2661 Underestimating the enemy (4)

“Dad, what did he say?” ning haohan was also anxious.

“He said that if we dared to lay a hand on the Nangong family, he would not let us off, let alone Nangong Nuannuan. He even said that if they messed with Nangong Nuannuan, they wouldn’t even know how they died. He also said that if the ning family collapses, don’t go and beg him, it’s no use!”

“ha! Who did he think he was? Beg him? Our ning family isn’t so down and out that we have to beg him! He’s just Chi Yang’s dog, what right does he think he has to make us beg for him?”

Xiao Yushan’s son, ning Wenqi, had always hated ning Wenhao, because it was ning Wenhao’s mother who had stolen all of his father’s love. especially after finding out that he wasn’t his father’s son, but the illegitimate child of his mother and qianqian’s grandfather, and that ning wenhao was the vice chairman of eagle eye group, the jealousy and hatred in his heart became even more obvious.

Now that she knew that ning Wenhao had actually spoken to her grandfather in such a manner, the anger in her heart almost shot to the sky.

“Grandfather, since ning Wenhao and Nangong Nuannuan don’t take us seriously, what else do we have to worry about? just post the nangong family’s scandal on the internet and see how many mouths they have to explain to the public.”

Elder ning looked at ning Haohan. After all, he was the chairman of the Ning Wen group. “haohan, what do you think of this?”

Ning Haohan was also angry. father, it was Nangong Nuannuan’s fault. They forced us into a dead end. since we’ve already come this far and the auditors have already found out about it and even reported it to the president, it doesn’t matter whether I read it or not. Since he had already done it, he might as well be more ruthless. Since Nangong Nuannuan is not willing to shed a layer of skin, we can only scrape off a large piece of her flesh.”

“That’s right, Grandpa, third uncle is right. since we’ve already come this far, there’s no need to care so much. Nangong Nuannuan and the Nangong family were indeed powerful and not people the ning family could afford to offend, but who asked them to offend us this time? as long as we can ensure that the hacker we find is not a problem, this matter will definitely not be exposed. Unless Nangong Nuannuan had the world’s best hacker in her hands. But even if they do, they might not be able to find out.”

“Dad, don’t worry about that. The hacker I found is the world’s top hacker. There are only two or three people in this world who can do better. They can’t possibly just get the two top hackers in the world to help them, right?” Ning Haohan promised.

“Then what if Yingluo really managed to get those two or three hackers? I heard that Chi Yang himself is a hacker.”

"Him?" he's indeed very powerful, " ning Haohan sneered. but he's still not as good as the person I've found as a hacker.

"But I heard that there's a very powerful hacker in Eagle." Elder ning was still a little apprehensive. After all, ning Wenhao's words had left a deep shadow in his heart. If what ning Wenhao had said was true, then if the nings continued to anger Nangong Nuannuan, they would really die.

"The most powerful hacker in Eagle is none other than the famous Huang zichu. However, he was already dead. After that, there was no other hacker that could be as famous as Huang zichu. Dad, don't worry. The person I'm looking for, even if Huang zichu was alive, he would be on par with him. Do you think that Flying Eagle can find someone as powerful as Huang zichu? He's a top-tier hacker, not a cabbage."

2662 Pig teammate (1)

"That's right, grandfather. Ning Wenhao has never treated us as family because he has a good relationship with Chi Yang. Why should we treat him as family? What's the big deal if you don't succeed?" Ning Wenqi had long wanted to trample ning Wenhao under his feet. At this moment, his heart was filled with jealousy. As long as he could make ning Wenhao suffer and stop him from feeling so superior in front of him, he didn't care about anything.

Elder ning's heart ached for his youngest son the most. He loved this old son from the bottom of his heart. That was why he had never liked ning Wenhao. It was all because ning Wenhao was just the child of an illegitimate woman, and now he was stepping on his son.

In elder ning's eyes, his son was already outstanding enough.

"Alright!" Elder ning decided,"since you've all said so, I'll get someone to announce the news." At that time, it will definitely cause a backlash from the Nangong family. If something really happens, we'll admit it. "

"How could there be an accident? If the Nangong family didn't fall after what happened, and we were the ones who got into trouble, then it would be unforgivable." Ning Wenqi's eyes were filled with the madness of destroying others.

At this moment, he had already won. There was no possibility of failure.

There were so many citizens in Kamino. As long as they were in the limelight, even if the president and the legal system couldn't punish them, they would be drowned by the public's saliva.

