

Physician Wife 2941

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2941

Hearing this familiar laughter, the two of them were surprised. At the same time, they quickly stood up and welcomed Leng Jin Peng in.

“Chief of staff!” The two of them said in unison.

Leng Jinpeng had already been transferred to the combat service department of dizhou half a year ago and had become Nangong Shu’s colleague. Nangong Shu was now the Commander-in-Chief, and he was the Chief of Staff.

It was also because of this reason that the influential people in the Emperor province were so afraid of the Nangong family.

“What’s wrong? Did Nuan Nuan cause any trouble for you?”

Commander Lin was a little hesitant, but he finally said, “Nangong Nuannuan is a new student at the medical department University this year. We didn’t think too much about it and let her participate. However, the Chief Instructor of the medical University had previously participated in the Special Forces training at Flying Eagle, so he told us that Nangong Nuannuan did not need to participate in the military training.

However, I wasn’t close to Nangong Nuannuan, so I didn’t listen to the Chief Instructor’s suggestion. In order to prevent other students from having a problem with her, I let her participate in the assessment and practice with us. This way, the other students can see her performance.”

commander Lin heard that Nangong Nuannuan’s strength has already reached the level of a Special Forces soldier. He’s particularly harsh on their group. Vice commander Chang quickly added.

Leng Jin Peng’s face was full of interest as he listened. Oh, how harsh? ”

“We’ve placed Team 6” s stronghold by the lake,”

Leng Jinpeng was still listening with great interest to the harsh questions they had come up with, but after that one sentence, commander Lin had nothing else to say.

“Just like this?”

Leng Jinpeng looked at commander Lin in disbelief, and commander Lin suddenly felt his back go numb. It was commander Chang who reacted and said, “There is only a Lake where the drill will be held. The new recruits didn’t bring any water with them. They will definitely come to the lake to get water and then discover them. They’ll definitely be eliminated. Let’s see how many points they can get before they’re eliminated.”

Leng Jin Peng looked at commander Lin and commander Chang for a long time, then asked, “Is that what you all think?”

Looking at the officer's expression, commander Lin's eyebrows twitched. "Chief of staff, is there a problem?"

Leng Jinpeng did not answer commander Lin, but instead asked, " "Oh, I heard that the young lady of the Shi family, Shi Yalin, is also a new student. Which team is she in? How was your performance?"

Commander Lin was brought to the other side by Leng Jinpeng's words. He said a little agitatedly, " "I heard that the two young ladies from the Nangong family and the Shi family are freshmen this year. I was afraid that they would cause some trouble in the team. In the end, not only did Nangong Nuannuan exceed my expectations, even the eldest daughter of the Shi family exceeded my expectations."

"Oh?" Leng Jinpeng, who already knew that Shi Yalin was Wen Wan, raised his eyebrows slightly, " how unexpected? "

"She's also a hacker like Nangong Nuannuan. And it looks like her rank isn't low either, to be able to hack into our temporary command system. I had to get someone to repair the system."

Leng Jin Peng did not refute commander Lin's words.

Shi Yalin and Nangong Nuannuan were now on the same level. Although he was confident that Shi Yalin would not be able to win against Nangong Nuannuan, the other party was a 3s-level top-class assassin from another world who had special abilities. He was sure that a commander in the new recruit training camp could not compare to her.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2942

The new recruits did not have any useful information for her to intercept, and the main computer system of the combat Department was maintained by the top messengers of Eagle. These top-level operators could definitely enter the top 300 hackers in the world. He did not even know who the most important system maintenance personnel was. It was only when Feng shengxuan removed his hypnosis that he found out that it was actually the unremarkable Huang zichu.

It could be seen how well Chi Yang had protected him.

Seeing that Leng Jinpeng did not say anything, commander Lin said, " "Chief of staff, did we do something wrong? Don't just keep quiet! You're my direct superior. If I make a mistake this time and you keep blaming me, won't you lose face too?"

