Chapter 2771

2771 Moving IQ (1)

Sangyé looked at the pitiful ning Haohan who was kneeling in front of him and pointed at another officer. look at what he's holding in his hand.

Ning Haohan looked in the direction where Sanji was pointing and saw that the officer was holding a small camera and was recording his image at the moment.

Ning Haohan still could not figure out why Sanji wanted to hit him.

Sangyé was also shocked by ning Haohan's calm reaction. He could not pretend anymore and said, I really don't get it. How did you have the guts to frame miss Nangong with such a low IQ? "

hearing the name " miss nangong ", ning haohan's eyes widened. he was shocked and looked at sanji in fear.

Sangyé sneered,"that's true." if you were slightly smarter, you wouldn't have the guts to frame the nangong family. What kind of company was disheng? If an idiot like you could defeat disheng, then disheng wouldn't be in the top three in the world. Your ning family, other than being removed from Kamino, is not even in the top 200 in the world. The light of a grain of rice dared to compete with the sun and the moon. Idiot!"

Ning Haohan raised his hand and pointed at sangyé with a trembling finger. After a long time, he finally said, " y-y-y-you're in cahoots with Nangong Nuannuan?!

Sangyé shook his head. I'm not fit to be on the same level as her. I'm just one of the people who followed miss Nangong.

"Follow Qianqian, follow Qianqian."

"That's right, it's following." Sanji didn't care about this and said,"Without miss Nangong, I wouldn't be here. I'm indebted to miss Nangong. You took her money and tried to frame her, making her the target of public criticism. Don't you deserve to die?"

Ning Haohan was dumbfounded and kept shaking his head.

"No, no, no, no, it's not like this! In fact, I didn't want to hurt miss Nangong at the beginning. My dad and I just wanted to take some charity money. it was zhenzhen and ning wenqi. he didn't like the fact that ning wenhao's backer was getting stronger and stronger, so he persuaded kamu. After that, I just cooperated with ning Wenqi to convince the old master. I'm not the mastermind! I'm really not the mastermind!"

Ning Haohan quickly knelt down and kowtowed to the officer who was holding the camera. "Miss Nangong, I have eyes but failed to recognize Mt. Tai. I'm blind in the eyes, I'm blind in the heart. I beg you, on the account that I'm also a victim, please spare my dog life! I swear, I will never return to Kamino, and I will never do such a thing again."

Sanjyé could not help but say, "do you know what miss nangong always says?"

ning haohan was speechless.

"If an apology was useful, why would there still be so many prisoners in the prison?"

Ning Haohan was speechless.

"I was wrong! Miss Nangong, I'm truly remorseful. I can tell you my bank account number, and you and general sangyé can use it to transfer the money to Carm. That way, you can get the 17 billion."

Sangy sneered, "so how do you think your ning family became The Public Enemy?" If our miss Nangong can't even solve this, how can Di Shi make such a big deal? To tell you the truth, the 11.8 billion will all be returned to the donation Association's account today, but it will be recovered in the name of disheng group. "As for the remaining 3.2 billion in the ningwen corporation's liquid funds and the 2.2 billion in your account, just treat it as the labor fee for miss Nangong to transfer the 11.8 billion back."

Chapter 2772

2772 It's impossible to have a good ending (2)

Ning Haohan's eyes widened.

F * ck you!

What kind of labor fee would require 5.4 billion?

This was simply too much!

Although ning Haohan's heart was bleeding and he was filled with regret, it was not as important as his life and freedom.

"Since you've already gotten the money, I'm no longer of any value to you. Just let me go!"

General sangyé shook his head, "no one can have a good ending after offending miss Nangong so deeply." However, miss Nangong was kind and specifically said that she wouldn't take your dog life for her husband's sake. You're the luckiest person after offending miss Nangong. However, the death penalty could be avoided, but the price to be paid still had to be paid. It just so happens that there aren't many people locked up in the underground prison of my military camp. Even if you've occupied this place all year round, there are still a lot of empty spaces in my underground prison."

