

Physician Wife 2891

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2891

2891 something happened to yue 'er (3)

three days ago, when nangong nuannuan had discovered the rejection, she had immediately used medicine to repair the cells that were rejecting her. For those that could not be repaired with medicine, they would be completely wiped out with the fine gamma rays provided by the medical department University.

these tiny cells were not very useful in the human body, but they were very dangerous. Although the rejection of small cells was very little, so little that it was almost invisible, the entire blood vessel of the human body would be blocked by the precipitation of rejection in a few months or a few years.

Even if the medical equipment could detect the cell rejection, which was the precipitation phenomenon, they could not do anything to eliminate the precipitation of blood. He could only stop this precipitation from continuing by taking large amounts of medicine.

however, the precipitation in the past could not be eliminated. when it accumulated to a certain extent, the organs would fail again.

Nangong Nuannuan would never allow such a thing to happen to her second uncle again.

this time, brother chiyang had really helped her a lot.

after making sure that even the tiny cells were not rejecting her, nangong nuannuan finally felt at ease and continued with her previous plan to perform the surgery on her second uncle the next day.

There was nothing to worry about now. Although the donors of the four internal organs came from different people, after several months of rejection, they had long become one. Therefore, for her, tomorrow's surgery was to remove the four failing organs and the ones that were about to fail, and then put the new organs in his body.

If other doctors were to do it, on the one hand, their hand speed would not be able to suture these organs within the specified time. On the other hand, if they could suture these organs in time, there would definitely be serious rejection. this was no different from directly killing someone.

however, this was not the case for nangong nuannuan.

The next morning, Nangong Nuannuan was scheduled to perform the surgery for her second uncle at nine O 'clock.

even though chi yang's injuries had not fully recovered and it was not suitable for him to walk out, nangong nuannuan still asked him to come. Otherwise, he would not be able to rest well at home.

When everything was ready, Chi zeyao was personally wheeled into the operating room by Nuan Nuan amidst the blessings of the Chi family and the Nangong family.

looking at chi zeyao, nangong nuannuan consoled him, ” “second uncle, don’t be nervous. although this surgery is quite big, i’m very confident. I will definitely cure you.”

“i believe you. otherwise, i would have written a will for such a major surgery.”

chi zeyao smiled. an ran looked even better than nangong nuannuan.

After making sure that he was not nervous, Nangong Nuannuan instructed the anesthetist to inject the anesthetic into Chi zeyao’s infusion bottle.

second uncle, the doctors here are all medical elites selected from all over the world. They will complete this operation with me.

“I’ll have to trouble you.” akira chizawa smiled at the medical staff beside him.

“Mr. Chi, it’s our honor.” a foreign doctor said.

It was their honor.

Why did medical experts like them have to work so hard at the angel research Institute? It was all for the sake of meeting the genius pharmacist inside, and to be the first to receive guidance so that he could develop a similarly heaven-defying medicine.

However, when they found out that the genius pharmacist was their boss, and that he was not only a genius pharmacist, but also a genius doctor, these experts could not stay calm.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2892

2892 Sieged (4)

Especially after personally witnessing their boss treating Huang zichu’s leg, they simply felt that their boss was a human-shaped bug.

Therefore, they had a quota this time and could perform surgery with their boss. It was such a big surgery, which could be called the most historical surgery. It would definitely be a surgery that would leave a mark in history. Being able to participate with their boss would definitely benefit them greatly in their lives.

nangong nuannuan was performing chi zeyao’s surgery, and as his son, feng shengxuan had to be there.

Baili Yue was supposed to come with Feng shengxuan, but disheng group had something to attend to at the last minute. In addition, it was a major operation. Even with Nangong Nuannuan’s extremely fast hand speed, it would still take more than two hours. Nuannuan had said that even she would need to spend at least three hours in the operating room for further observation after the surgery.

so, after dealing with disheng’s affairs as quickly as possible, baili yue was ready to go to the angel research institute.

In the end, not long after the car drove out, Bai Liyue felt that someone was following her.

thinking back to how feng luan had sent people to monitor the nangong family, bai liyue quickly knew who was behind this.

Baili Yue, who was not wearing glasses, took out the glasses that Feng shengxuan had given her. Did these people really think that she, Bai Liyue, was easy to bully?

