

Physician Wife 3031

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3031

3031 Strong-willed despite being physically disabled 1

He was really not interested in the messy things in this world. There was no spirit Qi to speak of here. What was more terrifying than no spirit Qi was that the humans here were simply idiots. Not only could they not feel the spirit Qi, but they also kept trying to destroy the spirit Qi here.

He had caused so many animals to disappear, the weather to be bad, and the river bed to dry up.

Then, people like Chi zeyao would come forward and create some so-called energy on the grounds of protecting the environment.

In his opinion, very few of these so-called energy sources could be put into use in the end, and their effects were very small. Everyone, don't drive and don't live in high-rise buildings. Everyone will return to nature, and the spiritual energy will naturally return.

But he knew that the humans in this world couldn't do it.

He looked down on companies that used solar energy to do Environmental Protection. He felt that they had too much money to spend and were trying to cover their ears.

"The big corporations nowadays seem to be more interested in Environmental Protection."

" humans need to continue developing, " chi zeyao said with a smile. " we can't let our next generation be destroyed in our hands. "

Feng Kun was smiling on the surface, but he was scoffing in his heart.

They felt that Chi zeyao had been pampered by Chi Yuancheng into a flower in a greenhouse. he was already so old, yet he still had such a childish way of thinking.

but at the same time, she couldn't help but praise feng ji mian's good taste in women for getting her hands on such a sweet and innocent man.

After that, Feng Luan also asked about Feng jimian's attack yesterday.

After all, Feng Ji Mian was a very important chess piece. He was very angry that she had died at Hunter's hands yesterday.

After hearing that Feng jimian had been saved by Chi zeyao's men, he had directly ignored Chi zeyao's ability. His intuition told him that Feng jimian had long been prepared for this, and that she wanted to resolve the internal strife in the Ness family before they left the kaisibo country.

After breakfast, Feng Kun got up and prepared to leave.

Feng jimian and Chi zeyao also stood up to send them off.

However, just as he stood up, a bullet grazed the air and flew past Chi zeyao's head.

Feng Ji Mian's face paled. "Be careful!" He shouted.

She had wanted to pounce on Chi zeyao, but when Chi zeyao stood up, he was quite a distance away from Feng Ji Mian. When the bullet grazed past his head, Chi zeyao did not seem to notice it at all.

Even when the bullet had hit a tree in the distance, Chi zeyao was still in a daze. He looked at Feng Jimian and asked, "what's wrong?"

Feng Jimian wanted to kill Feng Luan.

When the man opposite them fired at Chi zeyao, the bodyguards of the nice family who were patrolling around the area had already worked together and quickly captured the man.

However, that person was clearly a death warrior hidden in the nice family, who had committed suicide by biting his tongue before being caught.

By the time Feng Ji Mian and the others arrived, the man was already dead.

"this person is probably here to kill me," Feng Luan said with a dark face.

After Feng Jimian's sharp gaze, he didn't continue.

After all, although the Pixiu Chi zeyao did not have the slightest bit of power to speak of, he was able to build Shengyang group to such a great extent despite being physically disabled. He was definitely not a fool.

although he didn't find any bullets from the beginning to the end, he should have understood that someone wanted to kill him judging from his terrible expression.

To be able to face an assassination with only a slightly darker expression, Feng Su felt that this Chi zeyao was quite a talent.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3032

3032 I'm very lucky 2

Feng Ji Mian looked at Chi zeyao apologetically and said, "zeyao, I'm sorry. I didn't protect you well enough. I'll organize the family. This won't happen again.

Chi zeyao, on the other hand, put his arm around Feng Jimian's shoulder in front of Feng Su and let her lean against his chest. He said in a challenging tone, "it's fine. I'm very lucky."

In Feng Luan's eyes, Chi zeyao was openly declaring war on him.

but to Chi zeyao, he was merely coaxing his wife.

He had a feeling that his wife's face, which had completely darkened, was not directed at Feng Tan, but at him.

It was because he could have dodged the bullet, but he stood up at that moment and let the bullet brush past the top of his head, burning a few millimeters of hair.

A man's hair was short to begin with, and when a few millimeters of hair was burned, it basically stuck to the scalp.

Such a dangerous move, even the old King Feng Ming would not have allowed his life to be in the hands of others.

Moreover, there was a mountain wind here, and the wind direction and speed were constantly changing. If there was a slight change in the wind speed or the direction of the wind, the flower would bloom on Chi Zeyu's head.