"Which team is Shi Yalin from?"

"She's on the same team as Nangong Nuannuan."

Leng Jinpeng facepalmed in frustration.

He felt that he could end this exercise in advance.

Seeing that Leng Jinpeng had stopped talking, commander Lin asked, " "Chief of staff, don't keep quiet. If you don't speak, I'll be very nervous. You won't blame me, right? Will my exercise go smoothly?"

Leng Jin Peng patted commander Lin's shoulder and consoled him, " "Don't worry, Nangong Nuannuan is always referring to her niece. He knows his niece's situation better than you or I do. Since he didn't stop his niece from taking the test, you don't have to worry. No matter what the outcome is, it's not within your consideration."

"As long as the reward isn't too excessive," Leng Jin Peng added.

"Yes, I know. Thank you for your opinion, chief of staff."

While they were talking, Nangong Nuannuan had led her team to eliminate another team of 20 and another team of 10.

So far, Nangong Nuannuan's team had gotten the most guns.

Leng Jinpeng stayed in the main command room. He wanted to see how Nuan Nuan would turn the exercise into.

He wanted to say that the best way to deal with Nangong Nuannuan was to set up their base in the most hidden and difficult-to-find place. This way, no one would go there, and the points she could get would be low.

Although Nangong Nuannuan was powerful, she was a lazy person.

If she had put in a little more effort to manage disheng, it would definitely be the world's number one now, not the third.

Not to mention earning points like this.

To Nangong Nuannuan, a drill like this was child's play. She definitely wouldn't waste her time and effort to collect points. Her goal was to protect the team from death and injury. This was her mission.

However, commander Lin had specially moved the stronghold to the lakeside to increase the difficulty.

Wasn't this just giving Nangong Nuannuan her head?

If the 10000 people participating in the exercise were to attack at the same time, they might be able to " kill " Nangong Nuannuan and stop her from causing trouble. However, if they were to split up, they would have to ...

Leng Jin Peng could already predict the final outcome.

In addition, the bug Shi Yalin was also in the same team as Nangong Nuannuan. With her fear of Nangong Nuannuan and her competitive nature, even if Shi Yalin was soft-hearted, she would still quietly accumulate points.

The captain of Team 6 was completely convinced by Nangong Nuannuan. Although according to the rules, Nangong Nuannuan was not appointed as the team leader, it had only been less than an hour since the drill began, and all the team members were already following Nangong Nuannuan's orders. He would listen to everything she said.

At first, everyone thought that it was a trap to set up a stronghold by the lake, but now they all thought that this was an opportunity.

My Sweet Physician Wife Calls The Shots

Chapter 2943

Opportunity and crisis often coexisted.

Therefore, the more this small team fought, the more energy they had.

Now that everyone had enough bullets, Nangong Nuannuan would guard the lake. As long as the enemy was not near the lake and was within her shooting range, she would start firing.

As a result, the other teams would usually be eliminated before they could even find out where the enemy was.

Looking at the blue powder at his heart, the team members were all depressed.

After these players were eliminated, Nangong Nuannuan's teammates immediately ran over to pick up their guns.

Then, everyone realized that the original 40 guns for 100 people had become close to 200 guns not long after they started.

Most importantly, none of the bullets missed their target.

It was simply a one-shot kill.

On the other end of the monitor, commander Lin and deputy commander Chang's eyes never narrowed.

chief of staff, you have a good relationship with the Chi family, so you must have a good relationship with the Chi family's daughter-in-law, right? "

"Yes, she was my son's deskmate in high school." "I'm a late-stage liver cirrhosis patient, and she was the one who cured me," Leng Jin Peng said proudly.

Commander Lin looked at Leng Jinpeng for a long while. After recovering from his shock, he said, "Do you know how good Nangong Nuannuan's vision is? How could she see so far away? I don't think the members of the other groups can see her at all. How can she see someone else? And even killed someone else?"

