My Sweet Physician Wife Calls The Shots

Chapter 2701

2701 The ning family!

Ning Wenhao's words caused a wave of whispers in the audience. Everyone was guessing who should be the one apologizing.

Originally, ning Wenhao was prepared to reveal the identity of the auditor called Zhang Sheng, but Huang zichu's voice came through the headset, "Deputy ning, I'm going to expose the media now. You should report about sister-in-law and the others first.

Ning Wenhao smiled and said, "since so many people want to know the ins and outs of the matter, I'll reveal the most important one first." in case some things don't get exposed, it's useless even if i expose some people."

almost as soon as ning wenhao finished speaking, the screen changed. a figure of 2 billion appeared.

"Everyone, come and take a look. This is disheng group's 2 billion donation. The day that disheng donated the money was my sister-in-law's 18th birthday."

After that, the screen showed the flying Eagles squad with Nangong Nuannuan's photos everywhere.

"Today, in order to give his fiancée, Nangong Nuannuan, a surprise, our commander Chi invited all the members of the Flying Eagle Special Forces to prepare for his proposal. We used the simplest balloons and bouquets to set up the most romantic scene. however, when our sister-in-law arrived at the Eagle Special Forces, the earthquake had only happened 15 minutes ago. Under the leadership of the Commander-in-Chief, almost all of us were dispatched. Sister-in-law's birthday and proposal were also gone. However, facing the empty Eagle Special Forces, sister-in-law did not feel sad. After knowing that almost all of us were out, sister-in-law made a prompt decision to donate 2 billion to the earthquake-stricken area.

Let me ask you, if it were you, if you encountered such a situation and made such a decision, would you take back the money? to be honest, 2 billion is not a lot of money to my sister-in-law's disheng. Would you treat the person that your fiancé is willing to sacrifice his life to protect like that?"

"Where's the evidence, Deputy ning? Although I admit that you are right, and we also admire the things that general Chi has done for the people in the disaster area, we are talking about Emperor Xun, the Imperial Palace, and Shengyang. It's not about how good the relationship between these three groups is with you or with Lieutenant General Chi! There is no doubt that Lieutenant General Chi is a good person and a hero, but this doesn't mean that the people around him are also good people, people worthy of our trust and respect!"

Another reporter stood up and raised an objection. His face also appeared on the big screen like the previous reporter.

"You and the reporter are right," ning Wenhao said slowly. However, I think that since we're going to make an explanation, we should, of course, explain it from three aspects-rationality, theory, and reality,

right? I've already said that the three major corporations wouldn't do such a thing. Now, I'm going to let everyone know that the three major corporations would never do such a dirty thing. All these things are just dirty people trying to frame me. "

Ning Wenhao turned around and used the laser pen in his hand to point at the account on the screen. "As everyone can see, this 2 billion was transferred from disheng's account and directly to the donation Association's account. The person who took over was ning Jiwu. Ning Jiwu is the General Secretary of the donation Association, but from his name, it shouldn't be hard to tell that this ran ran is from the ning family, right?"

2702 Can't find evidence (1)

As soon as ning Wenhao finished speaking, the venue exploded.

No way! Are we going to eat a big melon?]

[when my brother Nuan slaps someone in the face, it's usually with a slap.]

[but little brother ning is a member of the ning family!]

[cough, cough. That's why we're probably going to eat a big melon!]

[I'll wait!]

On the internet, the news was also going crazy.

The Weibo administrators looked at the 20000 comments and traffic that instantly increased by another 30000, and their eyes were wide open.

When did the Weibo that they maintained become so high-quality?

In fact, with such a terrifying amount of traffic, Weibo had long been paralyzed. However, in order for everyone to speak freely and to be the first to know about the face-slapping situation, Nangong Nuannuan specifically told danqi to watch Weibo.

With the world's number one hacker boss in charge, it was not easy to be paralyzed on Weibo.

Therefore, everyone realized that even if it could reach 20000 views in just a few seconds, the comments under major live broadcasts had already exploded. The scariest one was Nangong Nuannuan's Weibo post before the press conference: " I'm taking care of my husband, so I'll give ning Wenhao a slap in the face ". In just 20 minutes, the comments and reposts had already reached a terrifying figure of 4.8 million. The technical guys had no choice but to believe that Weibo had been taken care of again.