Did she think that Viper would be able to kill her again and again if he had sent people to kill her and almost succeeded?

She had originally planned to go to the angel research Institute, but she changed her direction at the last minute.

Seeing that she was heading out of the city, the cars that were following her were about to speed up, but suddenly slowed down. Some even turned and left, no longer following.

Although the car behind her had stopped following her, Baili Yue knew that her car must have been located, so she was not in a hurry. She drove to wherever it was remote.

Soon, Bai Liyue drove the car to an abandoned processing plant that was about to be demolished.

When she stopped the car, more than a dozen people with guns had already walked out of the factory.

Soon, a few more cars drove in from behind, and more than a dozen people with guns got out of the cars.

These people were all fully armed and dressed in plain clothes. However, the iron-blooded temperament on their bodies made it obvious that they were well-trained people from the combat Department.

However,

“Does the combat service department know that you guys are so treacherous?” bai liyue looked at the people in plain clothes who were fully armed and sneered.

All she got in response was silence.

Because today, either Bai Liyue would die, or they would die.

“since you know who i am, you should also know that i know KE has people in the combat service department. do you think that by coming to kill me, i will believe that you are the war service department’s idiots or should i say, you are really sent by red sun?”

After Baili Yue’s voice fell, still, no one spoke.

Bai Liyue sneered. or do you think that you can kill me here today? so you don’t need me to believe you. You only need him to believe you? ”

the answer to bai liyue was still silence.

at this moment, another group of people rushed in, each of them carrying a light missile in their hands and pointing it at the center where she was. it was as if if this group of people couldn’t kill her, the other party would directly open fire and let these people die with her.

Everyone looked at Baili Yue with vigilance. They knew that her skills were not ordinary, so even if they had so many people, they did not dare to underestimate her.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2893

2893 Where is she?(1)

What Bai Liyue didn't notice was that at this moment, inside the legendary Pearl on her neck that contained the blood of the Great Demon King's heart, the drop of blood that stood up to the sky suddenly began to emit a strange dark light.

the darkness only lasted for a moment, but far away in the angel research institute, feng shengxuan, who was waiting for an operation outside the operating room, suddenly stood up from his seat.

Chi Yang was the first to notice that something was wrong with Feng shengxuan. the moment he stood up, he could already feel the huge change in feng shengxuan's calm aura.

"what's wrong?" Chi Yang asked.

Feng shengxuan glanced at Chi Yang and answered honestly, " "Something happened to Yue 'er, I have to go help her."

"Do you need me to send someone?"

"No need,"

Chi Yang nodded, " I'll take care of this. You can go.

Feng shengxuan glanced at Chi Yang and ran to the window.

"The elevator is over there." before old man chi could ask anything, he saw feng shengxuan running towards the end of the road.

However, the next moment, Feng shengxuan's actions shocked everyone except Chi Yang.

Because Yingluo

Feng shengxuan didn't even use anything. He jumped up from the ground and jumped out of the window.

He jumped down!

Without anything to lean on, he just jumped down from the 8th floor through the window.

Old master Chi felt like he was about to have a heart attack.

his second uncle was not from the combat service department nor the internal affairs bureau. in addition, his two sons were helping him manage the imperial group, so he was often idle at home.

After a long period of cooking, second uncle and second uncle, who were experienced in different cuisines, had a deep revolutionary friendship. Those waiting outside for surgery were all the old, weak, sick, and disabled, so second uncle was the first to rush to the window.

He leaned against the window and looked down, but there was no one on the ground.

“second brother, how is it?”

nanong qin turned around in a daze. “there’s no one downstairs.”

When everyone heard this, they let out a breath of air.

“But Yingluo”

everyone’s heart, which had just been put at ease, tensed up again.

“It seems like little Xuan’s old car hasn’t left yet!”

When Feng shengxuan had suddenly fallen in love with the black car, everyone had made fun of him out of goodwill. However, Feng shengxuan didn’t argue with her. He just smiled.

Now, the Maybach was parked below. If he had jumped off, why didn’t he drive away?

“You didn’t drive? Then did he drive someone else’s car?” Old master Chi asked with concern.

“No, I don’t. The cars below are all parked properly, and no one’s car has been driven away.” nanong qin looked outside again to make sure.

