Chapter 2871

2871 Super Combat power (4)

After they arrived, Guo Song asked his brothers to form groups of two and enter area 21 from all directions, occupying the most favorable position.

After Guo Song and his brothers made an appointment, the police siren suddenly sounded. And the sound seemed to be coming from somewhere very close.

Even though su Zhi wanted to kill Xu Feiyang, he knew that Nangong Nuannuan had a good relationship with Xu Feiyang. If the police arrested all of them, Xu Feiyang would be the one to be released in the end.

Therefore, when they heard the alarm, su Zhi and the three mercenaries beside him probably retreated immediately and ordered their men to continue killing Xu Feiyang.

even though his subordinates were not willing to do so, they understood su zhi, so no one dared to retreat with him.

This caused su Zhi and a few mercenaries to return, while the other group of people had their backs to them.

At that moment, Guo song's men started to sweep su Zhi's men.

su zhi's shoulder was hit. he simply dodged in time and hid behind a machine without injuring his vital parts.

Su Zhi and the others dodged it, but those people who surrounded Xu Feiyang weren't so lucky.

After being swept down by this wave, not even one out of ten survived.

Su Zhi was furious. He realized that they had been tricked by Guo Song, so he ordered his three mercenaries to kill Guo Song and his men.

guo song knew that his brothers couldn't beat the mercenaries, so he only shouted one word, " "Run!" then, the group of people immediately scattered.

seeing this, the mercenary's lips curled into a determined smile, and he sped up.

Who knew that those people who had scattered like birds and beasts would play them again.

the formation that was clearly scattered in all directions was shot at the three mercenaries' ankles, knees, heart, and head when they came from three different directions.

The three mercenaries didn't expect that these people would dare to expose their bodies in front of them and shoot at them at close range. In a moment of carelessness, two mercenaries were shot in the knee and heart.

The mercenary who had been shot in the heart was furious and kicked the man who had injured him.

The man was kicked away by the mercenary in front of everyone.

At the same time, a pair of scissors flew over and pierced his heart.

After fan Dong and the others came back to their senses, their eyes turned red, and they joined the battle at the first moment.

Of the four generals around Xu Feiyang, other than Yang Shuo who had been protecting Xu Feiyang all the time, the other three had all joined the battle.

The main reason was that his brother had died too miserably.

Guo song's eyes were also red. He knew he was no match for his brother, but if his brother could die for his order, he could die for his brother too.

Of the three mercenaries, one was uninjured, one was hit in the knee, and the other was hit in the heart.

Everyone rushed up to surround the unharmed mercenary, trying to take him down with numbers.

There were two left. One of them was left alone, and the other one had a knee injury. Guo Song thought it was better to leave him alone. After all, he was disabled. Therefore, the people who had attacked them were Guo song's men.

who knew that the person they didn't care about the most, who had been shot in the heart, would finish off one of them with one punch when these brothers surrounded him.

With just two punches, the faces of two of them were smashed.

Everyone only heard two " pfft pfft " sounds, and from the corner of their eyes, they saw two of their brothers' faces being smashed by the man who had already been hit in the heart.

Chapter 2872

2872 Warm and fuzzy (1)

While they were shocked at the strength of this man's fist, they also welcomed the crazy revenge of the other two mercenaries.

Fan Dong used all his strength to punch one of the mercenaries, but the result was that he was sent flying.

Seeing that the man had already pulled out the dagger on his shoulder and was about to throw it at fan Dong, Guo Song didn't think too much about it and directly faced him.

The mercenary shifted his gaze and stabbed at Guo Song. guo song didn't dodge the bullet. instead, he took out his gun as fast as he could and shot the mercenary's kidney.

However, the man was extremely fast. Guo Song could have hit him with a 100% accuracy, but the moment he fired, the man's waist twisted in an incredible angle. however, the knife that was supposed

to be in his neck was deeply embedded in his shoulder. Guo Song's entire body seemed to be twisted in an instant.

With a muffled "bang", Guo Song was sent flying by the kick.

the moment he was sent flying, he felt as if his sternum had been completely broken.

