Chapter 3011

3011 i am not crazy (1)

As she said, they could take whatever she gave them; If she didn't give it to them, they couldn't snatch it away.

She was so confident that she could even tolerate your thoughts of snatching her away. Even if she knew that you had bad intentions towards her, she would not be afraid and could even pretend that she did not know anything. But once you put it into action, you would end up like Anthony ...

He would die in front of everyone.

He wouldn't even give a single piece of evidence or explanation. in front of so many people, he blew up so many houses and killed so many people. he didn't even blink when he killed his own sister, brother-in-law, or nephew. he wasn't afraid that any of them would call the police.

It was only at this moment that everyone remembered the scene of Feng Ji Mian's brutal methods of snatching the position of the head of the family.

This woman only cared about her husband and son. She would not care about the life and death of others.

For the past 20 years, using his relationship with Feng Ji Mian, Anthony had always been a higher-up in the nice family than the Grand Elder.

As Feng shengxuan continued to run Emperor armor and never returned to the nice family to manage the family business, more and more people started to look at Duke.

who knew that duke would suddenly die just when everyone was optimistic about him?

This time, the nice family was going to go through a reshuffling under the table.

There was only one brassy left in the family.

At this moment, she looked at the bodies of her parents and brother. The woman who considered herself the little princess of the nice family screamed and covered her head. She couldn't believe that a good family would be gone so inexplicably.

Feng Ji Mian didn't even bother to look at her as she said to the steward, " " jie, it looks like fanxi has gone crazy. get someone to send her to the mental hospital. if she can't be cured, then don't come out and cause trouble. "

"Yes." the butler immediately responded.

When Fan Xi heard that Feng Ji Mian wanted to send her to the mental hospital, he raised his head in fear and shook his head. "no, i don't want to go to a mental hospital. i'm not crazy! I'm not crazy! I didn't participate! I really didn't know anything about my mother and the others attacking you. Aunt, please don't drive me away. I don't want to go to the mental hospital."

However, Feng Ji Mian was no longer paying attention to her.

She would never spare a single glance at someone she thought was useless.

Francis was still begging for mercy not far away, but two of the nice family's bodyguards had already walked over. They picked him up without any mercy and dragged him away.

Fan Xi was still screaming and begging for mercy, but without Feng Ji Mian's eyes, she was nothing in this world.

Being able to stay in the mental hospital was already much better than Anthony and the others. This was also Feng Ji Mian's last grace to her.

Feng Ji Mian had already walked to the front of the clan members, standing in front of one of the seven elders who was usually the closest to Anthony.

The seven clan elders had long been scared out of their wits by this. Even though he was Feng Ji Mian's seventh uncle in terms of blood, the seven clan elders felt that Feng Ji Mian was transformed from their ancestor.

So, when Feng Ji Mian walked up to him and stood still, he was already on his knees.

Seeing the seven clan elders kneel down, his sons, daughters, grandsons, and granddaughters hurriedly followed suit in fear.

Chapter 3012

3012 two choices (2)

This group of people, who were usually high and mighty, were afraid that they would be like Anthony. One moment, they were so high and mighty, but the next moment, they could no longer be human.

"Master, I swear, although my relationship with Anthony seems to be good, I really didn't participate in any of her actions! Master, you're so powerful that you know everything about Anthony. You should also know that I'm not involved in that kind of thing with her."

The seven clan elders were almost scared to death, and their entire bodies began to tremble.

Even though he had never done anything to harm Feng Ji Mian, he still had his own people in the nice family. However, the people he had arranged were only there to help him bring the news. And this news was generally business news.

In the next moment, Feng Jimian reached out and lifted the seven elders up.

The seven clan elders' legs had already gone soft, and they could not stand up at all. However, he realized that Feng Ji Mian was very strong and was able to lift him up with one hand.

After the seventh elder stood up, he still could not stand steadily. Nangong Nuannuan gave the eighth elder a look, and the eighth elder quickly reached out to support him. Seeing this, the six clan elders by the side also hurriedly supported him.

“Seventh elder, look at you. I didn’t even say anything and you knelt down. Those who don’t know would think that you’re guilty.”

The seven clan elders were scared out of their wits. After deciding on this matter, they no longer monitored Feng Ji Mian. this woman was simply too terrifying and too strange.

