

## Physician Wife 2671

### [My Sweet Physician Wife Calls The Shots](#)

#### Chapter 2671

##### 2671 Poor skills (2)

“How much money will we lose? If they really had a way, they wouldn’t have closed the shop when they encountered a problem. Instead, they would have taken out evidence to prove their innocence. However, they did not do anything. They only ordered their subordinates to close down the businesses that had been harassed and destroyed. Wasn’t this enough to explain the problem?”

Although the Nangong family knows that we did it, they don’t have any evidence to prove that we did it. They are facing the decline of the group and the disdain of the people, while we are facing a new business opportunity. This is the Path of Blood that we carved out with our own strength. It was said that a man had to be ruthless, and the business world was like a battlefield! attack is the best defense. since we’re attacking, we have to keep fighting!”

“Alright!” great! elder ning praised, cheering for his son, no, his grandson!

Ning Haohan turned on his phone and sat down beside elder ning. “Dad, big brother has really been brainwashed by ning Wenhao. Take a look, this is the interface that Carm gave me. The circle in the center was called the core area. Once the darkness around this area was removed, the smokescreen that Carm had set up would be found, and the Nangong family would have evidence of being framed. But look, this black patch is the virus that Carm planted, and these red dots are the means that the three corporations are currently using to overcome the virus. You won’t understand the code of a hacker, so this is the most intuitive.”

Elder ning, Xiao Yushan, and ning Wenqi all came over. He really saw many red dots floating outside the black area.

Some of the red dots finally made it into the black area, but they were quickly devoured by the black area. After that, many more red dots entered and searched aimlessly in the black area. However, they quickly entered the black devouring domain and were mercilessly devoured.

The red dots persevered and continued to attack, but against such a large black area outside the center, the red dots ‘skills were simply not enough.

this red dot won as soon as it reached the central area? ” Elder ning asked.

“How can it be so simple? Even if the red dot went to the center, it would be useless. It had to crack all the black areas in this area and turn the entire black area red. Then, the red area would erode the center dot to show the evidence. Otherwise, the public will only see the money returning to their accounts.”

Ning Wenqi couldn’t help but laugh.

“I thought the Nangong family and Nangong Nuannuan were so great! So that’s all there is to it! Even if there were 10 or 20 times more red dots, it would still be impossible for them to directly devour the darkness in this area! His skills are so bad!”

However, what they didn't know was that in the Nangong family, dan Qi was sitting next to little sun and explaining to her the principle of hacking data.

in order to explain and watch the web drama at the same time, danqi was too lazy to design something himself and let little sun break it. He felt that since he was going to learn, he should start from the difficult mode. If he could defeat little sun in hard mode, then there was no need to learn easy and intermediate mode, right?

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2672**

2672 just so-so (3)

So, when the miserable little sun came into contact with hackers for the first time and was ready to turn his theory into reality, he was duped into hell mode by danqi, this unreliable little brother.

Little sun looked at the data in front of her that needed to be broken, then looked at the book, and then at her master who had been watching the web drama. She scratched her head.

why did it feel like the actual operation was different from what was written in the books?

However, little sun was naturally eager to learn. According to the knowledge in the book, she drew inferences from one case and created red dots to fight against the hacker in front of her.

Looking at its own red dots being swallowed, the little sun didn't feel bored. Instead, it found it very interesting.

However, the other hacker didn't find it interesting at all.

Nangong Nuannuan had once used her hacking skills to defeat her brother, and in the end, her brother had died a terrible death. At that time, Nangong Nuannuan had defeated his brother as the mysterious Chairman of disheng, so he had no idea that Nangong Nuannuan was the Queen of KE.

Therefore, when ning Haohan hired him to work for disheng, he gladly accepted it.

He had always wanted to have a fight with Nangong Nuannuan. He wanted to see how capable Nangong Nuannuan was in cracking his hacker attacks.

However, after staring at the screen for a long time, he realized that Nangong Nuannuan's Red dot had not formed a single line.

His intuition told him that this wasn't Nangong Nuannuan's strength, but he couldn't figure out why she, as a hacker, would not help when the Nangong family was already under attack.

