Chapter 2921: 2

At this time, Gu Xiaoli had already finished packing up. Nangong Nuannuan was ready to leave with her. Yu minzhen quickly stood up and followed Nangong Nuannuan and the rest.

On the field, all the new students had gathered. The Chief Instructor began to give everyone a pre-training briefing.

“Students, welcome to the medical department University. Even though you’re studying medicine, you’re very different from ordinary doctors. That is, not only are you doctors, you are also a member of the combat Department.

Regardless of whether you’ll be staying in the War Department’s affiliated hospitals, or becoming a military doctor with the Army, or changing jobs, you’ll be living in the War Department for a long period of time. The person you’re treating is the cutest person in Kamino, the person who protects Kamino. That’s why I hope you can protect them well.

The world is still not peaceful. You have to understand that the world has never been peaceful. As a member of the War Department, all of you have to shoulder the weight of the country. Therefore, even though you are studying medicine, you will definitely have to put in more effort than ordinary doctors.

As a member of the War Department, military training was essential. In order for you to become specialized personnel and be able to remain fearless in the battlefield, treat the wounded, and perform surgery, you will all receive the most rigorous training in the next month.

Those who can’t accept the harsh training, those who try to play tricks during training, those who try to avoid training, and those who can’t pass after training, all show that you are not qualified for this sacred profession in the future. When the time comes, we will persuade you to choose another path.

So, don’t think that everything will be fine just because you entered the hospital, and don’t think that your future career will be solved just because you entered the hospital and went to university. This was a Sacred Palace, and a place of brutal competition. Only those who have passed the various assessments and are the best can become a true member of the medical department University.”

The Chief Instructor’s speech at the military training ceremony had sounded the alarm for everyone.

However, since everyone had chosen a University under the combat service department and not an ordinary medical school, it was clear that they wanted to become a member of the combat service department.

Not to mention the hardships and fatigue of the military training, many people were already mentally prepared to go to war with the Army in the future.

The medical department University’s military training was different from other universities. Although it wasn’t as strict as the National Defense University of Technology, it was still much stricter than ordinary universities.

The first 10 days were all kinds of physical training, the middle 15 were field survival training, and the last 5 were cooperative combat training.

The beginning of the physical training was the simplest, which was to stand in military posture and walk. However, these basic physical training were only for the first three days.

At first, everyone could accept it. However, on the fourth day, weight training and some difficult physical training began.

Coincidentally, both Shi Yalin and Nangong Nuannuan had chosen to study eight years of clinical medicine. Hence, they were assigned to the same class for the military training.

There were very few girls who could get into the University of Medicine, let alone a major that was a master's degree. In addition, they were under the combat service department, so the girls in his class were as rare as Phoenix Feathers and unicorn horns.

There were only eight girls in the class, and the remaining 137 were all boys.

Chapter 2922: 3

The instructor couldn't possibly start a new school for the eight girls, so he trained them together with the boys. However, the girls 'basic weight training and physical training were much easier than the boys'.

For example, the boys had to run a long distance with 10kg of weight, while the girls only had to carry 5kg.

But even the 2000-meter race almost took the girls 'lives.

Gu Xiaoli was a child who grew up in hardship, but after running 2000 meters, she was also exhausted and panting.

Nangong Nuannuan, on the other hand, was the first to finish her run. She was drinking a bottle of mineral water, looking at everyone on the field, and even communicating with the instructor from time to time.

The instructor looked straight ahead and urged the slower team members to run. He didn't even look at Nangong Nuannuan.

"Instructor Wang, is there anything you're not satisfied with about me?"

The instructor was stopped by Nangong Nuannuan's words and almost said, " we're here. however, after some thought, he swallowed his words.