Therefore, even though they had lost one of their men of sacrifice, they had managed to detect Chi zeyao's condition. Feng Su was absolutely assured of Chi zeyao's identity.

All these years, he had been paying close attention to Chi Yang, so he also knew that Chi zeyao had been performing surgeries non-stop. Perhaps it was because he had met Nangong Nuannuan that his body had truly recovered.

However, no matter what, the many operations and critical conditions he had experienced before were not fake.

If Chi zeyao was really Feng Ming, he would have felt the sudden bullet and his body would have reacted instinctively. However, Chi zeyao did not react at all, which was the reason why Feng SU's doubts were completely dispelled.

Since Chi zeyao wasn't Feng Ming, all that was left was to give Feng Jimian his blessings.

Feng Ji Mian would never fall in love with any man other than Feng Ming. Then there was only one reason why she had such a good relationship with Chi zeyao ...

She wanted to personally participate in it.

Feng Luan wasn't worried at all that Feng Jimian would be the one to kill Chi Yang.

With Chi Yang's abilities, only Feng Shengxuan could kill him.

Hence, Feng Kun left happily. He no longer bothered Feng Ji Mian and Chi zeyao's interaction.

Feng Jimian was a person of her word in the nice family, and no one had the right to question who she was on good terms with.

Therefore, the only thing left was the internal conflict among the people.

Chi zeyao followed his wife back to their own home, while Jie followed behind his master.

Looking at his master's dejected appearance, Jie seemed to feel that his master's tail, which was usually wagging arrogantly, was now tightly clasped.

Without instructions, Jie could not enter this little nest.

So after entering the house, Jie gave his master a look that said 'good luck to you' and closed the door.

How should he put it?

he felt that his master deserved it.

That thrilling scene just now was simply too chaotic.

even he was angry, let alone madam.

No matter how powerful the enemy was, he shouldn't have made such a dangerous move!

This was simply gambling with his life.

Even Jie was feeling this way, let alone Feng Jimian.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3033

3033 Call the doctor (3)

They were still acting lovey-dovey in front of everyone, but after they entered, the moment Jie closed the door, Feng Ji Mian picked up a flower pot from the table and threw it at Chi zeyao.

The flower pot was made of precious porcelain, so it was slow to throw it over. Feng Ji Mian knew that he would be able to Dodge it.

Who knew that

With a muffled 'bang', it hit Chi zeyao right in the middle of his head. He staggered from the impact and his head broke.

Feng Ji Mian was dumbfounded.

When he finally came to his senses, he let out a cry of surprise and immediately rushed to Chi zeyao's side. Seeing the blood flowing down his forehead, he was so frightened that his tears began to flow.

"Jie!" He quickly shouted.

when jie heard the exclamation, he immediately used his fingerprint to open the lock. when he entered, he saw his master with blood all over his face and his wife who was pressing on his wound.

"Call the doctor!" feng ji mian's voice changed when she spoke.

He was frightened.

After all, in her eyes, Chi zeyao was no longer the powerful man he had been in the past. Although she had always said that he was good, how could a man in his 50s compete with her in physical fitness when she was in her 20s and 30s? Not to mention that he had just finished his operation!

"No need to shout. I'm fine." Chi zeyao stopped Jie.

"Chi zeyao!" Feng Ji Mian was about to explode from anger as she roared.

"Alright, go ahead." Chizawa Masaka said, not in a position to argue.

Jie: " yes!

after his master returned, he felt that the whole scene was not right.

for a mercenary, a wound on the forehead was indeed not something to be surprised about. Feng Ji Mian knew that this was nothing, but she couldn't help but feel heartache.

"Does it hurt?"

Chi zeyao's warm smile bloomed, dazzling Feng jimian's eyes. "it doesn't hurt."

"are you an idiot? Why didn't you Dodge?"

Chi zeyao smiled, his face full of love. my life and body are yours. Why should I dodge when you hit me with something? "

feng ji mian was about to die from anger at this shameless man. her heart ached, and she was angry.

"Chi zeyao, do you not love me anymore? you've been angry with me ever since we reunited. Are you trying to anger me to death so that you can find a new Vixen?"

second uncle chi was usually an extremely elegant man, but he was also shocked by his wife's crying. he explained in a hurry, " "No wife, I don't! you're the woman i love the most, the mother of my son, and you're the only one i've loved in my life. i can't even wait to dote on you, so why would i be angry at you? Wife, let me show you something."