So after thinking for a long time, Camm felt that this was Nangong Nuannuan's strength.

She must have used underhanded methods to find out about his brother, which was why his brother died. Money can make the devil turn millstones!

He had thought that Nangong Nuannuan was very powerful, but it seemed that she was only so-so.

Camm had never thought that Nangong Nuannuan would regress. He only felt that he had improved. Moreover, this program was a new virus program that he had spent a long time researching. It was called "devour".

As long as there was a resistance invasion, this program would automatically swallow the other party's attack formation. There was no need for hackers to watch the computer all day long to fight.

Therefore, Camm, who was a little nervous at first, was very happy to send the video to Ning Haohan.

Ning Haohan happily showed it to Elder Ning.

With the confidence to win, Elder Ning was in a great mood and even celebrated with his family that night.

As for the main characters of all the events ...

Nangong Nuannuan was taking care of Chi Yang because when the incident broke out, Chi Yang had already started to have a high fever. Even though Nangong Nuannuan had tried various methods to lower his temperature before he completely burned up, after three hours, Chi Yang's temperature had already reached an irreversible 39.3 degrees.

Old man Chi and old man Nangong knew that Chi Yang would have a fever today, so they came to the hospital early in the morning.

Of course, Chi Zeyao had to accompany him.

With Selina's makeup, Feng Jimian had also become Selina and was accompanying Chi Zeyao in the ward.

She didn't have much time to stay in Kamino, and for the love she hadn't seen for 17 years, she was naturally willing to do anything.

In any case, Feng Ji Mian was a 3s-level mercenary, and her skills were no less than Selina's. As such, Selina disguised herself as Feng Ji Mian and stayed in the hotel.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2673**

##### 2673 Closing the shop (4)

He would usually come into contact with Leng Qirui from time to time. Anyway, she was a businessman and had taken a fancy to Leng Qirui's online shopping. It was normal for her to want to cooperate with the Leng family and open up the Camino and Sabo markets.

So, Feng Jimian, who was in the ward, had been disguised as Selina. Although she and Chi Zeyao could not appear to be very close in front of others, it did not matter when they were alone.

There were still enemies peeking at them. For a better future, the couple was still very patient.

As the chairman of the Shengyang group, Chi Zeyao wanted to fight back when he was attacked by the Nings for no reason. One must know that Chi Zeyao was actually the ancestor of hackers.

The reason why the top-tier mercenaries from KE city were all hackers was that Chi zeyao himself was a super hacker. The reason why he was on Eagle's must-kill list was because he had hacked into Kamino's military and political network when the computers in Kamino weren't advanced yet. That was why Kamino had targeted him and made him a must-kill person.

Therefore, when he realized that he had been bitten by a dog, Chi zeyao had originally planned to help Nuannuan get rid of this enemy. However, uncle Chi was not only skilled in cooking, but he also had a high EQ. Even if his group was severely slandered and attacked, he remained calm and did not fight back.

Because Sheng Yang was implicated by the Nangong family, if Nuan Nuan wanted to retaliate, she would have danqi do so in a matter of minutes. She must have her own considerations for not retaliating. Hence, Chi zeyao immediately gave the order to close down all physical stores that had been attacked or destroyed.

In any case, in the past 17 years, Yingying's wealth had already reached an unimaginable level. He wasn't afraid of closing the shop for a few days.

Chi zeyao was like this, and Nangong Qin was even more so.

Now that Chi Yang was running a high fever, his niece was so worried that it was as if her eyes had fallen out. This made them very nervous. Who would still have the heart to manage the group?

Hence, Nangong Qin immediately issued a notice to close all physical stores to the Imperial Group.

Rather than the things inside being destroyed, it would be more convenient to close the shop. Being locked up for a few days wasn't a big loss to the Nangong family, but to the people, it was a huge loss.

Because Emperor Xun had just been transferred to Kamino, he was the least affected compared to the Imperial Palace and Shengyang City.

There were only a few Feng Luan pavilions. Feng shengxuan knew that Nangong Nuannuan was going to cause trouble, so he had his men shut them down at once.