"No, I didn't,"

Nangong Nuannuan raised her brows slightly. She felt that there was something strange about this instructor.

you are from the combat service department of di province. Do you know my big brother, Nangong Jin?
"

Instructor Wang immediately stood up straight. Major General Nangong is my superior. Not long ago, I had the honor of following Major General Nangong to Shengzhou for earthquake relief. I personally saw you rescue Lieutenant General Chi and personally saw you jump out of the plane. You directly jumped into the window of the crane driver and kicked him.

Nangong Nuannuan's mouth was slightly agape as she rubbed her nose.

Alright, she might know why the instructor didn't like to talk to her.

"Miss Nangong."

"What?"

"You're my idol!" Instructor Wang finally turned to look at Nangong Nuannuan, like a little fan.

Nangong Nuannuan scratched her head in embarrassment.

"Actually, with your skills, you don't have to participate in the military training at all."

"Really?" Nangong Nuannuan was stunned.

"It's true."

"Didn't you say that you can't pass the military training final exam if you don't participate?"

"As long as you take the final military training exam and pass, you'll pass the final exam."

"Really?" Nangong Nuannuan looked at the instructor.

"Of course! You're Major General Nangong's younger sister, so I won't lie to you about this."

Nangong Nuannuan nodded and asked, "when is the exam?" The exam should be in the last three days. The exact time hasn't been decided yet, but I can tell Major General Nangong and ask him to inform you to come and take the test."

"Thank you,"

"You're too polite."

Nangong Nuannuan's strength was not even comparable to Major General Nangong's, let alone the instructors. Hence, military training was a complete waste of time for him.

As for Nangong Nuannuan, she was only following the school's rules. After all, she still had two patients at home. Although brother chiyang had almost recovered, second uncle was still bedridden and needed to be taken care of.

If he could stay at home during the one-month military training, second uncle's wound would be completely healed.

Nangong Nuannuan did not say goodbye to her classmates when she left. Gu Xiaoli knew that she was very busy. As for the other students, she didn't even need to say hello to them.

So when the students finally finished running and realized that Nangong Nuannuan was missing, they all asked the instructor where she had gone.

It wasn't that her classmate was a busybody, but Nangong Nuannuan was simply too fast. It was so fast that they were shocked.

My Sweet Physician Wife Calls The Shots

Chapter 2923

Nangong Nuannuan doesn't need to train. She only needs to take part in the last few days of the assessment.

"Why can she not participate in the training, but we must? Just because her status is higher than us ordinary students?" After the incident with Wu Lingyun, li xiangwang bore a grudge against Nangong Nuan and Yu minzhen.

Now that he heard that Nangong Nuannuan could even skip the military training, li xiangwang, who was almost the last to arrive, was filled with resentment and injustice.

Seeing her angry look, instructor Wang walked to her side and said in an oppressing tone, "There's no reason for it. In this place, I have the final say. I don't need to explain anything to you."

"You're being unfair!" Li xiangwang was even more furious.

Nangong Nuannuan was beautiful, had a family, and even her grades were good. She had wanted to beat her in terms of physical fitness, but she realized that Nangong Nuannuan was particularly fast. Even the boys could not run as fast as her.

Therefore, li xiangwang suspected that the instructor had gone easy on Nangong Nuannuan.

She had wanted to check on Nangong Nuannuan, but she had left.

She believed that there must be a conspiracy behind this.

"If you think it's unfair, you can find a fair School and a fair instructor. You can drop out now!"

The instructors were specially in charge of teaching the new students, so they knew very well how to establish prestige among the new students. Hence, he did not give li xiangwang an explanation.

Li xiangwang was almost in tears from being yelled at by the instructor. After hearing the instructor's words, she really regretted choosing this school.

"What's going on?"

The Chief Instructor happened to pass by and heard the argument, so he walked over to ask.

"Instructor, we've all listened to the pre-school education you gave to all the new students. I'm also willing to be a person who carries heavy responsibilities."

The Chief Instructor nodded, expressing his appreciation for li xiangwang's words.