This kind of injury was basically impossible to cure.

Guo Song, who was on the ground, seemed to see Cang Lan Star.

"Sister Xing!"

Fan Dong, Fang Sheng, and the other people beside Xu Feiyang shouted happily. At the same time, Cang Lan Star had already kicked the mercenary who had beaten Guo Song to death.

for the first time, the uninjured mercenary was kicked to the ground. he tried to roll on the ground and get up, but a leg had already kicked him in the face before he could roll.

Cang Lan Star already knew that these people didn't feel pain, so when they kicked the other party, they didn't relax at all. Sure enough, other than the fact that his center of gravity was slightly off, the mercenary did not seem to have suffered any damage. He took the opportunity to punch the knee of Cang Lan Star.

a few silver rings on the hands of Cang Lan Star suddenly lit up with an unusually piercing light, causing the mercenary's vision to instantly turn black.

In this daze, a dagger was thrust down from the top of the mercenary's head, but just as it was about to pierce through the top of his skull, it was kicked away by the other party.

Cang Lan Star didn't want to try the power of that kick, so they jumped away nimbly to face another mercenary.

Su Zhi was originally smug as he dodged while watching the show. when he saw the arrival of Cang Lan Star, the alarm in his heart rang.

Although this man was young, he was the best after Xu Feiyang in terms of intelligence and skill. Even Fan Dong, who was the strongest, could not compare.

Because this man was not only good at stretching his hands, but he was also shameless enough.

just like now, if he couldn't win, he would use the aurora on his ring and earrings to shine on the eyes of the mercenaries. As a result, the two 3s-level mercenaries were able to seriously injure Xu Feiyang, but they were unable to hurt Cang Lan Star. Every time, he was lucky enough to avoid it.

su zhi couldn't stand it anymore. he was afraid that this delay would ruin his plan. he aimed at Cang Lan Star and tried to shoot her in the back.

just then, the sound of a helicopter suddenly came from above.

Su Zhi subconsciously pulled the trigger. However, the moment he fired the hidden shot, he suddenly felt something red splash onto his eyes and he couldn't see clearly.

When he was about to pull the trigger again, he felt a sharp pain in his finger.

“ah!”

Su Zhi suddenly let out a blood-curdling scream, which attracted the attention of many people. Guo song’s men immediately found his hiding place.

Chapter 2873

2873 Stop them (2)

Even though fan Dong and the others were all seriously injured, they still managed to get up with great difficulty and were prepared to capture su Zhi.

su zhi had been fighting leopard for so many years, so he still had some skills. when he saw that the situation was not right, he was ready to escape in the chaos, but who knew that another bullet would hit his leg?

fan dong and the others took the opportunity to capture su zhi.

the two mercenaries below narrowed their eyes when they saw the helicopter.

After all, there were not many people in dizhou who could use helicopters casually. They were not fools and would not underestimate them. However, it was not enough to just send one helicopter.

While the two of them were on guard against Cang LAN star’s underhanded moves, they looked at the person in the helicopter who fired a black shot at su Zhi with extreme accuracy. They took out their guns from their clothes and were ready to shoot down the man and the plane at the first moment.

To be honest, even though one of them had died, they didn’t care about these people. Other than Xu Feiyang and Cang LAN star.

However, Xu Feiyang was already seriously injured, and canglan star was only on par with one of them.

Therefore, the two international mercenaries didn’t show their true abilities.

now that he saw the helicopter, he thought that things were going to get out of hand and he had to end the battle quickly.

However, when they raised their guns, they were met with Nangong Nuannuan’s mocking eyes.

the two international mercenaries didn’t even want to fire their guns. when they saw the face of the woman with the gun, their whole image collapsed.

the two of them turned pale with fright at the same time and rolled to the sides.

before he could stand still, he wanted to escape.

Canglan star was already in position, but when they saw Nangong Nuannuan, the two of them prepared to run away as if they had seen a ghost.