Elder ning was actually waiting for Nangong Nuannuan to give in. In his heart, nothing was more important than the Ning Wen Corporation. He believed that Nangong Nuannuan simply did not believe that the ning family had the guts to do so. Once she was attacked by the entire nation, he would like to see what this woman could do.

after the main members of the family had reached an agreement, elder ning didn't even tell the eldest branch and just made his own decision to let someone post the matter on weibo.

He thought that the fewer people who knew about this, the better. So even if the Shi family was their ally, the ning family didn't say a word.

The ning family and the Shi family had reached an agreement to take the money of the major consortiums as their own donations, and the accounts were perfectly balanced.

So, whether it was his own family or the Shi family, he didn't say a word.

If he told them, ning Haoran and the Shi family would stop him immediately. They would scold him a hundred times for reporting to the president without discussing with them.

After all, ning Haoran was the general of the combat Services Department. Even if he was not from Flying Eagle, he knew that the reason why flying Eagle and the combat Services department's network was so impenetrable was because Flying Eagle had experts who could prevent the most important thing in Kamino from being breached.

As for the Shi family, it was even more so. If Shi Yalin were to find out about this, she would probably give elder ning a tight slap.

He wanted to eliminate this old man who would be eliminated one day in advance so that he wouldn't harm the Shi family.

However, Shi Yalin was just unlucky. Not only could he meet god-like opponents, but he could also meet pig-like teammates.

by the time the matter on weibo had completely fermented and caused a national uproar, it was already too late for the shi family to help.

When elder ning had gotten someone to report this matter, he had originally wanted to hold back a trick.

[My Sweet Physician Wife Calls The Shots](#)

2663 Divorce, divorce, divorce (2)

He had only wanted to report this matter, but he had used a 'suspected' method to attract everyone's attention and cause panic in the Nangong family. Then, he would determine whether he should continue with the matter through Nangong Nuannuan's attitude.

In any case, elder ning's goal was to scrape some flesh off Nangong Nuannuan.

As long as he could eat meat, old man ning would not dare to go too far.

In the end, ning Wenqi didn't want to let ning Wenhao off the hook. He asked the auditors to post the actual donations of disheng, Imperial Palace, and Eagle Eye on the official account. Not only that, but he also asked the auditors to release the pictures of the three groups laundering money and finally the pictures of them transferring the money back. He also attached the noble words that the three groups 'leaders had said in an interview with the reporters.

This time, the people were in an uproar.

F * ck! what did i just see? This operation is too coquettish!

[the smell is overwhelming!]

is it really okay for di mo and the Imperial Palace to do this? ”

Hehe, they are an overseas group, ranked third in the world. Do you dare to provoke me?

[even if disheng is an overseas group, what about imperial palace? What about Sheng Yang? These were domestic groups. Don't you feel guilty for doing this?]

[elder Nangong, I would like to ask you, as a highly-respected xx, if your son and granddaughter treated the people in the disaster area in such a way, would you feel embarrassed?]

[you don't even have your butt, yet you're still embarrassed?]

[previous poster, be careful not to get touched by such bone-piercing words!]

If you have the guts, come and catch me! MLGB! So what if I said it? You have the guts to do such an immoral thing, but you don't have the guts to accept everyone's spit?]

I propose a collective boycott of all products under disheng, Imperial Palace, and Shengyang group! [I'd like to see, without the support of the people, how are these companies going to continue to be influential and how are they going to become the number one family in Kamino!]

[yes, firmly boycott it!]

who knows what companies and products these three groups have? Let's popularize it!

very quickly, all the companies and products under the three major groups, disheng, imperial palace, and shengyang, were exposed.

The moment it was exposed, more than 200000 people reposted the message.

[everyone, don't forget to throw rotten eggs and vegetable leaves at them when you pass by!]

Rotten eggs and rotten vegetable leaves? are you insulting rotten eggs and rotten vegetables? They should have splashed the feces directly into their magnificent lobby!

[Lieutenant General Chi, your wife is so black-hearted, do you have anything to say?]

Whenever I think about how this woman has tarnished my idol, I can't help but want to disfigure her. If she's disfigured, my idol Chi will definitely not want her anymore.]

[don't make it sound so superficial, okay?] I'm still lying in the hospital even after eating boys. My man is really a hero who is willing to give up his life for the people. He just didn't know that he was blind enough to marry a rubbish woman.]

