Chapter 2981

2981 We can't get a divorce (2)

You also know that no one in history has ever received a transplant of four internal organs at the same time. An internal organ transplant was already the biggest surgery for an ordinary person, and there would even be rejection after the surgery. But I'm transplanting four internal organs at the same time, and I also have to repair various joints. You know that many of my joints have been deformed, and it's not easy to repair them. I really don't know if I can walk out of the operating room alive. Even if it was Nuannuan who performed the operation on me, even if I trusted her, I would still feel anxious if you were to wait outside. I was anxious and worried that I wouldn't be in the best mood for the surgery, so I specifically looked for Nuannuan and didn't let her tell you. I didn't tell my dad about this.

Ji Mian, it's not that I don't care about you, and it's not that I don't care about my dad. It's precisely because I care too much about you that I'm afraid you'll be worried. That's why I told Nuannuan not to tell you.

It was my fault. When you ignored me, I didn't even realize what I did wrong. Until Chi Yang and Nuan Nuan gave me a lesson, until Yue 'er left, I saw little Xuan Yuan Yuan "

"What? Yue 'er left? Why did Yue 'er leave? where did she go?"

Feng Ji Mian, who had planned to ignore Chi zeyao forever and ignore him no matter what he said this time, straightened up in Chi zeyao's arms when she heard that Bai Liyue had left.

Chi zeyao told Feng jimian in detail about Bai Liyue's departure on the day of his operation, and Feng jimian's brows furrowed.

"What is he doing? You lost my daughter-in-law, and you still say that her family picked her up. What the hell is family? Shouldn't we be Yue 'er's family?"

Chi zeyao's eyes were filled with laughter. as he carried his wife and flew to the shore, he said, " "Ever since little Xuan's hypnosis was removed, he has changed completely. This doesn't seem like a change in personality, it feels like his entire person has changed."

Feng jimian hammered Chi zeyao's chest, but it was her own fist that hurt.

Chi zeyao looked at her with tender affection and asked, " "Does it hurt?"

"I'm not made of dry instant noodles. It won't break if you touch me."

Chizeyao:

"Don't change the topic. You've said so much, are you not going to acknowledge my son? I'm telling you, Yingluo."

Chi zeyao was a little helpless,'little Xuan is my child! You gave birth to him, so how could I not recognize him? No matter what secrets he has, we are his closest parents."

"That's more like it," Feng Jimian said arrogantly.

Seeing that Feng Jimian had already ignored him, Chi Zeyao immediately struck while the iron was hot, "Ji Mian, before I came here, I've already received the education of the children. Love is companionship, and nothing is more important than that."

After hearing Chi Zeyao's words, Feng Jimian finally remembered that she had just made up her mind to ignore him.

So when she heard this, Feng Ji Mian turned her head away again. He even snorted through his nose.

"Ji Mian, I was wrong."

Chi Zeyao was a man who rarely apologized to others, but he was an exception in front of Feng Jimian, and his apologies sounded particularly smooth.

However, Feng Ji Mian had already decided to ignore him, so she wouldn't talk to him.

"We're already pregnant," Chi Zeyao said helplessly. "You can't ignore me forever or even divorce me because of this, right?"

Chapter 2982

2982 if a man can be relied on (3)

Feng Jimian rolled her eyes at him and said in a bad mood, "You wish!"

"I'm glad you won't leave me," Chi Zeyao laughed. "I'm just afraid that you'll leave me. As long as you don't leave me, I'm willing to suffer any punishment you want."

Feng Ji Mian glared at him again and continued to ignore him.

"My dear wife," he said, "then tell me, how do you plan to deal with me?"

Feng Ji Mian glanced at him but didn't say anything.

Chi Zeyao smiled pitifully and said, "When you first came to KE city, no matter how big of a mistake you made, I never mistreated you, did I?" No matter what mistake you made, I will quantify the punishment. I know I've done something wrong, and I'm willing to accept my punishment, but you can't possibly not tell me how you're going to punish me, right?"

Feng Ji Mian was easily taken in by this man and said, "You're so evil and you want to hide everything from me. I plan to hide everything from you in the future. Also, I'm planning to ignore you for a year!"

Hearing his wife's punishment, Chi Zeyao's eyes were smiling, but his face was full of pity, as if he had realized his mistake and changed his mind.