Ning Wenhao was still explaining to everyone, " ning Jiwu is my distant uncle. His father and my grandfather, the ning family's old master, are cousins. however, he and his father had been working for the ning family all these years.

A total of 120 yuan in donations from disheng, the Nangong family's Imperial Palace, Shengyang, Hawkeye, the Xiao family's Yunxiao group, and the Wu family's Wu's group in Haizhou were all collected by this man named ning Jiwu. Now, let's see how this ning Jiwu manages to take all 12 billion from the donation."

"Make him stop!"

"Stop!"

"Hurry up and call this unfilial son to stop!"

Elder ning didn't understand what hacking was about. He only knew that since ning Wenhao had already said that, he must have found evidence.

Ning Haohan was also a little confused. He looked at the red dots that were still attacking the center. Now, the red dots could form a pattern after almost every failure, but they were still a little far from reaching the center.

Ning Haohan was also panicking. He immediately took out his phone and made a call. However, it was not for ning Wenhao, but for Carm.

"camm, did you watch the live broadcast? Ning Wenhao wants to show evidence of ning Jiwu's money laundering. He's so embarrassed!"

"He won't be able to." Until this moment, Camm still had no doubts about his hacking skills.

Ning Haohan and ning Wenqi, who had been stunned by the news, both heaved a sigh of relief.

"But he said he has evidence to show everyone."

"Don't worry, I've been keeping an eye on them. They won't be able to get any evidence. He said he has evidence, so it's probably something else."

When ning Wenqi heard this, he let out a sigh of relief.

Ning Haohan was still a little scared. After all, he was in charge of the Ning Wen group now. He confirmed again, "is it possible that they have used other methods to conquer it, or that someone else has also conquered it, but you can only see the Nangong family's?"

Camm was unhappy when he heard this.

Chapter 2703

2703 Anxious (2)

"this is the firewall i designed. if a thief wants to climb over my wall, as the supervisor, how can i not notice? Do you think I'm a hacker that you can find on the side of the road? I'm telling you, I can't stop you from climbing over the wall. There's nothing I don't know about after you climb over the wall. Even if we encounter someone we can't stop, there are no more than five people like that in the world."

even though five people was a little too many. After all, disheng was a top brand in the world. However, ning Haohan was slightly relieved when he heard that he would definitely know if he could climb over the wall.

However, elder ning didn't care that much. He shouted, " I told you to call ning Wenhao. Why did you call him? "

After that, elder ning had no choice but to call ning Wenhao.

Unexpectedly, a cold female voice came from the other end of the phone, saying that the phone could not be connected.

Elder ning immediately used Xiao Yushan's phone to call her, but it still didn't go through.

Elder ning used the Butler's phone to call again, but it still didn't get through.

The maid's cassock

Before she could make the call, ning Wenhao had already brought out the evidence.

"This is the scene you saw earlier, right? Everyone, let's compare and see if this sum of money has flowed into these 100 projects."

On the big screen, the financial fluctuations of more than 100 projects suddenly appeared.

These capital fluctuations were the same as a set of capital flows that were casually exposed on Weibo.

"Everyone can make a comparison. This is the direction of disheng's funds that was previously exposed on Weibo. these are a few magic squares that i randomly found on weibo. There are a total of 27 transactions in these three sets of nine-grid boxes, which is the same as what I'm showing everyone now. Do you all agree?"

All the onlookers and the netizens were watching and analyzing it seriously. The media, gossip, and live broadcast bloggers had almost attached their camera lenses to the big LED screen at the venue.

Almost all the viewers in the country were making a serious comparison at this moment.

"In order to prevent everyone from not seeing clearly, I'll help everyone. This is a picture from Weibo. This is one of the pictures of the flow of money I'm showing you. i'll show everyone a total of 27 transactions for each group. let's use the largest transaction as an example and analyze where the money really went."

After that, the internet went into an uproar.

After hearing ning Wenhao's words, even with Carm's guarantee, the ning family couldn't stay calm.

They were all staring at the television in horror. After all, there were some things that they felt they had done very well and would definitely not be exposed. But ning Wenhao's words clearly meant that Feng zhirou was going in that direction!

"There's 800 million in funds here. Everyone can see that although it's divided into dozens of shares, all of them flowed into a company called Kachi department store chain.