Is the referee blind? Pay attention to your words, okay? That woman always flaunted herself as being kind, considerate, selfless, and powerful. Plus, she was really good-looking. I want to ask, which one of us hasn't been deceived by her before? If you want to blame someone, you can only blame that woman's acting skills!

[by the way, this woman is so disgusting. Can we get a divorce?]

[I don't know. That marriage was approved by the combat Services Department. Do you dare to tear it down?]

.....

After the companies and products of the three groups were exposed, in less than half an hour, someone really went to the lobby of a hotel chain under the Palace Group and threw sh * t at it.

2664 I was too excited (3)

If there was one, there would be two. Very quickly, someone ran to the entrance of the same hotel chain to throw wine bottles and garbage.

as it was a mid-tier hotel chain, there were not enough security personnel. when the angry crowd gathered, a mere dozen ordinary security guards could not protect the safety of the hotel.

It was obviously impossible to hit the people, but if you didn't fight back, you could only wait to be hit.

Fortunately, five minutes after the incident, he received orders from several chairmen to close all the companies, supermarkets, and shopping malls that were attacked.

The news of Chi Yang's serious injury reached Shi Yalin at once. Shi Yalin immediately found out where Chi Yang was trapped through extraordinary means. Then, he ordered someone to successfully extract the blood from Chi Yang's body.

Shi Yalin, who had finally obtained the blood of the red sun, felt that her life was about to reach its climax and peak. She immediately threw herself into the research of mutants like a mad scientist.

Shi Yalin was called out because her research was interrupted by the president of the medical Association, the second uncle of the Shi family, Shi maocheng.

Even though she was facing Shi maocheng, Shi Yalin was still very unhappy.

However, when Shi Yalin saw the Weibo post that Shi maocheng had given her and saw that there were several Hot Searches in one go, she was not in a good mood.

Yaling, elder ning has made a move on Nangong Nuannuan. What do you think their chances of success are? "

Seeing Shi maocheng's excited eyes, Shi Yalin was so angry that she almost died.

pa! Shi Yalin threw her phone on the ground and shouted, " "Idiot! ning zhennan, this stupid pig! How did he become a first-class family today? Why didn't he die from stupidity?"

in the face of shi yalin's curses, shi maocheng replied,.....

"Yaling, do you mean that if Yingluo is like this, the nings won't be able to get to the Nangong family?" Shi maocheng asked in disappointment.

Shi Yalin gave Shi maocheng a cold smile.

“hei nangong family? Do you want me to give you a pillow so you can sleep on it and have more sweet dreams?”

Shi maocheng,

Shi maocheng furrowed his brows in displeasure at Shi Yalin’s growing temper, her growing desire to control the medical Association, and her growing influence.

Yaling, I’m your second uncle. How can you say that? ” Shi maocheng said unhappily.

Although he admitted that Shi Yalin was becoming more and more powerful, she was not as obedient as before. Ever since Nangong Nuannuan had turned her niece into a vegetable and met a powerful master, she felt that the Shi Yalin in front of her was completely different from the one she had met before, except for her looks and blood.

Shi Yalin saw the confusion in Shi maocheng’s eyes and the displeasure on his face, and her voice immediately became much more polite.

“I’m sorry, second uncle. I was too agitated and angry. That’s why he said those words. Second uncle, did the ning family discuss this with us?”

“No, I haven’t. They were the ones who had suddenly exposed this matter. I’ve already called elder ning and asked him about it. He said that the president has the same intention as well. He wants them to expose this and be condemned by the world. Even though Nangong Nuannuan and the others didn’t break the law, once this matter is exposed, even if di Xun, di Gong, and Sheng Yang don’t die, their future won’t be as good as it is now.” Shi maocheng’s mood had calmed down a little after receiving Shi Yalin’s apology.

2665 You’ll be played to death in minutes (4)

“Yaling, this is all thanks to your master. If he didn’t hypnotize the president, the president would have informed the Nangong family before this happened.”

Shi Yalin took a deep breath and said in defeat, ” “You’ve underestimated Nangong Nuannuan. Second uncle, I’ve already told you about Nangong Nuannuan’s identity. Do you have some misunderstanding about Queen? Do you guys know how powerful Queen is?”

Shi maocheng nodded and said,”you said that she’s a top-tier mercenary.” And he’s as famous as King in the team.”