"I've only hidden one thing from you, and you're already prepared to hide everything from me in the future. Honey, don't you think this is a little unfair to me?"

“You’re only hiding one thing from me? If I didn’t find out that you’re still alive, you wouldn’t have come to find me. You’ve been hiding it for so many years. How many things must have happened over the years? Do you think this matter can be resolved with just one incident?”

“But haven’t you already forgiven me for this?” Chi zeyao felt wronged. How can you bring up something that you’ve already forgiven?”

“Alright, I won’t say anything! Then let’s talk about this! You clearly promised me that you’d let me be by your side during the surgery. Even if the situation at the time didn’t allow me to do so, at least let me know that you’d video call me. but did you manage to do it?”

“I didn’t do it, I was wrong. I’m sorry, Ji Mian, I really won’t do this again.”

“If a man is reliable, even a sow can climb up a tree. Hey, what are you doing? Why did you send me here? Why did you stop on the tree? The main road is over there, why are you taking me to the deserted island?”

“Didn’t you say that if men are reliable, even pigs can climb trees? i just want to tell you that you’re in my arms. although i’ve missed the first 17 years of your life, i won’t miss the next few decades. My Xiao Xuan and I will be your support. So, you can’t say such irresponsible things!”

Just as Feng Ji Mian was about to sneer, Chi zeyao immediately changed the topic, “ “But we came to this deserted island because someone is coming up. We’ll wait for him here first.”

Feng Ji Mian was stunned, only then did she recall that she was almost killed by a damn unknown international mercenary group.

Feng jimian snorted coldly. Although she had been snorting all this time, Chi zeyao could clearly hear that if she was angry with him, it was his wife who was snorting. If she was angry with those mercenaries, his wife was the one who was truly angry.

Although the mercenary leader was injured, he was alone in the water below and swam to the hidden island at the fastest speed.

He thought that he had escaped with his life, but as soon as he emerged from the sea, he felt a pressure above his head.

The mercenary leader’s expression changed, and before he could react, he was caught by something like iron pincers.

Chapter 2983

2983 Too ruthless (4)

The other party was flying by the waist of his pants. The mercenary leader wanted to resist, but the other party was like a dog being killed. He was thrown to the ground from a height of 10 meters.

The mercenary leader tried to use his hands to support himself, but when he saw that his hands were in position, the other party lifted him up again, flew higher, and then directly threw him into a thick tree.

This time, he was too close to the tree, and his back directly slammed into it.

In addition, he had been injured by the explosion when he jumped out of the plane, so the mercenary leader immediately spat out a large mouthful of blood.

After he fell from the tree, he tried to use his hands to support himself, but two bullets pierced through his elbows.

He almost died from the pain. The force of the fall and the weight of his entire body were all pressed on his injured hand.

This time, not only was his hand disabled, but his body was also injured.

An intense pain swept through his body. Before he could recover from the pain, he was lifted up again and thrown to the ground with a loud bang.

He was lifted up again and thrown to the ground.

I'll say Yingluo, I'll say Yingluo, I'll say who hired me.

"who is it?" A godlike voice came from above, but the coldness made the leader of the mercenaries shiver.

"Sicaro asked me to kill. He had always been close to the Ryan family. I'm suspecting Yingluo."

"Bang!"

The mercenary leader was lifted up again and thrown to the ground.

"I don't want you to think that." The voice sounded again.

"I've got evidence of sicaro looking for me, but I don't have any evidence of the Ryan family's private dealings with sicaro. But Yingluo is my evidence in my organization. If you let me go, I'll give you the evidence."

"Bang Bang Bang Bang Bang Bang Bang Bang!"

With a few muffled sounds, the mercenary's head hurt so much that he couldn't even make a sound. Because it was a steel-like foot stepping on his wrists, elbows, ankles, and knees.

It was not until Chi Zeyao flew away with Feng Ji Mian in his arms that the leader of the mercenaries screamed.

He was too ruthless!

He was really too ruthless!

That person had completely crushed all eight of his joints.

This method of crushing directly broke the nerves, and even installing fake joints would not work.

In the future, he could only install fake limbs.

However, Yingluo

There were still people in the mercenary group who coveted his position.

He was like a worm, who would help him?

Thinking of those mercenaries who wanted to cut him into a thousand pieces, he could not help but cry out in pain and tears.

If he had known earlier, he would not have accepted this business.