Therefore, in less than a day, the public discovered a problem-

Smashing things for a moment, buying vegetables at the crematorium!

When they were smashing up the place, they were thinking that it was opened by that b \* tch Nangong. From now on, the Nangong family would no longer be one of the top noble families in Kamino nation, but a shameless cancer that had been abandoned by the Kamino people.

Even though there were people on Weibo telling everyone not to be distracted by the news, the Nangong family didn't make any public statements, which meant that there might be more to this than meets the eye.

There were also many true fans of Nangong Nuannuan who felt that their handsome brother Nuan would never do such a dirty thing. They all asked everyone to calm down and let brother Nuan speak up personally.

However, there were always impulsive people in this world, and they became nationalistic youths after being influenced by others.

Hence, he smashed it, complained, and felt better.

however, it was only after the destruction that he realized that the three groups, especially imperial palace and shengyang group, had completely infiltrated people's lives.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2674**

2674 Harming others and oneself (1)

All the physical stores were closed, and the entire dizhou seemed to be experiencing a catastrophe.

Every day at five o'clock in the afternoon, all the major supermarkets under the Shengyang group would have an hour of welfare. In this one-hour bonus, many dishes would be on discount. Even though every dish was only a few cents or one or two Yuan cheaper, it was much cheaper if you bought more!

In particular, they often saw paper discounts. Usually, a stack of paper cost 29 Yuan, but it was 19.9 to 23 Yuan during the discount. It's a profit to buy a few!

Only these large financial groups could afford to spend so much.

Those small supermarkets could not do this at all. Compared to these super-large supermarkets, the things here were simply too expensive.

Now that there was nothing cheaper to buy, everyone started to regret.

He just didn't donate that much money. He did donate 500 million Yuan. 500 million! Many companies did not even donate a single cent! Why didn't anyone destroy the supermarkets and enterprises that didn't donate? however, he had destroyed the company that had donated 500 million yuan.

This was great, now everyone couldn't get a bargain! Is there a hole in his brain?

The more selfish aunties who liked to buy cheap stuff were the first to take sides. They started to stand on the side of 'Imperial Palace' and Shengyang group.

We should help the people in the disaster area, but our help should be built on our own economic foundation. He couldn't risk his life for the people in the disaster area.

However, this wave of aunties who spoke up for her immediately suffered a new wave of attacks on the internet.

The aunties stopped talking.

After that, those who had participated in the smashing found out that their relatives and friends who worked at disheng, Imperial Palace, and Shengyang group were ordered to be fired that night.

Originally, they had smashed the company because their close relatives either didn't get any appreciation in the company or were dissatisfied with the salary. In order to achieve their goal of making the company value their employees, they participated in the smashing.

They thought that only when the company was down on its luck and there was a loss of personnel would their relatives have a better chance of rising to power.

Originally, these people's little calculations were loud and clear, but in less than 24 hours, the three major corporations, who had been silent, took the same measures at the same time.

When their relatives returned home with the letter of dismissal, these people were naturally agitated.

If there wasn't a deep hatred, if there wasn't a bit of profit, who would be so free to go smash and cause trouble? No matter how much ordinary people despised these three groups, they would at most criticize them on the internet.

Those who would smash and cause trouble at the first moment of the incident must have had interests involved.

And these people who were involved in the interests were either hired by someone or he had interests involved with the three major corporations.

But no matter which one it was, Nangong Nuannuan had no intention of letting it go.

After the incident, she had only told Feng shengxuan to find out the reason behind every person's actions and then deal with them accordingly.

Feng shengxuan wasn't someone to be trifled with, and he couldn't bear to see his Corporation being trampled on like this. Furthermore, his family's two corporations were involved in this. He had wanted to make a move for a long time.

In addition, his mother was here. Originally, he had only been jabbed a few times by his father's Taser. The electric baton only made people's hearts tremble, but it didn't hurt. But his mother was amazing!