However, King and KE lived in the world of the Eagle, and they usually didn’t have much contact with medical research institutions like the medical Association. So, even though everyone knew that Queen was powerful and KE was powerful to the point that all countries were afraid of them, they still had to be careful.

However, the Shi family didn't know what kind of performance this level would have. She only knew that if Nangong Nuannuan was angered, she would come to the Shi family and kill them all.

He really did not know anything else.

Shi Yalin did not say much.

this was because shi yalin was a very controlling person. in the past, she was someone who would not listen to anyone other than feng kun. Even when it came to Feng shengxuan, she was used to acting first and reporting later. This was also the reason why Feng shengxuan had never looked at her even when she was so talented.

Even when she came to the Shi family, she only wanted the Shi family to listen to her and treat them as her subordinates and money-taking machines.

To her, these people weren't her family, so she didn't need to give them her heart. as for the shi family, she had only said that nangong nuannuan was powerful and that no one in the shi family was allowed to go against nangong nuannuan.

However, the Shi family members were all ambitious. They could not accept Shi Yalin's inexplicable desire to control and mystery.

As for Nangong Nuannuan, although they tried their best to follow Shi Yalin's method, on the other hand, they really felt that the ning family had done a good job.

"Second uncle, Didn't I tell you that Nangong Nuannuan is a very good hacker?" Shi Yalin sighed helplessly.

Shi maocheng was stunned, "more powerful than the person the ning family found?" I heard that the person the ning family found is called Kahm, a world-class hacker! Nangong Nuannuan may be powerful, but is she more powerful than Camu?"

"so, why do i have to hide in the laboratory of the medical association and not dare to go out? Even if Nangong Nuannuan's hacking skills aren't as good as Camm's, Camm's not a big deal among the top hackers."

"You know Carm?" shi maocheng was surprised. After all, he had never even heard of this person.

"Not only do I know Carm, I also know that dan Qi, who is by Nangong Nuannuan's side, is more powerful than Carm by a lot. Even Feng shengxuan's Wayne was stronger than him. Nangong Nuannuan's hacking skills might not have been as good when she left KE, but did you know how fast she had grown? That woman was not someone ordinary people could compare to. That's why there's no need for danqi to show up. The ning family can play with those shameful things in minutes."

Shi maocheng broke out in a cold sweat. He seemed to have realized why Shi Yalin was so angry.

if Nangong Nuannuan manages to crack the hacker's technology, she'll be able to find out about the nings and the Shi family immediately!

2666 Shi Yalin's dominance (1)

no, I'll call ning Zhennan right now and ask him to find a way to remove those Weibo posts, and then clarify this matter.

Shi maocheng was about to make a phone call, but was stopped by Shi Yalin.

"Don't hit me!"

"Why?" Shi maocheng was so frightened by Shi Yalin that he was sweating. He looked at Shi Yalin in confusion.

things have already developed to this point. Disheng, Imperial Palace, and many other companies under the Shengyang group have been attacked. Do you think Nangong Nuannuan would just sit by and do nothing? "

"But Yingluo really didn't care!"

"that's because you don't know her," shi yalin sneered. She didn't ignore it not because she couldn't, nor because she didn't know how to deal with it. She ignored it now because she was waiting for this matter to ferment to a certain extent. Second uncle, the ning family is finished! you're calling the nings at this time, do you want the shi family to die with the nings?"

Yaling, don't scare second uncle.

second uncle, when have I ever been wrong in telling you guys? "

Shi maocheng looked at Shi Yalin in a daze. He looked at the pair of eyes on her young face that did not match her age. He suddenly felt that the world had changed. It was as if the world was no longer their battlefield.

The world seemed to have become the world of those young people.

"The ning family is a first-class family. After all, ning Zhennan was a first-class general. His son, ning Haohan, was also a general of the combat service department. The ning family's Zhenzhen won't be finished, right?"

"nangong nuannuan is a complete lunatic," shi yalin sneered. She was someone who loved her family and protected her. we bullied nan gongze back then, and you see how she got back at us? Now that the ning family has guessed her bottom line and is trying to shake the Nangong family's Foundation, do you think Nangong Nuannuan, with her vengeful personality, will let such a fly fly around her?"

"Yaling, how do you know her so well? you shouldn't have had much contact with her other than that time!"

Shi Yalin's eyes did not even blink as she said, " "Second uncle, I won't explain your question. You have to believe that sometimes, even her closest friends don't know her as well as her enemies. If you don't want the Shi family to go bankrupt with the nings, then give up on the nings. From now on, don't have any contact with them."