“Then, Zhenzhen”

Old man Chi wanted to say something, but Chi Yang suddenly interrupted, “grandfather, don’t worry about him. After his hypnosis was lifted, his strength has increased by a large amount. Driving might not be as fast as running.

What?

The group of people in the corridor all looked at Chi Yang in surprise, wanting to know if he was actually joking.

However, Chi Yang’s face was very serious, and the word “serious” was written all over his face.

Meanwhile, Feng shengxuan, whom everyone was talking about, had already turned into a shadow.

In fact, he didn’t jump from the building at all. Instead, he jumped from one building to another. then, with a jump, he jumped onto the roof of an even higher building.

Even so, his speed was still like a shadow. In the blink of an eye, he had already crossed over a dozen buildings and was already a few hundred meters away.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2894

2894 Giving orders (2)

on the other side, bai liyue was surrounded by at least 50 people, and her eyes were filled with anger.

He used the glasses his second uncle gave him to scan these people. Each of them was a mercenary above 3S level.

If she had to deal with 15 of them, she could.

If there were 30 people surrounding her, even if she couldn't win, she could still escape.

However, she did not expect Feng Kun to send 60 people to kill her.

Furthermore, they were all from the combat Department.

"You don't have any chance of winning. Do you need me to make a move?"

Suddenly, a man's voice sounded in the air.

Hearing the man's voice, the sixty people's nerves exploded.

"Kill her!"

The 30 people who had besieged Bai Liyue in the beginning did not wait any longer. They were afraid that things would change if they delayed any longer, so they began to scan Bai Liyue with machine guns. They didn't care if they had their own people on the other side. They only cared if the bullets they fired could kill Bai Liyue.

Bai Liyue had thought that they were standing in such a position just to surround her. She even thought of taking advantage of the fact that they would kill their own people with a single shot and escape while they were unable to shoot her. However, she didn't expect that these people were all men of sacrifice. They would rather have their own people die in each other's shooting than let go of the opportunity to kill her.

Even if they were all 3s-level killers, they used the simplest, most violent, and cruelest means.

Bai Liyue's pupils suddenly shrank, but she stood still.

The bullets of the machine gun were still making a heart-shaking sound. However, the people who should have been shot were all standing in place.

Everyone opened fire for a while, and only stopped when they were out of bullets.

At this time, everyone was shocked to find that Bai Liyue's surroundings and the air were filled with bullets.

The next moment, the bullets fell from the sky like rain and fell to the ground.

The whole place was still quiet, but it was different from the previous time when Bai Liyue spoke and everyone was quiet. This time, even Bai Liyue did not speak.

the entire scene was eerily silent.

Suddenly, there seemed to be a wave of fluctuation around Bai Liyue, as if the space was torn apart. An old man in a Chinese tunic suit in his seventies appeared beside Bai Liyue.

After the appearance of the old man, three young people appeared beside Bai Liyue one after another. The three young men formed a triangle and protected Bai Liyue and the old man in the middle.

The old man's eyes were filled with a cunning smile. miss Baili, I really did it this time.

baili yue glanced at the old man from the corner of her eyes, then coldly looked away.

It was obvious that although the old man knew Bai Liyue, she did not like him.

“Young Madam, what do you want to do with them?”

one of the young men in the triangular formation protecting bai liyue looked at her with a smile, but he was scared by her cold eyes that could freeze people.

The young man scratched his itchy neck and didn't dare to speak.

Baili Yue glanced in the direction of the angel research Institute, her eyes full of reluctance.

“Kill them.”

Although she hadn't retracted her gaze yet, Bai Liyue had already made up her mind and gave an order to the old man and the three young people.

“Yes, young Madam!”

The three people's voices were loud and clear, but the words “young Madam” shocked Bai Liyue so much that a flash of hostility appeared in her eyes.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2895

2895 leave no one alive (3)

Baili Yue had seen the abilities of these people. These people were even more powerful than those from the Baili family, and their body movements were even more strange.

Even Nuan Nuan was probably not as fast as any one of them.

After hearing Bai Liyue's order to “kill them,” the people holding anti-aircraft guns at the back prepared to shoot without hesitation.

However, to their horror, the cannonballs in their hands failed to work.

They had no way of pulling the trigger.

just as the crowd glanced at shi ling's trigger and raised their heads to look at bai liyue in horror, they discovered that the three young men were no longer there.