Kachi department store chain was a mid-range large department store under disheng. There was no need to introduce this department store. Not to mention Kamino, there were 12 such department store chains in dizhou. Everyone must be very familiar with this department store.

However, you may not know the sales volume of the department store. the picture you are looking at now is the turnover of one of the companies in the khaki chain. It reached 20 million yesterday.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2704

2704 Unfilial son (3)

A chain department store's daily turnover had reached 20 million Yuan. Although other places might not be as high as dizhou, they should at least have 5 million Yuan, right? There were a total of 67 khaki department store chains in the country. Could you imagine how much money they had in a day?

According to statistics, of the 2 billion dihuang donated, 800 million was transferred back to the Kachi department store through various means. However, what everyone doesn't know is that less than 24 hours after the 800 million was transferred to the Kachi department store, it was divided into 1.7 million and transferred away."

this time, the people of the ning family were really not calm.

"Unfilial son! Unfilial son! Is he trying to anger me to death?"

Since things had already developed to this point, what else did elder Shi not understand? Ning Wenhao, the goddamned unfilial son, had actually gotten the evidence of their tampering and was now going to expose them in front of the people of the country.

"What kind of hacker did you find? Can you still do it? Usually, I'm the one who makes decisions for you on all major matters. Can't you just be responsible for such a small matter?"

Ning Haohan was also completely dumbfounded. He looked at the red screen that was still attacking the firewall, blinked, and said angrily, " "I'll call Carm immediately!"

damn it, she actually dared to lie to him!

Then, ning Haohan was about to call Carm.

elder ning threw the phone to ning haohan.

"Is there any use in calling him at this time?" Then, he looked at the Butler and said, " "Go, find someone to capture this kamu! How dare you destroy my ning family! I won't let him off even if I die!"

"Yes!" The Butler also knew that things were bad and immediately sent people to capture Carm.

On ning Haohan's side, elder ning yelled, " "Hurry up and call the Shi family, ask them how to solve this matter."

"Alright, alright!" Ning Haohan was also anxious. He picked up the phone from the ground and started to look for the contact number of the Shi family.

Ning Haohan noticed that his hands were trembling.

While ning Haohan was calling the Shi family, ning Wenhao continued to speak.

“What does it mean for 800 million to be converted into 1.7 million in 24 hours? That meant that the average price of each order was 470 Yuan.

Of course, after the audit staff found out that disheng had accepted the money, they would not investigate further. But since I want everyone to see the entire operation, then let’s continue to watch. How did the 170000 4700 Yuan get transferred out?

Khaki was a department store, but its biggest selling point was in the supermarket. I don’t need to tell you about the supermarket in khachi. Everyone knows that it’s very powerful. The most powerful was undoubtedly seafood. As long as you bought something in the supermarket, it would be processed immediately. You could eat directly in there or ask the waiter to process the seafood and pack it up to take away. The goods from the khachi supermarket were also supplied very quickly. Every morning, they would be transported by air from foreign ports.

everyone, look at these orders, from the small scallops to the big king crabs, they’re definitely not worth 800 million in your eyes. But what if the orders add up to 170000?”

After ning Wenhao’s words, a huge order appeared on the big screen.

“This is the order for 20 king crabs from 1.4kg to 1.6kg. It says that each king crab is 399 Yuan, so 20 king crabs are 7980 Yuan. At first glance, this is just an ordinary order. From this order, everyone can’t see anything unusual.”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2705

2705 Solid evidence (4)

“I only know that the Kachi department store purchased a total of 20 king crabs that day. However, what I want everyone to see is the part that I’m drawing now.”

As soon as ning Wenhao finished speaking, an eye-catching red line was drawn at the end and the middle of the order.

On the red line, the date of the day was written on one of the lines. It was 14:37 on August 14th. The other place was marked with the bank card number.

” everyone, look carefully. on this order of 7980 yuan, it is marked as 14:37 on the 14th of august. the bank account starts with 6366 and ends with 3792. ”

“Everyone, look at this one, this one, this one, this one.”

170,000 orders began to appear on the big screen at a dizzying frequency. Although the speed of the flash was very fast, it could not prevent everyone from seeing that each order was on the 14th of August at 14:00 P. M., And the other party’s bank account all started with 6366 and ended with 3792.