"Just like this? As long as we don't contact each other, it's fine?"

Shi Yalin shook her head and said in a pained tone, "prepare 3 billion to invest in the earthquake relief. I will help you transfer the money to the Shi family's press conference.

Shi maocheng's eyes widened and his voice raised. what did you say? preparing 3 billion?"

"Nangong Nuannuan will definitely find out everything about the ning family. Do you think she'll let us go? You've seen for yourself what happens when you only donate a small amount after you've told them how much you'll donate. Think about it, if the ning and Shi families don't pay a single cent, how bad and irreparable a loss will it cause to the Internal Affairs Bureau and the people?"

Shi maocheng looked at Shi Yalin in shock, unable to come back to his senses for a long time.

"Yaling, do you know what 3 billion means to the Shi family?"

"It means that the medical Association's research might not be able to continue due to funding issues," Shi Yalin nodded.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2667

2667 The Shi family digging meat (2)

"But second uncle, I don't care how difficult the Shi family is now. My research is about to have some progress, so I won't allow anything to go wrong with my project."

the Shi family has invested almost all of their money into the hospital of Medical Association. The medicine that they spent a lot of money on developing has yet to be reinvested. They're asking us to take out three billion at this time. They're digging our own flesh!

"Digging out flesh is only an injury, but not digging out flesh will kill. Second uncle, I'll immediately tell Grandpa and fourth uncle about this. Let them choose what to do."

Although Shi maocheng was the president of the medical Association, the Shi family had only risen to power through the medical Association. However, Shi maocheng exuded the sour aura of a scholar, as well as the unyielding spirit of someone who wanted to make himself proud through his knowledge. There were many times when he was not magnanimous, and the Shi family would not be able to have a high position just by relying on him. In this aspect, he was a little similar to this body's father, Shi MAODE. Although these two people were the foundation that made the Shi family powerful, they could not be compared to the old master, Shi Gen, and the fourth uncle, who was also the number 13 officer, Shi maowen.

Sure enough, after Shi Yalin explained the severity of the matter to the old master and fourth uncle, the two of them decided to donate three billion without any hesitation.

even if shi maode and shi maocheng felt that it was not necessary, if they had to donate, they could donate 3 billion worth of medicine or 2 billion worth of medicine with an additional 1 billion worth of medicine.

However, Shi maowen was firmly against it.

Although the president had been hypnotized, the Shi family's status in the public's heart had dropped drastically after the incident with LAN weisong in Haizhou.

Hence, even if he had to lose money, Shi maowen had to take this opportunity to restore the Shi family's reputation.

And this was probably the fastest way to restore the Shi family's reputation.

Three billion was a huge amount of wealth for the Shi family. This was because Shi Yalin's research was too costly. However, in order to win the election and to let the Shi family have more wealth in the future, the Shi family could still afford to lose this 3 billion. It was just that this 3 billion deficit might take a long time to make up for.

Shi Yalin personally took charge and hacked the donation amount of 3 billion into the press conference held by the Shi family.

Shi maocheng had originally planned to call elder ning and question him why he had acted on his own without discussing with the Shi family, but now it seemed that there was no need to call again. Otherwise, it would be bad if Nangong Nuannuan found out that the Shi family and the nings had been in contact before and had called each other.

"Yaling, the Shi family and the ning family were talking on the phone before. Why are you so scared?"

"Don't worry, Grandpa. I've already dealt with it this afternoon. Even if the ning family wanted to implicate our Shi family before they died, they wouldn't have any evidence."

With regards to the current Shi Yalin, Grandpa Shi was very assured. He felt that this granddaughter of his was more powerful than all his grandsons.

Originally, the daughters of the Shi family were all used for marriage, including his own daughter. But for Shi Yalin, old master Shi was not prepared to let her marry. Even if Shi Yalin were to get married in the future, old master Shi was prepared to let her find a husband.

after all, to be able to control the president, to be able to change human genes, to create superhumans, to be able to know excellent hacking skills, and not even know about the people of KE, all these were not things that ordinary people could do.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2668

2668 The ning family's peak (3)

Through Shi Yalin, the Shi family would definitely reach the peak of the family's history.

In the ning family, when ning Wenqi had trampled the Nangong family to death behind old master ning's back, old master ning had still been very angry. However, as the public's criticism grew stronger and stronger, and it escalated to a smashing incident, elder ning felt that it was sometimes good for a newborn calf to not be afraid of a Tiger.