Leng Jin Peng replied in an enigmatic manner, "I guess it's the so-called genius." &Nbsp;

Commander Lin looked at the Chief of Staff, then at his Adjutant. He felt that he had been fooled.

On Shi Yalin's side, through the coordination of various signals, she could always find the closest and most advantageous way of attack. He quickly became the leader of their small team. Everyone had a hundred percent trust in her.

Through her, the small team found the checkpoint they needed to pass almost effortlessly.

However, Leng Jinpeng realized that no matter how difficult the checkpoint was, Shi Yalin had no intention of helping her team members.

They had to pass through the six checkpoints. Although Shi Yalin already knew where each team's base was, they had to pass through these checkpoints. Therefore, while they were accumulating points, Shi Yalin would take her teammates to clock in.

After they finished checking in, they began to rush to each team's stronghold.

It could be said that Shi Yalin had been playing by the rules all along. Other than letting everyone know that she was a very powerful hacker, her martial arts skills were so terrible that it made people look at her in a new light.

However, this didn't affect everyone's worship and trust in her. After all, not everyone could be perfect.

Shi Yalin was able to lead everyone to defeat the easiest enemies without wasting any time. She was the one who had made the most contributions to the team. She was able to get past the difficult obstacles and find the stronghold of the other teams.

The drill would last for a total of 48 hours. However, commander Lin realized that in less than three hours, the six pairs had already accumulated 600 points.

In other words, 600 out of 10000 people had already "died".

Most importantly, this was done by two teams of 100 people.

By the lake, Nangong Nuannuan was protecting her teammates from harm when she suddenly saw a ghostly figure flash past the trees above her.

Nangong Nuannuan fired a shot at the man, but the man dodged it easily.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2944

After that, the ghostly figure flashed past again. Nangong Nuannuan fired another shot, but the other party dodged it again.

The other party's speed was too fast, faster than the speed of a normal human. Furthermore, he was wearing the uniform of the combat Department.

It was night time, so no matter how good Nangong Nuannuan's vision was, she still couldn't see the shadow clearly.

you guys wait here. This is the best place for an ambush. If someone comes to get water, you can just shoot.

Seeing that Nangong Nuannuan was about to leave, her teammates were all a little anxious.

"Sister-in-law, where are you going? I want to go with you."

Nangong Nuannuan knew that the other party's strength was not ordinary, so she was afraid that it would be dangerous. She refused, "I'll be there soon. You guys look after the stronghold."

"Yes."

His teammates responded in unison.

Nangong Nuannuan rushed up the mountain at lightning speed and plunged into the dense forest in the blink of an eye.

"Have you guys noticed something?" One of his teammates said.

"I found it. Sister-in-law's speed seems to be a little fast."

"It's not that it doesn't look like it, and it's not that it's a little similar. With sis-in-law's speed, even the average Special Forces soldier can't keep up, right?"

I don't think even the official Special Forces of Eagle can match her speed!

After that, there was a long silence.

After Nangong Nuannuan entered the forest, the ghostly figure once again floated past her. Nangong Nuannuan immediately followed.

As soon as she got behind the rock, a familiar smell hit her face. Nangong Nuannuan's body went soft, and she was pushed to the ground by a man with an unfamiliar face.

Chi Yang didn't expect that his wife wouldn't even fight back. He felt that he was getting heavier, so he could only carry his wife and roll a few rounds on the ground before he stopped.

"Big brother chiyang, why are you here? Didn't you say that you would stay at home for the next few months?"

"If I stay any longer, I'll lose my wife."

Nangong Nuannuan blinked her eyes. what do you mean? "

Chi Yang punishingly printed a deep w on his wife's pure (voice), and then said unhappily, "Didn't you realize that they all have ulterior motives towards you?"

Nangong Nuannuan was amused by the owner of the vinegar factory.

"Which eye of yours saw that they had designs on me?"

"I saw it with both my eyes. Not only do they have designs on you, but they also say that you're their treasure."

"Huh?"