Why on earth did he accept this business deal? He knew that the master of the nice family was very capable and that many mercenary organizations had fallen in her hands. Why did he still go to pick them up?

However, no matter how many whys he had, it was useless.

Because he was about to face the cruelest death.

After Chi zeyao carried Feng jimian out, he happened to see his helicopter flying over. Under Chi Zeyu's arrangement, the pilot of the helicopter was a female. There was also a set of women's clothing on the seat that was very suitable for Feng jimian.

At this moment, Feng jimian's entire body was drenched. After Chi zeyao raised the helicopter's panel, he ignored Feng jimian's attempts to stop him and personally helped her dry her body.

Although he had already seen his wife, who was almost five years old, still have the body of a young girl during the few days he had stayed with the Chi family, this did not mean that he would not have any thoughts when he saw her again.

Chapter 2984

2984 It doesn't matter if my love for you is thin, but the courtship will last long (1)

Seeing Chi zeyao's eyes darken, Feng jimian felt her face turn red.

Although they had not seen each other for 17 years, they had been married for so many years. How could she not know what Chi zeyao was thinking?

She pushed him and couldn't help but curse, "Hooligan."

"Yes." Chi zeyao gladly accepted the word and said, "Hooligan loves you."

"Only a hooligan would have such shallow love," Feng jimian said sarcastically.

That's right, in Feng jimian's mind, Chi zeyao was a hooligan.

Chi zeyao helped her put on her clothes as he said, "day after day, month after month, year after year, year after year, it doesn't matter if my love for you is thin, but I hope to love you for a long time.

Feng jimian had been living in cyber nation for a long time, and it took her a long time to react to this man's rambling, her face turning red instantly.

What was that saying again?

Hooligans weren't scary, but they were cultured.

she was a typical example of a cultured hooligan.

Wasn't she attracted to his cultured temperament when she first entered KE?

At that time, she felt that he had a temperament that other mercenaries did not have ...

Cultural temperament.

Feng Jimian looked at Chi Zeyao, feeling as if she couldn't break free from his grasp no matter what. Although she didn't want to break free, the feeling of being firmly controlled by him was terrible.

In the end, Feng Jimian didn't even do it herself, Chi Zeyao did it for her.

"How's your body recovering? Although you've been in the armor the whole day, you've been so active after all."

Chi Zeyao's eyes lit up and he quickly asked, "Then you're not angry with me anymore?"

Feng Ji Mian looked at the tail that couldn't even be covered by the armor and was wagging as if it was about to come out. She gently pushed him. who wants to be angry with someone like you? "Getting angry with people like you is just looking for trouble. I still want to live a long life, raise my grandson, and watch him get married."

Chi Zeyao couldn't help but plant a kiss on Feng Jimian's cheek. "I will! My wife is so generous and has such a good personality. She will definitely live to a hundred years old. I'll 'serve' you for the rest of the day!"

Hearing him deliberately emphasize the word "serve," what did Feng Ji Mian not understand?

She pushed him again. go away.

After pushing him, she remembered that he had just had surgery a month ago and immediately said, "Did I touch your wound?"

chi zeyao was about to speak, but feng jimian cut him off again. "you're already so old, why don't you know how to take care of your body? did you have a hemorrhoid surgery? is this surgery the kind that you can do as you please? Even a hemorrhoid surgery would require one to stay at home for more than half a month. He had only changed four internal organs in a month's time, and he was out just like that. Do you not want to live anymore?"

Towards the end, Feng Jimian was angry again.

Looking at his angry wife, Chi Zeyao smiled and said, "you've forgotten that we have Nuannuan. You and our son have watched Nuannuan grow up. Don't you know what she's capable of? If Nuannuan's medical skills are made public, it will cause a global sensation."

"I know that Nuannuan is amazing, but you! You're already in your early 50s, and you've performed such a major surgery and replaced four internal organs. Is this something that can be written off just because Nuan Nuan's surgery is good? The internal organs don't need to be rejected? Don't you need time to heal your wounds?"

Chapter 2985

2985 Offending old Wang (2)

Because she knew that Chi zeyao had always been someone who would not use the person he suspected, not to mention that they had already closed the barrier, Feng Ji Mian did not hold back when she spoke.

But even so, for the sake of Nuan Nuan and Chi Yang's safety, Chi zeyao did not explain anything to her on the spot. He only said, "I'll explain this to you when we get home. Let's go, I'll go with you to meet sicaro."