She was not like him, who was overcautious and indecisive in everything.

Elder ning was very proud of his 'grandson's' way of doing things. He felt that this 'grandson' was similar to the one who was fearless when he was roaming the world back then. He had the drive to do everything he could.

When ning Wenhao found out that elder ning and the others had really been crazy enough to expose the news, he was about to explode in anger. He immediately called elder ning.

Seeing the old man's phone ring and seeing that the old man still wanted to pick up his call, ning Wenqi immediately refused.

"Grandpa, if he calls you at this time, he's just going to give us a good scolding. What's there to pick up?"

Elder ning thought about it and agreed.

Ning Wenhao called him at this time, so he didn't need to guess what he was going to say.

However, he had already done what he wanted to do, and his relationship with the Nangong family was completely ruined. Anyway, the nings had already taken 4.5 billion from the three corporations and moved 1.5 billion from other donations. In total, they had transferred 6 billion to his and the Shi family's accounts. they had already turned around.

In the future, without disheng, Imperial Palace, and Shengyang in Kamino, the ningwen group would definitely have greater development. and this development would definitely be more than 3 billion.

Even if he knelt down and fawned over Nangong Nuan Nuan and Chi Yang, these two people might not give him any benefits. Instead of that, he might as well take the opportunity to destroy the Nangong family and seek a new lease of life from within.

Ning Wenhao's name kept flashing on the screen. In the end, elder ning listened to ning Wenqi and didn't answer his call.

Ning Wenhao was a typical soft-hearted person. Although he never had any sense of belonging to the ning family, he was still his father's father.

He could watch the ning family be poor, and he could also not acknowledge the ning family, but if he had to watch the ning family go bankrupt, watch the ning family, a first-class noble family, be drowned in the torrent of history, he felt that he should still make a phone call and give the ning family some ideas.

Such an unreliable and resolute method, it was almost obvious that this was not grandfather and uncle's idea, but ning Wenqi and ning Haohan's idea.

The reason why the ningwen group had been going downhill all these years was due to his third uncle, ning Haohan's jealousy and narrow-minded personality.

in the past, everyone could rely on the prestige of these generals who had followed the president to conquer the world to make the family bigger and stronger. however, now that kamino had developed to a strong and democratic state, he still wanted to use the previous methods to earn big money. he did not know how to be flexible and improve himself. he always wanted to take advantage of others. this was the real reason why the nangong group had declined from almost equal financial power with the

nangong family to a state where it could not even compare to the financial power of a second-rate top-class family.

However, Ning Wen group was founded by his father, after all. Ning Wenhao could not bear to see it get destroyed.

So he made the call.

However, elder ning did not even pick up his phone.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2669

2669 you've grown old (4)

Ning Wenhao then called his eldest uncle, ning Haoran. After expressing his position in an extremely domineering manner, he asked ning Haoran to call his grandfather immediately.

after a while, elder ning's phone rang. seeing that it was ning haoran, ning wenqi sneered. " "he's calling uncle directly and asking him to teach you a lesson,"

Elder ning picked up the phone with a dark face, but before the other party could speak, he said, " "If you're here to persuade me to stop, then you don't have to. I've already done it, and I've already made an enemy of the Nangong family. You should know that there is no reason to retreat when the battle has already begun. If they didn't retreat, they might still have a chance of winning. If they retreated, they would have no chance of winning at all. And the ning family will definitely decline."

Ning Haoran was silent for a while after hearing what elder ning said.

"Dad, am I really your son in your heart?"

Some people were really just a little more reliable when Yingluo was young. At most, one could only say that she was paranoid. However, as he grew older, he became muddle-headed. In addition, no one could stop or correct his stubbornness when he was young. As a result, the older he got, the more muddleheaded and stubborn he became. He would not listen no matter what.

This made ning Haoran think of an Emperor in Kamino's history. This Emperor was a good Emperor who had made great efforts to rule the country. Because of him, the Kamino Kingdom had been invincible for a time. When the territory expanded, the courtiers would obey. More importantly, the Emperor had an outstanding Empress. Although this Empress was only his palace maid before, the Emperor loved her very much and allowed her to rise up step by step. He even made her brother the Grand Marshal.

In the end, in her later years, the demon concubine became the Emperor. In order to make way for her son, she constantly harmed the Crown Prince, causing a Rift between the Emperor and the Crown Prince. In the end, she dethroned the Crown Prince and gave the death of the Empress. A story from the past was personally crushed by the Emperor.