After saying that, he gave an order to the soldier beside him, "Take him away and watch him strictly."

"yes."

"No, no, Yingluo, you can't do this to me! I'm a member of the ning family, you can't treat me like this! Send me back to Kamino! I'd rather go back to my country and accept my punishment! I'll definitely tell the whole story to the public and atone for my mistakes!"

Ning Haohan was almost scared to death when he thought that he would be locked up in France forever.

This country was different from Kamino, it was much more chaotic. If he was locked up in this prison, he would definitely suffer a fate worse than death!

If he could return to Kamino, even if he had to spend the rest of his life in jail, it would be much better than being imprisoned here.

Ning Haohan's bottom line started from when he talked to Sanji. Now, he only wanted to return to his own country.

"Miss Nangong said that since you don't love the Kamino kingdom that much, then you shouldn't go back. Just be a good Mustad."

"No, I don't want to be a Mustad, I want to be a Kamino! Let me go! I want to go back! I want to go back to my own country."

The last cell in the dungeon was specially built for Ning Haohan. That was because the air circulation there was the worst, the humidity was the highest, and the winter was the coldest.

Nangong Nuannuan then received the video that Sanji had sent her. She clicked on the video and watched the silly Ning Haohan. She turned off the 30-minute video after less than a minute.

Because she trusted Sanji, Ning Haohan was already dead to her. She would never bother to pay attention to an enemy who had no competitive strength.

The Ning family had become history. All that was left was for Ning Wenhao to acquire the Ning Wen group.

She also had to prepare for the matter of dealing with Feng Kun in a few months.

Shi Yalin had sent people to keep an eye on Brother Chiyang. After Brother Chiyang was injured that day, she heard that the blood on the ground was cleaned up, right?

Nangong Nuannuan was holding a test tube in her hand, a smile on her face.

He was such a powerful venomous snake in his previous life. How did he become so stupid in this life?

"Knock, knock." Someone knocked on the door.

Nangong Nuannuan glanced at Second Uncle Chi, who was standing outside, and opened the door.

Second Uncle, it's so late. Is there anything I can help you with?"

Chi Zeyao entered the room in his wheelchair. Even though he was seated, Nangong Nuannuan had never looked down on him.

After all, this was the person who had played the Nangong family and the Chi family like a fool and couldn't do anything to him.

Chapter 2773

2773 Crazy designer (3)

I hope I'm not disturbing you," Chi zeyao smiled.

"No, no," Nangong Nuannuan shook her head. I just came down from upstairs."

"Before Chi Yang was injured, I saw that you had been doing research on medicine. Is it related to Shi Yalin?"

"Yes." Nangong Nuannuan nodded. She had nothing to hide from Chi zeyao.

"shi yalin created a lot of bugmen, but most of them were destroyed by big brother. She should still have some bugmen with her, but those were probably for future use. Now, she wants to use the drug from before to create ability users. As long as she has brother chiyang's serum, it can be done even if it's diluted."

"So, she has already obtained Chi Yang's blood?" Thinking back to Chi Yang's injury, Chi zeyao frowned and asked.

"Yes." Nangong Nuannuan nodded and smiled,"but I have a plan." &Nbsp;

looking at the little bit of mischief in nuan nuan's smile, the worry in chi zeyao's heart also disappeared.

After Chi Yang had been injured, he had sent someone to clean up the blood. However, his men told him that the blood stain had been touched. At that time, he had wanted to tell Nuannuan. However, because Nuannuan had to take care of Chi Yang at that time, he had delayed it until now.

However, it seemed that Nuannuan had already made preparations.

Although the blood was indeed stolen by Shi Yalin, Chi zeyao was not that worried.

"Oh right, I have something for you. You have a good relationship with the president, so you can give this to him."

"What?"

it's because I'm a sickly girl, " Chi zeyao chuckled. there are many people around me who don't have eyes. That's why I came up with this.

then, something extended out of uncle chi's wheelchair. soon, it turned into an iron box. the iron box opened by itself. inside was a pair of ordinary white gloves, and there was a small box next to the white gloves.