Soon, everyone found that these three people were just like those immortal cultivators in the movies. They were killing this person here a moment ago, but before he fell, their figures were already more than ten meters away.

They had just killed a person who was more than ten meters away, but they had already jumped to another place.

This time, the mercenaries Feng Tan had sent out were all 3s-level and above. Every one of them had skills that ordinary Special Forces members and assassins couldn't compare to. However, these three

people were like straw. They raised their hands and slashed down. No, they raised their hands and slashed down. There was one.

Each one of them was the kind that could blow their heads off with a slap.

Even the men of sacrifice felt fear after facing such a strange scene and had the intention to retreat.

They had never seen or heard of such a terrifying and strange person. They should at least go back and report this, right?

Hence, everyone scattered in all directions.

However, no matter how fast they were, they could not outrun the three designated Reapers.

Seeing that some of the fish that had escaped the net had already gone far away, the three people were too lazy to run. They directly pulled out the boomerang from their waists.

The six boomerangs that were less than 30 centimeters long shot out from the three of them seemed to have eyes as they quickly flew toward the people who were running away. The speed was so fast that in less than three seconds after he made his move, he had already harvested the lives and returned.

However, in less than three seconds, the heads of those seemingly powerful 3s-level mercenaries who had already run a distance had already been completely removed.

The remaining mercenaries who were ready to run were scared to tears by this operation.

They couldn't beat him.

He couldn't win if he ran.

Then what should he do?

"Miss Baili, please let us go!" Suddenly, someone knelt down.

After one person knelt, the rest knelt as well.

"Miss Baili, we won't come to kill you again! I beg you to let us go!"

"Miss Baili, we're just following someone's orders. Please let us go!"

"Yes, we will leave after this."

"Young Madam, they asked you to let them go."

One of the three young men spoke. His harmless baby face was filled with a simple and honest smile. However, one could tell from his eyes that although he was smiling, the smile did not reach his eyes. He looked at Bai Liyue with a touch of scrutiny in his eyes.

"Don't leave a single one, kill!"

Bai Liyue didn't even look at this person's expression. She only coldly ordered the other party not to leave a single person alive.

After the baby-faced man received Baili Yue's instructions, he showed a satisfied look and looked at the remaining 20 people kneeling in front of him with a smirk.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2896

2896 cleaning up the mess (4)

"Did you hear that? Our young Madam said not to leave a single one alive!"

the mercenaries' eyes were filled with despair. just as they were about to stand up and fight with these perverts, these perverts had already started their unimaginable killing mode.

three of them were lucky enough not to be killed immediately. they exchanged glances with each other and pounced on bai liyue.

they thought that although bai liyue was powerful, she wasn't that powerful to such an abnormal extent.

The key was that there was an old man in his 70s with Bai Liyue. This old man was obviously on Bai Liyue's side. Even if they couldn't deal with Bai Liyue, if they could escape from Bai Liyue and deal with the old man, they could at least live.

however, when they pounced over, they found that their bodies were nailed in the air.

However, the old man's Chinese tunic suit, which was standing beside Bai Liyue, fluttered without any wind.

"There's a path to heaven, but you refuse to take it. There's no Door to Hell, but you barge in." The old man's voice was not loud, but it was filled with energy.

Bai Liyue could not help but roll her eyes when she heard the old man's words.

Even though she admitted that this person was very powerful and impressive. but these words were too old-fashioned! She felt that even the current period dramas would not say such things.

However, before Bai Liyue could finish criticizing them, the few people floating in the air let out miserable screams.

Bai Liyue watched as the three people's bodies twisted and deformed in front of her. In the end, with a "poof" sound, like a watermelon bursting, the three people were blown into a mist of blood at the same time.

The old man then waved his hand, spraying the blood over the remaining alive people in the distance.

The remaining mercenaries were so scared that they didn't even want to resist.

After being mercenaries for so long and killing so many people, they thought that they could become the most powerful people in the world with abilities.

Who knew that before they could even use their abilities, they would die Here today?

it was simply too terrifying!

He had thought that the power of the ko family had reached a certain level and that it was something that the Nangong family, or rather, Nangong Nuannuan, could not compare to. She had not expected that Baili Yue, who was only by Nangong Nuannuan's side, would have such a subordinate.