As soon as she said that, Feng Ji Mian realized that their plane had already landed in sicaro's territory.

Below them, the SICAR mercenaries had already aimed their cannons at them. Some of them even shouted through megaphone, "Who were those people on the plane? this is the kaluo family's private air territory. you have half a minute to leave this area, or else, die!"

However, as soon as he finished speaking, three robots appeared around the plane.

Before the other party could react, it bombarded the area below.

Even though Feng Jiming was helping Feng shengxuan to control KE, she was shocked to find that the androids' weapons were even more powerful than the ones in KE.

The three robots had a wide attack range. It was not something that the Kaluo family could cover.

The key was that the three robots could launch countless attacks at the same time. The powerful attacks that relied on electronic devices were all useless at this time.

With just ordinary cannonballs, the people of the Carlo family would not be able to resist at all.

The most despairing thing was that the person was very rude and unreasonable. He didn't care if the people here were good or bad, what they did, whether the people below could win, and even more so that most of them were already kneeling on the ground and begging for mercy. However, the bombardment of the three robots did not stop at all.

in kamino, as a man of the chi family, chi zeyao would pay attention to his image. Even if there was an enemy who had provoked him. He could also face it with a smile. At most, he would play some dirty tricks in the dark or make things difficult for the other party in the business world.

However, this was Saibo, and a family of mercenaries at that. Chi zeyao did not have any psychological burden.

Whoever dared to kill his wife would have to be prepared to exterminate their entire family.

the reason why no one dared to provoke ke was because KE had always been an existence that no one could afford to offend.

In the world of mercenaries, whoever was stronger had the right to speak, and whoever was stronger would not be beaten up.

The weak would never dare to bully the strong. Otherwise, this would be the outcome.

At this moment, Chi zeyao was no longer the sickly second master of the Chi family who lived off a woman.

At this moment, chizawa Akira was the King who had been at the peak of his career 17 years ago. No one dared to step out of his League.

he was the strongest king in the mercenary world!

It wasn't until he used three minutes to destroy all the houses below, and most of the people were dead, that sicaro and his men rushed over in a hurry.

The ten jungle off-road vehicles were fully loaded with S-Class mercenaries.

With their base destroyed, sicaro was enraged, and he fired at the helicopter in the air.

He believed that the person inside the helicopter was controlling it.

Sicaro wasn't the only one. The anti-aircraft guns on the other vehicles also fired at the helicopter from all directions without hesitation.

it was too easy for them to attack the helicopter. after all, this helicopter was not a military helicopter, but an ordinary tourist helicopter. it was not even equipped with artillery shells. the helicopter's door was not opened, and there was not even a sniper.

Chapter 2986

2986 who exactly are you, sir 3

However, the three cannonballs exploded before they hit the helicopter. At the same time, blue ripples appeared in the air.

"I've been meaning to ask you, What is this? Why does it have such a powerful defensive ability?"

Feng jimian knew that her husband was not only the most powerful King back then, but also a super-skilled mathematician, physicist, and chemistry scientist. He could use the Chemistry and Physics of various substances and convert them through precise calculations to develop powerful weapons. but this thing felt like a science fiction movie. wasn't it too amazing?

"The mechanical armors and defense are all light energy. Normally, as long as he basked in the sun during the day and underwent photosynthesis, he would have enough kinetic energy. the defense was through the power of the shell hitting the protective shield. through the principle of optical electromagnetic resonance, the solar energy and the bomb would produce an electronic confrontation at the same time when the bomb exploded. The more powerful the enemy is, the more resistance the defense system can produce."

feng jimian's eyes widened as she looked at her husband. she didn't expect that in the 17 years that they had not met, he had become so perverted in this aspect.

"Didn't you lose your memory?" Feng Ji Mian suddenly thought of a problem.

Chi zeyao hurriedly explained, " I did lose my memory. But as you know, many people's so-called amnesia is the loss of memories of people and things in the past. However, they have an instinctive sense of knowledge. Just like how you can drive, you can't possibly lose it all of a sudden after losing your memory, right?"

it seemed to make sense.

as the two of them chatted, sicaro's men were almost all wiped out.

Soon, sicaro was horrified to find that he was the only one left in the entire Carlo family.

it was only when his brothers were all dead and sicaro was too heavily injured to fight anymore that he knelt on the ground and begged for mercy.