Even though this was what they were thinking, the seven clan elders still immediately said, ” “No, no, no, it’s the family head who is observant! I really didn’t do anything to harm the head of the family!”

“I know,” Feng jimian smiled. You’re only close to Anthony. However, just because you didn’t do it, it didn’t mean that others didn’t. Is it the sixth or eighth clan elder?”

the two of them were still supporting the seven clan elders, who were so frightened that they could not stand steadily. however, when they heard their own names, they were so frightened that they shuddered and the seven clan elders fell to the ground again.

The elders from the sixth and the eighth clan immediately explained.

“Master, there must be a mistake.”

that’s right, master. We’re all on your side. How could we do something that’s not good for you with Anthony? ”

the elders of the sixth and eighth clans were still trying to explain when feng ji mian spoke, ” “You have two choices. One is to take your people and get out of here right now, and never enter the nice family again. or, you can follow anthony’s choice and not be afraid.”

“Get lost!”

“get lost! Let’s Get Lost!”

This demoness, Feng Ji Mian, always did what she said. She had killed her own sister without hesitation. The elders of the six families and the Eight Families believed that she must have gotten the evidence of them hooking up with Anthony.

in fact, their relationship with anthony was not as good as the seven clan elders. It was just that the seven elders were not capable enough, so Anthony did not ask him to help them. This allowed the seven elders to escape this calamity.

The elders of the sixth and eighth clans were so regretful that their intestines were about to turn green. With a single thought, the future of their family and their clan’s bloodline could be as different as heaven and earth.

naturally, their children and grandchildren did not know about the two elders. now that they heard their grandfather admit that he had followed anthony to murder the head of the family, their eyes widened.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3013

3013 Get out (3)

They looked at their grandfather in disbelief, unable to understand why they would do such a stupid thing.

Everything they had was obtained from the head of the family. The nice family had risen from an unknown family, at least not in their state, to become the number one family in the world in just over 20 years. Without the head of the family, was this possible?

They didn't even look at their own abilities. Now that they saw that the family head was gradually getting older and the Crown Prince wouldn't inherit it, they were tempted.

Seeing that the head of the family still hadn't given up on the idea of letting Feng Shengxuan inherit the family business, he actually had the intention to snatch it from him.

The key was that Wufu and the others didn't even think about the reason why the master was so capable and no one outside dared to provoke him. They just wanted to take over the master's property. It was simply stupid.

"Alright, since you've chosen to get lost, I won't kill you since you're my sixth and eighth uncles. Hand over everything in your hands and take your children and grandchildren with you, and leave the nice family forever. In the future, the nice family will have nothing to do with you. Get lost!"

As soon as he finished speaking, several bodyguards came over and looked at them with cold eyes, waiting for them to leave.

The elders of the sixth and eighth families were filled with regret. They could not believe that the place they had lived in for more than 70 years had been driven out just like that.

Most importantly, he had to get out of here penniless.

Although they had saved a lot of money over the years, to ask them to give up the Company Group that they had been in charge of for many years and leave just like that was like cutting off their flesh piece by piece, leaving only their bones and their lives.

Although they could still survive, this was more cruel than taking half of their lives.

The children and grandchildren of the sixth and eighth clan elders were especially dumbfounded.

This matter had nothing to do with them at all, and now they were also about to be chased out of the family.

They were originally high and mighty, but in the future, they would instantly have no big tree to rely on.

Everyone wanted to plead for mercy, but when they thought of what happened to Anthony's family, the words were stuck in their throats.

Everyone just stood there, aggrieved, and accepted the gloating gazes of their relatives.

The nice family was an extremely large family, and NS Group was also a corporate group that was involved in various industries. There were 12 listed companies under NS Group.

These 12 sub-groups were all controlled by the elders and members of the family with status.

Anthony had one, Felix had another under his own name, and the six families and the Eight Families had one each.

There were a total of four group companies, including at least ten profitable branch companies. At that time, these resources would be distributed to the people that the patriarch trusted more.

Yes, it was distribution.

This was because they had long discovered that the master was also a lazy person. She basically only controlled the head office. As for those group companies, she usually only controlled them overall.

In the past, they had thought that the head of the family didn't have the energy to manage these groups and branch offices. Now they understood that it wasn't that the head of the family didn't have the energy, but that he had specially given them the opportunity to make money.