“Stop them!”

cang lan star's order was extremely shocking.

although the brothers had dared to risk their lives just now, none of them dared to do so now. after all, don't chase a cornered enemy. If they were provoked, they would only end up dead.

Cang LAN star realized that they were stupid when they shouted, so they chased after him while shouting.

nangong nuannuan pulled out another gun and fired a shot at each of the two people who were escaping in two different directions.

it was fast and accurate, not allowing them to dodge. after all, when a person wanted to dodge, their body would make corresponding adjustments and changes. Through the adjustments and changes in her bones and muscles, Nangong Nuannuan had already determined where this person would jump to when she fired the shot.

Therefore, he didn't give the other party any chance to escape and shot him.

This was her first time shooting bugmen in the wild.

Previously, they were all in the experimental area, using the bugmen they had caught as their test subjects.

therefore, nangong nuannuan was also quite excited. she wanted to see how many seconds it would take for the drug she had developed to take effect on the other party.

two seconds after each shot, the mercenary who was shot in the knee let out a scream.

His knee, which was not in pain at all and only had problems bearing the gravity, now felt as if it was broken. The heart-piercing pain made him unable to persist in running another step, and his whole body fell to the ground while he was in the air. his mouth fell to the ground, and he fell flat on his face.

the international mercenary's heart was filled with horror.

After all, he was an experimental subject. The higher-ups had said that not only would his strength increase greatly, but he would also never feel pain again.

but why was his knee in so much pain that it made him doubt his life?

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2874

2874 What's the point of surrendering to me (3)

the other mercenary who was not injured was also shot. soon, his running speed slowed down.

This was because the experimentals used a type of insect that could control the brain to enhance the human brain's nerves. While forcibly improving the human body's function, it also blocked the pain from reaching the central nervous system.

and once this strength that was forcibly increased through external forces suddenly disappeared, the internal secretion of the entire person would be completely out of control in an instant.

The first reaction of the central nervous system after being attacked was that all the indicators of the body dropped rapidly.

As a result, the mercenaries who were running away quickly slowed down.

Canglan star thought that Nangong Nuannuan had helped her severely injure the two mercenaries and was secretly amazed by Nangong Nuannuan's marksmanship.

However, when he arrived, he realized that the other party did not seem to have any injuries. Then, the two of them started fighting again.

Nangong Zheng had already lowered the ladder and was prepared to slide down.

He had just dropped the ladder and was about to tell his sister to go down first, but before he could say anything, Nangong Nuannuan had jumped down from a height of 15 meters.

Nangong Zheng felt as if a mouthful of blood was stuck in his throat, and his heart was in his throat.

Who knew that after Nangong Nuannuan jumped down, she found the best place to exert her strength. She only bent her knees slightly into a half-squat position and stabilized her body. Then, she leisurely walked in the direction of Cang LAN star.

Nangong Zheng:

she silently swallowed her anger and then slid down the ladder.

Nangong Nuannuan's heroic act of directly jumping down from the plane was witnessed by all of Zhan Bao's brothers. They were all dumbfounded and asked each other who this person was.

The moment Fan Dong saw Nangong Nuannuan, his entire face broke into a smile.

"Miss Nangong! Boss, miss Nangong is here."

Xu Feiyang, who was protected by Yang Shuo behind the machine, had lost a lot of blood at the moment. At this moment, he was a little unconscious, but he still held on to the last bit of energy, wanting to know the situation of his brothers.

After hearing Fan Dong shout, "it's miss Nangong. the corners of Xu Feiyang's lips slightly bloomed into a smile, and then he completely fainted.

When Cang LAN star fought with the mercenary, they found that his level had dropped more than a little.

her strength had reached 3S level, so she could rely on some means to tie with the two international mercenaries. However, if this person had tied with her before, then now she could kick this mercenary to the ground and make him roll two rounds. From this, this mercenary's strength should have fallen from the top of 3S to the level of 3A at most. Furthermore, his strength was still continuing to decline.

"I'm done! I'm not fighting! Miss Nangong, I know I was wrong! I surrender!"