With that, Chi zeyao took off his glasses.

"i don't want to see it!" feng ji mian was about to die from anger.

she had yet to vent her anger, and now she was holding it in again.

other than crying, she couldn't find any other outlet to vent her anger.

However, in order to seek justice for himself, Chi zeyao did not care about anything else and helped his wife put on her glasses.

feng jimian had wanted to slap chi zeyao's hand away, but when she saw his face, which made her want to love and hate him at the same time, a sad report suddenly appeared in the four-dimensional space in front of her.

The speed of the blood flow would heal in a few seconds. The amount of blood lost was the amount of damage to the body. Moreover, Chi zeyao's current combat power was actually 0?

"Do you see the numbers displayed on it? There would be an analysis report of the target on it. It can predict a person's actions and emotions in advance."

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3034

3034 What the hell is this combat power 4

With that, to Feng jimian's shock, Chi zeyao took off the bracelet and the ring, and put them on Feng jimian.

When Chi zeyao took off the bracelet and ring, Feng jimian noticed that his combat power had increased from 0 to 1380.

Although she didn't know what 1380 meant, Yingluo seemed to have a good combat ability.

Just then, Jie came with the family doctor.

Feng Ji Mian realized that even though there was a wall between them, she could still see the two people running towards her.

Through the heat and the wall, his eyes reflected the people opposite him.

not only that, feng ji mian could even see what the hidden sentries were doing.

When her eyes were fixed on one of the red figures, the space in front of her immediately magnified this person's situation.

She was also looking at what gun the person was holding, the number of bullets in the gun, the range, and the direction of the muzzle. Everything was displayed in half a second.

At the same time, the opponent's character's combat power was 623?

Her men in the nice family were all 3s-level mercenaries.

Her person's combat strength was only 623? Or a 3s-level mercenary who was close to the top?

What was going on?

Then her husband was 1380 Yuan, wasn't that twice as much as the other person?

what did it mean to have twice the strength? even 10 of these mercenaries wouldn't be able to defeat him!

She had always felt that her husband's body was not going to make it. After the operation, she would be satisfied if he could stay by her side and live for decades without illness or disaster. However, she did not expect her husband's martial strength to be so much higher than the top mercenaries!

At this moment, Jie and the family doctor had rushed in. The family doctor had already started to clean up Chi zeyao's wound.

As he cleaned up, he also helped to comfort her, "It's not serious, not serious. Although this wound bled a little more, it only scratched the surface and didn't hurt any vital parts. he would be fine after the bleeding stopped. I'm going to treat Sir's wound now and apply a band-aid. When you wash your face tonight, make sure the wound doesn't come into contact with water. It'll scab by tomorrow."

Feng Ji Mian looked at Jie and the family doctor in a daze.

She realized that Jie's combat power was only 928.

She knew how powerful Jie was. not to mention the nice family, even in the entire KE, jie's ability was the same as stephen's. No one could stand out.

however, the powerful jie, who was even stronger than her, was so much weaker than her husband?

Looking at the pitiful and sickly Chi zeyao, Feng jimian felt a little disheartened.

The feeling of mistaking King Kong for a sick girl.

Now that the family doctor was here, Feng Ji Mian couldn't ask any questions. She could only blink and look at Chi zeyao, who was being treated carefully by the family doctor like a fragile rabbit, afraid that he would break like porcelain.

Why did she feel that this man was so evil?

Why couldn't he just tell her that he had already recovered all his strength and that he was back to what he was before?

If he had told her, she wouldn't have been so worried about him.

Feng Ji Mian sat quietly to the side, watching the doctor bandage him while occasionally glancing at Jie.

She realized that even with a casual glance, information about Jay would appear in the four-dimensional space in front of her.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3035

3035 Fight (1)

this was a comparison of her combat power with jay's, and she used the green dots to point out all of jay's weak points, as well as the red dots that indicated that she could not go head to head with him.

The darker the green dot, the better the effect of the attack. The darker the red dot, the less you should go for a direct hit.

There were so many weak points in his body.

Feng Ji Mian felt that if she were to fight Jie, she would definitely win with this pair of glasses.

Then, she looked at Chi zeyao, comparing their strengths.

However, the glasses showed "

An escape route!

Hehe!

After the family doctor left, Jie was a little worried about leaving the madam alone with him for the sake of his poor master. After all, his master's health was not good, and he was worried.