Most of the orders were for seafood. As such products were expensive, if they ordered more, they would be able to gather 800 million quickly.

“There are a total of 67 khaki chains under disheng. Although these orders are ordered from different chain stores, without exception, the order time is all 2 p.m. On the 14th of August. The other party’s bank account is 6366xxx3792, which I showed you.

these orders are real. in order for everyone to see them clearly after the press conference, i’ve already ordered people to post all the orders at the back. after the press conference is over, everyone can go and compare them one by one.

now, I’m going to show everyone the real orders from the khaki chain. The one you’re looking at now is the list of items that the chain needs to purchase at 21:30 P. M. As you can see, khaki chain is a chain of department stores with very detailed and standardized time and organization. All the department stores will announce the daily account list of their chain of department stores, as well as the items and quantities that need to be replenished, at 21:30 pm. After that, the statistics Department of the company’s headquarters would summarize and review it. At 22:30, which was an hour later, the summarized data would be sent directly to the materials Statistics Department at disheng group’s headquarters.

After that, the materials Statistics Department would distribute the items needed by each department store chain to the distribution market branches. Each branch would receive the account book issued by the head office before 1 am, and then the items would be purchased and transported.

there was one thing that needed to be explained. emperor xun had a water area that was specially used to raise all kinds of seafood. for example, shrimp, crab, and fish, which were often served on the table, were cultivated in a special area. One could proudly say that thirty-five percent of the slightly better inland sea products came from di Mo’s own Sea area.

This list could prove everything. On this list, all the seafood produced in the Thearch nightmare ocean had a price, but in the end, the price would offset the price of the individual item. There would not be any substantial payment in the process. for example, the king crab that everyone saw just now was a common seafood in the waters of supreme. The production of king crabs would only produce a calculation of the price difference in the company’s general accounts, and no purchase costs would be incurred in the middle.

In other words, the Kachi department store will set up their tents at 21:30 A. M. And sort out the list. At 22:30 A. M., The chain headquarters will verify the information and report it to disheng group’s headquarters.”

Chapter 2706

2706 Falling out (5)

“At 1 am, the statistics Department of the headquarters will send the items needed by the khaki chain to the distribution centers. The distribution centers would then transport the items by air before four in the morning. It was guaranteed that every department store would receive the freshest products before 8 A. M. Every day.

The staff of each department store would register and classify the goods after receiving them, and the professional would record the number of goods into the computer desk account. After that, the department store would open at 10 O 'clock and the saleswoman would sell the goods.

Among them, most of the items were produced and sold by Supreme armor itself, and 30% of the items were bought from wholesalers, which Supreme armor did not have. However, no matter if it was aquatic products or goods, there was no wholesaler with the account number 6366xxx3792.

So, it was obvious that the previous 170000 accounts were all fake. Because for so many years, disheng would never buy new goods at 14 PM. The purchaser was also not from this account with the ending number 3792.

However, the 800 million that was transferred to disheng was transferred to the account ending with 3792 in less than a day. Everyone would like to know what company this account with the last digit 3792 belongs to. And which family is in charge?"

As soon as ning Wenhao finished speaking, the crowd exploded.

[f * ck, it's true!]

[she's clearly framing him!]

The referee was determined to be exposed! Damned face!

.....

the curses on the internet were increasing at a terrifying rate of millions every second. as this matter got closer and closer to the truth of the face-smacking, the number of people watching the live broadcast also increased.

Ning Haohan called Shi Gen several times before he finally picked up.

In order to have an ally on his way out, or to put it more bluntly, to have one more person to fight against the Nangong family on his way out, ning Haohan turned on the recording mode.

"Hello, are you elder Shi?"

"I am Shi Heng, may I know who this is?"

Ning Haohan:

"Elder Shi, I'm Hao Han!"

"Vastness? Which vast?"

Ning Haohan:

old master ning could not bear to see shi heng's posturing. He was already anxious, and now that Shi Heng was still acting, he was instantly enraged and snatched the phone from ning Haohan's hands.

"Shi Heng, I'm ning Zhennan."

"So it's elder ning, it's a pleasure to meet you."

On the other end of the phone, elder Shi's voice was still unhurried and at ease.

"What's there to be happy about? Did you see the live broadcast online?"