Every family had one.

The elders of the sixth and eighth clans, who had just realized what was going on, were extremely regretful. but it was too late to regret. now, they needed to hand over the two companies they controlled.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3014

3014 I don't have evidence (4)

Fortunately, the group company had been in their hands for so many years, and the finance department was their people. They had also signed the yin-yang contract for so many years, so they could get the finance department to transfer the money to them.

However, a few days after they left, the two of them realized in despair that the finances of the two companies had been frozen. immediately after that, there was a full-scale personnel transfer.

After Feng Ji Mian broke up the two companies, she handed them over to different members of the clan to manage. even if the branch families who had been working dutifully before couldn't get the group company, they had gotten the subsidiary companies under the group company. then, they were independent and replaced by their own people.

The finance department had been driven away, and the blood of the middle and upper echelons had all been replaced. Who would care about the elders of the six clans?

however, this was a story for the future.

after dealing with the six and eight elders, the members who were close to anthony in private and had joined him in his power-seizing activities were not spared.

Feng Ji Mian dealt with a total of 17 people. During this time, she didn't produce a single piece of evidence. However, from how guilty the other party was and how they were willing to give up their money to save their own lives, it was clear that Feng Ji Mian didn't wrong anyone.

of course, there were also two who valued money more than their lives and wanted to argue with feng ji mian to get her evidence.

feng jimian immediately shot them dead, then said, "i only have bullets, i don't have any evidence. If i say you're a traitor, you're a traitor. Even if it isn't, it is!"

&Nbsp; okay.

Everyone had to admit that he was so domineering.

The two people who died didn't have much power in their hands. If they hadn't really betrayed the family, there was no need to kill them since the family head was so rich and powerful.

Therefore, such an outrageous method did not arouse the anger of any of the family members.

when those who should leave had left, and those who should die had died, everyone's eyes turned to the three companies that had been emptied.

The shareholders 'meeting was another distribution of assets.

It had been ten years since the last property division. At that time, it was also because someone had betrayed the family and tried to murder the master. that time, a few people had joined forces and found a mercenary group to do it themselves.

he was trying to kill the clan head and then go on his own.

In the end, it was like this time. The group of people had so many weapons, but before they could even come out, they were slapped by the family head and died before they could even come back to their senses.

Ten years was not a long time, but it was not short either. this kind of thing could be remembered by some smart people for a lifetime, and it was enough to make some self-righteous people forget the bloody lesson.

He believed that the bloody experience today would shock many people in the next ten years. whether it was for the other members of the family or for the entire family, it was a great opportunity for development.

There were 18 subsidiary companies under the four groups of Anthony, Felix, the six elders, and the eight elders. The business of these 18 branches was almost spread all over the world, and the profits were extremely considerable.

Feng Ji Mian cut off these 18 branches from the group and made them independent companies. Ten of the branches were given to 10 young people who performed well in both normal and secret situations.

Among these 10 people, there were disciples from the clan's main branch and also disciples from the branch families.

when feng ji mian, as the chairman of the board, directly distributed the company to these young people, they were all extremely shocked.

Chapter 3015

3015 The prestige of the family head (1)

After all, many of them didn't have the chance to get close to Feng Ji Mian, much less kiss her ass.

So, when they took over the management rights of the branch company, everyone's admiration for Feng Ji Mian grew.

He had always known that the chairman was an understanding person, but he didn't expect her to understand to this extent.

The remaining eight branch offices were given to the remaining two clan elders.

There used to be nine clan elders, but four, five, and nine had died 29 and 10 years ago respectively. The sixth and eighth clan elders had just been driven away. Now, only the Grand Elder, second elder, third elder, and seventh elder were left.

these eight companies were evenly divided between the grand elder and the three elders, each of them having four companies. the second elder and the seventh elder were not given a single company because they had just spoken up for anthony.

Watching the Grand Elder and the third elder split four of the profitable companies, the second and seventh elders almost couldn't hold back and slapped themselves hard in the face.

Especially the second elder. He didn't have a good relationship with Anthony, but he wanted to smooth things over so that both sides could please him. That was why he put in a good word for Anthony. He didn't expect the master to be so cruel.