Nangong Nuannuan's narrowed eyes flashed with interest.

Other people might not know, but she, who had experienced her whole life, knew that her second uncle's Shengyang group was special, very impressive, and very powerful. This was because second uncle was an expert designer who was very similar to Aiden. It was also because his design was later exposed that the movie had Warriors wearing steel.

Or rather, Aiden's interest in designing weapons stemmed from his interest in the old King. This was because old King had once been a mad designer of ultimate weapons.

Therefore, after finding out that second uncle Chi was old King, Nangong Nuannuan had developed a strong interest in second uncle Chi's Shengyang group. However, second uncle had never invited her to visit, so it was not appropriate for her to ask. In addition, things had happened one after another. She had originally thought that before dealing with the Shi family, it would be best to find second uncle Chi to figure out the core of the Shengyang group. Who knew that the considerate second uncle would give her something?

Although it looked like an ordinary white glove, she had X-Ray Eyes and could see that each finger contained a chip in the interlayer of the white glove.

The material of the gloves was also very special. It was a chemical material that she had never seen before.

In the other box was a pair of contact lenses. However, Nangong Nuannuan could also tell that the material of the contact lenses was different.

She reached out and carefully picked up one of the white gloves. She put it on and gently clenched it.

In an instant, a powerful force gushed out of her hand, shocking Nangong Nuannuan so much that her eyes widened.

2774 Hurry up and perform the surgery for me (4)

Chi zeyao smiled warmly. clench your fist tightly and you can unleash the glove's greatest power. Therefore, the effect of this glove was different when worn by different people. I've prepared a pair for each of you. This pair belongs to the president. You can give it to him and say that you designed it."

Nangong Nuannuan was slightly taken aback, but she understood after some thought.

Second uncle had been hiding in the Chi family for so many years to make Feng Luan let her guard down. In this world, the person who understood Feng Kun the most should be second uncle. Now that they were already so powerful, second uncle was still so meticulous. It was enough to show that Feng Kun was indeed a strong opponent that she could not hope to reach.

Since second uncle didn't want to be exposed, then she would be exposed. Anyway, she had always been high-profile, so Feng Kun must have already found out about her.

"Alright, I'll find a chance to give this to the president. Then What is this?" Nangong Nuannuan pointed at the pair of glasses. Her eyes were full of stars.

"Glasses and gloves are a pair. When encountering an enemy, glasses could use the chip to see the enemy's strength, attack speed, and direction of attack, allowing the enemy to react faster to defend or attack. I didn't prepare this for you. It won't be of much use to you, but it will be very useful to the president."

Nangong Nuannuan understood. She nodded. I'll thank second uncle on behalf of the president. He'll definitely like this.

Even she liked the pair of gloves.

Nangong Nuannuan looked at her second uncle and asked with a smile, "Second uncle, when can you give me the gloves you gave me? If I had it earlier, I could have trained more."

I made the ones for my family myself," Chi zeyao couldn't help but laugh. you'll have to wait a while.

Nangong Nuannuan nodded happily when she realized that her wedding dress was better than the president's. then I'll thank second uncle in advance.

you silly girl," Chi zeyao said unhappily. we're a family, do we still have to thank each other?"

Nangong Nuannuan immediately changed her words.

"Yes." Second uncle was very satisfied with Nangong Nuannuan's attitude in admitting her mistake. He nodded and said, "How long will Chi Yang's heart take to recover?"

"actually, one month is enough. with brother chiyang's recovery speed, it will definitely be faster. just don't do any strenuous exercise. When I said three months, I purposely extended the time so that the Shi family would know that brother chiyang is seriously injured."

alright! Chi zeyao nodded and said, "then you should start the surgery soon.

"Ah?" Nangong Nuannuan was taken aback. but didn't you just promise second aunt that you'll only do it in October?" Second Shen is worried about your health."

"October is just a suitable time for weather. I heard that the environment at your Angel pharmaceutical center is very good. Can second uncle apply to go to your place earlier for the surgery?"