"But Nangong Nuannuan from our class cheated during the weighted run just because she was the eldest daughter of the Nangong family. She even left right after she finished running. Our instructor said that she can just come and take the exam when the time comes. I'm not convinced! Why is it that she doesn't need to participate in the training and only needs to take the assessment, while we have to

participate in the training every day? Is it because she's the young miss of the Nangong family? is it because she's of a higher status than us?"

Facing li xiangwang's questioning, the Chief Instructor's expression didn't change. He didn't even ask the instructor about the situation and said, " "In this world, people are born unequal. Therefore, those who are born behind need to work hard to catch up and narrow the gap. If you're born with a bad life and don't catch up the day after tomorrow, then the gap between you and others will only get bigger and bigger."

Li xiangwang stared at the instructor with his eyes wide open. He didn't expect the instructor to say such a thing.

Just as he was about to retort, the instructor continued, " "Of course, I'm not talking about her family background when I said she was born unequal. It was because some people were born smart and geniuses. They had a photographic memory. They could remember what others had learned ten times over with just a glance.

However, some people's head development was not as good as others, so there was an old saying: The stupid bird flies first.

Nangong Nuannuan is one of the best geniuses I've ever seen. In other words, not only was she a genius, she was even the most outstanding one among the geniuses. The military training is to improve your military skills in the future. It's the same as studying medicine, it's a hard skill that you need to master."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2924: (5)

"But Nangong Nuannuan no longer needs such a skill. This was because she already had a higher level of military skills. Therefore, she didn't need to stay here for military training. For example, if you could finish your eight-year course in clinical medicine in one year, the school would still issue you a diploma. You can't expect others to say that you're going to study for eight years, so your classmates have to study for eight years with you, right? That would be a waste of time for others.

We know Nangong Nuannuan well. She's the one who can issue a military graduation certificate. Letting her participate in the assessment is just to give the school and everyone an explanation. But you, you still can't. That's why you need to participate in military training, but she doesn't. Because she already had such a skill. If you have it, your instructor will tell you that you can take a break and directly participate in the assessment."

Li xiangwang was actually a very patient person. She didn't like to cause trouble, and was afraid of causing trouble. So, under normal circumstances, when she met a strong person, she would subconsciously give in.

However, this did not mean that she was willing to give in.

On the contrary, not only would she not be willing, but she would also bear a grudge.

Previously, Wu Lingyun's matter was not a big deal to Nangong Nuan Nuan and Yu minzhen. They just felt that li xiangwang and Wu Lingyun were pretending to be familiar with each other to show off.

However, this was not the case for li xiangwang. She had been a proud child, but in the medical department, whether it was in terms of studies, looks, family background, or even the senior that she was so proud of, she was very familiar with Nangong Nuannuan.

She had always felt that people could change their future through their own efforts. For example, Chen Yushan was a good example.

When Wu Lingyun was still Shi Lingyun, she was born into a poor family and her parents treated her badly. However, through continuous hard work, she not only got into the medical department University, but was also a member of the Student Union and the youngest official member of the Research Institute. She even found herself a rich husband. It was said that he was the son of the 12th chief of the Internal Affairs Bureau.

These were all things that li xiangwang admired and tried to imitate.

She also hoped that she could walk Wu Lingyun's path.

She hoped that Wu Lingyun would help her on account of their similarity.

In the end, her only backing, Wu Lingyun, was also the daughter of a wealthy family. Not only that, but he was also the daughter of a top wealthy family and Nangong Nuannuan's good friend.

Li xiangwang felt that his dream had been shattered.

Today, she had stood up to refute the instructor in front of all the students. In fact, a string in her heart had already broken.

This was a typical character of not exploding in silence, but perishing in silence.

However, the instructor did not teach psychology. He just felt that li xiangwang's thoughts were very distorted. Hence, when he spoke, the instructor's reason did not carry any warmth. He only told li xiangwang a cruel reality in the simplest and most straightforward way.