After the emperor's death, the youngest son he loved ascended the throne at a young age, but he only lived for 13 years. He was also a puppet emperor.

“Hey, are you even listening to me? You’re not saying anything, and you’re not expressing your opinion, so why did you call me?”

Elder ning’s words brought ning Haoran back to his senses.

“Dad,” he said. “Please kick Xiao Yushan and her son out,” ning Haoran said.

“What did you just say? Yushan is my daughter-in-law, and Wenqi is my grandson. They are all part of the ning family. Why should I kick them out? Are you crazy?”

Xiao Yushan and ning Wenqi were surprised by elder ning’s words, but they also hated ning Haoran.

“Dad, you’re old. The world is different from before. I ask you to see clearly that the person with the ning family’s real fortune is a Hao. If the ning family wants to flourish, it can’t do without a Hao. Why do you have to listen to Xiao Yushan and ning Wenqi? I know that you have a son at your old age, so you cherish ning Wenqi Wanwan very much.”

“You unfilial son, what are you saying? Tell me that again!”

“Dad, ning Wenqi is your and Xiao Yushan’s son. This is no secret in our family. My third brother and I have already done a DNA test for you two.”

“You coward!”

“Father, the Emperor loves his eldest son, and the people love their youngest son. You have a son at an old age, and you like him very much. I can understand Yingluo.”

“As for ning Wenqi, third brother and I have lived to this age, and we will not fight with him for anything. But we are all people of the ning family, and we all want to rely on the big tree of the ning family to develop for generations, and get better and better. Even if it falls one day, I don’t want it to fall into our hands.

Xiao Yushan is a shrewd woman with no foresight. Even though ning Wenqi is doing well in the combat Department because of your connections, he definitely doesn’t have the power to support the ning family. We clearly have a backer, so why do you have to destroy such a good hand of cards? Dad, I’m so disappointed in you!”

Elder ning’s face turned red at ning Haoran’s words.

He admitted that he didn’t play his cards well in ning Wenhao’s case, but he was the master of the ning family, and he had built the ning family up by himself. How could ning Haoran criticize him?

Under Xiao Yushan’s nervous gaze and ning Wenqi’s angry but fearless gaze, elder ning said, “So You Think that now that you’ve grown your wings and can fly, you won’t be interested in the ning family and me? Ning Haoran, without me, do you think you can become the Commander-in-Chief of the northeast War Department?”

You must always remember that everything you have was given to you by me. I can criticize you, but no matter how high you fly, you don't have the right to criticize me.

"The ning family still belongs to me. I know what to do, what path to let the ning family take, and how to deal with my competitors. Yushan is your sister-in-law, and Wen Qi is your nephew. I hope you can treat them well. I don't want to hear what you just said."

father, the mistake has been made. If you don't kick Xiao Yushan and ning Wenqi out of the house, ban them forever, and apologize to disheng, Imperial Palace, Shengyang group, and the public, Hao and I can't save you. when the time comes, these angry citizens will shift all their anger towards these three groups onto our ningwen group. at that time, it won't just be the ningwen group gradually going into decline. i dare say that the ningwen group will suffer a hundred times worse than the pei family group."

Hearing this, elder ning laughed out of anger.

"Ning Haoran, to think you're a Supreme Commander. I was just wondering why you, the Grand Supreme Commander, had no say in the general Administration of warfare. Why did Chi Yang, a mere Lieutenant General, have so much more say than you? If I were the president, I wouldn't have given you much say. You don't deserve to be a general! You're a coward."

Ning Haoran sighed and finally said helplessly, " "Alright, I'm a coward. But dad, you have to remember what we said today. it's not that you didn't have a chance. when you called ah hao, he already warned you. today, he gave you another chance, but you didn't want it. When the ning family is finished, please be a loser with dignity."

"Get lost!"

Elder ning was furious at ning Haoran's words. He couldn't take it anymore and hung up the phone.

After hanging up the phone, elder ning told ning Haohan, Xiao Yushan, and ning Wenqi what ning Haoran had just said.

Because she had won, Xiao Yushan could only gracefully persuade elder ning not to be angry.

On the other hand, ning Wenqi had a victorious look.

"Grandpa, don't worry. This matter has already been out for a whole day, and many places in Emperor Xun, the Imperial Palace, and Shengyang City have already closed for business."