"Live broadcast? Was it the livestream where the big three corporations were framed? he was looking at it. What's the matter, elder ning? do you know any inside information?"

What else did elder ning not know? After seeing that ning Wenhao was about to embarrass them, the Shi family was trying to draw a line between them and the ning family.

"Shi Heng, what's the matter? are you drawing a clear line with our ning family now that you've noticed that the wind is blowing in our direction?"

"Elder ning, what are you saying? Why don't I understand? From what you're saying, you're the ones who framed the Nangong family?" Shi Heng continued with a surprised tone, "Elder ning, you're a fool! How could you do such a thing?"

"Shi Heng!" ning zhennan was so angry that he almost vomited blood on his phone. he roared in anger, "You were the one who said that the Nangong family wanted to destroy our two families, so we had to join forces. To think that I didn't even take a single cent from the five groups and withdrew some of their money into the Shi family's accounts. Your Shi family didn't have to pay a single cent, but I won the reputation of donating 3 billion. Now you're playing riddles with me, do you think I didn't record our discussion?"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2707

2707 Being scammed (1)

"Ning Zhennan, what do you mean? I've never had a good relationship with your ning family. When did I talk to you on the phone? He even recorded it! If you have a recording, then play it for me! I'd like to hear when I've done such a dirty thing with your ning family!"

"You coward!" Ning Zhennan was so angry that he almost couldn't breathe. His heart ached and he fell directly onto the sofa.

"Old man!"

"Grandpa!"

xiao yushan and ning wenqi shrieked in fear and quickly stepped forward to help the old man, who was trembling with anger and his face was red.

There was no place for the mother and son in the Xiao family anymore. Elder ning was their only support, and the best support at that. If elder ning fell, ning Haohan would definitely not be a soft-hearted person. At that time, their days would be very difficult.

When Shi Heng heard the screams from the other end of the phone, his lips curled into a cruel and disdainful smile. The hatred in his eyes could not be hidden.

If it wasn't for the ning family's stupidity and presumptuousness, the Shi family wouldn't have lost that 3 billion in vain.

Now that the money had been given out, the Shi family would definitely not let go of the ning family who had made the Shi family bleed.

Speak properly?

It was impossible!

Right now, Shi Heng wanted nothing more than to anger ning Zhennan to death!

Ning Zhennan was so angry that he could not speak. Ning Haohan was infuriated by his grandpa's reaction. He grabbed the phone and yelled at the other end of the line, "Shi Heng, our ning clan has been loyal to you, but I didn't think that you would treat our ning clan like this. Do you think we have no evidence other than the recording? I'm telling you, we've recorded your conversation with the ning family and the flow of the 3 billion. You can't get rid of it even if you want to. Shi Heng, we're now grasshoppers on a rope. Either your Shi clan finds a way to help our ning clan get out of this matter and tide over this difficulty, or our two clans will go to hell together. Don't think that our ning family is easy to bully. Even if we die, your Shi family will also die with us!"

When Shi Heng heard this, he sneered, "I really didn't know that the people of the ning clan were all Mad Dogs." You've done so many dirty things, and now you're going to be attacked by the whole country. If you're afraid, let our Shi family save you. Why? The Shi family wasn't a shelter for perverts. With regards to your despicable behavior, the Shi family will be the first to call for a beating.

Wasn't there a recording? My Shi family also has one. You've touched the Nangong family's money in such a filthy way, and now you want to touch the Shi family's money? Let me tell you, our Shi family is not to be trifled with. Our Shi family isn't as rich as the Nangong family. We can donate money as you wish without anyone supervising it. Ever since the Shi family donated 3 billion, we've sent people to keep an eye on it. Now, we have a record of every sum that has been used. the 3 billion that my shi family donated all came from different sources. if you want to sue, if you want to throw mud at the shi family, go ahead. However, I'm afraid that the people of this country won't believe you anymore."

"Shi Heng! You still have the face to mention that 3 billion? That 3 billion is the 500 million we withdrew from disheng, Imperial Palace, Shengyang, Hawkeye, Yunxiao, and the Wu group to transfer to you. If it wasn't for our ning family, how could your Shi family have such a large donation?"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2708

2708 setting up a memorial archway (2)

"Isn't it a little disgusting for you to be a whore and have a Memorial? Unfortunately, our every transaction is recorded. Either you talk to me nicely now, and we'll quickly discuss how to do this, or Yingluo can only fight to the death!"