They even called her "young Madam."

in other words, not only was bai liyue not with feng shengxuan, but she already had a husband, and her husband had so many strange servants?

this was simply a critical hit from the intelligence.

When The Last Mercenary fell, he looked at the ground with his left eye that was not broken.

the ground was covered in blood.

After they were all dead, the 3 young men turned to the old man and asked, " "Fifth elder, they're all dead. Do we need to clean up this place?"

The old man who was addressed as the fifth elder looked at Bai Liyue and asked politely, " "young madam, do we need to clean up the mess here?"

Bai Liyue looked at the broken pieces of her master on the ground. She was going to leave. Originally, everything here had nothing to do with her, but if she didn't clean it up, Feng Kun would definitely find out about her.

this would definitely bring him and nuannuan unnecessary trouble.

"Let's pack it up," said Bai Liyue after a moment of contemplation.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2897

2897 The final farewell (1)

"Yes." The fifth elder responded with a good attitude.

In the next moment, Bai Liyue felt the air around her become oppressive, and even breathing became a little difficult.

a "pfft" sound was heard. The corpses had all turned into a bloody mist.

this scene was the same as the time when feng shengxuan discovered that feng luan had sent people to spy on her and killed the two people.

The fifth elder thought that Bai Liyue would be shocked, so he turned his head proudly. What he saw was Bai Liyue looking at the blood mist in a daze. He didn't feel shocked at all.

The fifth elder felt a little embarrassed. He waved his hand and said to the three of them, " "Alright, alright, take as much of the remaining things as you can. if you can't take it, then cripple it."

The three young men's eyes lit up when they heard this.

"Alright," he said.

The three of them each carried a few rocket cannons, and as if they were light sacks, they lifted them up. As for the rest that he couldn't take, he crushed them with his feet and dug a hole to bury them.

Bai Liyue's mouth couldn't help but twitch when she saw this kind of Bandit behavior.

After destroying and burying the things, the fifth elder looked at Bai Liyue and said, "young madam, you've promised us that you'll leave with us as long as we make a move. Then, Yingluo "

baili yue's eyes were a little dim, and she glanced in the direction of the angel research institute again.

"Can I make a call?"

The fifth elder's eyes narrowed slightly. young mistress, I'm sorry. You're also from that side, so you should know the rules there."

Bai Liyue hesitated for a moment, closed her eyes, and finally said, "Let's go," he said.

The four of them were very happy to hear that Baili Yue was going back with them.

The fifth elder took out a talisman. As soon as the talisman burned, the group of four, led by the fifth elder, and Bai Liyue disappeared.

The moment the fifth elder left, he suddenly felt an extremely familiar fluctuation. He raised his eyes and looked at a place in the distance. Because he did not have x-ray vision, he did not see anything. His figure had already disappeared from where he was.

it was only after they had disappeared that feng shengxuan slowly walked out from the bushes in the distance.

Then, he bit his finger and drew a blood-colored talisman in the air. His figure also disappeared.

On a mountain in the cloud plane, Feng shengxuan slowly showed up. He passed through the forest and stood behind a huge rock. He kept looking ahead. It was as if he could see through everything.

"Stop looking. Everything here has nothing to do with you anymore. Feng shengxuan didn't like you in the first place, and even though he's fallen for you after the hypnosis, he's only been with you for a few days. His feelings for you aren't so deep that he can't live without you. And you, didn't you already give up? You said that you'll only leave when he's under hypnosis, or you'll be worried. now that he's no longer under hypnosis and you've won his heart, isn't your dream fulfilled? What was there to be dissatisfied about? He abandoned you once, and you abandoned him once. It's perfectly justified, fair, and reasonable, and very perfect!"

In front of others, the fifth elder was an old man who didn't talk much. But after getting along with him for a few months, Bai Liyue found that this old man was sometimes a Chatterbox.

Moreover, his interpretation of love seemed to have his own logic, but it was all twisted logic.

Even Baili Yue didn't like to pay attention to him.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2898

2898 Leaving (2)

After hearing the fifth elder's fair and reasonable explanation, a hint of hostility appeared in the depths of Feng shengxuan's calm eyes.

the fifth elder suddenly felt a chill on his back. he frowned and reached out to touch it.