"Spare me! spare me! Sir, please spare my life! I wonder what deep hatred you have with me? You've already annihilated my Kaluo family, can't you vent your anger?"

Sicaro kneeled in a pool of blood, his entire body doubting life. As a well-known mercenary group in the world, it had always been him who beat up others.

Other than a few people he couldn't afford to offend, sicaro had never been afraid of anyone.

He had never thought that his sicaro headquarters would be attacked without warning one day. the defense system that he had spent a lot of money to hire hackers to set up did not work at all, and the entire headquarters was blown up.

Now, the people from the headquarters were all dead, and he was only left with himself and some branches. Fortunately, he was a cunning rabbit with Three Burrows. He would never put all the good things in one basket. Otherwise, even if the other party didn't kill him, he would have killed himself.

Looking at sicaro, who was begging for his life, Chi zeyao finally allowed the plane to land.

Sicaro stared at the mysterious tourist helicopter without blinking.

The cabin door opened, and a man with an ordinary appearance but a frightening aura walked out of the cabin.

Disguise!

That was the only word sicaro could think of.

With his many years of experience and knowledge, sicaro knew that a man with such an aura wouldn't have such an ordinary appearance.

"Who is GE Xuanji? I, Yingluo, don't know you!" Sicaro's eyes were filled with vigilance, but he was relieved.

Chapter 2987

2987 We're finished 4

After all, he didn't know her. Even if she was his enemy, it wouldn't be a direct hatred.

But the next moment, sicaro's hope was completely destroyed.

Because the moment he asked the question, the man turned around and extended his hand. A woman's slender hand rested on his.

Sicaro's pupils contracted. Thinking about the person he was going to kill today, he felt his blood freeze.

It won't!

it was impossible!

That woman didn't bring many people with her today!

However, when he saw the woman who often appeared in the news of cyber country, sicaro felt that he had no way out.

no, it's not me. It's Hunter!

as a mercenary, he should keep his financial backer a secret. This was the basic professional ethics of a mercenary. if they couldn't even keep it a secret, then this mercenary group could forget about receiving any more missions. They would be removed from the mercenary Association and blacklisted from then on.

However, his entire Kaluo family had been destroyed, and he couldn't even save his own life. What else could he not say?

Moreover, the other party did not give him any detailed information at all. She said that Feng Ji Mian was just hard to deal with because she had a lot of 3s-level bodyguards.

However, this time, the other party had given him a message that she didn't bring many people with her and had forgotten to set up any defenses. That was why he had immediately found someone to take action.

In less than an hour, the other party had actually come.

Was this really just a difficult business tycoon with a lot of bodyguards?

Feng Ji Mian glanced at sicaro, then at Chi zeyao, I thought it would take a long time for him to tell Hunter because of his relationship with Hunter. But he did it so quickly.

Pouting, Feng Ji Mian turned around and boarded the plane.

On the other side, Hunter, the head of the Ryan family, was playing golf with the Vice President.

"Vice President, I think it's time to deal with the nice family. Look at how arrogant that Feng Ji Mian is! A woman who was born in the black wheat field, relying on her underlings to do whatever she wants in our Saibo country.

most importantly, this feng jimian wasn't a member of the nice family at all. this woman was a bastard child born from her father and another woman from kamino, and the nice family didn't acknowledge her at all. Back when she was in the mercenary group, she had used the resources of the mercenary group

to take down the nice family. he didn't know how many people in the nice family were looking forward to his death.

Vice President, the Ryan family has invested a lot of money into the West Coast project. Now we have invested billions of Yuan in it and she just said she doesn't want to do it. What do you think?"

Seeing that the other party was only focused on playing and ignoring him, Hunter said, " "Once the project is put into use, it can earn two or even three or four times the profit. We can pay a lot of taxes!"

"Bang!"

With a muffled sound, the golf ball was hit far away.

The Vice President looked at the arc in front of him and gestured for Hunter to follow. Hunter immediately followed.

"There's no need to talk about this anymore. Feng Jimian has already reported to the president. She said that the money delayed by this project will be paid in taxes every year at a rate of three times the rate of return. as you know, the nice family is the world's number one group, and they have to pay a considerable amount of tax to cyber country every year. If one day, Feng Ji Mian was like Nangong Nuannuan and moved her entire company to Kamino without a second thought, do you know how much taxes Saibo would lose?"