When li xiangwang heard this, it was imprinted in his heart. You don't come from a good family, you're poor, and you're not as good-looking as her. You don't even have enough brain power, so what are you jumping around in front of me for?

Li xiangwang felt that his world had collapsed.

Although the military training continued, li xiangwang did not meet any of the requirements. At the end of the day, she was scolded to death by the instructor.

Not only that, but she had also caused her classmates to be punished because of her.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2925

Yu minzhen and Shi Yalin were also punished.

Yu minzhen was almost angered to death by li xiangwang. She was already exhausted to death, but she was even implicated by li xiangwang. Yu minzhen didn't give li xiangwang a good look when she was punished to run.

After realizing that Shi Yalin was the kind of girl from a rich family who was easy to talk to, Yu minzhen had the idea of seducing the Shi family again. Thus, she had been flattering the high and stepping on the low.

On the other hand, Shi Yalin's performance was beyond everyone's expectations.

Unlike Nangong Nuannuan, Shi Yalin, as the eldest daughter of a wealthy family, not only did she not put on airs, but she also had a good personality and got along well with everyone.

She didn't refute Yu minzhen's words and let Yu minzhen think that Shi Yalin was a good person to get along with.

Therefore, after the military training ended, Yu minzhen asked Shi Yalin out for dinner. Shi Yalin also invited a large group of students.

She thought that since it was Yu minzhen's meal, she ordered a good restaurant for Yu minzhen to treat her after the military training ended.

Shi Yalin also tried to invite li xiangwang, but he had not spoken since then. He had no intention of joining the party, so Shi Yalin did not force her.

Although Yu minzhen's heart ached for the money, she thought that it was worth it to spend it to be friends with the Shi family's eldest daughter. Her father would definitely give her the money.

After the group of them had their meal at the most high-end restaurant near the school, Shi Yalin specially packed the most expensive dishes and left.

"Yaling, why are you still packing?"

Shi Yalin smiled. I'll meet a stray dog on my way back. If Qianqian meets her, I can give her some food.

"You're such a kind girl, to think that you'd even think of packing up stray dogs. Do you know, Yingluo?"

Yu minzhen thought for a moment and felt that the chances of her being friends with Nangong Nuannuan were very small. After all, that lady was too cold and arrogant and completely ignored her. Furthermore, the relationship between the Shi family and the Nangong family was not good, so it was impossible for her to suck up to the Shi family and the Nangong family. Thus, it was natural for her to sell Nangong Nuannuan out.

"I heard that when you were reporting for work the other day, after you met Nangong Nuannuan, many people said that you were a White Lotus and that you were pretending to be weak. In fact, I only know how good your personality is after getting along with you. You don't know how bad Nangong Nuannuan's temper is."

Shi Yalin was amused by Yu minzhen.

She was quite pleased with Yu minzhen's complaints. After all, this person was Nangong Nuannuan's roommate.

"It's fine. I'm already used to people comparing me to her. Time reveals a person's heart. It's okay, just take it easy. I'm leaving, see you tomorrow."

okay, be careful on your way back. See you tomorrow.

After Shi Yalin got into the car, the car drove all the way to the entrance of a villa.

This wasn't the Shi family's residence, but there were guards at the entrance.

After entering the door, they saw li xiangwang, who was uneasy and had deep fear in his eyes.

Seeing Shi Yalin, li xiangwang's voice trembled, " what do you want, Yueyue? Why did you bring me here?"

"Captured?"

Shi Yalin walked through the door. She was very dissatisfied with the word.

"Didn't I save you?"

Li xiangwang's eyes were filled with embarrassment from being caught. She did not answer Shi Yalin's question.

"You're not even afraid of death, and you're still afraid that I'll catch you?" Shi Yalin asked with a smile.

Li xiangwang was even more embarrassed.

Chapter 2926: outpost 7

Because of the blow she had suffered today, her self-esteem and self-confidence were all gone. She felt that life had no meaning to her, so she couldn't take it anymore and found a quiet place to slit her wrist.