He would rather the head of the family scold him than see this result!

They had many sons and grandsons, and because of the uneven distribution, their children and grandsons were often in war. if each of them could get two of those profitable companies, then all the disputes they had now could be easily resolved.

What a pity, Yingluo

At this moment, not only did the second and seventh elders not sympathize with Anthony at all, but they also blamed her.

if he wanted to die, then he should just die. he actually dragged down their two families.

As the meeting came to an end, Feng Ji Mian's phone rang.

She took out her phone and looked at the unfamiliar number. Feng Ji Mian waited for another second, and soon, the location and the caller's information appeared on the phone.

Feng Ji Mian smiled and picked up the phone, " "Grand Elder, what's the meaning of calling me at this time?"

The members of the nice family were all stunned.

Because they heard the name “Hunter” from Feng Jimian’s mouth. They didn’t forget that Hunter was the one who killed their master.

Just by looking at the fallen helicopters and the blown-up section of the road, one could tell how intense the battle was today.

What was the other party trying to do by calling them now?

Did they think that an apology would let this matter go?

After Feng Jimian asked the Grand Elder, she didn’t wait for him to answer and continued, “Ah, by this time, the surgery for Mr. Hunter should be done, right? how was he? Are you alright?”

Surgery?

What surgery?

hunter was hospitalized?

When did this happen?

Even the Grand Elder was dumbfounded. This was because he had seen Hunter from afar when he had gone to the Internal Affairs Bureau this morning.

The first elder and the other elders looked at each other and felt their scalps tingle when they thought about how Hunter was hospitalized and had to undergo surgery after their master was attacked.

Especially the second and seventh elders.

Could it be that Wufu’s master returned home after taking revenge for me?

no one knew what the grand elder of the Lai family said to Feng Jimian, but she laughed, “oh, you’re disfigured. It doesn’t matter. Mr. Hunter doesn’t live in this world by his looks anyway.”

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3016

3016 Happy cooperation (2)

“with his looks, it doesn’t matter if he’s disfigured or not.”

Everyone was speechless.

The other party’s Grand Elder:

How vicious!

“eh? Did his nerves burn? He won’t be able to act on his own in the future? i can’t even speak? After all, Mr. Hunter is still practicing spitting ivory at his age. It’s not good for the Ryan family if he offends people with his mouth from time to time.”

Everyone was speechless.

Was their master calling Hunter a dog?

After all, only a dog's mouth could not spit out ivory. When she said hunt was practicing spitting, she was actually calling Mr. Hunt a dog, right?

"Grand Elder, don't you think that your request is too much? mr. hunter spat on me when he was practicing his ivory spitting. although i feel like i should let this matter go, i have no obligation to help you become the head of the ryan family, right? What good does that do me?"

when everyone heard this, they immediately perked up their ears. they were so excited that they wanted to ask the family head to turn on the speaker.

in fact, i think you look more like the head of a family than mr. hunter. "

Looking at the sincere family head who didn't even blink when he lied-there was only one word in his heart-

convinced!

three companies, hehe. Grand Elder, I suddenly feel that you're not suitable to be the head of the family with your current setup.

.....

"oh, a corporation? Aren't you afraid that the Ryan family will rebel against you?"

.....

"Hehe, you think too highly of me, old lady. You're actually quite strong yourself. If there's anything you need the cooperation of our family, I'll definitely cooperate with the Grand Elder."

.....

"Alright, to a pleasant cooperation."

After hanging up, Feng Ji Mian turned to the Grand Elder and ordered, " "The Ryan family wants to give us three companies. go and talk to aldrich over there and see which three listed groups he's giving us. I'll help him if it's necessary. If he's sincere and really encounters trouble, let me know immediately."

"Yes, Master."

The Grand Elder, who had just received four companies, was in a very good mood. At the same time, he was even more determined to follow the master's every step.

although he didn't hear what aldrich said on the phone, he was sure that after hunter and anthony attacked, the family master not only escaped but also severely injured hunter and disabled him.

Now that Aldrich wanted to seize the position of the patriarch, there would definitely be a bloody storm in the Ryan family. Instead of causing all the forces to suffer losses in the end, and even if they obtained the position of the patriarch, they would only be left with a dilapidated family with thousands of holes, it was better to drag the nice family along. With an existence like the head of the family, it would be a piece of cake for Aldrich to seize the position of the head of the family.