Nangong Nuannuan's mouth fell open slightly as she looked at her second uncle, who was pretending to be obedient but actually going against his words.

"Second uncle, will you really be fine if you perform the surgery so openly and secretly?"

Second uncle smiled elegantly. what could happen? she has a sharp tongue but a soft heart.

"Then, Yingluo, will I be scolded to death?" Nangong Nuannuan swallowed her saliva. She was still a little afraid of her former godmother.

Although her godmother had never hit her before, when she was young, she was still a little scared when she saw her big brother, who was as cool as the moon and the breeze, get beaten up.

Chapter 2775

2775 Don't worry, I'm here (1)

Chi zeyao's mouth was slightly agape. He didn't expect that the ko group wouldn't bring any psychological trauma to Nangong Nuannuan. In fact, she had even exploded in the end. The King, Feng shengxuan, didn't give her any psychological trauma either. In fact, he was even tricked into destroying his family business. Nothing had left a shadow in Nangong Nuannuan's heart, but his wife had.

Looking at Nuan Nuan's frightened expression, Chi zeyao smiled and said, "Don't worry, I'm here."

Nangong Nuannuan laughed. then, if second aunt scolds me, you must help me.

“Don’t worry,”

“Alright,” he said. Since her second uncle had already made his promise, Nangong Nuannuan agreed without hesitation.

“How long will it take for me to do it?”

“Anything is fine. I’m fine with anything. I’m mainly looking at you.”

“You’re the one who’s nursing my body.”

“I’ve already adjusted your condition to the best condition before the operation, and you can undergo the operation at any time. I’ve also prepared your artificial joint for you. It’s a material that I personally developed, so it doesn’t feel out of place at all when placed in the joint.”

“I believe you.” chi zeyao had no doubt about nangong nuannuan’s medical knowledge.

“Then, can ran ran perform the surgery for me next week?”

If he hadn’t seen his wife yet, he could still endure it. It wouldn’t be a problem for him to be in a wheelchair for a few more years. However, in the past few days, he had been sitting in a wheelchair with his wife. It was not even convenient for him to get up, and he could only walk slowly. Over the past few days, his wife had treated him like a disabled person. This had slowly put away the warmth in Chi zeyao’s heart, and his hot-bloodedness was immediately forced out.

In the past, he was an omnipotent person in front of his wife.

His wife was going back the day after tomorrow. He hoped that when he saw his wife again, he would still be the same person as before.

Although he had changed his appearance, he didn’t want to change his other features.

Nangong Nuannuan saw the determination in her second uncle’s eyes and nodded. okay, then I’ll let Gu Mingcheng know and ask him to get ready. We’ll discuss the exact surgery time next week with our family.

Chi zeyao nodded and added, “Don’t block your second aunt.”

“I know!”

“Yes, I am. you’re busy, then.” Chi zeyao turned around and left after asking about his surgery.

Nangong Nuannuan felt that her second uncle had come to find her tonight to confirm the fact that she had undergone surgery.

The next day was the Nangong family’s family banquet. Since the second aunt, Feng jimian, was about to leave, and the entire Chi family was staying with the Nangong family, the farewell banquet for the second aunt would naturally be held by the Nangong family.

However, the host of the kitchen today was no longer second uncle Nangong Qin, but second uncle Chi zeyao.

He would personally cook all the dishes that second aunt liked.

Second uncle mostly made Western food. In order to make the best food, second uncle made every dish very carefully.

Even the wheelchair that he had never revealed before was now exposed.

Everyone in the kitchen suddenly realized that not only did second uncle's wheelchair look high-end, it was actually very high-end.

The seats and armrests could be raised or lowered.

Looking at the automatic wheelchair, everyone no longer felt that Chi zeyao's wheelchair was heavy.

This was because when Chi zeyao had asked for help to lift the wheelchair, the Nangong family had personally witnessed how two people had to use all their strength to lift it.