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2675**

##### 2675 Beaten up (2)

The top 3s-Class mercenary kept calling him a child, blaming him for not taking good care of his father. He had been in the Chi family for so long, but he had only found out about his father's identity not long ago. He even wanted to kill his own grandfather, often almost causing his grandfather and father to be injured.

In short, his mother could find many excuses to beat him up in a day.

If it weren't for the fact that everyone in the ward was his own people, Feng shengxuan felt that he would have lost all his face outside the planet.

No one would have thought that King, disheng's Executive Chairman and the heir of the nice family, was just a sandbag in front of his parents.

feng shengxuan was already seething with anger. his mother really didn't know how to hold back! Therefore, after hearing what Nangong Nuannuan said, Feng shengxuan was so free that he used his hacking skills on every ordinary person who had participated in the destruction.

There were a total of 726 people involved in the smashing this time. 500 of them were hired, and the remaining 200 or so were involved for their own benefits.

feng shengxuan used his impressive hacking skills to turn these people upside down. he even went online to find out who had maliciously started the news, as well as some verified accounts who had randomly reposted the news, and some who had casually evaluated the three corporations from a moral high ground in order to win the favor of the public. Feng shengxuan asked his team of lawyers to record down all these people. When Nangong Nuannuan came back to her senses, they would be ready to receive legal letters one after another!

Nangong Nuannuan had been taking care of Chi Yang the entire day. Chi Yang's high fever had reached 38.5 degrees since 11 in the morning. It didn't go down until night time, and his temperature had been hovering between 38.8 and 40 degrees.

Nangong Nuannuan knew that Chi Yang would have a fever, but she did not expect it to be this high.

Because even if she had encountered such injuries before, those people would have died.

Besides, she wasn't a medical student in her previous life. She was an actress. This was also the reason why Feng shengxuan had become the best Actor. because she liked acting, she set up imperial phoenix films. it was also because of her love for acting that feng shengxuan entered the industry. it was also because of her love for acting that dan qi became a fan of dramas.

Therefore, even though she had lived two lives, this was the first time Nangong Nuannuan had come across such a serious injury.

Because Chi Yang's high fever had exceeded Nangong Nuannuan's expectations, the Chi and Nangong family members were very worried.

Usually, with Nangong Nuannuan's guarantee, no matter how serious Chi Yang's injuries were, they would not have to worry. however, when something exceeded nangong nuannuan's expectations and even she couldn't guarantee anything, everyone started to panic.

Therefore, no one had the time to pay attention to the things happening on the internet.

Everyone sat quietly not far away and watched as Nangong Nuannuan took care of Chi Yang with great care.

From morning to afternoon, and from afternoon to night, no one in the family asked Nangong Nuannuan about Chi Yang's condition except for letting her eat.

They all knew that if even Nangong Nuannuan was helpless in this world, then no matter which hospital Chi Yang was sent to, no one would be able to cure him.

Therefore, they could only wait.

He was waiting for Nuan Nuan to treat chiyang. He was waiting for chiyang to overcome this hurdle and reduce his fever.

After the high fever, Chi Yang only woke up twice in a daze.

It was time for lunch, but Nangong Nuannuan said she couldn't eat and looked at Chi Yang with heartache.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2676**

2676 Feeling uncomfortable in her heart (3)

Then, as she continued to massage him, Chi Yang opened his eyes in a daze and said in an extremely hoarse voice-

"Nuannuan, be good and eat."

Nangong Nuannuan's tears fell immediately. He gently touched Chi Yang's face and asked, "Big brother chiyang, are you in a lot of pain?"

chi yang shook his head. even though he knew that nuan nuan wouldn't allow him to speak, he still said, "It doesn't hurt. Don't worry, I'm fine."

"Yes." "Don't talk," Nangong Nuannuan quickly nodded and said, "keep your strength up." Come, have some water."

Chi Yang looked at the tears hanging on his girl's eyelashes, looking like she wanted to cry but was holding it in, and his heart felt particularly sad.

he looked at the glass of water with a straw and took a few sips of water.

Every sip was strictly in accordance with the amount of water Nuannuan had told her to drink, not too much or not too little. She took the right amount of water into her mouth and then slowly swallowed it down. It would nourish his mouth and throat.