Shi Heng chuckled at ning Haohan's words. "young man, the development and expansion of the group requires a large amount of investment. Not only did he have to invest his energy and money, but he also had to rely on his brain. The Shi family relied on the medical Association to develop and grow. Every

medicine is produced with the full efforts of countless medical researchers. Our Shi family may not be as rich as the Nangong family, but we're all working hard on our own Foundation. I can proudly say that every cent that our Shi family earns and donates is legal. As for what you said about the fish dying and the net being broken, I believe that the law of heaven is long and loose. Even if you have the ability to find a powerful hacker to defame our Shi family, just like how you defamed the Nangong family, our Shi family will also be able to find evidence to prove our innocence.

"Alright, alright, it's a waste of my life to talk to someone like you for one more minute." I want to watch the live broadcast. he really wanted to know which company the 800 million order was given to. And who does this company belong to? Chairman ning, this 800 million order wouldn't have been transferred to your ningwen group, right?"

With that, Shi Heng hung up the phone.

"Hey! Hey! Hey!" ning haohan was still shouting into the phone, "shi heng, you old bastard! You won't die a good death!"

Elder ning, whose chest was still in pain even after taking a fast-acting heart-saving pill, quickly called out to his furious son and said, "Alright, it's no use shouting at him. Immediately find the records of our conversation with the Shi family, and show us the evidence of us transferring 3 billion to the Shi family. Contact your big brother immediately. He has some friendship with that unfilial son. Tell him to call him immediately and tell him that the ningwen group was founded by his father when he was still alive. As one of his father's sons, he will have a large number of shares and inheritance to inherit in the future. it would not do him any good if the ningwen group went bankrupt. so, tell him to stop immediately."

"Alright," he said.

At this time, ning Wenhao had already compared the real order with the fake order. The comments on the internet were flying. Almost everyone began to respond with "what the f * ck ". Many people were even saying that they were making up stories, wanting to know who had framed the Nangong family immediately.

Things had reached a life-and-death situation. Ning Haohan immediately took out his brother's number from the blacklist and called him.

Ning Wenhao had told them to stop, but they refused, so they called ning Haoran and threatened him. Ning Haoran called the old man. After the old man hung up on him, ning Haoran still called him many times.

The old man had blacklisted his number, so he called ning Haohan. He wanted to convince ning Haohan.

Ning Haohan was annoyed too, so he also blacklisted ning Haoran's number.

As for ning Haoran, he still received a large bonus from the ningwen group every month. He didn't want ning Wenhao to destroy the ningwen group.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2709

2709 Shut up (3)

However, he was helpless. His father was too stubborn. He didn't listen to his advice at all. For that little money, he would rather destroy the ning family's Foundation of so many years.

Ning Wenhao was also a ruthless man. In order to help the Nangong family, he could actually watch his father's company be destroyed in his own hands.

He tried to persuade the nings to stop, but he was blacklisted. He begged ning Wenhao to let the nings go, but he was blacklisted again.

On this day, ning Haoran was sitting alone in the command room of the northeast War Department, watching the live broadcast.

When ning Wenhao was about to expose the company behind the scenes, his phone rang.

It was ning Haohan.

Ning Haoran was very angry and didn't want to answer it. However, he was the son of the nings. Although the nings had let ning Wenhao down, they had never let him down.

Ning Haoran sighed and picked up the phone.

Before she could say anything, ning Haohan's voice was heard from the other end of the phone. "brother, call ning wenhao now. That unfilial son, did he want the ning family to die? Father said that the ningwen group is second brother's business. As second brother's biological son, he has the right to inherit the ning family's property, so you should tell him to stop immediately. In the future, he will also have a share of the ning family's assets."

When ning Wenqi heard that ning Wenhao also had a share in the ning family's assets, his face darkened.

In his heart, ning Wenhao, that bastard, had no right to share the ning family's assets with him.

But now, ning Wenhao had already seen the transfer bills through the hacker, kamu. Obviously, he had already gotten hold of the evidence. He had lost! Ning Wenhao had won!

Now that the ning family was in danger, his interests were about to be lost. But even so, he didn't want ning Wenhao to touch the ning family.