2776 Bro (2)

At that time, everyone did not understand why Chi zeyao had to use such a heavy wheelchair. But now, seeing that second uncle Chi's wheelchair could not only be raised, but also seemed to be able to transform in other ways, everyone clicked their tongues in wonder.

Especially little sun and little Ling 'er. When they saw such a powerful wheelchair, they wanted to go and sit in it themselves. In the end, mu Chenxiang chased them away and asked little sun to help little Ling 'er with her homework.

Little Ling 'er didn't want to do her homework in her room. After all, her room was very cold and quiet, and the living room outside was very lively.

Moreover, little Ling 'er had also heard that fourth uncle's boyfriend was coming, so she was even more unwilling to return to her room.

Now, other than Nangong Zheng himself, the entire Nangong family and Chi family, even little sun and little Ling 'er, knew that star Cang LAN was a girl. Only Nangong Zheng was still trying to convince himself that star Cang LAN was his brother.

Today, it was Nangong Nuannuan who had asked the mother-daughter pair to come over.

Because she had promised to help Cang mingya with acupuncture, but after only one acupuncture, she received the news of brother chiyang being buried the same day, so she rushed over.

She remembered that when she was about to leave, Cang LAN star and Cang mingya didn't feel sorry for being stranded. Instead, they helped their family to persuade Grandpa Chi. The mother and daughter did not even have time to look at her until they left.

Even though so many days had passed and she had been back for a few days, her fourth brother, Nangong Zheng, had never mentioned anything about Cang Ming ya to her. On the contrary, the canglan star asked fourth brother to bring some tonics for brother chiyang.

Although there weren't many tonics, they were all extremely good. It was something that even Nangong Nuannuan did not mind, which showed how much effort planet Cang LAN had put in.

Therefore, when Nangong Nuannuan found out that there was going to be a banquet today, she specifically asked Nangong Zheng to invite her mother and her from planet Cang LAN. Now that she had time, she could help Cang Mama with acupuncture.

When the two little fellows heard this, they both joked that they wanted to see their fourth brother's "boyfriend."

When he saw the gossiping gazes of the two children and felt the strange looks from his relatives around him, Nangong Zheng could only explain to his family not to spread rumors about his relationship with planet Cang LAN. He and planet Cang LAN were brothers. At the same time, he cursed in his heart, he's a straight man, a straight man! Even if one day he couldn't handle the pressure and became a w, would it be easy to accept?

Why did everyone in the house act like: We understand. You don't have to explain.

What's the meaning of this expression?

The Neth family of cyber country was a very large family, with dozens of direct descendants and hundreds of branch family members.

But all these years, Feng Ji Mian had never truly experienced the warmth of a family.

In her opinion, the people of the nice family had all succumbed to her force and threats. They had never really treated her as family, and she had never treated them as family. To her, those people were just her subordinates who were close to her and not close to her.

Seeing the Nangong family and Chi family's happy and harmonious atmosphere, Feng Ji Mian didn't say anything, but her heart was filled with anticipation.

The more this was the case, the more she hoped that Feng Kun would die early.

Just as Feng Jimian was thinking about how she could kill that old b * stard, Feng Luan, the two kids who were doing their homework started quarreling.

2777 Talent (3)

Little Ling 'er asked, 'little sun, what kind of stupid question did you set? $17+8$, even if I used my fingers and toes, it still wouldn't be enough. The question you set is beyond the syllabus!"

Little sun replied, 'you don't know what $17+8$ is? Nangong Ling, are you a pig head? You're going to be in the first grade when school reopens. How are you going to survive in the first grade with your current state?"

Hearing little sun call her sister a pig head, and her sister was obviously unhappy, Feng Ji Mian was thinking about how to resolve the conflict between the two siblings when little Ling 'er asked with a dark face, " "Then let me ask you, what is $123456789+6537948927$?"

Little sun was stunned by little Ling 'er's question.

If he was asked what was $123456789+987654321$, he could answer it in one go. However, there was no common sense in the addition number after little Ling 'er. How could he calculate it?