Feng Ji Mian looked at the worried Jie in disgust, then at the harmless Chi zeyao. She felt that her husband was shameless.

in the past, he was just very powerful. Now, not only was he powerful, but he also had a weapon that no one had ever seen before. He was also shameless!

thinking back to how feng luan had been fooled by him and even wanted to help him count the money, feng jimian felt that feng luan would definitely die with grievances.

And most likely, he would die from anger.

After chasing Jie out, Chi zeyao looked at Feng Ji Mian and said, "Wife, how is it? isn't this thing powerful?"

As soon as he finished asking, Feng Ji Mian had already jumped up in anger and laid Chi zeyao on the ground.

He threw a punch at him.

Feng jimian didn't hold back at all in this punch.

As a top 3s-Class mercenary, Feng jimian directly hit Chi zeyao's Adam's apple with the help of the glasses.

Chi zeyao was shocked to see his wife trying to kill him. He raised his hand to block Feng jimian's fist, wrapping it in his large hand.

"Honey, are you trying to murder your husband?"

"I'll hit you, you liar!"

with that, feng jimian no longer had any tender feelings for the fairer sex, and began to punch and kick chi zeyao.

Chi zeyao was also interested.

After all, this was the first time his new body had exercised after his complete recovery and the input of Chi Yang's spiritual power.

Feng jimian's attacks were already extraordinary, and with the help of her glasses, every single one of her attacks was aimed at Chi zexao's weak spot.

However, Chi zeyao realized that even without the bangle and ring, he could still easily deal with his wife's attacks.

"honey, use all your strength. you're too weak."

Feng Ji Mian's speed increased, because she realized that these glasses were simply too useful. Glasses was able to predict the next three steps almost as soon as Chi zeyao took a step, and it was an accurate analysis.

This made her attack from almost all three places at the same time. She felt that if Chi zeyao defended one side, he wouldn't be able to defend the other side.

The result:

She actually missed every punch.

The key was that Chi zeyao's speed and the weight of each punch were not something she could compare to.

Towards the end of the battle, Feng jimian saw that the front had already instructed her to escape, and her chance of winning was 0%.

Feng Ji Mian, who was about to stop fighting, suddenly saw a weapon on the side.

Just as she thought of this, Chi zeyao, who was beside her, cursed under his breath.

“Don’t attack!”

as chi zeyao spoke, he had already jumped down the hill with feng jimian in his arms.

the moment they jumped down, the love nest they built with their hands and feet suddenly exploded with a loud bang.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3036

3036 Chaos (2)

Chi zeyao, on the other hand, jumped down the hill with Feng jimian in his arms.

Fortunately, the cliff wasn’t very high. When it was built, they had thought of avoiding the explosion. Therefore, after jumping down, the explosion had activated the emergency device, and an air cushion had popped out from below.

Chi zeyao used the air cushion to send himself and Feng jimian to another safe place.

feng ji mian stepped barefoot on the gravel road, looking at her blown up nest, she felt terrible.

Chi zeyao, on the other hand, knew that he had committed a grave sin, so he silently helped his wife remove the bracelet on her wrist and the ring on her finger.

At this moment, all the bodyguards of the nice family had been mobilized and soon arrived at the area where the patriarch lived.

Feng jimian also recovered from her shock. She looked at the item on her wrist that Chi zeyao had already taken away and gulped.

the moment the house exploded, she only felt a sense of danger approaching. she didn’t even hear the sound of the artillery fire.

The key was that she had a satellite defense system here. Once she was aimed at by artillery or something attacked her house, the satellite-connected alarm device would sound an alarm.

However, even now, when the house was destroyed, the satellite alarm had not sounded.

“What the hell was that explosion just now?”

Chi zeyao didn’t know whether to laugh or cry. He explained in a low voice, “That’s not a ghost. This is the energy technology I’ve been developing over the years. It’s the same principle as the mechanical suit. I’ll talk about the details later.”

The main thing was that there were more and more people around.

The family head had just been attacked, and the nice family had just been baptized. It had only been a day, and they were attacked again.

Looking at the family head's bare feet, his face in a sorry state and shock, and the head of the person next to her was injured, the mood of the family members was not good.

After all, the remaining people had once again witnessed the patriarch's cruelty. Since the other party had caused the Ness family to be so disharmonious, the other party should not be harmonious either.

"master, do you know who did this?"