Nangong Nuannuan lay on the ground and looked at Chi Yang's jealous expression. She felt that he was not spouting nonsense.

With his photographic memory, he finally managed to find out who had said that.

Combining the content before and after, he said, not knowing whether to laugh or cry, " "Big brother chiyang, what the captain meant was that I'm very powerful and can get information from the other party, so I'm the treasure of the team. They just feel that I should be the first to be protected. They all know that I'm your wife, so how could they have any thoughts about me? You're so outstanding, how could they be your match?"

“Really?”

Nangong Nuannuan found it funny and pushed his chest. “Of course it’s true. Otherwise, who do you think is better looking in our team and has a chance of winning against you?”

“If those bastards want to defeat me, it’s impossible in this lifetime,” Chi Yang snorted.

“Of course!” Nangong Nuannuan immediately replied obsequiously. My big brother chiyang is the most powerful. Big brother chiyang, have you noticed that your speed has increased?”

Chi Yang nodded with a smile on his lips, “I’ve already noticed it when my strength increased.” How is it, is it faster than you?”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2945

Chi Yang knew that he had previously surpassed Nuannuan in terms of strength, but in terms of speed, he was no match for his Nuannuan.

But now, Yingluo

“It’s as fast as my current speed. You’ll definitely be faster than me if you advance a little more. I couldn’t even hit you with a gun just now.”

“How can a gun hit me? Even in the past, a gun wouldn’t be able to hit me. ”

Nangong Nuannuan liked powerful people like him. Moreover, he was an expert that belonged to her. Thus, like a Vixen, Yue Wan slowly hooked moon retreat to Chi Yang’s moon and said, “You’re better than me in everything now. Yingluo, you have to protect this weak woman in the future!”

Chi Yang’s eyes instantly darkened as he was enticed by this Vixen.

Looking at her exquisite and seductive smile under the moonlight, even though his injuries were healed, he could not help but feel his blood boil.

He scratched her perky nose and said fiercely, “You Vixen!”

“Brother chiyang, you don’t love me as much as you used to,” Nangong Nuan said with a warm smile.

Chi Yang’s eyes darkened.

Only the heavens knew that his love for her was deepening every day. He wished he could dig his heart out for her, but this heartless girl said that he didn’t love her as much as before.

Chi Yang smiled, “I know.” It’s my fault.”

Eh?

Nangong Nuannuan was stunned.

Brother chiyang’s reaction isn’t right!

“What do you mean by this?”

"It's nothing," Chi Yang said with a smile. I'm your husband, but it makes you feel that I'm not treating you as well as I used to. This is my fault. In the future, I'll definitely make my wife think that you're the one in my heart. I won't let you have such thoughts again."

Nangong Nuannuan shuddered.

She stammered, 'don't!

"Brother chiyang, I was wrong. I was just spouting nonsense. In my heart, you're the person who treats me the best in this world. To be able to have a husband like you, I'm very, very, very happy! I feel like I'm the happiest woman in the world."

"Yes." Chi Yang nodded. then we'll go back after the military training is over.

Nangong Nuannuan wanted to slap him.

"Big brother chiyang, how did you say that without a single heartbeat?"

Chi Yang's eyes narrowed. His wife actually called him shameless?

Since Yingying was already shameless, if he didn't acknowledge her shamelessness, wouldn't he be letting his wife down?

"Big brother chiyang! You're really ..."

"Really what?" Chi Yang laughed as he looked at his angry wife.

Nangong Nuannuan pouted and looked at him with resentment. She knew that anything she said now would be wrong.

This man was a Wolf.

She didn't want to give him the chance to show off!

"Hmph!"

Chi Yang looked at his wife's toot face and he loved her to death. His eyes were filled with a smile that could not be stopped.

At this moment, a small silent camera flew over the two of them. Chi Yang took out a small rock and directly shot down the unmanned camera.

Before he could see the person clearly, the camera was destroyed.

The situation immediately became tense.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2946

"Chief of staff, I'll immediately send someone to check out the situation."