Little sun pursed her lips and answered honestly, " "I don't know,"

Little Ling 'er immediately got excited and asked, " "Then what reason do you have to call me a pig? It's the same addition, subtraction, multiplication, and division, but I can't answer it, and you can't answer it either. This shows that there's no difference in our nature!"

Feng Ji Mian,"waa???" it could even be like this?

"If you're really that good, you can win the World Championship in mental arithmetic and bring glory to our country. In fact, neither of us are good at mental arithmetic. Isn't this what our teacher always says about the pot calling the kettle black?"

Little sun:

"You didn't pass with 1 point and 59 points. You failed in second place and 99th place. But Kobe once said, " Second place was The Biggest Loser! So you're not better than me, you're just closer to failure than me. Isn't this the logic?"

Little sun:

Feng Ji Mian said,"Wuwu (gradually lost) seems to make sense."

"Besides, even though I'm not good at mental arithmetic, I can borrow a calculator! Although I don't know how to swim, I can still play happily in the water with a swim ring! From a primitive society where people ate raw meat and drank water to today's technologically advanced world, why were humans always at the top of the food chain? What's the most fundamental difference between humans and animals?"

Little sun:

"It's humans who can use tools, but animals can't! Now, comparing the two of us, I'm a wise man who has successfully evolved by absorbing humans for millions of years, and you're a fool who can't keep up with the times! Who's the pig between us?"

Little sun,& quot

Feng Ji Mian,"

If it wasn't for the fact that the children were here, she would have blurted out, " you're so easy to handle!

He had heard that little sun and little Ling were a pair of twins. Little sun had already skipped to the fourth grade of elementary school and was about to participate in the junior high school entrance exam

next year. However, little Ling 'er wasn't that freakish. However, they had heard that little Ling 'er was super super super, super cute. All of her shortcomings had been replaced by cuteness, so everyone liked the cute little Ling' er more.

She had just witnessed little sun's amazing performance in tutoring homework, but now, after hearing little Ling 'er's barrage of words, Feng Ji Mian couldn't help but laugh as she rocked back and forth. At the same time, she couldn't help but praise little Ling' er in her heart-talent!

When they heard Feng Ji Mian's bold laugh, the entire family looked over. Even second uncle, who was in the kitchen, couldn't help but come out and ask, "What's wrong?"

Chapter 2778

2778 You've lost a lot of weight 4

It was rare for Nangong Jin to be at home. When he saw them, he knew that the two little fellows were causing trouble again. He walked over a little tiredly and looked at the angry little Ling. He held her soft body in his arms and looked at little sun, asking, "You're bullying your sister again?"

However, little sun completely ignored her father and continued to seriously doubt life.

It was little Ling who finally calmed down and said to Nangong Jin, "Daddy, he's thinking about how to keep up with the times!"

Nangong Jin couldn't help but laugh. He lovingly rubbed his daughter's small nose and teased, "Oh, you know how to keep up with the times?"

"Of course, I'm a good kid who keeps up with the times." after he finished, he immediately laughed bitterly and said, "daddy, mommy asked brother to watch over me while i do my homework, but the questions he gave me were out of the syllabus. Our teacher said that only addition and subtraction within 20 can be learned in the first grade of elementary school, and only those above 20 can be learned in the second grade. In the end, look at the stupid question my brother gave me. I can guarantee that the answer is definitely above 20. I don't want to make any that are above 20."

Nangong Jin took a look and said, " alright, then we won't do it.

"Xu 'er, take your little sister out to play for a while. It's almost time for dinner," he said to little sun.

Little Ling 'er's eyes lit up when she heard that they could play. Disregarding the past, he pulled little sun and said, "Little sun, let's go and play with da Bai and Buttface!"

Little sun was still pondering over little Ling's words, but as soon as he heard that little Ling was going to take him to find great White, he instantly forgot about his life. She immediately followed little Ling 'er out with a smile on her face.

After all, whenever he looked for da Bai alone, da Bai would simply ignore him and leave after yelling at him.

Little sun really liked da Bai and wanted to play with him, so he had no choice but to follow little Ling.