Even though he was being beaten up by planet Cang LAN, the moment the mercenary kneeled on the ground, he raised his hands in surrender to Nangong Nuannuan.

canglan star stopped in his tracks. his eyes were red as he gritted his teeth and said, " you killed so many of my battle leopard brothers and now you're saying that you'll surrender? "

"I, Zhenzhen, will be at miss Nangong's disposal. Miss Nangong, I wonder if the bug in my body is gone? I can surrender!"

Nangong Nuannuan laughed coldly and said,"what's the point of surrendering to me?" I'm here to help my fourth brother's friend. My friend has the final say in everything."

when nangong zheng, who had just caught up to them, heard the word "wei," his footsteps faltered and he almost fell.

2875 Sad (4)

Nangong Zheng looked at Nangong Nuannuan in shock. He thought to himself,'is he really that obvious?'

Canglan star looked at Nangong Nuannuan gratefully, then looked at Nangong Zheng gratefully, before turning to the mercenary, " you don't feel pain, right? Then I-I'll dig out your eyes and cut off your ears. I won't kill you, but I'll see how you're going to live in the future."

no, no, no, I'm already in pain. before he could finish his sentence, the sword in Cang LAN star had already fallen, cutting off the mercenary's tongue.

He let out a blood-curdling screech and finally realized that the other party was not going to let him off. Hence, he resisted with all his might and secretly took out a dart from his pocket. Before he could even use any strength, the tendons in his hand were broken by a spear.

The mercenary let out another shrill scream.

Canglan star did not care about him at all. They walked up and, without any hesitation, slashed down right in front of Nangong Zheng. A deep gash was cut from his left eye to the bridge of his nose, and then to his right eye. Even the bridge of his nose was broken.

just as the blade was about to pierce the mercenary's eardrum, nangong nuannuan reached out and stopped it.

cang lan star looked at nangong nuannuan and thought that she couldn't bear to watch any longer. who knew that nangong nuannuan would say, " "Your blade was too heavy, he will die. Be gentle."

Cang LAN star finally realized that because of her anger, she seemed to have used too much force.

"many thanks."

"You're welcome," Nangong Nuannuan smiled sweetly.

After the mercenary's eardrums were punctured, Nangong Nuannuan finally said, " "Actually, he can already feel the pain. You don't have to go through so much trouble."

Nangong Nuannuan had just finished doing something that looked extremely cruel in the eyes of others on Canglan star.

Canglan star:

A warrior could be killed but not humiliated. even if it was an enemy, the most she would do was kill them.

This was the first time she had treated her enemy so cruelly. she was just too angry. after all, this person had killed her most proud subordinate and brother.

if she had known that this person could feel pain, she would have shot him to death.

But now, he was

&Nbsp; cough cough.

Cang LAN star looked at Nangong Zheng, feeling that being so brutal in front of the uncle, it must have refreshed the uncle's understanding of him.

she was still thinking about how to explain it to the uncle when she saw nangong zheng say without a change in his expression, " "Good job."

Canglan star:

As for the other mercenary, because his knee was broken and he could feel pain, he couldn't run at all. He was surrounded by Zhan Bao's brothers from a distance. As long as he dared to move even a little, a gun would hit him in a non-fatal place.

after the mercenary's nervous system was messed up by nangong nuannuan's medicine, not only did his strength decline rapidly, but his pain receptors seemed to be more obvious. Every time he ate a fruit, he would wail in pain.

seeing that the mercenary had been subdued, canglan star didn't bother with him anymore. He quickly went to Guo Song to check on his condition.

As she walked toward Guo Song, she asked fan Dong, " "how's boss?"

boss was shot twice, but they didn't hit his vital parts. However, boss has lost too much blood and needs to be sent to the hospital immediately.

"Then send him to the hospital immediately," cang lan star had already walked in front of guo song. as he ordered, he also checked if guo song was still breathing.

Fortunately, the knife didn't Pierce his neck. Instead, it grazed his artery and hurt his shoulder.

In the future, this shoulder would definitely be crippled, but at least it wouldn't be fatal.