[My Sweet Physician Wife Calls The Shots](#)

Chapter 2988

2988 backing 1

"but my ryan family has also paid a lot of taxes to sibo country, and the amount of taxes we pay has always been above that of di gang. Could it be that Saibo is willing to put our Ryan family to death for the sake of the largest tax?"

"hunter, do you really not know or are you just pretending? Imperial Phoenix's military force had always been in Saibo, and the hidden tax that Imperial Phoenix received was even more than the nice family. you knew that feng jimian was nangong nuannuan's godmother, and that feng shengxuan loved nangong nuannuan. under such circumstances, why did you provoke feng jimian in front of so many people? you think she's easy to bully?"

Hunter:

As for how he'd dissed Feng Ji Mian in front of so many council members and embarrassed her during the meeting, he was filled with regret.

"but i just moved my lips to make her unhappy, but she directly canceled such an important project of cooperation between our two families, causing our ryan family to suffer a huge loss. After that, I apologized to her several times, but she didn't even give me a chance to apologize."

"She didn't give it to you?" The Vice President asked.

"What?" Hunter was stunned.

"I thought that her cancellation of the cooperation with Ryan family was an opportunity for you to apologize. Otherwise, with Feng Jimian's methods, she will definitely take revenge on you. After working together for so many years, it's not like you don't know what kind of woman Feng Ji Mian is.

Just like you said, she's just an illegitimate daughter who's not recognized by the family. It's already impressive enough that she's able to return to the nice family, not to mention that she's not only returned to the nice family, but she's also directly become the head of the family and a controller. She also made sure that no one in the nice family dared to have any complaints about her, at least on the surface.

The nice family had never produced any kind men or women. She was able to stand out from the family and sit firmly in the position of the family head for so many years. Moreover, she managed the family in an orderly manner and flourished with each passing day. Not only did she make the family members obedient, but no one outside dared to provoke her. Why did you provoke such a person? Other than provoking her with those few words and making her take revenge on you, what benefits can you get?"

Hunter had regretted it for a long time, but he did not come to find the Vice President to regret it.

He had already made his move on Feng Jimian, and the information he had received from the nice family was very reliable. He believed that without sufficient preparation, Feng Jimian would definitely die.

"Vice President, I didn't come to you today to talk about this. The west coast project must be won by our Ryan family. Since she, Feng Jiming, was not kind, then don't blame me for being heartless. She wanted to take this project for herself, and it would be a matter of who won. Since she had promised Congress that she would give you three times the tax, if I can get this project, I might give Congress three times the tax. How about you give me the project? Apart from that, I'll also give you half of the tax as a reward for helping me."

The Vice President looked at Hunter with a complicated expression.

"Hunter, did Qianqian do something to Feng Jimian?"

Hunter laughed and said, "How is that possible?" Feng Jimian is the head of the nice family, and there have been many people who wanted her to fall over the years, but nothing has happened to her."

Chapter 2989

2989 please help me 2

The Vice President nodded. Hunter, you're smart and ruthless. Without a leader like you, the Ryan family wouldn't have been able to develop so well. "I've never forgotten the support of the Ryan family. I'm sure I'm willing to see the Ryan family's business prosper day by day.

However, Feng Ji Mian isn't a kind person. I hope that when you're dealing with her, you'll have to control your temper. The loss of this project was a huge loss for the Ryan family, but fortunately, she did not do anything bad to the Ryan family. You were the one who provoked her first, so you have to pay for what you've done. You don't have to say how much you want to share with me, just listen to me. You've suffered a loss in this matter, and don't provoke her again. I believe that as a businessman, if you can handle this well, Feng Ji Mian will still cooperate with the Lai En family in the future."

In other words, the Ryan family should stop competing for this project and don't cause any more trouble.

Hunter did not expect the Vice President to be so afraid of Feng Ji Mian. On second thought, he guessed that this person was smooth and slick. Not only did he have a good relationship with him, but he also had a good relationship with Feng Ji Mian.

He was very angry in his heart, but he did not show it on his face.

"The Vice President is right. However, the nice family couldn't be this prosperous forever. If Feng Jimian can't take this cake, Vice President, I need you to back me up and let the Ryan family handle this project."