Although little Ling 'er had retorted him, he knew that he was the one who spoke first about his sister. The two of them had a good relationship, so while Feng Ji Mian was still thinking about how to help resolve the conflict between the brother and sister, the two children had already left, hand in hand.

"You're the obstacle in little Ling 'er's path to growth!"

Mu Chenxiang had already walked to Nangong Jin's side. She carried everyone on her back and gave Nangong Jin a gentle twist on his waist.

This was the most ticklish part of Nangong Jin's body, and it was tickled by his wife. However, he was too embarrassed to jump up directly, so he could only hold it in.

Feng Ji Mian watched as goosebumps appeared on his face, and his face turned red, but he held it in.

In an instant, Feng Jimian wanted to stay in this family all the more.

He regretted targeting the Chi and Nangong families for so many years.

Repentance!

Cang LAN star was embarrassed to come too early. When she brought Cang mingya to the Nangong family, it was almost 11 O'clock.

everyone had seen cang mingya before, and that time was on the day chi yang was in trouble. they had not seen him since.

In the blink of an eye, half a month had passed, and when he saw Cang mingya again, he found that she had lost weight.

"Aunt Cang, you've lost a lot of weight." Nangong Zheng looked at Cang mingya's face, which already had a slight outline, and couldn't help but be surprised.

When Cang mingya heard this, she was also very happy.

After all, he had been fat for 18 years, and he was so fat that sometimes he couldn't even think properly.

Previously, she had lied to everyone that she was 200 pounds, but in fact, she was more than 220 pounds.

2779 Her heart ached terribly 1

Hearing Nangong Zheng's surprised voice, Cang mingya smiled and said, "Yup! I've lost 28 pounds in half a month! Nuan Nuan is amazing! When she told me that acupuncture would make me thin, and that I should exercise quickly in the process of losing weight, I was a little skeptical. After all, my weight has been high for so many years, and all the doctors have given me a death sentence. I didn't expect that I would lose weight every day after Nuannuan performed acupuncture on me once. Nuan Nuan, she's the living Hua Tuo!"

"My Nuan Nuan is even more powerful than Hua Tuo," Nangong Zheng said with a smile.

"Brother, don't talk nonsense." Nangong Nuannuan replied with a smile.

"Uncle, what nonsense are you talking about? The uncle was telling the truth! I also think that even if Hua Tuo was still alive, he wouldn't be as powerful as you. Nuan Nuan, you are the most skilled and skilled doctor I have ever seen!" Cang LAN star praised from the bottom of their hearts.

Nangong Nuannuan was a little embarrassed by their compliments. She smiled and said, "No way. Aunt Cang was able to slim down so quickly because she had found the cause of the illness and successfully expelled the poison. After the toxins in her body were completely cleared, and the blood vessels and meridians blocked by the toxins were cleared, aunt Cang would lose weight to a normal weight. Let's go, I'll give aunt Cang acupuncture before we eat."

"How is Lieutenant General Chi? how is he?" Cang LAN star asked with concern.

"yes." Nangong Nuannuan's lips curved up at the mention of chiyang. "He's fine, but because his injuries are still quite serious, I let him rest upstairs. He'll come down at lunch later."

Cang LAN star's eyes brightened and he almost jumped up: "Really? nuan nuan, lieutenant general chi is my idol. can i ask him for an autograph when we have dinner later?"

"Of course, not only can I get an autograph, I can even take a photo with you!" When Nangong Nuannuan heard that her future fourth sister-in-law was her brother chiyang's fan, she happily agreed without any hesitation.

Standing at the side, Nangong Zheng, who had always been in a good mood, after hearing these words from Cang LAN star, his expression slightly froze, and his smile also became a little less.

After half an hour of performing acupuncture on Cang mingya, Nangong Nuannuan returned upstairs to take care of her brother chiyang.

If it wasn't for the fact that there were many people at home and there were guests, she basically wouldn't have gone downstairs. There were even some experiments that could be carried out in their rooms. She would do the experiments while accompanying Chi Yang. Otherwise, she would have waited for Chi Yang to fall asleep before going downstairs to do the experiment.