Cang LAN star was prepared to check on the two brothers whose faces were half-destroyed, but unfortunately, they had already died on the spot.

Nangong Nuannuan looked at the people lying on the ground with a headache. almost all of them were gunshot and knife wounds.

“There are so many injured people. Send them to my hospital.”

Cang LAN star was stunned for a moment, then its eyes lit up.

although zhan bao also had his own hospital, it was not easy to open one in a place like dizhou. therefore, they all had their own health center. as for the members who had real medical skills, most of them went to work in major hospitals.

It’s okay if it’s just a small injury, it’s okay if it’s one or two. however, if this large group of people were injured, it would be a headache.

it was fortunate that nangong nuannuan had taken them in. otherwise, planet cang lan would have sent them to the hospital separately.

Angel hospital, a subsidiary of disheng group, was one of the best private hospitals in dizhou and even in the world. It had powerful medical resources.

With Nangong Nuannuan taking them in, big brother and her brothers would not have to worry about not being able to get treatment.

“nuannuan, thank you.”

“you’re welcome!” nangong nuannuan smiled and glanced at nangong zheng.

Nangong Zheng accepted his sister’s good intentions and said to Cang LAN star, “We’re one family. Let’s Save the People First.”

“Alright,” he said.

when he agreed, xu feiyang had already been carried out by yang shuo not far away.

when yang shuo saw nangong nuannuan, it was as if he had seen his savior. just as he was about to call out to nangong nuannuan, nangong nuannuan had already walked in front of him and pretended to check xu feiyang’s pulse. she said, “he just lost too much blood.”

After he finished speaking, he took out the silver needles from his bracelet and applied them around Xu Feiyang’s wound. Soon, the bleeding stopped under the pressure of the bandages.

“send him to the hospital, it’s fine. I’ll be fine after two bags of blood.”

He looked at Xu Feiyang, who was covered in blood, and thought of the old man at home who would feel heartache if he touched a certain someone all day. Nangong Zheng felt that people were indeed different.

to her own man, she would be pampered, but to other men, as long as they didn’t die, it was fine.

This was simply a face full of differential treatment!

Hearing that Xu Feiyang was fine, Cang LAN star was also relieved.

at this moment, fan dong walked over and pointed at the people who had betrayed them and stood in the corner. he asked, " "Sister Xing, what should we do with these traitors?"

Cang LAN star's eyes narrowed and he said mercilessly, "According to the sect rules."

"Yes."

"What about su Zhi?"

"Arrest him and wait for me to return to Yingluo."

Before he could finish his words, he was caught by Nangong Zheng.

looking at the shocked expression on nangong zheng's face, his eyes were fixed on her as if he was going to stare a hole through her face, cang lan star was shocked. the female boss who was usually ranked third in the gang had a look of fear on her face."Uncle big Suan ni, what's wrong?"

"What did he just call you?" nangong zheng had a serious expression on his face. he was sure that he had not misheard.

"He just called you sister Xing!"

Cang LAN star looked at Nangong Zheng, whose face was filled with shock and a look of eagerness to know the truth. then I'll explain to you about Yingluo when I come down, okay? "

Fan Dong secretly covered his mouth.

This was bad.

He thought that since sister Xing and Big Boss Nangong had such a good relationship and Big Boss Nangong was so powerful, they would definitely know.

2877 Take your time to explain (2)

The fact that Cang LAN star was a woman, only he, Yang Shuo, tu Yi and Guo Song knew. Fang Qiu and Fang Sheng did not know.

sister xing trusted him so much, so why did he sell her out?

fan dong felt that he had committed a great sin.

seeing sister xing staring at the young master of the nangong family with a dazed expression, fan dong felt that his injuries were not as painful as before.

The pain had been replaced by guilt.

"you can come down and explain, but you have to tell me now, did he call you sister xing just now?"

Canglan star pursed her lips and was still thinking about what to say when Nangong Nuannuan, who was at the side, had already helped to support her.