"No need," Leng Jinpeng was much calmer than commander Lin. She had personally witnessed Nangong Nuannuan drive a Porsche over two tall buildings with the force of the explosion.

He was well aware of Nangong Nuannuan's capabilities. Even if something were to happen, she would be fine. With her speed, she would definitely be able to escape.

"Use the communication device to ask about the situation."

"Yes." Commander Lin was about to speak when Leng Jinpeng said, "I'll do it."

After saying that, he called out to Team 6's communication station, "Nuannuan?"

Although the other teams of Team 6 could not hear the sound, Shi Yalin could.

When she heard someone call Nangong Nuannuan's name, her brows furrowed slightly.

Under normal circumstances, GCH would not call for Nangong Nuannuan, unless something happened to her.

Shi Yalin could tell that it was Leng Jinpeng who was calling out. She was still happy that something had happened when she heard Nangong Nuannuan say, "I'm fine," she said.

Team 6's members were initially on tenterhooks, but after hearing Nangong Nuannuan's answer, they relaxed.

Nangong Nuannuan glared at Chi Yang, then walked out of the forest. He then walked out with Chi Yang.

When Leng Jin Peng saw Chi Yang's tall and slender figure, who had changed his appearance, he did not feel good.

It was one thing for Nangong Nuannuan to join in the fun of the new recruits 'drill. After all, she was a new student of the medical University. Why did the Flying Eagle Commander-in-Chief come in with a disguise?

Needless to say, this was the guy who had seduced Nangong Nuannuan.

"Who is he? He's not one of the new recruits, is he?" Commander Lin immediately noticed that something was wrong with Chi Yang.

"No! Absolutely not! From his figure and temperament, I can tell that he's definitely not."

"Don't worry, this is the Scarlet sun."

Seeing the two of them acting as if they were facing a great enemy, thinking that a spy had sneaked in, Leng Jin Peng immediately explained.

"Huh?"

Commander Lin thought he had heard wrong. After all, in his heart, Hiroshi chiyang was an extremely cold male God. The greatest fortune in his life was that he had once been a member of the Flying Eagle Special Forces, and he really admired Hiroshi chizawa. Commander Lin had always idolized Chi Yang, who was said to be more outstanding than his father.

Now that his idol had disguised himself and sneaked into the new recruits 'training camp, commander Lin almost couldn't help but run out to see his idol.

“Isn’t Lieutenant General Chi recuperating from his serious injuries?”

Leng Jin Peng’s mouth couldn’t help but Twitch, and he said, ” “He’s indeed seriously injured. Even now, it’s a problem for him to walk. Therefore, he could not join any side. Don’t worry, he’s just a passerby, so you don’t have to worry about him. However, don’t tell anyone about him!”

“Don’t worry, chief of staff, I promise I won’t tell anyone!”

The two commanders said in unison.

Leng Jin Peng had complete trust in these two people. After all, they were both from Flying Eagle.

After that, these two people’s eyes were directly nailed to Chi Yang’s body, unable to move away.

The captain saw Nangong Nuannuan bring a stranger back and looked at him warily.

he’s my friend. He knew I was here and came to see me. He doesn’t need to participate in the drill and assessment.

When his teammates heard this, they instantly heaved a sigh of relief.

Everyone continued to work together. Every time, before the other teams could come over, they would already be annihilated by the people on this side.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2947

A small team, especially one that was guarding a stronghold, had annihilated countless enemies because of the convenience of water resources.

The small teams realized that the people who were sent to fetch water did not come back at all.

Very quickly, people from all ten teams died near the water source.

Although this was a drill for new recruits, everything was done in accordance with strict conditions. The team members had not had any water or food for two days.

If he wanted to drink water, he had to draw water from a water source. If he wanted to eat, he could only pick fruits or hunt wild animals.

The game was put in by the combat Department in advance. There was not a lot of it, and it was up to luck to catch it.

