650

2650 shaking hands (1)

What Nangong Nuannuan didn't know was that even though Chi Yang had almost lost his life, he had been carefully protected by Nangong Nuannuan after he had been injured. In addition, Nangong Nuannuan had been giving him acupuncture every day when he was at his weakest. Although Chi Yang's body was still extremely weak, everything was starting over again in a different way.

The unique massage, coupled with the highly penetrating despotic essential oil, caused Chi Yang's brain neurons to form an invisible vortex.

Although the vortex was not large, it was like the gravitational force and tidal force generated when the earth rotated, which could move the moon. The rotation of the sun's gravitational and tidal forces could move the eight major planets of the solar system. the milky way also relied on such gravity to group hundreds of billions of stars together.

nangong nuannuan couldn't see that when the small vortex was spinning, it had triggered some undeveloped brain neurons. And the driving and operation of these neurons would directly affect the development of Chi Yang's brain.

Nangong Nuannuan didn't realize this.

She only knew that this kind of massage was very good for her brother chiyang.

She had fallen asleep again.

The patient had to sleep more to recover.

Although Nangong Nuannuan was still in the middle of her massage, Chi Yang had already fallen into a deep sleep.

After massaging her head, Nangong Nuannuan shifted the pressure point to her neck and shoulders.

Originally, massaging the Shanzhong point on the chest at this time would be more beneficial for the recovery of the heart muscle. However, because of the serious damage to the pericardium and the fact that it had just undergone a major surgery, Nangong Nuannuan had skipped this acupuncture point. He could only wait for it to heal by itself.

However, she first took out Chi Yang's arm and applied the essential oil on her hand. Then, she gently pressed on every nerve and Meridian on his arm.

After all, he had been trapped underground for a long time and had been carrying the weight of more than ten floors with both hands. At that time, the collapsed building didn't fall down, but sat down in a special way.

It was like when a person fell, he did not fall to the side, but directly sat down. It was equivalent to most of the weight of the entire building collapsing towards the ground.

Even though big brother chiyang had not made a single sound of pain since he woke up, his hands had been shaking for a few days.

she saw that he clenched his fists most of the time to stop his hands from shaking, but she really wanted to say that it was useless.

It was like a rubber band that was stretched to the maximum and then kept being stretched like this. When it was about to break, it was suddenly released. If it was not carefully taken care of, this rubber band would never be able to return to its previous state.

therefore, after chi yang's life was saved, nangong nuannuan would need to clear the blocked meridians in chi yang's body in the next few months.

If necessary, when his pericardium injury was healed, he would still need to undergo surgery to repair his meridians.

However, Nangong Nuannuan was still 80% confident that she could use acupuncture and massage to repair Chi Yang's meridians.

Although she was a little tired, she was happy as long as brother chiyang didn't get stabbed.

With her x-ray vision, Nangong Nuannuan was carefully combing through the blocked and damaged meridians on Chi Yang's arm.