“Xingxing is a girl, the whole family knows that, don’t you know?”

Nangong Zheng immediately shifted his gaze and looked at Nangong Nuannuan with a pained expression.

“What did you just say?”

nangong nuannuan took advantage of the fact that she was favored and shrugged her shoulders. “It’s what you just heard! even grandpa knows about it!”

this time, it was cang lan star’s turn to be surprised.

However, before the shock of Cang LAN star could be transmitted, Nangong Zheng looked towards Cang LAN star with a hurt expression.”you even told your grandfather your identity, but you didn’t tell me?”

at that moment, nangong nuannuan felt like the jealousy on nangong zheng’s body was about to overflow.

“No, I didn’t!” cang lan star was like a lost deer. it quickly waved its hands and looked at nangong nuannuan with a confused expression.

She didn’t say that!

“Xingxing didn’t say anything, I saw through it!” Nangong Nuan Nuan giggled and held star Cang Lan’s arm. She looked at the four of them like good sisters.

Nangong Zheng looked at Nuan Nuan’s expression, which seemed to be asking for a beating. He only thought about it for a moment before giving up on the idea of beating his sister.

the sister that he had finally found.

Forget it.

He endured it.

“So you told the whole family, but not me?”

nangong nuannuan also felt that she was being a little mean. she scratched her head and said, “ i was thinking that since you two are so close, you should wait until xingxing tells you about it. wouldn’t that be perfect? ”

Perfect, my ass!

do you know how it feels to think that you’ve become a bot?

nangong zheng simply wanted to burst out in vulgarities.

In the end, fourth brother still held it in. After holding it in for a long time, he nodded. “that’s reasonable.”

Nangong Zheng no longer wanted to continue this topic with his sister. He looked towards Cang LAN star. I'll accompany you to the hospital. You can slowly explain to me.

"Good Morning, Yueyue!" Cang LAN star hurriedly nodded like a little chick. After that, she followed Nangong Zheng and Nangong Nuannuan to Angel hospital.

as for su zhi and the other traitors, they were taken away by zhan bao's brothers and locked up in the warehouse.

now was not the time to deal with them. the top priority of the cang lan star was to let these brothers recover quickly and stabilize zhan bao.

Nuannuan was also a person who was good at self-reflection.

Especially since her brother was not angry at her at all, she felt that she should do something for her brother.

Therefore, after contacting the Director, Nangong Nuannuan asked him to invite all the senior surgeons in the hospital and assign them to the operating rooms so that everyone could go in at the same time for the surgery.

In order to make up for her mistake, she obediently went in to help with the surgery.

of xu feiyang's two wounds, the one on the chest was not a big deal. the one on the abdomen was stuck in the abdominal cavity and was next to the liver. if the doctor's hand trembled accidentally, it could easily damage the liver.

Chapter 2878

Hence, Nangong Nuannuan spent two minutes to personally cut open the wound on Xu Feiyang's abdomen and help him remove the bullet. After instructing the doctor on which parts to suture so that he would not be affected, he immediately went to Guo song's room.

Guo Song was the man that Nangong Zheng had met before. He was the man who had been working for canglan star in mingya group. they were also the same group of people who had appeared when huang yuhan sent people to attack cang lan star.

Although Nangong Nuannuan didn't know Guo Song, since they were brothers from planet Cang LAN, she understood the kind of relationship they had. He was like her brother.

The tendons in Guo song's entire shoulder had been cut off, and his left shoulder blade had been severely deformed, causing his entire body to feel like it was bent.

Nangong Nuannuan asked the orthopedist and surgeon how they were going to treat her. after hearing their plan, nangong nuannuan decided to do it herself.

Following the pattern and trajectory of the bone, Nangong Nuannuan placed one palm on Guo song's chest and the other on his back. It was as if she was just gently borrowing his strength, but the orthopedist beside her felt his scalp go numb.

Can it be done like this?

Can you do it like this?