Everyone had been hungry for the whole day, and the night was the time when they were thirsty, hungry, and tired. Not only was there water in the lake, but there were also fish. Those who couldn’t catch any wild game came to the lake to catch fish. Even if he couldn’t catch any fish, he should at least drink some water.

However, none of the waves that they had sent out had returned. This made their hearts sink to the bottom.

Everyone knew that there was something fishy about this Lake.

As time passed, some of the more courageous teams sent an entire team, or even two teams, to the lakeside to get water for their team members.

However, what made them break down was that no matter if it was one team or two teams, they couldn't get close to the lake.

As long as they were within the firing range of the enemy, they would be attacked.

The key was that the other party did not miss a single bullet.

That was not the only thing that made them break down. Not only did the enemy have people by the lake, but when they entered their shooting range, they found that they had fallen into the enemy's encirclement. There was actually an entire team of people attacking them at the same time.

The key was that the other party's weapons were particularly good, almost all of them using a charging chamber (sound).

For this exercise, each team of 1000 people only had 500 weapons. And out of the 500 couplets, only 150 of them were equipped with an assault chamber. All that was left was his hand.

Hence, when this team saw that they were surrounded by charging guns and were shooting at them without any hesitation, the entire team's mentality collapsed.

However, even if they died, they had to bite some of the other party's people to death.

As a result, Nangong Nuannuan's team had also suffered some casualties in the conflict with the hundreds of people.

12 injured, 10 dead.

After that, these injured teammates could only sit still. If one's hand or leg were only slightly injured, they could still move. However, if one's body was injured, according to the drill's requirements, one could only drag the team down.

In other words, there were 78 people left in Team 6's stronghold. However, they had taken down 300 of the enemy's people in one go with a loss of 10 and 12 injured.

Team 4 had lost 300 people. When their leader found out that all of them had "sacrificed" to get water for their brothers, he was furious. Hence, he gathered all the people in his team and vowed to avenge the 300 brothers who had "died".

These four teams had been planning and researching, so they hadn't lost any members. After hearing that the lakeside was dangerous, they sent 300 people there, thinking that the more people, the better.

In the end, after the team was wiped out, the leader couldn't take it anymore. He directly led his team of 700 people and rushed over, wanting to settle the score with the people here.

There were no real guns here, and the enemies were all virtual. Nangong Nuannuan could not really be ruthless. When he knew that the 700 people were coming, his face turned serious.

Chapter 2948

There were 700 of them. They had more than 70 people on their side, so they definitely wouldn't be able to beat them. More importantly, there were also injured people. And under the circumstances where she couldn't kill them, she couldn't directly kill 700 people.

"Pack up, we're leaving."

Hearing Nangong Nuannuan's instructions, the team leader was taken aback. but our base is here!

"The stronghold is here, so we can't leave?" Nangong Nuannuan was stunned.

Then, everyone looked at each other.

It seemed like Yingying didn't say that they couldn't leave the stronghold here. It was just that there were many things in the stronghold, and they had to move them, which was more troublesome. Once they moved their things away, they would be easily discovered and become a target. Therefore, the stronghold would not change under normal circumstances.

"Let's go!" The captain made a prompt decision. Even if points would be deducted if the stronghold was changed, it was still better than a dead person, right?

Under Nangong Nuannuan's lead, some of the team members were responsible for taking care of the injured while the rest were responsible for carrying the items.

They had thought that they would run into other teams once they left, but under Nangong Nuannuan's guidance, they did not meet anyone and successfully avoided the 700 people.

Seeing this, commander Lin felt that Nangong Nuannuan's team was being too easy on them. He felt that they should increase the difficulty and intensity of the other party. Otherwise, with Nangong Nuannuan's walking bug, she would definitely stir up trouble for the entire practice team.

Leng Jinpeng, who had seen Nangong Nuannuan move the stronghold away, heaved a sigh of relief. He felt that the final result of the exercise would not be too bad.

Just then, commander Lin gave another order to Team 6.