Originally, he wanted to continue counseling Baili Yue, but in the end, he decided to shut up.

"young madam, since you've already decided to leave with us, then leave with ease. don't think so much anymore. After all, from now on, you'll be our young master's woman. You'll have no contact with this world. Although our young master has been sleeping, you can't go too far! you're being unfair to our young master." the baby-faced youth's eyes were filled with serious dissatisfaction.

he felt that since he had already made a promise, he should do what he promised.

finally, bai liyue spoke.

"I only agreed to marry your young master because he's in a deep sleep. I didn't agree to give my heart to him. if you can't accept that there's someone else in my heart, then i'm afraid i can't complete this marriage."

"pa!" the youth's head was smacked by an icy face next to him.

"Apologize to young Madam."

the baby-faced youth was reluctant, but he still said,"young madam, i'm sorry."

"Young Madam, fourth brother is still young and doesn't know how to talk. Please don't take it to heart. What we said before will be kept. Young Madam, please don't waste any more time and go back with us."

The most normal-looking man among the three smiled gently and politely explained. Only then did Bai Liyue's mood improve a little.

Looking at the fifth elder, Bai Liyue confirmed for the last time, " "I only came to your house for the sake of the Baili family. If what you said is true and your young master can wake up from his deep sleep, you can't keep me. I'm leaving."

"naturally." The fifth elder quickly replied,"as long as you can wake our young master up from his deep sleep, we'll immediately send you off on the day he wakes up." when the time comes, whether you return to the baili family or this world, i'll be responsible for sending you to your destination."

"Alright," he said. anyway, she was going to marry a man who was in a deep sleep. there would be no physical contact, so there was no loss to her.

"My sister's place is empty."

"Don't worry, as long as you go back, we will definitely help the Baili family."

"alright," he said. Bai Liyue nodded.

Finally, there was nothing more to say. They were at the border of Yunzhou, and it was impossible for him to come here.

she didn't know if he would be sad if she suddenly disappeared. would he be looking for her like crazy?

Now, her only hope was that he could live his future life well, find someone he liked as soon as possible, and then forget her.

Although she could leave after her fiancé woke up and return to this world to find him, she could not do so. However, the time in that world was different from that of this world. By the time she returned, it might have been a long time.

"let's go," he said. the fifth elder said to baili yue.

Suddenly, Bai Liyue seemed to sense something. She looked at the huge rock where Feng shengxuan was standing, but there was nothing there except for vegetation and rocks.

bai liyue smiled a little miserably. although she didn't want to leave, she had to go back for her sister.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2899

2899 Family and family (3)

The fifth elder and the three young men surrounded Bai Liyue and walked to the middle of one of the mountain rocks. They took out another talisman and slapped it into the void.

A shadow appeared in the void, and it was filled with white fog.

Bai Liyue retracted her gaze and did not look back again. She followed the fifth elder and the others into the White fog.

the white mist appeared abruptly and disappeared abruptly as well.

Almost as soon as Bai Liyue and the others stepped into the White fog, the White fog began to disappear quickly.

Very soon, there was nothing left in this world. only feng shengxuan, who was standing behind the rock, was left.

Feng shengxuan only walked out from behind the rock after they had completely disappeared.

after looking at the place where the few of them had disappeared for a long time, he finally said, "Wait for me,"

The mountain wind blew past the green grass, and the air was filled with a faint sadness.

feng shengxuan stood there by himself for a long time. when he saw that his father's operation was almost done, he drew a red blood rune in the air and disappeared.

When Feng shengxuan reappeared, he was already in an inconspicuous place in the angel research Institute.

After he reappeared, he returned to the operating room floor.

everyone turned to look at feng shengxuan when they saw him.

“How is Yue ‘er?”

“What happened?”

“Has it been resolved?”

“Where’s Yue ‘er?”

Everyone asked at the same time. Only Chi Yang looked at Feng shengxuan without saying anything.

“She’s fine. Her family came to look for her, so I let her go back. I’ll go look for her after I’m done with the things here.”

“family?” old master chi frowned, “yue ‘er’s family is not yingluo.”

Feng shengxuan nodded.

old man chi was stunned for a moment. he looked at his eldest grandson in disbelief as he calmly sent his future wife to another world.

little Xuan, did you see her family? ”

feng shengxuan nodded.