The Grand Elder didn't feel that it was a big favor for the Ryan family to give the nice family three listed companies.

it could only be said that aldrich had a good eye. He had more foresight than many of the nesses.

with the several billion yuan of interest from the ryan family and the three companies, the nice family had made a lot of money.

After the shareholders 'meeting, Feng Ji Mian was tired and returned to her room.

Everyone clearly saw that the bodyguard and the Butler had followed them in.

Even the Grand Elder was not allowed to step into this area. For so many years, only Guan Jia Jie had been allowed to enter with the master.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3017

3017 Her temperament has changed 3

It was clear that the ordinary-looking bodyguard was not an ordinary person.

After entering the room, Feng Ji Mian's fierce aura instantly faded. chi zeyao, who had not had much of a presence since he showed off his skills, suddenly bloomed with an imposing aura.

It was not fierce, but elegant.

It was like a calm sea, endlessly refined, but this elegance also carried a darkness. When you walked in, you would be swallowed by that darkness.

It was like Feng jimian, after she entered the room and held Chi zeyao's hand, she quickly fell for him. A moment ago, she was a fierce and powerful woman, but in the next second, she had turned into a little woman.

Jie had already guessed Chi zeyao's identity, and the moment he saw his master holding hands, he was even more certain.

in the 17 years since King's death, countless men had tried to win feng ji mian's heart. after all, if he managed to get her, he would be able to get the world's richest man.

but the results were all terrible.

No matter how outstanding a man was, whether it was for money or love, Feng Ji Mian would not even spare him a glance. If she was angered, she would directly put out the other party.

As a result, her reputation as a female devil was spread far and wide. From a hot beauty and rich widow, she became a female devil that could be seen from afar but not toyed with.

and now, after 17 years, this she-devil had once again turned into the little woman he had seen before.

Although the man's appearance and temperament had changed, this woman still belonged to him wholeheartedly.

“master.”

Jie walked in front of Chi zeyao and bowed deeply.

chi zeyao walked in front of jie and reached out to help him up.

Jie raised his head, and when he looked at Chi zeyao again, his eyes were filled with tears.

Jie’s throat choked a few times before he showed a rare smile. “you’ve finally returned.”

Chi zeyao smiled at Jie, his ordinary face exuding a different kind of magnificence.

“Master, where have you been all these years?”

“the chi family.”

Jie’s eyes widened.

“I’m chi zeyao, not Feng Ming.”

Jie’s eyes lit up again. He thought of something and asked, “So the thing you said you would talk to Madam about after you figured it out was this?”

“He’s my brother,” Chi zeyao nodded.

Jie was shocked again and asked with some difficulty, “Then, 17 years ago, Wanwan”

“he sacrificed himself to save me. However, I’ve been seriously injured and have been living like a cripple all these years.”

“What cripple? Which part of him was a cripple? even a good-for-nothing like you is so powerful. you created the shengyang group and turned it into a first-class wealthy group in kamino. can you still invent so many conceptual things? Can a cripple save me in a situation like today’s?” Feng Ji Mian couldn’t bear to hear the word “cripple.”

In her heart, her husband was the most powerful man in the world. No one was more powerful than her husband.

She couldn’t even compare to her son.

Jie was also shocked, because the Ness group had been going against the Chi family for many years. He and his wife had been the ones behind the operation of the nice group. But for so many years, they had always thought that the failure was due to the interference of the Shengyang group or the counterattack of the Chi family.

He didn’t expect that their opponent would be his master.

this was too melodramatic.

of course, chi zeyao was also very happy that his position in his wife’s heart had never changed. his eyes were full of love and adoration.

Chapter 3018

3018 The atmosphere has changed (4)

“master, since you said that it was your brother who saved you and sacrificed himself, it means that the person who had an argument with you was not Hiroshi Chizawa, and the Chi family was not the enemy of Ke. Could it be that Yingluo is Feng Kun?”

Jie was a top-tier mercenary, after all. He was only a Butler to help his master protect Feng Ji Mian. As a top-tier mercenary, he still had his sense of smell. Just from Chi Zeyao's words, he could basically guess the ins and outs of the matter.