"We can't move the stronghold! Even if you move, you have to move it back in half an hour, or you lose."

Leng Jinpeng:

Team 6:

Everyone looked at Nangong Nuannuan when they heard the order.

To be honest, going back at this time would be courting death, but it wasn't like Yingying couldn't go back.

"It's not like we can't go back."

Nangong Nuannuan's words made everyone's eyes light up.

Nangong Nuannuan observed the situation inside the forest and said, "Follow me."

Everyone quickly followed in silence.

Commander Lin realized that Nangong Nuannuan had found a very well-hidden cave for her team members. It was so hidden that they had not been able to discover it even when they had made their previous strategies.

Because this cave was too well-hidden, commander Lin could guarantee that no one would be able to find this place.

“You guys settle your things and follow me to a place.”

Everyone was very willing to listen to Nangong Nuannuan’s arrangements. Nangong Nuannuan picked a few of the best in the team to leave with her. The rest of the team, including the captain, had a hint of envy in their eyes.

If he had known earlier, he wouldn’t have tried to fight for the captain’s position. He felt that those who always followed Nangong Nuannuan would have a large area of land when they arrived!

Sister Nuan, what are we doing out here? ”

The soldier, who had previously called Nangong Nuannuan sister-in-law, was now acknowledged as her sister by Nangong Nuannuan’s skills. He was very excited. Even though he was older than Nangong Nuannuan.

“I’m going to pick some ingredients.”

Material?

What material?

In the command room, commander Lin felt that something was amiss. He was a little regretful.

As the new recruits did not ask, commander Lin did not know what Nangong Nuannuan was going to do.

However, when he heard the ‘news’ and saw Nangong Nuannuan and her group still running towards a less smoky area, Leng Jinpeng already felt that things were not good.

He had a feeling that Nangong Nuannuan was going to do something big.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2949

On the other side, not long after Nangong Nuannuan’s team had moved the items away, the 4th team of 700 players had arrived.

Everyone searched the lakeside without restraint, but other than seeing some traces, there was no one else.

The leader was extremely angry. After all, 300 of his men had disappeared here. He had also heard the sounds of battle from here.

He didn’t know which group it was that had managed to escape from their encirclement so quietly after swallowing his people.

“Captain, we didn’t find anything. They’ve already left.” The vice-captain’s face was full of resentment.

“Get some water. Don’t waste time.”

“Yes.”

Since they had already been eliminated, there was nothing they could do even if they were angry. He could only take care of the remaining soldiers and try to earn more points after recuperating.

However, what they did not know was that Nangong Nuannuan’s team had already attracted a certain amount of hatred. There were people from all the teams who had died here. And there were quite a few of them.

Those who were eliminated could only return to their teams immediately and watch from the side. They were determined not to reveal any information. Therefore, even if they could still see their teammates, they didn’t know who had killed them.

Therefore, when the other teams brought their people to the lake, they regarded Team 4 as their arch enemy.

After all, other than Team 4, there was no one else. So no matter how Team 4 explained, it was because someone had died here. The other teams didn’t care and just picked up their weapons!

In a remote area, Nangong Nuannuan asked the team members to put on their gas masks and teach them how to distinguish the grass that occupied the entire Valley. After that, the team members began to pick the grass.

“What kind of grass is this?”

Because Nangong Nuannuan had spoken in a very low voice, the people at the command center couldn’t hear her at all.

They saw that the grass on the ground was the same, but the team members had only picked some of it, and they had picked it by picking it. Everyone even wore gloves when they plucked the grass.

Because there were many such grasses in this Valley, everyone quickly gathered all of them.

After they had gathered everything, Nangong Nuannuan led everyone back the way they had come. Then, as if they had seen something, they perfectly missed all the teams on their way and went to a remote area.

Then, commander Lin was shocked to find that Nangong Nuannuan had ordered her team members to throw the grass they had picked into the water source.

“Chief of staff, will you be fine?”