If one wasn't handled properly, one of the bones would break and stab into the lung. Wouldn't that be fatal?

the orthopedist looked at the wound where the dagger had not been pulled out and saw that blood was flowing out due to the shock. he felt that nangong nuannuan was simply messing around!

however, he had already heard from the director that this man was the chairman of disheng group. Therefore, even though he didn't agree with her rashness, he didn't dare to say it out loud.

after fixing the bone, nangong nuannuan used a few silver needles that she had instructed the hospital to prepare to stick into the acupuncture points of the bleeding wound.

The bleeding wound quickly stopped bleeding.

"alright, you guys can go ahead with the surgery. You can just pull the needle out during the surgery, but half a minute after you pull it out, the wound will start bleeding again. The rest is just handled according to the wound treatment process."

After giving her instructions, Nangong Nuannuan left and went to fan Dong's operating room.

The surgeon and orthopedist looked at each other. when the surgeon finally reacted, he was about to pull out the dagger, clean the wound, suture it, and bandage it up, but he was stopped by the orthopedist.

he felt that he should still be responsible for the patient. Although the patient's shoulder was indeed crippled, it was one thing to be crippled. If there were broken bones inside, wouldn't it be inflamed?

so, the orthopedist asked the surgeon not to treat the trauma first. he pushed guo song to the medical equipment and personally examined him.

After the examination, the orthopedist's eyes lit up. He asked the surgeon, "The chairman is an orthopedist? How old was she to actually know such a traditional and ancient bone setting method? what did she study to graduate? Did she still want to further her studies? my supervisor is the famous professor xxxxx from cyber country. he has returned and is now a senior researcher at the medical association. Chairman, are you interested in visiting the hospital?"

"Stop!"

The surgeon was a senior professor at Angel hospital. he looked at the orthopedic expert who had just arrived and was still a little confused. he said, "The chairman is the chairman of disheng group, not the chairman of Angel hospital. The Chairman's Angel pharmaceuticals alone is already a business that is on par with a Research Institute like the medical Association. Do you think the chairman doesn't even want to manage his own company and would go to your master to do odd jobs? What are you thinking?"

Orthopedist:

As he had followed his mentor from cyber country, he was usually only interested in medicine. He was not interested in anything else, so he did not know anything about disheng. however, he knew about angel pharmaceutical, or rather, the angel medical research center.

The orthopedist's mouth formed an O-shape as he stammered,"I, Yingluo, thought that she was just a sponsor of this hospital. furthermore, she was still so young and inexperienced. he had only used his family's connections to buy a hospital here under the name of an angel. After all, the hospital was run by the director.

The surgical experts were also in awe of this man's brain circuit.

There were many people in this world who were the best in their own field, but they were as ignorant as children in other aspects.

the surgeon had no way of explaining to such a person. he could only say,"he's the chairman of disheng group, and all of the angel hospitals and research institutes in the world belong to her. in addition, she also owns the world's largest private weapons research base, the best group hotel, and the most luxurious top jade chain stores. not to mention that she has so many properties and lands. do you think she would become your teacher's apprentice?"

Orthopedist:

that's enough. The chairman said that you can treat the wound directly. Are you done here? "

"alright, alright! I can already treat the wound." The orthopedist quickly nodded.

"his shoulder is really fine?" The surgeon was also in disbelief.

"It's fine now! his bones have already been set, so there shouldn't be any problems if he recuperates properly."

as the two of them spoke, nangong nuannuan had already made her way to fan dong's operating room.

Nangong Nuannuan had seen fan Dong suffer several fractures in his sternum. although this person was rather stupid, he was very unyielding.

By the time Nangong Nuannuan entered fan Dong's operating room, the doctor had already finished the pre-operation preparations for him. The steel nails developed by Angel pharmaceutical were also in place.

When they saw Nangong Nuannuan enter, the chief surgeon immediately called out, " "chairman."

Nangong Nuannuan nodded. After she was done disinfecting the wound, she walked over to fan Dong and said, " "I'll do his bone reconnection surgery."