It was because everything in the ning family belonged to him, the son who was officially married. That bastard, ning Wenhao, what else did he have other than using such underhanded means to threaten the ning family?

just when everyone thought that ning wenhao was going to get a part of the inheritance of the ning family through this, ning haoran sighed.

"No need. He has already blacklisted me. "

"What?"

ning haohan put it on speaker so that everyone could hear him. So this cry of surprise belonged to every single person in the ning family.

No one would believe that ning Wenhao would be so decisive.

“How could I have blocked you? That unfilial son, did he really want the ning family to die? Don’t forget that he’s also a member of the ning family! The ningwen group was created by his father!”

Old master ning’s trembling got a little better after he took the medicine. But at this moment, it suddenly trembled violently again.

The sediments in his chest were stuck in his heart, making his heart ache and even his breathing difficult.

“Father, ning Wenhao has made it clear to you before that if you continue to do this, he won’t leave any way out for the ning family for his father’s sake. he’ll find all the evidence that you’ve framed the nangong family. at that time, the ning family won’t decline only after a few decades, but immediately. “He said that when the ning family declined, you shouldn’t go to him, because after you did these things, he would no longer be a member of the ning family. But how did you do it?”

“Shut up!” “is this the time for you to lecture me?” elder ning shouted.

2710 The ning family is finished, let’s stop 4

“I want you to immediately find a way to contact that unfilial son. I don’t believe that he’ll be unmoved if I give him the ning family’s inheritance!”

“Dad, you’ve really underestimated ah Hao. As a descendant of the ning family, I also hope that the ning family can be strong and prosperous. It’s because we’re all relying on the ningwen group to live such a good life. If we don’t have the ningwen group, we’ll just have to rely on our own salary and dad, you’ll just have to rely on your pension. We’ll only be able to live a slightly better life than ordinary people. That’s why I told ah Hao when I begged him to be lenient and not let the ning family fall into a desperate situation that I would support him and let him become the head of the ning family. However, a Hao sneered and told me that his annual dividend from Eagle Eye group was higher than the net profit of the entire ningwen group. He did not think much of the ningwen group. So, if you really insist on doing things your way, then don’t blame him for not considering that it’s his father’s legacy. He won’t show any mercy to those that should be destroyed.”

The people of the ning family were shocked that ning Wenhao’s dividends in Eagle Eye were higher than the net profit of the entire Ning Wen group in a year. They were also shocked that ning Wenhao did not show any mercy to the Ning Wen group.

After hearing ning Haohan’s words, the nings fell into a strange silence.

“Dad, I told you before that ning Wenhao will definitely find the evidence,” ning Haoran said.”Why didn’t you believe me? If a random hacker could destroy disheng, then disheng would have been dead by now. Could they still achieve the level of being in the top three in the world?

Father, although you were stubborn in the past, you were also wise. That's why you were able to lead the ning family to where you are today. But the older you get, the more confused you become. Why don't you think about it, a lot of advanced computer knowledge in Kamino came from cyber? And disheng group had the most powerful weapons in cybernation. They were the biggest Jun fire merchant. If they couldn't even handle such a simple matter, how could they survive? Not to mention making it big and strong!

Even if disheng really can't deal with the hackers you hired, you can't do it. What about the Eagle? As the top battle team of Kamino, if the flying Eagles couldn't even deal with such a person, wouldn't all of our country's secrets be leaked? Wouldn't the world be in chaos? If Fei Ying had such a person, would he not help Nangong Nuannuan?

Dad, the ning family is finished! "Previously, I strongly wanted to stop you from destroying the ning family, but you didn't listen to me. Now, in order to ensure that my future path will be smooth, I have already reported to the combat service department yesterday to sever all ties with the ning family. The combat service department has already agreed. I can't stop you, but I can at least protect myself and my family. Therefore, whether the ning family is Dead or Alive, it has nothing to do with me.

Dad, even if ning Wenqi is our younger brother and not our nephew, we are still your sons, and we are also members of the ning family. For the sake of ning Wenqi, you're willing to block the entire future of the ning family. This is something that I truly can not bear, and it also disappoints me. Since you care about him so much, then you should care about him in the future! When he's living a life without anything, you and he may realize how happy your previous life was."