After drinking the water, Nangong Nuannuan said, " "Big brother chiyang, if you're not feeling well, you can sleep. The pain will be reduced a little when you're asleep."

However, Chi Yang's eyes were red from the heat as he looked in Nangong Zheng's direction.

nangong zheng was holding a lunchbox and trying to persuade nangong nuannuan to eat. however, nangong nuannuan refused to eat, which made the nangong family very anxious.

When she saw Chi Yang looking in her third brother's direction, Nangong Nuannuan quickly stood up and walked over to Nangong Zheng. She took the lunch box from him and sat down next to Chi Yang. She watched as the special ability cells in his body fought against the inflammatory cells, not daring to let her guard down.

Special ability cells were usually very powerful and impressive. However, Nangong Nuannuan realized that when these special ability cells encountered cancer cells or inflammation cells in the human body after being severely injured, the entire cell would not be in good condition.

When special ability cells encountered inflammatory cells, the speed of their operation in the human body would obviously slow down, even slower than the speed of ordinary cells.

Special ability cells could drive the human body's metabolism more frequently, and at the same time, strengthen the human muscles and bones. Some special ability cells didn't act on the muscles and bones, but concentrated on a single point, which would produce differences from ordinary people. For example, she had x-ray vision, sister Yue had Qinggong, Feng shengxuan had gravity, and Viper had invisibility.

However, this was only because the human body had not suffered too serious of an injury.

For ordinary injuries, ability cells would help the human body repair, so ability users recovered faster than ordinary people.

However, when it came to serious injuries and illnesses, even the ability cells themselves were afraid, so the circulation in the body would be greatly reduced. Because once the ability cells moved to a heavily injured area or a lesion, they could be devoured.

this was the reason why feng shengxuan's strength had declined when he had stomach cancer, and why uncle chi's body was so weak that he could only sit in a wheelchair because of the explosion 17 years ago, even though he still had superpowered cells in his body.

It was the same for her brother chiyang. It was only now that Nangong Nuannuan realized that when an ability user was sick or injured, they had to face a greater challenge.

As Nangong Nuannuan thought about this, she ate. Chi Yang's gaze was fixed on her.

Even though he was very tired and listless right now, his whole body felt like it was on fire, and the internal injuries were so painful that it felt like they were about to tear him apart, he still looked at his little girl with a gentle expression.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2677**

2677 The food is bitter (4)

The usually carefree and happy little girl loved to smile and was very bright. After being together for so long, Chi Yang had a good understanding of her. He knew that whenever she didn't talk much, it meant that she was unhappy.

She had never been unhappy with him. Every time she didn't speak to him, it was usually when he was hurt, when her heart ached for him, or when she was in trouble.

And now, she was so sad that she didn't even like to eat her favorite food. One could imagine what kind of dangerous period he was going through.

her heart ached for him, and he also ached for her.

She hadn't slept well in the past few days in the hospital. There was clearly a bed next to her, but she had never slept in it. Even though he didn't have a fever those two days, she still sat beside him without her clothes on. When she was really sleepy, she would close her eyes and sleep for less than 20 minutes each time. Chi Yang's heart ached terribly.

Today, it was even more so.

ever since he realized that he was running a fever, Nuannuan had been in a state of high tension. Not to mention rest, just watching her eat already reached the point where she couldn't swallow.

Chi Yang was anxious, but he couldn't show it to make her worry.

Chi Yang's heart ached when he saw Nuan Nuan gulping down the food without even chewing it properly. He was afraid that his girl would have a stomachache if she ate like this.

Nangong Nuannuan saw that Chi Yang kept staring at her with his eyes wide open. She swallowed a mouthful of rice and held Chi Yang's hand with one hand, saying, "Big brother chiyang, why don't you sleep a little longer?"

Chi Yang shook his head, and his gaze fell on the thermal lunch box that Nangong Nuannuan was holding.

"Nuan Nuan, Chi Yang wants to see you finish your meal, right, Chi Yang?" Nangong Zheng couldn't stand it anymore and couldn't help but speak up.