Chi Yang also knew that Nuan Nuan had Feng shengxuan, Baili Yue, and Aiden to help her with her company's Affairs, and Selena and danqi to help her with some other things. Although she seemed to be free, he knew that Nuan Nuan had been secretly competing with Shi Yalin and Feng Kun. She had not relaxed for a single day.

Ever since he had returned home to recuperate, Nuannuan had not slept before two in the morning.

In the morning, they would wake up at 6 am. Sleep for no more than four hours.

Chi Yang's heart ached, but he couldn't say anything. Therefore, he could only spend more time sleeping every day.

Furthermore, Nuan Nuan had x-ray vision, so he would be discovered if he were to feign sleep. Therefore, he would usually force himself to really sleep.

But in these two days, he seemed to have found a way to rest.

The reason why he said he was resting instead of sleeping was because he felt as if he could feel the nerves in his brain.

Chapter 2780

2780 Everything is in your heart (2)

He didn't know how to describe this feeling.

In any case, after his injury and after Nuannuan had given him a head massage and acupuncture, he had felt a slight change in his brain.

This change not only allowed him to feel the nervous system in his brain, but he could also feel the airflow when Nuan Nuan opened the window to get some fresh air. The air current was not like the wind blowing on his body, but he could already feel the flow of the air before it touched him.

this feeling was especially obvious when the two gusts of wind collided with each other.

Other than the wind, there were also trees.

From his angle, he could see a thousand-year-old ginkgo tree planted in the front yard of the Nangong family. Although he could only see the top of the tree from where he was, he could actually feel that the top of the thousand-year-old ginkgo tree was a little lacking in nutrition from such a long distance.

After observing him for a few days, Chi Yang was sure that he had profited from this misfortune. It was as if a certain skill in his body had been discovered.

After a few days of observation, he was sure that he could see the Pi Xiu, or to be more precise, he could sense the neurons of the trees.

It was the most subtle thing in an object that Nuan Nuan couldn't see with her x-ray vision.

Because he could sense it, he could control it.

therefore, when he closed his eyes and relaxed the nerves in his brain, he felt his consciousness begin to gradually blur. It would only take a few seconds for him to enter a sleep mode that was once difficult to enter.

He used to be unable to sleep for several days, but now he could relax his nerves with a little control.

After relaxing like this for a few hours, and then consciously returning to normal operation mode, he could feel that he was much more energetic. It was the same feeling as having a good night's sleep.

The only difference was that when he relaxed his nerves, he still held back a little, so he could completely sense what was happening outside.

However, Nangong Nuannuan did not realize that her brother chiyang was pretending to be asleep. She was happy to find that her brother chiyang could sleep better after being injured.

Chi Yang woke up less than a minute after Nangong Nuannuan returned to the bedroom.

Nangong Nuannuan was very happy to see that her brother chiyang had only just woken up. She immediately flashed him a bright smile.

“Big brother chiyang, you’re awake?”

Chi Yang also returned a warm and handsome smile and nodded, “Yes, I am. The little noodles seem to be very lively.”

“Did I disturb you?” Nuan Nuan was stunned. no! Before I left, I specially closed the door and windows of this bedroom, afraid that I would disturb your rest.”

Chi Yang shook his head, “no, I slept very well.” didn’t you check it?”

“How did you know I checked you?” Nuannuan was shocked.

“When I opened my eyes, you should have just finished your x-ray vision. We’ve been together for such a long time, and I’ve been keeping track of your every move. So, whether you turn on your x-ray vision or stop it, I can still tell.”

After hearing Chi Yang’s words, Nangong Nuannuan’s heart was filled with sweetness.

“Really? My every move is in your heart?”

“Yes.” Chi Yang admitted without any reservations.

His Nuannuan was his life.

“Did you come up for lunch?” chi yang asked.

“Are you hungry?” Nuan Nuan asked instead of answering.

“No, I didn’t,”