Chi Zeyao nodded and sat down on the crystal chair in the living room.

He had built this room for his wife back then. Because his wife always liked shiny things, whether it was the room or the furnishings, many of them were made of crystal.

Feng Ji Mian immediately made tea for her husband.

On the other hand, Jie wanted to do something, but everything was snatched away by his wife. In the end, she even poured him a cup of tea.

Chi Zeyao nodded to confirm Jie's guess. He looked into his eyes and said, “Jie, thank you for all these years.”

Feng Ji Mian's eyes started to water when she heard this.

17 years had passed, and her husband was still back. She could even thank her good friend for taking care of her. She felt that the sadness she had suffered for 17 years was worth it.

She had finally managed to wait for the man who had not returned. The dream that he had had countless times had finally come true.

“master, you're overestimating me. If it wasn't for you, I would've died a long time ago. I wouldn't even be able to dream of living. If it wasn't for you, I wouldn't be able to stand at the top of the world, everyone would be afraid of me, and I wouldn't have to be bullied by anyone like before.”

“Alright, we're brothers. Just like how you don't want me to thank you, I don't want you to thank me either. Brothers are brothers for life, don't be so long-winded, go do what you have to do.”

Knowing that Jie was a quiet person to others, but a chatterbox to him, Chi Zeyao quickly stopped him from continuing.

His wife had not seen her for a long time.

Furthermore, his body didn't allow him to do so previously due to kidney failure.

Jie was stunned. After he understood what was going on, his eyes twitched.

After all, they hadn't seen each other for 17 years. Couldn't she have a good chat with him? He still had many things to ask him. And if Feng Kun was the worst, what was he going to do next? Master didn't even say anything and he was already chasing him out?

As expected, brothers were like hands and feet, and women were like clothes.

There were many people in the world who were missing an arm or a leg, but how many of them were naked?

Jie felt a sense of disgust and anger as he left. However, he didn't go far. He stood guard outside with his men.

After all, there were many people in the nice family, and if Feng Kun knew that Madam had brought a man back, he would definitely be suspicious.

Master must not have wanted Feng Kun to know that he had disguised himself like this.

'Hmph, when the nice family finds out that their master has returned, let's see if they still dare to have any bad thoughts.'

After Jie passed away, only Chi zeyao and Feng jimian were left in the large house.

The atmosphere slowly changed in an instant.

it wasn't like she had never been alone with chi zeyao before. back in the chi family, she had always been alone with chi zeyao. but back then, she felt that they had not seen each other for 17 years and that there were endless things to say to each other.

3019 The renovation 30 years ago (1)

they could hug each other tightly and talk for an entire night. If it wasn't for her heartache for his health, they would definitely be able to talk for several nights without sleeping.

but at this moment, yingluo

Why was there no sound all of a sudden?

Feng Ji Mian raised her head to look at Chi zeyao. She saw that he was looking at her affectionately.

She was almost five years old, but her face suddenly turned red.

the many topics that he had previously discussed were suddenly stuck in his mind, and he did not know what to say.

chi zeyao stood up. feng jimian was slightly taken aback. " where are you going? "

however, chi zeyao was already in front of her. he bent down and picked her up from the cushion.

feng ji mian was scared out of her wits. her expression changed, and she immediately wrapped her arms around his neck. as she shifted her weight slightly, she tried to step on the ground.

However, she realized that although Chi zeyao seemed to be holding her very easily, he was actually holding her very tightly, making it impossible for her to jump to the ground under normal circumstances.

Feng jimian was so scared that she quickly leaned into Chi zeyao's arms, her arms around his neck tightening so that she wouldn't add to his weight.

“Are you crazy? You just had an operation and you’re already hugging me like this? Quickly put me down!”

However, Chi zeyao completely ignored her. He strode towards their bedroom with great familiarity.

The decoration and design style of this place were nearly 30 years old. When the nice family had chosen this location, he had found a place that was the most inconvenient to attack and built their love nest.

This building was a sunroom. At that time, this design style was not popular at all, and it was more troublesome to build. However, after the huge sunroom was built, it amazed the whole world.

He remembered that this house was on the headlines of major fashion and financial magazines around the world.

Later on, many designers began to imitate the decoration of this house.

now that 30 years had passed, although the decorations here were very old, chi zeyao was very grateful to his wife for being so rich. however, he had never touched a single thing here all these years.