Feng Ji Mian coughed dryly to show her embarrassment.

She knew, but she couldn't say it.

"I don't know,"

the grand elder had gained many benefits, and now was the time for him to show his loyalty.

the grand elder's face was filled with righteous indignation as he said, "I contacted the Ryan family yesterday. Now that Aldrich wants to fight for the position of the head of the family, Hunter's women will definitely join forces with other people in the family to stop him. If it wasn't done by the elders of the Ryan family, then it must be Hunter and those women."

Feng Ji Mian:

"don't worry, master. i'll work with the first elder to get this done and give you an explanation." The three elders also stood out to show their loyalty.

Feng Ji Mian:

he had wanted to say that hunter's woman had nothing to do with this, but after some thought, he decided that hunter's family would have to die eventually if he wanted to kill her.

That was why Feng Ji Mian didn't say anything.

This matter was quickly passed on to Feng Kun by the hidden sentries.

Knowing that both Feng jimian and Chi zeyao had been attacked, and that Chi zeyao's head had been injured, Feng Luan was in a good mood and laughed heartily. "It's fine. Don't worry about them. The more she experiences these things, the better her relationship with Chi zeyao will be."

Feng Su instinctively felt that this wasn't the doing of Hunter's family, but Feng jimian's doing.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3037

3037 Perfect (3)

She would attack herself on purpose, and then save the hero with the beauty. In the end, the hero would fall in love with her, and she would kill the hero's family in the cruelest way.

It was perfect.

The home she had treasured for more than 20 years had been blown up, and Feng Ji Mian couldn't hide the resentment on her face.

Although the nice family had houses and residences, they were not the houses that Chi zeyao had personally designed for Feng jimian.

“Ji Mian, I’m sorry. I didn’t do it on purpose.”

After the servants had taken care of everything, Chi zeyao brought Feng jimian out of the bathroom to wash up. Only then did he dare to apologize to her.

at first, feng jimian was very angry, but chi zeyao, this big-tailed wolf, had been whining in the bathroom.

So after they came out, Feng Ji Mian’s hair had been completely smoothened.

Feng Ji Mian snorted, “ “Anyway, you were the one who designed that house for me. Now that it’s gone, you’ll be responsible for designing a new one for me. and it has to be completely different from the current trends.”

Chi zeyao’s eyes were filled with joy as he hurriedly said, “ “Of course,”

After she had calmed down, Feng jimian looked at the bracelet and ring on Chi zeyao’s wrist and asked, “ “How does this thing do it?”

Chi zeyao pointed at the ring and said, “there’s a solar energy-gathering chip inside this bracelet. With this, you can quickly extract solar energy at any time and place.”

the thing in the middle that looked like a black diamond was actually a special chemical dye with an extremely high density. when solar energy was combined with it, only a little chemical reaction was needed to electrolysis the water in the process of gathering solar energy.

Our air contains a large amount of invisible water vapor. Once it is electrolysis, it can produce hydrogen. Hydrogen would explode when it reached a certain density. However, I usually don’t let the hydrogen reach the point of self-explosion. I will gather solar energy and let the solar energy ignite the hydrogen to make it explode. this way, we can hit wherever we want.”

looking at feng jimian’s dumbfounded expression, chi zeyao realized that his wife was a terrible student in mathematics, physics, and chemistry. he quickly explained, “ the glasses are actually a supercomputer made of a special material. You’ve experienced it before because of its super-fast reaction speed and spatial scanning. In addition, it has a powerful built-in computing ability that can help you quickly formulate battle strategies and scan the opponent’s weakness. At the same time, it was also the hub that controlled the bracelet.

When you can’t win and the enemy is too strong, even if you don’t use the solar energy of the bracelet through the glasses, it will automatically appear on your interface. After that, it would be like a game interface, with four different forms of attack. Because the bangle I’ve developed so far can only carry these four types of attacks, they will appear on the interface at the same time.

This 4d computer will reflect the attack method you want to choose through the strength of your pupils. Fortunately, you focused on the second attack method. If you had seen the third or fourth attack method, the two of us would have been blown to death.”

feng ji mian felt her head spin.

Forgive her for being a bad student in mathematics, physics, and chemistry. She couldn't understand it, so she couldn't understand what her husband was saying.

looking at his wife's dumbfounded expression, chi zeyao raised his brows and said, " "You don't understand?"

feng ji mian shook her head.