The Vice President looked at Hunter with shock in his eyes. He whispered in a voice that only they could hear, " "Did you really do something to Feng Ji Mian?"

"I already said I don't have any. what can i do to her?"

however, the vice president's eyes were still on him. he finally noticed something was wrong.

The Vice President was so angry that he did not know what to say. He pointed at Hunter and trembled.

"Vice President, what's with that expression? are you suspecting that i've done something to feng ji mian?"

The Vice President continued in a low voice, " you'd better pray that Feng Ji Mian doesn't find out what you're doing. If she does, you'll know what kind of expression I'll have on my face. Hunter, I've really overestimated you. You're so stupid!"

The Vice President was so angry that he got out of the car.

Hunter also followed.

This was the first time he had seen the Vice President so angry, and he couldn't help but worry.

However, he still did not show it on his face.

after all, what had been done had already been done. the other party should have already made a move by now, and it was too late to stop now.

"I really didn't do anything," hunt said, pretending to be relaxed."Come on, let's play." in short, if feng ji mian can't take this lying down, please help me. the leon family will definitely not mistreat you."

then, he stood in front of the ball and looked at his next target with his binoculars.

The place was verdant and lush, making it an excellent place for golf.

When Hunter looked at the next target with his binoculars, he was shocked to find a man sitting under the club in the distance.

The man's face was covered in blood, and he was dead.

Hunter was so shocked that he screamed and moved the telescope away from his eyes.

When he recalled seeing the person covered in blood, his heart skipped a beat.

“What’s wrong?” The Vice President had a bad feeling when he saw Hunter’s pale face.

Hunter looked at the Vice President with a pale face. He gathered his courage and looked in the direction of the vice president’s voice through his binoculars. This time, Hunter saw it very clearly. The dead man with blood all over his face was sicaro.

And he was the one who sent sicaro to deal with Feng Ji Mian.

However, sicaro had died where he was playing with the ball.

Hunter did not believe that it was a coincidence.

The Vice President followed Hunter’s line of sight and looked through the telescope. He was also shocked.

He didn’t know sicaro, but judging from Hunter’s expression, he could guess who sicaro was.

seeing that hunter had already run over without even taking the car, the vice president quickly asked the bodyguards to call for help and then had the car take him over.

After everything was arranged, Hunter was already there when the car slowly drove over.

Hunter’s bodyguards had been following him all the time, and their faces turned pale when they saw sicaro.

“Who is this?”

hunter suppressed the fear in his heart and pretended to be calm, ” “I don’t know him.”

hunter, i hope you can tell me the truth. who is this man? ”

Hunter controlled his expression and said, ” “I really do not know. You saw it too, I was looking over here just now to score a goal. If you suddenly saw a body, would you be scared? and yingluo, i think we should improve the security here. this is your favorite place to come to, but a corpse like this actually appeared. isn’t this just making you feel uncomfortable?”

The vice president’s expression was serious. He was almost certain of Hunter’s death.

although the ryan family was powerful, he had heard from the president that the nice family was not something the ryan family could compete with.

Although he had the support of the Ryan family, it didn’t mean that he had to stand on the side of the Ryan family.

“Hunter, I told you before that Feng Ji Mian isn’t someone you can touch as you please, but you didn’t listen. Since that’s the case, there’s nothing much to say between us.”

at this moment, many bodyguards and security guards were already running toward them. the vice president felt that hunter was beyond saving and decided to draw a line with him.

Hunter looked at the Vice President who turned and left. He was so angry that he snorted.

Wasn't it just Feng Ji Mian? He wanted to see what this woman was capable of.

there was no way to find out the cause of sicaro's death. hunter was in no mood to deal with sicaro's body, so he rushed back to his company.

Since she'd already been exposed, if the other party knew that she was going to kill her, with Feng Ji Mian's vicious personality, the Leon family would definitely experience a huge storm in the future.

although the leon family couldn't compare to the nice family, they were still very powerful. as long as he could withstand feng ji mian's revenge, the leon family would recover.

Hunter followed a group of bodyguards into his car. The other bodyguards also drove five cars. there were two cars in front, hunter's car was in the middle, and there were two more at the back for protection.

However, the moment Hunter's car started, the entire car burst into flames from the inside.

The entire bullet-proof minivan was shaking from the sudden explosion inside.

The car door was quickly opened. a few bodyguards ran out screaming.