Almost everything that belonged to them was still intact and carefully kept.

This was why he, a man who had not returned home for 17 years, could be so familiar with the house.

the bedroom had not changed at all since he left, and even the curtains had turned white. chi zeyao felt a warm current rush into his chest, causing his eyes to glisten with tears.

Feng jimian called out once and then stopped, because she knew Chi zeyao’s character very well. She could only hold him tightly and let him carry her into the bedroom and put her on the bed.

It wasn’t until he had bent down to put himself down and straightened himself again that Feng Ji Mian angrily jumped up from the bed.

“Chi zeyao, do you want to die? don’t you know what kind of body you are? I’m at least 100 pounds now. Do you think I still have that girly body of mine? You’ll open your wounds!”

After scolding him, Feng Ji Mian jumped off the bed and helped Chi zeyao, whose eyes were filled with a smile and love, to where she had been before. Then, she began to pull his clothes off.

It was summer now, and Chi zeyao was only wearing a black short-sleeved casual shirt, which could not withstand Feng jimian’s pull at all.

in the blink of an eye, chi zeyao realized that his clothes had been removed by his wife.

3020 None of their business (2)

Due to his body being weak all year round, the perfect lines on his body had disappeared. Her bronze skin had recovered its original white color after years of being nourished in the greenhouse.

chi zeyao lowered his head to look at his own body, and frowned in dissatisfaction.

it seemed that yingying had many things to practice. It seemed like lifting a metal was a must.

Whether it was real or fake, there should at least be some lines. otherwise, his wife would despise him in the future.

Feng jimian let out a breath and looked at Chi zeyao in surprise, " "hubby, where are your injuries?"

chi zeyao was stunned. he had thought that his wife was exhaling because of his figure, but it turned out that she was looking at his wound.

His heart was filled with warmth, and his tone was much gentler.

"didn't i tell you? nuannuan is an amazing doctor. she has already cured me."

"But you've changed four internal organs all over your body. The surgery wound should be very big. Why can't I tell?"

To say nothing of anything else, a wound that was at least one centimeter long would be needed to cut out a heart.

"can other doctors compare to nuan nuan's suturing skills?"

That was true.

feng ji mian nodded in acknowledgment.

"Nuannuan uses the special thread and thread from her angel research Institute. Her body can automatically digest the thread. Furthermore, Nuan Nuan's suturing and scar removal techniques are at the forefront of the world's medical science, so you won't be able to see the wound."

When he first saw traceless's body, he was also shocked. He didn't expect that after such a big operation, he didn't see anything.

Feng Ji Mian reached out and gently touched the wound that was barely visible, but upon closer inspection, there were still traces of it. Her face was full of heartache.

chi zeyao sat there without moving, his deep eyes staring deeply at his wife. He let her go left and right.

"Does it hurt?" feng ji mian looked at her wound and asked with heartache.

"It doesn't hurt. It doesn't hurt at all."

But after hearing Chi zeyao's words, Feng Ji Mian's tears fell.

Looking at the almost invisible wound, and thinking of the suffering he had suffered over the years, how could she still blame him when they first met? Her heart was already filled with heartache.

"How can it not hurt?"

After all, he had suffered a near-death injury, had so many surgeries, and had been in a wheelchair for 17 years. He had also experienced internal organ failure and had to replace his internal organs.

This wasn't something an ordinary person could endure.

Seeing her crying so sadly, Chi zeyao reached out to hold her hand and said softly, " "It really doesn't hurt. I'm not lying to you."

Feng Ji Mian smacked his body. "liar! you're a liar!"

After scolding him, he realized that she had just patted his wound. Like a little girl, he burst into tears and asked, " "Does it hurt? did i hurt you?"

Seeing his wife like this, Chi zeyao's eyes were full of smiles. He couldn't help but rub her head affectionately and teased, " "i already said it's fine. why would it hurt if she had already recovered? she was already so old, but she was still crying like a cat, just like when she was young. Aren't you afraid that your clansmen will see this and laugh at you, the powerful clan head?"

it's a joke then. My heart aches for my husband. It's none of their business!

"alright, alright, alright, it's none of their business! It's none of my business! don't cry, my heart is aching."