As a result, just as she cut her wrist, she was stopped by two Men in Black suits. They knocked her out and brought her to this place.

She didn't know why these people wanted to capture her. It was only when she saw Shi Yalin's smiling face that her nervous heart calmed down a little.

Shi Yalin placed the packed food on the table and opened them one by one.

Looking at the food in the lunchbox and the name of the restaurant on the lunchbox, li xiangwang knew that the food Shi Yalin had packed for her was from the legendary high-end restaurant outside the school. His good impression of Shi Yalin immediately improved.

"Let's eat," Not only did Shi Yalin personally help li xiangwang open the lunchbox, but she also gave him some food.

Military training was a physical exercise, not to mention that they had physical training today, and she had been punished. At this moment, she was so hungry that her chest touched her back.

Seeing that li xiangwang was gobbling down the food, Shi Yalin ordered her subordinate to pour her a glass of water.

Li xiangwang had never received such courtesy in his life. This was the first time in her life that she had experienced the sense of superiority that power and money could bring to people.

"Thank you," he said.

After a few big mouthfuls, he was not so hungry anymore. Li xiangwang then had the time to thank Shi Yalin.

Shi Yalin didn't say anything. She just smiled and picked up more food for her.

15 minutes later, li xiangwang finally finished his meal. He took the serviette from Shi Yalin and wiped his mouth with satisfaction. Then, he smiled at her.

"Thank you for getting your men to save me, and thank you for the food you packed for me."

"These are all small matters." Shi Yalin looked into li xiangwang's eyes and asked, "Have you ever thought that one day, you will stand at the top of the world, have your own big villa in dizhou, have many servants waiting on you, and everyone wants to be friends with you, but you will always be the focus of others' eyes?"

Shi Yalin's words stunned li xiangwang.

That's right, she had thought about it before. She even thought that with her looks, she could hook up with a rich husband like li jingrao.

However, Nangong Nuannuan and Yu minzhen had shattered her dreams.

She felt extremely inferior now.

"Do you think that what I just said is impossible for you?"

.....

"But I can see from your eyes that you're very much looking forward to this kind of life."

.....

"We have a common enemy."

Li xiangwang raised his head and looked at Shi Yalin in surprise.

Shi Yalin nodded. that's right. It's just as you've thought. Our common enemy is Nangong Nuannuan.

"Did she offend you too?"

Shi Yalin laughed and lit a cigarette for herself. She looked into the distance, "She didn't provoke me. My life was destroyed by her."

Li xiangwang's eyes were filled with shock, "but you are the young miss of the Shi family. You look very good now.

Shi Yalin took a puff of her cigarette, "alright? Hehe, I'm not good at all. Did you know that Nangong Nuannuan is a woman with great strength and means? I once brought a group of killers to get rid of her, but not only did she kill all my men, but she also made me a vegetable."

"What?" Li xiangwang's face was full of disbelief.

My Sweet Physician Wife Calls The Shots

Chapter 2927: 8

"If I hadn't met my master, my life would have been ruined. That's why I hate her. I want her dead. And you're the one who's afraid."

Shi Yalin looked at Li Xiangwang and said, "you have already died once." If it wasn't for me today, you would already be a dead man. "

Li Xiangwang was silent.

That was indeed the case.

However, it didn't count.

After all, Nangong Nuannuan did not kill her, and it was all because she could not figure it out. In fact, she had only realized that she shouldn't be so impulsive after she had died once. It was better to live than to die.

"You may feel that what you did today was impulsive, and you may regret your actions of dying today. In the future, you will cherish your life more. However, if you don't trample on Nangong Nuan and Yu minzhen, who looked down on you, do you think that your trampled self-esteem and confidence can come back? Do you have the guts to go against Yu minzhen when you see her?"

Shi Yalin's words were like jabbing at Xiang Wang's heart.