Chi Yang nodded, but his eyes never left Nangong Nuannuan.

He just looked at her, hoping that she would eat slowly.

These dishes were her favorite.

When Nangong Nuannuan saw chiyang nod, she immediately slowed down her eating speed so that brother chiyang wouldn't worry.

But what does this dish taste like?

Nangong Nuannuan felt that this was probably bitter!

No matter if it was vegetables or rice, they all tasted bitter in the mouth. If she could, she would definitely not eat it.

but now, brother chiyang was looking at her and guarding her. if she didn't eat, he wouldn't be able to rest.

Therefore, Nangong Nuannuan lowered her head and finished her meal bit by bit.

Even though there was nothing left in the lunch box, everyone knew that she definitely did not eat well.

she didn't even know that she had eaten the ginger and pepper in her favorite kung pao chicken. Usually, she would pick out these things and not eat them.

As he looked at his sister and brother-in-law, Nangong Zheng thought of an animal-an Eagle.

An Eagle only has one partner in its life. He had seen it with his own eyes in the Gobi Desert. When a female Eagle died, the Eagle beside it cried for a long time, spread its wings, and flew into the sky. After circling a few times in the air, it rushed to the opposite cliff at the fastest speed without hesitation, and crashed into it.

nangong zheng had no doubt that even though the two people in front of him were two independent individuals and were both so strong, if one of them was gone, it would be difficult for yingying to survive.

Old master Chi and second uncle Chi had long since understood their feelings for each other. Now, the people of the Nangong family had also completely understood.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2678**

##### 2678 High fever (1)

Before this, they were still thinking of using all sorts of ways to make things difficult for Chi Yang, but now that they thought about it, making things difficult for him would be the same as making things difficult for their own sister. The group of brothers could only swallow their anger.

They really couldn't afford to offend such an opponent.

At this moment, the elder brothers of the Nangong family were praying for Chi Yang to get better soon.

If he wasn't good enough, his sister would collapse.

Looking at the shadows under Nangong Nuannuan's eyes, it was as painful as having his brothers' hearts dug out.

nangong nuannuan wiped her mouth, disinfected her hands, and sat back down beside chi yang.

Just as Nangong Nuan Nuan went to disinfect and wipe her hands, Chi Yang couldn't hold on any longer and continued to fall asleep.

Seeing that Chi Yang had fallen asleep again, Nangong Nuannuan pursed her lips and did not say anything. He just stretched out his hand and held Chi Yang's hand.

Chi Yang, who had already closed his eyes and fallen into a semi-conscious state, subconsciously clasped his hands behind his back and then held them slightly harder.

In the afternoon, Chi Yang's body temperature reached its peak, 40.6 degrees. His entire handsome face was red from the heat, and with his wheat-colored skin, it showed an abnormal purple.

Nangong Nuannuan quickly gave him the fever medicine from her pharmaceutical company.

However, even after taking the fever medicine, his temperature could still be between 38.9 and 39.3, which made Nuan Nuan very worried.

During this period of time, Chi Yang was tormented by a high fever until he convulsed a little. In order to prevent the high fever from damaging his brain, Nangong Nuannuan had been inserting silver needles into Chi Yang's head.

By stimulating the acupuncture points, the brain's nerves were maintained at a high level of activity to prevent the brain's activity from decreasing and the brain cells from being killed by high temperatures in the sleep. It also reduced the risk of meningitis.

In addition to using silver needles to prick Chi Yang's acupoints, Nangong Nuannuan also massaged him continuously.

They worked for more than ten hours a day without rest.

The older brothers of the Nangong family and Ning Wenhao couldn't stand it anymore, so they asked Nangong Nuannuan to teach them. That way, they could be in charge of massaging Chiyang. Even if Nangong Nuannuan didn't sleep, she could at least rest for a while.

However, Nangong Nuannuan treated her like a treasure and said, "You don't know the acupuncture points, and he's injured. What if you use too much force and hurt him? I can do it on my own, I don't need your help."

Well, after being disdained by Hong Guo, everyone was reluctant to leave, so they could only stay in the ward quietly.