“Yingluo, are you injured?” old master chi asked as he prepared to check if his grandson had given up his future wife because he couldn’t win.

“No, I didn’t,”

but old man chi didn’t believe him. he reached out and was about to pinch feng shengxuan’s limbs to see if he was injured.

“grandpa, big brother is not injured.” Chi Yang, who had been sitting in a wheelchair, said after observing Feng shengxuan.

Old man Chi looked at the serious Chi Yang, then at the calm Feng shengxuan, and he instantly felt terrible.

“So, you really sent Yue ‘er to her family with your own hands?” Old master Chi couldn’t believe that this was true.

Seeing that Feng shengxuan didn’t say anything, the old man was really anxious this time. Without Chi zeyao and Feng jimian, the old man had hit Feng shengxuan with his walking stick for the first time.

Feng shengxuan accepted it.

he had wanted to hit her a second time, but he couldn’t bear to do it again.

they all knew that their eldest grandson liked baili yue very much. he was probably the saddest one when baili yue left.

Feng shengxuan looked at the old man and waited for him to stop before he said, " "It wasn't her family who picked her up."

The old man was stunned. didn't you say that her family came to look for her? "

"Family members are not necessarily family. Only those who are acknowledged by her can be called family. Those who are not acknowledged by her, even if they are blood-related, can not be called family."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2900

2900 Four internal organs?(4)

old master chi: " yingluo, please forgive him for following you to the battlefield in his early years. his level of education might not be that high. "

Was this the difference between family members?

"then who did she follow? You know him? You don't have to worry?"

"yue 'er has been targeted by feng luan. previously, there were people in the nangong family who were specifically keeping an eye on her, so i suspect that he's coming for yue' er. Today, there were 60 3S level mercenaries who wanted to kill her. Luckily, her family came to her rescue. Otherwise, she might have already been killed by the time I rushed over."

Everyone present was shocked.

60 3s-level mercenaries as assassins, this was too ruthless!

"i might not be able to stay by her side at all times. rather than letting her encounter danger here, it's better to let her go over first. when i'm done here, i'll go over there to find her. "

"It's easy for you to say!" The old master was so angry that he blew his beard and glared at her. do you think you can go there just because you want to? If that's the case, what kind of chaos will this world be in?"

"grandpa, don't worry. his family gave me the key to that place. When I'm done with this, I can use this key to open the door to the other world and go find her. In short, I'll definitely bring your granddaughter-in-law back to you in one piece."

Old man Chi didn't expect that Baili Yue's family, ah no, his family would give him the key to that world. His heart, which had been so angry that it was difficult to breathe, instantly felt at ease.

"That's good, that's good, that's good!" The old man said 'good' three times in a row. it was clear that he was really frightened.

"Then how does Jiji Yue 'er's family treat her?" thinking of baili yue's pitiful past, the old man couldn't help but worry.

"even if it's not good, at least i won't bully her. i'll also protect her. "

Hearing this, the old man nodded, "that's good!" As long as she was fine. Once the matter here is settled, go see her and get my granddaughter-in-law out, you hear me?"

"i know, don't worry."

With Feng shengxuan's assurance, everyone was finally at ease.

It was also at this moment that the light of the operating room went out. An expert came out of the operating room to report that he was safe.

"don't worry, everyone. mr. chi's operation was very successful. the chairman had successfully replaced mr. chi's heart, left lung, kidney, and liver. it was still under observation. the chairman had to stay in the room for an hour before he could transfer mr. chi to the ward. Please wait patiently for a while."

After the doctor finished speaking, everyone fell silent.

Everyone looked at each other and saw the doubt in each other's eyes.

"Doctor, what did you just say?" "you said that my son had four internal organs replaced, including his heart?" the old man could not help but ask.

the doctor was taken aback. " what? don't you know that the patient is going to have four internal organs replaced today? "

"I don't know!" everyone spoke in unison.

Four organs?

What kind of concept was this?

He had never heard of four internal organs being replaced at the same time.

"grandpa, i can explain this." Chi Yang said.

"i can also explain." Feng shengxuan said.

the doctor was a little panicked, feeling that he might have said something wrong. it wasn't until he received a reassuring look from feng shengxuan that he returned to the operating room in a panic and reported what he had said to the big boss.