Minister Li looked at Shi Yalin and asked, "Then what do you want me to do? I don't have a family background, I don't have any background, I can't even compare to Nangong Nuannuan in terms of grades, and I don't have any martial arts skills. If even your bodyguard couldn't kill Nangong Nuannuan, then I definitely can't."

"As long as you're willing, I can make you mine. I can let you have someone who can't compare to Nangong Nuannuan, but who is stronger than anyone in the school, even stronger than the instructor. As long as you work for me, I can give you a lot of money. As for your professional Pixiu?"

"What's the big deal about the Research Institute?" Shi Yalin laughed. The elites of the Research Institute were all in the medical Association. So, as long as you're willing, I can let you enter the medical Association in the future and become a researcher. In the future, you'll be above everyone else, and you'll have things that others can't get even if they work hard for a lifetime.

Of course, you can also refuse. I'll just find someone else. After all, you're just a woman. No matter how much your martial strength improves, there's no way you can be more powerful than a man. "

"Then Yingluo, why did you look for me? Why don't you find another man to work for you?"

"That's fine, but you're Nangong Nuannuan's roommate. I just want to be in a favorable position. And don't worry, I will not let you go against Nangong Nuannuan. Even if you become stronger, you will not be a match for Nangong Nuannuan. At most, I'll let you deal with the people around her. Nangong Nuannuan may suspect me, but she won't suspect you. What you need to do is to find a way to become friends with Gu Xiaoli. How is it?"

“Then what do you mean by making me more powerful? Are you going to do any experiments or modifications to me? Will it cause harm to the body?”

Shi Yalin laughed and clapped her hands. A room full of bodyguards came in.

To li xiangwang’s surprise, some of the bodyguards showed her something that ordinary humans could not do.

“Do you think they’re stupid? These people have been with me for a long time. Improving their physique is a new result of our research Institute. Through your own efforts, you will become more and more powerful.

This medicine was very precious and hard to find. It had no side effects. However, in order to restrain you and prevent you from betraying me, I will inject you with another drug. As long as I’m not satisfied with you, or in other words, as long as I know you betrayed me, I can immediately kill you.”

Chapter 2928

Li xiangwang was stunned.

“What’s wrong? Are you afraid?”

Li xiangwang lowered his head, still thinking about the relationship between the two.

“Li xiangwang, you should know that there is no free lunch in this world. If you want to have more than others, you have to put in more effort than others. However, the methods of this effort were different. You can work hard for a few decades to become someone with a certain level of attainment in medicine. You can also have things that you can’t get in a lifetime, even if you work so hard. I think my conditions are fair. I’ll count to three, and if you’re not willing, I’ll send someone to send you back. Yichihi!”

“I agree!”

Shi Yalin’s offer was too tempting.

Compared to the wealth and status that could not be obtained even if one worked hard for decades or a lifetime, nothing else was important.

Shi Yalin stood up. She was neither happy nor unhappy. She only said, “You’re mine from now on. I won’t mistreat you, but I won’t have much contact with you in school or in private. Nangong Nuannuan is a very paranoid person, so from now on, it’s best for you to maintain an indifferent relationship with me. It didn’t need to be good or bad.

As for the money, I’ll transfer it to your card, but in order to successfully complete the mission and get more money, you’d better not use this money.”

Upon hearing that he could have money now, li xiangwang asked, “How much will you give me?”

After all, she had to accept the potion that was said to be very difficult to get.

“I’ll give you 10 million first. I’ll give you another 90 million after it’s done.”

Li xiangwang's eyes widened. 100 million in one go? " Did she hear wrongly?

"What's wrong? Do you think that's a lot of money?"

Li xiangwang's eyes widened. Wasn't that a lot? She had thought that it would be one or two million.

"A hundred million is nothing to me. As long as you're loyal to me, I'll let you do more things for me in the future since I've already used such an expensive potion on you. Of course, you would get revenge for everything you did. My men never lack money."

thank you, Yaling. I'll do my best to complete your task.