Nangong Nuannuan massaged Chi Yang for the entire day. As the cupping jar had been removed the day before, she could not do so today. She could only massage, apply acupuncture, and stick a small ice paste on his acupuncture points, changing it once an hour.

Fortunately, Chi Yang's temperature did not rise any further after reaching 40.6 degrees. Even if the temperature was lowered and repeated again, it would at most be around 39.6 degrees. It had dropped by one degree.

For a seriously injured patient, even if it was only a drop of one degree, it was very beneficial.

When it was time for dinner, Nangong Nuannuan stopped eating again.

Although it was normal for a patient to have a high fever for two or three days because of his injury, Chi Yang's injury was too serious. It was definitely not a good thing for him to have a high fever.

That was why Nangong Nuannuan had always wanted his fever to go down as soon as possible. Even if it was just a low fever, it would be good.

As long as his fever did not subside, Nangong Nuannuan would not be able to rest easy.

He felt like he had not even digested the lunch he had eaten in the afternoon.

this was also the first time in Nangong Nuannuan's life that she felt that she had indigestion.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2679**

2679 What's the point of raising you two?(2)

"Brother, I'm not hungry yet. You can leave it there first. I'll eat it when I'm hungry."

"that won't do! You had lunch at noon, and it's already seven in the evening. The whole family has eaten, but you haven't. Nuan Nuan, it's important to take care of Chi Yang, but your own health is also important." Nan Gongze was heartbroken.

After nagging for a long time, Nangong Nuannuan looked at Nangong ze pitifully like a soft and cute cat and said in a soft and coy voice, " "But I can't eat Yingluo now."

Nan gongze:

He had wanted to say that he had to eat it even if he couldn't. however, when he met nangong nuannuan's pitiful eyes, he was completely at his wit's end.

"Yingluo, you can eat later."

"Yes." Nangong Nuannuan nodded obediently.

Nan gongze put the lunch box back in a daze and was met with the hostile gazes of the men from the Nangong family.

"nuan nuan said she can't eat!" Nan gongze muttered softly.

"She said she can't eat and you won't let her? If she keeps saying that she can't eat, are you going to let her starve to death?" Nangong Zhao was about to cry from his stupid son's anger.

Nan gongze was depressed. but she's so pitiful. I can't force her to eat it!

"Of course I'll force you! Didn't you see how third brother made Nuannuan eat it? Why don't you have any bottom line?" Nangong Zheng couldn't help but ridicule.

"If you can do it, then you go!" Nan gongze looked at these people who were just standing there and talking without feeling any pain in their back. His face was gloomy.

Nangong Zheng's head shook like a rattle. today is the lunch that the second branch will let Nuan Nuan have. It's your third branch's turn tonight!

Nan gongze immediately looked at Nangong Yi and stuffed the lunch box into his hands, " "If you're so good, go and get Nuannuan to eat! At noon, it's the second branch's head, at night it should be the third branch's head."

Nangong Yi held the thermal lunch box and shamelessly looked at his first aunt, " Auntie, your first branch hasn't even done anything yet. The second branch has already delivered the meal once, so it should be the first branch that sends the food first, then our third branch!"

His first aunt, who had been shot for nothing, also had a strong desire to live. If her husband, Nangong Shu, was the one lying here today, she would probably want to die with him. How could she still have the mood to eat?

Therefore, his first aunt, who had been pushed to the forefront by these little brats, was not fooled at all. She said, " "I went to buy groceries and cook early in the morning to feed all of you, and you dare to say that our first household did not do anything? you little rascal! If you feel that the first household didn't put in any effort, then from tomorrow onwards, you'll be in charge of buying groceries and cooking, and also cooking the dishes that Nuannuan likes."

Nangong Yi:

Elder Nangong glanced at the family and gritted his teeth.

Their children and grandchildren, who usually did not distinguish between each other, were now very clear about themselves. The first, second and third household all came out.

He was speechless!

“Grandpa, what’s with that expression? Why don’t you go and persuade Nuan Nuan to eat?” nangong yi’s eyes were sharp, and when he saw his grandfather’s pained expression, he immediately pushed the blame to his grandfather.