Chizeyao:

He felt that he had simplified something that was extremely complicated into one simple thing.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3038

3038 chi zeyao's cooking (4)

In the end, he summarized his 17 years of research in one sentence. it's okay if you don't understand. You just need to know that this is an attack system that controls solar energy through a four-dimensional computer. You're a hacker. As long as you know how to operate a computer, you can do this. It's simple."

After all, she was his wife, and he knew what she was good at.

"How many times can you attack with this?" Feng Jiming pointed at the Black Diamond-like chemical reaction stone.

a small explosion only needs one, and a level four attack, which is the biggest attack, only needs four.

"But your bracelet only has 40 chemical reaction stones at most. This kind of large-scale explosion could only be used 10 times. although it can catch people off guard in battle, wouldn't it be a waste to use it so few times?"

this bracelet is a solar energy gathering ring, " Chi zexiao said. as long as the chip inside is not broken, it can be used repeatedly. The black chemical reaction stone is a waste, but I still have some here, don't I?"

After saying that, Chi zeyao placed a ring on top of the chemical reaction stone. The hole that had turned white was immediately filled up by the black reaction stone.

Looking at his wife's wide-open eyes, Chi zeyao said with a sense of accomplishment, " "The ring is also made of a special material. Because of the huge energy and strong radiation from the reactive stone, the ring is used to protect against radiation. Each ring had 60 of them, which was enough. And in general, I use solar energy to attack, so I don't need to use the electrolysis function of the reactive stone."

Feng Ji Mian looked at her husband, who was wearing two rings on his left ring finger and index finger, one on his right thumb and one on his little finger, and two bracelets on his hand. She had wanted to ridicule him when she saw him. Why was he getting more and more showy as he got older? he actually fell in love with the style of those young, hot men. he didn't expect these things to be such powerful weapons.

Feng Jimian loved these new weapons the most. When Chi Zeyao was still King, Feng Jimian loved to use all kinds of strange and unexpected weapons that her husband had developed. Now that 17 years had passed, her husband's skills had not only not disappeared, but had become more and more perverted.

Just as she was about to say that she also wanted one to play with, she saw Chi Zeyao take off the one that had appeared on his wrist, and put it on her.

"I brought this for you." After saying that, she took out a box from her bag, which she had always kept in her hand. It was a glasses box.

The glasses were the most popular style at the moment, and they were very suitable for Feng Jimian's face. Wearing it on her face, it concealed a part of the coldness she exuded, adding a touch of intellectual beauty to her. Chi Zeyao's eyes gradually darkened.

Feng Jimian, on the other hand, was completely immersed in the thought supercomputer.

Under Chi Zeyao's explanation, which was almost as hot as a breath on her neck, Feng Jimian quickly grasped the essentials of her attack.

The solar Attack is an Aurora-type attack. It doesn't need to electrolysis to produce a large amount of hydrogen. You can just stare at this position with your eyes and attack wherever you point.

"I can do this in the house?" Feng Jimian asked.

"As long as the windows aren't closed all year round, there will always be solar energy."

Chapter 3039 Energy usage (1)

"What about tonight?" Feng Jimian thought of a very serious problem. "Can't you use it at night?"

"It doesn't exist. The sun has been shining for such a long time during the day, leaving so much energy in the air. It's impossible to use it all up."

"That's good."

After that, Feng Jimian began to fondle her new toy.

Chi Zeyao accompanied her and patiently explained to her.

Suddenly, Feng Jimian turned to Chi Zeyao and asked, "Where did you get the armor you were wearing yesterday? Why haven't I seen you wearing it these past two days?"

"I wore that armor for no reason," Chi Zeyao chuckled. "The nice family would think that you've found a lunatic."

"Then where's your armor? Is the armor also controlled by this pair of glasses?"

Chi Zeyao nodded.

"The armor is also made of a new chemical material, and it also operates by solar energy. The armor's defense is strong, but it's not easy to carry around, so I usually just carry it around. As long as it's within a 30 km radius, I can put it on at the first moment."

"How long does the first time mean?"

"Five seconds,"

"So this is also supersonic?"

"Yes,"

"Hubby."

"What?"

"you're awesome!"

in the blink of an eye, it had been a month since nangong nuannuan had entered the medical department university.

in the past month, as long as she was in school, she had been in the laboratory.

the professors and teachers of the clinical department also knew that there were two young ladies from top wealthy families in this batch of students who had great luck. therefore, they basically did not come to class, and the professors and teachers had never said anything.