"If you can't do Yingluo well ..."

"I know. If I don't do it well, I'll be dead. But if I can become very powerful, plus I'm not stupid, I believe I can definitely do well."

"Alright. Then, three days later at 9:00 pm, wait for my people to pick you up at the place where you committed suicide today. They will inject you with the drug that is hard to find. And you, from now on, put away your glass heart and be good friends with Gu Xiaoli. Do you understand?"

"Yes, I know. What about Yu minzhen?"

"Her?" "You can do whatever you want to her," Shi Yalin sneered. I don't care."

"I know, thank you."

"No need to thank me. You should thank yourself for making the right choice."

When li xiangwang returned to the dormitory, he packed a bowl of tofu pudding for Yu minzhen and Gu Xiaoli.

The tofu pudding served outside the school was delicious and loved by many students.

Back in the dormitory, li xiangwang placed the tofu pudding on Yu minzhen and Gu Xiaoli's table.

Li xiangwang was a man who didn't like to talk. He was very quiet, but at first glance, he was very sinister.

Yu minzhen and Gu Xiaoli were both surprised that she could take the initiative to be friendly with her dormitory mates.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2929

"This is for us?" Gu Xiaoli asked in disbelief.

"Yes." Li xiangwang nodded.

"My boyfriend broke up with me on the first day of school, so I've been in a bad mood. In the past, not only was I considered to be the most good-looking in our school, but I also had the best grades. In the end, after I came to this school, I found that there were good students everywhere. In addition, my family's financial situation is not good, and I feel that there is a gap between us, so I did not manage to

deal with interpersonal relationships well. I'm sorry, please forgive me. I'll get along well with you guys in the future."

After saying that, li xiangwang even bowed to the two of them.

Yu minzhen was the kind of person who wanted to climb up the social ladder and despised the poor and loved the rich, but she did not have the intention to play tricks on others.

She did look down on li xiangwang, but she didn't have the intention to mess with her. Therefore, when li xiangwang apologized, Yu minzhen pushed the tofu pudding in front of her. "I'll accept your apology, as long as you don't let us be punished again. But I won't eat this, I'm afraid I'll have diarrhea."

Looking at the tofu pudding that Yu minzhen had pushed back, Prime Minister li took it awkwardly. But in his heart, he was actually thinking, 'forget it if you don't want to eat, I'll eat if you don't.'

Gu Xiaoli also said, "we're all classmates. It's normal to quarrel." However, Nuannuan is indeed very outstanding. None of the people my age can surpass her. Each of us has our own path in life and goals to strive for, so you don't have to compare yourself to her. We just have to do our own things well and not let down every effort we put in."

Li xiangwang smiled at Gu Xiaoli for the first time since the start of school. "Yes."

"You're very strange."

Yu minzhen squinted her eyes and looked at li xiangwang with her hand supporting her head. Li xiangwang was shocked.

"What's wrong?"

I thought you were going to do something extreme when I saw how hysterical you were today. Li xiangwang, did you poison your tofu pudding? "

Li xiangwang was stunned.

Gu Xiaoli was about to open the tofu pudding when she heard Yu minzhen's words. She was stunned.

Li xiangwang wanted to strangle Yu minzhen to death. He took his spoon and scooped a big spoonful of tofu from Gu Xiaoli's bowl into his mouth angrily, then looked at Yu minzhen.

Gu Xiaoli touched her nose and then buried her head in the tofu pudding.

Yu minzhen was also a little embarrassed and said, "Actually, there was a girl in our high school class who had a similar personality to you. We were studying at an elite school. She was very proud at first, but later on, her family fell and she couldn't stand the provocation of her classmates, so she ran to commit suicide. After failing to commit suicide, he even tried to kill his classmate. In the end, she was diagnosed with schizophrenia. Because she was less than 18 years old, she didn't go to jail, but she was expelled.