The old man glared at him, “what’s the point of raising grandsons like you?” I have to personally handle such a small matter! When he encountered some difficulties, he would make excuses! how are you fit to be the grandchildren of my nangong family?”

After elder Nangong raised the question to a certain level, the elder brothers had nothing to say.

### [My Sweet Physician Wife Calls The Shots](#)

#### **Chapter 2680**

2680 Fever subsided (3)

Nangong Zheng looked at Nangong Yi and said, “ alright, go and send him off. You have to complete what you should do. We’ll be taking turns anyway, so no one can escape.”

“But chiyang’s fever should be gone by tomorrow. Nuan Nuan won’t be so distracted then,” Nangong Yi mumbled.

Old man Nangong heaved a sigh of relief when he saw that Nangong Yi had already given his orders.

To be honest, anyone who met the pitiful gaze of the Nuan girl would not be able to take it. Old man Nangong felt that if he were to meet Nuan Nuan’s eyes, he wouldn’t be able to take it.

Nangong Yi carried the thermal lunch box and walked to Nuannuan’s side with a big face. At this moment, Nuan Nuan was re-applying the ice invitation on Chi Yang.

After all the ice invitations were served, Nangong Yi placed the lunchbox in front of Nuannuan. Just as he was about to speak, Chi Yang frowned and opened his eyes with difficulty.

although he was in a daze from the heat and didn’t want to speak or open his eyes, he was still in a daze. But for some reason, he was very sensitive.

Even in his sleep, he could still sense what was happening around him, so he knew that Nuannuan was not eating.

He knew that if this girl were to get angry, the whole family would be helpless against her pitiful look. In fact, he himself would not be able to do anything.

However,

Now that he was injured, Nuan Nuan didn’t want him to worry, so Chi Yang opened his eyes and looked at Nuan Nuan. He used his hoarse voice to help the Nangong brothers out of their predicament.

“Nuannuan, I’m feeling much better now. Can you quickly eat?”

When she saw the pleading look in Chi Yang's eyes, Nangong Nuannuan stopped being pretentious.

"Alright," he said.

Before Nangong Yi could even say anything, Nangong Nuannuan had already taken the lunch box and started eating it in big mouthfuls.

Chi Yang used his hand to pinch her leg, indicating for her to eat slowly.

After Nangong Nuannuan understood what he meant, she immediately ate slower.

The elder brothers of the Nangong family looked at Chi Yang as if they had seen their Savior. How she wished that Chi Yang would be the one to persuade her every time they ate!

Chi Yang opened his eyes again and waited for Nangong Nuannuan to finish eating. Then, Nangong Nuannuan fed him some water and spoke to him for a while before he fell asleep again.

At night, the Chi family and the Nangong family didn't want to leave. Chi Yang was running a high fever. After some of the people in the disaster area found out about the three major corporations, some of them were attacking the hospital in anger. The combat Department would send out battle team members to protect the hospital. The entire seventh floor was also under martial law.

Under such circumstances, even though they knew nothing would happen with Nuan Nuan and Feng shengxuan around, they were still worried. So that night, everyone stayed.

The two old men were resting in the room next door.

Chi Yang had a high fever for an entire day, and Nangong Nuannuan also took care of him meticulously for an entire day. Finally, at six O'clock in the morning the next day, the fever had clearly subsided.

Although he was still running a fever, his temperature had stabilized below 38.5 degrees.

This way, even though Chi Yang was still in pain, at least he didn't have a high fever and his inner organs wouldn't be damaged.

Nangong Nuannuan felt extremely anxious as she looked at her superpowered cells that were gradually burning to death and her internal organs that were being overexerted to lower the temperature of her body. Now that his body temperature had dropped, at least his internal organs would no longer be overloaded. His heart and lungs could rest and resume normal operation.

Even if the inflammation could not be eliminated in a short time, there was a process to the injury. Saving one's life was the first step, and getting through the most dangerous period of high fever was the second step. When the body's immunity triumphed over the injury, it would be the official recovery period.