After two more roll calls, no professor or teacher called their names in class again.

however, there was a saying in the research institute.

That was, Shi Yalin was a Dark Horse that was even more powerful than Nangong Nuannuan.

Although Nangong Nuannuan was the chairman of disheng and owned the angel research Institute, she was still a rich businessman. As long as one had enough money, one could win over enough people in this world.

Therefore, Nangong Nuannuan, who owned the angel research Institute, was not that impressive in the eyes of her classmates.

however, shi yalin was different.

It was not only because Shi Yalin had placed second in the college entrance examination, but also because she had become a member of the genetic research Institute.

Shi Yalin's professor was Zhou Xianglin, a famous neuroresearcher. He was a level 5 professor and had a lot of prestige in the Research Institute.

At the same time, Zhou Xianglin also brought Shi Yalin to participate in a research project that the Neurology and genetics centers were currently researching.

it was said that once this project was successfully developed, not only would the two directors of the institute of neurology and the institute of genetics, as well as zhou xianglin, be promoted to a sixth-grade professor, but shi yalin's future would also be limitless.

in addition, shi yalin was the niece of the president of the medical association, which was the largest medical research institute in the country.

In addition, the hospital director had previously passed on Nangong Nuannuan's medical skills to her.

[My Sweet Physician Wife Calls The Shots](#)

Chapter 3040

3040 Slacking off for a diploma (2)

However, in the end, it was said that the directors of the three major research institutes didn't want Nangong Nuannuan, and she had chosen the worst beauty research Institute.

Therefore, compared to capitalists like Nangong Nuannuan, who were rich in water, everyone thought that Shi Yalin was more impressive.

After all, they were all students, and there were only a few who really only cared about money. Furthermore, in everyone's opinion, Shi Yalin's status was not inferior to Nangong Nuannuan's. Hence, the school acknowledged that Shi Yalin was more powerful than Nangong Nuannuan.

in addition, during the previous exercise, nangong nuannuan had used her medical knowledge to trick so many people. at first, everyone had admired her, but under the leadership of this trend, nangong nuannuan had suddenly become an unscrupulous, incompetent student who wanted to make it to the medical department university by relying on money and status.

"Hey, did you guys hear? The Research Institute was submitting research projects. It was said that the world Medical research review Conference, which was held once every five years, would be held in two months. It will be a global medical grand ceremony."

"Then our school will definitely have a topic to submit?"

"Of course. "I heard that Kamino has submitted a total of 10 research topics, two of which are from our school."

"only two? The rest must be the research project of the medical Association?"

"I heard that only three people from the medical Association passed."

"What about the remaining five?"

"I heard that the remaining five were given to the angel research Institute. It's the Research Institute under Nangong Nuannuan."

"Ah?"

The group of students had looks of disbelief and contempt on their faces.

"The angel research Institute is better than our Medical Association?"

"what do you know? this time, the angel research institute has a level 6 professor as a judge. why do you think they have so many spots?"

"Harm!"

do you know which two research projects our research Institute passed? ” One of the students asked, somewhat speechless.

“Which two?”

“One of them is the project that Shi Yalin is involved in. It’s a collaborative research project on nerves and genes. the other one is the new beauty project that nangong nuannuan and her team developed on their own.”

“Pfft, pfft, pfft.”

Everyone was speechless.

“Beauty Project? are you sure that the world medical research conference will pass the beauty project? i’m so f * cking ignorant, right?”

“isn’t it because you guys are ignorant and ill-informed? Now you know how powerful Nangong Nuannuan is, right? research was important in this world, but what drove the world to rapid development was capital. unlike shi yalin, who was focused on her research, nangong nuannuan’s family had solid capital. without the investment of capital, where would the research money come from?”

“Yeah! Do you think the Research Institute of the world Medical organization only focuses on medicine like you? They also had to pay attention to sustainable development. As long as he took good care of the financial backer’s emotions, he would be able to have better research results, okay? As for the financial backer, he would give them a third-level professor certificate or an Honorary Professor evaluation certificate. Isn’t that normal?”

“That’s true. I heard that the sponsor came in to get a diploma.”

A group of nursing girls were chattering in front of them, and behind them, Gu Xiaoli’s face was so dark that ink could almost drip from it.

At the side, li xiangwang couldn’t help but rush up and sneer, ” “What’s wrong with the sugar daddy? Did the sugar daddy offend you?”