Leng Jin Peng looked at commander Lin, whose expression had changed. His expression was clearly displeased.

“What kind of person do you think Nuan Nuan is? In order to win a drill like this, he had to kill someone? Not to mention that she’s chi Yang’s wife and the young lady of the Nangong family, she’s the chairman of disheng. She doesn’t have to kill people for this kind of game.”

After hearing the chief of staff's description, commander Lin also felt that he was overthinking it and felt a little embarrassed.

"Then she's Huanhuan."

if you don't let them go to the other bases, she can only protect her team members by the lake.

Commander Lin's eyebrows twitched and he stood up. "Then, did she just use the grass to kill all these players without killing them?"

He didn't dare to finish his sentence.

This was too terrifying. He had defeated everyone without killing them. If this was a real battle, Nangong Nuannuan, who was superior in both martial arts and medical skills, would be able to completely abuse others!

Chapter 2950

2950 Causing trouble (1)

A large amount of grass was thrown into the lake. The lake water was man-made and would soon be polluted.

Nangong Nuannuan and her team hid in the dark and watched the chaotic battle.

Team 4 was the most miserable. Originally, because they had lost 300 brothers, the entire team came to take revenge. In the end, not only did they not find an enemy to fight, but they were also blocked by other allied teams, who thought that they were a terrible existence that did not allow other teams to get water.

In the end, Team 4 was suppressed by the other teams. After a fierce battle, the team flag was taken away, and all the members died. They were eliminated. It was extremely tragic.

After all four teams had died, and the other teams that had lost a quarter of their members had also won, the large-scale collision finally came to an end.

the flag of team four has been lost. The exercise is over. All personnel, please retreat and leave the scene.

The speakers hidden in the rocks suddenly sounded at the same time so that everyone in the practice area could hear them.

The leader of team Four's face turned green. He didn't understand what was going on.

"Li Yi, you're too big-hearted, haven't you heard that those who commit injustice are doomed to destruction? Leave a way out in the future. The drill had just begun, so it was better for everyone to help each other to break through the barrier. Otherwise, what's the point of killing everyone you see like a Mad Dog?"

Team 1's branch Captain didn't like Team 4's captain's arrogant way of doing things, so this time, he spared no effort in killing.

Looking at the few members left in his team, although he felt angry, many of his brothers had also 'died'.

"Bullshit! I already told you that it's not us, but you just have to lead the way. I'm suspecting if you were the one who annihilated so many of our team members here. And you're a thief crying thief!"

"Team four, 50 points deducted." Suddenly, a sound came from the loudspeaker. Not only was Team 4 completely annihilated, but they also lost 50 points.

those who have been eliminated are not allowed to mention the drill content. Otherwise, it will be treated as a violation.

The captain of Team 4 was so angry that he was about to die. He was already "dead," so why couldn't he scold him?

Don't let him find out who set them up, or he'll have to bear the consequences.

Everyone looked at the angry and unwilling expressions of the captain and the members of Team 4 and gradually believed that Team 4 might have really been misunderstood.

However, it was a good thing that they could eliminate a team and get the team flag.

The leader of Team 1 was about to leave with his team members, but he was stopped by several other allied teams.

"What's the meaning of this?"

"Team 1, we've lost so many brothers. You can't keep the fruits of victory to yourself!"

With just one sentence, the remaining group of people started fighting again.

Nangong Nuannuan and the others stood there and watched. Since they were going to use weapons, the outcome was decided in a short while.

Other than Team 6, the remaining nine teams more or less had people involved in the battle, resulting in countless deaths and injuries.

Finally, when there was only a small group of people left in team three, the battle was completely over.

Because at this time, each of their teams had brought a lot of people.

The battle had not officially started yet, and they had not even started the checkpoints set up by the combat Department. They could not let everyone die Here because of the water source.

For the sake of fairness, the team from team three will be the final winner. They will take the flag of team four, who was eliminated early.

After that, the teams drew water from the lake and prepared to leave.