The surgeon had already finished opening up the chest, but Nangong Nuannuan only pretended to make a 2mm-long incision under the scanning of the medical equipment. She then placed an extremely thin steel nail into the wound. It was as if the bone had no mass, and the two broken bones were easily pierced together.

Outside, Cang LAN star had been waiting for the follow-up matters.

for example, how should she respond when the police came to find her?

Would the other sects take advantage of Zhan Bao's internal strife to cause trouble?

How should su Zhi solve this?

there was also such a large group of people who had betrayed zhan bao. if they were all dealt with according to the sect's rules, would their families cause trouble?

other than those people in the operating room, she was most concerned about zhan bao's assets.

Because of the Xu family's support, su Zhi's branch had a large amount of assets. now that he had caused such a bad influence on zhan bao, he could forget about transferring these assets.

"brother xing, all the accounts under su zhi and the xu family's name have been frozen!"

The Cang LAN star was currently ordering people to check su Zhi's account, and the brother who checked the account told them about the situation.

Cang LAN star was stunned.

"i had someone freeze it just now."

Nangong Zheng, who had accompanied her to Cang LAN star, saw her jumping up and down busily, and his mood became better and better.

This little brat was actually a girl!

no wonder her lips were red and her teeth were white.

No wonder there was a strawberry fragrance on her.

no wonder there wasn't even a strand of leg hair.

his brother yingluo was actually a girl!

Looking at the dazed look on Cang LAN star's face, Nangong Zheng felt a sense of satisfaction.

she explained, " i don't know what grudges there are between the two of you, but i do know that su zhi. his daughter, su fei, had a conflict with nuannuan when she was overseas. later, he tried to work with the xu family's daughter to kill my nuannuan. " i've already forgotten about this person, but since i've run into him, there's no reason to let him off easily."

His underlings stared at Nangong Zheng in a daze.

This man, who they usually only saw on television or the financial news, had actually explained so much to their brother Xing. He's such a good person!

"uncle, thank you!" No matter what Nangong Zheng said, Cang LAN star knew that the uncle was doing this for her.

Nangong Zheng wanted to say, " Little brat, why are you being so polite with me? However, after saying one word, he swallowed the rest of his words and changed the topic, " "You're welcome. i'm also the one who asked the police to leave."

"yes, i've already guessed it." cang lan star's face was filled with gratitude.

"So, are you not going to thank me?" looking at the lips that were as red as a strawberry and the eyes that were as bright as the moon, nangong zheng's eyes were deeply impressed.

Cang LAN star was a little embarrassed from being stared at, they quickly nodded, " "Of course! How do you want me to thank you?"

"At least ten meals."

"pfft, good!" Cang LAN star agreed readily.

After all, without Nangong Zheng, her big brother and so many of her brothers would have lost their lives.

not to mention ten meals, she would treat even a hundred meals.

"before you treat me to a meal, shouldn't you have something to say to me?" Nangong Zheng looked at this little girl from Cang LAN star who seemed to have forgotten about this matter and even planned to get away with it. He couldn't help but remind her.

Anyway, he was already here. Did she think that she could still escape?

canglan star looked at nangong zheng, who looked like he was about to denounce them for their crimes, and ordered the little brother beside him to let him go. only when there were only the two of them here did he pick his nose unnaturally and said,"actually, you can't blame me for this. we have so many brothers and sisters in battle leopard, but only my big brother and the other three brothers know my identity."

Nangong Zheng nodded, " so, in your heart, i'm not as important as your big brother and your three brothers? "

Cang LAN star opened its mouth, why did it feel like this was a gift-giving question?

It was undeniable that the uncle's weight in her heart was different.

However, big brother was the one who saved her life. He was the one who was indispensable for her to become who she was now. fan dong and the others were her good buddies, and they usually took special care of her in battle leopard.

With them, it was a friendship that could be exchanged for life at any time.

Bickering with the uncle

Although it was a life and death friendship, Cang LAN star felt that her relationship with the uncle was different from her relationship with her brothers.

However, she still subconsciously replied with a strong desire to live, "No, no, no! Uncle, you're as important to me as big brother and the others. really, i swear!"