Li xiangwang, it's really not that I can't get along with you. Let me tell you, you really need to change your character. Otherwise, it's easy to go to the extreme."

Li xiangwang clenched his fists tightly under the table. As he watched Yu minzhen speak to her arrogantly, his hatred grew and he sneered in his heart.

“Yes, you’re right. I also feel that I need to change my personality. You’re all outstanding people. As your classmate, I should feel honored. Oh right, you said that you’re the heiress of the Yu Corporation. Are you the only child in your family?”

“How is that possible? I still have an older sister and an older brother. But I’ve always been better than my sister.”

“Although my father will definitely hand the company over to my brother in the future, there are several private hospitals under the Yu Corporation. I’m definitely going to take over those hospitals in the future.”

“Private hospital? Is it in the Emperor Prefecture?”

“How is that possible? Every inch of land in dizhou is worth its weight in gold. Our family’s hospitals are all around dizhou, but they’re all doing well. My goal is to expand our family’s Hospital to dizhou.”

“That’s good.” Li xiangwang smiled, his eyes full of schemes.

“Study hard. If you do well, even if you can’t enter the Research Institute, you can come to our family’s Hospital.”

“Really? Thank you!” Li xiangwang responded happily.

More than 20 days passed by in the blink of an eye.

By now, Chi Yang’s injuries had completely healed. Chi zeyao had undergone the most important organ transplant in his body, and he should have taken at least three months to recover. However, Chi Yang had been gathering the spiritual energy in the surroundings to help Chi zeyao heal his internal injuries.

In just a month’s time, Chi zeyao’s body had fully recovered.

Standing in front of Nangong Nuannuan with his 187cm height, she felt like she was shorter than him.

Chi zeyao was dressed in a black windbreaker today. He was going to the underground factory to check on the progress of his research.

Previously, because of his body and joints, Chi zeyao had always worn loose and comfortable clothes. His tall figure was curled up in the wheelchair. Even though he had a refined temperament that could not be ignored, it did not show the grace of King back then.

However, Chi zeyao was completely different now.

He had a tall figure of 187 cm, a straight posture, and a refined temperament that had settled down for decades. This was coupled with a domineering aura that had been hidden in his blood for decades. This was a temperament that could not be described with words.

Two words-absolutely!

“Second uncle, you’re so tall! You’re really tall and handsome! Second uncle, please give me your signature!”

Chi Yang’s eyes darkened as he looked at his wife, who had turned into a fangirl.

Chi zeyao smiled as he gestured for Chi Yang and Nuannuan to sit down, and said teasingly, “ even Nuan Nuan, who has such high standards, said that I’m handsome. It seems like your second aunt won’t despise me.

“That’s only natural. If second aunt sees you like this, she’ll be charmed to death by you! Oh right, second uncle, I’ve been reading a book on plastic surgery recently. Why don’t I help you do plastic surgery? I can restore your appearance to how it was before!”

Nangong Nuannuan’s words made Chi zeyao and the two old men burst into laughter.

zeyao, ” elder Nangong teased, ” my Nuan Nuan is going to give you plastic surgery. Are you going to do it or not? ”

Chi zeyao was also embarrassed, and he smiled gently, ” “Nuannuan, don’t make fun of your second uncle. As long as your second aunt doesn’t mind my current appearance, I’m fine.”

“Alright, alright, you can just reject me directly. Why do you keep bringing up second aunt? Second aunt didn’t even look down on you when you were in a wheelchair, so why would she look down on you now?”

Chi zeyao was a little overwhelmed by this little girl’s words, but he felt very happy in his heart.

“Dad, I’ve already spoken to Ji Mian. In a few days, Saibo will be working with our country on an important energy project. Ji Mian will be coming as the representative of our partner.”

“Now that you’ve recovered, I guess the other side can’t hold back anymore. It’s safer for Ji Mian to come earlier.” Old master Chi nodded.
